OUR NEW.....
EVER-BEARING

AMERICAN WONDER LEMON

THE LARGEST EDIBLE LEMON IN THE WORLD.

WILL GROW, BLOOM AND FRUIT ANYWHERE IN ANY GOOD ORDINARY SOIL.

THIS sterling novelty was introduced for the first time to the public by us in the Spring of 1899. Since that time we have grown and sent out thousands to all parts of the country, and the reports we have received from our patrons in all quarters as to its great productiveness and immense size is very flattering. At the present time of writing there is no less than 26 immense lemons on the original parent tree at our establishment, some of which weigh now fully three pounds each, and the tree being also in bloom and setting another crop, stamps it beyond question a veritable ever-bearing lemon. In addition to its fruit-bearing qualities it makes a very handsome specimen plant for house culture. The dark green foliage is very large and handsome, and the pure waxy-white flowers, with yellow stamens, are nearly as large as Tuberosa blooms and as fragrant as Orange blossoms, which it greatly resembles. The lemons have a very thin rind for such large fruit, and are full of rich acid juice, and is fully equal to eight or ten ordinary lemons. It makes delicious lemonade and for culinary purposes has no equal. We guarantee every tree to produce the same large fruit, no budding or grafting necessary. It is of the easiest culture, flowering and fruiting in any good ordinary soil. Price for very strong young plants, 15c each; 4 for 50c; 10 for \$1.00. Second size, splendid two-year-old plants that will fruit this coming season, 50c each; third size, extra large fruiting plants, \$1.00; fourth size is a magnificent specimen that will flower and fruit abundantly this season, \$2.00 each. Third and fourth size must be sent by express.

We have also a nice lot of standard or tree-shaped lemon plants that average three feet in height; many of these have already fruited. These will make fine fruiting trees for this season. Price, \$1.50 each.

If you want the genuine American Wonder Lemon send to headquarters for it. We have over forty thousand ready for shipment. We also have at present time ripe lemons on the parent tree larger than the illustration on opposite page. If any of our friends are skeptical about this statement, come and see them.

LETTERS OF COMMENDATION

THE STATE OF OHIO, } ss. Chas. F. Miller, artist for Stecker Bros. Lithograph Co., New York, being first duly sworn
CLARK COUNTY, } says that he drew from nature the Lemon as shown on opposite page. He further certifies that there were a number of Lemons on the same tree nearly as large as the drawing mentioned. CHAS. F. MILLER.
Subscribed in my presence and sworn to before me by the said Chas. F. Miller, this 23d day of September, A. D. 1899.
[SEAL] HARRY S. KISSELL, Notary Public. Clark County, Ohio.

Dallas, Tex., Oct. 23, 1900.

Messrs. Schmidt & Botley:

Dear Sirs—I thought I would drop you a few lines in regard to the American Wonder Lemon trees I got from you nearly two years ago. They have grown fine ever since I received them. They bloomed last Spring, and the three trees matured 23 lemons. I took two of them to the Texas State Fair, which has just closed. They were the wonder of everybody. I cut out the leaf from your catalogue giving a history and description of the wonderful fruit, also telling where they could be secured. I had many inquiries about the trees, and I think you will get quite a good many orders for them. I received a letter from a person the other day who wanted to buy one of my trees, but I have none to sell. At what price would you sell me 50 lemon trees, say one year old, and when is the best time to plant, Fall or Spring? Hoping you may get many orders through my exhibit, I am yours truly,
Lock box 419. B. M. BOWLAND.

Hopkinsville, Ky., March 26, 1900.

Messrs. Schmidt & Botley:

The 10th of January I plucked a ripe lemon which weighed 15 ounces, measured $13\frac{1}{4}$ inches in circumference one way and $11\frac{1}{4}$ inches the other. I must confess I never tasted more delightful lemonade. The lemon is all you claim for it. There is one on the tree ripening, 10 inches in circumference. I send clipping from our paper, Kentucky New Era.

Yours truly, MISS JOHNNIE BEARD.

A BIG LEMON

"Miss Johnnie Beard has in her conservatory a young lemon tree of the American Wonder variety. One of the lemons was plucked this morning and exhibited by Mr. R. H. Holland, and elicited exclamations of wonder and astonishment. Its weight is 15 ounces, and it measured $13\frac{1}{4}$ inches in circumference one way and $11\frac{1}{4}$ the other."

Kentwood, La., April 25, 1900.

Messrs. Schmidt & Botley:

Enclosed find \$2.50, for which send me by express one-half dozen two-year-old American Wonder Lemons, or more if you can afford it. Just pulled a ripe lemon that weighs two pounds from the first tree you sent me.

Yours, F. S. WOOLVER.

Maiden, N. C., Oct. 9, 1899.

Messrs. Schmidt & Botley:

Gentlemen—I am much pleased with the American Wonder Lemon tree. I got the tree very late in the season. Possibly one hundred blooms dropped before the roots took hold in the ground enough to nourish the fruit. Late in the season the blossoms did not drop, and now I have five lemons about two pounds each, which is much better than I expected, and the tree is flourishing. I will say again I am more than pleased with the tree.

Yours truly, J. M. HOBHOUSE.

Hayti, Mo., March 27, 1900.

Messrs. Schmidt & Botley:

My American Wonder Lemon is a beauty. Had two fine, large lemons to ripen that weighed the same as five fine, good-sized common lemons. Every one who sees it thinks it is a grand sight, and I do also.

Yours truly, MRS. D. E. DORRIS.

Robinson, Ill., Feb. 4, 1900.

Messrs. Schmidt & Botley:

My American Wonder Lemon is now coming into bloom, and has from 15 to 20 bunches of buds and blooms, also some small lemons. Have shown it to a number of people, and they all say that they expect to get some plants. My plant stands about three feet high, and it required almost no care. Its blossoms are the most fragrant of any plant I know. A single blossom will scent a room. I consider it a most excellent house plant, its foliage being extremely pretty.

Yours, etc., ORAN R. HEDDEN.

Philadelphia, Pa., Oct. 2, 1899.

