DARWIN TULIPS

The most distinct and beautiful of all Tulips blooming with the Cottage Tulips in May, and bearing their massive flowers on strong stems, fully thirty inches high. Truly these Tulips are the most beautiful in existence and should be planted by everyone.

The colors of these massive and gorgeous Tulips range from the darkest maroons through all the varying shades of red, pink, lavender to the palest blush white. So far no pure white or clear yellow has been perfected. For yellow it is necessary to borrow from the May-flowering class and we suggest as the best variety, Inglescombe Yellow. We have listed this as the Yellow Darwin.

For pot culture they are ideal and can be had at their best for Easter.

Heatherhome's Choice Collection of Darwin Tulips

To facilitate ordering we have decided to select from our list 12 varieties which we consider the cream of their respective colors, and while we could offer much more expensive varieties we do not think we could offer any more worthy of merit.

The following sorts are included: Baronne de La Tonnaye, Clara Butt, Edmee, Farncombe Sanders, Lantern, Pride of Haarlem, Marconi, Painted Lady, The Yellow Darwin, Rev. Ewbank, Mme. Krelage, and Philip de Communes.

Collection "A" 2 Bulbs of each of the above varieties.....	\$1.00
Collection "B" 6 Bulbs of each of the above varieties.....	2.75
Collection "C" 12 Bulbs of each of the above varieties.....	5.00
Collection "D" 25 Bulbs of each of the above varieties.....	9.00

General List

	Per Doz.	Per 100	Per 1000
Baronne De La Tonnaye. Vivid pink margined blush. One of the showiest pinks. Holds its flowers well until the last			
Clara Butt. Delicate salmon pink. A beautiful sort.....	\$.40	\$2.75	\$25.00
Edmee (Beauty). A beautiful shade of vivid cherry rose, with a light margin	.40	2.75	25.00
Farncombe Sanders. Brilliant rosy red with a clear white base. The most popular of all Darwins.....	.55	3.75	32.00
Gretchen (Margaret). Beautiful pale rose, flushed white. Erect stiff stem.....	.45	3.00	25.00
Lantern (Nizza). Wistaria colored, daintily tipped mauve rose	.30	2.25	20.00
Madame Krepape. Soft lavender rose, margined blush pink. Tall erect stem.....	.60	4.00	32.50
Marconi. Dull violet, white base. One of the largest and best	.50	3.50	30.00
Nora Ware. Delicate wistaria colored.....	.85	5.50	45.00
Philip de Communes. Rich velvety deep purple.....	.50	3.00	25.00
Pride of Haarlem. Bright carmine rose. One of the most striking sorts	.50	4.25	37.50
Pysche. Beautiful soft salmon rose.....	.60	4.00	35.00
Rev. Ewbank. Silvery heliotrope.....	.55	3.50	30.00
The Sultan (Jos. Israels). Deep maroon, almost black.....	.55	4.00	35.00
The Yellow Darwin (Inglescombe Yellow). Canary yellow, will blend well with any of the above sorts.....	.40	2.25	20.00
	.65	4.50	37.50

Darwin Tulips in Mixture

Heatherhome Darwin Mixture. We can truthfully say that no finer blending of Darwin Tulips has ever entered the ports of America. This mixture is blended from the finest named sorts, which if ordered by name could not be purchased for three times the price. It will be a most pleasant surprise we are sure, to all who try it.

Per dozen, \$25 Per 100, \$1.50 Per 1000, \$12.50

COTTAGE OR MAY FLOWERING TULIPS

A class of tulips which are fairly tall, are massive in texture, produce enormously large flowers and appear about the same time as the Darwins. They may be used for garden bedding or planting in the shrubbery. In this class we have all colors and shades, and for this reason many varieties can be used advantageously in blending with Darwins to create artistic color effects.

Collection of Cottage or May Flowering Tulips

In order to give our patrons an opportunity to become familiar with this excellent type of Tulip, we offer the following collections of choice varieties. They are all described in the following list.

Ellen Willmott
John Ruskin
Fairy Queen

Orange King
Elegans
Picotee

Collection "A"	Two of each variety	\$.50
Collection "B"	Six of each variety	1.25
Collection "C"	Twelve of each variety	2.25

