SPECIAL ADVANCE OFFER
OF COLLECTED COLORADO PLANTS AND ROOTS FOR AUTUMN DELIVERY

62.11
Order Early. Orders should be sent in as promptly and as fully as possible, anticipating your requirements for the entire season, because collecting at high altitudes in the Rocky Mountains can be done ONLY in early autumn. No mountain plants can be collected after snows begin to fall nor in the spring. Only a small surplus is collected over quantities actually ordered, therefore, ORDER EARLY, before September 1st if possible.

Deliveries are made during the fall and early winter under the following guaranty:

I guarantee safe delivery by Express or Parcel Post to any part of the United States or Europe. I will replace losses which occur during transportation at this season if reported promptly. When shipment is required in the spring the purchaser must assume all risk of loss.

Prices include free delivery to your Postoffice or Express office except where otherwise stated. Prices are quoted in United States currency and are payable in funds at par in the United States.

For the convenience of my customers I allow 90 days credit from date of invoice, prices net, no discount. Unknown customers please send references.

Perfect Packing. Last fall I sent plants as far as China with perfect success. During the two previous seasons that I have guaranteed safe delivery I have not been notified of a single loss, but on the contrary I have had many very flattering reports of the satisfactory condition of stock upon arrival.

Address plainly, D. M. Andrews, Boulder, Colorado, U. S. A.

	Price per	10	100	1000
