GROWERS

WATERLOO, NEBR.

1914 CONTRACT PRICE LIST OF VINE
SEEDS AND SEED CORN

ANNOUNCEMENT

After a quarter of a century of seed growing, we feel qualified to claim that our experience and facilities for handling your orders are unexcelled.

We own a warehouse at Rocky Ford, Colo., that is equipped with the same class of cleaning machinery as our home plant. This branch of the business is in charge of Mr. J. A. Robinson, who has had nineteen years' experience in the seed business. Our crops at this point will be carefully looked after, and chance for failure under irrigation is reduced to a minimum.

An acreage will be planted of each variety to produce, under ordinary conditions, the various amounts required to fill all contract orders and in no instance will any carry-over stock be used to apply on contract orders, unless it may be mutually agreeable to our customers and ourselves. In case of shortages a sufficient reservation will be made for planting stock; all orders will then be filled by an equal pro rata division of the entire remaining crop, delivered to us by our various growers, all orders being treated alike.

Orders will be accepted for the growing of special stocks or new varieties at reasonable prices if planting stocks are furnished.

The telegraph code used is the same as adopted by the American Seed Trade Association.

Orders for 25 pounds of a single variety of vine seeds will be filled at regular quotations; for orders of less than 25 pounds of a single kind, add two cents per pound.

TERMS:—Field corn, cash on receipt and examination: Sweet corn and vine seed, sixty days acceptance, or if discounted, 1 per cent in thirty days from date of shipment. All prices are based on delivery f. o. b., Waterloo, Neb., or Rocky Ford, Colo.

From our warehouse we turn out three grades of corn: "Commercial" on which above prices are based; "Choice" at 15c per bushel advance over above price; "Gilt Edge" at a uniform price of \$1.25 per bushel. Write for particulars.

AIR DRIED CORN

We expect to deliver as dry corn as the season affords and at prices named will dry all corn showing over 16 per cent moisture without additional charge, but these prices do not carry artificial drying of corn showing 16 per cent or under of moisture. Our drying plant has a capacity of 800 bushels per ten hours. This has proved a valuable addition to our equipment and will be used at our own expense in case of excessive moisture. Customers wanting their corn dried to 14 per cent moisture or under will be charged 10c per bushel.
