Annual Catalogue

1913

We take pleasure in presenting to our patrons and friends our catalogue for 1913.

We offer our seeds with the full assurance that they are true and reliable, quality being always our first consideration, but at the same time we wish it particularly understood that we do not warrant them, for the ultimate success of a crop is dependent on so many contingencies that we cannot hold ourselves liable or responsible for failure. If the purchaser does not accept the seeds on these conditions, they must be returned at once.

In ordering goods please give your *Name, Post Office and State* in full, being particular to *write your name very distinctly*.

Remittances can be made by Post Office Money Orders, Bank Drafts, Express Orders or cash sent in Registered Letter.

Orders from unknown correspondents must be accompanied by a remittance or a satisfactory reference.

When ordering seeds by mail postage must always be added at the rate of *eight cents per pound*, in quantities of one-fourth pound and upwards. Seeds by packet and ounce will be mailed without extra charge.

In shipping we make no charge for delivery to railroads or express companies.

We are thankful for the generous patronage heretofore given and intend to continue to merit the same by exercising the utmost care and fidelity in promoting the interests of our customers.

R. B. DUNNING & CO.

LIBERAL REDUCTION TO CLUBS

Liberal reductions will be made to persons selecting packet seeds from our Catalogue, at the prices named, and will be forwarded, postage free, to any part of the United States.

Those remitting	\$1.00	may	select	seeds	in	packets,	at	Catalogue	price	amounting	to	\$1.25

Selected Northern Grown Vegetable Seeds

Seeds sent by mail or express as the purchaser may wish. When ordering to be sent by mail, add postage for Beans and Peas at the rate of 15 cents per quart, to Sweet Corn, 10 cents per quart, and to Flint or Feld Corn, 15 cents per quart to catalogue prices.

Bulk seeds by the pound, if ordered sent by mail, add 8 cents per pound for postage.

Seeds in packets and ounces sent by mail free.

ARTICHOKE--Jerusalem

From four to five bushels will seed an acre; they should be cut the same as potatoes, one eye on a piece being sufficient, planted in May, in rows three feet apart, and about eighteen inches in the rows, and covered about two inches deep.

They are the best hog food known, and are attracting much attention on account of their great fattening properties, and for milch cows, they excel any root grown for increasing the flow of milk, and make it much richer.

An acre will keep from 20 to 30 hogs during the fall and winter months.

They are well adapted to any soil where corn or potatoes can be grown.

Jerusalem Artichoke. Tubers, per quart, 25 cents; per peck, \$1.00; per bushel, \$3.00.

ASPARAGUS

This is one of the first and finest spring relishes which comes to the table from the garden, and it really requires very little trouble in cultivation, since a bed once properly made and planted will last for years. The soil for the bed can hardly be made too rich, and the fertilizer should be well trenched-in to the depth of 2 feet or more. The roots should be planted as early in spring as the ground can be prepared, setting them a foot apart in rows 3 or 4 feet apart, with the crowns from 4 to 6 inches below the surface of the bed. Asparagus seed may be sown directly in the permanent bed and the plants thinned as they grow; or it may be sown elsewhere, and the seedlings transplanted the second year. An ounce of seed will sow 50 feet of drill, and produce about 300 plants. Fair crops may be expected the third year.

Colossal. Widely cultivated; very large, deep green; tender Pkt. Oz. ¼lb.
stalks of good flavor; the roots are vigorous and productive, 5 .10 .20

BEANS--Dwarf or Bush **Improved Golden Wax Beans**

One quart is sufficient for one hundred feet of drill; two bushels for one acre in drills.

A succession of sowings can be made from the first week in May until July. Plant in drills about two inches deep, and from eighteen inches to two feet apart, according to the richness of the soil; the poorer the soil the closer they can be planted; the plants should be about three inches apart.

Beans ordered sent by mail are subject to an extra charge of 15 cents per quart and 8 cents per pint for postage Pints furnished at quart rates.

	Qt.	Pk.	Bu.
Burpee's Stringless Pod Bush Beans. The only stringless green pod bush bean in cultivation, consequently it surpasses all others in crisp, tender flavor. All are absolutely stringless, and of a beautiful fleshy appearance. It is very early and very prolific.....	.25	1.75	6.00
Dwarf Horticultural. A fine, early shell bean.....	.20	1.25	4.50
Improved Goddard or Boston Favorite. A fine shell bean, very similar to the Dwarf Horticultural, but much larger. A great favorite throughout this section as a shell bean for market gardeners as it matures earlier than the large pole varieties.....	.20	1.50	5.25
Currie's Rust Proof. Straight, yellow, stringless pod. Unsurpassed for quality.....	.20	1.50	5.50
Improved Golden Wax. An improvement on the old Golden Wax. The pod is somewhat round, meaty and entirely rust proof.....	.20	1.50	5.75
Davis Kidney Wax. This plant is a vigorous grower, carrying the pods well up from the ground. In productiveness it is astonishing, as it will produce at least one-third more bushels of pods to the acre than any other Wax Bean. The pods are long, straight, oval, of clear, waxy, white color and handsome, often growing to a length of seven to eight inches, and when fit for use, are quite stringless and of fine flavor.....	.25	1.75	6.00
Wardwell's Kidney Wax. Early; vine medium, erect, hardy, productive. Pods long, broad, flat, brittle and of a delicate waxy-yellow. Very attractive market sort. Beans large, kidney shaped, white and dark markings about the eye. First-class snap bean, and a good one for winter....	.25	1.75	6.25
Early Mohawk. Very early, hardy and productive. Large, flat, dark green pods, five to six inches in length.....	.20	1.50	5.50
Low's Champion. One of the best for either snap or shell beans. Very productive; large, green, flat pods.....	.25	1.75	6.00
Refugee Wax. Long, round, yellow wax pods, very productive, and not inclined to rust.....	.25	1.75	6.00

Long Yellow Six Weeks. Hardy and prolific, an excellent early string bean; pods green.....	Qt. .20	Pk. 1.25	Bu. 4.75
Yellow Eye. (Old Fashioned). Very productive; not as large as the improved, but of better quality for baking...	.20	1.15	4.25
Improved Yellow Eye. Very prolific; fine for baking....	.20	1.10	4.00
Improved White Pea. Excellent for baking.....	.20	1.15	4.25

Lazy Wives Pole Beans

Lazy Wives. Immensely popular everywhere. Pods are large, green, entirely stringless, and of excellent flavor. It is exceedingly productive and easily gathered. Such is the peculiar taste and pleasant flavor of this bean that many persons could not be induced to eat other varieties of string beans, after tasting Lazy Wives. Excellent for shelling or baking.....	.25	1.75	6.75
Red Cranberry. Small, round, green pods, almost stringless, very tender. One of the best for a string bean.....	.30		—

BEANS—Pole or Running

One quart will plant one hundred hills, ten to twelve quarts to the acre.

These are more tender, and require rather more care in culture than the bush beans; they succeed best in sandy loam, which should be liberally enriched with short manure in the hills, which are formed, according to the variety, from three to four feet apart; from five to six seeds are planted in each hill, about two inches deep.

Beans ordered sent by mail are subject to an extra charge of 15c per quart for postage, pints furnished at quart rates.

Horticultural Pole.	Qt. .25	Pk. 1.75	Bu. 6.00
The most popular variety for both string and shell beans			
Mammoth Horticultural. An improvement over the common Horticultural, being very much larger and much more productive.			
As a market shell bean, it has no equal,	.30	2.00	7.50
Indian Chief or Black Wax. A very tender string bean....	.25	1.75	6.50
Mont d'Or, or Golden Butter. Earliest of the wax pole varieties, unsurpassed in quality	.25	1.75	6.25

KENTUCKY WONDER or Old Homestead

A very prolific sort producing its pods in large clusters. Pods green, very long, often reaching nine or ten inches, nearly round when young and very crisp, of fine flavor and most excellent for snap beans. One of the best and most profitable beans for the market gardener, the pods being so showy and produced in great abundance...

	Qt.	Pk.	Bu.
in great abundance...	.25	1.75	6.25

Early Jersey Lima.

Of large size. Very tender and of delicious flavor. Very early. Out of a number of varieties that we have tried, we found this to be the most desirable sort for this climate.....

	Qt.	Pk.	Bu.
for this climate.....	.30	2.00	7.00

Kentucky Wonder Beans

Scarlet Runner. Very ornamental, free climber with bright scarlet flowers...

BEETS

One ounce to fifty feet of drill; six pounds to the acre.

The best results are obtained on a deep, rich, sandy loam. For early use sow as soon as the ground will admit, in drills fourteen inches apart, and thin to four inches; for the main crop sow the first week in May, and for winter use as late as June. The soil should be deeply manured and well cultivated. In lifting and storing the roots, care must be taken that they are not bruised.

Detroit Dark Red Beet

**Perfection
Early Blood
Turnip Beet.**

This beet is the result of years of careful selection. It is very early with exceedingly small tops, roots globular and very smooth, flesh of a bright blood red color, very crisp, tender and sweet. It is equally good for the market or home garden, as it is an excellent keeper, as well as being very early

Pkt. Oz. ¼lb. Lb.

5 .15 .40 1.50

Perfection Early Blood Turnip Beet

**Detroit Dark
Red Beet.**

As early as

Crosby's Egyptian, with flesh a very dark, intense red. Tops small, roots globular or ovoid; very tender and sweet; good keeper. An early beet of the finest quality for either home or market use.

Pkt. Oz. ¼lb. Lb

5 .15 .40 1.50

Dirigo Extra Early. Originated with a leading market gardener and was brought to perfection after years of careful cultivation. It is a rich, blood-red beet of fine grain and flavor, is earlier than either the Egyptian or Eclipse, of smooth and rapid growth; top and tap root being very small

5 .15 .40 1.50

Crosby's Egyptian. This variety resembles the Egyptian only in its extreme earliness. It grows much larger and lighter colored. It is one of the best sort for early planting as it reaches a usable size sooner than any other sort.

5 .15 .35 1.00

Eclipse. This variety is about as early as the Egyptian, but of larger and finer quality.

5 .15 .35 1.25

Bastian's Early Blood Turnip. Larger than the Egyptian and follows it and the Eclipse in point of earliness; not so dark in color.

5 .15 .35 1.25

Dewing's Blood Turnip. Of fine form and flavor; and deep blood red; a desirable variety.

5 .15 .35 1.25

Long Smooth Blood Red. This is a long, smooth beet, growing to good size 5 .10 .35 1.25

Edmand's Early Blood Turnip. The largest sort for general crop. In quality one of the finest, exceedingly dark, shape globular, having only one tap root. Very popular with marketmen 5 .15 .35 1.25

Swiss Chard Beet

Swiss Chard. Used for greens..... 5 .10 .35 1.25

SUGAR BEETS and MANGEL WURZELS

Varieties Grown for Feeding Stock (Sown in May or Early in June),
Six Pounds Per Acre.

Danish Sludstrup. This wonderful new mangel is of Danish origin and has repeatedly been awarded a first-class certificate by the Danish government on account of the larger yield per acre and the greater feeding value, per ton, over other well known standard varieties. It has a long, reddish-yellow root, growing well above the ground, and on that account is very easily harvested. Tried with six standard, well-known varieties of Mangels by us, we found that the Sludstrup gave a far greater yield. We think this is the best Mangel ever introduced

Danish Sludstrup
Mangel Wurzel

Oz.	¼lb.	Lb.
.10	.20	.60

Giant Feeding Sugar. A cross of the Mammoth Red Mangel and Improved Sugar Beet. Roots large, long and smooth, and of a beautiful light rose tint. Yields nearly as large a crop as the Mangels, and supplies a food of very much higher nutritive value. The roots grow partly out of the ground and can be harvested very easily..... .10 .15. 50

Lane's Improved Sugar. A well known variety; valuable for feeding to cattle..... .10 .15 .50

Giant Yellow Intermediate. This variety grows more than half above the ground, and is a russet, yellow color. The root is ovoid, intermediate between the long and globe varieties. Flesh white, firm and sweet, much

liked by cattle. Produces enormous crops and a good keeper	Oz.	¼lb	Lb.
	.10	.15	.50
Yellow Globe Mangel Wurzel. Roots of large size, and globular form; very productive	.10	.15	.50
Improved Mammoth Long Red Mangel Wurzel. A variety producing roots of mammoth size	.10	.15	.45
Golden Tankard. A half long variety of a bright yellow color	.10	.15	.50
Norbiton Giant Mangel Wurzel. Extra fine Long Red, very large.....	.10	.15	.45
Giant Red Eckendoff. A very popular Danish variety of mangel of a square chunky type. It is very valuable, not only for its high feeding value, but also for its phenomenal yields. As the greater portion of the root grows above the surface of the soil, they are easily harvested, and their chunkiness prevents their breaking in handling. We consider this one of the best varieties....	.10	.15	.50
Giant Yellow Eckendoff. Very similar to the Giant Red Eckendoff, except it is of a rich yellow color	.10	.15	.50

Giant Feeding Sugar Beet

CABBAGE

One ounce will produce about three thousand plants.

The Cabbage is one of the most important vegetables, and some of its varieties universally cultivated. The ground must be highly manured, deeply dug or plowed, and thoroughly worked, to insure good, full-sized heads. A heavy, moist and fresh loam is the most suitable. The early sorts should be

Early Spring Cabbage

sown very early in the spring, in hotbeds, or later in the open ground.

Eighteen inches by three feet apart is the common distance. Pkt. Oz. $\frac{1}{4}$ lb.

Early Winningstadt. An excellent sort; heads of large size..... 5 .20 .60

Early Jersey Wakefield. This is the standard early pointed-head cabbage. For the market garden it is the best, and for early home use all should have it..... 5 .20 .50

Henderson's Early Summer. The standard summer variety. Unexcelled for the market garden and good for home use..... 5 .20 .60

Early Spring. The only

Extra Early Round, Flatheaded Cabbage in the world. Coming in with the Wakefield, and yielding one-third more than any other Extra Early. This variety is of the Early Summer Type, but about one-fifth smaller, and has only four to five outside leaves, and these so small that it may be planted twenty-one inches apart, 14,500 to the acre. The stem is short, making almost the whole plant edible.

