Beurre d'Anjou	Sheldon
Duch. d'Angouleme	Vermont Beauty
Flemish Beauty	Worden-Seckel
Garber	

Winter

Lawrence	Kieffer
Koonce	Lincoln
Rutter	

DWARF PEARS—TWO YEAR.

First-Class.

3 to 4 ft.	\$.60	\$6.00
-----------------	--------	--------

When Pears are budded on Quince seedlings they form a Dwarf habit, attaining only about half the usual height. The Dwarf Pears are very prolific bearers and are now being planted for commercial purposes on a large scale.

Agents are requested to write "Standard" or "Dwarf" on all orders for Pears to avoid mistakes in filling orders.

The trees when delivered are 3 to 4 feet high, 2 years old, strong and thrifty. Following varieties succeed best as Dwarfs:

Bartlett s	Seckel a
Clapp's Favorite s	Duch de Angouleme w

CRAB APPLES—TWO YEAR

	Each	Per Doz.	Per 100
5 to 6 ft.....	\$.50	\$5.50	\$45.00

25c each; \$2.50 per doz.; \$15 per 100.

Black Champion	Pomona
Black Maple	Red Dutch
Cherry	White Grape
Fay's Prolific	White Dutch

STRAWBERRY PLANTS

When strawberry plants are sold in lots of 300 or more, we pack in baskets and send by express direct to the customer, no matter how much other stock he may have bought. This is the only way strawberry plants can be handled successfully, and we want to sell at least 300 in a place whenever possible. **We do not take up any plants until after the 1st of October.** Never sell less than 25 plants of a variety.

\$1.50 per 100; \$10 per 1,000.

Aroma	Lady Thompson
Bubach	Parker Earle
Bederwood	Rough Rider
Captain Jack	Sample
Clyde	Senator Dunlap

Lucretia	\$.15	\$1.50	\$10.00

ORNAMENTAL TREES

All First-Class in Size and Quality.

Note 1.—The size mentioned after each variety is that considered proper for first-class trees suitable for transplanting. The size varies according to the habit of growth of the varieties mentioned, as, of course some trees when fully grown, are smaller than others, but equally as good.

Note 2.—We divide the ornamental trees into two classes: Those suitable for street planting (class A), those suitable for lawns (class B). Those that can be used for either are marked (A and B).

		Each	Doz.
Ash, American	6-8 ft. (A)	\$1.00	\$10.00
Beech, Purple leaf	3-4 ft. (B)	1.50	15.00

Privet, California..12-18 in.	8.00	50.00
Privet, Armour Riv.12-18 in.	12.00	—

The Amoor River Privet has proven perfectly hardy and for this reason far more desirable than the California Privet.

Privet is sold only in multitudes of 25 each. No order accepted for less than 25 plants.

PLANT FOR IMMEDIATE EFFECT.

Not for Future Generations.

Start with large stock—it has taken years of special preparation to grow such trees and shrubs as we offer you.

We have done the long waiting—you can secure at once specimens that will give immediate and permanent results.

ORNAMENTAL SHRUBS.

When the size is mentioned after upright shrubs, it is such as we consider proper for first-class plants suitable for transplanting. The size varies according to the habits of growth of the varieties mentioned, as, of course some plants when fully grown are smaller than others, but exactly as good.

ORNAMENTAL SHRUBS, Continued

ABOUT THE PLANTING SEASON

The planting season is not regulated by any definite date, nor by the state of vegetation at the locality of the planter, but by the condition of the trees when received. Parties south of us may receive their trees some weeks after their season has been opened, yet when planted they will give entire satisfaction.

In the Spring customers may expect their

PLANTING SEASON, Continued.

stock from March 25th to April 25th, according to the locality of the planter. In the fall we begin deliveries from October 25th to December 1st, allowing the stock to mature fully before digging. The Southern shipments receive first attention in the Spring, while in the Fall the Northern shipments are started on the road first.

ROSES—TWO-YEAR-OLD.

Field Grown.

Nothing that we can say can add to the popularity of this most beautiful of flowers. Those who appreciate the beauties of nature prize roses above all things else in the ornamental line. While nearly all desire and perhaps make an effort to have an abundance of them in their season, yet very many fail; and the failure to succeed is usually due to planting inferior bushes, thousands of which are sent out over the country every year at very low prices. Our roses cost more than the weak, puny, hothouse plants referred to, yet the results show that we give our customers as much for their money as any firm in the country. Our bushes are grown out of doors, in ordinary soil, and are as hardy and vigorous as it is possible to make them.

HYBRIDS PERPETUALS—HARDY.

Class A.

These are hardy and bloom during May, and July. 60c each. \$6.00 per doz.

Alfred Colomb	Madam Chas. Wood.
Annie Diesbach	Madam Gabriel Luizet
Baron de Bonstettin	Madam Plantier
Black Prince	Magna Charta
Cop. des Alps	M. P. Wilder

HYBRID PERPETUAL, Continued.

Earl of Dufferin	Mary Washington

TREE ROSES

Sell for **Spring Delivery Only** as importations arrive too late for Fall shipment.

Strown, Holland grown, \$2.50 each. In Colors—Pink, Red, White and Yellow. Also Crimson Rambler.

BULBS

We neither grow or handle. There are many reliable seed growers making them a specialty, to whom we refer our customers.

EVERGREENS.

The Evergreens we use in our retail trade and list below are not the weak, scrawney **seedlings** that so many firms list at lower prices, but are **select specimens** which have been **transplanted two or three times** in the **nursery rows**.

	12-18-in.	18-24-in.	2-3 ft.
