DIRECT FROM THE GROWER TO THE PLANTER

They are Tested, Reliable Seeds for all Soils and all Climates

They Have Satisfied Every Buyer for 46 Years

No Book Accounts

TERMS CASH WITH ORDER

USE ORDER BLANK AND ENVELOPE WHICH YOU WILL FIND INCLOSED WITH THIS CATALOGUE IN MAKING OUT YOUR ORDER

Customers from Canada and Foreign Countries

Must Send Twenty-five Cents Additional for Postage and Packing on Each Dollar's Worth of Seeds Ordered

REMEMBER—We cannot accept Canadian Postage Stamps

Plant Shipments We always recommend having plants sent by express, when there is an express office near, as we can usually send somewhat larger plants, and do not have to wash the soil off the roots (as in the case when sent by mail). We always try to add enough extra plants of our own selection to help pay charges.

Kindly write your list of plants all together (not mixed up with the seeds) so as to prevent any mistake upon the part of our clerks in copying the order. We do not ship plants to foreign countries unless plants are to go at purchaser's risk.

READ THESE FEW WORDS ABOUT RELIABLE SEEDS

From good seeds only can good crops be grown. Yet a great many contingencies may arise to prevent the best seeds from giving satisfaction, and for all these reasons we cannot, of course, guarantee or be responsible for a crop, as success is dependent upon natural causes, which are beyond human control. Therefore, we do not warrant in any way, express or implied, the contents, or the description, quality, productiveness, or any other matter of any seeds, bulbs, or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to above conditions we make this sale, at the moderate prices at which we sell our goods.

FAIR PLAY GUARANTEE

First—We guarantee that all seeds sold shall reach customers in good condition.

Second—We guarantee to hold ourselves responsible for the safe arrival of all remittances sent us by P. O. Order, Bank Draft, Express Order, or Registered Letter.

Third—We guarantee to deliver free of charge in the United States all garden and flower seeds listed in this catalogue, except those quoted at wholesale prices on pages 2 and 3, and Field Seeds, Grass Seeds, Potatoes and such other items that are plainly marked to be shipped by Express or Freight at purchaser's expense.

Fourth—We guarantee Buckbee's "Full of Life" Seeds to be just as represented—if they prove otherwise we will refund the order free of charge, or refund the money paid us for same.

View of Buckbee's Seed Warehouses and Offices, the Largest and most Complete, Modern Up-to-Date Seed and Plant Establishment in America with a Thorough Organization for the Prompt and Accurate Execution of Orders. Capacity 7,000 Orders Daily. A hearty welcome is extended to our Patrons and Friends to call and inspect our establishment at all times.

ROCKFORD SEED FARMS, H. W. BUCKBEE, ROCKFORD, ILLINOIS, FOREST CITY GREENHOUSES.

THIS CATALOGUE CANCELS ALL FORMER PRICES

SPECIAL WHOLESALE BULK PRICE LIST OF BUCKBEE'S "FULL OF LIFE" SEEDS

NOTE—All Seeds listed on Pages 2 and 3 of this Catalogue are shipped by Express or Freight at purchaser's expense. No extra charge is made for packing, boxes or bags.

SEEDS BY PARCEL POST—If any item is ordered by PARCEL POST add additional for postage and packing at the rate of 10 cents per pound and 15 cents per quart, to Wholesale Prices quoted on Pages 2 and 3 of this Catalogue.

SEVERAL VARIETIES OF SEEDS WERE VERY SHORT CROP THE PAST SEASON—ORDER EARLY—On a number of varieties, such as Beans, Sweet Corn, Spinach, Salsify, Egg Plant, Pepper, etc., we can accept orders only in connection with other seeds. For instance, we reserve the privilege of declining orders for any one seed alone, but will ship any reasonable quantities of Beans and other scarce seeds when included along with a good general order for Vegetable Seeds; as it is our purpose to protect, as usual, our thousands of customers who annually look to us for a general supply of Buckbee's "Full of Life" Seeds.

BUCKBEE'S "FULL OF LIFE" VEGETABLE SEEDS.

ASPARAGUS

German, SPARGEL; French, ASPERGE; Spanish, ESPARRAGO; Swedish, SPARRIG.

Every home and kitchen garden should have a bed of Asparagus. The growing popularity which this most delightful and wholesome vegetable has attained the past few years is remarkable. Without question, it is one of the most favorite and profitable garden crops; and makes a return early in the spring before any other out-door crop can be marketed, and when a bed is thoroughly established will yield splendid crops for a number of years.

BUCKBEE'S PERFECTION—This is unquestionably the most valuable new variety and the most satisfactory introduction of recent years. At three years old this variety has yielded at the rate of \$500.00 per acre. In short it has all the qualities demanded for the market and will prove itself to every one who grows it to be true to its name. Perfection. It is deliciously tender, extra large, early, uniform, prolific, crisp and white. Pkt., 10c; oz., 15c; 2 oz., 25c; 4 lb., 40c; ½ lb., 60c; 1 lb., \$1.00.

BARR'S MAMMOTH—Very large stalks, often one inch in diameter, quick growing, tender and succulent. Pkt., 8c; oz., 7c; 2 oz., 12c; ½ lb., 20c; ¼ lb., 30c; 1 lb., 50c.

COLUMBIAN MAMMOTH WHITE—Furnishes white shoots which stay white as long as fit for use without earthing up, or any other artificial blanching and can be absolutely depended upon to give 80 to 90 per cent of white plants. Pkt., 4c; oz., 7c; 2 oz., 12c; ½ lb., 20c; ¼ lb., 35c; 1 lb., 60c.

DONALD'S ELMIRA—This new variety is attracting a great deal of attention throughout the country, originating with Mr. Donald, a leading market gardener of Elmira, N. Y. The stalks are exceptionally tender and succulent. Pkt., 5c; oz., 7c; 2 oz., 12c; ½ lb., 20c; ¼ lb., 35c; 1 lb., 60c.

CONOVER'S COLOSSAL—A standard variety of large size and delicious quality. Pkt., 2c; oz., 6c; 2 oz., 10c; ½ lb., 15c; ¼ lb., 25c; 1 lb., 45c.

Buckbee's Perfection Asparagus

NEW PALMETTO—Quite extensively grown by Southern gardeners for New York and Philadelphia markets, where it sells at very high prices owing to its mammoth size and regularity. Equally well adapted to North or South. Pkt., 4c; oz., 7c; 2 oz., 12c; ½ lb., 20c; ¼ lb., 30c; 1 lb., 50c.

Complete Cultural Directions furnished free with every order for Asparagus Roots.

Barr's Mammoth.....	.20	1.00	.50	4.00

For success and immediate results we recommend planting the 3 and 4 year old roots.

Owing to the many and numerous requests of our customers for the largest sized roots we have especially grown a fair supply of selected 3 and 4 year roots to meet this demand. Our price, as long as the supply lasts, on any of the 6 varieties listed on this page, only 50c per doz.; \$2.50 per 100, postpaid. By express or freight at buyer's expense, \$1.50 per 100; \$12.50 per 1000.

BROCCOLI

German, SPARGEL-KOHL; French, CHOU-BROCCOLI; Spanish, BROCOLLI.

One ounce of seed for 3,500 Plants.

Similar to Cauliflower, of less delicate flavor but harder; of value in the Northern States.

EARLY PURPLE CAPE—This is the best variety for our climate. It produces large heads of a purple-brownish color, very close and compact. Pkt., 5c; oz., 30c.

NEW WHITE CAPE—Medium sized heads, close and compact, of creamy-white color. A sure header. Pkt., 6c; oz., 30c.

Buckbee's "Full of Life" Asparagus Roots

BRUSSELS SPROUTS

German, SPRESSEN-KOHL; French, CHOU DE

BRUXELLES; Swedish, BRYSEL-KAL.

One ounce of seed for 3,500 plants.

Brussels Sprouts are very largely grown in the South, as high as 250,000 barrels being shipped in a single season from Norfolk, Va. They are well worthy of extensive culture anywhere in this country. The plants resemble Cabbage in growth, but make small, compact, round heads at each leaf joint on the stalk. These heads are cut off when well formed and marketed in Strawberry Boxes holding one quart. The plants are quite hardy, are not injured but improved by hard frosts and are in the garden or field during winter until wanted. These miniature Cabbages may be boiled like cabbages or cooked in cream like Cauliflower. They are the most delicious and delicately flavored variety of the Cabbage family.

IMPROVED PARIS MARKET—On this variety the heads grow very closely arranged on a stalk 20 in. to 2 ft. in height. Quality is very fine. Pkt., 4c; oz., 15c; 2 oz., 28c; ½ lb., 50c.

BUCKBEE'S MATCHLESS—The finest strain of sprouts. The plants are of strong, vigorous growth, closely pointed and are covered the entire height with very large solid, tightly folded leaves of exquisite quality. Buckbee's Matchless is an early variety; frost will find the sprouts fully developed and the stems thickly set. Pkt., 10c; oz., 35c; 2 oz., 60c; ½ lb., \$1.00.

2 and 3

HENDERSON'S
BUSH LIMA
Splendid Standard
Early Variety.

The earliest of all Limas; valuable on account of its earliness and wonderful productiveness, continuing to grow and set pods until stopped by frost. Rich buttery Limas—the true flavor (even better). Vines are without runners. Pods short, flat and contain three small Beans which are of delicious quality. Postpaid, pkt., 7c; ½ pt., 12c; qt., 22c; gal., 40c.

DREER'S BUSH LIMA

Popular Variety of Pleading Quality.

The pods are short but thick, containing three to four very thick, short Beans, closely packed. This variety is later in maturing, but the plants are productive. Beans easily shelled and of excellent flavor if gathered before they become dry. Postpaid, pkt., 5c; ½ pt., 15c; pt., 25c; qt., 45c.

BURPEE'S BUSH LIMA

Reliable Variety of Splendid Quality.

Bushes grow 18 to 20 inches high, of stout growth and always erect, yet branching so vigorously that each plant develops into a magnificent circular bush from 2 to 3 feet in diameter. Enormously productive, single plants under favorable circumstances yielding from 200 to 450 pods. Handsome large pods being filled with very large Beans, identical in size and luscious flavor with the well-known Pole Limas. Postpaid, pkt., 8c; ½ pt., 15c; pt., 25c; qt., 45c.

NEW JACKSON WONDER
BUSH LIMA

Immensely Productive.

This is the most productive and very earliest of the Bush Limas. It is of true bush form, about 2 feet high, bearing greatest profusion of broad, flat pods, each having from 3 to 5 medium-sized, handsomely speckled Beans, which cook quickly and are of superior quality. Postpaid, pkt., 8c; ½ pt., 17c; pt., 28c; qt., 50c.

BUSH LIMA

F
O
R
D
H
O
O
K

FORDHOOK BUSH LIMA

Exceptionally Fine Quality.

An Improved Dreer's Bush Lima. The plant is vigorous and erect growing, bearing the pods well above the ground. The pods, which are produced in large clusters, are medium green, about four and three-fourths inches long and each contains three to five large Beans of exceptionally fine quality. Both pods and Beans are twice the size of Dreer's Bush Lima; in season it is from four to six days earlier. Seed large, irregularly oval in shape, very thick, white with greenish tinge. We consider this a decided acquisition to the Dwarf Lima and one of the very best. Postpaid, pkt., 8c; ½ pt., 18c; pt., 30c; qt., 55c.

BURPEE'S IMPROVED BUSH LIMA

Very Early. Continuous Bearer.

This is the earliest of the large seeded Bush Lima Beans. The first pickings fit for the table may already be taken in July and from that time until frost a continuous supply may be gathered. It is fully eight days earlier than the old Burpee's Bush Lima and produces larger pods and more and larger Beans in the pod than this variety; the seed is also considerably thicker. The plants grow upright about 30 inches in height and measure often 24 inches across the top. They are very productive, producing immense crops of pods which measure from 5 to 6 inches in length. The Beans are of enormous size and of most luscious flavor. Postpaid, pkt., 8c; ½ pt., 18c; pt., 30c; qt., 55c.

BUCKBEE'S IMPROVED BUSH LIMA

SUPERIOR QUALITY; EXQUISITE FLAVOR; FINE COLOR; GOOD SHIPPER; HARDY GROWER; ENORMOUSLY PRODUCTIVE; MATURES EARLY; EXCELLENT KEEPER.

This is the very "Newest" in the Bush Lima Bean. It differs from all others in so much as it produces more Beans to a plant, and more plants to the acre than any other Bush Bean ever grown.

In size it is what might be termed intermediate; not so large as the Burpee Bush Lima, but considerably larger than the Henderson's Bush Lima, making it, in our estimation, the finest size for all purposes. The bush is sturdy in habit and about 24 inches high, having good large leaves; it bears its fruit on long spikes in heavy clusters well out from the plant. There are several pods in each cluster—as many as 10 having been counted. Each pod contains on an average of four Beans, though there are more containing five than three, so you see that it is a great improvement over the old-fashioned Bush Limas which oftentimes have only one or two in a pod. Considering the large number of pods on a bush the yield is amazingly enormous. In quality the Bean is par excellence, flavor unsurpassed, and color the very best both before and after cooking.

IT MATURES EXTREMELY EARLY AND IS A CONTINUOUS BEARER UNTIL FROST.

We have been many years perfecting this new variety and can recommend it to our hundreds of thousands of friends and customers as being THE VERY BEST. Send to BUCKBEE for originator's stock seed; this will control the entire product of this new variety, which cannot be secured elsewhere. Prices so long as our own growth seed lasts (after which we will have no more to offer): Postpaid, pkt., 8c; ½ pt., 17c; pt., 29c; qt., 50c.

BEST DWARF GREEN PODDED BEANS

German, BOHNE; French, HARICOT; Spanish, FRÍJOLENANO; Swedish, BONAR.

BUCKBEE'S EARLY WONDER

The Earliest Bean, an Ideal Snap Bean.

The plants are quite large, grow erect and carry their crop well above the foliage. The pods average about 5 inches in length, usually containing about 6 seeds, and are round, broad, of a dark green color, solidly meaty, extremely brittle and entirely stringless. They are almost free from disease. Flavor is most delicious; it has the peculiarity of preserving its delicate color almost intact when prepared for the table. Its bearing qualities are unexcelled and it matures its crop very regularly, even under adverse conditions.

Buckbee's Early Wonder is one of the most popular Beans grown, on account of its extreme earliness, hardness, great productiveness and splendid quality.

Postpaid, Pkt., 10c; ½ pt., 18c; pt., 30c; qt., 55c.

NEW STRINGLESS GREEN POD

Valuable for Good Quality and Lack of Stringiness.

Early and very prolific; long, round, straight, thick, meaty pods, entirely free from strings or fibre, of rich, deep green color. Their great attractiveness, productiveness and excellent quality is giving them an ever growing popularity. It is now a great leader and standard for general purposes. In the garden where green pod Beans are desired this sort is quite indispensable. Plant every two weeks for succession until September. Postpaid, Pkt., 8c; ½ pt., 18c; pt., 30c; qt., 55c.

TENNESSEE GREEN POD

An Early Intermediate Snap Bean. This is a very popular Bean wherever known. The plants are large, somewhat spreading and prolific. The pods are very long, often six to seven inches, flat, irregular in shape, bright but rather dark green and of exceptionally fine flavor. Postpaid, Pkt., 7c; ½ pt., 17c; pt., 28c; qt., 50c.

BLACK VALENTINE

Matures Early—Very Hardy.

Productive green-podded sort with strong, vigorous vines. The pods are handsome, nearly round, one-third longer and straighter than the Red Valentine; the plant a little more spreading and in season a little later. A large crop can be depended on and the product is very attractive on the market. The pods are of dark green color, is a great favorite with market gardeners in many sections on account of its slight resistant qualities. A long distance shipper. Postpaid, Pkt., 7c; ½ pt., 17c; pt., 28c; qt., 50c.

NEW LONGFELLOW

A Boon for the Market Gardener.

The pods are very attractive, long, straight and round. They are very fleshy, of dark green color, measuring from 7 to 8 inches in length and usually contain about 6 seeds. The quality is of the finest, wonderfully tender, brittle and there are no strings except when pods are quite old. A very early variety and exceedingly prolific. This Bean has proven one of the most profitable varieties to grow for the market. Postpaid, Pkt., 10c; ½ pt., 18c; pt., 30c; qt., 55c.

REFUGEE or 1,000 TO 1

Splendid Quality—Extremely Productive.

Highly esteemed for late planting and for canning and pickling. Pods long, cylindrical, green, becoming white, streaked with purple as they mature; of good quality as snaps. Seed long, light drab, thickly dotted and splashed with purple. Postpaid, Pkt., 1c; ½ pt., 15c; pt., 25c; qt., 45c.

New Longfellow

Best Dwarf Green Podded Beans

BUCKBEE'S IMPROVED EARLY VALENTINE Standard Round Pop Snap Bean.

Buckbee's Improved Valentine is the finest strain of this variety in the country; it is a heavy cropper with handsome round pods, very uniform in size and of excellent quality. This strain produces edible pods in less than 5 weeks from sowing. For snaps there is nothing superior to this variety among the green podded sorts. Vines erect, with coarse dark green leaves and large white blossoms. Pods medium length, curved, cylindrical, with crease in back; very fleshy, crisp and tender. Beans medium size, long, irregular, pink marbled with red. Postpaid, Pkt., 7c; ½ pt., 15c; pt., 25c; qt., 45c.

IMPROVED EARLY YELLOW SIX WEEKS Standard Reliable Variety.

Vines large, vigorous, branching, productive, with large leaves and lilac blossoms; pods long, straight, narrow, handsome; Beans long kidney-shaped, color yellowish-drab. Very hardy and extra early. Postpaid, Pkt., 7c; ½ pt., 12c; pt., 22c; qt., 40c.

EARLY MOHAWK OR FULL MEASURE

Extra Early and Productive.

Much harder, can be planted earlier than others, furnishing Beans fit for use before any other kind. Blossoms large purple; pods very long and straight. Beans kidney-shaped, variegated drab, purple, brown. Postpaid, Pkt., 7c; ½ pt., 12c; pt., 22c; qt., 40c.

NEW EXTRA EARLY REFUGEE Splendid Pods of Excellent Quality.

One of the earliest of the green-podded kinds, furnishing a fleshy pod of fine quality. It is usually from 2 to 3 weeks earlier than the Late Refugee. The vines are fully as hardy and vigorous as that variety and more upright. Pods of the same size and shape, except slightly flatter. Postpaid, Pkt., 7c; ½ pt., 14c; pt., 22c; qt., 40c.

Varieties for Shell Beans.

The following kinds are used exclusively as shelled beans, either green or dried for winter:

BOSTON WHITE BAKING BEAN

Famous for Baking.

A sure cropper, and more prolific than the common white Bean and also of better quality, ripening its crop early and all at once. Pods straight, short, small; Beans small, oval, white. Postpaid, Pkt., 7c; ½ pt., 12c; pt., 22c; qt., 40c.

EARLY ROYAL WHITE KIDNEY

Excellent Quality—Green or Dry.

Productive, of very superior quality. Plant large and branching, late. Seed large, white, kidney-shaped. Postpaid, Pkt., 6c; ½ pt., 12c; pt., 22c; qt., 38c.

NEW DWARF CRANBERRY OR WREN'S EGG

Excellent for Soup or Baking.

Vines compact, upright and very productive. Pods medium length, cylindrical and curved, with splashes of bright red on a yellowish ground. The ripe Beans are large, plump, oval and nearly covered with splashes of bright red. Equal to Lima Beans in quality. Postpaid, Pkt., 7c; ½ pt., 15c; pt., 25c; qt., 40c.

EXTRA EARLY BOUNTIFUL

Stringless, Tender, Continuous Bearer.

One of the very earliest and largest podded green bush Beans. Pods handsome, long and straight, of very fine quality. The plants are quite large, grow erect, commence to bear very early and continue for a long time. They are very productive. The pods are from 7 to 7½ inches long, are flat, of light green color, solid, meaty, brittle, tender, stringless at all stages of growth, and of delicious flavor. They are also of very uniform size and shape. The dried seeds resemble those of the Yellow Six Weeks, but Bountiful is much superior in quality, entirely stringless; also earlier and more productive. Postpaid, Pkt., 8c; ½ pt., 17c; pt., 28c; qt., 50c.

Best Dwarf Wax Yellow Pod Beans

BUCKBEE'S RUST-PROOF GOLDEN WAX

The Standard Wax Variety for General Use.

One of the most reliable early sorts. Our own original stock, unequalled in size, color and quality of pods. In this variety we have a Bean that possesses all the good points of the old favorite—Golden Wax—but is larger in pods, much more prolific and handsomer in appearance, being of a dark, rich yellow color and of perfect shape. Of grand quality, showing no string, or coarseness, even when past its best, but is of tender and melting flavor at all stages of its growth. Being so exceedingly prolific it is not injured by rust. Dwarf thick stemmed plants with oval straight pods which are brittle and entirely stringless. For market gardeners or private families no better variety can be planted. Postpaid, Pkt., 8c; ½ pt., 15c; pt., 28c; qt., 50c.

NEW BRITTLE WAX

Extreme Earliness—Great Productiveness—Superb Quality—The Best Wax Bean for the Home Garden.

An extreme early Wax Bean, exceedingly handsome and very desirable, especially for snaps for the home garden. The vines are dwarf, spreading and enormously productive. The leaves are roughened. The pods are round, 5½ to 6 inches long, slightly curved, light wax-like, yellow, solidly fleshy, tender, brittle and entirely stringless at all stages of growth. They are uniformly perfect, an ill-shaped one being rarely seen. The best of the new round podded sorts and excellent for all purposes. Seed long, medium sized, nearly white, with a little dark marking about the eye. Postpaid, pkt., 10c; ½ pt., 20c; pt., 35c; qt., 60c.

IMPROVED GOLDEN WAX

The well known "Good Old Fashioned" sort very popular for all purposes. Postpaid, pkt., 8c; ½ pt., 17c; pt., 28c; qt., 50c.

DAVIS KIDNEY WAX

Big Money Maker for Gardeners and Truckers.

The vine is rustless and very vigorous, bearing its pods near the center in clusters. When young, the pods are brittle, crisp and tender. Seed kidney-shaped, clear white and

excellent for baking. A vigorous, hardy, very productive variety, ripening medium early; pods 7 inches long, straight, very showy. The length, uniformly straight, perfect shape, fine color of the pods and the enormous productiveness make this one of the best Beans for the market gardener as well as the canner. Postpaid, Pkt., 8c; ½ pt., 18c; pt., 30c; qt., 55c.

WARDWELL'S KIDNEY BEAN

Most Profitable Market Gardener's Shipping Bean.

The Bean is entirely distinct from that of all other Wax varieties. It is a very early variety, ripening only a little later than Golden Wax and yields a larger crop. Pods 6½ to 7 inches long, straight, flat, waxy-yellow, brittle and stringless. Desirable for every climate. Can be grown with great profit in the South for early shipment North. They always command a ready sale in every market. Postpaid, Pkt., 8c; ½ pt., 18c; pt., 30c; qt., 55c.

BUCKBEE'S NEW WONDER WAX

Extra Early—Rust Proof—Heavy Yielder.

This variety is a flat podded sort. Plant is a strong, sturdy grower, 18 inches high and 2 feet across. Well loaded with pods 5 to 7 inches long, slim, flat, plump, and handsome. Quality tender, brittle and of fine texture of a clean waxy-yellow color. Very early, coming into edible condition much sooner than any other wax podded sort. Rust-proof. You will make no mistake by planting this new sort. Postpaid, Pkt., 10c; ½ pt., 20c; pt., 35c; qt., 60c.

Best Dwarf Wax Yellow Pod Beans

(Continued)

THE YOSEMITE MAMMOTH WAX

High Quality Monster Podded Wax Bean.

The pods frequently attain a length of 10 to 14 inches, with the thickness of a man's finger, and are nearly all solid pulp, the seeds being very small when fit for use. A rich golden color, and are absolutely stringless, cooking tender and delicious. A popular wax bean for family or market purposes. It is enormously productive, as many as fifty of its monster pods having been counted on one bush. Postpaid, Pkt., 10c; ½ pt., 20c; pt., 35c; qt., 60c.

NEW PERFECTION WAX

Rich golden yellow, 8 to 10 inches long; broad; hang in great clusters. Extremely tender and brittle. Combines great productiveness with high quality. Postpaid, Pkt., 8c; ½ pt., 18c; pt., 30c; qt., 55c.

NEW EARLY PROLIFIC GERMAN OR IMPROVED BLACK WAX

The Earliest Wax Beans and One of the Best for the Market and Home Gardener. You will be thoroughly satisfied with this greatly improved strain of Black Wax, which is more vigorous and by far more productive and much earlier than any other strain. The pods are fleshy, of medium length, borne up well among the foliage, and are curved, cylindrical, of a clear waxy-white color, with long slightly curved points. Vines of medium size, vigorous and hardy. Beans small, oblong and jet black. This variety and Round Podded Kidney Wax are the earliest wax sorts grown. Postpaid, Pkt., 8c; ½ pt., 18c; pt., 30c; qt., 55c.

CURRIE'S RUST-PROOF BLACK WAX

Great Rust Resistant Market Gardener's Bean.

It is early and enormously productive, with large golden-yellow pods and in many localities is considered the Best Wax Bean for both market and shipping. One of its chief features is its freedom from blight and rust. Postpaid, Pkt., 8c; ½ pt., 18c; pt., 30c; qt., 55c.

JONES' STRING-LESS WAX

The Best White Wax Bean. Stringless, Buttery, Early, Prolific.

Fine, white-seeded variety, round, stringless pods of unsurpassed quality; rust-proof, matures very early. A valuable sort for the farm as well as the garden. The ripe Beans are saleable as No. 1 medium, and are of superior quality for culinary purposes. This feature makes the sort of especial value to market gardeners, since if from any reason there is no sale for them as snaps, the value of the dry Beans will make the crop a remunerative one. Postpaid, Pkt., 10c; ½ pt., 20c; pt., 35c; qt., 60c.

MICHIGAN WHITE WAX

An Exceptionally Valuable, New, Early Bean.

This Bean has often been called the White Seeded Golden Wax. It resembles this old and popular variety very much, but it is superior to it in being of more robust and vigorous growth and more productive. Furthermore, the seed is pure white. This feature gives it a decided advantage over all colored Beans, as used as snap Beans they cook without discoloring and are, therefore, more attractive at the table; besides that, the dry Beans can be used the same as any other staple white Beans. Pods 4½ to 5 inches long, golden yellow, broad, very meaty and of the finest quality. Postpaid, Pkt., 10c; ½ pt., 18c; pt., 30c; qt., 55c.

Jones' Stringless White Wax

BUCKBEE'S BEST POLE OR CLIMBING BEANS

BUCKBEE'S GOLDEN HARVEST CLUSTER WAX

The New World-Beating Wax Pole Bean.

The Everlasting Pole Bean. A magnificent variety that bears very early and continually the entire season, producing clusters of 3 to 6 pods of fine light yellow color. Pods average about 8 inches in length, exceedingly tender and entirely stringless, retaining their plumpness and tenderness long after they have attained a large size. Owing to its earliness and hardness this magnificent Pole Bean is well adapted even to very Northern latitudes. Its very large pods are beautiful in appearance and are unequalled in quality by any Wax Bean. Postpaid, pkt., 8c; ½ pt., 17c; pt., 28c; qt., 50c.

BUCKBEE'S EVERBEARING STRINGLESS POLE BEAN

Wonderfully Prolific. Continuous Bearer. Absolutely Stringless. White Seeded. Green Podded. Buttery. Rustless. Extremely Early.

This greatest of all Pole Beans originated on Rockford Seed Farms, and has been bred up to the highest degree of perfection after years of careful work and selection. (It combines the best qualities of its parents, namely: The Famous Kentucky Wonder and the delicious Lazy Wife.) Truly the indispensable, heavy yielding, Pole Bean for the home garden and unequalled for the market garden and trucker. Robust, hardy and one of the very earliest of all Pole Beans.

The enormous rich dark green pods which are produced in immense clusters often measure from 7 to 9 inches long, contain from 5 to 7 Beans, are particularly handsome, solidly meaty of admirable form, free from coarseness, and when cooked are exceedingly tender and are of deliciously mild and sweet flavor.

The dry Beans are of a beautiful ivory-whiteness.

We own the entire stock of Buckbee's Everbearing, and this variety can only be had from us. Postpaid, pkt., 8c; ½ pt., 17c; pt., 28c; qt., 50c.

NEW GOLDEN ANDALUSIA WAX

One of the best "Early Wax Pole Beans," pods of splendid size, beautiful yellow color and absolutely stringless. Postpaid, pkt., 8c; ½ pt., 15c; pt., 25c; qt., 45c.

FAMOUS KENTUCKY WONDER OR OLD HOMESTEAD

The Old Reliable Standard Green Pod Pole Bean.

Very early and enormously productive, the very long green pods hanging in clusters from top to bottom of pole, entirely stringless. Pods of a silvery-green color. Postpaid, pkt., 7c; ½ pt., 12c; pt., 22c; qt., 40c.

BUCKBEE'S BEST POLE OR CLIMBING BEANS (Continued)

BURGER'S GREEN POD STRINGLESS

This variety has often been called a White Seeded Kentucky Wonder; it resembles this variety in form of pods but is earlier, and covers a longer period of productiveness. The pods borne in clusters, average six to eight inches in length, are uniformly straight, of a rich dark green, and so meaty as to be really "saddle backed." The pods almost entirely stringless. Seed small and pure white. Postpaid, pkt. 8c; ½ pt. 13c; pt. 25c; qt. 45c.

EARLY GOLDEN CLUSTER WAX

The best and most productive main crop variety of the Wax Podded Pole Beans. It is medium early, is quite largely cultivated and is of excellent quality if used either as snap or green and dried shell Beans. The vines are of large growth and produce in abundance clusters of 2 to 6 yellow pods, averaging about 8 to 9 inches in length. They are very attractive and much used for show and exhibition purposes. The pods are flat, straight, very broad, thick and fleshy, entirely stringless and have a very smooth surface. The dry seed is medium size, oval and pure white. A splendid variety for the home garden and for market. Postpaid, pkt. 10c; ½ pt. 18c; pt. 30c; qt. 55c.

LAZY WIFE POLE

Enormously Productive. Splendid Quality.

Pods wonderfully broad, thick and entirely stringless. They surpass any other variety in the way vines cling to the poles. Pods medium green, flattish oval, uniformly grown are from 4 to 6 inches long, exceedingly rich, buttery and fine flavored when cooked. Fine for an early and late snap sort; also as a dry shell or Lima Bean. The seed is medium sized, nearly round and pure white. Postpaid, pkt. 10c; ½ pt. 20c; pt. 35c; qt. 60c.

MAMMOTH PODDED HORTICULTURAL

The mammoth pods are striped and splashed with exceedingly brilliant crimson. The Beans when in condition for use are of immense size, of the finest quality, good for snap sorts but mostly used for green or dry shell Beans, and by many preferred to Limas. Best suited for cool climate. Postpaid, pkt. 8c; ½ pt. 15c; pt. 25c; qt. 45c.

RED SPECKLED CUT SHORT OR CORN HILL

A popular variety for planting among the corn and thus furnishing a good crop without the use of poles. Medium early, very productive, pods about 4 inches long. Postpaid, pkt. 7c; ½ pt. 15c; pt. 25c; qt. 45c.

SCARLET RUNNER

A good Bean for snaps, for green shelled Beans, in the North often used in place of Limas. It is mostly used in this country, however, as an ornamental climber, the plants bearing large sprays of brilliant scarlet flowers which are twice the size of common Bean blossoms. Postpaid, pkt. 10c; ½ pt. 18c; pt. 30c; qt. 55c.

WHITE CREASEBACK

Valuable for its extreme earliness and its habit of ripening all of its pods within a short time. Wonderfully prolific, bearing round, fleshy pods in clusters of from 4 to 12. Best quality as snaps. The seed is small, oval, white and much used for baked Beans. Postpaid, pkt. 7c; ½ pt. 15c; pt. 25c; qt. 45c.

WHITE DUTCH CASEKNIFE

A medium late variety, very productive, with pods 8 inches long, containing 7 to 8 pure white seeds. This variety is very largely planted all over the country and is mostly used for green or dried shell Beans which are of splendid quality. Postpaid, pkt. 7c; ½ pt. 15c; pt. 25c; qt. 45c.

BEST POLE OR CLIMBING LIMABEANS

EARLY LEVIATHAN

This is the earliest variety of the large seeded Pole Limas. It is a most productive sort and produces pods which are from 5 to 5½ inches long and contain 4 to 6 very large seeds which are quite white with a slightly greenish tinge, and are of the finest quality. It is excellent for either home or the market. We especially recommend this variety for the Northern States, where, on account of the short season, it has been hitherto impossible to grow this luscious vegetable. Postpaid, pkt., 10c; ½ pt. 15c; pt. 25c; qt. 45c.

BUCKBEE'S NEW KING OF THE GARDEN LIMA

This Old Standard Market Sort is One of the Best for Main Crop. It is vigorous in growth and immensely productive. The vine begins to produce pods near the foot of the pole and the bearing season continues without interruption until frost. The pods are large, numerous and well filled and the Beans are of mammoth size. The handsome pods often attain a length of five, six, seven or even eight inches, with five or six perfectly formed Beans in each pod. Postpaid, pkt. 8c; ½ pt. 15c; pt. 25c; qt. 45c.

LARGE WHITE LIMA

Regular strain, pods and Beans of large size. Too late for the North. Postpaid, pkt. 6c; ½ pt. 12c; pt. 22c; qt. 40c.

QUALITY
NOTHING BUT
QUALITY

Lazy
Wife.

BUCKBEE'S IDEAL POLE LIMA

The Largest Podded and Most Prolific Pole Lima Yet Introduced.

Vines unusually vigorous, bearing large clusters of broad pods from 7 to 8 inches in length and containing 4 to 6 large Beans of superb quality and rich flavor. This is a medium late variety a little later than Seibert's Early, but earlier than King of the Garden, and with much larger pods and more productive than either of them. In quality it is unsurpassed and ought to have a place in every garden. It also is the best main crop variety for market gardeners in the Central States. Postpaid, pkt. 8c; ½ pt. 17c; pt. 28c; qt. 50c.

SEIBERT'S EARLY LIMA

The vine is exceptionally hardy, vigorous and produces pods very early and continues bearing for a long time. In earliness, ease of shelling, size, beauty and quality of green Beans, this variety takes front rank with the best early sorts. Postpaid, pkt. 7c; ½ pt. 15c; pt. 25c; qt. 45c.

Buckbee's Earliest of All Beet

BUCKBEE'S EARLIEST OF ALL

The Best Extra Early Red Turnip Beet.

The Best Red Turnip Beet, not only for market gardeners, but for canning, and especially for the home garden, making a strikingly handsome product, much superior to that obtained from any other variety, and is equally as early. Its small top, early maturing and the splendid shape and color of root make it popular with everyone who plants it. Top small, upright growing so that the rows may be close together; leaves are rich bronze-purple borne on slender stems, growing quite compactly; root globular or ovoid and very smooth; color of skin dark blood red; flesh deep vermilion red, zoned with a darker shade, very crisp, tender and sweet and remaining so for a long time. Pkt., 10c; oz., 15c; 2 oz., 25c; ¼ lb., 40c; ½ lb., 60c; lb., \$1.00.

BUCKBEE'S SUNSET

Without Exception the Best Second Early and Main Crop Variety.

This grand novelty awarded Prize Medal. The director of the Maine Experimental College at Orno, writes: "I consider Buckbee's Sunset the most promising new variety." Extended experience has shown this variety of our own introduction to be one of the best sorts, not only for market gardeners, but for the home garden. An improvement in turnip-shaped Beets for table use, and by far the best early, dark red turnip Beet in cultivation. Roots are globular and smooth, with flesh deep vermilion red, crisp and sweet. Tops small, upright growing, which allows close planting, making possible the biggest yield per acre of any turnip-shaped variety. The stock which we offer will produce a crop more uniform in shape, color and quality than any other Beet; a little later, but larger than Earliest of All. We control the entire stock of this variety. Pkt., 10c; oz., 15c; 2 oz., 25c; ¼ lb., 40c; ½ lb., 60c; lb., \$1.00.

The Standard of
Excellence of an
Extra Early Beet

BUCKBEE'S "FULL OF LIFE" GARDEN BEETS FOR TABLE USE

BUCKBEE'S EXTRA EARLY EGYPTIAN BLOOD TURNIP

One of the very earliest and best varieties for forcing; also excellent for first early crop out of doors. Leaves are dark green, veined with dark red; roots dark red, rounded on top, but flat beneath with very small tap roots; flesh dark red, zoned with lighter shades; hard, crisp and tender at all times. Pkt., 4c; oz., 8c; 2 oz., 15c; ¼ lb., 28c; ½ lb., 50c; lb., 90c.

Buckbee's Extra Early Egyptian

DEWING'S

Flesh deep blood red, very tender and sweet; medium sized roots; medium early. Pkt., 3c; oz., 7c; 2 oz., 12c; ¼ lb., 22c; ½ lb., 40c; lb., 75c.

EARLY BLOOD TURNIP

Roots a nearly round, flesh deep red with lighter zones; sweet and tender; medium early; later than Detroit and has larger tops. Pkt., 3c; oz., 7c; 2 oz., 12c; ¼ lb., 22c; ½ lb., 40c; lb., 75c.

Crosby's Egyptian Beet

CROSBY'S EGYPTIAN EXTRA EARLY

One of the Earliest Beets in the Market.

Deep red, almost black in color; an improvement over the old Egyptian, being sweeter, more tender, smoother, and also more round in form and larger, although equally as early. The most desirable sort for small Beets for early market, as it is in presentable market shape quicker than any other sort. It is a very rapid grower and can be sown outside as late as July. Crosby's Egyptian is one of the best Beets and a sure money maker for the market gardener. Our strain is exceptionally fine, extremely early, and very uniform in shape and color. Pkt., 4c; oz., 8c; 2 oz., 15c; ¼ lb., 28c; ½ lb., 50c; lb., 90c.

DETROIT DARK RED TURNIP

A most excellent medium early turnip rooted sort. It grows to a large size, is of most handsome appearance, and is very productive in all soils and locations and in all seasons. The tops are small, upright growing, so that the rows may be planted close together. Leaf stems and veins are dark red, blade green, roots globular, perfectly smooth, dark blood red. Flesh bright red, zoned with a darker shade, very crisp, tender and sweet, remaining so a long time. Our stock is very uniform in size, shape and color. One of the best Beets for gardener and canner. Pkt., 4c; oz., 8c; 2 oz., 15c; ¼ lb., 28c; ½ lb., 50c; lb., 90c.

THE BISMARCK

A Superb Main Crop Turnip Beet.

Of the turnip shape, very smooth, free of all side roots, about 4 inches in diameter. The tops are small, of dark bronze-red color, the flesh exceedingly tender, entirely free of fibre and of rich sugary flavor. Medium early; very handsome. A splendid variety for the home and market gardener. We control the entire supply of seed of this variety. Pkt., 10c; oz., 15c; 2 oz., 25c; ¼ lb., 40c; ½ lb., 60c; lb., 1.00.

EDMAND'S EARLY BLOOD TURNIP

Roots round and smooth, good marketable size; skin and flesh dark blood-red. Pkt., 3c; oz., 7c; 2 oz., 12c; ¼ lb., 22c; ½ lb., 40c; lb., 75c.

New Early Eclipse

NEW EARLY ECLIPSE

The Popular Beet for Early Use.

Tops small, dark purplish green. Roots nearly globular, with a small tap root and collar. A splendid variety. Flesh dark red, zoned with lighter red; sweet, crisp and tender. Pkt., 4c; oz., 8c; 2 oz., 15c; ¼ lb., 25c; ½ lb., 45c; lb., 85c.

EARLY YELLOW TURNIP

A Very Popular Variety.

Similar to the Blood Turnip Beet, except in color, which is a bright yellow. It is of a very sweet, fine flavor and is deservedly popular. The roots are round and smooth and are of good marketable size. The shape is the kind most desired. As a matter of fact, the Early Yellow has much to recommend it and should please you. Pkt., 5c; oz., 10c; 2 oz., 15c; ¼ lb., 28c; ½ lb., 50c; lb., 90c.

QUALITY
NOTHING BUT
QUALITY

The Bismarck Beet

BUCKBEE'S "FULL OF LIFE" GARDEN BEETS FOR TABLE USE

NEW TRUE DARK STINSON

Dark Red Color; Long Keeper.

A medium early variety excellent for the open garden and very valuable for forcing because it produces less foliage than any other variety; the leaves being only about five inches in length, it can therefore be grown close together. The roots are smooth and regular in form with small tap roots. Flesh, fine grained, free from all woodiness even when fully grown, and cooks dark blood-red; remains in fine condition for a long time. This is a finely bred Beet; the roots are medium size, growing about three inches in diameter are most uniform in size and shape. The color of the skin and flesh is extremely deep red, and the quality exceptionally fine with a very sweet flavor. Especially recommend the Stinson to the home gardener—it is a most beautiful variety and unsurpassed in its exquisite quality. Pkt. 5c; oz. 10c; 2 oz. 15c; 1 lb. 28c; 1 lb. 50c; 1 lb. 90c.

New True Dark Stinson

For the home garden use Buckbee's Earliest of All for first early and Buckbee's Sunset for main crop of Beets. They are the most finely bred Beets grown.

Black Queen Beet

BLACK QUEEN

Darkest of all Blood Red Beets.

Black Queen is particularly valuable where a late summer or winter variety is wanted. The roots are pear-shaped, of medium size and fine form. Nearly buried in soil. Flesh deep blood-red color; almost black, making a strikingly handsome Beet. Exceedingly tender and never woody. It is a large cropper; a good keeper till spring. Its nicely crumpled leaves are of a beautiful dark red color, giving it a striking appearance on the market stall and making it a fine variety for ornamental bedding. Pkt. 5c; oz. 10c; 2 oz. 15c; 1 lb. 28c; 1 lb. 50c; 1 lb. 90c.

COLUMBIA

Deep Blood Red. Splendid Quality.

The roots are of a neat turnip shape, with smooth skin and deep blood-red flesh of rich, tender quality. It is ready to use very early, growing almost as quickly as does the Egyptian, while it does not become coarse and stringy when of large size. Gives a good crop from seed sown in July. Pkt. 4c; oz. 8c; 2 oz. 15c; 1 lb. 28c; 1 lb. 50c; 1 lb. 90c.

MARKET GARDENERS

Profitable Money Making Variety.

The root is deep red, very symmetrical, two or three times as long as thick, and always smooth and handsome. The flesh is rich, very dark red, sweet, crisp and tender, never becoming woody even in the portions above the ground. It is a late variety and particularly valuable to store for winter use. Pkt. 4c; oz. 8c; 2 oz. 15c; 1 lb. 25c; 1 lb. 45c; 1 lb. 85c.

BUCKBEE'S NEW HALF-LONG BLOOD

The Very Best for Winter Use.

Roots half as long as Long Blood, but on account of their thickness weigh just as much. Always smooth, sweet, crisp, tender and never woody. Both flesh and leaves are intensely dark crimson in color. One of the best late sorts. Pkt. 4c; oz. 8c; 2 oz. 15c; 1 lb. 28c; 1 lb. 50c; 1 lb. 90c.

Market Gardeners' Beet

LATE BLOOD TURNIP

Standard Late Beet—Popular Everywhere

Symmetrical in shape; flesh deep blood-red color, tender and sweet. Pkt. 3c; oz. 7c; 2 oz. 12c; 1 lb. 22c; 1 lb. 40c; 1 lb. 75c.

BUCKBEE'S IMPROVED LONG DARK SMOOTH BLOOD

The Standard Long Blood Beet

Excellent for Greens

Without question the finest long Beet grown for Fall and Winter use. It is of deep red color, almost black, rich, excellent flavor, is an enormous cropper, and keeps solid and fresh throughout the long Winter. Cooks sweet, tender and crisp; is very desirable for pickles. It must not be compared with the common Long Smooth Blood offered by many seedsmen at a less price, as its high grade was attained by long years of care and selection. The roots are thick shouldered, grow largely under ground, are, when mature, about 2 inches in diameter and 10 inches long. They are ready for the table in about 60 days. They are very prolific, as much as 10 to 12 tons having been grown per acre. Foliage dark crimson. Pkt. 4c; oz. 7c; 2 oz. 12c; 1 lb. 22c; 1 lb. 40c; 1 lb. 75c.

MANGEL WURTZELS

Any land that will grow a good crop of Corn will produce a good crop of Mangels or Sugar Beets, which are surer crops than any other root. Plant five pounds of Seed per acre.

BUCKBEE'S MASTODON

The Heaviest Cropping and Largest of All Mangels.

It is truly a Mammoth, a single root often weighing 75 pounds and over; to yield it is enormously productive—1,500 to 1,800 bushels per acre is nothing uncommon on good soil. It grows well above ground and on account of its shape is easily harvested. In length is about the same as Buckbee's Mammoth Long Red, but is more remarkable for its handsome shape and broad shoulders, the diameter being greater, and in weight much heavier; flesh deep red, fine texture, roots solid, tops small. In fact it combines all the fine points possible to condense in a Mangel of the highest nutritive value, and is without question the best and most profitable Mangel for dairy farmers. This is our pedigree stock—especially selected, and can be relied upon as the best money can buy and our moderate prices place it within the reach of all. Oz. 10c; $\frac{1}{2}$ lb. 25c; $\frac{1}{4}$ lb. 35c; 1 lb. 60c, postpaid.

BUCKBEE'S MAMMOTH LONG RED

A Wonderful Yielder.

A standard and favorite Mangel, producing a very large root uniform, straight, and well formed, weighing from 30 to 40 pounds each, of a beautiful dark red color, wonderfully productive, average 1,000 to 1,500 bushels per acre. Keeping qualities not excelled. Our stock is a great improvement over the old variety. Oz. 5c; $\frac{1}{2}$ lb. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 40c, postpaid.

GOLDEN TANKARD

The Great Milk Producer.

This distinct variety is a most important addition to our list of roots for stock feeding, as it contains less water and more sugar than most Mangels. Sheep and all other stock thrive wonderfully on it; its great milk-producing qualities and richly colored yellow flesh have made it a favorite with every dairy farmer.

It is an immense yielder and 60 to 75 tons per acre have often been grown on good ground and under good cultivation. The roots are handsome, of an ideal cylindrical form, with small neck, clean, generally with only one tap-root, and can easily be lifted, and are excellent keepers. The skin is light gray above and deep orange below the ground, the flesh is bright golden yellow, differing from all other varieties, which cut white. Oz. 5c; $\frac{1}{2}$ lb. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 40c, postpaid.

NEW GOLDEN MONARCH

This entirely new and distinct Mangel grows to the largest size and is of a beautiful russet yellow color. The flesh is firm, and sweet, greatly relished by cattle and other stock. The roots are large, ovoid shaped with small tops admitting close planting. Easily lifted, growing more than half above ground, producing enormous crops, and is an excellent keeper. Oz. 5c; $\frac{1}{2}$ lb. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 40c, postpaid.

GIANT RED ECKENDORF

The roots are smooth, of cylindrical shape, very much like the Tankard Mangel, and weigh from 20 to 25 pounds each. The flesh is firm, solid, of white color and of highly nutritive value. The Eckendorf Mangels are phenomenal yielders and are easily harvested the root growing to the largest part above the ground. Oz. 6c; $\frac{1}{2}$ lb. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 40c, postpaid.

GIANT YELLOW ECKENDORF

The same as the Red Eckendorf, but with yellow skin. Oz. 6c; $\frac{1}{2}$ lb. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 40c, postpaid.

CHAMPION YELLOW GLOBE

One of the best for stock feeding. The roots grow almost entirely above ground and are therefore best adapted for shallow soils and are easily harvested. It produces as much per acre as most of the longer grower Mangels. It is a good keeper. Oz. 5c; $\frac{1}{2}$ lb. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 40c, postpaid.

CHAMPION RED GLOBE

Similar to above except in color, which is a light red or pink. Oz. 5c; $\frac{1}{2}$ lb. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 40c, postpaid.

GIANT OR MAMMOTH JUMBO OR EIFFEL TOWER

A large long red variety of excellent quality. Very similar to Mammoth Long Red. Oz. 5c; $\frac{1}{2}$ lb. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 40c, postpaid.

MIXED MANGEL SEED

Choicest sorts mixed. Oz. 5c; $\frac{1}{2}$ lb. 15c; $\frac{1}{4}$ lb. 25c; 1 lb. 40c, postpaid.

NOTE—Write for special prices on larger quantities.

Mangels give one-third greater increase of milk in feeding cows than does the same weight of Potatoes. Forty tons Mangels (a crop of an acre) have as much nutritive matter as 130 bu. of Corn and are more digestible. Send to Secretary of Agriculture, Washington, D. C., for Special Bulletin on Mangel and Beets.

Mrs. M. B. Wilson, Taylorville, N. C., writes:—"I want to say I have raised the largest Beets from your 'Full of Life' seed I ever saw grown, one that weighed 70 1/2 lbs. I certainly appreciate your seeds very much, and will use no other when I can get them."

A. F. Stanley, Morrilton, Ala., writes:—"I am pleased to send you this clipping from my country paper to let you know how the seeds produced I got from you."

EXTRAORDINARY BEET

A large Mangel Wurzel Beet brought in by Mr. F. Stanley for exhibition Saturday, measured 20 inches in circumference and 28 inches in length. Its weight is 11 lbs. Mr. Stanley has considerable land planted in these Beets and estimates that they will yield forty tons to the acre. He uses them for stock feed.

NO CROP PAYS THE FARMER AND STOCK RAISER BETTER.

BUCKBEE'S SUGAR BEETS FOR STOCK FEEDING

GIANT FEEDING SUGAR

The Greatest Beet for Feeding Stock.

This magnificent Sugar Beet, while giving nearly as large a yield of easily grown and harvested roots as a crop of Mangels, supplies a food of very much higher nutritive value, being much richer in sugar. They yield under equally favorable conditions, more than double that of sugar beets and not being so sweet, are less liable to injure the kidneys, when fed in large quantities.

The roots grow about two-thirds out of the ground and because of this and their shape the crop can be harvested and stored at less expense than any other root crop. Roots very large, smooth, clean and of oval shape; white skin, white flesh. Every farmer should try it.

Oz. 7c; $\frac{1}{2}$ lb. 20c;
 $\frac{1}{4}$ lb. 80c; 1b. 50c, postpaid.

**Giant
FEEDING
SUGAR**

BUCKBEE'S SUGAR BEETS FOR SUGAR MAKING

BUCKBEE'S NEW IMPERIAL SUGAR

This Beet is the result of years of methodical and persevering selection, and rich in organic matter. It gives better results than any other variety. It is extremely rich in sugar, thousands of analyses showing that the average percentage of sugar obtained from this variety is about sixteen, and its average yield may be stated as from 15 to 16 tons an acre, but crops of 25 to 40 tons per acre have been obtained of it. Flesh finely grained and very sweet. We sell thousands of pounds each year to the large stock growers and beet sugar factories through the coun-

try, always with the most satisfactory results. Oz. 8c; $\frac{1}{4}$ lb. 15c; $\frac{1}{2}$ lb. 25c; 1 lb. 45c, postpaid.

GERMAN SUGAR BEET

(Klein Wanzleben.)

This variety at the present time has probably a wider cultivation than any other Sugar Beet. While not, as a rule, equal to BUCKBEE'S NEW IMPERIAL SUGAR in saccharine richness, it is considerably more productive. We offer German-grown seed the second year from polarized roots. Oz. 7c; $\frac{1}{4}$ lb. 12c; $\frac{1}{2}$ lb. 22c; 1 lb. 40c, postpaid.

THE BEST STOCK CARROTS

EVERY FARMER

Should plant a few acres of Carrots for stock food; they are very productive, less liable to disease than many other root crops, and being sown earlier do not interfere so much with the labor in the busy time. They can be stored over winter like Potatoes. Make excellent nutritive feed for all stock. Horses are very fond of them and they increase the flow of milk in cows, improve the quality of butter and give it a beautiful golden color.

BUCKBEE'S CHAMPION

The World-Beating Stock Carrot.

Buckbee's Champion is not, properly speaking, a table Carrot, although the flesh is remarkably firm and sweet. But it is, most emphatically, a Stock Carrot for the farmer and stock raiser, and once used, nothing will take its place. It is the heaviest cropping Variety grown, yielding more tons to the acre than any other sort. The flesh is white, crisp, solid and very sweet in flavor. The roots are quite long, but grow to a large part above the ground and are therefore easily harvested. An important feature also is that they do not easily break in pulling or storing. The roots frequently measure 15 to 20 inches in circumference and 25 to 50 tons per acre is not an extravagant statement. Our own growth, Choicest Northern Home-Grown Pedigreed Stock Seed. Pkt. 5c; oz. 8c; 2 oz. 15c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 40c; 1b. 75c.

MAMMOTH YELLOW BELGIAN

Identical to the White Belgian except in color. Pkt. 3c; oz. 7c; 2 oz. 12c; $\frac{1}{4}$ lb. 20c; $\frac{1}{2}$ lb. 35c; 1b. 65c.

BUCKBEE'S MAJESTIC

The largest, heaviest cropping and most nutritious yellow variety. The roots are of excellent quality, possess the highest feeding qualities. Pkt. 4c; oz. 8c; 2 oz. 15c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 40c; 1b. 70c.

BUCKBEE'S IMPROVED SHORT WHITE

A Marvelously Good Stock Carrot.

Roots seven to nine inches long, smooth, very heavy at the shoulder, having a diameter of three to four inches, but taper regularly to a point, growing almost entirely in the ground. Flesh rich, white, solid, crisp and of excellent flavor. Pkt. 4c; oz. 8c; 2 oz. 15c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 40c; 1b. 75c.

BUCKBEE'S VICTORIA

Heavy Yields—Splendid Quality.

Roots short and very heavy at the shoulder, rendering it easily harvested. Yielding 18 to 25 tons per acre. Splendid white variety. Pkt. 4c; oz. 8c; 2 oz. 15c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 40c; 1b. 70c.

LARGE WHITE VOSGES

One of the Very Best for Shallow Soil.

A field Carrot especially suited for soils that are not very deep. One of the very best for cattle feeding. Pkt. 4c; oz. 8c; 2 oz. 15c; $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 40c; 1b. 70c.

MAMMOTH WHITE BELGIAN

Splendid variety for fattening stock. The roots are mammoth in size and very productive, often yielding ten tons roots per acre. Pkt. 3c; oz. 7c; 2 oz. 12c; $\frac{1}{4}$ lb. 20c; $\frac{1}{2}$ lb. 35c; 1b. 65c.

BUCKBEE'S "Full of Life" CARROTS

German, MOEHREN; French, CAROTTE;
Spanish, ZANAHORIA; Swedish, MOROT.

One Ounce Will Sow a Row 100 Feet Long. Four to Five Pounds will Sow an Acre.

BUCKBEE'S EARLIEST GARDEN

The Earliest Variety in Cultivation and Best for the Table.

Tops small, finely divided. The reddish orange colored roots are nearly round with a groove about the crown and when fully matured they are about two inches in diameter, but they should be used before they are full grown, when they are tender and delicious. Much used for forcing, and pulled when they have only 4 or 5 leaves. Pkt. 10c; oz. 15c; 2 oz. 25c; 1 lb. 45c; 1 lb. 80c; lb. \$1.50.

EARLY GOLDEN BALL or FRENCH FORCING

Standard Extra Early Forcing Carrot.

Nearly round roots of yellowish brown color; smaller than the foregoing, and not quite so early. Best for use when young. Pkt. 5c; oz. 15c; 2 oz. 25c; 1 lb. 45c; 1 lb. 80c; lb. \$1.50.

EARLY SCARLET HORN

A good variety to grow for the market.

Tender and Delicious.

A favorite for early crop; a little later than Early Golden Ball. Color deep beautiful orange; has a short, stump-shaped root about 3 inches long, large at top, therefore easily pulled. Pkt. 4c; oz. 15c; 2 oz. 25c; 1 lb. 40c; 1 lb. 75c; lb. \$1.25.

BUCKBEE'S CHAMPION HORN

A splendid new Carrot from Holland where it is very largely grown for the market and considered the finest of all table Carrots. It is an extremely early variety, as early as Scarlet Horn and will be ready for the market in about 45 days from sowing, but it is about 6 to 7 inches long or twice the size of Scarlet Horn. It is the sweetest of all Carrots being without any yellow core. The roots are cylindrical, blunt at the end and having a fine neck and small top can be planted close together. The color is very attractive bright red. They are entirely free from any stringy, coarse heart which is found in all other Carrots; are of fine texture and most delicious quality. Owing to its excellent quality, it ought to have a place in every garden and its extreme easiness and great productiveness make it an indispensable variety and a great money-maker for the market gardener. Pkt. 10c; oz. 20c; 2 oz. 35c; 1 lb. 60c; 1 lb. \$1.10; lb. \$2.00.

Buckbee's Champion Horn.

OX HEART or GUERANDE

Early, Handsome; Ready Selling.

Tops small for the size of the roots, which are comparatively short, about 5 inches long, but thick and often weighing a pound apiece; they terminate abruptly in a small tap root. Flesh bright orange, fine grained and sweet. About ten days earlier than Danvers. A splendid variety. This is a desirable variety for soil so hard and stiff that longer growing sorts would not thrive in it. When young, excellent for table use, and when matured, equally good for stock. Pkt. 4c; oz. 10c; 2 oz. 18c; 1 lb. 30c; 1 lb. 50c; lb. 95c.

BUCKBEE'S SELECT DANVERS

The Best Carrot for Every Purpose.

Adapted to all soils and enormously productive, yielding more than any other table Carrot, and often more than the large field Carrots, and is much easier harvested than these. The flesh is very tender and sweet; it is a valuable Carrot for both table use and for stock. The leading carrot. We have an extra fine strain of this favorite sort, which is of very fine bright color, and exceptionally uniform in shape, size and color. We have sold this strain for years and it is giving the greatest satisfaction to our customers. Pkt. 5c; oz. 15c; 2 oz. 25c; 1 lb. 40c; 1 lb. 75c; lb. \$1.25.

Buckbee's Earliest Garden.

Buckbee's Pride of the Market.

HALF LONG DANVERS

Extensively Grown.

Roots are smooth and handsome, deep orange and of medium length. This is the ordinary strain used by most other seedsmen, of which Buckbee's Select Danvers is a great improvement. Pkt. 4c; oz. 10c; 2 oz. 18c; 1 lb. 30c; 1 lb. 50c; lb. 95c.

NEW EARLY CHANTENAY or MODEL

This is one of the best early Carrots in existence, one which market gardeners should plant for their main early crop; it matures about Ox Heart and Danvers. The Carrots grow about 6 inches long, are stump-rooted, very smooth, deep red, fine grained, sweet and sugary, and not apt to crack open while growing. An excellent table sort and a heavy cropper. Our seeds most carefully selected. Pkt. 5c; oz. 12c; 2 oz. 20c; 1 lb. 35c; 1 lb. 60c; lb. \$1.10.

BUCKBEE'S PRIDE OF THE MARKET

Early, Long, Rich Golden Yellow, Splendid Quality, Fine Yellower.

A large, handsome, main crop variety. Roots grow ten to twelve inches in length, very broad at the neck, tapering evenly to the small tap root. Grows smoothly and uniformly; flesh tender, sweet and entirely free from woody coarseness. Unsurpassed for table use and most valuable for market purposes. Pkt. 5c; oz. 15c; 2 oz. 25c; 1 lb. 40c; 1 lb. 75c; lb. \$1.25.

IMPROVED LONG ORANGE

The Best Keeper.

The most popular of the older sorts for farm use on mellow soil. Roots proportionately shorter than the Long Orange and smoother. Fine table quality but also much planted for feeding, being very productive. Pkt. 5c; oz. 8c; 2 oz. 15c; 1 lb. 25c; 1 lb. 45c; lb. 55c.

Oxheart or Guerande.

BUCKBEE'S RELIABLE CABBAGE SEED

German, KOPFKOHL; French, CHOU-POMME; Spanish, REPOLLO; Swedish, KAL.

EXTRA EARLY POINTED HEADS

One ounce Cabbage Seed should produce 1500 plants.
Sow $\frac{1}{2}$ lb. Seed in beds to transplant for one acre.

BUCKBEE'S NEW RACE HORSE

Absolutely the Earliest Cabbage in Cultivation.

Indispensable to the market gardener for the very earliest crop. Ready to use in sixty days from the time of planting. Every plant is sure to make a head. Heads are of good size, but little smaller than Jersey Wakefield and always very firm, have but few outside leaves, and therefore may be planted very close together and yield large crops. Always of fine flavor and very solid. We control the entire stock of this earliest of all varieties. Pkt. 10c; oz. 30c; 2 oz. 50c; $\frac{1}{4}$ lb. 90c; $\frac{1}{2}$ lb. \$1.60; lb. \$2.00.

BUCKBEE'S SELECTED TRUE EARLY

JERSEY WAKEFIELD

The Standard Extra Early Cabbage in Cultivation.

It forms fine solid heads of good size, conical in shape, with very few outside leaves, and of the best quality. We offer only the earliest and finest strain of this standard variety, grown from selected heads. The seed is remarkably pure and always gives satisfaction. Jersey Wakefield is about ten days later than Buckbee's Race Horse, but has larger heads and is much more productive. It is the variety mostly planted by market gardeners for the bulk of their extra early crop. Pkt. 5c; oz. 18c; 2 oz. 35c; $\frac{1}{4}$ lb. 60c; $\frac{1}{2}$ lb. \$1.10; lb. \$2.00.

Charleston or Large Wakefield.

O. Campbell, Holtz & Co., writes: 'Buckbee's Race Horse is the nicest & early cabbage that I raise.'

Buckbee's Selected True Early Jersey Wakefield.

CHARLESTON OR LARGE WAKEFIELD

A splendid strain of Jersey Wakefield, in which the plant is larger and about a week later, the head is twice as large, weighing from 8 to 12 pounds each and more, and is not so pointed. Charleston Wakefield is a good keeper and may be planted as a second crop, to mature in autumn, if desired. It is much used by market gardeners to follow Jersey Wakefield; it is a first rate shipper, and in great favor with everybody who knows it. Pkt. 4c; oz. 15c; 2 oz. 28c; $\frac{1}{4}$ lb. 50c; $\frac{1}{2}$ lb. 90c; lb. \$1.75.

EXTRA EARLY WINNINGSTADT

One of the Best for General Use.

A very fine header and will grow a hard head under circumstances where most sorts would fail. It will stand more frost, drought, wet, insects and diseases than any other early Cabbage. Plants very compact, with short thick leaves. Heads regular, conical and very hard. It is the latest of the pointed varieties. Pkt. 4c; oz. 12c; 2 oz. 25c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 80c; lb. \$1.50.

BUCKBEE'S "FULL OF LIFE" CABBAGE SEED

EXTRA EARLY FLAT AND ROUND HEADS

Copenhagen Market.

COPENHAGEN MARKET

The Earliest, Large, Round-Headed Cabbage—A New Variety Already Very Popular with Market Gardeners and Most Excellent for the Home Garden.

An extra early Summer Cabbage, maturing fully as early as Early Jersey Wakefield, but produces larger heads than that variety and any other Cabbage equally as early. The heads average about 10 pounds each in weight, are ball-shaped, solid and firm, with a small core, fine veins and splendid quality. The type is thoroughly fixed and the heads mature all at the same time, so the entire crop can be harvested at one time and the field cleared for other crops. The leaves are of light green color, tightly folded together in a remarkably solid and compact form; it has few outer leaves, is of upright growth, permitting close planting, and has a short stem, growing close to the ground. Our stock is grown by the originator in Denmark. Pkt. 5c; oz. 25c; 2 oz. 40c; ¼ lb. 70c; ½ lb. \$1.30; lb. \$2.50.

BUCKBEE'S EARLY GREENBACK

If a gardener were to plant but one kind of Cabbage, he could get none that would answer all purposes as well as Buckbee's Early Greenback. It is a very large, solid, flat-headed Cabbage, coming in fully as early and is as large as All-Head, and can be planted in spring and summer and keeps splendidly over winter. This variety has had thorough and exhaustive trials in all the great Cabbage-growing sections of the Union and under varied conditions, both by ourselves and expert market gardeners. The seed is so pure and high-bred that practically every plant will produce a fine, hard head, measuring from 10 to 14 inches in diameter. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 65c; ½ lb. \$1.25; lb. \$2.00.

Early Spring.

EARLY SPRING

The Earliest Flat-Headed Variety.

Fitted for use a few days earlier than Extra Early Jersey Wakefield, producing heads of about the same weight but different in shape; the heads being broad, flat, slightly rounded. They are intensely solid, of vivid green color, with short stems and have but few outer leaves, which are small, permitting the plants to be set close together. The whole plant is finely bred, with small heart, fine veins. The flavor is delicious. A money-maker for the market gardener. Pkt. 4c; oz. 15c; 2 oz. 28c; ¼ lb. 50c; ½ lb. 90c; lb. \$1.75.

Enkhuizen Glory.

ENKUIZEN GLORY

Very Early, a Sure Header; Large, Solid Heads; a Splendid Keeper. It is very early, maturing about 10 days later than Copenhagen Market, and producing medium-sized heads about twice as heavy as Jersey Wakefield, which are ball-shaped, thin ribbed, very firm, of an ideal size for marketing and are splendid keepers. The color is a pale green. In appearance the heads are those of a small Danish Ballhead. This Cabbage is exceedingly tender, fine grained and of an exceptionally fine flavor. The plants grow very uniform in size and shape, are always sure to head, and extra good croppers, making but very few outer leaves. They will, if closely planted, yield more tons from an acre than many late sorts. Pkt. 5c; oz. 25c; 2 oz. 40c; ¼ lb. 70c; ½ lb. \$1.30; lb. \$2.50.

ALL-HEAD EARLY OR FAULTLESS

A splendid sort, remarkably uniform in size and shape and a sure header. Matures at the same time as Enkhuizen Glory. The plant of this excellent sort is compact, with few outer leaves which are smooth and rather thick; stem short. Head very large for so early a variety, very solid, flat but very deep and uniform in size and shape. Well adapted for kraut. By planting late it can be used also as a winter cabbage. Our strain is the finest. Pkt. 4c; oz. 22c; 2 oz. 40c; ¼ lb. 70c; ½ lb. \$1.30; lb. \$2.50.

Buckbee's Early Greenback.

BUCKBEE'S "FULL OF LIFE" CABBAGE SEED

SECOND EARLY VARIETIES

BUCKBEE'S EXTRA EARLY LARGE NEW QUEEN

The Best and Largest Extra Early Flat Cabbage on Earth.

Some Cabbage will do, others please, but Buckbee's Extra Large New Queen has satisfied and made more money for Cabbage growers throughout the country during the past nearly half a century than any variety ever offered. Unquestionably the finest bred and earliest of the very large (weights from 17 to 25 lbs.) Cabbages and the most solid headed, thoroughbred of this class; unexcelled in flavor, unequalled in quality and always the leader in every market. Practically every plant will form a very large, solid head and will mature earlier than the varieties mostly grown for the market and shipping. It is good

for summer, fall and winter. Gaines, Cole & Co., State Line, Miss., write: "Have used Buckbee's Queen since its introduction. It is a week earlier and much finer in every way than Henderson's Early Summer and markets more to the acre." If you want the best early Cabbage, plant Buckbee's Extra Early Large New Queen and you will not be disappointed. We control the entire seed supply and offer the choicest "FULL OF LIFE" Seed of our own growing at the following reasonable prices. Send to Buckbee for the true "Queen." Order early. Pkt, 10c; oz. 30c; 2 oz. 50c; ¼ lb. 90c; ½ lb. \$1.60; lb. \$3.00.

BUCKBEE'S EARLY MARVEL

Good for Summer, Autumn or Winter.

The heads are extremely hard and solid, round flattened on top, and ready to market fully as early as Early Summer, but larger. It is as good for autumn or winter as for early summer. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 65c; ½ lb. \$1.25; lb. \$2.00.

HENDERSON'S EARLY SUMMER

Standard Mid-Summer Variety.

This variety is deservedly popular with the market gardeners. It forms large, solid, round, flattened, compact heads of excellent quality. The heads average more than double the size of the Jersey Wakefield, while it matures only ten to twelve days later. Pkt., 4c; oz. 15c; 2 oz. 28c; ¼ lb. 50c; ½ lb. 90c; lb. \$1.75.

GREGORY'S ALL SEASONS

Nearly as early as Early Summer, but considerably larger in size and one of the largest and most desirable of the second early varieties. The heads are large, nearly round, extremely hard and solid with finely ribbed leaves; the eating quality is not excelled by any other Cabbage and is far better than that of the big-ribbed winter sorts, and considered one of the best for kraut. It is suited to all growing seasons, is a sure header under most adverse conditions and keeps well even if planted very late. Remarkable for its ability to stand the hot sun and dry weather, remaining an exceptionally long time in condition for use. Our strain is the finest on the market. Pkt. 5c; oz. 18c; 2 oz. 30c; ¼ lb. 55c; ½ lb. \$1.00; lb. \$1.90.

E. F. Baringer, R. R. No. 1, Box No. 48, Ellsworth Station, Ohio, writes: "It is a pleasure to tell you that all the seeds we ordered from you last season proved a success. The Cabbage was particularly fine and celery the finest you ever saw. Success to you."

QUALITY
NOTHING BUT
QUALITY

SECOND EARLY AND LATE CABBAGES

Rockford Market.

BUCKBEE'S NEW CENTURY

One of the Best Main Crop Cabbages.

One of the very best for general use, being very hardy and sure to head when most sorts fail. It does well at all seasons and is a very sure cropper. Heads regular, very hard, and keeps well both Summer and Winter. Pkt. 5c; oz. 25c; 2 oz. 40c; ¼ lb. 70c; ½ lb. \$1.30; lb. \$2.50.

PREMIUM LATE FLAT DUTCH

An old and popular variety, remarkably uniform in size and type. Very heavy, late and a fine shipper. Buckbee's Mammoth Late Flat Dutch and Christmas King are the best, improved and largest strains of this variety. Pkt. 3c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 65c; lb. \$1.25.

LARGE LATE DRUMHEAD

Closely allied to our Mammoth Bridgeport Drumhead, though not as good a shipper. Pkt. 3c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 65c; lb. \$1.25.

Buckbee's Mammoth Late Bridgeport Drumhead.

BUCKBEE'S ROCKFORD MARKET

A Fine Second Early Cabbage.

It has the peculiarity of heading firmly at an early stage in its growth, so that the finest Cabbage can be obtained long before it has attained its natural size. Its uniformity in shape, and large yield per acre render it particularly valuable to truckers, and its compact form and good quality make it also one of the finest of the second early Cabbages for the home garden. It is about a week later than New Queen. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 65c; ½ lb. \$1.25; lb. \$2.00.

SUCCESSION

A great favorite with market gardeners. The latest of the second early varieties, maturing about 14 days later than New Queen. The plants are very vigorous, have large outer leaves. The heads are very large, deep, solid and firm, of a beautiful light green color and free of all coarse veining; they run very uniform in size and shape and are of splendid quality. Its large size, great productiveness, reliability, excellent flavor, sure-cropping and long keeping qualities make it one of the best for general use. Pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 65c; ½ lb. \$1.25; lb. \$2.00.

SURE HEAD

A Famous Main Crop Cabbage.

Of the "Flat Dutch" type. Heads uniform in size and color, round, flattened on top, extra hard, and firm and fine in texture, weighing under average cultivations from 10 to 15 lbs.; sweet flavored; has scarcely any loose leaves. One of the most reliable main-crop cabbages. A sure header. Its great solidity makes it an excellent shipping as well as keeping variety. Pkt. 4c; oz. 18c; 2 oz. 28c; ¼ lb. 50c; ½ lb. 90c; lb. \$1.75.

BUCKBEE'S MAMMOTH LATE BRIDGEPORT DRUMHEAD

A Standard Fall Shipping Sort.

It makes a large, round, firm head, uniform in shape and color, which seldom bursts or rots. With good cultivation heads attain a weight of twenty to thirty pounds, and are of the finest quality. Sureness in heading and regularity in growth has made this one of the most popular standard sorts for winter keeping. The quality, either for slicing, for kraut, and for general table use, is unsurpassed. It is as natural for this Cabbage to form heads as leaves. This variety is much used by market gardeners in northern Illinois and has proven a great money-maker to them. It is a very fine strain of late Cabbage and can be profitably grown anywhere in this country; it is a splendid sort for general use, giving unbounded satisfaction. Pkt. 4c; oz. 18c; 2 oz. 35c; ¼ lb. 60c; ½ lb. \$1.10; lb. \$2.00.

A. H. Benning, Jerome, Idaho, writes: "I am well pleased with results from your 'FULL OF LIFE' Seeds. The Cabbage and Radish were particularly fine."

BUCKBEE'S "FULL OF LIFE" CABBAGE SEED

LATE OR MAIN CROP VARIETIES

BUCKBEE'S MAMMOTH LATE FLAT DUTCH

Everywhere a Favorite Market Variety.
Always Sure to Head.

This is a money maker among late Cabbages for gardeners, and for family use it ranks the highest. No variety of late Flat Dutch surpasses it for fine quality and uniform reliability to produce solid, firm heads. Even during the most unfavorable weather the heads are large. They are usually very heavy and solid; in form they are round, flat on top, and of a bluish-green color with but few outer leaves. The quality is fine and flavor excellent, heads being crisp, tender and white, and they keep in good condition until Spring. It is the variety planted by more gardeners than any other late sort, and one of the best to grow for the family table. Always sure to make a crop where other sorts fail, and sure to please everybody on all soils North, South, East or West. If you grow late Cabbage, do not fail to plant my selected and famous "Full of Life" strain of this Variety. Pkt., 6c; oz., 18c; 2 oz., 35c; ¼ lb., 60c; ½ lb., \$1.10; 1 lb., \$3.00.

BUCKBEE'S CHRISTMAS KING

The Best Largest Late.

The grandest late Cabbage ever introduced. This truly wonderful late variety of our own introduction gives the greatest yields of any Cabbage grown, and not one of our customers has been disappointed in the results. Nine hundred and ninety-nine out of every 1,000 plants will produce marketable heads, which are of mammoth size, on good, rich soil, reaching the sensational weight of 60 lbs. each. The leaves are deep blue, very wide and overlapping each other form tight, compact heads, which are all very uniform in size and in time of maturity, and are of the most delicious flavor, crisp and sweet. It never bursts, has but few outside leaves and is the best Winter keeper. Best for kraut.

Of the Late Flat Dutch type of Cabbages, the two listed on this page are our best sellers. They are both splendid, finely bred varieties of excellent quality, sure headers, enormous

Buckbee's Mammoth
Late Flat Dutch
Cabbage.

croppers, producing hard, solid, heavy heads of long keeping quality. Christmas King, however, is the latest of the two and produces the largest heads; it also gives the best results of any late Cabbage on dry lands, and in a hot, dry season. We control the complete stock of this variety, and offer the choicest "Full of Life" Seed of our own growing at the following reasonable prices. Send to Buckbee for the true "Christmas King." Pkt., 10c; oz., 30c; 2 oz., 50c; ¼ lb., 90c; ½ lb., \$1.60; 1 lb., \$3.00.

BUCKBEE'S "Full of Life" CABBAGE SEED

Late or Main Crop Varieties—Danish Grown Cabbages

Buckbee's
Great
Dane

BUCKBEE'S GREAT DANE

The Hardest Headed Late Cabbage. The Gardener's Favorite, the Best Shipping and Longest Keeping Cabbage.

For years large quantities of Danish Cabbage have been imported to our leading markets, the heads being of such solidity that the demand has been far in excess of the supply, and always at a price far above the ruling market rate. To get to the source of this supply I sent an expert to Denmark, who after careful inspection of the Cabbage growing localities found at the island of Amasar the **GREAT DANE** Cabbage which he considered by far the finest and most productive of all the types and strains of winter Cabbage grown in Denmark, and he contracted with its originator for all the seed he could supply. I have handled his stock now for many years, have supplied annually large quantities of it to the Cabbage growers of this country and every year the orders for it show an enormous increase over those of the previous ones; proving without doubt, the better adaptability to our climate and the great superior-

ity in many other respects of the **GREAT DANE** to other similar types.

I give herewith the description of this great Cabbage—by the originator, Mr. Torgeson. "For more than twenty years I have worked in perfecting this variety. The stem is medium sized, heads are almost as round as a ball, of good size, perfectly solid, very fine grained of the best quality. They average larger and heavier, also mature earlier than the other strains of Hollander or Ball Head grown here. Because of the large size, heavier weight, greater solidity of its head, its unequalled keeping and shipping properties and its more tender quality, it will supplant all other varieties for winter use. I cannot too highly recommend it to gardeners in your land (America)."

We control the entire seed supply and offer the choicest "Full of Life" Seed (grown by the originator in Denmark), at the following reasonable prices. Send to Buckbee for the true "Great Dane." Pkt. 10c; oz. 30c; 2 oz. 55c; 1 lb. 90c; 1 lb. \$1.60; 1 lb. \$3.00.

DANISH BALL HEAD

Extra Selected Danish Grown Seed.

The heads, which are of medium size, average a weight of about eight pounds; are very solid and deep, and of a fine white color. Their quality is excellent, and the heads being just as solid and perfect when taken up in the spring as when they are put away in the fall. Stem about 5 inches high. Pkt. 5c; oz. 20c; 2 oz. 35c; 1 lb. 60c; 1 lb. \$1.15; 1 lb. \$2.25.

NEW ROUND HEAD DANISH

A Short Stemmed Type.

Two weeks earlier than Ball Head, heads more round, unusually solid, average larger, with less outer foliage, of more robust growth, and is better able to resist blight. The heads are beautifully white when trimmed. Is especially recommended for high and light soils. Are splendid keepers. Short stems about 2½ inches high. The Round Head requires less space; can therefore be set closer together than Ball Head. Pkt. 10c; oz. 25c; 2 oz. 40c; 1 lb. 75c; 1 lb. \$1.40; 1 lb. \$2.75.

BUCKBEE'S "FULL OF LIFE" CABBAGE

RED CABBAGES

NEW DUTCH or PICKLING

Raised exclusively for pickling purposes. Always the first of the Red Cabbages in market. Small, handsome, hard heads of blood-red color and of the finest quality. Average weight, 8 pounds. Pkt. 4c; oz. 15c; 2 oz. 25c; 1 lb. 45c; 1 lb. 85c; 1 lb. \$1.60.

MAMMOTH RED ROCK

One of the finest red Cabbages on the market. Heads average over 10 pounds each, and are always of rich red color, very solid and of excellent flavor. Always sure to head. Try it. Pkt. 5c; oz. 20c; 2 oz. 35c; 1 lb. 60c; 1 lb. \$1.10; 1 lb. \$2.00.

Red Dutch.

NEW RED POLISH CABBAGE

The Best Red Cabbage for Pickling or Table Use.

This new Red Cabbage is a vigorous grower and quite hardy. The heads are of a dark red color, and are extremely firm and heavy. The outside leaves are somewhat crumpled at the edges, giving the plant a pleasing and rather ornamental appearance. It is the largest and surest heading Red Cabbage. New Red Polish is the most profitable red sort with which we are acquainted, and will prove satisfactory in all respects to growers, cook and pickle-maker. Pkt. 10c; oz. 30c; 2 oz. 55c; 1 lb. 90c; 1 lb. \$1.60; 1 lb. \$3.00.

New Red Polish Cabbage.

SAVOY CABBAGES

Savoy Cabbages have crimped leaves and are more tender, of milder and sweeter flavor than the smooth leaved varieties; their flavor will improve after being frosted. They are equal in quality to Cauliflower and make a good substitute for it where this vegetable cannot be grown. They should be in every private garden and when once used, they will always be planted.

IMPROVED AMERICAN SAVOY

Very Valuable Variety.

Adapted for private use. Grown in fall and allowed to be touched by frost, it is one of the most delicious of all vegetables. Pkt. 4c; oz. 15c; 2 oz. 25c; 1 lb. 45c; 1 lb. 85c; 1 lb. \$1.60.

BUCKBEE'S SUGAR LOAF SAVOY CABBAGE

Noted for Fine and Delicate Flavor.

This improved variety is the very best of the Savoy for home use or the market. Most attractive, matures early, hardest headed. Plants vigorous, densely crumpled and very sure heading. Blanches beautifully. Pkt. 5c; oz. 20c; 2 oz. 35c; 1 lb. 65c; 1 lb. \$1.25. 1 lb. \$2.00.

BUCKBEE'S CHINESE OR CELERY CABBAGE

A new, most delicious vegetable which should be in every garden and which is one of the most profitable crops to grow for the market.

Although introduced in this country not very long ago, already hundreds of carloads of it have been grown last year in Florida, California and other states and shipped to eastern markets. It is offered now in the markets of all large cities and has proven a source of great profit for the grower, yielding three times as much as any other early Cabbage and selling at 10 to 15c per pound when other Cabbage brings only \$12.00 to \$15.00 per ton. Yields in Florida are reported to have been about thirty tons per acre. This vegetable, I believe, is destined to have a wide sale, and whoever grows it will be surprised at the great demand that already exists for it.

The Chinese or Celery Cabbage belongs to the Cabbage family; when young it resembles a smooth leaved Chard-Beet, leaves being light green and crimped; the plant as it matures forms heads much like Cos Lettuce, which are about 15 inches high, have a diameter of 6 to 8 inches, weigh often 4 lbs., and are as firm and solid as Cabbage; their heart blanches to a crystalline white, whiter than any Lettuce or Cabbage. The leaf is as tender as Lettuce and has a distinctive flavor, very delicate and pleasant; every leaf, including the outside ones, is tender and eatable.

It is served on the table like Lettuce with French dressing; or if cut up like Cabbage and served with mayonnaise or French dressing it makes a splendid cold slaw. It can also be cooked like Cabbage, but it is without the strong Cabbage flavor and tastes more like Cauliflower.

Chinese-Cabbage thrives well in any good soil, but low, moist and even wet ground is the best suited. The seed is like Cabbage seed, and it should be treated like late Cabbage, sowing during July; early plantings are likely to run to seed in hot weather. The seed is sown in drills about 20 inches apart and the plants thinned out to stand 15 inches apart in the rows; if grown for the market start seed in boxes and transplant. Cultivate the same as Cabbage. It will not stand frost and for winter use it should be stored in a cool, frost-proof cellar. There are different strains of Chinese or Celery Cabbage in the market, a tall and loose leaved kind which is not as satisfactory as the more short leaved with solid heads which I offer. Pkt. 10c; oz. 30c; 2 oz. 55c; 1 lb. 90c.

BUCKBEE'S "FULL OF LIFE" CAULIFLOWER

German, BLUMEN-KOHL; French, CHOU-FLEUR; Spanish, COLIFLOR; Swedish, BLOMKAL.

The Cauliflower, although one of the most delicious vegetables, is but little known except by professional gardeners, because of the erroneous notion that it is so hard to grow that only skilled gardeners can produce it. We are certain that anyone will be reasonably successful with this most desirable vegetable if he will observe the cultural directions given on every package of Cauliflower Seed we send out.

BUCKBEE'S EXTRA EARLY CHIEF

The Earliest Grown—A Sure Header—Drought Resister—Large Solid Heads of Snowy Whiteness.

The best variety for either market or family purposes, by far the earliest and surest header and the most profitable grown. The greater part of Cauliflower seed offered is of European growth, but after years of careful study and perseverance we are able to offer this thoroughly American variety—"Chief." It is of very compact growth, with short stalks. They can be planted very close together, and the leaves growing upward naturally protect the heads, which are handsome beyond description, measuring fully 12 to 15 inches across, and even more under careful cultivation; they are pure snow-white, very close, compact and of the most superior quality. The heads being so extremely solid and deep, weigh heavier than any other early variety.

It can be used for early or late planting, for forcing or the open ground; used any way, I recommend it with the full assurance that it will give entire satisfaction and that it is not surpassed by any other variety in earliness and sure heading quality. No grower of Cauliflower can make a mistake by relying on this superb, world-beating variety. Pkt. 15c; 2 pkts. 25c; 1/4 oz. 80c; oz. \$3.00; 2 oz. \$5.50; 1/4 lb. \$10.00.

TRUE EARLY SNOWBALL, Pedigree Seed

The Famous "Dry Weather" Cauliflower.

Certainly a fine variety, a great favorite with market gardeners and a standard throughout the country; very early, close growing, of compact habit; is well adapted for forcing under glass during winter and spring. The heads are large. For early or late planting, for the family or the market garden this variety can be depended upon for excellent results. Snowball is but a few days later than "Buckbee's Chief," and it is probably not quite so large. We have the finest strain of the Snowball in the country; this can be attested to by our many market gardener customers who used it for many years with great success. Pkt. 10c; 1/2 oz. \$1.25; oz. \$3.00; 2 oz. \$5.80; 1/4 lb. \$7.50.

BUCKBEE'S EARLY FAVORITE

Very Popular, Early and Standard Main Crop Variety.

An early, sure heading and reliable variety. Will stand heat and drought exceptionally well, which is a great point in its favor and makes it most highly desirable in regions where other varieties of Cauliflower have failed to thrive. Of dwarf growth, with short outer leaves. Early Favorite has never yet failed to please the most exacting grower and its rapidly increasing popularity is due entirely to its real merit and not to any special effort in its behalf. Give it a trial and we are sure you will never have reason to complain of the results. Pkt. 5c; 1/2 oz. 60c; oz. 85c; 2 oz. \$1.80; 1/4 lb. \$3.50.

Buckbee's Extra Early Chief.

EXTRA EARLY DWARF ERFURT SELECTED

Danish Grown Pedigree Seed.

Remarkable for reliability of heading; dwarf, solid, pure white heads of most superior quality. If planted the first of March, heads eight to ten inches in diameter will be ready early in June. This is a fine old sort and as yet a favorite with many. Snowball and Buckbee's Chief are highly developed strains of this variety and produce somewhat larger heads earlier in the season. Pkt. 10c; 1/2 oz. 60c; oz. \$1.10; 2 oz. \$2.00; 1/4 lb. \$3.90.

EXTRA EARLY PARIS

Always Popular; Quality Superior.

An extra early variety, suitable for spring, summer and fall use, but mostly planted in spring and it is also much used for forcing. Heads of medium size with narrow and straight leaves; they are snow-white and of fine quality, but not as large nor as firm as the Erfurt type of Cauliflower. Dwarf habit. Highly recommended. Pkt. 5c; oz. 45c; 2 oz. 80c; 1/4 lb. \$1.50.

Noah Noon, Latonia, Ind., writes: "I have bought your seeds for 32 years and I am 72 years old. I like them and you always treat me right."

Le Normand's Short Stem.

True Early Snowball.

LE NORMAND'S SHORT STEM

Sure Heading Standard Late Variety.

The very best large late variety grown; sure to please. Curd is well protected by broad, short leaves of deep green color; the stems are extremely short and stout. Head very large, solid, pure white and of superb quality. It is very hardy, stands drought very well and also frost. It is a sure header, fine in every way. Very popular with market gardeners. Will be ready for use in about 120 days from sowing. Pkt. 5c; oz. 45c; 2 oz. 80c; 1/4 lb. \$1.50.

