TO THE TRADE

ANOTHER year has passed since the last issue of our Green Book. It is a pleasure to present it to the Wholesale Trade again. Thanks to you, our last season's business was the best we have ever enjoyed and we look forward to the coming one in anticipation of renewing old acquaintances as well as establishing new, and to all we promise the same service that has obtained in the past through personal attention to all details.

The stock we offer this season is not excelled in quality by any we have ever grown. We feel no hesitancy in promising satisfaction to the most critical. It will be noted that we have added many items to our list of ornamental stock as well as in other lines, however, there are several items we do not grow in sufficient quantity to give space in this list. We would like to receive inquiries for stock needed whether shown herein or not.

We suggest that orders for the coming season be placed early. We make shipments at almost any time during Fall, Winter or Spring and with the advantages of car load lots to central distributing points we can arrange delivery with least possible delay and expense where early reservations are made. We have splendid storage facilities at Huntsville and arrangements for Cold Storage in other cities where stock can be held until wanted.

Yours very truly,

FRASER NURSERY COMPANY

HUNTSVILLE, ALABAMA

ANNUAL WHOLESALE PRICE LIST

OF THE

FRASER NURSERY COMPANY

INCORPORATED

Huntsville, Alabama

FALL 1916 SPRING 1917

FOR NURSERYMEN AND DEALERS ONLY

IMPORTANT!

This list is intended to reach only those entitled to Wholesale Trade Prices. Errors are sometimes made, and in order that our mailing list may be corrected, we will thank any one in the trade to advise us should they have knowledge of our list reaching parties not so entitled.

DO WE HAVE YOUR NAME AND ADDRESS CORRECT? Occasionally we find that we are mailing a copy of our list to a nursery and another to its proprietor, under the impression that they are separate and distinct. You can have as many copies as you want and ask for, but we would like to have the business name and owner's name together on our lists for mailing, and shall be very grateful for correction of such errors in address.

TERMS OF SALE

CASH or satisfactory reference, with sufficient time to investigate before shipment, is invariably required of parties unknown to us. To responsible, prompt paying parties, we will extend usual time for payment.

REMITTANCES should be made by Draft on New York, Chicago or St. Louis, or by Express or Postal Money Order.

CLAIMS for damages or deficiencies to receive consideration must be made promptly upon receipt of goods.

RATES apply as follows: When 10 trees and not over 50 are ordered, the price will be $2\frac{1}{2}$ cents per tree more than the price per 100. Orders for 50 trees or more up to 300, when not less than 10 trees of each variety, will be charged for at the price per 100. Orders for 300 trees or more, when not less than 10 trees of each variety, will be charged for at the price per 1000.

TELEGRAMS—Use Nurserymen's Telegraphic Code, copy of which we will mail upon request. In connection with this we give a cipher word in *Italics* for each grade. When this cipher word is used either in mail or telegraphic orders no other description of the stock desired is necessary.

PACKING—We believe we excel others in the manner of handling stock. This is due largely to personal experience and supervision. We pack to insure contents from drying or freezing, even though the shipment be delayed in transit.

The cost of new boxes, well made, to be added as follows:

30 x 30 x $7\frac{1}{2}$ to 9 feet		\$2.50	18 x 24 x $7\frac{1}{2}$ to 9 feet		\$1.75
24 x 30 x $7\frac{1}{2}$ to 9 feet		2.25	18 x 18 x $7\frac{1}{2}$ to 9 feet		1.50
24 x 24 x $7\frac{1}{2}$ to 9 feet		2.00	15 x 15 x $7\frac{1}{2}$ to 9 feet		1.00

Bales 25 cents to 75 cents, according to size.

In packing small stock we can sometimes use goods boxes that will fill the purpose just as well as our own new cases, and there is considerable saving by so doing. Goods boxes will be used wherever possible, unless otherwise instructed.

SHIPMENTS—When ordering, please state plainly whether freight or express shipment is desired, and give route if by freight. In the absence of this information we will use our best judgment without assuming any responsibility as to delivery. Goods are at purchaser's risk and cost after delivering to the forwarding company. Under the new Parcel Post system we are often able to forward small packages for less than the rates charged by express companies. Parties desiring to secure the benefits of Parcel Post should include sufficient for postage in their remittances; the difference, if any, will be refunded promptly.

