RUGOSA AND HYBRID RUGOSA ROSES, No. 1 Grade

(These Hybrid Rugosa Roses are a valuable race, having size, quality, fragrance and constant blooming habit along with exceptional hardiness. While their beauty and attractiveness commends them for planting everywhere, they are especially valuable for localities like the northwest where the climate is too severe for most varieties of the H. P. and H. T. classes.)

Dwarf Apples are rapidly growing in favor. They come into fruiting early and their compact, low-down habit makes them desirable for door yards where there would not be room for standard trees. Also they can be more easily kept free from scale because the growth is all within reach of ordinary spraying apparatus.

OF INTEREST TO FLORISTS

HYDRANGEAS, (Hortensis sorts), pot-grown. The new French Varieties.

We produced a magnificent lot of these last summer. They were grown in 6 inch pots, plunged out-of-doors under slat houses. We shipped out fully 25000 last fall with scarcely a single instance of dissatisfaction upon them. We still have moderate quantities to offer in all the leading sorts and have somewhat reduced the prices to close them out.

Plants with 7 to 10 branches, from 6-inch pots.....\$25.00 per 100

Bouquet Rose, Gen. de Vibraye, La Lorraine, Mme. Emil Mouilliere, Mme. Maurice Hamar, Radiant

Plants with 5 to 6 branches, from 6-inch pots.....\$20.00 per 100

Bouquet Rose, La Lorraine, Mme. Emil Mouilliere, Mme. Maurice Hamar, Radiant

Plants with 4 branches, from 6-inch pots.....\$15.00 per 100

Bouquet Rose, La Lorraine, Mme. Emil Mouilliere Mme. Maurice Hamar, Radiant

GENISTA CANARIENSIS, in 5-inch pots, nice, compact, shapely plants....\$20.00 per 100

These yellow flowered Genistas are a very desirable florists' plant and break the monotony of pink and red that frequently prevails in florists' stores. These plants are a particularly well grown lot which we recommend as certain to give satisfaction.

FOR NURSERY PLANTING

ENGLISH-GROWN MANETTI, 5-9 m-m grade.....\$12.00 per 1000
3-5 m-m grade..... 10.00 per 1000

These prices are for the stocks here at Newark with duty and all importing expenses paid. Further, they are unpacked and regraded here, throwing out all that are not sound, well-rooted and fit for use. The shrinkage—and there is always some—is eliminated by US and our customers get stocks that are all fit to use.

APPLE SEEDLINGS, Topeka-Kansas-grown, from our own contract blocks,

No. 1 grade, 3/16 inch and all up, straight roots,.....\$6.00 per 1000

No. 2 grade, 2/16 inch..... 3.00 per 1000

Prices are taken here at Newark,—or shipments can be made direct from Topeka if preferred.

A FEW SHRUBS, our own propagation, strong stock, samples on request,

3000 Forsythia Intermedia.....\$15.00 per 1000

1500 Lonicera Billardi Alba (Upright Honeysuckle, white)..... 17.50 per 1000

800 Rosa Rubrifolia (red foliage) seedlings..... 12.50 per 1000

APPLE SCIONS, \$1.50 per 1000

17000 Baldwin

12000 McIntosh Red

5000 Northern Spy

15000 Wealthy

ROSES, FROM 2½ INCH POTS, for nursery planting or mailing.

We grow large quantities of Roses, both for planting out in our own nurseries and to sell to other nurserymen. They are well-established plants that give good stands in the nursery rows, and make strong growth. List of varieties and quotations furnished on application.

We cannot undertake to supply long and much assorted list of stock calling for only small quantities of each kind, save at an advance above our printed rates according to quantity.

FRENCH FRUIT TREE STOCKS

We offer these as the agents of Mr. Charles Detriche, Sr., of Angers, France. Mr Detriche's reputation as a good grower, uniform grader and careful packer is too well known to require argument on our part. We have acted as his agents for over fifteen years and it is very rarely that we have had any but the most commendatory reports on his stock.

The following prices are taken in France, and do not include freight, duties, cost of boxes or the usual expenses of importing, all of which are to be borne by the purchaser. Orders should call for good general assortments and are taken by us subject to Mr. Detriche's acceptance.

Orders should be placed at once to insure early arrival.

Sizes are given in millimeters, 25 m-m equalling 1 inch.

Prices for ornamental stock of all kinds will be quoted on application. Send list of varieties and quantities required.