CAULIFLOWER PLANTS

Ready about March 25th—See Page 83 for Prices

Buckbee's Early Favorite.

BUCKBEE'S "Full of Life" CELERY

German, SELLERIE; French, CELERI; Spanish, APIS; Swedish, SELLERI

BUCKBEE'S ALL HEART

Crisp and Brittle—Rich Golden Color—Exquisite Nutty Flavor.

The latest and best creation in Celery—originated on Rockford Seed Farms after years of careful trial and experiment and has given unparalleled satisfaction in every part of the country. It is the earliest of the Winter Celeries ready for use about 14 days later than the early self-blanching sorts listed on the preceding page. It is a very showy sort, with very broad, medium sized stalks, of fine ivory-white color and a rich golden heart. Crisp, tender and brittle, the flavor is delightfully rich and nutty. This is the best celery for winter storage. It is unsurpassed for the professional Celery grower, the home and market garden. We control the entire stock of Buckbee's All Heart Celery. Pkt. 10c; ½ oz. 30c; 2 oz. 80c; ¼ lb. \$1.50; ½ lb. \$2.75; 1 lb. \$5.00.

BUCKBEE'S GENUINE GOLDEN HEART

Original Private Stock.—This variety is of short, stocky growth with a large heart which blanches a beautiful golden yellow and is crisp, brittle, tender and of fine flavor. An old, very popular, long-keeping sort. Pkt. 5c; ½ oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. \$1.10; 1 lb. \$2.00.

BUCKBEE'S PERFECTED KALAMAZOO

It is an acknowledged fact that more good Celery is grown in the famous "Kalamazoo Celery Fields" than anywhere in the country. For years our heaviest sales of Celery Seed have been in that section, and we have devoted much time to the improvement of the justly celebrated variety grown in that section and Buckbee's Perfected Kalamazoo will be found greatly superior to the old strain. The stalks are quite thick, solid, crisp and of creamy-white color, growing very uniform in size and shape. It is profitable alike for market or family use. There is no waste in preparing it for the table. Pkt. 4c; ½ oz. 30c; 2 oz. 55c; ¼ lb. \$1.00.

GIANT PASCAL OR WINTER KING RE-SELECTED STOCK SEED

A selection from the Golden Self-Blanching, and adds to the general good qualities of its parent, superior keeping qualities. The stalks are short, broad, heavy, thick, solid, crisp, and of a rich nutty flavor, free from any trace of bitterness, they blanch to a paper whiteness. One of the very finest of our Winter Celeries. Pkt. 4c; ½ oz. 30c; 2 oz. 55c; ¼ lb. \$1.00.

WINTER QUEEN

A very popular sort, and an excellent winter keeper, with shorter, broader and heavier stalks than the old varieties, and its green coloring not being so deep, it blanches more readily. Pkt. 5c; ½ oz. 20c; 2 oz. 35c; ¼ lb. 60c; ½ lb. \$1.10; 1 lb. \$2.25.

CELERY SEED FOR FLAVORING

½ oz. 5c; 2 oz. 8c; ¼ lb. 15c; ½ lb. 28c; 1 lb. 50c.

CELERY PLANTS ready early in June—See p. 83

CELERIAC, or Turnip-Rooted Celery

German, KNOLLEN-SELLERIE; French, CELERI RAVE.

Celeriac is grown for the bulbous roots, which are excellent for stews, soups and salads.

LARGE ROOTED GIANT PRAGUE

Improved form of turnip-rooted Celery, producing large and smooth roots, almost round, few side roots. Large green foliage. Pkt. 5c; ½ oz. 25c; 2 oz. 40c; ¼ lb. 75c.

NEW DELICATESS—Root turnip-shaped, much larger, smoother and of more tender, sweeter taste, stronger flavor than other varieties. Pkt. 5c; ½ oz. 35c.

Marinus Vander Maas, Goshen, Ind., writes: "I wish to thank you for the fine variety of Buckbee's 'Full of Life' Golden Self-Blanching Celery Seed purchased from you for the past four years."

BUCKBEE'S GOLDEN YELLOW SELF-BLANCHING

Originator's French Grown Seed.

This is the strain used by gardeners and extensive growers in every large celery district in the United States. No other strain of seed gives such universal satisfaction; and it is without question the most popular and dependable early strain of celery grown. The plants are medium sized, stocky and the stalks crisp, solid, heavy and of a yellowish-green color when young, but as they mature the inner stems and leaves turn a beautiful golden yellow, which adds much to their attractiveness and makes the work of blanching much easier. The handsome color, crispness, tenderness, freedom from stringiness and fine nutty flavor of this variety make it only necessary to be tried in order to establish it as the standard of excellence as an early sort. Pkt. 10c; ½ oz. 80c; oz. \$1.50; 2 oz. \$2.60; ¼ lb. \$5.00.

PERFECTED WHITE PLUME

Buckbee's Private Stock.

Is too widely known to require extended description. We will only say that we have not yet found a strain that is as early and of as good a flavor, crisp and tender, as our selection of this sort. It is unsurpassed for fall and early winter use. Pkt. 5c; oz. 35c; 2 oz. 60c; ¼ lb. \$1.10; ½ lb. \$2.10; 1 lb. \$4.00.

GOLDEN YELLOW
SELF-BLANCHING

ORIGINATORS FRENCH
GROWN SEED

Buckbee's "Full of Life" Celery Seed

Is Noted the World Over—and Planted by the Largest, Most Critical and Successful Celery Growers in the United States.

NEW COLUMBIA

An early maturing sort, only a few days later than Golden Self-Blanching and unsurpassed in shape and quality. The plant is of medium height, but very stocky and heavy. The stalks are thick, almost round, resembling in shape those of Giant Pascal, but the color has in it more of the rich yellow tint of Golden Self-Blanching, which variety it resembles very much in appearance when trimmed and bunched for the market. Pkt. 5c; oz. 60c; 2 oz. \$1.10; ¼ lb. \$2.00.

Wm. Kohler, Seville, O., writes: "Having used your Celery Seed (New Columbia) last year with best satisfaction, can say it proved better than promised."

New Columbia Celery.

BUCKBEE'S PEDIGREED SWEET CORN

German, WELSCHKORN; French, MAIZ; Swedish, MAJAS-SOT.

Remember That we prepay charges on Sweet Corn by the half-pint, pint and quart. Quantities of one-eighth, quarter, half and one bushel or more will be shipped by freight or express at purchaser's expense.

First Early Varieties

BUCKBEE'S NEW EARLY SUNRISE

Absolutely the Earliest Good Sweet Corn.

The beauty and quality of this remarkable variety give it prominence over all others for family, market, canning, shipping, and, in fact, all purposes. Ears large (the fat kind), grains of great depth, exceedingly tender and sweet, the sort that fairly melts in the mouth. Something in Sweet Corn that makes everybody talk. Early Sunrise as the very best introduction to present date. Our seed stock is carefully grown and selected with the sole object of keeping it up to the highest standard of excellence as the earliest, largest and best on record. This is a very distinct variety, which was originated many years ago by a market-gardener in northern Iowa. It always proved with us earlier than any other so-called extra early variety of other seedsmen. The ears are about six inches long, ten to twelve rowed; they are very uniform and handsome and have a small white cob. Postpaid, pkt. 10c; $\frac{1}{2}$ pt. 15c; pt. 25c; qt. 45c.

BUCKBEE'S FIRST OF ALL SWEET CORN

Extra Early Large Size, Heavy Cropper, Sweet and Tender.

Comparative tests made by Sweet Corn experts throughout the country as well as at Rockford Seed Farms have proven it to be from three days to a week earlier than Cory, making it very desirable, not only for family gardens, but an especial boon to market gardeners who desire to have the first Sweet Corn in market. Ears are of good size, well filled with large grains to the very tip. Many of the ears contain from ten to twelve rows, while the Cory generally has only eight rows. In habit of growth it excels all other early varieties, being stocky and exceptionally vigorous. The quality is excellent and surpassingly sweet. Postpaid, pkt. 8c; $\frac{1}{2}$ pt. 15c; pt. 25c; qt. 40c.

PEEP O' DAY

Very early small eared variety. Stalks grow three feet high, have few leaves and produce generally more than one ear to the stalk. Ears small, measuring not more than five inches long and filled from butt to tip with ten rows of small grains of a very sweet flavor. Much grown in the Northwest; not as early nor as large as Sunrise. Postpaid, pkt. 7c; $\frac{1}{2}$ pt. 12c; pt. 20c; qt. 35c.

MAMMOTH EARLY WHITE COB CORY

A very fine extra early variety, but a little later than the other kinds listed before on this page. It is very largely planted by market gardeners and has proven a well paying crop for them.

Mammoth Cory is a selection from the old White Cob Cory, but it is twelve rowed and the kernels sit very close together. The grain is large, broad, very white and of sweet, delicious quality. This is a finely bred sweet corn with handsome symmetrical ears and is worthy a place in every garden. Postpaid, pkt. 8c; $\frac{1}{2}$ pt. 12c; pt. 20c; qt. 35c.

EXTRA EARLY CORY

One of the most popular varieties and Extra Early. Ears of good size, well filled to the very tip with eight rows of broad kernels of excellent quality; vigorous grower; about four feet high. Postpaid, pkt. 7c; $\frac{1}{2}$ pt. 12c; pt. 20c; qt. 35c.

GOLDEN BANTAM

A very early sweet corn, about ten days later than Sunrise, more hardy and can therefore be planted earlier than most other sweet corn. It grows $3\frac{1}{2}$ to 4 feet high, produces two or more ears to the stalk; the ears which are 6 to 7 inches long and covered with eight rows of golden yellow grain, which are very tender and of exceptionally rich and delicious flavor. Golden Bantam has a distinct taste and many people prefer it to all other varieties. Market gardeners will find it a well paying crop wherever it has been tried. Our stock has been carefully selected. Postpaid, pkt. 10c; $\frac{1}{2}$ pt. 18c; pt. 30c; qt. 50c.

Golden Bantam.

Buckbee First of All.

BUCKBEE'S PEDIGREED SWEET CORN

FIRST EARLY VARIETIES—Continued BUCKBEE'S BEST OF ALL

Early, Prolific, Sweet, Tender, Large, Handsome. "Best of All" is of exceptionally stocky growth and an abundant and satisfactory yield; ears of large size; kernels very broad and especially sweet, rich, white, and tender. Not only is it valuable for family uses, but for early market and shipping purposes it is also in the lead. Mr. Crane, one of the most prominent Sweet Corn specialists, writes:—"Gave Buckbee's 'Best of All' a fair trial, and will say that it surpasses every claim you make for it, and more, too. I can highly recommend it for all general purposes." Postpaid, pkt. 8c; 1 pt. 15c; pt. 25c; qt. 40c.

EARLY CROSBY. A most excellent variety, remarkably early and of the best flavor. Ears of medium size, 12 or more rowed, grain very thick and sweet. Largely grown for canning. Pkt. 7c; 1 pt. 12c; pt. 20c; qt. 30c.

EARLY MINNESOTA. This popular variety is one of the best early sorts for the market and the private garden. By careful selection we have developed a stock which is remarkably uniform, and in which all the good qualities are retained. Pkt. 6c; 1 pt. 12c; pt. 20c; qt. 30c.

KENDALL'S NEW LARGE EARLY GIANT.

Ears large and long; 10 to 12 rowed. Kernels white, sweet and tender. Very desirable for both market and family purposes. Postpaid, pkt. 7c; 1 pt. 12c; pt. 20c; qt. 35c.

IMPROVED ADAMS

EARLY. While not a Sweet Corn, this is a tender white Corn for table use. Dwarf stalk, small ears, hardy; can be planted earlier than any Sweet Corn. Pkt. 6c; 1 pt. 8c; pt. 15c; quart 28c.

ME- DIUM EARLY VARIETIES

NEW HONEY

SWEET. An exceptionally fine variety for second early use, being from one to two weeks later than any extra-early varieties. Ears twelve-rowed, medium size, very handsome. Grains of a beautiful creamy white color, deep, and cob very small. Fine quality. Postpaid, pkt. 8c; 1 pt. 15c; pt. 25c; qt. 40c.

BLACK MEXICAN. Although the black grain is bluish black, the Corn, when in condition for table, cooks remarkably white and is very tender. Desirable for family use; much used for second early in the South. Postpaid, Pkt. 7c; 1 pt. 12c; pt. 20c; qt. 35c.

EVERBEARING. The ears are of good size and covered with kernels clear to the end of the cob. Each stalk will produce one or two well developed ears; if these are picked when mature, one to two or more ears will grow on the same stalk during the next two to four weeks. Postpaid, pkt. 8c; 1 pt. 15c; pt. 25c; qt. 40c.

MOORE'S EARLY CONCORD. Large, handsome, 14 to 16 rowed ears; comes into use after Perry's Hybrid. Excellent for canning and the garden. Postpaid, pkt. 7c; 1 pt. 12c; pt. 20c; qt. 30c.

PERRY'S HYBRID. A most popular Eastern variety, bearing large 12 or 14 rowed ears. Postpaid, pkt. 7c; 1 pt. 12c; pt. 20c; qt. 35c.

Late or Main Crop Varieties

BUCKBEE'S PRIVATE STOCK EVERGREEN

Late, Best for Main Crop. For table use the quality of Buckbee's Private Stock Evergreen Sweet Corn cannot be excelled. It is very tender, sugary, and remains a long time in condition suitable for cooking. Owing to the fine bright color, the fine shape of the kernels, it is by far the most salable canned corn. The ears are large; the grains long and slender. Outyields all other varieties. Many of our customers reported yields of over 200 bushels of ears per acre. You cannot possibly be disappointed by planting Buckbee's Private Stock Evergreen. Postpaid, pkt. 8c; 1 pt. 15c; pt. 25c; qt. 40c.

BUCKBEE'S PEDIGREED SWEET CORN

LATE OR MAIN CROP
VARIETIES—Cont'd.

COUNTRY GENTLEMAN

This variety is often called the "shoe pop" corn, owing to the arrangement of the crowded kernels, which are long and very sweet. Our seed of this variety has been carefully selected and is true to name. It is far ahead in flavor of any of the late varieties. It remains tender and fit for use longer than most sorts, as the ear is enclosed in a thick husk, which keeps it "in the milk." Slender, very deep, white, very tender and lusciously sweet. Postpaid, pkt. 10c; ½ pt. 15c; pt. 30c; qt. 50c.

BUCKBEE'S HICKOX

Popular wherever known. One to two weeks earlier than Evergreen. Large, attractive ear, has a white cob and grain and remains in condition for use a long time. Best sort for drying and canning. Postpaid—Pkt., 7c; ½ pt., 12c; pt., 20c; qt., 35c.

STOWELL'S EVERGREEN

The best known and most largely planted of all the late varieties. This corn is distinguished by the large ear, the long, deep kernels, its rich, sugary flavor and its long keeping qualities. Our seed has been selected for its sweetness, productiveness and large size. No better can be obtained. It is Northern grown. Our strain is particularly fine and our price is very reasonable. Buckbee's Private Stock Evergreen, listed on the preceding page, is an exceptionally fine early strain of Stowell's. Postpaid—Pkt., 7c; ½ pt., 12c; pt., 20c; qt., 35c.

MAMMOTH LATE OR SUGAR

Produces the largest ears of any variety, a single ear often weighing two or three pounds. Of excellent quality. Very late. Postpaid, pkt. 8c; ½ pt. 15c; pt. 20c; qt. 35c.

Country Gentleman.

BUCKBEE'S "FULL OF LIFE" POP CORN

Special Offer FOR ONLY 30c we will send prepaid ONE LIBERAL PACKET EACH OF THE 7 GRAND VARIETIES OF POP CORN listed on this page.

Buckbee's New Black Beauty Pop Corn.

Pop Corn should be found in every garden, especially if there are children to enjoy it during the long Winter evenings which bring young people together for social amusement. It is a fact not generally known that Pop Corn pops best when more than one year old, and that when well popped it becomes twenty times its natural size; thus a quart and a half will make nearly a bushel of popped corn. In the illustration will be seen a convenient "popper," which may be bought for a trifle from a hardware store or easily made of wire netting. Did you ever try Pop Corn as a money making crop? You will be surprised at the result. It always brings a very much higher price either shelled or on the ear than any other Corn and usually a ready market is easily found for any quantity, while in the event of an inactive market, it can always be fed and a farmer cannot raise better feed, but if you plant our selected stock seed you will be able to sell your crop to planters in your vicinity at a greatly advanced price.

Golden Tom Thumb.—The newest and best. Dwarf growing; heavy cropping; sure popper. Beautiful golden color, making a beautiful appearing dish when popped. Nothing ever grown can compare with this strain. Send to Buckbee for true stock. Postpaid—Pkt., 10c; ½ pt., 20c; pt., 30c; qt., 50c.

Buckbee's Snowball.—The finest white variety in existence belonging to the rice family. The best yielder, and far in advance of any other variety, ears averaging six inches in length. Beautiful shape; the best popper. Postpaid—Pkt., 5c; ½ pt., 15c; pt., 25c; qt., 40c.

New Red Beauty.—Fine variety. The stalks grow six feet high, and average three to four ears each from five to six inches long and covered with large rice-shaped kernels of a deep red color. Postpaid—Pkt., 5c; ½ pt., 15c; pt., 25c; qt., 40c.

Queen's Golden.—One of the very best and most prolific varieties grown. Its quality and handsome appearance when popped are very noticeable. It pops perfectly white, and a single kernel will expand to a diameter of nearly one inch. The stalks grow six feet high and the large ears are produced in abundance. Postpaid—Pkt., 5c; ½ pt., 15c; pt., 25c; qt., 40c.

Mapleleaf Prolifer.—The stalks grow six feet high, and the ears are all large in size, with grains nearly clear white in color. An average ear measured six inches and a half long and contained 585 perfect kernels. Pops pure paper white, of fine quality. Be sure to include this remarkable variety in your order for Pop Corn. Postpaid—Pkt., 5c; ½ pt., 15c; pt., 25c; qt., 40c.

New Striped, or Variegated.—A fancy variety, very showy and of the best quality. Rather large ears, filled out with clear transparent white kernels, beautifully striped with bright crimson. A good popper. Postpaid—Pkt., 5c; ½ pt., 15c; pt., 25c; qt., 40c.

BUCKBEE'S NEW BLACK BEAUTY POP CORN

The Most Delicious of All.

An extra early variety which pops very large and is the most tender and crisp of all. Although the kernels are black, this color does not seem to show at all when popped, being then a pearly white. This new variety has been bred in Wisconsin and is extremely early, ripening so early it may be popped the same season as grown, without kiln drying. Ears about six inches long, well-rowed; kernels smooth, shallow, nearly square. Postpaid—Pkt., 10c; ½ pt., 20c; pt., 30c; qt., 50c.

BUCKBEE'S "FULL OF LIFE" PICKLING CUCUMBERS

German, Gurke; French, Concombre; Spanish, Cochimbros; Swedish, Guarka

BUCKBEE'S NEW ROCKFORD PICKLE

Without question the finest variety for pickling, possessing every qualification required of a perfect pickling cucumber and is four-to-one in productiveness compared with other standard sorts.

It has become a general favorite everywhere and is used exclusively by many pickle factories throughout the country. The fruit is of medium size, slender, cylindrical, with large spines and of dark green color. It is wonderfully even in growth and the whole crop can be depended upon to make fine shaped pickles. The vines begin to set the fruit when quite young and continue to bear longer than any other variety, yielding many hundred bushels per acre. You will find this variety valuable for slicing also, being of fine flavor, crisp and delicious. We control the entire stock of this variety. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 60c; lb. \$1.00.

EARLY GREEN CLUSTER

Fruit is of the form desirable for pickling. Extraordinarily prolific, growing in clusters of 2 or 3 cucumbers. Nothing more desirable for small pickles. If the fruit is kept closely gathered the vines will continue bearing.

Pkt. 3c; oz. 7c; 2 oz. 12c; ¼ lb. 22c; ½ lb. 40c; lb. 75c.

NEW PARISIAN PROLIFIC PICKLING

One of the best in quality for pickling. The fruit is of an unusually dark green color, so deep that no coloring matter is necessary in preparing them for the pickling market. Very crisp and tender. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; lb. \$1.00.

NEW EMERALD

Described an acquisition, being strictly an evergreen, holding its beautiful dark green color unchanged for a week after picking, thus fitting it for shipping long distances. The plants set early. The fruits are cylindrical, straight, almost spineless. They

BUCKBEE'S NEW EARLY LONG GREEN

Produced by selection from Long Green. Vines vigorous and productive, forming fruit fit for the table nearly as early as the shorter sorts. Fruits measure often 15 to 20 inches when fully matured. They are of fine quality, firm and crisp. Highly valued for slicing. The young fruits make the best pickles, and when

Buckbee's New Early Long Green.

BUCKBEE'S INTERNATIONAL

This grand, good, early variety of our own introduction more than pleased all who have tried it. Has no thick ends; of rich, luxuriant growth, an abundant yielder; has beautiful medium-sized fruit always of good, even shape. In flavor it has no superior, always tender and crisp. You should not fail to try it. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; lb. \$1.00.

EARLY PROLIFIC SHORT GREEN, or EARLY FRAME

A most excellent sort for pickling as well as for slicing. Vigorous, productive plants. Fruit straight, handsome, crisp and tender. Keeps green a long while. Our stock is A1. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

SNOW'S PICKLING

An early maturing, very small, dark green cucumber, cylindrical, square ended and very popular with growers for small pickles. We have been growing this variety ourselves for several years, giving special attention to purity and uniformity of type, and we believe the seed we offer meets in all respects the requirements of those who want an ideal bottle pickle.

Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; lb. 90c.

NEW EVERBEARING

The merit of this variety is in the fact that the vines produce fruit continuously until killed by frosts. They exhibit at the same time cucumbers in every stage of growth, but invariably of perfect form, even when quite small. The fruit is of fine green color and very desirable for pickling. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; lb. 90c.

are longer and slimmer than Early White Spine. For slicing, the flesh is tender and crisp, with a most pleasing flavor. Excellent for pickles when young and fine for sweet pickles when ripe. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; lb. 90c.

BUCKBEE'S NEW EARLY LONG GREEN

The Ideal Variety to Plant for General Crop.

ripe are preferable to any for sweet pickles. Our strain is the finest in the market, producing fruits uniformly long, slender, of fine dark green color and of good form, with the large warts and spines well distributed over the surface. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 60c; lb. \$1.00.

QUALITY
NOTHING BUT
QUALITY

BUCKBEE'S "FULL OF LIFE" CUCUMBERS WHITE SPINE SORTS

Buckbee's First Crop.

BUCKBEE'S NEW ALASKA

Beautiful in shape and color and of the finest quality. An entirely new and distinct sort developed by ourselves through very careful selection, aiming to secure the best possible table cucumber. The vine is vigorous and productive and comes into full bearing very early. The fruit is of fine shape with very white, crisp and tender flesh. An excellent sort for culture under glass. The fruits are about 7 to 8 inches long and are ready for the market between Buckbee's First Crop and Monarch.

Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 50c; lb. 90c.

Buckbee's New Alaska.

BUCKBEE'S MONARCH WHITE SPINE

The Most Profitable Cucumber for Truckers' Cultivation. Extremely Early. A True Evergreen. The Greatest Yielder. The Best for Shipping, the Ideal for the Home Garden.

An extra early White Spine Cucumber; fruits are ready to gather only 5 or 6 days later than Buckbee's First Crop, which is the earliest Cucumber grown. But they are much larger, growing usually from 8 to 10 inches in length. They are nearly cylindrical in form, slightly pointed at the ends, very smooth, straight and of intensely rich dark green color; are very uniform in shape, size, color, always retaining their beautiful color until fully ripe, and presenting the finest appearance on the market. The flesh is white, fine grained, solid and of excellent flavor. The vines are robust, free of disease, setting on fruit quite early and bearing continuously until frost. They produce the largest crop of any known variety.

The Monarch is a sport of the Early White Spine. We have devoted many years to perfect it by careful re-selection of the finest specimens, but it has been tried now throughout the entire country and has not been found wanting in a single point. We recommend it as the best strain of Extra Early White Spine for the market and for the home gardener. It is one of the finest Cucumbers for slicing and one of the best for small pickles. This is the variety mostly grown for the market in the south, yielding crops there of more than \$1,000.00 per acre and is matchless for shipping long distances. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 60c; lb. \$1.00.

BUCKBEE'S "Full of Life" CUCUMBERS

Davis Perfect.

DAVIS PERFECT, BUCKBEE'S PRIVATE STOCK

The Most Popular of Extra Long White Spine Cucumbers, Both for Indoor and Outdoor Planting.

In the northern states where long varieties of cucumbers are preferred on the markets, Davis Perfect is the one mostly grown by market gardeners, and is also the most productive and the most perfect and handsome in form and color of the long White Spine sorts. There is always a ready sale for these beautiful, slender, dark green fruits, which measure from 12 to 16 inches

in length and always retain their color until fully matured; and this color, the handsomest of all cucumbers, is alike on field and hothouse-grown stock. About a week or 10 days later than Monarch White Spine. We have the finest strain of this variety in the country. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 60c; lb. \$1.00.

KLONDIKE

An extra fine new strain of White Spine, with very dark green skin. Extremely popular in the South to ship North. Good for table, market or pickling. Comes into bearing early and continues through the season. Wherever it is sold to market gardeners it has become their main crop, and the demand for it is growing rapidly. The fruit is firm and hard and keeps in prime condition a long time after picking. It grows about 8 inches long and matures between Monarch and Davis Perfect. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00.

NEW CUMBERLAND

The form is exceptionally straight and symmetrical, making them as choice for a slicing variety as for pickles. The flesh is firm, very crisp and tender at all stages. The fruits are of light green color and possess the distinctly roughened surface desired for pickles. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; lb. 90c.

NEW IVORY KING

Fruit large, clear white, tender and excellent in flavor. Splendid for home garden and the best white skinned variety. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c; lb. \$1.25.

We can supply the following varieties of Cucumbers, which are well known to require description, at following prices: IMPROVED LONG GREEN, ARLINGTON IMPROVED WHITE SPINE, EARLY WHITE SPINE, BOSTON PICKLING OR GREEN PROLIFIC, EARLY RUSSIAN, WESTERFIELD'S CHICAGO PICKLE, PEERLESS WHITE SPINE, NICHOLS' MEDIUM GREEN. Each pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 35c; ½ lb. 45c; lb. 85c.

Japanese Climbing.

ODD CUCUMBERS SNAKE OR SERPENT

This Cucumber is curious as well as useful. We have seen it 6 feet in length, coiled like a serpent. It is an interesting thing in the garden and for exhibition purposes. It is good for food, of fine quality. Pkt. 5c; oz. 15c.

LEMON CUCUMBER

A real Cucumber, not to be confounded with the Garden Lemon. An entirely distinct variety, similar in shape of a lemon and when ripe of same color. Skin smooth, flesh white, tender, crisp. A sweetness and luscious flavor surpassing all other Cucumbers. Will yield four times as many Cucumbers as any other variety. Should be in every garden. Pkt. 5c; oz. 25c; 2 oz. 40c.

GIANT PERA

Of enormous length, often 2 feet long and of great beauty. Crisp, brittle, of mild flavor, with but few seeds. Pkt. 10c; oz. 20c; 2 oz. 35c.

JAPANESE CLIMBING CUCUMBER

The vines are of vigorous growth, with dark green foliage and have strong tendrils, enabling them to climb trellises, brush, etc. Comes into bearing quickly and continues abundantly through the season, while the climbing habit enables the fruit to grow perfectly straight—from 12 to 18 inches in length. Thick, tender and delicate flavor. Flesh pure white. When young makes attractive pickles. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 55c; lb. \$1.00.

Gherkin.

WEST INDIA GHERKINS

Used exclusively for pickling. Small oval-shaped, prickly fruit. Pkt. 4c; oz. 15c; 2 oz. 25c; ¼ lb. 45c.

Lemon Cucumber.

Chervil, Curled.

Chervil

German, KERBEL; French, CERFIL.

Hardy annual, worthy of more general use for flavoring and garnishing. More beautiful than Parsley.

CURLED—Greatly superior to the old, plain variety; earlier, more handsome, having fully as fine perfume and flavor. Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 45c.

Chives

Also Called Schnittleach.

Chives are perfectly hardy perennial plants of the Onion type. They are grown for their small leaves which are produced very early in the spring and are used for giving a mild Onion flavor to various dishes. Easily raised from seed. Pkt. 10c; oz. 50c. Selected clumps or plants by mail 20c each; \$1.25 per doz., postpaid.

Cress

German, KRESSE; French, CRESSON, Span- ish, MASTRUCO; Swedish, KRASSE.

NEW UPLAND CRESS—Has the highly prized flavor of Water Cress. Its usage should be more general, as it is of as easy culture as Spinach. It is a perennial plant and can be grown for several years without renewal. Pkt. 5c; oz. 25c.

CURLED OR PEPPER GRASS—This small salad is much used with Lettuce, to the flavor of which its warm, pungent taste makes a most agreeable addition. Pkt. 3c; oz. 7c; 2 oz. 12c; ¼ lb. 20c.

TRUE WATER CRESS—This is quite distinct from the last and thrives only when its roots and stems are submerged in water. Pkt. 10c; oz. 35c.

The Wonderful Coffee Berry

The Greatest Health Drink—Once Tried Always Used.

All pronounce it better than the genuine. It is certainly the best berry to mix with other Coffee. Half and Half will produce a drink claimed by many to be equal to a good cup of Rio. You can raise your own coffee for one cent a pound. Full directions on every package. Our seed is genuine. Large pkt. 5c; ¼ lb. 10c; ½ lb. 17c; 1 lb. 30c.

New Upland Cress.

Chicory, Large Rooted.

CHIVES - SCHNITTLEACH.

Asparagus Chicory.

Witloof Chicory.

Chicory

German, CICHORIE; Swedish, CICORIA.

LARGE ROOTED OR COFFEE—Dried and prepared roots are used quite extensively as a substitute for and an adulterant of Coffee. Pkt. 5c; oz. 15c; 2 oz. 28c; ¼ lb. 50c.

ASPARAGUS CHICORY—A singular, good, healthy and tasty substitute for the well known "Asparagus" and can be produced in abundance from seed planted the first year. The second growth of tender sprouts which springs from the roots of this plant, make a most excellent substitute for the genuine article. The benefit derived from the use of the stems, by persons troubled with stomach disease or weak digestion is remarkable. Pkt. 10c; 3 pkts. 25c; oz. 60c.

WITLOOF CHICORY OR FRENCH ENDIVE.

The Famous Winter Salad.

A delicious winter vegetable which is really a variety of Chicory, but is sometimes called French Endive. Forms leaves like Cos Lettuce and can be eaten raw as a salad or boiled. Being available in winter, will make a profitable crop. The plant forms long Parsnip-like roots, these should be lifted in the Fall, cutting off the leaves and then stored in soil in a cool place until wanted for forcing.

The roots should be planted in a trench sixteen to eighteen inches deep and placed upright about one and one-half to two inches apart. It requires about one month to force the roots; the heads are cut off with a small portion of the root extensively. Pkt. 5c; oz. 18c; 2 oz. 35c; ¼ lb. 60c.

Corn Salad

(Fetticus or Lamb's Lettuce.)

This delightful salad is used during the late Fall, Winter and Spring months as a substitute for Lettuce. It is also cooked and used like Spinach. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 25c.

Corn Salad.

Collards.

Collards

GEORGIA, SOUTHERN or CREOLE.

A variety of Cabbage known in different sections as "Cole," "Colewort," or simple "Greens." It is extensively used in the South. We offer the true white or green stemmed sort so popular in the South. Forms a large, loose, open head, as a mass of leaves on tall stems. Growing does not injure, but rather improves their quality. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 25c.

Chufas, or Earth Almond.

BUCKBEE'S XX SOAP.
For Plant Insects.
See page 176.

Chufas or Earth Almond

In sweetness and flavor very much resembles a coconut or almond and greatly liked by all children. Vary in size from a large pea to a hazelnut. The nuts grow under and very near the surface of the ground, easily reached and relished by pigs and poultry. As soon as the crop is grown, turn the animals into the field, thus saving the labor of harvesting and feeding. Pull up a few plants by the roots and leave them on the ground, and when either hogs or chickens get a taste of them, they will go over the whole field in search for them. Very prolific, nutritious and fattening. Pkt. 5c; ¼ lb. 10c; ½ lb. 18c; 1 lb. 30c.

Buckbee's "Full of Life" Egg Plant

EIERPFLANZE, German; AUBERGINE, French; BERENGENA, Spanish

BUCKBEE'S NEW EARLY LARGE PURPLE

Better variety than New York Purple. Its earliness, large size, high quality of fruit, and its extreme productiveness make it the most profitable to grow. Plants large, spreading; foliage light green. Fruit very large, oval or short, pear-shaped; skin smooth, deep purple, flesh nearly white. Plants ripen two to six large fruits, entirely freed from spines. Pkt. 10c; ½ oz. 25c; oz. 45c; 2 oz. 80c; ¼ lb. \$1.50.

BUCKBEE'S NEW WHITE

Produces large fruits, and is very productive. The flesh is more tender and flavor more delicate than that of many purple varieties. Pkt. 10c; ½ oz. 25c; oz. 45c; 2 oz. 80c.

IMPROVED NEW YORK PURPLE

Large, round or oval, of excellent quality, highly esteemed in market. Pkt. 5c; ½ oz. 25c; oz. 45c; 2 oz. 80c; ¼ lb. \$1.50.

NEW BLACK BEAUTY

This recently introduced Egg Plant is from ten days to two weeks earlier than the old New York Purple varieties, and of rich, lustrous, purplish black color, and is a most distinct sort and a favorite where known. The plants are remarkably healthy in their growth, and yield an abundance of large fruits, which are very attractive in appearance. This variety is entirely spineless. The fruits are of the very finest possible quality. Pkt. 10c; ½ oz. 25c; oz. 45c; 2 oz. 80c; ¼ lb. \$1.50.

EXTRA EARLY LONG PURPLE

One of the earliest and most productive varieties. Fruit long, dark, rich purple, and of fine quality; earlier, but smaller than New York Purple. Pkt. 10c; ½ oz. 20c; oz. 35c; 2 oz. 65c; ¼ lb. \$1.25.

TOMATO EGG PLANT

A very great curiosity. Vine has every appearance of an Egg Plant, but bears a bright red, solid Tomato. It yields as high as sixty beautiful Tomatoes to a single plant. Do not fail to try it. Pkt. 10c.

FOR PLANTS SEE PAGE 83

Honey Plants

SPECIAL MIXED—From all the best honey plants that bees feed upon. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. \$1.00.

Buckbee's New Early Large Purple Egg Plant.

Endive or Winter Lettuce

This is one of the most refreshing of all Autumn and Winter salads. Endive may be grown at any season of the year, but is more generally used late in the Fall. Blanch by tying up the leaves in a conical form for about 10 days before using.

EVER WHITE OR GREEN CURLED—A very attractive sort; moderately dense heads with divided leaves which are light yellowish green and blanch readily to creamy white. Pkt. 4c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 65c; lb. \$1.25.

NEW MOSS CURLED (Endive)—A dense cluster of finely cut-in green leaves, resembling a tuft of moss; when properly blanched they are crisp and tender. Pkt. 4c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 65c; lb. \$1.25.

BATAVIAN—This is the vegetable that is known to many as Escarole. Large heads of broad, thick leaves which can be blanched a fine white and are unsurpassed for salad or make excellent cooked greens. Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 45c; ½ lb. 80c; lb. \$1.50.

Horse Radish

Horse Radish rarely produces seed, but is grown from pieces of the roots.

New Bohemian or Mollner Kren.

Ordinary Horse Radish is a very profitable crop, but with this magnificent new sort from Bohemia the possibilities are wonderful. The roots are so much larger and heavier that the yield is about doubled. Then, too, it matures so much quicker that the crop can be sold in October. The flesh is pure white. Three and four tons per acre can be grown easily. Fine Sets, postpaid, 25c per doz.; \$1.25 per 100. By express or freight, not prepaid, 100 for 95c; 500 for \$1.50; 1,000 for \$8.50.

COMMON HORSE RADISH.

The old-fashioned standard variety. Sets or Roots, postpaid, 15c per doz.; 75c per 100. By express or freight, not prepaid, 100 for 60c; 500 for \$2.75; 1,000 for \$5.25.

Egg Plant,
Extra Early Long Purple.

Dandelions

Improved Large Leaf.

An improved variety of Dandelion, very early. Leaves fully double the size of the common Dandelion. Sow in May or June and cultivate during the Summer, and the following Spring the leaves will be fit to eat.

Cultivated Dandelions are fast becoming favorite Spring Greens. If blanched like celery they make a fine and delicious salad. The roots when dried and roasted are often employed as a substitute for coffee. Pkt. 5c; oz. 10c.

Garlic.

Endive—New Moss Curled.

Garlic

German, Knoblauch; French, Ail.

The Garlic is the most pungent in taste and has the strongest odor of all the Onion family. It is largely used in the South of Europe, where it is esteemed for flavoring soups, stews, etc. The root or bulb is composed of many small bulbs called "cloves," which are planted in the Spring. We frequently receive orders for Garlic seed, but can supply the bulbs only. Fine bulbs—¼ lb. 15c; ½ lb. 25c; lb. 50c, postpaid.

Horse Radish, New Bohemian.

BUCKBEE'S NEW CALABASH PIPE GOURD—Light and attractive pipes can be made from the fruits of this Gourd by any one at a nominal cost. They are the lightest pipes made for their size, are graceful in shape, color like meerschaum, and are delightful smokers. Pipes made from the imported gourds are very expensive. American dealers usually charging \$8.00 to \$12.00 apiece for them. The plant thrives and grows luxuriantly in all parts of the United States, from New England to the Gulf, and from the Atlantic to the Pacific, producing in great abundance the fruits or gourds from which the pipes are made. The Vine is also very ornamental and useful for covering fences, unsightly places, etc. Price, 10c per pkt.; 3 pkts. 25c.

NEW JAPANESE DISH CLOTH, OR LUFFA—Ornamental enough for a house vine and fruit is very useful. Fruit enormous, two feet in length, and borne in great profusion. The lining of mature fruit, when washed and bleached, is porous, tough, elastic, sponge-like, making the nicest, cleanest substitute for dish cloths and bath sponges imaginable, besides being useful for various articles of fancy work. Pkt. 4c; oz. 25c.

SUGAR TROUGH—Enormous, hard-shelled fruit, holding from 3 to 10 gallons each, and as they never rust or rot, and are very light and strong, are just right to use as receptacles for lard, salt, seed corn, soap, etc., or to use as nesting boxes, etc. They last for years. Pkt. 4c; oz. 15c; ¼ lb. 40c.

GOURDS CALABASH PIPE

←Bowl

GOURD

Stem →

TRUE NEST EGG—Resembling in color, shape and size the eggs of hens. Do not crack, last for years, and make the best of nest eggs. Rapid grower and good climber, extremely ornamental, and useful for covering screens, etc. Pkt. 4c; oz. 20c.

HECULES CLUB—Enormous, long club-shaped fruit, curious and at the same time exceedingly useful to use in storing various articles, as the fruit is hard shelled and lasts for years in perfect condition. Pkt. 4c; oz. 20c.

NEW SERPENT—A beautiful climbing variety of easy culture, heavy foliage and serving as the best shade. None better for climbing purposes. Pkt. 10c.

DIPPER—Another useful gourd that, as its fruit is light and strong and does not rust, rot or heat easily, is just right to use in dipping hot liquids, soap, etc., besides being useful for birds' nests, fancy hanging baskets, etc. They hold from a pint to a quart and a half each. Pkt. 4c; oz. 15c.

NEW SPOON—Small fruits with slender neck four to five inches long, brilliantly marked in green and orange with white or light green stripes. By slicing off a portion on the side of the bowl and drying the shell, a spoon may be made. They will be found quite useful also in darning stockings and glove-fingers, while the dry fruits with the seeds left in make fine rattles for the baby. Pkt. 10c; oz. 40c.

FINEST MIXED—Combining in the largest mixture the most curious, interesting and useful of the entire Gourd family. Pkt. 4c; oz. 10c.

KALE OR BORECOLE

German, **KAETTER-KOHL**; French, **CHOUVERT**.

1 oz. of seed for 3,500 plants.

DWARF EXCELSIOR GREEN MOSS CURLED KALE—(German Greens or Sprouts).—This is harder than Chouverts, and makes excellent greens for Winter and Spring use. The leaves are as curly as Parsley, tender, and of very fine flavor. It is improved by frost. Sow the seeds in May or June, transplant in July and treat same as Cabbage. Immense quantities of this are grown in the South and shipped to Northern markets. Pkt. 4c; oz. 10c; ¼ lb. 35c; ½ lb. 65c; 1 lb. \$1.20.

TALL GREEN CURLED SCOTCH—This variety is very hardy and is improved by a moderate frost. About thirty inches tall, with an abundance of green leaves, which are densely curled and crinkled. Stands the Winters in the Middle States without protection. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; 1 lb. 95c.

SIBERIAN—One of the best known and most largely used varieties of Kale. It is sometimes called Sprouts or German Greens. The green leaves are very large, and comparatively plain in the center, but coarsely cut and distinctly frilled on the edges. The plant is low but spreading and very hardy. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; 1 lb. 85c.

SEA KALE—A valuable new vegetable, grows same as celery. Pkt. 5c; oz. 25c.

KOHL RABI

German, **KOHL RABI**; French, **CHOURABLE**.

A vegetable intermediate between the Cabbage and Turnip, combining the flavor of both. Edible part is a turnip-shaped bulb, formed by swelling of stem. When used for the table this should be cut when quite small, as it is then very tender and delicate.

KING OF THE EARLIEST—WHITE—Early and choice. Handsome white bulb. Pkt. 4c; oz. 20c; 2 oz. 35c; ¼ lb. 60c.

IMPROVED EARLY IMPERIAL—PURPLE—Color bright purple, with leaf stems tinged with purple. Pkt. 4c; oz. 20c; 2 oz. 35c; ¼ lb. 65c.

LEEK

German, **LAUCH**; French, **POIREAU**.

Belongs to the Onion family. Sow the seed and care for the young plants as for Onions.

NEW FLAG—We offer a very superior stock of this popular variety, so largely grown for Fall and early Winter use. It is of quick strong growth, producing long stems of uniform shape and size, averaging 2 inches through by 10 inches long, blanching beautifully white and of fine, mild flavor. Pkt. 4c; oz. 15c; 2 oz. 35c; ¼ lb. 40c.

ROUEN VERY BEST WINTER—The best variety for winter and spring use, being very hardy; It keeps well when earthed up. Splendid for flavoring. Immense stocky stems 3 inches in diameter; 6 to 8 inches long, snow white and of delicious flavor. Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 45c.

Kale, Excelsior Moss, Curled.

Kale, Tall Green Curled Scotch.

Leek, Rouen.

HERBS Pot, Sweet and Medicinal

Anise.

Balm.

Caraway.

Coriander.

Dill.

Fennel, Florence.

ANISE—Annual. Seeds used for cold, for colic and nausea. Leaves used for garnishing and flavoring. Pkt., 5c; oz., 10c.
BALM—Perennial. The leaves are used for making a pleasant beverage known as Balm Wine or for Tea in case of fever. Pkt., 5c; oz., 20c.
BASIL—Sweet—Annual. The leaves are used in flavoring soups, stews and highly-seasoned dishes. Pkt., 5c; oz., 15c.
BORAGE—Annual. Leaves used for flavoring, and flowers furnish bee pasture, most easily grown in any waste place. Pkt., 5c; oz., 15c.
CATNIP or **CATMINT**—Perennial. Grown for bee pasture. Leaves and young shoots are used for seasoning. Pkt., 5c; oz., 30c.
CARAWAY—Perennial. Seeds are used for flavoring bread, pastry, meats, etc. The oil relieves gas on the stomach and prevents griping. Pkt., 4c; oz., 10c.
CHAMOMILE—Annual. Makes valuable poultices. Decoction also for diseases of the stomach. Pkt., 10c.
CORIANDER—Annual. The seeds are used in the manufacture of liquors, in confectionery and culinary preparations. Pkt., 4c; oz., 10c.
DILL—Annual. Fruit is warming, stimulating and quiets nervousness. The tea is good for colic and prevents hiccough. Used largely for pickling with cucumbers. Pkt., 4c; oz., 10c; 2 oz., 15c; 3/4 lb., 25c.
ENNEL—Sweet—Perennial. The leaves are ornamental. When boiled are used in fish sauce, also make a splendid tea for colic. Pkt., 4c; oz., 10c.

FLORENCE FENNEL (Finochio)—Annual. A delicious vegetable which should be more largely grown in this country. It is extensively used in Europe as a salad, and also may be served boiled. When the enlargement of leaf stalk, at base of stem, is about the size of a hen's egg it should be cut up, and in about ten days cutting may be commenced and continued as the plants increase in growth. The flavor is somewhat like celery, but it has a sweet aromatic taste and delicate odor. Quite distinct from Sweet Fennel. Height 2 feet. Pkt., 5c; oz., 15c; 2 oz., 25c; 3/4 lb., 40c.
HOARHOUND—Perennial. Used for seasoning, also for the manufacturing of the popular cough remedy. The tea is a remedy for colds and lung affections. Pkt., 5c; oz., 15c.
LAVENDER—Annual. An aromatic medicinal herb. The leaves are used for seasoning, the flowers for perfume. Pkt., 5c; oz., 20c.
MARJORAM, **SWEET**—Perennial. The leaves and the ends of the shoots are highly esteemed for seasoning. Pkt., 4c; oz., 15c.
PENNYROYAL—Perennial. The tea is valuable for colic. The fresh herb is obnoxious to mosquitoes. Pkt., 10c; 3 pkts., 25c.
ROSEMARY—Perennial. An aromatic herb. Leaves used for seasoning. The tea produces sweats. Oil is valuable in neuralgia, rheumatism and lumbago. Pkt., 5c; oz., 30c.
RUE—Perennial. For medicinal purposes; good for fowls for the roup. Pkt., 4c; oz., 15c.

SAGE—Perennial. The most extensively used of all herbs for seasoning and dressing. Pkt., 4c; oz., 15c; 3/4 lb., 40c.
SUMMER SAVORY—Perennial (Bohnenkraut). The leaves and flowers are used for flavoring soups and dressings. Pkt., 4c; oz., 15c.
THYME—Annual. The leaves and young shoots are used for seasoning; a tea is also made of the leaves; a remedy for headaches. Pkt., 5c; oz., 30c.

The Best Herb Plants

Peppermint.—From the leaves of this plant is distilled the well known peppermint of commerce. The green leaves and stems have the same effect as the essential oil, and to most persons the flavor is very pleasant. Hardy Perennial. Strong plants, each, 10c; 3 for 25c; doz., 75c, postpaid.

Spearmint.—The plant which produces the mint of the markets and largely used for culinary purposes. It is also used in concocting the refreshing Mint Julep, so popular in some sections. Hardy Perennial. Strong plants, each, 10c; 3 for 25c; doz., 75c, postpaid.

Holt's Mammoth Sage (Hardy and Everlasting).—Holt's Mammoth is a great improvement upon the ordinary Garden Sage; its leaves being four to five inches long, clean and perfect. They are held well up from the soil, are rich in flavor and of great substance. Perfectly hardy; does not produce seeds. Each, 10c; 3 for 25c; \$1.00 per doz., postpaid.

Tarragon or Estragon.—The True Tarragon.—The leaves of young shoots of which are much prized by many as an ingredient in soups, salads, stews, cakes, etc. Leaves may be used in a fresh state, or cut in the autumn and dried. Hardy Perennial. Strong plants, each, 15c; for 25c; doz., \$1.25, postpaid.

Holt's Mammoth Sage

Lavender.

Lavender (Old-Fashioned Sweet). The leaves are sometimes used for seasoning, but the plant is chiefly grown for its fragrant flowers which are used for the distillation of Lavender Water or dried and used to perfume linen. Hardy Perennial. Strong plants, 15c each; 2 for 25c; \$1.25 per doz., postpaid.

Buckbee's "Full of Life" Lettuce

Curled or Loose Leaved Varieties

German, SALAT; French, LAITUE; Spanish, LECHUGA; Swedish, LAKTUK.

Lettuce.

**Buckbee's
Earliest
Forcing**

BUCKBEE'S EARLIEST FORCING

For those who like a large, thin, exceedingly tender leaf, and for those markets which demand a large, loose cluster of leaves rather than a solid head, this is the best variety for forcing and growing in the open ground. The plants form a large, loose head, light yellowish green in color, and blanched nicely. The leaves are very much blistered and crumpled, crisp, and are of excellent quality. This is the earliest of all Lettuce; it is a

splendid shipper, of beautiful appearance and keeps in good condition better than any other sort. It is a money maker for the market gardener, either if sown under glass or outdoors, and is very satisfactory for the home garden. We control the entire stock of this variety. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c; 1 lb. \$1.25.

GRAND RAPIDS FORCING

**Buckbee's
Private Stock.**

New variety of superior quality and beautiful in appearance, a strong grower, free from rot; one of the best for forcing keeps crisp and tender without wilting, when exposed for sale longer than any other forcing Lettuce. Pkt. 4c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 95c.

IMPROVED BLACK SEEDED SIMPSON

**Buckbee's
Private Stock.**

Acknowledged one of the best early forcing varieties. Leaves are a delicate green, almost white, crisp, tender and sweet. Very early, easily grown, very reliable, does well in hot Sturmers when others fail. Largely grown for the market, but also very popular for the home garden. Pkt. 4c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 95c.

SIMPSON'S EARLY CURLED

A decidedly crisp variety. Color, very light green; new spotted or brownish in any part. Quality excellent; sweet flavor. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

TILTON'S WHITE STAR

Of the Black-Seeded Simpson type, but quicker growing, and has larger, smoother, broader, thicker and darker-colored leaves. Pkt. 3c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

TOMHANNOCK

Handsome Reddish Bronze Lettuce.

Edges of outer leaves are a reddish bronze; within, the leaves are almost white. Very crisp, tender and sweet. Pkt. 5c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00.

Early Prize Head.

EARLY PRIZE HEAD

This old standard sort still stands at the head of the large, thin-leaved clustering sorts for the home garden; exceedingly tender, crisp and sweet. There is more Prize Head Lettuce grown in this country than any other variety. It is a most reliable variety for all-the-year-round cultivation. Leaves light brown, varying to bright green. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

Dwarf White Heart.

Cos Lettuce

Cos Lettuce is distinct from other varieties, in having long, narrow, spoon-shaped leaves, folding into loose, sugar-loaf shaped heads, which blanch better by having the outer leaves drawn about them and tied.

PARIS WHITE COS—Grows to very large size, producing long, pointed, compact bunches of light green color and fine flavor. Succeeds well in Summer, grows to immense size. Plants often weigh 5 or 6 pounds each. Pkt. 4c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 95c.

DWARF WHITE HEART OR CELERY—Noted for its most excellent flavor. Earliest in cultivation. The plants grow about 8 inches high and 4 to 5 inches across. Of stiff growth, every plant making a well developed head of the most excellent flavor, and crisp and tender. Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c; 1 lb. \$1.25.

Tomhannock Lettuce.

BUCKBEE'S "Full of Life" LETTUCE—Butterhead Varieties

**BUCKBEE'S
ICE
DRUMHEAD**

The Longest
Keeping
Head
Lettuce

QUALITY
NOTHING BUT
QUALITY

A Sure Header, Slow to Run to Seed, Unaffected by Hot Weather
Crisp, Tender and Delicious. Absolutely Free from Bitterness.

Buckbee's Ice Drumhead

A Sure Header, Slow to Run to Seed, Unaffected by Hot Weather. Crisp, Tender and Delicious. Absolutely Free from Bitterness. It grows rapidly; heads very early, only little later than May King, but the heads are much larger, as large as Dutch Cabbage and solid as that. The leaves are thick, broad, light green outside, changing towards the center from a golden yellow to a creamy white. The heads are as palatable, as beautiful; very tender, never bitter, of deliciously sweet, buttery flavor. Buckbee's Ice Drumhead is a sure header and an all-header. It stands hot weather better than any other variety of its class. Ready for use when quite young until it runs to seed. Buckbee's Ice Drumhead is the best seller of Lettuce we grow. It is immensely popular, especially in the northern and central states, and justly so, as it is unexcelled in its superb quality, beautiful appearance, heat resistance, keeping and shipping qualities. We control the entire stock of this variety. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c; 1 lb. \$1.25.

BUCKBEE'S NEW GOLD COIN

A new Cabbage Lettuce. Entire plant measuring only 7 inches across, while the heads are solid and compact. Outer leaves covered with russet red and bronze green, the solid hearts of light creamy color. Very hardy and early. Quality excellent, tender and of buttery flavor. Pkt. 5c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.

BUCKBEE'S SUPERB

An extra early variety, a few days earlier than May King, but smaller. Mostly used for forcing during Winter, for which purpose it has no superior. Wonderfully crisp, tender and delicious flavor. Pkt. 5c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00.

CALIFORNIA CREAM BUTTER

Also Called Royal Summer Cabbage and German Butter.

Plant dark green, with many nearly round, thick leaves formed into a very solid round head, which stands a long time without running to seed. Leaves very thick, folded or puckered at the base, the outer leaves spotted brown, the inner ones blanched to a rich yellow color. Exceedingly rich, buttery, sweet and nutty in flavor. Especially recommended for the home garden, but also profitable to grow for market. Not used for forcing. Pkt. 4c; oz. 1c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; 1 lb. 80c.

BUCKBEE'S EXTRA EARLY MAY KING

The Earliest Head Lettuce
Grown.

An Ideal Lettuce for planting in the open ground in Spring as well as in Fall and also splendid for forcing. Extremely hardy and very quick growing. Plants grow from 7 to 8 inches in diameter with outer leaves so closely folded that the plant is practically all head. Outer leaves are light green, slightly tinged with brown; inner leaves are bright yellow, of a specially fine, rich, buttery flavor. The round compact heads are very solid, so that they will carry well to market. It attains a size suitable for use before any other large heading variety. Buckbee's May King is an extra fine strain and is much earlier than that mostly sold by others. Pkt. 5c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00.

BOSTON MARKET

Or White Seeded Tennis Ball. A fine sort, fine heads, hardy, valuable to grow in cold frames in Winter. Pkt. 3c; oz. 1c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

Buckbee's Extra Early May King.

BUCKBEE'S "Full of Life" LETTUCE—Butterhead Varieties—Continued

MAMMOTH BLACK-SEEDED BUTTER

Large, solid, cabbage-like heads of smooth, thick, brittle leaves, inner ones becoming very white; tender and fine flavored. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

BIG BOSTON—BUCKBEE'S SELECTED

Very popular variety with gardeners who want a large-heading, forcing sort, and also for outdoor winter culture. Plants large, very hardy and vigorous, with broad, comparatively smooth, thin and bright green leaves. Quite tender. Indoors this forms a solid head, while outside is less distinctively a heading sort. Much grown by southern planters for shipping north. Pkt. 4c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00.

Big Boston Lettuce.

William Lonsway, Thompsonville, Ont., Canada, writes—
I raised 153 bags of first class Onions from one pound of your seed.

All Season.

EARLY BLACK-SEEDED TENNIS BALL

Succeeds everywhere and at all seasons. Sure header, a fine shipper, excellent quality. Pkt. 3c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 65c.

ALL SEASON OR IMPROVED DEACON

This magnificent Butter Lettuce is unsurpassed for family, garden or market use. Light green outside, while the inner blanched portion is a beautiful cream yellow, of delicious, rich buttery flavor. More heat and drought resistant than most varieties of its class. Pkt. 4c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 50c; lb. 90c.

BUCKBEE'S "Full of Life" LETTUCE—Crisp Head or Summer Varieties

WONDERFUL

A Big Money Maker. The Standard Hot Weather Head Lettuce.

A grand Head Lettuce, sometimes called New York, furnishes fine crisp Lettuce during the hot summer months. This is one of the largest varieties grown, producing heads more than 15 inches in diameter. The outer color is rich dark green, but the heart blanches beautifully and is crisp, tender and delicious. It is reliable, a sure header, and is slow to go to seed. Extensively grown in all sections of the country. A good shipper, and most desirable for the private as well as the market gardener. Not used for forcing. Pkt. 5c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00.

DENVER MARKET

Beautiful, large solid heads of light green curly leaves. Pkt. 3c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

Wonderful.

IMPROVED HANSON

A Great Heat-Resisting Sort and Much Used for Midsummer Planting Outdoors.

Large, firm heads, deliciously sweet, crisp and tender. Light green outside, white within. An old, most popular variety. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

NEW ICEBERG

Quick growing and of exquisite flavor. The large curly leaves which cover the outside of the solid head are of bright, light green, with a slight reddish tinge on the edges. They have small indents which are constantly filled with dewdrops, keeping it fresh and showing a remarkable crystalline appearance. We can confidently recommend New Iceberg as always crisp and tender. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

BUCKBEE'S COMBINATION LETTUCE MIXTURE

One Sowing Produces Salad for the Whole Season.

Contains a grand assortment of decidedly distinct and excellent Lettuces. They mature early, medium and late; some curled and crimped, others produce heads. Colors range from almost pure white, through delicate shades of green and yellow to rich golden. All are delightfully fresh, crisp, tender and of excellent flavor. All sizes, from the small early to the mammoth Summer varieties. Liberal pkt. 5c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00.

BUCKBEE'S "Full of Life" MUSK MELONS ROCKYFORD VARIETIES

German, Melone; French, Melon; Spanish, Melon.
The Rockyford or Netted Gem Cantaloupes are without question the most popular and most largely grown Musk Melons. There are a great many different types. We offer here the four finest one which differ from each other mostly in time of ripening, size and color of flesh.

Buckbee's New Honey Boy

EXTRA EARLY, RUST RESISTANT.

A cross of the Early Watters and Eden Gem or Rust Resistant. This is the best early strain of all Rockyford Melons, being as early at Watters and as disease-enduring as Eden Gem. On account of its extreme earliness it brings the highest prices in the market and is a big money maker for the grower.

Exceedingly early—very prolific—ever-bearing sort—yielding heavy crops from early Summer until Fall. The fruit is oval, trifle elongated—solid netting—ideal shipper. Flesh is light green, very thick meat, sweet and delicious flavor. These Melons weigh on an average about 1½ lbs. each. They grow very uniform and a large percentage of them are of standard size, 45 of them filling a crate 12x12x24 inches. You can't go wrong on Buckbee's Honey Boy. Our price for choicest home-grown "Full of Life" Seed is very reasonable. Order early. Large pkt. 5c; oz. 12c; 2 oz. 20c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00.

Hoodoo

SURE CROPPER—SPLENDID SHIPPER.

A new orange-fleshed variety, ideal as a shipping Melon and of the very finest quality. Vine vigorous, remarkable blight-resisting and very productive. The Melons are of medium size, round, heavily netted, flesh very thick, of rich orange, not salmon color, handsome appearance and of the sweetest flavor. Average weight of Melon 1½ lbs. It is of the same size and shape as Honey Boy, but has orange-colored flesh and about ten days later, ripening at about the same time as the two Melons listed below. Hoodoo is wonderfully prolific and without a superior in shipping to distant markets. Large pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 65c.

BUCKBEE'S FAMOUS

ROCKYFORD

PRIVATE STOCK.

Ideal Shipper, Rust Resistant, Exceedingly Prolific. The Melon that Made Rockyford Famous.

This pedigreed Melon we have perfected from the famous Netted Gem, producing fruit a trifle more elongated in shape, covered with a closely interwoven green netting. Blossom end is well protected by a small button, preventing cracking. It is the most popular of all Melons for shipping in baskets. Flesh is bright green, luscious and melting; very thick meat; small seed cavity. Send to Buckbee for originators' genuine selected stock seed. Large pkts. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 45c; lb. 85c.

BUCKBEE'S
NEW HONEY
BOY

BUCKBEE'S NEW GOLD FLESHED ROCKYFORD The Biggest Cropper of All Rockyford Melons

A selection from Buckbee's famous Rockyford (all salmon (not orange) flesh. These two varieties are main crop sorts maturing about 10 days later than Buckbee's Honey Boy, and are the biggest croppers and finest flavored melons grown in Rockyford. They are covered with heavy gray netting over the entire surface, grow very uniform, about two-third standard, and one-third larger size, and are more disease-resistant than any other varieties. Wherever tried the gold fleshed proved the most satisfactory of the two kinds. This Melon is all salmon and is not mixed green and yellow fleshed, as is so often sent out by others. We recommend Buckbee's New Gold-fleshed Rockyford as the highest development of the Netted Gem clone. It is of the finest appearance, the best disease-resister, the heaviest yielder of them all, and brings the highest prices. 1 ct. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c; lb. \$1.25.

BUCKBEE'S
GENUINE FAMOUS
ROCKYFORD.

NOTHING BUT
QUALITY

GOLD FLESHED ROCKYFORD

Buckbee's "Full of Life" Musk Melons—Green Fleshed Varieties

Buckbee's New Prolific Nutmeg

Unsurpassed in Luscious Flavor.

This is a very early Melon of great productive-ness. Particularly adapted for home garden, but also grown for market. Fruit of medium size, slightly ribbed, globular. Skin dark green, becoming yellow when ever ripe, and neatly covered with broad, shallow netting; flesh thick, sweet and light green color. Large pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; lb. 90c.

True Jenny Lind

"FULL OF LIFE" STRAIN.

This is the earliest of all Musk Melons, and one of the sweetest. Size small, from 3 to 5 inches in diameter; flattened, deeply ribbed and well netted. Much sold under other names such as Earliest Ripe, etc. Out strain of seed is the best. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

True Jenny Lind Musk Melon.

New Early Hackensack

This is a Splendid Melon.

The fruit is medium sized, nearly round, evenly and deeply ribbed, with a very coarse netting, and almost as large as the Large Hackensack. The flesh is green, a little coarse, but very juicy, sweet and well flavored. A very early Melon and wonderful yielder and splendid shipper. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 22c; ½ lb. 40c; lb. 70c.

Large Hackensack

The Noted "Turk's Cap" Melon.

About ten days later than the foregoing variety. Fruit very large, weighing from 5 to 6 pounds each; nearly round somewhat flattened; ribs large and of irregular width, densely covered with coarse netting; flesh green, thick, coarse, but very sweet and fine flavored. A favorite with market gardeners and a good shipper. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 22c; ½ lb. 40c; lb. 70c.

New Bush Musk Melon

A VALUABLE NOVELTY—A vineless Musk Melon that can be grown in every garden. The bush habit of growth of this new variety enables it to be grown in small gardens, where the vine sorts could not be grown for lack of room, and they yield about twice as much on the same piece of land than the vine sorts. The fruits are of the popular "Jenny Lind" type, but larger, averaging 5 inches in diameter; they vary somewhat in shape from flattened-round to almost spherical, the ribs are shallow, the surface is dark green, but so densely netted that it appears almost russet colored. The flesh is very deep, edible almost to the rind and is colored light green flushed with salmon towards the center. The seed cavity is small. The quality is superb, lusciously sweet and juicy, with a cool, gratifying flavor and a delightful aroma. They ripen a little in advance of "Rocky Ford." The plants grow from 15 to 18 inches in length and two or three plants can be grown in a hill 2½ to 3 feet apart. Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 45c.

Queen Ann's See Cut

Sweet Scented Pocket Melon or Pomegranate.

A pretty climbing variety; fruit round, size of an orange, of yellow color, striped and spotted red. Flesh not edible; grown for ornament and its agreeable pungent fragrance, sweetly perfuming the room for days. Trained on trellises or arbors it is very ornamental. It is easy to grow. Cultivate like Musk Melons. Pkt. 5c.

Buckbee's New Prolific Nutmeg.

Montreal Market The Famous Forcing Musk Melon.

Giant, showy Melons much used for exhibition purposes, weighing on an average 10 pounds and measuring 8 to 9 inches in diameter. They often, however, weigh 20 to 25 pounds each, and a weight of 44 pounds is on record. Largely grown in the North, especially in Canada, near Montreal, commanding very high prices during the fall months.

It is justly celebrated not only on account of its large size, but also its delicious melting flavor. They are of the green nutmeg type, almost round, heavily netted; deeply and regularly ribbed with thick, luscious flesh; late, especially adapted to cooler climates. Often started under glass. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 55c.

New Garden Lemon

Resembles the Mango Melon in manner of growth, but is distinct in that the unripe fruit is striped with very dark green spots, nearly black, and when ripe is not russeted. Fruit a trifle smaller than the Mango Melon. Has a finer flesh and most desirable acid flavor, thus dispensing with sliced lemon, which is so important in putting up the Mango Melon. Unexcelled for general canning purposes. Cultivate similar to Musk Melons. It is such an enormous yielder. Pkt. 10c; oz. 25c.

The Mango Melon or Vegetable Peach

Very striking in color, most wonderful yielder. (See engraving from nature of a single plant.) Vines of Mango Melon are somewhat smaller than the Musk Melon, requiring same cultivation. Fruit about the size, shape and color of an orange, somewhat russeted. For sweet pickles, pies or preserving they are splendid. In the West and Northwest, where fruit is scarce, they are rapidly becoming popular, as they are easily cultivated, enormously productive, and can be used in every way as the Peach, except that they are not quite as sweet and are not used raw. Pkt. 10c; oz. 25c.

New Garden Lemon.

BUCKBEE'S "Full of Life" MUSK MELONS—Yellow Fleshed Varieties

Burrell's Gem Musk Melon.

BUCKBEE'S PRIZETAKER The World Beating Musk Melon.

This new Melon is at least ten days earlier than Osage. Has a more vigorous vine, and because of its vigorous growth is a great yielder. The fruit is about 6 inches in diameter, round or slightly elongated, slightly ribbed. Color, a peculiar pea green, with netting of a lighter shade. The flesh is firm, fine grained, of a rich salmon-reddish color. In flavor it even surpasses the best grown Osage or Emerald Gem. The flesh extends to the rind and retains its color and quality quite to the outer shell. The flesh is very thick, considering the size of the melon, leaving only a small seed cavity. It is delicious and melting. Pkt. 5c; oz. 12c; 2 oz. 25c; 1 lb. 35c; 1/2 lb. 60c; lb. \$1.00.

ADMIRAL TOGO

Very early; possesses the size, shape, netting, shipping qualities of the small (pony) Rocky Ford Melons; the flesh is pink, orange flavored, rich sugary. A fine table and basket Melon. Pkt. 4c; oz. 12c; 2 oz. 18c; 1 lb. 30c; 1/2 lb. 50c; lb. 80c.

Osage Musk Melon.

Buckbee's Prizetaker Musk Melon.

This Melon has made its way into public favor from the market rather than the garden, and is highly prized by those who like an exceedingly sweet and highly flavored Melon. It is medium to large sized, oval, slightly ribbed, dark green in color, covered more or less with shallow netting. The flesh is deep salmon color, very thick and deliciously rich, sugary, there being but a slight cavity in the center of even the largest fruit. The most popular market Melon in the northern states, not more than a week later than the small earliest Melons; very productive, a long keeper and an excellent shipper. Our stock is unequalled, producing fruits larger, earlier and more netted than seed commonly sold by other dealers. Large pkt. 4c; oz. 10c; 2 oz. 18c; 1/2 lb. 30c; 1 lb. 50c; lb. 95c.

Emerald Gem Musk Melon.

EMERALD GEM Splendid Size, Color and Flavor.

The standard of excellence among the salmon-fleshed varieties. Fruits small to medium size, globular or very slightly flattened at the ends, only slightly netted and ribbed. Skin deep green while young, becoming tinged with yellow as the fruit matures. Flesh deep salmon yellow, thick, ripening close to the rind, sweet, juicy, melting and unsurpassed in flavor. For home use and nearby markets it leads all other kinds on account of its delicious flavor. Choicest stock seed and of our own growing. Large pkt. 4c; oz. 10c; 2 oz. 18c; 1/2 lb. 30c; 1 lb. 50c; lb. 95c.

OSAGE OR IMPROVED MILLER'S CREAM The Boss Home and Market Melon. Original Stock.

QUALITY
NOTHING BUT
QUALITY

PAUL ROSE OR PETOSKEY The Favorite Basket Melon.

In general appearance much like Rocky Ford Netted Gem, but about one inch larger in diameter; oval fruits, lightly ribbed and densely netted. It has flesh of the color and quality of the Osage, very thick, orange yellow, sweet, highly flavored and sufficiently firm to stand shipping short distances to the market. A splendid variety for the home garden. Pkt. 4c; oz. 12c; 2 oz. 18c; 1/2 lb. 35c; 1 lb. 40c; lb. 70c.

BUCKBEE'S WESTERN GIANT

Noted not only for its Great Size, But for its Most Magnificent Flavor and General Good Quality.

A large Melon ripening about the same time as Osage; the flesh is rich, melting and sugary. As an exhibition and large market variety it is grand. It will astonish everyone by its merits, being exceptionally desirable for family and market purposes, or shipping it has no superior. Where size is an object, and there is not a particle of danger of sacrificing quality, Buckbee's Western Giant will always be the most complete satisfaction. Pkt. 10c; oz. 15c; 2 oz. 25c; 1 lb. 40c; 1/2 lb. 75c; lb. \$1.25.

I have raised your Prizetaker Melons for the past 1 years with excellent results. They are most delicious.—J. H. Miller, St. Paul, Minn.

Buckbee's
WESTERN GIANT
Musk Melon

Buckbee's "Full of Life" Musk Melons—Yellow Fleshed Varieties—Cont'd

True Tip Top.

TRUE TIP TOP
The Can't-Be-Best Melon.

We can heartily recommend our pedigreed strain of this variety to every lover of this luscious fruit and to every gardener who grows for the market. Splendid fruits of large size, oval shape, distinctly ribbed, fairly covered with a shallow netting; salmon colored; flesh firm and edible almost to the rind. Sweet, juicy, melting.

ing and delicious. A strong grower, heavy yielder and of handsome appearance. Larger and about a week later than Osage. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 50c; lb. 90c.

BUCKBEE'S NEW STRAWBERRY FLAVOR LIKE THAT OF A STRAWBERRY.

A grand new Hybrid Musk Melon. It grows to be a desirable market size. The fruits weigh from 6 to 8 pounds each. Its outside appearance compares favorably with the green netting of old, turning to a yellowish hue, as it were, over night, when fully ripened. Its smooth, deep flesh is of an attractive orange-red color, particularly soft and melting, and with its exceptionally delicious strawberry flavor leaves nothing more to be desired in a Musk Melon. Price, choicest seed of our own growing: Pkt. 10c; oz. 12c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 75c; lb. \$1.25.

BUCKBEE'S IDEAL

A Most Delicious Melon.

That is the verdict of everyone who has tried this magnificent sort. Weighs from 10 to 15 pounds; exceedingly thin skin. Good keeper and an excellent shipper. The flesh is of a rich salmon color, of a sweet, pleasing and delicious flavor. Pkt. 5c; oz. 15c; 2 oz. 30c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00.

Buckbee's Ideal Musk Melon.

J. C. Akens, Marks-ville, La., writes: Your seeds have proven far more satisfactory than any others I have used.

New Banana.

New Golden Casaba Melon.

NEW YELLOW MEATED JAPAN

A fine large Melon which grows to perfection in the northern states. It is very large, nearly round, only slightly ribbed and covered with a thin gray netting. The skin turns yellowish white when ripe. The flesh is salmon colored, thick, lusciously sweet, melting and of rich, spicy flavor. The vines grow vigorously and are exceedingly productive. A splendid Melon for the home garden and one of the most profitable for the market. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. \$1.00.

New Yellow Meated Japan.

NEW BANANA MELON

This most curious and most exquisitely flavored Melon grows to a length of 18 to 30 inches and is 2 to 4 inches in diameter. The flesh is yellow and quite deep. In appearance and odor it greatly resembles a banana. Seed always scarce. Order early. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 50c; lb. 90c.

NEW CASABA—The Long-Keeping Melons

A great acquisition and destined to become a standard vegetable. These are late maturing Musk Melons, which are largely grown in California, and hundreds of cars of them are shipped from there to the East every year. They do not ripen on the vines in the North, but are gathered there before freezing weather and if properly stored all melons, even half grown ones, will ripen gradually. Sow and cultivate like other Musk Melons. Do not pick until the light streaks become quite yellow. Store away so they do not touch each other in a cool, dark, dry place. When the rind becomes slightly softened and moist they are ready to eat. Some of the Melons will actually keep until February. The seed cavity is small and the flesh thick, of fine texture, juicy and palatable to within one-quarter inch of the skin. The flavor is delicious—almost impossible to describe to do it full justice. There is a decided flavor of pineapple as well as of the best known mild Musk Melon. The skin is mottled green and yellow.

NEW WINTER PINEAPPLE—The original round form, the best keeper of all, will keep all Winter; flesh deep lemon colored, of excellent rich, spicy flavor. Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 45c.
NEW GOLDEN CASABA—Of the same shape as pineapple, golden yellow colored flesh; the best flavored of all Casabas, but does not keep quite as long as Pineapple. Pkt. 10c; 2 oz. 25c.

BUCKBEE'S "Full of Life" WATERMELON SEED THE EARLIEST VARIETIES

BABY DELIGHT

The Baby of the Watermelon, a Delight for the grower on account of its extraordinary prolificness, yielding fully as much, weight for weight, per acre as any of the larger Melons and being earlier than any other, finds always a ready market and brings very high prices; a Delight also for the consumer on account of its convenient size and its luscious sweetness.

This Melon is almost round, and when fully grown measures from 5 to 7 inches each way and weighs from 3 to 6 pounds. The skin is dark green, the rind thin but strong. The flesh of rich carmine color, always solid and of exceptionally sweet flavor. The seeds are very small, resembling apple seed, but of gray color. The vines grow vigorously, often concealing the fruit, which ripens early and continuously throughout the season.

The seed being small (one ounce containing 1,600 seeds) much less seed is required than of other varieties. Baby Delights were the first Watermelons to arrive in 1916 in the northern market, shipped from the South, and these small Melons brought \$3 per crate of 12 Melons. This novel and attractive Melon will surely become very popular for the home garden as well as the market. Pkt. 10c; 3 pkts. for 25c; 1/2 oz. 25c.

HARRIS' EARLY

The Best Earliest Large Shipping Melon.

In form the Melon is oval to oblong; beautifully striped with green and gray; bright red flesh, which is sweet and tender. It is very productive. It is the Melon for everybody to grow who wants to be first in the market with fine large Melons weighing from 20 to 40 pounds. It bears shipment very well, and on account of its extreme earliness, handsome appearance and fine table qualities, always finds a ready sale. Harris' Early ripens about the same time as Cole's, but has a tougher skin and is therefore a better shipper; it also grows larger, but for quality I prefer Cole's. Pkt. 4c; oz. 8c; 2 oz. 12c; 1/4 lb. 20c; 1/2 lb. 35c; 1 lb. 65c.

COLE'S EARLY

The Best Earliest Large Melon for the Home Garden.

Cole's Early is not only one of the earliest varieties in cultivation, but it continues to bear throughout the season. The beautiful bright red flesh is crisp and of delicate texture—granulated, cool and sparkling. In flavor it is lusciously sweet and refreshing. The Melons are not in ge, seldom over 12 inches in length by 9 inches in diameter, but what they lack in size is more than made up in number and solidity. The heart is large, there is little or no cavity, and very few seeds—all solid flesh, the quality of which is sustained clear to the rind. It can be grown successfully over a larger latitude than most other Watermelon, and it will mature large crops in Northern States when the season is at all favorable. This is a Melon for the family garden and local market, the skin being rather tender, making it unfit for shipping. Pkt. 5c; oz. 8c; 2 oz. 12c; 1/4 lb. 25c; 1/2 lb. 40c; 1 lb. 55c.

Baby Delight.

FORDHOOK EARLY

Grows somewhat larger than the preceding kinds, but is also a little later. The fruits are rather short and blocky in form, with large diameter. The skin is dark green, occasionally striped lighter green. The flesh is bright red, crisp, sweet and of splendid quality. Rind quite thin, but tough, making an excellent shipping variety. Pkt. 4c; oz. 8c; 2 oz. 12c; 1/4 lb. 20c; 1/2 lb. 35c; 1 lb. 60c.

PHINNEY'S EARLY

A well established, standard variety of Western origin and well acclimated. Melons of medium size and oblong in shape, marked with two shades of green. The rind is thin. The red flesh is very sweet and tender. The vine is productive and a sure cropper, the Melons maturing early. It will please you for all purposes. Pkt. 4c; oz. 8c; 2 oz. 12c; 1/4 lb. 20c; 1/2 lb. 35c; 1 lb. 60c.

Harris Early.

THE PRIZE WINNER EVERYWHERE

BUCKBEE'S GENUINE PERFECTED

MONTE CRISTO

Trade Mark Registered 1914—By H. W. Buckbee, Et. Al.

The World's One Unbeatable Water Melon THE SWEETEST FLAVORED MELON KNOWN

The Best Variety for the Table—For Shipping and Long Keeping

IN hundreds of markets every season it finds ready sale at good prices when all other sorts go begging for buyers. This grandest of all varieties has been extensively grown the past few seasons in almost every melon growing locality of the world, and in not one single instance has it failed to meet the expectations of the planter. The reports received from every section that all are delighted with it prove that in the hands of our customers Buckbee's Monte Cristo has given the same surpassing results as our careful trials on Rockford Seed Farms. The greatest yielder. The sweetest, juiciest, crispest and most solid Melon ever produced, never having a hollow or pithy center when ripe. The easiest to sell on the market, for when once tried, people will have no other. Many of our customers have written us, that they have cleared \$100 or more per acre by growing Buckbee's Monte Cristo Melons. Under average cultivation you can do as well or better. Will you not try it this year? This is an early variety, ripening about a week or ten days later than the extra early kinds on the preceding page. It is a grand, good shipper, has a firm, solid rind, not too thick, yet will stand the most severe handling. The outside skin is of a rich, dark green color, shaded with faint stripes of a somewhat lighter color. Certainly the finest appearing Melon ever grown for market, shipping or table purposes. While our supply of seed is fairly large, we always have advance orders from our customers, who have planted Monte Cristo in past seasons, and we would advise all who care to plant this "King of Melons" in 1917 to place their orders as early as possible. Please remember that we control the entire product of this variety, so send to Buckbee for choicest stock seed of Buckbee's Monte Cristo Melon. The price is within the reach of all. Price of choicest stock seed of our own growing: Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00; 5 lbs. \$4.75 prepaid.

J. W. Hudson, the Watermelon King, of Kahoka, Mo.: "I can truly say the World can't beat Buckbee's Monte Cristo Water Melon. Its size, beauty and quality make it the best seller."

Mr. N. Miller, Amity, Oregon: "Buckbee's Monte Cristo has proven the best Melon ever planted in this section."

W. M. Thomas, Lost Creek, Ala., writes: "The King of all Melons" is the verdict given Buckbee's Monte Cristo in this great Melon growing section."

We can furnish unsolicited Testimonials from almost every state in the Union on the success of this grand Melon.

MONTE CRISTO

J. F. Eubank, R. R. 5 Lexington, Miss., writes:—I learn from a friend that you carry a very fine line of "Full of Life" seeds especially—Water Melon. I saw some fine specimens grown from your seeds known as "Buckbee's MONTE CRISTO." I also had the pleasure of eating one, and I must tell you that it was simply fine. I am a great lover of Melons and have been growing them all my life, and I want you to place me on your mailing list for a catalogue next season.

BUCKBEE'S "Full of Life" WATERMELON SEED

BUCKBEE'S EVERBEARING

Always sweet.

This is absolutely one of the sweetest Watermelons known, and is sure to be one of the first in the market. It is of most delicious flavor, very juicy and sweet and is splendid for family use, as a few vines yield many Melons. Everybody should try this new early Watermelon. It is the Melon to plant if you are in a climate where the seasons are short, for it will ripen where other varieties will not. It is certainly a splendid Melon for every purpose. Just the size for family use and one of the best for the market gardener and shipper. The flesh is deep red in color and exceedingly brittle. By all means try this excellent Melon. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/2 lb. 25c; 1 lb. 40c; 1/2 lb. 75c.

GEORGIA RATTLESLAKE

The Old Reliable; Branch's Original Strain.

One of the finest Melons ever grown; a splendid keeper, excellent shipper. Sometimes called Striped Gypsy. A very large Melon of good shipping qualities. Shape oblong, striped, and mottled with various shades of green. Flesh bright red. Flavor sweet and first-class. Rind not thick. Pkt. 4c; oz. 7c; 2 oz. 12c; 1/2 lb. 20c; 1 lb. 35c; 1 lb. 60c.

THE TOM WATSON

Best Quality, Fine Shape, Large Size, Good Shipper.

The "Tom Watson" is an extra long Melon of attractive appearance, uniform in shape and quality; the luscious crimson flesh is "as sweet as honey," melting and of superb flavor. The average Melon will weigh 35 to 40 lbs. and measures about 28 inches long and about 12 inches in diameter. The skin is dark green, with thick netting all over, quite distinct from other varieties. It originated in Georgia, a state noted for producing fine watermelons, and this new variety is a good example of what a first-class Watermelon should be. Its appearance and quality strongly recommend it both for home use and for market. Sure to take a leading place with large Melon growers and shippers. Our choice seed was grown on Rockford Seed Farms under the most painstaking care and selection, and we honestly believe it to be a great improvement over our original planting stock secured direct from the introducer. Pkt. 5c; oz. 8c; 2 oz. 15c; 1/2 lb. 25c; 1 lb. 40c; 1 lb. 75c.

Buckbee's

Everbearing

Always

Sweet

ALABAMA SWEETS

The Ideal Shipping Melon. Extensively grown in the South for shipping to distant markets. The Melons are large, oblong form and have a firm, dark green and slightly striped rind. The flesh is a bright red and of delicious flavor; seeds are white. One of the very best of the long Melons for shipping purposes. Pkt. 5c; oz. 10c; 2 oz. 15c; 1/2 lb. 25c; 1 lb. 40c; 1 lb. 75c.

WONDERFUL SUGAR

Excellent variety of large size, average weight 40 to 60 pounds. Flesh red and deliciously sugary. One of the finest for the home garden and for shipping. Pkt. 4c; oz. 8c; 2 oz. 15c; 1/2 lb. 25c; 1 lb. 40c; 1 lb. 65c.

HUNGARIAN HONEY

The flesh is up to within one-fourth of an inch of the outer skin, of an intensely red color absolutely stringless, completely melting in the mouth. The Melons ripen very early, are round, small, weighing from 10 to 15 pounds and the vines are healthy and very productive. You should try it. Pkt. 4c; oz. 7c; 2 oz. 12c; 1/2 lb. 25c; 1 lb. 40c; 1 lb. 75c.

Georgia Rattlesnake.

QUALITY
NOTHING BUT
QUALITY

Buckbee's "Full of Life" Melon Seed is saved from selected thoroughbred specimens of ideal size, shape and color, insuring the finest and largest crops.

Edwin A. Symoneta, The Current, Bahamas Islands, writes: "Two of the largest Watermelons I have ever grown was from your seed of Tom Watson. The largest weighed over 50 lbs. and the next best 44 lbs."

TOM
WATSON

BUCKBEE'S "Full of Life" WATERMELON SEED

The Halbert New Rubber Rind

One of the Finest Shipping Melons on Earth.

After years of patient labor and careful breeding, Mr. Halbert of Texas (from whom we have secured a limited amount of seed), has succeeded in perfecting this grand Melon. Mr. Halbert is a well-known expert on Melons and Melon breeding, and the claims made for his new Rubber Rind are not exaggerated because it is his production, but simply a just claim of the Melon's real merits. Shape of fruits, oblong and quite large in size, weighing from 50 to 100 pounds in good seasons and nice soil. Flesh dark red color, sweet and quite tender. Rind very dark green, almost black; very thin and exceedingly tough, almost as a piece of rubber, hence the name. Seed large, mostly mottled with black and white; but some seed are white with dark rim around the edge. It is decidedly a most handsome Melon in shape and color and will bring the highest price in every market. Excellent for shipping purposes. Genuine originator's stock seed. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 45c; ½ lb. 80c; lb. \$1.50.

Geo. H. Dishner, Bloomingdale, Tenn., writes: "I had two acres in Buckbee's Monte Cristo, Fordhook and Kleckley Sweets this year and made something over \$200."

QUALITY
NOTHING BUT
QUALITY

Halbert New Rubber Rind Watermelon.

Buckbee's Ice-Cream or Peerless

One of the Best for Home Garden.

Splendid in every respect. Has beautiful crimson core, which is always fine grained, and cannot be surpassed in flavor. Very prolific, early, magnificent grower. Is one of the best for nearby markets and home purposes. Pkt. 4c; oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

Florida Favorite

Deliciously Sweet—Second Early Shipper.

Enormous size; the flesh is of a beautiful clear crimson, extending clear up to the rind, which is hard, thin and most beautifully mottled. Pkt. 4c; oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

Buckbee's True Ice Cream Watermelon.

Kleckley Sweets

Kleckley's Original Strain.

First introduced and offered by us in 1895. Without question, it is one of the sweetest flavored of all Melons. Oblong in shape; skin dark green; flesh bright red, solid and luscious. Valuable alike for local market and family purposes. The first original seed can be had from no other seedsmen. Beware of imitations. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

Halbert Honey

A Most Deliciously Flavored Melon.

Handsome in color as the Kleckley Sweets, but more regular in form, and much more productive. Generally free from any appearance of neck. They average 18 to 20 inches in length; 6 to 8 inches in diameter. Color of rind a clear, glossy deep green. The flesh is a beautiful crimson, extending clear to the rind. Excellent for home garden and local market. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

Florida Favorite.

New Sugar Stick Watermelon.

New Sugar Stick

A large light-green or grayish Melon of oblong form, combining handsome appearance with the finest flavor and excellent shipping qualities. The luscious red flesh is entirely free from any coarse stringiness. These Melons measure about 2 feet in length and weigh on an average about 30 pounds. We very much recommend this fine Melon; it is one of the best paying and most satisfactory varieties we grow. Very productive, and has the large size, fine oblong shape, so popular with southern shippers. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

BUCKBEE'S "Full of Life" WATER MELON SEED

BUCKBEE'S NEW SWEET HEART

Most Popular for Market.

Medium early, large, handsome, heavy; good shipper, long keeper, bright color and of best quality. Vine vigorous and productive, ripening its fruit early. Fruit large, oval, heavy, uniformly, mottled light and dark green; rind thin, but firm; flesh bright red, firm, solid, very sweet and tender. Pkt. 4c; oz. 6c; 2 oz. 10c; ¼ lb. 15c; ½ lb. 25c; lb. 45c.

TRIUMPH

Reliable Shipping Melon.

As a market Melon it has no competitor for first place in the list of shipping and selling Melons. Its fine appearance and magnificent proportions make it a ready seller in any market. The rind is of dark green color. The flesh is very solid, melting and sweet. The fruits are of the largest size, nearly round, and weigh on an average 30 to 35 pounds each. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 18c; ½ lb. 30c; lb. 50c.

