"Heatherhome's" Guaranteed Bulbs

I heard a thousand blended notes,
While in a grove I sat reclined,
In that sweet mood when pleasant thoughts
Bring sad thoughts to the mind.

To her fair works did Nature link
The human soul that through me ran;
And much it grieved my heart to think
What man has made of man.

Through primrose tufts, in that green bower,
The periwinkle trailed its wreaths;
And 'tis my faith that every flower
Enjoys the air it breathes.

The birds around me hopped and played,
Their thoughts I cannot measure:—
But the least motion which they made
It seemed a thrill of pleasure.

The budding twigs spread out their fan,
To catch the breezy air;
And I must think, do all I can,
That there was pleasure there.

If this belief from heaven be sent,
If such be Nature's holy plan,
Have I not reason to lament
What man has made of man?

—Wordsworth.

“Heatherhome”

(The Home of Heather)

always denotes distinctive quality
in both merchandise and service

Heatherhome Service just *begins*
when seeds, bulbs or plants are
received by our customers. With
all other seed firms service *ends*
when purchases are delivered at
your door

It is in this important point that
Heatherhome Service differs from
all others

"Heatherhome's" Guaranteed Bulbs

Deliveries

Not all bulbs are cropped at the same time, and as it is important to plant bulbs when they are by Nature's process ready, we shall make deliveries as follows:

August—Early	Fall Blooming Crocusses Roman or French Hyacinths Paper-White Narcissus Freesias Allium Neapolitanum Jonquills Campenelle
August—Middle	Lillian Harrisii
September—Early	Lilium Candidum
September—End	Dutch Hyacinths Tulips, all classes Daffodils, all classes Crocus and all other bulbs except
October	Spirea Japonica Gladiolus Cardinalis Japan Lilies
November	Lily of the Valley Clumps
December	Lily of the Valley Pips

Owing to the unusual conditions this year, deliveries may be later than above schedule.

In again presenting our complete list of SPRING FLOWERING BULBS FOR IMPORT ORDERS, we wish to call our patrons' attention to the fact that we have made special arrangements to have our bulbs delivered even with the present unsettled condition of affairs in Europe.

So that we may be able to take care of your order it is necessary that same be in our hands by

JULY 1st

Deliveries may be expected from the middle of September on, with the exception of a few classes, which are deliverable either earlier or later—for date see our Dates of Delivery on page 6.

If cash accompanies the order we will allow a discount of five per cent.

The low prices in this book hold good only on orders received by July 1st, and are subject to advance if received after that date.

The main advantages to be gained in reserving your order now are:

1. You can select your bulbs from an unlimited list of varieties.
2. You will receive all of your order and it is not necessary to substitute any of the varieties.
3. You receive the best quality of bulbs obtainable, as we are able to place definite orders for our stock early in the season, and receive the choicest bulbs.
4. You receive a lower price and a discount of five per cent. if cash accompanies the order.
5. Your order will be included in our first shipment which comes from Holland early in the Fall, and will be sent to you as soon as received.

"Heatherhome's" Guaranteed Bulbs

Are You in Want of a Real Gardener?

Owing to our close relationship with the gardening profession, we receive constant inquiries from professional gardeners who are anxious to make changes.

Before we file the applications we convince ourselves that the party is of unquestionable character and ability, and thereby we prevent much disappointment for those whom we serve.

Many people often mistake garden laborers for gardeners. The former can be secured through any employment agency, but the latter only through channels like ours.

To avoid unnecessary correspondence we wish to inform the public that real gardeners, men who are thoroughly competent, refuse to be employed at less than \$75.00 per month and their home.

We prefer to recommend men who demand \$100.00 and more per month because it conveys to us an assurance of their confidence in their ability.

Such men will not only relieve their employers of all responsibility as to the care of the garden, but will also be instrumental in causing them to enjoy their gardens to the fullest extent.

Please tell us your needs and we shall submit to you the names of several parties for your choice.

No charge whatsoever for this service.

Our Knowledge at Your Disposal Absolutely Free

We always welcome inquiries and thoroughly enjoy imparting from our knowledge to others such information as they may seek and we possess.

Please do not think, that you are annoying us; on the contrary, the longer your letter, the more numerous your inquiries, the better we like it, for it refreshes our memories and keeps our thinking power in exercise.

Our main desire is—to help you if we can, and thus make you a more successful gardener in the future.

A Guarantee for Seeds, Bulbs and Plants

To prove to our Clients that we have absolute confidence in our seeds, bulbs, and plants, and that our goal is "reliable service," we announce that hereafter

Heatherhome's Seeds, Bulbs and Plants

CARRY

AN ABSOLUTE GUARANTEE

In order that our guarantee shall not be misunderstood, we ask everyone to carefully read the wording of our catalogue and of our guarantees.

We guarantee our seeds to be absolutely fresh, to be strong in germination, to be true to their specie, to be of superior quality, and to approach the description presented in this book.

Should our seeds fail to germinate, or if not true to their specie, we either replace free of charge, or refund the original amount paid for same.

But, we do not and cannot guarantee that seeds of a specie offered in certain colors will all come true to the color designated, for it is beyond human power to produce such seeds.

We guarantee our bulbs to be sound, to be true to name, and to produce such results as indicated in our book. Should our bulbs fail to grow or not come true, we will replace them free of charge, if still possible, or refund the amount paid for same.

We guarantee our plants to be strong, to be alive, to be packed carefully, to succeed, and to be absolutely true to name, except when otherwise mentioned in our offers.

Should shipments arrive in damaged condition, due to our negligence, or should plants fail to materialize after planting, or be proven untrue, we are ready to promptly replace, free of charge, the plants in question, or refund the money paid for same.

But our guarantee ceases if shipments arrive in damaged condition, or are delayed in transit, due to the negligence of the express companies or railroads.

"All shipments of plants are made at the risk of consignee," is the rule adopted by every plant-house in the world—yet, our patrons need not feel alarmed if they receive a shipment in damaged condition due to the negligence of the express companies, for such companies are liable for the loss, and when signing receipts for damaged goods, state distinctly "Received in damaged condition."

File your claim at once with the express company and notify us, and we will help you to obtain your claim.

"Heatherhome's" Guaranteed Bulbs

THE GROVE, Saginaw, Mich.

Knight & Struck Co.,
New York, N. Y.

GENTLEMEN:

My order of bulbs arrived a short time ago in excellent condition and please allow me to remark upon the extremely good quality of your stock.

My old gardener remarked upon planting, "Lordy missy, reck'n we'll jes use de spade 'stead de strowel dis heah time. De shure is de best's lookin' fellers I seen for many a year."

I'm sure that lazy old soul was nearer the truth than from it as all my friends agree with us.

Thanking you indeed for all kind consideration shown, I am,

Very sincerely yours,
GRACE LUCAS.

Pictures in Your Garden

We realize that it is difficult for the average amateur to know all the ideal combinations existing in plants for the garden, and so we shall offer from time to time suggestions along this line.

At no time are our gardens gayer with colors than in the spring.

Here we shall have a glorious sight of pink Tulips, there our purple Hyacinths, and in another spot our golden Daffodils; and while we are enraptured with the joy of looking upon these harbingers of spring, we could enhance a thousand fold the brightness of these spots and make each more artistic by the addition of a carpet plant, which might either be of the same or of a contrasting color.

Let us illustrate this clearly:

A bed of Hyacinths (no matter how pleasing the color may be) appears stiff to the writer unless the spikes rise through a carpet of either white Rockcress, golden Tufted Pansies or purple Aubrietias. Can you picture the royal purple Hyacinths rising through a carpet of violet mauve Aubrietias, or the pink ones coming through a field of white Rockcress! Why, it simply lifts each one to a height of enchantment that cannot be reached in any other way.

Do you grow pink Darwin Tulips? Then surely edge them with and plant between them the pink English Daisy. No finer effect have you ever enjoyed.

We offer the following list of carpet plants, suitable for combining with bulbous flowers:

Alyssum Sazatile Compactum, golden yellow—

Suitable for carpeting and edging such bulbs as purple Hyacinths, violet, mauve or purple Tulips, golden Daffodils, yellow Tulips, particularly the bronze Breeder.

Per dozen, \$1.50; per 100, \$10.00

Arabis Alpina (white Rockcress)—

Suitable for carpeting white, pink and red Hyacinths, all single early Tulips.

Per dozen, \$1.50; per 100, \$10.00

Aubrietia, mauve—

Suitable for carpeting white, pink, purple and yellow Hyacinths, golden Daffodils, pink, white, yellow and purple Tulips, particularly the new pastelle shades of Darwin Tulips, and such grand beauties as "Moonlight," "Inglescombe Yellow" or "Bouton d'Or."

Per dozen, \$2.50; per 100, \$18.00

Bellis Perennis Pink (the English Daisy)—

One of the finest subjects to use as an edge for pink Darwin Tulips. It is exactly of the same shade as the variety "Clara Butt" and "Baronne de la Tonnaye."

Per dozen, \$1.50; per 100, \$10.00

Bellis Perennis White (the English Daisy)—

Excellent when used with Darwin Tulips of any color, particularly the scarlet sorts.

Per dozen, \$1.50; per 100, \$10.00

"Heatherhome's" Guaranteed Bulbs

Pictures in Your Garden—Continued

Mertensia Virginica (Virginian Cowslip), blue—

This should be planted between pink Tulips—such as "Prosperpine," "Sarah Bernhardt," "La Reve," etc.—and thus it will produce a most pleasing effect.

Per dozen, \$1.50; per 100, \$10.00

Myosotis Victoria (blue Forget-Me-Not)—

Nothing more lovely exists than a combination of this charming subject with any of our bulbous flowers. Picture in your mind any delicate pink Tulips rising through a perfect mass of heavenly blue. Dresden China never approaches it.

Per dozen, \$1.50; per 100, \$10.00

Iceland Poppies, yellow or orange—

Splendid when combined with any late yellow Tulips or even with Daffodils.

Per dozen, \$1.50; per 100, \$10.00

Phlox Subulata (Creeping Phlox), pink—

Just the ideal subject to combine with Poet Narcissus and mauve Darwin Tulips, such varieties as "Rev. Ewbank," "Nora Ware," etc.

Per dozen, \$1.50; per 100, \$10.00

Phlox Laphami Perry's Vars—

A Phlox growing about 10 inches high, with clear, delicate lavender flowers. It is in bloom at exactly the same time as the Darwin Tulips, and therefore should be combined with all lavender mauve or purple Darwin Tulips.

Per dozen, \$2.50; per 100, \$15.00

Primrose (Golden)—

The picture we can produce by combining this plant with all golden Daffodils or Tulips is loveliness complete. Just dream of this combination. A late Tulip, like "Bouton d'Or," rising about 15 inches high in golden yellow; below it the golden Iceland Poppy, 8 inches high, and finally the carpet of golden Primroses. Still further, let this combination appear under the overhanging branches of the Forsythia or Golden Bell—and what is there in the world of art than can either approach or excel it?

Per dozen, \$2.00; per 100, \$15.00

Viola Cornuta (Tufted Pansies)—

This appears in shades of violet, mauve, golden and white, and in all these shades it can be used with telling effect. Purple Hyacinths can be made to look twice as handsome when rising through either of the foregoing; Tulips or Daffodils equally so. This Viola is much better than the common Pansy for this purpose, as it flowers more freely and more continuously.

You will say, "This will make our spring garden very expensive." But you have overlooked the fact that most of the subjects are perfectly hardy and you will enjoy them for years to come.

You should plant them as soon as you have finished your bulb planting.

We are quite certain that if you try any of our suggestions, never again will you plant bulbs alone, and you will receive an inspiration which will disclose to you further the many possibilities of making gardening more enjoyable.

SUGGESTIONS AND INSTRUCTIONS

FOR

GROWING BULBS

THE HOUSE

Do you know that an abundance of flowers may be had in the house, from before Christmas until the outdoor bulbs are blooming in the gardens? This can be done as easy in the average house as in the most complete conservatory. Surely no home should ever be without flowers during any season of the year, as their wondrous beauty and delicate perfume is a necessity at all times.

But, in the first place a proper selection of varieties must be made, and only those bulbs that are entirely suited for this kind of treatment may be used. Named varieties of bulbs only should be used as cheap mixture will never give good results. For the beginner we are offering collections of Winter flowering bulbs, for the house, which if properly cared for will give continuous bloom from Christmas until Easter. You will find these collections listed on page 18.

Throughout this book are varieties recommended for forcing and by going carefully over these you can make an intelligent selection. But, for the beginner we recommend one of our Heatherhome Collections of Indoor Flowering Bulbs.

TO BE SUCCESSFUL ONE MUST FOLLOW THE FOLLOWING
INSTRUCTIONS FOR

INDOOR CULTURE

Here we shall consider the general principles of growing bulbs indoors: the following are very important.

We shall take up the three most successful ways of growing indoors as follows:

1. Growing bulbs in soil.
2. Growing bulbs in Fibre.
3. Growing bulbs in water.

Each way is fully explained under separate heading.

