SEEDS FOR IDAHO

FROM

IDAHO'S LEADING
SEED HOUSE

Catalogue of
Darrow Bros. Seed & Supply
Company
Twin Falls, Idaho
1914

Announcement

This is our sixth year in the seed business in Twin Falls, and every year has shown a good increase in our trade over the preceding year. Our customers have stood by us from the beginning and new ones are added to our list each year. This increase in trade we attribute principally to the high standard of quality we have always maintained on the seeds we handle.

By keeping in touch with the agricultural and horticultural developments we have been able to offer our trade many new and valuable varieties of seeds adapted to this section. That we have been successful in our efforts is evident by the continued growth of our business.

We solicit your patronage this season on the distinct understanding that each and every order, large or small, will be filled with the greatest care, bearing in mind always that our success depends entirely on the pleasure and satisfaction which the seeds we sell give our customers.

Our Goods and Prices

It has always been our aim to offer nothing but the best in seeds and to keep our prices as reasonable as possible consistent with high quality. There may be some houses that offer seeds at lower prices, but we maintain that there are none offering our quality for less money than ours cost you. If you will show us your samples and prices from other houses and let us show you our goods, we think we can convince you.

Our Guarantee

All seeds, plants and bulbs are subject to climatic and other conditions over which we have no control. After once being placed in the ground, therefore, Darrow Bros. Seed & Supply Co. give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, plants or bulbs they send out, and they will be in no way responsible for the crop, and every order for articles named in this catalogue will be executed on these conditions only. If purchaser does not accept goods on these terms they are at once to be returned.

This is the same guaranty used by all reliable seed dealers in the country and while we exercise great care to have all seeds pure and reliable, we sell on the above guaranty only.

326 SHOSHONE STREET WEST
TWIN FALLS, IDAHO

General Suggestions to Customers

Seeds by Mail

Our prices include the payment by us of postage on all garden seeds ordered by the packet, ounce, 1-4 lb., 1-2 lb., and pound, except on Peas, Beans, and Sweet Corn, on which add 8c per pound for postage if ordered by mail. We do not prepay postage on Field Seeds. All freight and express shipments are at purchaser's expense; we do not prepay freight or express charges.

Parcel Post Rates

do not apply on seeds, but packages up to 50 lbs., in the second zone and 20 lbs. for greater distances can be sent by mail if desired.

How to Send Money

Money can be sent safely either by P. O. order, bank draft, express money order, or registered letter. Never send coin in the mail unless in registered letter.

Prices

The prices contained herein are those prevailing at time catalog goes to press and are subject to market fluctuations in value. As values usually advance on many items during the season, it will be to your advantage to order early.

Testing Seeds

We test all our seeds for germination and unless they show satisfactory vitality they are not put on sale. Our package seeds are of the same high quality as our bulk stock. All of our garden seeds are of market gardener's quality.

Where Our Seeds Are Grown

The impression prevails with some people that certain seed houses grow all their own seeds. This is a mistaken idea, as it is manifestly impossible for any seed house to grow everything offered by them. Certain districts have peculiar advantages for producing certain seeds, while the same varieties will not do well in other districts. All seedsmen secure their seeds from the districts producing the various varieties to the best advantage. We do not claim to grow all our own seeds, but do grow all we can grow to advantage. Our seeds come from all parts of this country and many of them from foreign countries, but we favor Northern localities in buying wherever possible, as the northern grown stock is generally earlier than that from southern sections.

Buy our bulk seeds and you will have the satisfaction of knowing that you are getting as good as you can find in the market.

Up Your Own Section*

FARM SEEDS

All Quotations on Grasses and Clovers Subject to Market Changes

The subject of good farm seeds is becoming of greater importance to Idaho farmers from year to year. This is rapidly coming to be a great seed producing state and the quality of the seed produced is of the utmost importance to the grower. It is becoming more difficult every year to dispose of inferior farm seeds, and rightly so. All over the country, state after state has passed seed laws restricting the sale of farm seeds containing noxious weeds, and in a very few years it will not be possible to dispose of such seeds at any price. When buying seeds or grain to sow on your farm do not let a slight difference in price blind you to the importance of having the best you can possibly obtain. Foul and impure seeds are dear at any price, and what do you profit if you save a few cents per acre on the sowing if you produce a crop that you can not sell, or must sell at a sacrifice? Use care in buying seeds and grain for sowing purposes and then keep your fields clean—it will pay you well to do it.

Alfalfa

This is and always will be Idaho's greatest forage crop. It produces more feed per acre and better feed than any other crop known. Alfalfa needs no introduction to the Idaho farmer—he knows its value and how and when to sow. We aim always to have the very best and purest stock in the market. It is impossible to quote prices as the market changes from day to day. Write us your requirements and we will gladly quote prices and mail samples on request. Alfalfa seed is lower this season than for several years past and we will have some very fancy clean stock to offer you.

ALL QUOTATIONS ON GRASSES
AND CLOVERS SUBJECT TO MARKET
CHANGES.

Clover Seed

We take particular pride in the quality of clover seed that we offer. This is without doubt Idaho's most important seed crop. We are in the front rank in the production of high quality clover seed and must hold our position. The only way we can maintain our reputation is by producing the cleanest and best seed possible, and the only way this can be done is to sow clean seed and keep our fields free from weeds. In buying clover seed for our trade we reject every thing that shows noxious weeds. Consequently we are in position to offer you seed that is safe to sow.

Much of this rejected seed is offered for sale and we want to warn our customers against it.

When in need of clover seed write for quotations, stating quantity you require.

MEDIUM RED OR JUNE CLOVER

This is regarded as the most valuable of the clover family and is a dependable all around variety for farmers and stockmen. In this section it is our most im-

portant clover crop and a sure money maker both for hay and seed. Sow either with grain or by itself, reasonably early in spring. 10 or 12 lbs. per acre. Prices on request.

ALSIKE OR SWEDISH CLOVER

This is one of the hardiest varieties known. It is perennial and does not winter kill. It will do better on moist land than any other variety of clover and is suitable for either hay or pasture. When sown with other grasses it forms a thick undergrowth and greatly increases the yield. Perhaps its greatest value in this section is as a seed producer, it never fails to seed here and produces a very high yield of high quality seed. A hard clover to keep pure and free from weeds, hence it is very important that you sow clean seed. Our stock of Alsike seed is particularly free from weeds and of high quality. Write for quotations. Sow about 6 to 7 lbs. per acre for seed.

WHITE OR DUTCH CLOVER

A low, close growing clover, round, white heads, very fragrant. Very desirable for lawn mixtures. Farmers of this section have become very much interested in the growing of white clover for the seed and it would appear to be a very profitable venture.

It is more difficult to procure good, pure seed stock in this than in any other variety. Every year we have found it necessary to scour the country for samples and we have never found more than one

A 15-Acre Red Clover Seed Field Which Ran Over \$60.00 Per Acre.

or two lots in a season that will meet with our requirements for purity. This season we have rejected hundreds of samples but have succeeded in securing a limited quantity of high grade stock especially to be used for seed growing purposes. If interested in White Clover seed, write us for samples and quotations. Sow about 5 to 6 lbs. per acre for seed.

SWEET CLOVER

This plant of the clover family is just now coming into its own and that it has its place in agriculture is beyond question. It is now grown in some sections for hay, pasture and for bees, and that it is very valuable for these purposes is beyond doubt. As a soil fertilizer it probably does not have an equal, will grow on soil that will hardly produce other vegetation, is particularly valuable on alkali soils, and on non-irrigated lands in the arid sections. A heavy seed producer and should prove profitable in this section for that purpose. Our supply of seed is limited. Write for quotations if interested. Sow about 10 to 12 lbs. per acre.

Grasses

BROMUS INERMIS—BROME GRASS

A very hardy drouth resisting grass. Yields heavy crops and makes abundant pasture. Good as a permanent grass. We particularly recommend Brome Grass to be sown on dry land, but do not recommend it to be sown on irrigated lands. Sow 20 pounds per acre broadcast. Can be sown any time of year, but perhaps the best time is in early spring. Price per 100 lbs., \$16.00.

CREeping BENT GRASS

A very close growing grass particularly valuable for lawns where a close turf is desired. Price 40c lb., 10 lbs., \$3.50.

Orchard Grass

ENGLISH OR PERENNIAL RYE GRASS

The pasture grass of England and Ireland, a very valuable pasture grass. Produces an abundance of foliage which remains bright and green during the season. Will stand close pasturing. We recommend it in all pasture mixtures. Price less than 10 lbs., 11c lb. 10 lbs. or over, 10c lb. About 20 lbs. required to sow an acre.

ITALIAN RYE GRASS

This is like the English Rye Grass. Valuable for pasture and hay; grows very quickly and will stand close pasturing. Price 11c lb. 10 lbs. or over, 10c lb. Sow about 20 lbs per acre.

