RETAIL PRICE LIST

OF

The Kansas Home ❖ Nursery ❖

A. H. GRIESA, Proprietor.

THE EARLY MELON APPLE.

Reduced size.

This is named Early to distinguish it from another Apple called Norton's Melon. It is not an early apple, but is good in August, and keeps till November. It is large, red, free from blemish; sticks to the tree when others drop; it is very uniformly productive, and the best apple for its season, no matter how many others are ripe at the same time. Surely try it.

RETAIL PRICE LIST
OF
The
Kansas Home Nursery
AND
Experimental Grounds.

Fruit and Ornamental Trees, Vines, Shrubbery,
Small Fruits and Evergreens.

A. H. GRIESA,
PROPRIETOR.

Box J, Lawrence, Kansas.

AGENTS

Sell 6 at 12, 50 at 100, and 300 at 1,000 rates.

Sell small fruits in even 6, 12, 25, 50's and 100 as they
are so tied and mossed.

We cannot assort Strawberries in less than 25 of each
kind.

Make no variations in prices without permission.

NOTICE.

IT is the object of The Kansas Home Nursery to produce the best trees and plants obtainable.

In the Experimental Grounds we have on trial all kinds of orchard and small fruits, ornamentals and shrubs, for testing, and we discard all inferior kinds and add those that have proved valuable, a thing not adopted by other nurseries.

The trees and plants on our Experimental Grounds get good clean care, no pet care bestowed on any, and the results that we obtain are reliable.

Our varieties include all the staple kinds recommended by the State Horticultural Societies west of the Mississippi, and I desire the salesmen to confine themselves to the kinds mentioned in this list. We ask and expect this for the best results to our customers.

The trees will be clean and thrifty, of proper age and size, properly labelled and tied, each kind to itself, and we guarantee the delivery in good condition, at the place designated.

In our Experimental Grounds we have originated the Kansas Raspberry, the Mele Strawberry, the Superb Apricot and the Cardinal Red Raspberry, each recognized to be without a peer by the fruit-growers fraternity.

Standard Apples

The following list of Apples is the best of the many varieties. They are very hardy, great bearers and fine quality, and I can recommend them as the most profitable variety to plant. The trees are two years old and strictly first class.

s for summer; *a* for autumn; *w* for winter.

CLASS A.

Well branched. 5 to 6 feet.

50 cents each; 5.00 per dozen.

Early Melon (*a*) Banana (*w*)

Bismarck (*w*)

(For description see "Experimental Report.")

CLASS B.

Well branched; extra fine; 5 to 6 feet,

~~25~~ cents each; \$2.50 per dozen; \$20.00 per 100

4 to 5 feet,

~~20~~ cents each; \$1.75 per dozen; ~~\$12.50~~^{12.50} per 100.

Yellow Transpar- Jeffries (*a*)

ent (*s*) Greenville (*w*)

Fanny (*s*) Nero (*w*)

Ingram (*w*) Ontario (*w*)

Senator (*w*)

(For description see descriptive catalogue and experimental report.)

CLASS C.

20 cents each; \$2.25 per doz; \$15 per 100.

4 to 5 ft, 15 cts each; \$1.75 per doz; \$12.50 100.

SUMMER.

Duchess of Oldenburg Sweet June

Conovers' Colossal	Palmetto
--------------------	----------

Rhubarb.

2 year old roots. 10 cents each; \$1 per dozen

Linnaeus	Victoria
----------	----------

Small Fruit Department.

We make an especial feature of growing currants, raspberries, gooseberries, blackberries and strawberries, and have for sale many varieties that we have originated and know to be first-class. In fact we do not offer for sale any varieties that have not fruited on our large experimental grounds. By fruiting them before offering to the public, we cast aside many varieties which prove undesirable, yet are offered for sale by other would-be nurserymen, who look forward to nothing but cash returns.

For suggestion, see report of my experiments, free by mail.

Blackberries.

CLASS A.

Special— Rathbun, 35 cents each; \$3 per doz.
Large, fine, healthy plants.

CLASS B.

\$1.50 per dozen; \$6 per 100.

Ohmer Erie

Minnewaski

\$1 per dozen; \$4 per 100.

Early Harvest Snyder

Raspberries.

CLASS A.

\$1 each; \$10 per dozen.

Special—New Cardinal Red.

If not satisfactory when fruited, will refund money paid. The very best.

CLASS B.

\$1 per dozen; \$3 per 100.

Kansas—black Miller's—red

CLASS C.

75 cents per dozen; \$2 50 per 100.

Progress—black Gregg—~~red~~ *Blue*
'Thompson' Prolific Palmer

Currants.

CLASS A.

50 cents each; \$5 per dozen.

PEARODY, KANS., Sept. 27, 1897.

MR. A. H. GRIESA, LAWRENCE, KANSAS:

DEAR SIR—In reply to yours of recent date, would say it is too hot and dry here for anything to grow; we have not even raised a respectable sunflower here this season.

The Kansas Raspberry is about the only thing that has stood the dry weather without injury.

I sold about forty dollars worth of berries from one-third of an acre, and if it had been a favorable season I would have doubled that.

Respectfully yours,

H. J. HANSON.

How Agents Report Delivering Kansas Home Nursery Trees.

"I have succeeded much better than I expected, or dared to hope, in my delivery; could have sold extra trees if I had had them; I now am confident to do better next time."

A. J. BARDELL,

———, Colorado.

McPIKE GRAPE.

Reduced size $\frac{1}{3}$

This new, large grape, has received first premium at many State Fairs and Horticultural Societies, and is worthy of trial by all who want to grow the best. Every vine will be sold with a seal.

CUT LEAF WEEPING MAPLE.

This is a variety of Silver Maple with fine cut foliage and pendulous branches, a desirable hardy tree.