Messrs. Schmidt & Botley:

Sirs—The lemon tree I purchased of you last Spring has fruited beyond my expectations. It has been in bloom twice, and would have had 19 lemons had I left them on. But when large enough to tell which were the healthiest, I kept two of the first bloom and one of the second. One from the first bloom is $3\frac{1}{2}$ inches long, 8 inches in circumference, and look as if they will be wonders among lemons. They are the largest I ever saw. If any of your customers in this neighborhood are skeptical they can call and see it.

Yours truly, WM. F. BARRETT,
5013 Melrose St., Station F.

Piedmont, W. Va., Sept. 29, 1899.

Messrs. Schmidt & Botley:

Gentlemen—The American Wonder Lemon was received in good condition, the lemons uninjured. To say I was pleased does not express half my thanks for the nice large specimen. It is the wonder of every one who sees it. They cannot believe it is a lemon, as they are so large. It is planted in a three-gallon bucket and kept in a room without heat, but we have fire in the next room.

Your well wisher, MRS. J. W. JENKINS.

Washington, N. C., March 6, 1900.

Messrs. Schmidt & Botley:

You will see by the enclosed that I sent the fine lemons raised from the tree purchased of you last Spring to the North Carolina State Museum. I also sent some pages of your catalogue, giving plates and description. The curator was much pleased. Said he never saw anything so fine, and would place them immediately in alcohol. The tree is again putting forth sprays of beautiful buds.

Respectfully, MISS M. B. RODMAN.

NORTH CAROLINA LEMONS

[CLIPPING]

North Carolina has taken to growing lemons. Curator Brimley of the State Museum has received from Miss Rodman, of Washington, N. C., some of the finest specimens of the fruit ever seen here. Several of the lemons sent weigh 17 ounces.

Colorado, Tex., Nov. 2, 1899.

Messrs. Schmidt & Botley:

Gentlemen—The lemon tree purchased from you last Spring is all right and growing larger all the time. It had between two and three hundred lemons on it at one time, about the size of cherries. All fell off except two. At present these are very large—about the size of goose eggs, weighing about one-half pound. They are the largest lemons I have ever seen, and I would not part with it for three times its cost.

Very respectfully, MRS. J. H. HALEY.

REMEMBER, the American Wonder Lemon requires no budding or grafting, and anyone can grow fruit as large as our illustration.

Ten Hardy, Ever-Blooming Roses

FOR 50 CENTS

THIS IS A SPLENDID COLLECTION. IT CANNOT BE EXCELLED.

We are constantly in receipt of enquiries from our customers for Roses that are ever-blooming and yet hardy. On this page we offer a very fine collection, combining these two qualities

We will send the entire set of ten in very fine plants for only 50c
In splendid two-year-old plants, the set of ten for \$1.60

This Collection must be ordered complete, and when ordering please say "The Hardy Ten."

Hardy, Perpetual-Blooming Rose, MAD. CHARLES WOOD—A true perpetual bloomer. Begins to bloom almost as soon as planted, and continues all through the season. The flowers are extra large, very double and full, and quite fragrant. Color a bright, fiery scarlet, passing to a fine rosy crimson, elegantly shaded with maroon. Very showy and handsome, and one of the best Roses ever introduced for general planting.

New, Hardy, Ever-Blooming Rose, CHAMPION OF THE WORLD—This Rose is the champion bloomer. It is also champion in form and color. Its blossoms are perfectly double to the center and of the most perfect shape both in buds and blossoms, while its color is a degree of loveliness which few Roses can equal, being a rich, deep, rosy pink, a shade the delicate richness of which is seldom seen. Its size is very large for an ever-bloomer, often as large and as fine as La France or the best of Hybrid Perpetuals. You will miss a beauty should you fail to get it.

STAR OF LYON, ETOILE DE LYON—This magnificent Tea Rose is a rich golden-yellow; a strong, healthy and vigorous grower; immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the very best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold, frequently standing the Winters here uninjured in open ground without protection, and blooming nicely through all the hottest part of the Summer.

PINK LA FRANCE—It is of superb form and double as a rose can be. No variety can surpass it in delicate coloring—silvery rose, shaded with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored, and fragrant in the highest degree.

MAD. CHAS. WOOD.

YELLOW MOSELLA is another novelty that has been wanted for some years. Who does not know the beautiful Clothilde Soupert, the splendid bedding Rose? Mosella is a stronger grower, flowers are a little larger than the Clothilde Soupert, but appear the same way in clusters and on single stems; the color is chrome yellow in the center, getting creamy white on the edges of the petals. It will make a great bedder and is perfectly hardy.

CLOTHILDE SOUPERT—It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with style of the beautiful Rose, "Ball of Snow." The flowers are borne in sprays, and the color blends from a soft shell-pink to a pure satiny-white. Roses with both these colors are borne on the same plant at the same time. No other Rose approaches it in flowering qualities.

BALL OF SNOW (Boule de Neige)—A finely formed, pure white Rose; occasionally shows light flesh when first opening. Beautiful shell-shaped petals, evenly arranged; flowers of good size.

SCARLET BEDDER—This is without doubt the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. Flowers are large size, fiery scarlet, a color rarely seen in Roses. Planted everywhere on account of its color and freedom of bloom.

THE METEOR—A velvety-red ever-bloomer of the deepest glowing crimson. A vigorous, bushy grower, with healthy, bright foliage of the deepest green. Unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower.

WHITE LA FRANCE (Angustine Guinnoiseau)—Here we have a beauty indeed, one we can recommend to all, whether for outdoor culture or for pots in the house in Winter. It is identical with La France, except in color. It is pearly-white, sometimes tinted with fawn.

OUR FAMOUS Good Luck Collection of Roses

For Spring of 1901 *A A*
A BETTER THAN EVER

*This splendid Collection sent
to any address for only \$1.00*

New Tea Rose, GOLDEN GATE—This magnificent Rose is a strong, healthy grower. Produces a profusion of long, pointed buds, opening to large double Roses of creamy-white, beautifully tinted with soft yellow at the base of the broad petals, which are exquisitely bordered with clear rose. We heartily recommend it.

MARECHAL NEIL—Grown the world over for its magnificent yellow flowers. Especially valuable in the South.