Fottler's Improved Brunswick Cabbage

It is finely bred, the veining of the leaves being particularly fine. There is no cabbage we know of having a more solid head; it has also the peculiarity of heading firmly at an early stage in its growth, so that the finest cabbage, though small, can be obtained long before it has attained its mature size

Danish Summer Ballhead. This is a very early, large, very firm and heavy headed cabbage. Heads ball-shaped and of splendid appearance. A very sure header and one of the very best for the early market garden 10 .40 1.25

Premium Flat Dutch. The old standard variety for main crop. It has long stood the test and is yet one of the best.. 5 .20 .60

Stone-Mason Drumhead. One of the very best for a main crop 5 .20 .60

Deep Head. An early strain of the Flat Dutch type. The plant is rather below medium size; very short stemmed and few leaved. The leaves are large, broad and quite thick. The head is oval and very large for size of plant, solid and of good quality. It matures just after the All Seasons' Cabbage and is very popular with gardeners

All Seasons' Cabbage. Early; solid and sure headed..... 5 .20 .60

Fottler's Improved Brunswick. An excellent early Drumhead variety; produces a firm and solid head 5 .20 .65

Henderson's Succession. One of the finest for a second early or late sort..... 5 .20 .60

Autumn King. Entirely distinct, one of the best keepers, enormous sized head, of that dark shade of green, which is most desirable in a cabbage and has such small outer leaves that it

can be planted much closer together than the ordinary late sorts; therefore can be relied upon to produce a greater weight

of crop per acre than any other variety. A distinct feature of the Autumn King is the peculiarly crimped leaf, which not only adds to its appearance, but enables it to be distinguished anywhere

Pkt.	Oz.	¼lb.
5	.20	.60

Mammoth Rock Red.

This is the best, largest and surest heading red cabbage ever introduced. The head is large, round, very solid and of deep red color.

5	.20	.60
---	-----	-----

Sure Head Cabbage

Sure Head. Produces large, round, flattened heads of The Flat Dutch type, and is remarkable for its certainty to head. It is all head and sure to head even under unfavorable conditions. The heads are remarkably uniform, very hard, firm and fine in texture, and, ordinarily weight from 10 to 15 pounds each. Has but few leaves, keeps well. A good shipper, and just the variety to suit market gardeners and farmers

5	.25	.75
---	-----	-----

Danish Ball Head. An extremely hardy, imported cabbage, which is growing in popularity in America, having proven itself one of the very best winter sorts. It is a very sure header, very solid and heavy, an extra good keeper and seller. It is medium to late, but is generally grown as a late crop. Heads are not extra large and without many outer leaves. It is the best cabbage to raise where it is sold by weight, as its solidity is not equalled by any other cabbage grown.

Pkt.	Oz.	¼lb.
5	.25	.75

Danish Round Head. One of the best varieties of cabbage ever imported. Very similar to the Danish Ball Head, but of larger growth and embodies all its good qualities.

5	.25	.85
---	-----	-----

Danish Ball Head Cabbage

CARROTS

One ounce to one hundred feet of drill; three to four pounds to the acre.

Carrots require a very finely pulverized soil to grow them to perfection. A good, light, and well enriched sandy loam is the best for this crop. For field culture, sow in drills three to three and one-half feet apart so as to cultivate by horse. Market gardeners sow in drills about eighteen inches apart, and cultivate by hand. For early crops cover one-half an inch deep, and thin to six inches apart, in the rows; for late, cover three-fourths of an inch deep, and thin to four inches.

Ox Heart Carrots

Early French Forcing.

The earliest variety in cultivation and the best suited for forcing and early market gardening. Tops, small and divided. The roots are a reddish orange color and nearly round. When fully matured, they are about two inches in diameter..

Pkt.	Oz.	¼lb.	Lb.
5	.20	.60	2.00

Danvers' Half Long Carrot

Danvers' Half Long. In form it is midway between the

Long Orange and Ox Heart. The root is of a dark orange color and grows very smooth. Very productive.....

	Pkt.	Oz.	¼lb.	Lb.
Long Orange. Roots of large size, heavy cropper and excellent keeper...	5	.20	.50	1.50

New Ox Heart. A very early and heavy yielder. Thick and short in form, scarlet in color..	5	.20	.50	1.60
---	---	-----	-----	------

Long White Belgium. Large, long rooted variety; valuable for feeding stock	5	.15	.40	1.25
--	---	-----	-----	------

CAULIFLOWER

One ounce will produce about three thousand plants.

Any soil that will grow early Cabbages will grow Cauliflower, as their requirements are almost similar; but as the product is more valuable, extra manuring and preparation of the soil will be well paid.

The seeds may be sown in the hot-bed in March or April, and transplanted to open ground about the first of May.

French Forcing Carrots

Henderson's Early Snowball Cauliflower out in a well prepared bed, which must be covered in frosty weather. For the principal crop, sow early in spring, very shallow in the seedbed, and when the plants are about six inches high, transplant them about six inches apart into trenches, for blanching. Dig the trenches four feet apart, a foot wide and ten inches deep. Fill in five or six inches of well rotted manure, and mix thoroughly, half a spade deep, with the earth at the bottom. The tops of the plants should be shortened before they are set. Earth up to blanch, three or four times during their growth, taking care that no earth falls in the center of the plants.

Boston Market. A favorite variety, remarkable for its tender, crisp, succulent stems, keeps well.

Henderson's White Plume. Crisp, solid and possessing a sweet, nutty flavor; requires very little labor in bleaching

Golden Self-Bleaching. A self-bleaching early golden colored variety that is very popular

CORN—Sweet

One quart to two hundred hills, ten quarts to an acre.

The Sweet or Sugar varieties, being liable to rot in cold or wet ground, should not be planted before the middle of May and for a succession continue planting every two weeks, until July, in rich, well manured ground, in hills three feet apart, each way, covering about half an inch and thin out to three plants to a hill, or plant in rows four feet apart, and to stand eight inches apart in rows. The field varieties should be planted four feet apart each way leaving three plants to a hill.

Early Gem Sweet Corn. Extremely early, of superior quality and one of the first to mature. This corn has a medium-sized white ear, with rich, tender kernels. It is from seven to ten days earlier than the Cory and far superior in quality.

Henderson's Early Snowball. A very reliable early variety

Early Favorite. One of the best early varieties, very hardy, easily grown and will head under conditions in which many sorts will fail. Heads large, solid, crisp, and tender.

CELERY

One ounce of seed produces about four thousand plants.

To have celery early, it should be sown in a hotbed quite early in the spring, and when three inches high plant

Golden Self-Bleaching Celery

should be planted

Pkt.	Qt.	Pk.	Bu.
.10	.30	2.00	7.00

Golden Bantam Sweet Corn.

This corn has a medium-sized ear of a bright golden color. It is extremely sweet, of delicious flavor and unusually tender. The stalks grow about five feet high and are very vigorous, bearing two to three well-filled ears on each stalk. It matures a few days earlier than the early Crosby

Pkt.	Qt.	Pk.	Bu.
5	.25	1.25	4.50

Holmes' Premo. A very early sweet corn. The stalks grow about five feet high. Ears

Early Gem Sweet Corn

medium size and well filled. Kernels white and of excellent flavor. One of the best early varieties grown.....

White Cory. Similar to the above, but with white cob and white kernels

5	.20	1.25	4.50
---	-----	------	------

Early Crosby. Not so early as the Cory or Early Gem; of very rich, sugary flavor....

5	.20	1.25	4.00
---	-----	------	------

Late Crosby. This resembles the Early Crosby. It has the same rich, sugary

Golden Bantam Sweet Corn

flavor. Ears large and well filled. Kernels white. About one week later than the Early Crosby. One of the best medium late table and market varieties ever introduced...

Pkt.	Qt.	Pk.	Bu.
5	.20	1.25	4.00

Extra Early Evergreen. This is a strain of this late variety of sweet corn that will mature in this climate. We have been troubled in the past by our Evergreen Sweet Corn not maturing, owing to the short season in this section. We have tried this strain for the past few seasons and have been very much pleased with it. All lovers of sweet corn should not fail to try this variety. It is very large and deep kerneled with a sweet, sugary flavor.....

5	.20	1.25	4.00
---	-----	------	------

Black Mexican. Grain bluish black, but is especially rich in sugar qualities.....

5	.20	1.25	4.00
---	-----	------	------

Sweet Corn ordered sent by mail is subject to an extra charge of ten cents per quart and five cents per pint for postage. Pints furnished at quart rates.

CORN—Field

Extra Early Yellow Canada. This is a very early eight-rowed variety, which we have secured after years of careful selection. Produces large, long, well-filled, golden ears; very prolific.....

Qt.	Pk.	Bu.
.10	.60	2.00

If ordered sent by mail add fifteen cents per quart and eight cents per pint for postage.

Red Cob Ensilage. A pure, white corn. It is sweet, tender and juicy, has short joints, grows to a great height with an abundance of leaves.....

Qt.	Pk.	Bu.
.10	.40	1.50

Evergreen Sweet Fodder. For cutting green and feeding to stock this variety excels all others in tenderness, sweetness and nutriment. Also popular as a silo variety.....

.10	.50	1.90
-----	-----	------

Early Sanford. A white flint variety, very valuable for ensilage and fodder, the stalks being very large and numerous. Particularly adapted to this climate as it ears well and, if planted early, will come to maturity.....

.10	.45	1.60
-----	-----	------

Leaming. An early, yellow dent variety. Very productive. One of the best for ensilage or green fodder

.10	.40	1.50
-----	-----	------

Early Yellow Canada Corn

Black Rice Pop Corn. Very early. Excellent for popping. On the cob, price per ear, 3 cents each; per lb., 10 cents.

In ordering corn in quantities of 1-2 bushel or over, add 20c for bags capable of holding 2 bushels each.

CRESS OR PEPPER GRASS

A well known salad. Requires to be sown thickly and covered very slightly. Sow at frequent intervals to keep up a succession, as it soon runs to seed.

Double Curled. Very fine; may be cut two or three times. 5 .15

CUCUMBER

One ounce to fifty hills.

The Cucumber is a tender annual, and therefore should not be planted or set out in the open air until there is a prospect of continued warm and pleasant weather. Cucumbers succeed in warm, moist, rich, loamy ground. The hills should be four or five feet apart in each direction.

When all danger from insects is passed, leave but three or four of the strongest plants in the hill.

Japanese Climbing

ino. A distinct and valuable variety, quickly climbing poles or trellis, taking up less room in the garden and keeping the fruit up from the ground and clean. It produces very long, round, crisp fruit of fine flavor and is very prolific. . . . 5 .15 .45 1.50

Japanese Climbing Cucumber

Nichols' Medium Green. This is a very fine table variety, and also good for early forcing. Color dark green; flesh, very crisp; very prolific and always straight,

Improved White Spine Cucumber

smooth and handsome. It also makes a very desirable sort for pickles	Pkt.	Oz.	¼lb.	Lb.
Early Russian. The earliest variety.....	5	.10	.30	1.00
Early Frame. An early standard variety; about five inches long	5	.10	.25	.75
Improved White Spine. Superior for table use, very productive, medium sized, straight and well formed.....	5	.10	.30	1.00
Early Green Cluster. Grows in clusters, early and productive	5	.10	.25	.75
Improved Long Green. Long and crisp; a popular and reliable variety for pickles.....	5	.10	.30	1.00
Boston Pickling. The finest variety to grow for pickles....	5	.10	.25	.75

Improved Thick-Leaved Dandelion

DANDELION

One ounce to one hundred ft. of drill.
The Dandelion resembles Endive, and affords one of the earliest, as well as one of the most healthful, of spring greens. Sow as early as the weather will permit, in good, well-enriched soil, in rows twelve inches apart, covering seed one-four of an inch deep, the earth firmly pressed over the seed.
Improved Thick-leaved. Pkt. Oz. ¼lb.
Best variety..... .10 .50 1.60

ENDIVE

One ounce to one hundred and fifty feet of drill.
Endive may be grown at any season of the year, but is more generally used late in the fall. Sow the seed during May or June, in drills, fourteen inches apart, and when well established, thin to one foot apart. When nearly full grown, tie the outer leaves together over the center in order to blanch the heart of the plant.

Green Curled. This is the hardest variety, and very desirable for the home and market garden. The deep, green leaves are beautifully cut and curled, easily blanched, and become very crisp, tender and fine flavored..... Pkt. Oz.
5 .20

White Curled. By far the most beautiful variety. Plants moderately dense, with divided leaves, which are coarser and less tender than those of the Green Curled; but even the outer leaves are very light colored, frequently white, so that the plant is very attractive and always brings the highest price on the market..... Pkt. Oz.
5 .20

Green Curled Endive

LEEK

Belongs to the onion family and by some preferred to that vegetable. Sow the seeds and care for the young plants same as for onions, but they need a little more room in order to develop fully. When the young plants are about the size of a goosequill, transplant to a prepared bed in rows one foot apart and four or five inches in the row. Set the roots deep and draw the earth to them when cultivating, so that they may be well blanched by the time they are fit for use.

London Flag Leek

London Flag. It is the variety more cultivated in this country than any other. It is hardy and of good quality

Pkt.	Oz.	¼lb.
5	.20	.60

LETTUCE

One ounce to one hundred and twenty feet of drill.

Lettuce thrives best in rich, moist ground. Sow the seed in hot-beds in February or March, and transplant into a sheltered border with a southern exposure. For successive crops, sowings may be made in the open ground as early as the spring opens, and continuing until July.

Lettuce should always be transplanted in order to make it head well.

Early Tennisball. White seeded. Extensively grown for forcing and heading under glass, heads firm and good size; very white and crisp.

Pkt.	Oz.	¼lb.
5	.15	.50

Early Tennisball. Black seeded. A very popular sort for open ground culture; forms a handsome head and is crisp and tender,

5	.15	.50
---	-----	-----

Boston Curled. A variety of great beauty and of superior quality. Leaves beautifully curled; attractive on table.

5	.15	.50
---	-----	-----

Improved Hanson.

Forms very large, firm heads, which are deliciously sweet, crisp and tender; heads green outside and white within. For outdoor culture unexcelled

Pkt.	Oz.	¼lb.
5	.20	.60

New Sensation.

This remarkable variety has rapidly grown in popularity until it has become the leader among gardeners.

No other lettuce thrives so well when grown at any season of the year, withstanding the hottest weather in a remarkable degree. It is a beautiful light yellowish-green color, leaves much blistered on the surface, and has the peculiarity of forming a solid head, even before half grown. Its uniform,

Big Boston Lettuce

handsome and even growth is unequalled and is the easiest to grow.....	5	.20	¼lb. .60
Black Seeded Simpson. Heads very large with light colored leaves; leaves being almost white and beautifully curled. Stands summer heat splendidly and remains long fit for use,	5	.15	.50
Ferry's Early Prize Head. Forms a large, tender and crisp mass of leaves of superior flavor and very hardy. Slow to run to seed and does not become bitter as early as many other sorts.....	5	.15	.50
Big Boston. This is a new, very large strain of White Tennisball or Boston Lettuce excelling all other strains in size; of great value to market gardeners	5	.15	.50
White Cabbage. Large, extra tender, and is a good keeper..	5	.15	.50

MELON—Musk

One ounce for sixty hills; two to three pounds for an acre.

Melons thrive best in a moderately enriched light soil; the hills should be six feet apart each way. After all danger of frost is past, plant twelve or fifteen seeds in each hill, and when well up, thin out to three or four plants in each hill.

