Rose Valley Nursery

ON SLAVIN ROAD

G. INDERMUHLE, Propr.

**Mail Address, 1052 Corbett Street
Portland, Oregon**

In 1900 the present location was the natural Oregon forest and by combining a Rose climate, soil, hard work and over forty years experience in U. S. A. and Europe, has produced a stock which will speak for itself.

If you wish to patronize home industries, get your stock, which will give results right from the start, direct from the grower (no agents).

This stock will please you and I hope you will favor me with your order.

Further information of stock not listed here given on application.

Hybericum Grandiflorum.....	50c. Doz.
Vincas (large leaf Myrtle)	50c. Doz.

Pointers on Rose Planting

The first question asked by Rose buyers is: When is the best time to plant them? Roses, shrubs, trees and the like can be planted any time between October 15th and April 1st providing the soil is not too wet or frozen. The idea to plant only in November and March is absurd here. Plant as early as possible in well drained soil which will grow good vegetables. Plant budded (grafted) stock, so that the union, which is readily seen, is about 2 inches below surface of soil. If any fertilizer is used, put on top the soil after planting, but by no means in the hole in direct contact with the roots. If you want to beat the other fellow with a good Rose hedge get busy.

DELIVERY AND TERMS

Send list of your wants for special prices. For large orders it is always better to call at the Nursery by appointment.

No orders delivered for less than \$1.50.

Unknown parties—cash with order.

Half cash must be sent with C. O. D. orders.

Parties wishing stock shipped, please state if by freight or express. Such stock will be delivered to transportation company in good order; after this it will be at buyer's risk and cost.

Mistakes should be promptly reported and if satisfactorily proven will be gladly corrected to the extent of original price paid.

Deliveries are made from about October 15th to April 1st according to weather conditions.

Will take all possible care to send stock out true to name, but do not guarantee stock in any shape or manner whatsoever after leaving Nursery in good condition. Results depend largely on the way of planting and after care.

STOCK IS ALL HOME GROWN
