Would You Like

Luscious Ripe Strawberries

of LARGE SIZE and highest QUALITY in

September and October of This Year?

You can have them if you plant the

NEW FALL FRUITING STRAWBERRY AMERICUS

Perfect berries of good size and excellent flavor

Equal to the best June-bearing varieties.

We have carefully tested this variety together with other Fall fruiting sorts for three successive years and found it to be *the Best of all Fall fruiting sorts*.

Very Productive

A crop averaging a pint of fruit per mother plant might reasonably be obtained in the fall of the first year, provided the rainfall was normal or the plants were kept watered and well cultivated. *A heavier crop* is quite possible when conditions of soil fertility, soil moisture and culture are all favorable.

Points of Merit

"Americus" is a pistillate or perfect flowering variety. The plants are heavily rooted, resistant to drought, and make a number of runners which will also bear fruit; however, it is not advisable to allow more than two runners per mother plant to remain.

The Berries are of good size, perfect shape and equal in flavor to the best June-bearing sorts.

Everbearing

The tendency to bloom and bear fruit is so strongly developed in this variety that even the newly formed runners will bear fruit of fair size. The plants begin blooming soon after they are set out and would bear fruit continuously until frost if left alone.

To Get a Large Crop

of berries in the fall, all blossoms should be removed up to as late as August 1st. Ripe fruit may then be had about September 1st and until frost.

"AMERICUS"

The Best Fall Fruiting Strawberry

Realizing its great value as a fall-bearer, we have increased our stock as rapidly as possible and have potted up a fine lot of extra strong plants

READY FOR SHIPPING ON AND AFTER JUNE 20th

POT-GROWN PLANTS SUFFER NO SETBACK in transplanting and can be depended upon to bear a full crop of berries this fall.

We have reduced the price so that anyone can afford to buy them and offer

Strong Pot-Grown Plants { per doz. \$1.25
per 100 8.00

REMEMBER, Early Plantings Produce Largest Crop. ORDER NOW.

Other Fall Fruiting Sorts

FRANCIS. Plants medium sized, fruit medium and rather long, glossy red; quality sweet and good. Not a good plant maker, but quite productive. Price for pot-grown plants. Per dozen, \$3.00; per 100, \$20.00

SUPERB. A close rival to Americus as a Fall cropper. Yields fruit only on the parent plant. The berries are rich blood red and of good size and flavor. Price for pot-grown plants. Per dozen, \$2.50; per 100, \$19.00

SPECIAL HINTS FOR SUCCESS WITH FALL STRAWBERRIES

MAKE THE SOIL RICH by applying a heavy dressing of well-rotted stable manure.

If convenient, supplement this by the application of chemicals supplying potash and phosphoric acid. For this purpose, sulphate or muriate of potash at the rate of 200 to 300 pounds per acre or 5 to 7 pounds per thousand square feet, and acid phosphate at the rate of 600 to 1,000 pounds per acre or 15 to 25 pounds per thousand square feet, would serve admirably; or instead of these chemicals, use any good fertilizer rich in potash and phosphoric acid but containing little or no nitrogen. Work both manure and chemicals well into the soil. **THE FALL-BEARING VARIETIES PRODUCE A CROP IN ONE-THIRD OF THE TIME REQUIRED BY THE JUNE-BEARING KINDS.** It is therefore only fair to give them the benefit of extra fertility. It will pay well to do so.

FIT THE SOIL by very thorough plowing and harrowing or spading and raking. **SET THE PLANTS AS EARLY AS POSSIBLE.**

GROW THE PLANTS IN HILLS, keeping all runners cut; **OR IN HEDGEROWS**, allowing each mother plant to make one or two runner plants, and thereafter cutting all runners.

DO NOT LET THE PLANTS BLOOM AT ALL UNTIL ABOUT AUGUST FIRST—keep the buds, or failing this, the blossoms, picked.

After picking the blossoms for the last time, **APPLY STRAW OR OTHER LITTER AS A MULCH** around the plants. This will save soil moisture, and keep the fruit clean.

