Following is the list of Garden Seed we are prepared to grow the coming year or season of 1901. We have a good supply of carefully selected roots and bulbs for our biennial crops and excellent stock seeds of the annuals, and are prepared to grow everything here listed.

We are strictly Wholesale Growers and solicit no retail trade. All orders accepted by us are properly booked against our growing crops, and will be filled as nearly as possible and shipped after harvest. In event of short crops all accepted orders will be filled pro rata. We figure on a fair average crop only, under favorable conditions, and will only book contract orders up to such time as in our judgment the indications are favorable for our filling them.

We exercise great care in growing, roguing and cultivating our crops and in harvesting, cleaning and shipping same, but since it is necessary to employ men to do our work, it is not possible to always prevent mistakes, and we will in no case stand consequential damages for any seed sold by us and will be responsible only to the extent of the value of the seed as charged by us.

All seeds here offered are grown under our direct supervision.

Our terms are:—The following June 1st after delivery, or 5 per cent discount for cash, allowing reasonable time for the receipt and acceptance of the seed.

When accounts amount to \$500.00 or more, freight charges (for points in the U. S. only) may be charged to us and deducted when remitting.

We charge cost for seamless cotton bags, but make no charge for packing. Seed which weighs 100 lbs. or more to the bag will be packed in double bags.
