SHENANDOAH, IOWA

GENERAL INFORMATION

The Shenandoah Nurseries were established in 1870 and are still under the same management. Our plant consists of over six hundred acres, and all up-to-date equipment necessary for the proper and rapid handling of Nursery Stock.

Location—Are located in Southwestern Iowa fifty miles south-east of Omaha, Nebr., and seventy miles north-west of St. Joseph, Mo.,

Packing Season—With the exception of Evergreens, Black Raspberries, and some heavy shade trees, we are in position to ship assorted orders all through the winter and can, as a rule, get refrigerator service although we do not guarantee this. Can generally begin digging about March 10th, although some seasons not until later.

Railroad Facilities—We have the C. B. & Q., Wabash, and Keokuk & Western Railroads and have low freight rates with direct lines to Chicago, Denver, Kansas City, Minneapolis, Omaha, St. Louis, St. Joseph and other Central points.

Express Companies—The Adams and Wells-Fargo give good service.

CONDITIONS OF SALE

Shipping—If no directions are given, we will forward to the best of our judgment but in no case will we assume responsibility after consignment to purchaser.

Payment—Cash or security before shipment of goods, except with established firms, when if unknown to us, reference will be required before goods are forwarded. Orders to be sent C. O. D. should be accompanied by one-fourth cash.

Prices—Are limited to Spring 1913 and supersede all previous lists and are subject to change without notice.

Caution—We accept all orders upon condition that they shall be void should injury befall stock from frost, fire, hail storms or other causes over which we have no control.

Grades—We grade carefully; in some cases by caliper; in other by height. When graded by both caliper and height, the caliper must govern.

Claims—For deduction, will receive consideration only when made within six days after receipt of goods.

Packing—Prices contained herein are net; cost of boxing and baling will be added.

Certificate of Inspection—Will be furnished with each shipment.

Our Guarantee of Genuineness—While we exercise proper diligence to have our trees, etc., true to label and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge or refund the amount paid, it is mutually understood and agreed between the purchaser and ourselves that guarantee of genuineness shall in no case make us liable for any sum greater than originally received for said trees, etc., that prove untrue.

ROOT GRAFTS

We are now in the midst of our winter grafting, and were never in better position to handle orders promptly and in a careful pains-taking manner. We use good strong seedlings, grown from French crab seed, and a great many scions cut from young orchard trees.

Our grafts are wrapped with waxed thread specially prepared for this purpose, and are tied one hundred in a bunch, properly labeled and packed in a frost proof cellar to callos. Each order is grafted by itself and packed separately until shipped. They are re-packed and inspected several times during the winter so they are in the best of condition at shipping time.

It is very important that orders be placed early. We can then give them closer attention and supply a larger list of varieties than later in the season. Our grafting season begins about the first of January, and continues throughout the winter.

Grafts should be planted out early in the spring in well prepared ground. In our own plantings we set them about eight inches apart in the row, making the rows three feet, six inches wide. It is very essential that the earth be well pressed around them.

As our grafts are put up in bunches of one hundred, do not order a less amount of any one variety. We will be glad to mail samples upon request.

If ordered alone, varieties marked with a (*) in list of varieties, the price will be one dollar per thousand higher than quoted in this list.

Apple and Crab Piece Root Grafts

5000 and up	\$3 50 per 1000
1000 to 5000	4 00 per 1000

The above Prices are for a general assortment of leading varieties.

Piece root grafts are made by using about six inches of scion and three and one half inches of root. They are tongued together and securely wrapped at the union making the entire graft about eight and one-half inches long. This style of graft we use mostly in our own plantings.

Apple and Crab Whole Root Grafts on Branched Seedlings

5000 and up	\$7 00 per 1000
1000 to 5000	8 00 per 1000

This style of graft is made by using about six inches of scion and a well branched seedling. The entire seedling is used, making the union at the collar and wrapping with waxed thread which holds it firmly until calloused. Many prefer to plant this kind of graft claiming that they get a larger growth owing to the well formed root system.

Apple and Crab Whole Root Grafts on Straight Seedlings

5000 and up	\$ 7 00 per 1000
1000 to 5000	8 00 per 1000

This class of grafts is made in the same manner as those on branched roots, using the same length scion but a straight seedling instead of a branched.

Pear Grafts, Piece Root	\$10 00 per 1000

FRUIT TREE STOCKS**AMERICAN GROWN**

Apple Seedlings—We have a surplus of the following grades of Apple Seedlings, well graded, in good condition, and ready for prompt shipment. Will make special grades to suit customers where possible.

	per 1000
Apple Seedlings, extra heavy, 1-4 inch and up straight.....	\$ 5 00

FRUIT TREE STOCKS**FRENCH GROWN**

It was a favorable season in France last year for the growth of Fruit Tree Seedlings. We were personally over our blocks late in the Summer, and found that our seedlings were in a vigorous and healthy condition.

We have our own representative there, who has the seedlings grown on contract by small farmers. He looks after the grading and packing of all stocks, and they are then shipped in carload lots to us at Shenandoah. Here we open up all boxes and carefully inspect the condition and grading before sending them out to our customers. I believe those that have used our French Seedlings will say that our grades are usually better than the average. It is well to place orders for your wants at once, as some items are scarce.