KENTUCKY BLUE GRASS

This makes the best, sweetest and most nutritious pasture for all kinds of stock. Starts very early in spring and in this section remains at its best through the whole season. Very hardy, will stand hard freezing weather and drouth without injury. The roots are so thick and stout that it forms a heavy sod and very thick undergrowth. Blue grass requires about two seasons to get well started, and at its best, when well set, no grass will make more or better pasture for all kinds of stock. No mixture is complete without Kentucky Blue Grass. A great deal of this seed is offered for sale that is of inferior quality, the bulk of the stock offered runs not more than 19 to 20 lbs. per bushel. Ours is cleaned down to 24 lbs. per bushel, pure stock of very high quality. Price, lb., 20c. 10 lbs \$1.80, 100 lbs. \$17.00.

MEADOW FESCUE OR ENGLISH BLUE GRASS

Especially adapted for permanent pasture and fine for hay. Grows two to three feet tall but not in tufts like orchard grass. Stands drouth exceptionally well. This grass is a favorite in Southern Idaho, we recommend it in all pasture mixtures.

Some of our customers are talking of raising Meadow Fescue as a seed crop, and we are inclined to encourage them in this, as it appears like a profitable crop, looks best of all grasses as a seed proposition for this section. In buying our stock this season we used great care to have it pure and of high quality in order that the seed produced from it may be of the same kind. If interested in growing seed write us for information, which we will gladly give you.

Prices: lb. 20c, 10 lbs. \$1.75, 100 lbs. \$15.00.

Kentucky Blue Grass

RED TOP

A valuable grass for moist, rich soils, where it thrives to best advantage. It should be fed close; if allowed to grow up to seed cattle dislike it. On good soil grows about two feet tall. A good grass to grow in connection with other grasses. If your land is low and moist try Red Top. Sow about 10 lbs. per acre of hulled seed.

Price, fancy hulled seed, lb. 30c, 10 lbs. \$2.80, 100 lbs. \$26.00.

TALL MEADOW OAT GRASS

Especially suited for permanent pasture and fine for hay. A splendid early and late grass, stays green very late in fall—a good all around pasture grass. Prices, lb. 25c, 10 lbs. \$2.30, 100 lbs. \$22.00. So about 25 lbs. per acre.

TIMOTHY

As a hay crop Timothy is probably unsurpassed by any other grass. Especially good for horse feed. We do not recommend Timothy for pasture as there are so many more valuable grasses for that purpose. Fine for mixing with Red Clover or Alsike Clover for hay. Sow 12 lbs. per acre when sown alone with grain.

Prices, 10 lbs. at 8c lb.; 100 lbs. \$7.00.

ORCHARD GRASS

A valuable grass for pasture or hay land and on account of its earliness is very valuable as permanent pasture. When closely cropped it grows up again very quickly. It will stand drouth and is very hardy. This is a particularly valuable grass for Southern Idaho and we recommend it in every pasture mixture. Sow at least 20 lbs. per acre. Prices, lb. 25c, 10 lbs. \$2.00, 100 lbs. \$19.00.

Pasture Mixtures

We do not offer a prepared mixture for pastures, preferring to let our customers buy the grasses separately and do their own mixing. In this way the buyer knows exactly what he is buying and sowing, which he does not know when sowing a prepared mixture.

We recommend the following as the mixture best adapted to our soil and weather conditions and claim it will carry more stock per acre and produce better feed than any other mixture you can sow. Sow 20 lbs. per acre as follows:

- 5 lbs. Kentucky Blue Grass.
- 5 lbs. Meadow Fescue.
- 6 lbs. Orchard Grass.
- 2 lbs. Perennial Rye Grass.
- 2 lbs. Either Red or Alsike Clover.

Some may object to putting clover in a mixture for fear of bloating stock, but it is absolutely necessary to have a legume in grass mixtures in this country in order to fertilize the grass and produce a good strong, vigorous growth. It is only where the clover predominates in a mixture that there is danger from bloat. We have recommended and sold the above mixture for five years and know of no instance where bloat occurred.

Grass should be sown by itself and never with grain. Sow either early in spring or in August. Sow broadcast on well prepared ground and harrow lightly. Keep well watered and do not pasture the first season. If you will follow our instructions you will have a pasture that will carry the maximum number of stock the second season from sowing.

**SOW DARROW BROS. GRASS SEEDS
—THEY ARE THE BEST THAT MONEY WILL BUY.**

Oats

REGENERATED SWEDISH SELECT

The best all round oat in existence. Very plump, the heaviest weighing oat known; a big yielder. One of our customers made 110 bu. per acre in 1912 on ground that had been cropped several years and had never been sown to alfalfa or clover or fertilized. A peculiarity of the Regenerated Swedish is that it usually produces three kernels to the pod. Our stock of this variety is pure and of very fine quality. We brought the original seed to this section from a very reliable source and have kept it clean and pure. This stock tests 45 to 50 lbs. per bushel. If you want to increase your yield of oats get some of this stock and keep it straight and clean. Price, 100 lbs. \$2.00.

SWEDISH SELECT

Very similar to Regenerated Swedish, of which it is the parent. A very high quality heavy yielding oat. Our stock of this oat is exceptionally fine. At our price you can afford to sow Swedish Se-

Regenerated Swedish Oats

lect extensively and with our fancy re-cleaned stock you can increase your yield of oats 10 to 15 bu. per acre.

Price, 100 lbs. \$1.75, 1000 lbs. or more \$1.50 per hundred. Order early.

Both regenerated and Swedish Select oats are very early.

Wheat

MARQUIS

Remarkably early. Exceedingly productive. Unexcelled in milling quality. Pronounced by both farmers and millers the finest wheat for spring wheat territory.

A PRIZE WINNER.

MARQUIS WHEAT won the One Thousand Dollar prize offered by Sir Thos. Shaughnessy for the best wheat in America at the New York Grain Exposition in 1911.

It also won the Three Thousand Dollar prize at the International Dry Farming Congress at Lethbridge, Alberta, in October, 1912, in competition open to the whole world. Marquis wheat was again successful in winning the sweepstakes prize at the Dry Farming Congress held at Tulsa, Oklahoma, in 1913.

PRODUCTIVENESS.

Marquis wheat has out-yielded all other spring wheats grown under the same conditions of soil, cultivation and climate. The increased yield varies from 5 to 15 bushels per acre. We brought this wheat to this section a year ago at great expense to us and grew a small field for seed purposes. Our experience was that it is all that is claimed for it and we look to see it take the lead of all other varieties in this territory. Think what a hard wheat will mean to this section. Our stock grades No. 1 Northern and it was grown right here at Twin Falls.

Our supply of Marquis is very limited. While stock lasts, price \$3.00 per hundred.

Barley

PEDIGREED ODERBRUCKER

The highest grade malting barley known. This barley was developed by the Wisconsin Agricultural College several years ago. It has protein content of 15 per cent or nearly double the amount of protein found in many other varieties. This makes it a very valuable feeding barley. For four years in succession this barley has taken the world's prize as Best Malting Barley. In raising barley it is good business to have a high quality malting variety. At times malting barley sells for high figures and at such times it can be sold on the market and replaced with a cheaper feed.

The heads of Pedigreed Oderbrucker are extremely long and well filled, six rowed, berries very plump and even in size. This barley is a heavy yielder and matures very early. Sow about 190 lbs. per acre.

Get started in this fine variety. Our stock is exceptionally fine and pure, tests 55 lbs. per bushel. No house in the country can offer you a better strain.

Price, 100 lbs. \$2.00.

HULLESS OR BALD BARLEY

A very valuable feed crop both for the grain and for the excellent hay made from the straw when cut green. The grain has a very high feeding value, and weighs over 60 lbs. to the measured bushel. Excellent for feeding hogs and other stock. A big grain yielder and a great feed crop for DRY LAND FARMING. Our seed the past season was grown on a dry farm and threshed 30 bu. per acre of high quality grain. Under irrigation it has made over 80 bushels per acre. Where a quick hay crop is desired either on dry or irrigated land, nothing is better than Hulless Barley. A great dry farm crop. Our stock of this is limited. Sow about 100 lbs. per acre as early in spring as possible. Price, \$2.25 per hundred.

Speltz or Emmer

A very high quality feed crop, producing good yields of grain of high feeding value; fine for horses or hogs. A good drouth resister. Price, 100 lbs. \$2.00.

Rye

SPRING RYE

Spring rye makes an excellent crop to sow for quick pasture. We strongly rec-

ommend it for this purpose. It is, also, a good grain yielder and the grain makes good stock feed. On dry farms where it is necessary to sow an annual pasture, this grain is very valuable.

Sow 80 to 90 lbs. per acre as early in spring as weather will permit. This seed is scarce and hard to obtain. Price, \$3.50 per hundred.

Seed Corn

In seed corn we are obliged to confine our stock to such varieties as are well adapted to this locality and have been thoroughly acclimated. Where early, acclimated varieties of seed are used, corn is proving to be a valuable feed crop for this section.

