~~~~~ CATALOGUE OF ~~~~~

Garden, Field & Flower Seeds.

Fruit Trees, Tree Seeds, Fertilizers, Roots, Plants, New Fruits.
Reliable Standard SEEDS which will pay you to plant.

New Seeds of Great Value

BEANS—The new Tepary Bean. The most delicious of all white table beans. A shell bean, more prolific than Navy. Drouth-resistant. Grown by Indians for thousands of years without irrigation—with an annual rainfall of 9 inches. Quick maturing, sixty-five days from seeding to harvest, available as a catch crop. New botanical family, and immune to common bean diseases. Flavor delicious, distinctive and nutritious.

The appearance of this Bean is beautiful, clean, white and captivating to the eye. Has 11 per cent. greater specific gravity than Navy beans, and swells when cooked, to 40 per cent. greater bulk. Requires only 12 lbs. to plant an acre. Planted in same way as other Bush Beans. Price, pkt. 10c.; $\frac{1}{2}$ lb., 25c.; 1 lb., 45c., postpaid; 12 lbs., enough for 1 acre, by express, not prepaid, \$3.00.

CORN—Six-Ear, Pedigree Corn, the true prolific Corn that yields such heavy crops, from 50 bu. up to over 200 bushels per acre, as reported by those who planted it last season. White, plump grain. Ears not large, but good size. No other variety surpassing it in quality or yield. Price 10c. pkt.; $\frac{1}{2}$ pt., 20c.; pint, 30c.; qt., 50c., postpaid. Pk., not prepaid, \$1.00.; Bu. \$3.50.

SUDAN GRASS

The Sudan is a newly introduced annual summer hay grass that from all reports from many who have grown it for several years, will solve the forage question for all our farmers. It makes a luxuriant growth of from 4 to 7 feet high, the hay being sweet and rich. Equal to, or better than Timothy. It is not objectionable in any manner, as it is strictly an annual plant and dies root and all when frost comes. Stools 20 to 40 from one seed, yields 2 to 3 cuttings a season, producing 3 to 4 tons per acre. Easily cured. Plant from April 1st to July. 6 lbs. will plant an acre in rows 30 inches wide. If broadcast use 15 to 20 lbs. per acre. Price of genuine seed, $\frac{1}{4}$ lb., 25c.; 75c. lb., postpaid. 25 lbs. or over, 60c. lb., express not prepaid.

COTTON SEED

If you wish to plant some Cotton, get the very best type to be had, such as

WILLET'S IDEAL BIG BOLL.

This is a thoroughbred, very early big boll and immensely productive variety, every limb full of bolls. It surpasses all others in earliness, productiveness, size of boll and superiority of lint. Gins 38 to 40 per cent. lint. It is the latest word or finishing touch in the improvement of cotton. This will be the leading cotton to whip the boll weevil. The supply is yet limited, so buy early. Price, 1 lb. by mail, 35c.; 3 lbs., \$1.00, prepaid. Not prepaid \$2.25 bushel; 5 to 10 bushels, \$2.00 bushel; 25 to 30 bushels, at \$1.75 bushel; 100 bushels at \$1.50 per bushel.

Central Park Lawn Grass Seeds.

If you wish a pretty evergreen lawn or yard, sow our Central Park mixture. It is a mixture of clean, solid, plump perennial grasses which from experiences seem to be best suited to the Southern States. Sow 1 lb. to 20 x 20 feet, or 40 lbs. per acre. Price at present, 25c. lb.; 40 lbs. and over at 20c. lb. Will grow in sunshine or partial shade.

ALL OTHER GRASSES AND CLOVERS. SEND FOR SPECIAL PRICE LIST.

NATAL GRASS—Makes a bountiful summer hay crop. Sow 5 to 6 lbs. per acre. Price \$1.25 lb.

BEST SEEDS. TERMS STRICTLY CASH.

PRICES Subject to Change without Notice.

Remit with order by P. O. Money Order or Express Money Order, Registered Letter, Express or Bank Check on New York. All sums under 50c may be sent in one and two cent postage stamps. Give your Post Office, State, County and Railroad plainly written; also Express Office.

Don't remit with Local Bank Checks unless cost of exchange is added.

FOR SEEDS BY MAIL ADD PARCEL POST RATES

Parcel Post Rates For Seeds

SIMPLE RULES FOR ORDERING BY PARCEL POST.

Parcel Post Rates.—All Seeds, Plants, Bulbs, Roots, Poultry Supplies, Insecticides, etc., can now be sent throughout the United States by Parcel Post. On weights of more than half pound, the pound rate shown in Parcel Post Table will apply. Parcels weighing half pound or less, the rate is 1c. for each 2 ounces or fraction thereof regardless of distance. To points further than the 2nd zone on weights of over 10 lbs. the charge by freight or express is usually more economical.

POSTAGE RATE TABLE FOR PARCEL POST PACKAGES.

Ask your Post Master or Rural Letter Carrier to tell you what zone you are in from Atlanta, Ga., then refer to the table and you will know how much postage to send for mailing.

	First Pound or Fraction.	Each Additional Pound or Fraction.