"Heatherhome's" Guaranteed Bulbs

GROWING BULBS IN SOIL

First we shall take up the soil in which the bulbs are to be planted. This is an important factor in the successful forcing of any bulbs.

We have found the ideal soil should be prepared as follows:

- 2 parts friable loam
- 1 part sand
- 1 part decayed leaf mould or thoroughly rotted manure.

A little charcoal and wood ashes if mixed with this will keep it sweet and porous.

Never force bulbs in the same soil twice. It is always best to mix the soil just as you need it, so that it retains all of its life and the bulbs will receive a good start from the very first.

In potting be careful that the receptacle is thoroughly clean. In the bottom first place some pieces of broken flower pots—second: a handful of rough soil. Then after sifting your prepared potting soil through a one-half inch mesh screen, fill to within one-half inch of the top. Be careful to press the soil only moderately firm.

The bulbs should be planted close together but should not touch. Care should be taken that enough soil be placed around them to keep each one firm and in position.

After potting, water thoroughly and place in a cool, airy cellar or dark room. Be careful that it is not too cold so that the bulbs should freeze, or too warm as they may start into growth. Extra care must be exercised in watering, and they must not be allowed to dry out or be too damp for fear some of the bulbs may begin to rot. The aim is to keep the soil just moist.

The bulbs should be kept in the dark at least from 6 to 8 weeks, except, of course, Paper White Narcissus and Fall Flowering Crocus. When the tops begin to sprout they are ready to be brought gradually into the light. After making a good start place in the lightest place available, although not the warmest, for if the flowers are allowed to come in slowly they will develop to a much higher degree.

GROWING BULBS IN WATER

The bulbs grown mostly in water are the Polyanthus Types of Narcissus. Fall Flowering Crocus and named varieties of Hyacinths.

Use a shallow bowl or basin and cover the bottom to the depth of about an inch with pebbles or sand. Have enough water in the bowl so that it just covers the bottom of the bulb.

Keep the bulbs in the dark until good root growth is established, when they should be brought into a warm room with a good light. Bright light is the most essential point in growing bulbs successfully in this way.

Hyacinths when grown in glasses made especially for this use, will make spikes almost as good as when grown in soil.

GROWING BULBS IN FIBRE

In growing bulbs in fibre, care should be taken that only a good fibre is used, as this is a most important factor. Our Heatherhome Prepared fibre is made up specially, and we can assure our patrons that it contains all of the necessary ingredients to insure success. An advantage of using this means of forcing bulbs is that it can be used in bowls or vases where there is not an outlet for the water. It is clean and odorless and can be used in our living rooms in safety.

When the fibre is first received it should be spread out and sprinkled lightly with water, so that when it is used the moisture will be evenly distributed throughout. Care should be taken that it is not too dry or too wet, and when you pot your bulbs it should be light and "Spongy" and not soggy as it will be if too wet.

We can supply bowls suitable for growing bulbs in this manner. You will find these listed on page 134 in this book.

In planting, the smaller bulbs should be covered slightly, but larger sorts should be only a little more than half covered.

After potting, the bulbs should be watered and placed in the dark in a cool airy cellar or room the same as when potting in soil. From then on the treatment is similar.

Never let the fibre dry out and if you should water too freely turn the bowls on their side so that the water will have a chance to drain off.

"Heatherhome's" Guaranteed Bulbs

OUTDOOR CULTURE

This class of stock is the easiest of all flowering subjects to grow outdoors, and for a small outlay will repay anyone who cares to have wonderful results with raising their own flowers.

We have here one class of flowers that will grow to as fine a state of perfection in our cities, as it will under the more natural conditions of our country districts and large estates.

Anyone with even a tiny back yard should grow some bulbs, as they will succeed and thrive anywhere.

Any good garden soil will grow bulbs, although they prefer a light, porous and well drained location. If the soil is heavy or clayey, a little sand at the base of each bulb will be beneficial.

In planting be careful that the bulbs are set deep enough in the ground. As a general rule plant from $1\frac{1}{2}$ to 2 times their depth. This is a general rule and under different conditions should be changed to suit, that is, in light soils a little deeper than in heavy clay soils, etc.

Never use fresh or half rotted manure, as this will burn the bulbs and failure will be sure.

It is better to use some commercial fertilizer, for instance if your soil is light and sandy use Bone Meal, and if it is heavy and wet use Clay's Fertilizer.

The earlier the bulbs are planted the better, and just as soon as they are received from your dealer, they should be planted out while the soil still retains some of its summer heat.

In the vicinity of New York it is best to give the beds a slight protection for winter, but care must be taken that too heavy a covering is not used, as it may start the tops into growth too early in the spring, and this would, of course, be detrimental.

Early tulips should never be used more than one year, for they generally deteriorate after once they have reached maturity. The late flowering varieties especially the Darwins and May Flowering types will increase and improve year after year. The Polyanthus types of Narcissus are not hardy in this country except in the south, but all of the other sorts will thrive and for permanent plantings are unexcelled especially the Trumpet Varieties, Von Sions and Poets.

Naturalizing Spring Flowering Bulbs

This is a method of planting that appeals principally to the owners of large places, although even small grounds offer some chance for naturalizing a few of our various bulbous friends.

For instance, Galanthus, Crocus, and Scillas can be planted in large quantities in the grass and on the edges of the lawn.

Daffodils such as Emperor, Empress, Golden Spur, Sir Watkin, double Von Sion, the Poeticus varieties and some of the Leeds type as well as the Darwin and May flowering Tulips are suitable for massing among shrubbery and in Perennial borders. These will succeed if not shaded too much as they must get some sunshine. An ideal place for such planting is to be found in the meadow or orchard.

Each place has individual requirements in regard to planting for natural effects and it is sometimes best to have us recommend varieties suitable for certain places.

One of the best features in regard to this method is the fact that once the bulbs are planted they require very little care and will go on blooming and multiplying year after year much to the delight of the amateur.

After four or five years they will get too crowded and should be lifted, after the foliage has died down, and divided. After dividing the bulbs select only the largest ones and keep these in a cool dry place and replant again in the fall. By doing this you will have flowers the following year.

This is a most interesting phase of gardening and deserves to be more popular.

If thou of fortune be bereft,
And in thy store there be but left
Two loaves; sell one, and with thy dole
Buy hyacinths to feed thy soul.

—SADI.

"Heatherhome's" Guaranteed Bulbs

COLLECTION OF INDOOR BLOOMING BULBS

Forcing bulbs is one of the most interesting phases of Floriculture, and can be practised successfully by even the beginner, if the right selection, and varieties is made and care is used in following our Cultural Instructions.

For one who does not care to go over the list and pick out the different varieties, we are making up a collection of Winter Flowering Bulbs for growing in the house, which if properly cared for, will give flowers in the house, from shortly after Thanksgiving until the Springtime takes our thoughts back to the outdoor garden.

Could you ask a better assortment?

If you contemplate growing some flowers in the house, why not order one of these collections now, it will surely give you entire satisfaction.

Collections: \$2.50 — \$5.00 — \$10.00

The \$5.00 Collection contains the following:

6	Tulips	Vermillion Brilliant.....	\$.30
6	"	Cottage Maid.....	.18
6	"	Yellow Prince.....	.17
6	"	Murillo	.20
3	Hyacinth	Gigantea	.45
3	"	La Grandesse.....	.60
3	"	King of Blues.....	.45
6	"	Roman white.....	.50
6	Narcissus	Empress	.23
12	"	Jonquills single.....	.20
6	"	Poeticus Ornatus.....	.13
6	"	Von Sion.....	.30
12	"	Paper white.....	.40
6	"	Grand Soliel d'Or.....	.30
6	Freesia	Purity	.37
6	"	Alba	.17
12	Crocus	Speciosus.....	.35
			<hr/> \$5.30

The \$2.50 Collection contains half the above, and the \$10.00 Collection twice the amount.

We can make no changes in the varieties listed.

Please Order at Once

THE STATELY TULIP
The Queen of Spring

"Heatherhome's" Guaranteed Bulbs

HEATHERHOME'S DARWIN TULIPS

The Tulip of To-day and the Tulip of To-morrow

No other bulbous flower was ever received with greater acclaim than this truly "Queen of All Tulips." In her royal splendor she outshines all her companions, and with her majestic appearance she wins the admiration of all flower lovers and instant approval of those who see her for the first time.

"Darwins" are a class of Tulips which flower long after the other tulips have flowered, and in the vicinity of New York are at their best between May 15th and May 30th. They are slow in developing and, therefore, last much longer. The truly gigantic flowercups are borne on stout straight stems, which rise far above a broad foliage and which commonly attain a height of 2 to 3 feet. The flowers are uni-colored and have as their charm a base of a different color. To step into the garden at the noon hour and peek into the cups of Darwin Tulips is a treat for the eye, wondrous to behold, never to be forgotten. In the garden they may be planted as regiments in massive beds, but more artistically in proper color arrangement in irregular groupings as a ribbon to shrub borders or as clumps in hardy borders. They are hardy and may be left in the ground for at least three years in succession. To fill their place during summer while they are dormant sow *Lavatera* above them after the flowers have gone by, and they can then be left undisturbed while no vacancy is formed by their sleep.

For pot culture they are splendid and are just the ideal Tulip to grow for Easter.

For the benefit of those who wish to adopt this suggestion, we offer on one of the following pages a list of such sorts as are especially suitable for this purpose. No other publication has ever before given this information.

PLEASE NOTE—We cannot accept orders for less than six bulbs of any one kind unless otherwise noted.

COMPLETE LIST OF DARWIN TULIPS

We have long ago recognized the value of the Darwin Tulip as the one Tulip for the American gardens and now that the public has recognized it, we have made a careful study of all desirable sorts and present herewith a most complete list of this flower.

We offer but one quality in everything, namely,

"The Top Notch Quality."

Nothing better can possibly be secured.

	Doz.	100	1000
Adèle Sandrock. A sweet scented flower of a striking salmon rose	\$.75	\$5.00	\$40.00
Adolf Van Der Heede. Brilliant scarlet with blue base....	.35	2.50	21.00
Aesculape (Syn. Prof. Balfour). Violet blue.....	.35	2.50	21.00
André Doria. Velvety maroon brown, almost black. Fine large flower. A good pot variety. Height, 22 inches...	.60	4.00	32.00
Anton Mauve. Gigantic flower of mauvy violet, with light blue center	4.00		
Anton Roozen. Vivid rose pink, with white base, marked blue. Really a handsome specimen. Height, 23 inches..	.45	3.00	23.00
Arentine Arendsen (Syn. May Queen). Bright rose, large flower	.35	2.50	21.00
Ariadne. Brilliant rosy scarlet, with blue base. An enormous cupshaped flower held perfectly upright by a strong, tall stem. One of the showiest bedders. (R Brilliant Scarlet Red). Height, 28 inches.....	.60	4.00	32.00
Baron De Goldstein. Glowing salmon rose with azure center	.80	6.00	47.00
Baronne De La Tonnaye. Vivid light pink, margined blush. One of the showiest varieties in pink, and used extensively in all better gardens. The flower stands upright to the last, keeping its brightness without regard to weather. Height,, 26 inches. If you carpet the pink Bellis Perennis under these tulips and let the spikes rise through it, you are producing one of the loveliest pictures in your garden.....	.35	2.50	16.00
Bartigon. Flery crimson. A very showy variety of the most vivid crimson with a pure white base, showing off and illuminating the color even more intense. (R Brilliant Carmine Red).	.50	3.50	28.00
Beauty see Edmee.			
Beethoven. Beautiful soft rose pink, shading to silvery pink at margin. Height, 26 inches.....	.50	3.50	28.00
Bleu Aimable. Bright violet purple, shaded steel blue, inside dark violet purple with a blue base. Very large and handsome. Height, 26 inches.....	2.50	17.00	
Bleu Céleste. Light blue. Very fine and distinct, very late	6.00	47.00	
Calistre. Rosy lilac, blush rose at margin.....	.45	3.00	23.00
Carl Becker. Pale rose violet, with center flushed salmon rose. Large flower of remarkable beauty. Excellent forcer, though paler in color. Height, 32 inches.....	.45	3.00	23.00