General List

	Per Doz.	Per 100	Per 1000
Bouton D'Or (Ida) (Golden Beauty). Deep golden yellow...	\$.35	\$2.00	\$17.00
Elegans. Brilliant crimson, yellow base.....	.35	2.25	20.00
Ellen Willmott. Long narrow flower, with slightly reflexed petal, tall, straight stem	.60	4.00	30.00
Fairy Queen. Rosy heliotrope, margin yellow.....	.40	3.00	25.00
Gesneriana Lutea. Deep golden yellow.....	.30	2.00	17.00
Gesneriana Spatulata (Major). Dazzling scarlet with blue base, flowers very large and borne on tall straight stems. One of the best sorts.....	.35	2.25	18.00
Inglescombe Pink (Salmon Queen). Soft rose, flushed salmon	.30	2.00	17.50
Inglescombe Yellow (The Yellow Darwin). Canary yellow..	.65	4.50	37.50
Isabella (Shandon Bells or Blushing Bride). Creamy white, edged rose	.30	1.75	15.00
John Ruskin. Blending of apricot, rose and mauve.....	1.50	10.00	
La Merveille. Orange scarlet, flushed rose, the largest flower of this class	.35	2.00	15.00
Orange King. Bright deep orange.....	.50	3.50	30.00
Picotee (Maidens Blush). White margined rose pink.....	.30	1.75	15.00
Retroflexa. Yellow with reflexing petals, excellent for cutting	.40	2.50	22.00
Splendid Mixture	.25	1.50	12.00

BREEDER TULIPS

Breeder Tulips are a class of outdoor tulips which flower as late as the Darwins, have tall stems, and noble large elongated flowers of solid art shades, such as purple, maroon, terra cotta, buff and bronze, and as a companion to the gay Cottage Tulips they are unsurpassable. The gardener who loves rare colors in flowers will appreciate these lovely beauties.

	Per Doz.	Per 100	Per 1000
Bronze Queen. Soft buff, inside tinted golden bronze.....	\$.90	\$7.00	\$60.00
Cardinal Manning. Dark rosy violet.....	.60	4.00	35.00
Jaune d'Ouef. Ruddy apricot with a yellow edge.....	.50	3.75	35.00
Medea. Glorious salmon red. Excellent for cutting.....	.50	3.50	30.00
Superb Blending of All Shades. A most satisfactory mixture	.35	2.00	18.00

SPECIES TULIPS

Florentine Odorata (Sylvestris). Pure yellow, drooping flowers, exceedingly fragrant and known as the Sweet Wild English Tulip. Fine for naturalizing.....	\$.45	\$2.75	\$22.50
--	--------	--------	---------

PARROT TULIPS

Splendid Mixture

Parrot Tulips belong to the same class as the Cottage, except that they have laciniated edges. When still in bud the flower resembles to a certain extent, the head of a parrot. They may be forced for flowering by the middle or end of February.

Per dozen, \$.25 Per 100, \$1.50 Per 1000, \$12.50

SINGLE EARLY TULIPS

The gayest of our garden flowers in the early Spring. This Tulip is the earliest of all to bloom, and is used to produce a blaze of color in the garden during April.

When planted in bold masses in the shrubbery or perennial border, or when planted in large beds in solid colors, they are seen at their best.

For forcing this type is perhaps the most satisfactory of all, and may be had in bloom in January or February under the ordinary conditions possible in the average house.

For forcing never use a mixture but only the named varieties.

	Per Doz.	Per 100	Per 1000
Belle Alliance. Brilliant Vermillion Scarlet	\$.40	\$2.50	\$20.00
Cottage Maid. White, edged rose	.35	2.25	18.00
Joost von Vondel White (Lady Boreel). Immense flower of snowy white	.65	4.00	35.00
Kaiserkroon. Bright crimson, the upper part of the flowers golden yellow, the largest and most striking of all varieties	.40	3.00	25.00
La Reine. White, slightly shaded rose	.40	2.75	25.00
Pink Beauty. Vivid cherry rose	.60	3.75	32.00
Thomas Moore. Bright orange, shaded scarlet	.35	2.00	17.50
Vermillion Brilliant. Bright vermillion scarlet, yellow base..	.60	4.00	35.00
Yellow Prince. Golden yellow, streaked brownish red	.35	2.25	20.00
Blending of Single Early Tulips.		1.25	10.00

DUTCH HYACINTHS

Importing Hyacinths has always been one of our specialties, and we have made it a point to keep up to the high standard quality of these stocks. For bedding, the Hyacinths are very valuable, coming as they do in the early Spring, and filling our gardens with charm. For forcing in pots, they are very widely used, while one may be able to purchase Hyacinths in pots from his florist, he can never purchase such wonderful flowers as he can grow for himself. The reason of this is, the florist at all times uses an inferior grade of bulbs, but, by forcing the supreme first size bulbs offered by our firm, you are certain to achieve wonderful results. Our Hyacinths are imported from the largest specialists in this class of flowers in Holland. We received the cream of his stock, and can promise you the best bulbs obtainable. Any of the following varieties are suited for growing in water.

First Size Single Named Hyacinths

	Per Doz.	Per 100
Enchantress. Most delicate delft blue. The best of all blue Hyacinths	\$2.00	\$13.50
King of the Blues. Rich dark blue, one of the largest flowers existing	1.75	12.50
Lady Derby. Lovely delicate pink. A perfect spike on a rigid stem.		
The best pink	2.25	13.50
La Grandesse. The finest white Hyacinth in existence	2.25	15.00
La Victoire (New). Brilliant dark pink	2.00	12.50
L'Innocence. Pure white, erect spikes	2.00	14.50
One of each of the above six varieties	\$1.00	
Two of each of the above six varieties	1.75	

Special Garden Hyacinths

The following selection comprises a list of sorts which are especially selected for their merit as garden varieties, holding their spikes erect and being particularly attractive in shades. These are commonly known as second size named varieties.