MOSELLA—The petals are tinted white, on beautiful light-yellow ground extending to the middle of the petals. The plant is dwarf, bushy and free blooming. A beautiful new Rose.

THE BRIDE—It is a pure white Rose of large size and most perfect form. This variety has the most delicious Tea fragrance, and is a strong-growing, free-blooming Rose.

The Beautiful New White Tea Rose, WHITE MAMAN COCHET—The finest Rose of the year, producing large fine flowers of the purest white. In fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence.

New Tea Rose, MAID OF HONOR—This is a sport from Bridesmaid, and is several shades deeper than that variety. Its connection with the Mernet family of Roses would indicate its worth.

CLOTHILDE SOUPERT—The best of all pot Roses; literally loaded with bloom at every stage of growth. Color beautiful pinkish amber, flushed with silvery rose with shades of salmon.

The Beautiful Rose, MADAME WELCHE—The flowers have great depth and substance, and are of fine globular form, with broad, thick petals and large, finely shaped buds. The color is a beautiful shade of soft amber yellow, deepening towards the center to orange or coppery yellow, delicately tinged and clouded with a pale ruddy crimson.

DUCHESS DE BRABANT—This Rose combines exquisite perfume, beautiful coloring, and a matchless profusion of flowers and foliage. How shall we describe its coloring? Soft, light rose, with heavy shading of amber and salmon. Quite hardy, and in every respect it is admirable.

A magnificent bedding collection of twenty choice ever-blooming varieties. They are all strong and thrifty, and, above all, exceedingly well rooted. This collection must be ordered complete. It is sure to please you.

SCARLET BEDDER—Intense deep, rich, velvety scarlet, and a profuse bloomer. You make no mistake in purchasing this Rose.

Wonderful New Climbing Rose, EMPRESS OF CHINA—Here we have a Rose that blooms continuously for over seven months of the year. When it first opens the flowers are a beautiful red, but soon turn to a lovely light pink, and it blooms so profusely as to almost hide the plant. It is perfectly hardy and is a vigorous grower.

STAR OF LYON—A very free-flowering, deep yellow Rose; handsome buds and flowers; always in bloom.

METEOR—A Hybrid Tea of rich velvety-crimson color, with intensely dark shading; a good grower; free bloomer.

PRINCESS VENOSA—A strong grower, producing a long bud; flower large and beautifully formed. Color nankeen-yellow, with shadings of carmine. A most remarkable combination of colors.

MAD. KRUGER—Probably the best all-round budding Rose we have. Its shadings of deep coppery yellow stand unique and distinct.

"SOUVENIR" DE LA MALMAISON—This grand old variety, when used as a bedding Rose in Summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, double to the center.

WHITE MARECHAL NEIL—Identical with its famous parent save in color, which is a beautiful creamy-white. A grand Rose.

BRIDESMAID—(New.) This Rose is fast superseding Catherine Mernet; identical with it in growth and shape of flower, differing only in its color, which is the most charming pink imaginable.

MARIE GUILLOT, the Queen of White Roses—We recommend it as one of the most reliable white Tea Roses in cultivation, especially for outdoor culture. It is first-class in every respect. The color is pure snow-white, sometimes faintly tinged pale yellow. The flowers are magnificently made, extra large, full and double; the buds are very pretty; fragrance very sweet.

New Tea Rose, MAMAN COCHET—One of the best new Roses. The extra large flowers are produced on long stems, are very double, and the buds and half expanded flowers are simply exquisite in their graceful form, delicate color and rich fragrance. The color is a lovely rose-pink.

A TWO-YEAR-OLD HARDY ROSE.

THE FAMOUS MARECHAL NIEL ROSES

RED, WHITE AND YELLOW VARIETIES

LARGE SIZED MARECHAL NIELS.—We grow the largest, best and strongest-rooted Marechal Niels in this or any other city. If you want the very best, try ours. They are large and nicely shaped, and, above all, they are exceedingly well rooted, being grown slowly to attain this result.

EVERY one knows the famous old beauty, Yellow Marechal Niel, the only Rose that has kept its place in the very first rank over all others for more than a quarter of a century, and probably will always retain it. But every one does not know that the grand old Rose has at last two charming companions in the White and Red varieties of this royal Rose.

OUR GREAT OFFER.—We will send one each of the Red, White and Yellow Marechal Niels, strong, well-rooted plants, for only 25c; the three in large two-year-old plants for \$1.00.

The World-Re- nowned Rose, YELLOW MARECHAL NIEL.

A beautiful deep sulphur-yellow, very full, very large and exceedingly fragrant. It is the finest yellow Rose in existence. It has a climbing habit, and where it is allowed to grow until it attains a large size, as it will in a few years, it yields thousands of beautiful golden-yellow flowers. Especially desirable in the South. We sell annually fifty thousand of this Rose alone. We have a grand stock of this variety. Price, first size, 10c each; large and nicely shaped two-year-old bushes at 50c each, and an extra strong, robust fellow, that will take care of himself anywhere, the best you ever got, \$1.

WHITE MARECHAL NIEL.

Identical with its famous parent, save in color. The fame of Marechal Niel, with its large, deep golden-yellow flowers, is so world wide that nothing further need be said of this new variety to make it instantly popular than that it is the exact counterpart in every respect of Marechal Niel, its parent, save the color of flower, which is a pale creamy-white. Totally distinct. This remarkable variety is selling at enormous prices in Europe, where it originated. We consider ourselves fortunate in possessing some of the original stock plants, procured direct from the introducer, from which our stock has been propagated. It is a rapid climber, and quickly makes a bush of considerable proportions. For Southern cultivation it will be of great value, and as a companion plant to Marechal Niel we anticipate a splendid demand for it. Price, strong three-inch pot plants, 10c each; large two-year old plants, 30c each.

NOTE.—We would strongly advise ordering the large Niels by express. Success is then certain.

