RECEIVER'S SALE

OF

Nursery and Greenhouse Stock

*The
Phoenix
Nursery
Co.*

Established 1852

Incorporated 1890

JOHN Y. CHISHOLM, RECEIVER

WE are compelled to raise \$50,000.00 by June 1st next and are naming you prices herein that you cannot duplicate and which only our urgent necessities compel us to do. Select your stock and mail your orders at once.

Bloomington, Illinois.

THE PHOENIX NURSERY CO.

JOHN Y. CHISHOLM, Receiver

1914

There Is Nothing That Will Improve Your Property and Surroundings and Add to Their Value, and Your Pleasure, at So Small a Cost, as the Planting of Trees, Shrubs and Hardy Plants

NEVER in the 62 years of the history of this Concern have we ever shipped better stock than we now have on hand, with which to fill your orders and you are assured of the best and most careful attention.

Being temporarily under a Receivership our terms must necessarily be cash with orders, or if you prefer one-fourth cash with order, balance collect on delivery. As the Receiver is an officer of the Court and under a FIFTY THOUSAND DOLLAR BOND your remittance will be perfectly safe.

OUR DESCRIPTIVE CATALOGUE WILL BE MAILED ON APPLICATION, FREE

OUR TRADE MARK—RED TAG TREES. We are the first nurserymen to adopt a Trade Mark for their entire stock. Some nurserymen have adopted a Trade Mark for one or two items for the purpose of restraining others from selling or propagating these items, while with us the purpose is entirely different. We have trade marked our product solely for the purpose of protecting our customers. The RED TAG identifies all our products, and we have had it registered in the Patent Office at Washington, D. C.

READ CAREFULLY

IN THIS CATALOGUE we have endeavored to make our prices as low as possible to furnish first stock, consistent with the proper handling and careful packing. We have tried to make our terms and prices so plain that our patrons can at once make up their orders and figure out the cost, and thus avoid the necessity of sending their lists to us for prices, which in most cases, in the busy season, causes delay, and the prices if quoted by letter would be the same as contained in this catalogue.

FREE PACKING—Our prices include packing on all orders.

FREE DELIVERY—Freight Prepaid on all orders amounting to \$10.00 or more, where cash accompanies the order for the full amount at prices and terms in this catalogue. 10 per cent discount allowed when cash for the full amount is sent with the order.

TEN PER CENT DISCOUNT ALLOWED WHEN CASH FOR THE FULL AMOUNT IS SENT WITH THE ORDER.

All greenhouse plants should be sent by express or mail.

All orders to be sent C. O. D. must be accompanied by one-fourth the amount in cash. When remitting please send us bank draft, express or postoffice money order, or send currency by registered mail. We cannot accept personal checks. **WE DO NOT FILL ORDERS FOR LESS THAN \$1.00.**

ORDERS WILL BE PRICED AS FOLLOWS: 1, 2, 3, and 4 trees of a kind, variety and size at each; 5 to 30 trees of a kind variety and size at ten rate; 30 to 300 trees of a kind, variety and size at hundred rate; 300 trees and over of a kind, variety and size at thousand rate. When an order is entitled to the hundred or thousand rates, the trees must be of the same kind, as all Apples, or all Peaches, Pears, Cherries, etc., and in sorts of not less than ten of a variety, as for instance, in apples, ten Ben Davis, ten Grimes' Golden, etc. In Pears, ten Keiffer, ten Bartlett, etc. In ornamental trees, shrubs, etc., the same rule will apply. Prices are for first class stock of the sizes and ages quoted and are subject to change without notice.

TIME OF SHIPMENT—We usually commence shipping in the SPRING about MARCH 10th and continue up to the last of May and in the FALL about OCTOBER 1st and continue into December.

OUR SHIPPING FACILITIES are unexcelled. Bloomington being an important railroad center, we are enabled to obtain very low freight rates, and forward promptly to all sections. With the Illinois Central R. R., Chicago & Alton R. R., Illinois Traction System, Lake Erie & Western R. R. (now the Lake Shore System), and the C. C. C. & St. L. R. R. (Big Four) and their branches, we have direct communication with Chicago, St. Louis, Cleveland, Cincinnati, Louisville, Columbus, Kansas City, Indianapolis, Dubuque, Madison, Sioux City, Omaha, Cairo and New Orleans, by daily freight trains without transfer. **WE GUARANTEE OUR STOCK TO REACH YOU IN GOOD CONDITION.**

P. O. Box 625, Bloomington, Ill.

PLANTING AND CARE OF TREES.