Nutmeg. Named from its shape; flesh green and sweet

Pkt.	Oz.	¼lb.
5	.10	.25

Large, Round, Yellow Cantaloupe. Flesh reddish orange, sweet and of good flavor; an early and productive variety

MUSTARD

Sow thickly in rows at different times from May to July, and cut when about two inches high. Used as a salad or cut and boiled for greens. The seed is used for flavoring pickles, etc.

White London. The leaves are light green, mild and tender when young; seed light yellow.....

Pkt.	Oz.	¼lb.
5	.10	.25

ONION

One ounce to one hundred feet of drill; five pounds to the acre.

No vegetable is more extensively known and cultivated than the Onion. A good crop is impossible unless the soil is very rich and kept clean. Use well-rotted manure freely, and get the crop in as early as possible in spring, no matter if the weather is cold and unpleasant. Sow in drills one foot apart, and cover about one-third of an inch, treading or rolling, after sowing, so that the hot, dry atmosphere may not dry up and destroy the sprouting seed.

PARSNIP

One ounce for two hundred feet of drill; five pounds to the acre.

Abbott's Improved Parsnip

Doubled Curled Parsley

Sow as early in the spring as the weather will admit, in drills 15 inches apart, covering half an inch deep, when well up thin out to five or six inches apart in the rows. Unlike carrots, they are improved by frost, and it is usual to take up in the fall a certain quantity for winter use, leaving the rest in the ground until spring, to be dug as required.

Abbott's Improved, or Long Smooth.

	Pkt.	Oz.	¼lb.	Lb.
Smooth and quite large; one of the best	5	.10	.20	.60

PEAS

NOTICE. Owing to the unfavorable climatic conditions throughout all the pea growing sections last season, there is a great shortage in seed peas.

While our stocks are larger than they have been for years we would recommend when sending us your orders to advise us to substitute some other variety, in case we are sold out of variety ordered.

One quart to seventy-five feet of drill; two to three bushels to the acre.

Peas for an early crop should be sown as soon as the ground is in working condition. The soil for their reception should be light, dry and well sheltered. Mild manure, such as leaf mould, has a beneficial effect; but for many of the varieties, the soil cannot be too rich. For general crop the ground should be well manured the previous year, which causes them to yield more abundantly. When grown as a market crop, peas are never staked, and are sown in single rows, two or three inches deep, and from two to three feet apart, according to the variety or strength of the soil. When grown in small quantities for private use, they are generally sown in double rows, six or eight inches apart, and the tall varieties staked up by brush.

Peas ordered sent by mail are subject to an extra charge of fifteen cents per quart and eight cents per pint for postage. Pints furnished at quart rates.

EXTRA EARLY VARIETIES

Sutton's Excelsior. A dwarf, early, wrinkled variety, height about 15 inches, pods large and well filled; a very heavy yielder and of delicious flavor. In habit and growth it resembles the Nott's Excelsior, but is more prolific and has larger pods. This is without doubt the best early, dwarf pea on the market

Qt.	Pk.	Bu.
.35	2.50	9.00

Gradus or Prosperity. A new, very large, extra early variety of wrinkled pea. The most desirable sort for the home and early market garden, large podded and of splendid quality. The vines grow about three feet

SEED POTATOES

Early Dew Drop Potatoes

They are excellent keepers and retain their good eating qualities till late in the spring. Pk. Bu. .40 1.25

Irish Cobbler. We have found this potato to be one of the most reliable, extra early potatoes. In ripening it seems to be more uniform than any other sort. Every hill seems to ripen at the same time. The potatoes in form are oval and round. They grow very smooth, cream white, with few and shallow eyes. The quality for early table use is not excelled by any early variety. It keeps perfectly through the winter until planting time in the spring and it is never out of season for the table. Considering its earliness, yield, fine quality and handsome appearance, Irish Cobbler is one of the best of all early potatoes.

Irish Cobbler Potatoes

early potatoes. Pk. B .40 1.25

Harmony Beauty Potatoes

All grown in one hill, weight 5 3-4 lbs.

Harmony Beauty. This potato originated from the seed of a potato ball in Somerset county, Maine.

It is the favorite market potato of Bangor, having the preference over all other varieties wherever once used, and conceded by growers and consumers to be the best potato grown. It always brings a better price than any other in our market. It is a prolific cropper and remarkably free from rot, and about two weeks earlier than the Early Rose.

In appearance it has a russet, pinkish skin, a little lighter in color than the Early Rose, and is of more oval shape. Flesh white and mealy. Pk. Bu. .40 1.25

Early Rose. The original Early Rose Potato, which was so popular and grown so extensively for a great many years in New England. After several years' trials, we have at last got what we consider to be absolutely pure stock. In our trials last year, we found that the yield was equal to its yield of former years. It was one of the very best yielding, early varieties grown by us last season

Pk.	Bu.
.50	1.50

Gold Coin. A very hardy, all around general crop potato. White skinned with slight russet appearance, flesh white and mealy. In form it is very regular, of a round, oval shape. As a table potato it cannot be excelled. Its yielding qualities are exceptionally large, being one of the heaviest croppers we have ever grown. We consider this potato to be the best all around potato for general crop in cultivation.....

Gold Coin Potatoes

Pk.	Bu.
.40	1.25

Green Mountain. A late variety of flat, oval form; white skinned, very smooth and handsome. One of the best yielders, free from blight, and rot, keeps well, and is never out of season for the table.....

.40	1.25
-----	------

Mills' Pride. A new variety of potato. It has a white skin; very white flesh and is of oval, flat form. An immense cropper giving us the biggest yield of any potato we have ever grown. From seven bushels of seed planted on a little less than half an acre, rows three feet apart and hills twelve inches apart in the row, we harvested two hundred and four bushels of selected seed potatoes, with between twenty-five and thirty bushels of small potatoes and culls that were not fit to put into seed stock. It is a very vigorous grower with large, healthy tops that stand up well.....

.40	1.25
-----	------

Black Christie. A very old potato; originated in Nova Scotia over one hundred years ago, and has been grown in the Maritime Provinces and along the Maine border ever since, on account of its superior baking and keeping qualities.

For a baked potato it has no equal and is one of the best keeping potatoes ever grown, will keep hard and firm as late in the spring and summer as July and August. When baked the flesh is very white and mealy.

It is of an elongated slim type, with medium sunken eyes of a dark blue black color, and a heavy cropper.

Prices, 10 cts. per pound; 60 cts. per peck; \$2.00 per bushel.

If ordered to go by mail add eight cents per pound for postage.

Prices on potatoes in barrels and larger quantities furnished on application.

PUMPKIN

One pound will plant two hundred and fifty hills.

Chiefly used for agricultural purposes. Same cultivation as for cucumbers and melons.

Early Prolific Marrow. Earlier than the Boston Marrow. Very productive and grows to weigh from seven to twenty				

pounds. Its color is most attractive, a brilliant orange red. Quality excellent when mature, and a good keeper, 5 .10 .25 .75

Hubbard. One of the most desirable varieties in cultivation; color, dark green; flesh, bright orange-yellow; fine grained, very dry, sweet and rich-flavored; keeps perfectly good throughout the winter..... 5 .10 .25 .80

Warted Hubbard. An improvement over the old-fashioned Hubbard, same shape, large size, dark green, almost black, distinguished by a dense covering of knots which justifies the name of "warted." Very thick flesh, first-class quality and a good keeper..... 5 .10 .30 .90

Warted Hubbard

Delicious Squash

Delicious. A new variety of winter squash, one of the best ever introduced. Color of skin is green, with an occasional blue specimen. About the same size as the Hubbard. Flesh very thick and of a dark orange color, very fine grain, exceedingly rich and of elegant flavor. It can be used for either fall or winter use, but does not acquire its best qualities until winter. It is without question the sweetest and richest flavored squash grown. Per pkt. 5 cents, per oz. 10 cents, per 1/4-lb. 30 cents, per lb. \$1.00.

SUNFLOWER

Large Russian. Per Pound, 15 cents.

TOBACCO SEED

Connecticut Seed Leaf. Best adapted to the climate of the northern states, as it is more hardy and endures the cold better than the tender varieties grown south 5 .30 1.00

TOMATO

One ounce will produce fifteen hundred plants. This vegetable is one of the most important of all garden products. They thrive best in a warm, light, rich soil. For early plants, sow about the first week in March in a hotbed; or in boxes or pots in a warm window. When the plants are about two inches high, set out in boxes, three inches deep, four inches apart, in the same temperature, or pot singly. If again transplanted before setting

Large Russian Sunflower

out, the plants will be still more stocky. Set out in the open ground about the first of June, four feet apart each way, using a shovelful of rotted manure in each hill. Keep well sheltered and watered until they are established, after which let the fruit have plenty of sun.

Sparks' Earliana. A new variety and the earliest large tomato yet introduced. It is of handsome shape and beautiful red color. The flesh is very firm and solid and of excellent quality. A good cropper, making it one of the best for the market and home garden.....

Pkt.	Oz.	¼lb.
.10	.35	1.00

Sparks' Earliana Tomato

Early Freedom. The plant is medium in size, presenting no peculiarities of foliage or habit. The fruit is borne mainly in clusters, perfectly round, having no sign of concave at the base. Of a bright, dazzling shade of scarlet.

The flesh is remarkably solid, having but few seeds. The flavor is perfect, absolutely free from any acidity. Undoubtedly the most prolific of all early tomatoes, and equal in size, to the largest of any early sort put on the market....

5	.25	.75

Dwarf Champion. This is an early variety, which forms very stout, strong plants, about two feet high. The branches are short, making a bushy plant that stands quite erect without stakes. Fruit smooth, medium sized, fairly solid, but has no hard core, and is of good flavor

5	.25	.75
---	-----	-----

New Stone. Of a bright, scarlet color. Very large and very smooth; ripening evenly to the stem without a crack; exceedingly solid and firm-fleshed (as its name indicates); is an excellent shipper; quality the very best; a good keeper; without hard core and not subject to rot. A great yielder,

5	.25	.75
---	-----	-----

TURNIP

One ounce for one hundred and fifty feet of drill; one to two pounds in drills for an acre.

Turnips do best in highly enriched light, sandy or gravelly soil; sow the earliest varieties as soon as the ground can be worked in the spring, in drills twelve to eighteen inches apart. For a continuous supply through the season, sowings should be made every two weeks until the last of July; from which time until the middle of August the principal sowings are made for the fall and winter use. Swedish or Ruta Baga Turnips are largely grown for a farm crop as well as for the table; make sowings from the tenth of June until the first of July, in drills two to three feet apart, and the plants when well up should be thinned to ten inches apart. To keep the roots fresh during the winter they may be placed in a cool, dry cellar, buried in dry sand,

Golden Ball or Orange Jelly. A

rapid grower of excellent flavor;

bright yellow, good keeper, and

a superior table variety.....

SWEET PEAS

Very lovely, beautiful, fragrant, free blooming, climbing plants. Sweet peas are grown very extensively by florists and gardeners for cut flowers, and when placed in water will last many days, and their sweet perfume delights many.

Supported by common pea sticks they form admirable screens for protecting tender plants and excluding unsightly objects. They are invaluable for trailing and trellis work and covering fences, etc.

The more the flowers are cut the more freely they will bloom.

GERANIUMS

Choice mixed varieties, from 2½-inch pots.....	\$1.00 per doz.
--	-----------------

Plants on this page sent by Express or Freight only.

Single Hyacinth

the Blues, light blue; King of the Yellows, dark yellow; Lord Balfour, lilac-violet. Prices, 8 cents each; 80 cents per dozen; \$6.50 per hundred.

Double Varieties.

Chestnut Flower, fine rose color; Koh-i-noor, rosy-red; La Tour d'Auvergne, pure white; Bloksberg, light blue. Prices, 8 cents each; 80 cents per dozen; \$6.50 per hundred.

TULIPS

No other flower excels the Tulip in beauty of form, brilliancy of color, effective bedding and gorgeous show. They are equally as desirable for bedding, or pot culture indoors. Bulbs should be set 6 inches apart and 4½ inches deep

Single Varieties.

Much more satisfactory for outdoor bedding than the double varieties.

BULBS

FOR AUTUMN PLANTING

Ready for Shipment about September First

Garden Culture. Bulbs may be planted from the first of October up to the time the ground freezes, in any good, well-drained, garden soil, which has previously been well enriched and dug to a depth of from 12 to 15 inches. Before the ground freezes, cover the beds with material such as leaves, straw, boughs, etc., to a depth of 4 inches. Do not uncover too early in the spring.

HYACINTHS

One of the most popular bulbs for effective beds outdoors, or grown in the house in pots. Bulbs should be set 6 inches apart and 6 inches deep.

Single Varieties.

Better adapted, and much more satisfactory, for outdoor bedding, than the double varieties.

Gertrude, brilliant rosy red; Roïdes Belges, bright dark red; Giganthea, light rose; General Vetter, bluish white; L'Innocence, pure white; King of the Blues, dark blue; Grand Maître, lavender; Queen of

Single Tulips

Artus, scarlet; Cardinal's Hat, brown red; Yellow Prince, bright yellow; Chryselora, pure yellow; La Reine, pure white; Rose Grisdelin, bright pink; Cottagemaid, white and rose; Keizerskroon, brilliant red and yellow. Prices, 3 cents each; 25 cents per dozen; \$1.75 per hundred.

Double Varieties.

Alba Maxima, pure white; Gloria Solis, brown and yellow; Murillo, light rose; Rubra Maxima, dark red; Duke of Leicester, yellow. Prices, 3 cents each; 30 cents per dozen; \$2.00 per hundred.

NARCISSUS

Popularly called "Jonquils" or "Daffodils." Next to the Tulip the Narcissus is the most popular spring flowering bulb. They will grow in any ordinary garden soil and in almost any situation. Very desirable for pot culture as well as outdoor culture. For outdoor culture bulbs should be planted 4 to 5 inches deep and 4 to 6 inches apart.

Single Varieties.

Emperor. Sulphur-yellow perianth with immense golden yellow trumpet	Ea.	Per doz.	Per 100
Sir Watkin. Sulphur-yellow perianth with deep yellow small crown	.05	.45	3.00
Poeticus. White, with red bordered cup	.05	.45	3.00
	.03	.25	1.50

Double Varieties.

Sulphur Phoenix. Silverwhite; one of the finest	.04	.35	2.50
Von Sion. Large double, deep golden yellow flowers; very extensively grown	.05	.50	3.25

CROCUSES

One of the first to blossom in the spring, lifting its head almost before the snow has disappeared. Blooming at a time when the ground is destitute of foliage, it is a welcome visitor. The crocus succeeds well when grown in pots for indoor culture, as well as for borders and beds for outdoor culture; may also be grown in water with a little sand in any shallow dish or plate.

Plant in the open ground 2 inches deep and 2 inches apart.

Blue, white, striped, yellow.