RUBY GOLD

New Novelty Melon.

Of exceptionally large size, often weighing 40 to 50 pounds. The flesh is always sweet, tender and melting. Ripens close to rind. Don't fail to try it. Green rind, yellow and red flesh. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

BUCKBEE'S PERFECTED KOLB'S GEM

One of the Best Long Distance Shippers.

Fruit of the largest size, round or slightly oval, marked with irregular mottled stripes of dark and light green, while the underside is of a creamy yellow color. Outer rind or shell, exceedingly hard and firm, making it one of the best sort for keeping and shipping long distances. Flesh, bright red, solid, sweet, tender and melting. The fruits grow very uniform in size, very solid, and are medium early. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 18c; ½ lb. 30c; lb. 50c.

A. V. Eaton, Lafayette, Ind., writes: "I have used quite a large list of your 'Full of Life' Seeds for the past two years and not a single kind has failed to grow."

Buckbee's

Perfected

ROUND DARK ICING

Very Sweet Early Melon.

Fruit medium sized, round, very light green or white, veined and mottled with slightly darker green. Flesh bright light red. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 18c; ½ lb. 30c; lb. 50c.

NEW ICEBERG

One of the Best Round Melons for Shipping.

Often called Blue Gem; has a very firm, hard rind, and it is as good a shipper as the Kolb's Gem, but the rind is much darker and richer in color and the flesh is much deeper colored, extends nearer to the rind, is much more tender and sweet. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

Kolb's

Gem

New Iceberg or Blue Gem.

BUCKBEE'S "Full of Life" WATERMELON SEED

NEW CHILIAN

A new Melon of splendid quality which is already very popular on the Pacific Coast and will doubtless take high rank elsewhere as soon as its desirable characteristics have become more generally known. Fruits nearly round or slightly oblong, skin rich deep green, mottled and striped with a still darker shade; flesh of decidedly bright vermilion red; remarkably fine grained, firm and sweet. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

NEW NATIONAL

An early, very productive, large oblong melon of splendid flavor; outside color pale green with darker green markings. A good shipper and one of the very best for the home garden. Pkt. 4c; oz. 8c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 60c.

New Chilian.

DIXIE IMPROVED

The Famous Shipping Melon.

Large, oblong, often 2 feet long. Skin dark green, beautifully striped; flesh bright scarlet, very sweet, tender and juicy. Great favorite. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 18c; ½ lb. 30c; 1 lb. 50c.

GRAY MONARCH OR MAMMOTH WHITE ICING

Valuable Standard Melon.

Very large; mottled gray skin; oblong; flesh bright crimson; flavor delicious. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 18c; ½ lb. 30c; 1 lb. 50c.

DUKE JONES OR JUMBO

The Mammoth of All Melons.

Of fine appearance, large, round, solid meat, of fine flavor, a heavy yielder and early. Good shipper. Pkt. 3c; oz. 6c; 2 oz. 10c; ¼ lb. 15c; ½ lb. 25c; 1 lb. 40c.

NEW CLIMBING WATERMELON

A Superb Variety, Novel and Attractive.

The vine may be allowed to trail on the ground or may be trained and tied to trellises, etc. The Melons are about the size of a Coconut, with seed no larger than apple seed. They are very solid, rich crimson flesh and of the highest quality, perfectly ideal for the home garden. Fruit ripens for a long period, unlike other sorts which ripen their fruit mostly at one time. Pkt. 10c; 3 pkts. 25c.

New Climbing Water Melon.

CITRON MELONS. The Best for Preserves

COLORADO PRESERVING

Very Productive, Rich Quality.

Makes beautiful, nearly transparent preserves of unsurpassed flavor. Superior to the ordinary preserving Citron in quality. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

GREEN SEEDED CITRON

Flesh white. Makes beautiful preserves of unsurpassed flavor. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

Colorado Preserving.

RED SEEDED CITRON

Used exclusively for preserves. Slightly striped and round. Extremely productive, splendid flavor. Flesh white. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

Citron Melons.

APPLE PIE MELON

The Wonderful Fruit for Pies, Preserves, Etc.

This is a novelty which will be appreciated in many sections of the country, and especially so during seasons when apples are scarce or high in price. The vine and fruit are quite similar to a Watermelon and they are easily grown on any good soil. Each vine produces from five to fifteen fruits, and one of the large size Melons will make as many pies as a half bushel of apples. We have estimated carefully in our field that one vine could produce an average of about 300 lbs. The flesh is white, solid throughout, and of excellent quality for making pies, sauce, preserves, etc., and it resembles apples in flavor. They keep nice and fresh all Winter, so that they can be used at any time and any surplus you may have can be fed to the live stock. In fact, it would pay to raise them for this purpose alone, as they can be kept and fed fresh all Winter. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

Apple Pie Melon

TO MELON GROWERS

WHEN YOU STOP TO THINK—BUCKBEE'S "FULL OF LIFE" MELON SEED is produced from Pedigreed Melons on our Famous Rockford Seed Farm, positively not one single Melon being sold for market—that Seed is saved from Hand Cut Personally Selected Thorobred Specimens, distinctly marked, uniform in size—ideal shape, color and flavor; fully developed, insuring the highest degree of perfection—you will readily appreciate the vast superiority of our "FULL OF LIFE" Strains in comparison to average quality offered by many dealers as CHEAP SEED, which is generally saved from the CULLS of the crop after the BEST specimens are marketed. If you want the Best Melon Seed That Can Be Grown—Send to BUCKBEE'S.

Buckbee's Sure Crop Mushrooms

GROWING MUSHROOMS IS NOT DIFFICULT.
Get Reliable Spawn. Start Right and the Results Are Certain and Profitable.

The Mushroom is a delicious, edible fungus. It produces no seed, but instead a white fibrous substance in broken threads called spawn, which is developed and preserved in horse manure and pressed in form of bricks.

No expensive equipment or ever will be necessary for the propagation. In money-making quantities, of Buckbee's Sure Crop Mushrooms. Professional growers have had much to do with spreading the idea that process and equipment are both costly. The plain fact is that anyone who starts right can grow Mushrooms successfully. He must know how to prepare the beds, where to locate them, and how to care for his crop. But the grower of Radishes must know that much about the crop he expects to raise. So that, after all, success in growing Mushrooms is hedged about by no more mystery and difficulty than is the growing of Radishes. An abandoned outhouse, or waste space in one, a shed, a basement or a cellar can be used for growing Mushrooms and will answer the purpose excellently. Contrary to popular belief, the culture of Mushrooms in a cellar is healthful, as they absorb all the moisture and keep the cellar dry and the air pure.

Mushrooms can be grown in tubs, in flats, but the culture requires careful attention and the temperature of the room must be kept at an unhealthy degree. A city man, however, can dig a "dug out" on the north side of his house, roof is over with rough boards and grow enough Mushrooms for home use. If he wants to roof over a part of an old deserted quarry he can grow Mushrooms for the market. We know an almost totally blind man in Chicago, who kept a goodly supply of Mushrooms growing constantly in a corner of the basement of the flat building in which he lived.

WHAT A MUSHROOM GROWER SAYS:

VICTOR PINET, "The Rockefeller of the Mushroom Industry in St. Louis," cleared a small place in Uhrig's Cave recently and set out a Mushroom bed. Then he sat in his easy chair and in three months he had \$3,000 worth of Mushrooms from the bed he had planted. Monsieur Pinet is an unskilled laborer. He might, if he had good luck, have earned \$45 a month during the three months he spent cutting \$50 a day worth of fungi from his Mushroom bed.—St. Louis Post Dispatch.

QUALITY
NOTHING BUT
QUALITY

Buckbee's Sure Crop Mushrooms.

On a bed of 50 feet square one can do a profitable marketing business. A bed of this size, it is estimated, will yield 10 quarts of Mushrooms a day, or about \$5.00 worth. This will pay the butcher, grocer and candlestick maker. A boy or girl ten years old can attend to the bed after it is started. The trouble is in the initial work. Afterwards a Mushroom bed piles up money like a money-lender's interest.

FACTS ABOUT BUCKBEE'S SURE CROP SPAWN

This Spawn is prepared solely for us by a specialist in this country who has not only devoted a lifetime to the work, but who is a profound student of the industry. His work has resulted in procuring the best and most reliable Spawn in the world. Under our contract it is impossible for the grower to secure any Sure Crop Mushroom Spawn from anyone except Buckbee.

We can safely assure all Mushroom growers, as well as those who have never grown any, but are on the point of trying it, that they will find Sure Crop Spawn to be all that is claimed for it and more. It produces Mushrooms true to type, in much greater abundance, of much earlier maturity and of much larger size than those grown by any other method, and these Mushrooms are in great demand at the very highest market prices.

In order to meet the demand for Sure Crop Spawn, and to provide against deterioration of its producing qualities, our arrangement with the producer is for frequent shipments which, coupled with the care we give it, renders it absolutely certain that our customers will all be furnished with Spawn that is fresh, of quick, vigorous growth and if they handle it properly will bring them big returns.

We have made the price as low as Spawn of such an exceedingly high grade can possibly be sold for.

BUCKBEE'S SURE CROP SPAWN

By mail, postpaid, brick (weight 1 1/4 lbs.) 40c. At buyer's expense: Brick 30c; 5 bricks \$1.25; 10 bricks \$2.00; 25 bricks \$4.25; 100 bricks \$15.00.

Arthur Young, 954 Superior St., Racine, Wis., writes: You will note this is my second order for Sure Crop Mushroom Spawn. The first order of spawn has been planted two weeks yesterday, and the last few days I have picked quite a few."

BUCKBEE'S HIGH GRADE ENGLISH SPAWN

Comes in pressed bricks weighing a pound or more. Price, postpaid, lb. 25c; 5 lbs. \$1.00. Not prepaid, lb. 15c; 8 lbs. \$1.00; 25 lbs. \$2.00; 100 lbs. \$7.25.

Buyers in quantity are urged to state whether they want shipment made by freight or express.

We furnish every buyer of Mushroom Spawn with explicit directions for growing. If they are followed there is nothing so certain as big success.

MUSTARD

German, Senf; French, Moutarde; Spanish, Mostazoe.

NEW CHINESE—The large leaves have a pleasant, pungent flavor, and can be eaten the same as other salads. Pkt. 5c; oz. 7c; 2 oz. 12c; 1/4 lb. 18c; 1/2 lb. 31c; lb. 60c.

BUCKBEE'S NEW GOLDEN GLOBE DANVERS

Long Keeper. Best Shipper. Unrivaled Market
Onion. Always in the Lead. Challenges Competition.

A most perfect type of the globe-shaped Onion and an extra early variety. It has a very small neck, the entire crop drying down at one time. The bulbs are of a beautiful golden yellow color; they are earlier, but as the illustration shows, somewhat smaller than Wampum, nevertheless this variety is an immense cropper, and will yield more marketable Onions to the acre than any strain we are acquainted with. Trial tests have shown this great variety to yield over 2,000 bushels per acre, while under ordinary cultivation in past seasons several of our customers have reported yields of 1,000 bushels per acre. The bulbs are very hard, solid and are exceptionally good keepers. Remember that we control the entire supply of this variety. Our own growth choicest Northern-grown, high-grade pedigree stock seed. Pkt. 4c; oz. 18c; 2 oz. 35c; ¼ lb. 60c; ½ lb. \$1.10; lb. \$2.00.

BUCKBEE'S GREAT CARDINAL

The World Beating Red Globe Onion

An Enormous Yields, Large Size, Solid and Heavy,
Perfect Globe Shape. Best Flavored. A Splendid
Keeper. Handsome Dark Cardinal Color. Wonder-
ful Shipper. Matures Early.

Originated on Rockford Seed Farms and has already made a reputation that is world-wide. It is the money making Onion. It has size and density, coupled with a splendid flavor, is one of the very best keepers ever introduced, and has the size and shape to recom-
mend it in the highest degree for the market. We would not praise it so highly if we did not believe it to be alone in its class. It is one of the real money makers. No one but Buckbee can furnish GREAT CARDINAL SEED. Our supply is limited. Order early. Pkt. 4c; oz. 20c; 2 oz. 35c; ¼ lb. 65c; ½ lb. \$1.25; lb. \$2.25.

BUCKBEE'S NEW WAMPUM

Best Globe-Shaped Yellow Onion. A Rich Golden
Yellow. Quality Simply Superb.

New customers should remember that BUCKBEE'S RELIABLE ONION SEED is grown only from carefully prepared, hand-sorted and selected bulbs, is always of a high germinating quality and of unusual vigor of growth. Our Onion Seed has an excellent reputation in every prominent Onion-growing district in the country, and is unsurpassed by that of any other house in the trade, and in many sections is planted to the exclusion of all other strains. We are determined as usual to furnish our customers the very choicest strictly fine stock seeds that grow. Varieties with medals by the score for superior quality. Vouchers by the thousands as the most satisfactory strains for largest cash returns. Buckbee's Great Pedigree Onion Seed is the biggest, freshest obtainable, and we advise early orders as we cannot keep these "Bargain Offers" open after our own growth of seed is exhausted.

BUCKBEE'S NEW WAMPUM.

The Great Money Maker.

This grand new variety, which was sent out for trial in 1898, has proven as its name indicates, the MONEY-MAKING ONION. Its color is a beautiful golden yellow, very attractive and striking. It is the most perfect globe-shaped Onion in existence today. The bulbs are firm and solid and excellent keepers. The necks are small and cure down to almost nothing. It is an enormous yielder; various customers claim from 1,000 to 2,000 bushels per acre. If you wish the best Onion you ever planted, try this greatest of all Onions.

Our own growth, choicest Northern grown, high grade pedigree stock seed. Pkt. 5c; oz. 25c; 2 oz. 40c; ¼ lb. 75c; ½ lb. \$1.40; lb. \$2.50.

MONEY MAKING ONIONS QUICK GROWING SURE CROPPERS LONG KEEPERS

Buckbee's Southport Globe Onions

Southport Globe Onions are most attractive in appearance and most economical in use. They command the highest price in the market. These Onions are big croppers and splendid keepers, harvested in September, they keep perfectly sound and

merchantable until the following June. My strains of these varieties have been carefully bred and are unequalled by those of any other grower in size, beauty, yielding and keeping qualities.

Southport Red Globe

Buckbee's Re-Selected Pedigree Seed.

The celebrated Blood-Red Globe Onion. This variety has for many years proved one of the most profitable for the market and shipping trade, commanding uniformly good prices in carload lots. It is of large size and splendid appearance, and frequently yields from 500 to 800 bushels per acre under average culture. It is an Onion of unusual merit. Flesh is firm, finely grained, very rich, yet unusually mild for a red Onion, and is

sure to please the most fastidious. The crop is ready to harvest in early fall and keeps well until the late spring months. No one that we have ever known has been disappointed with the results obtained by planting this great Onion.

Our own growth, choicest Northern-grown, high-grade pedigree stock seed, pkt. 4c; oz. 15c; 2 oz. 28c; ¼ lb. 50c; ½ lb. 90c; lb. \$1.75.

Southport Yellow Globe

Buckbee's Re-Selected Pedigree Seed.

Entirely distinct from Onions of the Danvers type, having notable and striking characteristics of its own. Excels in size, excels in yield, excels in keeping qualities, excels in mildness and flavor. Matures in early fall. It is sure to satisfy the one who buys a packet or the one who sows 50 pounds or more of seed for carload shipments. A truly grand Onion, whose large, golden-yellow spheres make a beautiful appearance, sacked, crated or barreled, for the market.

Our own growth, choicest Northern-grown high-grade pedigree stock seed, pkt. 5c; oz. 18c; 2 oz. 30c; ¼ lb. 55c; ½ lb. \$1.00; lb. \$1.90.

Buckbee's Selected Yellow Globe Danvers

Standard of Excellence for Home and Market Use.

The finest standard Yellow Globe Danvers Onion ever offered. Fine, symmetrical shape, large size, average specimens weighing from 1 to 2 pounds each. The bulbs are very choice, finely grained, exceptionally mild, and very early. It is a grand, magnificent keeper. Frequently produces 800 bushels or more to the acre from seed the first year. About a week earlier but not quite so large nor so perfectly globe-shaped as Southport Yellow Globe. Our own growth, choicest Northern-grown, high-grade, pedigree stock seed, Pkt. 4c; oz. 12c; 2 oz. 22c; ¼ lb. 40c; ½ lb. 75c; lb. \$1.40.

Buckbee's Selected Yellow Globe Danvers.

Southport White Globe

Buckbee's Re-Selected Pedigree Seed.

Handsomest of all Onions. It is of true globe form, pure white, hard, small necked, ripening regularly and evenly; a splendid keeper. The flesh is firm and fine grained and mild to taste. Average yields of 500 to 700 bushels per acre are of frequent occurrence. No market gardener or Onion grower can afford to plant inferior stock, with only cheapness of price to recommend it when seed like ours is to be had as reasonable, the results of planting a few ounces often paying many times the first cost of the best seed.

Our own growth, choicest Northern-grown, high-grade pedigree stock seed, pkt. 5c; oz. 20c; 2 oz. 35c; ¼ lb. 90c; ½ lb. \$1.60; lb. \$3.00.

MONEY IN ONIONS

IF YOU PLANT THE RIGHT SEED

And that is what you secure if you send direct to headquarters for THE BEST ONION SEED IN THE WORLD, namely:

H. W. Buckbee,

Rockford Seed Farms, Rockford, Ill.

Established 1871.

Wm. Lonswaay, Thompsonville, Ont., Canada, writes: Your "Full of Life" Onion Seed is all you claim it to be. I raised 153 bags of first-class Onions from 1 pound of seed.

BUCKBEE'S RED GIANT ONION

TWO GIANT GLOBE ONIONS BUCKBEE'S RED GIANT

The Mammoth Red Onion, in size it is not excelled by the Enormous Varieties from Spain, The Grandest Variety Grown for the American Climate.

This magnificent new variety of our own introduction has met with the greatest success everywhere and is now one of the most popular varieties in existence. The largest Red Onion, often weighing from 4 to 5 pounds and measuring 6 to 7 inches in diameter. Many of our customers have grown specimens weighing 3 to 4 pounds. In shape Buckbee's Red Giant is round and symmetrical. Skin is thin, of a beautiful reddish hue, while the flesh is delightfully pure and white, very fine grained and of pleasing flavor. We control the entire stock of this grand novelty. Pkt. 10c; oz. 25c; 2 oz. 40c; ¼ lb. 70c; ½ lb. \$1.25; lb. \$2.40.

A. Wheeler, Bay City, Mich., writes: Thinking you would be interested to know that I grew as large if not the largest crop of Onions ever grown from the "Full of Life" Onion Seed purchased of you last year. I am sending you picture of part of the field which shows one acre that went 1,600 bushels to the acre. I had 6¼ acres and got very close to 7,000 bushels. The 6¼ acres netted me over \$4,000, which speaks pretty well for Michigan land. I want to equal this next year on a larger scale and am anxious to get your "Full of Life" Northern Grown Seed.

QUALITY
NOTHING BUT
QUALITY

BUCKBEE'S PRIZETAKER

HANDSOMEST, LARGEST AND
KING OF ALL YELLOW
ONIONS.

Unexcelled Either for Home Use or
for Market.

Buckbee's Prizetaker Onion has proved itself to be the greatest acquisition in years and is by far the handsomest, most productive and largest of all Yellow Globe Onions. Always grows to a uniform shape, which is a perfect globe; has a very small neck and ripens up without stiffness of the neck. In market it never fails to attract attention on account of its immense size, its beauty, and is sure to bring a far better price than any other Onion. It is even more attractive in appearance than the large Spanish Onions sold on the city fruit stands—in fact, it takes the place of that variety.

A BIG MONEY MAKER.

It succeeds everywhere — East, West, North and South—and whether grown for home use or for marketing it gives universal satisfaction, yielding Onions often 14 inches around and at the rate of 1,200 to 1,500 bushels per acre. Its immense size will recommend it to all, particularly when it is known that its keeping qualities are excellent. The exterior color is pale yellow and the interior clear, sparkling white. Easily grown, medium early in maturing, mild flavor. Pkt. 5c; oz. 15c; 2 oz. 28c; ¼ lb. 50c; ½ lb. 90c; lb. \$1.75.

Buckbee's Prizetaker.

BUCKBEE'S PEDIGREE "Full of Life" ONION SEED FLAT VARIETIES

Buckbee's Large Red The Greatest of All Early Red Onions

BUCKBEE'S PEDIGREE LARGE RED WETHERSFIELD

OUR LEADING SPECIALTY.

One of the chief departments of our seed growing business consists of growing Buckbee's Pedigreed Red Wethersfield Onion for seed purposes only. Our stock has reached such a high point of merit that it is a household word everywhere that "Buckbee's Pedigreed Red Wethersfield Onion Seed is the most reliable and produces more good marketable Onions per acre than any other offered." And from the many thousands of unsolicited testimonials which we have received from all over the country, we have every reason to believe that the time which we personally spend in our onion fields is truly appreciated by our many thousands of customers who stand by us and say: "Buckbee's Seeds are Full of Life."

There are many strains of this justly celebrated Onion offered, but we venture to say none can surpass Buckbee's Prize Medal Stock of this famous variety. The various strains, good, bad and indifferent that are generally offered to the unwary planter, come to maturity all the way from August up until as late as October. This unreliability of cropping is very disastrous, to most localities.

BUCKBEE'S PEDIGREE LARGE RED WETHERSFIELD—Our own growth, choicest, northern grown, high-grade, pedigree "Full of Life" stock seed. Pkt. 5c; oz. 12c; 2 oz. 23c; ¼ lb. 45c; ½ lb. 80c; lb. \$1.50.

THE GREATEST OF ALL RED ONIONS.

The seed which we are offering is of the earliest maturity; grown from hand-sorted bulbs that will produce Onions of immense size; 1½ to 2½-pound Onions from our seed are of frequent occurrence. BUCKBEE'S RED WETHERSFIELD grows with unusual regularity, scallions being unknown. It is a magnificent keeper. An enormous cropper—700 to 1,000 bushels have frequently been raised upon a single acre. The shape is accurately shown in the illustration above. In color the skin is a deep rich, purplish red, while the flesh is of a beautiful white, firmly grained and of good flavor. Our customers throughout the country endorse it as the best Red Onion ever grown.

NEVER HAS BEEN KNOWN TO FAIL.

We trust no Onion grower who receives our catalogue will fail to try at least a small quantity of BUCKBEE'S RED WETHERSFIELD ONION, for all ought to know how much superior it is to other strains offered. This seed will produce a highly-colored, long-keeping Onions, sure to command the highest price in the market. Will yield double the crop that seed from most other dealers will produce.

EXTRA EARLY RED

The Earliest Red Onion in the World.

A favorite early variety of fine shape. Always a good yielder and magnificent keeper, its beautiful shape and rich purplish crimson color making it extremely attractive and desirable. Medium sized, flat bulbs. Adapted for a great variety of soils and succeeds in wet, cold and mucky land. Very desirable for early market use. Selected Stock Seed. Pkt. 4c; oz. 12c; 2 oz. 23c; ¼ lb. 45c; ½ lb. 85c; lb. \$1.60.

AUSTRALIAN BROWN

Long Keeping. Fine Quality.

This sort is distinct from all other Onions. Is uniform in size and shape, wonderfully hard, solid and heavy and will keep almost indefinitely. Ripens extremely early and never makes scallions. It is of medium size, round with skin of a deep amber-brown; flesh white, mild and agreeable. A sure cropper. Pkt. 4c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 65c; lb. \$1.25.

QUALITY

BUCKBEE'S PEDIGREED "Full of Life" ONION SEED FLAT VARIETIES

New White Silverskin or White Portugal.

New White Silverskin or White Portugal

The Standard White Onion for Market and Family Use.

Medium sized bulbs of flat shape which ripen evenly and quite early, about ten days earlier than Southport White Globe. They are of handsome appearance, have a clear, white skin as beautiful as glistening silver. The flesh is of mild, delicious flavor. For keeping this is the best of all white varieties, but it does not keep as well as colored onions.

A gardener who does not care to plant more than one variety should use this one, and everyone should make a liberal sowing of it for continuous use. These Onions make fine bunching or Green Onions and are also grown for the market as large White Onions. They are also used very much for pickling and for Onion Sets. Buy your seeds from first hands. Our own growth choicest Northern-grown, high grade pedigree stock seed. Pkt. 5c; oz. 25c; 2 oz. 40c; ¼ lb. 75c; ½ lb. \$1.40; 1 lb. \$2.50.

Buckbee's Round or Yellow Danvers

A Magnificent Sort in Every Way. The Earliest Yellow Onion. Very handsome in appearance, flattened but thick through, of fine size; in fact, is ideal in every respect for market and family purposes. Skin is thin, of a rich straw color; flesh is pearly-white, fine grained, firm, mild and of excellent quality. Ripens early, keeps well and sells readily. Our own growth, choicest Northern-grown, high-grade pedigree stock seed. Pkt. 4c; oz. 12c; 2 oz. 22c; ¼ lb. 40c; ½ lb. 75c; 1 lb. \$1.40.

Selected Yellow Strassburg or Dutch

Quite similar to the foregoing, but the bulbs are rather more flattened, of a darker skin, a little larger and mature a few days later. One of the best to grow for sets and a splendid keeper. Pkt. 4c; oz. 12c; 2 oz. 23c; ¼ lb. 40c; ½ lb. 75c; 1 lb. \$1.25 (high-grade, pedigreed seed).

Buckbee's Round or Yellow Danvers.

Bermuda Onions

Bermuda Onions are largely grown in the South and have been there a most profitable investment. They are planted there in the fall and shipped North in May and are the earliest large new Onions in the market. Growers can do equally well with them in the North. They are the quickest growing Onions known. Sown at the same time as Danvers and White Portugal, they will produce fully grown bulbs about 3 inches in diameter when the others are only 1-inch large.

WHITE BERMUDA—The bulbs are quite round and flat in form. The color is not a clear white, but rather a pale straw; flesh crisp, solid and mild, early ripening. Pkt. 5c; oz. 25c; 2 oz. 40c; ¼ lb. 75c.

RED BERMUDA—Similar in form and early ripening to the Bermuda White, but grow larger in size, ranging from 3 to 4 inches in diameter; very flat and of a light pink color. The flesh is white, slightly suffused with pink; very mild. Pkt. 5c; oz. 30c; 2 oz. 45c; ¼ lb. 85c.

CRYSTAL WHITE WAX—This new variety is a large, pure-white, flat Onion. It is the earliest and most popular Onion with the large growers in the South. It produces the mildest and sweetest Onions of them all. It is very fine for slicing, the color being so clear and pure. Pkt. 10c; ¼ oz. 25c; oz. 40c; 2 oz. 75c; ¼ lb. \$1.25.

NOTE—For larger quantities write for Special Prices.

Buckbee's Mammoth Silver King The King of White Onions ITS MILDNESS OF FLAVOR AND TENDERNESS ARE UNSURPASSED.

The largest white Onion—grows to a remarkable size; average diameter is from 5 to 7½ inches.

Single bulbs often attain weights of from 2½ to 4 pounds each. There is no other white Onion which attains such mammoth size.

The shape is flattened, but thick through. The skin is of a beautiful silvery white; the flesh is of a snowy white, and is of particularly mild and pleasant flavor. So sweet and tender is the flesh that it can be eaten like an apple. They grow quickly, mature quite early, sell well in autumn and early winter; should be gathered and marketed as soon as they ripen. This Onion is very popular and is now a leading sort to grow for the market in many localities. Being a Sure Cropper, producing Immense Onions and Enormous Crops which bring the highest prices, this variety has been a great money-maker for the grower; but its fine, mild flavor makes it also most desirable for the private gardener. It is an Onion for everybody, no matter whether grown for sale or home use, therefore plant some of it—an ounce, at least, or more. If you have the room for it in your garden, this variety produces immense bulbs from seed sown direct on the land. The mammoth specimens or show Onions for exhibitions are mostly grown from transplanted plants. Pkt. 5c; oz. 18c; 2 oz. 33c; ¼ lb. 65c; ½ lb. \$1.20; 1 lb. \$2.25.

BUCKBEE'S MAMMOTH SILVER KING

Cannot be too highly recommended either for family use, exhibition at Fairs or Exhibitions, or for sale in market, where its size and beauty will prove very striking.

Buckbee's Mammoth Silver King Onion.

PICKLING ONIONS

BUCKBEE'S WHITE PICKLING

Nothing Earlier in Onions.

This distinct variety is the very earliest Onion in cultivation. Of a pure paper-white color, very mild and delicate in flavor; from 1 to 1½ inches in diameter and ¾ of an inch in thickness. Its extreme curliness makes it very valuable for early table use as well as bunch Onions for market. Pedigree stock seed. Pkt. 5c; oz. 35c; 2 oz. 40c; ¼ lb. 75c; ½ lb. \$1.40; lb. \$2.50.

EXTRA EARLY WHITE QUEEN OR WHITE PEARL

A silver-skinned variety of remarkably quick growth. Small bulbs, fine, of mild flavor. Particularly valuable for pickles. Pkt. 5c; oz. 18c; 2 oz. 35c; ¼ lb. 65c; ½ lb. \$1.15; lb. \$2.25.

EARLY WHITE WELSH (For Green Onions)

A most desirable green bunch Onion. It does not form bulbs, only scallions or enlargements at the base of each shoot, which are quite attractive and, being extremely early, sell well before Onions grown from sets are brought to the market. We recommend this variety very much and know market gardeners will find it an exceedingly profitable crop. A hardy perennial can remain in the ground for years. Pkt. 5c; oz. 18c; 2 oz. 35c; ¼ lb. 65c; ½ lb. \$1.15; lb. \$2.25.

Early White Welsh.

Buckbee's White Pickling Onion.

BUCKBEE'S "Full of Life" ONION SETS

Buckbee's Yellow Bottom.

Buckbee's White Bottom.

Buckbee's Red Bottom.

BOTTOM ONION SETS

Bottom Onion Sets produce an Onion ready for market or the household from 4 to 6 weeks earlier than can be done by sowing the seed, and the product of the set is identical with that of the seed. This gives the market gardener ample time to sell his entire crop at the early high prices and permits the sowing of another crop on the land the same year. Every private garden should contain a sowing of sets.

BUCKBEE'S IMPROVED SPRING TOP SETS

These are planted to produce both early green Onions and large eating Onions. This variety increases by producing sets at the top of the stalk and does not produce seed. By far the most superior variety. They are the best Onions to eat, will yield at least one-third more and ripen much earlier than other Onions. It is the best keeper that we know of, having kept perfectly solid for over a year. We advise early orders as our stock is sure to be exhausted before the season is over. Give this variety a trial. Postpaid, pt. 25c; qt. 45c.

BUCKBEE'S NEW YELLOW POTATO SETS

Of rich straw yellow color, often producing 20 bulbs in a cluster from a single bulb planted. Of excellent quality and size for bunching green. Can be ripened for use as pickling Onions. Keep for a year. The most important quality is earliness, being ready for market several weeks ahead of the rest. The smaller bulbs produce no clusters, but large bulbs, and are much planted in fall to get large, dry, ripe Onions earlier than from any other variety. Postpaid, pt. 25c; qt. 45c.

Potato Onion Sets.

NOTICE

For Prices on Onion Sets in Bulk, SEE ORDER SHEET.

YELLOW MULTIPLIERS OR SHALLOTS SETS

Multiplier Onion Sets multiply by division of the parent bulb. They are very early and productive. You will be pleased with results by planting this variety. Postpaid, pt. 25c; qt. 40c.

EGYPTIAN OR PERENNIAL TREE WINTER SETS

This variety never forms a large bulb. Its value lies wholly in its special adaptability to produce green Onions for Spring or Fall uses. It is perfectly hardy, and when once set out will come up year after year. Can be planted either in Spring or Fall. We can supply these sets for shipment from September 1 to the following March 1. This variety increases by producing sets at the top of the stalk and does not produce seed. Postpaid, pt. 18c; qt. 30c.

SPECIAL NOTICE.

Prices on Onion Sets in bulk frequently change as the market advances or declines. See Order Sheet for prices by peck or bushel, or more.

How to Grow Seeds and Flowers

A complete guide for the house and garden, profusely illustrated. Price 50c, postpaid, or we will send a copy FREE with an order of \$1.50 or upwards, if requested on the order.

New Dixie Giant Peanut.

New Dixie Giant Peanut

Mammoth Nuts, Strong, Thick Shell.
This is the JUMBO of the Peanut family and owing to the very large size and handsome appearance are very desirable in every market at fancy prices. Plants grow about 18 inches high with heavy erect stalks and large leaves and fruits near the tap root, and can be planted close together, thus producing a large yield, and is more easily cultivated than the running varieties. The pods fill out well, forming few if any pops. Price, large pkt. 10c; $\frac{1}{4}$ lb. 18c; $\frac{1}{2}$ lb. 30c; lb. 50c.

PEANUTS

New Mammoth Virginia

Universal and Standard Favorite.

The Mammoth Virginia Peanut is the most profitable variety to grow, and is more desirable than the common spreading kind, because more easily cultivated; very erect stems and upright foliage; always yields fewer imperfect pods; the vines make valuable forage for stock. Plant in April and they will ripen before September, even as far North as Canada. Hundreds of our young friends have written us that they have had a wonderful crop the past season. Choice Seed, pkt. 5c; $\frac{1}{4}$ lb. 12c; $\frac{1}{2}$ lb. 18c; lb. 30c.

Spanish Peanut.

Spanish Peanut

A Splendid Early Variety.
The earliest variety grown; pods are small but remarkably solid and well filled with nuts of very fine quality. The yield per acre is very large. Can be cultivated with the plow. Because of their early habit and easy cultivation, it is the best variety to grow for fattening hogs. Pkt. 7c; $\frac{1}{4}$ lb. 12c; $\frac{1}{2}$ lb. 20c; lb. 35c.

Early Long Pod Bush Peanut.

Early Long Pod Bush Peanut

Originated by one of the best peanut growers in the South, and is certainly a distinct improvement in appearance over any Southern variety now in use. Will do well on most all kinds of soil, and fill out better than any other large variety. Can be pulled up with the vine same as the old Spanish Peanuts. The distinct long pods grow close and are well filled, containing 3 to 4 nuts to each pod. Very productive and of a mild, sweet flavor. Pkt. 10c; $\frac{1}{4}$ lb. 20c; $\frac{1}{2}$ lb. 35c; lb. 60c, postpaid.

PARSNIPS German, PASTINAKE; French, PANAIS. Spanish, PASTINACA; Swedish, PALSTERNUCKA.

Parsnips are one of the few winter vegetables. The roots are hardy and are improved in flavor by the action of the frost. Where the climate is mild the roots can be left in the ground over winter and dug as they are needed during thaws in winter or very early in spring, when a change of food is most relished. They are boiled whole, then sliced thin and fried brown with salt pork. While highly appreciated for the table, the great value of the Parsnip for stock feeding is but little known. The roots are very rich in saccharine food, adding to the richness of the milk when fed to cows, and they also make splendid horse feed, better and more nutritious than Carrots.

IMPROVED HOLLOW CROWN—An excellent variety for the table. The roots grow to a length of about 15 inches with a diameter at the top 3 inches. Very productive. Pkt. 3c; oz. 7c; 2 oz. 12c; ¼ lb. 18c; ½ lb. 34c; lb. 60c.

German, RHABARBER;
Spanish, BASARDO;

PIE PLANT OR RHUBARB

French, RHUBARBE;
Swedish, RABARBER.

PIE PLANT OR RHUBARB ROOTS

A saving of from two to three years is made by planting the roots.

BUCKBEE'S NEW PINEAPPLE—Price by mail, postpaid, 25c each; \$2.50 per doz. By express or freight, not prepaid, 20c each; \$2.00 per doz.; \$15.00 per 100.

BUCKBEE'S WESTERN MARKET—Price by mail, postpaid, 15c each; \$1.50 per doz. By express or freight, not prepaid, 10c each; 90c per doz.; \$3.00 per 100.

QUALITY

Buckbee's New Pineapple.

BUCKBEE'S NEW PINEAPPLE—Without doubt this is the earliest of all Pie Plant and a variety that can be used not only in the early spring, but summer as well. The very best of the Giant Everbearing varieties. Quality simply superb. Stalks of good size, soft and juicy. Skin so thin and tender that it is not necessary to remove it before cooking.

Flavor sprightly and refreshing and has the true pineapple flavor. This variety is about 2 or 3 times the size of the common Rhubarb. This is the first vegetable of the season and no garden should be without it. Choicest "Fruit of Life" Seed, Large pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 45c; ½ lb. 80c; lb. \$1.50.

BUCKBEE'S WESTERN MARKET—A very fine variety, very productive, large size and very early. The stems are numerous, broad, heavy, but very tender. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 60c; lb. \$1.00.

Grow Peppers, Always Money-Makers

German, Pfeffer; French, Piment.
A packet of Pepper Seed contains from
300 to 500 seeds.

Buckbee's Sweet Mountain.

BUCKBEE'S GREAT WEST

The giant of all. The heaviest cropper. The mildest flavor. The finest appearing. The surest to grow. The one you can't do without. Beautiful red color and of mild flavor. The plants are vigorous and about 2 feet high; they are well branched and thickly set with these enormous fruits which often grow 6 to 7 inches long by 4 inches in diameter. Our stock is limited, so order early. Large pkt. 10c; 1/2 oz. 25c; oz. 40c; 2 oz. 75c; 1/4 lb. \$1.25.

CHINESE GIANT

Double the size of Ruby King and equally as mild. The compact plants produce four or more extra large Peppers at the base very early in the season, which ripen while a second crop is setting on the branches. The fruits are blunt, about 5 inches in diameter and of the same length. The flesh is unusually thick and very mild. Very valuable variety for either the home or market garden. Pkt. 10c; 1/2 oz. 25c; oz. 40c; 2 oz. 75c; 1/4 lb. \$1.25.

CHINESE
GIANT

A Most Popular Pepper.

BUCKBEE'S SWEET MOUNTAIN

An improved type of the well known Bell or Bullnose. Plants very vigorous and productive. Fruits often 6 inches long by 4 inches through; very smooth and handsome, being, when green, of a bright, deep green color, entirely free from any purple tinge, and when mature of a rich red. Flesh very thick, sweet and mild flavored. Pkt. 5c; oz. 25c; 2 oz. 40c; 1/4 lb. 70c.

NEAPOLITAN

The earliest large mild Red Pepper. Fruits about 4 1/2 inches long by 2 inches across. Pkt. 5c; oz. 30c; 2 oz. 50c; 1/4 lb. 90c.

IMPROVED RUBY KING

An improved American sort, growing from 5 to 6 inches long by 3 1/4 to 4 inches thick, yet retaining the symmetrical shape of the smallest sorts. It is very bright colored, temptingly sweet, mild flavored and one of the best for stuffed pickles or mangoes. Pkt. 5c; oz. 25c; 2 oz. 40c; 1/4 lb. 75c.

CORAL GEM BOUQUET

Plant dwarf, compact and very ornamental, bearing a profusion of 1-inch long bright red fruit which is very pungent when ripe. Pkt. 5c; oz. 25c.

Buckbee's Great West Pepper.

BUCKBEE'S NEW TOMATO PEPPER

This unique Pepper is new, true, distinct and entirely novel. Plants grow only one foot high, with a few short, compact branches, around which the fruits are compactly set. Fruit the size and shape of a small tomato, which it closely resembles in all respects. We offer the two best varieties:

Ruby Red Tomato Pepper. Pkt. 8c.
Golden Yellow Tomato Pepper. Pkt. 8c.

The following varieties are too well known to require extended description: Large Bell or Bull Nose, Golden Dawn, Golden Queen, Red Chili, Large Sweet Spanish. Each, pkt. 5c; oz. 25c; 2 oz. 40c; 1/4 lb. 75c.

FINEST MIXED PEPPERS—The above and many other valuable Peppers in choice mixture. Pkt. 5c; oz. 25c; 2 oz. 40c; 1/4 lb. 75c.

For Pepper Plants, please see page 83

Red Hot Pepper.

THE RED HOT PEPPER

(Long Red Cayenne)

A slim-pointed pod about 3 inches long and when ripe of a bright red color. Strong and pungent. Pkt. 5c; oz. 35c; 2 oz. 40c; 1/4 lb. 70c.

NEW PIMENTO

A new variety, absolutely without pungency. Very early. If set out by the middle of May the plants will be laden with fruits from June till frost. Fruits 4 1/2 inches long by 3 inches across. It should be grown largely in the family garden because it is delicious with salads and sandwiches. The green Peppers are excellent stuffed with slaw and pickled or filled with meat and baked. They are also healthy food to eat when ripe as you would eat an apple. It is largely used by canneries, because of its extreme fleshiness, which permits of its being scalded and peeled. Pkt. 10c; 1/2 oz. 25c; oz. 40c; 2 oz. 75c; 1/4 lb. \$1.25.

EARLIEST IN THE WORLD

GREATEST YIELDER
ON EARTH

Buckbee's Lightning Express

EARLIEST PEA IN THE WORLD.

Ready for Picking in 40 Days.

They are much harder, more productive and withstand greater changes in the weather than any other variety. They are not only the largest podded white seeded early, but they are

ENTIRELY FREE FROM RUNNERS and the entire crop can be taken off in one or two pickings.

10,000 BUSHELS SOLD ANNUALLY.

Where earliness, productiveness, uniformity of ripening, large-sized pods and sweetness of flavor are desired, this is the variety to grow. It may be truly called THE BLOODED STOCK OF ALL finest early Peas, and stands at the head for the above fine qualities. In a favorable season ready for the market in 40 days. The entire crop can be taken off in one or two pickings.

To the market gardener earliness is of the greatest importance, as even a few days make a great difference in price, often a depreciation of from \$2.00 to \$4.00 per barrel. The inexperienced find this out when too late. Therefore the earliest is what is required, and BUCKBEE'S LIGHTNING EXPRESS IS THAT VARIETY. SOW THEM. YOU WILL MAKE NO MISTAKE.

Please observe that the true stock of BUCKBEE'S LIGHTNING EXPRESS can be had through our house only. Postpaid, pkt. 8c; ½ pt. 15c; pt. 25c; qt. 40c.

Buckbee's Extra Early Tom Thumb

Extremely early; dwarf vines 9 inches high, completely covered with medium-sized pods well filled with smooth white Peas of fine flavor.

Postpaid, pkt. 8c; ½ pt. 15c; pt. 25c; qt. 40c.

Buckbee's Selected First and Best

Vines vigorous and hardy, 2 to 2½ feet high, unbranched, bearing 7 to 8 straight pods having 5 to 7 medium-sized smooth Peas of good quality. A very early and very even strain of White Extra Early Peas, surpassed in Productiveness and earliness only by Buckbee's Lightning Express. Postpaid, pkt. 5c; ½ pt. 10c; pt. 15c; qt. 35c.

Bountiful or Ameer

A Grand Mammoth Podded Extra Early Pea and a Splendid Market-Gardener Sort. The largest podded of all green seeded Extra Early Peas. In our trials none of the numerous Extra Earlys compared with Bountiful in size of pod, number of Peas in a pod, or number of pods to the vine. It is also one of the sweetest and finest flavored of the green round seeded varieties. Grows about 30 inches high and crop can be gathered in one or two pickings. Only a few days later than Buckbee's Earliest of All, but with much larger pods and more Peas in the pods. Postpaid, pkt. 8c; ½ pt. 15c; pt. 25c; qt. 40c.

Earliest of All or Alaska

Our improved extra selected strain is the earliest grown, is very pure and well developed, and is more largely planted by market gardeners, canners and large Pea shippers than any other strain.

By careful selection we have developed a stock of this smooth, green seeded Pea, which in evenness of growth of vine and early maturity of pods is unequalled by any other extra early green seeded Pea. Vines 2 to 2½ feet high, are unbranched, bearing 4 to 7 long pods, which are filled with medium-sized dark green or bluish green Peas of excellent flavor. Ripens the crop all at once and is an invaluable variety for market gardeners and canners. Buckbee's "Full of Life" Pedigreed stock. Postpaid, pkt. 5c; ½ pt. 10c; pt. 15c; qt. 35c.

An Acre or Two in Buckbee's Pedigreed Full of Life Northern Grown Peas will bring down the High Cost of Living.

BUCKBEE'S "FULL OF LIFE" PEAS

CHOICEST, EXTRA EARLY, TALL, SWEET, WRINKLED VARIETIES

Buckbee's New Extra Early Honey Sweet

The Earliest Wrinkled Sweet-Flavored Pea in Existence.

READY FOR PICKING IN FORTY DAYS

A wonderfully luxuriant grower and a splendid drought-resister. The vines attain a height of 24 inches, consequently do not require staking. Prodigiously prolific, the pods are from 2½ to 3 inches long, nearly round, and are always well filled. Honey Sweet has made a splendid record for both quality and quantity within the brief time that it has been on the market. It is as early as Alaska, but far superior to it in quality and yield. A most profitable market pea and unsurpassed for the family garden. Postpaid, pkt. 8c; ½ pt. 15c; pt. 25c; qt. 40c.

NEW
PEA
PROSPERITY OR GRADUS
Thomas Laxton

Extra Early Large Poddied Sweet Wrinkled Pea.

The rival to the famous Gradus—as a long-poddied, extremely early wrinkled Pea. The growth is identical but the pods are deeper, richer green, square at the end and contain more peas. In the opinion of some experts, Thomas Laxton is even sweeter and finer in flavor, while as the large Peas are of a deeper green, they present a more attractive appearance. The early ripening only 5 to 7 days after Gradus. A splendid market gardener sort, but especially recommended for the home garden. Postpaid, pkt. 8c; ½ pt. 15c; pt. 25c; qt. 40c.

CHOICEST, EXTRA EARLY, DWARF, SWEET, WRINKLED VARIETIES

True American Wonder

An Ideal Extra Early Variety and Famous Table Favorite. Dwarf-wrinkled Pea, esteemed for earliness, productiveness, flavor and quality. Strong and robust, growing about 10 inches high, and produces medium large pods which contain 5 to 6 wrinkled Peas of very sweet flavor. Postpaid, pkt. 7c; ½ pt. 15c; pt. 25c; qt. 40c.

New Early Gradus or Prosperity

This Popular Pea matures only two or three days later than the small-poddied, round seeded Extra Early, but has pods as large as those of the Telephone Pea and is fully equal to it in quality.

Gradus is probably the most popular of all the extra early wrinkled Peas. It has taken the place of the smooth early Pea to a great extent.

It grows from 3 to 3½ feet high, requiring no sticks or brush, but sticks may be used if preferred. The vines are of pale green color and bear an great profusion from top to bottom immense round, dark green pods, 4½ to 5 inches long, well filled with from 8 to 10 or more Peas as delicious quality as large and as rich in flavor as the Telephone Peas, and these Peas can be had only a few days later than the small extra early Peas. These Peas retain their color and attractive appearance after cooking. Gradus is adapted to all purposes of the market gardener and does equally well in the home garden. Postpaid, pkt. 8c; ½ pt. 15c; pt. 25c; qt. 40c.

Surprise

It has the excellent sweet quality of the Nott's Excelsior but is earlier. Vine grows 24 inches and needs no support. In vine, size and shape of pods it resembles the Alaska, but being wrinkled is not so hardy. Pod 3 inches long, blunt at the ends, of light color. Seed green, wrinkled, small. Although it has not as large pods as Gradus, they are more numerous and earlier. Much used by canners on account of its sweetness, earliness and convenient size. Pkt. 8c; ½ pt. 15c; pt. 25c; qt. 40c.

Nott's Excelsior

The vines are larger, more vigorous and productive but a few days later than American Wonder, and they are earlier and more prolific than Little Gem. The Peas, in sweetness and quality, are unsurpassed. Vines 12 to 15 inches high. Postpaid, pkt. 7c; ½ pt. 15c; pt. 25c; qt. 40c.

BUCKBEE'S "Full of Life" PEAS

CHOICEST EXTRA EARLY DWARF SWEET WRINKLED VARIETIES—Cont'd

McLean's Little Gem Pea.

McLean's Improved Little Gem

Remarkably Fine Early Dwarf Sweet Wrinkled Pea. Vines grow about 18 inches high and are covered with long, well-filled pods, sweet, tender and well flavored. Postpaid, pkt. 7c; ½ pt. 15c; pt. 20c; qt. 40c.

Sutton's Excelsior or Melting Marrow

An extra early dwarf, Wrinkled Pea. A very heavy cropper. Large, massive pods. Rich, delicious flavor.

As early as the Nott's Excelsior, but much more productive with larger and broader pods. It grows about 15 to 18 inches high, and is an exceedingly heavy bearer. The pods are 4½ inches long, very broad, square at the end, and are packed with 6 to 8 immense wrinkled Peas. It is one of the sweetest Peas grown, and is unexcelled in delicious, melting quality, and superb, rich flavor. The vines and pods are of a light green color. Now often grown for the market in place of Gradus, which matures at the same time. Postpaid, pkt. 8c; ½ pt. 15c; pt. 25c; qt. 40c.

Giant Laxtonian or Blue Bantam

A giant podded, dwarf, extra early pea. The most valuable pea novelty of recent years.

This handsome new wrinkled Pea is the largest podded of all the dwarf early Peas. It grows only 16 to 18 inches high and requires no support, and has the same large pods as Gradus, even a few days earlier in season and of a little darker green color. The Peas are almost double the size of any other early dwarf Pea, are wrinkled, of bluish-green color, and have the true rich marrow flavor, tenderness and quality of the best main crop varieties. Its great earliness, the very large size and dark green color of the pods commends this variety particularly for market gardener's use, while the unsurpassed quality makes it especially desirable for the table. Postpaid, pkt. 10c; ½ pt. 20c; pt. 35c; qt. 60c.

Little Marvel

A new dwarf extra early Pea of unusual value, only recently introduced, yet the demand among market gardeners is already enormous.

We are sure that as soon as a gardener becomes acquainted with this variety he will quit growing the old varieties like American Wonder, Nott's Excelsior and Little Gem.

In season this new sort ripens with the American Wonder and Nott's Excelsior, while the pods, usually borne in pairs, are more numerous, larger and contain one or two more Peas. Its two striking features are: the beautiful dark green color of the pods and its great keeping qualities, when ready for the table staying in excellent condition for a week longer than "Nott's" or "Wonders." The vines are wonderfully prolific, much more so than any of the old dwarf sorts, and the pods are jammed with luscious, sugary Peas of the finest flavor. Little Marvel is an extraordinary cropper, and although the pods are only of medium size, it is fully as productive as most larger podded kinds. Vines 15 inches high; pods in pairs 2½ to 3 inches long, square at bottom, containing 6 to 8 quite large, deep green wrinkled Peas. Postpaid, pkt. 10c; ½ pt. 15c; pt. 25c; qt. 45c.

Plant Little Marvel

If in doubt what to plant. It is the coming Pea for the home garden as well as the market.

BUCKBEE'S "Full of Life" PEAS

MEDIUM EARLY AND MAIN CROP, DWARF, SWEET, WRINKLED VARIETIES

Daisy or Dwarf Telephone

Thoroughbred Main Crop Rich Flavored Wrinkled Pea.

The vines, though growing only about 18 inches in height, are very thick, stout and bear a big crop of large, well filled pods. The pods average 5 to 6 inches in length, containing 7 to 9 large Peas of a light green color which are tender and sweet. Compared with the tall Carter's Telephone in size, shape and color of pods and exquisite flavor the two varieties are alike, but the Daisy being dwarf can be grown without support and the rows of it can be made closer together and furthermore it is about 10 days earlier than the tall sort. Postpaid, pkt. 10c; $\frac{1}{2}$ pt. 15c; pt. 25c; qt. 40c.

Buckbee's New Vigorosa

Immense Cropper, Sweet and Sugary.

This grand, exceptionally good new Pea is one of the best second early varieties ever introduced, pods attaining the length of 7 inches and upwards, closely packed with large, broad, dark green Peas of exceptionally fine, sweet flavor. It is of upright growth, no bushing required. Send to BUCKBEE for Originator's Choice Stock Seed. Postpaid, pkt. 7c; $\frac{1}{2}$ pt. 15c; pt. 25c; qt. 40c.

Improved Stratagem

High Grade Standard Late Pea.

One of the best of the large-podded sorts. The pods are of immense size and uniformly filled with very large dark green Peas of the finest quality. The vines grow 15 to 16 inches in height. About 5 to 6 days later than the Daisy. It is vastly superior to the stocks now generally sold as Stratagem. Vines require no support. Postpaid, pkt. 6c; $\frac{1}{2}$ pt. 12c; pt. 20c; qt. 35c.

Buckbee's
New
Vigorosa

Potlatch or Big Dinner

The Best Main Crop Variety of Large Podded Dwarf Peas.

Potlatch is a second early variety. It has become the leading and the most popular variety of its class.

Potlatch is Chinook Indian for Big Dinner. The vines are sturdy and vigorous, growing about 20 inches high with coarse and unusually dark green foliage which can be distinguished from that of other peas a quarter of a mile away. The pods, which are borne in pairs, are long, often measuring 6 inches or more. They are broad, pointed, rich dark green in color and in size and fullness fully equal to those of the Tall Telephone Pea. They contain 5 to 11 Peas which are very large and in sweetness and flavor rank with the finest. Potlatch is a wonder of productiveness and the way the Peas shell out is astonishing. On account of its large, beautiful pods, enormous productiveness is a great favorite with market gardeners, and owing to delicious quality one of the best for the table. Postpaid, pkt. 10c; $\frac{1}{2}$ pt. 15c; pt. 25c; qt. 45c.

Fred E. Bridgman, Box 183, Milford, Mich., writes: "Last year I ordered my seeds from you and not a seed failed. I entered them at the County Fair and won first on everything and first as a Collection."

Potlatch or Big Dinner.

BUCKBEE'S "FULL OF LIFE" PEAS

Second Early and Main Crop. Tall, Sweet, Wrinkled Varieties.

ABUNDANCE

The Name Tells the Whole Story. Recognized Favorite for Home Consumption and Market Purposes.

A wonderfully productive sweet wrinkled Pea of exceptionally fine quality, coming into market about one week later than the Extra Early varieties. Produces very thrifty vines about 24 inches high that have a tendency to branch out from the roots, increasing the yield many fold above the average. Pods form in clusters, making it a very easy sort to pick, and are completely filled with from 6 to 8 large delicious Peas. Send to Buckbee for the genuine stock seed. Postpaid, pkt. 6c; ½ pt. 12c; pt. 20c; qt. 35c.

CARTER'S IMPROVED TELEPHONE

A Standard Large Podded Main Crop Variety in Every Market.

The Telephone has become the leading Pea with market gardeners whose trade appreciates fine appearance and high quality. Vines vigorous, growing about 4 feet high, producing an abundance of very large pods filled with immense Peas, which are tender, sweet and of excellent flavor. Foliage and pods are of light bright green color. Postpaid, pkt. 7c; ½ pt. 15c; pt. 25c; qt. 40c.

ALDERMAN

Also Called Admiral Dewey.

This comparatively new Pea is, in many respects, the very best early main crop variety of the valuable telephone type. The vines grow nearly 5 feet high, are dark green, vigorous and exceedingly productive. Pods are very large, long, dark green. They appear a little later than those of Carter's Telephone, but are larger, often measuring 6 inches and over. The Peas are of the largest size and of unsurpassed quality. Market gardeners are demanding the large podded, dark-colored sorts, which retain their fine appearance even after shipping a long distance. The Alderman answers these requirements and furthermore is the most productive variety of this class. We recommend unreservedly as one of the finest and most desirable for the home as well as for the market gardener. Postpaid, pkt. 8c; ½ pt. 15c; pt. 25c; qt. 40c.

PRINCE EDWARD or PRODIGIOUS

This is an English strain of the Telephone type, selected and bred from the Alderman, which also belongs to that type, especially for size of the pods. Prince Edward is considered by all who have tried it as the most profitable variety to grow for the trucker and here it is known there is enormous demand for it. This is the largest garden Pea we grow. It is truly the giant of the Pea family and is unsurpassed for exhibition purposes. In England, where it has been exhibited in the last few years at the leading shows, it has always taken the first prize.

The vines grow about 6 feet in height, are of vigorous and robust habit and have dark green foliage and pods. The pods are produced in pairs and in great profusion. They attain the extraordinary length of 7 inches and upwards and are closely packed with 1 to 13 large, dark green Peas of delicious quality. The Pea is well named prodigious because of its enormous pods and also its enormous cropping properties. Market gardeners who do not know this variety ought to give it a trial. Postpaid, pkt. 10c; ½ pt. 15c; pt. 25c; qt. 45c.

BUCKBEE'S "Full of Life" PEAS

Second Early and Main Crop; Tall, Sweet, Wrinkled Sorts—Continued

NEW EVERBEARING

The Great Continuous Everbearing Variety.

Vine stout, about two and one-half feet high, bearing at the top six to eight broad pods. If these are picked as they mature and the season and soil are favorable, the plant will throw out branches bearing pods which will mature in succession, thus prolonging the season. The Peas are very large and wrinkled, cook very quickly, are tender, of superior flavor and preferred by many to any other sort. Postpaid, pkt. 7c; ½ pt. 15c; pt. 25c; qt. 40c.

HORSFORDS MARKET GARDEN

The Great Medium Late Sweet Wrinkled Pea for Truckers and Home Use.

A first-class wrinkled Pea, medium late. Height 2 to 3 feet, no sticks. It is a profitable sort for market gardeners, as single plant has been known to produce more than 150 pods. It is equally good for the home table and also much used by canners. The medium-sized pods are borne in pairs, and are easily and quickly picked. This variety is said to have yielded more shelled Peas to the acre than any other American sort. Postpaid, pkt. 6c; ½ pt. 10c; pt. 18c; qt. 35c.

YORKSHIRE HERO

One of the Very Best Main Crop or Late Wrinkled Peas.

Vines stout, about two and one-half feet high, bearing at the top a number of broad pods filled with large Peas that remain a long time in condition for use and which never become hard as most sorts. The Peas are very large and of fine quality. Postpaid, pkt. 5c; ½ pt. 10c; pt. 18c; qt. 35c.

GRANT'S FAVORITE

You Never Ate a Better Pea.

This new variety of our own introduction is unquestionably the sweetest late Pea ever offered, coming into use just after the early varieties are through bearing. Luxuriant grower, from three to four feet high. The pods are of good size, and always well filled with exceptionally sweet and highly flavored Peas. It is nearly an upright grower, but will do better if staked or planted along a fence. Postpaid, pkt. 8c; ½ pt. 15c; pt. 25c; qt. 40c.

IMPROVED CHAMPION OF ENGLAND

The Standard Sweet Flavored Late Wrinkled Pea.

Very productive and universally admitted to be one of the richest and best flavored Peas. Height four to five feet; seed light green and much shriveled. Very inferior and mixed stocks of this sort are frequently offered, but when the seed is as well grown and selected as that we offer, we consider the variety equal in quality to any in cultivation and one of the best of its season, either for the amateur or market gardener. This is the latest pea we grow; it is about a week later than Telephone. Postpaid, pkt. 5c; ½ pt. 10c; pt. 18c; qt. 35c.

Marrowfat Peas

BUCKBEE'S MAMMOTH-PODDED SUGAR MARROWFAT

The Largest Podded, Most Productive and Best Flavored of the Marrowfat Peas, a Good Variety for Late Crop.

Here is an excellent Pea for the home gardener—and a profitable shipping variety for the professional Pea Growers. Extremely prolific, out-yielding any known sort. Pods are 4 or 5 inches long, completely filled with large peas of good flavor. Vines grow about 4 feet high; should be bushed for best results, although great results are obtained without. We have harvested a fine crop of the choicest seed of Buckbee's Mammoth Podded Sugar Marrowfat Peas the past season and will put the price within the reach of all. Postpaid, pkt. 8c; ½ pt. 15c; pt. 25c; qt. 40c.

LARGE BLACK EYED MARROWFAT

Largest of the Marrowfats, with a distinct black eye. Vines grow about 5 feet high; pods 3 inches long; peas very large, smooth and round, of ordinary quality. Immensely productive. Postpaid, pkt. 5c; ½ pt. 10c; pt. 18c. qt. 35c.

LARGE WHITE MARROWFAT

Large Peas of Very Fine Quality.

Cultivated extensively for the summer crop. About 5 feet high, of strong growth. Pods about 3 inches long, filled with large, round, creamy yellow peas. Enormous croppers. Postpaid, pkt. 5c; ½ pt. 10c; pt. 18c; qt. 35c.

Buckbee's New Mammoth Melting Sugar

The Wonderful Edible Podded Pea.

This new variety is far superior to all other edible Podded Peas, not only in size of pods, but also in delicious quality. They are used in the same way as the Snap or String Beans, not being shelled, but the pod and Peas all being eaten. Pods are very large, sweet smooth, extremely tender, so brittle that they snap absolutely without any string and of the most delicious flavor. Vines are tall, reaching a height of five or six feet and do much better if supported. Postpaid, large packet 8c; ½ pt. 15c; pt. 25c; qt. 40c.

BUCKBEE'S "Full of Life" PUMPKINS

German, KURBIS; French, COURGE; Spanish, COLA BAZA; Swedish, PUMPA.

Buckbee's True Sugar Pie.

CUSHAW OR CROCKNECK WHITE—Solid and sweet. Popular for the table. Pkt. 4c; oz. 15c; 1/4 lb. 40c; 1/2 lb. 75c.

NEW CALHOUN—Fine variety, heavy and solid, very productive. Skin rich cream color, flesh salmon yellow, very thick, fine grained and of superior quality. Pkt. 4c; oz. 10c; 2 oz. 18c; 1/4 lb. 30c.

NEW WINTER LUXURY—Fine keeper and enormously productive. It is very finely netted and in color it is a golden russet. Pkt. 4c; oz. 10c; 2 oz. 18c; 1/4 lb. 30c.

TENNESSEE SWEET POTATO—A magnificent pear-shaped variety of medium size; a little ribbed; color creamy white; when cooked it has somewhat the appearance of sweet potatoes, but is of more delicious taste. Flesh thick creamy white, remarkably fine-grained, dry and brittle; there is no superior for making pies and custards. Hardy and productive, and keeps perfectly sound until late in the Spring. Pkt. 4c; oz. 10c; 2 oz. 18c; 1/4 lb. 30c.

BUCKBEE'S KING OF THE MAMMOTHS—Wonderfully grand and colossal variety, astonishing everyone by its mammoth size and heavy weight. Think of it—a single Pumpkin weighing 469 pounds! Many of our customers saw this specimen on exhibition at the World's Fair. King of Mammoths is always a prize winner at fairs and exhibitions. Notwithstanding its enormous size, it is one of the best pie and table varieties grown. A splentid keeper, and exceptionally valuable for feeding purposes. We control the complete stock of this variety. Send to Buckbee for true stock seed. We do not save seed from specimens weighing less than 200 pounds. Pkt. 10c; oz. 15c; 2 oz. 25c; 1/4 lb. 40c; 1/2 lb. 75c; 1 lb. \$1.25.

BUCKBEE'S TRUE SUGAR PIE—One of the very earliest and very best pumpkins. The fruits are small, round, with orange-colored skin and flesh. Remarkably prolific and an excellent keeper. The flesh is thick, fine-grained, dry, sweet, sugary and of the finest quality for pies. It cannot be beat for table use. Pkt. 4c; oz. 8c; 2 oz. 15c; 1/4 lb. 25c; 1/2 lb. 40c; 1 lb. 75c.

LARGE CHEESE—Sometimes called Kentucky Field—Flattened fruit with broad ribs; creamy buff skin; averages two feet in diameter. It is an excellent keeping variety, with thick flesh of exceptionally fine quality. Pkt. 3c; oz. 6c; 2 oz. 10c; 1/4 lb. 18c; 1/2 lb. 30c; 1 lb. 50c.

QUAKER PIE—Fine grained and of rich flavor, having none of the stringy nature common to so many varieties. It is early and keeps late. Oval shaped tapering to the ends; of cream color both inside and out. Pkt. 4c; oz. 10c; 2 oz. 18c; 1/4 lb. 30c.

QUAKER WHITE—Creamy-white skin. Flesh yellow, out. Pkt. 4c; oz. 8c; 2 oz. 15c; 1/4 lb. 30c.

BUCKBEE'S PURE GOLD—Acknowledged by all the best field Pumpkins, either for growing with corn or in fields by itself. Excels for feeding stock, and, best of all, makes most delicious Pumpkin pies. Deep, rich, creamy yellow color, flesh fine grained and of excellent flavor. Choice stock seed, by mail, postpaid, oz. 7c; 1/4 lb. 18c; 1/2 lb. 30c; 1 lb. 50c. By express or freight, at buyer's expense, 5 lbs. \$2; 10 lbs. \$3.75.

WESTERN FIELD—Sometimes called Big Tom of Connecticut Field—One of the best varieties for field purposes, particularly desirable for stock feeding. Grows to a fine size. Color rich yellow, flesh fine grained, of good flavor. Postpaid, oz. 6c; 1/4 lb. 15c; 1/2 lb. 25c; 1 lb. 45c. By express or freight, at buyer's expense, 5 lb. \$1.75; 10 lbs. \$3.35.

NEW JAPANESE PIE—The seeds are distinct in appearance, being curiously sculptured in the same manner as Japanese letters. Of medium size, good keepers and weigh 15 to 20 pounds each. The flesh is a rich salmon, unusually fine grained, and when cooked or stewed is almost as dry and meaty as a sweet potato. For making pies, custards, etc., they certainly have no superior. Containing but little water, can easily be cut and dried like dried apples and make excellent pies or sauce for winter use. Pkt. 5c; oz. 10c; 2 oz. 18c; 1/4 lb. 30c.

BUCKBEE'S NEW SANDWICH ISLAND—A splendid variety, coming from a remote section of the Sandwich Islands, where by chance our representative found it, it has created a great furore in its new home. Remarkably distinct in every way, of fine size, very prolific bearer, and deliciously thick flesh. An excellent keeper. Seed of our own growth. Pkt. 10c; oz. 15c; 2 oz. 25c; 1/4 lb. 40c; 1/2 lb. 75c; 1 lb. \$1.25.

Japanese Pie.

The Cream of the Extra Early Radishes

German, RADIESCHEN; French; RADIS RAVE, PETITE RAVE, Spanish, RAIBANO; Swedish, RATTIKOR.

Buckbee's selected strains of Extra Early Radishes, listed on this page, are grown from transplanted roots and are the earliest and finest known. Will invariably produce roots even in size, shape, maturity with small tops, rich, bright colors and command the highest market prices.

Buckbee's Rapid Forcing.

BUCKBEE'S RAPID FORCING

The Earliest of All Radishes.

Quick growth is one of the main essentials for a crisp and tender Radish. Buckbee's Rapid Forcing matures in about 14 days from sowing; that is several days ahead of any other variety known today. This Radish is of a fine turnip shape. It remains in good condition without getting hollow or pithy longer than any other extra early variety. The flesh is pure white, crisp and of very pleasant flavor. The skin is a most attractive bright scarlet. The leaves are very short, which admits of close sowing. Its extreme earliness, maturing before all other kinds, its beautiful bright scarlet color and its unusually brittle and delicious quality, make it most desirable for kitchen, garden or a source of great profit for the market gardener. Remember that we control the entire stock of this variety. Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 60c; 1 lb. \$1.00.

NEW LEAFLESS

An extra early Scarlet Forcing Radish, lately introduced. Remarkable for the small size of its leaves. They develop their roots in so short a time that the latter are practically in advance of the leaves. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 50c; 1 lb. 90c.

Buckbee's Rockford Beauty

The Handsomest Radish.

Very early, only a day or two later than Rapid Forcing. Of bright scarlet color with a large white tip covering almost one half of the root. Flesh crystal white, tender and crisp. This is one of the most popular Radishes grown for the home as well as for the market, being of most beautiful appearance and exquisite flavor. We control the entire stock of this variety. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 60c; 1 lb. \$1.00.

BUCKBEE'S NEW EARLY RED KING

This extra early variety is of small size; just right for the purpose. Beautiful dark red skin, ivory white flesh; extremely mild and sweet flavor; retains its crispness even when quite old. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

BUCKBEE'S CRYSTAL FORCING

The Quickest Growing White Radish.

Without an equal. Matures in 14 days. Pure snow-white in color—fairly crystal—so clear and transparent. Nothing is more tempting and pleasing than a combination of Buckbee's Crystal Forcing and Buckbee's Rapid Forcing when arranged in market or on the table. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

NEW TRIUMPH (Speckled Beauty)

The flesh is very crisp and solid and of mild, pleasing flavor. Of unique color, ivory white, striped and splashed with bright scarlet. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

NEW ROSY GEM

Color very dark scarlet with a white tip; flesh white and of the best quality. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; 1 lb. 60c.

VICK'S SCARLET GLOBE

Its color is a rich scarlet. It has a small top and is a highly-bred Radish. A grand forcing variety and excellent for sowing outdoors. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

QUALITY
NOTHING BUT
QUALITY

BUCKBEE'S BRILLIANT GLOBE

Buckbee's Brilliant Globe is a great improvement on the well-known Scarlet Globe, as it runs more even in shape and size, is of a richer, brighter color and is very much earlier. It will surely take the place of the older variety where known. It is well suited for greenhouse and hotbed forcing, and also for outdoor. It is of attractive globular form, of magnificent glowing bright scarlet color and has pure white crisp, tender and juicy flesh. We especially recommend this variety to the market gardener, but it is also one of the finest for the house garden. Pkt. 10c; oz. 15c; 2 oz. 25c; ¼ lb. 40c; ½ lb. 60c; 1 lb. \$1.00.

BRILLIANT GLOBE

Buckbee's Early Round Radishes

EARLIEST SCARLET TURNIP

The famous standard variety. One of the finest, juiciest, sweetest and best radishes for early use grown. Rich, red color; flesh white. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 30c; lb. 50c.

EARLIEST WHITE TURNIP

Very handsome, of quick growth, sweet, juicy and tender. Skin ivory white, flesh pure white. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 30c; lb. 50c.

EARLIEST SCARLET TURNIP, White Tip

Roots smooth, fine bright scarlet, with clean white tips. Very early. Very popular for planting outdoors and a splendid market variety. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

Early Scarlet Olive Shaped.

Buckbee's Crimson Giant Globe.

Early Olive Shaped Radishes

IMPROVED FRENCH BREAKFAST

A medium sized Radish, olive shaped, small top, of quick growth; very crisp and tender; of a beautiful very bright scarlet color, except near the tip, which is pure white. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

EARLY SCARLET OLIVE SHAPED

In the form of an olive, terminating in very slim tap root. Skin scarlet, neck small; flesh rose colored, tender and excellent. Early, good for forcing and general crop. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

EARLY WHITE OLIVE SHAPED

Different from the scarlet olive-shaped in color and being a little longer. Clear white, crisp and mild flavored. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

Buckbee's Early Long Radishes

NEW ICICLE

The Finest of All Radishes. The Earliest of the Long White Sorts. Ready for the table in about three weeks. The roots are perfectly white in color, long, slender and tapering in shape. They quickly grow to market size and remain tender during the entire growing period, and are quite as good when an inch in diameter as when only half an inch. The leaves are short, very few in number, and the roots can, therefore, be planted very closely together. The flesh is crisp, tender and mild in flavor. Admirably adapted for growing under glass as well as in the open ground. Excellent for market and private gardeners. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

CARDINAL or EARLY LONG BRIGHTEST SCARLET

The Earliest and Finest of the Long Red Radishes. Of the same size and shape as the old and well-known Long Scarlet, but it is a few days earlier and the color is of a much brighter scarlet, with a distinctly clear white tip. It has a small top. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

PARIS BEAUTY or HALF LONG DEEP SCARLET

A brilliant deep, rich, red color, changing to a pure white in the lower portion. About 3 to 4 inches long, but thicker than the foregoing variety. The flesh is very white, crisp and tender. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

Cardinal or Early Long Brightest Scarlet.

New Icicle.

CRIMSON GIANT GLOBE

Sweet, Crisp, Juicy, Mild; Wonderful Yields, Beautiful Color, Large Size.

This Radish is an entirely new type and differs radically from all varieties hitherto in cultivation, in so far as its roots attain more than double the size of other round, early varieties, without getting pithy or hollow. It is very early notwithstanding its size. Color crimson, flesh pure white, of the best quality. The roots often weigh 1½ ounces each and are crisp and juicy. Fine for outdoors and forcing. The seed should be sown very thinly to permit full development of the roots. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 30c; ½ lb. 50c; lb. 80c.

QUALITY
NOTHING BUT
QUALITY

Improved French Breakfast.

BUCKBEE'S SUMMER RADISHES

Require a longer time than Early Radishes to mature, but grow larger and keep longer

New Golden Dresden.

NEW GOLDEN DRESDEN

A Favorite With Market Gardeners. It has proved a universal favorite everywhere. Matures in less than 30 days. Flesh pure white, crisp, juicy and of the finest flavor. Skin of beautiful golden russet color. Market gardeners can either grow this variety in the open ground or force it, and be sure of an early, perfect and uniform crop. Unexcelled for the home garden. Pkt. 6c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

NEW WHITE DRESDEN

When planted under ordinary conditions the first of May it is ready for the table the first of June. The tops are small and admit of the closest planting. The Radishes are perfectly round and smooth. The flesh is crisp, white, juicy and of the finest flavor. Pkt. 6c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

GRAY SUMMER TURNIP

Round, turnip-shaped. The skin on the upper part is mottled with greenish brown.

Flesh mild, of greenish white color. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

White
Strasbourg.

BUCKBEE'S ROCKFORD MARKET

A World Beater Among Radishes
The Best Long Radish.

The extraordinary earliness is remarkable in view of the fact that it grows to such a large size and keeps in good condition for such a long time. The shape is regular, smooth and nearly conical; it grows to a very large size about twice as long as Brightest Scarlet. In brightness of color it is quite unique, being the handiest scarlet we have yet seen in a Radish and tipped at the end of the roots with just enough white to present an ideal appearance. Crisp, tender and juicy. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

BUCKBEE'S IMPROVED CHARTIER

A standard variety. The roots come to usable size very early, remaining hard and crisp three times as long as any other sort. Flesh, white, crisp and mild-flavored. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 30c; lb. 50c.

GOLDEN SUMMER TURNIP

It is perfectly round in shape; neck is finer, leaves smaller and color brighter than the old Yellow Turnip Radish. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

NEW WHITE LADY FINGER

Beautiful in shape and the skin and flesh are pure snow white. Crisp, brittle and of rapid growth. Order early. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

WHITE STRASBURG

This grows to the largest size, but is usable when quite small, thus covering a long season. Four to five inches long and about two inches thick. Very white, crisp and tender. One of the finest of the large summer sorts. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

Buckbee's Rockford Market.

BUCKBEE'S WINTER RADISHES

CHINESE ROSE—Called also All Season, because it is edible at all seasons of the year. It can be planted from Spring until late Fall, and keeps in perfect condition all Winter, while the other Winter Radishes are best sown not before June 15th. Chinese Rose requires about fifty days from sowing to be fit for the table. It is a beautiful showy Radish with a bright scarlet skin, growing 4 to 6 inches in length and from 1 to 3 inches in diameter. The roots are cylindrical, somewhat larger at the bottom than on top, blunt at both ends. There is no other Winter Radish equal to it in quality. It is the most juicy, luscious of all, keeps its solidity, crispness and sweetness when all others have become pithy and worthless. This is a Radish to tie to and plant in every garden. Its beauty and quality will please everyone. Pkt. 5c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

MAMMOTH CELESTIAL—Roots frequently grow 14 to 18 inches in length and 6 to 8 inches in diameter, growing mostly above the ground. Skin and flesh pure paper white; very tender, crisp, juicy, mild. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

CALIFORNIA MAMMOTH WHITE—Pure white about 1 foot long and 2 or 3 inches through, tapering regularly to the tip. Flesh tender and crisp. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

ROUND BLACK SPANISH—The roots are from 3 to 4 inches in diameter, almost round and very black skinned. The flesh is white, very compact, pungent and well flavored. Keeps well all winter. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

LONG BLACK SPANISH—Later than the Round Black Spanish, growing 10 to 12 inches long, having a diameter of from 2 to 3 inches. The skin is black and the flesh white, firm and pungent. Keeps well throughout the winter. A favorite sort with Germans. Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

RADISH MIXTURES

Price each of the following varieties: Pkt. 4c; oz. 7c; 2 oz. 12c; ¼ lb. 20c; ½ lb. 35c; lb. 60c.

EARLIEST RADISHES MIXED—For family gardens, earliest varieties.

SUMMER RADISHES MIXED—For family gardens we offer a mixture of all summer varieties.

WINTER RADISHES MIXED—Seed of the best white, black and rose-skinned varieties, which will produce all the best Radishes for Autumn and Winter use.

Chinese Rose.

SALSIFY

OR
VEGETABLE
OYSTER

BUCKBEE'S
ALL AMERICA

SALSIFY

German, HAER WURZEL; French, SALSIFIS; Spanish, SALSIFY BLANCO.

This delicious vegetable should be more generally grown. It surpasses for table use both parsnips and carrots, acquiring, after a good frosting, a decided oyster flavor.

MAMMOTH SANDWICH ISLAND

MAMMOTH SANDWICH ISLAND—(extra large size, in every way preferable to the older varieties, being larger, stronger growing, and less liable to blight. Invaluable to market gardeners. Pkt. 5c; oz. 15c; 2 oz. 30c; 1 lb. 55c.

SCORONERA OR IMPROVED BLACK SALSIFY—Skin black. Considered by many better than White Salsify. Somewhat harder to raise, although cultivated the same. Pkt. 10c; oz. 20c; 2 oz. 35c; 1 lb. 60c.

SPINACH

German, Spinat French, Epinard; Spanish Espinaco

BUCKBEE'S NEW LONG SEASON

Also called Triumph—The best variety to sow in Spring and also continuously all summer, as it remains firm and fresh during the hot summer months. Plants are comparatively small, of compact but prostrate growth. The leaves are thicker and heavier than those of any other sort; they are heavily crumpled and blistered, of dark green color, and do not wilt or run to seed as quickly as any other kind. Pkt. 5c; oz. 15c; 2 oz. 30c; 1 lb. 55c; 2 lb. 45c; lb. 85c.

MONSTROUS VIOLEAF—Strong, quick grower, immense yielder, the largest spinach; the plants sometimes measure 2 feet in diameter with leaves 10 inches long and 8 inches wide at the base. Leaves handsome in appearance and deservedly popular. Pkt. 3c; oz. 7c; 2 oz. 15c; 1 lb. 25c; 1/2 lb. 40c; lb. 70c.

PRICKLY WINTER—Very hardy and productive; slow to run to seed. For fall and spring sowing. Pkt. 4c; oz. 8c; 2 oz. 15c; 1 lb. 25c; 1/2 lb. 40c; lb. 70c.

NEW ZEALAND—An exceptionally fine variety, available for use during the hottest months of the year. Quite different from any other Spinach, being of branching habit. Stems and leaves are thick, fleshy, tender and succulent; in color and flavor full equal to the best Spinach. Very productive, sends out fresh growth after being cut continuously until frost. Should be in every garden. Large pkt. 5c; oz. 10c; 2 oz. 18c; 1/4 lb. 30c; 1/2 lb. 50c; lb. 90c.

SORREL

German, Sauerampfer; French, Oseille.

LARGE-LEAVED GARDEN—The best garden variety, having large pale green leaves of fine quality. Pkt. 4c; oz. 15c; 2 oz. 25c; 1 lb. 40c.

SWISS CHARD OR SUMMER SPINACH

LARGE RIBBED WHITE—Also called Silver Beet and Sea Kale Beet—The leaves are used for greens the same as Spinach or beet tops; they are equal in quality and easy to prepare than Spinach, and far superior to beets. Nothing in the garden requires less care, and yet it yields a constant crop from July to winter and can be used all summer when Spinach is not available. Pkt. 4c; oz. 8c; 2 oz. 15c; 1/4 lb. 28c; 1/2 lb. 50c; lb. 90c.

LUCULLUS—This grand new and distinct variety is a great acquisition. The stalks are as thick and broad as Rhubarb. The plants grow to a height of from 2 to 2 1/2 feet, and stalks are from 10 to 12 inches long and 1 1/2 inches broad. Pkt. 5c; oz. 10c; 2 oz. 18c; 1/4 lb. 35c; 1/2 lb. 65c; lb. \$1.25.

Buckbee's New Long Season.

ICTORIA—Large, exceedingly thick; dark green leaf, which is somewhat savoyed; slow to run to seed. An excellent variety. For market or the private garden. Pkt. 4c; oz. 7c; 2 oz. 15c; 1/4 lb. 30c; 1/2 lb. 40c; lb. 70c.

Lucullus.

New Zealand.

BUCKBEE'S "Full of Life" SQUASH **SUMMER SQUASHES**

Buckbee's New Mammoth White Bush.

BUCKBEE'S NEW MAMMOTH WHITE BUSH

Scalloped or Improved Patty-Pan. Great improvement over the Early White Bush. Very uniform in shape and wonderfully prolific. Fit to use very early, of a beautiful clear white color, and grows to a large size—12 to 15 inches across. Valuable alike for family and market purposes. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; 1 lb. 90c.

BUCKBEE'S NEW GIANT SUMMER CROOKNECK

Standard Early, Splendid Quality. Twice as large as the ordinary Crookneck, more warty and earlier. This combination makes it the most desirable for the market or private garden. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00.

NEW DELICATA

Delicious Both for Summer and Winter Use.

This Squash is orange-yellow. Splashed and striped with dark green on the outside. The flesh is rich, dry and particularly fine. For private use we can recommend it as surpassing in richness of flavor any of the large, old-fashioned sorts. A desirable feature is its small size; not too large for an ordinary family; it is wonderfully solid and the seed cavities being very small. Also extremely early (the earliest of any vine Squash), maturing about the same time as the Summer Squashes, and for early use will doubtless supplant this class on account of its superior dryness and flavor, while its extreme solidity renders it fully as good a keeper as any of the Winter varieties. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 60c; 1 lb. \$1.00.

GOLDEN WEST HARD SHELL

A Splendid, Long Keeper.

This Grand Fall and Winter Squash originated by a "cross" in a field of Hubbards and is practically "bug-resistant." Quality is delicious. Skin and flesh beautiful golden orange-red color. Big yields; very profitable for home or market purposes. Makes the very best baked Squash and pie. Don't fail to plant this grand variety. Pkt. 5c; oz. 10c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

Buckbee's
New Giant
Summer
Crookneck.

Mammoth Early Golden Custard.

MAMMOTH EARLY GOLDEN CUSTARD

Standard early Summer variety. Nice to use in its green state and valuable for making pies when it has attained full size. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; 1 lb. 90c.

NEW FORDHOOK

Hardy, Most Dependable. Fine for Baking. The flesh of this Squash is very dry and sweet. It is very early, but if stored in a cool, dry place it will keep as long as a winter Squash. The outside color is bright yellow; inside color, straw yellow. The skin is so thin that it need not be removed for cooking. The meat is thick and can be used at any stage of their growth. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; 1 lb. 90c.

WINTER SQUASHES

Delicata.

CHICAGO WARTED HUBBARD

The Leader in Many Markets.

Our strain of the above will produce what we consider the Ideal Hubbard for home or for market. For 30 or more years this Squash has ranked first for a Winter keeper. It is shipped thousands of miles in carload lots from West to East every year. Large fruits, very heavily warted, of fine dark green color and with fine-grained, rich, dry flesh. Choicest stock seed of our own growing. Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

NEW GOLDEN HUBBARD

The One Squash That Is Never Troubled by Bugs. Justly popular wherever and whenever grown. This is a true Hubbard Squash, except in color and skin, which is bright golden. It ripens its crop earlier than the green Hubbard. The fruits are very uniform in size, weighing from 6 to 8 pounds, and in shape are like the Hubbard. They are wonderfully long keepers. The skin is very warty, hard and strong. The flesh is a deep orange, and uniformly so to the end, never having the green tinge so objectionable in other sorts. It cooks very dry, fine grained and good flavored. Has no superior as a table Squash. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 55c; 1 lb. \$1.00.

BUCKBEE'S IMPROVED HUBBARD

The Grand Old Favorite. Famous Standard Winter Squash. This is a superior selection of this famous variety and one of the best Winter Squashes. Keeps perfectly good throughout the Winter. Flesh bright orange-yellow, fine grained, very dry, sweet and rich flavored. Bolls or bakes exceedingly dry, and is esteemed by many to be as good baked as a fine Sweet Potato. This strain produces the largest and heaviest fruits of any Hubbard Squash of deep green color well warted. We offer it with every assurance to give entire satisfaction. Send Buckbee for the best seed. Pkt. 5c; oz. 8c; 2 oz. 15c; ¼ lb. 25c; ½ lb. 40c; 1 lb. 75c.

BUCKBEE'S "Full of Life" SQUASH Winter Varieties —Continued

DELICIOUS

The best flavored Squash in existence. For table quality there is no other Squash that can be compared with it in sweetness and richness of flavor. It is an excellent Squash for Fall as well as for Winter use, keeping well until late in the Spring. The fruits are of medium size, usually weighing from 5 lbs. to 10 lbs. The rind is dark green mottled in lighter shades. The flesh is very fine grained, thick and dark orange in color. Pkt. 5c; oz. 10c; 2 oz. 18c; ¼ lb. 35c; ½ lb. 65c; lb. \$1.25.

BOSTON MARROW

One of the Very Best for Quality. Fine Keeper.

A desirable Fall and Winter variety; very popular everywhere. Of oval form, skin thin, when ripe bright orange mottled with light cream color; flesh rich salmon yellow, fine grained, and for sweetness and excellence unsurpassed. Much used by canners. Pkt. 3c; oz. 6c; 2 oz. 10c; ¼ lb. 18c; ½ lb. 35c; lb. 60c.

Delicious.

MAMMOTH WHALE

The Heavyweight Jumbo of Squash Family.

The Largest of All. Single specimens have grown to the enormous weight of 300 pounds. Outer color a dark olive green with stripes of lighter tinge; flesh very thick and of rich yellow color; quality good, very nutritious, making it exceptionally valuable for all family and market purposes. Its size makes it profitable to grow for stock feeding also. Pkt. 5c; oz. 15c; 2 oz. 25c; ¼ lb. 45c; ½ lb. 85c; lb. \$1.50.

We also offer the following well-known varieties of Squash, all at—Pkt. 4c; oz. 8c; 2 oz. 15c; ¼ lb. 28c; ½ lb. 50c; lb. 90c; Blue Hubbard or Marblehead, Faxon's New Brazilian, Pike's Peak or Sibley, and New Furban.

Mammoth Whale.

BUCKBEE'S "Full of Life" TOMATOES

Scarlet Sorts

BUCKBEE'S NEW 50-DAY TOMATO

The Largest Fruited, the Smoothest, the Finest in Quality of all Extra Early Tomatoes.

Originated on our Rockford Seed Farms. Called 50-day Tomato because it produces large, ripe fruits on strong plants in 50 days from time they are set in the open ground.

