HERBACEOUS PÆONIES

From a small planting in 1905 I have now some 8,000 plants in stock, having supplied the St. Louis and Chicago market with cut flowers for the Decoration Day trade the past five seasons. I am satisfied that no crop of cut flowers grown in Southern Illinois, Missouri or Indiana, promises as well as the Pæony. This territory will produce the bloom five, ten to fifteen days prior to Decoration Day. Cold storage will hold them back so that the entire crop may be easily sold at fair prices.

I offer only a limited list of varieties. Too many varieties are a drawback in the packing and shipping of the buds. Plant the best varieties and eliminate the number of varieties as much as possible.
