Wholesale Trade List

Prices quoted herein are subject to change without notice.

The past season has been much more favorable for the production and harvesting of seed crops in general than the season of 1912, but the shortage of most varieties was so great during the past year, that this year's harvest will by no means fully replenish the badly depleted stocks of the past three years. Peas, wax beans and many varieties of the green pod beans, beet seed and some varieties of carrot are in very short supply this year. Prices quoted herein are undoubtedly as low as will be possible to quote during the coming season. In many cases there will not be stock enough to go around, if we get the usual demand. Would therefore recommend that our customers place their orders early to insure getting bottom prices and orders filled in full.

TERMS OF SALE.

VEGETABLE AND FLOWER SEEDS.—Net cash, June 1. A discount of 1% per month for unexpired time allowed for cash.

On FIELD PEAS, GRAINS, GRASS, BIRD and other MISCELLANEOUS SEEDS AND ONION SETS.—Terms: 30 days, less 1% for cash. All bills not paid at maturity are subject to sight draft.

Remittances must be made direct to our Boston office.

The prices named are F.O.B., Boston, and are subject to change without notice. We do not bind ourselves to quantity. Orders will be filled at lowest prices the market warrants at date of shipment. Firm quotations made when desired.

All claims for shortage, errors or overcharge, must be made within five days after receipt of goods.

All orders received are subject to our approval and will be accepted only on condition that we shall not be held liable for damages for failure to execute the same, through fire, flood, strikes or any other cause beyond our control.

NOTICE.—While we exercise the greatest care to have all **Seeds, Plants, Bulbs and Nursery Stock** of the best kind, we do not give, and our agents and employees are forbidden to give any warranty, expressed or implied. If you do not accept these goods on these terms, you must return them at once, and all payments therefor will be refunded.

JOSEPH BRECK & SONS, (CORPORATION.)

The Telegraphic Cipher attached to each variety, if used in connection with the code for quantities, will enable customers to wire us orders at small expense. Prefix the word, **Freight, Express or Mail**, to designate the manner of shipment desired. The code word for quantities must always precede the words for seeds, although if the same quantity of several varieties is wanted, the quantity word need only be placed before the word for the first article ordered. For example, "Freight Quapode, Bandy, Baker, Bantam, Quonopsy, Brabast, Capture, Clabrate," means, "Send immediately by first freight ten bushels each Horticultural, Yellow Six Weeks and Low's Champion Dwarf Beans, also five pounds each Arlington Early Turnip Blood Beet, All Season's Cabbage, and early Half Long Scarlet Carentan Carrot." "Express Quapepsy, Brew," means, "Send immediately by express fifty pounds Breck's Mammoth Long Red Mangel Wurzel." "Mail Quanomonia, Chemic," means, "Send by first mail post paid, two pounds Premium Late Flat Dutch Cabbage."

NOTE.—Code used in this list is adopted by the American Seed Trade Association.

OLD HOMESTEAD POP CORN

Lovers of pop corn will appreciate the Old Homestead brand of White Rice Pop Corn. No shelling, no dirt, no insects, no disappointment. It is one year old before being packed, thus ensuring good popping qualities. We clean this corn by a new process that frees it from dust, dirt, insects and other impurities. All the corn we pack is especially grown for us in New England, is cured in the old-fashioned way; consequently is not only clean, but is free from mixed and flinty kernels which do not pop. For Corn Balls, Candied Pop Corn, and Nuggets, the Old Homestead will be found superior.

SEEDS IN BOXES.

We put up in beautifully lithographed envelopes, and pack in neat boxes, seeds of the leading kinds of vegetables and flowers. The vegetable seeds are *put up by weight and each package contains about four times as much seed as is usually found in the commissioned box packages*. The packages of flower seeds are also more than double the usual size. The quality in every instance is the same as we sell at retail over our counters, and we believe planters will be fully satisfied with results.

BRECK'S STANDARD LAWN GRASS SEED.

We supply Breck's Standard Lawn Grass Seed either in bulk or put up in 1-qt. cartons, 2, 4 and 8-qt green bags.

We have given much thought and made many experiments in order to ascertain just what is the best mixture for permanent lawns, and the grasses which are best suited to this climate. By the proper blending of the varieties which constitute Breck's Lawn Grass, we have obtained a mixture that from early spring to late fall will give to lawns made with it that rich, deep green so often admired upon the lawns and parks of England, but so seldom seen in this country. Sow at the rate of four bush. per acre.

Per bush. of 20 lbs. \$3.50. 10 bushels, per bush., \$3.25; per case of 32 one-qt. pkgs., \$3.75.

BOSTON PARK LAWN GRASS.

The same mixture as supplied by us to the City of Boston Park Commissioners, for sowing on the parks administered by them. Sow at the rate of sixty-four lbs. per acre.

Per lb., 30 cents. Per bushel of 52 lbs., \$8.00.

BRECK'S "SHADY PLOT" LAWN GRASS.

This is a mixture of grasses that is naturally adapted for growing under trees and in places where the sun does not find ready entrance. Per bush. \$3.50.

BRECK'S BANK AND TERRACE GRASS MIXTURE.