The vines are short, very vigorous, enormously productive and ripen a very much larger crop at the early part of the fruiting season than any other extra early variety. The fruits are globular, unusually uniform and smooth, entirely free from blemishes, wrinkled or cracked fruits, and weigh on an average about 5 oz. each, although many fruits as heavy as 6½ oz. each and over have been found in our fields. The color of the fruits is a beautiful bright scarlet. They ripen evenly, well up to the stem, have no hard core, small seed-cells, and are practically all heavy, solid meat of mild and most delicious sweet flavor. The skin is thin but very tough, making it a splendid long-shipping variety.

Compared with Earlians, the fruits of the 50-Day Tomato are very much larger, smoother, of better quality, containing less seed and more meat. They are of better appearance and therefore better sellers; furthermore, they ripen fully as early. Fifty-Day will soon replace Earlians, and it should also be planted in place of second early sorts like Bonny Best and Chalk's Jewel, being earlier, just as productive and producing fruits equal in size, beautiful appearance and of better quality; only Buckbee's Earliest Market is a few days earlier than 50-Day, but has somewhat smaller fruit.

Fifty-Day is the grandest early Tomato introduced so far. It is a boon for the market gardener and should have a place in every private garden. Price, pkt. 10c; 3 pkts. 25c; ½ oz. 30c; oz. 50c; 2 oz. 90c; ¼ lb. \$1.75; ½ lb. \$3.00; lb. \$5.00.

BUCKBEE'S "Full of Life" TOMATOES—Scarlet Varieties—Continued

Buckbee's Earliest Market

The Earliest and Most Prolific Tomato in Existence. Indispensable to the Market Gardener. The Greatest Money-Making Tomato.

This variety bears fruit which in size, shape, color, solidity and quality compares favorably with the noted later kinds and by repeated trials at Rockford Seed Farms and elsewhere has demonstrated that it ripens up a larger portion of its crop the earliest of any variety. It is without question the earliest good, large Tomato. Gardeners and Tomato fanciers will readily see the advantage obtained over their competitors by growing Buckbee's Earliest Market. We do not hesitate to pronounce it the largest, smoothest, best-flavored and highest colored extra early Tomato.

Compared with the well-known Earliana, my Earliest Market is about a week earlier, the fruits are fully as large, smoother, have no hard core, while Earliana is often rough and has large seed cavities. Furthermore, Earliest Market is much more prolific. In fact, it is the heaviest cropper of all Tomatoes known today. An average crop of a good variety amounts to about 250 bushels per acre, but yields 1,000 and of 1,400 bushels per acre have been grown of this variety. It is the most profitable variety to grow for the market; an excellent kind for the home garden, and if you have not given this wonderful variety a trial, be sure to include it in your order for 1917. Pkt. 4c; ½ oz. 20c; oz. 35c; 2 oz. 60c; ¼ lb. \$1.00; ½ lb. \$1.75; lb. \$3.00.

JOHN BAER

Our Seed is Home Grown from Originator's Stock.

An extra early tomato, large, smooth, bright scarlet fruits of excellent quality, short vigorous vines, enormously productive. Fruits larger, smoother with less seeds than those of Earliana, but somewhat later. Ripens earlier than Chalk's Jewel and Bonny Best. Most valuable for the market gardener and very desirable for home use. Pkt. 5c; ½ oz. 20c; oz. 35c; 2 oz. 60c; ¼ lb. \$1.00; ½ lb. \$1.75; lb. \$3.00.

CHALK'S EARLY JEWEL

Large extra early bright red. Within a week to ten days as early as Earliana. Fruits are very solid and deep through, being almost round or ball-shaped. Skin thin, good shipper. Pkt. 4c; oz. 18c; 2 oz. 35c; ¼ lb. 60c; ½ lb. \$1.10; lb. \$2.00.

John Baer.

BUCKBEE'S SPOT CASH

Fruit medium sized, oval, very smooth, of excellent quality and of exceedingly bright crimson scarlet color. Pkt. 5c; oz. 25c; 2 oz. 40c; ¼ lb. 70c; ½ lb. \$1.30; lb. \$2.50.

ROYAL RED

Large, bright red, uniform in size and shape. Pkt. 4c; oz. 16c; 2 oz. 30c; ¼ lb. 50c; ½ lb. 90c; lb. \$1.75.

MATCHLESS

A large-fruited standard bright-red Tomato. Our superb strain should not be compared with seed of this variety commonly offered at a low price. Splendid keeper. Pkt. 4c; oz. 18c; 2 oz. 30c; ¼ lb. 50c; ½ lb. 90c; lb. \$1.75.

THE NEW STONE

(Buckbee's Improved Strain)

A standard main crop variety of red Tomatoes. Late enormously productive with very large, solid and very smooth fruits of splendid shape and finest quality. Pkt. 4c; oz. 18c; 2 oz. 35c; ¼ lb. 60c; ½ lb. \$1.10; lb. \$2.00.

New Earliana.

NEW EARLIANA

An extremely early tomato of bright red color of good size and flavor. Is among the very first read for the market and not only remarkable for its earliness, but for its very large size, handsome shape, and bright red color. The vine are small but vigorous and very productive bearing the fruits in clusters near the base of the plant. The fruits grow about 3 inches in diameter and have solid thick flesh of splendid quality and are excellent shipper. Go to Buckbee for the earliest strain. Pkt. 4c; oz. 18c; 2 oz. 35c; ¼ lb. 60c; ½ lb. \$1.10; lb. \$2.00.

New Stone.

Buckbee's NEW BEEFSTEAK TOMATO

Trade Mark Registered 1914—By H. W. Buckbee, Et. Al.

BUCKBEE'S BEEFSTEAK

The King of All Main Crop Tomatoes

NOTHING in the way of a Tomato Creation has ever achieved in so short a time, the tremendously excellent reputation that has come to BUCKBEE'S BEEFSTEAK. Growers from every section of the wide world have sent in unsolicited praise, and the tests to which they have subjected it leave no room for doubt that it has all the qualities required in a Tomato. Its important features are:—Earliness, Large Size, Perfect Shape, Solidity, Handsome Color (which is rich red), Productiveness, Everbearing, Fine Flavor, Best Keeper, Splendid Shipper.

Without question—the King of All Tomatoes—and unqualifiedly Superior to any other variety grown, for market, for family use or canning. It is a sturdy healthy grower and is practically Everbearing, yielding enormous quantities of tomatoes always smooth and handsome until killed by frost. For a main crop there is no variety that can equal Buckbee's Beefsteak, and it is particularly desirable for large growers and shippers as it stands rough handling well, while its beautiful bright red color and handsome shape makes it very valuable as a market sort. It never fails to please every one, the amateur as well as the market gardener.

We supply over 150,000 of our customers with Buckbee's Beefsteak Tomato Seed annually. This speaks for itself, and substantiates our claim that Buckbee's Beefsteak is the "King of All Tomatoes," and the most extensively planted of any variety.

THE WORLD'S ONE UNBEATABLE TOMATO

We control the entire seed supply and offer the choicest "Full of Life" Seed of our own growing at the following reasonable prices. Send to Buckbee for the true "Beefsteak." Pkt. 10c; 3 pkts. 25c; ½ oz. 30c; oz. 50c; 2 oz. 90c; ¼ lb. \$1.75; ½ lb. \$3.00; 1 lb. \$5.00, postpaid.

WHAT SOME OF OUR CUSTOMERS SAY ABOUT BUCKBEE'S BEEFSTEAK

Mrs. D. S. Black, Gainesville, Ark., writes:—Buckbee's Beefsteak Tomatoes are the finest I ever saw, some of them weighed over a pound.

Wm. S. Roberts, Avonia, Va., writes:—We planted Buckbee's Beefsteak Tomato last year and they were splendid—best ever.

Mrs. W. M. Curtis, Clay City, Ky.: "Among my Beefsteak Tomatoes was one that weighed a pound and three-quarters."

Mr. Jas. M. Bateman, Harrisonville, Mo.: "I raised Beefsteak Tomatoes that were as large around as a saucer."

Miss Leathie Davis, Nectar, Ala.: "My Beefsteak Tomatoes are the finest I ever saw; they will weigh a pound or more each, and were 14½ inches around on July 15th."

Mrs. Wm. Steele, Genoa, N. Y.: "The Beefsteak Tomatoes were the largest I ever saw."

Louis Stoiko, Hermann, Mo., writes:—Your seeds were a complete success last year. Buckbee's Beefsteak Tomato is truly the "King of All Tomatoes." One specimen of it weighed exactly two pounds. I raised about twenty that weighed over a pound each.

Mrs. Willis Gooch, R. R. 2, Box 66, Hanson, Ky., writes:—Your Tomatoes certainly are fine. My neighbors said I had the largest Tomatoes they ever saw. Some of my friends five miles away wanted some of the seed.

The above are identical with thousands of others in our correspondence files.

BUCKBEE'S "Full of Life" TOMATOES—Pink or Purple Varieties

New Early June Pink.

QUALITY
NOTHING BUT
QUALITY

BUCKBEE'S IMPERIAL

Unquestionably the Most Productive of the Large Purple Tomatoes.

BUCKBEE'S IMPERIAL is fully as early as Beauty, but the fruits are much larger and heavier. They are very showy, smooth, of fine shape, beautifully glossy, purplish crimson color, and command the highest prices in every market. The vines are hardy, vigorous and enormous croppers, single plants often yielding under field culture more than a bushel of fully grown, ripe fruits. The plants bear continuously until destroyed by frost. The flesh is firm, of the finest flavor, ripens evenly to the stem. The skin is thin but tough.

BUCKBEE'S IMPERIAL is the best purple variety to grow for the market, a splendid long-distance shipper and most desirable for the home market. Pkt. 10c; ½ lb. 30c; oz. 35c; 2 oz. 60c; ¼ lb. \$1.00; ½ lb. \$1.75; lb. \$3.00.

BEAUTY

We have been perfecting this to a larger, smoother fruit than the original stock, and think we have made it one of the smoothest and best of the large purple sorts. Fruit large, uniform, very smooth; color purplish pink, flesh light pink, excellent flavor. Pkt. 3c; oz. 16c; 2 oz. 30c; ¼ lb. 50c; ½ lb. 90c; lb. \$1.75.

HENDERSON'S PONDEROSA OR No. 400

Shape Perfect, Size Massive, Extra Prolific, Early and Late, Quality High.

Monster Tomatoes, the largest of all Tomatoes, often weighing 2 to 3 pounds each. The fruits are oblong in form, deep through, of rich, bright solid meat, exceptionally free from seed and unsurpassed in sweet, delicious flavor, used raw or cooked; a single Tomato enough for a meal. The vines are healthy and vigorous, medium early, and bear large crops continuously until frost. Buckbee's strain is exceptionally fine, bearing smoother and larger fruits than any other one. Pkt. 5c; oz. 35c; 2 oz. 60c; ¼ lb. \$1.00; ½ lb. \$1.75; lb. \$3.00.

BUCKBEE'S NEW EARLY JUNE PINK

The earliest of the pink fruited Tomatoes, similar to the popular scarlet-fruited Earliana in growth of vine, shape and size of the fruit and time of maturing. This is of exceptional value to market gardeners, who want an early, pink fruited Tomato. The vines are compact and branch freely, bearing their handsome, good sized deep pink fruits in large clusters. It is very popular as a market and shipping variety and most desirable for the home garden. Pkt. 10c; ½ oz. 20c; oz. 35c; 2 oz. 60c; ¼ lb. \$1.00; ½ lb. \$1.75; lb. \$3.00.

LIVINGSTON'S GLOBE

A very beautiful second early variety. The fruits are of large size, specimens weighing over one pound have been grown from our seed, and they retain a marketable size throughout the season. Always smooth, have firm flesh and very few seeds. They will ripen evenly without any green core. The color of the skin is a fine glossy rose, tinged with purple. The Globe is exceedingly productive, the plants being literally loaded with fruit. In quality there can be nothing more desirable, flesh being mild, pleasant, and of delicious flavor. Globe is unequaled for growing under glass, and a splendid variety for the home garden and also for the market. Pkt. 5c; oz. 35c; 2 oz. 60c; ¼ lb. 90c; ½ lb. \$1.50; lb. \$2.50.

Henderson's Ponderosa or No. 400 Tomato.

BUCKBEE'S "Full of Life" TREE TOMATOES

The so-called Tree or Bush sorts are the most valuable Tomatoes for the home garden, where room is generally short, as they grow stiffly erect and have close, heavy foliage, allowing very close planting. Even if set as close as 12 x 24 inches apart they will produce an abundant crop. All of these varieties are very productive and of the finest quality.

Early
Prosperity.

NEW DWARF PONDEROSA

A cross between Dwarf Champion and Tall Ponderosa. The fruits are glossy, purplish-red, slightly oblong in shape; with solid, meaty, bright-red flesh; no core, and but few seeds. They are fully as large as those of the Tall Ponderosa. Plants grow about 2 feet high, stocky and branching, bearing Tomatoes in great clusters from July until frost. Pkt. 10c; 3 pkts. for 25c; 1/2 oz. 25c; oz. 40c; 2 oz. 75c; 1/4 lb. \$1.25.

A Most Valuable Book
How to Grow Flowers and Seeds. Price only 50c., or \$1.25 with an order for \$1.50 or upwards, if requested on the order.

The Tomato that will surprise you for large size, handsome shape, beautiful rich crimson-purple color, thin and tough skin, solid meaty flesh, small seed cells with few seeds; rich appetizing flavor; smooth, clean fruit that does not crack, no hard or green core, and the true dwarf tree type; plants well balanced, strong and vigorous, phenomenally productive, bearing regular sized fruits continuously until frost. In fact, New Masterpiece is the some of perfection in the Tomato family, the largest fruiting

BUCKBEE'S EARLY PROSPERITY

Prosperity is a Tomato of sterling worth, one that is bound to please. It is the earliest of the Tree Tomatoes, with large, perfect fruits; a SPLENDID KEEPER. AN ENORMOUS YIELDER AND FINE SHIPPER. COLOR BRIGHT SCARLET RED. Invaluable for the home garden, market garden, or for shipping purposes. Pkt. 10c; 1/2 oz. 25c; oz. 40c; 2 oz. 75c; 1/4 lb. \$1.25; 1/2 lb. \$2.00; lb. \$3.50.

DWARF STONE

The largest fruited dwarf tree sorts, excepting Masterpiece and Dwarf Ponderosa. The fruits are very similar to New Stone in color, shape and size. They weigh often a pound each and more, are of a bright scarlet color, very smooth, firm and of excellent quality. Pkt. 5c; oz. 25c; 2 oz. 40c; 1/4 lb. 75c; 1/2 lb. \$1.30; lb. \$2.50.

Dwarf Ponderosa.

Buckbee's Tree or Station Tomato.

BUCKBEE'S NEW MASTERPIECE TOMATO

and best all-around dwarf growing sort for the home garden and market purposes. We have no hesitancy in offering "New Masterpiece" as a candidate for public favor, knowing a trial will convince the most skeptical it is the Tomato of Supreme Excellence.

We control the entire stock of this variety. Price, pkt. 10c; 3 for 25c; 1/2 oz. 35c; oz. 60c; 2 oz. \$1.10; 1/4 lb. \$2.00; 1/2 lb. \$3.50; lb. \$6.00.

EARLY DWARF CHAMPION

Very early; hard to beat for home use. Color purplish pink. Fruit smooth, symmetrical, solid and meaty. Pkt. 4c; oz. 20c; 2 oz. 35c; 1/4 lb. 65c; 1/2 lb. \$1.25; lb. \$2.25.

BUCKBEE'S WORLD'S FAIR

The fruit is a beautiful golden yellow shade, good size, round and solid, with few seeds; flesh meaty and very sweet and mild. A handsome table sort. Pkt. 10c; 1/2 oz. 25c; oz. 40c; 2 oz. 75c; 1/4 lb. \$1.25.

MANSFIELD TREE or GIANT TREE

Often called Giant Tree Tomato, but does not belong to that class. However, a wonderful variety, grows 15 feet high and bears from July until frost. Flesh firm and solid, almost seedless and of delicious flavor. Pkt. 5c; 1/2 oz. 25c; oz. 45c; 2 oz. 80c; 1/4 lb. \$1.50.

BUCKBEE'S NEW TREE or STATION

This New Tomato owes its popularity to its stiff, vigorous, upright growth, with fruit well above the soil, and to the earliness with which it reaches its maturity. In color the fruit is purplish, pink and it is always round, smooth and symmetrical. Size medium, table quality superior. A good shipper. Pkt. 10c; 1/2 oz. 25c; oz. 40c; 2 oz. 75c; 1/4 lb. \$1.25.

BUCKBEE'S "Full of Life" TOMATOES

YELLOW VARIETIES

New Golden Ponderosa

GOLDEN
PONDEROSA

A splendid novelty. Equals its famous parent, the red Ponderosa, in every respect but color. It possesses its large size, heavy meat and luscious quality, and in addition is of a striking rich golden yellow color, making a novel and most attractive table effect, especially when served sliced with a red variety. This is the largest of the yellow varieties in cultivation. The fruits are very uniform in shape and size, contain but little core and few seeds, and are a solid mass of succulent meat. Their skin is thin and they ripen the first fruit quite early, continuing to bear until frost. Pkt. 10c; 1/2 oz. 30c; oz. 50c; 2 oz. 85c; 1/4 lb. \$1.50.

SEE ALSO BUCKBEE'S WORLD'S FAIR on page 77.

BUCKBEE'S
GOLDEN PRIZE

New golden yellow sort. Flesh thick and of extra quality. Produces enormous crops, of very large fruits. Even if you should be prejudiced against a yellow sort this will please you. Pkt. 5c; oz. 20c; 2 oz. 35c; 1/2 lb. 60c; 1/4 lb. \$1.10; 1 lb. \$2.00.

Child's Resplendent.

CHILD'S RESPLENDENT. THE NOVELTY TOMATO

Fruit of all colors, green, white, lemon, pink, orange, yellow to deep ruby-red borne on the same plant in wonderful abundance. Showy and attractive beyond description. Plant dwarf, stout, upright with novel foliage. Fruit large with more solid flesh and less seed cavity than any other. Pkt. 10c; 3 pkts. for 25c; 1/2 oz. 35c; oz. 60c; 2 oz. \$1.10; 1/4 lb. \$2.00.

MIXED TOMATO SEED

For the benefit of many customers who would like to try all kinds, we offer this mixture of many sorts. Pkt. 5c; oz. 20c; 2 oz. 35c; 1/4 lb. 60c.

SMALL FRUITED TOMATOES

MAMMOTH PURPLE GROUND

CHERRY—Enormous size fruit, 1 1/2 to 2 1/2 inches in diameter. The flesh is green, while the color of the skin is green, changing to a purple. When made into preserves has the appearance of Green Gages. Pkt. 5c; oz. 40c.

CURRENT RED — Extremely small, exquisite, delicate flavor. Pkt. 4c; oz. 25c.

STRAWBERRY HUSK OR WINTER

CHERRY—The fruit has a pleasant strawberry-like flavor and is much relished raw, but generally used for preserves, for which it is excellent. The small yellow fruits are enclosed in a husk or covering, and when ripe are half an inch in diameter. They are easy to grow and do well on almost any dry soil. Plants of low spreading growth and immensely productive. Pkt. 5c; oz. 25c.

MAMMOTH PURPLE
GROUND CHERRY

Yellow Pear.

BURBANK'S NEW GRAPE—In habit of growth much like a Grape. The fruit is small, round, scarlet, 3/4 inch in diameter, of unusually sweet, rich flavor. Pkt. 6c; 3 pkts. 15c; 1/2 oz. 35c; oz. 60c.

BUCKBEE'S SNOWBALL. The New White Tomato—a grand new variety of recent introduction, which always gives the best of satisfaction. Color is pearly white inside, skin nearly the same shade, flavor unexcelled, flesh firm and solid. Almost a continual bearer, coming into fruit early and yielding throughout the season an abundance of fine Tomatoes which are 1 1/2 inches in diameter, round and smooth. No better variety can be found for table, pickling or canning purposes. Pkt. 5c; 1/2 oz. 25c; oz. 40c; 2 oz. 75c; 1/4 lb. \$1.25.

Snowball.

Strawberry Husk.

GOLDEN FIG — The illustration shows its exact shape and habit of producing fruit in numerous clusters. It is wonderfully productive, yielding double that of other sorts. Makes pickles and preserves of finest quality. Pkt. 5c; oz. 25c.

Golden Fig Tomato.

Current Red.

CHERRY RED — Look just like cherries when growing. Fruit small, about 1/4 of an inch in diameter; perfectly round and smooth. Fine for pickles and preserves. Pkt. 4c; oz. 25c.

CHERRY YELLOW—Differs from Red Cherry in color only. Pkt. 4c; oz. 25c.

PEACH NEW ROSE—This is the most delicious and handsomest Tomato ever introduced, having an appetizing, fruity flavor not met with in any other variety. Pkt. 5c; oz. 25c.

PEACH NEW YELLOW—Same as above, but lemon-yellow. Pkt. 5c; oz. 25c.

PEAR RED—Bright red, excellent flavor. Pkt. 4c; oz. 20c.

PEAR YELLOW—This is a leading favorite for preserves. Solid flesh, of excellent flavor. Pkt. 4c; oz. 20c.

PLUM YELLOW — Fruit 2 inches long, 1 inch across, with deep yellow skin and yellow-colored flesh of finest flavor. Much esteemed for preserves. Pkt. 4c; oz. 20c.

WE CAN also supply the following well-known varieties at the following reasonable prices:

- IMPORTED SUMATRA**—Makes high-grade cigar wrapper and brings a high price. Pkt. 10c; ½ oz. 35c; oz. 60c.
- BIG HAVANA**—An Americanized Havana used for cigar purposes; sometimes used as a manufacturing sort. Large, long leaf; very early, making two crops in the south from one planting. Pkt. 4c; oz. 25c.
- BRAZILIAN**—Makes excellent cigars and delightful aromatic pipe smoking Tobacco. Pkt. 4c; ½ oz. 25c; oz. 40c.
- COMSTOCK SPANISH**—Sometimes called Zimmer's Spanish. The standard variety for cigar leaf. More extensively grown in this country than any other kind for this purpose. About the only kind grown in Wisconsin. The leaf is good size and is suitable for wrappers and fillers. We have the finest strain in the country. Pkt. 5c; oz. 30c.
- CONNECTICUT SEED LEAF**—Popular in the middle and northern states. Largely grown for fillers. Productive, robust habit. Pkt. 3c; oz. 20c.
- CUBAN SEED LEAF**—Grown from imported stock; is acclimated and makes fine tobacco. Pkt. 4c; ½ oz. 25c; oz. 40c.
- EVANS OR CINNAMON SCENTED**—Highly aromatic; extensively grown in Canada for pipe tobacco. Pkt. 4c; ½ oz. 20c; oz. 35c.
- GENERAL GRANT**—One of the finest, earliest and most popular kinds for Cigars. Matures as far north as Canada. Leaves large. Pkt. 5c; ½ oz. 20c; oz. 35c.
- IMPORTED HAVANA**—The finest Cuban stock, imported from the famous Vuelta Valley. Pkt. 4c; ½ oz. 25c; oz. 40c.
- PENNSYLVANIA SEED-LEAF**—The best grown in the famous Lancaster County district. Pkt. 4c; oz. 25c.
- TURKISH**—Leaves broad, of fine texture and excellent flavor. Makes the very finest of high-grade Cigars. Pkt. 10c; ½ oz. 60c; oz. 95c.

SELECT VARIETIES

- BRADLEY BROAD LEAF**—A popular variety for several types — export, manufacturing and Cigars. A good, reliable variety and succeeds where yellow Tobacco can be grown. Pkt. 4c; oz. 20c.
- IMPROVED GOLD LEAF** — The best bright Tobacco on the market. It is fast replacing all other varieties. Leaves long, broad and of very fine texture. Pkt. 10c; ½ oz. 25c; oz. 45c.
- IMPROVED HESTER** — Adapted for wrappers, cutters, fillers or cigars. Leaf large, broad, silky; very tough; cures lemon & velvet. Pkt. 4c; oz. 25c.

Imported Havana.

Improved White Burley.

General Grant.

IMPROVED LONG-LEAF GOOCH—For cutters and wrappers. Has long leaf of fine texture and makes

fine, bright Tobacco. Pkt. 4c; oz. 25c.

IMPROVED WHITE BURLEY. This variety is especially valuable to manufacturers, either for cut or plug Tobacco. Often used for wrappers. Leaf large, broad; cures a very desirable color. Pkt. 4c; oz. 25c.

IMPROVED WHITE STEM ORONOKO—Fine for wrappers, cutters and smokers. Bright leaf of good width and length. Pkt. 4c; ½ oz. 25c; oz. 40c.

IMPROVED YELLOW ORONOKO—For yellow wrappers, cutters and smokers. Cures easily a bright color, or can be cured for dark filler. It has good width and fine length of leaf. Pkt. 4c; oz. 25c.

KENTUCKY YELLOW—A very fine, large, broad-leaved Tobacco, suitable for strips, dark fillers and wrappers. Pkt. 4c; oz. 25c.

NEW CONQUEROR—One of the best Tobaccoes for wrappers and cutters. Of a beautiful oval shape and makes the finest bright quality leaf. Pkt. 4c; ½ oz. 20c; oz. 35c.

WARNE—A new variety for yellow wrappers. It is tough, silky; makes the finest quality leaf. Pkt. 4c; ½ oz. 20c; oz. 35c.

STANDARD VARIETIES

BEAT ALL, OR LACKS—A heavy, dark type and makes a splendid mahogany. Good texture for dark wrappers and fillers. Pkt. 4c; oz. 30c.

BLUE PRYOR—A large, long and broad leaf. Makes a rich, waxy Tobacco for black wrappers, strips and fillers. Pkt. 4c; oz. 25c.

FLANNAGAN—Greatly used for making sweet fillers and mahogany wrappers. Pkt. 4c; oz. 25c.

ONE SUCKER—A dark manufacturing sort; good breadth, long leaf and good, rich quality. Pkt. 4c; oz. 25c.

STERLING—Early; makes silkiest of wrappers, brightest of cutters and sweetest of fillers. Pkt. 4c; oz. 20c.

IMPROVED SWEET ORONOKO—Makes the finest fillers known. Cures a rich red; long and narrow leaf, tough and waxy. Pkt. 4c; oz. 25c.

TENNESSEE RED—Excellent for dark strips. Pkt. 4c; oz. 30c.

TUCKAHOE—Long leaf and extra fine; the perfection of a wrapper. Pkt. 4c; oz. 25c.

YELLOW MAMMOTH—A new western variety of the export type. Large yielder that demands top prices. Pkt. 4c; oz. 30c.

YELLOW PRYOR—Makes a fine wrapper, cutter, filler or smoker. Pkt. 4c; oz. 25c.

BUCKBEE'S BEST TABLE TURNIPS

German, STECKRUBE; French, NAVET; Spanish, NABO COMAN; Swedish, ROFOA

Buckbee's Extra Early Cameo.

EXTRA EARLY VARIETIES

EXTRA EARLY PURPLE TOP MILAN

The very earliest Turnip grown. The tops of this variety grow very small and are distinctly strap-leaved, growing very erect and compact. The roots are small and flat Turnip-shaped; skin purple on top of the root, clear white below. Flesh white, of mild sweet flavor. Pkt. 5c; oz. 10c; 2 oz. 18c; $\frac{1}{2}$ lb. 35c; $\frac{1}{4}$ lb. 60c; lb. \$1.00.

BUCKBEE'S EXTRA EARLY CAMEO

A grand acquisition from the land of the Czar, identical with Buckbee's Cardinal in every way except color, which is a beautiful pearl white. By all means include it in your order. Pkt. 5c; oz. 10c; 2 oz. 18c; $\frac{1}{2}$ lb. 35c; $\frac{1}{4}$ lb. 60c; lb. \$1.00.

BUCKBEE'S EXTRA EARLY CARDINAL

Called by some Scarlet Kashmir—Very early variety, of magnificent shape, handsome appearance and wonderful keeping qualities. Outside skin brilliant cardinal red color, resembling a radish; the flesh is white, tender, crisp, of splendid table quality. It keeps well. Pkt. 5c; oz. 10c; 2 oz. 18c; $\frac{1}{2}$ lb. 35c; $\frac{1}{4}$ lb. 60c; lb. \$1.00.

Buckbee's Extra Early Cardinal.

Extra Early Purple Top Milan.

EARLY VARIETIES

EARLY SNOWBALL or SIX WEEKS

The earliest round variety. Roots of medium size, smooth, very beautiful and showy. Skin and flesh snow white. Very mild and sweet. Pkt. 4c; oz. 7c; 2 oz. 12c; $\frac{1}{2}$ lb. 20c; $\frac{1}{4}$ lb. 35c; lb. 60c.

BUCKBEE'S RED or PURPLE TOP STRAP LEAF

There is probably a larger amount of seed of this variety sown annually than any other turnip. As a market variety, without doubt the peer of all. Has single tap root and a bright purple top. Matures 8 or 9 weeks from sowing. Pkt. 4c; oz. 6c; 2 oz. 10c; $\frac{1}{2}$ lb. 15c; $\frac{1}{4}$ lb. 25c; lb. 45c.

NEW GOLDEN GLOBE

Most delicious and sweetest of all yellow fleshed turnips, very superior for all general purposes. Pkt. 4c; oz. 7c; 2 oz. 12c; $\frac{1}{2}$ lb. 20c; $\frac{1}{4}$ lb. 35c; lb. 60c.

NEW WHITE EGG

This is certainly one of the very choicest and finest varieties; producing beautiful egg-shaped roots with thin white skin. They are always firm, solid and of sweet flavor. A most profitable market sort. Pkt. 4c; oz. 7c; 2 oz. 12c; $\frac{1}{2}$ lb. 20c; $\frac{1}{4}$ lb. 35c; lb. 60c.

STRAP LEAF

NEW
WHITE EGG

BUCKBEE'S BEST TABLE TURNIPS—Cont'd.

Improved Early Flat White Dutch

Excellent early garden variety and very much used. The roots are of medium size, very flat and the color white. Very early, sweet and tender. Pkt. 3c; oz. 6c; 2 oz. 10c; 1 lb. 15c; 1 lb. 30c; 1 lb. 50c.

New White Flat Strap Leaf

Identical with Buckbee's Red or Purple Top in valuable qualities, differing only in color, which is a beautiful ivory white. The leaves are few and grow upright. Pkt. 3c; oz. 6c; 2 oz. 10c; 1 lb. 15c; 1 lb. 25c; 1 lb. 45c.

Buckbee's New Purple Top White Globe.

Cow Horn

Sometimes called Long White. The roots are long, carrot like, of cylindrical form but ending in a point and slightly crooked; they are 12 to 15 inches long by 2 1/2 inches in diameter and grow partly above the ground. The color is pure white with a little shade of green on top. Well flavored and of rapid growth. Fine for Fall and early Winter use. Very valuable also as a soil enricher: can be sown broadcast in Fall on stubble ground, will grow on poor, wornout soils and if plowed under will enrich it as much as a crop of clover. Pkt. 4c; oz. 7c; 2 oz. 12c; 1 lb. 20c; 1 lb. 35c; 1 lb. 60c.

Buckbee's New Purple Top White Globe

A globular variety, very even in shape and of beautiful appearance. The flesh is white, of excellent quality and desirable for table or stock. Immensely productive, much more so, than any flat variety. This variety is a good keeper and a fine market sort. Pkt. 5c; oz. 8c; 2 oz. 12c; 1 lb. 20c; 1 lb. 35c; 1 lb. 60c.

Southern Seven Top

Cultivated extensively and with profit in the South for the tops, which are used and are most excellent for greens. It is very hardy, will grow all Winter, but will not produce a good root. In many sections of the South it is also a favorite green feed for stock and its use as a pasture crop like Rape is quite general. Pkt. 4c; oz. 7c; 2 oz. 12c; 1 lb. 20c; 1 lb. 35c; 1 lb. 60c.

Yellow Aberdeen

A turnip of high merit. Very hardy, very productive; medium sized roots; late maturing. Unequaled for its long keeping qualities. The flesh is yellow, tender, sugary and very solid. Pkt. 3c; oz. 7c; 2 oz. 12c; 1 lb. 20c; 1 lb. 30c; 1 lb. 50c.

Cow Horn.

THE BEST RUTA BAGAS

For Feeding Stock in Fall and Winter there is nothing superior to Turnips and Ruta Bagas.

Buckbee's Giant

Prize Winner Everywhere. This magnificent Ruta Baga, which we first offered in 1890, is unquestionably the most profitable to grow of all Swede Turnips. It is the largest of all, growing to much greater size than the American Purple Top variety, which is so much used in this country; it outyields all other sorts; a crop of a thousand bushels and over per acre under careful cultivation, being a frequent occurrence; it is almost the most hardy of all Ruta Bagas withstanding cold and drought better than any other sort.

Bulbs are somewhat oval or slightly oblong in shape; purplish red above and bright yellow below the ground. They are quite smooth with but a small tap root and have a small top and very short neck, and remain sound and good indefinitely. Flesh is of a beautiful yellow color, always sweet, tender, juicy and nutritious. The finest of all Swedes, and a variety that should be sown in preference to all others.

Mr. H. R. Kimball writes: "I have used Buckbee's Giant Ruta Bagas for a number of years. Find them the best I have ever raised. In shape, size, and uniformity of growth ahead of anything else." Pkt. 5c; oz. 8c; 2 oz. 15c; 1 lb. 25c; 1 lb. 40c; 1 lb. 75c.

New Monarch or Elephant

It is very popular in England, and is certainly a grand variety. Produces large, tankard shaped roots, with small necks, relatively small tops; skin dark purple above ground, yellow below. Flesh rich yellow, fine grained; of the best quality. It's easy to harvest. Can be grown at less cost than others. Pkt. 4c; oz. 7c; 2 oz. 12c; 1 lb. 20c; 1 lb. 35c; 1 lb. 60c.

Improved Purple Top Yellow

This magnificent Swede is the result of judicious selection; very hardy, productive and nutritious. A large, pure, ple top, yellow variety. Shape slightly oblong. Produces heavy weight per acre. Sweet and good keeper. Pkt. 4c; oz. 7c; 2 oz. 12c; 1 lb. 20c; 1 lb. 35c; 1 lb. 60c.

Buckbee's Mammoth White Russian

One of the grandest sorts. Grows very large with single tap root, small top, short neck. Strong constitution; certain cropper. Will stand severest weather. Produces a very heavy weight per acre. Flesh white, hard, sweet, of better flavor than most yellow sorts. Fine for table and stock. Keeps sound, till late spring. Pkt. 4c; oz. 7c; 2 oz. 12c; 1 lb. 20c; 1 lb. 35c; 1 lb. 60c.

IF SOWN THE LAST OF JULY or the first of August, RUTA BAGAS make an excellent pasture for sheep during the Fall months, and the bulb or turnip will furnish a rich food for them all Winter. All kinds of stock relish and fatten upon them when fed in combination with hay. SEND TO SECRETARY OF AGRICULTURE, WASHINGTON, D. C., FOR SPECIAL FREE BULLETIN ON ROOT CROPS.

WONDERBERRY PLANT.
THREE MONTHS FROM SEED.

THE SUNBERRY OR IMPROVED WONDERBERRY

THIS IS LUTHER BURBANK'S NEWEST AND GREATEST PRODUCTION: A LUSCIOUS BERRY THAT MAY BE GROWN AND RIPENED FROM SEED IN ANY SOIL OR CLIMATE IN THREE MONTHS.

Fruit more like a great, rich, luscious blueberry than anything else. Blue-black in color, fine in flavor and unsurpassed for eating raw, cooked, canned or preserved in any form. It is easily the greatest garden fruit ever introduced, and equally valuable for the North, South, East or West, or, in short, any part of the world. Easiest plant in the world to grow. Succeeding anywhere and yielding great masses of rich fruit all Summer and Fall. The greatest boon to the family garden ever known. Everybody can have this grand fruit at small expense, as one or two packets of the seed will be sufficient for any ordinary garden and produce all the fruit wanted. THE QUALITY of the Sunberry or Improved Wonderberry is sweet and delicious when fully ripe. Like the grape it should have time to ripen well after turning black in full sun. Skin, which may seem a little tough in a raw state, cooks tender. Seeds small, one-quarter the size of Tomato seed, and cook soft, and are not noticeable.

PRICE OF SEED: Pkt. 10c; 3 pkts. 25c; ½ oz. 60c; oz. \$1.00.

PRICE OF PLANTS. We can supply a limited number of nicely started plants at 10c each; 3 for 25c; 75c per doz. postpaid.

Burbank's Upright Sweet Sunberry

An Absolute Novelty.

This type of the Sunberry is noted for its more upright growth and ease of picking, due to such characteristics of growth. It is a very superior berry and as it is not as much of a spreading habit as the older type it conserves the garden area. Pkt. 10c.

SMALL FRUIT SEEDS

Strawberries
from Seed.

Strawberries from Seed BRAZILIAN EVERBEARING

It will begin to bear fruit in about four months after seed is sown and continues to produce fruit until very late in the fall. Seeds sown in April will give ripe berries in July. The berries are not as large as the standard varieties, but are of superior quality and have the rich wild Strawberry flavor. The plant is everbearing in the true sense of the word, producing fruit all summer, and comes perfectly true from seed. It also makes a beautiful pot plant, will grow well in the house, and even fruit during the winter. Perfectly hardy everywhere and easy to grow. A packet of seed should produce 40 to 50 plants. Pkt. 10c; 3 pkts. 25c.

Tree Seeds

FRESH NEW CROP
"FULL OF LIFE."

Evergreen seeds should be sown very early in Spring, in a firm, sandy seed bed. Give the young seedlings some shade the first summer. Deciduous tree seeds should be planted from April to the middle of May in drills about 2 feet apart and covered about half an inch in depth. It should also be remembered that while some kinds sprout at once, others require several weeks, and a few lie dormant a whole season.

Buckbee's Frost Proof Cabbage Plants Will Double Your Profit, Why?

There are a number of sea islands along the South Carolina sea coast where the soil and climatic conditions are just suited for growing tough, hardy Cabbage plants during the winter and early spring. The seed is planted in the open field in the months of October, November, December, January and February. The plants make a slow but steady growth, until at 8 to 10 weeks of age they are very tough and sturdy, the buds are purple and the outer leaves a reddish brown. When in this condition they can be shipped to territory farther north and planted in the open ground a month to six weeks sooner than the home-grown hot bed or cold frame plants could be planted. These Frost-proof Cabbage plants will stand a temperature of 8 to 10 degrees below zero without injury; the plants in the freezing, or the plants being covered with ice, sleet or snow after they are planted will not be injured.

The top of the plant does not grow until your regular spring weather comes up, but the roots grow from the time they are planted and just as soon as spring weather starts, the established root growth stimulates the fertilizer in the soil, the plants grow very fast, maturing headed Cabbage 10 days to three weeks sooner than you can mature them from hot bed and cold frame plants. You know what be difference in profit will be if your crop is matured and marketed before the general crop from home-grown plants is matured.

To get the advantage of these frost-proof Cabbage Plants they must be planted a month or six weeks earlier than you would plant home-grown plants.

Our Cabbage Plants are grown from the best Long Island grown seed and are shipped direct from our growing station in South Carolina by mail or express. We can fill orders from December 1st to April 15th.

We guarantee plants to arrive in good condition. The plants will be somewhat wilted and have a hard, stunted appearance, which will be disappointing to persons who have never used these plants before. Regardless of appearance, they will produce the results.

Our supply of only the following varieties of frost-proof Cabbage Plants: Early Jersey Wakefield, Charleston or Large Wakefield, Succession and Early Flat Dutch.

Plants packed 500, 1,000 or 2,000 to the crate. Ordered in these quantities, they weigh about 25 pounds per 1,000 crated for shipment, and can be shipped to any point where they will arrive within four or five days. No plants shipped C. O. D.

Prices: By mail, postpaid, 35 cents per 100. By express, purchaser paying charges, which under special rates are very low, 50¢ for \$1.00; in lots of 1,000 to 4,000 at \$1.50 per 1,000; in lots of 5,000 to 9,000 at \$1.25 per 1,000; in lots of 10,000 at \$1.00 per 1,000.

Asparagus Roots (See page 4)

Mrs. A. L. Wood, Thurman, Neb., writes: I received the Sweet Potato Plants by mail in the best of condition. Thank you for your promptness.

Robt. G. Martin, 952 S. Cooper St., Memphis, Tenn., writes: I received your plants all O. K., and must say, you really are now how to ship plants. They look as fresh as if they had just been taken out of the bed.

Mrs. H. P. Henrickson, Box 73, Ulen, Minn., writes: I received plants in good shape and was well pleased with them.

Edna Grace Hyde, Springfield, Tenn., writes: The plants I received from you arrived in the condition.

Rhubarb Roots (See Page 59)

Mrs. W. J. Hutchinson, Caspiana, La., writes: Thank you very much for the splendid plants you sent me. I am sure they will all grow.

Mr. L. Sierra Horcasitas, Loma del Ray, Fcaubaya, Mexico, writes: The plants you sent me some days ago by Wells-Fargo Express came in satisfactory condition. I am very much pleased with them and congratulate you for your skillful manner of packing plants to long distances. Notwithstanding the plants were delayed seven days in transit they reached me fresh and green. Sure to live.

BUCKBEE'S "Full of Life" Farm Seeds

SPECIAL NOTICE

If the 10-day limit has expired will be mailed promptly on request.

For lowest market prices on Farm Seeds, Potatoes and Onion Sets in Bulk, see back page of order sheet, and before you are ready to order, send for new list, which

NEW WHITE HULLLESS BARLEY

This barley is hullless and beardless. The kernels shell out without the hulls and are very pretty, plump, of oval shape and pure white.

It is a very early variety, ripening before the bearded varieties. It can be sown, therefore, after all other grain is planted and it will yet ripen before oats and wheat. In the western states it is often sown as a catch crop.

It is not a malting barley. Can be used for feeding only, but as a fattening feed, especially for hogs, it has no equals, making sweeter meat and nicer lard than corn.

For horse feed it is best mixed with oats and the two ground together. It is also very valuable for feeding poultry. This barley is of the greatest value for the western and northern sections where corn does not do well and is used in its place there for feeding.

It is often grown for hay and should be cut just before it becomes ripe, while the straw is green, and in this condition it is relished by all stock.

It yields well on poor land and makes enormous crops on good land. It is the heaviest yielding barley known; 70 to 80 bushels per acre are average yields, and the grains weigh from 60 to 63 pounds to the measured bushel. Prices, postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

WISCONSIN PEDIGREE BARLEY

The champion barley of the world. It has won the sweepstakes, open to the world, six years in succession at the International Corn Expositions, and many other prizes. The greatest of all six-rowed bearded varieties.

The Wisconsin Experiment Station says of this barley: "The Pedigree Barley is a heavier barley, more uniform in character and more perfect in development than the barleys from which it is bred. It is becoming wonderfully popular wherever tried and is giving splendid results in other states besides Wisconsin."

Wherever tried in Wisconsin the Pedigree Barley has yielded from 5 to 20 bushels more than common varieties, and the members of the Wisconsin Experiment Station reported yields from 35 to 65 bushels per acre. The average yield of it in Wisconsin for 5 years has been 36½ bushels per acre and the average yield of common varieties 30 bushels during the same time.

Pedigree Barley grows taller than any other 6-rowed sort and has very stiff straw, which stands up better than that of Oederbrucker. The heads are unusually large and long and are completely filled out with very plump grain, which is very uniform in size, brighter and whiter than that of most other sorts and very attractive.

It is a barley the farmers can depend upon to produce a full crop of more than 36 bushels per acre, which will all ripen at the same time, so that there is no loss in harvesting, and it is a barley the master can use with a certainty to germinate uniformly without loss! Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

BARLEY

SUCCESS BEARLESS BARLEY

This is the earliest barley known. It is six-rowed and beardless.

The absence of beards makes it much more agreeable to handle in threshing and also makes it a safer and better feed for stock than bearded varieties. It is well known that many young pigs are lost annually by choking on barley heads.

This beardless barley is without question the best nurse-crop which we have. It stools much less than other barley or oats, rarely lodges, and forms so little shade that it never injures a meadow, furthermore being a very early variety, it can be cut and put out of the way before Wheat and Oats.

It can be grown on any soils. Makes good yields on poor, thin lands and stands up well and yields big crop of 50 to 75 bushels on rich land. Success Beardless Barley is a vigorous grower; has strong straw and heavy, well-filled heads. The grain has hulls like common barley and its quality is excellent both for malting and feeding.

Prices, postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

ODERBRUCKER or WISCONSIN No. 55 BARLEY

A stiff-strawed, heavy-yielding, six-rowed, bearded variety. It is about the same as Mansbury in time of maturity, manner of growth and general appearance, but has a plumper kernel and weighs more to the measured bushel.

It has protein content of 15 per cent, or nearly double the amount of protein found in many other varieties. This makes it a very valuable feeding barley, which is an important consideration with the leading farmers and stockmen, who are now appreciating more and more the value of barley as a food for all kinds of stock, horses as well as cattle.

On account of its large percentage of protein, it is also one of the best malting barleys. We trial grow this old variety and have very nice clean stocks of it, but most of our trade now demands the Wisconsin Pedigree Barley, which is the latest variety originated at the Wisconsin Experiment Station and has proven a heavier yield wherever grown. Prices, postpaid, per lb. 25c; 3 lbs. 60c.

Success Beardless.

Wisconsin Pedigree
Barley.

Soy or Soja Beans

Soy Beans are fast becoming a leading crop in all states of the Union. They can be grown as far north as corn and are always a sure, safe and profitable crop. Soy Beans grow erect, branching out in 4 to 6 stems near the ground, which attain the height of 2 to 3 feet. The branches are thickly covered with leaves and pods from the ground to the top. On a single plant often as many as 200 pods have been counted, which contain from 3 to 4 beans.

They are more drought and heat-resistant than alfalfa, grow on all soils, even on sandy and acid ones where clover fails. Growing erect, they can be easily cultivated and harvested.

Soy Beans are mostly grown for grain. This grain is equal in feeding value to oil meal and contains $3\frac{1}{2}$ times as much protein and fat as Corn or Oats.

Soy Bean hay is richer in protein than alfalfa and twice as nourishing as millet hay. Soy Beans are largely used as a catch crop and can be sown as late as July.

As a soiling crop, Soy Beans are also quite valuable, but being very rich, they are best mixed with Fodder Corn, Millet or Sorghum. Soy Beans make a splendid hog pasture that can be used 6 to 8 weeks after the seedling stage.

For Ensilage, Soy Beans are mostly used in combination with Corn or Japanese Millet, which makes the best of all ensilages, containing all the elements necessary for a completely balanced food for milch cows and is greedily eaten by all stock.

If the right varieties are used, Corn and Soy Beans may be planted the same time, but the Japanese Millet being much earlier than Soy Beans, should be sown 4 to 5 weeks later. Use 2 parts of Japanese Millet or Corn to 1 part Soy Beans for a perfect balanced ration. Corn and Soy Beans for ensilage are mostly grown separately, but if sown together, at the rate of one-third beans and two-thirds corn, they also give splendid results. When Corn and Beans are grown together in the same rows there will always be a gain of from one to two tons of silage per acre over corn grown alone.

The sowing of Soy Beans in corn when intended for hogging down can be especially recommended; it has been a great success. In a trial at the Iowa Station, pigs hogging down Corn and Soy Beans gained 20 per cent more than those pastured on corn alone. In this trial an acre of Corn and Soy Beans produced 219 pounds of pork.

Soy Beans are used with great profit as soil renovators, and are especially valuable on sandy soils. When the entire crop is plowed under they will add to the soil such a quantity of nitrogen that the soil is worth over \$18.00 per acre. This is twice as much as a crop of Cowpeas or Clover will furnish. Soy Beans will produce a crop without inoculation, but inoculated plants produce a larger crop. It always pays to inoculate.

Sow the seed about corresponding time when the ground is thoroughly warm, in rows 18 to 30 inches apart at 2 to 3 inches apart in the rows. From one-third to $\frac{1}{2}$ bushel of seed is required per acre. Cover not over $\frac{1}{2}$ -inch deep; never roll. Cultivate two or three times, but never after the buds appear.

Cut for hay when the pods are forming, before the leaves drop for seed when half the pods are dry. For silage, cut when the pods are green.

EVANS' EARLY SOJA—Originated by Mr. Evans, the noted Soja Bean specialist of Michigan. The earliest and best variety for states of a short season. Northern-grown seed, postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

ITO SAN or EARLY YELLOW—One of the earliest and best; 2 feet high, yields about two tons of cured hay or 25 to 30 bushels of grain per acre. Matures in 95 to 100 days. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

EBONY OR BLACK BEAUTY—Matures in 110 to 115 days, well suited for all parts of the cornbelt. Splendid forage and reasonably good for grain; 2½ to 3 feet high. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

OHIO No. 9035—Will mature in 115 to 120 days; 2 to 3 feet high. A remarkably heavy yielder of grain and straw. For the retention of beans this is probably the best variety. More than 7 bushels of grain and $3\frac{1}{2}$ to 4 tons of straw per acre have been harvested of it. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

FIELD BEANS

Beans do well on most any soil but give the best results on light, well-drained loam, which was manured for the previous year. They are very sensitive to both cold and wet, and should be planted before the ground has become dry and warm. In fact, planting as late as practicable is best, as it has the advantage of escaping the most serious attacks of bean rust. The largest crops are obtained by planting in drills $2\frac{1}{2}$ feet apart and 4 to 6 inches apart in the rows.

Of the small-seeded beans, the **Buckbee's Electric Tree Beans** are not more than $\frac{1}{2}$ bushel of seed is required, while of the larger **Navy Beans** 1 bushel is usually sown per acre. For planting use a bean planter, or corn planter, or an ordinary grain-drill with some of the tubes stopped. They should have frequent shallow cultivation up to the time of blossoming.

Buckbee's Electric Tree Bean

The Earliest, Heaviest Cropping White Field Bean and the Best for Baking.

Growing nearly 2 feet high, branching out in all directions, bearing its pods so high that they seldom touch the ground, enables it to stand a wet spell without any injury. This is, indeed, a wonderful cropper, yielding from 50 to 75 bushels per acre under careful cultivation in a favorable season, while hundreds of our customers report amounts of 40 and more bushels per acre under average cultivation. Seed medium sized, oval, pure white; very uniform in size and shape. This variety is not only more productive, but also of much better quality and finer appearance than any other White Field Bean. Pkt. 10c; ½ pt. 18c; pt. 30c; qt. 55c.

White Navy Beans

The common White Field Beans. I have selected a stock of this variety which ripens uniformly. The plants are large, spreading, with pods $3\frac{1}{2}$ inches long, containing 7 beans. Postpaid, pkt. 8c; ½ pt. 15c; pt. 28c; qt. 50c.

Edward's Legume Bacteria

For Alfalfa, Clovers, Vetches, Peas, Beans, Soys, Cowpeas, Etc.

When new crops of legumes, such as alfalfa, etc., are to be raised, nitrogen-gathering bacteria, necessary for their successful growth, are usually not present in the soil and must be supplied by seed inoculation or by the use of soil from an old crop of the same legume. Edward's Legume Bacteria is, I believe, the best of the many nitrogen-gathering bacteria cultures for seed inoculation and the least expensive one now on the market. It is done in a few minutes and the bacteria are carried into the soil in ample number to insure infection of the roots when the plants take place.

Seed inoculation is not only used to secure a good stand, but the crops also grow more vigorously, do not winter-kill as readily, and in case of perennial legumes, like alfalfa, much larger crops are also harvested the second year than from uninoculated seed. Furthermore, inoculation increases the amount of nitrogen in the plants of from 50 to 60 per cent, and increases, therefore, the value of the crops, whether they are used for seed or for green manure. It can be used for all different legumes. Be sure to state for what kind of seed the culture is wanted. Each kind requires a different culture. Full directions for use with each package. Price of **Edward's Legume Bacteria Cultures** to inoculate 30 lbs. of seed 60c; for 50 lbs. of seed \$1.00 postpaid.

Evans' Early Soy Bean.

high. In the form of commercial fertilizer, it has been a great success. In a trial at the Iowa Station, pigs hogging down Corn and Soy Beans gained 20 per cent more than those pastured on corn alone. In this trial an acre of Corn and Soy Beans produced 219 pounds of pork.

Nodules on Soy Bean roots made by nitrogen gathering bacteria

BUCKBEE'S ELECTRIC TREE

WHITE TEPARY, FIELD BEANS

Grows and Produces a Crop with Less Moisture than Any Other Plant Known. It Has No Equal for Hardiness, Yield and Quick Growth.

A Most Valuable Dry Farming Crop for the West.

White Tepary Beans is a native of the Southwest and was domesticated there by the Indians from a wild species growing in that region. While it comes from the desert and has been raised in a country having a very light rainfall without irrigation, it responds, nevertheless, to better conditions and we believe will be found profitable for general culture all over our country.

It is the earliest maturing Bean known, ripening in about 60 to 65 days or 2 to 3 weeks' less time than any other kind. It can even be planted after the grain is harvested and still make a crop.

It is hardy, will withstand a great deal of neglect and will quickly recover from drought when more favorable conditions set in. Profitable crops can be raised in regions where the rainfall is 8 to 9 inches and less.

Wherever these Beans have been tried they produced very much larger crops than any other variety. At the Arizona Experiment Station, when ordinary Beans produced 2 to 3 pods to a plant, the Tepary plants had as many as 200 ripe pods.

The Tepary can easily be distinguished from ordinary Beans by its more slender vines and thinner and smoother leaves. The pods are small, only about 3 inches long. The seed is smaller than that of the Navy, oval and of a pure white color.

As a food, Tepary is equal to any Bean known to commerce. The Indians say that one square meal of Teparies is enough for one day, while of the other Beans they need two. When soaked in water they swell to twice their original volume and more than double in weight. A given weight of Teparies will produce 40% more cans than will the same weight of ordinary Navy Beans. Its quick growth makes the bean also very valuable as a green manure crop. Drill in rows 2 to 3 feet apart and 4 inches apart in the rows. Sow 15 lbs. to an acre.

Postpaid, pkt. 10c; 1/2 lb. 15c; 1 lb. 28c; 3 lbs. 50c.

White Tepary.

VELVET BEAN

A valuable plant for the South, used for pasture, green manure and green forage. Its nitrogen-gathering properties are said to surpass those of the Cowpea. It is the ranker grower of any of the legumes; 2 or 3 seeds planted 4 feet apart in rows 5 feet apart will literally cover the ground 2 to 3 feet thick with mass of foliage and vines in 25 feet long, no matter how poor the soil. It leaves a mulch on the ground that is very beneficial to the soil. Sow 15 lbs. per acre. Prices, postpaid, pk. 10c; 1/2 lb. 18c; 1 lb. 35c; 3 lbs. 55c.

BUCKWHEAT

Is a "catch crop," easily grown between regular successful crops. Also valuable as a weed exterminator and green manure. It will grow the best on light soil and it will flourish under great rainfall more than other grains. As a second crop, Buckwheat cannot be surpassed.

BUCKBEE'S NEW HULLESS

The One Best Buckwheat. Absolutely Hulless. Very Early and Yields Double that of Any Other.

Wm. E. Johnson, Cross Village, Mich., writes: "I have grown your New Hulless Buckwheat this season and consider it No. 1 and a most profitable crop to grow. Yield is enormous. I recommend it as a profitable crop."

The newest and best variety of Buckwheat. Our own introduction and perfected on our famous Rockford Seed Farm Fully three weeks earlier than any other variety, and at least three times as productive. Those of our customers who have grown it report it the best Buckwheat they have ever planted.

Sow 1/2 bushel per acre. Being so early, it is exceptional valuable for the extreme North where other varieties will not mature. The seed has no hull like other Buckwheat, but is a seed. No waste in grinding. Our supply of seed is limited. Advise early orders. Send to Buckbee for Originators' Stock Seed. Postpaid, pkt. 10c; 1 lb. 30c; 3 lbs. 85c.

BUCKBEE'S GIANT JAPANESE

Entirely distinct from all other varieties. Has all the valuable characteristics of the old Japanese Buckwheat, and in addition is earlier and will yield at least 25% more per acre. On this account it can be grown farther north. It resists drought and blight very well. The seed is rich dark brown color and larger than Silver Hull. As much as 60 to 80 bushels to the acre has been harvested of this variety, making it very profitable to raise. More than a week earlier than Silver Hull. Choicest stock seed, postpaid, pkt. 10c; 1 lb. 25c; 3 lbs. 70c.

IMPROVED SILVER HULLED

This valuable variety is a decided improvement on the black or gray seed. It is early, remains longer in bloom than other sorts. A fine variety for honey bees. The grain is of beautiful light gray color and has a thin husk. Millers prefer Silver Hull, there being less waste, and it makes whiter, better and more nutritious flour than other varieties. It is more productive than the Japanese and the grain meets with a ready sale, bringing high prices. Choicest stock seed, postpaid, pk. 10c; 1 lb. 25c; 3 lbs. 70c.

BUCKBEE'S "FULL OF LIFE" FLAX SEED

No. 25 or Primost Flax

This is a pure bred flax. It is selected from a variety which came to the Minnesota Experiment Station from the U. S. Department of Agriculture.

In 1896 numerous individual plants were selected from a bed of this Flax, some with heavy, bushy tops to be used in breeding for a larger yield of seed, others with tall, slender stems for fibre. Each of these selected mother plants was grown in the nursery for several years, and the best of these plants selected for seed is the Minnesota No. 25, also named Primost. Its record in the field test at the Minnesota Experiment Station showed an average yield for 3 years of 193 bushels, or 3.4 bushels more than the average of the next best varieties. It is about 10 days earlier than common flax and is wilt-resistant to a considerable extent. This is no doubt the champion, best-yielding variety of Flax. Our supply of this seed is limited. Send your orders early.

Price, postpaid, pkt. 10c; per lb. 25c; 3 lbs. 70c.

N. Dak. No. 52 Wilt-Resistant Flax

A new variety recently developed at the North Dakota Experiment Station. It is wilt-resistant and rust-resistant. It has successfully endured most unfavorable seasons in North Dakota and is a great yielder.

This variety was bred by growing flax on wilt-sick land, and gathering the seed of the surviving plants. By repeated sowings of this seed on the same land in time a grain was produced which is practically immune to the wilt and rust germ. This wilt-resistant Flax is capable of growing a normal crop of Flax or better on old wilt-sick land, previously long cropped to Flax. Such seed will keep this resistance against wilt just as long as the seed is properly handled.

Our stock is grown from seed secured from the North Dakota Agricultural College. Postpaid, pkt. 10c; 1 lb. 30c; 3 lbs. 85c.

N. Dak. No. 52 Flax.

BUCKBEE'S NEW
HULLESS
BUCKWHEAT

Quality Brush BROOM CORN

THIS IS A BIG MONEY MAKING CROP AND CAN BE GROWN SUCCESSFULLY IN ALL LOCATIONS.

Broom Corn is planted only for its seed heads or brush used for the making of brooms. The seed makes as good feed as corn, but the crop of it is not very large.

Broom Corn can be grown where corn grows and requires the same treatment. It should, however, be planted later, when the ground is quite warm. Only 70 to 80 days are needed to produce a crop. More than a ton of brush has been grown per acre and the market price has been from \$30.00 to \$100.00 per ton in the last years; it varies greatly, according to the outcome of the crop. To obtain the highest price for the brush, it must be cut when in bloom and still quite green.

Plant in drills 3 to 3½ feet apart and 3 inches apart in the rows; 5 to 10 pounds are sown per acre.

The demand exceeds the supply, which causes the present high prices for brooms. You will find a steady market for all the good Broom Corn you can grow.

BUCKBEE'S SUPERIOR EVERGREEN

The Standard Variety.

This is the most popular variety in the market. The original seed was secured in Tennessee, then bred and acclimated, thus making the brush of better quality. In growing it, all imperfect stalks are cut out and the brush is raised and cultivated especially for seed. Postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 70c.

CALIFORNIA GOLDEN

Carefully selected and improved so that the brush is straight and long. Of finest quality; light green color, turning to light yellow when allowed to get too ripe. Brush straight and long. Postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 65c.

OKLAHOMA DWARF

Grows about 5 feet high, with straight, smooth brush, principally used for making whisks and brushes, though can be used very nicely even for the larger brooms. Very early. Stalks of this variety make good fodder if cut at once after brush is pulled. Postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 70c.

DWARF JAPANESE

Popular in many sections on account of its extreme earliness. Straw strong and of good color. Postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 70c.

Buckbee's Superior Evergreen Broom Corn.

SUGAR CANE or Saccharine Sorghum

Sugar Cane can be profitably grown in all portions of the United States where corn is grown, and it is more drought resistant than corn. It remains fresh and green through periods of drought that ruin corn, and even if checked in growth by drought, it will entirely recover and make a crop when favorable conditions again prevail. Sugar Cane not only possesses high value in producing syrup, but as an addition to the daily ration for stock, either as silage, hay or green fodder, it is invaluable.

As a soiling crop it has a very high value. Milch cows are exceptionally fond of Sugar Cane, and it is excellent for milk production. It furnishes an enormous quantity of succulent food, outyielding corn for forage and it is fed with much less waste. At the Iowa Agricultural College 29 tons of it were harvested from one acre.

As a pasture crop it is mostly used for hogs and sheep. It makes splendid hay, which is very palatable, nutritious and much relished by all kinds of stock, including hogs.

The silage of Sugar Cane is more nutritious than that of corn.

As a catchcrop, Sugar Cane is much used. It could be sown after an early grain crop, or in place of other crops, if they have been destroyed by frost, flood, drought, etc. The plants grow very quickly, reaching maturity in about 70 to 80 days.

It yields a large quantity of seed, about 25 to 30 bushels per acre, which can always be saved, no matter for what purpose the crop is wanted, if the cane is cut only when the seed is nearly ripe. The seed has the same feeding value as corn. It makes a fine feed for all stock if crushed and mixed with oats, peas or soy beans. One of the most common uses of cane seed is as poultry feed, and it is especially recommended for laying hens.

For fodder sow broadcast or in drills at the rate of 50 to 75 lbs. per acre. For syrup sow in drills 3½ feet apart, using 5 lbs. per acre. The seed should only be sown when ground is warm, later than corn.

BUCKBEE'S NEW HONEY SYRUP CANE

The Favorite Syrup Producer.

This is the earliest Cane, and our seed is grown in the North, is entirely pure, not mixed with any other sorghum.

As a syrup producer it has no equal, being exceedingly juicy and sweet, making from 200 to 400 gallons per acre, highly flavored. It grows 10 to 12 feet high, is very prolific, sometimes producing 5 to 7 stalks from one seed. Matures about the middle of August to October, according to time of planting. Will keep green and stand, if desired, until killed by frost, allowing the farmer to take his own time to harvest for syrup. In addition to the syrup, a crop of seed could be grown worth \$25.00 or \$30.00 per acre. Also a splendid forage crop for green feeding, and will make excellent hay if sown in drills very thick. It may be planted any time between April and August. Price, postpaid, pkt. 10c; 1 lb. 30c; 3 lbs. 80c.

BUCKBEE'S IMPROVED EARLY AMBER

Successfully grown even in the extreme northern latitudes. Not only is it valuable for fodder and pasture purposes, but it makes a high-grade cane syrup or sorghum. Price, postpaid, pkt. 10c; 1 lb. 25c; 3 lbs. 65c.

BUCKBEE'S IMPROVED EARLY ORANGE

An exceedingly valuable variety. Very large, of strong and vigorous habit. Frequently produces 240 gallons or over of beautifully colored and highly flavored syrup per acre. About 1 to 3 weeks later than Early Amber, but taller and producing a heavier quantity of forage. Price, postpaid, pkt. 10c; 1 lb. 25c; 3 lbs. 70c.

NON-SACCHARINE SORGHUMS

These varieties are all drought resisting and will produce a fair crop with little or no moisture when Corn would be a failure. They are indispensable to the countries that suffer more or less from drought, but can be grown to good advantage in almost every locality. They will yield as much grain as Corn, make good fodder and will grow on any soil where corn will and on many too poor for Corn.

Feterita.

FETERITA

The Best Forage Crop for Dry Lands.

This new grain was introduced by the United States Department of Agriculture from British-Egyptian Soudan. It produces a stalk of medium size and a large head well filled with pure white or bluish-white seeds. The grain is larger than Milo, is fully as soft and much whiter than Kafir. Its feeding value is equal to either Kafir or Milo. Feterita is an excellent drought resister. It stands erect, branches out from the root, and matures 25 days earlier than Kafir, ripening in about 90 days. Yields from 50 to 80 bushels of grain per acre.

Plant like corn, if for seed, in drills $3\frac{1}{2}$ feet apart, using 5 lbs. per acre; if for fodder, in drills or broadcast, using $\frac{1}{2}$ to 1 bushel per acre. Postpaid, pkt. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 3 lbs. 70c.

BUCKBEE'S EARLY KAFFIR CORN

A Great Drought-Resister.

Kafir corn not only produces excellent forage, but its seed is, as a grain, almost if not quite equal to Indian Corn, practical farmers and scientists affirm, while it is successfully and profitably grown on land high or low, rich or poor, and whether the season is wet or dry.

Plants attain a height of from 5 to 6 feet, growing straight upright. Stems have a stalky tendency and produce numerous wide leaves. The stalks are not brittle, as do many other Sorghums, but keep green, brittle and juicy. A most excellent fodder, either green or dry, being highly relished by all stock. It should be sown in rows about $3\frac{1}{2}$ feet apart, using from 5 to 10 lbs. seed per acre if wanted for grain; for fodder sow $\frac{1}{2}$ to 1 bushel per acre in drills or broadcast. It is immensely productive and does well in all parts of the cornbelt. A notable peculiarity of Kafir Corn, and one which makes it of unusual importance in regions of limited rainfall, is that its growth may be suspended, perhaps a month, on account of severely dry weather, and then when the rains come it continues its growth almost the same as if there had been no interruption. It matures in about 110 days. Very choicest "FULL OF LIFE" Seed of strong germination. Postpaid, pkt. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 3 lbs. 70c.

EGYPTIAN WHEAT OR SHALLU

A valuable new grain, entirely different from Wheat. It belongs to the Sorghum family and should be planted like Corn or Kafir Corn, for hay or grain. Broadcast, it makes from 4 to 8 tons to the acre. In drills, it yields 75 to 85 bushels of grain per acre. The plant grows from 5 to 7 feet tall, stools out from the root, a single grain, often producing 3 to 6 stalks. It produces more grain than any other Sorghum. The grain makes excellent feed for horses and cattle. When ground it makes fine flour for pancakes; it pops like popcorn. Postpaid, pkt. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 3 lbs. 70c.

Egyptian Wheat or Shallu,
JERUSALEM CORN

Belongs to the non-saccharine Sorghums, and was brought a few years ago from the arid plains of Palestine. It is pronounced the surest grain crop for dry countries and seasons better adapted for the sections with very low rainfall than Kafir Corn or Milo Maize. It grows one large head on main stalk and several smaller heads on side shoots, having often as many as 8 heads on a plant. Very valuable for feeding stock, and proves a gold mine for chicken feed. The grain is pure white and nearly flat. Plant 5 to 10 pounds per acre. Postpaid, pkt. 10c; $\frac{1}{2}$ lb. 15c; lb. 30c; 3 lbs. 80c.

D. F. Burkhalter, R. R. 2, Erick, Oklahoma, writes: The seed corn bought of you is up and growing finely, and so far your northern grown "FULL OF LIFE" Seeds do the best of all in this section.

SHEET

Buckbee's Early Kafir Corn. BRANCHING DHOURA CORN

Yields from Six to Sixteen Stalks from One Seed.

Similar to Jerusalem Corn. The grain is of the same size and shape but of brown color. It withstands dry weather better than Kafir Corn; is a sure crop every year. Kafir Corn will stop growing when drought sets in and continues again as soon as conditions are more favorable, but the Dhoura Corns never stop growing and will make a crop regardless of drought or unfavorable weather. Yields immense crops of grain. Mostly raised for grain and not for fodder. Plant like Kafir Corn. Postpaid, pkt. 10c; $\frac{1}{2}$ lb. 15c; lb. 30c; 3 lbs. 80c.

WONDERFUL MILO MAIZE

It will produce an enormous crop of green fodder. Grows anywhere. The seed heads are large, often weighing a pound when ripe. The seed is an excellent fattener and is relished by all cattle, hogs, poultry, etc. Postpaid, pkt. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 3 lbs. 70c.

JERUSALEM CORN

WONDERFUL
MILO MAIZE

BUCKBEE'S "Full of Life" FIELD CORN

We Grow and Furnish Corn Adapted for All Parts of This Country.

Seed Corn will produce only satisfactory results. If planted in localities with similar climatic conditions to those where it was raised. Corn, for instance, that will mature in 90 days in Illinois will require two to three weeks more in Minnesota, and Corn grown in the North should not be planted in the South unless for special purposes, as the yield will be disappointing. For this reason we grow Seed Corn in different localities north and south and we state where each variety was grown and for what section it is best suited.

The Corn we offer is pedigreed stock, carefully bred, free from barren stalks, and the seed is tipped and butted and of the highest vitality.

FLINT VARIETIES

BUCKBEE'S EARLY NORTHER

The Greatest Yielding Flint Corn.

Ears 10 to 15 inches long, of rich, yellow color. Enormously productive, outyielding any other field Corn that we have ever seen in the far North. Matured exceedingly early, from 85 to 90 days being a fair average. The kernels are large and the stalks are of good height. The ears average two to a stalk, growing well up so as to readily admit being cut by the harvester. The stalks grow very tall and leafy and make superior fodder. Will surely prove of the greatest value to the farmers of the far North, particularly the Dakotas, Northern Minnesota, Wisconsin, Michigan and the Canadian provinces. You will be pleased with this early and big-yielding Flint Corn. Postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 70c.

IMPROVED INDIAN SQUAW CORN

Holds More Records for Wonderful Performances Under Difficult

Conditions Than Any Corn Ever Grown.

It is an extremely early variety, maturing in 75 days, and could be planted up to July 4 and make a crop before frost.

Perhaps the most wonderful quality of this Corn is its power to resist drought. The most protracted dry weather hinders its growth not at all, and still it will weather a wet season equally well. It can stand as much dry weather as Kafir Corn. In Western Kansas and Oklahoma, where this Corn is called Arkansas Valley Squaw Corn, it is considered the best dry land Corn. In appearance this Corn is one of our most handsome varieties. The kernels are of different colors, red, blue, yellow and white, giving the ears a curiously beautiful mottled appearance. The ears grow from 8 to 12 inches in length and are of symmetrical form. This is the Flint Corn which is so much used in Western Kansas and Nebraska and which gives a good crop in the driest season when all other varieties fail.

Postpaid, pkt. 10c; ½ lb. 18c; 1 lb. 30c; 3 lbs. 80c.

LONGFELLOW

Has Individuality that Commends.

A yellow Flint variety that is particularly adapted to the North; ripens in 90 to 95 days. It is an 8-rowed sort, with ears 12 to 15 inches in length and about 1½ inches in diameter. Small cob, large kernel and very broad. Stalks 7½ feet high; ears 3 feet above the ground. Postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 60c.

NORTH DAKOTA WHITE FLINT

An Early Maturing Variety.

This is a well-established variety, with uniform characteristics, including extra early maturity and medium size, both of stalks and ear. Choicest stock seed. Postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 60c.

GREAT BRAZILIAN FLOUR CORN

One of the Greatest Novelties Ever Introduced.

This Corn is inclined to stool, and one grain will produce usually more than one stalk. Each stalk bears 2 or 3 ears, 9 to 12 inches in length, and beautifully white. It produces an abundance of fodder and is the best variety for ensilage. It yields 50 to 75 bushels of corn per acre, and the ears are fine for roasting, although not very sweet. It is a good variety for poor soils. The kernel contains more starch than any other Corn, and ground and bolted by the same process as wheat, gives a fine flour that will make bread, biscuits, etc., the same as the wheat flour. Plant two kernels in a hill and culture the same as other corn. For stalks, plant 8 lbs. for fodder, 15 lbs. per acre. Postpaid, pkt. 10c; ½ lb. 18c; 1 lb. 30c; 3 lbs. 80c.

Improved Indian Squaw.

EXTRA EARLY KING PHILIP

A Red Flint that is Unbeatable.

Earliest and best variety of Red Flint Corn. Ripens within 80 days from time of planting. Ears 8-rowed, 10 to 12 inches long; stalks 7 feet high, very leafy; good yielder. Choicest stock seed. Postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 60c.

NORTH DAKOTA YELLOW FLINT (Gehu)

The earliest Corn grown; matures in 70 to 75 days. Stalks about 7 feet high; ears about 8 inches long, growing 1½ feet above the ground. In localities where seasons are short and nights cool, it is the one variety which can be depended upon to yield a good crop. On good soil and in a favorable season, it yields 75 bushels per acre and more.

The Squaw Corn, and also the North Dakota White and Gehu Flint, which last two are selections or hybrids of the Squaw Corn, are best planted now for hogging off; the ears growing very close to the ground. They could not be cut with the binder, but by turning the stock into the field and allowing it to harvest the crop nothing will be wasted. The labor of husking, cribbing, feeding, etc., is saved and the most pork is made with the least expense. The Iowa Experiment Station says: "The returns are equally as good in pork produced, where the hogs gather their feed themselves, as when it is hand-fed." The Squaw type of corns growing very fast, could be used for pasturing quite early in the season, and it is also very desirable where soy beans or rape are grown with the Corn, because these varieties could make better growth in the Flint Corn, there being less shade than in taller-growing varieties.

Choicest stock seed, postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 70c.

SANFORD'S WHITE FLINT

This variety will mature in about 100 days. It is later than the other Flint Corns which we grow and is not suitable for the extreme northwest. However, it is a very popular variety everywhere else, especially in the eastern states, and is much used by dairymen for green fodder and for ensilage. The reason for its popularity is doubtless that it is more leafy than any other Flint Corn, has very tall stalks, and produces usually two to three ears to a stalk, which are 15 inches and more in length. These ears are smooth, of symmetrical shape and covered with rows of very large, white, flinty kernels.

Choicest stock seed, postpaid, pkt. 10c; ½ lb. 15c; 1 lb. 25c; 3 lbs. 60c.

For Bulk Prices by Express or Freight, see Order Sheet

BUCKBEE'S "Full of Life" SEED CORN

Minnesota Grown Dent Corns for the Northwest.

REGENERATED RED HACKBERRY. IMPROVED NORTHWESTERN DENT

The earliest and hardest Dent Corn grown; it is the corn for the North, is very popular throughout the northwestern states and can be depended upon to mature in North Dakota, Northern Minnesota, Wisconsin, Montana and Manitoba; but it is also quite largely used in other states for early feeding, hogging down and is very often grown with early soy beans for that purpose, and for late planting when other corn has been destroyed by frost or drought, as if planted as late as July it will generally mature before frost. It is also planted largely in drouth stricken sections of Kansas, Oklahoma, etc. where it is known as White Cap Red Butcher and often is the only variety that will make a crop there, all home grown kinds being dried up.

The Red Hackberry grown 6½ feet high, the ears are 7 to 10 inches long; setting 3 feet above the ground, they can be cut with the corn harvester; they have 10 to 14 rows of large red kernels with a yellow cap. This corn matures in 75 to 85 days and is very productive yielding on an average 70 to 75 bushels per acre.

The stalks being shorter than those of later sorts, they can be planted close together; it is mostly grown in drills.

My strain is the finest and earliest in the country.

Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

MINNESOTA No. 13 or WIS. No. 8

This is the earliest yellow dent corn grown; largely grown all over Minnesota, Wisconsin, the Dakotas and Northern Michigan; there is no other Yellow Dent, fully as early, that is equally as productive.

The stalks are 7 feet high, are very leafy and furnish great quantities of fodder; there are usually two ears on a stalk which average 8 inches in length and have 16 to 20 rows of smooth, plump, rich yellow kernels. Minnesota No. 13 will ripen in about 90 days and yields from 60 to 80 bushels per acre in a good season. My stock is true to type and ripens very early and uniformly. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

MINNESOTA WHITE DENT

This is the earliest white dent grown, it is as early as the Red Hackberry, but much more productive and is adapted for all the Northwestern States; it is much planted there on poor, thin soils and also on cold and wet ground where it will give good crops when other corns fail.

The stalks are 6½ to 7 feet high, have large, foliage, making unusually fine fodder; the ears are 8 to 9 inches long, 14 to 18 rows, and have large, deep, white grains. Under average conditions the yield in the Northwest is 75 bushels and more per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

SILVER KING or WIS. No. 7

The most productive corn grown in the Northwest, outyielding any yellow variety there. It will yield more bushels of fine corn to the acre than any other variety in Southern South Dakota, the extreme Southern Minnesota, Northern half of Iowa, Southern third of Wisconsin, also in Northern Illinois, Indiana and Ohio, being a standard white variety for the Northern part of the Corn Belt.

SHEET

It may be called a small Silvermine not having quite so long a cob nor so deep a grain, but on the other hand it is 10 days earlier.

The ears are 8 to 9 inches long, very uniform in size and type and always filled out clear to the tips; the

kernels are of good size, set compactly in straight rows and are pure snow white in color; the corn matures in 100 to 105 days. At the Wisconsin experiment station, Silverking gave an average yield on 22 acres of 93 bushels per acre.

The highest yield per acre of any corn grown in Wisconsin in 1913 was 137 6-10 bushels Silverking and in 1914, 132 bushels 64 pounds of Silverking. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

Silverking.

Regenerated Red Hackberry.

MURDOCK YELLOW DENT

The Murdock is the heaviest yielding Yellow Dent corn that can be grown in the Northwestern states; it is an ideal corn for Southern Minnesota, Southern South Dakota, the Southern half of Wisconsin and Northern Iowa. Murdock was awarded sweepstakes for the Northern zone at the National Corn Exposition of 1909 and 1910 and received First Prize at the Wisconsin State Fair in 1914.

The stalks are 8 feet high, the ears setting 3½ feet from the ground. The ears are 8 to 9 inches long, 16 to 20 rows and have very deep, large grains, slightly rough which are sitting very compactly and solidly on the cob. There is no other extra early corn which grows as uniformly in type, size of ears and color as Murdock; a load of this rich, golden-yellow corn is a beautiful sight. Murdock matures in about 95 days of average corn weather and has a record of yielding a hundred bushels and more per acre.

Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

Murdock

BUCKBEE'S "Full of Life"

The varieties listed on this page have been grown in Winnebago Co., Northern Illinois, and are adapted to planting in most parts of Nebraska, Northern Kansas, as far north as Southern Wisconsin and Central Iowa and in a further part of the Corn Belt, and also in most Eastern States.

Buckbee's
New Early
Prosperity

Buckbee's New Early Prosperity

The best yielding 90 day Yellow Dent Corn for the Corn Belt

Every farmer in the Corn Belt who requires an early corn whether for late planting or for early feed will find this variety most satisfactory. It will produce a big crop of corn, 20 to 25 percent larger than most other kinds ripening so early, and it also produces an abundance of leaves making it an ideal ensilage corn.

Stalks grow 7 to 8 feet high, setting their ears about 3½ to 4 feet from the ground; the ears are about 8 inches long of fine golden-yellow color. This is a highly bred corn, yielding ears uniform in type, size and color and producing at least one ear but often two and three to a stalk; all barren stalks have been eliminated. The cobs are very thin and a bushel of 70 pounds ear corn makes more than 60 pounds of shelled corn.

C. A. Ruble, Seagoville, Texas, writes: "I planted Buckbee's Prosperity seed corn bought from you on March 22nd, and on July 16th I gathered some of it and planted again for another crop. Just think, raised my seed; and planted again from this seed and matured that crop also—that's good some."

Buckbee's New Early Illinois

The best 90-day White Dent Corn for the Corn Belt

A fitting companion to Buckbee's New Early Prosperity, ripening in about the same time but yielding even better. I have grown these two early Corns on my farms here for several years, and the longer I grow them the better pleased I am with them; I have grown many different, highly praised varieties, but have yet to find their equals in earliness and yield for this section.

The ears of the Early Illinois are medium sized but of great weight and very solid; the size of the ears has no effect upon its yield and it is a well known fact that a large-earred is not necessarily a heavy yielder. The fodder, too, is medium sized. It gives big yields on rich soil and does well on poor land; stands up to wet weather and drought. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

Buckbee's Great Western Yellow Dent

This variety is about 10 days later than Early Prosperity, but an entirely safe and sure cropper in Northern Illinois and the most productive yellow variety that is grown in this latitude;

but it proved also one of the biggest yielders and most satisfactory variety in all other parts of the Corn Belt except the extreme northern. It is a wonderful corn.

Many of my customers have planted it for years to the exclusion of all other kinds. It is strictly a thoroughbred corn coming always true to type and it is peculiarly free from barren stalks.

It produces an abundance of foliage which makes it very desirable for fodder. The ears measure 10 to 12 inches in length, often weighing 1 pound or more; they are uniform in size and shape, with 16 to 15 rows of deep, pure, golden-yellow kernels set on small-sized cobs, which is well filled out over the tip and butt. The grains are of good size, long, flat, and closely set together, and solidly fill the entire surface of the ear. This Corn ripens in about 100 days.

It is a Corn for the grain farmer, feeder and dairyman; it can be depended upon to bring the highest market price or to furnish the most and the best feed for your cattle, sheep and hogs. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

Buckbee's Great Western White Dent

A most marvelous variety of White Corn which will in yield and quality surprise everyone who plants it

Great Western White Dent will mature in about 100 days of good corn weather; compared with the Great Western Yellow Dent it is probably a few days earlier and gives on an average somewhat larger yields. I have sold this Corn for many years to all sections of the Corn Belt except the extreme North and wherever tried it has become a great favorite. It never failed to make a crop and in my experience I never found a corn, white or yellow, that would give equally as good results under adverse conditions of weather and soil. The stalks grow about 7 to 8 feet high, many of the stems bear two and some three ears and there are no barren stalks. The ears are 10 to 12 inches in length and weigh 1 pound and over; they are very uniform in size and shape with 16 to 20 rows of pure white kernels, which are very deep. The cob is thin and a bushel of ear corn will make not less than 62 pounds of shelled corn. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

Buckbee's
Great Western
Yellow Dent.

The Corns listed on this page are immense yielders, I am selling them at very reasonable prices; why take chances with common Corn which may yield only half as much as these thoroughbred strains?

BUCKBEE'S "Full of Life" SEED CORN

The Great Prize-Winning Show Corns of the Central and Southern Corn Belt

QUALITY
NOTHING BUT
QUALITY

The two famous prize corns listed here, Boone County White and Reid's Yellow Dent are the standard varieties for states in the latitude of Illinois and further south. More than 75 per cent of all corn raised in the corn belt is grown of these two varieties under these and other names. They are the greatest yielding white and yellow Corn known, have made records of bumper crops never reached by other sorts, and have won more prizes than all other varieties combined.

Our stock of these two varieties has been grown from prize-winning strains and was raised in Northern Illinois. These Corns are safe to plant as far north as Central Iowa. They mature at about the same time, requiring 110 to 115 days.

Reid's Improved Yellow Dent

Reid's Yellow Dent is the main Corn crop of the corn belt. It outyields any other yellow variety and gave the highest yields of any variety tested at the Illinois Experiment Station for a period of over 20 years.

The stalks are 9 to 12 feet high, making an abundance of fine fodder. The ears are very large, 9 to 11 inches long and 7 to 8 inches in circumference, and have 20 to 25 rows of deep, wedge-shaped kernels, moderately rough and of light yellow color, which is characteristic of this variety. The ears are of cylindrical shape from butt to tip with no lost space between the rows and tips, and butts are particularly well filled. The cob is red and small and easy to shuck. The ears are remarkably uniform in shape, size and color, and in this respect this variety is superior to all Corns. It shells from 88 to 90 per cent of grain. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

Boone County White.

Perfected Boone County White

The most popular and the heaviest cropping white Corn known. It is also the most highly bred Corn in the world.

It does well on all classes of soil. On old corn land it should be planted in preference to yellow Corn. The root system is very extensive, deep growing, making the plant drought-resisting. The stalks are strong and exceedingly heavy from the ear down. They seldom blow down. The foliage is abundant, leaves broad and thick, furnishing an enormous quantity of forage. The ears are 9 to 12 inches in length, 7½ to 8½ inches in circumference, averaging a pound in weight, and contain 18 to 24 rows of exceptionally deep kernels of pure white color. They are solid as a rock, there being very little space between the rows; are of cylindrical shape, rounding off only within about an inch of the top, and are most uniform in size and shape. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

EARLY WHITE CAP YELLOW DENT

A very strong grower with heavy fodder and large ears. Matures in 90 days and is a good Corn for planting as far north as Southern Minnesota. The grain has white cap, yellow body. Heavy yielder. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

BUCKBEE'S EARLY GOLD MINE

This great variety will usually produce a crop in 90 days and has always matured in Northern Iowa. It can safely be planted in this section up to the middle of June and still be depended upon to ripen by the middle of September. It produces a magnificent yield, there generally being two good-sized ears to the stalk, with large kernels, cob well filled. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

BUCKBEE'S GREAT LIBERTY FIELD CORN

This new variegated Corn combines more solid merit than any Corn in cultivation. Expert corn growers pronounce it a perfect field Corn as to yield, size of ears, color and length of grain and quality of fodder. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

THOROUGHbred LEAMING

Deep golden color; striking uniformity. The ears range from 9 to 12 inches long. Kernels broad, thick, deep, rather rough, rounding wedge-shaped. Red cob, medium in size. Matures in about 90 days. It is safe for planting in Central Iowa. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

BUCKBEE'S NEW EARLY COPPER MINE

This new variety is a copper-colored Goldmine Corn; in size, shape and productiveness fully equal to the best strain of Goldmine, but of reddish color and earlier. It will mature in about 90 days, and we recommend it for planting as far north as Northern Iowa. Try this new variety. It is well bred, very uniform and certainly most productive. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

Reid's Yellow Dent.

SEE ORDER
SHEET

CORN FOR FORAGE AND ENSILAGE

Fodder corn is a very valuable crop on the farm. It occupies a place than cannot well be filled by any other crop and should be largely planted by every farmer.

Corn has no equal in yielding large amounts of valuable forage under a great variety of soil and climatic conditions. Used for forage, ensilage and hay, it furnishes the cheapest supply of healthy and nutritive food in winter, spring, summer and fall for dairy and cattle, for hogs and other live stock on the farm.

When preserved as ensilage it can be stored much more cheaply in much less space than any other food, keeps indefinitely and is always ready to feed.

The growing of corn on a fair proportion of the farm will permit the keeping of more cattle and so increase the revenue as well as augment the manure supply so necessary to the maintenance of soil fertility.

When other crops have failed and it is too late to plant anything else, fodder corn can always be grown and will furnish feed for the stock and make a paying crop.

In selecting corn for fodder and ensilage, I do not recommend the very large, coarse and late varieties, which require a very long time to come to maturity, but according to my experience varieties which have medium sized fodder and ripen medium early in localities where they are to be planted are the most satisfactory. It is not necessary that the crop fully mature, but the nearer it comes to maturity the greater the food value and the more valuable it is to the stock feeding on it.

