TOOLE'S PANSY SEED

William Toole & Son are pioneers in the raising of high grade pansy seed in America. Repeated trials have proven that our home grown seed is superior to foreign seed in strength of germination and sturdiness of plants. Our long experience with both retail and wholesale trade in pansy seeds and plants has given us the knowledge of what American people want. That is why Toole's mixtures are so popular with the florists who want high quality and the correct proportions of the different colors. We grow the different varieties separately and combine them in the proportions that our long experience has shown will be the most called for by the general public. Our fields are thoroughly rogued and we never harvest a seed of the heavy seeding, washy colored, cheap looking kind.

Toole's Giant Prize Strain

We aim to make this the best strain of pansy seed for commercial purposes offered at any price in this country today. We invite your comparison with any strain of American or foreign grown seed offered and we believe that you will pronounce ours the

best. If you can suggest any improvement we would be glad to hear from you. A large percentage of this strain are of the wavy petalled class but in a wider range of colors than is found in the Masterpiece type. In addition there are all of the best of the Giant flowered class in a wide range of colors and markings. The different shades and colors are carefully proportioned. Pkt. 20c; 1000 seeds, 40c; $\frac{1}{8}$ oz. 90c; $\frac{1}{4}$ oz. \$1.50; $\frac{1}{2}$ oz. \$2.50; 1 oz. \$5.

Hesperian Strain

This contains only the very choicest varieties in all the different colors. Many of these are shy seeders. We recommend our Hesperian Strain to those who are having a very critical trade. Pkt. 25c; Trade pkt. of 1000 seeds, 50c; $\frac{1}{8}$ oz. \$1.00; $\frac{1}{4}$ oz. \$1.75; ounce, \$6.00.

Selected Mixed

A mixture of about equal amounts of the nearly one hundred varieties that we grow. This is a very satisfactory mixture and one that we have offered for many years. Pkt. 15c; 1000 seeds, 30c; $\frac{1}{8}$ oz. 70c; $\frac{1}{4}$ oz. \$1.20; ounce, \$4.00.

Extra Choice Mixed

A very good, low priced mixture. It contains no poor flowers, but is not so choice as the other mixtures we offer. Pkt. 10c; 1000 seeds, 20c; $\frac{1}{8}$ oz. 50c; $\frac{1}{4}$ oz. 90c; ounce, \$3.00.