The set of four large two-year-old plants for \$1.00

New Climbing Rose, CRIMSON RAMBLER—The plant is of vigorous growth, making shoots of from eight to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. One of the striking characteristics of this Rose is its remarkable color, which is of the brightest crimson, which remains undimmed to the end. The flowers are produced in great pyramidal panicles or trusses, each carrying from 30 to 40 blooms, the individual flowers measuring from 1 to 1½ inches in diameter, and remaining perfect on the plant for upwards of two weeks. It is exceedingly hardy, having successfully withstood the test in exposed situations of two very severe Winters. Hardy in every latitude yet tried as far north as the lakes. Price, 10c each; very large two-year-old size, 35c each;

THE YELLOW RAMBLER (Aglaia)—This promises to supply that "long-felt want," a double yellow, hardy climbing Rose, a thing which has been sought after the world over. Five Hardy Ever-Blooming LA FRANCE ROSES

The full set of Five lovely La France Roses for only 40c.
The set of Five in large 2-year-old plants for \$1.00. . . .

These are all perfectly hardy Roses, blooming constantly, and have the most admirers of any Roses we grow. There are no better Roses than the La France Roses. A distinctive characteristic of the set is the True La France fragrance, by which every one may be known.

PINK LA FRANCE.

Pink La France

It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery-rose shades with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored and fragrant in the highest degree. Price, 10c; large size, 30 cents.

White La France

(Augustine Guinnoiseau)

Here we have a beauty, indeed; one we can recommend to all, whether for outdoor culture or for pots in the house in Winter. It is identical with LaFrance, except in color. It is pearly-white, sometimes tinted with fawn. Price, 10c each; large two-year-old size, 30 cents.

The Red La France

(Duchess of Albany)

We have no hesitancy in saying to our customers that this Rose stands at the head of all Roses, not excepting LaFrance. What we wish to impress is the fact that as a Rose for all pur-

poses it has no peer. It is identical with LaFrance, excepting in three points: Those are; A more vigorous growth, a large and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Price 10c each; large two-year-old size, 30c.

Yellow La France

(Madame Pernet Ducher.)

A charming Rose; a new shade in this section, being the first with a distinct yellow colored bud. The outside petals are sulphur-yellow and assume a darker shade toward the center. The open flower is very graceful and holds well together. It is an ivory white in color with a polished, glistening surface like a water lily. Price, 15c each; large two-year old plants, 40c each.

Striped La France

(Madame Angeliue Veyssel.)

Striped LaFrance combines all the good quantities of a LaFrance in growth, fragrance, shape of bud and flower; in fact, differs from it except in color. It is nicely striped, the marking being plain and distinct, the variegation a beautiful bright Rose on a satin-pink ground. Price, 10c each; large two-year-old size, 30c.

The growth is vigorous, while the foliage is of that beautiful tint of green that goes so well with yellow. Price, 10c each; large two-year-old size, 25c.

STAR OF LYON, ETOILE DE LYON—This magnificent Tea Rose is a rich golden-yellow; a strong, healthy and vigorous grower; immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full; excellent substance, very sweet. Surely one of the very best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold, frequently standing the Winters here uninjured in open ground without protection, and blooming nicely all through

the hottest part of the Summer. Price, 10c each; large two-year-old plants, 25c.

MILLE. CECILE BERTHOD—Most beautiful, both in bud and flower, which is deep golden-yellow. In fact, the deepest yellow in color of any Rose we grow. The foliage is very bright. This is a Rose of magnificent size and color. Altogether a grand Rose and always in bloom. Price, 10c each; large two-year-old plants, 30c each.

ISABELLA SPRUNT—A bright canary-yellow; large, beautiful buds, suitable for cut flowers; a very sweet Tea scent; profuse bloomer; it is no doubt the freest blooming of all yellow Roses. This variety has been a favorite in all gardens, where good yellow Roses are planted, for the past 20 years. There are none better. Price, 10c each; large two-year-old plants, 25c each.

MILLE. FRANCISKA KRUGER—The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. It is closely allied to Catherine Mermet, and resembles it in everything save color. In its shading of deep coppery-yellow it stands unique and distinct from all others. Price, 10c each; large two-year-old size, 25c each.

These are the best of all deep Yellow Roses, and are all good strong growers and profuse bloomers.

SIX BEST DARK RED ROSES

The Set of Six Rich Red Roses in Strong Plants for only 50c.

The Set of Six in Large Two-Year-Old Plants for \$1.25.

PAPA GONTIER.

The Grand New Rose, **GRUSS AN TEPLITZ**

As a bedding Rose this is one of the finest and most useful varieties ever sent out. The color is brightest scarlet, shading to deep, rich, velvety-crimson. It is very fragrant. The freest grower and the most profuse bloomer of any ever-bloomer. The mass of color produced is wonderful, and the foliage is extremely beautiful, all the younger growth being a bronzy plum color. A queen among scarlet bedders. It is a perfect sheet of richest crimson scarlet all Summer. Price, 15c each; large two-year-old plants, 30c.

PAPA GONTIER

A grand red Tea of fine crimson shade and silken texture (as distinct from velvety texture). The bud is fine size and graceful form. Extremely free, both in growth and bloom. Very long and beautifully leaved stems can be cut, the foliage being very dark heavy. One of the best and a perfect bedder. Price, 10 cents each; large two-year-old plants; 25c each.

The Meteor

A velvety-red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. Flowers are of a medium size, very double and slightly recurving. A beautiful open Rose, a free bloomer, and a very excellent pot Rose. Has no tinge of violet or purple to mar its beauty. A vigorous, bushy grower, with healthy, bright foliage of the deepest green. Unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower. Price, 10c each; large two-year-old plants, 25c each.

Scarlet Bedder

This is without doubt the very best of all red Roses for bedding. It can be planted anywhere being entirely hardy. Flowers are large size. Flery scarlet, a color rarely seen in Roses. Planted everywhere on account of its color and freedom of bloom. Price, 10c; large two-year-old plants, 25c each.

The Lovely New Red Rose, BALDUIN

One of the most remarkable Roses of recent date, as strong growing as the best of the Hybrid Perpetuals, with large, handsome foliage, flowers of the fullest form and largest size, which is equalled in profusion by no other Rose of its size that we have seen. The color is bright, glowing carmine. The bud is long and elegantly pointed. It is as sweet as a June Rose. Price, 15c each; large two-year-old plants, 30c.