IF CONVENIENT, SPRAY with lime-sulphur solution and arsenate of lead, or with Bordeaux mixture and arsenate of lead. Spraying should be at intervals of a few weeks. It should be continued in the case of the fruiting bed until blossoms are picked for the last time. Get spraying directions from your state experiment station.

Strawberry

WEEBER & DON'S

Pot - Grown Strawberry Plants

Planted This Summer

WILL BEAR A FULL CROP NEXT SPRING

Ready About July 15th

Pot-Grown Strawberry Plants

are much superior to the ordinary ground layers, as there is no

loss of fine roots in taking them up. They can be transplanted at any season with scarcely any check to their growth.

Our plants are grown with a view to giving satisfaction to our customers, and are not sent out until well rooted and established in pots. They are carefully packed, always reaching their destination in good condition.

Brief Cultural Directions

Strawberries require rich, well-drained soil, as undrained land induces fungus growth, the worst enemy of the Strawberry. The plants should be set about 15 inches apart, and 2 feet between the rows. Firm the plants well in the soil, keeping thoroughly cultivated, and cut off all runners. About December 1st cover the beds to a depth of 3 inches with meadow hay, straw or leaves. In April, as soon as the plants show an indication of growth, push the covering off to allow them to come through.

Perfect and Imperfect Flowering Strawberries

Perfect Flowering

Strawberry plants produce two kinds of blossoms, "Staminate" (Perfect Flowering) and "Pistillate" (Imperfect Flowering). Perfect flowering varieties can be planted alone, and will bear good crops of berries, but Imperfect varieties will not bear good berries when planted alone; they must have a row of some Perfect Flowered sort planted

Imperfect Flowering

every nine or twelve feet apart among them to pollinize their blossoms.

Pot-Grown Strawberry Plants.

Ready about July 15th. Order Early!

BARRYMORE

- August Luther.** (Perfect.) This extra early berry succeeds everywhere. The flesh is dark red, very firm and excellent flavor. A valuable shipping variety. 60 cts. per dozen; \$4.00 per 100
- Auto.** (Perfect.) An immensely productive mid-season variety, bearing large handsome berries of high quality. This variety bears fine crops in dry seasons, when many other sorts give only a small yield. 60 cts. per dozen; \$4.00 per 100
- Barrymore.** (Perfect.) A high class mid-season variety, producing fruit of the very finest flavor. Very large, glossy and attractive. 60 cts. per dozen; \$4.00 per 100
- Beder Wood.** (Perfect.) This is one of the very best early berries. The fruit is large, conical, bright red color and of excellent quality. 50 cts. per dozen; \$3.50 per 100
- Brandywine.** (Perfect.) The berries are large roundish-conical, regular and uniform, bright glossy crimson, very handsome, firm and solid, excellent in quality, with fine aromatic flavor. Plant remarkably vigorous and productive. Mid-season to late. 50 cts. per dozen; \$3.50 per 100
- Bubach.** (Mid-Season Pistillate.) The most popular of all large strawberries. It is a wonder in its season of fruit, completely covering the ground about the plant with large berries. The berries are roundish, slightly flattened, color, orange scarlet. 50 cts. per dozen; \$3.50 per 100
- Cardinal.** (Pistillate.) This magnificent "long season" strawberry is adapted to all purposes, all soils, and all methods of culture. The berries are medium to large in size, nearly round, and are exceptionally beautiful in appearance; colored brilliant bright red. Ripening uniformly with no green nor white tips. 60 cts. per dozen; \$4.00 per 100
- Commonwealth.** (Perfect.) A valuable extra late variety. The fruit is large, broadly cone-shaped and smooth. Color dark red, juicy, and excellent quality. 60 cts. per dozen; \$4.00 per 100

Pot-Grown Strawberry Plants—Continued.