Pink and Red Shades. Lady Derby, delicate pink. La Victoire, dark pink. Rosa a Merveille, bright pink.

Blue Shades. King of the Blues, dark blue. Grand Maitre, deep lavender.

White Shades. L'Innocence, pure white. Grandeur a Merveille, blush white. La Grandesse, pure white.

Per dozen, \$1.25

Per 100, \$9.00

Miniature or Dutch Roman Hyacinths

An ideal type for forcing. In this class the bulbs are small and can be potted in shallow pans or flower bowls, and planted very close together. When in bloom the effect is charming. These bulbs are excellent for growing in fibre.

Pink Shades. Gigantea, delicate pink. Lady Derby, delicate pink. Garibaldi, scarlet.

Blue Shades. Queen of the Blues, azure blue. Grand Maitre, deep lavender. King of the Blues, dark blue.

White Shades. L'Innocence, pure white. La Grandesse, pure white. General Vetter, blush white.

Per dozen, \$60

Per 100, \$3.50

Per 1000, \$32.00

Roman or French Hyacinths

This type, while not suitable for planting in the garden, is splendid for growing in pots, pans or flats in the house, or conservatory. By timely planting they can be readily in bloom for Thanksgiving, and if planted in succession you may be repaid with blooms right through the season.

Each bulb will produce from three to five graceful flower stems, which are excellent for cutting and are exquisitely scented.

	Per Doz.	Per 100	Per 1000
Pure White (Mammoth Bulbs)	\$1.25	\$9.00	\$75.00
Light Pink	.90	6.00	50.00
Light Blue	.90	6.00	50.00

DAFFODILS AND NARCISSUS

In this branch of the Dutch Bulb family, we have a very wide variety of forms and colors. Some of the types are particularly useful for forcing, others will do better in the garden, while still others are best used for naturalizing. For planting on the edge of shrubbery or for using in beds with perennials they are excellent. Their culture is of the easiest, and most varieties when once planted will go on blooming year after year, increasing both in size and number of flowers. When left alone in this way they should be lifted about every fourth year and the bulbs divided and again planted. The less expensive varieties should be planted by the hundred, yes, by the thousands, as they will amply repay you in beautiful Springtime effects every year, for the small first outlay. All our bulbs are sound and are sure to give satisfaction.

PLEASE NOTE: We have carefully classified the different types of Daffodils for your convenience.

Trumpet Daffodils

Under this heading are classified all flowers whose trumpets or crowns are as long or longer than the perianth segments or spreading petals.

Section 1. Ajax Bicolor

Of the following sorts, the trumpets are yellow and the perianths are white.

	Per Doz.	Per 100	Per 1000
Empress. A massive, bold flower of pure white perianth and deep yellow trumpet	\$.50	\$3.00	\$25.00
Victoria. One of the showiest varieties. Broad creamy white perianth and a clear rich yellow fluted trumpet. Very large and frilled at mouth, excellent for garden or house.			
The best bedding Daffodil	.50	3.00	25.00

Section 2. Ajax Yellow

Emperor. A gigantic flower of remarkable substance perianth deep primrose yellow, trumpet rich yellow. This is undoubtedly one of the finest varieties for either forcing in the house or growing in the garden. Extra large bulbs	\$.50	\$3.00	\$25.00
Golden Spur. A very popular sort. The entire flower is a deep rich golden yellow. A large trumpet with a broad open mouth	.55	3.50	30.00
Princeps. A variety which should be planted in large masses, for naturalizing or for forcing on account of its low price and beautiful flowers. Perianth sulphur, trumpet yellow	.25	1.50	12.00

Barri Daffodils

The Barri Type is a class whose cup or crown measures less than one-third the length of perianth segments.

Barri Conspicuous. Large, broad-spreading perianth of soft yellow, short yellow cup, edged bright orange scarlet.			
One of the best varieties for naturalizing.....	\$.25	\$1.50	\$12.00

Miniature Daffodils or Jonquilla

These have small onion-like foliage, and produce several small, but deliciously fragrant flowers on a stem. For pots or pans they are unrivalled, but do equally well out of doors.

Single Sweet Scented. Golden yellow.....	\$.20	\$.90	\$ 8.00
Campernelle. Large yellow flowers, 4 to 6 on a stem. Excellent for forcing	.20	1.00	9.00

The Incomparable Daffodil

On this type the cup or crown measures from one-third to nearly equal the length of the perianth segments.