Prices, 2 cents each; 15 cents per doz.; \$1.00 per 100.

CHINESE SACRED LILY

The flowers are of a satiny white color with very fragrant golden yellow cups. Usually used for indoor culture, grown in bowls or dishes of water. Put an inch or two of sand or gravel in the dish in which they are to be grown, set the bulbs on this and put enough gravel or shells around them to keep them from falling over; fill the dish with water and keep in any ordinary living room.

Price, extra large bulbs, 10 cents each; \$1.00 per dozen.

Narcissus or Daffodils

Crocuses

EARLY PEARL OATS

This is a grand, good oat, the result of years of careful growth and selection. In appearance they are white, medium size and very full meated. Heads are large and straw stout, not inclined to lodge, and are free from rust and smut, and yields an immense crop. This oat took the **Diploma** for the **Sweepstake Prize** given by the **Maine Corn and Fruit Show** held in Portland, Me., in November, 1911. Also the **Sweepstake** and **First and Second Prizes** given by the **Maine Seed Improvement Association** at meeting held in Waterville for season of 1911.

In both instances there were a great many competitors for these prizes.

Price: Postpaid, lb., 20 cts.; 3 lbs., 50 cts. By Express or Freight, pk., 40 cts.; bu., \$1.20; 10 bu. lots, \$1.10 per bu. In lots of one bushel or over, there will be a charge of 20 cts. for

bags; bags capable of holding $2\frac{1}{2}$ bushels.

EXTRA SELECTED FARM SEEDS

At market prices at time order is received. All inquiries for quotations will be promptly answered.

GRASS SEEDS

Timothy or Herd's Grass.

The best grass for hay; 45 lbs. to the bushel.

Fancy Red Top. Clear seed. A valuable grass and extensively cultivated; 40 lbs. to the measured bushel.

Timothy or Herd's Grass

Orchard Grass

Rhode Island Bent. Very fine lawn grass; 10 lbs. to the bushel.

Orchard Grass. Valuable on all dry soils, very valuable as a pasture grass; 14 lbs. to the bushel.

Canada Blue Grass. A very hardy variety of Blue Grass. Excellent for pasture and especially adapted to dry, sandy, thin soils. Does not make as fine a sod as the Kentucky Blue Grass, but will stand rougher usage; 14 lbs. to the bushel.

Kentucky Blue Grass. An excellent variety for pasture. Also valuable for lawns when mixed with other grasses; 14 lbs. to the bushel.

Awnless Brome Grass—(*Bromus Intermis*)

An erect growing perennial that attains a height of from three to five feet. It is especially recommended for dry and arid soils where the more delicate grasses will not

Hungarian Grass

grow. Its remarkable drought resisting qualities, make it very valuable for dry situations, while its extreme hardiness enables it to withstand our coldest winters without serious injury. The rootstalks of this variety spread rapidly under ground, sending up new shoots, and thus form a close, dense sod. On this account it should not be sown, except where a permanent grass crop is desired; 20 lbs. to the bushel.

MILLETS

Millets should be sown in June and July, and are annual forage plants of thick growth, valuable for green fodder or hay; maturing in fifty to seventy-five days from the time the seed germinates, producing an abundant yield of forage, relished by all kinds of stock. They must be cut while in blossom to make good hay. At market prices at time order is received. All inquiries for quotations will be promptly answered.

Hungarian Grass. Early; grows two to three feet high; abundant foliage;

withstands drought and yields well on light soils; 48 lbs. to the bushel.

Golden Millet. Requires a dry, light rich soil, and grows two and a half to four feet high, with a fine bulk of stalks and leaves, and is excellent for foraging; 50 lbs. to the bushel.

New Siberian Millet. A new and wonderfully productive forage plant from Russia, which has given excellent results in the United States. It is extremely hardy and about two weeks earlier than German Millet, growing about four feet in height. Its stooling properties are remarkable, as high as 41 stalks having been grown from a single seed. Hay and fodder are very nutritious and much liked by all kinds of stock. Sow in June and July, one peck to the acre; 48 lbs. to the bushel.

CLOVERS

Prices subject to market changes. There are no plants so valuable for fertilizing as the clovers. They have the faculty for absorbing nitrogen from the air, and also of rendering available much of the inert plant food of the soil. Their long, powerful tap roots penetrate to a great depth, loosen the soil, admit air, and by their decay add immensely to the fertility of the soil. The seed may be sown in fall or spring; the best results will come from sowing in the spring, and is often sown on the late snows of April.

Medium Red Clover. **Pea Vine or Mammoth Clover.** **Alsike Clover,** **White Dutch Clover.** Valuable for pastures and for lawns.

Scarlet or Crimson Clover. This variety is an annual clover and should be sown each year, is fine for soiling cattle; has a beautiful crimson blossom.

Alfalfa or Lucerne Clover. Very productive; requires deep soil.

Alfalfa

DWARF ESSEX RAPE

This is very valuable for sheep pasture. It can be sown in May, and will be ready for pasturing in July or August; or it may be sown in June or even up to the middle of July, and yet furnish, under reasonably favorable circumstances, a large amount of pasture and fodder. It is very suitable for sowing on land that an early crop of potatoes has been taken off. In drills, about four pounds to the acre; broadcast, eight pounds to the acre. Pound, 12 cts.; 10 pounds for \$1.00.

SOJA OR SOY BEANS

Very valuable for fertilizing and enriching the soil; also used for pasturing, feeding as green fodder, and for silo purposes. Sow broadcast in May or June, at the rate of one bushel to the acre, or

Soja or Soy Beans

Sand, or Winter Vetch

A prolific bunch growing variety.

At market prices time order is received.

SAND, OR WINTER VETCH

One of the pea vine class of plants. Better than other fodder crops on poor, dry, sandy soil, while in good soil it makes a rank growth of four to five feet. Perfectly hardy all over the United States, stands drought well and remains green all winter. It is the earliest of all spring fodder crops. Sow for spring use in August with $\frac{1}{2}$ bushel of winter rye or oats, or in spring with $\frac{1}{2}$ bushel of oats, rye or barley. It is exceedingly nutritious, eaten with relish, and may be fed with safety to all kinds of stock. Sow at the rate of one bushel per acre.

At market prices time order is received. All inquiries for quotations will be promptly answered.

JAPANESE BARNYARD MILLET

This wonderful and valuable new forage plant was introduced into this country by Prof. Brooks, of the Massachusetts Agricultural Experiment

they may be planted in drills three feet apart and one foot between plants.

At market prices time order is received.

COW OR SOUTHERN PEAS

The great soil improver. Green crops plowed under are one of the best and cheapest ways of improving the soil. For this purpose the Cow Peas are the most popular, especially for medium and light soil. They should be sown the last of May or in June, at the rate of one and one-half bushels to the acre, and plowed under as soon as they have attained their growth. There is no surer or cheaper means of improving poor soil than by sowing Cow Peas. In its capacity as a nitrogen gatherer, its growth largely enables the farmer to dispense with the use of nitrogen or ammoniated fertilizers.

Cow Peas are also valuable as a forage crop.

Black Eye: Seed creamy white, with a large black eye. A prolific vine grower.

Whip-poor-will

Seeds are good size, speckled brown in color

Japanese Barnyard Millet

Japanese Buckwheat or
Common Buckwheat

Station. It has proven an enormous yielder in all sections of the United States; hay and fodder of most excellent quality on any soil, yielding 8 to 10 tons per acre and growing from 5 to 7 feet in height.

Cattle and horses eat it greedily.

Sow in May and June broadcast, 10 to 15 lbs. per acre (it stools remarkably), or in drills, 8 lbs. per acre.

Price, per pound, 7 cts.

Per 16 pounds, \$1.00.

If sent by mail, add 8 cents per pound for postage.

GRAINS

Prices subject to market changes. All inquiries for quotations will be promptly answered.

Wheat, Spring Rye, Winter Rye, Barley, Oats, Silver Hull Buckwheat, Common Buckwheat, Indian Wheat or Rough Hulled Buckwheat.

All our grains are selected expressly for seed, and are strictly pure and true.

All inquiries for quotations for grass seeds, grains, etc., will be promptly answered and samples sent by mail when desired.

Dunning's Lawn Grass Seed

This is a mixture of the different varieties of grass seed, which is best suited to this climate for lawns, grass plots, cemetery lots, etc., and selected with a view of suiting all soils and situations and whether used in pastures or lawns, has invariably produced the best results. It must be remembered, however, that much of the fine appearance of our lawns depends upon regularity in mowing. If they are left too long in spring before the operation is begun, or if allowed to grow strong in summer, and, more especially, if not closely mown at the latest period in autumn, they become coarse, the stronger grass overgrowing the weaker and the best, the smoothness of the surface being destroyed, and ultimately the whole becoming patchy and unsightly. All lawns should also be regularly rolled and, unless the subsoil be a porous, alluvial gravel, should also be thoroughly drained at their formation. A drain should be carried along at the bottom of each terrace slope, so that they may at all times be comfortable to walk upon. The seed may be sown in spring or fall, but, if sown in hot weather, a slight sowing of oats, which vegetates quickly among the grass, will serve to protect the springing grass. For forming new lawns, four bushels are required per acre, or about one quart to each square rod of land, which should be regularly and evenly distributed.

A liberal quantity of seed should always be used to insure the best results. Per pound, 30 cents. If sent by mail, add eight cents per pound for postage.

Per bushel of 20 lbs., by Freight or Express, \$5.50.

English Lawn Fertilizer

An Odorless Chemical Fertilizer For Lawns, Flower Beds and Kitchen Gardens.

This is a high-grade chemical fertilizer, especially prepared to promote the vigorous and healthy growth of luxuriant grass, enabling it to withstand rough usage and the protracted heat of summer.

Being free from weed seeds, and odorless, it is far superior to unsightly and strong smelling stables dressing for use on lawns and tennis courts.

For All General Farming

are, without doubt, the best fertilizers in the world for producing the largest possible crops of Grass, Grain and Vegetables in the shortest time. The Bradley Fertilizer Co. manufacture fertilizers of **all Grades** and for **all Crops** and being the **largest manufacturers in the world** their facilities for furnishing all kinds of fertilizers and agricultural chemicals at the lowest prices are absolutely unequalled.

A full stock of the following standard fertilizers constantly on hand:

Bradley's X L Superphosphate

Bradley's Potato Fertilizer

Bradley's Potato Manure

Bradley's Corn Phosphate

Bradley's Eureka Seeding=Down Manure

Bradley's Complete Manure with 10% Potash

Bradley's Complete Manure for Potatoes and Vegetables

For Lawn Fertilizer. (See page 43).

Send to us for finely illustrated pamphlets, describing all of their brands, and let us quote you prices on these unequalled fertilizers, before purchasing elsewhere.

Agricultural Lime

Especially prepared for agricultural purposes, and, being finely ground, it can be used in any broadcast sower.

Many plants, such as beets, spinach, lettuce, onions, parsnips, cabbages, cucumbers, peas, beans, turnips, carrots, corn and all grains, show a decided increase and are greatly benefited by the use of lime, as it corrects all acidity of the soil, sweetening it, and freeing it from impurities.

Lime properly applied at certain intervals will be found a most perfect renovator, one that can be relied upon. For the ordinary piece of land that requires lime it will be found that once in the rotation of crops, or, say once in four years, is as often as lime should be applied. It will hold the land in its proper condition for that length of time.

Put up in 100-pound bags.

Price per ton.....\$10.00

Send for Illustrated Catalogue.

Bradley's Superior Meat Meal

Is beyond question the best food ever manufactured for Hens, Turkeys and Ducks. Its continual use by the largest Poultry Raisers proves it is unequalled for quickly growing large-sized birds of fine flavor, and for producing large yields of superior quality eggs.

Birds

The only Grit containing the elements essential to the good health and egg-producing qualities of the feathered tribe.

PRICE: 100 lb. Bag, 75 Cents

Sterlingworth Poultry Charcoal

PREPARED ESPECIALLY FOR POULTRYMEN

We have had this Charcoal put up for us to meet the demand for an evenly graded charcoal, free from dust and useless dirt, and offer it as the best Poultry Charcoal manufactured.

This Charcoal should not be confounded with the ordinary commercial charcoal which is not evenly graded, generally contains large quantities of dust and is not always free from dangerous poisons.

Charcoal aids digestion, promotes health, and is generally corrective of many of the poultry ills to which fowls are heir. A little charcoal goes a long way and is worth its weight in gold. No poultryman can afford to be without it. It is put up in three sizes—Fine: For Brooder Chicks, Dry Chick Mixtures and Mash Foods. Medium: For Half Grown Fowls, Pigeons, etc. Coarse: For Full Grown Fowls, Geese, Turkeys, etc.

Prices: Packed in two-pound cartons printed with directions for feeding, 15 cents. Put up in 50-pound sacks, \$1.00 each.

Standard Cyphers Insurable Incubators and Brooders

FOR 1913 we offer our customers the Cyphers Company's complete line of incubators and brooders—THE BEST ON THE MARKET. For years the Cyphers Incubator has been consistently improved, always MAINTAINING ITS LEADERSHIP, until today it represents all that is most EFFICIENT, CONVENIENT and RELIABLE in incubator construction.

TO OWN A CYPHERS is to have an incubator that stands FIRST, not only because it has affixed to it the fire insurance label granted by the National Board of Fire Underwriters and bears a world-wide reputation, but because of the WELL ESTABLISHED FACT that it is THE BEST HATCHER of large, vigorous, livable chicks.

THE PRINCIPLES OF CONSTRUCTION that have made Cyphers Incubators "the world's standard hatchers" for the last twelve to fifteen years REMAIN UNCHANGED in the 1913 pattern. Their patented features, their entire freedom from the bothers, disappointments and losses common to the "Cheap" or "Bargain" incubator, makes these high-class machines the best for you to own FIRST, LAST AND ALL THE TIME.

CYPHERS INCUBATORS have now been on the market FIFTEEN YEARS and today are used by more Government Experiment Stations, on more large, practical poultry plants, on more successful duck and egg farms and by a larger number of foremost poultry breeders THAN ALL OTHER MAKES COMBINED.

CYPHERS BROODERS FOR 1913

Fire-Proofed and Insurable

Complete line for outdoor and indoor use. Employ top-heat and are self-ventilating and self-regulating. Are built on colony house plan (except indoor type); are substantially made, are fire-proofed, and every one bears the fire insurance underwriters' "Inspected Brooder" label.

THE CYPHERS STYLE A 1913 OUTDOOR BROODER

This was formerly known as the Storm King, is better made than its predecessor and is recommended for use of poultry raisers who feel that they do not wish to invest in the larger sized and more costly three-apartment outdoor brooders. This brooder is equipped with the Cyphers Fire-Proof Brooder Heater and Standard Adaptable Hover. It employs top-heat exclusively, thus giving the chicks free use of all space underneath the hover. It is self-ventilating and self-regulating.

