THIS is a plain, homely talk, but I always thought busy men and women would read plain simple statements if it saves them money or tells them something important. For a good many years Fruit-growers have been paying a lot of extra unnecessary profit on the trees they buy. You may have done it—through agents, retailers, jobbers—the four profit plan, the indirect expensive way.

Give an agent \$20 for trees. He puts \$8 in his own pocket and gives \$12 to the retailer. The retailer keeps \$5 and gives \$7 to the wholesaler. The wholesaler takes \$2 and hands the grower \$5 to fill your \$20 order.

You can keep that \$15 yourself if you buy from the Planters' Nursery. I grow trees by the millions and sell them straight to the people who plant them. You can see why my prices are lower than anybody else can make, who does business the old way. You not only save three profits, as well as the expense of three packings and damage due to delays and drying out, but you get carefully selected, well packed, guaranteed, true to name stock—fresh from the nursery just when you want it.

No matter where you look, regardless of what you pay, you can't buy better trees than I offer you. Remember you take no risk in ordering Planters' Trees. If you don't find the stock exactly as I say, if you are not more than satisfied, I'll refund every cent. Read my guarantee, then take advantage of the remarkable savings offered you.

Best in Five. The trees arrived in good shape. I had to open the box to show the people the trees before I left town. They all thought I would be stung ordering trees by mail order, but they all left and said I had as good trees as ever shipped in. My neighbors come to see them and they were all satisfied. I have ordered from five other nurseries, but yours is doing better than any of the others. I am proud the way they are growing.—P. I. Nelson, Kans.

Sure Saved Commission. I was pleased with the trees received from you. The trees and grape vines were of good quality and the prices for same were reasonable. The agent's commission was certainly cut out.—W. N. Oles, Kansas.

How We Pack. Never had trees shipped to me in finer shape than those you shipped to me. Am well pleased with them. When I want more trees I will send to you.—W. H. Wright, Kansas.

Saves Over Half. The trees I received of you are just fine. They are all growing—everyone of them. Will recommend you to anyone wanting trees, and the cost is hardly

half what agents charge for inferior stock.—H. G. Loveland, Kansas.

Better and Cheaper. I received the trees I ordered of you and they are all O. K. Your trees are better and cheaper than from these traveling agents. I have been stung several times myself. No more for me.—F. E. Johnson, Kansas.

Likes Our Plan. I am just in receipt of your second shipment of fruit trees, vines and shrubs you shipped to me this spring, and I must say they are as fresh and fine as could be wished for. Your plan of from the grower to the planter is a good plan, and you have

my appreciation and best wishes.—G. H. Bowman, Kansas.

Looks Good to Him. The trees and shrubs received in good condition and are growing fine. Am greatly pleased with your goods and will remember you in the future. You look good to us and we will do all we can with our neighbors to interest them in your favor.—G. W. Hall, Arkansas.

Better Roots. Your trees arrived in good shape; everyone looked as if it would grow. I am much pleased with them as they have better roots than any we have got from local nurseries. Will speak a good word for you at any time.—F. F. Ellerbeck, Kansas.
