INDEPENDENCE

IOWA

1914

FOREWORD

1914

1913 has passed into history and much history was made during the year that we believe will count for business stability and prosperity. The tariff and currency bill are both now a law and all uncertainties in regard to them are over.

Already business is fast recovering from the slight depression it suffered while the measures were before Congress. Never were the conditions as favorable for the development of legitimate business as at the present. Over most of the country, particularly in Iowa, business conditions are unusually favorable. The value of all crops in our state is greater the past year than ever before, and how can business fail to prosper with that a fact?

Let's "forget" that times have *been a little* close and *talk* up the prosperity that is surely in store for us.

We look for an exceptionally large demand for seed the coming season.

We are in position to take care of all your wants in our line. Send in your orders.

Remember, "WEB-SEED SUCCEED."

Yours for a successful seed season,

Mel. L. Webster Co.,

February 2, 1914

Independence, Iowa

An Absolutely NEW Display Case

The Best and Most Practical on the Market

THE ABOVE is an illustration of our new DISPLAY CASE. It is made of oak, beautifully finished, and is absolutely the handsomest, handiest and most convenient case of the kind on the market. Our old display case was a good one, but had one objection, our customers complained that though it displayed the seeds in good shape, it was a hard matter to get at the packets, as only the edge of the top one in each compartment was exposed. We have done away with this difficulty by setting each tier of compartments on hinges so that they automatically drop forward a little when the case is set upright, thus exposing not only the face of the first packet in the compartment, but the top of every other packet as well.

We do not ask you to buy this case: neither can we give it to you gratis. Our plan is to put it on your seed bill at one dollar and give you the privilege of returning it, if in good condition, for a refund of your money at any time you wish to discontinue its use. This dollar covers but a part of the cost to us, and it will be the best dollar you ever invested in the seed business, even though you never return the case for a refund. This case ought to substantially increase the sale of the MAMMOTH PACKETS, your best paying line. It is handy and it will save you on your freight bills, for we can then ship your goods in light and strong corrugated boxes for which we make no charge.

W E B S T E R ' S S E E D S U C C E E D

We HELP You SELL the SEED!

To secure an order from you is not our final object; for unless you sell the goods so as to be in a position to buy as large or an increased order next year, we will be the loser equally with yourself.

Our line of packet seed is a most saleable one and will out-sell any line in the market if given an equal chance. But this does not satisfy us. We want more than our share, and to assist in the sale of the goods, after they are in the dealer's hands, we offer

Rogers' Silverware

as a premium to users of our Packet Seed.

Bear in mind that this is not the ordinary premium silver, but Rogers' Guaranteed Plate. We send poster and other matter advertising this deal with all our shipments of Packet Seed, and it will more than pay you to give this matter some publicity with your trade. We have tried to relieve the dealer of all trouble in the matter, for your customers send to us direct for the premium.

Our plan is to mail this spoon to your customer for the return of 6 empty packets and 10 cents to pay the cost of but the packing and postage.

These spoons are worth at retail from 20 to 25 cents each and cannot be bought for less. Everyone who has procured one is anxious to complete the set.

It is not necessary to return all of the empty packet. The bottom Front Name Plate can be cut off and sent to us, even before the seed are used.

The Merchant Who Sells WEBSTER'S MAMMOTH PACKETS Has a Three-fold Advantage:

1st. He is selling absolutely the best seed that experience can produce and money can buy. We spare no expense to have our stocks absolutely right.

2nd. He not only is giving his customers good seed, but a larger quantity for the money.

3rd. He is making nearly 200 per cent. profit.

If you are new in the seed business, you will find the combinations listed below a great convenience in ordering:

Combination No. 1 (Shown Above) Contains

1 Case 400 Mammoth Flat Vegetable Pkts. at \$1.50 per 100	\$ 6.00
“ { 88 Large Cartons Peas, Beans and Corn }	Case 5.00
“ { 12 ¼-pound Pkgs. Turnip and Rutabaga }	
“ 12 one-pound Pkgs. High Grade Lawn Grass	2.00
1 Box 100 Mammoth Packets Flower Seeds	2.00
Retail value	\$39.20
Pays profit of	\$24.20
Total	\$15.00

Combination No. 2 Contains

1 Case 250 Mammoth Flat Vegetable Pkts. at \$1.50 per 100	\$ 3.75
“ { 78 Large Cartons Peas, Beans and Corn }	Case 4.25
“ { 8 ¼-pound Pkgs. Turnip and Rutabaga }	
“ 6 one-pound Pkgs. High Grade Lawn Grass	1.00
1 Box 50 Mammoth Packets Flower Seeds	1.00
Retail value	\$24.80
Pays profit of	\$14.80
Total	\$10.00

Large Packages

Our bulk cartons are especially adapted to the merchant who has neither the facilities or the space for handling in bulk the heavier seed, such as Peas, Beans and Corn. These cartons do away with a great deal of the trouble and muss consequent to a bulk seed business and enables a retailer to give his customer, in an attractive, sealed package, as liberal a quantity for the money.

