SEND ALL ORDERS TO
OUR AGENTS

Hollywood Gardens

SECOND AVE. AND
PINE ST.

SEATTLE

WASH.

Bear Friend and Customer:

You are the life of our business, the inspiration to greater efforts, and the one we are bending all our efforts to please.

Our fire in 1913 demonstrated to us that your support and confidence is of greater value to us than all else combined. No earthly power can destroy a business that has the confidence of its satisfied customers.

Since 1909 we have been striving to please you, and your continued support, your many letters of approval and repeated visits to our gardens prove to us that we are rewarded with success.

Since the fire in 1913 we have built especially for the growing of Dahlias, and we are giving the growing of Dahlia plants our especial attention.

Our method of growing Dahlia plants is such that we can guarantee our plants to give entire satisfaction and refund the money paid for them where they prove not to be as guaranteed.

When our supply of roots is exhausted, pot-grown plants will be supplied at the same price, guaranteed as above.

If you intend to have better Dahlias and be up to date, learn how to raise Dahlias from plants. Some Dahlia catalogues will tell you that you cannot raise good Dahlias from plants, and pride themselves on not raising plants. Remember, it is the other way of stating that they do not know how to raise plants and would rather not have you try it, as they would be minus a customer.

If our plants do not give satisfaction, the purchase price will be returned to you upon demand.

Terms

When buying Dahlias from any of our Agents, be sure that they are delivered under our unbroken seal. We are then responsible and our Agents will see to it that their customers are kept pleased.

When planting keep the seals and labels in a convenient place, as we cannot entertain any claim without the seal.

If you are convinced that Benson Dahlias are the best, accept no Dahlia bulbs without our seal.

If you carry an account with your florist, buy our Dahlias from him and you will get the same service and as good bulbs and plants as if you buy direct, only watch for our unbroken seal on each tuber.

If you do not carry an account, cash must accompany the order.

Our Dahlia tubers and plants are delivered at planting out time in April and May.

All our Dahlias are guaranteed true to name and to give entire satisfaction if properly handled and cared for.

We deliver free by mail to any part of United States, but prefer Express delivery, as we can give you larger bulbs and better service.

The Benson Dahlia Show

Each year, Sunday and Labor Day, we will hold a Dahlia Show at our gardens, entirely free to all. Fifty prizes will be given to exhibitors. Music will be provided and a lecture on Dahlia Culture will be given each day. Our next Dahlia Show will be held at our gardens September 3rd and 4th, 1916.

Thanking you for your support and cooperation, and trusting that our services to you may increase in value while we strive to please you, I am

Yours faithfully,

ERNEST G. BENSON.

New Cactus Dahlias for 1916

Plants in May.

A. R. Perry. Large, bold flower on good stem. Florets tubular and incurved. Old rose tipped gold and yellow at base	5.00
Crescent. Garden Cactus; star shaped, one long, strong stem; golden yellow at base, lightening to white, faintly tinged pink	5.00
Falcon. Very free blooming on good stem; clear bright yellow at base to reddish bronze at tips; incurved	5.00
Fearless. One of the largest Dahlias in existence, with long, narrow incurved florets; orange scarlet flowers on wiry stems	5.00
Gossamer. Irregular incurved; long, narrow florets on pendent stem; deep yellow to orange.....	5.00
Geraldine Edwards. Evenly incurved pointed florets on good stem; pale lavender blush to yellow at base	5.00
Hugh McNeill. Garden cactus on good stem. Distinct pretty deep pink	5.00
Miss Judd. More than usually incurved and claw-like florets on good stem; lemon yellow shading to pink and tipped lemon yellow	5.00
Perseus. White, striped heavily with vermillion; incurved on good stem	5.00
Phenomenal Unlike any Cactus Dahlia yet raised. Florets are long and ribbon-like, incurved and intermingled more like a shaggy chrysanthemum than a Dahlia. Pale salmon with yellow base and tips	5.00
Searchlight. The yellow Miss Stredwick; slightly incurved narrow florets on good stem.....	5.00
Sentinel. Garden cactus on good stiff stem; slightly incurved narrow florets; deep rose to white at base	5.00
Sceptre. Garden Cactus on good stiff stem; florets narrow and incurved; orange yellow at base to mauve and rose purple	5.00
Topaze. Florets white at base, changing to shades of purple and rose blended; very narrow florets on good hard stem; medium size.....	5.00
Ursa Major. Florets slightly incurved and very numerous on good stem; clear yellow marked scarlet; very free-blooming and large flowers..	5.00
Vanguard. Narrow, tubular deeply but evenly incurved florets on strong stems	5.00
Washington. The best crimson to date; florets narrow, tubular pointed and incurved; very large flowers on good stems	5.00

New Collarette Dahlias for 1916

Plants in May.