Sow in drills $\frac{3}{4}$ feet apart, using from $\frac{1}{4}$ to $\frac{1}{2}$ bushel per acre. The more seed is planted the more bulk, more stalks and leaves but the less grain will be harvested. About 20 pounds of seed is a good quantity to sow in the cornbelt; sown that thick the plants will not get larger than a man's thumb, look like a mass of leaves, have a high feeding value and are eaten without any waste.

We offer the following corns for fodder and silo:

BUCKBEE'S GOLIATH FODDER CORN

The World-Beating Fodder Producer, Surpasses Any Other Fodder Corn on Earth.

A great variety which we have been developing for years. Thousands and thousands of our customers in every part of the country assert that it stands without a peer for feeding either in the green state or for silo purposes. It is very rich in nutrient and a wondrously immense yielder. Grows rapidly, is early, short jointed, tall, and produces an overwhelming abundance of leaves and rich, juicy, sugary stalks, with a strong tendency to mature several ears. In favorable seasons, on good soil, it will produce from 50 to 60 tons per acre of the very best feed. I consider this corn the best and most economical fodder and silage variety for most parts of our country. It is grown in the North and South, even Manitoba is planting it largely, but it will mature only as far north as Northern Iowa in an average season. The ears when fully grown are from 10 to 12 inches long and have very deep kernels of a beautiful pearly white color. Postpaid, pkt. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 3 lbs. 90c.

Early White Dent Fodder

This Early White Dent Fodder I grow especially for my customers in the North. As the corn will mature in an average season as far north as St. Paul, Minn., it will make a splendid fodder and silo corn for all northern states, but it is also of great value for the same purposes in more southern states if the planting has to be done later than usual. It grows about 7 feet high, is very leafy, furnishing a large quantity of succulent fodder. The stalks are not very large, can easily be cut with the grain binder, and are also more easily cured, making finer and richer fodder, and this fodder is also easier handled in putting it through the silage or fodder cutter than later, and larger varieties. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

Earliest Ripe Fodder

Every farmer should grow a few acres of this Earliest Ripe Fodder Corn. It furnishes the quickest returns of any corn and of any fodder plant and could be cut in about 60 days from planting; at that time the ears are already fully developed. If planted early, it comes in at a time when the pasture is getting short and before field corn can be used; but it could be planted any time in summer 60 to 70 days before frost.

It grows about 2 feet high, will furnish from 20 to 25 tons of green forage per acre. It is mostly used for feeding green during the summer months; is much better than field corn, being sweeter, richer, more nutritious, and every part of the stalk and leaves will be eaten with relish by cattle and pigs. Sow in drills 25 lbs. per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

White Cob Ensilage Corn

A Popular Standard Variety.

A pure white Corn with a white cob of tall growth, short joints and leafy, giving an abundance of fodder; sweet, tender and juicy, yielding as high as 45 tons per acre. It is a popular standard variety which has a wide reputation all over the country and may be successfully grown for fodder in almost any latitude. Price, postpaid, pkt. 10c; lb. 25c; 43 lbs. 60c.

Red Cob Ensilage Corn

One of the Best Fodder Corns.

Beyond doubt one of the best fodder corns, either to feed green right from the field, to put up for the silo, or to cure and stack away. It is a pure white corn, cupping as high as 45 tons per acre. It is sweet, tender and juicy; has short joints and therefore an abundance of leaves, and grows to a fair height, but not over-large and coarse-stalked as some varieties. The seed is white and grows on a red cob, thus giving it the name. Price, postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

Evergreen Sweet Fodder

One of the most valuable fodder plants in existence; every stock farmer should devote some land to it. The stalks are sweet, juicy, rich, tender and very nutritious, and the leaves are numerous, very large, broad and succulent. The plant contains more sugar, has a much greater feeding value and makes a much finer and better feed than any other variety of corn; and the corn, whether fed dry or green, is very palatable, and cattle and hogs will greedily eat every part of the stalks and leaves. On strong soil the stalks will grow from 10 to 12 ft. high and produce an almost incredible amount of fodder. The Evergreen is not as early as the Earliest Ripe Fodder Corn, but if planted at the proper time in spring it will produce well-formed ears in any part of the Northwest before frost, and it is a variety which I can recommend for all parts of the country.

As a green fodder for cutting in the summer, one ear is worth as much as eight ears of ordinary pasture. Cured for hay, it is the equal to the best clover-grass hay, but the actual cost of producing it is not more than one-quarter as much. Sweet Fodder increases the milk and cream production most wonderfully and keeps the animals in the best condition. Of high value, it is also for hog feed. When in roasting ear, stalk and all are fed to the hogs, which will eat it without any waste whatever. Sow in drills 25 pounds per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

BUCKBEE'S "Full of Life" OATS

Oats are a profitable crop if new seed of varieties that have merit is sown. There is no grain that demands a change of seed more often than Oats. Every second or third year the seed stock should be renewed, because if grown in the same soil and in the same neighborhood year after year they will deteriorate and become light and chaffy.

Our prices are so low that every farmer can afford to buy new seed of our pedigreed, vigorous-growing varieties every year and harvest a paying crop.

BUCKBEE'S ILLINOIS

Introduced by me several years ago. At that time it was generally considered "the greatest of all Oats," and although many new varieties have since been offered, some of them with heavier grain and later maturing which have outyielded the Illinois on some soils under certain conditions, and also some earlier varieties which were more productive in some sections but have a smaller berry not wanted by some farmers, believe most of my customers will continue to sow the Illinois, which is an all-around good early Oats, with good-sized grain, as a sure cropper year in and year out, adapted to the rich soils of the prairie states, is hard to beat. No one can miss it by sowing the variety.

The Illinois is an early variety, has a well branched head and long but plump pure white grains with a thin hull. The straw is of medium height, very stiff and does not lodge easily, but stands up well on rich, well matured land. It is an ideal sort for any soil. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

The noted agriculturist, J. H. Beagley, of Champeau County, Ill., an undisputed authority, says: "Your new Oat, 'Illinois,' yielded more the past season than the Lincoln and other well-known varieties." It is an ideal sort for any soil; will positively not lodge, nor rust, and nothing short of a cyclone will get it down. My trials show a yield of over 100 bushels to the acre, with not a single favorable season. My seed stock weighs over 40 lbs. per struck bushel.

WHITE KHERSON (Iowa No. 103)

A new production from the Iowa Experiment Station, which won the "Sweepstakes on all Oats" at the International Dry Farming Congress, Wichita, Kansas, in 1914. It has been tried largely in the last few years in the western and in the cornbelt states, and wherever grown it has outyielded all other varieties in the same neighborhood by about 20 bushels per acre. I do not hesitate, therefore, to offer it as the best Oats for the west and the cornbelt as yet produced.

White Kherston was bred from Yellow Kherston, or 60-day Oats, at the Iowa Experiment Station. It has all the good qualities of the old variety, is just as early, has strong, stiff, straw, branching heads with very numerous small but exceptionally heavy berries with thin hulls, and in addition to this the new Oats has a better color, being pure white, and it is a very much better yielder.

White Kherston matures early before the hot and dry season sets in and before blight and rust appear. This accounts for some of its big yields. It has also proven to stand up extra well on heavy, rich soil, and wherever the ground is rich and the Oats lodge or run to straw these new Oats will prove of special value. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

SILVERMINE

One of the most popular varieties and very largely grown in all central and western states. It is a medium early Oats, maturing about a week ahead of the Swedish Select, and is very hardy and prolific. Has long, stiff straw and grain of the clearest white color, usually plump and heavy with a reasonably thin hull. It is a sure cropper; will thrive under favorable conditions. It shows little tendency to rust or lodge unless soil is very rich. Many people who have raised Silvermine think them the best Oats on earth. It is the standard variety for main crop in most parts of Iowa.

The trials at the Experiment Station in Wooster, Ohio, the 10-year average yield of Silvermine was 67.08 bushels per acre, or the third best of 21 varieties; about 1 bushel less per acre than the highest yielder. Silvermine has a record of yielding immense crops of 100 to 150 bushels per acre in favorable years. Our seed is very choice, pure stock. Postpaid, pkt. 10c; lb. 20c; 3 lbs. 50c.

IMPROVED WHITE RUSSIAN

A distinct variety, being a side or horse-mane Oats. It originated in Russia, but has become thoroughly acclimated and is a great favorite everywhere. White Russian is as nearly rust proof as any Oats can be. It is a medium late variety. It is much appreciated for its rugged hardiness, enabling it to withstand diseases, insects and cold, unfavorable weather. It yields large crops. The berries are longer and larger than those of other varieties. It ripens with the Blue Stem Wheat, and these two kinds make a good combination for succotash. This variety is much grown and a very heavy yielder in the North. Postpaid, pkt. 10c; lb. 20c; 3 lbs. 50c.

REGENERATED SWEDISH OATS

An improvement of the well-known Swedish Select; has given larger yields in this country than the old variety; it stands heavier, grows more vigorously, resists droughts better and is free from rust and smut. In short, it possesses all the good qualities of the Swedish Select in a much higher degree than its parent.

Our stock is grown from the originator's seeds and is very plump, heavy and of bright color; pure, clean and entirely free from weeds and other grains. It is ahead of the English stock being grown in this country, and is therefore acclimated and will give much larger crops. Regenerated Swedish has been widely advertised and is one of the most popular Oats grown in this country. It grows on nearly all soils, except when very rich. It is especially well adapted to upland soils and seems to do better on poorer ground than any other variety.

The straw is coarse, very stiff and, noted for its power to resist lodging. The heads are large, branching and filled with very large, thick grains of bright color. They are medium late. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 80c.

EARLY BLACK PROLIFIC TARTARIAN

Heaviest Cropping Variety of Pedigreed Black Oats.

Tests made by many progressive farmers convince them that these Black Oats are more reliable croppers than White Oats. They are very early. The grain is short and plump and of the best quality. Early Black Prolific Oats are practically drought-proof and rust-proof. The straw is stiff, the heads are long and the grain yield is heavy. These Oats are the best to grow on rich and also on cold and damp soil. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

BUCKBEE'S FAMOUS QUAKER OATS

The Greatest Oats in the Country.
The Earliest of All Large Grained Oats.

The Best Yielding Oats.
The Plumpest and Heaviest Oats.

Quaker Oats is a spreading variety, throwing out its heavily laden branches on all sides. It has thick walled, stiff straw of medium height, that carries the load without lodging, withstanding winds and storms better than most other varieties.

The grains of Quaker Oats are short, very plump and heavy, the heaviest of any oats we know of, generally weighing from 45 to 50 lbs. per measured bushel. They have a thin skin and heavy meat, and in addition the color is a fine white as bright and clean as a new silver dollar. Such oats grade higher on every market than common stock and usually bring a cent or two a bushel more for the crop, which will more than pay the extra cost of seed, not to say anything of the extra yield which may be secured.

These oats are medium early, a few days later than Silvermine. We have grown them now for many years, but never noticed a sign of rust, smut or blight on the straw.

The plants do well on most soils, standing up well on rich land, and owing to their strong root system, they are the best Oats for thin, upland ground and the best drought resister in dry season. They have been grown with great success in all parts of Northwest and in the central and eastern states. They are of strong, vigorous growth and remarkable for their great stooing capacity, which accounts for their wonderful yield, often more than 80 strong, healthy stems, each carrying a large head filled with heavy grains have been counted coming from one single seed. Yields of one hundred bushels per acre have been quite common of Quaker Oats, but even crops of 200 hundred bushels and more have been harvested on well prepared land in a favorable season.

Sow Buckbee's Quaker Oats and do not miss your chance to get a start with this famous variety and harvest more Oats to the acre than ever before and Oats which would always bring a high price in every market, if you do not sell them for seed.

My stock of Quaker Oats is very fine this year and the seed compares very favorably with that of any other variety. Ask for sample.

Choiceest Pedigreed Seed of our own growing. Postpaid, pkt. 10c; 1/2 lb. 15c; lb. 25c; 3 lbs. 70c.
I have grown your Quaker Oats now for 5 years. They always stood up well and headed out nicely and my yields ranged from 70 to 100 bushels per acre. The Oats were the nicest and heaviest ever seen in this country.—Chas. Johnson, Ravalli Co., Montana.

WINTER OATS

Winter Oats are of the greatest value for the states south of the Missouri line. They are grown there for fall and spring pasture and for grain. They also generally stand the winter everywhere in our state and in the southern half of Iowa. My Winter Oats grown in the North are incomparably superior to southern-grown stock. They are more hardy, earlier, less susceptible to rust, of more vigorous growth, stand up better and are more productive.

TEXAS RED RUST-PROOF WINTER OATS

A standard favorite not only in Texas, from which it derives its name, but all through the Southern States. Texas Rust-Proof Oat has a very heavy berry, nearly every one has a distinctive beard, protecting it from the sun and enabling it to stand extreme heat. It has short, strong, stiff straw and does not lodge easily. These oats are much used on light, sandy soils and also for low grounds, where Oats are likely to rust. These Oats can be sown in Fall and Spring. Sow 2 bushels per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

WINTER TURF OATS

This splendid variety has proven immensely popular and satisfactory wherever it has been grown. When sown early in fall and the roots thoroughly established in the soil, it is very hardy and will stand a great deal of cold. Its stooing propensities are remarkable, and on good soil yields from fifty to seventy bushels per acre. The grain is of a dark gray color, with a distinct stripe and weighs heavier than the ordinary Oat. These Oats can also be sown in Spring and if sown very early, will outyield ordinary Spring Oats. Sow 1 1/2 to 2 bushel per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

BUCKBEE'S NORTHERN GROWN COW PEAS.

SHEET

BUCKBEE'S EXTRA EARLY MICHIGAN FAVORITE—Mature in about 60 days. In quality and productiveness it is equal to any of the well-known standard varieties; 8 to 12 tons of excellent fodder or 20 to 30 bushels of seed per acre is often harvested. Much used as a fertilizing crop. Postpaid, $\frac{1}{2}$ lb. 18c; lb. 30c; 3 lbs. 80c.

NEW ERA—A week later than Michigan Favorite, upright, very early, remarkably prolific. Postpaid, pkt. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 3 lbs. 70c.

IMPROVED WHIPPOORWILL—Upright, a week later than New Era, a favorite in the South and Middle West. Very productive. Much used for pasture and fertilizer. Postpaid, pkt. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 3 lbs. 60c.

Cowpeas grow on almost all soils and thrive on land too poor for clover. They are drought resistant, stand the heat of the southern summer and are largely grown in the south, but the early varieties listed here, which have been grown in the North, are also of greatest value for all northern states.

Cowpeas, whether used for green fodder, hay or ensilage, have a very high feeding value and are more nutritious than clover, millet or any other grass. They make an excellent hay pasture; an acre of ripening Cowpeas will feed and fatten 15 to 20 young hogs; and the bacon made from hogs fed on them is sweeter and more solid than if fed on corn. From 5 to 1 tons per acre of green fodder have been produced by Cowpeas.

Cowpeas are also much used for green manuring, and a crop of them plowed under will increase wonderfully the fertility of the soil, transforming poor, sandy land into fertile loam. They are legumes and gather nitrogen from the air, adding it to the soil.

As fodder plants, Soy Beans and Cowpeas have about the same value and they are much planted together at the rates of about a bushel of Cowpeas to half bushel of Soys per acre.

The beans hold up the vines of the peas and enables the crop to be harvested to better advantage than if sown alone.

Culture—Sow when warm in drills, 3 $\frac{1}{2}$ feet apart, and cultivate, using 25 lbs. per acre; or broadcast 120 lbs. per acre. The planting is often done in corn at the last cultivation.

NEW REVENUE—The New Revenue Cow Pea is not only a field variety, but a splendid garden pea. The green pods are splendid as snap beans, delicious hulled and used while green as lima beans, and excellent in the dried state boiled or baked as navy beans, or used in soup. Vines, 8 to 15 feet long. Postpaid, pkt. 10c; $\frac{1}{2}$ lb. 20c; lb. 35c; 3 lbs. 90c.

PROLIFIC BLACK EYE—One of the earliest; will mature seed in about 60 days. Of the same value as a forage and soil improving crop as the other varieties, but also grown for table use. Postpaid, pkt. 10c; $\frac{1}{2}$ lb. 15c; lb. 25c; 3 lbs. 70c.

BUCKBEE'S NEW EARLY SNOWFLAKE FIELD PEAS

15 TONS FODDER PER ACRE 60 DAYS FROM PLANTING.

BUCKBEE'S NORTHERN GROWN FIELD PEAS

Equally valuable for Pasture, Silage, Hay, Grain and Fertilizer.

For the northern states there is no crop of greater value than Field Peas. They can be grown under most any condition of soil or climate and yield a profitable crop no matter for what purpose it is grown for pasture, silage, hay, grain or fertilizer.

Field Peas make their best growth when the weather is cool and the earlier they are seeded the better they will do. When sown in March or April they will be ready for cutting the latter part of June, coming before any good nutritious feed suitable for soiling or hay.

Field Peas are sown alone at the rate of 3 bushels per acre, but the most satisfactory way has been found to be, if sown with oats, about a bushel of peas to a bushel of oats per acre.

When clover or grasses are frozen out or are liable to fall on account of dry weather, then peas and oats will furnish the quickest returns of any forage plants and in feeding value are equal to clover hay. The feeding may commence as soon as the oats are headed out and the peas are in bloom. When the grain reaches the dough state the crop has attained its maximum feeding value, and if wanted for hay it should be cut at that

time. Peas and oats make also a most profitable crop when grown for grain and yield from 60 to 70 bushels of seed per acre. Threshed together, they can easily be separated; but if ground together make a very nutritious food for milch cows, horses, etc. For hogs, sheep and poultry they need not be ground. Peas and oats make also a splendid pasture for cattle, sheep, and especially for hogs, as soon as the peas are fully developed the stock can be turned in. The best way of seeding Peas and Oats is to plow the peas under not more than 4 inches deep; then sow the oats in the usual way.

BUCKBEE'S NEW EARLY SNOWFLAKE—By far the best Field Pea. Immensely productive. Height of vine 3 $\frac{1}{2}$ to 4 feet. Dry pea is of a beautiful pearly white color. Price, postpaid, pkt. 10c; $\frac{1}{2}$ lb. 20c; lb. 30c.

FRENCH JUNE—The foliage and habit of growth quite similar to Garden Peas. It is quite hardy and may be sown very early in the spring. Price, postpaid, lb. 25c; 3 lbs. 70c.

IMPROVED WHITE CANADA FIELD—Well known and standard variety. Price, postpaid, lb. 25c; 3 lbs. 65c.

Spring Spelts or Emmer

A valuable grain closely related to wheat; the kernels, however, are tightly enclosed in the hulls and adhere to it when threshed. It should receive the attention of all farmers, as good crops of it can be grown under almost all conditions of soil and climate, although it is, like Macaroni Wheat, especially adapted to dry regions and localities with hot, dry Summers; withstands drouth where barley fails entirely. It is also never affected by excessive rains. Spelts is a staple crop in all parts of the West, Northwest and Southwest, but can also be profitably grown in all sections of the corn belt. Wonderful crops have been grown of it under adverse conditions, and record yields of 75 to 100 bushels of grain and 3 to 5 tons of straw have often been reported from the western states. It thrives on poor land, stony ground, in forest regions, on the prairies; it is quite hardy and should be sown as soon as the land can be worked. It has quite stiff straw, stands up well on ground where oats and barley lodge. It neither rusts nor blights. Oats and spelts ripen about the same time and are often sown together for horse feed. Spelts makes a well-balanced feed for horses, cattle or hogs; they all like and thrive on it. To horses it can be fed with the hulls on, the same as oats. When cut when the grain is past the middle milk stage, it will make straw-hay of excellent quality.

Threshold like wheat. Sow 30 to 100 lbs. per acre. Postpaid, pkt. 10c; lb. 25c; 3 lb. 60c.

New White Beardless Winter Spelts

This Winter Spelts has the same characteristics as Spring Spelts. As the name indicates, this variety is without beards, and also has much larger heads and is much more productive in suitable climates than the Spring variety. It thrives best on dry prairie regions with hot Summers, where it has given excellent results; but it is also considerably resistant to the effects of wet weather in humid climates. It is not affected by rust like most other grains. Winter Spelts is as hardy as any Bald Winter wheat and has been grown for a number of years in Southern Minnesota with good success, always giving better returns there than any Winter Wheat. It certainly is more hardy than Winter Barley and Winter Oats, and we especially recommend it for sowing in place of these two varieties, as it is much more productive and a surer crop. In many Central, Southern and Eastern states, where Spring Spelts do not yield well and Winter Oats are not hardy, there is a large demand for a Winter cereal to be used as a stock feed, and we can recommend the Winter Spelts for that purpose—it is a sure crop. Ripens earlier than oats, yields much better and may furnish a considerable quantity of Fall and Winter pasturage.

In this country it is only used for feeding purposes and it should be used with the hulls; it may be considered as ranging with oats in the group of high protein, muscle and energy producing foods, and it is equal to the latter in intrinsic food value. Where Spelts is fed with the hull, less hay is needed than for other grain were fed, as the hull takes the place of the hay, making it a complete food. The preparation of the land for seeding and the subsequent management of the Winter Emmer crops are practically the same as required for Winter Rye or Wheat. Sow with a drill at the rate of about 60 lbs. per acre; cover about 3 inches deep. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 80c

Mammoth
Spring Rye

Head of White Beardless Winter Spelts.

Mammoth Spring Rye

Spring Rye is entirely distinct from Winter Rye and we call particular attention to the fact that we offer genuine Spring Rye. It can be sown in Spring a little later than other Spring grain and a crop harvested the same season; on that account it is much used as a catch crop, especially where Winter grain has been killed out. There is no danger for this variety; it is a very profitable farm crop to grow anywhere, and farmers are finding out its value. It does not grow quite as tall as Winter Rye, but usually yields as well and the grain is of fine quality. On good ground the yield is never less than 40 bushels per acre. As it does not stool as much as Winter Rye, not less than 2 bushels are usually sown per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

Spring Spelts.

Winter Rye

The hardiest and the earliest grain crop grown; the best grain crop for sandy soils; in fact, the salvation of the farmer in very sandy sections.

Winter Rye is one of the most valuable grain crops for all sections of the country, and it can be depended upon more than any other to produce a good paying crop everywhere and every year. It is more hardy than wheat, seldom winter kills, is suited to cold climates, will mature even in Alaska, and succeeds well everywhere in the South.

SOIL—It can be grown on a great variety of soils, gives its greatest returns on fertile ground, but is of the greatest value on account of its adaptability to light and poor soils, where it will give fair crops when other cereals fail.

The straw of Rye is more slender and grows taller than wheat, but owing to its extreme rigidity it does not lodge easily. Rye starts to grow much earlier in Spring than Winter Wheat, and ripens a week earlier. It is troubled very little by insects and diseases as owing to its early development it is too near maturity when insects and such diseases as blight, rust, etc., appear. Another great advantage of the Rye grain will mature before the weeds, which will have no opportunity to mature their seeds before harvesting.

Winter Rye is an excellent cover crop for orchards, as it prevents the leaching in case of fall or spring rains; it will also prevent the blowing of light, sandy soils.

Rye can be sown in the South from July to November 15th; in the North it is best to sow up to the 15th of September. If sown early, it is used for fall pasture. Winter Rye is the best plant for **GREEN MANURING** on poor soils where Clover will not grow. It is plowed under about ten days before planting time, so as to get all the growth possible before turning it under.

Rye is one of the best **NURSE CROPS**, as it has but very few leaves in Spring, hence the young clover plants get more sunlight and air than they will get with any other cereal, and, besides, Rye is the earliest grain crop and will be out of the way quite early.

Winter Rye is the earliest crop that can be used for **SOILING**, it furnishes a large amount of green feed. The best time to cut it for soiling is between the time of heading and the beginning of the formation of the grain. For purpose of soiling, however, it is best sown with Sand Vetches at the rate of 40 to 50 pounds of Vetches and one-half bushel of Rye.

THE STRAW of the Rye is a very valuable part of the crop; it is used for bedding stock, for packing nursery goods, in the manufacture of coarse brown paper and, if carefully threshed, it sells at high prices to harness makers for collar making.

Rye is little used for stock feed; yet, in combination with oats or barley, it makes good feed for horses and hogs, but it should not be fed to milch cows, as it will give a bitter flavor to the butter. Sow at the rate of 1 1/2 bushels to an acre.

GIANT WINTER RYE—A heavy crop, with stiff straw, large heads and plump, heavy grains. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

Giant
Winter Rye.

SPRING WHEAT

NEW MARQUIS

Ten days earlier and yields 10 bushels more per acre than any other hard spring wheat known.

Pronounced by both farmers and millers the finest spring wheat for the Northwest and it also the best beardless variety of spring wheat that can be raised in the Cornbelt.

Marquis Wheat was originated in Canada; it won the \$1000.00 prize for the best wheat grown on this continent at the grain exposition in New York in 1911, the \$3,000 prize at the International Dry Farming Congress at Lethbridge, Alberta, in 1912, the Sweepstakes prize at the Dry Farming Congress at Tulsa, Okla., in 1913 and many other prizes.

This wheat has very stiff straw of medium height, which does not lodge easily, the heads are bald and quite heavy, have smooth yellow chaff; the kernels flinty, more round than those of other spring wheats, thicker and more plump, and of dark red color. Marquis weighs 44 to 66 lbs., per bushel, a five year average yield at the Brandon, Manitoba, experiment station was 44 bushels per acre. Almost without exception it will grade No. 1 Hard, and it is superior to any known variety in milling and baking qualities. Postpaid,

pkt. 10c; lb. 30c; 3 lbs. 80c.

EARLY JAVA

A very early bearded variety and one of the most prolific ones, about 10 days earlier than Velvet Chaff or other standard varieties and about as early as winter wheat. One of the best spring varieties to grow in the Cornbelt. Very stiff straw, long well filled heads with round, plump grains of the best milling quality. Sow 1½ bushels per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

MACARONI, KUBANKA

This is the best of the Macaroni varieties for milling purposes. It requires less moisture than any other wheat, is therefore especially adapted for the dry, arid portions of the western states, parts of the Dakotas, Kansas, Texas, etc. It is rust, blight and smut proof. It is very early and very productive, generally yields 10 to 20 bushels more per acre than any other spring wheat. The heads are bearded, the grain very large, hard, glossy and of yellowish color. Sow 1½ to 2 bushels per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

BLUE STEM MINN. No. 169

One of the heaviest yielding varieties for the Northwest; originated at the Minnesota experiment station. Fine, plump, flinty grains. Large bald heads. Postpaid, pkt. 10c; lb. 25c.

WINTER WHEAT

HARVEST QUEEN. A beardless variety, white chaff, golden-yellow grain; a splendid yielder; while not as hardy as our Red Turkey, it has been grown for years with good success in Southern Minnesota. This and Harvest King are the hardest varieties of beardless winter wheats known, giving excellent results in all parts of the Cornbelt. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

HARVEST KING. Another beardless or bald variety, red chaff, very large dark amber colored grains, larger than most other bald varieties, of splendid milling qualities. The earliest beardless wheat, very hardy. Often sold as Red Cross wheat. One of the most productive kinds in the Cornbelt, quite hardy as far north as Winona, Minn. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

Buckbee's Red Turkey

Marquis.

one-third larger yield and it is as sure a crop.

BUCKBEE'S RED TURKEY. This is a bearded variety and is the hardiest known; it can be planted in almost all parts of the Northwest and is also the best adapted sort for the states of Nebraska, Kansas, Oklahoma, etc. It is one of the earliest varieties of winter wheat and matures before rust and chinch bugs appear. The heads are long, well filled with large, flinty grains of reddish-amber color equal to No. 1 Hard spring wheat. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 80c.

BUCKBEE'S WONDERFUL DWARF BONANZA RAPE

BUCKBEE'S DWARF BONANZA RAPE

There is no other forage plant which can be grown so advantageously in the northern part of the United States and which furnishes such an abundance of succulent forage during Summer and Fall when the supply of grass and clover is often limited as Rape. It is indispensable for raising sheep and hogs and is much relished by all stock.

Rape belongs to the Cabbage family; grows 2 to 3 feet high and is never troubled by insects.

There are many different varieties, but only the biennial or Winter Rape is worth cultivating in our country, and of this Buckbee's Dwarf Bonanza is undoubtedly the heaviest yielding. Crops of nearly 50 tons of green fodder per acre have been reported of it, while of Dwarf Essex not more than 10 to 20 tons have been harvested.

In this country Rape is used exclusively for soiling and pasture. It is best adapted to cool and moist climates, but has also successfully been grown in warm and dry sections; and good crops have been produced under conditions of drought which cause the failure of corn and other crops.

Rape does well on most any kind of soil, especially if rich in vegetable matter, as it is a gross feeder. Land that produces a good crop of corn and wheat is suitable for Rape. In the northern states Rape is sown from April to August, and in the South in September and October.

Four to five pounds of seed are used per acre if sown broadcast, and 2 to 3 pounds if sown in drills 24 to 28 inches apart or along cultivation. It may be sown alone in Fall after the rain has been harvested, or it may be sown in the Winter or spring grain in the Spring, when this is 2 to 3 inches high, at the rate of 2 lbs. per acre. With a good stand of Rape in the

stubble, sheep can be turned in in about 3 weeks after the grain is cut. It also has been sown with more or less success in the corn at the last cultivation. Three to four cultivations should be given until the plants have spread so much to prevent further passage.

When the crop is cut it is best to follow with a cultivator; this will cause the stems to send out new shoots more rapidly. Rape is usually ready for use in about 2 months from sowing the seed; it is used as a soiling crop in many places, but its chief use is for pasture and especially for hogs and sheep. Its fattening properties are twice as good as clover.

At the Michigan experiment station 128 lambs were pastured for 3 weeks on 15 acres of Rape sown in July, and showed a gain of 2,890 lbs., or at a rate of 3 lbs. per lamb each week.

The Alabama Experiment Station states in regard to Rape: "Quality of product good for both hogs and cattle; the growth was enormous; by repeated sowings we did carry more hogs through our dry, hot summer, than would have been possible by planting 4 times the amount of land to anything else ever grown here. We recommend it to all southern farmers."

Professor Shaw of Minn. Experiment Station reported on Rape: "On 54 acres of Rape after Winter rye was removed, 537 sheep and lambs were fattened, 18 steers fed thereon for 59 days, and several acres were uneaten when Winter set in."

There is no danger to hogs from bloating, but cattle and sheep may suffer seriously if sufficient care is not taken. When on Rape they should at all times have access to salt.

Rape must not be fed any more after it has been frozen.

Postpaid, pkt. 10c; lb. 35c; 3 lbs. 90c.

Dwarf Essex Rape

A standard variety. Not quite so strong and vigorous a grower as Dwarf Bonanza, but never fails to give the best of satisfaction. Fine imported seed. Price, postpaid, lb. 25c; 3 lbs. 70c.

Australian Salt Bush

Australian Salt Bush

A valuable forage plant for soils containing alkali and for all regions subject to periodical drought; will grow freely on soils that will produce no other vegetation. It seems to take up from the soil the salty substance which is detrimental to the growth of other plants; and after 3 or 4 crops of it have been grown, the soil is capable of producing any other crop. The plant is a perennial in the south, but not hardy in the north and has to be sown every year.

Needs some little moisture to start it into growth, but when once started will grow strong and vigorously during the driest season. The plants are spreading habit, branching freely; they make a thick mat of stems and have 3 to 4 feet in diameter; yielding about 20 tons of green forage per acre, which makes about 5 tons of hay. This is very nutritious and eaten by all live stock. When dry it contains about 8 to 10 per cent of salt. One pound of seed will seed one acre. Postpaid, pkt. 5c; oz. 15c; lb. 35c; lb. \$1.25.

Thousand-Headed Kale

Similar to and now frequently used in place of rape, as it yields a heavier crop, which is estimated at about 100,000 lbs. per acre in one season.

Thousand-Headed Kale attains a height of 3 to 4 feet; the stem is covered with rosettes of leaves. It grows well on almost any kind of soil and is hardy. All farm animals are fond of it, but it is of especial value for feeding hogs and sheep. Sow same as rape; broadcasting requires 1½ lbs. per acre. Postpaid, pkt. 10c; ¼ lb. 30c; lb. 90c.

Thousand-Headed Kale.

QUALITY
NOTHING BUT
QUALITY

Buckbee's Great Sand Vetch (*Vicia villosa*)

The Sand Vetch, also called Winter Vetch or Hairy Vetch, is an annual plant, similar in growth to a Pea Vine, but more slender, more thickly covered with leaves and side stems; it will grow from 6 to 10 feet tall.

As the name indicates, it has a special adaptation for sandy soils; it succeeds well on light soils too poor for clovers, cowpeas, etc., but will give bigger crops on richer land.

Although fair crops have been obtained without inoculation, it is my experience that inoculated soil produces surer and bigger yields. We can furnish Nitrogen inoculation for Vetch, see page 85.

Sand Vetch is of great value for pasture and hay, and the fodder, either green or dried, is much relished by all stock; it is very rich, nutritious, containing even more protein than Alfalfa. It is cut for hay when pods are forming; the average yield of hay is from 3 to 4 tons per acre.

Sand Vetch is, however, mostly grown and is of the greatest value as a fertilizer; it is the best legume for enriching soils of low fertility, succeeding better than any other plant on such soils and having the power of accumulating large quantities of nitrogen in the soil, which are estimated to be about 100 pounds per acre or twice as much as a crop of Red Clover will furnish; the total value of a crop of Sand Vetch if plowed under is estimated by the Department of Agriculture to be equivalent of \$16.00 to \$45.00 worth of commercial fertilizer per acre.

Sand Vetch is the best cover crop for orchards which we have. Sand Vetch is sown in Spring and in Fall; in the northern states not later than the middle of August; in the corn belt not after middle of September, but later farther south. It grows best in cool weather. If sown before July 1st the plants generally freeze out, but if sown later they live over Winter, produce a big crop the following Spring, go to seed in June when the clover is in flower.

Sown early in Spring alone or with a nurse crop of barley or oats, it furnishes good Summer and fall pasture. The best returns, however, are obtained of this plant when sown after July 1st, and it may be sown in the corn or cotton at the last cultivation or with winter rye as a nurse crop. Seeded in the fall, the plants will secure a good start before Winter comes on early in Spring, and they will yield a bountiful crop of hay or splendid pasture till June. If wanted for fertilizer, the field should be left until about middle of May, when it will be a mass of green stalks and leaves—about all that can be turned under with a plow.

Sow 50 to 60 pounds of Sand Vetches if sown alone; or 40 pounds Vetches with $\frac{1}{2}$ to 1 bushel of Oats or Barley in Spring, or with $\frac{1}{2}$ to 1 bushel of Winter Rye in fall. Cover Vetch about 1 inch deep. Postpaid, Pkt. 10c; lb. 35c; 3 lbs. \$1.00.

Field Lupines

An annual leguminous plant, very valuable for reclaiming poor soil, particularly sandy and old, wornout land. It is highly valued in Germany that it is called the "Gold of the Desert" or "Desert Reclaimers." It makes also good fodder in either the green state or as hay. The seeds are very fattening when used with hay. Sown in the early Spring at the rate of 60 to 90 lbs. per acre. Postpaid, Pkt. 10c; $\frac{1}{4}$ lb. 15c; lb. 40c.

Giant Spurry.

Giant Spurry

An annual fodder plant. It flourishes on sandy, wornout soils where no other plant will grow; it grows from 1 to 3 feet high. Can be sown any time from April to August. It comes next to clover as a fertilizer. It is of very rapid growth and can be used for pasture 4 to 6 weeks after sowing. Sow broadcast at the rate of 10 pounds per acre if wanted for hay; or 20 lbs. if needed for fertilizer, and cover lightly by harrowing. It is usually cut for hay the first time and pastured afterward for the rest of the Summer. For fertilizer plow under when from 15 to 20 inches high. Two crops can be plowed under in one year on account of its quick growth. It is readily eaten by cows. Postpaid, oz. 10c; $\frac{1}{4}$ lb. 30c; lb. 50c; 3 lbs. \$1.35.

Giant Beggar Weed

A Splendid Forage and Soil Renovating Crop for the South. An erect leguminous, annual plant, from 3 to 8 feet high, with abundant foliage; excellent as a pasture crop; makes hay of the finest quality. The feed is much relished by stock and is highly nutritious, comparing favorably with that of red clover and cowpeas. It is especially recommended for thin, sandy soil and on such land too poor to grow any other crop it has produced 3 to 5 tons of cured hay per acre. If cut when about 2 feet high, the plants gain stool out from the bottom yielding successful crops. It is an excellent crop to turn under for green manure. It can be easily eradicated. Sown when soil is warm till middle of June, 3 or 4 lbs. in drills 3 feet apart, or broadcast 10 lbs. per acre; cover 1 to 2 inches. Postpaid, oz. 10c; $\frac{1}{4}$ lb. 30c; $\frac{1}{2}$ lb. 50c; lb. 80c.

Sunflower

Sunflower seed makes a splendid food for all farm animals; it is relished by horses and cattle, fattens sheep and swine, but it is especially valuable as a food for fowl and is the best egg producing food known. It also keeps the fowl in strong, healthy condition; gives it a bright, lustrous plumage and is said to prevent rump. The strong, thick stalks can also be used as fuel. Sunflower is one of the cheapest foods known. Can be raised cheaper than corn. The varieties we offer are immense yielders and produce often crops of 100 to 125 bushels per acre.

Sunflowers are planted in rows or hills and cultivated the same as corn. If you cannot spare land to cultivate them, plant them in the waste corners. The heads should be cut from the stalks before they are fully ripe, as they are apt to mould on the stalks; spread heads out thinly on the barn floor or corncrib, and as soon as dry enough remove the seeds from the heads; this is done the easiest way by rubbing the inverted head over a coarse screen. Three bushels of seed will grow 10 bushels of grain.

MAMMOTH RUSSIAN—This is the largest—"the Jumbo" of the Sunflowers. There is no variety which produces larger seeds or heads than this one. Single heads measure 15 to 25 inches in diameter, an enormous amount of seed. It is very productive. Postpaid, oz. 5c; $\frac{1}{4}$ lb. 15c; lb. 25c; 3 lbs. 70c.

WHITE AFRICAN—Seeds like Mammoth Russian, but pure white. Postpaid, oz. 10c.

BLACK AFRICAN—Seeds like Mammoth Russian, but pure black. Postpaid, oz. 10c.

Bird Seeds

CANARY, best Sicily Postpaid, $\frac{1}{4}$ lb. 15c; lb. 25c; 3 lbs. 65c.

HEMP, re-cleaned Postpaid, $\frac{1}{4}$ lb. 15c; lb. 25c; 3 lbs. 70c.

BIRD RAPE, strictly pure Postpaid, $\frac{1}{4}$ lb. 15c; lb. 25c; 3 lbs. 70c.

MILLET, for birds Postpaid, $\frac{1}{4}$ lb. 10c; lb. 15c; 3 lbs. 45c.

MIXED BIRD SEED, for Canaries, etc., strictly clean Postpaid, lb. 20c; 3 lbs. 55c.

Sand Vetch

Spring Vetch.

Postpaid, lb. 30c; 3 lbs. 85c

Serradella

An annual leguminous plant one of the best forage plant for dry, sandy soil. Cattle like it either as hay or green fodder. Can be sown in Spring or Fall at the rate of 20 to 30 pounds per acre, either alone or with the Spring or Winter grain. Postpaid, Pkt. 10c; lb. 35c; 3 lbs. \$1.00.

Giant Beggar Weed.

Field Lupine

BUCKBEE'S "FULL OF LIFE" CLOVERS

BUCKBEE'S "FULL OF LIFE" CLOVERS ARE THE HIGHEST GRADE OBTAINABLE

These seeds are carefully tested and are of the highest vitality and purity; they are free of noxious weeds and other foreign seeds, in fact, I aim to have every bushel of Buckbee's Famous "FULL OF LIFE" Clover Seeds that I send out test 95 per cent or better for purity and 95 per cent or better for germination. These seeds are also very plump, heavy, being well ripened, so as to insure a good stand and big crop.

It is without question to the advantage of the purchaser to buy the best seeds, although they are a shade higher in price than light seeds, poorly cleaned, which are so generally sold; in the end the best seeds will prove the cheapest, they germinate better, being plumper produce a greater number of stronger plants which means a better stand and a larger crop; and there is no danger of the land becoming infested with weeds which would decrease its value.

Alsike or Swedish Clover

Alsike seems to be especially adapted for the Northern States; it is a perennial clover and lives longer than Medium Red; it is also more hardy, in fact, it is the hardest of all clovers; it does not heave out of the ground in Winter and the severest cold does not injure it and it resists the extremes of drought and wet. It is the only clover that will thrive on moist soil, but it will also grow fairly well on stiff clays. It is mostly grown in bottom lands and quite often mixed with Timothy; these varieties seem to be well adapted for this soil and ripen at the same time.

Alsike is a hybrid of the Red and White Clover. It grows 2 to 3 feet high. The stems are thinner than those of Red Clover, but the leaves are more numerous, making a hay of finest texture, which is eaten with less waste by stock; the feeding value of the hay equals that of Alfalfa. The yield of Alsike hay is fully as large as that of Medium Red Clover.

For hay cut when in full bloom, it can be cured easier than other cover, the stems being less coarse.

For seed, cut when 2/3 of the heads are ripe; an average crop is about 4 bushels of seed per acre.

For pasture Alsike is preferred to Medium Red, it being more permanent.

Alsike is one of the best honey producing plants that can be grown.

Sow at the rate of 5 to 7 pounds per acre in Fall or Spring. It may be sown alone, but does well if sown under cover of grains. The seed of Alsike being smaller, it takes less seed to sow an acre than of Red Clover.

Price, postpaid, Buckbee's Alsike, "Full of Life," pkt. 10c; lb. 40c; 3 lbs. \$1.00.

Alsike and Timothy Mixed

The Timothy protects the clover in Winter saving it from being damaged by frost, and the Alsike supplies the nitrogen to the soil, improving and keeping it in the proper condition for the best growth of the Timothy. This mixture has given enormous yields on many different kinds of soil and has given better satisfaction than any other grass-mixture ever offered; it is of the highest feeding value for stock of all kinds.

Our mixture contains about 1/3 Alsike, the other part is pure Timothy. Sow at the rate of 19 to 12 lbs. of seed per acre.

It can be sown alone or with small grain in the Spring or Fall.

Price, postpaid, pkt. 10c; lb. 30c; 3 lbs. 80c.

SHEET

Alsike Clover.

Where Alsike and Timothy are grown together and the seed saved, it is impossible in cleaning to make a complete separation of the two. We are purchasing this mixture for less money than we could the separated seed and can, therefore, sell it for less. Those desiring to sow Alsike and Timothy together, therefore, can save money by buying the seed in mixture as originally harvested. This, we believe, is the cheapest Clover and Grass Seed Mixture you can buy.

Alsike and Timothy make an excellent combination for hay and pasture; they are adapted for the same kinds of soil and mature together; they do well on most any land where other grasses and clovers grow, but give the best results on moist lands and on such soil give bigger crops than could be obtained with any other clovers or grasses. Both varieties are perennials, are very hardy, do not winter kill and when once established they will live for years; they seem to be beneficial to each other.

Medium Red or June Clover

This is the most valuable and most universally grown clover throughout the country. It is sometimes called June Clover. It is a dependable variety for pasture and meadow. It lives 2 years, grows 2 to 4 feet high, makes 2 crops each year. The first one is generally cut when in blossom for hay; the last crop may be harvested for seed, cut for hay, or plowed under, to add fertility to the soil.

Medium Red Clover furnishes a splendid pasture; all animals thrive on it, especially cattle, sheep and pigs.

For mowing crop it is much used, furnishing succulent food all season.

It yields about 3 tons of well cured hay per acre.

This clover, whether used as hay or green fodder, is very nutritious and always greedily eaten by all farm stock; less grain is required where clover is fed to keep stock in the condition.

Clover adds to the fertility of the land on which it is grown. Like all leguminous plants, the clovers have small bacteria on their roots which draw nitrogen, the most expensive fertilizer from the air, store it in the soil, where it can be drawn upon by subsequent crops and it has been demonstrated time after time that crops following a crop of clover are larger and of better quality than when grown on land not improved by clover. The larger the plants are when plowed under, the more the soil will be enriched; it is estimated that a full crop of Medium Red Clover turned under adds \$13.00 worth of nitrogen alone to the soil per acre. It would pay, therefore, to grow clover if for no other use than green fertilizer; and it would save the cost of fertilizers and the expenses of using farm manure.

Medium Red Clover does well on a great variety of soils and it thrives most luxuriantly on strong, well-drained loams.

It may be sown in the Spring or Fall, and if sown alone, 8 to 12 lbs. are used per acre, according to the quality of the seed and the condition of soil.

Buckbee's Northern-grown Clover Seed has become widely known for its purity, strong vitality, hardness, vigorous and healthy growth and tooling qualities, so that we now receive many orders from the most distant parts of the United States. Well-posted farmers are beginning to appreciate the difference between it and ordinary grades. It pays to have the best.

Buckbee's "FULL OF LIFE" Medium Red Clover—the plumpest, purest, least seed of the highest vitality.

Price, postpaid, pkt. 10c; lb. 40c; 3 lbs. \$1.00.

Medium Red Clover.

Mammoth or Sapling Clover.

Mammoth Red or Sapling Clover

Mammoth Red Clover is quite distinct from Medium, being larger, of coarser and more robust growth, and two to three weeks later. It is also more hardy, stands frost better and is more permanent, but makes only one crop, and pasture after that. On rich, loamy soils it attains an immense growth, yielding much more bulk than Medium Clover. It grows well on land too poor and on soil too low for Medium Red, and is therefore largely used to restore fertility to wornout soil. Mammoth Red Clover should be in every permanent pasture, as it retains its greenness throughout the summer and furnishes a larger amount of forage than Medium Clover; it is especially used for permanent hog pastures. As a fertilizer for green manuring it also surpasses Medium Clover growing more rank and making more bulk to plow under. Sow 8 to 12 pounds of seed per acre.

Buckbee's "Full of Life" Mammoth Clover, price, postpaid, pkt. 10c; lb. 40c; 3 lbs. for \$1.00.

Crimson Clover (Giant Incarnate)

Valuable for Pasture, Green Forage, Hay and especially valuable for Quickly Restoring Wornout Soils.

Crimson Clover forms upright branching plants, 2 to 3 feet high. It roots very deeply and is a bountiful provider of nitrogen. It grows most luxuriantly on fertile loam, yet it will thrive better on thinner and poorer soil than Medium Clover. It is more efficient for green manuring than the latter. A plowed under crop of Crimson Clover is equivalent to 20 tons of stable manure per acre. It is the cheapest source of nitrogen, has revolutionized the methods of farming in many states and has restored to profitable cultivation thousands of acres of poor land.

It is an annual Clover, but where the climate is warm like in the Atlantic and Southern States, it can be planted in the Fall and lives over Winter, however, in the Northern States it would winter kill, and here it should be planted only in Spring.

It is one of the best clovers for use in the silo, yielding up to 20 tons of green forage per acre. For selling and for pasture it is frequently sown with Rape or Winter Rye. It is often sown in Corn, Sorghum and many other crops after the last cultivation, and when these crops are removed the clover will come on and occupy the land. Sow at the rate of 10 to 12 pounds per acre.

Price, postpaid, pkt. 10c; lb. 35c; 3 lbs. for \$1.00.

GIANT INCARNATE

Sainfoin or Esparsette Clover

A perennial Clover with showy, red flowers, growing over 3 feet high, producing two or more large cuttings annually.

It is especially valuable for growing on poor land and barren hillsides, but produces on good land enormous quantities of splendid nutritious food which is greedily eaten by all stock. It is quite free from the danger to bloat cattle and sheep, and for this reason it ought to be preferred to Alfalfa where a pasture for sheep and cattle is wanted. If wanted for hay, cut just before the flowering period. Sow largely in the West for sheep raising. Sow 20 to 40 pounds per acre in Spring, with or without nurse crop.

Postpaid, pkt. 10c; lb. 35c; 3 lbs. for \$1.00.

Yellow Trefoil Clover

Allied to common Red Clover. Used for sheep pasture and for plowing under green. Valuable for dry, sandy or poor soil. Sow 12 to 14 pounds per acre. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 80c.

→ ESPARSETTE ←

White Clover.

White Bokhara, Sweet or Bee Clover (Melilotus Alba)

A Money-Making Crop for All Sections of the Country. Valuable for soilage, pasture, hay, as a honey plant, and especially as a fertilizer.

Of the different Varieties of Sweet Clover the white flowering is the most important one and the one mostly grown.

It is biennial; if not allowed to reseed, it will die out the second year. Grows 6 to 9 feet high. The flowers are white, give a strong smell of honey and appear only the second year from sowing.

Sweet Clover can be grown successfully in all parts of our country and on most types of soil except very sour ones. It will endure more drought, frost, wet soil, than Alfalfa or any other clover.

It requires a thoroughly compact seed bed; we recommend disked stubble ground for it with a mellow surface an inch deep; cover the seed not more than ¼ inch. It is sown in Spring or Fall alone or with a nurse crop, using 15 pounds of hulled seed per acre. To succeed with Sweet Clover the ground must contain time and must be inoculated; the bacteria being the same for Alfalfa and Sweet Clover, old soil of one will inoculate the field of the other variety. We can furnish Alfalfa soil, see page 103, and also Edwards Legume Bacteria for the inoculation of Sweet Clover, see page 15.

There is no other variety which furnishes as much pasture; when 5 or 6 inches tall the cattle could be turned on it; it affords green food from early Spring until late Fall, always throwing out fresh growth as fast as eaten off; it should not be allowed to grow tall, as it will then get hard and woody. It has been used especially successfully in pasturing sheep and hogs.

Sweet clover yields one good crop of hay the first year and two the second year. It should be cut for hay before it comes into full bloom, or a foot high, otherwise the plants may be killed. The hay is cured the same as clover.

Stock not accustomed to Sweet Clover do not eat it readily at first, but soon acquire a taste for it and prefer it then to all other pastures. It gives the milk and butter a delicious flavor and in feeding value it is about equal to Alfalfa. Cattle and sheep may fill up on it to the highest pitch but will never bloom.

For Seed, Sweet Clover should be cut when about ¾ of the pods have turned brown; an ordinary clover huller will thresh the seed clean. It yields from 10 to 20 bushels per acre. As a honey plant White Sweet Clover is most valuable. It blooms from July till frost and yields a big crop of honey of excellent quality.

Sweet Clover is the greatest of all fertilizer plants which we have; when a full crop of it is plowed under it will add four times as much nitrogen to the soil as clover.

Buckbee's "Full of Life" hulled seed, postpaid, pkt. 10c; lb. 40c; 3 lbs. \$1.10.

Yellow Sweet Clover (Melilotus officinalis)

This is a biennial variety like the white; it does not grow quite so tall only about 4 to 5 feet high, the stalks and branches are, however, more slender, making fine hay. It blooms a month earlier than the white and is often used to supplement this for bee pasturage. Hulled seed, postpaid, pkt. 10c; lb. 35c; 3 lbs. \$1.00.

White Clover (For Lawns)

A low growing clover, spread rapidly and is very hardy; valuable for permanent pastures, being sweet and nutritious. For lawns it is also much used. Round, white, fragrant heads, which make excellent pasture for bees. It grows on most any kind of soil, but succeeds best on moist ones. Postpaid, pkt. 10c; lb. 70c; 3 for \$2.00.

Burr Clover

An annual Clover for the South can be sown in Spring and Fall.

Valuable winter grazing crop for the South, growing luxuriantly all through the Winter. After one being seeded, it reseed itself and improves in growth each succeeding year. It is admirably adapted to growing with Bermuda Grass; the combination of the two makes splendid all-the-year-round pasture age. Sow 20 pounds per acre.

Price, postpaid, pkt. 10c; lb. 35c; 3 lbs. \$1.00.

Buckbee's Hardy American Alfalfa

There is no State in the Union Where It Cannot Be Successfully Grown.

Alfalfa ranks higher than Timothy hay in feeding value. Experiment stations place the feeding value of Alfalfa hay at twenty dollars per ton against Timothy hay at twelve dollars per ton. Cut and cured for hay it is the greatest money-maker known, averaging over forty dollars per acre clear profit.

Comparative Value—The Wisconsin experiment station says that one acre of Alfalfa yields as much protein (the milk and meat producer) as three acres of common clover or nine of Timothy or twelve of Bromegrass.

As a Meat Producer—Feeders in the west claim to be able to put fat cattle on the market 20 to 30 per cent cheaper with Alfalfa as bal ance of feed than on corn alone.

The Dairyman's Stand-by—The Kansas Agricultural station reports a case where a dairyman maintained ten milk cows for a whole summer without any grain, on two acres of Alfalfa, cut and fed to them fresh three times a day.

The U. S. Dept. of Agriculture says: "In addition to the hay crop, Alfalfa at two years adds \$100 to the value of every acre on which it grows."

Alfalfa produces from 3 to 7 tons of hay to the acre.

It has as much protein as Wheat bran. Over 500 stalks have been grown from one seed.

It does not exhaust the soil; it enriches the soil.

It can be ground into meal to feed hogs and chickens.

It will grow 3 to 5 crops a year.

One acre will pasture 20 hogs for 6 months.

Four to five pounds per day make full feed for fattening aged sheep.

Thirty-five pounds per day make full feed for fattening steers.

A lamb will winter and thrive on 3 pounds a day.

Shorn fed on Alfalfa will gain from 8 to 12 pounds in 75 days and will double with small grain ration added.

Lambs, wintered on Alfalfa will produce 1 to 2 tons more of wool than when on the ranch.

Alfalfa is a fine poultry feed when cut fine and this is also a good way to feed it to hogs in winter.

"Its long branching roots penetrate far down, push and crowd the earth this way and that, and thus constitute a gigantic subsoiler. These become an immense magazine of fertility. As soon as cut, they begin to decay and liberate the vast reservoir of fertilizing matter below the plow, to be drawn upon by other crops for years to come."

Many interesting facts in addition might be cited about Alfalfa. It would hardly be possible to say too much about it. It is a working plant which is changing the destiny of many farming sections.

Buckbee's Montana Alfalfa.

CULTURE OF ALFALFA

Soil—The soil must be well drained. Alfalfa does not thrive where water is within 6 feet of the surface. Land that has been planted to a cultivated crop like corn, and is now growing in it is the best; the soil should be fertile. After plowing the land should be rolled and then disked and harrowed repeatedly to kill the weeds.

Water—Where water is not present in the soil it must be supplied or the plants will fall. Lime is best supplied in the form of ground limestone at the rate of about 2 tons per acre.

Inoculation—Seed is the best source of inoculation. See below. We can also furnish Edwards' Legume Bacteria inoculation for Alfalfa. See page 85.

Sowing the Seed—Seedling can be done in spring or fall. In the northern states sowing must be done before August 15th. Use 10 to 15 lbs. of seed on a well prepared seed bed in the Northern, Western and Central States and 20 to 25 lbs. in the Eastern and Southern States. When the seed is sown early in spring a nurse crop may be used to check the weeds, and we recommend for that purpose Barley at the rate of a bushel per acre or about 2 to 3 pecks of Winter Rye. The rye will die when about a foot high forming a mulch for the Alfalfa.

Cutting for Hay—Alfalfa should be cut when about one-third in bloom but never later than September 1st.

Cutting for Seed—Cut when the pods are dark brown; the seed is usually taken from the second crop, which is larger and ripens more uniformly than the first.

INOCULATED ALFALFA SOIL

The best and surest way to inoculate a field with Alfalfa bacteria is by applying one of an old Alfalfa or sub-clover field at the rate of 100 lbs. per acre; scatter the seed in the afternoon and harrow it in immediately; do not allow the soil to strike it.

We can furnish Alfalfa soil free of weeds at the following prices: By express or freight at buyer's expense. 100 lbs. sack, \$1.00; 500 lbs. \$3.50; 1,000 lbs. for \$5.00, sacks included.

MONTANA DRY LAND ALFALFA

Dry Land Alfalfa is the name given to ordinary Alfalfa produced in the semi-arid section without irrigation. This is superior to ordinary Alfalfa and is of great value and over the field in the afternoon and harrow it in immediately; do not allow the soil to strike it.

Unirrigated lands in the north develop a different type of Alfalfa than irrigated soil. The plants produce less foliage and more seed and also contain considerably more protein than those raised under irrigation, just as it is with wheat. The crop of an acre of Dry Land Alfalfa is just as valuable as a bigger crop of alfalfa grown under irrigation. Price, postpaid, pkt. 10c; lb. 50c; 15 lbs. \$1.40.

BUCKBEE'S DAKOTA ALFALFA

For many years different kinds of Alfalfa have been grown in South Dakota such as Turkestan, Grimm and other very hardy strains besides the ordinary Alfalfa from Utah and Kansas, and in course of time the different strains have crossed producing hybrid-alfalfas with variegated flowers, mostly purple, interspersed with light blue, white and yellow blossoms. Buckbee's Dakota Alfalfa is one of the oldest and most productive strains grown in South Dakota and our seed has been taken from fields more than ten years old, and is of the highest purity and vitality, entirely free of harmful weeds. The climate in the locality where our seed was grown is very severe; it is exceedingly hot and dry in summer and frequently 30 to 40 degrees below zero in winter with often little or no protection of snow; we can therefore recommend our Dakota Alfalfa as a very hardy and safe strain for planting in the Northern States and it will also give the best results in any other states.

Buckbee's "Full of Life" Dakota Alfalfa. Price, postpaid, pkt. 10c; lb. 35c; 3 lbs. \$1.00.

BUCKBEE'S MONTANA ALFALFA

Our Montana Alfalfa seed is a very fine large grain of bright golden yellow color and is of very high vitality and purity. This seed is grown in northern Montana and is grown the farthest north of any Alfalfa and consequently is, outside the Grimm, the hardest seed obtainable; this seed comes from a long established field and is certainly an everlasting strain. All experiment stations in the northern states recommend the Montana grown Alfalfa as the most suitable for their states; experiments in recent years having demonstrated its superior hardiness.

Buckbee's "Full of Life" Montana Alfalfa. Price, postpaid, pkt. 10c; lb. 40c; 3 lbs. \$1.10.

BUCKBEE'S WESTERN ALFALFA

We handle only American grown Alfalfa seeds as the imported stock of Europe and Turkey does not give as good results in this country as home grown stock and besides is very high priced this season. American Alfalfa seed is always cleaner, purer and more productive.

Our western seed is grown in Kansas and Nebraska, the selected from the finest seed produced in those states and is very pure, clean stock, of the highest vitality. This seed is not as hardy as our Dakota or Montana Alfalfa, but is perfectly hardy in our state, Iowa and Southern Wisconsin, some of the oldest and finest meadows in those states having been sown with it.

Buckbee's Western Alfalfa "Full of Life." Price, pkt. 10c; lb. 35c; 3 lbs. \$1.00.

Pedigreed Grimm Alfalfa Seed (Montana Grown on Dry Land.)

No other Alfalfa has a record of hardiness, drought-resisting quality and productiveness like Grimm. It is without doubt the most hardy and productive strain of Alfalfa known today. For more than fifty years it has persisted to the exclusion of all other strains in Minnesota; it is successfully grown at Fairbanks and Rampart in Alaska, in a latitude of 65 degrees and 30 minutes North, that is, a thousand miles North of the United States-Canadian border. In the semi-arid region of the West where the annual rainfall is only 10 to 15 inches, it is giving splendid crops, and wherever grown it has outyielded all other strains of Alfalfa. The Grimm is thoroughly acclimated to the cool climate of the North; with this Variety the whole Northern country, Canada and Alaska included, up to the Arctic circle could be reclaimed.

But not only for the Northern States is the Grimm Alfalfa the best variety to grow, it is of equal importance for the humid sections of the Central and Eastern States, where Alfalfa rarely winter kills on account of extreme cold, but is killed by heaving of the soil, caused by alternate freezing and thawing. Alfalfa with one straight tap-root, such as is grown in the South and in Europe, cannot endure these conditions, as when its single root it broken, the plant must die, but Grimm Alfalfa has a branching root stock, a multitude of lateral roots in addition to the taproot; some of them may be broken by the heaving of the soil, but others will survive and keep the plant alive. Many of the failures in the East and Central States with Alfalfa were undoubtedly due to the use of imported or Southern seed, but now since we have a hardy variety with spreading roots, the growing of Alfalfa can be made a success most everywhere.

The branching root-stock, which is the most important distinguishing feature of Grimm from the ordinary Alfalfa, enables the plants also to live above hard-pan and poorly-drained soil where the common varieties would perish.

Another characteristic of the hardy Grimm Alfalfa is the sunken crown; the crown is 4 inches or more below the surface and the buds of the shoots are thereby protected by soil from winter freezing and are also less liable to injury from overpasturing or from attacks of grasshoppers; the crowns of the non-hardy varieties, however, are more upright standing and have the bud-area near the surface exposed to freezing, thawing and drying out.

Aside from the above characteristics Grimm Alfalfa generally has variegated flowers mostly blue shades, but occasionally yellow blossoms appear.

Our Grimm Alfalfa seed has been grown in Montana on dry land, we guarantee it to be genuine, straight stock, free from noxious weeds. It has a vitality of not less than 95 per cent and a purity of 99 per cent.

Sow two pounds of seed per acre when drilling in rows 14 to 32 inches apart. Use 5 pounds when sowing broadcast on well prepared fertile soil on which Alfalfa or Sweet Clover has grown before, otherwise use 10 to 15 pounds.

Price, pkts. 10c; \$1.00 per pound, postpaid; 50 lbs. for \$30.00 prepaid; 100 lbs. \$50.00, not prepaid.

Full directions for economical seeding with each order.

Pedigreed Grimm Alfalfa Plants

(A Gain of One Year is Made by Setting Out Alfalfa Plants.)

Setting Alfalfa Plants—A Sure Method of Growing Alfalfa. By setting plants a full stand is assured. A crop of hay it much more quickly available for the reason that the plants are soon well established, have more room in which to develop, and will in addition produce more hay; the plants grow quickly after being set out and secure a foothold in the soil which dry weather cannot overcome. Transplanting produces a branching root which derives nourishment through fine fibrous rootlets from near the surface of the soil. Hardy two-year-old plants will also withstand drought which would kill out delicate seedlings. By root planting Alfalfa Bacteria are easily and permanently established in the soil as these bacteria cling to the roots when planted, aid immediate growth and save the expense of applying inoculated soil, planting Sweet Clover or the use of Commercial Nitrogen Cultures.

How to Plant and Cultivate—To secure best results, set the plants in rows 3 to 2 feet apart and 18 inches apart in the row. The soil should previously be well prepared, plowed deep and made mellow by successive harrowings. The plants may be plowed in by setting against a furrow and plowing against them. The crown should be set from 2 to 3 inches beneath the surface, as the soil will settle. Unless they are set as indicated the crown will be exposed. On small areas the plants may be set by using a spade. Insert the spade in the earth, push it for-

ward and drop in the plant. When the spade is released the soil will settle around the root. Thinning is unnecessary, for the reason that the plants are properly spaced and each given the proper area in which to grow. By planting in rows the plants may be cultivated, thus keeping down the weeds, conserving moisture and largely increasing the yield of hay. When planted as suggested, about 5,000 to 15,000 plants are required to the acre. Cultivation should begin immediately after setting the plants so as to firm the soil and make the field level. The best time to set out Alfalfa Plants is as soon as the ground can be well prepared in early Spring.

We Ship Alfalfa Plants during the months of April, May and October, but would suggest that orders be sent in immediately upon receipt of this catalogue stating the date you would like them shipped so that we can make ample arrangements to take the best of care of your orders.

BUCKBEE'S "FULL OF LIFE" GRASS SEEDS

are of the HIGHEST GRADE obtainable, both as respects purity and high germination; they are pure and clean, free from noxious weeds and foreign seeds and are plump, heavy and well ripened, so as to insure a good stand and a big crop.

TIMOTHY

Timothy is the most popular and most important of all hay grasses and is adapted to a wider range of conditions than any other variety of grass. It is one of the most certain grasses to grow, and without doubt is the hardest of all our grasses; no other kind will stand the extremes of heat and cold better than this one; no other variety equals it in average yields, excels it in feeding value.

It luxuriates on clay and moist soil and is unsurpassed on peat, but is does not root as deeply and is not considered, therefore, as much an improver of soils as many other grasses; consequently it should not be sown on land deficient in humus nor on soils of light sandy nature. It flowers in July and should be cut when in full bloom, as if left until later the hay becomes hard and coarse. The hay is very nourishing and can be preserved for a long time; it is greedily eaten by all cattle and horses are especially fond of it. On average soils it is frequently sown along with Mammoth Clover, and on lower soils generally with Alsike; these two clovers mature with the Timothy. The practice of sowing the common Red Clover with Timothy is not advisable, as they do not ripen together and either one or the other must be cut at a stage which will not give the best results. For pasture Timothy cannot be well recommended. If sown alone its growth is not thrifty enough and close pasturing is very injurious to it. For pasturing, therefore, it should be sown along with other grasses and the varieties best suited to grow with Timothy both for pasture and meadow are Red Top and Meadow Fescue which are some of our most hardy, perennial varieties, and ripen all at the same time; we have also added Timothy to most of our Clover Grass mixtures wherever good results could be expected (see page 107). It attains the height of its productiveness already in the first year after being sown. It has proven itself well adapted to the Northwest and seldom fails to make a good stand on prairie soil when sown early in the season under suitable conditions.

Height, 2 to 3 feet; yield of hay on good ground, 3 tons per acre. If sown alone, use $\frac{1}{2}$ bushel per acre; to sow with clover, use 3 pounds Timothy and 3 pounds of Alsike, or 5 pounds of Mammoth Clover.

Buckbee's "FULL OF LIFE" brand will stand the test of all Pure Seed Laws and has a purity higher than 98 per cent and a vitality of more than 95 per cent. It is pure, bright seed, very little hulled. Our prices, postpaid: Pkt. 10c, lb. 25c; 3 lbs. 70c.

KENTUCKY BLUE GRASS

One of the most widely distributed and valuable native grasses. It is a true perennial, lasting indefinitely and improving every year. It forms a close turf, starts very early in Spring and lasts until frost. It succeeds in almost any soil, except very light, dry, sandy soils, and stands long, continuous dry weather. It remains small the first year, but becomes fully established the second year. It is especially valuable as a pasture grass, and is also one of the very best grasses for the lawn. It is a very productive and nutritious. Sow 20 to 25 pounds per acre.

Buckbee's "FULL OF LIFE" Kentucky Blue Grass, price, postpaid, pkt. 10c, lb. 30c; 3 lbs. 85c.

Timothy.

RED TOP OR HERD'S GRASS

A very hardy native grass and probably the most perennial variety we have. Red Top accommodates itself to a variety of soils, even to quite dry situations, but succeeds best on moist land, here it attains a height of 2 to 2½ feet. After being once established, it thickens and improves year by year, taking possession of the land, gradually supplanting other grasses, but it is easily eradicated in case it is desired to put the land in cultivated crops. It is especially valuable for a permanent pasture where the grazing is continuous; it does better on undrained, moist soils, which are occasionally overwatered, than any other grass. It is of slender growth, fine foliage and throws out slender, spreading heads; it is very nutritious and much relished by all farm stock. Sow 10 pounds per acre.

Buckbee's "FULL OF LIFE" Red Top, price, postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

Red Top Grass.

QUALITY
NOTHING BUT
QUALITY

CANADA BLUE GRASS

A very hardy perennial grass, with creeping root-stocks. It grows on the poorest and driest soils, sandy, gravelly or clayey, standing extremes of wetness or drought, and keeping green until the severe frosts of winter. It is especially valuable for dairy pastures, cows feeding on it yielding the richest milk and finest butter. It is distinguished from the Kentucky Blue Grass by its flattened, wavy stems and by its decidedly bluer color. Sow 20 to 25 pounds per acre.

Prices, postpaid, pkt. 10c; lb. 25c; 3 lbs. 60c.

ORCHARD GRASS

A valuable grass for pasture or hay land, and on account of its earliness especially valuable for a permanent pasture. It furnishes green grass very early in the Spring and until late in the Fall; when closely cropped it grows up very quickly and is ready for grazing again in ten to twelve days. It is succulent and nutritious. Crumbling root-stocks for pasture or hay. When grown for hay, two good crops can be obtained in one season. The roots extending to a great depth, it will stand drought better than most other grasses; it is very hardy. It grows in tufts, and is, therefore, best sown with other grasses. It is well suited for shady places, such as orchards and groves. Grows on all kinds of land, but does best on deep, rich, sandy loam or clay soils. Height, 3 feet; it flowers in June three weeks earlier than Timothy and about the same time as Red Clover and Tall Meadow Oat Grass; sow 25 pounds per acre.

Buckbee's "FULL OF LIFE" Orchard Grass, price, postpaid, pkt. 10c; lb. 35c; 3 lbs. \$1.00.

SHEET

Bromus Inermis.

English or Perennial Rye Grass

This grass is considered invaluable for permanent pastures. It produces an abundance of remarkably fine foliage, tillers out close to the ground and soon forms a compact sward. After being cut it grows up in a very short time and remains bright and green throughout the season; it is consequently is well adapted for lawn mixtures. It is also a good variety for hay if cut when in blossom, as it is then most nutritious; if cut much later it becomes woody and makes itself to a great diversity of soils, but flourishes best on rich soils in moist situations.

It will last 3 to 4 years. Sow 25 to 30 pounds per acre. Buckbee's "FULL OF LIFE" English Rye, price, postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

English Rye Grass.

Italian Rye Grass.

QUALITY
NOTHING BUT
QUALITY

Meadow Fescue or English Blue Grass

One of the most valuable grasses for all parts of the country. Drought and frost resistant. Furnishing an abundance of pasturage from early Spring till late Fall.

Meadow Fescue is well suited to a wide range of soils, does well on loamy clay, and gravelly soils and thrives on heavy black loam, strong and low lying soils, but it is not adapted to light sandy soils.

Of all grasses, Meadow Fescue is the surest crop. It comes up quickly and in three or four weeks after sowing it will be about four inches high and cover the ground perfectly.

It lives longer than most other kinds of grasses, and although it produces the first year a good crop of hay or pasture, it does not reach the highest stage of growth until 2 and 3 years, and for this reason it is best adapted for permanent pastures and meadows. It would not be advisable to sow the seed for a shorter period than 3 or 4 years. As a pasture grass it is particularly valuable, as it is the most persistent grower and is one of the very earliest in the Spring and the latest in Fall. When 2 or 3 years old it exceeds most other grasses in the quantity of its produce and nutritive matter, producing 4 to 5 tons of hay per acre. It is always tender and succulent and the forage, either green or dried, is very nourishing and much relished by cattle. Horses also eat it greedily. Meadow Fescue is also very highly esteemed as a soil renovator and its effect on corn seems to be almost equal to that of clover. It does splendidly if sown together with Alfalfa; it does not run out the Alfalfa like other grasses do and there is very little trouble to be experienced from bloating, when a pasture has only about 50 per cent of Alfalfa.

Meadow Fescue matures at the same time as Timothy and Red Top and Alsike Clover and for meadows these varieties are often grown together.

It grows 2½ to 3 feet high. It flowers in June and July.

Sow 10 to 15 pounds per acre broadcast without nurse crop.

Buckbee's "FULL OF LIFE" Meadow Fescue, price, postpaid, pkt. 10c; lb. 27c; 3 lbs. 80c.

Bromus Inermis

A great and wonderful grass that has proven a great boon for the dry, arid districts of the West, North and South. It does not need irrigation and supplies the feed for many of the large stock ranches of the plains. Bromus adapts itself to nearly all conditions of soil and climate equaling in quality and rivaling in yield almost any other grass. It is a good grass for all States of the Union does well on poor and on rich soil, has proven one of the best grasses for low wet and mucky soils, and gave good returns on poor, sandy soil where Timothy was an entire failure. Bromus is one of our hardest perennial grasses, no amount of cold will kill it; it withstands the severest drought and water may stand on it for weeks without injury to it. It is one of the deepest rooted of the cultivated grasses and greatly improves the physical conditions of the soil it grows on. It is as a pasture grass that it is of the greatest value; it starts from 2 to 3 weeks earlier in Spring than the native prairie grass and keeps green in Fall longer than any other grasses grown here; it does not become woody at any time, but always remains succulent and is always greedily eaten by all farm stock. Bromus spreads rapidly by underground root stock and a thin stand thickens up quickly. It forms a dense sod six to eight inches thick, thus binding the soil together and preventing it from being wind blown and at the same time completely eradicating all noxious weeds, such as thistles, miterards, etc., within a few years.

Bromus Inermis obtains a height of from 4 to 5 feet, producing an abundance of leaves and rich or good soil about 4 tons of cured hay per acre, which has about the same feeding value as Timothy; all farm animals are fond of it, and cattle and sheep like it the best of any grass. Sow in Spring or Fall at the rate of 15 to 20 pounds per acre, if sown alone; if sown with alfalfa for pasture, sow 10 pounds each per acre.

Buckbee's "Full of Life" Bromus Inermis is pedigreed seed of the highest vitality and free of all dangerous weeds, especially of quack grass, which is contained in most lots handled by others.

Price, postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

Tall Meadow Oat Grass

A hardy grass of rapid growth, luxuriant, and reaching a height of 4½ feet on rich soil by June 15th. Makes excellent hay on sandy loams, but is particularly suited to rich soils and clay formations. It has a wonderful capacity for enduring severe heat, drought and cold. It can be cut usually twice a year; in the South it does much better than Timothy. To make good hay it should be cut immediately when it blooms. It frequently produces twice as much hay as Timothy. It possesses the advantage of early, quick and late growth, tillers well and is admirably suited to a pasture grass; when kept in a close state of feeding it has been found most beneficial. It is often sown together with Orchard Grass and with Red Top and Clover, which 3 varieties ripen at the same time.

Buckbee's "FULL OF LIFE" Tall Meadow Oat, price, postpaid, pkt. 10c; lb. 40c; 3 lbs. \$1.10.

May be sown either in the Spring or Fall at the rate of 25 to 35 lbs. per acre.

Tall Meadow Oat Grass.

Italian Rye Grass

Like the Perennial Rye Grass, it is a remarkably rapid grower, and has, in addition, the advantage of standing extremes of temperature, remaining green until late in fall and retaining its freshness to the hottest summer months and during prolonged drought. When sown very thick or in mixture with other sorts it makes a good, dense turf, and it is used with much satisfaction on lawns. On rich, moist soils, it is exceedingly productive of hay and may be cut in four or five weeks after sowing, and every six weeks after that until frost. For permanent pastures it is a good variety. It is a most valuable grass. It is not perennial but on good soils it lasts 2 to 3 years. Sow at the rate of 25 to 30 pounds per acre.

Buckbee's "FULL OF LIFE" Italian Rye, price, postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

Meadow Fescue.

CREeping BENT GRASS (Agrostis Stolonifera)

Resembles Redtop. The distinctive feature of this species is, as the name implies, its compact, creeping, rooting stems. It is of rapid growth and spreading habit, and the spreading roots form a strong, enduring turf that is positively improved by constant trampling. Being of fine texture, it is most valuable for lawns. Sow 40 pounds per acre. Price, postpaid, pkt. 10c; lb. 60c; 3 lbs. \$1.70.

CRESTED DOG'S TAIL (Cynosurus Cristatus)

A fine, short grass, forming a smooth, compact and lasting turf, therefore very valuable in mixtures for lawns. It thrives best on rich, moist soil, but accommodates itself to almost any soil. It roots deeply enabling it to stand severe droughts. It thrives well in the shade. The color is the same as that of the Kentucky Blue Grass, and it is, therefore, excellent in mixture with that sort. Makes good bottom grass and should be in all pasture mixtures. Sow 30 pounds to the acre. Price, postpaid, pkt. 10c; lb. 60c; 3 lbs. \$1.15.

HARD FESCUE (Festuca Duriuscula)

A dwarfier variety than Sheep's Fescue. It is emphatically a grass for dry lands, doing well on sandy and shallow silicious soils. It is exceedingly hardy and withstands extremes of heat and cold, and also long periods of drought. For permanent pastures on poor lands it is especially valuable but it may also be used in meadow mixtures for well-manured, clayey lands, on which it yields good crops of excellent hay. Sow 30 pounds to the acre. Price, postpaid, pkt. 10c; lb. 35c; 3 lbs. \$1.00.

Meadow Foxtail,

MEADOW FOXTAIL (Alopecurus Pratensis)

Resembles Timothy, but is 3 to 4 weeks earlier. One of the best permanent pasture grasses for rich, moist soil, but it accepts also of poorer soils in some situations. Best sown in connection with other grasses. If sown alone, 15 pounds are used per acre. Height, 3 to 3 feet. Postpaid, pkt. 10c; lb. 50c; 3 lbs. \$1.35.

RED TOP CREEPING FESCUE (Festuca Rubra)

A creeping-rooted species, forming a close and lasting turf, and especially adapted for dry, sandy soils. It resists extreme drought, and thrives on very inferior soils, gravelly banks and exposed hillsides. It is also valuable for shady places in lawns, as well as for golf courses and for binding shifting sands on the seashore. Sow 30 pounds to the acre. Price, postpaid, pkt. 10c; lb. 40c; 3 lbs. \$1.15.

SWEET VERNAL (Anthoxanthum Puelii)

Its chief merit is the fragrant odor which it imparts to the hay, making it relished by the stock and advancing its value. An annual. Sow 25 pounds per acre. If sown alone, Price, postpaid, pkt. 10c; lb. 35c; 3 lbs. \$1.00.

BERMUDA GRASS (Cynodon dactylon)

A most valuable grass for our Southern States, both for pasture and lawns. It is of dwarf habit, with long, creeping stems rooting at the joints and covering the ground with a matting of fine turf, which no amount of trampling can destroy. It is also useful for binding drifting sand and for steep embankments subject to wash. It requires heat and moisture to start it. As it cannot endure frost, it is of no value North of Virginia. It thrives in the poorest and sandiest soil, and resists extreme drought and intense tropical heat. It should be sown at the rate of 6 pounds to the acre. Postpaid, pkt. 10c; lb. 60c; 3 lbs. \$1.75.

GRASS AND CLOVER SEED MIXTURES. (Sow One to Two Bushels per Acre.)

All authorities agree that for PASTURE and HAY best results are obtained from the use of grass seed IN MIXTURE. The reasons are obvious: First—A NUMBER OF SPECIES will insure a much DENSER GROWTH than the same number of seeds of one or two species, and prove less exhausting to the soil, since they live to a great extent on different constituents. Second—Seasons that affect some grasses adversely are FAVORABLE to other sorts. So that with mixtures failure is PRACTICALLY IMPOSSIBLE. The seed used in these mixtures is of the finest quality obtainable.

BUCKBEE'S RELIABLE "Full of Life" BLENDS—FOR MEADOWS AND PERMANENT PASTURES. The prices quoted on mixtures below are by Express or Freight at purchaser's expense.

MEADOW MIXTURE No. 1. For Rich, Dry Soils.

Tall Meadow Oat Timothy Bromus
English Rye Orchard Grass Alsike Clover
Meadow Foxtail Red Clover English Blue
Red Top
Bu. (14 lbs.) \$1.89

MEADOW MIXTURE No. 2. For Rich, Moist Soils.

Meadow Foxtail Timothy Red Top
Tall Meadow Oat Bromus Inermis Alsike
Meadow Fescue Timothy
Bu. (14 lbs.) \$1.98.

MEADOW MIXTURE No. 3. For Wet Soils.

Timothy Red Top Tall Fescue
Meadow Foxtail Alsike Clover Meadow Fescue
Bu. (14 lbs.) \$1.97

PASTURE MIXTURE No. 1. For Rich, Dry Soils.

Meadow Oat Timothy Red Top
English Rye Red Fescue Bromus Inermis
Meadow Fescue White Clover Sheep's Fescue
Mammoth Clover Timothy Alsike
Bu. (14 lbs.) \$1.92

PASTURE MIXTURE No. 5. For Rich, Moist Soils.

SEE
PAGE 110

BUCKBEE'S SPECIAL HOG PASTURE MIXTURE No. 8

Especially prepared for quick results and full crop. This mixture is composed of the following ANNUAL VARIETIES: FIELD PEAS, SOJA BEANS, VETCHES, COWPEAS, CRIMSON CLOVER, RAPE, SUGAR CANE, JAPANESE MILLET, TURNIPS, RUTABAGAS, SPELTZ, RYE and other grains and forage plants all in the right proportion.

This mixture will provide an abundant pasture within six weeks from day of sowing the seed, continuing green and plentiful until destroyed by frost; almost all of these varieties will come up again as fast as they are eaten down and will furnish 4 to 5 times as much forage as can be obtained from any clover-grass mixture, and this food is so succulent and nutritious and much relished by hogs; it will keep them healthy and strong and they will gain in weight easily and quickly. This mixture will prove a most profitable investment for every farmer not only for feeding hogs, but also all other farm stock. It is usually sown in Spring but can also be sown as a catch crop any time during the season until August.

Use 100 pounds for 3 acres. Price, 10 lbs. 85c; 25 lbs. \$1.50; 50 lbs. \$2.75; 100 lbs. \$5.00; by express or freight not prepaid.

SUDAN GRASS

The Sudan Grass has created quite a sensation wherever it has been grown. It was introduced by the United States Department of Agriculture and is the most important forage plant ever introduced by this Department. It has now been thoroughly tested, has given most satisfactory results in most states of the Union, and is destined to become one of the standard summer grass and forage crops.

Sudan Grass belongs to the Sorghum family and in general appearance is very much like Johnson Grass, but differs from it, in that it is entirely free from the persistent underground root system, which makes a Johnson Grass sod so difficult to eradicate. Sudan Grass being an annual and having fibrous roots similar to Millet or Oats, is as easily controlled and eradicated at the close of the growing season as those varieties, and will never become a weed.

It is a tall growing annual grass which when planted in rows and cultivated on fairly rich soil attains a height of 8 to 10 feet, and sown broadcast or drilled in thickly it will grow 3 to 5 feet high. The stems are erect, unbranched and very fine, the largest stalks not more than 1/4-inch thick and are covered with abundance of broad linear leaves. Where the plants are scattered, they stool abundantly, as many as 100 stalks coming from a single root.

Sudan Grass is not particular about the soil. It does best on rich clay loam, but on sandy and poor soils the yields are not so very large. This grass will be of the greatest value to the Central States, and especially to parts of Texas, Kansas, Oklahoma and Colorado, which are deficient in rainfall. These dry regions have no other satisfactory hay crop, and Sudan Grass will therefore be of immense value there. It is fully as drought-resisting as any other Sorghum plant, and can be relied upon to produce a crop of hay with very little rainfall. It requires but a short growing season, is ready to be cut for hay in about 70 to 75 days, and matures seed in 100 days from planting. This short growing season makes it of the greatest value as a catch crop for almost every state in the Union, and in course of time it will no doubt largely supersede the Millets which are now mostly grown as catch crops, as Sudan Grass furnishes two cuts to their one and forage of a much higher feeding value.

Prof. A. C. Army of the Minnesota Experiment Station writes: "We have experimented with Sudan Grass quite extensively for the past two years. As far as I can see at the present time it looks as though Sudan Grass could well take the place of Millet or any other annual hay crop. If sown about May first at the rate of 35 to 40 pounds per acre, it may be cut sometime in July just before heading out. This gives time for a second growth to reach the stage where it can be used for pasture or

hay. As it produces two crops per year from a single seeding, it looks to me as though it should be preferable to Millet."

Sudan Grass will stand light frosts, but like all other Sorghums it has a preference for a warm growing season and for best results should not be planted until the soil has become warm in spring. It can be sown at any time in summer 70 to 75 days ahead of the frost. It is sown in rows from 18 to 24 inches apart and cultivated; sown this way it takes 3 pounds per acre; on good soil where there is plenty of moisture it is also sown broadcast or drilled in, and then 10 to 15 pounds of seed are required per acre.

Sudan Grass is easy to cut with a mower and cures readily. When wanted for seed it is cut when fully headed out; an early cutting is especially advisable when more cuttings per season are expected. After cutting it resumes its growth promptly and in about 40 to 45 days another cutting is ready. In Texas it has been cut four times, but farther North only two or three cuttings may be expected.

Sudan makes a very nutritious and palatable hay which is relished by cattle, horses and other farm stock. In feeding value the hay is second only to Alfalfa and far better than Millet.

The yields vary a great deal, but from 5 to 8 tons of cured hay have been harvested per acre on dry land and a good deal more under irrigation. The yield of seed is on dry land from 500 to 1,000 pounds, but on irrigated land as much as 2,550 pounds have been grown per acre.

Sudan Grass is recommended in the highest terms by the best agricultural writers; every farmer who has grown it claims that it will grow a larger tonnage of hay per acre than any other grass; that it is palatable, nutritious and preferred by all stock to Alfalfa.

Buckbee's "Full of Life" Northern Grown Sudan Grass, price, postpaid: Pkt., 10c; lb., 50c; 3 lbs., \$1.45.

Sudan Grass crosses quite easily with other cultivated Sorghums and Johnson Grass; we therefore had our seed grown in the North, where no Johnson Grass is grown, and our fields have been kept far apart from any other Sorghums. Buckbee's "Full of Life" Sudan Grass seed is the finest and purest in the market.

Cutting Sudan Grass.

Sudan Grass 9 Feet High.

TEOSINTE

Here is a truly wonderful forage plant worthy of general cultivation. Give it a rich, warm, balmy soil and it will yield from 20 to 30 tons of green fodder per acre. It is simply marvelous. Down in Georgia, in Florida and Louisiana its yield is all the way from 25 to 50 tons of green fodder per acre. It grows to a height of 18 feet in those states, while a single kernel will pro-

duce from 60 to 100 stalks of the most nourishing green fodder imaginable. On our Rockford Seed Farms, where the soil is sandy and warm, it always yields a much greater amount of green feed than corn, cane or any other forage plant, and when the season was favorable we cut two crops. About two pounds of seed are required per acre. PRICE OF SEED, postpaid, oz. 15c; 1/4 lb. 40c; lb. \$1.25.

MILLET

BUCKBEE'S CALIFORNIA BEAUTY MILLET

The Best Hog and Stock Millet

The most remarkable leafy, bushy, vigorous growing Millet in the world. Yields as high as fifteen tons of hay or more to the acre. It will make a magnificent crop of hay if sown immediately after your Oats or Barley, Rye or Wheat is cut, as it will ripen in from sixty to ninety days. It is positively the Millet wonder—very leafy, prolific and exceptionally fine for hay and feed. This Millet, unlike any other, stands the hot, dry winds of the Dakotas, the burning prairies of Kansas and flourishes on the semi-arid soils of Western Nebraska and Colorado—in fact, it grows where no other Millet grows. Sow one-half bushel per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

GERMAN MILLET

Grows very rank, 4 to 5 feet high and is one of the best varieties for hay, being sweet, palatable and milk producing. On good rich soil it yields 5 tons of hay and more per acre. The hay seems coarse, but is very tender and cows, horses and all other farm stock are exceedingly fond of it. Should be cut when in full bloom. Sow 3 pecks (35 to 40 lbs.) per acre. Postpaid, Pkt. 5c; lb. 20c; 3 lbs. 50c.