GUARANTEE—We are very careful to keep each variety true to name as labeled, and are ready at any time to replace, on proper proof, any that may prove otherwise, free of charge, or refund the amount paid, but it is mutually agreed between the purchaser and ourselves that we shall at no time be liable for an amount larger than the original purchase price.

CAUTION—All orders are accepted upon the condition that they shall be void should any injury befall the stock from frost, hail, fire or other causes beyond our control.

REFERENCES—Any Bank or Business House in Huntsville, Alabama, or either of the Mercantile Agencies.

LONG DISTANCE TELEPHONE IN OUR OFFICE

Two Year Apple on Whole No. 1 Roots.

In compiling this Price List we have followed, as far as possible, the fruit nomenclature adopted and recommended by the American Pomological Society and the nomenclature of ornamentals recommended by the Nomenclature Committee of the Ornamental Growers' Association. Where the name has been changed in fruit trees we show the old name in parenthesis. In ornamentals, where possible, we show common name in parenthesis immediately following botanical specific and varietal name.

18 to 24 inches, few branched.	<i>Malady</i>	25 00

NOTE:—The large *Magnolia Grandiflora* offered above are splendid specimens. We do not believe there is a finer block of these beautiful Southern Evergreen trees in the country. They have been twice transplanted; have an abundance of fibrous roots and straight, smooth trunks with well formed heads. The trees are carefully dug as needed, roots puddled in mud to prevent evaporation and packed immediately. In this way there is no exposure and satisfactory results are certain. We invariably defoliate except for a few leaves at terminals.

Block of Heavy Two-Year Spirea VanHouttei

NURSERY TOOLS AND SUPPLIES

The Best Goods at Reasonable Prices

KNIVES, GRAFTING

F. No. 1—Grafter

3½ inch handle, 2½-inch "sheep foot" blade. Holds a fine edge in grafting and makes a very serviceable knife for general use in the nursery. Price 25c each, \$3.00 per dozen, prepaid; \$2.75 per dozen, not prepaid.

KNIVES, PRUNING

Fraser's Special Pruner

Three-inch "hawk-bill" blade, five-inch stationary wood handle tapering to fit the palm comfortably, blade riveted firmly to handle and rivets covered by one-inch brass ferrule to give the joint strength without bulkiness. Light, strong, keen and durable. The best knife we know of for "cutting back" and heavy pruning. Price, 35 cents each, \$3.75 per dozen, prepaid; \$3.50 per dozen, not prepaid.

KNIVES, BUDDING

Wostenholm's IXL Ivory Tip

Made by the famous English cutlery firm and generally conceded the best budding knife made, so that no further comment is necessary. Price, 75 cents each, \$8.00 per dozen, prepaid; \$7.75 per dozen, not prepaid.

F. No. 3—Budder

Stationary handle budding knife with blade of splendidly tempered steel. The blade has just the right "pitch" for budding, and this style is preferred to the folding knife by many budders. Price, 25 cents each, \$2.50 per dozen, prepaid; \$2.25 per dozen, not prepaid.

PRUNING SHEARS**F. No. 5—English Pattern**

Nine inches long, full polished steel handles and hook; blade specially tempered steel; polished steel bolt and ratchet nut; double brass flat springs; end handle catch. A good, strong, "easy springed" shear that will not tire the hand and is capable of long, efficient service. Price, including one extra blade, \$1.60 per pair, prepaid; \$1.40 per pair, \$15.00 per dozen, not prepaid.

F. No. 6—California Pattern

Nine-inch, with ratchet tightening nut, blued steel handles and hook, polished steel blade of good quality, blued steel nesting coil spring, end catch for handles. Not as good shear as No. 5, but well worth every penny of its price. Per pair, 50 cents, prepaid; 45 cents per pair, \$5.50 per dozen, not prepaid.