CASSIA COUNTY FLINT

This is a white Australian flint that has been grown in this section for a number of years and has proven a valuable variety. A big yielder, ripens extremely early and never fails to mature. Plant in hills, about 8 to 10 lbs. per acre. Price, lb. 10c, 10 lbs. 75c, 100 lbs or over, \$5.00 per hundred.

PRIDE OF NORTH

A dependable yellow dent corn, never fails to mature when planted in season. Has a high feeding value. We strongly recommend this variety for Southern Idaho. Every year since we have been in business we have had Pride of North, home grown and well matured. Price, 1 lb. 10c, 10 lbs. 75c, 100 lbs. \$5.00.

Field Peas

CANADIAN FIELD PEAS

Every farmer and stock raiser should be interested in field peas. Next to corn, peas have a higher feeding value than any other grain. The Canadian variety is the best known of all field peas, this variety has been grown for a great many years in Canada and the eastern section of our own country, where it is the principal crop for the finishing of live stock, including sheep, hogs, and cattle. It is used in these sections both as a hay and grain crop. If properly sown should yield 40 to 60 bushels. Write us for special information regarding the growing of field peas.

Sow as early in spring as possible at the rate of 100 lbs. per acre. Price, \$3.00 per hundred.

WHITE MARROWFAT

This variety makes an especially fine stock pea, and while the original cost of the seed is some higher, it will pay the farmer well to get started with the Marrowfat. A big yielder and grain is sweeter than the Canadian, with peas much larger than that variety. On account of this variety being used to some extent as a garden pea the seed sells higher than Canadian. Price, 100 lbs. \$4.00.

Vetch

SPRING VETCH

One of the best forage plants. Very valuable for quick pasture or a first year hay crop. This is a species of pea and is grown very extensively on the Pacific Coast. It furnishes an abundance of excellent feed, either green or cut and dried for hay. The seed should be sown mixed with some variety of grain having a stiff straw, in order to hold up the crop. Sow about 60 to 80 lbs. per acre with about a bushel of grain. Vetch is a wonderful soil fertilizer. In some cases the seed requires inoculation to produce the best results.

We recommend the sowing of Spring Vetch and Spring Rye for a quick pasture.

Price, \$4.00 per hundred.

Sand Vetch

SAND OR WINTER VETCH

This variety thrives on poor, arid and sandy soils. It is sown in the fall or early spring and is generally mixed with rye, which serves to support the plants. It grows to a height of three or four feet and can be cut twice first as soon as the bloom appears, and afterward for seed. The plant is perfectly hardy and makes a good stock feed. An excellent fertilizer.

Price, 10 lbs. \$.50, 100 lbs. \$12.50.

Rape

DWARF ESSEX

Largely grown in the northern United States and in Canada. It is excellent for

sheep pasture and also for sowing. It may be sown in May and be ready for pasturing in July or August, or it may be sown in June or July and yet furnish a large amount of pasture or fodder. In drills, sow 5 lbs. per acre, broadcast sow 10 lbs. per acre.

Price, lb. 15c, 10 lbs. \$1.25 100 lbs. \$9.50.

Sugar Cane

or Sorghum

EARLY AMBER

As a fodder crop cane furnishes an enormous amount of feed. It can be successfully grown in all parts of the United States, and here in Southern Idaho it grows to perfection and the seed can be matured very successfully. An excellent crop to sow where an abundance of stock feed is wanted the first season. We particularly recommend cane to settlers on new land, as it will give them an abundance of fodder the first season. Stands drouth well. If sown for hay at least 50 lbs. of seed should be used per acre broadcast, and if ground is very strong more seed should be used to keep crop from growing too coarse. In drills sow 10 to 15 lbs per acre. WRITE FOR PRICES.

KAFFIR CORN

Grows 4 to 5 feet high. The stems or stalks bear numerous broad leaves. The stalks are brittle and juicy, not hardening like other varieties of sorghum. It makes excellent fodder either green or dry, which is very much liked by all kinds of live stock. The seed crop is heavy and makes a valuable feed for stock and poultry. For grain sow in drills 3 ft. apart about 5 to 6 lbs. per acre. For fodder sow broadcast 30 to 60 lbs. per acre. WRITE FOR PRICES.

Beans

The bean growing industry is one of great importance to Southern Idaho, and growing more important from year to year. It has been found that this section can successfully compete with California and Michigan on beans. Where properly handled beans yield very heavy in this section and are proving a profitable and inexpensive crop to handle. It is very important that a good quality of seed be planted as poor or mixed stock is not marketable, or if they can be sold must sell at a discount. If interested in bean raising write us for information on growing the crop, which we will gladly furnish. Do not misunderstand us. The above applies to the growing of commercial beans and not to the growing of garden beans for seed, which is a separate industry.

LADY WASHINGTON BEANS

This is a variety of white navy somewhat larger than the old fashioned Navy and is the bean most commonly grown in this section as a commercial bean. It is a bean of very good quality and a good yielder. See prices below.

PRIDE OF IDAHO

This is a new bean that we obtained from one of our most successful grow-

ers this season. It is similar in appearance to the Lady Washington, but runs more even in size, which is greatly in its favor. It is also earlier than Lady Washington and would appear to be a heavier yielder. From what we know of this bean we can strongly recommend it to our customers. Our stock of this is limited. See prices below.

MICHIGAN PEA BEANS

This is the great commercial bean of the East and has proven a remarkably good bean for this section. It is from a week to ten days earlier than Lady Washington and on the average appears to yield heavier. We have handled several crops of this variety in a commercial way the past three years and it is our opinion that Michigan Pea beans should be raised more extensively here, the growing of this variety will help our reputation as a bean growing district and is bound to prove profitable to the grower. Our stock of Michigan Pea Beans is remarkably fine and pure. See prices below.

RED MEXICAN

Or Mexican Chili, as it is sometimes called, is a red bean of very heavy yielding qualities and sells well in some sections. We would not advise the growing of this bean on an extensive scale, but if kept free from mixing with other varieties, limited quantities of it can be handled to advantage, and money made in growing it. It out-yields the white beans considerably and is very early; sells at about same price as white beans. See prices below.

PRICES ON FIELD BEANS

All of our stock is home grown.	
Lady Washington, machine cleaned, per hundred	\$4.00
Lady Washington, hand picked, fancy, per hundred	\$4.50
Pride of Idaho, per hundred	\$4.50
Michigan Pea, machine cleaned, per hundred	\$4.00
Michigan Pea, hand picked, fancy, per hundred	\$4.50
Red Mexican, per hundred	\$4.00

Garden Seeds

Our garden seeds are the VERY BEST MARKET GARDENER'S STRAIN that we can obtain. Our trade on garden seeds is growing very rapidly, a big increase in trade every season. The finest gardens in the Twin Falls country, and there are none finer anywhere, are grown from our fine bulk garden seeds. We carry but one grade of seeds, and you can not get better no matter where or from whom you buy. If you knew that you could get as good seed in your own section as you can get anywhere on earth and at no greater cost, you would not send great distances for them. Give us a trial and we will convince you that you can be served as well AT HOME. Don't send your money clear out of your own country, but keep it at home and help build up an industry that will benefit your own section.

In garden seeds we aim to carry varieties that are best adapted to our climate and conditions.

Artichoke

GREEN GLOBE

The seed may be sown indoors and plants potted same as tomato and transplanted to garden soon as weather is warm or seed can be sown outside in hills and thinned to one plant in a hill. Grown for unripe flower heads, which are cooked same as asparagus, considered a great delicacy. Packet 10c, oz. 30c.

Asparagus Seed

When an asparagus bed is started from seed, the seed should be sown in the open ground in early spring and plants transferred to the permanent bed when one year old. One ounce of seed will sow 50 feet of row. Asparagus grows to perfection in Idaho.

COLUMBIAN MAMMOTH WHITE

Gives immense yield of clear, white shoots. A very valuable variety, shoots remain white without earthing or artificial banking. Oz. 10c, 1-4 lb. 20c, lb. 60c.

Asparagus Roots

By far the most satisfactory way to obtain an asparagus bed is to set out the roots. It takes 3 years to secure a bed from seed, but with large strong roots such as we will be able to supply, a bearing bed can be had in from one to two years. We will have roots ready to set in April or May. Write us stating number wanted and we will be pleased to quote you prices.

Beans

WHEN ORDERING BEANS BY MAIL ADD 10c PER LB. FOR POSTAGE.

Culture.—About May first, or soon as danger of frost is past and ground is warm, plant in drills 18 inches to 2 feet apart, drop beans 3 inches apart and cover lightly. Hoe well to keep down weeds. Sow every two weeks for succession.

Note.—WE SELL BEANS, PEAS AND SWEET CORN cheaper than any other seed house we know of. We price by the POUND, others price by pint and quart. A pint does not weigh a pound, nor a quart two pounds. Bear this in mind when ordering. We grow our own beans.