All Bulbs Guaranteed

"Heatherhome's" Guaranteed Bulbs

List of Darwin Tulips—Continued

	Doz.	100	1000
Centenaire. Rich violet rose with large blue center. Enormous flower of perfect shape. A king amongst this class of flowers. Height, 32 inches.....	1.25	8.00	75.00
Clara Butt. Delicate salmon pink. A medium sized flower and stem, but of such perfect shape and lovely color that it is the most popular of its class. (R Clear Self-colored Rosy Pink.) Height, 21 inches.....	.35	2.50	16.00
Claude Gillot. See Glow.			
Corydon. Soft heliotrope, flushed lilac, a true pastelle shade. (R Deep Lavender, with a lilac shade).....	.45	3.00	23.00
Crépuscule. Soft, rosy lilac. Magnificent base of light blue. A very striking color.....	1.25	8.00	70.00
Dream (Syn. Reve De Jeunesse). Beautiful soft uniform lilac. Large flower. Height, 26 inches.....	.50	3.50	30.00
D. T. Fish (see Mrs. Potter Palmer).			
Eclipse. Brilliant chestnut brown. Large flower.....	1.50	10.00	
Edmee. Also known as Beauty. A beautiful shade of vivid cherry rose, with a margin of lighter color. Height, 25 inches	.50	3.50	30.00
Electra. Soft rosy lilac, broadly margined grayish white. Medium sized flower of distinct shape. A very delicate colored flower of great beauty. Height, 26 inches....	.60	4.00	32.00
Emanuel Sweets. A combination of pink and lavender, with a deep-throat of white. Splendid.....	.40	2.50	20.00
Erguste. Deep heliotrope, flushed silvery white. The inside shows a darker shade. Splendid for forcing. Height, 26 inches.	.60	4.50	40.00
Europe. Brilliant flame scarlet, with showy base of white. One of the most glaring colors, and keeping its bright color to the last. The flower stems are always erect. (R Glowing Scarlet Red.) Height, 22 inches.	.35	2.50	21.00
Euterpe. One of the latest introductions. A gigantic flower of an artistic lilac color.....	.90	7.00	60.00
Fanny. Delicate pale rose, shaded blush. A very large flower.....	.40	2.50	19.00
Farncombe Sanders. Brilliant rosy red, with a clear white base. One of the largest and most beautiful of all Darwins. Its color is unapproached. It has but one fault, namely, the flower is so heavy that in stormy weather the bloom often breaks off the stem. (R Vivid Deep Rose.) Excellent for forcing. Height, 25 inches.....	.35	2.50	21.00
Fashion (see Mrs. Potter Palmer).			
Faust. Deep purple maroon, large and brilliant. (R Deep Indian Purple, almost glittering black).....	1.50	10.00	
Flamingo. Delicate shell pink. A new variety of most lovely shape and exquisite color. For a dainty effect it has no equal in this class. (R Soft Thulite Pink, self-colored).	.90	7.00	60.00
Fra Angelico. Dark Brown. Earliest of all.....	.45	3.00	23.00

List of Darwin Tulips—Continued

	Doz.	100	1000
Gi <u>ant.</u> The largest bloom in this color, if not the largest in this class. The color is clear and striking, a dark violet with a base of steel blue. The flower is carried erect on a giant stem. (R Pansy Purple.) One of the greatest novelties amongst the Darwin Tulps.....	4.50	30.00	
Gl <u>ory of Walworth.</u> The color of this magnificent tulip is a beautiful lilac, shaded silvery white, the flower being carried on a long graceful stem.....	4.00	28.00	
Gl <u>ow.</u> Dazzling vermilion scarlet, with a magnificent base of dark blue, margined white. The color simply draws one to the spot. Height, 23 inches.....	.45	3.00	23.00
Gr <u>etchen.</u> Also known as Margaret. The flower is but medium in size, but is carried erect on a stout, tall stem. Its color is most refreshing, namely, a pale, creamy pink, so clean and attractive that one must call it a gem. (R Pale Rose, flushed with white).....	.25	1.75	14.00
Har <u>ry Veitch.</u> Brilliant red, on strong arm.....	.40	2.50	20.00
Hen <u>ner.</u> Shiny chestnut reddish brown, very beautiful....	.75	4.50	
Is <u>is.</u> The large brilliant flower of a flamy red shows a blue base, and like the fields afire, excites the vision. (R Glowing Nopal Red).	.50	3.50	28.00
Jul <u>ie Vinot</u> (see Princess Elizabeth).			
Ka <u>te Greenaway.</u> White, slightly flushed lilac. It is considered the best near white Darwin, flowers late. Height, 24 inches.	.40	2.50	19.00
King George V. Bright red. New.....	2.50	17.00	
King Harold. Also known as Mahony. Deep, rich, crimson, with white base. Height, 24 inches.....	.40	2.50	16.00
La Candeur (Syn. White Queen). Almost pure white when mature, as a bud it is pale rose and with its black antlers it presents a very attractive picture. Height, 24 inches.	.40	2.50	19.00
Lan <u>tern</u> (Syn. Nizza). Wistaria colored, paler toward the edge, tipped outside mauve rose. Quite artistic in coloring, but flowers are only of medium size. Height, 20 inches.	.50	3.50	28.00
La Tristesse. A true pastelle shade, a mauve purple so highly admired in antique tapestries and costumes. Intensely artistic. Height, 26 inches.....	.75	4.50	42.00
La Tulip Noir. (The Black Tulip). The deep purple maroon is the nearest approach to black. (R Glitter-Black.) Height, 25 inches.....	1.00	6.00	54.00
L <u>'Ingenu</u> e. Quite new. A refreshing light rose-pink, with a broad border of pinky white. Very bold and striking. Height, 27 inches.....	1.00	6.50	56.00
L <u>oveliness.</u> Soft clear rose, paler at margin, of large size and excellent shape. A most lovely tulip for the garden. Height, 21 inches.	.40	2.50	20.00
Ma <u>dam</u> e Krelage. Soft lavender rose, with a broad margin of blush pink. Grows exceedingly tall, and is exceptionally handsome. Height, 28 inches.....	.40	2.50	20.00

Orders Must be Received by July 1st

	Doz.	100	1000
Mahony (see King Harold).			
Marconi (New). Immense flower of dull violet, with distinct white base. The color that all artistic gardens seek and retain.	.75	4.50	38.00
Margaret (see Gretchen).			
Mark Twain . Soft rosy heliotrope, with white center. Medium sized flower of unique shape. A very distinct tulip of great beauty. Height, 20 inches.....	.75	5.00	45.60
Massachusetts . Gigantic flower of vivid rose pink, showing a white center. (R Tyrian Pink, the edges rosy white flushed.) Height, 26 inches.	.40	2.50	21.00
Mauve Clair . Also known as "Fille Cherie." A giant among giants, and of such colorings that you cannot resist its possession but wish it intensely. The pale steel blue petals are softened by a shading of rosy mauve in its cheeks, just as if your very breath had helped in the coloring. The blue base shows a halo of white.	1.00	6.50	58.00
May Queen (Syn. Arentine Arendsen). Soft lilac rose with white base marked blue. Very long large flower, somewhat drooping. A really handsome tulip. Height, 26 inches.	.40	2.50	21.00
Melicette . Lavender violet, edged violet mauve. Inside, dark heliotrope with blue center. Large flowers with reflexing outer petals. Height, 23 inches.....	2.00	15.00	
Minister Tak Van Poortvliet . Glowing rosy scarlet with blue base. Large flower on tall sturdy stem. Height, 25 inches.	.50	3.50	28.00
Mrs. Cleveland . Delicate flesh pink, overlaid and fumed with tapestry rose, just as if the artist had tried to draw a second color over the first. The inside is remarkable, being a pale antique rose, the whole enriched by a blue base. (R Hermosa Pink, flushed shrimp pink)	.45	3.00	23.00
Mrs. Potter Palmer . Also known as "Fashion" and "T. D. Fish." A bright purplish, violet, unique and showy....	.45	3.50	28.00
Mrs. Stanley . A large flower of a distinct rose shade, having deep purple suffused through it, which gives it an antique appearance. The base is of a bright blue, showing off well in the contrast. (R Mallow Pink).....	.45	3.00	23.00
Nauticus . Purplish rose, with dark violet base, shaded bronze. A massive flower on a massive, erect tall stem..	.45	3.00	23.00
Nora Ware . Delicate wistaria color, showing a darker shade toward the center of petals. A clean and delicately colored flower.	.40	2.50	21.00
Nizza (see Lantern).			
Ouida . Rich, glowing crimson, of good lasting quality. The gigantic flower is always held erect, and therefore it is most effective in the garden.....	.40	2.50	21.00
Painted Lady . Creamy white. Faintly tinged soft heliotrope when opening. Quite distinct in form, resembling a water lily. Height, 27 inches.....	.40	2.50	20.00
Pales (see Saes).			

These Prices Good Only to July 1st

List of Darwin Tulips—Continued

	Doz.	100	1000
Petrus Hondius. No doubt this variety will be the foremost for bedding purposes when better known, the color being a bright carmine rose, carried erect on long stiff stems.	1.50	11.00	
Philip de Communes. It would have been better named "Othello," for, like the royal warrior, it is majestic in its dark coloring of deep purple, and enriched by an exquisite velvety sheen. In a combination with the lighter pastelle shades it is illuminating.....	.45	3.50	28.00
Pomona. Salmon red. It is particularly well adapted for forcing and if so grown changes its color to salmon pink	.60	4.00	32.00
Pride of Haarlem. Glaring carmine rose. The color is in a class by itself and produces in masses such an attractive effect that one must stand in silent reverence before it. The flower itself is delightfully perfumed. (R Bright Tyrian Pink).....	.50	3.50	21.00
Princess Elizabeth. Also known as "Julie Vinot." In color it is unique—a clear salmon-scarlet, so bright and rich that it fires your inspirations. (R Deep Rose Pink)	.60	4.00	32.00
Prince of the Netherlands. Brilliant carmine, flushed salmon rose. Every part of this variety, namely, flower, stem and foliage, shows the greatest vigor. It is a monster from every viewpoint. (R Deep Rose.) Height, 30 inches	1.50	11.00	
Prof. Balfour (see Aesculape).			
Professor Francis Darwin. Salmon scarlet with blue base. Large flower of bold character. Height, 22 inches....	.50	3.00	21.00
Prof. Rauwenhoff. Deep cherry-rose. Splendidly formed, large flower. (R Vivid Deep Rose).....	.50	3.50	30.00
Psyche. A noble flower of extreme beauty. The silvery pink petals unite in a goblet of Roman architecture, held erect on graceful, slender stems. When our vision beholds the view of the base of the inner cup, we cannot help but exclaim, for the combination of light blue running off into pale rose is altogether alluring. For vase work, where we can show these beauty spots, it is artistic to say the least. Considering the inexpensiveness, it should be found growing in colonies in the garden. (R Soft Rose Pink).....	.50	3.00	23.00
Purple Perfection. Large cup-shaped flower of maroon claret purple.	1.00	7.50	
Remembrance. A rich lilac-shaded mauve, which gives the flower a most artistic appearance; this variety is the largest in the mauve and lilac class, the height being 28 inches.	1.00	7.00	
Rev. Ewbank. Silvery bellotrope; rather dwarf in growth, but its color is very artistic, especially when shown under artificial light.....	.45	3.00	26.00
Reve de Juunesse (See Dram).			
Saes (Syn. Pales). Light lilac. White base.....	.60	3.50	30.00

List of Darwin Tulips—Continued

	Doz.	100	1000
Salmon King. Rich deep salmon rose; a distinct and lovely color, which is universally desired. When these are planted as rising through a carpet of Pink English Daisy (Bellis Perennis) they present a picture of exquisite beauty.	.40	2.50	16.00
Sir Trevor Lawrence. Purplish violet with white base; gigantic flower.	1.00	6.50	58.00
Sophrasine. Rather new. The large pointed flower has a blue base and a broad border of silvery white; the color effect of the flower in total is delicate pinkish lilac edged silvery white. (R Pale Rosaline Purple, bordered cameo pink).....	1.50	9.00	
Suzon. Most delicate rosy-flesh, with a bluish white margin. (R Soft Daphne Pink, margined tilleul buff).....	.45	3.50	28.00
Tak von Poortvliet (see Minister Tak).			
The Black Tulip (La Tulipe Noir). Almost true black, but found on close inspection to be purple maroon. This tulip has a velvety sheen which enhances its beauty immensely, when seen in bright sunlight. The flower is large, of excellent form and still very scarce. Height, 25 inches.	1.00	6.00	54.00
The Sultan. Also known as "Joseph Israels." The color, maroon black, sombre. Medium sized flower.....	.35	2.00	14.00
The Yellow Darwin (Inglescombe Yellow). An elongated, goblet shaped flower, of glossy canary yellow. It is the only yellow which can be combined with the Darwin. Dream a blending of this sort with the richer violet or purple sorts and your artistry is complete. Height, 21 inches.	.60	4.00	32.00
Velvet King (Syn. Dreadnought). Dark gloss royal purple with white base, marked blue; a giant amongst giants and a really exquisite flower. Height, 25 inches.....	2.00	14.00	
White Queen (see La Candeur).			
William Copeland (Syn. Sweet Lavender). Lilac rose; not a large flower, but excellent for forcing as it is extremely early. Height, 24 inches.....	.55	3.50	30.00
William Pitt. Brilliant carmine enlivened by a flame-like suggestion in the petals, which gives it a resemblance to the richness of the Single Early Tulip, "Couleur Cardinal."	.55	3.50	28.00
Yolande (Syn. Duchesse of Westminster) New. Bright rose pink shaded salmon; very large. Height, 27 inches....	4.00	33.00	
Zulu. Rich velvety purple black; large egg shaped flowers of very distinct form. Height, 27 inches.....	1.00	6.00	52.00

Darwin Tulips in Mixture

Heatherhome Mixture. We can truthfully say that no finer blending of Darwin Tulips has ever entered the ports of America. This mixture is blended from the finest named sorts, which if ordered by name could not be purchased for three times the price we ask for it. It will be a most pleasant surprise, we are sure, to all who try it.100, \$1.50; 1000, \$12.00

HEATHERHOME'S CHOICE COLLECTION

OF

Darwin Tulips

To facilitate ordering we have decided to select from our list 12 varieties which we consider the cream of their respective colors, and while we could offer much more expensive varieties we do not think we could offer any more worthy of merit.

