Governor Roosevelt. (Ward.) Admitted by Carnation growers to be as near perfection in form as any Carnation yet introduced. Flowers average fully three inches in diameter throughout the season. Color is deep brilliant scarlet, heavily shaded with maroon. In habit of growth resembles Gen. Maceo, but is a far more vigorous grower with a longer and much stiffer stem, holding the flower perfectly erect. \$12.00 per 100, \$100.00 per 1,000.

Dorothy. One of the best commercial pinks, having no equal as a paying variety of this color. It is a bright pure pink, about the shade of Scott, produced just as freely, and has no equal in keeping qualities. Flowers much larger than Scott, finely formed and nicely serrated; not an exhibition variety, but as a money-maker. \$10.00 per 100. \$75.00 per 1,000.

Queen Louise. Flowers of good size, on long stiff stems. Blooms early, late and all the time, one of the most profitable white varieties; a clean healthy grower and persistent bloomer. A money-maker for the ordinary grower. \$10.00 per 100. \$75.00 per 1,000.

Lorna. (Dorner.) Flowers pure white, three inches and over in size, very fragrant. Center well filled, rounding the flower to a most pleasing form. California Gold. An excellent yellow variety, closely resembling Ethel Crocker in habit and healthy growth. It is by far the freest flowering variety of its color. Will be highly valued by every grower needing a bright yellow variety. \$10.00 per 100. \$75.00 per 1,000.

CARNATIONS.**General Collection—From Pots.**

Alma. A splendid broad, flat flowered commercial variety. Quite a distinct shade of deep rosy pink. \$3.00 per 100.

Flora Hill. Still the best paying white. Nothing in the line of white Carnations equals it in size of flower or freedom of bloom. \$3.00 per 100.

G. H. Crane. The finest all round scarlet to date; of strong and vigorous habit of growth, making an endless number of cuttings. It is a large flowered sort, producing both quantity and quality. When well grown, flowers average 3 inches, with perfect calyx and good strong stem that holds the flowers erect all the season. \$3.00 per 100.

Gen. Maceo. Very full deeply fringed flower 2½ to 2¾ inches in diameter. Ground color, deep brilliant scarlet heavily overlaid with maroon, fully as rich and striking as the Meteor Rose. \$3.00 per 100.

NEW CHRYSANTHEMUMS FOR 1901.

Malcom Lamond. "A red that does not burn." It is exactly the color of Fisner's Torch, but is much fuller, having three times as many petals. Beautiful velvety crimson. The easiest of its color to grow, and brings out no imperfect flowers. With Black Hawk and G. W. Childs in the same bench showing burnt petals, this variety showed not one injured spot. 35c. each. \$3.00 per doz.

Timothy Eaton. The champion Chrysanthemum novelty of the year. Has been successfully exhibited at all of our main shows the past fall by its originators, Miller & Sons of Ontario, Canada. It is the largest globular, Japanese incurved variety yet raised, a healthy grower and brings a full crop of perfect flowers. A pure white seedling of Wanamaker. 50c each, \$5.00 per doz., \$30.00 per 100.

Mary Hill. A seedling from Mrs. Perrin of quite similar habit and growth; flower very much fuller, showing no sign of center. A light, bright shade of pink with a high pearl gloss on the outer petals. Blooms middle of November and is an excellent keeper. 35c each. \$3.00 per doz.

Three New 'Mums from Nathan Smith & Son. Originators' Descriptions.

Iolantha. An incurving pink maturing October 10th to 15th. Fine stem and foliage; height 3½ feet; good from either bud, although second crown (about Sept. 5th) comes a few days earlier. Color a beautiful shade of soft pink. We consider this the best early pink yet produced. 'Certificated by C. S. A.

Omega. A second early yellow, the same shade as Mrs. J. J. Glassner; 7½ inches in diameter. Belongs to the V. Morel type, but has broader petals. In perfection October 25th. 'Certificated by C. S. A.

Mrs. Elmer D. Smith. Of the many fine seedlings we have produced in the last ten years, we consider this one possesses more points of excellence than any of its predecessors. A Jap. Inc. of the most perfect form; full, double, high rounded center. Bright yellow, deeper than Golden Wedding. In the C. S. A. Cup Contest at Chicago, it stood second, falling only one point behind the winner. The blooms in this exhibit were 7 in. in diameter. Stem and foliage perfect; scant 3 feet high. This variety will rival Maj. Bonnaffon, being brighter in color, more dwarf, very similar in form, with much heavier and stronger stem. In season November 1st to 10th. Four of the C. S. A. committees gave this variety an average of 92.75 points.

Price, 50c each; \$5.00 per doz.; \$35.00 per 100. Ready April 1st, 1901.

Four of the Best of Last Year's Introductions.

Monrovia. (Mme. F. Bergman and J. E. Lager.) Those intending to be first on the market with Chrysanthemums will welcome this early, bright yellow. It has the excellent stem and foliage of its parents and in form is intermediate. The flowers are deeper than those of Marion Henderson and come at the same date.

Lavender Queen. (Mrs. Jas. Eadie and Thanksgiving.) A large Japanese, outer petals reflexed and center erect, making a flower of great depth. In general habit resembles Thanksgiving. Height 3 feet. A new color, decidedly distinct from any in commerce, being a soft shade of lavender pink.

GOLD MINE.

Goldmine. (Exhibited as Stelletta.) (H. L. Sunderbruch and Modesto.) Unsurpassed in size, having been grown 11 inches in diameter. Foliage and general habit resembles Sunderbruch. Planted June 20th it attained 3 feet in height. Rich golden yellow; outer petals reflexed and center incurving in a whorl.

White Bonnaffon. (Mrs. H. Robinson and Mrs. H. McK. Twombly.) A commercial variety of great promise which we predict will become as popular as the typical Maj. Bonnaffon. Color, pure white, form identical with Bonnaffon, growth very short-jointed, not exceeding 3 feet in height.

\$5.00 per 100.