A mixture of deep-rooting grasses specially prepared for embankments and situations where it is impractical to get a successful catch of the less-spreading rooted sorts. Per bush., \$3.50.

PRESTWICK GOLF GRASSES.

A series of mixtures modified as experience warrants for our needs, that we are sure surpass any hitherto offered in the United States.

No. 1. For Putting Greens. Sow at the rate of eighty lbs. per acre. Per lb. 23 cents.

No. 2. For Courses, light and dry soils. Sow at rate of 50 lbs. per acre. Per lb. 26 cts.

No. 3. For Courses, low and damp soils. Sow at rate of fifty lbs. per acre. Per lb. 23 cts.

Bowker's Pyrox. The one best spray for all leaf-eating insects. Does all that Arsenate of Lead will do, besides protecting trees, shrubs, vegetables and plants against fungus diseases, one application answering both purposes, saving labor and expense. "Sticks like paint" in spite of even heavy rains. Guaranteed under the National Insecticide Act. All ready to use by adding water. Lb. 19 cts., 5 lb. jar, 75 cts. each; 10 lb. jar, \$1.31 each; 25 lb. jar, \$3.00 each; 50 lb. keg, \$5.63 each; 100 lb. keg, \$10.13. Large quantities, price on application. Net f. o. b. Boston, only.

"Corona Dry" (Arsenate of Lead.) A pure Arsenate of Lead containing 33 per cent arsenic oxide, absolutely chemically combined with lead and the lowest percentage of "free" or water soluble arsenic. It is the ideal compound for spraying potatoes because it combines the quality of quick poisoning (superior suspension), giving even application; absolutely safe from "burning," and great adhesiveness. It gives an even application, covers more thoroughly, and sticks to the foliage longer. It mixes easily and readily in water. No working up to prepare for the spray tank. No straining. It is only necessary to shake the proportional amount into the spray tank. By using the same weight each time you spray, your mixture is always the same strength. No guesswork. Standardization is alone worth the price. No freight to pay on water; cannot freeze or dry out, cake, or lose its strength. Lb. cans, 40 cts. lb.; 5 lb. cans, 35 cts. lb.; 25 lb. drums, 25 cts. lb.; 50 lb. drums, 23 cts. lb.; 100 lb. drums, 21 cts. lb.; 200 lb. drums, 20 cts. lb. Net f. o. b. Boston.

STERLINGWORTH LAWN COMPOUND.

Kills the weeds but not the grass and makes the lawn green and velvety.

It seems incredible that a preparation can be made which will kill the weeds in lawns without injuring the grass. This is exactly what Sterlingworth Lawn Compound will do, and also it will help the grass to grow green and greatly improve the sward. It absolutely destroys Dandelions, Plantain, Chickweed and all weeds with hairy surfaces or broad leaves. It is a dry, sandy powder, to be applied by sprinkling over the grass. Five pounds will dress 500 to 700 square feet. Full directions for use on each package. Prices: 5-lb. cans, 60 cents; 10-lb. cans, \$1.00; 50-lb. kegs, \$4.00; 100-lb. kegs, \$7.50. Less 15%.

BRECK'S HYGIENIC BRAND CHICK FOOD.

A scientifically proportioned mixture which will meet every demand of the growing chick, and supply without excess of fat, the food necessary to produce and sustain vigorous health. There is nothing in this preparation that is at all likely to induce indigestion or diarrhoea, but on the contrary, it is so balanced in its constituents as to in a large measure make these troubles impossible where cleanliness and proper brooding conditions exist. It also contains the bone-forming properties that prevent leg weakness. It is high in protein, the flesh and muscle forming elements. There is sufficient mineral material to supply the needs of the bone structure of the rapidly growing chicks, while it is low in carbohydrate, the fat-forming element, which, where in excess, causes sickness and loss.

No other feed is necessary for the first eight or ten weeks. Feed dry. Price, 100 lb. bags, \$41.00 per ton.

BRECK'S COMPLETE POULTRY FEED.

We have frequently been asked by many of our patrons to put up in a convenient form a complete Poultry Feed. In response to the above requests, after a great many experiments, we offer in *Breck's Complete Poultry Feed* what we believe is the best food for poultry that is on the market today.

Great care has been exercised in the selection and balancing of the materials of which it is composed. It is being used in large quantities by many of the most successful Poultry Raisers in New England, and is without doubt the best Food of the kind sold at the present time. *Feed dry.* Price, 100 lb. bags, \$41.00 per ton.

BRECK'S MASH EGG FOOD.

It is a properly balanced meat and cereal preparation, and is one of the best egg-producing foods we know of for poultry that do not have large runs; it is just what is wanted to keep them in good vigorous condition. Can be fed wet or dry. Price, 100 lb. bags, \$40.00 per ton.

BRECK'S CUT ALFALFA.

The best known green food for poultry. DIRECTIONS FOR FEEDING:— Pour on boiling hot water, cover, let steam an hour, then mix with usual morning mash at the rate of one-third alfalfa to two-thirds the regular ground grains. Price, 100 lb. bags, \$32.00 per ton.