Baronne De La Tonnaye. Vivid light pink, margined blush. The flower stands upright to the last, keeping its brightness without regard to weather.

Clara Butt. Delicate salmon pink. A medium size flower but of such a lovely shade that it ranks foremost amongst all Darwin Tulips.

Edmee. A beautiful shade of vivid cherry rose, with a margin of lighter color.

Farncombe Sanders. Brilliant rosy red with a clear white base. One of the largest Darwin Tulips, its color is unapproached.

Lantern. Wistaria colored, paler toward the edge; tipped outside mauve rose.

Pride of Haarlem. Glaring carmine rose, the color is in a class by itself and produces a splendid effect when planted in masses. The flower is delightfully perfumed.

Marconi. Immense flower of dull violet, with distinct white base. The color that all artistic gardens seek and retain.

Painted Lady. Creamy white, faintly tinged soft heliotrope when opening. In form this flower resembles that of a water-lily.

The Yellow Darwin. An elongated goblet shaped flower of canary yellow. The only yellow that can be combined with the Darwins.

Rev. Ewbank. Silvery heliotrope; rather dwarf in growth but its color is very artistic, especially when shown under artificial light.

Madame Krelage. Soft lavender rose with a margin of blush pink; grows exceedingly tall and is exceptionally handsome.

Philip de Commynes. A beautiful dark purple, enriched by a velvety sheen. In a combination with lighter pastelle shades this makes a beautiful effect.

Darwin Tulips

Especially Suited for Growing in Pots for the House or Conservatory

We believe that we render to the public a distinct service to inform them that not all the varieties in this class give satisfaction when grown in pots, and in order to avoid disappointment we give herewith a limited list of such varieties which will and must give results.

	Doz.	100
Bartigon. Fiery crimson.....	\$.50	\$3.50
Corydon. Soft heliotrope.....	.45	3.00
Crepuscule. Soft rosy mauve.....	1.25	8.00
Erguste. Deep heliotrope.....	.60	4.50
Ewterpe. Bright mauve.....	.90	7.00
King Harold. Deep rich crimson.....	.40	2.50
Mrs. Stanley. Purplish rose.....	.45	3.00
Philip de Communes. Deep purple.....	.45	3.50
Pride of Haarlem. Carmine rose.....	.50	3.50
Princess Elizabeth. Salmon scarlet.....	.60	4.00
Prince of Netherlands. Brilliant carmine.....	1.50	11.00
Wm. Copeland. Lilac rose.....	.55	3.50
Wm. Pitt. Brilliant carmine.....	.55	3.50

Rembrandt Tulips

This new class of late Tulips is an offspring of the Darwins. They are identical in character, habits and other virtues, and differ only in one feature, namely in colorings. All flowers are either striped, feathered, blotched or penciled and are wonderfully beautiful.

In massive clumps in front of shrubbery they are a picture, and for cut purposes they excell all other tulips.

	Doz.	100
Apollo. Pink flushed lilac edged white, striped deep crimson.....	\$.40	\$2.50
Caracalla. White, flamed and feathered red.....	.60	4.50
Crimson Beauty. Crimson white, flamed maroon.....	.60	4.50
Eros. Soft pinkish lavender, feathered dark violet.....	.55	4.00
Hebe. White, lilac and maroon.....	.55	4.00
La Coquette. Violet flamed dark purple and white.....	.60	4.50
Marco Spado. White, flamed fiery red.....	.75	5.00
Quasimodo. White, feathered bright crimson.....	.55	4.00
Semele. White, heavily striped and feathered dull old rose with white center.....	.50	3.50
Sirene. Dark maroon flamed white.....	.60	4.00
Vesta. Lilac, feathered bright red.....	.50	3.00
Victor Hugo. Brilliant crimson, feathered and flamed white.....	.75	5.00

Mixed Rembrandts

Our mixture contains many sorts besides those we offer as named varieties and will please the most critical.....100, \$2.00; 1000, \$15.00

These Prices Good Only to July 1st

COTTAGE OR MAY-FLOWERING TULIPS

A class of Tulips which are fairly tall, are massive in texture, produce enormously large flowers and appear at the same time as the Darwins. They may be used for garden bedding or shrubbery. In this class we have all colors and shades, and for this reason many varieties can be used advantageously in blending with Darwin Tulips to create artistic color blendings.

Cottage or May Flowering Tulips

New Varieties

	Doz.	100	1000
<u>Ellen Willmott.</u> Primrose yellow. The flower is long and narrow, with slightly reflexing petals on a very tall and straight stem. When it opens the color is primrose on the outside and canary yellow inside; later on the color grows bright yellow	.55	3.50	32.00
<u>Glare of the Garden.</u> Glaring scarlet; a real giant among the late Tulips. The flowers of a dazzling scarlet are carried on drooping stems.....	.55	3.50	32.00
<u>Inglescombe Yellow.</u> Glossy canary yellow. The large globular flower has the perfect cup shape of the true Darwin Type; the reason that it is often called the yellow Darwin	.55	3.50	32.00
<u>John Ruskin.</u> A blending of apricot, rose and mauve, with a pale yellow edge. To give a more clear description of its color is rather difficult.....	1.50	10.00	
<u>Moonlight.</u> Long, oval shaped flowers of great substance, and on extra tall stems. The color, a soft, pleasing yellow, so delicate and clean that it attracts your eye the moment you approach it. In combination with the pastel shades of the Darwin Tulips it is a gem.....	.90	7.00	65.00
<u>Orange King.</u> Bright deep orange. The large sweet scented flowers last unusually long.....	.50	3.00	23.00

Cottage or May Flowering Tulips

Standard Varieties

<u>Avis Kennicott.</u> Immense long yellow flower with velvety black base	\$.75	\$5.00	
<u>Bouton d'or (Ida) (Golden Beauty).</u> Deep golden yellow with black anthers; medium-sized cup-shaped flower; a very popular sort, holding its flower always erect.....	.30	1.75	14.00
<u>Caledonia.</u> Very bright orange scarlet on a dark stem; quite dwarf	.30	1.50	12.00

BREEDER TULIPS

Breeder Tulips are a class of out-door tulips which flower as late as the Darwins, which have tall stems and noble large elongated flowers of solid art shades, such as purple, maroon, terra cotta, buff and bronze, and as a companion to the gay Cottage Tulips they are unsurpassable. The gardener who loves rare colors in flowers will appreciate these lovely beauties.

	Doz.	100	1000
<u>Apricot.</u> Dull bronzy buff, shaded ruddy apricot with olive base; large flower; very effective in borders. Height, 25 inches.	\$2.00	\$13.00	
<u>Bacchus.</u> Dark-violet-blue; an enormous, broad flower of a dull blue color, on a strong stiff stem; undoubtedly one of the best among the dark tulips. Each, \$.40;	4.00		
<u>Bronze King.</u> Dull golden brown with olive base. Height, 23 inches	2.50	18.00	
<u>Bronze Queen.</u> Soft buff inside tinged golden bronze with yellow center	.90	6.00	
<u>Cardinal Manning.</u> Dark rosy violet, flushed with rose brown. (R Rosaline Purple); very artistic.....	.50	3.50	32.00
<u>Chestnut.</u> Very dark brown, almost black. Shows off splendidly when planted with a late yellow tulip.....	1.00	6.50	
<u>Don Pedro.</u> This unique lovely tulip, with its coffee-brown maroon shaded flowers, is the most attractive among the brown tulips. It is at its best when planted in borders, in combination with the lighter shades. Each, 40c.	4.00		
<u>Dreadnought.</u> Velvety blue black; truly a royal purple. (R Dark Maroon Purple, inside amaranth purple).....	1.75	12.00	
<u>Feu Ardent.</u> Brick red, shaded mahogany, an enormous cup shaped flower of a brilliant striking color.....	1.75	12.00	
<u>General Ney.</u> Dull old gold with olive base.....	1.25	11.00	
<u>Godet Parfait.</u> Bright violet with white base; very tall. A splendid keeper, stays in bloom for weeks. (R Dahlia Purple)	1.75	12.00	
<u>Golden Bronze.</u> Rich golden bronze with an old gold base; very striking	1.50	11.00	
<u>Grisdelin.</u> Pale lilac, with white center; a very charming shade.	1.75	12.00	
<u>Jaune d'Enf.</u> Ruddy apricot with yellow edge. The red color on the outside grows lighter toward the edge. An odd but most attractive color. On account of its reasonable cost it should be planted in masses.....	.45	3.00	23.00
<u>Lucifer.</u> Bright terra cotta orange; enormous flower.....	1.75	13.00	

These Prices Good Only to July 1st

Breeder Tulips—Continued

	Doz.	100	1000
<u>Louis XIV.</u> Rich dark purple with a shade of steel blue, heavily flushed bronze, edged golden brown; the flowers being of enormous size, and stately in appearance. Each, 50c.	6.00		
<u>Medea.</u> Glorious salmon red. A large attractive flower on a gracefully drooping stem. Splendid for cutting or bedding	.50	3.00	24.00
<u>Mon Tresor.</u> A dull red, which shades off into orange. (R Acajou Red)	.90	6.00	
<u>Prince of Orange.</u> Orange scarlet, edged lighter red. (R Deep Carmine, flushed orange at the edge).....	.75	5.00	47.00
<u>Turenne (MacMahon).</u> Dark blue, heavily flushed bronze at margin, the flowers being the very largest.....	1.25	9.00	
<u>Superb Blending of All Colors.</u>	.35	2.00	18.00

SPECIES OF TULIPS

Exquisite for their dainty or rich color, their fantastic or rather artistic form and their peculiar charms. Interesting because they are natives of Asia Minor and Central Asia, and found there in the valleys and on the slopes. Valuable because they constitute one of the hardiest classes of tulips, and therefore are ideal for hardy borders, rockeries, woods or naturalizing.

	Doz.	100	1000
Cornuta. Narrow twisted flower petals of red and yellow..\$	.40	2.50	23.00
Florentina Odorata (Sylvestris). Pure yellow, drooping flowers. Exceedingly fragrant and known also as the sweet wild English Tulip. Fine for naturalizing.....	.40	2.50	23.00
Galatica. Light yellow with a bright green base.....	3.00	21.00	
Greigii. A very conspicuous flower of orange scarlet, sometimes showing a tone of deep yellow. Foliage spotted with dark brown. Rather uncertain as to blooming....	2.00	14.00	
Kaufmanniana. Palest primrose tinged rosy red on outside. Enormous flower of handsome form with broad, reflexing petals. The earliest of all tulips, flowering in March	.90	6.00	
Marjoletti. Pale yellow, shaded red at base. Small, but elegant flower	.60	3.50	27.00
Mauriana. Glowing scarlet, yellow base.....	.60	3.00	19.00
Oculus Solis (Cotton Tulip). Vermillion, bordered yellow..	1.00	7.50	
Praestans (Suaveolens). Brilliant vermillion scarlet; 3 to 5 flowers on a stem.....	2.00	17.00	
Sprengeri. Mrs. Francis King in her description of this flower says: While among the yellow tulips, Sprengeri, the latest of all tulips to bloom, must not be overlooked. To be sure it is not a yellow: it is an orange scarlet, and thereby related to the yellows. This tulip I have growing among close packed roots of a pearl-gray German Iris. The two come into flower simultaneously. The tulip is quite as tall as the Iris and the two flowers are strikingly good together. Sprengeri grows taller with me than any other tulip. It is a persistent grower, too, appearing year after year as do almost no others.....Each, \$1.00	\$12.00		
Viridiflora (the Green Tulip). Flowers green edged yellow; large, odd and handsome.....	.40	2.50	19.00

PARROT TULIPS

A very interesting class of tulips. Their name has been derived from the colorings of the flowers. They are late in blooming and have flowers with cut and fringed petals. While the flowers are large, the tall slender stems are not stout enough to support them, and for this reason they are best suited for the shrub or hardy border. Parrot Tulips can never be guaranteed a flower to every bulb, and on account of this should be planted thickly in masses.

	Doz.	100	1000
Admiral Von Constantinople. Bright scarlet, shaded orange	\$.25	\$1.50	\$12.00
Cramoisi Brilliant. Rich blood crimson, with black markings	.25	1.50	12.00

Perfecta. The showiest of all. Broad stripes of bright yellow, scarlet and green.....	.25	1.50	12.00
Splendid Blending of All Sorts.	.25	1.50	10.00

SINGLE EARLY TULIPS

This class of tulips is so inexpensive that every garden can be made a blaze of color in the early Spring. They are the earliest tulips and are used very largely for bedding and bold mass planting.