HUNGARIAN MILLET

A luxuriant, vigorous growing and very leafy Millet which is relished by all farm stock; the hay is not so coarse as that of the German Millet, but the yield is nevertheless quite large, averaging 3 to 4 tons an acre. It is earlier than German Millet and is often used as a second crop to follow Barley and early potatoes, etc. It is claimed this hay to be less dusty than that of other Millets. Sow 3 pecks (35 to 40 lbs.) per acre. Postpaid, pkt. 5c; lb. 20c; 3 lbs. 50c.

HOG OR BROOM-CORN MILLET

As the illustration shows this Millet, unlike the German and Hungarian sorts has branching heads, resembling Broom Corn, hence the name. The name of Hog Millet has been given it on account of its great value for feeding hogs. It is invaluable for those parts where corn cannot be safely or cheaply grown. It also makes fine feed for poultry. In Germany this Millet is called "Hirse," and is much used there and in Eastern Europe as human diet.

It is a very early variety, ripening in 50 to 60 days from time of sowing. The seed ripens while the fodder is yet green, hence it can be cut and used for both hay and seed with best success; it yields from 60 to 70 bushels of seed per acre besides the fodder hay. The seed is very large, 2 or 3 times the size of German Millet and is yellowish-white. This Millet does not grow very tall and is therefore not much planted for hay. Postpaid, pkt. 5c; lb. 25c; 3 lbs. 70c.

Kursk—Siberian Millet.

KURSK—SIBERIAN MILLET

Resembles German Millet in manner of growth and productiveness but is about 2 weeks earlier and the seed is orange-red. It stools quite heavily, is very leafy and bushy and a heavy yielder of both hay and seed, producing 50 to 70 bushels of seed and 4 to 5 tons of hay per acre.

It will ripen in 60 to 70 days from sowing and makes a good crop of hay if sown immediately after the early grain is harvested. This Millet is especially adapted for the Northwestern States, being very early and very hardy it will prosper under conditions when other varieties fail. Postpaid, pkt. 5c; lb. 20c; 3 lbs. 50c.

JAPANESE MILLET

Also Called Billion Dollar Grass.

Entirely distinct from any other Millet, grows 8 to 10 feet high and produces an enormous crop, yielding often 15 to 20 tons of green fodder or 6 to 8 tons of cured hay per acre. The feeding value of this Millet is much superior to that of corn fodder and the Millet is much more relished by all kinds of stock. Japanese Millet is mostly used for feeding green, but on account of the large yield and good quality of forage, it is also most excellent for silo use and frequently a good crop of this Millet can be raised under conditions which would not admit the growing of corn for ensilage. An ideal ensilage mixture may be composed of two parts of Japanese Millet to one part of Soja Beans, mixed when filling the silo; this mixture forms a complete balanced ration for milch cows without the addition of grain.

Like all other Millet the Japanese should only be sown when the weather is warm, and as it requires only about 6 weeks to produce a crop it can be sown until quite late in the season. We sow this millet here from May 10th to August, sown early and cut when in blossom it produces a good second cutting.

The seed of this millet makes good food for poultry and hogs as it contains almost as much fat and extract matter as shelled corn and a little more protein.

Sow the seed at the rate of 12 to 15 lbs. per acre. Postpaid, pkt. 5c; lb. 25c; 3 lbs. 70c.

PEARL MILLET OR PENCILIARIA

This quick-growing forage plant has been long known under the name East India or "Cat-tail" Millet. Sown in drills 4 feet apart and cultivated like corn, the plants attain a height of 8 to 10 feet, with slender, long-bladed leaves. These stalks can be cured for Winter use and the seed makes an excellent poultry food. But the best use of the plant is to cut the stalk for green forage when about 3 feet high and allow the plants to make a second growth in the Fall feeding or ensilage. On richly manured land these plants grow with tropical luxuriance and no other crop will yield as much forage. Pearl Millet is of exceptional value for sections subject to protracted drouth where natural grasses dry up, as it will keep on growing and furnish a good crop in the driest season. Eight pounds of seed are required per acre, if sown broadcast, and 5 to 6 pounds if sown in drills. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

JAPANESE MILLET

Buckbee's Famous "Full of Life" Lawn Grass Seed

HARDY, LUXURIANT, ALWAYS GROWS, ALWAYS THRIVES

Our Lawn Grass Seed

Produces a perfect and enduring lawn of luxuriant richness, with closely interwoven, firm, deep and elastic turf, and is generally ready for mowing in six weeks from time of sowing and is composed of a thoroughly balanced combination of native and foreign fine-leaved, deep-rooting grasses of interweaving habit, that flourish under varied conditions, soils and climates, growing during different seasons of the year, so that a deep green, smooth and velvety sward free from clumps is maintained from snow to snow without burning brown in the hot months of summer.

A Lawn may be established either by "sodding" or "seeding." The latter is not only much less expensive but much more satisfactory, as better grasses can thus be obtained, and the quality and variety of the grasses have a great deal to do with the appearance and the permanency of the Lawn.

Buckbee's World's Fair Lawn Grass

The Very Best Lawn Seed Ever Offered.

This famous Prize-Winning Lawn Grass is made up of a most evenly balanced combination of native and foreign fine-leaved, deep-rooting grasses that interweave and flourish in different soils and climates, each showing its best strength at seasons different from the others, and thus keeping the Lawn vigorous and green from winter to and winter's next advent.

Was awarded the great Columbian Prize at the World's Fair. This mixture was used by the World's Fair authorities to produce the beautiful Lawns, which were without question one of the greatest features of the Fair. It is the Ideal Mixture, and is unrivaled for purity and luxuriance in growth and will give complete satisfaction wherever sown. With ordinary care, anyone can, by using this mixture, secure a beautiful Lawn. Complete and explicit directions on "How to Make a Lawn" accompany every package of this seed. The quantity table on this page shows the amount of seed to plant in a given area. Price, postpaid, 1/2 lb. 20c; 1 lb. 35c; 3 lbs. \$1.00. Large quantities, by express or freight, not prepaid, 5 lbs. \$1.25; 10 lbs. \$2.45; 15 lbs. \$3.60; 25 lbs. \$5.75.

How to Make a Lawn

Is fully described in our new pamphlet, which will be given free with every package of Lawn Seed.

Special Quotations

We shall be pleased to quote special prices to Golf Clubs, Institutions, Parks and others who require Lawn Grass and Clover Seeds in large quantities.

Shady Place Lawn Grass

The Very Best Obtainable—Carefully Blended.

On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into grass, but with this mixture there need be no further difficulty. It is a combination of fine dwarf-growing, evergreen varieties which in their wild or natural state are to be found growing in the woods or other sheltered and shaded spots. Ground that has been densely shaded by trees is frequently "sour" and if coarse bog grasses. In such cases an application of slaked lime, bushels to the acre, is an excellent corrective and sweetener, the drainage is defective it is apt to be covered with moss and at the rate of one bushel to each thousand square feet, or forty but the moss should be first removed.

Sow from 50 to 60 pounds per acre for a new lawn or bowling green; 15 to 20 pounds per acre will be sufficient to improve existing turf. Price, postpaid, 1 lb. 35c; 3 lbs. \$1.00. By express or freight, not prepaid, 5 lbs. \$1.35; 10 lbs. \$2.60; 15 lbs. \$3.75; 25 lbs. \$6.00.

Velvet Green Lawn Grass

A Splendid Standard Mixture.

This special mixture does not include so great a number of expensive grasses as our "Famous Mixture," but full provision is made for a succession of growth and a careful blending in proper proportion and thoroughly mixed for quickly producing a permanent, thick and velvety sward of uniform growth and rich green grass free from coarseness. Price, postpaid, 1/2 lb. 35c; 1 lb. 25c; 3 lbs. 70c. By express or freight, not prepaid, 5 lbs. \$3.85; 10 lbs. \$1.65; 15 lbs. \$2.40; 25 lbs. \$3.85.

Quantity of Lawn Grass Seed to Use

1 lb. for 350 square ft.	25 lbs. for one-fourth acre.
5 lbs. for 1750 square ft.	50 lbs. for one-half acre.
10 lbs. for 3500 square ft.	100 lbs. for one acre.
15 lbs. for 5250 square ft.	

Buckbee's Extra Special Lawn Fertilizer

Makes the Lawn Strong and Keeps It Healthy.

The lack of a good fertilizer is the reason there are so many poor, rusty-looking, unsightly lawns. Use this Lawn Fertilizer. If you would have a beautiful and sturdy growth of grass. This fertilizer, used in connection with any of our special Lawn Grass Seed Mixtures, will enable you to produce a perfect lawn. Price, postpaid, 1 lb. 20c. By express, not prepaid, 5 lbs. 30c; 10 lbs. 50c; 25 lbs. \$1.00; 50 lbs. \$1.60; 100 lbs. \$2.95.

BUCKBEE'S "FULL OF LIFE" POTATOES

Pedigreed Stock, Grown in the Famous Red River Valley of the North Expressly for Seed

No seed Potatoes can be compared with those produced in the North, either for vigor and freedom from disease, or for producing and long-keeping qualities. Furthermore, our stock is all grown from hill selected Potatoes, that is, the seed stock was taken only from plants which have shown very vigorous growth and produced a good number of market-sized tubers. There are no seed Potatoes sold by any of our competitors that can compare with ours, either for vigor of growth, freedom of disease, heavy cropping and long keeping qualities.

Remember, no matter what fertilizer, cultivation, protection against disease and insects you give the crop, the fact remains that the yield is dependent very largely on the seed you plant, and our customers will find out that our seed Potatoes produce easily a hundred bushels more an acre than common stock.

DATE OF SHIPMENT—Potatoes will be shipped at any date ordered at purchaser's risk, but where no special instructions are given to the contrary, we will hold same until in our judgment there will be a minimum danger from freezing. Of the many varieties that claim public favor, we have selected the best in cultivation.

BUCKBEE'S EXTRA EARLY ROCKFORD

Truly a wonderful potato. Handsome, blight-proof variety. Very heavy yielder. Cooking quality the best.

A new Extra Early Variety of great promise. Makes an extremely quick growth and, considering its extra earliness, is a wonderfully heavy yielder. Is of very handsome appearance with pinkish tinged skin and white flesh, of delightful flavor. Prices, postpaid, 1 lb. 35c; 3 lbs. \$1.00.

PURE EARLY ROSE

The good old favorite, which continues in great popularity. A prolific yielder, sure cropper and popular market Potato. Every farmer and gardener knows the good Early Rose and nothing more need be said in its favor. The seed we offer is the purest and best on the market. Choicest Pedigreed Stock Seed. Prices, postpaid, 1 lb. 35c; 3 lbs. 85c.

IRISH COBBLER OR EXTRA EARLY EUREKA

A most excellent extra early variety, maturing good sized tubers seven weeks from time of planting. It has also the remarkable characteristic of producing almost only tubers of large size. The vines make short, upright growth, allowing close planting. The tubers are of round shape with few shallow eyes. The flesh is pure white, with a clean, smooth skin; and in quality they are excellent, always cooking dry and mealy. They are splendid keepers and, taking it all in all, are one of the most reliable and satisfactory that early sorts, excelling in productivity many of the late varieties. Specially suited to dry climates on account of its deep roots, and by far the best white Potato for the South. In a comparative test of 57 varieties, reds and whites, made at the Station at Fayetteville, Ark., the Irish Cobbler gave the best yield of all, which was 198.45 bushels per acre. Choicest Pedigreed Stock Seed. Prices, postpaid, 1 lb. 35c; 3 lbs. \$1.00.

Irish Cobbler.

BUCKBEE'S NOROTON BEAUTY

The Quick-Lunch Potato.

The Noroton Beauty and Bliss Triumph are the earliest Potatoes grown, being about two weeks earlier than the Early Rose. Large table size tubers have been grown in 60 days. Noroton is fully as productive as many main crop sorts.

It is handsome in appearance, having a russety white ground, splashed with pink, and pinkish eyes, and more uniform in size and shape than any other variety. The tubers mature simultaneously, a fact which, combined with its extreme earliness, practically does away with danger from blight or disease, or bugs. Its table quality is superb; flesh is white, dry, and the flavor unsurpassed. Prices, postpaid, 1 lb. 35c; 3 lbs. \$1.00.

BLISS RED TRIUMPH

An extra early Potato much planted all throughout the South. The tubers are nearly round, smooth, medium in size, reddish pink in color. Vines are small and compact, with short, thick stalks and broad leaves. This is one of the hardest varieties known, and is not susceptible to rot, scab and other diseases; in fact, it can be grown on the most heavily manured land without danger of rot. It is the standard variety the country over for making a quick crop. It is most important to use only the very best seed of this variety, as most strains in the market are very shy yielders. Prices, postpaid, 1 lb. 35c; 3 lbs. 85c.

NEW EARLY WHITE OHIO

An Ohio with a White Skin.

It is a true Ohio of the best type in all except color, which, instead of being pink, as in the parent, is a beautiful creamy white with pink eyes. Prices, postpaid, 1 lb. 35c; 3 lbs. \$1.00.

Improved Extra Early Ohio.

IMPROVED EXTRA EARLY OHIO

A Grand Potato—Our Specialty.

This is the best Potato that grows in the ground. It is fully two weeks ahead of the Early Rose, and is a general favorite with Potato growers and Market men alike, and the most profitable Potato they can possibly grow. Maturing early, it brings the highest prices. The tubers grow compact in the hill, are easily dug, with very few small ones—nearly every Potato is of marketable size; has few eyes which are even with the surface. Our Improved Extra Early Ohio is very fine, pure stock and uniform in shape. Prices, postpaid, 1 lb. 30c; 3 lbs. 75c.

Early Six Weeks.

EARLY SIX WEEKS

Fine Potato for Southern Truckers.

This is a fine new Potato of the Ohio type and as early as that variety; it is in demand everywhere. It has been sold as Six Weeks, Early Market, Extra Early Six Weeks, etc. Several seedsmen claim to have introduced it and more than one has represented it as ready for market six weeks after planting. We never had any such success with it, however. It is Extra Early all right and Market Gardeners and all others who grow Potatoes should give this variety a trial. As now improved, we consider it one of the best extra early market varieties grown. As table Potatoes they are not excelled; even for late spring they keep sound and solid. Prices, postpaid, 1 lb. 25c; 3 lbs. 70c.

CARMAN No. 3

The Best Main Crop Potato.

The Carman No. 3 is without any exception whatever the greatest yielding Potato ever introduced. The tubers are borne very close to the plant, a single turn of the fork turning out Eyes are few and shallow. It is a perfect keeper, and is not surpassed as a table variety. Skin and flesh of extreme whiteness. It has no hollow heart or any dark parts. We recommend this Potato to our customers as being unqualifiedly the best of all late sorts. Prices, postpaid, 1 lb. 35c; 3 lbs. \$1.00.

SIR WALTER RALEIGH

A Grand Late Potato.

A white-skin, main crop Potato much resembling Rural New Yorker No. 2, of which it is a seedling. It is decidedly better than its parents; the tubers being quite uniform in size, with but few small ones among them. It is from four to six days later than the parent stock. The color is the same, the skin Sir Walter Raleigh that it is the whitest fleshed and finest grained Potato on the whole list of main crop varieties. Prices, postpaid, 1 lb. 25c; 3 lbs. 60c.

BURBANK

A Standard Long White Variety.

Continues in good demand and is one of the most largely used kinds. It ripens medium late, is of good size, of fine oblong form and an excellent yielder. The flesh is white, very mealy and of fine flavor and quality. The best potato for baking. This variety is well adapted for heavy soils and is a long keeper. Prices, postpaid, 1 lb. 25c; 3 lbs. 70c.

RURAL NEW YORKER No. 2

The Standard White Market Potato.

One of the largest yielding varieties in existence. Large, of oval form and rather flat, with few and shallow eyes; the smoothest and cleanest potato grown; skin white, as is also the flesh, which is of best quality; it comes dry and floury. Medium late and best drought resister. There is no other Potato of more handsome appearance than the Rural New Yorker. Although it is a large yielder, it grows but few and small vines. It is hardy and will stand the heaviest manuring without getting scabby or spotted. Under ordinary circumstances they will yield from 300 to 400 bushels per acre, but by heavy manuring this yield can be doubled. Prices, postpaid, 1 lb. 25c; 3 lbs. 60c.

Shipped by Freight at Purchaser's Expense

From Selected Northern Grown Seed

Potatoes cut to single eyes give the largest yield and best results WE GUARANTEE SAFE ARRIVAL IN GOOD CONDITION FOR PLANTING

Every farmer knows the heavy expense in sending whole Potatoes long distances by Express or Freight, the charges often costing more than the Potatoes. Then, too, if shipped during the Winter and early Spring they usually freeze, and if not sent until this danger is past, they oftentimes arrive too late for planting. The Eyes as put up by us, will keep 60 to 90 days in good condition for growing; as if freshly cut from the Potato, and will produce just as good a crop as if the whole Potato was planted, hence every one who has a garden can order at any time during the Winter or early Spring (no matter how far away) and test the new and choice varieties of Northern-Grown Potatoes we offer, at trifling cost and Save Express or Freight Charges, as we guarantee safe arrival to any post-office in the United States. All orders for the South can be sent at any time during the Winter with perfect safety. Orders for the North and West will be booked when received, and sent when Spring opens or planting time arrives.

PRICES OF Potato Eyes

By Mail Prepaid.

- 100 eyes of any one variety for 1.00
- 200 eyes of any one variety for 1.90
- 500 eyes of any one variety for 4.50
- 1000 eyes of any one variety for 8.00

Owing to the amount of labor attached in preparing the Eyes for safe shipment, no less than 100 Eyes of any variety will be put up.

BUCKBEE'S "Full of Life"

FLOWER SEEDS

QUEEN OF THE MARKET.

ASTERS

QUEEN OF THE MARKET

The best early Aster, coming into bloom fourteen days earlier than most other kinds. Good sized double flowers on long stems; 1 foot high. Separate colors: White, Pink, Scarlet, Rose, Lavender, Purple. Each Pkt. 6c; $\frac{1}{4}$ oz. 30c. Finest Mixed, Pkt. 6c; $\frac{1}{4}$ oz. 30c; oz. 75c.

FIRE KING

The Most Brilliant Aster Ever Produced, and the nearest approach to scarlet yet obtained, a color previously unknown in this popular flower. Habit very compact, not more than 10 inches in height, with large beautifully incurved flowers. Pkt. 6c; $\frac{1}{4}$ oz. 40c.

SNOWBALL

A most profuse bloomer, a single plant often producing as many as twenty-five to thirty pure snow-white flowers, globular in form and of good size. Ten inches high. Pkt. 6c; $\frac{1}{4}$ oz. 40c.

FIRE KING

IMPERIAL OR DAY BREAK

Sturdy, upright, bushy plants, 15 inches high, producing, in mid summer, masses of flowers unequalled by any other Aster, not less than fifty blooms appearing on a plant. Mixed Colors. Pkt. 6c.

IMPERIAL

PEONY-FLOWERED PERFECTIO

PAEONY FLOWERED PERFECTIO

One of the most beautiful and deservedly one of the most popular of all Aster varieties. Very double, large beautiful flowers with incurved petals; height 12 inches. Blooms August. Separate colors: Bright Crimson, Clear White, Peacock Blossom, Violet Blue. Each Pkt. 6c; $\frac{1}{4}$ oz. 30c. Any 5 Pkts. \$1.20c.

Finest Mixed Pkt. 6c; $\frac{1}{4}$ oz. 25c; oz. \$1.25.

BUCKBEE'S NEW GIANT COMET or MAMMOTH OSTRICH PLUME

Grand American Asters, the finest and largest strain of all Comet or Ostrich Plume varieties, finer, larger and earlier than Crego and Asternum. Under good cultivation plants grow 18 to 24 inches in height, branching freely and bearing each from twenty to thirty magnificent flowers from 4 to 6 inches in diameter, composed of long curled, twisted petals, forming loose, fluffy, globular heads. The whole flower has a distinctly feathery effect, greatly resembling that of the fine Japanese Chrysanthemums. We offer the following separate colors: Pure White, Purple, Clear Carmine, Bright Rose, Lilac. Each Pkt. 6c; $\frac{1}{4}$ oz. 35c. Any 5 Pkts. for 25c.

Finest Mixed—All the desirable colors. Pkt. 6c; $\frac{1}{4}$ oz. 30c; oz. \$1.50.

NEW JAPANESE or TASSEL ASTER

Entirely distinct and novel. Plants of pyramidal growth, about 18 inches high, bearing on long stems from 40 to 50 flowers, averaging 5 inches across, composed of wavy and twisted needle-shaped petals, making the flowers free from the stiff and formal appearance usual to asters. The beautiful flowers of this new strain of Asters offer a most striking contrast with those of any other variety. The color is of a soft flesh pink and rose, the two colors mixed. Pkt. 6c; $\frac{1}{4}$ oz. 35c.

Buckbee's New Giant Comet or
Mammoth Ostrich Plume.

QUALITY
NOTHING BUT
QUALITY

ASTERS—Continued

THE KING

A beautiful American Aster, entirely distinct from any other variety. Large, massive, double flowers, 5 inches in diameter, with long, narrow, more or less quilled petals which are curled and incurved in the center. Plants 18 inches high, branching, bloom from August to October. Five separate colors—White King, Pink King, Crimson King, Lavender King, Violet King. Each pkt. 8c; any five pkts. for 30c. Mixed Colors, pkt. 7c; $\frac{1}{4}$ oz. 30c.

CANARY BIRD

Brickest Sulphur Yellow

The best yellow variety known; the flowers are of large size, of a rich golden color, perfectly double and imbricated. Its greatest value lies in its rich color, which shows to best advantage when grown with other colors. The flowers are borne upon long, erect stems; excellent for cutting. Pkt. 5c; $\frac{1}{4}$ oz. 30c.

NEW CROWN

A very showy variety, the large double flowers having the center pure white surrounded with petals of distinct bright colors, one of the most satisfactory varieties of Asters. Pkt. 5c; $\frac{1}{4}$ oz. 10c.

NEW GIANT QUILLED

The flowers are produced on long, thin, wiry stems, are very large, perfectly double, with long needle or quill-shaped petals giving the blossoms a very distinct appearance. The plants are of healthy and vigorous habit and grow to a height of about 15 inches. Choice mixed. Pkt. 6c; $\frac{1}{4}$ oz. 25c.

BUCKBEE'S IMPROVED VICTORIA

Magnificent flowers, massive and showy, with regular overlapping petals clear to the center. The flowers measure 4 inches and over across, and are of rich and varied colors. The plants grow very evenly, pyramidal in form, about 18 inches high and carry from twenty-five to forty flowers. The stems being long and strong make them fine for cut flowers. Separate colors: Snow white, flesh color, rich purple, dark crimson, peach blossom, light blue. Each pkt. 6c; $\frac{1}{4}$ oz. 30c.

VICTORIA CHOICEST MIXED—Pkt. 8c; $\frac{1}{4}$ oz. 30c; oz. \$1.50.

Aster, Improved Victoria.

Aster, New Royal.

NEW ROYAL

An early strain of the late Branching Aster, coming into bloom only a little later than Queen of the Market, but superior to it in every way. The flowers measure from $3\frac{1}{2}$ to 4 inches across, are of perfect form, exceedingly double, are carried on long, strong stems and are unsurpassed as cut flowers. Plants 24 inches high. Separate colors: White, pink, rose, lavender, purple. Each pkt. 8c; any 5 for 30c; $\frac{1}{4}$ oz. 30c.

MIXED COLORS—Pkt. 7c; $\frac{1}{4}$ oz. 25c; oz. \$1.25.

BUCKBEE'S RADIANT BRANCHING

The flowers are the most beautifully formed of all large Asters, and quite different in several respects from any Aster known. The branching habit is accompanied with great vigor of growth and profusion of bloom. The flowers are very large, 5 to 6 inches across, very double, borne on long stiff stems and the colors are clear and handsome. The petals are of thick, durable substance and in consequence the flowers last long in perfection. These magnificent blossoms being gracefully poised on strong, well-leaved stems 15 to 18 inches long are unsurpassed as cut flowers for vases and home decoration. Bloom from the end of August until frost. We offer the following separate colors: Pure white, dark blue, rose pink, lavender, crimson. Each pkt. 6c; any 5 for 25c; $\frac{1}{4}$ oz. 30c.

BUCKBEE'S RADIANT BRANCHING ASTERS, Mixed—Pkt. 6c; $\frac{1}{4}$ oz. 25c; oz. \$1.25.

BUCKBEE'S SUPERB MIXTURE OF GIANT ASTERS

Absolutely Uneexcelled.

Producing beautiful flowers, gigantic in size, gorgeous in color, perfect in form. This mixture includes the cream of all the Asters on this and the foregoing page, together with many other sorts of the most beautiful forms and brilliant colors. Especially selected from the finest large-sized, double-flowering types and the most critical flower lover will be pleased and astonished at the wide range of colors and varieties, and we guarantee it will give satisfaction. Pkt. 10c; $\frac{1}{4}$ oz. 40c; oz. \$1.75.

BUCKBEE'S FINE MIXED ASTERS

This is a most splendid collection of the leading types of this most beautiful flower in choice mixture. We have made the price so low that you cannot pass it by. Pkt. 5c; $\frac{1}{4}$ oz. 30c; oz. 75c.

BUCKBEE'S MIXTURE OF PERENNIAL ASTERS

(Michaelmas Daisies.) Single, fall blooming, hardy plants, with bright, beautiful flowers; if sown early will bloom the first year. Pkt. 10c; $\frac{1}{4}$ oz. 50c.

NOTHING BUT
QUALITY

Buckbee's
Radiant
Branching
Aster.

Ageratum, Blue Perfection.
Ageratum

One of the best of summer-flowering plants grown from seeds. The plants start readily, grow rapidly, and soon come into bloom, and flower uninterruptedly throughout the season. One of the best bedding.

BLUE PERFECTION—Deep amethyst blue. Pkt. 3c; ¼ oz. 35c.

Finest Mixed. Pkt. 3c; ¼ oz. 15c.

Abutilon

Frequently called "Flowering Maple" or "Chinese Bell Flower." Blooms quickly; easily grown. Pleases everyone. New fancy California seedlings, mixed. Pkt. 8c.

Ambrosia

A hardy annual, exceedingly fragrant. It is as desirable as the Rose Geranium as a plant with fragrant foliage and for making into bouquets and other floral work. Pkt. 4c.

Beans
SCARLET

RUNNER—A Favorite Old-Fashioned Climber.

One of the very few Beans that are both ornamental and useful. It grows rapidly to a height of 10 to 12 feet, and is covered from July until heavy frost with clusters of beautiful scarlet flowers. Pkt. 5c; ¼ lb. 35c.

WHITE RUNNER—Same as above with exception of the flowers which are pure white. Pkt. 5c; ¼ lb. 15c.

Alyssum

LITTLE GEM—This should really be called "Snow White Carpet Plant," for the plants, which are only a few inches high, grow so dense, and are so completely covered with snow-white blossoms, that it creates the impression of a beautiful carpet spread over the ground. We know of no other white flower which is so particularly well adapted to borders, ribbons, etc., as "Little Gem" Alyssum. The plants commence to bloom when quite small, and will flower uninterruptedly all summer long until late in the fall. Added to all this is the sweet fragrance, and we cannot see how a garden could be complete without it. Pkt. 4c; ¼ oz. 30c.

SWEET—Pure white, free bloomer. Pkt. 3c; ¼ oz. 10c.

SAXATILE COMPACTUM (Basket of Gold)—Showy, deep, pure yellow flowers, 1 foot high, fine for edging. Hardy perennial. Pkt. 3c; ¼ oz. 25c.

Alyssum, Little Gem.
Anchusa

The Heavenly Blue Flower.

A hardy annual of more than ordinary beauty. It grows about two feet high, branching freely and bearing a profusion of the most lovely flowers similar in all respects to the Forget-Me-Not, though the blossoms are much larger and of finer color. It is always taken for a beautiful large-flowering Forget-Me-Not, and for bouquets and cut flowers it is indeed superior to it. It blooms early and continues all summer. Pkt. 5c; ¼ oz. 15c.

Baby's Breath (Gypsophila), Elegans.
Baby's Breath (Gypsophila)

ELEGANS, ALBA, GRANDIFLORA—An annual that should be in every garden for it thrives everywhere and furnishes the loveliest material for all kinds of bouquets. Pure white flowers. Pkt. 4c; ¼ oz. 10c.

PANICULATA—One of the favorite hardy perennials; white flowers; fine for bouquets; two feet high. Pkt. 5c; ¼ oz. 25c.

Balloon Vine

A rapid and graceful climber; tender annual; 6 feet high. The flowers resemble small balloons. Pkt. 3c; ¼ oz. 15c.

Balsam Apple

A beautiful climbing plant with queer shaped fruits, which, if preserved in alcohol, make a most useful liniment. Foliage gracefully cut and although tender annuals, the vines run ten feet or more during the season. Pkt. 5c; ¼ oz. 15c.

Bird of Paradise.
Bird of Paradise Flower

The blossoms are of a rich golden yellow, about 2½ inches in diameter, produced in large trusses, the most striking feature being the long, incurving stamens and pistils of a beautiful bright crimson color. Seed should be soaked in warm water and started in-doors or under glass in a light sandy soil. Plants should be carefully hardened by gradual exposure to fresh air before going into the open ground. If the seed is started early it will produce blooms in great profusion the first year. Pkt. 6c.

Balsam (Lady Slipper)

BUCKBEE'S SUPERB DOUBLE MIXED—The most perfect in form and largest double-flowered Balsam yet developed. And unrivaled for diversity of rich and delicate colors, flowers often two inches across and borne in wonderful profusion. We offer a very choice selection of numerous hybrid sorts and a most careful blending of the finest colors in a palmtasting mixture. Pkt. 6c; ¼ oz. 35c.

GOOD MIXED—This mixture is comprised of the standard sorts and will give good results. Pkt. 3c; ¼ oz. 15c; ½ oz. 50c.

Balsam, Buckbee's Superb Double.

QUALITY

Begonia Vernon

One of the most satisfactory pot plants for the house, and a popular bedding plant for the garden or lawn. Flowers a brilliant orange carmine with bright yellow centers, and the foliage waxy and glossy. Pkt. 6c.

BEGONIA PLANTS—See page 142.

Burning Bush

(Kochia or Summer Cypress.)

This beautiful annual bush is rapidly coming into prominence. It grows 2 to 2½ feet high and resembles a clipped ornamental evergreen. The globe-shaped or pyramidal bushes are close and compact, and of a pleasing light green color. The plant may be grown singly or in the form of a hedge or background. In early Autumn the whole bush becomes carmine or blood red, whence the name of Mexican Fire Plant, Burning Bush, etc. Flowers small and numerous but not conspicuous. The beauty of the plant is its shape and colors. Worthy of high recommendation. Pkt. 3c; ½ oz. 10c.

Burning Bush

Cactus Seed

There is a great deal of pleasure derived in growing a cactus from seed, even if they are of low growth. You will be surprised at the odd looks of act just sprouting, and this is also the only way to secure new and rare varieties. The Seed may be sown in finely bedded sand in flat pans or boxes, which should be kept moderately moist and covered with a piece of glass. Seeds will come up in 3 to 4 weeks. Choice Mixed, Pkt. 8c.

Cactus from Seed.

CALLIOPSIS or COREOPSIS

Very handsome and showy plants of the easiest culture; require no care and thrive in any garden. Produce flowers in early every shade of yellow, orange, crimson, red, brown. Is one of those flowers which will grow in any situation and always be admired. New Dwarf Compact Strain. Annual. Mixed. Pkt. 1c; ½ oz. 10c.

ANCELOATA GRANDIFLORA—One of the finest hardy perennials; bright yellow flowers, from June till frost. Pkt. 5c; ½ oz. 15c.

CANNA

But few people know that these beautiful flowers can be easily grown from seeds, and bloom the first summer, if sown before April. One of the most popular of bedding plants, while even single specimens are most attractive in the garden. Sow singly in small pots as soon as convenient. The roots can be kept in the cellar over Winter.

ROZ'S NEW DWARF—Mixed. Immense flowers in brilliant colors. Pkt. 5c; ½ oz. 10c.

COMMON TALL MIXED—A splendid assortment of the old-fashioned varieties. Pkt. 3c; ½ oz. 10c.

For CANNA Plants see page 136.

CANTERBURY BELLS (Campanula)

Well-known popular perennials producing bell-shaped flowers of many colors; bloom very freely throughout the summer.

MEDIUM SINGLE MIXED—All colors. Pkt. 3c;

½ oz. 10c.

MEDIUM DOUBLE MIXED—All colors. Pkt. 4c;

½ oz. 15c.

CALYCANTHENA (Cup and Saucer)—The finest of the Campanulas.

Mixed colors. Pkt. 5c;

½ oz. 15c.

CARNATIONS GREENHOUSE EVER-BLOOMING.

This is the famous Carnation that is grown so extensively by Florists for Cut Flowers. Our seed is saved from our wonderful collection of Carnation Plants, grown in our celebrated Forest City Greenhouses at Rockford, and is obtained by hand fertilization of the best and most varied colored flowers. Mixed Colors. Pkt. 10c. (Fine young Plants of the leading varieties of this class are listed on page 113.)

Canterbury Bells or Campanula.

Butterfly Flower (Schizanthus.)

They form compact plants literally covered with beautiful, orchid-like flowers, all delicately fringed and curiously marked with crimson lilac, purple and yellow blotches. Finest Mixed. Pkt. 4c.

QUALITY
NOTHING BUT
QUALITY

Butterfly Flower.

Canary Bird Flower (Tropaeolum Canariense.)

Beautiful climber, the charming little canary-colored blossom bears a fancied resemblance to a bird with its wings half expanded. The plant has a luxuriant, rambling character, and if seeds are planted by the side of arbor or trellis will run about 20 feet, and will blossom from July until frost. Tender annual. Pkt. 1c; ½ oz. 15c; oz. 35c.

CANARY BIRD FLOWER.

CARNATIONS GIANT-FLORING-MARGUERITE.

These lovely fragrant Carnations produce fine double flowers which often measure 3 inches across. The variety of color includes white, blush, deep pink, salmon, carmine, scarlet, dark crimson, maroon, and many beautifully variegated flowers. Most of them have beautifully fringed petals, and are delightfully fragrant. One great merit of these Carnations is that they commence to flower in about 12 weeks' time from seed. Spring-sown plants will bloom from August until frost; sow in Summer for the winter-flowering use. They are alike valuable for pot culture and for garden use. All Colors Mixed. Pkt. 6c; ½ oz. 50c.

MARGUERITE CARNATIONS MIXED. Ordinary strain. Pkt. 4c; ½ oz. 35c.

Carnation Giant Flowering Marguerites.

Cardinal Climber.

CENTAUREA CYANUS (Bachelor's Button)

Also known as "Ragged Sailor" and "Corn Flower."

Blue Emperor—Single, dark blue, much in demand for cut flowers. Pkt. 4c; ½ oz. 10c.

Single Mixed—Blue, white, rose, etc. Pkt. 3c; ½ oz. 10c.

Double Blue—Largely grown by florists for buttonieres. Pkt. 10c; ½ oz. 50c.

Double Fine Mixed—Flowers are 80 per cent double and semi-double, with beautiful, bright colors. Pkt. 4c; ½ oz. 10c.

COLUMBINE or AQUILEGIA

One of the best of the early summer perennials. Curious flowers, extremely graceful, and borne in great quantities high above the foliage, which itself is very beautiful and attractive. Extra fine for cutting. **Prize Mixture**—Double and single, all colors. Pkt. 5c; ½ oz. 15c.

Columbine Prize Mixture.

Calendula, Double Mixed

Flowers extra large and very double; petals slightly imbricated, while those of the center are incurved like those of a Pcony. Colors, white, bright golden, yellow and orange. It blooms profusely all summer and fall; rich in the open ground. Pkt. 1c; ½ oz. 10c.

Candytuft

GIANT HYACINTH-FLOWERED

Most desirable for cut-flower purposes, producing a very large elongated head of quite large, pure white florets. The immense broad heads frequently measure six inches in length. Pkt. 5c; ½ oz. 30c.

EMPRESS—Pure white. Pkt. 4c; ½ oz. 15c.

ALL COLORS MIXED—Pkt. 3c; ½ oz. 10c.

PERENNIAL (Sempervirens)—Un-equaled for cemetery work, being perfectly hardy. Color of flower, white. Pkt. 6c.

Candytuft Giant Hyacinth Flowered.

CARDINAL CLIMBER (Ipomea Quamoclit Hybrida)

The finest new annual climber introduced in many years. Very graceful and beautiful, growing rapidly, and in a warm, sunny location it reaches a height of 20 feet and is densely clothed with deeply laciniated palm-like, green leaves, bespangled with clusters of fiery scarlet, tubular, spear-shaped flowers, measuring 1½ inches across. Pkt. 10c.

CACALIA (Tassel Flower)

Annual, with tassel-shaped flowers; golden-yellow and scarlet. Pkt. 3c.

CENTROSEMA

Sometimes called "Look at Me"—A hardy perennial vine, blooms in June or July from seed sown in April, bears in profusion, inverted pea-shaped flowers from 1½ to 2½ inches in diameter; rosy violet to reddish purple in color. Pkt. 6c.

Cineraria, Hybrida

One of the most popular house plants. Rich and vivid colors, blue and crimson shades. Most of the varieties have a well defined white eye, while the flowers are sharply margined with some high contrasting color. **Large Flowering Fines Mixed**—Flowers two inches across. Pkt. 10c.

Bachelor's Button.

Centaurea New Marguerite.

CENTAUREA (New Marguerite)

The Most Fragrant and Longest Keeping Cut Flower

The flowers are the size of a medium Carnation, freely produced on long stems; colors pure white, pale sulphur, yellow and lavender. The flowers are sweet scented, and their lasting quality after being cut is remarkable. From Spring sown seed they commence to flower in July. **Choicest Mixed**. Pkt. 4c; ½ oz. 15c.

CENTAUREA (Dusty Miller)

Silver foliage plants used for edgings, etc.

CANDIDISSIMA—Broadly-cut, silvery leaves. Pkt. 8c.

GYMNOCARPA—Fine-cut, silvery leaves. Pkt. 4c.

CHRYSANTHEMUM

BUCKBEE'S CHOICEST MIXED

Large Flowering. Best Suited for Pot Culture and Cut Flowers.

These are the famous Chrysanthemums that are grown so extensively by florists for cut flowers. Our seed is saved from our own wonderful collection of plants, and is obtained by hand fertilization; of the best and most varied colored flowers, and will produce a goodly proportion of large double flowers and likely many new and fine varieties. **Buckbee's Choicest Mixture**. Pkt. 10c.

FRENCH MARGUERITES

Annual. The plants grow eighteen inches high and produce beautiful, large flowers of many bright colors. **Single and Double Mixed**. Pkt. 3c; ½ oz. 10c.

BABY GOLDEN GLOW

Annual. Two feet high, flowers early and profusely, eclipsing all other garden annuals for a grand show of flowers. Bright yellow blossoms as double and perfect as roses. Pkt. 5c.

SNOWBALL

Same as above except pure white. Pkt. 5c.

Chrysanthemum French Marguerites.

CHINESE LANTERN PLANT

Produces numerous large inflated husks, much the shape of Chinese lanterns; at first a beautiful green color, changing to a yellowish hue and then to brightest scarlet. Pkt. 4c.

CLARKIA ELEGANS

Beautiful, hardy annuals from California, with rose-colored, white and purple flowers, in delicate but very brilliant shades. The plants are about eighteen inches high and profuse bloomers. Double Mixed. Pkt. 3c; 1/2 oz. 10c.

CLEOME PUNGENS (Giant Spider Plant)

A very showy annual growing 4 to 5 feet high, with rose-colored flowers of peculiar and interesting shape, suggesting spiders. The long, curving stamens give the flower its name. It is a plant that is in bloom every day of the season, whether the weather be hot or cold, wet or dry. Pkt. 4c; 1/2 oz. 25c.

COBAEA SCANDENS (Cathedral Bells)

Although it does greatly outside, it is also a splendid house climber, and will do well running over windows in the house, and will reward the grower with abundance of beautiful, large bell-shaped flowers, green at first, but rapidly changing to a beautiful deep violet blue. Pkt. 5c; 1/2 oz. 15c.

COCCEINEA INDICA

A remarkable pretty climber, ivy-like foliage, bright and luxuriant; never troubled with insects and admirably adapted for trellises, arbors, etc. The small flowers are soon followed by numerous fruits, two inches long, which turn to brilliant scarlet, spotted with white. Pkt. 4c.

COCKSCOMB (Celosia)

DWARF QUEEN—This is the best dwarf growing Cockscomb; plants about eight inches high, heads ten to twelve inches across. They grow very uniformly. Color, a rich, ruby red, of extreme brilliancy. Pkt. 5c; 1/2 oz. 25c.

OSTRICH PLUME—A new Cockscomb which bears feathery plumes of bloom, more like Ostrich feathers or Pampas grass than anything else. These magnificent plumes are one to two feet in length, and of all colors from sulphur yellow to deep rich crimson, rose, pink, scarlet, yellow, orange, etc. A plant in bloom is one of the very brightest and showiest of all garden annuals. All Colors Mixed. Pkt. 5c; 1/2 oz. 15c.

COLEUS, HYBRIDUS

One of the best known and most universally admired ornamental foliage plants.

EXTRA FINE MIXED HYBRIDS—Finest and showiest varieties. Pkt. 6c; Fine Mixed, Pkt. 5c.

COLEUS PLANTS, See page 146.

COLUMBIAN CLIMBER

The most superb of all climbers and used almost exclusively for decorating pillars, etc., at the World's Columbian Exposition, where it was the admiration of all. It is a fine, rapid grower, of easy culture and always a mass of exquisite green, showing no bare spots. Large purple flowers. Pkt. 5c; 1/2 oz. 25c.

Coleus Hybridus.

COSMOS

GIANTS OF CALIFORNIA—This strain is noted both for beauty and the gigantic size of its flowers, which measure four to five inches across; the colors are very varied and beautiful. Choicest mixed. Pkt. 5c; 1/2 oz. 10c.

NEW EARLY FLOWERING—Grace, daintiness and brilliancy are the characteristics of this pretty flower, with its yellow heart, encircled with broad, daisy-like petals, rising on long slender stems, rising from clod of feathery foliage. The Early Flowering strain produces flowers from July to November. Superb mixed. Pkt. 6c; 1/2 oz. 15c.

CRUEL PLANT (Hardy Annual)

A beautiful and rapid growing climber, bearing an immense number of pure white, bell-shaped, fragrant flowers. From 15 to 20 feet high. Pkt. 8c.

CYCLAMEN

Charming plants, with beautiful foliage and rich colored, fragrant flowers, universal favorites for Winter and Spring blooming. The Giant varieties have large leaves and stout flower stalks, throwing the flowers well above the foliage. Seed may be sown any time during the Spring or Autumn.

PERSIUM—Persian splend mixed. Pkt. 8c.

GIGANTEUM—Very large flowered mixed. Pkt. 12c.

CYPRESS VINE

A most beautiful climber with delicate dark green feathery foliage and a fine dance of bright, star-shaped rose, scarlet and white blossoms. Tender annual. All colors, mixed. Pkt. 1c; 1/2 oz. 15c.

Cosmos, New Early Flowering.

Ostrich Plume Cockscomb.

Crab's-Eye Vine.

CRAB'S-EYE VINE, or WEATHER PLANT

This beautiful plant has during the last few years created a great sensation.

If the leaves stand upward the sky will be cloudless; if they stand out straight, changeable weather is indicated; when the leaves hang straight downward, water may be expected to fall in torrents. A local storm is indicated by the curling together of the leaves.

Bears clusters of bright yellow flowers followed by pods with brilliant red seeds used for making beads, etc.

Seeds should be soaked in lukewarm water before planting. Pkt. 6c.

CORN, BURBANK'S NEW AURORA

Uniform in size, growth and colorings. Lasts a long time in first-class condition. It is profitable to raise for green corn, as well as for beauty of the foliage. Pkt. 10c.

CORN, BURBANK'S ORNAMENTAL RAINBOW

A highly decorative ornamental plant. The leaves are beautifully striped crimson, yellow, cream, soft rose, white, bronze, pink, green, etc. Pkt. 6c.

CYPRESS VINE

Double Flowering Dahlias.

Digitalis
(Fox Glove)

Handsome and highly ornamental plants of stately growth, succeeding under almost all conditions, and with but little attention will give a wealth of flowers during the summer. If the spikes are cut out, as soon as they commence to fade, new shoots will keep up a profusion of flowers for a long time. Mammoth Flowered Mixed. Pkt. 4c; ½ oz. 15c.

Digitalis (Fox Glove).

Dianthus Pinks

DIANTHUS PINKS are one of the most useful and desirable plants, and for beauty and variety of colors and markings cannot be surpassed. A bed of these in a flower garden will make a grand display at a small cost. Plants from seed grow and bloom very quickly.

ROCKFORD FAVORITE MIXED—Comprises over 50 of the choicest Chinese and Japanese varieties, and includes, besides the standard sorts, all the new and brightest colors in spotted, striped and handsomely fringed varieties of late introduction, both single and double. This magnificent mixture contains the cream of the Dianthus family, and unexpected results may be obtained by planting a package. We cannot recommend this mixture too highly. Pkt. 6c; ½ oz. 25c.

FRINGED AND RUFFLED (Laciniatus Mirabilis)—Petals are deeply cut into fine strips of thread-like fringes for about half their length, and are twisted in all directions, presenting a novel aspect; in color they vary greatly, having all shades from pure white to deep purplish-red with red and rose zones. Single Mixed Colors. Pkt. 3c.

DOUBLE ROYAL PINKS—The flowers range in color from blood-red to pure white, and are beautifully fringed and fringed. The enormous blooms are especially adapted for cutting, the stems being long. Mixed Colors. Pkt. 6c; ½ oz. 50c.

MIXED CHINA OR INDIA PINKS—Our mixture includes all the best colors and shades. Double Mixed. Pkt. 3c; ½ oz. 10c.

DOUBLE FIREBALL—A beautiful, very dwarf and compact growing pink, only 10 to 15 inches in height. Flowers are perfectly double and color a rich velvety blood red. Effective for garden beds or pot culture and as cut flower. Pkt. 3c; ½ oz. 35c.

DOUBLE SNOWBALL—This dwarf Dianthus belongs with Double Fireball, and is equally beautiful, differing only in being pure white instead of red. It has all the sterling qualities of that sort, and is equally hardy and desirable. Pkt. 5c; ½ oz. 25c.

MOURNING CLOAK—A magnificent new variety with very double large flowers of a dark mahogany, almost black; petals margined pure white. Pkt. 5c.

HARDY GRASS PINKS (Single)—The old reliable favorite, sometimes called Pheasant's Eye Pink. Fringed edge, white flowers with dark centers. Delightfully close scented. Pkt. 4c; ½ oz. 15c.

DOUBLE CLOVE PINKS (Plumaris flore pleno)—Double and semi-double varieties. Good range of colors, having a strong clove fragrance. Pkt. 6c; ½ oz. 50c.

Dahlias

The Dahlia still holds its place as king of all the outdoor Autumn flowers, and they may be grown to the greatest perfection from seed, blooming beautifully the first summer. Anyone can have a magnificent display of these regal beauties at very small cost. They continue to bloom profusely until frost, when the bulbs may be taken up, stored where they will not freeze, then set out again the following Spring. This may be continued year after year with success.

BUCKBEE'S DOUBLE LARGEST FLOWERING MIXED—A superb mixture of the finest double varieties of the largest size and finest colorings. Pkt. 8c.

DOUBLE CACTUS FLOWERING MIXED—The most beautiful in cultivation. They are unequaled for rich and varied colors and perfection of form. Pkt. 7c.

DOUBLE FINE MIXED—Pkt. 5c; ½ oz. 25c.

SINGLE NOVELTY MIXED—Brilliant flowers running through a wide range of striking colors. Pkt. 4c; ½ oz. 20c.

For Dahlia Plants

See Page 130

Datura

CORNUCOPIA, Horn of Plenty—Very hardy and beautiful. Large branches, dark green foliage. Flowers are trumpet-shaped, measuring 3 to 10 inches in length and 5 to 7 inches across the mouth and form three distinct flowers growing each within the other. Very fragrant. Pkt. 5c.

Datura.

Diamond Flower

A dainty little annual with tufts of tiny foliage and beautiful little white and violet blue flowers that bloom within a month from the time seed is sown. Pkt. 4c.

Dracaena

(Dragon Plant.)

INDIVINA—Beautiful ornamental plants; long, narrow, green foliage; indispensable for vases and house decorations. Large specimens are also very useful on the lawn. It will stand full exposure to the sun. Pkt. 10c.

Dolichos

(Hyacinth Bean.)

A showy annual climber, grows luxuriantly about 10 feet high, branching out well from the bottom, and is clothed with dense foliage, insect proof, and forms excellent screens as well as being exceedingly ornamental. The sweet-pea-like blossoms are borne in long, wistaria-like clusters, often a foot in length, which are followed by exceedingly ornamental seed pods, white and purple flowers. Finest Mixed. Pkt. 4c; ½ oz. 15c.

Euphorbia

VARIEGATED (Snow on the Mountain)—Attractive foliage, veined and margined with white; 2 feet. Pkt. 5c.

HETEROPHYLLA (Mexican Fire Plant)—An annual resembling the beautiful hot-house Fuchsia; 2 to 3 feet high, of bush-like form, with smooth, glossy-green leaves, which in summer turn an orange-scarlet. Pkt. 8c.

Dolichos, Hyacinth Bean.

FEVERFEW WHITE GEM

DAISY, DOUBLE

Daisies are easily grown from spring sown seed and come into flower in a very short time.

LONGFELLOW—Double, dark red rose. Pkt. 5c.

MAINMOTH WHITE—Double, purest white. Pkt. 5c.

DOUBLE QUILL MIXED—A new strain. Pkt. 5c.

MAINMOTH OR GIANT MIXED—Finest offered. Pkt. 6c; 1 oz. 50c.

GERMAN DOUBLE—Good Mixture. Pkt. 4c; 1 oz. 40c.

BLUE DAISY (Agathera Celestis)—A beautiful Bedding Plant and an excellent indoor bloomer. The flowers are the very counterpart of the Paris Daisy, but sky blue with a yellow disc of easy growth; produces flowers all the year. Pkt. 4c.

AFRICAN DAISY

(Dimorphotheca)

AURANTIACA—Rare and extremely showy annual from South Africa, destined to become a great favorite on account of its easy culture and its beautiful flowers. The single daisy-like blossoms 2 1/2 to 3 inches in diameter, are of a unique shade of glossy terra cotta orange, which brilliant coloring is rendered the more conspicuous by the dark colored disc surrounded by a black zone. Pkt. 6c.

AURANTIACA HYBRIDS—Brilliant flowers in great diversity of colors, mostly shades of white, yellow and red. Pkt. 10c.

EVENING PRIMROSE (Oenothera)

Large saucer-shaped blooms of the purest white, or in the softest, richest shades of yellow and deliciously fragrant. Pkt. 3c.

African Daisy Hybrids

ECHEVERIA

(Hen and Chickens)

These plants are easily grown from seed and will furnish a real surprise, for few people have any idea of the great variety, both in shapes and colorings, found in this family of interesting plants; used extensively in our parks for ribbon and carpet bedding. Pkt. 10c.

Forget-Me-Not, Quick Blooming FORGET-ME-NOT (Myosotis)

QUICK-BLOOMING—This type may be treated as annuals and be sown at any time of the year, beginning to flower from 8 to 10 weeks' time. The plants are of round, bushy form, 5 to 7 inches high, and when fully grown are perfectly covered with clusters of exquisite flowers. Valuable for winter flowering in pots, as well as for garden beds and edgings. Pkt. 6c; 1 oz. 35c.

VICTORIA—This is the finest variety of the beautiful old favorite Forget-Me-Not. Makes low bushy plants 6 to 8 inches high and the same in width, and bears a profusion of lovely azure blue flowers. Fine for edging and also for growing in pots and for cutting. Pkt. 5c; 1 oz. 25c.

SEMPERFLORENS—A hardy perennial. Large, clear blue flowers in pretty sprays. Everblooming, in flower from May until frost. Pkt. 10c; 1 oz. 40c.

FEVERFEW (Matricaria)

WHITE GEM—A fine, old-fashioned bedding plant; also suitable for pot culture. It grows about 18 inches high with numerous branching flower stems, which are literally covered with very double, pure white flowers an inch in diameter. Pkt. 6c.

GOLDEN FLEECE—Especially adapted for the edging of beds, as the foliage is beautifully serrated; flowers very double, of a rich golden color. Pkt. 4c.

FUCHSIAS (Lady's Eardrops)

Fuchsias are as easily grown from seed as from cuttings, and from seed many new varieties are obtained. They will flower freely the first year in the open ground, while the plants can be taken in the house in winter where they will flower still more freely. Choicest Double and Single, mixed. Pkt. 10c.

Daisy Giant Mixed

Chinese Strawberry

CHINESE STRAW-BERRY

Fragaria—Indica A Beautiful Basket Plant.

Hardy perennial creeper from India, with yellow blossoms and beautiful small scarlet fruit. Pkt. 5c.

FERNS

Hardy—For outdoors. Pkt. 10c.

Fuchsia

NEW FRAGRANT TREE FERN

(Artemisea)

This new ornamental foliage plant introduced from China is an annual, and owing to its fast growth reaches its full size during the year of sowing. It forms grand pyramidal bushes of 3 to 5 feet high. As a solitary plant it looks like a nicely grown-out Christmas tree. Also as pot plant it is very pretty, and may also be successfully grown in groups and borders, similar to *Kochia Trichophylla*, the Summer-Cypress. The color of the finely pinated foliage is a rich dark green. Last, but not least, it may be mentioned that cut branches last very long, and may, to the greatest advantage, be used for wreaths, decorations, etc. For its great availability and its most easy culture this novelty may most warmly be recommended to all amateurs. Pkt. 5c.

FOUR O'CLOCK

(Marvel of Peru)

No flower makes a prettier border than the old-fashioned Four O'Clock. It is one of the most brilliant and showy plants that can be grown. Finest Mixed. Pkt. 1c; oz. 15c.

Four O'Clock or Marvel of Peru.

GIANT GHOST FLOWER

Is often called Wedding Bells; truly wonderful plant; blooms always, either in the house or outdoors in the summer. The flowers are drooping, bell-shaped, over a foot long and 8 to 9 inches wide, of a fine creamy white color and very fragrant. It can be relied upon for a profusion of flowers as soon as large enough. Pkt. 6c.

GERANIUMS

They will bloom from seed in four to five months, and will frequently reward the cultivator with charming new varieties; in fact, propagation by seed is the only sure way to obtain new varieties, semi-double and CALIFORNIA GIANTS—Seed saved from finest double, single varieties of the most gorgeous and brilliant colors; all shades of scarlet and crimson, rose, pink, salmon, cream veined, pink, bluish, snowy white, and all the new auricle types. Pkt. 10c.

ZONALE—Mixed—A superb strain. Pkt. 5c.

LADY WASHINGTON—These are the well-known rich-colored showy Pelargoniums. Our mixture includes all the best varieties. Pkt. 15c.

APPLE SCENTED—The old-fashioned favorite apple-scented Geraniums. Pkt. 6c.

Buckbee's XX Insect Soap—The best insect exterminator on house and garden plants. See page 176.

New Fragrant Tree Fern.

GAILLARDIAS

(Blanket Flower)

ANNUAL VARIETIES—Greatly admired for their fine forms and rich blending of colors, the gay colored flowers being abundantly produced from July until frost, while they thrive anywhere. Single and double mixed. Pkt. 3c; ¼ oz. 15c.

PERENNIAL

—*Grandiflora Hybrids*. One of the Showiest Hardy Plants. Growing about 2 feet high and succeeding in any soil in a sunny position, beginning to flower in June, then continue the entire season. The flowers are of gorgeous coloring. The center is dark red brown, while the petals are marked with rings of brilliant crimson, orange and vermilion, and often a combination of all in one flower; excellent for cutting. Pkt. 5c; ¼ oz. 15c.

Giant.

GLOXINIA

(Hybrida)

A grand flower and lovely pot plant; easily grown. Blooms in four to five months from time seed is sown. Finest Mixed. Pkt. 6c. (Bulbs are quoted on page 138.)

GEUM

(Mrs. Bradshaw)

A very showy, hardy perennial, 2 feet high; blooms from June till frost, flowers deep orange-scarlet, 2 inches in diameter, semi-double, resembling fine large carnations. Blooms first season if sown early. Pkt. 10c.

HELIOTROPE

Heliotrope is a universal favorite on account of its delightful fragrance and duration of bloom, flowering equally well as bedding plants in Summer, or as pot plants in the house during the Winter. Seed sown in the Spring makes fine plants for bedding out, and are as easily grown as *Verbenas*. The colors of the blossoms range from white through all shades of violet to the deepest purple.

Choicest Mixed. Pkt. 5c; ¼ oz. 50c.

REGAL—A new variety of dwarf, compact growth and immense flower heads. All shades mixed. Pkt. 15c.

For Heliotrope Plants, see page 131.

GODETIA
Beautiful hardy annuals, remarkable for delicacy of their fine large blossoms. Mixed, Pkt. 4c; ¼ oz. 15c.

GOURDS

(Ornamental)

Tender annual climbers, with curiously shaped fruit in various colors, peculiarly marked. Forms may be wonderfully varied by tying strings around the young fruit or by enclosing same in a carved mold while growing. Many of these fruits keep for years, being very hard shelled. Mixed, Pkt. 4c; oz. 15c.

Heliotrope.

Japanese Hop, Leopold Leaved.

ICE PLANT

Handsome and curious plants for hanging baskets, etc., foliage appearing as though covered with ice crystals. Dwarf annual trailer. Pkt. 3c; ¼ oz. 15c.

JOB'S TEARS (Coix Lachrymae)

Curious ornamental grass with broad corn-like leaves and seeds of a light slate color. Valuable for Winter bouquets with everlasting flowers.

An old-fashioned, but valuable remedy for sore throat, colic and teething babies, when the seed is strung on linen thread and worn around the neck as a charm. Also used to advantage in basket making and raffia work. Pkt. 5c; oz. 10c.

LANTANA, Hybrida

Well known shrubby plants with clusters of Verbena-like flowers, and producing their pink, yellow, orange and white heads in great abundance. They have an agreeable aromatic perfume. Finest Mixed. Pkt. 1c; ¼ oz. 10c.

Lobelia

Finest Mixed—A beautiful dwarf-growing plant with delicate little blue and white flowers for borders and vases. Pkt. 1c; ¼ oz. 10c.

CRYSTAL PALACE COMPACTA—Dark blue flowers, dark foliage, compact erect growth. Pkt. 10c; ¼ oz. 30c.

CARDINALIS (Cardinal Flower)—A beautiful hardy perennial 3 feet high with large spikes of brilliant scarlet flowers. Pkt. 10c.

HIBISCUS, Hardy Hybrids
A fast growing perennial, fine for clumps. Enormous flowers, as large as tea-saucers—white, bluish, pale and deep pink, rose, etc. Plants from Spring sown seed will bloom in September. Mixed Colors. Pkt. 5c.

HUMULUS (Japanese Hop)

JAPONICUS—One of the most rapid climbers grown. Seed can be sown in the open ground in Spring and the plant will attain enormous dimensions very quickly. The foliage is luxuriant and it is one of the best plants for covering verandas and trellises. Heat, drought and insects do not trouble it. Pkt. 4c; ¼ oz. 10c.

NEW LEOPARD LEAVED—Beautifully variegated. Pkt. 5c; ¼ oz. 15c.

Job's Tears.

Larkspur (Delphinium)

NEW DOUBLE HYBRIDS

—(Hardy Perennial)—Produce beautiful spikes of immense flowers, semi-double and double, from 2 to 3 feet in length. The colors are very beautiful, ranging from pure white through all the shades of lavender and blue, to deep purple. Mixed Colors. Pkt. 5c; ¼ oz. 25c.

DWARF DOUBLE—Well known and of great beauty and remarkable for the richness of their colors, and for large gardens are invaluable. Mixed. Pkt. 3c; ¼ oz. 10c.

Lantana, Hybrida.

LINARIA (Kenilworth Ivy)

A very pretty hardy perennial trailing plant, for covering rock work, and very useful for hanging baskets. The flowers are small, but pretty; it is easily grown from seed. Pkt. 1c.

MARIGOLD

LEMON BALL—The extra large flowers are perfectly rounded—of nearly "ball-like" form; the color is a clear canary-yellow; the brightness of coloring and perfection of form make them resemble large double Yellow Dahlias—only produced so much more abundantly and for a longer season. Pkt. 4c; ¼ oz. 15c.

ELBORADO—The flowers are from three to four inches in diameter, imbricated and perfectly double. They embrace four shades of color—the lightest primrose, lemon, golden yellow and deep orange. Pkt. 4c; ¼ oz. 10c.

TALL AFRICAN, DOUBLE MIXED—Very early, profuse bloomers. Pkt. 3c; ¼ oz. 15c.

DWARF AFRICAN, DOUBLE MIXED—(Pride of the Garden)—Compact bushes, 15 inches high with immense double, yellow and orange flowers. Pkt. 5c; ¼ oz. 15c.

FRENCH, DOUBLE MIXED—A class of showy and extremely effective plants; fine double flowers of rich and beautiful colors. Pkt. 1c; ¼ oz. 15c.

LEGION OF HONOR—A beautiful single dwarf bushy variety, bearing rich, golden yellow flowers with garnet blotches in the center of each petal. Pkt. 4c; ¼ oz. 15c.

Lemon Ball Marigold.

Hollyhock

PRIZE DOUBLE MIXED—Perennial—The perfect doubleness of this magnificent, large flower will please the most critical. All colors mixed. Pkt. 5c; ¼ oz. 25c.

DOUBLE ALLEGHENY—Perennial—Rich colors, fringed petals. Pkt. 5c; ¼ oz. 25c.

NEW ANNUAL EVERBLOOMING—The perennial varieties flower only the second year if grown from seed, those annual kinds, however, bloom the first year, and if sown in the open ground in May, they will be in flower in August, but if started indoors and set out in May, they will bloom in July. They are continuously covered with large flowers in many beautiful colors. Double Mixed. Pkt. 5c; ¼ oz. 20c.

For Hollyhock Plants, see page 166.

Larkspur New Double Hybrids.

Morning Glories

NEW IMPERIAL OR GIANT JAPANESE

The flowers are of gigantic size and in colorines and markings beyond description ranging from snow-white to black purple, with all the possible intermediate shades, such as pink rose, fiery red, copper red, earline, crimson, pale blue, deep blue, royal purple, maroon, bronze, indigo, slate brown, cherry and ash gray. Others are edged with white having throats of one of the above colors; there is also an endless number of flowers spotted, marbled, striped, finked and splashed. They are beyond question the largest and most beautiful of this handsome family of easily grown climbers. Choicest mixed. Pkt. 5c; oz. 25c; 1 lb. \$1; 1 lb. \$3.

IMPROVED TALL OR CLIMBING

Convolvulus Major Grandiflora.

Most popular climber in cultivation. Of rapid growth. Our seed is selected from the best varieties only and is a great improvement over the old-fashioned sorts. Select Mixed. Pkt. 3c; oz. 15c; 1 lb. 30c; 1 lb. \$1.00.

New Imperial or Giant Japanese Morning Glories

BUCKBEE'S NEW DOUBLE MORNING GLORY

This Double Morning Glory will be greeted as a welcome addition to this class of plants. It is of rapid growth, producing its large double flowers very freely. They are of beautiful form and delicate coloring, being white with a slight shading of red or blue at the base of the larger petals. Mixed Pkt. 10c.

DWARF MORNING GLORY.

The wonder of the age as a winter house blooming variety. Flowers richly colored. Mixed Pkt. 4c; oz. 15c.

NEW FUCHSIA-FLOWERED MORNING GLORY.

The vines or shoots are gracefully slender, but very numerous and most densely set with five-fingered deep green leaves; growing very rapidly, they quickly cover tall poles or trellis with a dense screen of their peculiarly attractive foliage, and during the late summer and fall bear pretty, light rosy-pink flowers, followed by seed-pods which bear a striking resemblance (giving a most charming effect) to flower buds produced by the Fuchsia. Finest mixed. Pkt. 5c.

Mimulus

TIGRINUS (Monkey Flower)—Singularly shaped, and brilliantly colored flowers, blotched and spotted in every conceivable manner. Mixed. Pkt. 4c.
MOSCHATUS (Musk Plant)—A well-known and favorite plant both for outside borders and for pot culture. Cultivated on account of the musky odor. Pkt. 4c.

Mathiola, Evening Scented Stock

The wonderful perfume plant. No annual in cultivation equals this in delicate perfume of its flowers. Pkt. 4c.

Moonflower

NEW CROSS-BRED OR HYBRID VARIETY—Of great value for the north, as it is in full bloom one month before the White Seeded. Will grow 30 to 40 feet in a single season; its flowers are 4 to 6 inches across, very numerous and are open every evening and on cloudy days. Pkt. 5c; 1 oz. 25c.

NEW IVY LEAVED (Day Blooming)—A new Moonflower which opens its blossoms early in the morning (instead of evening), and remains open nearly all day. Flowers pink or creamy white; leaves ivy-shaped. Pkt. 6c.

WHITE SEED—This is the variety most generally grown, being larger in flower, and of sweeter odor than the Black Seeded variety which we have now discarded. Pkt. 5c; 1 oz. 20c.

New Cross-Bred Moonflower.

Mathiola.

Mignonette

BUCKBEE'S FINEST ROCKFORD MIXED—

The Finest Mignonette Mixture ever blended. It includes all the well-known sorts, together with many new Hybrids. Pkt. 5c; 1 oz. 15c; oz. 25c.

IMPROVED GOLDEN QUEEN—Golden-yellow

flowers, powerfully fragrant. Pkt. 4c; 1 oz. 10c.

MILES' GIANT WHITE SPIRAL—Very showy;

fragrant blossoms. Pkt. 4c; 1 oz. 15c.

NEW GIANT RED FLOW- ERED—Intense red, sur-

passing all other varieties in brilliancy of color. Very sweet scented. Pkt. 5c; 1 oz. 15c.

SWEET LARGE FLOW- ER—The old favorite Sweet

Mignonette. Pkt. 3c; oz. 15c.

Mignonette—Buckbee's Rockford Mixed.

BUCKBEE'S NASTURTIUMS

Buckbee's Nasturtiums, Giant Flowering.

BUCKBEE'S GIANT FLOWERING DWARF MIXED

These grand New Bedding Nasturtiums are brilliant in the extreme. They produce in wonderful abundance large flowers of the most gorgeous hues. The colors are very intense, making a sharp diversity of color not to be found in common mixtures. The plants are strong and vigorous, growing very quickly and producing erect, symmetrical bushes, with foliage from light green to deep blue green. Pkt. 6c; oz. 15c; ¼ lb. 45c; lb. \$1.50.

DWARF FINE MIXED

A first-class mixture from selected colors that harmonize beautifully. Pkt. 4c; oz. 8c; ¼ lb. 30c; lb. \$1.00.

LILLIPUT OR MINIATURE MIXED

Very beautiful varieties smaller in growth, leaf and flower than the other dwarf sorts, forming dwarf compact bushes, 3 to 10 inches high, fairly hidden throughout the season by flowers of a great variety of brilliant colors. Pkt. 5c; oz. 15c.

NEW "IVY-LEAVED" DWARF MIXED

A new class, with thick, green lobed leaves resembling those of the English Ivy. The flowers, which are borne in the greatest abundance throughout the season, are of medium size, and peculiarly cut and fringed, giving them an airy butterfly effect. Pkt. 5c; oz. 15c; ¼ lb. 50c.

NEW DWARF VARIEGATED LEAVED

The very best of the variegated leaved Nasturtiums. The leaves are marked with white, green and yellow and contrast nicely with the large showy flowers, which are of all colors. Pkt. 5c; oz. 10c; ¼ lb. 30c.

NEW TALL IVY-LEAVED

The plants are of running growth, but have the same foliage and flowers as the Dwarf Ivy-Leaved varieties. Pkt. 5c; oz. 15c; ¼ lb. 50c.

NEW TALL VARIEGATED LEAVED

The leaves are so beautifully variegated with yellow, white and green that the plants would be worthy of culture for the foliage alone. The flowers are of the same size, form and colors as the regular tall nasturtiums. Superb Mixed. Pkt. 5c; oz. 10c; ¼ lb. 30c.

BUCKBEE'S TALL GIANT FLOWERING MIXED

A wonderful diversity of rich colors and new and striking combinations are found in this unequalled mixture. A row in full bloom is truly gorgeous beyond description, containing as it does every shade and tint of yellow, rose, scarlet, carmine, orange, lemon, bronze, violet, purple, maroon, ruby, cream and pink, both in solid colors and mottled and striped in many showy and exquisite ways. Pkt. 6c; oz. 15c; ¼ lb. 45c; lb. \$1.50.

TALL SELECTED MIXED

This mixture is a most beautiful assortment of rich and brilliant colors and is surpassed only by Buckbee's Giant Flowering Mixture. Pkt. 4c; oz. 8c; ¼ lb. 25c; lb. 90c.

HYBRIDS OF MADAME GUNTER

New Climbing Nasturtiums.

A most beautiful dark-leaved strain flowering profusely and having a wide range of bright and distinct colorings. Pkt. 5c; oz. 10c; ¼ lb. 35c.

Ivy Leaved Nasturtium.

Variegated Leaved Nasturtium.

ONE OUNCE

of Nasturtium will plant a bed 20 feet in diameter and will make a better display for three months than almost any other plant.

Nicotiana

Sweet Scented Tobacco Plant. **AFRINS**—Handsome and well-known hardy annuals that grow easily from seed, forming compact bushes, about 3 feet high, which are in continuous bloom throughout the season. Their blooms are tube-shaped, pure white, very sweet-scented, and desirable as cut flowers. Pkt. 4c; ¼ oz. 15c.

AFRINS HYBRIDS—Similar to the above but the flowers are larger. Colors, white, purple, red, salmon, pink, violet, etc. Very showy bloom profusely all Summer and Fall. Mixed Colors. Pkt. 5c; ¼ oz. 20c.

Nicotiana, Afrins.

Nigella, Miss Jekyll.

Nigella

(Love-in-a-Mist.)

DAMASCUS—A popular old-fashioned flower; free flowering with finely-cut foliage surrounding the curious looking flowers and seed pods. Mixed. Pkt. 3c; ½ oz. 15c. **MISS JEKYL, BLUE**—An improved large flowering variety of the above with double cornflower blue blossoms. Pkt. 5c; ½ oz. 20c. **MISS JEKYL, WHITE**—A counterpart of the blue with pure white flowers. Pkt. 10c; ½ oz. 20c.

Nolana

Beautiful trailing plant, almost equal to Portulaca for growing in masses, and unsurpassed for baskets, pots, vases or rock work. Flower is similar in shape to the Morning Glory. Fine Mixed. Pkt. 3c; ¼ oz. 10c.

BUCKBEE'S PANSIES

WORLD RENOWNED—OF HIGHEST PERFECTION.
The Pansy is a universal favorite with young and old. Every child sees the face in the Pansy, and, aside from its great beauty, we all treasure it as the symbol of modest worth and true affection. The smallest yard must have its Pansies. We offer only the best.

PANSY SEED MIXTURES

BUCKBEE'S GIANT FLOWERING MIXED.

In this magnificent mixture of giant flowering Pansies the colorings are wonderfully rich and varied; every shade and tint of rose, canary-yellow, black, white, cream lavender, garnet, sky-blue and orange are produced in endless variations and striking combinations, while other have silvery grounds heavily blotched at the base of each petal with a dark, rich shade. The enormous flowers are of thick velvety texture, perfect form, and borne on long stems well above the foliage. The compact rounded plants are of sturdy habit and deep rooted, so that they bear the gigantic flowers profusely and continuously. Pkt. 10c; 1/2 oz. \$1.00; oz. \$7.00.

BUCKBEE'S MAMMOTH SUNRISE MIXTURE.

This splendid mixture is a blended combination of mammoth flowering Pansies. It contains all colors and will prove a delightful surprise in regard to the great size and rich and varied colorings of its flowers. Very popular. Pkt. 8c; 2 for 15c; 1/2 oz. 75c.

BUCKBEE'S SWEET SCENTED MIXTURE.

The Perfume of the Violet. The Beauty of the Pansy.

This new class is the result of crossing the Pansy with the Sweet Violet; the resulting hybrids, in addition to retaining the delightful Violet perfume, produce the most beautiful Pansy-like blossoms, 2 to 2 1/2 inches across, of great substance and of an endless variety of colors. Mixed. Pkt. 6c; 1/2 oz. 50c.

IMPERIAL GERMAN MIXED.

Much used for bedding, the flowers, white not giants, are very large, of fine form and of a wonderful variety of colors, this mixture embracing over 50 different varieties. Pkt. 4c; 1/2 oz. 35c; 1/2 oz. 50c; oz. \$1.50.

GIANT "MASTERPIECE."

This magnificent Pansy comes nearer to double Pansies than anything ever introduced under that name. The border of every petal being conspicuously crimped and curled in such a fashion that the flowers appear double. The color combinations and variations are very odd and striking, and contain some very lovely tints that can not be found in any other strain of Pansies. Pkt. 10c; 2 for 15c.

BUCKBEE'S WORLD'S FAIR PRIZE MIXED.

This mixture was awarded Grand Prize Medal at the World's Fair. It is an exceedingly fine mixture, producing flowers of rare beauty in both colorings and markings. Pkt. 5c; 1/2 oz. 60c; oz. \$1.00.

QUALITY
NOTHING BUT
QUALITY

Buckbee's Giant Flowering Pansy. GIANT FLOWERING PANSIES

In Separate Colors.

These are the largest and most beautiful pansies in cultivation.

GIANT YELLOW PRINCE—The color is pure golden yellow, shaded canary, sometimes with the three lower petals marked with purplish or red blotches and hair lines. Pkt. 6c.

GIANT SNOW QUEEN—The largest pure white Pansy without blotches. Edge of petal is frilled. Pkt. 8c.

GIANT STRIPED—The flowers are striped and mottled in various tints. Pkt. 6c.

GIANT ADONIS—Color a magnificent light blue with a white center, which sets off the dark blotches on the petals in a most striking manner. Pkt. 6c.

GIANT BEACONSFIELD—This is a great favorite on account of the rich combination of purple and lavender, shading to white towards the top. Pkt. 6c.

GIANT PSYCHE—Velvety violet-blue with a broad white edge, petals waved and ruffled after the Masterpiece style. Pkt. 6c.

GIANT EMPEROR WILLIAM—Rich deep blue. Pkt. 6c.

GIANT VOLCANO—The best red pansy, each petal is marked with a very large dark blotch. Pkt. 8c.

GIANT BLACK PRINCE—A distinct Pansy of sterling merit. The rich, glossy black has a peculiar, soft, velvety appearance, the magnificent large flowers are of fine circular form. It flowers so profusely that a bed of the Black Prince makes a sight not often equaled. Pkt. 8c.

GIANT BRIDESMAID—Rosy-white, with darker blotches. Pkt. 6c.

Imperial German.

Mammoth Sunrise Pansies.

BUCKBEE'S COLLECTION OF GIANT PANSIES—1 Pkt. each of the above 10 sorts for 50c.

BEDDING PANSIES IN SEPARATE COLORS

These are very free flowering and quite large Pansies.

EMPEROR FREDERICK—Velvety brown, shaded into a narrow band of deep golden yellow, which borders each petal. Pkt. 4c.

EMPEROR WILLIAM—The flowers are of the true ultramarine blue color, with well defined violet purple eye. Pkt. 4c.

FAUST or KING OF THE BLACKS—Almost coal-black. Pkt. 4c.

FIRE KING—Lower petals with large blotch of deep brown-red, margined yellow; upper petals fiery reddish-brown. Pkt. 4c.

LORD BEACONSFIELD—Deep purple violet, shading to white on the upper petals. Pkt. 4c.

NEW RED MIXED—A mixture of all the best red and fiery shades which have been produced up to date. Pkt. 4c.

PEACOCK—Upper petals ultramarine blue, lower deep claret with white margin. Pkt. 4c.

PURE WHITE—Pure white without blotches. Pkt. 5c.

ROSY MORN—Purplish crimson with white edge. Pkt. 4c.

YELLOW GEM—Pure yellow without edge. Pkt. 4c.

BUCKBEE'S COLLECTION OF BEDDING PANSIES—1 PKT. EACH OF THE ABOVE 10 KINDS FOR 30c.

PHLOX

Buckbee's

Mammoth Prize

QUALITY
NOTHING BUT
QUALITY

PHLOX

BUCKBEE'S MAMMOTH PRIZE MIXED—Their long duration in bloom, combined with their almost unequalled richness of color, renders them of invaluable service in the flower garden. The color ranges in every conceivable shade the size of common

able shade. The flowers are Phlox, of great substance and beautiful form. The plants are of stout branching habit, always erect.

Grandest of all Phlox, in Finest Mixture. Pkt. 5c; 1/4 oz. 25c; oz. 75c.

FINEST MIXED—Contains in splendid blend many varieties. Invaluable for bedding and cut-flower purposes. Pkt. 3c; 1/4 oz. 15c; oz. 50c.

STARRED AND FRINGED—In the fringed flowers the petals are limbate, three-toothed, of a great variety of magnificent velvety colors with a bright eye in the center and a white border. In the Starred Phloxes the central teeth of the petals are five or six times as large as the lateral ones, and projecting beyond them like little spines, give the flowers a distinctly star-like form. All Colors Mixed. Pkt. 1c; 1/4 oz. 5c.

CECILY, NEW DWARF, COMPACT, LARGE FLOWERING—A lovely strain with immense flowers, the plants grow erect only 6 to 8 inches high. Valuable for bedding alone, or as borders in beds with taller varieties. A choice mixture of countless shades. Pkt. 6c; 1/4 oz. 50c.

NEW DOUBLE—Double Phlox are most desirable annuals for cut flowers lasting longer than single ones. We have secured a particularly fine strain from France, which has a large percentage of pure white and cream color and is perfectly double and semi-double. The white is especially valuable as a cut flower. We are sure our customers will be greatly pleased with them. Select Mixed. Pkt. 6c; 1/4 oz. 20c.

PETUNIAS

HYBRIDA, Single Mixed—A splendid mixture, embracing all colors, including striped and blotched varieties. Are excellent for bedding or massing, remaining in bloom the entire Summer. Pkt. 4c; 1/4 oz. 35c.

DWARF, Single Mixed—Neat, erect bushes about 8 inches high, covered with a multitude of flowers all season. Valuable for edging and pots. Pkt. 10c; 1/4 oz. 25c.

GRANDIFLORA, Single Large Flowering—One of the richest colored mixtures in cultivation, beautifully veined with various shades of purple, rose, lavender, yellow and crimson. Mixed. Pkt. 8c.

GIANTS OF CALIFORNIA—A California strain of great beauty, size and luxuriance. The flowers are of immense size, often measuring 5 to 6 inches across; the variety of colors, markings, veulings and blotchings distinguish them from all others. They are usually ruffled and fringed on the edges, and present a great variety of beautiful colors. Pkt. 10c.

BUCKBEE'S NEW DOUBLE FANCY FRINGED—A mixture of the best large flowering and fringed double Petunias. It embraces a wide range of colors and shows finer combinations than we have heretofore found in any double Petunias, including delicate mauve, porcelain blue, white, garnet and velvet shades. This carefully hybridized seed will yield a larger percentage of double flowers than any other Petunia in cultivation. Mixed. Pkt. 15c.

Dwarf Single Mixed.

Buckbee's New Double Fancy Fringed.

Burbank's Santa Rosa Giant Shirley Poppy.

Portulacca (Moss Rose)

DOUBLE GIANT FLOWERED MIXED—One of the most showy and beautiful annuals. With abundant, highly-colored flowers. For baskets, beds, masses or edging it is invaluable. Pkt. 6c; $\frac{1}{4}$ oz. 75c.

SINGLE MIXED—A great variety of colors. Mixed. Pkt. 3c; $\frac{1}{4}$ oz. 15c.

Double Portulacca.

Primula

SINENSIS—CHINESE PRIMROSE.

One of our most beautiful and indispensable plants for Winter or Spring blooming in the house or conservatory. Unequaled as Winter bloomers—easily grown.

CHINESE PRIMROSE, Buckbee's Superb Mixed—An elegant mixture embracing all the best large-flowering varieties, and also including the fringed sorts. Pkt. 10c.

CHINESE PRIMROSE, Finest Double Mixed—A splendid strain of the finest large-flowering fringed varieties. Our mixture includes the most brilliant colors. Pkt. 18c.

OBCONICA GRANDIFLORA.

Primula Obconica is as near an everblooming plant as is possible to obtain. It has been known to flower for over twelve months without a break. Pkt. 10c.

Pyrethrum Hybridum, Single and Double.

Poppies

BURBANK'S SANTA ROSA GIANT SHIRLEY

A great advance in single-flowering annual Poppies. The flowers are immense, often measuring 3 to 4 inches across, the petals are fluted and crinkled and in the sunlight appear like ruffled satin. Bloom in continuous succession for weeks. Flowers white, white veiled pink, white-spashed crimson, rose bands, with white, salmon, carmine, blue, scarlet, and many splashed, striped, dotted and edged, etc. Pkt. 5c; $\frac{1}{4}$ oz. 15c.

BUCKBEE'S GIANT GRANDEST DOUBLE MIXED—A dazzling mixture of beautiful double Poppies, giant-flowering kinds of the richest and brightest colors, as well as the faintest and softest tints. Pkt. 5c; $\frac{1}{4}$ oz. 15c; oz. 25c.

PAEONY FLOWERED—Large, showy, double, globular flowers. Fine Mixed. Pkt. 3c; oz. 12c.

ICELAND—Hardy perennials, bloom the first year from seed. Brilliant flowers. Mixed Colors. Pkt. 5c; $\frac{1}{4}$ oz. 20c.

ORIENTAL HYBRIDS—Hardy perennials with enormous, gorgeous flowers. Mixed Colors. Pkt. 10c; $\frac{1}{4}$ oz. 30c.

FOR HARDY POPPY PLANTS SEE PAGE 166.

Buckbee's Giant Double Poppies.

Palms

Grand decorative plants for the house or piazza; increase in value each year. Easily grown from seeds which are slow but quite sure to germinate. Soak in lukewarm water and plant in light, rich, warm soil. Choicest Mixed. Pkt. 10c.

Penstemon

A most showy perennial: as a bedding plant takes rank with the Petunia, Phlox, etc. Colors, rose, red, carmine, cherry, pink, lilac, purple, etc. The plants grow 2 feet high; every branch is a spike of large flowers, gloriole-like in size and shape. Not quite hardy and is best treated like an annual, sown early indoor and set out as soon as the weather permits; it will bloom from July till frost. Choicest Mixed. Pkt. 5c; $\frac{1}{4}$ oz. 15c.

Ricinus

(Castor Oil Bean)

ZAN ZIBARIENSIS

GIANT MIXED—

From seeds sown in the open ground in May the plants are in full foliage early in July, and attain a height of 12 to 14 feet. The enormous leaves, beautifully lobed, measure $2\frac{1}{2}$ to nearly 4 feet across. Pkt. 4c; oz. 15c.

GOOD MIXED—Many choice varieties. Pkt. 3c; oz. 10c.

Chinese Primrose.

Pyrethrum

AUREUM (Golden Feather)—Dwarf plants with bright yellow foliage extensively used for edging; usually grown as an annual. Pkt. 5c; $\frac{1}{4}$ oz. 20c.

HYBRIDUM GRANDIFLORUM—Large, bright and showy, daisy-like flowers ranging in colors from white, light pink to deep red, with bright yellow centers, bloom in spring and again in fall. The flowers are invaluable for cut flowers, being borne on long stems and lasting a long time. The foliage is most elegant in its finely cut, fern-like form and fresh deep green color and is attractive at all times. Nothing surpasses these Pyrethrum for profusion of flowers during the season, and being so simply and easily cultivated, they ought to have a place in every garden whether large or small; height 2 feet. Hardy perennial. Mixed. Pkt. 10c.

HYBRIDUM DOUBLE—Hardy perennial; large double, beautiful flowers, resembling a refined China Aster. Height $1\frac{1}{2}$ feet. Pkt. 20c.

Rudbeckia

(SPECIOSA BICOLOR.)

Showy Annual of Easy Culture. Eighteen inches in height. The flowers are produced singly on long, stiff stems and have a diameter of 3 to 4 inches. Large rounded purplish cone in center with narrow petals around the base of cone. Petals are a deep orange-yellow, heavily marked with brownish red on inner portion. Pkt. 5c.

Giant Castor Oil Bean (Ricinus, Zanzibariensis).

SALVIA or SCARLET SAGE

SPLENDENS—The original Scarlet Sage with beautiful long spikes of bright scarlet color. It is a standard bedding plant and keeps the garden bright with color until frost. Pkt. 4c; ¼ oz. 25c.

SCARLET DRAGON—The Most Magnificent Summer and Autumn Flowering Bedding Plants—The old Salvia Splendens or Scarlet Sage has long been a favorite, and our customers can partially appreciate the superiority of this new variety when we state that the flowers are nearly double the size, closely crowding the immense long spikes that often measure 6 inches across. Full-grown plants in bloom form compact bushes 3 feet high, and bloom from ground to summit. We know of nothing that can equal the gorgeous effect of a row or bed of these fine Salvias when in full bloom; the waving masses of glistening scarlet against green surroundings of lawn or foliage is matchless. Grows very easily from the seed. Pkt. 8c; or 3 pks. 26c; ¼ oz. 40c.

SALVIA PLANTS—10c each; 3 for 25c, postpaid. By express at buyer's expense, \$4.00 per 100.

SENSITIVE PLANT

An interesting and curious plant with globular heads of pink flowers. It affords much amusement by its sensitive character—even when touched slightly the leaves instantly close and drop. Pkt. 5c; ¼ oz. 15c.

Scabiosa or Mourning Bride.

SCABIOSA OR MOURNING BRIDE

This is one of the most attractive of the old-fashioned flowers. Great abundance and long succession of richly colored fragrant blossoms borne on long stems make it one of the most useful of the decorative plants of the garden. It has been greatly improved of late years, producing larger and more double flowers of greater variety and brilliancy of color than the old type. Hardy annual; 12 to 18 inches high.

DWARF DOUBLE LARGE FLOWERING MIXED—Pkt. 4c; ¼ oz. 15c.

TALL DOUBLE LARGE FLOWERING MIXED—Pkt. 4c; ¼ oz. 15c.

CARCANICA (BLUE BONNET)—Hardy Perennial 3 feet high. Flowers lilac-blue on long stem; fine for cutting. Pkt. 8c.

SENECIO ELEGANS

A beautiful free flowering annual. Flowers purple, red, crimson, rose and white; perfectly double. Pkt. 5c.