MARSHALL

EXCELSIOR

COMMONWEALTH

Climax. (Perfect.) (Extra early.) Of a large size and uniform in shape. Splendid bright color and excellent flavor. Foliage a beautiful light green, plants very strong and hardy. A very productive bearer, having a good record as being a very profitable bearer for general planting. 60 cts. per dozen; \$4.00 per 100

Clyde. (Perfect.) Is as large as Bubach, nearly or quite a week earlier and very much firmer. It is a strong staminate. The plant is very vigorous and healthy. Season early. 60 cts. per dozen; \$4.00 per 100

Chesapeake. (Perfect.) One of the best and sweetest late strawberries grown. It is very large, of fine form, and excellent flavor. The plants and berries are perfect in every way. 75 cts. per dozen; \$5.00 per 100

Chipman. (Perfect.) One of best mid-season berries of recent introduction. The plant is of strong upright growth with large healthy foliage. The glossy red fruit is medium in size, very prolific and an ideal variety for home consumption. 60 cts. per dozen; \$4.00 per 100

Early Ozark (Perfect.) This new extra early variety ripens its crop and is out of the way before mid-season kinds come in. The fruit is dark crimson in color, very large, and does not get small towards the end of the season. An exceedingly prolific variety. 60 cts. per dozen; \$4.00 per 100

Excelsior. (Perfect.) A valuable extra early sort. The fruit averages large, handsome and firm. 50 cts. per dozen; \$3.50 per 100

Fendall. (Perfect.) The berries are perfect beauties, rich red in color, smooth and glossy, with long stems and large showy raps. The merits of the Fendall are great vigor of plant, splendid root system, wonderful productiveness, large size of fruit, fine flavor and length of bearing season. Berries picked from June 2d to July 10th is its record. 75 cts. per dozen; \$5.00 per 100

Gandy. (Perfect.) One of the best late strawberries. In size and firmness it is all that can be desired. The berries are large, very uniform in size and shape, of bright crimson color, handsome and showy, very firm and of good quality. 50 cts. per dozen; \$3.50 per 100

Glen Mary. (Perfect.) (Mid-Season.) A superb variety, which unites large size, great productiveness and good quality; bright glossy crimson, and fine in flavor. The plant is strong and healthy, very prolific. 50 cts. per dozen; \$3.50 per 100

Jessie. (Perfect.) Similar to the McKinley, being about two weeks earlier than that variety. Berries large, of a bright red color, very productive, flavor delicious. Fruit holds its size until end of the season. 60 cts. per dozen; \$4.00 per 100

Marshall. (Perfect.) A superb variety, especially desirable for its large size and fine flavor; dark crimson when fully ripe, handsome and good. Its excellent quality, fine flavor and large size render it admirable for table use. Mid-season. 50 cts. per dozen; \$3.50 per 100

McKinley. (Perfect.) The fruit is large, roundish, inclining to conical, but sometimes flattened or coxcombed; color crimson, flesh firm and quality very good. The plant is vigorous, healthy and a great yielder. Season medium to late. We can confidently recommend it for garden or market culture. 50 cts. per dozen; \$3.50 per 100

New York. (Perfect.) As fruited here, the berries are large to very large; season of ripening, medium; color, dark scarlet, changing to crimson, when fully ripe; colors all over at once, no green sides or green tips. The quality is good. In growth of plant it is very large and stalky. 60 cts. per dozen; \$4.00 per 100

Pot-Grown Strawberry Plants—Continued.