Flower Seed

Our beautiful, double quantity Flower Seed Packets are a source of pride to us. We pack them in attractive boxes of two sizes, 50 or 100 packets to the box. Our flower seed comes to us from the most famous European growers. There is no better at any price.

Lawn Grass in Packages

In response to the demand of our trade for a lawn grass carton, we have placed on the market a package that is up to the standard of excellence of the other Webster products. In preparing this lawn grass mixture we have had in mind only the merchant who wants the best, and we have used in consequence only the finest Blue Grass, Red Top, Clover and Meadow Fesque. The Package contains a pound of seed and retails for twenty-five or thirty cents. Our price to the trade is two dollars the dozen.

Prices

Our prices for Packets and Cartons are as follows:

	Per 100
Mammoth Flat Vegetable Packets	\$1.50
Mammoth Flat Flower Packets	2.00
	Per Dozen

Improved German Wax

German Black Wax

NON-WARRANTY: We will exercise care to have all seed that we sell true to name and of the **Highest Grade**, and if it is possible, test all seeds, that they may be sure of germination before they are sent out, but there are so many outside conditions that even the germination of seeds depend on, it is impossible to warrant them, and it is expressly understood and agreed that they are not warranted in any respect, and will not be responsible for the crop.

Storing Turnips for Seed Growing—Webster's Seed Farm

BIRD SEED IN PACKAGES.

Webster's High Grade Bird Seed—This package contains one-half pound of mixed seeds in just the right varieties and proportion to constitute an appetizing and healthful bird food. This package is peculiar, from the fact that it is the only "NICKEL" package of "HIGH GRADE" Bird Seed on the market and it is the only package containing granulated shell, so prepared as to supply both grit and carbonate of lime, which are needed for the health of the bird.

72 one-half pound Packages, per case.....	\$2.00
Per dozen	.35

POULTRY SHELL.

	Per Cwt.
100-pound lots.....	\$.80
500-pound lots.....	.75
Shell in 5-lb. packages, handsome display packages; doz...	1.00

PAPER BAGS.

2-ounce Bags, per 1,000	\$1.80

In lots of 500 or more, we will print your ad. on the gummed bags without additional charge. If ordered in less quantity we will have to send them plain, unless 25 cents extra is charged in order to cover the cost of printing.

The Handiest Device on the Market for Bulk Seed Business

Our BULK SEED Cabine

THE ABOVE shows a very attractive display of Bulk Seed. It certainly pays the dealer to aim at a display as the profit on bulk seed is very large for the dealer. The glass-front case is a very showy and convenient way to place for sale such seed as Turnip, Onion, Radish, Beet, etc., etc., the staples in small seed. There is room for 16 different varieties. The seed is put in at the top and taken out at the bottom, in the rear. The seed feeds down as fast as it is taken out. We have a limited number of these cabinets at \$2.00.

This Cabinet is Worthy of the Immediate Consideration of the Bulk Seed Trade

Wholesale Price List

SPRING, 1914

For Dealers Only—The prices quoted in this list are strictly Wholesale Prices and are for dealers who buy to sell again. The line of goods we put up and the varieties of seed we quote are those which are the most staple with the store trade. As we do not do a retail business, the new and high-priced novelties we leave for those seed companies who make a specialty of the retail catalogue trade.

Important—Please read this and avoid a misunderstanding. All bills are due and payable 60 days from the time of shipment you specify on your order. Owing to the size of our business it is impossible to ship all orders on the particular date specified, therefore we must ship some orders earlier, but give you the advantage of the full dating. Accounts not paid at maturity are subject to sight draft without notice.

Discount—A 2 per cent. discount will be allowed for cash if paid within 10 days from date of invoice; 1 per cent. in 30 days. Absolutely net cash in 60 days.

Field Seeds—Grass Seeds of all kinds, Clovers, Field Corn, Field Peas, Dwarf Essex Rape, are net cash, no discount.

Bags and Boxes—No charge made for Ordinary Cases for package seeds. Bags, Boxes, Barrels and Baskets used for packing loose bulk seed and field seed will be charged at cost; but we will try to pack all goods so that this necessary package charge will be as little of a hardship on our customers as possible, and will allow credit on muslin bags if returned in good shape, free of express or freight charges. The two-bushel Seamless Bags are a staple article and can be disposed of at a profit over our price to you.

Orders by Mail—We especially solicit any business you may have to place by mail. For most of the trade who receive this list there will be no place from which supplies can be secured in less time than they can if ordered of us, and the matter of time is a very important thing during the seed-selling season.

Parcels Post and Express—Seeds do not come under the present Parcels Post regulations, but may be shipped under the old ruling for $\frac{1}{2}$ c an ounce or 8c per pound, irrespective of distance. For long distances this is cheaper than Parcels Post. In their new schedule of rates Express Companies put seeds in the second class, which for packages under 100 pounds is, in many cases, cheaper than freight.