Local Rate, Atlanta and Suburbs -----	5c	1c
First Zone, within 50 miles of Atlanta -----	5c	1c
Second Zone, 50 to 150 miles from Atlanta -----	5c	1c
Third Zone, 150 to 300 miles from Atlanta -----	6c	2c
Fourth Zone, 300 to 600 miles from Atlanta -----	7c	4c
Fifth Zone, 600 to 1,000 miles from Atlanta -----	8c	6c
Sixth Zone, 1,000 to 1,400 miles from Atlanta -----	9c	8c
Seventh Zone, 1,400 to 1,800 miles from Atlanta -----	11c	10c
Eighth Zone, all over 1,800 miles from Atlanta -----	12c	12c

When ordering Beans, Peas, Corn, etc., estimate a quart as 2 lbs., which will give the postage on a quart.

ABOUT WARRANTING SEEDS.

Mark W. Johnson Seed Co. give no warranty, expressed or implied, regarding description, quality, productiveness, or any other matter connected with the goods they send out, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once, and any money that has been paid for them will be refunded. Every order received for articles in this catalogue will be executed on these conditions only.

EVERGREEN TREES BY MAIL

Postpaid—12 Packages as Below

Fine for Hedges, Windbreaks and Ornamental Lawn Planting. These packages cannot be broken. By mail postpaid to destination. Safe arrival guaranteed to any point in the United States. Price, \$1.00 per package; any 6 packages for \$5.00.

Complete planting instructions and cultural directions will be furnished with each order.

There is unquestionably no better way of beautifying your grounds than surrounding it with beautiful Evergreens. Evergreens are a permanent asset. They are everlasting and add to the beauty of the home winter and summer. Plant some Evergreens around your garden, and just see how much difference there is in the temperature and moisture. You will find that you can grow flowers, fruits and vegetables that you never could before. Groups of Spruces, Pines, Firs and individual trees here and there about the yard, and along driveways, change a dreary house into a comfortable dwelling. Remarkable effects are produced by Evergreens, with color and foliage blending harmoniously—full of mystery at dawn or dusk. In summer they are cooling and refreshing. In winter they add color, warmth and cheerfulness.

These varieties have been thoroughly tested and proven absolutely hardy and reliable, and will grow successfully in all parts of the country. Complete planting instructions and cultural directions will be furnished with each order sent. Send in your orders as early as possible to avoid disappointment, as stock is limited. Shipment will be made in March, April or May. You cannot afford to overlook these wonderful collections.

1.—100 Norway Spruce	3 yr. Seedlings	7.—100 Amer. Arbor Vitae	3 yr. Seedlings

Success with Alfalfa and Clover

**Cow Peas, Soy Beans, Vetch, Field Peas,
Beans, Garden Peas & Beans, and all other Legumes.**

A good "catch" and a big stand, of greatest feeding value--richer soil for succeeding crops--these results follow the use of

"NITRAGIN" is the trade-mark name for the special germ, or bacteria, that acts on the legume root, draws nitrogen from the air and converts it into plant food. As a result there is a uniform "catch"; the crop grows quickly; it is strong, hardy and healthy--deep-rooted--rich in food-value. Meanwhile your soil is growing **richer** instead of **poorer**--your land **more valuable**.

Failure with legumes is usually due to lack of bacteria. In "NITRAGIN" Pure Culture we send you billions of these necessary nitrogen-gathering germs, packed in proper food to keep them alive, active and healthy.

It's easy to treat your seed with "NITRAGIN" Pure Culture. A boy can do it in ten minutes.

If your past experience with legume crops has been unsatisfactory it was probably because your soil lacked these vital, strength, giving germs. Some soils have only a partial supply; in other soils the germ is missing or so sickly as to be worthless. Such soils need "NITRAGIN" Pure Culture to supply an abundance of **pure, healthy, strong, virile bacteria**. This means a profitable crop and new life to the soil.

If you have been successful in growing legumes you can have **greater success** by using "NITRAGIN" Pure Culture.

A green manure crop inoculated with "NITRAGIN" Pure Culture provides a richer humus in far **greater volume** than does a non-inoculated legume.

Get the Original. Look for the Armour Oval Label

This is the original Pure Culture--discovered by Noble and Hiltner, famous German bacteriologists. It has been perfected by twenty years of scientific testing, in the laboratory and on the farm. The germs come to you packed in a granular, fool-in-a-ventilated-can--the **safe and satisfactory way**.

Why use imitations when you can be **sure of perfect inoculation** by using "NITRAGIN" Pure Culture.

The Armour Fertilizer Works guarantee "NITRAGIN" Pure Culture to retain health and vitality for 6 months from date of preparation, stamped on can.

The Pure Culture system of inoculating legumes is endorsed by U. S. Government authorities, by state experiment stations, practical farmers and other agricultural experts. These men have accomplished wonders with inoculated legumes. **You can do the same on your farm by using "NITRAGIN" Pure Culture.**

There is a special strain for each legume. In ordering be sure to name the crop desired.

Prices per can: Garden size, \$1; acre size, \$2.
5-acre size, \$9, F. O. B., Atlanta, Ga.