New Crimson Rose, PRINCESS SAGAN

The flowers of this variety are the richest crimson of any Rose in our vast collection. A single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed, it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene. Price, 10c each; large two-year-old plants, 25c each.

Six of the Best Pure White Roses

THE SET OF SIX PURE WHITE EVER-BLOOMING ROSES FOR 50c.
THE SET OF SIX IN LARGE TWO-YEAR-OLD PLANTS FOR \$1.25.

The Beautiful
New White Tea Rose

WHITE MAMAN COCHET

The finest Rose of the year. Like its parent, the growth is vigorous, with rich, healthy foliage, producing large, fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice Roses to plant at least one of this beautiful new Rose. Price, 10c each; large two-year-old plants, 25c each.

THE QUEEN

It is pure snow white, makes good, fine formed buds; is quite full, showing the center but slightly when fully open. The petals are thick and of good substance. Price, 10c each; large two-year-old size, 25c each.

New Pure White
Royal Tea Rose

KAISERIN AUGUSTA VICTORIA

The Best White Rose in
the World.

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. Then again, we have white Roses that are elegant when full blown, but have poor buds. This Rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open; color, pure creamy-white. It far surpasses any other white Rose in all particulars, and has a much richer perfume. Price, 10c each; large two-year-old plants, 30c each.

NEW TEA ROSE, SNOW FLAKE

It is a lovely new white Tea—the freest flowering Rose we have ever seen. The Rose was introduced by C. Straus & Co., Washington, D. C., and by them grown in large quantities for cut flowers, they claiming it the most profitable white Rose they grow; that they had counted 153 buds and flowers on one plant in a single day, and the plant less than a year old. Nice young plants of this novelty for 10c each; large plants, 25c each.

SNOWFLAKE.

MARIE GUILLOT

We consider this variety the equal, if not the peer, of any Rose of its color in cultivation. A trial will convince any one that this endorsement is not extravagant. The flowers are full and extra large, very double and sweetly scented; has many rivals, but no equals for open ground cultivation. Price, 10c each; large two-year-old plants, 25c each.

THE BRIDE

This is undoubtedly the finest white Rose ever offered to the public, and we take pleasure in recommending it to all our customers. It is a Rose that supplies a long-felt want. A few of the white, ever-blooming Roses now in commerce have beautiful double flowers, but none of them compare with The Bride in the size and shape of buds and half-expanded flowers. Price, 10c each; large two-year-old plants, 25c each.

CHOICEST CLIMBING TEA ROSES

Prices on these Grand Climbers are reduced one-half this Spring. In the South or California, where they stand the Winter, nothing can compare with them for Beauty of Bud and Foliage. They are never to be forgotten when seen in Full Bloom loaded with thousands of magnificent Flowers. ❀ ❀ ❀

A Page of **Newest and Rarest Roses**

MANY OF THESE ROSES are offered for the first time this Spring. Some of them have been out one season, and a few of them two seasons. All are good, some are entirely new in their beautiful colorings and shadings, and must be seen to be appreciated. We can truthfully say there is not one weak grower in the entire lot. They have our highest commendation. ❀ ❀

OUR MAGNIFICENT OFFER

We believe we have the largest stock of many of these new Roses of any firm in this country, and we are offering them at less than wholesale or dealers prices. We paid \$50.00 per hundred for some of these new varieties last Spring, and we have increased our stock this Summer to such an extent that we are enabled to offer them to our customers ❀ ❀ ❀ ❀ ❀ ❀ ❀ ❀ ❀

BLOOMS OF ANTOINE WEBER.

AT THE SAME PRICES MANY DEALERS CHARGE FOR COMMON SORTS, AND FINER OR STRONGER PLANTS THAN OURS CANNOT BE BOUGHT.

The Grand New Rose, Climbing Bridesmaid—Identical with Bridesmaid in every respect, except that it is a strong, vigorous climber. Indeed, it is the most rampant of all ever-bloomers that climb, and, like Climbing Kaiserin, it is also the most prolific bloomer of all the climbing Roses. It is a Rose of unquestioned merit. Price, 15c each; two-year-old plants, 30c each.

The Wonderful New Rose, Climbing Kaiserin, or Mrs. Robert Peary—This is by all odds the most remarkable new Rose of recent introduction. It is an offspring of that grand variety, Kaiserin Augustus Victoria. The flowers are extra large, full, deep and double. They are of excellent substance, and produced on long, stiff stems, like a forcing Rose. The buds are long and pointed, a remarkable feature not found in any other Climbing Rose. The color and shape of the bud and flower are identical with Kaiserin Augustus Victoria. Pure, ivory-white. The foliage is also identical. The fragrance is delicious. The most remarkable feature of this variety, however, is that it blooms continuously the first year. It grows to perfection out doors, throwing up numerous shoots ten to fifteen feet high in a single season. Price, 15c each; two-year-old plants, 35c each.

Antoine Weber—Very perfect in bud; flower large and very full; color, "hydrangea pink." A very free grower, and recommended as a fine bedder. Price, 15c each; two-year-old plants, 30c each.

Madame Husson—A light colored Rose with yellow center, like Madame Caroline Kuster, only deeper and richer. Price, 15c each; two-year-old plants, 30c each.

Climbing Belle Sibrecht—Identical with Belle Sibrecht except that it is a vigorous climber. Its delicate, bright pink flowers measure five to six inches in diameter. A gem. Price, 15c each; two-year-old plants, 35c each.

Sylph—Ivory-white, tinted peach; large, high centered, with deep, stiff petals, erect, free habit; foliage beautiful, very free in bloom. A fine new Rose. Price, 15c each; two-year-old plants, 30c each.

Antoine Rivoire—Flowers large and of Camellia-like form; clear, rosy-flesh, shading to yellow, shaded and lined bright carmine. A superb variety and very free. Price, 10c each; two-year-old plants, 30c each.