Sir Watkin. Perianth sulphur yellow, large and well formed yellow cup, tinted bright orange. An excellent variety and one of the "old favorites"	\$.50	\$3.00	\$22.50
---	--------	--------	---------

Leeds Daffodil

Comprising all the chalice cupped and short cupped sorts. Perianth white, cup or crown white, cream or pale primrose.

Mrs. Langtry. A free flowering variety with broad white perianth and large white cup, edged bright yellow, a very popular sort	\$.35	\$1.50	\$12.50
---	--------	--------	---------

The Poet's Daffodil

or

The Pheasant's Eye Narcissus

The true Poet's Daffodil is one of the most popular and charming varieties we have to-day. For naturalizing they are planted by the thousands, and for this use are the most valuable varieties. Although this class is used extensively for naturalizing, still the variety N. Poeticus Ornatus is excellent for forcing.

	Per Doz.	Per 100	Per 1000
Poeticus Type (Pheasant's Eye). This variety is used exclusively for garden work or naturalizing. Our bulbs are imported from a specialist in this type of Narcissus	\$.25	\$1.40	\$11.00
Poeticus Ornatus. Larger than the foregoing sort and a week earlier to bloom; may be used for forcing or planting in the garden. Double nosed bulbs only.....	.30	1.60	13.50

Polyanthus Narcissus

By the French people they are known as "Tazetta" and are easily recognized, as the flowers appear in great numbers clustered on a stem.

Being natives of Southern France they are not hardy, but are used for growing in the house exclusively. The flowers have a very powerful fragrance.

The bulbs are usually delivered early, and if planted then, flowers may easily be had for Thanksgiving day and the Holiday season.

Paperwhite Grandiflora. The most popular of all for growing in pebbles and water, or for forcing in soil or fibre. They are far superior to the "Old Chinese Lillies" and never fail to come into bloom within six weeks from the day of planting. They are best forced in a cool room as this will give the flower stem a better chance to develop. It is best to lay in a supply of these bulbs in the early Fall and make a succession of plantings about every two weeks. The bulbs will keep until March if stored in a cool room, and you may have them in bloom continuously from Thanksgiving until Easter. Extra large bulbs only	\$.50	\$3.50	\$30.00
---	--------	--------	---------

Grand Soliel d'Or (The Golden Paperwhite). We import the bulbs of this variety from France, as we find the Holland grown bulbs will not force easily if used like the Paperwhites	.75	5.00	40.00
--	-----	------	-------

CROCUS

"The Harbinger of Spring"

The cost of these bulbs is very small, and they should be planted in every garden. In the Spring of the year they are one of the first flowers to appear and often the flowers will be seen sticking through the snow. They are very hardy and if once planted will come up year after year.

	Per 100	Per 1000
Baron Brunow. Dark blue	\$1.25	\$10.00
Mont Blanc. The best pure white.....	1.25	10.00
Non Plus Ultra. Clear blue	1.25	10.00
Queen of the Netherlands. Chaste white	1.10	9.50
Mammoth Golden (Jumbo Bulbs)	1.35	11.50

SPANISH IRIS

Iris Hispanica

Spanish Irises are very popular and inexpensive and should be planted by the thousands each year. We offer below a selected list of only the best and freest flowering varieties.

	Per 100	Per 1000
Ida. Deep yellow	\$.85	\$ 6.50
King of the Blues. Dark blue.....	.85	6.50
L'Innocence. Pure white	1.25	9.00
L'Tendresse. Pure white, large flower	.85	7.00
Orchid (New). The finest and largest of all Spanish Iris. A robust grower and an excellent variety for forcing. Of a pure white color combined with pale sky blue.....	3.00	25.00
Yellow Queen. Enormous golden yellow.....	2.00	15.00
Splendid Mixture of All Colors.	.60	4.50

MISCELLANEOUS BULBS

	Per Doz.	Per 100	Per 1000
Allium Neapolitanum. The flowers of pure white appear in large umbels and are borne on rigid long stems. Excellent for cutting. Used for blooming in the house, may be planted with Roman Hyacinths.....	\$.25	\$1.10	\$10.00
Camassia Esculenta. Perfectly hardy, thriving best in sheltered or partially shaded situations. Blooming during the early part of June. The blue flowers appear in large clusters on a strong stem, about two feet high. Best planted in Clumps.....	\$.25	\$1.25	\$ 9.00
Chionodoxa Gigantea (Glory of the Snow). Among the earliest flowers of the Spring to bloom. Large blue flowers with a white centre. Fine for use in the rockery	.30	2.00	16.00
Erythronium Dens Canis. (Dogs Tooth Violet).			
Rose Queen—Enormous flowers of beautiful pink.....	.50	3.00	25.00
Snowflake—Enormous flowers of purest white.....	.50	3.00	25.00
Mixture	.30	1.75	15.00
Fritillaria Meleagris (Guinea Hen Flowers). Ideal for naturalizing in the woods or shady borders. The hood-like checkered flowers are very attractive and interesting....	.20	1.25	9.00

Freesia

Undoubtedly the Freesias are the easiest of all bulbous flowers to grow in the house, and are accordingly very popular. They should never be grown out of doors. To be successful with Freesias they should always be planted as early as possible, preferably not later than the end of September.