Price: Style A 1913 Outdoor Brooder.....\$12.50

Send for Catalogue of Cyphers' Incubators and Brooders.

CYPHERS STYLE B 1913 OUTDOOR BROODER

This was formerly known as Style A. Is a three-apartment brooder, and has the same style of heater as the Style A 1913 Brooder and is twice as large.

Prices: Style B 1913 Outdoor Brooder, \$16.50.

CYPHERS STYLE D 1913 INDOOR BROODER

This brooder is designed to be used in dwellings, stables, poultry houses, etc. Is practically the same in all respects as the Style A 1913 Outdoor type, except that it is of more convenient shape for indoor use.

Price: Style D 1913 Indoor Brooder.....\$11.50

Adaptable Hover

Price: Cyphers Adaptable Hover.....\$8.50

CYPHERS ADAPTABLE HOVER

IN ADDITION to this unequalled line of brooders, we offer separately the Cyphers Company's world's challenge ADAPTABLE HOVER. This machinery-made, all metal, guaranteed fire-proof heating and brooding device is SUITABLE TO BE USED ANYWHERE that heat is required for brooding chicks or ducklings. It can be used in a roosting coop, colony house, shed, hen house, barn or other building with or without any additional enclosure for the chicks, or in a large goods case or organ or piano box.

THE CYPHERS NEW PORTABLE HOVER

This self-regulating and self-ventilating Portable Hover was invented by the Cyphers Incubator Co. in 1910 and has been well tested by them during the past two seasons in practical use.

It is self-regulating, as far as a brooding device can be made so. The same high-grade thermostat being used as is used on the Cyphers Standard Brooders.

It has a patented self-ventilating device which works automatically.

This Hover is for indoor use and has a capacity of seventy-five newly hatched chicks.

It is constructed throughout of metal, except the brooding curtain which is of woolen felt and fire-proofed.

Very simple in construction, convenient and economical to use.

Price\$8.50

**Cyphers New Portable
Hover**

OVINAPHTHOL LICE KILLING NEST EGG

Our Ovinaphthol Lice Killing Nest Egg is a combined nest egg and lice killer. By simply using it in the nests in the same manner as an ordinary nest egg is used, laying hens are cleared of lice and mites and are able to occupy the nests with comfort. Being prepared with great care for this special purpose, they last a long time and always retain their effectiveness. The genuine nest eggs bear embossed on each egg the words, "Ovinaphthol Nest Egg."

Prices: Each, 10c; per dozen, 75c.

THE INTERNATIONAL SANITARY HOVER

This hover is constructed of heavy galvanized iron. It is a well known fact that wood hovers provide cracks for mites and other vermin and unquestionably the sanitary is superior in that it can be easily cleaned and sprayed, so there can be no chance for vermin to live. It is very simple of construction, and very durable.

PRICE

Complete\$ 8.50
Send for circular, giving full description of this hover.

CYPHERS SAFETY BROODER STOVE

These stoves positively have no equal. They furnish twice as much heat as the ordinary brooder lamp. The safety water pan on the Cyphers Safety Brooder Stove holds nearly a quart of water and extends out over the entire surface of the oil bowl, removing all danger of overheating the oil. Just the stove for use in home-made brooders. Height, $7\frac{1}{2}$ inches; greatest width, $10\frac{1}{2}$ inches.

PRICE

Stove complete and ready for use.....\$1.75

THE ECLIPSE LEG BAND

No. 1 for Bantams and small Mediterraneans. No. 2 for Mediterraneans. No. 3 for American females. No. 4 for American males, Asiatic females, small turkeys. No. 5 for Asiatic males and turkeys.

The band is light and neat and will stay on. They are so made that when properly adjusted they cannot come off. They are made from polished aluminum, and will not tarnish. Those who prefer a flat band will find them superior to anything on the market, while the price places them within the reach of everybody.

Prices: Postpaid, 15c per 12; 25c per 25; 45c per 50; 75c per 100.

DOUBLE CLINCH LEG BANDS

Made in polished aluminum and are provided with a strong and secure fastener. Made in five sizes. See table of sizes given under Eclipse Leg Bands.

Prices: Postpaid, 15c per 12; 25c per 25; 45c per 50; 75c per 100.

Cyphers Dry Food Hopper and Sanitary Shell and Grit Box

Price 75 Cents

These are made of heavy galvanized iron, practically indestructible and will last a life-time with ordinary usage. They are practical labor and food saving devices.

THE DRY FOOD HOPPER has two compartments—a large one for grain mixtures, holding about six quarts, and a small one for beef scrap, holding about three quarts.

THE SANITARY GRIT AND SHELL BOX has three compartments for grit, oyster shells and charcoal. Can be used for dry food hopper where a small flock is kept.

Price 50 Cents

"The Boston" Poultry Dry Feed Hopper

One of the most economical devices for feeding dry feed, beef scrap, etc.

The Boston Hopper—all sizes—hangs against the wall or can be placed on the floor or ground. The swinging grid or metal guard prevents the fowls from wasting the food. The Hopper can readily be "locked" at night (or in the day time) by simply hooking the grid to the front section at the lower end—thus making the device rat-proof.

CYPHERS LICE PAINT

A Safe and Sure Liquid for

Killing All Insects Affecting Poultry or Stock

Cypfers Lice Paint is a liquid lice destroyer especially prepared for killing all insect parasites of poultry. It is also useful for killing all lice, mites and ticks affecting horses, cattle, sheep and hogs.

It is safe, and easy to use, and at the same time stronger than any other lice killer, as it is not diluted with cheap adulterations which would impair its effectiveness. It does the work and does it economically.

PRICES

1 quart can..\$.35. 2 qt. can..\$.60. 1 gal. can..\$1.00

CYPHERS ROUP CURE

This remedy is positively guaranteed by the manufacturers to cure roup in all its forms. It is simply put in water and the chick takes its own medicine. It prevents and cures cold and is unequaled for canker, especially in pigeons. No poultryman can afford to be without Cyphers Roup Cure.

PRICES

Small sample size...25 cents.

Medium size.....50 cents.

DUNNING'S ROUP REMEDY

This roup remedy is administered to fowls in their drinking water. The fowls take their own medicine. This is almost the only method by which it is practical to cure roup. No poultryman can afford to be without this cure.

It is guaranteed to relieve roup when it is used according to directions except where the fowls are in the last and incurable stages of the disease.

Prices: Package for 25 gallons of water, 50 cents, postpaid.

STERLINGWORTH DIARRHOEA REMEDY

A Certain and Guaranteed Remedy for Bowel Trouble and White Diarrhoea In Young Chickens and Scours in Fowls and Pigeons

A positive cure and preventive for White Diarrhoea seems too good to be true for this scourge has driven more poultrymen out of business than any other disease. Millions of chickens die yearly from this trouble, which could be saved if Sterlingworth Diarrhoea Remedy was used. Poultrymen should not wait until their chickens become diseased, but should use it as a preventive. It does not stunt the chicks or cause them to stop growing, but aids

them to become strong and healthy. It is used in the drinking water. The chickens and fowl take their own medicine.

It is sold under a positive guarantee to give satisfaction or purchase price is refunded.

Each package contains sufficient remedy for treating several flocks. Full directions on each package.

Price, per box, sufficient for several flocks, 50 cents.

CYPHERS LICE POWDER

In offering Cyphers Lice Powder we present a powder that we believe to be stronger than any other preparation sold for the purpose. It is carefully compounded and contains no chemicals that will injure the fertility of the eggs or prove dangerous to newly hatched chicks. It will positively kill lice on poultry, cattle and horses; ticks on sheep and fleas on dogs.

PRICES

15 ounce package, 25c.....postpaid, 40c
48 ounce package, 50c.....postpaid, \$1.00

STERLINGWORTH LICE POWDER

This is a scientifically compounded powder for killing all forms of insect life on fowls, and is equally good for destroying lice on cattle and horses, ticks on sheep and fleas on dogs. It is different from many of the so-called Lice Powders on the market, inasmuch as instead of driving the lice from the fowl's body, it kills them. While it is sure death to all kinds of insect life generally afflicting fowls and animals, it is harmless when used according to the plainly printed directions on each package.

PRICES

15 ounce package, 25c, postpaid, 40c. 48 ounce package, 50c, postpaid, \$1.00.

POULTRY FOODS

Owing to fluctuations in the grain market, it will be impossible for us to catalogue any prices on these goods. We shall have a good stock of them on hand and shall be pleased to quote prices at any time.

Cyphers Chick Food

This is a complete, scientifically compounded food for young chicks. It is a mixture of 11 different grains and seeds proportioned so as to meet all the needs of growing chicks, and to thoroughly nourish them. In compounding Cyphers Chick Food, the protein (or flesh and muscle forming element) is maintained high, the carbo-hydrates (or fat and heat forming elements) are reduced to their proper proportion and the ash (or mineral elements) is in sufficient amount to supply the needs of the rapidly growing bird. Put up in 100-lb. bags. Price furnished on application.

Crescent Chick Food

CLEAN.

SOUND.

SWEET.

A complete Grain Feed for Chicks.

A standard mixture of re-cleaned cracked grains, seeds and hulled oats in proportions necessary to promote the healthy and rapid growth of chicks. Put up in 100-lb. bags. Price furnished on application.

Cyphers Developing Food

Cyphers Developing Food is a special food intended for properly maturing young chicks, after they are ready to be weaned from Chick Food, and to carry them along to the age when it is desirable to place before them the larger whole grains. When the chicks are from six to eight weeks old they are able to eat and exhibit a preference for larger particles of grain than are found in our Chick Food. Put up in 100-lb. sealed bags only, bearing manufacturer's trade-mark. Prices furnished on application.

Mealed Alfalfa

This is the best form of clover for use in mash food for small chicks, the meal being ground just coarse enough to give bulk to an otherwise soggy mash, and thus allowing the gastric juices to become mixed with the food and to assist in thoroughly digesting it. Mealed clover contains the entire food plant—nothing is removed. Put up in 100-lb. bags. Prices furnished on application.

Cyphers Forcing Food

The mash food specially designed to promote rapid growth. Put up in 100-lb. bags. Prices furnished on application.

Cyphers Scratching Food

An ideal dry-grain mixture; affords variety and promotes exercise. Put up in 100-lb. bags. Prices furnished on application.

Cyphers Laying Food

A balanced ration, ready mixed for the daily mash. Put up in 100-lb. bags. Prices furnished on application.

Globe Scratch Feed

CLEAN

SOUND

SWEET

This is a standard mixture of Poultry Feed, manufactured from selected cracked and whole grains and seeds, scientifically mixed to furnish a complete balanced ration, with an assortment of material best adapted for rapid growth and egg production. The protein, fat and carbohydrates, are so maintained as to form the greatest feeding value and produce best results. Put up in 100-lb. bags. Prices on application.

Queen Poultry Mash

CLEAN

SOUND

SWEET

A selected mixture of ground feeds, manufactured from the choicest sound, sweet and wholesome grain. It is carefully prepared and contains ingredients in proper proportions essential to the health and growth of the fowl. Put up in 100-lb. bags. Prices on application.

GARANTOL

The Very Best and Cheapest Egg Preservative on the Market

Clean, fresh eggs properly preserved with Garantol keep fresh for a year and longer.

We have sold Garantol for a number of seasons. Out of all the people using it, we have not heard a complaint. Without an exception, they all claim that eggs preserved in Garantol are fully equal to fresh laid eggs.

CYPHERS FULL-NEST EGG FOOD

A Meat Food Tonic Conditioner That Makes Hens Lay

Full-Nest Egg Food is the standard condition powder for all ages of poultry. Besides being an unexcelled egg producer, it is a concentrated meat food possessing tonic properties, which promote good health and fine condition. It stimulates and invigorates, but unlike other tonic foods, it also builds up the system and keeps it up. Many condition powders tone up the bird's system for a while, only to let it drop back as soon as the use of the tonic is discontinued. Full-Nest Egg Food will help your birds through their molt, make the feathers develop normally and induce a high state of perfection in plumage. Hens begin laying sooner after molting where this egg food is used. Full-Nest Egg Food contains no injurious drugs or chemicals; it is safe and easy to use.

The Dunham Lawn Roller

The Only Lawn Roller With Roller Bearings

The Easiest Running Roller on the Market

The most essential tool for the care of a lawn is a roller. In the winter when the ground becomes frozen it expands, just as water does when it freezes. The thaw which follows the first warm days of spring allows the soil to settle back in its former position. But the sod, being much lighter than the soil, does not settle with the same rapidity. Large patches of grass roots in every lawn are thus left stranded in the air until after the growing season begins. The grass in these patches will die unless rolled down with a heavy roller as soon as the frost is out of the ground, so that the roots may again come into firm contact with the soil.

The proper use of a roller will make all the difference between a commonplace lawn and one of rare, velvety beauty.

No. 00

STANDARD TREE PRUNER

It does not crush the wood like the thick bladed shears.
It is the lightest device made for the purpose.
It will cut larger wood than any other device that is practical to handle.
It will clip the slightest twig on the extreme end of the limb.
It will reach higher than any other.

PRICE LIST

8 ft. 75c 10 ft. 75c 12 ft. 85c 14 ft. \$1.00 16 ft. \$1.10

Detroit Extension Tree Pruner No. 1

This pruner has a compound lever head and is made with a hook and side lever. It is calculated for heavy work and will cut a limb up to $1\frac{1}{4}$ inches in diameter.

The strength, durability and easy cutting qualities of these pruners will appeal to all who may use them.

Detroit Pruning Shears

Of large size, measuring nine inches over all, with forged steel blades. Very strong, durable and easy cutting.

Price75c each.

Rockdale Pruner

For cutting large branches; very strong and of finest quality.

PRICES

24-inch Handle\$.85
41-inch Handle\$1.00

Detroit Two Hand Pruner

This pruner is designed on scientific principles and is the result of long study and experimental work, very strong and durable. The blade positively will not cut or dig into the hook. The blade will not push the branch from between it and the hook. By dropping the hook considerably below the center line we have produced a positive draw cut superior to any other, with an opening between blade and hook allowing a straight thrust at the branch.

Price with 24-inch handle.....\$1.00

Clyde Clipper Draw Cut Pruning Shear

The construction of this Pruning Shear produces a powerful sliding cut movement of the blade. The Blade, Hook and Shank are made from Tool Steel and held together by a bolt with lock nut. The Handles are re-enforced by a pressed steel ferrule and cap.

Price with 24-inch handle.....\$1.75

Price with 30-inch handle.....\$2.00

The Samson Mounted Grindstone

Mounted With Specially Selected Stone

This frame is made of seasoned hardwood. The legs are securely gained into the side pieces and the ends are in one piece. Two bolts at each end pass through the entire frame from side to side. The ends of the side bars are neatly turned to serve as handles.