For forcing they are unexcelled, and are the easiest of all tulips to be brought into bloom in the house.

Our list of single early tulips is the most up-to-date and complete one ever published, and if you use any of the varieties included you will be sure of satisfactory results.

If any of the older varieties you have long been familiar with are not included you may be sure their place is taken by one of more value to the garden.

We have marked with an asterisk * the varieties especially suited for growing indoors in the winter.

Scarlet and Crimson Varieties

	Doz.	100	1000
Augusta. Beautiful rose pink, a splendid sort for forcing in pans	\$.90	\$6.00	\$52.00
Belle Alliance. Large sweet scented brilliant vermilion scarlet. * (R Dark Scarlet and Crimson).....	40	2.50	20.00
Prince of Austria. Brilliant copper red. A very sweet-scented, tall-stemmed tulip. * (R Orange Scarlet)....	.35	2.25	19.00

President Lincoln. Pale violet with a lighter edge. * (R Light Magenta Purple, passing lighter toward the base)	.50	3.50	26.00

Blending of Single Early Named Tulips

Instead of offering a cheap mixture of single early tulips as other firms do, we are again taking a step forward and are offering an assortment of named bulbs—made up to our order—containing nearly 100 different varieties.

This blending is made up entirely of bulbs suited for growing in the garden and is not satisfactory for forcing in the house.

This is surely another mark of our superior service.

Blending of single early tulips.....Per 100, \$1.25; per 1000, \$10.00

All Bulbs Guaranteed

"Heatherhorne's" Guaranteed Bulbs

Miniature Single Tulips

Especially suitable for house culture in large, shallow pans, and which force much easier and quicker. They are known as "Duc van Thol" Tulips, and are sometimes recommended for outdoor bedding, but we should say are disappointing when so used. The bulbs are small and quite a quantity can be planted in a single pan.

	Doz.	100	1000
Duc von Thol Cochineal. Rich orange scarlet. (R Rich Scarlet Red)	\$.45	\$2.50	\$24.00
Duc von Thol Crimson. (R Carmine).....	.30	1.75	14.00
Duc von Thol Orange. (R Salmon, orange flamed).....	.30	2.00	18.00
Duc von Thol Rose	.30	2.00	16.00
Duc von Thol Scarlet. (R Scarlet Red).....	.25	1.50	12.00
Duc von Thol Vermillion. (R Scarlet Red).....	.30	2.00	16.00
Duc von Thol Violet. (R Light Violet, slightly white edged)	.30	1.75	14.00
Duc von Thol Yellow. (R Empire Yellow).....	.40	2.00	16.00
Duc von Thol White	.25	1.50	12.00

Double Early Tulips

Double Tulips follow the single tulips in time of blooming, extend the flowering season, and last much longer in bloom. Some of the newer sorts, in which our offer abounds, are equal to the choicest pæonies, and we have often wondered why such magnificent flowers should not be found in every better garden.

Red Varieties

	Doz.	100	1000
Imperator Rubrorum. Glowing scarlet; very large. (R Glowing Scarlet)	\$.40	\$3.00	\$28.00
Le Matador. Rich glowing scarlet with purple sheen on outside of petals. *	.75	5.00	40.00
Rubra Maxima. Deep red. *	.40	2.50	20.00
Thalia. An immense double scarlet flower. * (R Bright Scarlet)	.75	5.00	
Vuurbaak. Fiery scarlet, tinged orange when open. * (R Brilliant Scarlet-Red)	.45	3.00	25.00

Pink Varieties

La Grandesse. Dark pink. Very large flower. (R Rich Rose Pink)	\$.40	\$2.50	\$18.00
Lord Beaconsfield. Brilliant deep rose. The equal of any choice pæony. * (R Rose Red, self color).....	.40	3.00	28.00
Lord Roseberry. Delicate and refined pink. A flower that will inspire the soul of man. * (R Rose-Pink).....	.40	2.50	22.00
Lucetia. Deep rose. The flower is so double that some petals protrude above the others. The very feature so prevalent among pæonies. An irregular but artistic feature. An inspiration for the flower lover. (R Deep Rose-Pink)	.30	1.75	16.00
Murillo. Delicate rose pink, flushed white. * (R Light Rose-Pink)	.40	2.50	21.00

Please Order at Once

Double Early Tulips

Pink Varieties—Continued

	Doz.	100	1000
<u>Rose d'Amour.</u> Delicate pink of a very distinct shape. *			
(R Delicate Rose-Pink).....	.75	5.00	40.00
<u>Salvator Rose.</u> Deep rose, slightly flushed white. * (R			
Deep Rose-Pink).....	.40	2.50	21.00

White Varieties

<u>Boule De Neige</u> (Purity). Pure white. A loose, elegant flower, resembling in many ways the finer pæonies. *..	\$.45	\$2.50	\$19.00
<u>Schoonord.</u> Snow white, a sport of "Murillo." *	.45	2.50	19.00

Yellow Varieties

<u>Couronne d'Or.</u> Orange yellow, flushed orange red. * (R Orange Yellow, flushed red)	\$.50	\$3.50	\$28.00
<u>Golden King.</u> Canary yellow. One of the best. A sport of the well-known "Tournesol." * (R Bright Lemon Yellow)	1.00	7.00	
<u>Tea Rose.</u> The identical shade of the tea rose. "Perle de Jardin." In the passing it turns to apricot rose. *			
(R Primrose Yellow, shaded soft rose).....	.60	4.00	35.00

THE "HEATHERHOME" MIXTURE

OF

Double Early Tulips

All that we have stated in reference to our mixture of "Single Early Tulips" holds good here. We are positive that never before have such quality mixtures been furnished to the American gardener.

Per 100	\$1.50
Per 1000	12.00

Orders Must be Received by July 1st

"Heatherhome's" Guaranteed Bulbs

DOUBLE LATE TULIPS

The following varieties are usually found among the offerings of the "Double Early Tulips," and when planted in combination with these must cause disappointment, for they flower a week later, and almost as late as Darwins, and in consequence they spoil the appearance of the bed.

	Doz.	100	1000
Alba Maxima. Pure white; suitable for garden work only..	\$.30	\$1.75	\$13.00
Belle Alliance. White, striped rose.....	.60	3.50	30.00
Blue Flag. Soft violet blue.....	1.20	8.00	75.00
Isabellinum. Beautiful light yellow; very double.....	.75	5.00	45.00
Marriage De Ma Fille. White, striped dark pink.....	.75	5.00	30.00
Pæony Gold. Red and Yellow.....	.30	1.75	13.00
Pæony Red. Dark red	.30	1.75	13.00
Rose Pompon. Light yellow, turning pink.....	.30	1.75	13.00
Yellow Rose. Light yellow, sweet scented.....	.30	1.75	13.00

HEATHERHOME PREPARED POTTING FIBRE

A large measure of the success in growing Bulbs in Fibre is in the quality of Fibre used.

In order to have large blossoms and strong stems, it is necessary that the bulb receives plenty of food. This fact has received our most careful attention, and the Fibre we have made up contains all of the necessary ingredients to insure success.

We are pleased to recommend this "Top Notch Quality" product.

Per quart, \$.20; 4 quarts, \$.60; peck, \$1.00; bushel, \$3.00.

These Prices Good Only to July 1st

**THE SWEET PLUMP
HYACINTHS**

"Heatherhome's" Guaranteed Bulbs

DUTCH HYACINTHS

There seems to be a diversity of opinion as to the beauty of a Hyacinth. Such attributes as too stiff, too fat, too plump, too statuary-like, or too monotonous are frequently found in books dealing with the subject, and we have often wondered why a real lover of flowers could not see some beauty in all flowers and forget his personal antipathy. We as humans do not differ much from some of the flowers; not all of us are handsome, yet we may have virtues totally overshadowing all beauty could endow us with. And so it is with the Hyacinth. She may not have the grace of the tulip, nor the elegance of the daffodil, but she possesses one virtue not shared by either of the others, namely, a delicious fragrance. For that, in our estimation, she might readily be envied by both.

The Hyacinth attracts us to the garden, for it is the first perfume of spring, and it is the only flower which can boast of the power of appearing in the four main colors, namely, Red, White, Blue and Yellow. But, apart from this sentiment we find a distinctive beauty in that perfect bell, and in the artistic shades of pink, lavender, violets and buffs which we cannot produce in our gardens unless we employ Hyacinths. There is still another reason why we should welcome them, for they are the first of the showy spring flowers, preceding the tulips and daffodils.

The "Heatherhome" Quality

Just as there is a diversity of opinion as to the beauty of this flower, so there is equal disagreement as to what constitutes "the real quality" of the bulbs.

Hyacinth bulbs are offered from Holland in the following grades:

1. Mother bulbs.
2. Real first size.
3. Seedsmen first size, which in reality are second size.
4. Second size, named Bedding, which is really third size.
5. Mixtures, which are really fourth size.
6. Dutch Romans or Miniature.

Mother bulbs are the exceptional mammoth bulbs, of which only a few are found in a field, and for which a very high price is asked, which is reasonable and natural. But this does not constitute a proof that they are the best bulbs to use, and we have the courage to say that they are not. Mother bulbs invariably are overgrown, and instead of producing one perfect spike, they produce two, three or more, but imperfect spikes, and the whole appearance of the plant speaks of too much prosperity.

The perfection of a Hyacinth flower can only be produced through a single spike, growing erect, where every bell is perfect in outline, and as large as it can possibly be grown.

Such bulbs are known as "Perfect First Size." They are sound, plump, heavy, and sure to give satisfaction.

Hyacinths are used not only in the garden, but they are undoubtedly the most satisfactory material for pots and pans in growing for the dwelling and conservatory. A single bulb of Hyacinths does not look bad in a 5-inch pot. The miniature Hyacinths are best grown in shallow seed pans. Hyacinths are quite successfully grown in fibre and also in bottles with pure water. Not all varieties will suit, though, for the latter purpose.

In potting Hyacinths remove the little off-shoots at the base of each bulb; it will help to produce a better flower.

Please Order at Once

Novelties of Dutch Hyacinths

We give here the words of one of our growers:

"Almost every year novelties are introduced. A novelty at first sight with its rarity of color or shape is always attractive. Its real value, however, can only be fixed after it has been tested, when often the variety makes its retreat.

"Nevertheless, the want of a certain habit in an acknowledged good variety and the disappearance of worn out varieties upholds the energy for raising new ones. Gertrude wants an improvement in color, Moreno in stem, Blue Charles Dickens a substitute, etc.

"We are glad to be able to offer our friends undermentioned varieties, which not only are novelties, but also real acquisitions and improvements to existing sorts, a trial which we can recommend with confidence.

"As we must reserve sufficient quantities for stocks and propagating purposes, only a limited quantity of first size is offered, with a few exceptions, of which we already have a fair stock on hand."

	Doz.	100
Marconi. Pink. A fine truss with large bells of a most lovely pink color. Standing as strong as Gertrude and surpassing in color. Moreno it is really "The Perfect Pink Hyacinth.".....	\$2.00	\$15.00
Cardinal Manning. Deep orange pink; very distinct color; stands early forcing splendidly.....	2.00	15.00
Princess Juliana. Creamy white. Fine truss with splendid large bells.	2.00	15.00
Dr. Lieber. Porcelain blue. Grand spike, early forcer. On account of the splendid habits of this novelty, it is bound to become a leading variety.	2.00	15.00
Admiral Courbet. Dark lilac. Very good variety.....	1.50	12.00
Syringa-Lilac. Sport of the well-known Gigantea, has the same habits as its parent. Its lilac color resembles much the color of "Syringa," hence the name.....	2.00	15.00

Named Sorts of Dutch Hyacinths

Suited for Growing in the House and Garden

The following are all perfect first size. The single form only. Varieties prefixed (G) are exclusively for garden use

Pink and Red Shades

	Doz.	100
General de Wet. The medium-sized bells are of a lively, light pink color, with a lighter center, and form a big loose spike. (R Near to Cameo Pink).....	\$1.50	\$11.00
(G) Gertrude. Dark pink, clear in color and a compact, effective spike. (R Deep Rose Pink).....	1.50	11.00
Gigantea. The small, delicate pink bells form an immensely large spike. Stem rather weak, and recommended for the house only. (R Cameo Pink)	1.50	11.00

Orders Must be Received by July 1st

"Heatherhome's" Guaranteed Bulbs

Named Sorts of Dutch Hyacinths

Pink and Red Shades—Continued

	Doz.	100
Lady Derby. A most lovely shade of delicate pink. A perfect spike on a rigid stem. In our opinion, the best of all pinks. (R Pale Rhodonite Pink).....	2.00	12.00
La Victoire (New). Brilliant dark pink. There is no brighter color. Grown out of doors it has the brilliancy of the brightest scarlet, and the great virtue of this novelty is that it is very bright in bud as well as when open. The bells are very close together and form a heavy, splendidly finished spike. (R Rose Color).....	2.00	12.00
(G) Ornament Rose. Large broad spike; soft flesh pink. Splendid for garden. (R Hydrangea Pink).....	1.50	11.00
Queen of the Pinks (New). A beauty in every sense of the word. An exquisite brilliant pink, with a flame effect. An immense spike. (R Deep Rose Pink).....	2.50	15.00
(G) Robert Steiger. Deep red, excellent for the garden.....	1.50	11.00
(G) Rosen Maxima. Long, loose truss of delicate pink.....	1.50	11.00