The Superb Scarlet Rose, "Climbing Wooton."—This elegant new Climbing Hybrid Tea Rose is one which promises to be a prime favorite wherever introduced. Everything good that can be said of the grand Rose, Souvenir de Wooton, can be said of this Rose, and more too. The flowers are large and of a velvety-red color, and the perfume is elegant. Whether open, half open, or in bud, the flowers are of fine shape. The flowers are borne at the terminus of long

shoots, which renders them especially good for cutting, much better, in fact, than the flowers of its parent, Souvenir de Wooton. Price, 10c each; large size, 30c each.

President Cleveland, or Climbing Marie Guillot—This grand new Rose is known in different parts of the country under both the above names. Of a semi-climbing habit and is identical with Marie Guillot, the loveliest of all white Roses, except it is a climber. It is worthy a place in any flower garden. Price, 10c each; two-year-old plants, 30c each.

Pierre Migmon—A very delicate shade of light pink. This a very beautiful new Rose, and will become a great favorite. Price, 15c each; two-year-old plants, 30c each.

Preciosa—This grand new Rose is the freest bloomer of all the Roses we grow. It literally hides the plant with its lovely deep red flowers of brightest hue. It is full and double, of medium size, and we have counted fifty blooms on one plant ten inches in height. It will be a grand Rose for pot culture or for the garden. 10c each; two-year-old plants, 30c.

Enchantress—Creamy white, tinted buff at the center; large, full and globular; of vigorous growth and extremely free in bloom; very distinct and effective; recommended by the raiser for pot culture and for Winter bloom. Price, 15c each; large, two-year-old size, 30c each.

Muriel Graham—The latest addition to the Mermet family, being a sport from that fine variety, identical with it in everything save color, which is creamy-white, suffused with delicate pink. A color intermediate between Mermet and Bride and as dainty as possible to imagine. Price, 10c each; two-year-old plants, 25c each.

New Everblooming Rose, Climbing Malmaison—A sport from the well-known Souv. de la Malmaison, similar in flower and foliage to its parent, but of exceedingly robust climbing habit. There is no finer Rose than the old, well-known Malmaison, or "Souvenir" of the South, and we are sure that our patrons, one and all, will be glad to hear that we have a climbing variety that is identical with the parent. First time offered. The variety will prove of inestimable value to all lovers of fine climbing Roses. It will prove perfectly hardy south of Washington, D. C. Price, 10c each; large, two-year-old plants, 25c each.

New Tea Rose, Souvenir Gabriel Drevet—This is a superbly rich Rose, carrying such combinations of color that it is sure to please. It is so thick in petals as to resemble soft velvet to the touch. It belongs to the tulip class, salmon-pink, with the center of coppery-rose, elegantly edged darker. We have had many letters from the South praising the great beauty of this Rose, probably the most distinct Rose we grow. The petals are so thick and velvet-like as to hardly resemble a Rose. Price, 15c each; large, two-year-old plants, 30c each.

HARDY HYBRID PERPETUAL ROSES.

Our Northern friends should plant these Roses. They increase in size and beauty each succeeding year. The varieties listed here are the Cream of the Hybrids. None better.

A GREAT OFFER

You may select any eight of these grand hardy Roses on this page for a remittance of 50c. Nice, strong, well-rooted plants.

HYBRID PERPETUALS are considered the most valuable of all hardy plants. They are distinguished by their vigorous upright growth and large, bold flowers, frequently measuring five to six inches in diameter. They thrive and succeed in all localities and are entirely hardy in any part of the country, and will live through severe Winters with a light protection of leaves or coarse manure. Some varieties do not bloom until the second year, but when fully established they all bloom freely at the usual time, early in the season, and continue to bloom during the Summer and Autumn months. Hybrid Perpetuals will bear a considerable amount of hardship and neglect, but improve greatly with good cultivation and rich soil. They should invariably be planted in open ground, as they are not suitable for house culture.

New Hardy Variegated Rose, Roger Lambelin.

One of the most remarkable Roses yet offered. The petals are irregular on the edges, like a double Petunia. The color is glowing crimson throughout, except the edges of the petals, which are distinctly marked with a white band, forming a sharp contrast and the most unique combination of colors known in Roses. This growth is free and vigorous, and the fragrance is delightful, equal to the finest of Hardy Roses. This is a "novelty" of the most striking order. Price, 10c each; large two-year-old plants, 25c each.

Hardy Rose, Paul Neyron.

Deep shining Rose, very fresh and pretty, the flowers large, often measuring five inches in diameter, and it has this merit—though very large, the buds always develop fine perfect roses. It is, moreover, a good, strong grower, with nice, almost thornless stems, which almost attain six to seven feet in a single season. We know of no Rose possessing so many good points to recommend itself as Paul Neyron. Grown by thousands in Eastern cities for its good, free blooming qualities. Price, 10c each; large two-year-old plants, 25c each.

Hardy Rose, General Jacqueminot.

A rich, velvety-crimson, changing to scarlet-crimson. A magnificent Rose, equally beautiful in the bud state or open. This is the best known of all Hybrid Perpetuals, and is without a rival in fragrance and richness of color. It is, moreover, as easy of cultivation as many of the more common varieties, and perfectly hardy. Price, 10c each; large two-year-old plants, 25c each.

Dinsmore.

It is a vigorous, healthy Rose of dwarf, branching habit, and is simply loaded with flowers all summer long, being even more profuse than most of the tender Everblooming Roses. The flowers are large, perfectly double, and of a dazzling scarlet-crimson color, and have the rich, spicy fragrance peculiar to the best Hybrid Roses. We recommend it as being the finest garden Rose ever offered. Price, 10 cents each.

THE ZERO COLLECTION

OF HARDY ROSES.

These are Perfectly Hardy Varieties and will Grow and Bloom where the mercury falls below zero

New Hardy Rose, Countess of Roseberry—We have in this charming variety probably the most beautiful Rose grown. No other Hybrid can approach it in its exquisite coloring. Indeed, no one would take it for a Hybrid, as it is as delicate and beautiful in its tints as the most gorgeous of the Teas. The color is satin-pink in the center, and deepens to the outer petals to a bright rose. The feathery shading gives it the appearance of two distinct colors. It has completely captivated us. Very free flowering, and a good grower. Be sure and try it.