Heatherhome's New Colored Freesia

Produced after years of hybridizing by one of America's foremost gardeners. The colored freesias we offer are equal to "Purity" in size, have excellent form and are of splendid texture. They cover a wide variety of colors, ranging from the softest delicate blush to the deepest of pink, from the most brilliant scarlet to the deepest maroon, and from the softest lavender to the deepest indigo. Even the pastel shades are here found aplenty. In no other flower can you equal the artistic hues and shadings of this wonderful novelty. Strong bulbs guaranteed to flower. Blending of all shades, at \$1.00 per dozen; \$6.00 per 100; \$50.00 per 1,000.

The Purity Freesia

Of rather recent origin, this flower is immensely popular. The flowers are of purest white, and are produced in large sprays on stout strong stems. They open wider than the common sorts and present altogether a more conspicuous appearance. We offer American grown stock. Extra large bulbs.

Per dozen, \$.75

Per 100, \$5.00

Per 1000, \$40.00

Freesia Refracta Alba

(The Common Freesia)

This charming little flower has long been popular. It is certain to flower in a greenhouse or living-room if planted in soil or fibre.

	Per Doz.	Per 100	Per 1000
Mammoth Bulbs	\$.40	\$2.25	\$20.00
Galanthus Elwesi (Giant Single Snowdrop).....	.30	2.00	15.00

Grape Hyacinth. Ideal for naturalizing or growing in shallow pans in the house.

— Blue	\$.85	\$ 7.00
— White	1.00	8.00
— Heavenly Blue, largest and best.....	1.35	12.00

Iris Anglica (English Iris). Splendid mixed..... \$.40 \$2.25 \$17.50

Ixia Splendid Mixed. Used only for forcing..... .75 6.50

Leucojum Aestivum (Summer Snowflake). Valuable for planting in the border or for naturalizing..... .40 2.25 16.00

Ornithogalum Umbellatum (Star of Bethlehem)..... .85 6.00

Puschkinia Libanotica (Striped Squill). A beautiful hardy plant with pure white flowers striped pale blue. May be forced in pots or pans in the house, also excellent for edging the perennial border \$1.00 \$ 9.00

Scilla (Squill). A splendid bulb for naturalizing and being inexpensive they may be planted by the thousands. The flowers will often appear before the snow is off the ground, and will always fill your garden with a cheer which betokens the coming of Spring.

— **Campanulata.** Splendid mixture 1.00 8.00

— **Sibirica (Common Blue Squill)** 1.35 11.00

Collection of Indoor Blooming Bulbs

Forcing bulbs is one of the most interesting phases of Floriculture, and can be practised successfully by even the beginner, if the right selection, and varieties is made and care is used in following our Cultural Instructions.

For one who does not care to go over the list and pick out the different varieties, we are making up a collection of Winter Flowering Bulbs for growing in the house, which if properly cared for, will give flowers in the house, from shortly after Thanksgiving until the Springtime takes our thoughts back to the outdoor garden.

Could you ask a better assortment?

If you contemplate growing some flowers in the house, why not order one of these collections now, it will surely give you entire satisfaction.

Collections made up at \$2.50 each or more.

FLOWER BOWLS FOR GROWING BULBS IN FIBRE

	Each
80—Beautiful, 6 sided dish, decorated with ancient Roman design, 6 inches deep, 6 inches wide	\$1.25
27B—Made of the same material as above, only round, decorated with edging of roses 3½ inches deep, 7 inches wide.....	1.25
9B—Fawn color rim. Outside golden yellow with black stripes. Round. Very handsome. 3½ inches deep, 6 inches wide.....	1.25
6A—Artistic bowl of Ivory claywood, resting on attached panel. 5½ inches wide, 6 inches deep	.50
6B—Same as above only without panel.....	.50

HEATHERHOME PREPARED POTTING FIBRE

A large measure of the success in growing Bulbs in Fibre is in the quality of Fibre used.

In order to have large blossoms and strong stems, it is necessary that the Bulbs receive plenty of food. This fact has received our most careful attention and the Prepared Potting Fibre which we have had made up in Holland contains all of the necessary ingredients, to insure success.

In planting Bulbs in Fibre, care should be taken that it is not allowed to dry out nor become too wet and soggy.

Fibre may be used in Flower Bowls or Vases with no outlet for water and being odorless may be used in any room in the house.

We offer Bowls suitable for using with Fibre above.

Per quart, \$.20; ½ peck, \$.60; peck, \$1.00; bushel, \$3.00.