Arentine Arendsen (New). Bells of snowy white. The spike is unusually well filled and has a perfect round shape. The broad wide-open petals are of intense whiteness and make the flower a target for the eye.....	\$1.75	12.00
British Queen. Pure white.....	1.75	12.00
Corregio (New). The large, fleshy bells are snow white and form a perfect truss of great beauty and size.....	1.75	12.00
(G) Grandeur à Merville. Large handsome truss of blush white. Splendid for the garden.....	1.50	11.00
La Grandesse. Unrivalled as the queen of white hyacinths. The intense whiteness of the large flesh bells and the size and shape of the truss cannot be duplicated by any other sort. Always among the prize-winners at exhibitions. We can positively furnish sound bulbs free from any disease.....	2.00	14.00
(G) L'Innocence. Pure white, erect spike, dressed with wide open, immensely large flowers. Very popular and used in great quantities for gardens.....	2.00	14.00
Monsieur Van der Hoop. A pure white sport of the popular variety "Madame Van der Hoop." A great improvement and especially recommended for pot growing.....	1.75	12.00

Named Sorts of Dutch Hyacinths

Blue, Violet and Purple Shades

Capt. Boyton. Bright lavender with silvery shading. Handsome long spike. (R Deep Lavender Blue).....	\$1.75	\$12.00
(G) Competitor. Light blue. A large, perfect flower of great brightness. To be highly recommended both for gardens and growing in pots. (R Campanula Blue).....	1.50	11.00
Enchantress. Most delicate delft blue. One of the most beautiful light blue hyacinths. The splendid well-finished truss has a strong stem and makes it excellent for all purposes. (R Pale Bluish Violet).....	1.75	12.00

These Prices Good Only to July 1st

Named Sorts of Dutch Hyacinths

Blue, Violet and Purple Shades—Continued

	Doz.	100
Grand Lilas. Dark lilac. (R Light Wistaria Blue; has a more or less lilac shade)	1.75	12.00
Grand Maitre. Deep lavender with a flush of darker blue; immense loose spike. (R Deep Lavender Blue).....	1.50	11.00
(G) King of the Blue. Rich dark blue. One of the largest flowers existing. The shade of blue is best described as indigo. (R Blackish Violet, glittering).....	1.50	11.00
L'Esperance. Claret. (R Schoenfeld's Purple).....	1.50	11.00
Lord Derby. The small, bright, porcelain blue bells form a big and compact spike. (R Pallid Violet Blue).....	1.75	12.00
Marie. Dark purple. (R Dark Bluish Violet).....	1.50	11.00
Perle Brilliante. Light blue, tinged lavender. Produces an enormous spike of perfect shape; rather late in blooming. (R Pale Ampara Blue).....	1.75	12.00
(G) Potgieter. Light delft blue. A splendid variety which is suitable for all purposes and which should be better known. It produces a big, well-shaped truss and carries the spike erect. (R Pallid Blue Violet).....	1.50	11.00
Queen of the Blues. Delicate azure blue. Its unusually bright blue bells of medium size form a big, compact truss on a strong stem, which makes it perfect for either garden or pots. (R Pallid Violet Blue).....	1.75	12.00
Schoel. Soft, light blue. The individual bells are of exquisite form and are displayed singly along the stem. (R Pale Bluish Violet)	1.50	10.00

Yellow Shades

Buff Beauty (New). Buff orange yellow. Long narrow truss on strong stem. One of the finest art shades. Splendid when combined with "Lady Derby".....	\$1.75	12.00
City of Haarlem. Golden yellow. The shade is of the purest golden. The truss is large and well formed, and we consider it the best of the deep yellows.....	2.50	14.00
Daylight (New). Primrose yellow. Very soft and refined color... ..	2.00	12.00
(G) King of the Yellows. Rich deep yellow.....	2.00	12.00
Yellow Hammer. The most popular sort of the yellows. The golden yellow color and a compact ball-shaped truss makes one think of a hammer.....	2.50	14.00

SPECIAL HYACINTHS

Suitable for

Growing in Prepared Fibre

The following information is another step in our "Progressive Service." We are positive that only certain varieties will give success when grown in Fibre and Vases, and the bulbs must be especially selected as to firmness.

When ordering, please mention that they are intended for "growing in Fibre."

Nimrod, deep rose. Victor Emmanuel, brilliant pink. Arentine Arendsen, snowy white. Bismarck, sky blue. L'Innocence, pure white.

Prices for all: Each, \$.25. Dozen, \$2.50. Per 100, \$18.00

All Bulbs Guaranteed

"Heatherhome's" Guaranteed Bulbs

SPECIAL GARDEN HYACINTHS

The following selection comprises a list of sorts which are especially selected for their merits as garden sorts, holding their spikes erect and being particularly attractive in shades.

We are quite certain that it is not necessary to resort to the "perfect first size" in order to have a beautiful effect in the garden, and so we offer here a size which we consider ideal for the purpose and which is much less expensive.

Pink and Red Shades: Lady Derby, delicate pink. La Victorie, dark pink. Rose à Merveille, bright pink.

Blue Shades: Competitor, light blue. King of the Blues, dark blue. Grand Maitre, deep lavender.

White Shades: L'Innocence, pure white. Grandeur à Merveille, bluish white. La Grandesse, pure white.

Yellow Shades: King of Yellow, deep yellow. Daylight yellow. Daylight, primrose yellow.

Violet Shades: Lord Balfour, lilac. L'Esperance, claret.
Per 100, \$8.00. Per 1000, \$70.00.

MINIATURE OR DUTCH ROMAN HYACINTHS

The amateur public has missed much in the past by not embracing more freely these graceful flowers for house culture or for cutting.

The bulbs, being that of a very young Hyacinth, produce a lovely graceful spike, where the flowers are individually placed along the stem, giving it all the appearance of the French Roman Hyacinths.

The bulbs, being small, can be potted in shallow pans, and a great number crowded together. The effect of such a pan in full bloom is most charming.

We offer such varieties only as are suitable for this purpose and such as are most effective.

Pink Shades: Gigantea, delicate pink. Lady Derby, delicate pink. Garibaldi, scarlet.

Blue Shades: Queen of the Blues, azure blue. Grand Maitre, deep lavender. King of the Blues, dark blue.

White Shades: L'Innocence, pure white. La Grandesse, pure white. General Vetter, bluish white.

Yellow Shades: Yellow Hammer, golden yellow.

Violet Shades: Wm. Mansfield, ruby violet.

Prices for all: Per Doz. \$.50. Per 100, \$3.00. Per 1000, \$25.00

Please Order at Once

SPECIAL HYACINTHS

Suitable for

Growing in Bottles of Water

This is a most fascinating method of culture, but many failures are recorded in the past, due only to a selection of varieties which were not suited to this purpose.

We wish to emphasize especially the one point, namely, for the best success, do not start these bulbs before the end of November.

Pink Shades: Lady Derby, delicate pink. Gertruda, dark pink. Rosea Maxima, delicate pink.

Blue Shades: King of the Blues, dark blue. Schotel, light blue. Potgleter, delft blue.

White Shades: L'Innocence, pure white. Grandeur à Merveille, bluish white. La Grandesse, pure white.

Prices for all: Each, \$.25. Dozen, \$2.50. Per 100, \$13.00

PLEASE NOTE: We do not offer the cheap mixtures of Hyacinths, for we consider them dear at any price. We religiously guard against linking our name with anything which will not be a credit to this firm.

Roman or French Hyacinths

These are not suitable for garden work, as they are not hardy, but are splendid for growing in pots, pans or flats in the house or conservatory, and by timely planting can readily be had in bloom by Thanksgiving. From a single bulb are produced from three to five graceful, slender flower stems which are dressed with loosely arranged medium-sized bells. Splendid for cutting and exquisitely scented.

Delivery of Roman Hyacinths in August

	Doz.	100	1000
Pure White (Mammoth Bulbs).....	\$1.00	\$7.00	\$65.00
Light Pink	.75	5.00	45.00
Light Blue	.75	5.00	45.00

Orders Must be Received by July 1st

"Heatherhome's" Guaranteed Bulbs

Ah, full of purest influence
On human mind and mood,
Of holiest joy to human sense.
Are river, field and wood.
And better must all childhood
That knows a garden and a tree!

EUCLID HEIGHTS, Cleveland, Ohio.

GENTLEMEN :—

All of my order No. 6764 has now arrived, and in fine condition.
Your things are so beautifully packed that it is a pleasure to open
them.

Very truly,

M. C. SANFORD.

THE DAFFODIL, JONQUIL
AND NARCISSUS

"Heatherhome's" Guaranteed Bulbs

DAFFODILS AND NARCISSI

What a wealth of glorious thoughts enter our minds when we hear the word "Daffodils!" When we see the daffodils in the gardens, we say a last farewell to winter, and as April meets May those who have thoughtfully prepared during the fall will glory in their showers of gold, and the smiling, enchanting faces of the ever-rippling Jonquills and Daffodils. The heart of man must indeed be made of stone if a mass of daffodils planted by the woodside, or the brook, in the border or under trees, near pines, does not make him rejoice anew in the rejuvenation of nature and remember his childhood days, when in field and woods he rapturously sought the first flowers of spring. What a wealth of material the daffodils offer us for the garden, the fields, the woods, the hills and the valleys, and everywhere that we seek the verdure and golden dewdrops!

Yellow is particularly welcome in the early spring and late in the fall, for it denotes wealth and glory. A season of plenty. Begin with the golden Crocus, follow this with the richest of primroses (*Primula veris* *Superba*), and then feast on one steady succession of the following flowers: Daffodils, Golden Sweet Alyssum, *S. E. Tulip Ophir d'Or*, Late Tulip Flava and Bouton d'Or, Iceland Poppies, Buttercups, *Doronicum* and *Coreopsis*. When the summer is waning, greet the most graceful of all sunflowers: *Helianthus Orgyalis*, the pure yellow *Gaillardia*, yellow dahlias and, last of all, the golden *Chrysanthemum*.

The word "Daffodil" is generally misapplied by the average amateur. Some call all double forms of trumpet Narcissi **Daffodils**, and all single forms **Jonquils**. While it is the title for both. "Jonquils" is a name which is erroneously applied to a miniature form of trumpet "Narcissi," while the word "Narcissus" stands with the beginner for nothing more than the Poet Narcissus. We have repeatedly observed when Jonquils were asked for in seed stores, that through the clerk's mistake the miniature Jonquils were furnished, with the result that the buyer was disappointed.

We have, therefore, explained at some length the reason for classifying the different Narcissi, and hope thus to prevent the usual disappointments.

Daffodils are one of the easiest of flowers to grow for the house, and particularly if grown in the prepared fibre which we offer and furnish.

To grow in the garden, always combine them with the lovely *Primula veris* *Superba*, the most wonderful golden Primrose.

All our bulbs are single nosed, sound and plump. We do not favor the double nosed or divided bulbs except in a few isolated instances.

PLEASE NOTE: We have carefully classified the different Daffodils, so that one who runs may read, and one who reads may promptly picture in his mind the very form of the flower.

Please Order at Once

Knight & Struck Company,

Novelties in Daffodils

	Doz.	100
Cornelia (Ajax). A great improvement over the popular "Emperor," being much larger. Soft canary yellow.....	\$3.50	\$28.00
Duke of Bedford (Ajax). An English novelty; fine white saucer and trumpet of clear soft yellow. Each, \$.75.....	8.00	
Olympia (Ajax). The trumpet is yellow with a perianth of slightly paler shade. The flower is much larger in size than Emperor and it will soon supersede this variety entirely. Each, \$.60..	6.00	48.00
Van Waveren's Giant. Undoubtedly to-day the largest of all trumpet daffodils, excelling even the great King Alfred. This latter has one faulty feature, namely, that the first year planted it produces occasionally only small flowers. This disappointment will never occur with the present novelty. The perianth is primrose with bright yellow trumpet. Each, \$.75.....	7.50	60.00
White Lady. A beautiful novelty of the "Leeds" type with lily-like flowers. The cup is pale canary yellow and the pure white perianth has a broad round overlapping shape.....	1.00	7.50

Narcissus Golden Spur

Especially Prepared for Christmas Blooming

We have made an arrangement with a French grower to prepare for us the foregoing daffodils so they can be started in August and be had in bloom by Christmas.

Per dozen, \$.60; per 100, \$4.00; per 1,000, \$35.00

Trumpet Daffodils

Under this heading are classified all flowers whose trumpets or crowns are as long or longer than the perianth segments or spreading petals.

Section 1. Ajax Bicolor

Of the following sorts, the trumpets are yellow and the perianths are white.