General Jacqueminot—Too well known to require lengthy description. It still holds first place among the dark red Roses and is one of the most satisfactory to grow. A rich crimson scarlet, simply a mass of bloom when at its best.

Mad. Chas. Wood—Continuous blooming and large sized flowers; color rich, bright crimson.

Hardy Rose, White Paeony—This Rose was sent us by one of our customers. She did not know the name of it, but called it the White Paeony, from its resemblance to that beautiful flower. We have never seen anything in the Rose line like it. The flowers are satiny-white, with a delicate shell-pink tinge. It makes large, spherical balls, and when seen in bloom is not soon forgotten. Very beautiful and entirely hardy.

New Rose, Black Prince—A superb Hybrid Perpetual Rose, dark black-red, richly shaded with violet-crimson; extra large.

The Entire Set of 12 Magnificent Varieties for 75c. Single plants, 10c each. Extra large 2-year-old size, 30c each. Set of 12 in large 2-year-old size, \$1.75

The flowers are pure white, sometimes very faintly tinged with pink, very large, very double, full and delicately perfumed. Extra fine.

La Reine—A beautiful, clear, bright Rose, fine, full form, very fragrant. It is well named "The Queen."

Glorie Lyonaise—White tinted with yellow; large, full and of splendid shape. The nearest approach to a yellow Rose of this class.

Hardy Rose, Anna de Diesbach—(Glory of Paris.) Brilliant crimson, sometimes shaded with bright maroon, long pointed buds, and large, finely formed compact flowers, very full and sweet; one of the best.

Rosy Morn—A lovely name and a magnificent Rose. Extra large size, very double, full and deliciously sweet. Color an exquisite salmon-rose, shaded with delicate peachy-rose, suffused with soft-rosy crimson.

STANLEY BAXTER

Deep rose color, reflexed, medium size, strong grower, good habit.

PRESIDENT WM. R. SMITH

Color of Daybreak Carnation, a pure self-pink; very heavy in substance, on stiff stems. The form of the flower is very beautiful in all its stages; it opens with a center enclosed in broad outer petals; it gradually assumes the true Japanese form, rounded and deep, and this gradually changes to the informal reflexed; perfectly double; a splendid keeper; especially fine for cut flowers and exhibition blooms.

WILLIAM H. LINCOLN

A magnificent golden-yellow variety, with straight, flat, spreading petals. An extra large flower, completely double and of great substance.

The outer petals are broad and drooping, and have a lustrous sheen in the sunlight. The form flat, with drooping outer petals, which gives it a very graceful appearance. This is the popular form, and combined with the splendid color, stamps Gettysburg as a Chrysanthemum of rare merit.

PERLE LYONNAISE

Bright, clear, golden-yellow, somewhat plumed, quite full; one of the very finest, of medium size; beautiful, globular form; new.

HARRY BALSLEY

A fine cut flower variety. Beautiful pearl-pink, shading to a mermet-pink; flowers double, semi-globular; erect petals.

SNOW QUEEN.

A most exquisite variety, absolutely pure white. The flower is quite regular in form, very large and flat; the length of the petals, graduating to the center, reminds one of a large satin rosette.

MADAME DE MONTEFOSE

A beautiful yet odd variety. Very difficult to describe. The flowers are large, splashed wine and pink. A very striking variety.

L'ENFANT DES DEUX MONDES

(Child of Two Worlds)

Pure white. This grand white sport from L. Boehmer was well received, having many admirers at the shows. Like the parent, it is a strong grower of good habit, and is considered the best white of the hairy type, and well deserves a prominent place in any set of this peculiar style of the Chrysanthemum.

CULLINGFORDII.

REFLEXED. Exceedingly brilliant crimson, richly shaded with scarlet. Florets of a beautiful, rich, velvety texture. One of the very distinct and noted sorts. This is one of the finest red Chrysanthemums in existence, and too much cannot be said in its praise.

CULLINGFORDII.

MARION HENDERSON.

We cut the first flowers on October 10th, several days before any other large yellow was ready, and had perfect flowers to cut a month later. The texture of the flower is such that we have never seen it in the least affected by damp, although other varieties alongside of it were badly affected. We have never seen a symptom of any disease on it. This grand variety will be invaluable for early cut flowers and, we believe, will occupy the same position among early varieties that Golden Wedding does among the late ones.

IVORY.

Unexcelled for pot culture or cutting; pure white flower of exquisite form and finish. Has been shown in grand shape at all recent exhibitions; it is especially noticeable for its grand globular form, its dahlia-like petals and absolute purity of color.

MRS. J. G. WHILLDIN.

A handsome yellow variety of light tint, fine large size and splendid form. A magnificent addition to the scarce, very early, large flowering varieties. Whole large green-houses are devoted to this variety in the East for cut-flower purposes.

MISS DALSKOV.

We had single blooms last fall that measured 10 inches across. In color it is a beautiful pink, entirely distinct from any pink Chrysanthemum yet exhibited.

MISS KATE BROWN.

ONE of the very finest of all the early whites, coming into bloom the first week in October; fully six inches across; a fine incurved flower, with broad petals; first-class disbudded, and also beautiful in natural sprays.

BENJ. GIROUD.

Is the richest deep crimson variety we have ever seen and excels in its color as Golden Wedding does in yellow. The color is of the richest velvety-crimson, which in the flower itself is soft and velvety-like. It is, without doubt, the best Chrysanthemum of its color. The flowers are enormous in size, while the color is the richest of all. Winner of nine premiums and certificates. Blooms in October.

MME. F. BERGMANN.

Still the finest of all the early whites; large in size, coming into bloom October 10th; excellent for pot culture for early flowers.

The flowers are bright cherry red, with white at the base of each petal; the two upper petals are dark crimson-maroon. The flowers are of immense size and very freely produced. It is this combination of coloring with blotches which obtained for it the popular title of "Pansy Geranium" See Cut. Price, 15 cents each.

NEW DOUBLE ROSEBUD GERANIUM (Florets like perfect Rosebuds.)

