The Gladiolus

The Gladiolus

A Price List of
Carefully Selected
Varieties

MARY LOUISE HAWKINS

Lancaster, Mass.

Warranty

I WILL replace stock defective when you receive it, if claims are made at once. I will replace named stock that proves untrue. I will not be responsible for your crop, save as noted above.

You have the satisfaction of buying from the choicest, sturdiest stock of Gladioli in the United States, grown under *natural conditions*.

I do not sell my cut flowers because the florists demand too much foliage, therefore my bulbs are vigorous.

No orders accepted for less than one dollar.

Mary Louise Hanskins

Lancaster, Mass.

DURING a period of many years of cultivation and acquaintance with the leading Gladiolus exhibitors throughout the country I have acquired a great number of choice varieties. Many of the following were exhibited for the first time in 1916. Their beautiful colorings and unique characteristics attracted universal attention. A large number of them received the highest awards at the various horticultural shows. While the quantities which I can offer are not extensive, you may have the assurance that the quality and variety are of the highest character.

Primulinus Hybrids

A new and beautiful race of Gladiolus has been produced by using the fine yellow species "Primulinus," or "Maid of the Mist," in crossing with the older existing strains. The varieties resulting are distinguished mainly for their fine and varying tints of yellow, graceful, slender stems and airily poised and hooded flowers.

No other race of Gladiolus contains such varied and beautiful yellow, orange and saffron colors.

The following varieties are new and especially desirable for color combinations :

Angola	
Fine salmon pink	.40
Butterfly

Sweet Orra	
Tall, fine soft yellow with pink line in throat	.40

One each of the above for \$4.00
