SACRAMENTO :: CALIFORNIA

INTRODUCTION

To Our Patrons and Friends:

The object of this price list is to get in touch with those who contemplate planting decorative or fruit trees and other stock with which to beautify their home surroundings. With this in mind we kindly ask your careful consideration of the following:

We do not claim our nursery to be the "largest in the state," nor do we pretend to be the "cheapest." But we do claim that in dealing with the East Lawn Conservatories you are always assured of the complete satisfaction that comes of securing what is unquestionably the finest quality of nursery stock at the lowest consistent prices.

Our nursery is under the personal supervision and management of Mr. A. G. Russell, who has specialized in this particular line for the past twenty years. Mr. Russell will be only too glad to confer with you—help you solve your planting problems—and personally select the stock to fill your order.

As to our responsibility we are pleased to refer you to The California National Bank, Mebius & Drescher, Weinstock Lubin & Co. and J. Bruener & Co. of this city.

In sincere appreciation of your previous patronage, we pledge ourselves to continue to merit your future patronage through the exacting personal attention which will be given to your orders this season.