PREPARATION FOR PLANTING—Plow and subsoil repeatedly, so as to pulverize thoroughly to a depth of 12 to 18 inches. When planting on the lawn or grass plots, remove the sod for a diameter of 4 to 5 feet and keep this space well worked and free from weeds. Dig the hole deeper and larger than is necessary to admit all the roots in their natural position, keeping the surface and subsoil separate. Cut off broken and bruised roots and shorten the tops to half a dozen good buds, except for fall planting, when it is better to defer top pruning until the following spring. If not prepared to plant when your stock arrives, "heel in" by digging a trench deep enough to admit all the roots, and setting the trees therein as close as they can stand, carefully packing the earth about the roots, taking up when required. Never leave the roots exposed and "puddle" before planting.

PLANTING—Fill up the hole with surface soil, so that the tree will stand about as it did in the nursery after the earth is settled, except for dwarf pears, which should be planted deep enough to cover 2 to 3 inches of the quince stock upon which they are budded. Work the soil thoroughly among the roots, and, when well covered, tramp firmly. Set the tree firm as a post, but leave the surface filling (of poorer soil) light and loose. No staking will be required except for very tall trees. Never let manure come in contact with the roots.

MULCHING—After trees or bushes are planted it is a great advantage in Spring or Fall, to mulch with a layer of litter or coarse manure 4 to 5 inches deep, extending 2 to 3 feet out from the trunks all around and sufficient to cover all the roots beneath. This prevents the ground cracking or baking, and keeps the earth moist and of an even temperature.

AFTERCULTURE—No grass or weeds of any description should be allowed to grow around young trees or plants. To get the best results the ground should be kept clean and loose around them, at least until they begin to bear. Where the ground is poor, surface applications of manure are needed. Pruning should be done regularly every Spring before the buds swell; in this way removal of large branches is avoided.

FREE ADVICE—To our customers in reference to the care and culture of all trees and plants cheerfully given. Don't hesitate to write us.

DISTANCES FOR PLANTING.

Standard Apples	30	feet apart each way
Standard Pears and strong growing Cherries..	20	" " "
Duke and Morello Cherries	18	" " "
Standard Plums, Apricots, Peaches, Nectarines	16 to 18	" " "
Dwarf Pears	10 to 12	" " "
Dwarf Apples	10 to 12	" " "
Grapes	rows 10 to 16 feet apart	7 to 16 feet in rows
Currants and Gooseberries	3 to 4	feet apart
Raspberries and Blackberries	3 to 4	by 5 to 7 feet apart
Strawberries for field culture ..	1 to 1 1/2	by 3 to 3 1/2 feet apart
Strawberries for garden culture ..	1 to 2	feet apart

NUMBER OF TREES TO AN ACRE

30 feet apart each way	50	10 feet apart each way	435
25 feet apart each way	70	8 feet apart each way	680
20 feet apart each way	110	6 feet apart each way	1210
18 feet apart each way	135	5 feet apart each way	1742
15 feet apart each way	205	4 feet apart each way	2723
12 feet apart each way	300	3 feet apart each way	4840

RULE—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of feet in an acre (43,560), will give the number of trees to the acre.

OFFICE OF THE ILLINOIS STATE ENTOMOLOGIST.

No. 54.

This is to Certify, that the growing nursery stock and premiss of The Phoenix Nursery Company, situated at Bloomington, Ill., have been inspected by J. H. Gage, a duly appointed inspector of this office, according to the provisions of an Act to prevent the introduction and spread in diseases of fruits, in force, as amended July 1, 1909, and that said nursery and premisses are apparently free from the San Jose scale and other dangerous insects and dangerous plant diseases. This certificate applies only to the condition of this nursery for the year ending July 9, 1914.

(Copy.)
P. A. GLENN, Chief Inspector.

Urbana, Ill., Sept 15, 1913.

Landscaping

OUR LANDSCAPE DEPARTMENT is prepared to furnish attractive planting plans for small city lots up to large private grounds, public parks, factory grounds, cemeteries, summer resorts, schools, colleges, libraries, hospital grounds, etc. Our landscape architect is one of the leading men in his profession in the country. In our work we use hardy, flowering shrubs, herbaceous plants and vines, ornamental and shade trees; aiming to give, not alone foliage and flowers from spring to autumn, but pleasing bark and berry effects during the winter months. This work is not expensive, costs but little, and pleases so much, besides enhancing the value of the property. If interested, write for information early as possible as we have many appointments ahead.

A GANG OF BUDDERS

A PARTIAL VIEW OF OUR GREENHOUSE

A FIELD OF HYDRANGAEA
PANICULATA GRANDIFLORA