- Nick Ohmer.** (Perfect.) The plant is a good grower, of large size, free from rust, makes a good number of plants and bears very heavy crops. The fruit is very large, dark glossy red, firm, of good quality. It has a long season extending from early medium to late. It is especially adapted to hill culture.
50 cts. per dozen; \$3.50 per 100
- Oom Paul.** (Perfect.) This is one of the largest berries ever introduced. It is a large, thrifty, open growing plant with glossy dark green foliage. It is of fine color and of extra good quality, and is one of the most valuable for home or commercial purposes.
60 cts. per dozen; \$4.00 per 100
- President.** (Pistillate.) Fancy berry. Uniform large size, covering a long season of fruit. Very valuable.
60 cts. per dozen; \$4.00 per 100
- Royal Sovereign.** The fruit is of the largest size and conical shape; color is a bright, glossy scarlet; flesh white and firm. The plants are strong growers and produce large crops of berries. Unequaled for early forcing.
75 cts. per dozen; \$5.00 per 100
- Sample.** (Pistillate.) Plants strong and vigorous, very productive, medium to large berry. (Mid-season to late.)
60 cts. per dozen; \$4.00 per 100
- Sharpless.** (Perfect.) Berries large to very large, somewhat irregular in shape, crimson, moderately firm and of good quality. Mid-season.
50 cts. per dozen; \$3.50 per 100
- “Stevens Late Champion.”** (Perfect.) This late variety is remarkable for its heavy cropping qualities, and does well on light sandy soil. The berries are large, perfect in form, color bright crimson.
60 cts. per dozen; \$4.00 per 100
- “Success.”** (Perfect.) This new strawberry is the earliest large variety we know of. The berries are globular in form, slightly conical and of a bright scarlet color. The flavor is mild, sweet and rich, a vigorous grower and very productive.
60 cts. per dozen; \$4.00 per 100
- Silver Coin.** This mid-season variety is believed to excel all others of its season in uniting desirable properties. The berries are large, uniform in size and shape and very productive.
75 cts. per dozen; \$5.00 per 100
- The Hunn.** (Pistillate.) This extra late berry is round, handsome and uniform in shape. The flesh is very firm, color dark crimson. The berries are extra large, of excellent flavor and deeply colored. It is of strong, vigorous growth, very prolific and can be recommended as a valuable late variety.
50 cts. per dozen; \$3.50 per 100
- Uncle Jim.** (Perfect.) Wonderfully productive, very uniform in shape, of a bright red color, and fine quality. The fruit stalks are exceedingly stout; but when borne down the berries do not rot on the underside, before they are ripe enough to pick.
60 cts. per dozen; \$4.00 per 100
- Wm. Belt.** (Perfect.) The berries are as large as Bubach, more perfect in shape, just as productive and the color is perfect. (Mid-season.)
50 cts. per dozen; \$3.50 per 100

W. & D.'s Sure Crop Mushroom Spawn.

English Spawn. (In bricks.) The finest quality, per lb 15c; 8 lb \$1.00; 100 lb \$12.00.

Pure Culture Spawn. (In bricks.) The finest quality, per lb 20c; 7 lb \$1.00; 100 lb \$13.00

Virgin Mushroom Spawn. Tablets, 15 cts. each; \$1.50 per dozen; \$10.00 per 100

W. & D.'s Farm Seeds.

(For Summer Sowing.)

Alfalfa. Very valuable, not only as a forage crop, but as a soil enricher. If sown broadcast, sow 30 to 40 lbs per acre; if drilled in, sow 25 to 30 lbs per acre.

Per lb 30c; per 100 lbs, \$27.00

Crimson or Scarlet Clover. Excellent for a cover crop in orchard, or for plowing under to improve poor soils. Sow at the rate of 20 lbs per acre.

Per lb 15c; per 100 lbs, \$12.00

Hungarian Millet. The quickest catch crop for hay, may be sown any time through the Summer up to the middle of August. Sow one bushel per acre.

Per bushel (48 lbs), \$2.50

Japanese Millet. A distinct variety, grows tall and produces an enormous crop. Is much relished by all kinds of stock whether green or cured. Sow at the rate of 15 lbs per acre.

Per lb 10c; per 100 lbs, \$8.00

Dwarf Essex Rape. Provides a perfect pasture and is relished by all kinds of Stock. Sow 10 lbs per acre broadcast and 5 lbs per acre in drills.

Per lb 12c; per 100 lbs, \$10.00

W. & D.'s Evergreen Lawn Grass

(Weight per measured bushel, 24 lbs.)

Composed of the highest grade of re-cleaned seeds only, and sure to give most satisfactory results. One pound will sow 400 square ft. and 100 lbs will sow one acre.