The "SAMSON" being strongly braced and bolted stands absolutely solid. It is one of the strongest and most showy frames made.

No. 1. Stone from 28 to 30 inches in diameter, \$3.75.

No. 2. Stone from 24 to 26 inches in diameter, \$3.50.

We ship Mounted Grindstones knocked down.

The Sterling Mounted Grindstone

A steel tubular frame, mounted grindstone. Ball bearing throughout. Is absolutely the best mounted grindstone on the market.

A double treadle frame embracing the bicycle features of our bi-treadle. Constructed of 11-16 and 11-4-inch diameter heavy steel-tubing, braced securely with heavy material; all rods and bolts are threaded; there are no cotter pins and no loose parts. Permanent rigidity is insured. Provided with a large comfortable seat and clothes protector, all tastefully enameled a rich vermilion.

Fitted on crank and shaft with improved ball bearings—encased—balls cannot work loose or drop out.

Stones about 20 inches in diameter.

Price \$4.50.

Scythe Stones

Green Mountain, a round, oval-shaped stone. Price 5 cents.

Ten-inch Ragg, flat, square finish, fine sharp grit. Price 10 cents.

Black Diamond, fine gritted, very sharp, and fast cutting. Price 10 cents.

Stand-by Dry Battery Cells

For use on Gasoline Engines, Motor Boats, Automobiles, etc.

Number 6, 2½x6 inches. Price, 25 cents each.

Number 8, 3½x8 inches. Price, 75 cents each.

Fowler Mower Knife and Tool Grinder

This grinder ranks first among all tool sharpeners. It can be adjusted to any position by means of the ball and socket joint and it puts a perfect bevel or sharp edge on sections, scythes, feed cutter knives or any other edged tools without extra wheels or appliances. The bar is perfectly free and the bevel of the section or cutting edge is always in plain view of the operator and when the grinder is once adjusted it is not changed until the work is done. It is the only machine made that will grind a broken or nicked section to a serviceable edge and with it the most difficult and despised job on the farm becomes a pleasure. This is without question the very best mower knife grinder on the market. Very simple in construction and easy to operate.

Light draft, very simple in construction, and of extraordinary strength and durability. Send for descriptive catalogue and price list. We carry a complete line of repairs for the Worcester Buckeye Mower.

Prices on Application

Bullard's Improved Hay Tedder

The Bullard Improved Hay Tedder, having been submitted to the severest test of field work, is admitted to be the only one yet offered to the public that will thoroughly spread long, heavy grass, taking it up from the bottom, tossing it gently into the air, and leaving it light upon the ground for free access of sun and air.

Price on Application

WORCESTER HORSE RAKE

It is made from right principles, simple, strong, durable and reliable. Will rake the roughest places as well as smooth ground.

It is so easily managed that a boy can run it as well as a man.

Price on Application

NEW YORK CHAMPION HORSE RAKE

The New York Champion Rake
Has Many Imitators, But
No. Equals.

Why It Takes The Lead

It has our patent tooth to prevent scratching.

It has no springs to get out of order.

It produces no jar on the thills when dumping.

It is so easily managed that a boy who can drive a horse can use it as well as a strong man.

Every rake warranted. Write for prices.

Worcester Kemp Manure Spreader

It will evenly and thoroughly distribute all kinds of manure found upon the farm, from the roughest and toughest down to the finest including ashes, lime and fertilizers, in all conditions, wet or dry, and the time required to spread a load is from one and one-half to two minutes, without manual labor.

It is regulated to put out different quantities to the acre. The farmer may know exactly how much manure he is using without the trouble of measuring his field and his manure pile. It can be accurately regulated to spread any number of bushels of ashes or lime to the acre.

Send for Descriptive Catalogue and Prices.

We carry a full line of repairs for this spreader.

Standard Steel Frame Weeder

This weeder is well made, strong and durable. It has a set of runners, not shown in cut, which regulate the depth of cultivation. When the weeder is used on soft ground, and shallow cultivation is desired, the runners may be set so as to cultivate at the depth desired. They are also very useful in transporting the weeder to and from the field and from one field to another.

Price \$8.00

Evans Potato Planter

This is the most improved machine of its class on the market, being strictly up-to-date in every particular.

It is a force-feed, is positive in its action, and will drop potatoes 10, 12, 14, 16, 18, 20, 28 and 36 inches apart.

The Fertilizer Attachment is a positive force-feed and any kind of fertilizer can be sown with it, at the rate of from 50 to 2,000 pounds to the acre.

SPRAY PUMPS

For Spraying Fruit Trees
Shrubs, Etc.

Half Inch Hose, any length, 10 Cents Per Foot
Brass Hose Couplings, 15 Cents each

LITTLE GIANT
Bucket Spray
Pump

This pump is constructed of brass, rendering it non-corrosible when used with any of the poison formula. The pump will be found useful for a great variety of purposes, such as washing vehicles, windows, etc.

Price \$3.00

Complete, except barrel, consisting of pump, 5 feet of $\frac{1}{2}$ -inch, 3-ply hose, one Vermorel spray nozzle.

Price \$9.00

Pipe extensions for spraying fruit trees, etc., furnished at 10 cents per foot extra.

Barnes' New Improved
Barrel Spray Pump

This pump is double acting and has no stuffing boxes or other intricate parts to get out of order. All working parts coming in contact with the liquid are brass. The body of the pump is a large air chamber and after the pump is under pressure it will discharge a steady spray lasting two minutes with one stroke of the handle.

BRASS LINED BAMBOO POLES

Bamboo brass lined spray poles, 8 or 10-ft. long. The inner tube is all in one piece, locked to the pole at both ends and will not turn inside of the bamboo. Is fitted with drip shield and is furnished either with or without stop cock.

Price complete with cock, 8-ft. \$3.50
Price complete with cock, 10-ft. \$3.75

THE "KING" SPRAY PUMP

Made for orchards where the trees are large and a great quantity of liquid is to be handled. This pump is so arranged that it may be mounted in any barrel. It has an extremely large air chamber which insures a uniform pressure at the nozzle, large cylinder which gives great capacity, and removable ball valve which enables the user to keep the pump in good working condition without taking it apart. This pump is so constructed that the packing may be tightened without taking the plunger out of the cylinder.

PRICES

For pump, complete, with agitator, but without barrel, hose and spray nozzle.

Number.	Cylinder.	Air Chamber.	
5	2 inch	2½ inch	\$10.00
6	2½ inch	3 inch	\$13.00

For 15 feet, ½-inch, 5-ply rubber hose, fitted with spray nozzle and ready to attach to pump, add \$2.35 to above prices.

**JASMIN
SPRAY CONTROLLER**
PAT. APPLIED FOR

"Perfection" Knapsack Sprayer

Built on the best lines, of high-grade material and with the idea of turning out a sprayer which has none of the faults and defects so common in many Knapsack sprayers heretofore on the market.

The tanks are made of heavier metal than has ever been used in sprayers of this kind, are lock seamed at the corners to convex heads of metal two gauges heavier than the sides, a single seam runs lengthwise of the tank. This seam is reinforced by rivets making the tank practically unbreakable. The pump is 1¼-inch seamless brass tubing with a brass valve.

This Sprayer will handle white-wash, water, paints, Bordeaux mixtures, etc., perfectly.

PRICES.

Galvanized Steel	\$5.00
All Brass	\$7.50

The Jasmin Spray Controller

A new way of controlling the flow of the liquid through bamboo poles, iron pipes and extensions of every sort used with spraying pumps. It attaches to end of pole in place of the old stop cock.

The flow of liquid is controlled by a one-quarter turn of the wood handle. When using it, the operator does not have to take his eyes off of his work, but shuts off the flow of liquid instantly when spraying is finished. Made of brass, fits ¼-in. pipe.

Price\$1.50

"Auto Spray"

PATENTED.

"Auto-Spray" No. 3-B

Whitewash and General Purpose Sprayer. Simple in construction. Perfect mechanically.

While the Auto-Spray No. 3-B is designed especially for a whitewash machine, it is also perfectly adapted to spraying all kinds of trees, plants, shrubs, vines, etc., and will be of the greatest value for Stock and Poultry Farms, Nurserymen and Florists, Fruit Growers, Cold Storage Plants, Factories, Packing Houses, Warehouses, etc. In fact, any and every place which requires the application of disinfectants, insecticides, fungicides, whitewash or cold water paint.

The Auto-Spray No. 3-B produces the greatest power, and with the use of the extension pipe the tallest fruit trees can easily be sprayed.

The reservoir is made of heavy galvanized steel and holds 8 gallons of solution. The pump and connections are made of heavy brass, except the handle parts.

Price, complete, with hose and extension pipes.....\$12.00.

Ideal Double Nozzle

Ideal Spray Nozzles

For all kinds of spraying; will spray all kinds of liquid.

PRICES

Single nozzle	\$1.00.
Double nozzle	\$2.25.

CYCLONE SPRAY PUMP

A MARVELOUS INSECT
EXTERMINATOR

Throws a spray as fine as mist and is, therefore more effectual than any other spray pump and uses about one-tenth the liquid. Very useful about plants, vegetables, shrubs, etc. Also a valuable addition to the hen-house for spraying the walls and roosts for lice.

Price 50 Cents

RACINE BROADCAST SEEDER

It will sow perfectly any quantity to the acre of all kinds of Grain, Wheat, Oats, Barley, Rye, Buckwheat, etc., or Grass Seeds, Clover, Millet, Timothy, Hungarian, etc. It will also sow Flax Seed, Hemp Seed, Peas, Corn and Fertilizers, in fact, anything which requires broadcasting, in a most satisfactory manner. It is the latest Wagon End Seeder on the market and superior to all others. It is heavier and stronger than any other seeder in use.

Price \$8.50

THE "KING OF THE CORNFIELD"

**Corn Planter and Fertilizer
Distributor**

**Superior to all for Planting Field, Ensilage and
Fodder Corn, Broom Corn, Beans
Peas, Beets and Other Seeds
of Like Size**

This planter is perfectly adapted to every requirement; durable and simple in construction; not liable to get out of order, in consequence of its having no gears, chains or other complicated parts to break or wear out. Anyone can at once understand and manage it. An important feature in this planter is that none of the working parts, except the Drive Wheel, are in motion only at the instant the seed and fertilizer is dropped in the hill, then it remains still until the next hill is reached. Corn planted by this machine germinates much quicker and comes up much more uniformly than if planted by hand.

Circulars and Price List mailed on application.

Pierce's Improved Cahoon's Patent Broadcast Seed Sower

For sowing Wheat, Barley, Oats, Buckwheat, Rye, Grass Seed, etc. Sows from four to eight acres per hour, at a common walking gait, throwing out wheat about forty feet wide.

A person entirely unused to sowing by hand can use this machine with perfect success.

Price \$3.00

Acme Dry Powder Gun

A Simple, Practical Implement for the Extermination of Potato Bugs and all Kinds of Insects, Flies, etc. The Pest of Every House and Garden.

It will handle all insecticides in the dry state—Pure Paris Green, Hellebore, Insect Powder, etc. It is very effective in the destruction of Potato Bugs, Currant Worms and all like pests, and for the wholesale destruction of house flies cannot be excelled.

3 Prong Cultivator-Hoe with 4-foot Handle.....	50 cents.
3 Prong Midget Weeder with 9-inch Handle.....	25 cents.

Fuller's Unique Wheel Hoe No. 1

For closely planted crops, as Beets, Carrots, Onions, etc., this hoe is without an equal and can be used the entire season. Having only one wheel it runs between the rows without bruising the tops, and having no frame work it does not tear the growing plants on either side. The great feature of this hoe above all others is that it can be easily and quickly adjusted to any height or pitch desired by means of thumb nuts. The entire hoe weighs less than ten pounds and yet is a most practical tool.

Price \$2.00

"Iron Age" Combination Double and Single Wheel Hoe, Hill and Drill Seeder, No. 6

The frame of this tool is made of pipe coupled to malleable castings, thus combining great strength with lightness. It has high wheels and is very easy running.

It places the seed in continuous rows or in hills 4, 6, 8, 12 or 24 inches apart as desired.

Can be very quickly changed to a double or single wheel hoe.

Price \$12.00.

"Iron Age" Double or Single Wheel Hoe No. 1

This hoe has the same general construction of frame and wheels as the Number 6. It can be very quickly changed to a double or single wheel hoe. A great labor saver and very durable.

Price \$7.00.

New Universal Double Wheel Hoe Cultivator Plow and Rake No. 14

Specially Designed for Working Both Sides of the Row at One Passing

This new hand implement embraces all the good points of older efforts in the same line, and in addition offers new features which can not fail of appreciation. The special recommendation is the ADJUSTABLE ARCH, by which not only the depth of work can be gauged, but which, by an ingenious device, enables the teeth to be pitched at any angle desired.

There are nine adjustments of depth. The attachments are: 1 pair Hoes, 4 Cultivator Teeth, 1 pair Plows, 1 pair Rakes and 1 pair Vine or Leaf Guards. Price, \$5.50.

Price, with hoeing blades only, \$3.75.

Send for Descriptive Catalogue of the Universal Garden Tools.

New Universal Gem Seed Drill, No. 18

This has been perfected to meet the demand for a low price drill. It has all the essential qualities of the larger and more expensive drills, the Seed Dial and Indicator being made from exactly the same patterns.

Price \$5.75.

NEW UNIVERSAL GARDEN DRILL, NO. 17

NONE BETTER CAN BE PRODUCED.

Medals and testimonials confirming its superiority over all other drills have been repeatedly bestowed upon it from all quarters, and as it has been improved from time to time, it is now everywhere acknowledged to be THE MOST PERFECT DRILL MADE. It has been many years in use and its still increasing sale is the best evidence of its merits.

Price \$7.50.

NEW UNIVERSAL "HILL AND DRILL" SEEDER, NO. 16

This Seeder is the same as the Garden Drill with the exception that it has pins in the wheel, which serve as a means for securing the various dropping distances of 4, 6, 8, 12, 16, 24 and 48 inches apart, as well as for sowing continuously in drills.

Price \$8.25.

NEW UNIVERSAL CONSTELLATION DRILL, NO. 19

With Hoe, Cultivator, Plow and Rake Attachments.

This is the same as the Garden Drill, with cultivating attachments. It can be used either as a Double Wheel or Single Wheel machine and change can be readily made. We do not particularly recommend a two-wheel seed sower, as the nicer work may be accomplished by a one-wheel machine. The two wheels are desirable, however, when used as a cultivator or wheel hoe, as in this way the rows of young plants may be straddled and the cultivating done on both sides of the rows at one passing.

Price \$9.50.

NEW UNIVERSAL CONSTELLATION DRILL, NO. 119

With Hoe, Cultivator, Plow and Rake Attachments.

This new implement is a combination of the No. 17 Garden Drill and a High Arch Expansion Wheel Hoe.