SMILAX

One of the most desirable window vines on account of its charming, glossy green, elegant and graceful foliage, and will grow several feet high the first season. Pkt. 1c; ½ oz. 30c; ½ oz. 50c.

SNAPDRAGON (Antirrhinum)

GIANT—Flowers double the size of older sorts, more closely set on the stems and colors most clear and brilliant, growing about 12 inches high. All colors, mixed. Pkt. 5c; ¼ oz. 25c.

TOM THUMB—8 inches high. Finest mixed, all colors. Pkt. 4c; ¼ oz. 15c.

Buckbee's "Full of Life" GIANT HYBRID SWEET PEAS

THE BEST Sweet Peas

Hundreds of varieties of Sweet Peas are offered. We have tested them all on our Rockford Seed Farms. A great many of the older sorts have been superseded by newer ones, which are much better in every way, while in some instances the older and standard varieties stand today without a rival.

Select List of Named Giant Hybrid Sweet Peas

WHITE
DOROTHY ECKFORD—Grand pure white, shell-shaped flowers of extra large size; borne three on a stem.

PRIMROSE
HON. MRS. E. KENYON—Beautiful primrose yellow.

ORANGE
MISS WILLMOTT—Brilliant orange; pink; very large.

ST. GEORGE—Orange-scarlet; magnificent.

PINK
PRIMA DONNA—Exquisite clear light pink.

JANET SCOTT—A grand deep rich pink.

ROSE
PRINCE OF WALES—The finest bright rose.

SCARLET
KING EDWARD VII—The finest crimson-scarlet.

QUEEN ALEXANDRA—Intense pure scarlet.

LAVENDER
FLORA NORTON—Clear bright blue.

LADY GRISEL—A grand pale lavender.

MRS. WALTER WRIGHT—Beautiful mauve.

STRIPED, MOTTLED OR EDGED
AMERICA—Striped blood-red on white.

BLANCHE FERRY—The popular pink and white.

DAINTY—White, daintily edged with pink.

HELEN PIERCE—White, mottled bright blue.

MAID OF HONOR—White shaded with light blue.

MAROON

BLACK KNIGHT—Very deep maroon, shaded black.

Prices for any of the above 20 named varieties, 1 pkt., each, 6c; 2 oz., 15c; 1 lb., 25c; postpaid. The set of the 20 named varieties, 1 pkt., each, 6c; 1 oz., each, \$1.25.

Buckbee's Pedigreed Gilt Edge Mixture

Best Colors, Largest Size, Very Fragrant.

This mixture is carefully blended by ourselves from all the finest selected colors in the right proportion for the most beautiful show and without question it cannot be surpassed for gorgeousness of colors and brilliancy of effect, embracing every known good sort to date in the large-flowering new and best standard varieties. Large packet 6c; 2 oz., 15c; 1 lb., 25c; 1 lb., 35c; 1 lb., 60c; 1 lb., \$1.00; postpaid.

FINE MIXED.

A cheap mixture, but a real good one, and will please those who do not care for the fancy new varieties of late introduction. Pkt., 3c; 2 oz., 7c; 2 oz., 13c; 1 lb., 20c; 1 lb., 35c; 1 lb., 60c, postpaid.

DOUBLE FLOWERING SWEET PEAS In Fine Mixture.

Under favorable conditions they will produce a large percentage of double flowers. Usually the double and single flowers are borne about half-and-half. They are regular tall-growing Sweet Peas. Our mixture includes every desirable shade and color. Pkt., 5c; 2 oz., 15c; 1 lb., 25c; 1 lb., 40c; 1 lb., 75c; 1 lb., \$1.25.

Double Sweet Pea.

CUPID OR DWARF SWEET PEAS

In Fine Mixture.

These little beauties only grow five to six inches high, and excite wonder wherever seen; are very fragrant; bear full-sized flowers of fine substance, two to three on each stem; are profuse bloomers; excellent for beds, borders and pot culture. As they cover the ground so closely they are not so likely to suffer from drought as the tall sorts. Our mixture includes all the desirable colors and shades. Pkt., 4c; 2 oz., 15c; 2 oz., 25c; 1 lb., 50c.

Dwarf Cupid Sweet Peas.

ORCHID FLOWERED or
Giant Waved

Spencer Sweet Peas

A wonderful type, quite distinct from the old sorts, with beautifully formed huge, open and upright standards and immense wings, the flowers measuring from 2 to 2½ inches across. Both standards and wings are daintily waved. A very large percentage of these varieties bearing four or more of these immense flowers to the stem making them unsurpassed as cut flowers. The following are the best of the new and old sorts:

WHITE
CONSTANCE HINTON—The best black-seeded white.
KING WHITE—New, hailed as the King of the Whites. Immense blooms, faultlessly filled and waved.

PRIMROSE
PRIMROSE SPENCER—The finest primrose-yellow.

ORANGE
THOMAS STEVENSON—Flery orange-scarlet, most striking color of all.

PINK
ELFRIDA PEARSON—The finest and largest light pink.

MARGARET ATLEE—The best rich pink.

COUNTRESS SPENCER—A lovely soft rosy pink.

FLORENCE MORSE SPENCER—Delicate bluish pink with a deep pink margin.

MRS. RUTZAHN—Apricot color, flushed with delicate pink; a very charming shade.

ROSE
ATLORA SPENCER—Salmon rose, striped and flaked on white ground; very large.

GEORGE HERBERT—Bright rose-carmine, very showy.

MARIE CORELLI—Brilliant rosy red of exceptional large size.

MRS. CUTHBERTSON—Rose-pink, wings white; an Improved Blanche Ferry.

SCARLET
FIERY CROSS—Scorching fire-red; does not burn in sunlight.

VERMILION BRILLIANT—Rich bright scarlet; surpassing all other scarlets in color, size, form and profusion of bloom.

LAVENDER
ASTA OHM—Soft lavender, tinged mauve.
FLORENCE NIGHTINGALE—The largest and finest pure lavender.

BLUE AND PURPLE
MARGARET MADISON—A large, clear azure-blue.

ROYAL PURPLE—Immense flowers, rich royal purple.

MAROON
OTHELLO SPENCER—A rich deep maroon, immense flowers.

PRICE FOR ANY OF THE ABOVE 20 NAMED VARIETIES: Pkt. 6c; oz. 20c, postpaid.
SPECIAL OFFER—One pkt. each, of the 20 Spencer Sweet Peas for 80c; 1 oz. each for \$3.25.

Buckbee's Grand Mixture of Giant Waved Spencer or Orchid Flowered Sweet Peas

This grand mixture is composed exclusively of Spencer Hybrids in proper proportion for most brilliant effect. It contains some most superb seedlings that have not yet been introduced. New and exquisite colors and shades, such as apricot, lavender, light and dark blue, several shades of pinks and scarlets from light shades to deep rose; also striped and mottled varieties, with purple and deep maroons, all of the waved and fluted Spencer type. Without exception this is the very finest mixture it is possible to make. Grow them liberally and they will make the finest display of Sweet Peas ever seen in your neighborhood. Price, large pkt. 7c; oz. 15c; 2 oz. 28c; 1 lb. 50c; postpaid.

Everlasting Sweet Peas (Lathyrus)

Perfectly hardy perennial, handsome free-blooming climbers, with clusters of elegant Sweet-Pea-like blossoms, which are produced in the greatest profusion. They come up year after year, and also bloom earlier than other Sweet Peas. Especially suitable for covering arbors and trellises. Our mixture contains all colors. Pkt. 5c; 1 oz. 15c.

New Yellow Sweet Peas

One of the most beautiful, interesting and easily grown plants in existence; a low growing, profusely branching plant, every branch ending in racemes 6 to 10 inches long, of beautiful, large Sweet-Pea-like flowers. These flowers are of a thick substance, fragrant and of a golden yellow color except the keel, which looks like brown velvet. A plant in bloom reminds one of a shower of gold. Pkt. 5c.

QUALITY
NOTHING BUT
QUALITY

SUNFLOWERS

NEW CHRYSANTHEMUM FLOWERED—Fine, perfectly double golden flowers, resembling Japanese Chrysanthemums. Height 6 feet. Pkt. 4c; ½ oz. 15c.

NEW DOUBLE MULTIFLORA—The plant is pyramidal in shape and the handsome, double flowers are produced at base of each leaf. Pkt. 1c; ½ oz. 12c.

STELLA—Flowers star-shaped, of brightest golden yellow, with dark centers. Borne on long stems, and are suitable for cutting. Four feet high. Pkt. 4c; ½ oz. 15c.

RED SUNFLOWER—A unique and gorgeous novelty. The plants grow to a height of 7 to 9 feet and produce many large flowers differing in size from 5 inches to a foot in diameter. The color also varies greatly, but the majority of flowers have a more or less wide red circle around the purplish black center, and the tips of the petals are golden yellow. Pkt. 8c.

FINEST MIXED—For background or screen to hide unsightly places. Pkt. 4c; oz. 15c.

LARGE FLOWERING
GLOBE
PYRAMIDAL
STOCKS

Sunflower,
Chrysanthemum
Flowered.

SWEET WILLIAM

Well known, free blooming, hardy perennial plants. Old-fashioned favorites now greatly improved.

FINE SINGLE MIXED—Various beautiful shades and markings. Pkt. 3c; ¼ oz. 15c.

FINE DOUBLE MIXED—A splendid strain. All colors. Pkt. 5c; ¼ oz. 20c.

ANNUAL SWEET WILLIAM—This new type blooms early in summer, from Spring sown seed. The heads and the flowers are as large and as fragrant as those of the perennial kind. Mixed Colors. Pkt. 8c.

Vinca.

Vinca

Ornamental free flowering house or bedding plants; flower the first season; glossy green foliage; handsome circular red and white flowers about 1½ in. across. Will flower in the garden all season and if potted in fall will bloom through the winter. Mixed. Pkt. 4c; ½ oz. 25c.

Annual Sweet William.

STOCKS

LARGE FLOWERING GLOBE PYRAMIDAL—This is the best class for outdoor bedding for summer blooming and is the earliest of all to come into flower. Spike and flowers very large, the individual blooms frequently measuring 2 to 2½ inches in diameter. The large, double and perfect flowers are produced in great profusion, and the plant is of pretty shape. Seed saved from named sorts of various colors. Grand Mixture. Pkt. 8c; ¼ oz. 30c.

GIANT FLOWERING BEAUTY STOCKS—A magnificent new strain of early flowering winter stocks forming bushy plants about 2 feet high with tall, strong spikes of unusually large, very double, deliciously fragrant flowers. These plants do not bloom as early as 'Ten Weeks' Stocks, but longer and more profusely. Sown in March and set out in the garden in May they will bloom from July till frost. They are of special value, however, as pot plants for winter flowering in the window-garden or conservatory, for which purpose Seed should be sown from July to September.

Mixed Colors. Pkt. 10c; ¼ oz. 40c.

DWARF GERMAN—Large Flowering Ten Weeks—Fine Mixed—A very popular strain. Pkt. 4c; ¼ oz. 20c.

PRINCESS ALICE PERPETUAL—Cut and Come Again—A pure white double variety, about 2 feet high, producing endless numbers of side branches. Every branch bears a cluster of delightfully fragrant flowers, and new ones are produced to replace those which are removed. Pkt. 6c; ¼ oz. 25c.

Red Sunflower.

Violet

(Viola Odorata)

The true hardy violet, this should not be wanting in any garden on account of its fragrance and early appearance. Succeeds best in a shady, sheltered place, and can be easily increased by dividing the roots. Finest Mixed. Pkt. 6c.

Sweet Rocket

Hardy perennials, bearing purple or white flowers. Plants 2 to 3 feet high. Flowers fragrant, old-fashioned favorite. Double fine mixed. Pkt. 4c; ¼ oz. 10c.

Violet.

VERBENAS

MAMMOTH SORTS—In Separate Colors.

BLUE KING—Showy and distinct, best blue.
BURBANK'S MAYFLOWER—Lovely pink.
GOLDEN BEDDER—Scarlet, yellow foliage.
ITALIAN STRIPED—Striped flowers.

PURPLE—Dark purple, Very rich color.
PURE WHITE—A fine strain.
SCARLET DEFIANCE—Brightest scarlet.
YELLOW—Soft yellow or primrose.
 Price for above, each: Pkt. 6c; 1/4 oz. 25c.

The set of 8 colors, one pkt., each 40c.

BUCKBEE'S GIANT COSMOPOLITAN MIXED

This selection and mixture embraces all the choice and most desirable colors in the Giant Flowering Verbenas; the shades are mostly very delicate and dainty, in fact, perfectly exquisite, there being very little of the common blue and purple colors among them, but instead they have beautiful pinks, lavenders, whites, dazzling scarlet, mottled, striped, blushes, variegated, and all the auricula-flowered varieties with white eyes. It is truly the best Giant, or Mammoth Strain yet introduced for mammoth size flowers, perfect form of trusses and rich velvety colors. Some of the individual florets are nearly as large as a silver half dollar. Pkt. 10c; 1/4 oz. 40c; oz. \$1.50.

CHOICEST PRIZE MIXED

From a most superb collection of named varieties. Very large in flower and corymbs, and of the richest and most brilliant colors. Pkt. 4c; 1/4 oz. 15c; oz. 50c.

LEMON VERBENA

This elegant, fragrant plant is easily grown from seed and succeeds everywhere. Have a good bed of it in the garden over summer so that you can cut its fragrant foliage and flowers to make up with bouquets. Pkt. 5c.

VERBENA ODORATA
 Sweet Scented.

The blossoms instead of being in clusters like other sorts, run up into spikes usually 3 or 4 inches long. Very sweet scented; flowers pure white; comes true from seed. Pkt. 5c; 1/4 oz. 35c.

 QUALITY

Buckbee's
 New
 Giant
 Flowered,
 Zinnia.

Wild Cucumber Vine

The Quickest Climber for Arbors, Trellises, Fences, etc., known. Makes the most massive covering.

We do not offer this as a new variety. It is an old friend with people in the country, and it is undoubtedly the best climber for covering verandas, trellises, etc., never suffering from the heat, but retaining its fresh and lively green color, and what is of prime importance, holding forth throughout the whole summer, whether hot or cold, wet or dry; never infested with insects and very profuse in bloom. Pkt. 5c; oz. 10c.

WALL FLOWER

SINGLE PARISIAN—This annual variety will flower throughout Summer and Fall from seed sown the same Spring. Pkt. 5c.

DOUBLE MIXED—Spikes of deliciously fragrant flowers, combining many shades and colors, chocolate and orange-purple predominating. Half hardy perennial. Pkt. 10c.

WATER LILIES

Flowers of the most exquisite coloring, and so profuse blooming that a tub of them is never without flowers from early Summer until frost. They grow so rapidly that they will bloom in ten weeks from seed and are so little trouble anyone can succeed with them. Select Seed, Mixed Colors, pkt. 10c.

ZINNIAS

BUCKBEE'S NEW GIANT FLOWERED—A superb new class of Zinnias, giant in size, measuring 5 to 6 inches across and perfectly double flowers of richest, most varied colors and shades; plants grow 3 feet high, blooming freely during long periods; particularly valuable for groups. Choicest Mixed, pkt. 6c; 1/4 oz. 30c.

BUCKBEE'S SUPERIOR DOUBLE MIXED—The grandest mixture of double flowers, large size, brilliant colors. Pkt. 5c; 1/4 oz. 10c; oz. 25c.

MAMMOTH ZEBRA—This is really the finest strain of striped or Zebra Zinnias in cultivation. Pkt. 6c; 1/4 oz. 15c.

LITTLE MIXED—Half the height of ordinary Zinnias. Blossoms small, double and of very brilliant colors. Pkt. 5c; 1/4 oz. 20c.

Wild Flower Garden

A mixture of many varieties of beautiful, easy-growing flowers, producing a constant and varied bloom the whole season, and is especially suited for those who wish only a few seeds each of the leading varieties. In no other manner can so many seeds be obtained at such a small cost. Large pkt. 5c; oz. 10c; 1/4 lb. 30c.

Ornamental Grasses

AGROSTIS NEBULOSA (Cloud Grass)—18 inches, delicate and graceful. Pkt. 5c.
BRIZA MAXIMA (Quaking Grass)—18 inches, fine for bouquets. Pkt. 5c.
CORN LACHRYMAE (Job's Tears)—Pkt. 5c.
EULALIA VARIEGATA—4 feet, narrow leaves striped green and white. Pkt. 5c.
EULALIA ZEBRINA—4 feet, dark green leaves with yellow bars. Pkt. 5c.
LAGURUS OVATUS (Hare's Tail Grass)—1 foot, small silvery plumes. Pkt. 5c.
PENNISETUM REPPELLANS—2 to 3 feet, violet-purple plumes. Pkt. 5c.
STIPA PINNATA (Feather Grass)—2 feet, perennial, white plumes. Pkt. 5c.
 Any 3 pkts. of above 10c; any 8 for 25c.

Everlastings.

Everlastings

ACROCLINUM—Double, mixed. Pkt. 5c; 1/4 oz. 10c.
COMPRENSA (Globe Amaranth)—2 feet, many colors, mixed. Pkt. 5c; 1/4 oz. 10c.
HELICHRYSUM—12 to 15 inches high, mixed. 2 1/2 feet high; one of the best. Pkt. 5c; 1/4 oz. 15c.
RHODANTHE—1 foot high, mixed. Pkt. 5c; 1/4 oz. 15c.
NERANTHEMUM—Showy, mixed. Pkt. 5c; 1/4 oz. 15c.
 One pkt. each of the 5 Everlastings, 15c.
MIXED EVERLASTINGS—Pkt. 5c; 3 for 10c; 1/4 oz. 15c.

Ornamental Grasses.

BUCKBEE'S "Full of Life" SUMMER FLOWERING BULBS

REMEMBER, the bulbs offered are large, sound and solid, with live center shoots and are far superior to all small bulbs frequently offered.

WE GROW AND OFFER ONLY THE MOST POPULAR SORTS THAT ARE EASILY GROWN, REQUIRE SCARCELY ANY CARE, AND MAKE A SHOWY AND GORGEOUS DISPLAY. ALL OUR BULBS ARE SURE TO GROW AND BLOOM.

Begonias, Tuberous Rooted, Giant Flowered

Tuberous Begonias are the handsomest of all Summer flowering tuberous rooted plants. They will succeed in any rich, well drained soil, and also make the very finest pot plants for the conservatory or window garden.

New Single Varieties

Snow, snowy white. Moon, golden-yellow. Bride, soft pink. Fairy, rich rose. Glow, scarlet. Warrior, crimson.

Price each, 12c; 3 for 25c; any 6 for 45c.

Buckbee's "Full of Life" New Single, Giant Flowered Tuberous Begonias in grandest mixture. Each 5c; 6 for 25c; doz. 48c, postpaid.

New Double Varieties

Silver, pure white. Sunset, rich yellow. Love, flesh pink. Dream, rose pink. Firefly, scarlet. Meteor, rich red.

Price each, 12c; 3 for 30c; any 6 for 54c, postpaid.

Buckbee's "Full of Life" Double, Giant Flowered Tuberous Begonias, in finest mixture. Each 10c; 3 for 25c; doz. 75c, postpaid.

Two Brilliant Free Flowering Tuberous Begonias

These two varieties are of strong but dwarf growth and produce numberless full, double flowers about 1½ in. across. They are the best varieties for bedding, making a brilliant display of color from July until frost.

Zeppelin—Intense pure vermilion-scarlet. Lafayette—Brilliant crimson-scarlet. Price, each 18c; 3 for 50c; doz. \$1.75, postpaid.

New Frilled Tuberous Begonias

This is unquestionably the finest strain of all Tuberous-rooted Begonias. The flowers are of large size, 4-6 in. across, and have beautifully frilled and wavy petals, not unlike the finest Petunias. Each 15c; 3 for 25c; doz. \$1.25.

Amaryllis Formosissima.

Amaryllis Formosissima

There is hardly a flower which has such deep, rich velvety crimson color, a color so intensely brilliant as this. It is a free bloomer and succeeds well either in pots or in the open ground, and blooms very soon after planting. Few flowers can equal it in richness and beauty of color; blooms profusely every year. 10c each; 3 for 20c.

New Frilled Tuberous Begonias.

NEW FANCY LEAF CALADIUM

**QUALITY
NOTHING BUT
QUALITY**

Caladium, New Fancy Leaved Varieties

For window boxes, house or greenhouse growing this is one of the most decorative plants. Their leaves, handsomer than Begonias, are spotted, marbled, veined and striped with white, pink and dark red. These Bulbs though comparatively rare, are easily grown, and their handsome foliage is much admired. Bulbs should be started into growth in a warm place. Selected Plants, 20c each; 3 for 50c; doz., \$1.75, postpaid.

Elephant's Ear (Caladium Esculentum)

A handsome plant of tropical aspect, bearing leaves sometimes a yard or more in expanse. Effective as a single plant on a lawn, or in groups, also useful for decorative effect near streams or ponds. We make a specialty of supplying bulbs of this splendid plant, and handle them in large lots. **FIRST SIZE BULBS**—1½ to 2½ inches in diameter. Postpaid, 10c each; 3 for 26c; 94c per doz.; By express, not prepaid, \$3.40 per 100. **SELECT SIZE BULBS**—2½ to 3 inches in diameter. Postpaid, 15c each; 3 for 37c; \$1.38 per doz. By express, not prepaid, \$4.85 per 100. **EXTRA LARGE BULBS**—3 to 4 inches in diameter. Postpaid, 24c each; 3 for 65c; \$2.17 per doz. By express, not prepaid, \$8.75 per 100. **MAMMOTH SIZE**—Beautiful Bulbs, 14 to 17 inches in circumference. Postpaid, 32c each; 3 for 96c; \$3.44 per doz. By express, not prepaid, \$14.65 per 100.

Wistaria, Hardy Tuberous Rooted

A valuable and desirable tuberous-rooted twiner, resembling Wistaria in form of leaf and flower, but smaller. Grows to a height of 8 to 10 feet. Dies to the ground each Winter, but the tuberous root is perfectly hardy. The numerous clusters of deep purple, pea-shaped blossoms have a strong, delicious violet fragrance. A valuable vine for trellis or rock work. Plant two or three bulbs near together to produce a mass of vines and flowers.

It is widely popular and should be on every place where flowers are grown. Each 10c; 3 for 25c; doz., 75c, postpaid.

WONDERFUL BLACK CALLA

QUALITY
NOTHING BUT
QUALITY

BOUQUET CALLA

MAMMOTH
EVER-BLOOMING
WHITE
CALLA

Wonderful Black Calla (OR KING SOLOMON'S LILY)

This grand new variety is the wonder and amazement of all. Comes direct from the "Holy Land." The magnificent flowers are sweet scented, and often measure more than a foot in length by 5 to 8 inches in width. The inside color is of the richest velvet purplish black imaginable, while the outside is of a pleasing green. The center spadix rises to a height of 10 to 12 inches and is of the deepest black. The foliage is of solid texture, rich, deep green and elegantly reticulated. True original stock, strong well-grown bulbs. Each 20c; 3 for 50c, postpaid.

Mammoth Ever-Blooming White Calla

One of the grandest of all Callas, being a great favorite everywhere. Its foliage alone makes it desirable as a decorative plant being of perfect form, with large stately leaves of a bright green color, giving it a tropical appearance. Add to this its profusion of superb white flowers, yielded throughout the season, and you have a plant you may well be proud of. Our select stock is adapted for pot culture everywhere. Try this beauty. Strong bulbs which will please you.

Each 15c; 2 for 25c, postpaid.

New Giant Flowered Cyclamen.

The New Yellow Calla.

Special Offer F1 We will mail, postpaid, one strong plant each of the 5 beautiful Callas for only... **59c**

New Spotted Leaf or Bouquet Calla

A great favorite everywhere, each plant being a veritable bouquet in itself. It is of the dwarf, compact, bushy habit, producing a mass of amazingly beautiful leaves, and an abundance of small, pure white Callas, so small that they serve admirably for corsage bouquets. Foliage is deep green, covered with innumerable white spots, giving the plant a magnificent appearance. Each, 10c; 3 for 25c, postpaid.

The New Yellow Calla

Newest and Best of the Calla Family. The bulbs are strong and send up numerous flowers, which are golden yellow with black center. The color is one of the most beautiful shades of yellow seen among flowers and the jet black center lends to the blossoms a peculiar charm. Bulbs are very scarce and a year or two ago sold at \$1.50 each. Each 15c; 3 for 40c, postpaid.

True Little Gem Calla

The pet of all is this new and beautiful miniature Calla, growing only about 8 inches high. It is, indeed, a beauty, completely enveloped in its regal white blossoms, through the entire season. As easily grown as the other Callas. Each 10c; 3 for 25c, postpaid.

Cyclamen

(NEW GIANT FLOWERED PERSIAN VIOLET)
Most beautiful of all pot plants, giving the richest profusion of elegant flowers; foliage decidedly handsome, being variegated with different shades of green, helping to show off the richly-colored flowers. In fact, a plant in bloom resembles a tastily arranged vase of flowers and beautiful foliage.

Price of choice bulbs, 15c each, or 2 for 25c, postpaid.

Cinnamon Vine

Beautiful foliage, dainty flowers, exquisite perfume. Hardy climber with dark green foliage, and late in the season bearing a profusion of small white flowers of a delicious cinnamon fragrance. Perfectly hardy everywhere, the vines dying down to the ground each autumn, but growing very rapidly in early Spring, soon covering any trellis or arbor. Where you wish to hide unsightly places we would suggest planting the Cinnamon Vine. Every tuber sure to grow. Plant any time in Spring. Please order at once.

Strong tubers, each 5c, 6 for 25c, 15 for 50c, 35 for \$1.00, postpaid. Small Bulblets, 10c doz; 60c per 100.

Emerald Vine (Hardy)

This beautiful new vine belongs to the same family as the well-known Cinnamon Vine, but is entirely different and much finer. The vines are of slender growth and very graceful and produced in dense masses. Foliage of good size and forked or divided, of a deep, emerald green with a decided lustre or sheen rarely seen on any foliage. Tubers round and solid like a Gladiolus bulb, therefore, most convenient to handle. Choice bulbs 10c each, 3 for 25c, postpaid. One of the best hardy vines—try it.

Cinnamon Vine.

CANNAS

King Humbert.

CANNA SET

The following are the finest of the latest novelties. They are magnificent sorts with immense trusses of enormous flowers.

GLADIOLUS

Ruffled Glory.

The Gladiolus deserves a place in every garden, large or small, being of easiest possible culture. They make grand beds and the bulbs can be planted any time during Spring and early Summer.

BUCKBEE'S FAMOUS GRAND TWELVE NAMED GLADIOLI

The following are the finest and most distinct sorts, giving a wide range of colors; they include the best of the latest and older sorts. Price, each, 7c, or one each of the complete collection (12 varieties) for only 60c, postpaid.

AMERICA—Beautiful soft flesh pink, orchid-like in its coloring, magnificent large flowers.

BARON HULOT—Dark violet blue, a tall, vigorous grower.

CARDINAL—The most brilliant cardinal-scarlet yet introduced; rich and showy.

DEUL DE CARNOT—Velvety crimson-maroon, shaded black, the richest color of all.

EUROPE—The best pure white; large snow-white flowers.

RUFFLED GLORY—The color is a delicate cream pink, with a most attractive crimson stripe in the center of each lower petal, the shade of which is unique in Gladiolus. The ruffling of the petals has attracted much attention the country over.

MRS. FRANCIS KING—A striking shade of light scarlet, strong spikes, with 18 to 20 immense flowers; most effective in the garden and as cut flower.

MRS. FRANK PENDLETON—Immense lily-like flowers of a brilliant salmon-pink, marked with glowing blood-red blotches in the throat. One of the finest varieties yet introduced.

MAGENTA—Very large flowers, soft, primrose yellow, slightly tinged rosy-carmine in the throat.

PANAMA—A grand new seedling of America, which it resembles, but is of a much deeper pink. Long, straight spikes with very large flowers.

PRINCES—Immense, wide-open flowers of rich, dazzling scarlet, marked with white on the lower portion.

SULPHUR KING—The finest clear yellow yet introduced.

GLADIOLUS IN MIXTURE

New Seedling Gladioli in Separate Shades.

NO. 1—White and Light Shades, such as delicate shades of pink, rose, yellow, etc. Valuable for cutting. 5c each; 40c doz., postpaid. By express, \$2.50 per 100.

NO. 2—Scarlet and Crimson Shades, blood reds, garnets, amaranths, and similar rich shades in great diversity. 3 for 10c; 30c doz., postpaid. By express, \$1.75 per 100.

NO. 3—Blue Shades, including heliotrope, lilac, mauve and similar tints. 6c each; 60c doz., postpaid. By express, \$1.00 per 100.

NO. 4—Yellow and Orange Shades, sulphur, primrose, yellow, different tints of orange and salmon. 6c each; 50c doz., postpaid. By express, \$3.50 per 100.

NO. 5—Pink and Rose Shades. This mixture contains numberless varieties in different forms, tints and shades of rose and pink. 3 for 10c; 30c per doz., postpaid. By express, \$2.00 per 100.

NO. 6—Striped and Variegated Varieties in splendid mixture of all colors and shades. 5c each; 40c doz., postpaid. By express, \$3.00 per 100.

GIANT ORCHID FLOWERING GLADIOLI

Flowers Size of Tea Plates.

This new race of extraordinary beautiful Gladiolus represents the perfection of this genus since its introduction. The flowers have attained enormous dimensions, often 7 to 9 inches across, far surpassing any others and much resembling Orchids of the brightest hues and most curious designs. Every color known among Gladioli is represented, many having beautifully mottled and spotted throats, made up of white, crimson, pink, yellow, etc. of unsurpassed beauty. Finest Mixed, 8c each; 75c per doz., postpaid.

BUCKBEE'S FAMOUS ROCKFORD MIXED GLADIOLI

Gorgeous Colors and Marvelous Markings.

We call special attention to our Famous Rockford Mixed Gladioli which have been constantly improved year after year by discarding all undesirable flowers and developing new shades and combinations of colors, including Chitral and Lemoine kinds, with several other choice varieties of which we do not have sufficiently large quantities to offer separately. This mixture also contains a good many rich blue, purple and wine shades, with vivid tints and variations; all splendid flowering bulbs that will make a grand show, and at such a low price that every one can afford a bed of this most popular bulb. Price, postpaid, 4 for 10c; 25c per doz.; 50 for \$1.00; 100 for \$1.75. By express, not prepaid, \$1.25 per 100; \$12.00 per 1,000.

Imperial Gloxinias

Beyond All Question One of the Most Beautiful Flowers that Bloom.

The Gloxinia is a grand flower and makes a lovely pot plant as easily grown and cared for as many of the common flowers. Without seeing them no one can appreciate their unrivaled beauty. They will bloom in six to eight weeks from time dry bulbs are planted. **EMPEROR FREDERICK**—Red, with white border, 15c each.

MONT BLANC—Pure white, enormous size, 12c each.

DEFIANCE—Rich crimson scarlet, 12c each.

EMPEROR WILLIAM—Violet-blue, white throat, 12c each.

LEOPARD—Beautifully tigered and spotted, 12c each.

PRICE FOR ABOVE NAMED VARIETIES, READY FOR IMMEDIATE GROWTH AND BLOOM: Any 3 for 35c; doz. \$1.15, postpaid.

MIXED STRONG BULBS—10c each; 3 for 25c; doz. 90c, postpaid.

Giant Summer Hyacinth.

Giant Summer Hyacinths (HYACINTHUS CANDICANS)

A species of Hyacinth which blooms during August, September and October, if planted in Spring. The bulbs are large, round and solid, and throw up large flower-stems 3 to 5 feet high, with gigantic spikes of thimble-shaped white blossoms. A bed of a dozen or more bulbs produces a grand effect. A few planted in the center of a bed of Verbenas, Petunias or other flowers make a beautiful display. For a cemetery nothing can be more beautiful or appropriate and nothing thrives better in any situation. Strong bulbs sure to bloom, producing 2, 3 and even 4 flower-stems, 5c each; 6 for 25c; 12 for 45c, postpaid.

R. H. Delaney, Theo. Ark., writes: I have grown your seeds for several years, and I think they are the best I ever used. I never fail to put in a word of praise for Buckbee's "FULL OF LIFE" Seeds to my friends.

Gloxinia, Emperor Frederick.

NOTHING BUT
QUALITY

Golden Trumpet.

Golden Trumpet NOVEL, BEAUTIFUL AND FRAGRANT

A variety of the well-known Amarillid family of free flowering habit, which starts growth and blooms as soon as potted. The flowers are borne in clusters of 4 to 6 and are in color the brightest golden yellow, and such fragrant! Strong and delicious without being in any way rank or offensive as is the case with many highly scented flowers, being a combination between the Lilac and the Tuberose. Two or three spikes of these exquisite large yellow blossoms are produced at each blooming period. Pot the bulbs at any time, winter or spring, and they will soon be in bloom. A truly magnificent plant. Strong bulbs, 5c each; 6 for 25c; 15 for 50c, postpaid.

Incarvillea Delavayi

Hardy Gloxinia.

One of the finest perennial plants introduced in recent years. The plant grows 18 inches high and produces freely clusters of large Gloxinia-like, rose-colored flowers in Spring. Succeeds in shade and sun, but should be protected in Winter. It is desirable also as a pot plant. Each 15c, 4 for 50c, 12 for \$1.25, postpaid.

Climbing Mignonette

or Madeira.

A rapid growing vine, covering a large space in a short time. Flesh, heart-shaped leaves of a light green, and in late Summer, numerous racemes of feathered flowers of powerful and delicious fragrance. A very beautiful and popular vine, which succeeds admirably everywhere and should be extensively planted, being so very cheap, beautiful and fragrant. 5c each; 3 for 10c; 12 for 35c, postpaid.

Climbing Mignonette.

Montbretias

Jerusalem Lily.

One of the brightest and best of summer flowering bulbs, and one which will be more generally used when its merits become more fully known. Plant in clumps of six or twelve bulbs, in May or June. They greatly resemble the Gladiolus in growth, and produce beautiful spikes of star-shaped flowers in various shades of orange, yellow and red. Mixed varieties, 3 for 10c; per doz. 25c; 100 for \$1.75, postpaid.

Montbretia (Jerusalem Lily).

INCARVILLEA DELAVAYI.

THE BEST HARDY LILIES

ALL STRICTLY FIRST SIZE BULBS. Lilies are especially adapted to planting in borders, or between shrubs, etc.

The following are the most desirable and most popular varieties of Lilies for general cultivation. They are hardy, needing little protection, will grow and flower without special treatment. A few clumps planted in your yard where they will not be disturbed from year to year, will reward you with abundant flowers.

LILIUM UMBELLATUM

One of the very best classes of the hardy garden Lilies; strong, sturdy habit, growing from 2 to 3 feet high, having large, showy flowers held upright and in clusters at the summit. They are of easy culture, thriving under ordinary garden conditions, flowering in June and July. The colors range through all the shades of red from rose to blackish crimson, yellow, buff, apricot, orange, etc. Mixed colors. Splendid Bulbs. 10c each; doz. \$1.00, postpaid.

LILIUM TIGRINUM FLORE PLENO

Double Tiger Lily.

This is a plant of stately habit, growing from 4 to 6 feet high, bearing an immense number of double bright orange red flowers, spotted with black. Blooms in August. Splendid Bulbs. Each 10c; doz. \$1.00, postpaid.

LILIUM WALLACEI

This Lily is very floriferous, each bulb throwing up from 4 to 6 flower stems, each one of which is crowned with 8 to 10 beautiful, upright blossoms, of a delicate, bright apricot color. It is very perfect in form, and a most desirable sort. Splendid Bulbs. Each 10c; doz. \$1.00, postpaid.

THREE POPULAR JAPAN LILIES

SPECIOSUM RUBRUM

No words can overstate the brilliant beauty of these famous Japanese Lilies. The six broad white or pink petals are thickly dotted with rose or crimson spots, and the graceful form and brilliant color make them very effective and desirable. Especially thrifty and hardy. One of the best for garden culture; blooms in August and September. Large Bulbs. Each 15c; doz. \$1.25, postpaid.

Liliium Speciosum Rubrum.

SPECIOSUM ALBUM

Pure white flowers with a greenish band through the center of each petal. They are of great substance and very fragrant. One of the best for general culture; blooms in August and September. Mammoth Bulb. Each 20c; doz. \$2.00, postpaid.

AURATUM

(The Golden-Banded Lily of Japan.) This is justly entitled to the name often given it—the Queen of Lilies. The immense blossoms measuring nearly a foot in width when fully expanded—are produced in the greatest profusion—are deliciously fragrant. The large white petals are thickly spotted with chocolate-crimson, and have a bright golden-yellow band through the center of each. Blooms from July to September. Large Bulbs. Each 15c; doz. \$1.25, postpaid.

Special Offer C1

One each of the three Japan Lilies, postpaid
only 40c

LILY OF THE VALLEY BUCKBEE MAMMOTH FLOWERING

No garden is complete without a bed of these Fragrant Flowers. The sweetest, the loveliest Spring blooming plant, producing delightfully fragrant, pure white, bell-shaped blossoms. Will thrive in any common soil and do well in shady places where many other plants fail. They are perfectly hardy and increase rapidly. They are also well adapted for flowering in pots in winter. Large flowering roots, 4 for 15c; 12 for 35c; 100 for \$2.50, postpaid.

THE LEOPARD LILY (Liliium Pardalinum.)

An elegant and very beautiful Lily from California, rich scarlet and yellow flowers, spotted with purplish brown. This is a superb Lily and always gives satisfaction; does well everywhere, blooms finely in the house in pots, also entirely hardy in open ground. It is one of the Lilies you want. Splendid Bulbs. Each 10c; doz. \$1.00, postpaid.

LILIUM TIGRINUM SPLENDENS—IMPROVED TIGER LILY

A grand Lily, sometimes 6 feet high, with large pyramids of orange-red flowers spotted with black, often as many as 20 flowers are counted on one plant. Very hardy. Splendid Bulbs. Each 10c; doz. 90c, postpaid.

Special Offer C2 One fine bulb each of the 8 splendid hardy Lilies on this page, and 4 Lily of the Valley roots, postpaid, only 90c

Lily of the Valley.

Hardy Tuberous-Rooted Moon Flower
(*Ipomoea Pandurata*)

They will stand any vicissitude of weather until frost kills the vine to the ground. Each year it springs up stronger than before, until it becomes a large, luxuriant vine, clothed with a luxuriant growth of pretty cordate leaves, and bearing great quantities, yes, thousands of large, thick-textured waxy flowers of a rich creamy-white, with a throat of violet-purple. It will grow in any soil, no matter how poor, and its blossoms remain open all day, unlike other Ipomoeas. It is perfectly hardy in any climate. 15c each; \$1.50 per doz., postpaid.

Mexican Star Flower
(*Milla Biflora*)

The flowers are pure waxy white, two inches in diameter, star-shaped and usually in pairs on long slender stems. It is beautiful, especially for cutting, as it lasts a long time in water. Too much praise cannot be bestowed upon this lovely flower. It pleases everyone, and should be grown largely. The blossoms frequently last two weeks when cut and placed in vases of water. It is a perfect gem. 5c each; 3 for 10c; 12 for 35c, postpaid.

BIG BARGAINS IN FALL BULBS
Special Prices for Early Orders
See Pages 173, 174 and 175

Mexican Star Flower.

Tuberose
BUCKBEE'S MONSTROUS

A most delightfully fragrant and beautiful summer-flowering bulb. Plants are of dwarf, stocky growth, producing flower-spikes 2 feet high covered 2/3 of their length with perfectly double flowers 2 inches across, which are glistening white and deliciously fragrant. For early flowers start in February or March in Greenhouse or hot bed, planting at intervals as late as August. For flowering in open border, plant about the middle of May. Our select strain of bulbs has no equal and will produce the best and sweetest scented flowers ever seen. Bulbs of good size, each 5c; per doz. 40c; per 100, \$3.00, postpaid. Second size, 25c doz.; \$1.25 per 100, postpaid.

Mammoth Bulbs, blooms enormous in size and very double and fragrant, each, 10c; 3 for 25c; per doz. 75c, postpaid.

Everblooming Tuberose.

Monstrous Tuberose.

Armstrong's
Everblooming Tuberose

This variety blooms year after year and produces single pure white flowers of a fragrance similar to that of the "Jasmine." It makes a splendid cut flower and should be in every one's garden. Each, 7c; 4 for 25c; doz. 60c, postpaid.

OXALIS

Summer Flowering Oxalis

No bulb is so valuable for edging the borders of walks or flower beds as the beautiful flowering Oxalis.

DIEPPE—Pure white; very fine.
LASANDRIA—Fine rosy-pink, beautiful cut foliage.
SHAMROCK—Lovely clover-like foliage and pink blossoms.
MIXED COLORS—Several sorts.
Price of bulbs of the above four varieties, 10c per dozen; 25 for 15c; 100 for 40c, postpaid.
MAMMOTH BULBS—These bulbs are nearly as large as Gladioli, and will produce a wonderful profusion of bloom. 5c each; 3 for 10c; 12 for 25c, postpaid.

Shell Flowers (Tigridias)

One of the most showy of all Summer bulbs, and blooms from mid-Summer until frost, growing 2 feet high, with large, wide-open, triangular blooms, 4 to 6 inches across. The colors and markings are very brilliant and peculiarly odd and attractive. They look well if associated with Gladioli, Lilies, etc. They also require the same treatment as Gladioli, and should be lifted in Autumn and dried the same way. All Colors Mixed. 5c each; 40c per doz., postpaid.

Fairy Lilies (Zephyranthes)

Pretty flowers, similar to the Amaryllis but of miniature growth. The best way is to plant several bulbs in a box or flower-pot. They can also be planted in the open ground in the Spring and lifted in the Fall, and treated the same as Gladioli. All colors mixed. Each 5c; doz., 40c, postpaid.

Shell Flower of Tigridia.

Fairy Lilies.

PLANT DEPARTMENT

Our Mammoth Greenhouses Contain over 250,000 square feet of Glass devoted to Growing Millions of Buckbee's Famous "Full of Life" Plants.

Our List of Plants for House Culture, also for outdoors has been carefully revised and is up-to-date and we offer only the most valuable, easily grown and popular varieties that cannot fail to give satisfaction.

Acalypha.

The Wonder Bedding Plant Acalypha

Brighter and More Attractive than Coleus.
BRIGHTER, AT FULL TINTS.—A most wonderful plant, surpassing the finest Coleus or Begonia in the rich color of the leaves, which are beautifully marked with a bright green color margined with a wide irregular band of lemon yellow and having wide yellow bars running lengthwise of the leaf, and also thickly dotted with yellow blotches. Its most important feature is its wonderful qualification for bedding, as it will stand bedding out like a Coleus; in fact, in the sunniest place it produces the highest coloring. 15c each; 2 for 25c.

Asparagus

Plumosus THE BEAUTIFUL LACE FERN.

The rare and delicate beauty of this plant can scarcely be shown by a picture or conveyed by a description. The bright green foliage of very delicate texture falls gracefully, giving it a style and air that cannot be surpassed. No more beautiful decorative plant has ever been produced. As a house plant it is deservedly popular due to the fact that it will thrive under almost all conditions. Strong plants 10c to 15c each, postpaid. Larger plants 25c, 50c, 75c to \$1.00 each, by express, not prepaid.

Asparagus Plumosus.

Asparagus Sprengeri.

Azalea Indica

For late Winter and Spring flowering, and especially for Easter decorations, the Azalea is one of the most satisfactory plants obtainable. The flowers are large and very beautiful, always much admired. Easily grown as a house plant. Our plants are the finest new varieties, and are much superior to the older sorts. We can furnish beautiful specimens from \$1.00 to \$1.50 each. By express at purchaser's expense.

Brazilian Plume Plant

A native of Brazil, of the earliest possible culture, and does well in all kinds of soil, and in any situation. It is a strong, rapid grower, and throws long shoots, each of which is tipped with the beautiful pink, plume-like flowers, the ends of every petal drooping in a most charming manner. In appearance the blossoms resemble somewhat a mammoth chrysanthemum, but are three or four times as large, and the petals broader and of different formation. It is a grand pot plant, commencing to flower when the plants are very small, and blooming profusely for several months out of the year. 15c each; 2 for 25c.

Azalea.

Brazilian Plume Plant.

Japanese Air Plant

UNIQUE—FAIRY-LIKE, Dainty and DELIGHTFUL.

This charming, decorative, curious and wonderful Air Plant requires no water or soil to thrive; but lives on air, and will keep fresh and green and fluffy for an indefinite period.

Very ornamental and suitable for all occasions; presenting at all times a fresh, green, feathery, attractive appearance. The plants can be hung or placed in any receptacle desired. Nothing is prettier for home decoration or more acceptable for a gift. 15c each, postpaid.

BUCKBEE'S PLANT FOOD

Produces early and abundant blooms and healthy plants. Pkg. 25c postpaid (enough for 30 plants for 3 months).

Araucaria.

A MOST VALUABLE BOOK

How to grow flowers and seeds. Price 50c or free with an order for \$1.50 and upwards.

Araucaria Excelsa

(Norfolk Island Pine.)

As a decorative plant for the house this is one of the handsomest and most serviceable. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequalled. It is hardy and thrives in the dry air, dust, etc., of the ordinary living room. Fine Three Layer Plants, postpaid, 99c Larger Plants, by express, \$1.50, \$2.00 to \$3.00 each, not prepaid.

Asparagus

Sprengeri

The Charming Ever-aud Feather Fern.

Grows free the whole year round, producing sprays 4 to 5 feet long of fresh green feathery foliage. Valuable for cutting for fine cut flower work, more particularly in use with large Roses. Grown in suspended pots it makes a very pretty decorative house plant. Strong plants, 10c to 15c each, postpaid. Larger plants, 25c to 50c to \$1.00 each, by express, not prepaid.

REX OR PAINTED LEAF BEGONIAS

Rex Begonias are the most beautiful and the most desirable of decorative foliage plants for house and conservatory culture; they are strong, bushy growers and their grand ornamental leaves are exceedingly beautiful and always greatly admired. Give them a soil composed of rich loam, wood earth and sharp sand, a warm moist atmosphere and a shady situation. Do not allow the sun to strike the leaves while wet, and do not over-water.

MIKADO.

This is the finest and largest of any of the Rex family. It is a cross between Begonia Diadema and a Rex variety, but retains in a marked degree the Rex character. Fine plants, each 25c; 3 for 50c.

LORD PALMERSTON.

The leaves are extra large with a dark bronze center, silver band and irregular bronze border blotched and specked into the silver. The edge of the leaf is luted and irregular. Under side a pea green with red veins. Fine plants, each 20c; 3 for 50c.

LOUISE CLOSSON.

Coloring of this variety is magnificent; center of leaf deep bronze with broad band of silvery rose, edge bronze, giving the whole leaf a purplish tint. The brightest colored Rex yet introduced. The zone of rosy heliotrope is broad and very highly colored, the habit and freedom of growth exceptionally good, while the metallic lustre is very bright. Fine plants, 20c each; 3 for 50c.

ALFONSO.

A grand variety; leaves very large, soft, rich, velvety green splashed all over with silver markings, shaded and veined with rose and pink. Fine plants, each 15c, 2 for 25c.

New King of Rex Begonia.

KING OF REX.

Extra large leaf of fine silver, small, dark, starry center and edge embroidered in the same dark shade. Extra fine. Select plants, each 20c, 3 for 50c.

EMPEROR WILLIAM.

A very short, bushy-growing variety. The most part of the leaf is of a silver color streaked with dark green on the edges. A very pointed leaf with a hairy growth on the edges. Fine plants, each 15c; 2 for 25c.

Special Offer

One Choice Plant Each of the above Six New and Rare Rex Begonias for only 75c, postpaid.

FINEST FIBROUS ROOTED FLOWERING BEGONIAS

The Flowering Begonias are among our most beautiful and satisfactory flowers for house culture and bedding. They grow nicely, make neat, handsome plants, bloom constantly, and their pretty, wax-like flowers and glossy, bright-colored leaves and stems are always greatly admired.

GLOIRE DE CHATELAIN.

This beautiful new Begonia is the latest novelty in the Begonia family. Its foliage resembles a little that grand old variety, Vernon, rich, glossy-green, often shaded a deep bronze. It begins flowering during the summer months, and is a mass of bloom all through the winter. Flowers, when first opening, are bright cherry, changing to a clear coral-red. Each, 15c. Larger plants, each, 25c.

OTTO HACKER.

In a class by itself. A strong, vigorous grower, of fine upright habit, with large shining deep green leaves eight to ten inches long. Flowers bright coral-red, borne in immense clusters eight to ten inches across. Each, 15c.

ARGENTEA GUTTATA.

It has pure-bronze leaves, oblong in shape, with silver markings and large trusses of flowers. In every way a most beautiful Begonia. Each, 15c; 2 for 25c.

MULTIFLORA.

Makes beautiful plants for pots or bedding, graceful drooping branches, covered with bright rosy-pink flowers. Very free-blooming. Each, 10c; 3 for 25c.

METALLICA.

This elegant variety has very large glossy leaves shaded with green, crimson and olive, with a peculiar metallic lustre over all. Flowers large, rose or pinkish white. It is one of the most popular, desirable and showy varieties in cultivation, and should be in every collection. Each, 15c; 2 for 25c.

THURSTON.

This Begonia is a cross between Metallica and Sanguinea, having the bright red foliage and veining underneath the leaves, and bright green shading to red in the younger growth on top. The flowers are a beautiful deep pink in bud, but when expanded become a shell-pink. Each, 15c; 2 for 25c.

ROBUSTA.

This is one of the most peculiar Begonias grown. The stock, stem and under side of the leaf are Indian-red; the upper side of the leaf glossy olive-green. The petals are white with a distinct pink stripe in the center of each, and are enlivened by golden anthers; the buds are coral red. The plants are of most elegant and chaste appearance. Each, 10c, 3 for 25c.

RUBRA.

One of the finest Begonias in cultivation. Its dark, glossy-green leaves, combined with its free-flowering habit, make it one of the very best plants for house or conservatory decoration. The flowers are a scarlet-rose color. Each, 15c, 2 for 25c.

Special Offer The full set, one each of the 8 Flowering Begonias on this page, for 75c, postpaid.

Lord Palmerston Begonia.

QUALITY
NOTHING BUT
QUALITY

Argentea Guttata.

Watermelon Begonia.

WATERMELON BEGONIA

A Most Beautiful Ornamental Plant from the Sandwich Islands.

Excellent for display on the dinner table or parlor window. The leaves are distinctly variegated white and green, thick and waxy-like and have the appearance of being powdered with frosted silver. Price, 15c each, 2 for 25c, postpaid.

BUCKBEE'S Ever-Blooming CARNATIONS

There is no sweeter flower than the Carnation Pinks. They are the most popular, beautiful and desirable cut-flowers for personal wear and for decorations. The mammoth new ones are giants in size, some 3 to 4 inches across, beautiful in coloring, perfect in form and shape of flower. Strong stems, free-flowering and delightfully fragrant and of lasting quality; useful for every occasion. We make a specialty of new creations in "Full of Life" Carnations and sell none but the choicest. The following varieties are offered with every confidence that they will satisfy and delight all our customers. Every variety catalogued below is a winner at the Flower Shows.

\$1.00 Exhibition Collection

- Of 12 Best and Newest Carnations for only \$1.00, postpaid.
- NELLIE TEMPLE**—Color, bright rose-criser, very close to Mrs. Lawson in tint. It is a strong grower and a good keeper, with long, stiff stems. A most charming variety. 15c each.
- CALIFORNIA**—A noble flower, on stiff stems, white with carmine markings, beautiful variegated sort. 15c each.
- MAY BUCKBEE**—An exquisite shade of satin pink; has a fine stem. Strong calyx and the freest bloomer extant. 15c each.
- MRS. C. W. WARD**—A beautiful shade of deep pink. Flower 4 in. and over in diameter with 2 ft. stem. Early and continuous bloomer. 15c each.
- MRS. GEO. BECKWITH**—A new scarlet seedling that won the Silver Cup and also the Sweepstakes Prize at the Chicago Show. 15c each.
- SNOWING**—A grand novelty in white, flowers of largest size, 3 1/2 in. across. Stems long, stiff and wiry. Flowers do not burst. 15c each.
- BEACON-LIGHT**—Color, pure bright red; flower 3 1/2 in. across. Free bloomer, coming into flower in October and by 2 a.m. is in full bloom and flowers continually until the end of the season. Calyx never bursts. Stems long and stiff. 15c each.
- DOROTHY GORDON**—Color deeper and brighter than Enehantriss and holds better, grows upright with stiff stems. 15c each.
- RUBY RED**—Bright scarlet crimson; a fine substantial bloom, very symmetrical with fringed edges. Size of flower 3 1/2 to 4 in. Early to flower and continues throughout the season. 15c each.
- SIHASTA**—A very large free-flowering white variety. The form is beautiful and displays the size to the very best advantage and produces its flowers with great profusion. 15c each.
- FLOWER DIRECT**—Rich deep pink, large flowers with long stems; very handsome. 15c each.
- ETWAH**—A beautiful pink, the shade so greatly in demand, but not found in other sorts. A pure pink without salmon or cerise in its shadings. Flowers are large. 15c each.

THE NOVELTY CARNATION "BLUE KING"

This greatest novelty in Carnations is a marvel of beauty, bearing a flower of an entirely new and distinct shade, a color hitherto unknown in Carnations, which catches the eye at once and causes everyone to exclaim: "What an exquisite color!" The flower is best described by the words—bluish, purplish-crimson, rich deep and intense, the blue shade being at times very pronounced, with ox-blood shadings. Flowers very perfect, measuring 3 1/2 inches across when well grown; long, strong stems. A healthy and vigorous grower, very fragrant and a free bloomer. It is the richest and most startling color in the Carnation family. Price, 20c each or 3 for 50c, postpaid.

QUALITY

Nellie Temple.

50c Surprise Collection

- Of 8 Beautiful Varieties for only 50c, postpaid.
- AFTERGLOW**—Deep pink; extra long stems and large flowers. A strikingly handsome and very valuable new sort. 10c each.
- DOROTHY CAY**—One of the finest variegated Carnations in cultivation, particularly in its prolific blooming. Flowers are not so large as some, but so many more. Color pink with a white stripe. 10c each.
- SARAH HILL**—A fine, strong growing white variety, a very free bloomer and fine keeper. 10c each.
- ELDORADO**—Light, clear yellow, petals edged with a narrow band of light pink. A strong vigorous grower with fine healthy foliage, stems of good length, supporting large, finely formed flowers. 10c each.
- ESTELLE**—One of the most fragrant Carnations. Color, a clear, bright glowing scarlet, a most continuous bloomer and distinct in color from any other sort offered. 10c each.
- MAY DAY**—A clear pink, a fine Carnation in size and form. 10c each.
- O. P. BASSETT**—One of the showiest varieties of Carnations. Nothing will equal it for large flowers, for quality and quantity. Color, a flaming scarlet. 10c each.
- WHITE ENCHANTRESS**—The purest white sport from the variety Enehantriss. 10c each.

25c Bargain Collection

- Of 4 Sterling Carnations for only 25c, postpaid.
- CARDINAL**—A bright crimson with flowers of an enormous size. This new Carnation has taken several prizes at the latest shows. It is a strong grower indoor as well as out. It is an early producer and increases in quantity as late as July. 10c each.
- G. H. CRANE**—Color, a flaming scarlet; growth hardy; broad foliage, and makes a well-formed plant. 10c each.
- FLORA HILL**—One of the very choicest white varieties; of large size. 10c each.
- MRS. THOMAS W. LAWSON**—The famous "Lawson Pink." This is the most popular Carnation of all, producing more flowers and of larger size than any other variety. The best of any of the dark pink Carnations. 10c each.

75c Paradise Collection

- Of 12 Lovely Carnations for only 75c, postpaid.
- COLUMBIA BLUE**—Delicate flesh pink, the largest and most beautiful Carnation ever raised. Not anything yet produced can approach it in size, color or freedom of growth. 10c each.
- KISHWAUKEE**—Magnificent large scarlet flowers. Strong clove fragrance. 10c each.
- FRANCES BUCKBEE**—Brilliant crimson. A big advance over all others of this color. The plant is a free and easy grower, and always in bloom all the way through the season. 10c each.
- COL. GEO. BAIN**—A perfect wonder. Large white, with excellent calyx and stem. Strong, vigorous grower, very free bloomer. 10c each.
- MISS ETHEL ROOSEVELT**—A beautiful silvery pink, darker to center; strong stem; free bloomer. 10c each.
- M. A. PATTEN**—The newest striped Carnation. Color, white with red stripe. Blooms large and spreading, stiff stem and a fine grower. 10c each.
- ROSE PINK ENCHANTRESS**—A true pink in color. Surprisingly beautiful. Largest of any and a prize winner over the strongest competition. Strong grower, free bloomer. 10c each.
- SUNBEAM**—Strong grower and free-flowering; long stem; flowers three inches in diameter and a deep golden yellow, with faint red stripes. 10c each.
- THE BEACON**—Ideal shade of scarlet; exquisitely fragrant. One of the most popular new Carnations. Plant is of strong growth and blooms freely. 10c each.
- VICTORY**—Intense scarlet with a bright orange glow to the coloring. Very popular. The flowers are borne in great profusion, the plant making a vigorous growth. Has a stiff, wiry stem. 10c each.
- WHITE PERFECT**—A great new white, very fragrant. Long-stemmed and best stems of any white Carnation. Thoroughly up-to-date in every respect. 10c each.
- WINDSOR**—A grand new variety; color pure medium pink; form size and growth of the best. 10c each.

CHRYSANTHEMUMS

BUCKBEE'S GRAND PRIZE-WINNERS

THE QUEEN OF AUTUMN FLOWERS

For massive blooms, grandeur of color, ease of culture and certainty of flower, either in the open ground or in pots, there are no plants that will surpass them, and but few their equal. Every sort we offer, if well grown, should prove a prize winner.

- WINTER CHEER**—A massive flower of deep violet rose, shaded silver. 10c each; 3 for 25c, postpaid.
- VIRGINIA FÖEHLMANN**—The great prize-winner. Pure white of largest possible size. 10c each; 3 for 25c, postpaid.

Giant Flowering Japanese Chrysanthemums

THE LATEST INTRODUCTIONS FROM THE FLOWERY KINGDOM.

- The Set of four Mammoth Varieties only 25c, postpaid.
- DUBLIN LADY**—A changeable glistening purplish bronze. 10c each, postpaid.
- MRS. W. F. BARNES**—Magnificent large glistening white. Strong grower. 10c each, postpaid.
- COL. FRED STERLING**—An extremely handsome yellow. Color is bright and pure. 10c each, postpaid.
- W. F. WOODRUFF**—Color varies from yellow to bronze. A handsome and striking variety. 10c each, postpaid.

Hardy Garden Chrysanthemum Collection

Easily grown, perfectly hardy; will live outside during the Winter months without protection. There is a delightful charm about them in contrast with the indoor varieties.

Special Offer F8 The Set of 6 Newest Varieties, Postpaid, 50c.

- GOLDEN FLEECE**—Pure yellow. Extra fine. 15c each; 2 for 25c.
- CHARLOTTE**—Deep crimson. One of the richest and most effective. 10c each; 3 for 25c.
- PRINCESS LOUISE**—Orange brown. Exquisitely beautiful color. 10c each; 3 for 25c.
- LULU**—White. One of the most beautiful. 10c each; 3 for 25c.
- CHIVIERE**—Crimson maroon. Very free blooming, first class. 10c each; 3 for 25c.
- HALO**—Golden bronze. One of the best in the family. 10c each; 3 for 25c.

Crab or Christmas Cactus

(See cut 222)

An early flowering crimson scarlet variety, with long drooping flowers, borne in great profusion. Stems branching and hanging in bunches. It grows and blooms with the greatest ease, requires absolutely no care, living for months without water, increasing in value yearly. Fine plants, 15c each; 2 for 25c; postpaid.

COLEUS

Beautiful Fancy Varieties.

These beautiful new Coleus are much used for planting beds and borders; also for pots, window boxes, vases. SPECIAL OFFER 84—Each 8c, or the full set of Six Coleus for 35c; postpaid. Price per 100, by express at 10c's expense, \$3.50.

BUCKBEE'S GEM—A beautiful fancy variety with leaves and finely scalloped edges. The center of leaf is deep velvety-maroon, bordered with fiery-red; the edge is changing to creamy-yellow at the point of leaf.

MISS HETTA KIRKPATRICK—Large w center, shaded with yellow, broad lobed margin.

QUEEN OF THE WEST—Large leaf, slightly serrated; outer band of bright lime-green with margin of bright yellow and center creamy-white; covered with blotches of carmine and maroon.

SPOTTED GEM—Yellow, blotched crimson and green.

TRAILING BEAUTY COLEUS

This Coleus is an entirely new break. It is the only one that trails. The foliage is glorious, having a large, distinct center bright pink or red, with a broad border emerald-green. No plant is more suitable for hanging baskets, window boxes or for pot culture than this one, as graceful branches hang in lovely festoons to three feet in length. Several plants in basket make a lovely sight.

15c each; 2 for 25c, postpaid.

Crown of Thorns.

Crown of Thorns

The Great Biblical Plant.

On the Wild Rocky Hills of Judea this emblematic plant is found. Very peculiar, thorny, with a few bright green leaves and an abundance of light rose blossoms. Easy to grow, can be trained to assume any desired shape. Fine plants 20c each; 3 for 60c, postpaid.

Chinese Paper Plant

A magnificent pot plant, with splendid Camellia-like deep shining green foliage. Commences to bloom when small and continues throughout the year. When older it is literally covered with blossoms of a dazzling rose-crimson, with deep golden yellow anthers.

Each 15c; 2 for 25c, postpaid.

New Comet Plant

The Most Unique Flowering Plant of the Century.

Fluffy, trailing, tail-like blossoms, soft crimson scarlet. It is difficult to conceive anything more unique, more pleasing, or more satisfying than this new plant fresh from the Orient. It is easily grown, and there is nothing approaching it, with its soft, crimson scarlet, fluffy, tail-like blossoms, 20 to 30 inches long on specimen plants. Fine plants, 15c each; 2 for 25c, postpaid.

New Comet Plant.

GOLDEN BEDDER—Clear yellow when well developed, edge somewhat crinkled, with center rib of lighter yellow.

DENERIA—The grandest Coleus of recent years; has a deep velvety texture. Crimson-maroon center; beautifully scalloped edge of light red.

Chinese

Paper Plant.

Dragon Plant (Dracena Indivisa)

A very beautiful house plant, also desirable for vase or garden, with slender, drooping leaves; often called "Fountain Plant." Price, postpaid, 10c each; larger plants 25c; extra large specimen plants by express, not prepaid, \$1.00 each.

QUALITY
NOTHING BUT
QUALITY

Dragon Plant (Dracena Indivisa)

DAISIES

MRS. F. SANDERS—The flowers of the most glistening white throughout, frequently measuring five inches across. The center of the flower is a mass of closely arranged fringed florets, surrounded or edged by broad shining petals, produced on long stems. 15c each; 2 for 25c.

BLUSH QUEEN ALEXANDRA—The new Mammoth White Paris Daisy. Single, semi-double and often fully double blooms appear on the same plant. 10c each; 3 for 25c, postpaid.

YELLOW DAISY—(Etoile d'Or)—The New Yellow Paris Daisy; a rich golden color. 10c each; 3 for 25c, postpaid.

BLUE DAISY—(Agathe Coelestis)—A beautiful bedding plant and an excellent indoor bloomer. The flowers are daisy-shaped, of a delicate light blue, with a yellow disc. Flowers all the year round. 10c each; 3 for 25c, postpaid.

New Double Daisy, Mrs. F. Sanders.

BUCKBEE'S BEST FERNS FOR HOUSE CULTURE

Japanese Fern Ball.

JAPANESE FERN BALL

This exquisite Fern is rooted in moss, requires no earth. It is simply sown to hang it up and supply it with water once a day. In full growth beautiful foliage extends outward in every direction, as shown. It will grow for years under proper treatment, alternating and resting. They need no earth, dish or pot. Simply soak well with tepid water for an hour and hang up in a warm room. Each 12 for \$5.00; larger size, 75c each; 12 for 1, postpaid.

THE OSTRICH PLUME FERN

(Nephrolepis Plersonii)

Strong, vigorous grower, resembling the Boston Fern somewhat, but the fronds are heavier and more feathery, and grow in a most graceful manner, giving two shades of green and giving a lovely mossy effect, it adds greatly to its beauty. Young plants 10c, 15c each, postpaid. Larger plants 50c, \$1.00, or \$1.50 by Express, not pre-

PORT PARLOR FERN

(Nephrolepis Scottii) Embodies the Boston Fern in all respects, but more erect, has narrower fronds, takes three times as long to grow. Thrives in parlor or living room, requires very little attention. Fine young plants 10c, 15c to 25c postpaid. Larger plants 50c, \$1.00 to each, by Express, repaid.

Moss Fern.

New Roosevelt Fern.

Ostrich Plume Fern.

MAIDEN HAIR FERN

Always in great demand for table and house decoration; will thrive nicely in parlor or living room, and grow more beautiful each year. Price, 15c each, or 2 for 25c, postpaid.

MOSS FERN

A new upright growing Moss with numerous feathery stems branching from the base and forming a dense tuft. Well grown plants attain a height of twelve to fifteen inches. Always fresh and green. Easily grown. Each, 15c; larger size, 35c, postpaid.

FERNS FOR FERN DISHES

We have grown a large quantity of small ferns suitable for Fern dishes. Assorted varieties. Each 10c, 6 for 50c; doz. 85c, postpaid.

New Crested Fern.

THE NEW CRESTED FERN (Whitmanii)

We think this the most popular Fern. Rather dwarf in growth, but graceful, very compact, dense and feathery. Each frond or branch has a double row of perfect little fronds set at right angles to the mid-rib, and so thick they seem almost crowded. It is a healthy, vigorous grower, constantly unfolding fresh fronds of light green that contrast exquisitely with the deep green of the older fronds. It is somewhat like Barrowsii, but decidedly more fluffy, more delicate and beautiful. Fine young plants 15c, 25c and 35c each, postpaid. Larger plants 75c, \$1.00, \$1.50, to \$2.00 each, by Express, not prepaid.

NEW ROOSEVELT FERN

The Greatest Fern of the Age.

In general characteristics it resembles the Boston Fern, but it produces many more fronds, making it a bushier and handsomer plant; then the pinnae are undulated, giving it a pronounced wavy effect seen in no other Fern. Fine young plants, 15c, 25c and 35c each; stronger plants, 50c each, postpaid; strong specimen plants, 75c, \$1.50 to \$2.00 each, by express only, not prepaid.

THE BOSTON FERN

Nephrolepis Bostonensis.

This is one of the old standbys, and still one of the best. Its long graceful drooping fronds often attain a length of five or six feet in a single year. Fine young plants 10c, 15c and 25c each, postpaid. Larger plants 50c and \$1.00 to \$1.50 each, by express, not prepaid.

Maiden Hair Fern.

QUALITY
NOTHING BUT
QUALITY

Little Beauty Fuchsia.

LITTLE BEAUTY

The Greatest Novelty in Fuchsias.

The loveliest-flowering, dwarf-growing Fuchsia known. It is a superb and handsome little beauty, branching like a tree and covered with enormous perfectly formed flowers. Sepals bright scarlet, with rich violet-purple corollas. Vigorous growing, free flowering, beautiful habit. A most charming window plant, remarkable for its constant profusion of exquisitely beautiful flowers, and really one of the most desirable Fuchsias in cultivation. 16c each; 2 for 25c, postpaid.

Gloire Des Marches Fuchsia.

SPLENDID FREE-BLOOMING FUCHSIAS

THE VERY BEST AND NEWEST VARIETIES, EASILY GROWN—SURE TO BLOOM.

Phenomenal Fuchsia.

PHENOMENAL—The largest flowering Fuchsia in cultivation. The plant is a tall grower, branching like a tree; the leaves are dark, glossy green, with veins of dark crimson, giving the foliage a rich ornamental appearance. The flowers are of enormous size, a single flower measuring 3½ inches across; sepals bright scarlet, with rich, violet purple corollas, very double. 16c each, 2 for 25c, postpaid.

SPECIOSA—(The True Winter Blooming Fuchsia.)—This lovely Fuchsia blooms with greatest profusion during Winter, is scarcely ever without flowers from September till June; the flowers are large and of the most graceful form; color, rich carmine and rose; a most charming window plant, remarkable for its bright glossy green leaves and constant profusion of exquisitely beautiful flowers. 10c each, 3 for 25c, postpaid.

TROPHEE—(Double)—Violet blue corolla; very dark rich red sepals, waxy lustre. Plant of fine form, easy to grow, continually in bloom. Positively one of the grandest varieties ever offered. 10c each, 3 for 25c, postpaid.

LOVELY—Large semi-double flowers; color rosy mauve with rich scarlet sepals. Exquisite. 10c each, 3 for 25c, postpaid.

GLOIRE DES MARCHES—Undoubtedly the finest Double W Fuchsia ever sent out; makes a neat compact plant, branches freely and is covered nearly all the time with exquisite double flower largest size and of pure snowy whiteness. 15c each, 2 for postpaid.

BLACK PRINCE—This is, without question, the very finest Fuchsia grown for the amateur to cultivate. It makes a shapely bush robust in growth, free from disease and insects, and is probably the best in blooming. Blossoms of a beautiful waxy-carmine or color. Certainly a plant for easy culture. 10c each, 3 for postpaid.

TRAILING QUEEN—This Fuchsia is an entirely new departure different from other large-flowering varieties in its habit of growth as it is a trailing vine. The young plants, as they commence growth, creep out to the edge of the pot, and then go trailing down ward. It continues growing and branching in this way until vines are a solid wavy mass of the most elegant foliage and perfect flowers. The flowers are borne in large, drooping clusters; large, long, graceful. 15c each, 2 for 25c, postpaid.

A Valuable BOOK of Practical New Information. HOW TO GROW SEEDS AND FLOWERS

A complete guide for the house and garden, profusely illustrated. Price 50c, postpaid, or we will send a copy FREE with an order amounting to \$1.50 or upwards, if requested on the order.

REAL
BARGAINS
IN
NEW GERANIUMS

NEW AMERICAN BEAUTY GERANIUM

A SEMI-DOUBLE OF THE PUREST AMERICAN BEAUTY COLOR.

The only Geranium of its color. The plants are compact, medium tall, of stately shape; lustrous green foliage with a brownish circle. The flower heads are gigantic and the individual blooms measure 2 1/2 inches across; often as many as eight spikes have fully opened, several half open flowers and more are in buds. It surpasses all other Geraniums—in brilliancy of color, in size of its blossoms and trusses and in constancy and profusion of bloom. Fine, strong plants, 20c each, 3 for 50c, postpaid.

DOUBLE NEW LIFE GERANIUM

A Curious and Beautiful Novelty. Always scarce and difficult to obtain. The petals are dark red and in the center of each there appears a small pure white floret, giving the flowers a novel and curious appearance. Very beautiful when flowers are perfect, but variable and best for house culture. This is a grand and strikingly beautiful variety but at the same time one of the most easily grown and satisfactory of all flowering plants. 15c each, 2 for 25c, postpaid.

Double New Life.

Pansy Geranium.

The Pansy Geranium

A Grand House Plant of easiest growth, dwarf habit, and literally covered with flowers all the time, and as it requires little or no attention it is invaluable as a window plant. The coloring and markings of the flowers are most extraordinary—light pink, white, dark purple, black, etc., almost rivaling the Pansy in uniqueness of coloring. It is this combination of coloring which obtained for it the popular name of Pansy Geranium. Strong plants, ready to bloom, 20c each; 3 for 50c, postpaid.

Sweet-Scented Geraniums

10c each; 3 for 25c. The set of 6 for only 40c, postpaid.

THE SET OF SIX FOR ONLY Ivy Leaf Geranium, Duke of Edinburgh 46c, POSTPAID.

Pelargoniums Lady Washington Geranium

Some of the most beautiful of our Summer and Fall flowering plants; they offer a rich and varied assortment of colors, and are different from the common Geranium in foliage and flower; easily grown.

EASTER GREETINGS—A New Everblooming Variety. Flowers large and free, bright amaranth red, each petal marked with a large black blotch. This variety is distinct from the rest, and remarkable on account of its long blooming season, producing its prime crop very early in spring and continuing through out the Summer and Fall. 20c each.

CRIMSON KING—Intense rich crimson, single flowers of extra size. 15c each.

KINGSTON BEAUTY—Single silvery white crimped, full rounded flowers in large, free produced trusses. 15c each.

MRS. ROBERT SANDIFORD—Extra large flowers perfectly double and beautifully faced and ruffled, of glistening snow white color, exceedingly beautiful. 20c each.

MAD. THIRAUT—White, richly marked with rose; petals heavily ruffled, giving the flower a double appearance. 15c each.

Any 3 Pelargoniums for 40c.

The Set of 5 for only 70c, postpaid.

Lady Washington Geranium—Easter Greetings.

HELIOTROPES

Heliotrope Royal Highness.

These are universal favorites on account of their delightful fragrance. Flower equally well as bedding plants in Summer, or as pot plants in the house during Winter.
ALBERT DELEAUX—Foliage is a bright golden-yellow, marked slightly with a delicate green. Each 10c; 3 for 25c, postpaid.
PICCOLA—Rosy-velvet, indeed, almost red, with a distinct, white center showing upright growth, producing immense heads of flowers well above the foliage. Each 10c; 3 for 25c, postpaid.
PRINCE CHARMANT—A variety with handsome foliage; extremely free in bloom; color a lovely tint of bluish-mauve. Like all of the Bruant type, this variety has panicles of bloom of enormous size, is dwarf and compact in growth. Each 10c; 3 for 25c, postpaid.
ROYAL HIGHNESS—Deep blue flowers clustered into great globe-shaped trusses. Each 15c; 2 for 25c, postpaid.

English Ivy, Queen Victoria.

SNOW STORM—Blooms in large trusses of fragrant white flowers. An excellent sort. Each 10c; 3 for 25c, postpaid.
CZAI—Strong, stocky growth, heavily corrugated dark foliage; immense clusters of semi-double flowers, rich purple. Each 10c; 3 for 25c, postpaid.
Special Offer G2 The Full Set, One Each of the above 6 Varieties of Heliotrope only 48c, postpaid.

ENGLISH IVY

QUEEN VICTORIA—This is a hardy evergreen climbing vine, with dark glossy green leaves. Much used for covering walls of churches, etc., and for cemetery work. Is a true evergreen; retains its bright green leaves all Winter and always looks alive, also one of the very best plants for house culture. 10c each; 3 for 25c, postpaid.

Hydrangeas for Pot Culture

These are grand low growing bushy shrubs; much used for decorating lawns and porches during Summer; they bear enormous heads of flowers, often more than a foot in diameter, and not being entirely dry are usually kept in tubs or boxes; set out in Summer and taken to cellar over Winter. The flower is pure white and very effective. Price, 15c each; 2 for 25c, postpaid. Larger plants, 25c to 50c each.

LUE KING—It is especially remarkable for the large size and distinct color of its sterile flowers, which are fully 3 inches across, of a light pink color tinted with mauve. Price, 20c each; 3 for 50c, postpaid. Larger plants, 35c to 75c each.

ONSTROSA COMPACTA—The flowers are something enormous, trusses 15 inches in diameter being a common occurrence, while the individual flowers measure 3 inches in diameter, and are of the most pleasing shade of bright satiny pink. 15c each; 2 for 25c, postpaid. Larger plants, 25c to 50c each.

ED HARRIS—This variety, with heads of blooms as large as a water pail, commences to bear its enormous trusses of deep rose pink blooms while very small, increasing constantly in size and profusion. The stems and branches are dark purplish red. Price, 15c each; 2 for 25c, postpaid. Larger plants, 25c to 50c each.

THOMAS HOGG—Splendid variety; has all the characteristics so valuable in a plant of this kind. When fully grown attains a height and width of over 6 feet, and is fairly covered with immense trusses of creamy white flowers, often measuring 15 inches in diameter. Price, 10c each; 3 for 25c, postpaid. Larger plants, 25c to 50c each.

Special Offer G3 One Each of the 5 HYDRANGEAS. Fine Young Plants, for only 50c, postpaid.

STAR JASMINE

Continuously in bloom. A valuable house plant in Winter; flowers star-shaped, pure white and very fragrant. The idol of poets, and one of the sweetest flowers. Each 10c, 3 for 25c, postpaid.

Star Jasmine.

New Hibiscus "Apple Blossom."

rich bright pink, with deep crimson center; likes heat and moisture and begins to bloom very quickly. 15c each; 2 for 25c, postpaid.
SPECIAL OFFER—One Each of the above 3 Magnificent HIBISCUS for only 35c, postpaid.

HIBISCUS

The Most Satisfactory House Plant.
ORANGE QUEEN—Large, double orange-colored flowers. Very novel and attractive. 15c each; 2 for 25c, postpaid.
BRILLIANT KING—Semi-double flowers of a bright, vermillion-scarlet; petals waved and recurved; the flowers noticeable for the absence of formality, but are very handsome. 15c each; 2 for 25c, postpaid.

APPLE BLOSSOM—This is a truly surprising house plant, the flowers are so immense and yet so beautiful that you can scarcely believe that they are not artificial in some way. It is a rapid, erect grower, with bright glossy green leaves and immense double flowers like those, 4 to 5 inches in diameter. Color rich bright pink, with deep crimson center; likes heat and moisture and begins to bloom very quickly. 15c each; 2 for 25c, postpaid.

New Climbing Lily-of-the-Valley

A beautiful new plant of climbing or trailing habit. It has beautiful heart-shaped leaves and branches freely, growing in the most fine symmetrical form. It is in bloom all the time, the pendulous blossoms appearing at the axis of the leaves and are bell-shaped, pure white, and about the size, form and color of Lily-of-the-Valley. As a specimen pot or basket flower for the window it is a splendid acquisition. Grows very rapidly and makes a lovely plant in a short time. Fine Plants, 15c each, 2 for 25c, postpaid.

New Climbing Lantana.

QUALITY
NOTHING BUT
QUALITY

New Climbing Lantana

Evergreen and Everblooming.

It is at all times graceful, pretty and evergreen, blooming profusely at all stages of growth. The large clusters are of a dainty lilac-pink color with a white center. As its growth is easily controlled by pruning it can be made to fit any space where a large or small vine is desired. It is one of the most charming pot vines for windows and is a splendid garden vine for Summer and never out of bloom. Fine Plants, 15c each, 2 for 25c, postpaid.

Mrs. McKinley.

Manettia Vine

One of the handsomest little vines, easily and quickly grown and blooms continuously. Adapted for hanging baskets, pot culture, vases or bedding. The flower is of the shape and about twice the size shown on bottom of our illustration, and of brilliant scarlet, tipped with clear golden yellow, making it most wonderfully attractive. Each 10c, 3 for 25c, postpaid.

Climbing Lily-of-the-Valley.

MANETTIA VINE

Weeping Lantana

MRS. MCKINLEY—This Lantana is a fine plant, of graceful drooping habit, producing flowers at each leaf. The flowers are a brilliant rosy lilac, borne in elegant clusters, and hundreds and thousands of them are in bloom all the time and literally cover the whole plant. One of the best varieties for hanging baskets. Entirely distinct from any other flower. We make the price very low so as to meet the large popular demand. Each 10c or 3 for 25c, postpaid.

Scarlet Fountain Plant

(RUSSELLIA) A Charming Basket or Vase Plant.

A novel and beautiful plant, suitable either for bedding or pot culture. Has long, wiry, leafless stems, drooping and bearing quantities of long, tubular flowers of the most vivid scarlet color. Blooms almost incessantly as a pot plant. The great drooping masses of bloom are like a fountain of coral, scarlet and green. In the South it is perfectly hardy and a superb garden flower. In any climate it is one of the very easiest of plants to grow, and certainly one of the most brilliant and persistent of bloomers. Price, 10c each, 3 for 25c.

OLEANDERS

These old-fashioned shrubs are becoming immensely popular again. They are very attractive plants that can be grown in almost any soil or situation and kept growing all the year or rested in the cellar. The dark green willow-like foliage is in itself neat and pleasing.

LUTEA, Yellow—Large and very beautiful. Each 15c, postpaid.

LILLIAN HENDERSON, White—Magnificent large, snow-white double blossoms. Each 15c, postpaid.

ROSY MORN, Pink—Large blossoms of fine rosy pink. Each, 15c, postpaid.

VAREGATED—Leaves bordered with creamy white; flowers pink, very double. A magnificent plant, the contrast of foliage and delicate color of blossoms being very striking. Each 20c, postpaid.

SPECIAL OFFER, G1. The full set, one each of the 4 varieties of Oleanders for 55c, postpaid.

Scarlet Fountain Plant.

Oleander—Rosy Morn.

RARE TROPICAL FRUITS

FOR POT CULTURE

These make the most interesting pot plants for the house and are the easiest of all pot plants to grow. Some are handsome in foliage, in blossoms, and all showy, interesting and luscious in fruit, and some of them fruit the greater part of the year.

SPECIAL OFFER A-1

FOR ONLY \$1.00.

We will send by mail, postpaid, one each of the five rare tropical Fruits illustrated on this page. Strong Selected Plants. Safe Arrival Guaranteed.

Surinam Dwarf Cherry

Ornamental as well as useful, both in flower and fruit. The fruits are rich red in color and most delicious. Being of dwarf growth, it makes an desirable pot plant and will interest the "shut-ins" for house culture. Strong plants, each 30c; 2 for 50c, postpaid.

Otaheite Orange

An extra fine pot plant, with glossy leaves, the true fragrant Orange blooms abundant little bright Oranges that hang on the little bush like balls of for six months after they are ripe. It will bloom and fruit in a two-inch and we have seen a plant in a window, that was but 15 inches high had 23 oranges on it. With good light they are never out of fruit from year's end to another, and are also over at least two-thirds of the time. The fruit is very sweet and handsome. Beauty, grace and fragrance there is nothing like it. Our price: Nice young fir plants, postpaid 10c to 15c each; extra strong plants, 25c each, postpaid. Fine 2-year-old plants for immediate effect by express, 50c each. Extra plants by express \$1.00 to \$2.00.

Buckbee's New Everbearing Ponderosa Lemon.

Buckbee's New Everbearing Ponderosa Lemon

A Lemon that can be as easily grown in a pot as a Geranium and which produces fruit weighing from one to three pounds each. These enormous fruits are borne on plants one to two feet high growing in pots. It is everbearing and its fruit is delicious for lemonade and culinary purposes. The enormous Lemons have a thin rind and are full of acid juice. Will thrive in any good soil, either indoors or out. One of the very finest plants for house culture. Our price is for the very best plants: Select, each, postpaid, 25c. Smaller, thrifty plants, postpaid, 10c to 15c each. Splendid 2-year-old plants for immediate effect, by express, 50c. Extra large plants, by express, \$1.00 to \$2.00.

Smyrna Fig

A dwarf variety imported from the far East, of compact, hardy growth, making little wood. As a pot or tub plant it is extremely valuable either indoors or outside. It will winter safely in an ordinary cellar, or it can be allowed to harden off with a few frosts in the early Fall and then brought indoors for growing during the Winter. The fruit is of medium size, very sweet and almost seedless. For the South it is nearer a perpetual bearer than any other variety of Figs, and will produce three crops in a season. The Ideal Fig for pot culture in the North, and it is one of the rare plants that you should not miss getting. Strong plants, each 30c, 2 for 50c, postpaid.

Strawberry Guava

Another luscious tropical fruit and charming house plant, rivaling the famous Otaheite Orange in beauty. It is a nice, clean grower, with thick glossy, green leaves, and like the orange, it bears both flowers and fruit at the same time. The flowers are pure white and delightfully fragrant. The fruit is large, nearly the size of a walnut, of a beautiful reddish color, and delicious, sweet and spicy flavor. It makes the highly famed Guava Jelly. The plant begins to bloom and bear fruit while quite small. Price, strong plants, 20c each; 3 for 50c, postpaid.

Strawberry Guava.

BUCKBEE'S GIANT

For Immediate Planting that will go into flower at once. Wintered in old frames, 500,000 Choice Plants, ready for Early Shipment. Absolutely the finest stock we have grown. None but the choicest, different colors. Infinite variety. Kentia Belmoreana.

Chamaerops Excelsa.

LATANIA BORBONICA

QUALITY
NOTHING BUT
QUALITY

Seaforthia.

CHAMAEROPS EXCELSA (Japanese Fan Palm)—One of the hardest of the Fan Palms. Foliage dark green; the segments of the fan-shaped leaves deeply cut, the edges covered with tooth-like spines. Grows from 15 to 20 feet high; very desirable for lawn decoration. Fine plants 20c each, postpaid.

KENTIA BELMOREANA—Exceedingly popular parlor Palm. Decidedly rugged under all kinds of treatment. Fine plants 20c each, postpaid.

KENTIA FOSTERIANA—Without exception the most hardy Palm in its class. Quite graceful and scarcely has an equal for table decoration. Fine plants 20c each, postpaid.

LATANIA BORBONICA—This is one of the very best Palms for house culture, so hardy as to thrive in any ordinary living room, in spite of heat, cold, dust or draught. Has elegant fan-shaped leaves, rich dark green, beautifully fringed. Grows easily, needs no petting or coaxing. Fine plants, 20c each, postpaid.

PHOENIX CANARIENSIS—Beautiful, strong-growing Palm with glossy, dark green foliage. Sure to please and easily grown. Fine plants 15c each, postpaid.

SEAFORTHIA ELEGANS—A magnificent plant for Jardinieres or center of tropical bed. Most graceful. Leaves of rare beautiful form. Fine plants 20c each, postpaid.

Phoenix.

Resurrection Plant

When dry it looks like a ball of dead leaves, but as soon as dropped in water it transforms into a rosette of green beautiful leaves. 10c each, 3 for 25c.

India Rubber Plant (Ficus Belgica)

The Indian Rubber Tree is well known as one of the finest plants for table and parlor decoration. It has large, thick olive green leaves and graceful polished stems. Will stand much more neglect than most plants. Fine plants 50c and 75c each, postpaid. Larger plants by express, not prepaid, \$1.00, \$1.50 and \$2.00.

Australian Silk Tree

A fine plant for house culture, of rapid growth, finely cut foliage. The young fern-like leaves are of a light brown color, the tips being covered with a soft down, closely resembling raw silk, hence the name "Silk Oak." In its native place it grows large and has bright, orange-colored flowers. 15c each; 2 for 25c.

India Rubber Plant.

Australian Silk Tree.

Umbrella Plant.

The Beautiful Tiger House Plant

Sanseveria Zealanica. There is no decorative plant that is more striking in foliage and habit than this, and certainly none other that will stand as much downright neglect and hardship. Nothing but frost or a continual drenching with water has terrors for it. It will grow where nothing else does, in a sunless window, a dark hall, a cool bedroom, or stand on the mantel in a heated sitting-room. It will stand gas and dust, and will go for months without a drop of water, yet remain as thrifty as ever. Singularly beautiful, as well as easily grown. Erect, rigid, sword-like leaves, in some old specimens reaching a length of from four to six feet. The leaves are thick and fleshy, a dark green color, with clouded bars of white. In May and June it sends up long, soft feathery white flower spikes. The splendid outlines of this plant, together with its distinctive marbling, make it a superb plant for jardinières, centers of vases, etc. It will also grow splendidly out of doors in Summer. It is new and little known to cultivation, but a plant which all will delight to possess. Fine plants, postpaid, each 15c; 2 for 25c. Larger plants by express, not prepaid, 50c to \$1.00 each.