Price per lb, 40c; 5 lbs, \$1.75; 25 lbs, \$8.00; 100 lbs, \$30.00

HARDY PERENNIAL FLOWER SEEDS

The perpetual charm of hardy gardens has won for them wide and intense enthusiasm. While natural and restful in general effect their beauty is yet ever varying and ever appealing, for flowers may be found in them throughout the season. Perennials are quite easily raised from seed and can be sown as late as September. A light sandy loam is most suitable and seed beds should be shaded from the hot sun, and be kept moist. When the plants are large enough to handle they may be transplanted to a permanent place. A little protection for nearly all the hardy plants in Winter is very beneficial; for while they survive the severest frosts, they are frequently killed by alternate freezing and thawing in early Spring. Hay, leaves or straw furnish excellent material for covering.

Wisetonensis. Charming new long-blooming varieties, multitudes of light colored flowers; excellent pot plants

Weeber & Don's Extra Selected BULBS FOR EARLY FORCING

LILIUM HARRISII Bermuda Easter Lily

(Ready in July)

This Lily is at present the favorite variety with both the proficient and the amateur. Flowering at Easter makes its long white tubular flowers of extreme fragrance all the more welcome. For table or church decoration, no plant is more useful, and it remains after cutting in perfect condition for a long time. Without doubt, the Bermuda Easter Lily is now the most popular white flowering plant.

Extra Size Bulbs. 7 to 9 in. Each 20c., doz. \$1.75, 100 \$14.00.

Mammoth Size Bulbs. 9 to 11 in. Each 30c., doz. \$3.50, 100 \$28.00.

LILIUM LONGIFLORUM FORMOSUM

(Ready in July)

This new type of Easter Lily comes from the Island of Formosa. It is easy to grow and free from disease.

First Size Bulbs. 7 to 9 in. Each 15c., doz. \$1.25, 100 \$8.00.

Mammoth Bulbs. 9 to 10 in. Each 20c., doz. \$1.75, 100 \$14.00.

Extra Monster Bulbs. 12 to 15 in. Each 30c., doz. \$3.25, 100 \$24.00.

LILIUM CANDIDUM

Annunciation, Madonna or St. Joseph Lily

The well-known Garden Lily; snow white, fragrant blossoms; grows from 3 to 4 ft. high. Blooms in June in the open ground; is also a good forcer for greenhouse work. A shady nook in the garden is made exceedingly bright by its presence. Quite hardy, needing no protection from frost.

Monster Size Bulbs. Each 20c., doz. \$2.00, 100 \$15.00.

NARCISSUS TRUMPET MAJOR (French)

Grown in the south of France, these bulbs ripen much earlier than those grown in Holland, and are therefore of great value for early forcing. They can be had in bloom fully a month ahead of the Dutch-grown stock. The flowers are large, trumpet and perianth deep golden yellow. Doz. 35c., 100 \$2.25, 1000 \$20.00.

Polyanthus Narcissus

Paper White Grandiflora Multiflora. A great improvement on grandiflora, vigorous grower with fine spike which carries large trusses, and in greater abundance than the old variety. Doz. 40c., 100 \$2.50, 1000 \$20.00.

Paper White Grandiflora. Beautiful clusters of pure white flowers. **Mammoth Bulbs.** 14 ctm. and over. Doz. 30c., 100 \$2.00, 1000 \$18.00.

FREESIA

Very popular and greatly prized for the delightful fragrance of their delicately colored flowers, which are splendid for cutting. They last a long time in water.

Purity. Magnificent

pure white flowers of large size, borne on long stiff stems, one truss bearing from 8 to 10 blooms.

A New Four-Leaf Clover Oxalis Repens Atropurpurea.

A remarkably pretty plant of rapid growth, producing numerous four petalled leaves of a rich deep green color with a purple zone around the center, and pink blossoms. Introduced about a year ago by Mr. M. Schling, of New York, this plant has attracted the widest attention and is greatly admired by all who have seen it; in fact, it is today the latest and most fashionable mascot of society. Every gardener should grow a few. Just the thing for a gift to the sick friend or the traveler. It will thrive well in the house and is a glorified addition of our time honored charm, the Four-Leaf Clover.