Green Pod Varieties

BURPEE'S STRINGLESS

The finest green pod, stringless bean. Earliest and hardiest of all green pod sorts, and produces large, handsome pods. Perfectly stringless. A very heavy yielder. Pods fleshy and of exceptionally fine flavor. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

EXTRA EARLY RED VALENTINE

(Round Pod.) Pods are usually ready to pick in about 50 days from planting. A very fine quality bean, crisp and tender. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

REFUGEES OR 1000 TO 1

A very heavy yielding bean, exceedingly hardy. The pods are long, round and

of excellent quality. Continues in good condition to use longer than almost any other bean. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

FLAGOLETTE WAX

Used as a green shell bean and very desirable for that purpose. Plants dwarf and bushy, beans mature quite early. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c.

Yellow or Wax Pod Varieties

GERMAN BLACK X

The earliest of Vines medium size, vigor. A hardy, pods round and fleshy. Remain for some time in condition for use. A splendid bean. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

A splendid improvement over the pop-

IMPROVED GOLDEN WAX

ular Golden Wax. Pods are very uniform and a bright golden yellow, about four inches long and rather flat. Pods meaty, tender and stringless. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

WARDWELL'S KIDNEY WAX

The strong vines yield abundantly, long, nearly straight, broad, creamy white pods. They are of fine quality and a fine variety for market gardeners. Matures a little later than Golden Wax. We strongly recommend this bean. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

Dwarf or Bush Lima Beans

BURPEE'S BUSH LIMA

Plants grow 18 to 20 inches high, of stout, erect growth, very prolific, pods large and well filled with large, even-sized beans; a heavy yielder. 1-2 lb. 15c, lb. 20c, 2 lbs. 35c, 10 lbs. \$1.50.

DREER'S BUSH LIMA

The pods are short but very thick, well filled with short thick beans, of delicious flavor, very productive. 1-2 lb. 15c, lb. 20c, 2 lbs. 35c.

HENDERSON'S BUSH LIMA

Grows erect 18 to 20 inches tall, requires no support. Very early and productive. Beans have the true Lima flavor buttery and tender. Matures at least two weeks earlier than the pole limas. 1-2 lb. 15c, lb. 20c, 2 lbs. 35c.

Pole Beans

KENTUCKY WONDER

Vines vigorous, climbing well and very productive; pods green, very long, often reaching 9 to 10 inches, very crisp. This is a great favorite as a snap bean. 1-2 lb. 15c, lb. 20c, 2 lbs. 35c.

LAZY WIFE

One of the most productive and easily gathered of the pole beans. Very fine flavor, a fine green snap bean, and equally good as a dry sheller for winter use. 1-2 lb. 15c, lb. 20c, 2 lbs. 35c.

CUT SHORT OR CORN HILL

An popular variety for planting among corn, thus doing away with poles. An excellent snap and dry shell bean. 1-2 lb. 15c, lb. 20c, 2 lbs. 35c.

Detroit Dark Red

Beets

EARLY EGYPTIAN

The well known early variety. Color dark red, shape flat, quality excellent. Oz. 10c, 1-4 lb. 30c, lb. \$1.00.

ECLIPSE

A choice early variety well known and popular. Shape globular, quality good, color bright red. An excellent early beet. Oz. 10c, 1-4 lb. 30c, lb. \$1.00.

EDMAND'S BLOOD TURNIP

The best sort for general crop. In quality one of the finest, very dark red, shape globular, having only one tap root. Very popular with market gardeners. Oz. 10c, 1-4 lb. 30c, lb. \$1.00.

DETROIT DARK RED TURNIP

Quality very fine, sweet and tender. Color very deep red. One of the finest garden beets known. We strongly recommend Detroit Dark Red. Oz. 15c, 1-4 lb. 40c, lb. \$1.30.

SWISS CHARD

A beet producing leaves only of a quality superior to ordinary beets. Very crisp and tender. Excellent for greens and leaf stems are used some as asparagus. Cultivate same as spinach. If you like greens try Swiss Chard. Oz. 15c, 1-4 lb. 40c, lb. \$1.30.

Mangel-Wurzel for Stock Feeding

Farmers of Southern Idaho should grow Mangels extensively, there is no place where they grow to better advantage or produce heavier. Sow in April or May in deep, well plowed ground, see that ground is moist before planting. Seed will germinate quicker if planted shallow. Sow at rate of 5 lbs. per acre. Mangels should produce 30 to 40 tons per acre here if properly handled.

GIANT LONG RED

The largest and most productive variety. Roots quite deep and produces immense crops. 1-2 lb. 25c, lb. 50c.

GOLDEN TANKARD

Grows well out of ground, is stump rooted and easy to dig. Unequaled for feeding. A good yielder. 1-2 lb. 25c, lb. 50c.

YELLOW GLOBE

Very small tops and short round roots, very easy to harvest on account of its habit of growth. A good yielder. 1-2 lb. 25c, lb. 50c.

GIANT ROSE HALF SUGAR

Combines the large size and heavy yielding qualities of the Mangle with high feeding qualities of the lighter yielding Sugar Beet. Grows well out of the ground and is easily harvested. A very valuable stock beet. 1-2 lb. 25c, lb. 50c.

IF STOCK BEETS ARE WANTED IN OTS OF 5 LBS. OR MORE, WRITE US FOR SPECIAL PRICES.

Brussels Sprouts

Grow same as cabbage or cauliflower. Used same as cauliflower. The crisp, tender heads are very delicious.

DWARF IMPROVED

A variety producing compact sprouts of excellent quality. Packet 10c, oz. 25c.

Borecole or Kale

One ounce of seed will sow about 200 feet of drill. Excellent for greens.

GREEN CURLED

Very hardy variety of excellent quality. Leaves densely curled. Pkt. 5c, oz. 10c.

Danish Ball Head

Cabbage

Methods of growing cabbage are so generally understood that explanation is unnecessary. The most important point to bear in mind is to have soil rich as possible. You will never get it too rich.

DANISH BALL HEAD

The best late cabbage yet produced. Heads hard and solid, fine grained and tender. Heads round and of medium size but very heavy. A great favorite in all markets. If you are raising cabbage for market we strongly recommend Danish Ball Head. Our seed is the finest imported strain. Pkt. 10c, oz. 25c, 1-4 lb. 75c, lb. \$2.75.

EARLY JERSEY WAKEFIELD

This is an old standard favorite sort. Our seed is selected strain, the best stock we can obtain. Wakefield is one of the earliest sort known. Heads pointed. Pkt. 5c, oz. 25c, 1-4 lb. 75c, lb. \$2.25.

COPENHAGEN MARKET

A new early variety, popular with market gardeners. It is the finest round head early variety in cultivation. Heads very solid and heavy. Quality extra fine. We strongly recommend this early cabbage. Pkt. 10c, oz. 40c, 1-4 lb. \$1.25, lb. \$4.50.

EARLY SUMMER

About ten days later than Jersey Wakefield. Heads round, remains a long time without bursting. An all round good second early cabbage. Pkt. 5c, oz. 20c, 1-4 lb. 60c, lb. \$2.00.

EARLY DWARF FLAT DUTCH

An early cabbage of good size. Heads flat and very solid, good both as an early and a late cabbage. Pkt. 5c, oz. 20c, 1-4 lb. 60c, lb. \$2.00.

EARLY WINNINGSTADT

An early variety of excellent quality. Heads pointed but solid. Not quite as early as Jersey Wakefield. Pkt. 5c, oz. 15c, 1-4 lb. 40c, lb. \$1.50.

PREMIUM LATE FLAT DUTCH

This variety of late cabbage is a standard well known sort in all sections, and a general favorite for winter use. Ours is the best selected seed. Pkt. 5c, oz. 20c, 1-4 lb. 60c, lb. \$2.00.

SUREHEAD

An old standard winter sort, solid head, a good keeper and a very sure header. Pkt. 5c, oz. 20c, 1-4 lb. 65c, lb. \$2.00.

ST. LOUIS MARKET

A favorite cabbage with the gardeners around St. Louis. Grows to enormous size, a fine cabbage for kraut. Pkt. 5c, oz. 20c, 1-4 lb. 60c, lb. \$2.00.

HOLLANDER

Similar to above in every way. This is a short stemmed variety. Our seed of Hollander is a particularly fine strain, the finest we can obtain. Pkt. 10c, oz. 25c, 1-4 lb. 75c, lb. \$2.75.

ROCK RED

This is the best variety of Red Pickling cabbage. Heads are very dark red and solid. Pkt. 5c, oz. 20c.

CABBAGE IS A GOOD CROP FOR SOUTHERN IDAHO. THIS SECTION HAS NEVER PRODUCED ALL THE CABBAGE REQUIRED FOR HOME USE.

Carrots

Sow as early in spring as ground is in good shape for cultivation. It has been found that in this section it is best to sow early while the natural moisture is in the ground. If impossible to sow early ground should be irrigated before seed is planted. The carrot is a difficult plant to get started and if ground is allowed to crust over them they will not grow. Sow very shallow about 2 to 3 pounds per acre.