Lilies For the Garden

	Each	Per Doz.	Per 100
Lilium Candidum (The Madonna or Ascension Lily). Monster Bulbs	\$.20	\$2.00	\$15.00

Spirea For Forcing

Usually grown in pots for blooming during Easter; but they are perfectly hardy and among them are some of the choicest subjects for the perennial border. Spireas are not delivered until late in October and are in the shape of heavy clumps.

Sappho. Clear delicate lavender		1.25	10.00

SWEET PEA SEEDS FOR PLANTING OUTDOORS

By planting Sweet Peas outdoors in the late Fall, you will be repaid by finer and larger blooms, by having them in flower much earlier, and often lasting longer than Spring sown seed.

In England, more Sweet Peas are planted in the Fall than at any other time, and this method of culture should be tried by all American Sweet Pea enthusiasts.

By planting at this time, the plants develop a perfect root system, and are therefore better able to stand the hot summer weather.

When sowing, prepare the ground in trenches about eighteen inches deep. Use plenty of ashes or coarse rakings for drainage. The soil in which the seeds are planted should be a rich friable loam.

The seeds should be sown from eight to ten inches below the surface of the garden, and covered with about two inches of soil. As soon as the ground becomes frozen, cover the entire trench with a mulching of leaves or well rotted stable manure.

When Spring appears, remove this mulch and as soon as the young plants appear, cover gradually with rich soil until the trench is filled to within one inch of the top. Care should be taken that the vine is not covered entirely. A dressing of Bone Meal at this time is very beneficial.

Care must also be taken that they are not planted too early, as they should not have sufficient time to appear above the ground in the Fall. Late in October is the ideal time for planting in the vicinity of New York. Before planting be sure to inoculate the seed with "Farmogerm."

“Heatherhome” Cinerarias

Most gardeners whom we have met in the past have complained of the declining perfection of strains of this flower, and we are therefore doubly proud of being able to offer a strain which we know is the acme of perfection, for the grower is one of the most painstaking men, who realizes the importance of pure, perfect strains. In former years he furnished seeds to a few intimate friends, but allows us now a limited quantity for general distribution.

HEATHERHOME PANSIES

Professional growers recognize the Pansy as a biennial only, and cultivate it from that standpoint sowing the seeds in frames and wintering the young plants in the same frames with sashes as protection.

Such plants are ready to bloom the following April, and will continue to bloom all season.

Pansies delight in semi-shaded, cool locations, and they must be kept supplied with moisture during the hot months of the year.

Pansy "Heatherhome's Pride"

If you wish to enjoy Pansies of infinite perfection in form, coloring and size, we offer you under the above title the choicest product of the universe. We take no liberties with adjectives, but know of no expression more fitting for the grandeur of this magnificent strain. Every flower is a gem; every plant a picture to behold. It is a blending of every imaginable color and combination of color.

3500. —.....Pkt. \$.50; large pkt. \$.75
3505. — Mme. Perret. Robust plants, with gigantic flowers in rich red or wine colorsPkt. \$.25; large pkt. \$.50
3510. — Masterpiece. Healthy, robust plants producing gigantic flowers on extra long stem, which have elegantly waved and curled petals, giving the flower a distinctly refined appearance. All shades.....Pkt. \$.25; large pkt. \$.50

Large Flowered Bedding Pansies

By using Pansies in separate colors, planting one color in a spot, splendid and ideal effects are created in the garden. Long, narrow borders planted with one color are much handsomer than if assortments are used. The Pansies offered under this heading are specially selected for this purpose, are very free-blooming and come as nearly true to color from seed as human power can control.

PLANT FOODS

Clay's Fertilizer. An English preparation, which is recognized the world over as the greatest flower food ever known. Every professional gardener in America uses it. It will help you to make the most of your flowers and if you want to exhibit blooms this will help you to win the blue ribbon. While it may appear expensive, it is really the most economical plant food to use, requiring very little to each plant. Always apply it dry and sparingly, work into the ground, and then wash in. It is better to apply a little often than a lot at one time. To accommodate those who have only small gardens we induced the manufacturer to put it up in small containers.....3 lbs., \$.75; 7 lbs., \$1.00; 14 lbs., \$1.50

Farmogerm. To inoculate Sweet Pea Seeds....Small bottle, \$.25; large bottle, \$.50

Heatherhome Humus. Contains all of the necessary plant foods. Excellent for using as a top dressing or mixing with the soil.....100 lb. bag, \$1.50

Pulverized Sheep Manure. Nothing better for general use, even considered better than stable manure. May be spaded into the ground or applied as a top dressing. Use it liberally. Also excellent as a liquid food.

5 lbs., \$.35; 10 lbs., \$.55; 25 lbs., \$1.50; 100 lbs., \$3.00
Pure Ground Bone. Excellent for Roses, shrubs and Sweet Peas. Our quality is not usually sold.....5 lbs., \$.50; 10 lbs., \$.75; 25 lbs., \$1.50; 100 lbs., \$4.00

Nitrate of Soda. A most powerful stimulant and must be judiciously applied. Use it in very small doses, dry only to the soil; an overdose kills.