The seeder is especially recommended to users requiring a Perfect Drill Seeder.

The wheel hoe can be used either as a single or double wheel hoe, and on account of the high arch can be used as a "straddle-row" weeder and cultivator where the plants are 20 inches in height.

Price \$10.25.

New Universal Combined Hill and Drill Seeder, No. 22

With Cultivator, Rake and Plow Attachments.

In this new implement there are combined all the features of the NO. 16 HILL AND DRILL SEEDER, with a HIGH STEEL ARCH WHEEL HOE.

The seeder will plant in drills or in hills varying from 4 to 48 inches apart.

The wheel hoe with the high steel arch allows the cultivation of plants 20 inches high, and has adjustable sides so that it can be expanded up to 20 inches in width and can be used as a single or double wheel hoe, as desired.

Price \$11.00.

Dixie Cultivator, with 5 three-inch points, long hillers, wheel and expanding levers.....	\$5.50

"Iron Age" Diamond Tooth Cultivator

Especially adapted to pulverize the soil and leave it smooth and level. Especially recommended where intense cultivation is required. It will not throw the dirt, but will thoroughly work the surface of the soil.

Price \$4.75.

Standard Pivot Axle Riding Cultivator

The greatest labor-saving device ever offered in the line of cultivation, adapted for all kinds of farmers in cultivating all kinds of crops on hillside or plain,—in fact, to practically universal use. Pivot wheels—Gang Adjusting Lever, Strong Steel Wheels, and, although it is light and simple in construction, it is very strong, and possesses many advantages not contained in far more complicated tools. Quality of material and finish is the very best.

Send for Descriptive Catalogue and Prices.

“Iron Age” Pivot Wheel Riding Cultivator

One of the best and strongest riding cultivators ever put on the market. Every farmer, who contemplates cultivating from ten to fifteen acres of crop, should purchase one of these tools.

We have them fitted with both spring hoes and spring teeth.

Send for Descriptive Catalogue and Prices.

Syracuse Steel Frame Spring Tooth Cultivator

This series of Cultivators is especially adapted for use in stony ground. The frames are steel, strong and well put together throughout. The castings are malleable. The teeth are fine oil tempered springs and are alike and interchangeable; they are also adjustable for angle and depth.

Price, with expanding lever and five teeth\$6.00

The Yankee Pulverizer

A superior Disc Harrow, combining all the late improvements.

Send for Descriptive Catalogue and Prices.

We have this harrow in the cutaway patterns, if desired.

The Morgan Spading Harrow

The Morgan Spading Harrow is an "all around general purpose Harrow," and is adapted to all soils and conditions of soils. While not particularly attractive or handsome in appearance, a trial will convince any farmer that it will do the work. As a pulverizer, it is unequalled, and especially on broken or uneven surfaces, among stone, in sod or heavy clay. It has more cutting surfaces than any pulverizer in the market. The high arched frame allows it to pass over obstructions easily. The blades are S-shaped and ground sharp on the cutting edges and overlap; they cut into and lift the soil to a depth of 4 to 6 inches, turning and pulverizing the ground precisely like the hand spade. The gangs, which float freely can be adjusted to any desired angle by the hand lever. The cleaners are stationary and clean the blades, no matter what the condition of the soil.

Send for Descriptive Circular and Prices.

Old Original Perry Harrow

The Wood Frame Perry Harrow is the most durable of the spring tooth harrows. Is simplicity itself. Iron plated on the under side and in front, the entire length. Teeth cannot get loose. No levers or joints to wear and get out of repair. Harrows of this kind have been in constant use for twenty years.

PRICES

14-Tooth, \$10.00; 16-Tooth, \$10.00; 18-Tooth, \$11.00.

Aberdeen Spring Tooth Lever Harrow

Made entirely of steel and malleable iron; teeth set to any required depth. Tooth bars round and well elevated to prevent clogging.

PRICES

15-Tooth \$16.00
17-Tooth \$17.00

Syracuse Spring Tooth Lever Harrow

This style of Harrow has an advantage over the ordinary float harrow in that the depth of work can be quickly changed even while the harrow is in motion, and by operating the levers a uniform depth can be maintained in soils of variable hardness. The harrow will clog less and clear easier than any other harrow on the market.

15-Tooth Harrow \$16.00
17-Tooth Harrow \$17.00

Syracuse 1-Horse Spring Tooth Harrow

Frame of steel similar to Two-horse Harrow and is the best One-horse Harrow in the market.

Ten Tooth With Lever

Price \$9.00

REVERSIBLE SMOOTHING HARROW

The teeth are reversible, namely by the draw bar being attached to one end of the harrow, they are slanting, as shown in cut, while if attached to the other end they are vertical, same as the ordinary harrow. With the teeth slanting, it is a smoothing harrow. This is not only a smoothing Harrow, but a Pulverizer, a Leveler, a broadcast Weeder and Seed Coverer. It is made in sections of twenty-four teeth each. Two, three or four sections may be, but usually three are used.

Two Section Peerless Smoothing Harrow, weight 135 lbs. \$10.00
Three Section Peerless Smoothing Harrow, weight 200 lbs. \$14.50

Steel Land Rollers

The frame of these rollers is made of heavy angle steel. The drums have a steel head with a heavy steel casing. Axles are $1\frac{3}{4}$ -inch round machine steel, and extend the full length of the roller.

Prices do not include whiffletrees and neckyoke. If these are desired, price is \$2.00 extra.

Oliver Reversible Sulky Plow No. 23

The most complete and up-to-date Sulky Plow on the market.

The easiest to handle and safest to operate on hillside work.

By means of a "horse lift," which is brought into play by simply pressing forward slightly on the foot trip, the operator's work is diminished by fully one-half and it is not necessary to lean way back in an uncomfortable and often unsafe position to use the hand lever. With this plow the operator can keep his eyes on his team and his hands on the reins, the feet only are needed in order to raise the plow.

Second only to this important improvement is the simple and easily operated tilting device connected with the seat of this sulky, which, when plowing along hillsides, while the machine is off the equilibrium of the plow.

Send for Descriptive Circulars and Prices.

Oliver Steel Beam Plow

Especially designed for general purpose work, has superior turning qualities.

No. 82. Light.	Two-horse.
No. 83. Medium.	Two-horse.
No. 84. Heavy.	Two-horse.

A strong, heavy plow at a low price.

No. 1. Two to four horses. Weight with wheel 200 lbs. Write for Prices.

Wood Beam Wing Shovel Plow

Blades and wings of steel. Wings adjustable to throw more or less earth. Especially adapted for hilling potatoes and other light work.

Price, without wheel.....\$2.75

Price, with wheel.....\$3.00

Syracuse New Potato Hoe

This hoe is much used in potato growing sections for hilling or covering. The wings are of steel, so constructed that they will tilt up or down on the standard, and the standards are movable upon the crossbar, so that the wings can be placed the right distance apart. The crossbar is strengthened with iron braces, making a strong frame. The handles shift to right or left, so that operator can walk at the side of row.

PRICE \$6.00

The "Improved Bangor" Potato Hoe

This hoe is especially adapted as a potato, corn, or celery hiller, or as a coverer. Wings are polished steel, are adjustable to tilt up or down on the standards and the desired distance apart by moving standards in or out upon the crossbar. The wings are made in two parts so that the end or tail of the wing can be dropped down and thus work the earth up under the tops, instead of burying them. The crossbar is strengthened with iron braces, which connect it with the pole making a strong and durable frame.

PRICE \$6.00

Improved Disc Potato Hoe

A very easy working type of hoe, and considered by many to be superior to all others for covering and hilling.

It is fitted with 20-inch discs, which can be easily adjusted to any angle.

Price \$8.50.

Barrel Header

This is the most simple, labor-saving machine ever invented for heading up barrels and is used extensively for heading up apples, fish and other merchandise.

1-inch Iron Screw (attached fol-
lower)\$1.25

Wright's Animal Tether

This device is designed to obviate the danger of horses and other animals becoming entangled in the rope with which they are fastened. It consists of a pole about ten feet in length, connected with an upright bar, upon which it turns in any direction. The animal is fastened to the end of this pole by a rope, which is kept taut above his head by means of a spring at the base of the pole; this keeps the pole high in the air until in reaching for the feed the animal pulls it down, thus at all times keeping the rope from under his feet.

PARIS STEP LADDERS

This ladder is made with hardwood step standards and firmly braced between the steps, and is especially designed for household or store use, where a strong, durable and safe ladder is desired. Made in lengths from 2 to 10 steps.

Price, per step, 30 cents.

Challenge Step Ladder

This ladder is built especially strong and of the very best of material. Made especially for use where a long ladder is required. We carry this ladder in 12-step lengths only.

Price, per step, 46 cents.

Paris Step Ladder

LADDERS

Our common ladders are made of spruce poles, sides half-round, rungs split and hand-shaved, of second growth oak, making them strong, safe and durable.

Price, per foot, 15 cents.

Flat Sided Ladders

Made in lengths up to 20 feet.

This makes a nice, neat ladder for banks, halls and public buildings, as it has an extra smooth finish.

Price, per foot, 20 cents.

THE HOOPER SNOW SHOVEL

Majestic Rotary Washer

This washer is constructed of the best Virginia white cedar, and is very strong and finely constructed.

It is simple, strong, easy running and noiseless, the rotary motion being continuous, and the fly wheel heavy.

Very little power is required to operate this machine.

Price \$7.00.

Lightning Washer

This washer is constructed of the best Virginia white cedar, and is very strong and durable.

It is supplied with improved gearing and all castings are japanned.

Very easy running.

Price \$4.00.

The F. F. V. Improved Washer

Has the Celebrated "MAJESTIC
Washer"

movement which is "geared" up to a shaft with a well balanced, heavy weight fly wheel. The lever or handle is "direct geared" to the mechanism, and has a forged steel pitman rod which drives the machine with great power and speed, but with little labor, as the mechanism is so constructed and geared up, as to enable a small child to do the family laundry in the shortest time, and with the least work. The heavy, nicely balanced fly wheel, running on 7 polished rollers reduces friction to a minimum.

This machine has a Virginia White Cedar tub, that will not sog or rot, and is hooped with the best Electric-Welded Wire Hoops (galvanized). The main frame of the F. F. V. Improved is now made of two solid halves, with self-lubricating gear case, which is accident and dirt proof.

Price \$8.00.

Polar Hardwood Refrigerators

Polar Family Refrigerator

This Illustration Shows Our Hardwood "Polar" Refrigerator

Note the general style and beauty, and observe the artistic carvings. No wood is exposed in the interior of these refrigerators, a strong, metallic lining covering every part of the inside thoroughly. They are built with heavy air tight walls, thoroughly insulated. They have swing base boards which facilitates the placing of the drip pan and makes sweeping easy. They are trimmed with strong, handsome locks and hinges, and are a high-grade and first-class refrigerator in every particular.

Polar Ice Chest

The "Polar" Ice Chests

These chests are made of well seasoned pine, nicely grained to imitate oak. Fitted with galvanized steel shelves and ice racks.

Stone Lined Refrigerators

We carry in stock a line of stone-lined refrigerators.

Improved White Mountain Freezers

This is universally the favorite family Ice Cream Freezer, because it combines more excellence than all the other family freezers made. It is the only freezer made with a duplex dasher and double self-adjusting scrapers, which, by keeping every particle of cream in constant motion, causes it to freeze faster and more evenly than can possibly be accomplished by any other freezer.

No. 6,	Churns from 6 to 28 gals. cream..	\$20.00	\$18.00

The Hero Churn

The "Hero" Churn we offer to those desiring a lower priced churn, as we believe that there is more value for the money in this churn than in any other ever brought to our notice. The churns are made of best white oak, thoroughly seasoned and kiln-dried, having galvanized iron rim in head, making it very strong. The cover fastening is very simple and efficient.

CHAMPION MILK COOLER AND AERATOR

This is a perfect Aerator, removing flavors arising from excessive cabbage, turnip or silo rations.

It is a complete Deodorizer, removing the animal heat or cowl taste and all odors arising from the absorption by the milk of stable or other unpleasant gases.

It is a thorough Cooler, reducing the temperature of the milk in one minute nearly to the temperature of the cooling medium.

It is equally well adapted to the use of any cooling medium, either running water, or ice water.

Every farmer or milkman handling milk cannot afford to be without one.

The Blanchard Print Butter Carrier

This Carrier is designed more especially for the use of dairymen who deliver their butter directly to the consumer, though they are largely used for express shipments, and are substantially made so as to withstand considerable rough treatment. The trimmings are japanned throughout; the covers are strongly cleated and hinged; the corners are dovetailed; the finish first-class.

New England Root and Vegetable Cutter

This machine is made with a wrought shaft with sections of knives fastened to it and arranged so that a rotation of knives is continually passing a bed knife with cross knives passing between the section of knives; cutting always near the center shaft, making it cut easy and fine enough for cattle or sheep; also making a very regular cut. It will cut one bushel of roots per minute.

Price \$6.00

Buckley's Patent Watering Device

FOR WATERING STOCK IN STABLE

Water in the stable is a necessity for the proper caring of the stock; it should be of suitable temperature, and the stock should have constant access to it.

This is the most practical and economical device for watering cattle in the stable. The iron basins can be kept clean much easier than any form of wooden trough and there is nothing to wear or rot out.

The check valve at the bottom of each basin prevents clogging of pipes because no hay, meal or other substances can be drawn into them. It also greatly prevents the spread of contagious disease, as the supply of each basin is drawn directly from the main reservoir.

Water from a spring or reservoir is piped into a small tank, and the level of water in the basins is controlled automatically by a float valve on an overflow in this tank.

PRICE

Stanchion Basins, with brass valve seat and aluminum valve.....\$1.50 each

BOILER AND FEED COOKER

This Feed Cooker is so constructed as to get the best possible results from a small amount of fuel. The kettle is of very smooth cast iron, and can be removed from the casing instantly.

YANKEE HAND CORN SHELLER Style A

With Balance Wheel and Separator.

This corn sheller is especially designed to meet the wants of the farmer.

The materials used in construction are selected for the purpose, and shellers are made and finished in a thorough manner.

It has a capacity of from 20 to 25 bushels per hour.

The balance wheel is on the outside of the machine and adds momentum to it.

The separator separates the shelled corn from the cobs without breaking the cobs.

PRICE

Style A, with balance wheel and separator\$8.50

HYDRATED LIME

This Lime is specially prepared for use in making Bordeaux Mixture and is being extensively used for that purpose.

Much better results may be obtained from the use of this lime than from the ordinary lime, from the fact that no further slaking or screening is necessary, hence clogging of the sprayer is overcome by its use.

The following has been found to be the most satisfactory formula for making Bordeaux Mixture: Six pounds prepared lime, five pounds copper sulphate and 50 gallons of water.

Prepared Lime is in a powdered form and put up in forty pound paper bags.