In this section carrots are grown extensively for feeding purposes, and when properly handled make easily 20 tons per acre of the best feed imaginable. All stockmen in this section should grow carrots.

EARLY SCARLET HORN

Excellent for early planting for garden use. Tops small, roots medium sized and fine flavor. Pkt. 5c, oz. 15c, 1-4 lb. 30c, lb. \$1.00.

Danvers Half Long

CHANTENAY HALF LONG

Tops medium sized, roots medium length, but uniformly stump rooted. A heavy cropper. A good carrot both for table use and for stock feeding. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. 80c.

DANVERS HALF LONG

Grown largely on account of its productiveness. Tops of medium size, roots smooth and handsome, a little longer than Chantenay but stump rooted. A great favorite in this section as a field variety. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. 80c.

OX HEART OR GUERANDE

Tops small, roots short but very thick, often running 5 to 6 inches in diameter. On account of the ease with which it can be harvested Ox Heart is a favorite with many as a field carrot. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. 80c.

LARGE ORANGE BELGIAN

Strictly a stock carrot, too coarse for table use. A very heavy yielder. Roots grow long and deep. Oz. 10c, 1-4 lb. 30c, lb. 75c.

YELLOW GIANT

A new stock carrot from Australia. Claimed to be the most productive of all stock carrots. It is a long variety with immense broad shoulder, stands well up out of the ground and is easily harvested. Any farmer wanting a big yield of carrots should try Yellow Giant. Oz. 10c, 1-4 lb. 30c, lb. 75c.

IF CARROTS ARE WANTED IN LOTS OF 5 LBS OR MORE WRITE FOR SPECIAL PRICES.

Cauliflower

Culture.—Cauliflower is handled in the same manner as cabbage. Needs plenty of moisture. We have never known any place where cauliflower thrives better than in Southern Idaho, nor have we ever known finer quality.

EARLY DANISH SNOWBALL

Very early, medium sized heads. This is the finest all round variety known. Our seed is imported stock of the finest strain. Pkt. 15c, 1-2 oz. \$1.00, oz. \$1.75.

DANISH DRY WEATHER

Similar to above. A very sure heading variety of superior quality. Stands dry weather exceedingly well and equally good for all kinds of weather. Highly recommended as a market gardener's sort. Pkt. 15c, 1-2 oz. \$1.00, oz. \$1.75.

White Plume

Celery

We have never seen finer looking or better flavored celery than is produced in the Twin Falls country. Some of our customers are now producing it quite extensively for market and it is proving a highly profitable crop. We predict that in a few years this will be a great celery

producing district. Our soil and irrigation are singularly adapted to celery growing.

GOLDEN SELF BLANCHING

The best of all early self-blanching varieties. It is ready for use very early, blanches easily. Dwarf compact habit of growth, thick, heavily ribbed stalks which blanch a waxy yellow. Packet 10c, oz. 35c, 1-4 lb. \$1.00.

WHITE PLUME

This is the earliest and most easily blanched but does not keep well after taken from the trenches. Plants grow rapidly and blanch easily during the summer months. Good for early market. Pkt. 10c, oz. 35c, 1-4 lb. \$1.25.

GIANT PASCAL

This is a green leaved variety developed from Golden Self Blanching and is an excellent sort for fall and winter use. It blanches to a beautiful yellowish white color, is very solid and crisp and of a fine nutty flavor. A fine market sort. Pkt. 5c, oz. 20c, 1-4 lb. 50c.

WINTER QUEEN

This is without doubt the most valuable variety of celery for winter and spring use ever introduced. A late winter keeper. It is also much stouter, thicker and heavier, with double the amount of heart of any known celery. We strongly recommend this variety as a winter market sort. Pkt. 10c, oz. 25c, 1-4 lb. 75c.

Sweet Corn

NOTE.—WE QUOTE SWEET CORN BY THE POUND, OTHERS QUOTE BY THE PINT AND QUART. PLEASE BEAR IN MIND THAT A PINT DOES NOT WEIGH A POUND. WE SELL SWEET CORN AS CHEAP AS ANY HOUSE WE KNOW OF AND OUR STOCK IS THE BEST.

PEEP-O'-DAY

This is without doubt the earliest variety in existence. Ears small, quality fine. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.25.

EARLY MINNESOTA

A standard variety. Has held its position in the list for a long period of years as a dependable sort. Ears good sized and of very fine quality. Price. 1/2 lb. 10c, 1 lb. 15c, 2 lbs. 25c, 10 lbs. \$1.20.

GOLDEN BANTAM

A very early sweet corn with golden yellow grain, very tender and of excellent quality. Ears are about six to seven inches long, of the medium size most suitable for table use. The flavor is exceptionally rich and delicious. Our stock is carefully selected. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.25.

EARLY WHITE CORY

This is an early large eared variety of great merit. A great favorite and one of our best sellers. 1-2 lb. 10c, 1b. 15c, 2 lbs. 25c, 10 lbs. \$1.25.

PERRY'S HYBRID

An early variety of splendid quality. Kernels tinged with pink when ripe. Good sized ears of fine appearance. 1-2 lb. 10c, 1b. 15c, 2 lbs. 25c, 10 lbs. \$1.25.

EXTRA EARLY WHITE MEXICAN

Very early, sweet and delicious. Ears about eight inches long. Superior in quality to any other early variety of equal size. This is a great favorite with our trade. 1-2 lb. 10c, 1b. 15c, 2 lbs. 25c, 10 lbs. \$1.25.

COUNTRY GENTLEMAN OR SHOE PEG

There is no corn that compares with Country Gentleman for sweetness. Ears of good size with small deep kernels, placed unevenly on cob. It is a late variety but matures nicely for table use in this section. None better. 1-2 lb. 10c, 1b. 15c, 2 lbs. 25c, 10 lbs. \$1.25.

STOWELL'S EVERGREEN

This is a favorite standard main crop variety. Ears very large and handsome, with deep, even kernels. An exceptionally sweet high quality corn. We strongly recommend Stowell's Evergreen as a main crop variety. Lasts until after frost. 1-2 lb. 10c, 1b. 15c, 2 lbs. 25c, 10 lbs. \$1.25.

EARLY ADAMS

This is an extra early field variety, but is much used as an early market variety, being sweet and juicy. The earliest corn known. 1-2 lb. 5c, 1b. 10c, 10 lbs. 80c.

Cucumbers

JAPANESE CLIMBING

While all cucumbers are running vines, yet this variety is more creeping or climbing in its habits. Fruit 12 to 16 inches long, dark green and smooth. Flesh pure white, crisp and tender. Pkt. 10c, oz. 15c, 1-4 lb. 40c.

GREEN PROLIFIC

A favorite with pickle growers and commercial gardeners. Good for table use. Pkt. 5c, oz. 10c, 1-4 lb. 30c, 1b. \$1.00.

EARLY GREEN CLUSTER

A very early variety, medium length, produces bulk of crop near the root in clusters. A good pickling variety. Pkt. 5c, oz. 10c, 1-4 lb. 30c, 1b. \$1.00.

CHICAGO OR WESTERFIELD PICKLING

A variety grown extensively for large pickling establishments. Good for home use and for market gardeners. Pkt. 5c, oz. 10c, 1-4 lb. 30c, 1b. \$1.00.

IMPROVED LONG GREEN

An old time favorite. Fruit long and slim. Exceedingly fine quality. Good for both pickling and slicing. Pkt. 5c, oz. 10c, 1-4 lb. 30c, 1b. \$1.00.

ARLINGTON WHITE SPINE

An improved White Spine of exceedingly fine quality, especially fine for slicing. We strongly recommend this variety. Pkt. 5c, oz. 10c, 1-4 lb. 30c, 1b. \$1.00.

DAVIS PERFECT

In color a dark glossy green, with white veins. A very handsome high quality cucumber. Particularly fine as a slicing variety. Pkt. 10c, oz. 15c, 1-4 lb. 40c.

Davis Perfect

Arlington White Spine

Cress

CURLED OR PEPPER GRASS

This small salad is much used with lettuce, to the flavor of which it adds a warm pungent taste. Makes a most agreeable addition. Pkt. 5c, oz. 10c.

Egg Plant

NEW YORK PURPLE

Very large, smooth, fine dark color. Pkt. 10c, oz. 20c.

Kohl-Rabi

WHITE VIENNA

The finest for market. Flesh white and tender. Pkt. 10c, oz. 20c.

PURPLE VIENNA

Bluish purple, similar to above except in color. Pkt. 10c, oz. 20c.

Endive

Fine for greens. Used same as lettuce but has a higher flavor. Favorite greens with the Germans.

GREEN CURLED

Beautifully curled, tender and crisp.

WHITE CURLED

Very tender when cut young, blanches readily. Prices on above, pkt. 5c, oz. 10c.