Empress. A massive, bold flower of pure white perianth and deep yellow trumpet. (R Creamy White perianth; trumpet, Lemon Chrome)	\$.45	\$2.50	\$23.00
J. B. M. Camm. An elegant large flower of white perianth and soft yellow trumpet.....	.50	3.50	28.00
Madame Plomp. An immensely large, well formed flower. Pure white perianth, golden yellow trumpet. A bold and solid flower. (R Pure White perianth, Lemon Chrome trumpet)	.55	3.50	28.00
Mrs. Walter T. Ware. A very free and early blooming daffodil with pure white perianth and a well expanded, beautifully recurved golden yellow trumpet. (R White perianth, Lemon Chrome trumpet).....	.50	3.00	21.00

Orders Must be Received by July 1st

"Heatherhome's" Guaranteed Bulbs

Trumpet Daffodils

Section 1. Ajax Bicolor—Continued

	Doz.	100	1000
Victoria. One of the showiest flowers. Broad, creamy white perianth, and a clear, rich yellow fluted trumpet. Very large and frilled at mouth. Splendid for garden or house. Large single nosed bulbs. The best bedding daffodils. (R Sulphur White perianth, rich Lemon Chrome well formed trumpet).....	\$.40	\$2.50	\$20.00

Section 2. Ajax White

Of the following sorts, both trumpet and perianth are white.

Albicans. White perianth, primrose trumpet.....	\$.50	\$3.00	\$23.00
Mme de Graaff. One of the largest and finest of all white daffodils. Perianth pure white; trumpet very pale primrose, passing to pure white. A most refined and delicate flower. Strong, healthy grower.....	1.00	7.50	65.00
Mrs. J. B. M. Camm. Perianth white; trumpet creamy white	.50	3.50	28.00
Mrs. Thompson. Very large and handsome; pure white. (R Creamy White perianth and trumpet, elegantly frilled)	.40	2.50	20.00
Wm. Goldring (the Swan's Neck Daffodil). White perianth, drooping over the long trumpet. (R All White).....	.40	2.50	20.00

Section 3. Ajax Yellow

Of the following varieties, both the perianth and the trumpet are yellow.

Ard Righ (Irish King). Perianth and trumpet deep yellow. (R Rich Golden Yellow, with a well reflexed trumpet). \$	.50	\$3.00	\$28.00
Emperor. A gigantic flower of remarkable substance. Perianth deep primrose yellow, broad at base. Trumpet rich yellow. Extra large single nose bulbs. (R Picric Yellow perianth; rich Lemon Chrome trumpet).....	.40	2.50	19.00
Glory of Leyden. Full yellow. One of the largest among the large trumpet daffodils. (R Pale Lemon Yellow perianth, trumpet Lemon Chrome).....	1.00	7.00	
Golden Spur. A very popular sort. The entire flower a deep, rich golden yellow. Perianth large and spreading. Large trumpet, with broad, open mouth. Extra large single-nosed bulbs	.50	3.00	24.00

These Prices Good Only to July 1st

Trumpet Daffodils

Section 3. Ajax Yellow—Continued

	Doz.	100	1000
Henry Irving. Perianth clear yellow; golden yellow trumpet, large and wide at mouth. Very early. Extra large single-nosed bulbs. (R Spreading Chrome Yellow perianth, Golden Yellow trumpet).....	.40	2.50	22.00
King Alfred. A remarkably handsome daffodil of enormous, gigantic proportions. Color a uniform clear rich yellow. (R Perianth and trumpet rich Lemon Chrome, or rather a rich golden yellow). Each, \$.50.....	6.00	48.00	
Obvallaris (Teuley Daffodils). Fine yellow throughout. (R Lemon Chrome, the petals are slightly lighter than the trumpet)	.35	2.00	15.00
Princeps. A very inexpensive sort, which is grown in masses for naturalizing or by florists for forcing during winter. Perianth sulphur, trumpet yellow. Extra large single-nosed bulbs. (R Primrose perianth, rich Lemon Yellow trumpet)	.25	1.25	10.00
Vanilla. Perianth creamy yellow, immense rich yellow trumpet. A very tall stemmed variety, having a distinct, pleasing fragrance. (R Creamy White perianth, large Lemon Chrome trumpet).....	.90	2.50	19.00
Willy Barr. Perianth soft yellow, trumpet bright yellow; of most exquisite form. (R Pale Lemon Yellow perianth, Lemon Chrome trumpet).....	1.25	9.00	82.00

Barrii Daffodils

Under this heading are classified all daffodils whose cup or crown measures less than one-third the length of perianth segments.

	Doz.	100	1000
Barri Conspicuous. Large, broad-spreading perianth of soft yellow. Short yellow cup, edged bright orange scarlet. With this variety a double nose bulb gives better satisfaction; therefore, we furnish such only. One of the best varieties for naturalizing. (R Large Martius Yellow perianth, short Lemon Chrome cup, edged orange-scarlet)	\$.25	\$1.25	\$10.00
Dorothy Wemyss. Large white perianth, yellow cup, beautifully edged orange-scarlet. (R Large Creamy White perianth, Empire Yellow cup, beautifully edged orange)	.75	5.00	44.00
Firebrand. Perianth creamy white; cup intense, fiery red. (R Creamy White perianth, shaded lemon at base; orange-scarlet shaded cup).....	.90	6.00	56.00
Flora Wilson. Pure white perianth; yellow cup, edged orange-scarlet; a sterling beauty.....	.90	6.00	56.00
Maurice Vilmorin. Creamy white perianth, cup rather long and heavily stained scarlet; very beautiful. (R Creamy White perianth, cup stained deep orange).....	.40	2.00	16.00

All Bulbs Guaranteed

"Heatherhome's" Guaranteed Bulbs

Miniature Daffodils or Jonquills

These have small onion-like foliage and produce several small but deliciously fragrant flowers on a stem. For pots or pans they are unrivalled, but do equally well out of doors.

	Doz.	100	1000
Single Sweet Scented. Golden yellow. (R Self-coloring Empire Yellow)	\$.20	\$.80	\$ 7.00
Double Sweet Scented. Golden yellow. (R Self-coloring Empire Yellow)	.40	2.50	20.00
Tenuoir (Silver Jonquils). Sulphur white perianth, yellow cup, rush-leaved. Splendid for rockery.....	.55	3.50	28.00
Rugulosus. Self-colored dark yellow. Large flower. Fine for naturalizing and pots. (R Empire Yellow).....	.25	1.25	10.00
Campanelle. Very free flowering; golden yellow. (R Empire Yellow)	.20	1.00	9.00
Campanelle Fl. Pl. A double form of the foregoing, but flowers are much larger and are exceedingly attractive. Especially recommended for house culture.....	.50	3.50	28.00

The Incomparable Daffodil

Under this heading we classify all daffodils whose cup or crown measures from one-third to nearly equal the length of the perianth segments.

Beauty. Sulphur yellow perianth, large yellow cup, edged orange-scarlet; bold, strong flower. (R Sulphur Yellow perianth, large Lemon Chrome cup, margined orange).\$	.40	\$2.50	\$21.00
Cynosure. Primrose perianth, changing to white; cup stained orange-scarlet	.30	1.50	11.00
Frank Miles. Large, soft, clear yellow flowers, elegantly twisted. (R Picric Yellow perianth, elegantly twisted. Cadmium Yellow cup).....	.40	2.50	16.00
Gloria Mundi. Bright yellow perianth, broad, well expanded orange-scarlet cup. Very sturdy grower. (R Empire Yellow perianth, Cadmium Orange cup).....	.90	6.00	52.00
Lucifer. Large, handsome sulphur white perianth, cup intense glowing orange red. (R Sulphur White perianth, loosely formed; cup Lemon Chrome, edged orange)....	1.00	7.00	61.00
Queen Bess. Earliest of all; perianth pure white, cup pale yellow; large and well expanded. (R Creamy White perianth, Picric Yellow cup).....	.35	2.00	11.00
Sir Watkin. Perianth sulphur yellow; large and well-formed yellow cup, tinged bright orange; a giant among the medium trumpet daffodils; single nose bulbs. (R Martinus Yellow perianth, Lemon Chrome crown).....	.45	2.75	20.00
Stella Superba. Spreading white perianth, large yellow cup. A graceful flower and very valuable for the border, for cutting, or for pot culture. (R Sulphur White perianth, Pale Lemon Yellow cup).....	.50	3.00	21.00

Please Order at Once

Leedsi Daffodils

Comprising all the chalice cupped and short cupped sorts. Perianths are white; cup or crown may be white, cream, or pale primrose.

They are known as crosses between white Trumpet Daffodils and the Poet Narcissus. The crowns are as large as those of the "Barril" and "Incomparable" Daffodils.

	Doz.	100	1000
Leedsi Type. Silvery white.....	\$.35	\$1.75	\$12.00
Duchess of Brabant. Perianth white, cup canary yellow...	.35	1.75	12.00
Duchess of Westminster. Large white perianth, long canary yellow cup, tinged orange passing off to ivory white	1.25	9.00	84.00
Minnie Hume. Starry white perianth; cup pale yellow, passing into white. A splendid flower and excellent for massing. (R Creamy White perianth, cup passing from fine Lemon to White).....	.25	1.25	11.00
Mrs. Langtry. A remarkable free flowering variety with broad white perianth and large white cup, edged bright yellow. In mass effects, both in the garden or when cut, it has all the appearance of a pure white daffodil. (R Large White perianth, with large White cup, edged martius yellow)	.35	1.25	11.00
White Lady. Broad white perianth; dainty cup, shaded soft lemon, beautifully crinkled.....	1.00	7.00	

The Poet Daffodil

OR

The Pheasant's Eye Narcissus

The most popular of all garden Narcissus, and often used by the hundred thousands for naturalizing in fields, meadows or woods. It is the one flower which every one seems to call Narcissus, and this very title has led to numerous disappointments in the past. All daffodils are equally Narcissus, and unless the word "Poet" is added to it, the seedsman invariably furnishes the "Ajax" type, and, in consequence, there is disappointment to follow. Although this class is used in masses for outdoor decoration, many of the sorts offered here are splendid for pot growing.

They are distinguished by their snowy white perianth and flattened yellow crown, more or less deeply colored with scarlet and crimson.

	Doz.	100	1000
Poeticus Type. The common Pheasant's Eye Daffodils are used exclusively for garden work or naturalizing. We furnish large double nosed bulbs, which when growing produce large clusters of foliage and flowers.....	\$.25	\$1.25	\$10.00
Poeticus Ornatus. Much larger than the foregoing and a week earlier to bloom. Can be used for forcing in conservatories. Double nosed bulbs only.....	.30	1.50	12.00
King Edward VII (Almira). Enormous large flowers of snow-white petals and a beautifully shaped cup canary yellow, bordered red. In all respects a superior variety	.50	3.00	28.00
Poetarum. Perianth pure white; cup bright orange scarlet..	.35	1.75	16.00

Orders Must be Received by July 1st

"Heatherhome's" Guaranteed Bulbs

Small Flowered Daffodils

The fact that the following varieties are rather miniature in size does not detract from their value, for they are just ideal for rockeries, borders and pots, and some of them are extremely beautiful, for beauty often expresses itself more forcibly in small flowers than in those of mammoth proportions.

	Doz.	100	1000
Burbridgei. Perianth white, cup margined red.....	\$.20	\$1.00	\$ 7.50
Biflorus. White perianth, yellow cup, twin flowering.....	.25	1.50	12.00
Triandus Albus (Angel's Tears). Curious flower of pure white; very dwarf and pretty.....	.60	4.00	37.00
Bulbocodium Citrinum (the Hoop's Petticoat). Pale sulphur flowers	.60	4.00	32.00

Daffodils of this class are especially well suited for the rock gardens, or in wild spots in woods, for here is their native home. Real beauty is always more prevalent in small flowers, for nature seems to favor them, but it must be sought before one can find it. Modesty in itself is a desirable virtue, and when it is genuine it is fully as attractive in flowers as it is in the human race.

Double Daffodils

Under this heading we offer all double flowering varieties regardless of their individual classification.

Alba Plena Odorata (Gardenia Flowered Daffodil). Double, snow-white flowers; very sweet scented; late.....	\$.25	\$1.25	\$9.00
Incomparabilis (Butter and Eggs). Rich, double yellow flower with an occasional white petal.....	.30	1.50	12.00
Orange Phoenix (Bacon and Eggs). Orange and yellow....	.35	2.00	15.00
Sulphur Phoenix (Codlins and Cream). Rose shaped flowers of a most pleasing silvery white.....	.35	2.00	15.00
Von Sion. The popular double daffodil; golden yellow; single nosed mammoth bulbs.....	.60	4.00	35.00

Polyanthus Narcissus

By the French people they are known as "Tazzetta," and are easily recognized as the flowers appear in great numbers clustered on a stem.

Being natives of Southern France, they are not hardy, but used for growing in the house extensively. The flowers have a powerful fragrance, often more so than desired.

The bulbs can be delivered in August, and if planted then, flowers may easily be produced for Thanksgiving Day.

GROWING IN PEBBLES AND WATER

One of the easiest methods for a few varieties of bulbs. The Chinese introduced this method here by showing us their Sacred Lillies and growing them in this fashion.

