Low Price on Keiffer Pear Trees

For mail orders that reach me during January and February.

10	Kieffer	5 to 6 feet,	2 year	-----	\$2.50
50	"	"	"	-----	\$10.00

Remember that Keiffers are seldom troubled by scale or blight. They bear young and heavy every year.

THE WAYSIDE TREE.

Who planted it? Stretching its giant limbs across a dusty road. Old with summer suns and moaning winter winds, with raging storms and gentle springtime rains. Beneath its branches pass the gay and sad of heart, the wedding throng, the funeral train. Love planted it.

Have 1300 Catalpa Speciosa bought of you, 300 were set 8 years ago. The rate of growth pleased me so much, that 2 years ago I set 1000 more. Most of these are now 10 feet tall and very straight.

JOHN PLOCHER.
Highland, Ill.

Office of the Illinois State Entomologist.

Urbana, Ill., Aug. 23, 1913.

This is to Certify that the growing nursery stock and premises of Emil Pacatte, situated at Pierron, Ill., have been inspected by Roe Niver, a duly appointed inspector of this office, according to an Act to prevent the introduction and spread in Illinois of the San Jose scale and other dangerous insects and contagious diseases of fruits, in force, as amended July 1, 1909, and that said nursery and premises are apparently free from the San Jose scale and other dangerous insects and dangerous plant diseases.

This certificate applies only to the condition of this nursery for the year ending August 18, 1914.

NATURE.

Nature never did betray
The heart that loved her; tis her
privilege,
Through all the years of this our
life, to lead
From joy to joy: for she can so in-
form
The mind that is within us, so im-
press
With quietness and beauty and so
feed
With lofty thoughts, that neither
evil tongues,
Rash judgements, nor the sneers of
selfish men,
Nor greetings, where no kindness is,
nor all
The dreary intercourse of daily life,
Shall e'er prevail against us, or
disturb
Our cheerful faith, that all which
we behold
Is full of blessings.