AUTOMATIC TACKING MACHINE

Throw away your tack hammer—get an up-to-date machine to put your tags on right—no loss of time looking for tacks or hammer; no smashing of fingers in the old-fashioned way. Machine always ready and only one motion to drive the staple in hard or soft wood. Heavy and well made and will not get out of order easily. Price each \$4.00 F. O. B. Steel staples ready for loading into machine, in lots of 10,000 to 25,000, 35 cents per thousand. Special discount in quantities of 25,000 or more.

AMES NURSERY SPADE

Standard among nurserymen. D-handle, square point blade, tapering from $7\frac{1}{2}$ inches wide at heel to $5\frac{1}{2}$ inches at point, $12\frac{3}{4}$ inches long. Handles re-enforced with double steel straps entire length. Weight about 9 pounds. Price \$1.50 each; \$18.00 per dozen, not prepaid.

BURLAP

Clean, strong, second-hand burlap, mostly furniture wrappings and containing no chemical that could injure trees or plants. Comes in various lengths and widths which are just the thing for baling. We recommend sorting the different sized pieces into uniform lots so that it will be easy to select a piece to fit any bale and thus obviate the waste of cutting. Put up in bales of approximately 500 pounds and averages two yards to the pound. Price in bale lots only, 10 cents per pound F. O. B.

WOOL TWINE

This season we have a high-grade three-ply twine averaging 290 feet per pound, with breaking strength of 88 pounds, which is much stronger than the average four-ply wool twine and in addition our three-ply twine runs about 50 feet more to the pound than the twine we have used and sold heretofore. We believe, after thorough investigation, that this is the best twine for nursery purposes on the market today. Put up in balls of ten to twelve pounds, packed in bales of about 250 pounds. Price in bale lots, 19 cents; less than bale, 20 cents per pound F. O. B. Glad to ship in any quantity from one ball up.

SEWING TWINE

Four-ply Sail twine of uniform strength. Does not bunch and is strong enough to sew any bale without doubling. Put up in skeins which can be cut through, making twine just the proper length to use handily in your needles. Skeins are done up in bundles of about twelve pounds. Price, 30 cents per pound F. O. B.

SISAL CORD

Three-ply uncoiled Sisal of best quality. Has plenty of strength for the largest bale. Put up in reels weighing approximately 100 pounds. Price, 19 cents per pound F. O. B.

SEWING NEEDLES

Five-inch, good quality steel needles, 35 cents per dozen prepaid; 25 cents per dozen not prepaid.

BOX LINING PAPER

High grade, No. 1 Kraft Paper, 40 pound basis, in 36 and 40 inch widths. Good also for wrapping bales, etc. We believe Kraft paper of good quality is by far the best for nursery use and we were converted to this only after thorough tests under all sorts of conditions. Our stock was selected this season with a view of giving the most yardage per pound in combination with greatest strength and durability under usual nursery conditions. We feel sure that it will fill all requirements. Put up in rolls of approximately 100 pounds. Price, 12½ cents per pound F. O. B. Do not sell less than whole roll.

BOX STRAPS

Average one inch wide, eight inches long. Strong enough to "guarantee" the corners and middle pieces of your box from breaking loose, yet soft enough to be easily pierced by medium sized boxing nail. Not necessary to punch holes before you start strapping your box. Price, less than 50 pounds, 7 cents per pound; 50-pound boxes, 6 cents per pound; 100-pound boxes, 5½ cents per pound, F. O. B.

LABELS

Plain copper wired, 3½-inch, 1000 to package, \$1.15 per thousand. In lots of 5000 or more, \$1.05 per thousand, not prepaid.

PRINTED LABELS

Copper wired and neatly printed, 2½-inch notched label. 25 cents per hundred, prepaid; \$1.10 per thousand, not prepaid. In lots of 5000 or more, \$1.00 per thousand, not prepaid. Can supply printed labels of almost any standard variety of tree or plant named in our list, but will not sell less than 100 of any variety.

NATURAL PEACH PITS

We have our usual supply of strictly natural peach seed and offer either 1915 or 1916 crop. These seed are collected in the North Carolina mountains primarily for our own plantings and we secure the best that can be had. They will average 6,000 to 7,000 per bushel and will germinate 95 per cent or better. If you want a good stand of thrifty, vigorous seedlings next Spring, plant our seed.