Bacchante. Very free on wiry, erect stems. Color deep crimson marked and suffused at tips with white; reflexed type; collar white	3.00
Garland. One of the finest collarettes to date. Flowers carried on great stems; petals rounded and slightly reflexed; vivid clear deep scarlet with light yellow collar	3.00
Herald. A large beautiful colored flower; soft rose pink with deeper shadings; collar white; flat florets; on good stem; dwarf bushy habit	3.00
Marksman. Fancy; the ground color white, striped and splashed vermillion; bushes somewhat dwarf with strong, wiry stems	3.00

Novelties of 1915

Our Own Introductions

- New Carnation Flowered Dahlia, La Conner.** As a cut flower Dahlia and for florists' use this new Dahlia stands alone as the finest yet introduced. We have named it the Carnation Flowered Dahlia, as this name alone will correctly describe its graceful, fluffy flower, as well as its long, (often 3 feet) stiff stem. It is the color of the beautiful Lyon Rose, with the center a shade deeper. It is the most prolific Dahlia we know of, with leathery rich deep green foliage. With proper care and disbudding over one hundred flowers can easily be cut on long stiff stems from each plant in a season. Each.....\$1.00
- New Peony Flowered Dahlia, Hi Gill.** By far the finest yellow Peony Flowered Dahlia yet introduced. The face of the flower is pure golden yellow, while the back of each petal is a deep rosy copper. Each..... 1.50
- New Decorative Dahlia, Golden Potlatch.** Very large pure golden yellow. Needs no disbudding. Give plenty of rich fertilizer and pinch the main sprout early to induce branching. Each..... 1.00
- New Decorative Dahlia, Cerise.** For Jack Rose red effect in the garden this Dahlia stands alone, as it needs no disbudding and is fairly covered with flowers from June until frost. Towards the end of the season it takes on a beautiful orange vermillion shade found in no other Decorative Dahlia. Each..... .50

New Cactus Dahlias of 1915

- Gigantic.** One of the largest and finest Exhibition Dahlias ever produced. Pure old gold; incurved. Each 3.00
- Melody.** Beautiful incurved flower. Lower half of each petal clear yellow, the remaining half pure white; good stem. Each..... 2.00
- Mrs. Edward Drury.** Slightly incurved, delicate purplish crimson flower on good stem. Each.. 2.00
- Kismet.** Narrow, tubular incurved florets, on wiry hard stem. Pomegranite purple, tipped rose. Each 2.00
- Herbert Raby.** Narrow, tubular incurved and twisted florets, on good wiry stem. Purplish crimson. Each 2.00
- Cambrian.** Clear salmon, lightening to yellow at tips. Irregularly incurved, on good stem. Each 2.00
- Neptune.** Incurved and spirally twisted florets. Deep rose pink, striped carmine. Each..... 2.00
- Valiant.** Long. Narrow incurved and intermingled florets, on good stem. Brilliant crimson. Each 2.00
- Hibernia Garden Cactus.** Very free, on good stem. Primrose shading to bronze. Incurved. Each. 2.00
- Model.** Evenly incurved florets, on good stem. Yellow at base, deepening to pink and tipped yellow. Each 2.00
- Magnificent II.** Straight florets, like Dr. Roy Appleton. The deep orange flowers are very large, on good stems. Each..... 2.00
- Marguerite Phillips.** The pure white florets incurve, twist and interlace till they resemble an incurved Chrysanthemum. Each..... 2.00
- W. E. Peters.** Narrow, incurving florets on long stems. Clear crimson scarlet. Each..... 2.00
- Britisher.** Large crimson scarlet. Fine for exhibition. Each 2.00
- Captain Scott.** Free flowering, white with long narrow petals. Each..... 2.00

General Smith Dorrien.	Deep, incurved flowers.	
Scarlet.	Each	2.00
Lawinia.	Coppery red to madder crimson. Long florets, spirally twisted. Each.....	2.00