Lettuce

PARIS WHITE COS

A very distinct variety of lettuce having large elongated compact heads that blanch mild and crisp. Very fine flavor. Pkt. 5c, oz. 10c, 1-4 lb. 25c.

EARLY CURLED SIMPSON

A very early variety. Forms a close compact mass of curly yellowish green leaves. Tender and crisp. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 85c.

BLACK SEED SIMPSON

We have a fine strain of this variety, carefully selected. This is a very popular loose leaved sort. A favorite with market gardeners. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 85c.

GRAND RAPIDS

An exceptionally fine early lettuce, and a great favorite with market gardeners for forcing. Tender and crisp. We recommend this strongly. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. 85c.

CALIFORNIA CREAM BUTTER

Forms round, crisp, solid heads of buttery flavor, medium early. One of the finest of head lettuce. Very crisp and tender. We strongly recommend this variety. Pkt. 5c, oz. 10c, 1-4 lb. 35c.

PRIZE HEAD

A large, loose leaved, thin leaved sort. The very large leaves are crimped, bright green, edged with reddish brown, and are crisp and sweet. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 85c.

IMPROVED HANSEN HEAD

The Hansen is one of the most valuable of the crisp head sorts. Heads attain a very large size and are very firm. A great favorite. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 85c.

MAY KING

An unequaled variety for early spring planting in the open ground. Plants grow six to seven inches in diameter with outer leaves folded closely, forming plant into a solid head. Inner leaves bright yellow, very tender and crisp. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 85c.

Musk Melon

OSAGE OR MILLER'S CREAM

Of medium size, oval form, dark green in color, somewhat netted and slightly ribbed. Flesh extremely thick, of firm texture, rich salmon in color, highly flavored and delicious to the mind. Seed cavity very small. A remarkable keeper and a good shipping melon. Particularly good for Southern Idaho. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. \$1.00.

ROCKY FORD

This is one of the most popular of small crate melons and is grown extensively in Colorado and Arizona as a shipping melon. Vines vigorous and productive. Flesh green, sweet and delicious. A great favorite with our trade. Pkt. 10c, oz. 20c, 1-4 lb. 50c, lb. \$1.50.

BANANA

Yellow fleshed. Grows 15 to 20 inches long, 4 to 6 inches in diameter. The thick salmon colored flesh has a delicious flavor and gives out an aroma like a banana. Many are extremely fond of this large musk melon. Pkt. 10c, oz. 20c, 1-4 lb. 50c.

BURREL'S GEM CANTALOUPE

The new ROCKY FORD melon with golden meat. One of the finest flavored melons in existence. Pkt. 10c, oz. 20c, 1-4 lb. 50c, lb. \$1.50.

EMERALD GEM

A very early, yellow fleshed melon of small to medium size. One of the very finest for home garden. Vines vigorous and productive. Fruits round or slightly flattened, ribbed and slightly netted. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. \$1.00.

CASABA

This variety is known as a winter musk melon on account of its long keeping qualities, said to keep until February. Do not pick until the light streaks become quite yellow. Store away so they do not touch each other in a cool, dark place. Flesh thick, juicy and delicious. Has a decided flavor of pineapple. Try this novelty. Pkt. 10c, oz. 20c, 1-4 lb. 50c.

EXTRA EARLY HACKENSACK

A very early melon. Fruit medium to large, nearly round, evenly and deeply ribbed with very coarse netting. Flesh green, juicy and sweet. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 80c.

Rocky Ford Cantaloupe

VINE PEACH OR MANGO MELON

An excellent fruit for preserving. Fruit about the size of a large peach, of a bright orange color. Pkt. 10c, oz. 15c.

GARDEN LEMON

Very similar to vine peach and used for preserving. Pkt. 10c, oz. 15c.

Water Melon

PHINNEY'S EARLY

Few of the early sorts surpass this old favorite. It is first to ripen, of good size and productive. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

COLE'S EARLY

Very hardy, a sure cropper, flesh dark red and possesses all the desirable qualities. Medium sized, nearly round, rind green striped with light shades. A very early melon. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 60c.

SWEETHEART

This melon is early, large, handsome, shape oval, color mottled, light to very light green. Excellent flavor. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

KOLB'S GEM

Fruit of the largest size, round or slightly oval, marked with irregular mottled stripes of dark and light green. Outer rind or snell remarkably hard, a good shipper. Flesh bright red, sweet and tender. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

Kleckley's Sweet Water Melon

KLECKLEY'S SWEET OR MONTE CHRISTO

A splendid sort. One of the sweetest of melons. Skin dark green, flesh bright red and very delicious. Valuable both as a market sort and a home melon. A great favorite. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 75c.

HALBERT HONEY

Equal to Kleckley's Sweet, which it closely resembles. About 20 inches long, almost equally round at each end. A handsome melon. Rind dark green, flesh very sweet. A profitable melon to sell in local market, but not a shipper. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

ALABAMA SWEET

The melons are large, of oblong form and have a firm dark green and slightly striped rind. Flesh of delicious flavor. One of the very best melons. Pkt. 5c, oz. 15c, 1-4 lb. 35c, lb. 90c.

CUBAN QUEEN

Fruit medium sized to large. Globular or oval. Skin striped light and dark green in sharp contrast. An old favorite and an exceedingly fine melon. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 60c.

MCIVER'S WONDERFUL SUGAR

Without a single exception the sweetest melon of all. Medium early. We recommend this variety. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

Mustard

Used very extensively for greens and exceptionally fine for that purpose.

WHITE LONDON

Best for general use. Seed used in pickles. Oz. 5c, 1-4 lb. 15c.

SOUTHERN GIANT CURLED

A favorite in the South. Grows very vigorously. Oz. 10c, 1-4 lb. 20c.

Okra or Gumbo

The young seed pods of this Southern plant are used for the well known and delicious "Gumbo" soups alone or with chicken. Does well in this section.

DWARF GREEN

The best variety for this locality. Grows low but stocky and is very productive. Pkt. 5c, oz. 10c.

Onion

Onions are a profitable crop to grow in this section, when properly handled. Should be sown as early in spring as is possible to work the ground. You will never get them too early, as frost will not hurt them. Sow at the rate of 4 to 5 lbs. per acre. We can furnish you some pointers if you write us for information on this crop.

IF WANTED IN LARGE QUANTITIES
WRITE FOR PRICES.

EARLY YELLOW FLAT DANVERS

Or round. Very productive, medium sized, early, very reliable. Pale yellow skin, small neck. Pkt. 5c, oz. 15c, 1-4 lb. 50c, lb. \$1.25.

YELLOW GLOBE DANVERS

This fine onion is of large size. An early and abundant cropper. Bulbs are very thick, necks small, handsome in appearance and a good dark yellow color. A good onion for this locality and a good market onion. Pkt. 5c, oz. 15c, 1-4 lb. 50c, lb. \$1.50.

PRIZETAKER

Grows to an immense size and for early marketing is unexcelled. Although of such great size it is a fair winter keeper. Ripens up firm, very fine grained, mild, delicate flavor. Color rich yellow. Pkt. 5c, oz. 20c, 1-4 lb. 65c, lb. \$1.75.

BROWN AUSTRALIAN

Is of medium size, wonderfully hard and solid and very attractive for market, both as to form and appearance. The color of the skin is amber brown. A very good onion for this locality. We recommend Australian Brown. Pkt. 5c, oz. 15c, 1-4 lb. 50c, lb. \$1.50.

Dwarf Green Okra

SOUTHPORT RED GLOBE

The deep dark red color of our Red Globe is one of its superior points. Very large and uniform in size and appearance. Wonderfully hard and firm, a great late keeper. One of the handsomest onions in cultivation and a great market onion on account of its appearance and keeping qualities. Pkt. 5c, oz. 20c, 1-4 lb. 65c, lb. \$2.00.

LARGE RED WEATHERSFIELD

We have a very fine strain of this old standard variety. Color is deep purplish red, flesh white and very firm. Yields enormous crops and is one of the best winter keeping onions. A good market onion. Pkt. 5c, oz. 15c, 1-4 lb. 50c, lb. \$1.50.

SILVER SKIN OR WHITE PORTUGAL

A medium sized onion of very fine appearance. We have been struck with the way this onion seems to take to our soil and conditions. We have seen many beautiful specimens. Good keeper, delicate and mild flavor. Very early. Pkt. 10c, oz. 25c, 1-4 lb. 70c, lb. \$2.25.

CRYSTAL WHITE WAX BERMUDA

Some of our customers have been calling for Bermuda onion seed for several years and last season we had one of four best onion growers try them out in a small way to see what they would do. The result was surprising, as they matured perfectly and proved to be very early. The Bermudas are the finest grained and mildest flavored of all onions. Crystal White is a very attractive appearing onion. Pkt. 10c, oz. 40c.

RED BERMUDA

A very early pale red onion, grown extensively in the Bermuda Islands and southern parts of the United States for early shipping to northern markets. A very mild variety. Pkt. 10c, oz. 40c.