The habit of growth is dwarf and compact, making this variety one of the most desirable for pot culture. The novelty and merit, however, is principally in the flower, the perfect trusses of miniature rosebud florets, which are wonderfully attractive and pleasing. The color is bright scarlet, flamed with purple shadings, and the substance most lasting. A buttonhole bouquet of this variety will last longer than any other we know of, and then it is entirely unique. Certainly no Geranium in cultivation today is as distinct, and we are certain this remarkable novelty will make a sensation. Price, 10 cents, each.

Tuberous-Rooted BEGONIAS.

Our Bulbs or Tubers of these Showy Begonias are very large and plump.

TUBEROUS BEGONIAS.

These are among the very handsomest of our Summer blooming plants, flowering throughout the season, and as fine and varied in their color as the Geranium family. They are splendid bedders, delighting in a light soil of woods earth, very old cow manure and sharp sand. See that the bed is in partial shade, and you will be delighted with the results. In the South, or where they cannot be planted in the shade of a house, a covering of burlap or canvas, some six or eight feet above them, merely to throw off the sun's rays, will allow them to come to absolute perfection, but they must have plenty of light and air. Do not allow them to become dry, and during hot weather they will take two waterings a day. When through flowering they can be dried off, shaken free of earth, and wrapped in cotton until February or March, when they may be started again.

SINGLE—White, Yellow, Crimson, Rose, Scarlet. Price, 15c each; four for 40c.

DOUBLE—In same colors, 20c each; four for 60c.

Every one who sees it admires it the most of any foliage plant we grow. Price, 25c each; three for 50c.

RED, WHITE AND BLUE CLEMATIS.

THE CLIMBERS ON THIS PAGE ARE ALL HARDY IN ANY LATITUDE, AND THE FLOWERS ARE INDEED SUPERB.

THE CLEMATIS is, perhaps, the most popular climbing plant of the day, and is constantly gaining in popularity. Entirely hardy, blooming the entire season, embracing great variety of color, of the most beautiful tints of blue, purple, lavender, scarlet, white, etc.; double and single, some of the flowers being six inches in diameter; and from their wavy graceful contour, when wafted by a slight breeze, the flowers resemble huge butterflies hovering among the green leaves. They are all climbers, and if trained carefully attain a height of from five to fifteen feet in one season. Hardy, but a light covering of leaves or straw during the Winter is desirable until fully established. Our Clematis are all on their own roots, therefore cannot throw up wild shoots, as grafted plants are apt to do.

We would urge the planting of the larger size, as better and quicker results will thus be obtained. Price, 75c each; extra large fine plants, \$1.

ACALYPHA SANDERII.

Handsome Acalypha Sanderii

This plant goes under various names, such as "Chenille Plant," "Philippine Medusa," "Comet Plant," "Dewey's Favorite Flower," "Bloody Cat Tail," etc. Without doubt the most sensational new plant introduced for many years, and one of the most striking flowering ornamental plants we have ever seen. It is of strong free growth, with large, dark green leaves. From each axil rope-like spikes of velvety crimson flowers are gracefully suspended, of from one to two feet long and nearly one inch thick, as shown in our illustration, which conveys but a faint idea of the beauty and distinct warm coloring of this splendid acquisition. But the remarkable floriferousness and the great size of the spikes of flowers (compared to the plant) is fairly well shown. The plant is in flower the year round, and is as easily grown as the Coleus, simply requiring a warm temperature to develop its beauty. Fine plants, 15c each.

ARAUCARIA EXCELSA.

Various names have been selected for this grand plant to properly convey to the mind the appearance of it. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequaled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. (See cut.) Extra fine plants, 4 and 5 tiers of leaves, \$1.50 each. These can only be sent by express. New Dwarf Ever-Blooming Calla Lily, TOM THUMB, or the Gem

The Most Wonderful of all Plants

"The Little Gem." The greatest value of this over the common Calla Lily lies in its dwarf habit and freedom of bloom. It rarely exceeds 12 inches in height and blooms most abundantly. The flowers are not more than half the size of the common variety, and therefore can be used with telling effect in bouquets. It is in every way superior as a house plant to the larger growing varieties. Price, nice blooming plants, 15c each; extra large size, 25c each.

THE NEW BLACK CALLA

Or Solomon's Lily

Among recent bulb introductions we doubt if there has in several years been anything brought out which is so eminently desirable as this. It is a bulb which has come to stay, and finds its way rapidly in every collection of flowers. Its flowers are enormous, fully a foot in length. Color clear coal black, so intense that it really shows a brilliancy; and, as may well be imagined, it is a flower of the most striking oddity and beauty. A person who possesses a bulb of this Calla has indeed a treasure which will be the envy of an entire neighborhood. The bulbs are large and should be potted in the Fall, but when growth commences set in a window. After blooming, the foliage will die down, and the bulb should be kept dry for planting again in the Fall. In addition to its great beauty and oddity, it has a fine fruity fragrance. It is a native of the Holy Land. Treat same as for white Calla Lily. This is a very beautiful Lily, we having flowered it extensively. It is coal black, and is a great curiosity. Price of flowering bulbs, 25c each; extra large, 35c.

Callas delight in a light, rich soil, and require plenty of water after growth has commenced.

THE HARDY CHINESE MATRIMONY VINE.

It is a most vigorous, hardy climbing plant when trained to an arbor, fastened to a fence, attached to a tree, the side of a house, the pillars of a piazza, or in any location where a hardy, vigorous climber is desired. It sends out numerous side branches, so that it covers a great amount of space in a short time, and every new growth is at once covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long, every branch being loaded with them. The contrast between the glossy, dark green foliage and shining scarlet fruit is exceedingly beautiful, surpassing Holly in appearance. It continues flowering and new berries are forming from late Spring until frost. The berries ripen in early Autumn and remain on the vine late into the Winter. The number of our hardy vines which can be grown without danger from frost in our Northern States is limited, and none are more beautiful than this or as easy of culture. Give the Aster a deep, rich soil, and a mulching of coarse manure is very beneficial. A little liquid manure occasionally will give good results. Sow early in the house and transplant into pots or boxes. As soon as the weather is warm enough plant in beds about twelve inches apart. Half-hardy annuals.