Price, per pound 2 cents.
Price, per 40 pound paper bag.....40 cents.

Sterlingworth Bordeaux Mixture

This mixture is a scientific preparation and combined in a manner heretofore unknown, thus enabling the manufacturer to place it on the market in a practical and usable shape, as by simply adding water and stirring, it is ready for use.

One gallon will make 50 gallons by the addition of 49 gallons of water. Actual cost to you when ready for use 2 cents per gallon.

It Prevents Potato Rot, Potato Blight, Downy Mildew and Anthracnose of Grape, Peach, Pear and Cherry Blight, Etc.

Makes an excellent wash for Trees, Rose Bushes and Plants, destroys insects and their eggs. Price, per pound, 15 cents.

BUG DEATH

Pat. March 16 and Nov. 9, 1897.

Pat. in Canada Nov 2 1897.

Bug Death kills the potato, squash and cucumber bug, currant and tomato worm, also other plant and vine eating pests.

Dickey Duster

PRICE LIST

One Pound Package.....\$.15.

Three Pound Package.....\$.35.

Five Pound Package.....\$.50.

Twelve and One-half Pound Package, \$1.00.

One Hundred Pound Package.....\$7.50.

Dickey Duster\$.25.

Send for Circular giving full directions for using Bug Death.

This insecticide and Plant Food Combined has been on the market for fifteen years and its sales have shown a large increase each year. We can say to our customers that we give Bug Death our fullest endorsement. While the first cost to kill the bugs on an acre of potatoes is rather more than the arsenical insecticides, the results at harvesting time are entirely satisfactory, and where practical tests have been made, the extra yield of marketable potatoes has more than paid the entire expense. It is **non poisonous**, which makes it perfectly safe to use on all plants or vines.

Very Beneficial Results are obtained by using Bordeaux Mixture in connection with Bug Death, and they can be mixed and sprayed on the vines at the same time, with any of the spraying machines on the market for that purpose. **Bug Death prevents blight, Use Bug Death** for your fruit trees. It kills the insect pests, protects the trees, promotes their vigorous growth, gives freedom to the bees and insures quality and quantity of fruit.

IF USED DRY

Apply with Dickey Bug Death Duster or a cloth bag of right mesh; 12½ to 25 lbs. per acre per application. The more freely used the better the plant will thrive. Dust plant evenly and thoroughly.

Cooper's Sheep Dipping Powder

The best known preparation for destroying ticks on sheep, stopping the fly, preventing and curing the scab, promoting the growth of wool and improving the appearance and condition of the flock.

Price per packet.....50 Cents

Will make 25 gallons of wash.

Sherwin-Williams Lime Sulphur Solution

This solution is the result of much experimenting and is ideal for the use of horticulturists. It is a clear, sparkling, cherry-colored liquid, which is made from the very highest grades of lime and sulphur. It is absolutely free from sediment, and in air-tight containers will keep for an indefinite period.

Prices on application.

SHERWIN=WILLIAMS NEW PROCESS ARSENATE OF LEAD

(IN PASTE FORM)

Sherwin-Williams New Process Arsenate of Lead has many advantages over all other arsenical insecticides. It has an advantage over Paris Green, in that it remains in suspension when prepared for use for a longer time and because of its adhesiveness it will stick to the foliage for the longest possible time. It is absolutely harmless to foliage, and as it contains practically no water soluble arsenic, it is the only material of this character that can be applied with safety at the proper strength to the foliage of peach trees.

Arsenate of Lead should be used in proportions varying from one to six pounds of Arsenate of Lead to 50 gallons of water, the quantity of poison being dependent upon the particular leaf-eating insect that it is desired to destroy.

Put up in 1-lb. glass jars; 5-lb., 12½-lb., 25-lb. and 50-lb. wood pails and 100-lb. wood kegs.

Write for prices.

FLOUR OF SULPHUR Used to prevent mildew in grape vines, plants, etc. Valuable to use about the stable and poultry house.
Price, per pound, 5 cents; per 100 lbs. \$4.50.

SULPHATE OF IRON

The Great Weed Destroyer.

By spraying with Sulphate of Iron you can eradicate Wild Mustard, Wild Radish—better known as Kale,—and Wild Turnip from your grain fields.

Price, per 100-lb. Bag. \$1.00.

Send for Descriptive Circular telling when and how to use it.

SULPHO=TOBACCO SOAP

A Wonderful and Inexpensive Insecticide.

SULPHO=TOBACCO SOAP is a powerful agent for the destruction of all bugs and insects. One or two applications will rid plants of the pests. Full directions with each cake.

Destroys cabbage, squash and potato-bugs, currant-worms, lice, green-fly, mealy bug, red spider, etc. Sure death to all plant insects indoors and out-of-doors. Of special value for spraying shrubs, fruit-trees and vines.

3-oz. Cake makes 1½ gallons prepared solution. 10 cents. Mailed, postpaid, for 13 cents.

8-oz. Cake makes 4 gallons prepared solution. 20 cents. Mailed, postpaid, for 28 cents.

KNOX=EM=ALL

FLY OIL. THE BEST THING ON THE MARKET

For ridding Horses and Cattle of flies and all insect pests. And Poultry of lice and mites. Gad flies will not work on Sheep and they will not have Grub in the head. Inoffensive and harmless to persons and stock. Deadly to flies and lice. One hundred per cent. more lasting in effect than any other kinds.

Contains no fish oil or other objectionable ingredient. Can be used freely on Cows' Bags without inconvenience to milk or injury to the milk.

Cows give more milk and pay \$8 to \$10 per head more during the season at a cost of about 50 cents per cow. It can be used on horses without gumming or otherwise injuring the hair, and affords instant relief, making them thrive and drive better.

Directions:—For flies apply freely with a good sprayer. For lice spray the roosts, nests, and all places where vermin find lodgment, including the poultry when on the roosts.

Price, per gallon, 60 Cents

We carry a full line of SHERWIN-WILLIAMS PAINTS.

WATERING TROUGHS

These Watering Troughs are made of 2-inch selected White Pine, 24 inches wide, 22 inches high, outside measure. They are perfectly tight and very durable. They are the cheapest and best style of Watering Troughs on the market. Made in any length.

Price, \$1.50 per foot in length.

Cow Tail Holder and Milk Protector

A necessity to every progressive dairyman, who wants to keep his clothes and milk clean, as the tail is held by the patent spring that allows no switching of the tail.

It is made of spring steel and copper and will last a lifetime.

By pressing on the clamp, it is easily adjusted, as well as released, and always ready for use, as it is attached to the ceiling one foot back of the cow by a two-foot chain, and cannot be carried out into the pasture by the cow.

Price, postpaid 10 cents each.

NATIONAL FARM FENCE

Design Number 949.

Rolls 10 and 20 rods each.

National Fence is designed and built to please and satisfy the fence user; it embodies all the good features of the old fences and a lot of new and essential features that cannot be secured in the old styles.

The sizes of the wire are right, as well as the spacing, making an ideal fence for all purposes.

The National Lock that holds the stay to the bars is simply perfect, smooth, neat, and it never lets go.

We carry this fence in several heights; also a stock of the National Poultry Fence.

Send for Descriptive Catalogue and Prices.

THE LOTT STRETCHER

For Stretching Woven Wire Fence.

A very safe, rapid, powerful and durable stretcher.

This stretcher is operated with a long lever and is very simple and easy to operate.

Price, without lever.....\$4.50.

WIRE SPLICERS

Necessary and convenient for splicing wire in woven wire fence or elsewhere. Inexpensive and does the work well.

Price10 cents each.

A. S. & W. SINGLE WIRE STRETCHER

A very practical, single wire stretcher and gives the best of satisfaction wherever used.

It does not injure the wire, but has a grip that never slips.

It is all metal and will work in any position.

Price\$1.00.

AMERICAN FENCE TOOL

A very convenient tool made of fine steel, especially adapted to fence building purposes. It is a staple puller, hammer, cutter, plier, etc.

Price\$1.00.

CAST IRON SINKS

CLOVER LEAF PATTERN

This superior sink is recognized and endorsed by builders and plumbers as the best. It is heavy, strong, straight, and has a most perfect surface. The edge is furnished with a raised bead, which adds to the neatness and prevents wetting the outside finish. It will drain to the cesspool end if set level.

HOUSE PUMPS

We carry a complete line of cistern and pitcher pumps, outdoor pumps, force pumps, wind-mill pumps, etc.

Send for our catalogue on pumps and water supplies.

PUMP LEATHERS

We carry a complete line of leathers for all styles of pumps.

PUMPS

BARNES "JUPITER" DOUBLE-ACTING FORCE PUMP

With Reversible Air Chamber and Malleable Iron Lever.

Fig. 13A

Fig. 13A shows our New Improved "Jupiter" Double-Acting Force Pump, which is especially adapted for elevating water from cisterns to tanks in upper stories of residences, and is much more reliable than any water motor ever made, as it can be depended upon at all times. It is also used largely for cleaning and filling boilers and for fire protection, or can be used as a deck pump and many other purposes. All sizes fitted with our New Improved Brass Valves. Brass plugs are provided for draining cylinder to prevent freezing, and also for priming when necessary. The air chamber can be reversed so that discharge may be used on either side. The suction and discharge are always fitted for iron pipe unless otherwise ordered, but can be fitted for hose or lead pipe if specified.

All Brass Pumps, for pumping acids, furnished to order.

SIZES AND PRICES

						Brass Lined Cylinder
Number	Diameter Cylinder Inches	Stroke Inches	Suction Inches	Discharge Inches	List Price	Retail Price

PLUMBERS' FORCE PUMP

Fig. 14A represents a very effective force pump, weighing only about eight pounds. It can be carried about anywhere without the least difficulty. It is adapted for spraying fruit trees, washing windows, wagons, sprinkling lawns, conservatories, gardens, and for incipient fires. With each pump is sent suction and discharge hose connected, so that it requires no labor to put in immediate operation. Longer length of hose can be furnished, if desired. Pump has brass cylinder, plunger and rod.

SIZE AND PRICES

	List Price	Retail Price
Fitted with 2½ feet, ¾-inch suction and 3 feet, ¾-inch discharge hose, brass discharge pipe and sprinkler.....	\$9.00	\$6.00

Send for catalogue of pumps, water supplies, windmills, etc.

Fig. 14A

PUMPS

BARNES EXTRA HEAVY STOCK PUMP

With Wrought Iron Set Lengths Anti-Freezing. Open Top.

Fig. 18A

Fig. 18A represents our New Improved Heavy Lift Pump, which is especially adapted for stock purposes where large quantities of water are required from shallow wells. The handle is extra long and all parts of the pump are extra heavy. The spout has full 2-inch opening and the chamber or reservoir is large, thus causing practically a steady flow of water. The size of the plunger rod is $\frac{1}{2}$ -inch. It is built throughout to stand heavy service. All parts are lettered and numbered, thus avoiding errors in ordering repairs.

BEE KEEPERS' SUPPLIES

The Dovetailed Hive

The Dovetailed Hive is taking the lead of the single walled hives, as it contains many of the most desirable features of the various hives for the rapid handling of bees and is one of the cheapest hives manufactured.

It is dovetailed together as shown in cut and that is what gives it its name.

We carry these hives in both eight and ten frame, fitted with two supers. Write for Prices.

We carry bee hives in the flat only.

One Piece Section-Honey Boxes

These sections are made from selected white basswood and are sand papered and rubbed to a smooth, high polish. We carry nothing but No. 1 sections in stock and are put up in boxes containing 500 each.

Size $4\frac{1}{4} \times 4\frac{1}{4}$, width $1\frac{7}{8}$ inches, and $\frac{1}{8}$ -in. thick

Size $4\frac{1}{4} \times 4\frac{1}{4}$, width $1\frac{1}{2}$ inches, and $\frac{1}{8}$ -in. thick

Size $3\frac{3}{4} \times 5$, width $1\frac{1}{2}$ inches, and $\frac{1}{8}$ -in. thick

Size 4×5 , width $1\frac{1}{2}$ inches, and $\frac{1}{8}$ -in. thick

PRICE LIST

Per 100		\$.80.
Per 500		\$3.00.
Per 1,000		\$5.50.

Double Grooved Foundation Fastening Hoffman Self-Spacing Brood Frames

As thick-top frames, practically prevent the building up burr combs, frames with a thick top bar are almost universally used. The top bar is $\frac{3}{8}$ -in. thick and $1\frac{1}{8}$ -in. wide. The top bar is made with a double groove on the under side. One of the grooves is fitted with a bevel strip which presses the thin piece between the grooves against the foundation holding it perfectly straight and exactly in the center of the top bar. To put in foundation, insert edge in the groove in center of top bar, slip in the wedge in other groove and tack in place with two or three small wire nails.

Prices not set up

Per lot of 10.....	\$.40.	Per lot of 100.....	\$3.25.
--------------------	---------	---------------------	---------

COMB FOUNDATION

This foundation is made from the best grade of pure beeswax and before being made into foundation is entirely cleansed of all foreign substances.

PRICES

Standard Brood...58c per lb. Light Section...65c per lb.

If foundation is wanted by mail, add 25 cents per pound for postage.

BEE KEEPERS' SUPPLIES

GLOBE BEE VEIL

Has five cross bars riveted through the center at the top. These button to studs on the neckband. The bars are light spring steel, the neckband is of hard spring brass and the cover is of handsome, light material. It is very easily put together—no trouble to put on or take off. It protects against mosquitoes, flies, bees, gnats, etc. The veil weighs only five ounces. Price, \$1.00.

Parker's Machine for Fastening Starters in Section Boxes

Fasten machine to table with screws that are sent with it. Dampen the underside of point of lever with honey or water to prevent its sticking to the foundation. Place section in position with strip of foundation just under the end of lever; press lever down on foundation by lifting handle, turn foundation up against end of lever and slide lever off of foundation by lifting on handle and drawing it backward, which fastens the foundation to section.

Price for $4\frac{1}{4} \times 4\frac{1}{4}$ section.....30 cents.

By mail45 cents.

PAGE FEEDER

One of the best feeders for feeding over the brood nest. It is made from a solid block of wood and is covered with wire cloth. It has a bee space under bottom and also at top between wire cloth and top of partitions. Bees cannot escape while feeder is being filled. A small hole cut in mat and feeder set over same will be found a convenient way of using it, but it can be used in many ways.

Each nailed up complete, 40c.; by mail, 65c.

Standard Corneil Smoker

Price, 90c each. By mail, \$1.15 each.

We also carry the Cleated Separators or Fences for the $4\frac{1}{4} \times 4\frac{1}{4} \times 1\frac{1}{2}$ -inch plain section boxes and for the $3\frac{5}{8} \times 5 \times 1\frac{1}{2}$ -inch plain section boxes.

Clark's Cold Blast Smoker

Price, 60c. By mail, 85c.