Yellow Globe Danvers

SOUTHPORT WHITE GLOBE

This onion grows to very large size and is a perfectly globe shaped onion. Color clear, pure white, a good keeper and fine market variety. Pkt. 10c, oz. 25c, 1-4 lb. 70c, lb. \$2.35.

MAMMOTH SILVER KING

This is a grand onion. One of the largest onions in cultivation, grows to immense size under favorable conditions. Color white, almost transparent in appearance. A fine onion for home gardens. Pkt. 10c, oz. 25c, 1-4 lb. 70c, lb. \$2.50.

WHITE BARLETTA

When matured tops die down, leaving beautiful and perfect little bulbs. Color pure white, flavor mild and delicate, perfectly adapted for pickling and table use. Pkt. 5c, oz. 20c, 1-4 lb. 65c.

Peas

WE QUOTE PEAS BY THE POUND; OTHERS QUOTE THEM BY THE PINT AND QUART. BEAR IN MIND THAT A PINT DOES NOT WEIGH A POUND. WE ARE QUOTING PEAS CHEAPER THAN ANY OTHER HOUSE WE KNOW OF. WE GROW OUR OWN PEAS AND NO HOUSE CAN SERVE YOU BETTER.

WHITE MARROWFAT

Hardy and vigorous grower. Pods about inches long. Peas smooth, quite large and white in color. Not considered of as good quality as the wrinkled sorts. Lb. 10c, 3 lbs. 25c, 10 lbs. 80c.

EARLY ALASKA

Well known and extensively used as an extra early variety. Vine is strong and vigorous, 2 to 2 1/2 feet tall. Pods 2 1/2 to 3 inches long and well filled. Ready for picking about 50 days from planting. Peas round, blue, slightly pitted. Quality good. Very productive. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

AMERICAN WONDER

Vigorous and productive, vines growing 9 to 12 inches tall. On account of its dwarf habit of growth it is a favorite for home garden use. Pods about 2 1/2 inches long and well filled. Fit for picking in about 55 days from planting. Peas wrinkled, green, medium in size and very sweet. American Wonder is a favorite early. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

ADVANCER

Vines upright and vigorous in growth, hardy and productive. Height about 30

inches, foliage dark green. Pods about 2 1/2 to 3 inches long. Ready for picking about 60 days from planting. Peas green, wrinkled, medium sized and very sweet. The Advance is a wonderful yielder. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

McLEAN'S LITTLE GEM

Strong and vigorous grower, producing vines from 18 to 24 inches in height, dark foliage. Pods about 2 1/2 to 3 inches long, light in color and blunt at the ends. Ready to pick about 60 days from planting. Peas green, wrinkled, of medium size and very sweet. An old favorite and a fine pea. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

GRADUS

A large wrinkled, early pea with pods nearly as large as Telephone, well filled with large peas of excellent quality and flavor. Height 28 to 30 inches. Pods 4 to 4 1/2 inches long. An exceptionally fine pea. 1-2 lb. 10c, lb. 15c, 10 lbs. \$1.25.

HORSFORD'S MARKET GARDENER

Strongly resembles Little Gem in habit of growth but a little taller. Vines grow 26 to 30 inches tall, foliage dark green, pods light green, about 2 1-2 inches long. A very heavy producer and a high quality, fine flavored pea. A favorite with market gardeners. 1-2 lb. 10c, lb. 15c 2 lbs. 25c, 10 lbs. \$1.10.

CARTER'S TELEPHONE

Vines and leaves large and coarse. Foliage light green in color. A tall grower but we have no difficulty keeping them upright. Pods about 4 1-2 inches long and well filled with the sweetest and best peas imaginable. Fit for picking about 65 days from planting, a good yielder. If you are looking for an extra fine pea try Carter's Telephone. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

DWARF TELEPHONE

Vines 18 to 20 inches high, with rather coarse foliage, medium light green bearing pods about 4 inches long. Ready for picking about 65 days from planting. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

ALDERMAN

A large podded pea of the Carter's Telephone type, very robust and vigorous grower. Pods 5 inches long, well filled with very large peas of exceptionally fine quality and flavor. A very productive pea and unequalled for quality. 1-2 lb. 10c, lb. 15c, 2 lbs. 25c, 10 lbs. \$1.10.

HOLLOW CROWN SUGAR

Roots long, white, smooth and tender, sweet and of excellent flavor. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

IMPROVED GUERNSEY

Roots white, very tender and sweet. Not as long as Hollow Crown and easier to harvest. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 50c.

Peppers

Sow in hot beds in March and when soil has become warm transplant in rows about 2 feet apart and 18 inches in row. Cultivate well.

LARGE BELL OR BULL NOSE

A very large sort of inverted bell shaped, suitable for filling or for mixed pickles. Flesh thick, hard and less pungent than most sorts. Pkt. 5c, oz. 25c.

RUBY KING

An improved sort reaching the largest size, yet retaining the symmetrical shape of the smaller sorts. An old favorite. Pkt. 5c, oz. 25c.

CHINESE GIANT

Without doubt one of the very best and largest Mango Peppers ever introduced. Its mammoth size, splendid shape and mild flavor commend it very highly. Pkt. 10c, oz. 40c.

RED CHILI

Used in the manufacture of pepper sauce and in salads. Pkt. 5c, oz. 25c.

Parsley Moss Curled

Parsley

MOSS CURLED

A very fine curled variety. One of the handsomest for garnishing purposes. The exceedingly curled leaves make it desirable. Pkt. 5c, oz. 10c.

Parsnip

Sow as early in spring as ground can be worked, in drills about 18 inches apart. Do not cover deep. Hoe and cultivate often. Can be left in ground all winter, which improves the flavor, but do not allow them to stand over as they are apt to run wild and become a weed.

Pumpkin

SMALL SUGAR PIE

A rather small but handsome variety. Shape round, skin deep orange color, flesh fine grained and sweet. Excellent for pies. Oz. 10c, 1-4 lb. 25c, lb. 80c.

CONNECTICUT FIELD

The hardest of all pumpkins, cultivated mainly for stock feeding. Produces enormous crops. Oz. 10c, 1-4 lb. 15c, lb. 40c.

BIG TOM

One of the best varieties for field purposes, particularly desirable for stock feeding. Grows to very large size. Oz. 10c, 1-4 lb. 15c, lb. 40c.

KING OF MAMMOTHS

Grows to enormous size, the largest pumpkin in cultivation. It is always a prize winner at fairs and exhibitions. Exceptionally valuable for stock feeding. Oz. 15c, 1-4 lb. 35c, lb. \$1.25.

IMPROVED WHITE CASHAW

Flesh yellow, solid and sweet. Popular for table use. Oz. 15c, 1-4 lb. 50c, lb. \$1.25.

TENNESSEE SWEET POTATO

Hardy, productive, sweet and delicious. One of the best for cooking purposes ever introduced. Oz. 10c, 1-4 lb. 30c, lb. \$1.00.

JAPANESE PIE PUMPKIN

Of medium size, good keepers, and weigh 15 to 20 lbs. each. The flesh is a rich salmon color, unusually fine grained, cooks very dry and mealy like a sweet potato. As a pie pumpkin they have no equal. Oz. 10c, 1-4 lb. 30c, lb. \$1.00.

Rhubarb

A good way to get Rhubarb is to sow the seed in very rich soil and transplant the roots in the fall of the year to trenches well filled with good soil mixed with well rotted manure.

VICTORIA OR MAMMOTH

Very large fine cooking variety. Pkt. 5c, oz. 15c.

EARLY LINNAENS

A large early variety, very tender and of fine flavor. Pkt. 5c, oz. 15c.

WRITE US FOR PRICES ON RHUBARB ROOTS IN SEASON.

Radish

EARLY SCARLET TURNIP

The standard early turnip radish, small, round, bright red, of very quick growth, crisp and tender. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

SCARLET TURNIP WHITE TIPPED

A beautiful variety, deep scarlet with white tip. Very early. Has a small top and may be planted closely. Flesh crisp, tender and sweet. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

CRIMSON GIANT

A new early radish double the size of any of the turnip shaped type. DOES NOT GET HOLLOW OR PITHY. The flesh is white, solid, crisp, juicy and of the mildest flavor. Shape varies from round to almost oval. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

Cincinnati Market

CINCINNATI MARKET

The tops of this new radish are very small. The brightest and handsomest long scarlet radish grown. Fit for use in 25 days from sowing and remains in good condition until fully grown. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

WHITE ICICLE

A beautiful transparent white variety, about three inches long, with small tops. Very crisp and brittle and remains in good condition a long time. Does not get pithy. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

FRENCH BREAKFAST

Medium sized, shape oval, color bright red with white tip, crisp and tender. A very fine early sort. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

LONG WHITE VIENNA OR LADY FINGER

Of rapid growth and beautiful shape. Skin and flesh snow white, very crisp and tender. The finest of long radishes. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

WHITE STRASBURG

A large showy summer variety. Grows to immense size. It covers a long season as it is good when quite small. The roots are long, very white, crisp and tender. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

WHITE STUTTGART

A very large white summer sort. Resembles small white egg turnip. Tender and sweet and very early. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

CHINESE ROSE WINTER

Bright rose color, shape cylindrical, or largest at the bottom. One of the best for winter use. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

CALIFORNIA MAMMOTH WHITE

Pure white, about one foot long, and two or three inches through, tapering to top. The flesh is tender and crisp, keeping well through the winter. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 60c.