5 lbs., \$.75; 10 lbs., \$1.25; 100 lbs., \$9.00

The above prices are subject to change without notice. Fertilizer cannot be sent by mail.

PLANT HEATHERHOME LAWN GRASS SEED NOW FOR A PERFECT LAWN

September and early October is the most favorable season for sowing Lawn Grass Seed. The rains and heavy dews during these months insure a good germination, and before freezing weather sets in, some growth is obtained. Then, on the opening of Spring, the grass immediately recommences its growth, taking full possession of the ground, and at the same time prevents weeds from obtaining a foothold. Lawns started in this way, endure summer drought much better than Spring sown lawns.

Heatherhome Lawn Grass Seed is composed of dwarf, fine leaved grasses, producing a closely interwoven deep turf, maintaining from year to year, a covering of a rich perfect green.

This mixture will withstand frequent close cutting and tramping. It is clean heavy seed, and will give excellent results with a minimum quantity.

Two bushels are sufficient to sow an acre; one quart is sufficient to sow 1,000 square feet.

Per qt., \$.35; per peck, \$2.50; per bushel, \$8.00

"UNDER TREES" — — LAWN GRASS

Because of the difficulties to obtain a satisfactory growth of grass under trees and in shady spots, we recommend this special mixture for sowing in such places. It rapidly produces an abundant even growth of beautiful green, and blends well with our regular mixture, thus covering the whole area with a perfect green sward.

Per qt., \$.50; per peck, \$3.50; per bushel, \$12.00

White Clover4 oz., \$.20; 1b., \$.60

HARDY PLANTS FOR FALL PLANTING

More perennials are being planted every Fall by the amateur gardener, for by planting at this time, much better results will be obtained. Plants set out during September and October will become established this year, and will start into growth very early next Spring and bloom in season, whereas, if they were not planted until next Spring, their flowering season would be delayed, and the flowers would be apt to be inferior.

This is due to the fact that by moving the plants in the Spring their growth is often delayed several weeks.

All of the items in the following list are in perfect condition, and can be shipped with safety from now until frost.

For patrons who wish to use only a few of the following items, we will be pleased to make up a collection of plants containing twenty-five ideal hardy perennials for \$2.25.

We cannot fill any orders for plants amounting to less than \$1.00.

No plants sent by mail unless sufficient postage is included with order.

HARDY HEATHER

(Our Main Specialty)

	Each	Per Doz.
Calluna Vulgaris. The common purple Scotch Heather spreading about 15 inches, and growing about 12 to 18 inches tall, blooms late in August and through the fall.....	\$.35	\$3.50
Calluna Vulgaris Alba. The white Scotch Heather.....	.50	5.00
Erica Stricta. Compact spreading plant with rose pink flowers in August.....	.35	3.50
Bruckenthalia Spicilifolia. Very dwarf, compact, matlike bush with vivid green rich foliage and heath-like flowers. The small terminal spikes show these light pink flowers the latter part of May and beginning of June. It is the first of all Heather to bloom. This is an ericaceous plant and is a native of the Dalmation Alps. Small plants only.....	.35	3.50

The above four varieties in assortment, \$3.50 per doz., \$25.00 per 100.

Menziesia. (Irish Heath)

— **Polifolia.** Splendid little compact erect growing heath-like plants, very useful for planting with other hardy heather. The small ovate leaves of an intense dark green form an excellent background to the large globular flowers of bright rose. These flowers are free blooming, and stand well above the foliage on erect racemes from July to September, where they are most attractive when planted in masses.

— **Alba.** Similar to the preceding except the flowers are pure white.

— **Bicolor.** Also resembles the type, except the flowers are white, shading to rose.

The above three varieties.....Each, \$.50; per doz., \$5.00

Rhein Nixe. Standards pure white; falls deep violet blue, with white margin; grows 3 feet high.....	.50	5.00	
Assorted Varieties. Our selection		1.25	8.00

Japanese Iris

1. Pure white.
2. Pansy violet.
3. Cotinga purple.
4. White and violet veined; yellow centre.
5. Mottled crimson purple with a yellow centre.
6. Hortense violet streaked with white veins; yellow centre.
7. White with canary yellow centre.
8. Color the same as No. 2 only the broad petals form into a large flat head on a spike nearly 3 feet tall, giving a very dignified appearance.
9. This dwarf variety grows only 1¾ feet, which accounts for its popularity in the rock garden. The petals of violet purple splashed with yellow are so arranged as to resemble a rosette.