Umbrella Plant

As decorative as a palm. Hardy, us ful and beautiful window plant for seasons, always fresh, green and attractive. Invaluable as an aquatic plant. Stems 2 to 3 feet high, surmounted 1 whorls of leaves. Price 10c each or 3 for 25c, postpaid.

The Beautiful Tiger House Plant, Sanseveria Zealanica.

BUCKBEE'S LARGE FLOWERING DOUBLE PETUNIAS

The Double Petunia is one of the finest bedding plants for making mixed borders and also for vases. The brilliancy and variety of its colors, combined with the long duration of its coming period, render it invaluable for garden decoration. It is a flower for everybody, the smallest yard and the finest park is complete without these butterflies among flowers, that mind their heat, drought nor rain, but bloom in profusion the whole season. Our collection is unsurpassed for brilliancy of color and size of bloom.

MAJESTIC

Rich, deep purple, shaded crimson. 10c each.

PINK BEAUTY

A very handsome shade of pink, the only pink variety known. 10c each.

SEA FOAM

The finest petunia grown; color a sea-foam white; flowers of the largest size and beautifully frilled. 10c each.

STRIKING

Rich purple, mottled and edged white. A most beautiful combination of colors fully meriting the name Striking. 10c each.

SPECIAL OFFER G6. FOR ONLY 30c. WE WILL SEND POSTPAID THE FOUR LOVELY PETUNIAS LISTED ABOVE.

Petunia Pink
Beauty.

SHOWER OF GOLD (Genista)

A beautiful yellow flowering plant that grows and flowers freely with ordinary care, covering the plant literally with its rich golden-yellow blooms when well grown. A very popular plant for Easter decorations, at which time it is usually a mass of bloom. 15c each; 2 for 25c, postpaid.

SWAN FLOWER (Swainsonia)

ALBA—This is a very beautiful plant, both for flower bed and house culture; flowers are pure, snowy white, and borne in pretty sprays all over the plant. Price, 10c each; 3 for 25c, postpaid.

ROSEA—Same as Alba except in color, which is bright, rich, rosy red. Price, 10c each; 3 for 25c; postpaid.

Royal Purple Plant.

QUALITY
NOTHING BUT
QUALITY

Royal Purple Plant (Strobilanthes.)

The leaves are beautifully variegated, with a deep metallic purple, shaded with dark rose and margined light green. It is particularly fine for beds and border and is entirely distinct from any other bedding plant. Grown as a pot plant in the house it is very bright and effective. 15c each; 2 for 25c; postpaid.

Lemon Verbena

A universal favorite and invaluable for its pale green fragrant leaves, so graceful when mixed with bouquets. They will retain their fragrance for years when dried. As a plant for the garden or for pots it is equally valuable. 10c each; 3 for 25c, postpaid.

New Double Violet—Royalty.

SWEET VIOLETS

ROYALTY—The new double Violet. Beautiful azure blue, of rare fragrance. Each, 15c; 2 for 25c.

THE CALIFORNIA—Flowers single, of immense size; color, clear violet purple. The fragrance is delightful. Each 10c; 3 for 25c.

GOVERNOR HEIKICK—Rich, dark purple; single flowers of lovely fragrance. Each 10c; 3 for 25c.

IMPROVED MARIE LOUISE—One of the finest double blue Violets grown. Very fragrant and a continual bloomer. Each 10c; 3 for 25c.

THE BRIDE—A grand pure white variety. Flowers are double and immense in size, extra early and deliciously fragrant. Each 10c; 3 for 25c.

SPECIAL OFFER E

For only 45c we will send postpaid one fine plant of each of the five Grand Violets listed above. **HARDY VIOLETS**—See page 156

Shower of Gold.

New Blue Star Flower

A Wonderful Novelty—Blooms all the Time.

Actually, a good sized plant is one solid bouquet of most elegant blue blossoms, as many as 300 showing at one time. As a plant for window culture it is one of the very finest things ever introduced and a perpetual bloomer both summer and winter. As a bedding plant it is equally valuable, standing sun and drought, showing a great profusion of blossoms all season. Fine plants for blooming at 10c each; 3 for 25c; 12 for \$1.00; 24 for \$1.00; 36 for \$1.00; 48 for \$1.00; 60 for \$1.00; 72 for \$1.00; 84 for \$1.00; 96 for \$1.00; 108 for \$1.00; 120 for \$1.00; 132 for \$1.00; 144 for \$1.00; 156 for \$1.00; 168 for \$1.00; 180 for \$1.00; 192 for \$1.00; 204 for \$1.00; 216 for \$1.00; 228 for \$1.00; 240 for \$1.00; 252 for \$1.00; 264 for \$1.00; 276 for \$1.00; 288 for \$1.00; 300 for \$1.00.

New Blue Star Flower.

Wandering Jew

(Tradescantia Multicolor.)

Climbing Everblooming Monthly Tea Roses

We have many inquiries for Roses that are both fine and everblooming. The following varieties combine both qualities if protected in Winter.

TECHAL NEIL—Golden yellow. Its magnificent buds are known the world over. Is a profuse bloomer, well grown specimens being loaded with thousands of blooms the entire season. A rapid grower, ten making shoots 20 to 30 feet high in a single season, fragrance delicious. Fine plants, postpaid, 15c each; 2 for 3c. Large 2 yr. old plants, 35c each.

TESS OF CHINA—A strong growing Rose, growing to a height of 15 to 25 feet in a single season. Produces throughout the season hundreds of handsomely formed buds and flowers of a fine pink red, changing to a lighter red or pink. Fine plants, postpaid, 15c each; 2 for 25c. Large 2 yr. old plants, 30c each.

CLIMBING MARIE GUILLOT—Pure white, slightly tinted primrose at base of petals. A vigorous grower of free, continuous bloomers. Buds, beautiful, very durable, deep and of good size. Fine plants, postpaid, 15c each; 2 for 25c. Large 2 yr. old plants, 35c each.

Special Offer -- C-17

The above set of 3 Everblooming Climbing Roses, fine young plants, postpaid, 35c, or we will send 3 large 2 yr. old plants, one each of the above 3 varieties, for only 85c.

The Unexcelled La France Roses

The La France Roses are of the highest merit, and are splendidly adapted for general planting and each of them deserves a place in every flower garden.

PINK LA FRANCE—The color of this is an exquisite shade of sil-

very pink tinged with crimson. The buds are large, beautifully formed and the open flower exceedingly handsome, with a delightful fragrance. In continuous bloom all Summer and late into Fall until stopped by frost. 10c each; 3 for 25c. Large 2 yr. old, 25c each.

RED LA FRANCE—It is much deeper in color than its pink sister, being a brilliant rose pink, handsomely shaded toward the center. 10c each; 3 for 25c. Large 2 yr. old, 30c each.

STRIPED LA FRANCE—The flowers are distinctly striped with pearl-white and satin-rose. 15c each; 2 for 25c. Large 2 yr. old, 35c each.

WHITE LA FRANCE—Silvery white, with the faintest tinge of Rose bush. Buds and flowers are extra large and of splendid shape and exquisitely perfumed. 10c each; 3 for 25c. Large 2 yr. old, 30c each.

SPECIAL OFFER

The set of 4 La France for 35c, postpaid, or 4 large 2 yr. old plants for 95c.

La France

The Famous Soupert Roses

These famous Roses will give absolute satisfaction to every purchaser. They bloom the first year and will be in bloom every year from early spring until severe freezing weather. Flower nicely indoors during the winter months. There are no Roses like them; certainly none better. You try them, take our word for it, you will not be disappointed.

SPECIAL PRICE. Fine plants of the 3 Soupert Roses, postpaid, 10c each, or the set of 3 for 25c. Large 2 yr. old plants, 30c each, or the set of 3 for only 75c.

THILDE SOUPERT—Known the world over and is one of the very best of all Roses. A strong dwarf grower and a truly wonderful bloomer, producing cluster after cluster of the finest formed flowers. In form, they are perfectly full and double and deliciously sweet. The color effect is beautiful—ivory-white shading toward the center to very rose. Has no superior in the open ground. Hardy everywhere.

WHITE SOUPERT—The genuine White Soupert. Identical in every way with Thilde Soupert except in color, which is ivory-white. Free blooming and hardy, a new and valuable addition to this family.

LOW SOUPERT—Everybody's Rose. The flowers are very double and of the same Camellia-like form as Thilde Soupert, and are produced in immense clusters; buds exceedingly dainty. A strong, upright, bushy grower. Color, white on beautiful light yellow ground; later chrome yellow.

Buckbee's XX Insect Soap

For House and Garden Plants

Radiance.

A wonderful insect pest exterminator and unsurpassed for use on all plants and flowers. It is harmless and noninjurious to the tenderest growth. Prevents leaves from dropping and foliage turning yellow. It is odorless, clean and easy to handle. A small piece dissolved in lukewarm water and stirred well until it suds—then applied with a soft sponge is all that is necessary. Price, 4 oz. package, sufficient for two gillons prepared solution, mailed, postpaid, for 25c.

BUCKBEE'S WORLD BEATING ROSE COLLECTION

4 Grand and Superb Varieties sent postpaid for only 35c, or 4 large 2-Year Old Plants for \$1.15

CLIMBING METEOR (Monthly Everblooming Climbing Tea)—A sport from Meteor, famous for its magnificent flowers. True climbing habit, attaining a height of 10 to 15 feet in a single season. Free, persistent bloomer, with magnificently formed buds and flowers. Dark, velvety crimson, the equal of any Rose in cultivation. Hardy with protection, and will give absolute satisfaction. 15c each; 2 for 25c. Large 2 yr. old plants 35c each.

LADY GAY (Hardy Climber)—Deep, rich, rosy pink. The plants are hardy and vigorous; foliage dark glossy green. It forms large, loose trusses, containing from fifty to one hundred brilliant flowers and elegant buds. The trusses are produced in such numbers that they nearly cover the plants. 15c each; 2 for 25c. Large 2 yr. old plants 35c each.

RADIANCE (Monthly Everblooming Tea)—Lovely rosy pink color, and has wonderful lasting qualities, keeping crisp and fresh even in very hot weather. The color is extremely high and clear in all its tones. 15c each; 2 for 25c. Large 2 yr. old plants 35c each.

SILVER CLOUD (Hardy Memorial)—Beautiful foliage and elegant clusters of lovely satiny white flowers produced in wonderful abundance. One of the kinds of Roses the more you see of it the better you like it. 15c each; 2 for 25c. Large 2 yr. old plants 35c each.

BUCKBEE'S HARDY HYBRID PERPETUAL ROSE

AMERICAN BEAUTY The National Rose of America. The Largest, Sweetest and Best of all Hardy Roses. More plants are grown and more flowers are sold of this, "The Queen of all Roses," than any other Rose in cultivation, and deservedly so, for it is one of the grandest and most beautiful Roses now known. It is a genuine Hardy, Ever-Blooming Rose. For immensity in size, rich color, exquisite form and delicious fragrance, it stands without equal. It is a quick and bushy grower, with splendid foliage, producing upon stems frequently over six feet in height magnificent buds and large, deep, double flowers. Is valuable both for house and garden culture. It is the peer of all Roses for forcing purposes, the flowers selling during the holiday seasons at \$12 to \$25 per dozen. Color is a rich, rosy crimson, shaded and veined in the most charming fashion. Strong plants, postpaid, 20c each, 3 for 50c. Large 2 yr. old plants, 40c each.

FRAU KARL DRUSCHKI or White American Beauty. In Existence. This magnificent Rose is the only absolutely pure white, hardy Rose ever introduced. Long buds and immense, perfectly double flowers 4 to 5 in. across, with wax-like, durable petals. It is one of the most free-flowering of this hardy class. Strong plants, postpaid, 20c each, 3 for 50c. Large 2 yr. old plants, 40c each.

GEORGE ARENDS or Pink American Beauty — (New). The color is a tender rose-pink, the flowers are of the same large size and beautiful form as the American Beauty. They are also delightfully fragrant. It is a magnificent variety, with a remarkable free-flowering habit, and we feel confident that this variety will be one of the most popular roses of the future. Strong plants, postpaid, 20c each, 3 for 50c. Large 2 yr. old plants, 40c each.

CLIO One of the most beautiful hardy Roses grown. Awarded two first-class certificates by the Royal Horticultural Society of England. Flowers very large, flesh color, shaded in center to rosy-pink. Strong plants, postpaid, 15c each, 2 for 25c. Large two-year old plants, 35c each.

GEN. JACQUEMIN

Famous throughout the world over one of the most magnificent Hybrid Crimsons ever introduced. Every one wants a "General Jack." Strong plants, postpaid, 15c each, 2 for 25c. Large 2 yr. old plants, 35c each.

GLOIRE LYONAISE Fully colored, large, pale yellow shaded with white, orange and fawn. It is the nearest yellow any hybrid perpetual. Buds beautiful, being long and pointed. Fine strong plants, postpaid, 15c each, 2 for 25c. Large 2 yr. old plants, 35c each.

MAD. CHAS. WOOD Bright scarlet, passes to a fine rosy-crimson. Free bloomer. Delightfully fragrant. Strong plants, postpaid, 15c each, 2 for 25c. Large 2 yr. old plants, 35c each.

MRS. R. G. SHARMAN CRAWFORD Rosy-pink, outer petals shaded with pale flesh, white base of petals; beautiful in every respect. Strong plants, postpaid, 20c each, 3 for 50c. Large 2 yr. old plants, 35c each.

PAUL NEYRON Probably the largest Rose in cultivation and one of the best bloomers. Color bright shining pink, clear and beautiful. Strong plants, postpaid, 15c each, 2 for 25c. Large 2 yr. old plants, 35c each.

PRINCE CAMILLE DE ROHAN Celebrated the world over for its large, handsome, fragrant flowers and the freedom with which they are produced. Color deep, rich, crimson, maroon, shaded black. Strong plants, postpaid, 15c each, 2 for 25c. Large 2 yr. old plants, 35c each.

ULRICH BRUNNER Cherry-red, brilliant and showy; intensely fragrant. Strong plants, postpaid, 15c each, 2 for 25c. Large 2 yr. old plants, 35c each.

ROGER LAMBELIN The Finest Variegated Hardy Rose. Glowing crimson edged with white band. Strong plants, postpaid, 15c each, 2 for 25c. Large 2 yr. old plants, 35c each.

Moss Rose, Henry Martin.

3 Fine Hardy Baby Rambler Roses

Crimson Baby Rambler.

BABY RAMBLER, OR DWARF CRIMSON RAMBLER—A dwarf Bush (not climbing) form of Crimson Rambler, and, furthermore, everblooming. It forms compact bushes about two feet high when fully grown, and is fully covered with clusters of its rich crimson-red flowers throughout the season. Perfectly hardy. It requires no winter care, and should improve each year with good culture. The coloring is brighter than "Crimson Rambler," of which it is a seedling. The size of the clusters and the number of flowers in each are the marvel of all beholders. Its use is varied so as to render it invaluable. As a bedding variety, to make a low, attractive hedge, to border a walk, for planting in cemeteries, or for growing in pots in the house, it stands alone and must find its way everywhere. Remember it is hardy and perpetual flowering.

BABY DOROTHY, THE PINK BABY RAMBLER—The freely branching plants attain a height of about 24 inches, somewhat similar to the Crimson Baby Rambler, the numerous flower stalks containing fifty to sixty flowers and buds at one time. Flowers corse pink, measuring 2 inches in diameter, with a double row of twisted petals; center chrome yellow. Perfectly hardy.

THE WHITE BABY RAMBLER (Catherine Zelmet)—This is surely a beauty and a great addition to the Baby Ramblers. It grows to a height of twenty inches, and produces double pure white flowers in abundance. Of free, compact growth and very attractive. Produces a sheet of white.

Price of any of the above: 1 fine plants, 15c each; 2 for 25c, postpaid. Large 2 yr. old plants 35c each.

SPECIAL OFFER C-6. The set of 3 Baby Rambler Roses, postpaid, 35c, or the set of 3 larger 2 yr. old plants, one each of the 3 varieties, for only 90c.

Hardy Memorial Roses

Sometimes called the Wichuriana Roses, but appropriately classed "Memorials" because everywhere acknowledged to be the most able and satisfactory Roses for cemetery planting. They will climb a trained, or if let alone creep along the ground as closely as an apple tree, and make a dense mat of shiny dark green foliage, which will remain green on the plants nearly all Winter. They bloom in profusion during June and July, and the single ones bear red berries in Autumn. Entirely hardy, and take care of themselves.

WATHA—Brilliant scarlet; bears large clusters of single flowers; light and effective. One of the best in this section.

SEY BEAUTY—Elegant single flowers, 3 inches in diameter, pale yellow, very fragrant.

IDA'S TRIUMPH—Perfectly double, pure white and very fragrant.

ETHEART—Bright, rich pink, with orange red stamens. Flowers single, of good size and very fragrant.

W WREATH—The famous pure white cemetery rose. Hardy as a rock, will grow in sun or shade, poor ground or rich. Makes a beautiful display of blossoms, very large (often five or six inches across), pure satiny white with bright golden center.

VERSAL FAVORITE—Double bright pink, equally as beautiful as a double white and a charming companion for it.

SICE—Any of the above, each 10c; 3 for 25c, postpaid. Large 2 yr. old plants, each 35c.

SPECIAL OFFER C-3 The Set of 6 Memorial Roses for 45c, postpaid, or the set of 6 large 2 year old plants for \$1.50.

Japanese Roses (Hardy Rugosa Roses)

These Hardy Japanese Roses make dense, sturdy, compact bushes, 3 to 5 feet high and are very ornamental. Their dark, rich leathery foliage is shiny, and remarkably free from insect pests; the large, fragrant flowers are produced in profusion throughout the Summer, and followed in the Autumn with a profusion of beautiful red fruits. The plants are hardy as oaks, and do well anywhere. Excellent for making hedges or planting on the lawn with shrubbery or in isolated groups. The best two varieties are the following:

SIR THOMAS LIPTON—Color, pure snow-white, 3 to 4 in. across, and perfectly double. Flowers are very fragrant, borne on strong, upright stems. Price 15c each; 2 for 25c, postpaid. Large 2 year old, 35c each.

AGNES EMILY CARMEN—It is semi-double, and flowers in clusters; a beautiful crimson shade like General Jacqueminot. A rampant grower, handsome foliage. Price 15c each; 2 for 25c, postpaid. Large 2 year old, 35c each.

Hardy Hybrid Sweet Brier Roses

These lovely hybrids are crosses between the common sweet brier and various other Roses, and, like their parent, the foliage is deliciously scented. The flowers are large and produced in great profusion, and the plants are perfectly hardy. Vigorous growers, throwing long, graceful branches, wreathed with flowers.

ANNIE OF GIEBSTEIN—Large, handsome, deep crimson flowers, graceful branching habit; delightfully fragrant. Price, 15c each; 2 for 25c, postpaid. Large 2 year old, 35c each.

AMY ROBSART—Robust grower and free bloomer. Beautiful deep rose-colored flowers. Price, 15c each; 2 for 25c. Large 2 year old, 35c each.

Hardy Climbing Roses (Sure to Grow and Sure to Bloom)

Desirable for covering trellises, walls and porches, as they succeed everywhere. **ALBERIC BARBER**—Creamy-white with canary-yellow center; buds of orange-yellow. Semi-double flowers in immense clusters.

AMERICAN PILLAR—Single flowers three to five inches across, borne in immense clusters. Color lovely apple-blossom pink with golden stamens.

BALTIMORE BELLE—Pale blush, variegated carmine, rose and white, very double. Flowers in beautiful clusters.

CLIMBING AMERICAN BEAUTY—One of the finest climbing roses ever introduced. Same size and color and the same exquisite fragrance as American Beauty, but blooms more profusely not only in spring but throughout the season. Hardy as an oak. Each 15c; 2 for 25c, postpaid. Large 2 year old plants, each 35c.

MARY WASHINGTON—A pure white, hardy constant blooming Rose of strong upright growth; blooms in clusters.

PRAIRIE QUEEN—Bright rosy pink, large, compact and globular flower. Blooms in clusters. One of the best.

TRIEF—Soft rosy blush flowers, full and double, in large clusters.

PRICE. Any of the above except where stated: Each, 10c; 3 for 25c, postpaid. Large 2 year old plants, each 25c.

SPECIAL OFFER C-4. One strong plant each of the above 7 Hardy Climbing Roses for only 65c, postpaid, or the set of 7 large 2 year old for only \$1.75.

CLIMBING AMERICAN BEAUTY

The Famous Hardy Climbing Rambler Rose

EXCELSA OR RED DOROTHY PERKINS

The Finest of All Crimson Ramblers. Very distinct in habit, form and color. The foliage is healthy, dark, glossy green, insect proof and remains almost evergreen, which is a great improvement on all other Ramblers. The flowers are very double, produced in large trusses of 30 to 40 and of an intense crimson-maroon with the tips of the petals tinged scarlet. They are much larger than any other Rambler rose.

Strong Plants, each 15c, 2 for 25c, postpaid. Large 2-year-old plants, 30c each.

IMPROVED CRIMSON RAMBLER

This wonderful Rose is absolutely hardy in all localities, a most vigorous grower, a most prolific bloomer, fine for growing on trellises, well-suited for covering porches, walls, etc., producing a gorgeous mass of crimson blossoms which remain on the plant a long time. Often grows from 12 to 15 feet in a single season. Fine plants, postpaid, 10c each; 3 for 25c. Large 2 year old plants, 25c each.

NEW WHITE RAMBLER

Flowers of the White Rambler have the charm of being sweetly scented. Color a pure white, without a blemish. They remain on the bush from three to five weeks and a well-established plant is a creation of resplendent beauty. The habit of growth is vigorous, young plants throwing up shoots eight to ten feet in height in a single season. Fine plants, postpaid, 10c each; 3 for 25c. Large 2 year old plants, 30c each.

NEW YELLOW RAMBLER

The flowers are borne in clusters, after the same manner as the Crimson Rambler. The color is a decided yellow. Fine plants, postpaid, 10c each; 3 for 25c. Large 2-year-old plants, 30c each.

SPECIAL OFFER C-5 The set of 8 Rambler Roses, one of each, fine young plants, postpaid, 25c, or we will send 8 large 2 year old plants, one each of the 8 varieties, for only \$1.85.

QUALITY
NOTHING BUT
QUALITY

Excelsa or Red Dorothy Perkins.

THE FLOWER OF FAIRFIELD

The Everblooming Crimson Rambler. The beautiful varieties of Rambler Roses are valuable acquisitions, none of them can be called perpetual or everblooming; they producing one crop of flowers during the season. The Flower of Fairfield, however, correctly termed a perpetual bloomer variety. It commences flowering in the Spring or early Summer and produces repeated crops of bloom or late in the Autumn. It is a spire from the famous Crimson Rambler. It is of the same color, if not a shade more brilliant, and has better resiliant power to the sun. Flower of Fairfield blooms very profusely on you wood the first year after planting. Is very effective for covering walls, trellises or arches, and is equally attractive for table decoration or other uses as cut flowers. Strong plants, each; 2 for 25c, postpaid. Large 2 year old plants, 30c each.

DOROTHY PERKINS RAMBLER

As hardy as Crimson Rambler. Flowers about 1 1/2 inches across, borne in clusters of 10 to 20, and very double petals are very prettily rolled back and crinkled. Color is a most beautiful shell pink and holds a long time without fading. Very fragrant, grand rose in every way. Fine plants, postpaid, 10c each; 3 for 25c. Large 2 year old plants, 25c each.

TAUSENSCHON OR 1000 BEAUTY

An entirely distinct and wonderful rose. The flowers are produced in large trusses of 10 to 15 blooms, each forming a veritable bouquet. The individual flowers are very large for this type of roses, being fully 1 1/2 inches across, and are of most elegant and graceful form. The name is very appropriate and refers to the great number of flowers and to the wonderful variety of colorings found on a one plant. The flowers are soft pink at first, but as they age they change to the most beautiful shades of pink, white, rose, cerise, carmine, crimson and intermediate tints, a bewilderingly marvelous beautiful combination of coloring. Fine plants, postpaid, 1c each; 2 for 25c. Large 2 year old plants, 30c each.

Dorothy Perkins.

Veilchenblau. The Blue Rose.

VEILCHENBLAU OR VIOLET-BLUE THE BLUE ROSE.

After years of effort rosarians have been rewarded by the production of a blue Rose, which will be welcomed with the greatest interest by all lovers of the garden. This new climbing Rose surpasses all others of recent introduction in having a pure blue color. The flowers appear in large clusters after the manner of the Crimson Rambler, are semi-double and of medium size. Upon first opening, the color is reddish-lilac, but quickly changes to amethyst and steel blue, finishing violet-blue. This variety is a strong grower, has shining green foliage and few thorns. It has not been troubled by mildew and is one of our hardest Climbing Roses. Be the first in your neighborhood to grow this grand new novelty and truly genuine blue Rose; place your order early as the true stock of it is very limited. Strong plants, 15c each; 2 for 25c, postpaid. Large 2 year old plants, 30c each.

Tausendschon (Thousand Beauties)

CHOICE HARDY ORNAMENTAL SHRUBS

No flowering plants are more worthy of cultivation than shrubs, and none can be cultivated more easily.

Shrubs are indispensable for it has all the artistic advantages and all the practical ones as well. The first cost is the only cost, and the plants greatly increasing in size and beauty year after year, make an investment which yields an annual dividend of loveliness not to be computed in any ordinary way.

Butterfly Bush or Summer Lilac

A Show Plant for Every Garden, Perfectly Hardy.

(Illustrated on back of spreading habit growing 4 1/2 ft. high and flowering freely the first season. The long tapering flower-spikes, often 12 to 15 in. long, are covered densely with lilac-colored blooms of miniature size resembling those of a lilac and are produced uninterruptedly from June till frost. A remarkable attribute of these plants is also their incomparable fragrance; a single plant will perfume the air of a large garden the entire season. During the summer this plant is a Mecca for butterflies, and for this reason it earned the "Butterfly Bush." A single plant the first season will throw out as many as 50 flower spikes and a much larger number the succeeding years. Although perfectly hardy, in the northern states it will die down to the ground. It succeeds everywhere. Price, strong, thrifty plants, 20c each; 3 for 50c, postpaid.

Deutzia Lemoinei.

CALYCANTHUS.

Sweet Scented Shrub or Calycanthus

Spicy Fragrant Flowers.

Of spreading growth bearing throughout the summer great numbers of doubly, dull brownish purple flowers of exquisite aromatic strawberry-like fragrance. The wood and leaves are also sweet scented, which causes it to be known as Sweet-Scented Shrub and Strawberry Shrub. Each, 15c; 2 for 25c, postpaid.

Deutzia Lemoinei

One of the best of hardy shrubs. Magnificent broad, dense heads of bloom, opening very full, pure snowy white, each panicle forming a veritable bouquet. The heads are produced in such profusion as to completely cover the bush. A great improvement upon the older varieties, the flower being larger and more enduring and the bush a stronger grower. Strong Plants, each 15c; 2 for 25c, postpaid.

Sweet Pepper Bush (Clethra Alnifolia)

A low-growing shrub with dense, pale green foliage, covered with spikes of delightfully fragrant white flowers, produced from July to October, when flowers are of such value. A hedge of it fully equals the wonderful Jessamine of the South, both in beauty and fragrance. Strong plants, each 15c; 2 for 25c, postpaid.

QUALITY
NOTHING BUT
QUALITY

MAGNIFICENT NEW HYDRANGEA "HILLS OF SNOW"

Immense snow white panicles of blooms, literally covering the bush; absolutely hardy, standing 20 degrees below zero without the least injury.

This magnificent, hardy American shrub is the finest addition to this class of plants found in many a year. The heads of blooms, which are of large size and pure snow-white color, are produced in marvelous profusion, covering the bush with a magnificent mass of glistening pure white flowers. The foliage is finely finished, lacking entirely that coarseness found in so many of our best known shrubs. One of the most valuable characteristics is its coming into bloom just after the passing of all the early Spring shrubs; while its long season, from early June, through September, renders it doubly valuable, not only to the florist for cut-flowers, but also to the owner of a garden—as there is no shrub so grandly decorative. The large heads of bloom are superbly attractive, and the habit of the plant is excellent. This splendid hardy shrub is bound to become most widely grown just as soon as its great value becomes known. We have a fine stock of this valuable shrub growing and can offer them to you at the following very reasonable prices: Strong Plants, postpaid, each 15c; 2 for 25c; doz. \$1.35. By Express, not prepaid, Larger Plants, each 35c; doz. \$3.50; or, Extra Large Plants, each 50c; doz. \$5.00.

Hills of Snow
Hydrangea.

HYDRANGEA—PANICULATA GRANDIFLORA

THE MOST POPULAR OF ALL HARDY SHRUBS.

Hundreds of thousands of them are sold every year and the demand is constantly increasing. Unsurpassed for the lawn, a hedge, or for cemetery planting. It readily attains a height of 5 to 7 feet; hardy in all localities, needs no protection in winter; blooms the first and every season in July and August and continues to bloom for two or three months; the flowers are massive, cone-shaped, sometimes ten inches in length, and changing from the original pure white to pink, and finally to a beautiful rich coppery red. Fine Plants, postpaid, each 10c; doz. \$1.00. Larger Plants, by Express, not prepaid, each 35c; doz. \$2.50. Extra Large Plants, each, 35c; doz. \$3.50.

Hydrangea Paniculata Grandiflora.

CHOICE HARDY ORNAMENTAL SHRUBS—Contd.

Persian Tree Lilac

Popular Favorites for Their Beauty and Perfume.

A neat, handsome little tree, growing seven to eight feet high, with slender branches and long, narrow foliage; the flowers grow in immense clusters, delightfully and deliciously sweet and fragrant. It is perfectly hardy, a vigorous grower, and flowers abundantly with little care and continues to bloom with a fragrance and beauty that is surpassed by no other shrub. Nearly every one is fond of Lilac blossoms and with the revival of the old-fashioned garden their popularity increases. A general favorite for planting in the dooryard and lawn. We offer nice, strong plants.

Persian Blue, 15c each; 2 for 25c, postpaid.
Persian White, 15c each; 2 for 25c, postpaid.

Lonicera, Bush Honeysuckle

TARTARICA (Tartarian Honeysuckle)—A large shrub with numerous upright, spreading branches. The flowers are pink or rose, are borne in great profusion in late spring, and contrast beautifully with the foliage. The fruits are red, ripen in summer, persist till fall and are very showy. Strong plants, 15c each; 2 for 25c, postpaid.

GLANDULOSA—A beautiful shrub with large bright red flowers striped with white; blooms in June. The two honeysuckles appear to fine advantage if planted together. Strong plants, 15c each; 2 for 25c, postpaid.

Japan Quince (Pyrus Japonicus)

A very showy and popular shrub, of medium height which blooms profusely in early spring; the flowers are dazzling scarlet, the foliage bright glossy green. Makes an excellent hedge. Strong plants 15c each; 2 for 25c, postpaid.

Golden Elder

One of the best yellow foliage shrubs; the color is remarkably bright, rich and constant, and makes a fine contrast in the shrubby border. Bears small fragrant white flowers in early summer, followed by clusters of black berries. Strong plants 15c each; 2 for 25c, postpaid.

Snowberry

A well-known dwarf shrub with small pink flowers and large white berries that hang on the plant the greater part of the winter. Highly valued for use in densely shaded situations where little else will grow and for the striking beauty of their bright, persistent fruits. Strong plants, each 15c; 2 for 25c, postpaid.

TREE LILAC.

The New Hardy Japanese Snowball

Grand Beyond Description.

This Japanese variety of the old-fashioned Snowball is one of the most valuable of all hardy shrubs. It forms an erect, compact plant, 6 to 8 feet in height, blooms in June and for a long time the plants are filled with hundreds of big snowy balls that glisten with ethereal whiteness like gems in the sunlight. One of the grandest and most striking of all hardy decorative plants. Price, 15c each; 2 for 25c, postpaid. Larger plants, 35c to 50c to 75c each, shipped by express, not prepaid.

Spiraea, Bridal Wreath

This lovely old-fashioned shrub is always popular, and justly so, because of its real beauty; bears large spirals of densely crowded double white flowers, each blossom like a miniature rose, the entire length of the branches—and they appear by the million—hence the common title of "Bridal Wreath." A beautiful floral wreath is made at once by bending and tying the ends of the branch together. One of the most beautiful hardy shrubs in existence. Fine plants, 15c each; 2 for 25c, postpaid.

Japanese Snowball.

DEAD SHOT

THE MAGIC BUG DESTROYER.

The World's Greatest Remedy.

To destroy all Lice, Worms, Fleas, Beetles, Bugs and Caterpillars, sift a small quantity of "DEAD SHOT" Powder upon the leaves of Plants and the Bugs disappear as if by magic. It is perfectly safe for man or beast. Postpaid, 1lb. 20c; by express or freight, 5 lbs. 50c; 10 lbs. 75c; 25 lbs. \$1.50; 50 lbs. \$2.50.

Spiraea, Anthony Waterer

A perpetual bloomer. Makes a dwarf bush 18 to 24 inches high, covered from Spring until late in the Fall with large heads of lovely crimson flowers, borne in dense clusters and have a peculiar feathery appearance, which is beautiful. Flowering profuse when only a few inches high, one of the best and most desirable plants at the front of shrubberies or wherever a low bush is required. Fine plants, 15c each; 2 for 25c, postpaid.

Syringa or Mock Orange

(Philadelphus.)

Coronarius, a well-known, indispensable hardy shrub of vigorous habit, with large, handsome foliage and beautiful creamy white flowers, deliciously fragrant and borne in great profusion. Very showy and desirable. Strong, thrifty plants, 15c each; 2 for 25c, postpaid.

Weigela, Eva Rathke

A remarkably free bloomer, flowering continuously throughout the Summer and Autumn; of an entirely distinct color, being a rich ruby-carmine, borne in clusters all along the branches. One of the finest all around flowering shrubs. Strong plants, 15c each; 2 for 25c, postpaid.

Syringa, or Mock Orange.

Weigela, Eva Rathke.

This Is A Real Bargain

They are all perfectly hardy when established will bloom on and on, year after year, with little or no attention and make a handsome display of brilliant flowers every season.

AMPELOPSIS Veitchii

AMPELOPSIS

VEITCHII (Boston or Japan Ivy)—The fashionable and most hardy wall climber of the day. Clings tightly to rock, brick, etc., and it is a wall of living green the Summer through, turning in Autumn to a flaming crimson, when it is certainly gorgeous. It stands the dust and dry air of cities admirably. Strong plants, 15c each; 2 for 25c, postpaid.

ENGLEMAN'S IVY (Englemanii)—A desirable variety with clinging tendrils by which it will climb walls or trees and cling as close as the Boston Ivy. The foliage resembles Quincefolia, but is much more dense. Strong plants, each 20c; 3 for 50c, postpaid.

VIRGINIA CREEPER (Quincefolia)—A native vine of rapid growth, with large, luxuriant foliage, which in the Autumn takes on the most gorgeous coloring. Strong plants, each 15c; 2 for 25c, postpaid.

CLEMATIS

Hardy
Perpetual
Flowering

Of all the vines used either for shade or decoration, none can compare with the Clematis in its many and varied forms, producing hundreds and thousands of picturesque and strikingly beautiful blossoms.

Clematis Jackmanii.

Clematis Paniculata.

Mountain Beauty Vine (ANTIGONON LEPTOPUS)

A beautiful new Climbing Vine, not quite hardy here, but specially recommended for the South and Pacific coast; it is a vigorous climber, suitable for covering porches, verandas, etc.; has handsome foliage and is covered for months at a time with splendid clusters of rose-pink flowers of the most exquisite color; leaves heart-shaped. Price, fine strong plants, 15c each; or 2 for 25c, postpaid.

Bitter Sweet (Celastrus Scandens)

A native vine with good foliage; yellow flowers in June, and bright, ornamental orange and scarlet berries throughout Fall and Winter. It is very hardy; grows in sunny or shaded places, and is not surpassed as a vine for covering trellis-work, trees, rocks or walls. Each 15c; 2 for 25c, postpaid. Larger size 25c each.

Mountain Beauty Vine.

CLEMATIS HENRYI—Fine, large, creamy white flowers. The very best of the white varieties; a perpetual bloomer. Large field-grown roots, 3 years old, only 50c each, prepaid.

CLEMATIS STANDISHII—One of the most striking beauties ever offered. In color it is a most exquisite lavender-blue of large size, often measuring 6 inches across. Thousands of flowers may be grown on a single plant. It is a perpetual bloomer. Large roots, 3 years old, 50c each, prepaid.

CLEMATIS JACKMANII—A perfect beauty. 5,000 blossoms have been counted on a single specimen plant. Jackmanii is of rapid growth, early, abundant and continuous bloomer. Perfectly hardy and adapted to all kinds of culture. In flower from middle of June to middle of October. The blossoms are of large size, intense royal velvety-purple when in full bloom, varying through all the exquisite shades of violet; 6 inches across, richly veined and handsomely shaded. The most striking and picturesque variety known. Strong field-grown, 3-year-old roots, price 50c each, prepaid.

CLEMATIS MAD. EDOUARD ANDRE—An entirely distinct, and most novel variety, and the nearest approach to a red ever sent out. Thousands of flowers produced on a single specimen plant. Large 3-year-old roots, price 50c each, prepaid.

CLEMATIS, PANICULATA—(Japanese Virgin's Bower)—One of the most beautiful of our hardy flowering vines. The flowers are pure white, three-fourths of an inch in diameter, star-shaped, and are borne in great panicles or clusters of bloom, fairly covering the plant. These clusters are carried on long, slender stems, and stand out boldly from between the glossy-green leaves. The fragrance of the flowers is delicious, resembling the English Hawthorne blossoms. It begins to bloom in August, at a time when most other hardy climbers are out of bloom—an inestimable advantage. It is a strong, rapid grower, quickly reaching a height of from 15 to 20 feet and spreading out when trained to wires or strings. It is perfectly hardy in all sections of the country, and it is in our opinion, the most valuable among hardy climbing vines. A grand treacher climber. 1-year-old, 15c each; large, strong 2 year old roots, 25c each; 5 for 1.00, prepaid.

SEE

In all instances we would advise that Clematis plants be shipped VIA EXPRESS, though we can send them safely by mail, if desired.

BEST HARDY ORNAMENTAL CLIMBERS—Continued

Honeysuckles

Favorite vines of strong, rapid growth in any soil or location. They are well adapted for all trellis-work, for climbing over arbors and verandas, for training to posts and along fences. They are beautiful when allowed to ramble over trees and bushes in a wild and natural way. The vines take root where they touch the ground, and this habit makes them suitable for creeping over dumps and unsightly places, as well as for retaining purposes on slopes and banks. They withstand shade and make a ground cover in places where grass will not grow.

HALLEANA—(Hall's Japan)—For real home vines to climb over your windows and doorways there is nothing prettier than the Honeysuckles, and the Halleana is considered by many the sweetest and most beautiful of all. It is a strong, rapid grower, perfectly hardy. Blooms constantly and profusely from June to November. Flowers are pure white, changing to yellow and of peculiarly delicious fragrance. Fine for trellises or pillars. Foliage bright, glossy green; makes dense shade. Strong plants, 15c each; or 2 for 25c, postpaid.

GOLDEN LEAVES—Marvelously effective. It bears innumerable sprays of the most perfect little leaves, that are covered with a network of gold and green, often marked with pink also. A strong grower, with white blossoms. A unique vine. Strong plants, 15c each, or 2 for 25c, postpaid.

SPECIAL OFFER:—One fine plant each of the two Honeysuckles for only 25c, postpaid.

The Wonderful Hardy Japanese Kudzu Vine

(Pueraria Thunbergiana, "Jack-and-the-Bean-Stalk" Vine.)

The most remarkable and rapid growing of all hardy vines, often making a growth of fifty to seventy-five feet in one season and flourishing where nothing else will grow; will last for 25 years or more. In the North the plant dies to the ground in Winter, coming up again from the roots in the Spring. It has clusters of delightfully fragrant purple flowers all Summer and Autumn. The large, beautiful, deep green leaves afford a dense shade, making it invaluable for covering porches, arbors, fences, old trees, etc.

Price, Strong 1-year-old roots, 15c each; 2 for 40c, or 12 for \$1.30. Large 2-year-old plants, each 25c; 12 for \$2.50, postpaid.

Matrimony Vine

A vigorous, hardy climbing plant. It covers a great amount of space in a short time, and every new growth is at once covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long. It will grow and thrive in any situation, either shade or bright sunlight. Strong Plants, each 15c; 2 for 25c, postpaid.

Trumpet Creeper (Bignonia)

These are familiar, strong-growing vines, with deep, rich green foliage and large trumpet-shaped flowers in early Summer. They are very desirable for covering Summer-houses, training over arbors, and to climb over trees, rocks and rustic bridges. Bignon-

as will grow in almost any soil and are hardy, except in the coldest climates. Strong 2-year-old Plants, each, 20c, 2 for 35c, postpaid.

Chinese Wistaria

One of the most elegant and rapid growing hardy climbing plants, attains an immense size, growing at the rate of 15 to 20 feet in a single season. Bears an abundance of long, pendulous clusters of purple-lilac flowers in May and June and again in Autumn. Price 15c each; large 2-year-old plants, price 35c, postpaid.

Chinese Wistaria.

PAEONIES

No flower exceeds them in popularity, and none are more easily grown. Every one knows the old-fashioned "Pinky" of our grandmother's garden. There is no other flower that will give you such an attractive display of flowers and supply of cut flowers. When once planted they practically take care of themselves, and are well adapted for planting in the border bed or in solid beds. They are among the showiest and most useful of all hardy plants.

GERMAN IRIS

The German Iris is one of the most desirable early Summer-flowering plants. No garden is complete without a collection of these beautiful flags. We specially wish to call attention to the value of this Iris for groups for planting in masses on the lawn or among shrubbery, or for naturalizing in wild uncultivated places. It is sturdy everywhere, and it succeeds in any soil without cultivation or care of any kind.

LACK PRINCE—Deep, rich, royal purple. Each 20c, postpaid.

German Iris.

QUALITY
NOTHING BUT
QUALITY

JAPANESE IRIS

(Iris Kaempferii.)

The magnificent Iris are among the most beautiful of our Summer-flowering plants, and are becoming more popular every season. They commence blooming about the middle of June, and continue for five or six weeks. Many of these flowers measure from 10 to 12 in. in diameter, and rival the Orchids in their rich colorings and markings. For cut flowers they should be cut in the bud state, allowing the bloom to expand when placed in water. Price, postpaid, Choicest Mixed, all colors, each 15c, \$1.50 per doz.

HARDY PHLOX

No class of Hardy Perennials is of more importance than the Phlox which succeed under almost any conditions and flower from the end of June until late in the Fall; and while they will continue in good condition and flower freely for any years without attention, still they are much improved by liberal cultivation, though there are quite a number of different varieties and colors, we have refined ourselves to six of the newest and rarest sorts, which make, without doubt, the choicest and most distinct assortment that has ever been offered.

LATEAUBRIAND—Pure white with crimson eyes, shading to violet.
COQUELICOT—Pure scarlet, crimson eye.
DE LANSBURG—The purest white, very large individual flowers.
INSPECTOR PIEKER—Purplish mauve.
PANTHEON—The peerless pink. Extra large; very effective.
SELMA—Light salmon, with violet eye.
 Price, any of the above varieties, 15c each, \$1.20 doz.

SPECIAL OFFER E9 The Set of Six Best Hardy Phlox, postpaid, ONLY 60c

Hardy Perennial Phlox Coquelicot.

Bleeding Heart.

Corn Flower Aster.

BUCKBEE'S CHOICE
"FULL OF LIFE"

HARDY PERENNIAL PLANTS

Prices are for the Perennial Plants on this and the following page, unless otherwise stated: 10c each, \$1.00 doz., postpaid.

THE OLD-FASHIONED HARDY GARDEN FLOWERS—Very popular and deservedly so. No feature of the garden can be more satisfactory than a good assortment of these hardy plants producing from early Spring to late in the Fall a continuous succession of charming flowers which are equally valuable for garden ornamentation and cutting purposes. No class of plants will yield better or more pleasing results for the money invested. They require very little care or attention, are perfectly hardy and yield a rich harvest of bloom.

LADY IN WHITE—(The Famous Cemetery Plant)—One of the very best white flowered plants for the border. The flowers are borne in the greatest profusion the entire Summer on strong erect stems, pure white in color. Select Plants, postpaid, 15 each; 2 for 25c; \$1.25 per doz.

AQUILEGIA (Columbine)—Long spurred varieties of many rich and varied colors and with broad petals. 2 feet high. Columbines are a most important part of the hardy garden and should be grown in quantity. With their airy grace they will serve to lighten up a too stiff and formal planting. Their lasting flowers and long stems are also splendid for cutting. Prices, postpaid, 15c each; \$1.25 per doz.

ARXERIA (Thrift)—Attractive, dwarf plants for low edgings, forming rosettes of narrow evergreen leaves on the ground, from which they send up stiff, wiry stems with dense heads of flowers; bloom all season. Pink and white flowers. Prices, postpaid, 15c each; \$1.25 per doz.

BABY'S BREATH (Gypsophila Paniculata)—A beautiful old-fashioned plant possessing a grace not found in any other perennial. Beautiful pure white flowers. Plants grow 2 to 3 feet in height and about the same in diameter.

BLEEDING HEART (Dielytra, or Dicentra)—An old-fashioned favorite; its long and graceful heart-shaped pink flowers are always attractive. Prices, postpaid, 15c each, \$1.50 per doz.

CANTERBURY BELLS (Campanula Medium)—Beautiful large bell-shaped flowers in blue, rose and white colors. The Medium is the most satisfactory of the Campanulas. It grows 3 feet high on good soil and blooms for a long time if flowers are cut immediately upon fading and if planted in a half-shady place. Mixed colors.

COREOPSIS (Lanceolata Grandiflora)—One of the most popular hardy plants. The flowers are of a rich golden yellow and invaluable for cutting; continues in bloom the entire Summer and Fall.

CORN FLOWER ASTER (Stokesia)—A most charming and beautiful native plant. Grows from 18 to 24 inches high, bearing freely from early in July until October its handsome lavender-blue Cornflower-like blossoms, which measure from 4 to 5 inches across. It is of the easiest culture, succeeding in any open, sunny position, and not only is it desirable as a single plant in the hardy border, but it can also be used with fine effect in masses or beds of any size.

DAISY SHASTA (Mixture of New Named Varieties)—These new Hybrids of Shasta Daisy give us different forms of flowers and much larger blooms, and are just as hardy and strong growing as the original type. Flowers range in shape from fully double to single; and in color, from pure white to pale lemon yellow—some solid color, some prettily variegated with yellow discs. The plants are extremely productive of bloom, which continues throughout a long season and is supported on long firm stems—making as effective a field show and as profitable a cut flower supply as any hardy perennial grown.

DELPHINIUM OR LARKSPUR (Formosum)—These old-fashioned flowers are being used with telling effect in our parks and public grounds. They are one of the few hardy blue flowers of any note. By cutting off the flower stem close to the ground as soon as the crop of flowers has faded, a second and third crop will succeed.

FOX GLOVE (Digitalis)—Another good old-fashioned but dignified and stately perennial. The strong flower stalks—often 4 to 6 feet high—always give an appearance of strength wherever planted. Mixed colors.

Shasta Daisy.

Canterbury Bells.

Lady in White—The Famous Cemetery Plant.

Fox Glove.

Golden Glow.

GAILLARDIA
GRANDIFLORA

QUALITY
NOTHING BUT
QUALITY

Hollyhock.

HARDY PERENNIAL PLANTS—Continued

Prices for all Perennials on this page unless otherwise stated: 10c each, \$1.00 per doz., postpaid.

GAILLARDIA GRANDIFLORA—One of the showiest and most effective hardy plants, about 2 feet high, and continuous bloomers from June till cut down by the frost. The flowers are of gorgeous coloring; the center is of dark red-brown with petals marked with rings of brilliant crimson, orange and vermillion. Excellent for cutting.

HYSSOPUS (Mallow) CRIMSON EYE—Noble, shrub-like plants, 3 to 4 feet high. Large fine green foliage and flowers of immense size, pure white, with a large spot of deep velvety crimson in the center.

HOLLYHOCK—Few hardy plants combine as many good qualities as the Hollyhock. The flowers form perfect rosettes of the most lovely shades of color. It requires a rich, deep soil, well drained, and will repay in quantity and elegance of bloom any extra care. A slight protection during the Winter will be beneficial.

PHYSOSTEGIA (False Dragon Head)—Native perennial, 3 to 4 feet high, forming dense bushes and bearing all summer showy spikes of pretty, tubular flowers of delicate pink color, resembling a large heather. Prices, postpaid, 15c each; \$1.25 per doz.

PINKS, HARDY GARDEN—Old favorites bearing their sweet clove-scented flowers in the greatest profusion during the Summer months.

POPPY, ORIENTAL—Nothing can equal these Poppies during their period of flowering for a gorgeous display of rich brilliant coloring, and the freedom with which they bloom render them conspicuous in any position. Select plants, price, postpaid, 15c each; \$1.25 per doz.

RUDBECKIA, GOLDEN GLOW—It is a question whether any other hardy perennial has ever met with greater popularity than this. It is a strong, robust grower of 5 to 6 feet, and produces masses of double golden yellow cactus dahlia-like flowers from July to September.

SILENE ORIENTALIS (Catchfly)—Dwarf, charming plants with large heads of dark rose flowers appearing continuously from Spring till frost. Suitable for edging and for rock gardens. Prices, postpaid, 15c each; \$1.25 per doz.

SWEET WILLIAM (Dianthus Barbatius)—Beautiful old-fashioned favorite border plant. The stock we offer has been grown from a select strain; various colors.

TRITOMA (Red Hot Poker Plant; Flame Flower, or Torch Lily)—Surpasses the finest Cannas for attractiveness and brilliancy; blooms incessantly from August until November. Plants show from six to ten grand flower-stalks all the time, each holding at a height of 3 feet a great cluster of flame-colored flowers. Prices, postpaid, 15c each; \$1.50 per doz.

TROLLIS ORANGE GLOBE—Plants 1 to 2 feet high, producing all Summer giant Buttercup-like flowers of deep orange color. Prices, postpaid, 20c each; \$2.00 per doz.

VIOLET, HARDY ENGLISH—This Violet is entirely hardy; of a deep violet-purple color and most deliciously fragrant, and perfectly double. It surpasses the well-known "Marie Louise" Violet in richness of color, being many shades darker and far exceeds it in its delightful odor, which is one of its greatest merits. Will grow and bloom in any garden and in any situation. Nothing is more appropriate for cemetery plots than the Hardy Double English Violet. Prices, postpaid, 15c each, \$1.50 per doz.

YUCCA FILAMENTOSA (Adam's Needle)—One of the finest and most effective hardy foliage and flowering plants. Broad sword-like foliage and tall, much branched flowering spikes often 5 to 6 feet long, densely packed with large, fragrant, drooping, creamy-white flowers during June and July. 15c each, \$1.50 doz.

Hardy Garden Pinks.

Tritoma.

Hardy English Violet.

BUCKBEE'S SELECT LIST OF SMALL FRUITS

BLACKBERRIES

MAMMOTH—The Giant of All. The result of a cross between the Texas Early and the California Dewberry. It is a rampant grower, and for best results, should be trained on trellis where it will make 20 feet of growth in one season. The berries are enormously large; in fact, the largest blackberries in the world. They measure from 2 to 2½ inches long, thus eclipsing any other sort. For cooking purposes fulfill all the desired qualities of other Blackberries, and as a fresh fruit is generally preferable, owing to large size and having more pulp and less core. Price, Strong Plants, each 15¢; 2 for 25¢; doz., \$1.00, postpaid.

ELDORADO—A very vigorous growing, perfectly hardy variety. Fruit very large, borne in clusters which ripen very evenly; quality unsurpassed and an excellent shipper. Price, 10c each, or 60c doz., postpaid.

STONE'S HARDY—Originated in Wisconsin, and is very hardy, sweet, productive, weighing down its strong canes with its crops of delicious fruit. Price, 10c each, or 10c doz., postpaid.

WARD—A good shipper, perfectly hardy, no superfluous sprouts, a great yielder of large Blackberries, rich and sweet, no hard orcs, fruit all on outside, easily harvested. Price, 10c each, or 60c per doz., postpaid.

Special Offer E2 We will send 12 plants, 3 each of Eldorado, Stone's Hardy, Ward and Mammoth, by mail, postpaid, **only 60c**

Austin's Improved Dewberry.

DEWBERRY

AUSTIN'S IMPROVED—The berries are much larger than those of any other Dewberry or Blackberry. It requires no trellises or stakes. The fruit is jet black and of superior flavor. For productiveness it outvalues all other Dewberries. Price, 10c each, or 75c doz., postpaid.

GRAPES

CAMPBELL'S EARLY—The berries are large, often an inch or more in diameter, glossy black with a purple bloom, sweet and juicy, with few seeds. As a keeper and shipper this variety is unequalled by any other American Grapes. Price, 2 year old strong plants, 20c each, or \$1.75 doz., postpaid.

MCPIKE—This mammoth black Grape has been exhibited in all parts of the country, its great size, fine flavor and beauty creating a sensation. It is a seedling of Worden. Ripens before Concord. Prices same as Campbell's Early.

WHITE DIAMOND—Valuable for all sections of the United States. Best white, healthy and perfectly hardy. Prices same as Campbell's Early.

MOORE'S EARLY—One of the best early ripening varieties. The bunch is large, round and with a black-blue bloom. In quality surpassing the Concord. Price, 2 year old strong plants, 15c each, or \$1.25 doz., postpaid.

CONCORD—The well-known standard black-blue variety. It succeeds wherever Grapes are grown. Prices same as Moore's Early.

WORDEN—A large black Grape of the Concord type, but 5 to 10 days earlier. Price same as Moore's.

Special Offer E3 The set of 6 choice Grapes one of each variety, by mail, postpaid, **only 90c**

McPike Grape.

CURRENTS

PERFECTION—The latest introduction, created by crossing Fay's Prolific with White Grape. It combines the best qualities of both parents. In color it is a beautiful bright red and of a larger size than Fay, the clusters average longer and the size of the berries is maintained to the end of the bunch. It is one of the most productive Currents, and in quality it is superior to anything in the market today, being of a rich, mild, sub-acid flavor and having plenty of pulp with few seeds. Price, 20c each, or \$1.75 doz., postpaid.

GIANT RUBY—The largest red Currant. Unusually hardy in habit of growth and bears profusely. The berries are beautiful light red and grow in immense clusters, more resembling bunches of red Grapes than bunches of Currents. Many fruit growers are now planting largely of this variety in place of the older sorts on account of its enormous yield. Price, 15c each, or \$1.25 doz., postpaid.

WHITE WINE—This is the hardest white sort and is therefore especially desirable for the middle and northern states. It bears great bunches of pearly white Currents of the most delicious flavor. Vigorous grower, very productive. The sweetest and richest white Currant extant. Fruit larger and stems longer than White Grape. In the fruit sugar and acid are blended without excess of either. The best of all for a dessert fruit. Price, 15c each, or \$1.25 doz., postpaid.

BLACK CHAMPION—The leading, tested black Currant. It is a vigorous grower and very productive. The berry and bunch are very large and of most excellent quality. Price, 15c each, or \$1.25 doz., postpaid.

Special Offer E4 The set of 4 Currents, one of each variety, by mail, postpaid, **only 40c**

Keepsake Gooseberry.

GOOSEBERRIES

KEEPSAKE—A new English variety, possessing unusual merit. Plants grow in tree form, dwarf in habit, very productive, free from mildew and very hardy. The fruit is very large, straw color, of excellent flavor and unequalled for shipping purposes. The blossom is well protected by early foliage, making it a sure cropper. Price, strong plants, 20c each, or \$1.75 doz., postpaid.

RED JACKET—Fruit large, a bright shiny red, a most beautiful and attractive berry. Flavor is most delicious and commands the very best market price. Plants and foliage are at all times vigorous, clean, healthy and mildew proof. Has been tested in many sections under most trying circumstances and has proven at all times and in all places thoroughly hardy and enormously productive. Prices same as Keepsake.

Special Offer E5 The set of 3 Gooseberries, one of each variety, by mail, postpaid, **only 48c**

Perfection Currents.

RASPBERRIES

RED RASPBERRIES ST. REGIS EVERBEARING

Bears Fruit Perpetually for Four Months. This variety has been aptly termed "the early 'till late variety," for it is the first Red Raspberry to give ripe fruit, while it continues to produce berries without intermission until late in October. The berries are surpassing in quality—rich, sugary, with full Raspberry flavor. They are of exceedingly meaty, firm texture, and keep in good condition longer, after being gathered, than any other Red Raspberry. As a shipper it is unexcelled. St. Regis is of pure American blood and of ironclad hardiness, the canes enduring the severest cold uninjured and are wonderfully prolific. Unlike other so-called Everbearing Raspberries which fruit only in early Summer and a little in late Fall when weather conditions are favorable, St. Regis is a perpetual bearer at all times and under all conditions.

Fine, strong selected plants, 15c each, or \$1.00 per dozen, postpaid.

CUTHBERT—The most extensively planted Red Raspberry. Fruit bright red, good and very large, bush very vigorous, hardy and prolific. Medium to late. 10c each, 50c doz., postpaid.

LOUDON—A superior berry in every respect. A vigorous grower, very hardy, healthy and protective. Its berries are very large, firm and of excellent quality. Its color is a beautiful rich crimson. It stands shipping best of any. 10c each, 65c doz., postpaid.

GOLDEN QUEEN—New. Similar to Cuthbert (of which it is a seedling) except in color, which is what its name implies. Very large, hardy, vigorous and productive. No garden should be without it. 10c each, 80c doz., postpaid.

COLUMBIAN—Purple or dark red color, rich flavor, very large size. An excellent shipper, and the best for canning and drying. Late. 10c each; 85c doz., postpaid.

Columbian.

Improved Russian Mulberry

An ornamental, hardy, fruit-bearing tree. Suitable for all sections of this country. Fruit larger than blackberries and of delicious flavor. It is a very rapid grower, often reaching the height of 50 feet and from 3 to 5 feet in diameter, and is perfectly hardy. Commences to bear when two years old, and is very prolific, the fruit being larger than the average blackberry. Fruit has a fine, aromatic flavor and subacid, sweet taste, and is used for dessert as we use blackberries or raspberries. A beautiful, quick growing tree for the lawn, and fruit is valuable for table use. Price, 10c each, or 3 for 25c, postpaid.

The Strawberry Raspberry (Tree Strawberry)

Bush from 15 inches to 2 feet in height, entirely hardy and impervious to heat and drought. Berries are larger than the largest Strawberries, bright, shining scarlet with an exquisite bloom. **MAKES DELICIOUS JELLY, JAMS AND TAITS**, having a delicious flavor entirely different from any other fruit. An immense yielder, producing regularly and abundantly. It bears the first season and gets stronger and larger each year. All lovers of fruit should give it a trial. It will both surprise and please you. Price, 15c each, 2 for 25c, or \$1.00 per doz., postpaid.

Strawberry Raspberry.

St. Regis Everbearing.

BLACK RASPBERRIES

CUMBERLAND—New. The largest black Raspberry known, averaging $\frac{1}{2}$ inch in diameter. Good and firm as the Gregg, but the bush is harder. A strong, vigorous grower, and wonderfully productive. Mid-season. 10c each, 80c doz., postpaid.

GREGG—Very large and late. Bush a strong upright grower, productive and very desirable for market and home use. 10c each, 70c doz., postpaid.

KANSAS—Originated in Kansas, where it is prized as the best black cap. Ripens early and is as large or larger than the Gregg. Jet black, firm, handsome and of best quality. 10c each, 65c doz., postpaid.

OHIO—Very productive and firm. Season medium to late. Bush a strong grower and hardy. Very valuable for shipping and drying. 10c each, 75c doz., postpaid.

Improved Russian Mulberry.

New Logan Berry

(BLACKBERRY-RASPBERRY.)

This Thornless Blackberry-Raspberry originated in California. It is an exceedingly strong grower, making the growth of 10 feet in one season. The fruit is as large as the largest sized blackberry, of the same form and shape, and the color, when fully ripe, is a dark bright red. It partakes of the flavor of both the Blackberry and Raspberry, having a very mild, pleasant flavor. It is excellent for the table, and the seeds are small and not very abundant. The fruit is extremely firm and the vines are enormous bearers. The fruit ripens and is gone before Raspberries and Blackberries become plentiful. Price, 15c each, 2 for 25c, or \$1.00 per doz., postpaid.

New Logan Berry.

THE BEST BOOK FOR THE AMATEUR.

Columbia P. Wood, Editor and Publisher Journal-Public Health, Evansville, Ind.

"Your little book 'How to Grow Seeds and Flowers' received. It is the simplest and the best for the amateur gardener to see. Thanks." (See Order Sheet How to Get It Free.)

GRAND NEW AND WONDERFUL BERRIES**BURBANK'S HYBRID BERRY "PHENOMENAL"**

Mr. Burbank's Latest Berry Triumph.
Largest Berry Ever Known.

A cross between the Improved California Dewberry and Cuthbert Raspberry. The color and flavor are those of the Raspberry, while in size and shape it is more like the Dewberry. It is described by the originator as "The best berry in the world" and "Larger than the largest berry ever known before." The past season's experience justifies this enthusiastic praise. The berries grow in clusters from five to ten, or more, and single berries, grown under favorable conditions, have measured three inches one way by three and one-half to four the other way. The color is a bright crimson. They are of delicious flavor and very desirable for pies, jellies, jams, etc. The plants are very hardy, thrifty and easily grown. Half a dozen plants in the garden or back yard will furnish an abundant supply of choice berries throughout June and July. For fruit growers, no berry can be more profitable than the Phenomenal. It is an excellent shipper and brings highest prices wherever offered.

Price, Strong Plants, each 15c; 2 for 25c; doz. \$1.00; postpaid.

THE WONDERFUL HIMALAYA BERRY

The Greatest Wonder of All.

Ripening after all other berries are gone and extending the berry season several weeks. It is a vigorous grower and should be grown on trellis, as under favorable conditions the vines will grow from 30 to 40 feet in one year. The berries are large, black and borne in clusters. They are of oblong shape, very juicy and with almost no core. Very rich and need very little sugar in cooking. They begin ripening the last of June and as fast as the ripe fruits are pulled off more ripen until frost. It will resist drought and cold to a great extent, and having a root like a small tree which strikes down deep to moisture, it is not necessary to irrigate them, only on high, dry, hot land. A perfect shipper. In yield, this variety surpasses any berry ever introduced.

Price, Strong Plants, each 15c; 2 for 25c; doz. \$1.00; postpaid.

Burbank's Phenomenal Berry.

Wonderful Himalaya Berry.

Compass Cherry.

TWO GRAND AND MAGNIFICENT CHERRIES**COMPASS CHERRY**

Absolutely Hardy Everywhere.

Originator's description: "This cherry was originated at Springfield, Minn."

It is a cross between the Sand Cherry and the Miner Plum.

Nearly an inch in diameter, bright red, sweet and juicy and of very fine flavor.

The original tree bore fruit the third year from the seed and has borne a full crop every year since.

The tree is a regular and heavy bearer and produces fruit the next year after setting out. For exposed situations and for the North and West it is the "Cherry." Requires no protection whatever and is an every particular as hardy as an Oak. Mail size, postpaid, each 35c, 4 for \$1.00.

Rocky Mountain Cherry.

ROCKY MOUNTAIN CHERRY

ONE OF THE GREATEST NOVELTIES
IN THE FRUIT LINE EVER INTRODUCED.

It bears fruit every year and is as prolific as a currant bush, 16 quarts having been

The fruit is a rich red when picked and changes to almost black when ripe, of good size, fine flavor akin to the sweet cherries, and unsurpassed for preserves or eating from the hand; season of ripening being after all others are gone. Price, 15c, each, or 3 for 35c, postpaid.

MONEY MAKING STRAWBERRIES

The QUEEN
OF ALL
BERRIES

STRAWBERRY PLANT ORDERS

Will be shipped direct from our Strawberry Farms and cannot be shipped with other goods. Send your orders in early and they will be filled in rotation just as early in the Spring as possible. (If you prefer to name date that you want them shipped, please do so.)

WHEN WE SHIP STRAWBERRY PLANTS—In this locality Field Grown Strawberry Plants are ready for shipment in April. We can also make Fall Shipments in October of each year if desired. Potted Strawberries are shipped in August and September. Be sure to state the exact date you want your plants shipped when ordering. Otherwise we will use our best judgment. My plants are suited to all soils and climates. 100 Plants will supply an ordinary family with fresh fruit all season. Start Right! Get the Best. **ORDER EARLY.**

AMERICAN BEAUTY—Nothing in the way of a Strawberry has ever created in so short a time the excellent record of American Beauty. Matures Early, Continuous Bearer, Handsome Color, Large Size, Enormously Productive, Vigorous Grower, Easy Picker, Best Keeper, Fine Shipper, Best Flavor, Best of All. For home use or market, without question it is the Ideal Strawberry grown for all purposes. Be sure and give this best of all berries a trial; it will satisfy you.

BUSTER—Derives its name because its chief characteristic is its record breaking yield. Has won distinction for its vigor of growth and reliability under adverse conditions. Just the thing for new beginners. Stands more frosts than any other, consequently popular everywhere, particularly where late Springs are common. **BUSTER** beats them all when it comes to yield—especially in Northern latitudes. Fruit large, bright red, fine quality and excellent shipper.

GREAT NORTHERN—Our own introduction. Unquestionably one of the best Extra Earlys. Strong, robust, healthy grower, with everlasting foliage and perfect blossoms; heavy cropper, excellent for market or home consumption, fine canner. Berries large, beautiful glowing red in color, decidedly sweet.

PRIDE OF MICHIGAN—One of the greatest ever introduced. In size the berries surpass all other varieties, producing greater number of fancy berries than any other late variety. Excellent canner, fine shipper, always bringing top notch prices. Meat is firm, exceedingly rich, solid in texture, and of delicious flavor. Has long blooming season, therefore very valuable for market purposes.

SENATOR DUNLAP—Most Popular of All. Grows immense quantities of large, handsome berries that are a rich dark red with glossy finish, shading to deep scarlet on the under side. Bright yellow seeds looking like gold imbedded in highly colored wax. Noted for uniformity of size and shape. The rich bright red of its meat and delicate flavor make it really ideal. Recognized as a general favorite in every market. Our trade on this variety extends from coast to coast.

EVERBEARING OR FALL-BEARING STRAWBERRY

A dish of luscious strawberries in Fall is a luxury which everyone who owns a garden could enjoy. Plant at least a dozen plants, but if you can spare the room plant 100 or more. Keep all blooms picked off in spring and do not allow the plants to bear regular crops in June, thus conserving their strength for the fall crop.

PAN AMERICAN—Truly an Everbearing Variety—Greatest Novelty Ever Introduced—This new Strawberry bears a full crop in the Spring and continues to bear berries all Summer and in the Fall up to the time of hard freezing. The greatest novelty in Strawberries ever introduced. Think of a variety that you can pick ripe berries from for three months, or until they are destroyed by the frost. The fruit is as large as Clyde or better, smooth and colors up evenly all over, no green tips. In quality and flavor it is fine. It fruits on new runners and old plants, a strong, healthy grower and remarkable stouter. The ideal berry for the family garden.

NOTICE.
All varieties marked (S) are Staminate Perfect Flowering and Bisexual Varieties.

All varieties marked (P) are Pistillate and destitute of Stamens. Therefore when planting varieties marked (P) it will be necessary to have every third row a Perfect Flowering or (S) variety to properly fertilize the bed. The Cost of Plants, which is merely nominal—lasts for years.

For example—If your order calls for 200 Great Ruby (P) you should also have 100 Great Northern (S) to properly fertilize the bed. Plant the first two rows with Great Ruby (P) and the third row with Great Northern (S) and so on; or you can use any other (P) and (S) varieties in the same manner.

MONEY IN STRAWBERRIES.

A Strawberry Bed is a safe and sure investment. Greatest of all Money Makers. \$600.00 profit per acre. Only one expense—the Cost of Plants, which is merely nominal—lasts for years.

EARLY OZARK—First in market. World wide reputation as one of the earliest varieties ever originated. Ranks with the best for size and flavor. Cross between Excelsior and Aroma, combining the excellent characteristics so pronounced in both; excellent maturing variety, strong in pollen, very productive, firm texture. As a commercial variety it holds front rank.

GREAT RUBY—This large, brilliantly colored, deliciously flavored, immensely productive variety holds its place as one of the few strictly fancy extra early varieties. Fruit large, well shaped, smooth surface, very hardy grower. As a shipper or home berry it can't be beat.

NEW SHUCKLESS WONDER—The New Seedling Strawberry—Don't Overlook This—A most valuable and distinct variety unlike any other, producing a berry parting freely from the calyx; and a berry that contains no acid; a berry that has very few seeds; a berry that is mild and sweet. It ripens mid-season; plants short and stocky; very thrifty grower; foliage dark green; very prolific; berries bright red with a long shaped neck, which is the unfailing sign of sweetness; very firm; the firmest and best shipper known.

Pan American Everbearing.

HARDY ORNAMENTAL HEDGE PLANTS

JAPANESE BARBERY (*Berberis Thunbergii*.) This is the most valuable for making a low dwarf hedge. It is of low, regular and compact growth and requires very little pruning. It has fine thorns and small round rich green leaves that change color in the Autumn to a fiery crimson. The hedge is made still more beautiful by great numbers of pretty drooping yellow flowers which are followed by bright red berries. It is frequently planted singly, and is one of the handsomest flowering shrubs we have. Strong plants, postpaid, each, 10c doz. \$1.00. For groups by express, not prepaid, select plants 12 to 15 inches high, \$1.25 per doz.; \$6.00 per 100; 15 to 20 inches high, \$1.50 per doz.; \$7.50 per 100.

CALIFORNIA PRIVET (*Ligustrum Ovalifolium*.) This is one of the most popular hedge plants, grows very fast, bushy, compact and very hardy. For groups and specimens it is equally pretty, and its shining leaves give it value for porch and terrace decoration when grown in standard form. Can be sheared to any desired shape. Price, good strong plants, postpaid, each 10c; doz. \$1.00. Prices by express, not prepaid, select plants 15 to 18 inches high, \$3.00 per 100; 15 to 24 inches high, \$4.00 per 100.

JAPANESE ROSE HEDGES (*Rugosa Rose*.) Roses are coming to be more and more popular for hedges. They are perfectly hardy in the coldest Winters and are especially valuable because the foliage is never troubled with either insects or disease. Price, by express, not prepaid, 35c each; \$3.00 per doz. for strong 3 year old plants. Extra fine 5 yr. old, 50c each; \$5.00 per doz.

Privet Hedge.

Catalpa Speciosa (The Tree for Profit)

Excels for building material—makes good fence posts—nothing better for telegraph poles—good plow beams and handles, superior to oak for furniture—lighter than pine—stronger than oak—tougher than hickory—neither shrinks nor swells. **Cut cut.**

The Catalpa is one of the hardest and most easily transplanted of all our common trees. Any soil that will grow farm crops will grow Catalpa trees. An acre of Catalpa trees properly cultivated and cared for, will take no more labor than an acre of corn, and after three years this acre is growing into more value each year than an acre of corn, with no labor at all. Start a grove of Catalpa trees this year and you will be more than pleased with the result. Nearly every farm has some waste land that could be used for this purpose.

SPECIAL PRICE Catalpa Speciosa trees, 8 to 10 inches, \$1.00 per 100, postpaid.

WARNING The True Catalpa Speciosa is scarce. Even if you don't trade with us, be sure you buy the genuine stock and not "Catalpa Bignonoides" and other common varieties, which are only scrub trees and worthless for almost any use.

Tree Seedlings (Deciduous Varieties)

BULBS FOR FALL PLANTING ONLY

PLEASE NOTE—None of the bulbs listed on this and the following two pages can be planted in the spring or summer. They are imported from Europe and Asia and arrive here in the fall of the year. We want your order now so that we can reserve our best "Full of Life" bulbs for you and ship to you at the proper time to plant. WE SHIP SEPT. 1st TO NOV. 1st. Single bulbs or dozens prepaid; larger quantities by express or freight not prepaid.

"Full of Life" Hyacinths.

GRAPE HYACINTHS

COCKADE HYACINTH

FRENCH ROMAN HYACINTHS

The earliest bloomers of all the Hyacinths. While the flowers are smaller than the Dutch Hyacinths they are produced in much greater abundance. Each bulb bearing several graceful, very fragrant white flower spikes. They are easily grown, and if potted in August and September, will flower in November and December. Beautiful for Christmas flowering. Early White, 6c each; 60c doz.; \$4.50 per 100.

COCKADE HYACINTH

A real curiosity. First, a frizzed cockade-like spike, an inch or two in length appears; this slowly develops into a long feathery claret colored plume, lasting for weeks. Perfectly hardy in the garden and fine for pots. 3 for 10c; 25c doz.; \$1.25 per 100.

GRAPE HYACINTH

One of the sweetest flowers imaginable, and very striking when grown in masses. Perfectly hardy in the garden, also adapted for Winter flowering in the house. The spikes resemble a miniature bunch of grapes and are just the size for the button-hole bouquets. Each bulb sends up numerous spikes of blue or white flowers with a delicate perfume. 2 for 5c; 11c doz.; 72c per 100.

HYACINTHS

BEST NAMED SINGLE

Garibaldi—Deep glossy crimson red.	Roi des Reiges—Brilliant scarlet.
Czar Peter—Light lavender blue.	Menelik—Rich dark blue, almost black.
Grandeur a Merveille—Blush white.	La Grandesse—The finest pure white.
Gertrude—Deep rose, large truss.	Herman—Salmon orange.
Giganteus—Deep rose.	Yellow Hammer—Lemon.

Price, any of the above, 8c each; 88c doz.; \$6.81 per 100.

BEST NAMED DOUBLE

Banquet Royal—Salmon pink, red centre.	Isabella—The finest blush white.
Bouquet Tendre—Dark carmine red.	Blackberg—Finest light blue.
Lord Wellington—Finest light pink.	Othello—Rich dark blue.
Noble Par Merite—Deep rose.	Goethe—Light yellow.
La Tour d'Auvergne—Pure white.	Minerva—Orange-yellow.

Price, any of the above, 9c each; 90c doz.; \$7.34 per 100.

HYACINTHS IN MIXTURE

Single Buckbee's Full of Life Mixed—The very best colors selected. Price, 8c each; 88c doz.; \$6.81 per 100.

Single Fine Mixed—Splendid assortment. Price, 5c each; 48c doz.; \$3.00 per 100.

Double Buckbee's Full of Life Mixed—Select bulbs and richest colors. 9c each; 90c doz.; \$7.34 per 100.

Double Good Mixed—All colors. 5c each; 54c doz.; \$3.25 per 100.

QUALITY
NOTHING BUT
QUALITY

French Roman

HARBINGERS OF SPRING

SNOW DROPS

The earliest spring flower. Its graceful snow-white spikes can frequently be seen when the ground is still white with snow. Should be planted in masses or clumps, either alone or with Scillas, Chionodoxas or Crocus, and when practicable such plantings should be made permanent. GIANT ELWEN—The finest Snowdrop, at least three times the size of the other sorts; snow-white single flowers. 2 for 5c; 17c doz.; \$1.10 per 100.

Snow Drops

SCILLA SIBERICA

This is the best Scilla for forcing indoors, coming into bloom with Roman Hyacinths. The flowers are true ultramarine blue, and are borne on graceful spikes of six to twelve blooms each. If grown in masses, their flowers fairly carpet the ground, and if grown with Snowdrops, Chionodoxa and Crocus, their effect is magnificent. 3 for 10c; 30c per doz.

Scilla Siberica.

CHIONODOXA (Glory of the Snow)

These are among the most beautiful of our Spring-flowering Bulbs, coming into flower soon after the snow is gone. The flowers are of a brilliant sky blue color with a large white centre; 10 to 15 of these blooms are borne on one flower-spikes; most bulbs will produce several spikes. 2 for 5c; 19c doz.; \$1.12 per 100.

Chionodoxa or Glory of the Snow.

TULIPS

NAMED SINGLE EARLY

The Single Early Tulips are great for bedding and the most satisfactory of all for Winter blooming in pots. The following are the very best kinds:

WHITE

L'Immaculee—Pure white, very large and early.

Pottsbaker White—early, fine.

La Reine—White, slightly shaded rose.

WHITE AND ROSE

Rosamundi—White and rose.

Rose Griselini—Rose shaded white.

RED AND YELLOW

Duchess of Parma—Orange red with yellow margin.

Keizerkroon—Deep red with golden yellow border.

ROSE, SCARLET OR RED

Arbus—Deep scarlet-red.

Cardinal's Hat—Deep red.

Crimson King—Crimson.

ORANGE AND YELLOW

Chrysolara—Rich pure yellow.

Yellow Prince—Golden-yellow.

Price for above Single Tulips: 3 for 10c; doz., 32c; 100, \$1.75.

NAMED DOUBLE EARLY

LA CANDEUR—Pure white.

MURILLO—Light pink.

SALVATOR ROSA—Dark pink.

REN RUBRORUM—Deep scarlet.

RUBRA MAXIMA—Bright scarlet.

GLORIA SOLIS—Red, gold border.

TOURNESOL—Red and yellow.

YELLOW ROSE—Golden yellow.

Price of above Double Tulips: 3 for 10c; doz., 34c; 100, \$1.78.

BUCKBEE'S "Full of Life" TULIPS DOUBLE EARLY, MIXTURE

The best mixture of double tulips, all first class varieties are represented and only first size bulbs are used. 3 for 10c; doz., 34c; 100 for \$1.78.

TULIPS DOUBLE EARLY, GOOD MIXTURE

An elegant assortment of large bulbs in many colors and shades. Doz., 15c; 100, 90c.

THE GIANT TULIP (Tulip Gregi)

Tallest and showiest of Tulips; flowers of enormous size, brilliant scarlet color with blue center, foliage spotted maroon. It comes into bloom about Decoration Day. 7c each; 72c per doz.

QUALITY
NOTHING BUT
QUALITY

SINGLE EARLY, BUCKBEE'S "FULL OF LIFE" MIXTURE

The finest mixture in existence, made up by ourselves of first sized bulbs only, and containing all the best named varieties known. 3 for 10c; doz., 32c; 100 for \$1.75.

TULIPS SINGLE EARLY, GOOD MIXTURE

A fine assortment, all equally proportioned as to color, and all of the same period of blooming. 15c doz.; 80c per 100.

TULIPS LATE, BUCKBEE'S "FULL OF LIFE" MIXTURE

This mixture of late, Cottage or May Flowering Tulips, contains over 50 of the finest varieties of most brilliant colors and elegant forms. 3c each; doz., 24c; 100 for \$1.48.

PARROT TULIPS

Crimson and golden-yellow, streaked and edged with green, resembling the plumage of a parrot whence they derive their name. Mixed—2 for 5c; 20c doz.; \$1.10 per 100.

DARWIN TULIPS

The finest class of late flowering tulips; very large, cup shaped flowers of perfect form in most varied and brilliant colors. Choicest mixed, 2 for 5c; doz., 28c; 100 for \$1.54.

NARCISSUS OR DAFFODILS

SINGLE LARGE TRUMPET VARIETIES

EMPEROR—Rich yellow, very large. 3

for 10c; 30c doz.; \$1.95 per 100.

EMPIRESS—White, with yellow trumpet.

3 for 10c; 30c doz.; \$1.95 per 100.

MME. DE GRAAFF—Pure white, magnificent. 10c each; \$1.00 doz.; \$7.00 per 100.

SINGLE MEDIUM-SIZED TRUMPET

SIR WATKIN—Sulphur yellow, giant

flowers. 3 for 10c; 29c per doz.; \$1.90

per 100.

SINGLE NARCISSUS, Finest Mixed.—4

for 10c; 22c doz.; 92c per 100.

Double
Trumpet
Narcissus
Von Sion

POET NARCISSUS

POETICUS ORNATUS—White, short yellow cup, edged red, of spicy odor. 2 for 5c; 20c per doz.; 75c per 100.

DOUBLE NARCISSUS

DOUBLE VON SION—The famous Old Dutch Daffodils, flowers golden yellow. 4c each; 32c doz.; \$1.85 per 100.

ORANGE PHOENIX—White, orange center. 4c each; doz. 33c; \$1.85 per 100.

ALBA PLENA—White, exquisitely scented. 2 for 5c; 25c doz.; \$1.60 per 100.

DOUBLE NARCISSUS, Finest Mixed.—3 for 10c; 25c doz.; \$1.00 per 100.

Chinese Sacred Lily.

Narcissus Emperor

GIANT PAPER WHITE NARCISSUS

Large trusses of pure white flowers, best kind for growing pots or water. 4c each; 37c doz.; \$1.72 per 100.

JONQUILS

Highly prized for their graceful, fragrant, large yellow blossoms. Single Sweet Scented—17c doz.; 83c per 100. Double Sweet Scented—29c doz.; \$1.74 per 100.

CHINESE SACRED LILIES

The most easily grown and satisfactory bulb for house or window culture. Fancy Bulbs, 15c each, 2 for 25c.

Anemone, Single and Double.

ANEMONE (Wind Flower)
These beautiful hardy Spring flowers are well worthy of a place in every garden, and are unsurpassed for their bright colors.
Single Poppy Flowered—Mixed—Beautiful poppy-like flowers. 2 for 5c; 18c doz.; 92c per 100.
Double Poppy Flowered—Mixed—Very double, of gorgeous colors. 3 for 10c; 25c doz.; \$1.65 per 100.

GIANT NAMED CROCUS

These are large bulbs of the best varieties, and are remarkable for richness of color and size of their flowers, and are the best to use for pot culture.

Prince Albert—Dark blue.
Cloth of Gold—Gold striped brown.
Cloth of Silver—White striped lilac.
Mont Blanc—Large white.
Sir Walter Scott—White striped purple.

Mammoth Yellow—Golden yellow.
Prices for the above: doz., 18c; 100, \$1.00; 1,000, \$7.50.
Crocus Choice Mixed—(Not less than 100 sold.)—Owing to the extremely low prices we cannot afford to put up packages containing less than 100 Bulbs. Price, per 100, 48c; per 1,000, \$3.97.

Buckbee's "Full of Life" Giant Crocus Mixture—The very best colors and shades in finest mixture. Prices, 18c doz.; \$1.00 per 100; \$7.50 per 1,000.

IXIAS

These beautiful flowers for pot culture in the house give great satisfaction. Flowers in spikes of the most dazzling colors. Finest Mixed, 3 for 5c; per doz., 14c; per 100, 90c.

SPARAXIS

The same as Ixias, in fact, we recommend growing bulbs of each in the same pot. Mixed, 2 for 5c; per doz., 18c; per 100, 95c.

STAR OF BETH-LEHEM

(Ornithogalum
Arabicum.)

A beautiful variety, throwing up a tall spike bearing numerous large milk-white star-shaped flowers, with a black center, and having a distinct aromatic perfume. They are decidedly pretty and interesting when grown in the garden, but are more largely grown for house and window decoration, being of the easiest culture. Each, 5c; doz. 50c; postpaid.

Giant Crocus.

Star of Bethlehem.

FREESIAS

NEW PURITY—One of the very finest of recent Bulb Novelties. Flowers of enormous size, with thick, heavy, waxy petals that last nearly two weeks, even when cut. Flower pure snow-white, save one tiny yellow spot in throat, and of wonderfully beautiful shape, petals being large, rounded and well open. Unlike all other Freesias. Grand for winter-blooming in pots. Large bulbs, 4c each; 3 for 10c; 12 for 25c; \$1.85 per 100.

FREESIA HYBRIDS—Strikingly beautiful sweet-scented flowers in many delicate colors. 4 for 25c; doz. 60c; 100, \$1.00.
FREESIA, RETRACTA ALBA—White with yellow throat; very fragrant. 3 for 5c; 15c doz.; \$1.12 per 100.

New Freesia—Purity.

Sparaxis—Ixias.

JAPANESE EASTER LILIES

True type. About two weeks later than the Bermuda. Pure white, fragrant flowers 6 to 8 inches long. Selected Bulbs, 15c each; 2 for 25c.

Bermuda Easter Lily.

LILIES

Byzantine Wonder Lilies.

BYZANTINE WONDER LILIES

This truly wonderful bulb throws up its many rosy hued, exquisite flowers without need of either soil or water, lasting in bloom 3 to 4 weeks. Place in any receptacle, or merely in sunshine or warmth, and the beautiful blossoms appear. Bulbs usually short, therefore order at once. Large bulbs 15c each, or 2 for 25c; Monster Bulbs, 20c each, or 3 for 50c; Jumbo Bulbs, 25c each, 5 for \$1.00. The larger the bulbs the more flowers.

BERMUDA EASTER LILY (Lilium Harrisii)

The Grandest Winter Flowering Plant. Finest and easiest grown lily for Winter flowering. Requires only a short time to bring into bloom. Our stock of this most popular flower is unsurpassed. Extra Selected Bulbs 15c each; 4 for 50c. Mammoth Bulbs, 23c each; 5 for \$1.00.

CANDIDUM LILY

The peerless white Lily, queen of the garden. Also called Annunciation or Madonna Lily. Although old and common, this is still one of the finest single clear white lilies in cultivation, and no garden, however small, should be without at least one plant of this variety. Can only be planted in the Fall. Perfectly Hardy. Extra Select Bulbs, 15c each; \$1.25 per doz.

Lilium Candidum.

Buckbee's XX Insect Soap

For House and Garden Plants.

A wonderful insect pest exterminator and unsurpassed for use on all plants and flowers in and out of doors. It is harmless and non-injurious to the tenderest growth and can be used with perfect safety on all plants. It also acts as a valuable fertilizer in reviving and giving new life to partly diseased plants, prevents leaves from dropping and foliage from turning yellow. It is odorless, clean and easy to handle—a small piece dissolved in lukewarm water and stirred until it suds—then applied to plants, either with spray, or washed well with a soft sponge is all that is necessary. Price, 4 oz. package, sufficient for two good sized prepared solution, mailed, postpaid, for 25c.

Hammond's Slug Shot

Guaranteed to destroy Potato Bugs and those on Tomatoes and Egg Plants, Currant Worms, Cabbage Lice and Worms, Fleas Beetles and Striped Bugs on Melons, Turnips, Beets, Onions. Postpaid, 1 lb. 15c. By express or freight, not prepaid, 5 lbs. 30c; 10 lbs. 50c; 25 lbs. \$1.35; 50 lbs. \$2.25; 100 lbs. \$4.25.