MAMMOTH SANDWICH ISLAND

This is the best all round variety of salsify. Pkt. 5c, oz. 15c, 1-4 lb. 40c.

Spinach

ROUND SUMMER

This variety is generally preferred in the North for early spring sowing, and is the most popular with our market gardeners. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 35c.

BLOOMSDALE

Large curled and wrinkled leaves, tender and of the finest flavor. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 35c.

Warty Hubbard

LONG BLACK SPANISH

One of the largest, latest as well as the hardest of radishes. Roots oblong, black, and flesh of firm texture. Pkt. 5c, oz. 10c, 1-4 lb. 25c.

ROUND BLACK SPANISH

Roots round, sometimes top shaped, three to four inches in diameter, skin black, flesh white. Fine for winter use, as the roots keep a long time. Pkt. 5c, oz. 10c, 1-4 lb. 25c.

Salsify or Oyster Plant

Cultivate same as carrots or parsnips. A part of the crop can be left in the ground till spring, when it will be found fresh and plump. A delicious vegetable.

Squash

EARLY WHITE BUSH

Is earlier than any other variety of dwarf habit and very productive. Color white, shape scalloped. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. 80c.

GOLDEN CUSTARD

A very early, flat scalloped sort of large size. Color yellow, flesh yellow and well flavored. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. 80c.

WARTY HUBBARD

This variety of the Hubbard is a great favorite with marketmen. It is very striking in appearance and has been selected for years from exceptionally large specimens; it crops heavily. Grows to nearly double the size of the common Hubbard. Dark green in color, skin very heavily

warted. The best of all in flavor. A great market variety and a great keeper. Pkt. 5c, oz. 15c, 1-4 lb. 40c, lb. \$1.15.

BOSTON MARROW

This is a standard fall variety of a rich orange color and very productive. It is a standard squash for pies and canning purposes. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. 80c.

GOLDEN HUBBARD

A very distinct sort of the shape and general character of the Hubbard, but matures earlier. Rich red and orange color, flesh deep orange, dry and of excellent quality. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. 75c.

HUBBARD SELECT

A select strain of the old original Hubbard. Unexcelled as a winter squash. It cooks smooth and dry and is of very rich quality. Shape oblong, skin dark green and rough. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 85c.

SUMMER CROOK NECK

Early and prolific. The fruits are of true crookneck type, heavily warted and of a light golden color. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. 80c.

GREGORY'S DELICIOUS

All agree that Delicious is the finest flavored of all squashes. Grows to weigh from 5 to 10 lbs. and is in its prime in mid-fall to early winter. Color a green shade with some blue specimens. In thickness of flesh it surpasses nearly every other variety. Pkt. 5c, oz. 10c, lb. 85c.

MAMMOTH CHILE

Attains an enormous size, often reaching a weight of 200 pounds and not infrequently weighs 300. Despite its size the flesh is rich and fine flavored. It is particularly valuable for stock feeding and for exhibition purposes. An enormous yielder. Pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 75c.

MAMMOTH WHALE

THE HEAVYWEIGHT OF THE SQUASH FAMILY. It is quite common for specimens to make a weight of 300 lbs. Outer color a rich orange, flesh very thick and of a rich yellow color, quality good. Very valuable for stock feeding and a good one to raise for exhibition purposes. Try a patch of Mammoth Whale if you want something out of the ordinary. Pkt. 5c, oz. 20c, 1-4 lb. 50c, lb. \$1.50.

ENGLISH VEGETABLE MARROW

Flesh rich salmon yellow, dry and fine grained. Excellent as a pie squash. Pkt. 5c, oz. 10c, 1-4 lb. 30c, lb. \$1.00.

Tomato

DWARF STONE

As its name implies, this is a dwarf variety. Plants grow strong and upright. Fruit bright scarlet, very smooth and of high quality. Pkt. 10c, oz. 25c, 1-4 lb. 75c, lb. \$2.00.

CHALK'S EARLY JEWELL

A fine second early tomato about ten days later than Earliana. Fruit large, smooth and of fine flavor; color deep scarlet red. One of the best for home use and for market. Pkt. 10c, oz. 25c, 1-4 lb. 75c, lb. \$2.25.

EARLIANA

The earliest of all tomatoes, without a doubt. Large in size and beautiful in color, nearly seedless and very solid, a vigorous grower and heavy yielder. A great favorite in this locality. Pkt. 10c, oz. 25c, 1-4 lb. 75c, lb. \$2.25.

CHINES JUNE PINK

One of the earliest varieties and a favorite with those who like the pink color. Fruit of medium size and excellent quality. Pkt. 10c, oz. 25c, 1-4 lb. 75c, lb. \$2.25.

YELLOW PEAR

A small yellow pear shaped variety used for preserving. Pkt. 10c, oz. 25c.

Dwarf Stone

BEAUTY (LIVINGSTONE)

One of the smoothest skinned and best of the large sorts. Vines large, productive and vigorous. Skin purplish pink, flesh pink and of excellent quality. Pkt. 10c, oz. 25c, 1-4 lb. 75c, lb. \$2.25.

DWARF CHAMPION

Dwarf, compact and upright in habit of plant growth, with very thick short jointed stems, requires no stakes. Color deep red with a purplish tinge, round and very smooth. Fruit of very fine quality and flavor. This tomato is a favorite with our trade and a good one for this section. Pkt. 10c, oz. 25c, 1-4 lb. 75c, lb. \$2.25.

PONDEROSA

A purplish pink tomato of enormous size. Medium early, a good bearer and of good flavor. Pkt. 10c, oz. 35c, 1-4 lb. \$1.00, lb. \$3.00.

HUSK TOMATO OR GROUND CHERRY

Fruit golden yellow, size of cherry. Fine for pies or preserves. Pkt. 10c, oz. 30c.

TOMATO PLANTS IN SEASON.
WRITE US FOR PRICES.

Tobacco

Culture.—Plant in hot bed or in open ground early in spring and protect young plants carefully from frost, as they are very tender. Transplant about June 10th to rows about 30 inches apart and place plants about 30 inches apart in rows. Cultivate well and do not let plants blossom, but cut seed heads off soon as they appear. Cut plants close to ground before frost and hang up in well entilated place to cure. Tobacco can be grown in Idaho and many of our orchardists are interested, as it can be used to advantage as an insecticide.

CONNECTICUT SEED LEAF

This is by all odds the best variety for our climate and conditions. Very broad leaves. Pkt. 10c, oz. 25c.

Purple Top Strap Leaved

Turnip

EARLY SNOWBAL

A perfectly globe shaped, white skinned turnip. Exceedingly productive. The flesh is fine grained, firm and of very delicate flavor. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 60c.

EARLY WHITE EGG

A favorite early with our trade. Oblong in shape, skin very white. Flesh firm and sweet. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 60c.

Improved American Rutabaga

EARLY WHITE FLAT DUTCH

An excellent early garden variety. One of the best for spring sowing. Shape flat, flesh white, firm and sweet. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 60c.

PURPLE TOP STRAPLEAVED

Rapid grower and mild flavor. Good for both table and stock feeding. A large variety. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 60c.

PURPLE TOP WHITE GLOBE

An early variety. Globe shaped; heavy cropper. A handsome looking bulb, grows quite large. Good for both table use and for stock feeding. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 60c.

Rutabago Sweedish Turnip

IMPROVED AMERICAN

The best yellow fleshed purple topped variety grown for stock or table use. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 60c.

SKIRVING'S PURPLE TOP

A very heavy cropper. One of the best for field culture. Pkt. 5c, oz. 10c, 1-4 lb. 20c, lb. 60c.

Verbena, Fancy mixed, pkt.	10c

**See
That
Patent
spring
?**

It means much to the fruit grower who realizes the need for effective spraying, but deplores the ordinary pump with its exhausting labor, its unsatisfactory spray and its continual clogging and bother. This spring is found only in

Bean Magic Spray Pumps

It would be found in others, but the Bean Patents prevent it. This spring divides the work, permitting the operator to do half the work at each stroke of the handle. And he works against but half the pressure indicated on the gauge. It saves just one-third the labor. Two sizes of Bean Magic pumps; both have Bean patent spring, non-clogging ball valves, and other exclusive features.

Our illustrated catalog No. 21 describes ten sizes of hand pumps, and contains much valuable spray information, and formulas. Catalog No. 22 describes Power Sprayers. Both books sent free. Write for our special offer; state number of acres and kind of fruit.