Japanese Iris—Continued

10. Pure violet with golden centre.
11. Creamy white, delicately veined with violet.
12. Aniline blue veined white with yellow centre.
13. This late variety has a massive bloom of snowy white well veined with a yellow centre. It is extremely beautiful and as a cut flower makes a wonderful contrast for Nos. 2, 8, 10 and 15.
14. Ground color white, beautifully traced and marbled with ultramarine blue.
15. Mulberry purple and primulin yellow centre. One of the best, deep and rich in color.
16. Late white densely spotted violet blue.
17. White and violet veined; yellow centre.
18. Rich velvety pansy violet.
19. A splendid pure white.
20. White ground, densely spotted with bright violet purple.

All of the foregoing have been selected for their elegant markings and shading and their size; they all have six flower petals.

Each, \$0.30; doz., \$3.00; per 100, \$20.00

Assorted Japanese Iris

We have a very fine stock; good, strong plants which will flower next season. They have all been raised from seed and are very good varieties. Assorted colors only.

Each, \$0.25; doz., \$2.50; per 100, \$15.00

Iris Sibirica

Sibirica. Grows 3 feet high, with purple-blue flowers.....Each, \$0.15; doz., \$1.50

Sibirica Alba. Flowers white, veined pale lilac.....Each, \$0.15; doz., \$1.50

Sibirica Orientalis. Rich violet blue; very free, and one of the best.

Each, \$0.20; doz., \$1.75; per 100, \$12.00

Sibirica Orientalis Snow Queen. Flowers ivory white.....Each, \$0.25; doz., \$2.50

Iris Intermedia

Crosses between "Pumila" and "Germanica" and flowering long before the latter; they all have the large flowers and long stems of both.

Fritjof. The upper petals are pure light lavender-blue, the drooping petals velvet violet. Stems are 20 to 24 inches.....Each, \$0.20; doz., \$2.00

Halfdan. Light cream self-color, keeping very long.....Each, \$0.20; doz., \$2.00

Helge. Lemon yellow with pearl white; perfect form.....Each, \$0.20; doz., \$2.00

Ingeborg. Pure white flowers.....Each, \$0.20; doz., \$2.00

Walhalla. Upper petals lilac-lavender, drooping petals claret..Each, \$0.20; doz., \$2.00

HARDY GARDEN CHRYSANTHEMUMS

The Glory of the Autumn

For several years we have offered at this season of the year, large potgrown plants of Hardy Chrysanthemum for immediate effect.

Many of our patrons have at this season bare spaces in their gardens which they are anxious to fill in, and to get some effect this fall. It is for these people, that we are offering this unique service. The plants have been grown to large sturdy specimens, and are now in 5 in. pots and in splendid condition. If planted now, they will give a glorious effect wherever they are used. We can supply the following varieties:

New Chrysanthemum Shower of Gold

Beautiful Single Daisy Shaped Hardy Chrysanthemum. Very free flowering and compact in growth.

Each, \$0.35; doz., \$3.50; per 100, \$25.00

Old Fashioned Pompon Chrysanthemums

Donald. Cream pink with bronze centre, very attractive.

Golden Climax. The finest of all the yellows in cultivation; exceedingly free blooming and clean.

Inez. Tall grower with flowers of rich bronzy red.

Inga. Great masses of true blood red flowers on long stems.

Tiber. Bronze throughout. An excellent variety.

Waco. Beautiful pure white.

Zenobia. Great masses of golden yellow flowers.

All of the foregoing sorts:

Each, \$0.30; doz., \$3.00; per 100, \$20.00

Baby Pompon Chrysanthemums

The flowers of this class are very small, and form just like a button. They are very effective in the garden, and especially so when cut for a vase.

Baby Margaret. White.

Golden West. Golden yellow.

Each, \$0.30; doz., \$3.00; per 100, \$20.00

Medium Sized Flat Chrysanthemums

In this class we offer two sorts, but as they are clean and attractive, we would like to see them in every garden. As indicated, the flowers are flat, showing no centre and measuring about two and a half inches across.

Lillian Doty. Delicate shell pink.

Each, \$0.35; doz., \$3.50; per 100, \$25.00

Queen of the Whites. Glistening white.

Each, \$0.30; doz., \$3.00; per 100, \$20.00

New Japanese Garden Chrysanthemums

They equal in form, the choicest hothouse varieties. If slightly disbudded the flowers easily measure five inches across.

Cranford Yellow. Light yellow.

Cranford Pink. Delicate shell pink.

Each, \$0.30; doz., \$3.00; per 100, \$20.00

Giant Flat Garden Chrysanthemums

A type measuring from four to five inches across the top of the flower. They are perfectly hardy and very effective in the garden.

Dorothy. Pure white.

Cranfordia. Light yellow.

Thedora. Lovely pink with white centre.

Kathleen Thompson. Coppery golden.

Lilac Cap. Deep lilac.

Lucifer. Deep crimson.

Petite Louise. Beautiful pink. The largest in this class.

Purple Cap. Purple in effect.

All of the foregoing:

Each, \$.30; doz., \$3.00; per 100, \$20.00

Due to the large increase in the price of all packing materials we will be unable to fill any order for plants amounting to less than One Dollar.