Bulbs. 10c. each. 75c. doz. \$3.50 per 100
Plants from 2 1/2-in. pots, 50c. each. \$5.00
doz. \$35.00 per 100.

Bulbs. Ready for delivery from January 1st to June 15th. Orders booked now.
Plants. Ready July 1st.

OXALIS, Bermuda Buttercup

Beautiful large, clear yellow flowers. Doz. 30c., 100 \$2.00.

COLD STORAGE LILY OF THE VALLEY PIPS

W. & D.'s Extra Selected, Strong
Berlin Pips

(Can be supplied at any time of the Year.)

WEBBER & DON'S

Pot-Grown Strawberry Plants

Planted this Summer

WILL BEAR A FULL CROP OF BERRIES

NEXT SPRING

Pot-Grown Strawberry plants are much superior to the ordinary ground layers, as there is no loss of fine roots in taken them up. They can be transplanted at any season with scarcely any check in their growth.

Our plants are grown with a view to giving satisfaction to our customers, and are not sent out until well rooted and established in pots. They are carefully packed, always reaching their destination in good condition.

Brief Cultural Directions

Strawberries require rich, well-drained soil, as undrained land induces fungus growth, the worst enemy of the Strawberry. The plants should be set about 15 inches apart, and 2 feet between the rows. Firm the plants well in the soil, keeping thoroughly cultivated, and cut off all runners. About December 1st cover the beds to a depth of 3 inches with meadow hay, straw or leaves. In April, as soon as the plants show an indication of growth, push the covering off to allow them to come through.

Plants Ready about July 15th

FROM

WEEBER & DON,
SEED MERCHANTS AND GROWERS,
114 Chambers Street,
NEW YORK.

INSECTICIDES AND SPRAYERS

"APHINE"

A powerful insecticide, but does not affect the most tender growths. Mix one part Aphine to forty parts water for use. Price, per ¼ pt. 25c., ½ pt. 40c., pt. 65c., qt. \$1.00, gal. \$2.50.

ARSENATE OF LEAD

Popular remedy for use against all eating insects that attack foliage and fruit trees. Use two or three pounds to fifty gallons water. 1 lb. 25c., 5 lbs. \$1.00, 10 lbs. \$1.80, 25 lbs. \$3.75, 50 lbs. \$6.50, 100 lbs. \$12.00.

PYROX (BOWKER'S)

Kills all leaf-eating insects and prevents blights and fungous troubles, without injury to fruit or foliage. Sticks like paint, and rain won't wash it off. Lb. 25c., 5 lbs. \$1.00, 10 lbs. \$1.75, 25 lbs. \$4.00, 100 lbs. \$13.50.

READEANA

(Rose Bug Exterminator)

Destroys Rose Bugs, Black Ants, etc., without injury to plants. Mix one part with three parts water, and apply with brush or sprayer. In bottles, 50c., \$1.00 and \$2.00; gal., \$4.00.

TREE TANGLEFOOT

A perfect safeguard for trees and shrubs against Gypsy and Brown-tail Moths and other creeping insects. Price, 1 lb. 30c., 3 lbs. 85c., 10 lbs. \$2.65, 20 lbs. \$4.80.

VERMINE

A soil sterilizer and germicide for all soil vermin, such as Cut Eel, Wire and Grub Worms, Slugs, Root Lice, Maggots and Ants. One part vermine to 400 parts water, thoroughly soaking the ground, does its work effectively without injury to vegetation. ½ pt. 40c., pt. 65c., qt. \$1.00, gal. \$3.00, 5 gal. \$12.00.

WEED KILLER

("Read's Herbicide")

This is the most effectual weed killer known. In quart jugs sufficient to make 5 gallons of liquid. Price, 50c. In half-gallon jugs, sufficient to make 10 gallons of liquid. Price, 80c. In one-gallon kegs, sufficient to make 20 gallons of liquid. Price, \$1.50. In five-gallon kegs, sufficient to make 100 gallons of liquid. Price, \$5.50, 10 gals. \$10.00.
