APPLES, DWARF, 2 years

For some years have budded a considerable quantity of apples on English Paradise stocks. This stock dwarfs the mature trees considerably and brings them into fruiting at a much earlier age than standard trees. The dwarf trees are in demand for planting in city lots where space is limited and for using as fillers in commercial orchards, so as to obtain some income before the standard trees come into bearing.

The Wholesale Prices in our lists apply only on Wholesale Quantities. Orders should call for ten of a kind and size, and, beyond that for multiples of ten. Stock in our storage buildings is tied in 10's and we prefer not to break bundles if avoidable.

ROSES, From 2½ inch pots, for nursery planting or mailing.

We grow large quantities of Roses, both for planting out in our own nurseries and to sell to other nurserymen. They are well-established plants that give good stands in the nursery rows and make strong growth.

One lot of these plants is ready now. We have another propagation coming on which will be ready March 15th, to April first.