China bowls, plates or plaques are the most artistic receptacles; the pebbles are used to produce an even bed for the bulbs to sit upon and to hold the bulbs erect. The pebbles should take up a depth of at least one inch and a few pieces of charcoal should be placed underneath them. The bulbs should be set very close, because great masses produce the best effect. Large China plaques which can contain from 50 to 100 Paper-white Narcissus are perhaps amongst the most lovely things in creation when the bulbs are in full bloom.

There are but three classes of bulbs which can be successfully grown in this manner.

These Prices Good Only to July 1st

Polyanthus Narcissus—Continued

Paper-white Narcissii.—The flower in its form resembles the Chinese Lily and does best of all. The essential points for a successful culture are to keep it cool at all times. With the Chinese Lily as well as the Narcissii the water should just cover the bottom of the bulb. After planting, place the dish in a dark and cool place for about two weeks, then place in direct light and in as cool a spot as possible. The first flowers appear within eight weeks after planting and for six weeks they are constantly within reach of the eye, watching their daily progress which we imagine grows at the rate of an inch a day. The chaste white blossoms are dainty and cheerful and as any child can grow them successfully they ought to be found in every home, rich or poor.

The bulbs of these Narcissii arrive in August and as a rule few people think of planting bulbs until October; this brings the blooms about December and invariably the very easy manner in which they flower brings on the desire to try once more. But now it is too late to procure any more bulbs. It is advisable therefore to purchase enough in the beginning to cover the wants for the entire winter; but in storing bulbs for later planting we should spread them on shelves in a cool, dry room, otherwise they may be found in such condition later that they are worthless.

The Golden Water Narcissi (Soleil d'Or).—Provided the bulbs have been grown in Southern France, these can be grown just as easy as the foregoing, but in the writer's opinion is far more handsome and preferable because it does not possess the strong perfume of the former. The bulbs we offer are all southern grown.

We offer only a few of select choice varieties.

	Doz.	100	1000
Paper-white Grandiflora. Enormous clusters of pure white flowers. This is the most popular variety, easiest to grow and earliest to bloom. When grown on pebbles in water they are far superior to the "Chinese Lilies," as they never fail and invariably come to bloom within six weeks from the day of planting. Keep in the dark for two weeks and then place in a light cool room. The cooler the room the stronger the flower. Buy your full winter's supply early in the season and store in cool cellar. They will keep till March and they can be had in flowering succession from Thanksgiving until Easter. We furnish extra large bulbs only. On account of the war raging right in the district where these bulbs are growing they are going to be very scarce this fall; order now to be secured.....	\$.40	\$3.00	\$25.00

Grand Soleil d'Or (The golden paper-white). Our bulbs are grown especially for us in the southern part of France and will bloom easily by Christmas. The usual Holland grown bulbs of this sort cannot be easily forced.....	.60	4.00	35.00
---	-----	------	-------

All Bulbs Guaranteed

"Heatherhome's" Guaranteed Bulbs

Poetaz Narcissus

A new race of quite recent introduction, a cross between the Poet class and the Polyanthus type, with the result that in this new class we have stems which produce from three to eight enormous flowers, often larger than the "Pheasant's Eye," and which are fully as hardy as the "Poet." In addition, the powerful fragrance of the Polyanthus class is so subdued that one is reminded of the fragrance of the gardenia. The flowers in bud form have all the appearance of a bud of a gardenia, and the unfolding is exactly alike. If grown out of doors a bed of these produces a dense mass of flowers. For pot growing they are of easiest possible culture.

STANDARD SORTS

	Doz.	100	1000
Aspasia. Perianth pure white with yellow eye; large flower; grows 24 inches high; 4 flowers to a stem.....	\$.40	\$2.50	\$21.00
Elvira. One of the best. The large flowers are of a remarkably good substance, are good keepers, very long stemmed and 4 to a stem; pure white with yellow eye.....	.40	2.50	21.00
Ideal. Perianth white, with dark orange eye; large truss, bearing 6 to 7 flowers.....	.90	6.00	
Irene. Perianth sulphur yellow changing to light yellow; orange eye; large broad truss bearing from 8 to 9 flowers; most pleasing color.....	.85	6.00	47.00
Klondyke. Perianth yellow with deep golden yellow eye; one of the deepest yellows. Trusses bear 6 to 7 flowers	1.75	11.00	
Triumph. Pure white perianth with deep yellow eye; 3 or 4 enormous flowers to a stem.....	.90	6.00

CROCUS

The Harbinger of Spring

"Heatherhome's" Guaranteed Bulbs

SPRING FLOWERING CROCUS

"The Harbinger of Spring"

When the bright cheery faces of the Crocus make their appearance all gloom of winter is gone and even snowstorms which follow can never make us realize that spring is not with us. Millions of Crocus bulbs are planted each year in lawns or other natural surroundings, but very seldom has the gardener considered quality in these bulbs.

The usual quality of bulbs which are bought are not worthy the name of this beautiful flower, for not one-third make their appearance the following season. At this rate the bulbs are high priced. A good Crocus bulb should produce from 4 to 8 flowers, and only when these good bulbs are used can one be sure of a natural increase and a permanency.

During the last five years wonderful new Crocus have been produced. In size they equal the smaller tulips, and in colors we can offer now the first approach to pink and red and many other desirable art shades.

Crocus are very attractive when grown in shallow dishes with pebbles and water.

NOVELTIES.

	100	1000
Julia Culp. Large purple with narrow white edge.....	\$2.00	\$15.00
Kathleen Parlow. Purest white, large orange anthers.....	2.00	15.00
Maximiliaan. Pure porcelain blue, largest of all.....	2.00	15.00
Pallas. White feathered light lilac.....	1.50	10.00

The foregoing novelties are giants compared to the usual Crocus and resemble Tulips to a degree on account of their size.

You must try these for your open borders where you can appreciate their form and beauty.

Standard Sorts

Named Crocus in Colors

BLUE SHADES

Fall and Winter Flowering Crocus

Delivery in August

This class of flowers is a fairly unknown quantity in this country. For meadows and fields, woods or borders; in fact, wherever you wish to naturalize, this class of flowers is of inestimable value. What is more exciting than winter flowers out of doors? The crocus gives us the first cheer in the spring and it also gives us the last farewell in the fall. The bulbs must be planted fairly early in September.

Of the following varieties, the flowers only are produced in the fall, while the foliage appears the following spring.

	Doz.	100	1000
Colchicum Autumnale Major (commonly called Meadow Saffron). The large rosy lilac blossoms appear in clusters of from 4 to 8 flowers from late September until November, and are exceedingly attractive if planted through myrtle, for the myrtle foliage acts as a ground cover. The foliage which appears in the following spring is quite large and can be cut without injuring the permanency of the bulb. The bulbs, even left dormant, will flower, and when placed on a saucer mystify anyone who does not know this flower. If planted in meadows the flowers appear after the second crop of hay has been cut, and beautify the landscape at the most opportune time of the year.....	\$1.25	\$7.50	\$70.00
— Album. Pure white, otherwise just like the foregoing sort	.60	4.00	25.00
— Bornmulleri. Almost pure white; an enormous flower of great beauty	1.50	10.00	94.00
Giganteum. Large dark lilac, very free flowering, the largest and latest to flower	2.00	12.00	
— Speciosum. In form and color it resembles the fairy lily; delicate pink, goblet shaped	1.50	10.00	90.00
Crocus Speciosus. Delicate blue; November.....	.35	1.50	10.00

All Bulbs Guaranteed

"Heatherhome's" Guaranteed Bulbs

MISCELLANEOUS BULBS

Allium

Much desired for blooming in the house during winter. Of easiest possible culture. The flowers, which appear in umbels similar to onion flowers, are borne on rigid long stems and are fine for cutting. Also effective in hardy borders.

	Doz.	100
— Moly (Luteum). Yellow	\$.20	\$1.50
— Neapolitanum. Pure white; splendid for cutting. Will do well to force with Roman Hyacinths.....	.20	1.00
— Ostrowskianum. Deep crimson	.35	2.00

Anemone

A large family of flowers, some of which are ideal subjects for naturalizing, while others are among the finest for cutting.

Anemone Apennina

Splendid for naturalizing and are perfectly hardy. The flower stems arise amidst beautiful laciniated foliage and usually bear one large saucer shaped flower.

	Doz.	100	1000
— — Alba. Pure white	\$.25	\$1.60	\$12.00
— — Cœrulea. Dark blue	.25	1.60	12.00

Anemone Coronaria De Caen

THE GIANT DOUBLE FRENCH POPPY ANEMONE

These bulbs cannot be planted in the garden in the fall, as they are not hardy except in Georgia and Florida.

Splendid cutting material and can only be grown in cold frames or conservatories. The bulbs, procured in fall and stored in sand all winter, are planted out of doors in spring. These beautiful flowers may be grown in the open garden and can be had in successive bloom for three months. The flowers are borne on long stems, are large and fully double, like a miniature Pœony.

If you are unable to tell which is top or bottom of the bulb, plant it on its side.

— — Bleu Aimable. Purplish blue	\$.40	\$2.50	\$16.00
— — Ceres. Pure white with delicate pink center.....	.45	2.50	16.00

Orders Must be Received by July 1st

"Heatherhome's" Guaranteed Bulbs

Eremurus

From a rosette of Yucca-like foliage arise in majestic grandeur mammoth flower stalks which attain a height of from 4 to 7 feet. The miniature flowers encircle the stem fully two-thirds its entire length. They are a picture in the garden, and are perfectly hardy. The roots are composed of long fleshy tubers similar to a dahlia.

NOUVEAUTE EXTRAORDINAIRE

POUR L'AUTOMNE 1916

Heatherhome's Exclusive Introduction

It is with a feeling of great pride and satisfaction that once more we present to the Gardening Public a flower novelty of unusual merit—in fact, so much so, that we consider it one of the most important flower novelties of the twentieth century. The flower in question is:

Heatherhome's New Giant Colored Freesias

Produced after years of hybridizing by Emil Fardel, one of the foremost gardeners in America.

Colored Freesias are not a novelty, for they have been on the market for several years, but in size, texture, form and color they have lacked everything which could be called "beautiful."

The Freesias we offer are equal to the "Purity" in size, have excellent form, are of splendid texture and in colors they excel the wildest flights of your fancies.

Ranging from the softest cream to the deepest golden and orange, from the most delicate blush to the deepest pink, from the brilliant scarlet to the deepest maroon and from the softest lavender to the deepest indigo. Even the pastelle shades are here found aplenty. Copper, bronze, wistaria, amethyst and such shades of blue as are only duplicated in our hardy Larkspur. In no other flower can be found to-day the equal in artistic hues and shadings of our novelty.

For this season we shall content ourselves by offering a blending of all colors only.

Strong bulbs (guaranteed to flower) at \$1.00 per dozen; \$6.00 per 100; \$50.00 per 1,000.

Cultural Hints

1. Plant early in July or August.
2. Use deep pots, for the new roots which form below the others go deep.
3. After being potted do not store, but place in an indirect light in the dwelling or under the bench in the conservatory until growth shows above the soil.
4. Never force, but grow in a fairly cool temperature.
5. Place fine twigs on the edge of the pots to support the fine grass-like foliage.
6. Have patience; the flower does not make its appearance until five months after planting.

The sweet fragrance of the flower endears it to everyone, and now that we have it in all colors it should appeal to every flower-lover. As a rule either one or two flowers open at one time on a stem naturally, but here is a method by which all of them can be made to open at one time.

When the first flower is ready to open on a stem, cut the full stem and put it in a vessel with cold water and place the vessel in an absolutely dark, cool place.

In three days look at your stem again; it will have grown 3 to 4 inches. the flowers will be enlarged and all will be open.

All Bulbs Guaranteed

"Heatherhome's" Guaranteed Bulbs

Freesia

This lovely flower is undoubtedly the most popular of all the bulbous flowers grown in the house, for the reason that in addition to its easy culture it has the great virtue of being deliciously fragrant. As a pot plant or for cutting it is invaluable, but should never be grown in the garden.

The Purity Freesia

Of rather recent origin, this flower proves a great acquisition, and is distinguished by its extremely stout, long stalk, its robust foliage, enormous flower, and a purity of color which has never been known before. If apparent at all, the yellow spot so prominent in the common Freesia is but slightly seen way down in the throat of the flowers. The flowers open wider and present altogether a more conspicuous appearance. We offer home grown stock.

	Doz.	100	1000
Jumbo Bulbs	\$.75	\$5.00	\$40.00

The Common Freesia

(FREESIA REFRACTA ALBA)

We hate to give up old friends, and so we find there are many flower lovers who will cling to the old Freesia for the sake of old acquaintance. For the benefit of these we offer—

Mammoth Bulbs	\$.35	\$2.00	\$18.00
----------------------------	--------	--------	---------

New Giant Freesia

EXCELSIOR

A grand improvement on the Refracta Alba type, flowers being twice, in some cases three times, as large, the color being pure white, with a yellow blotch.....75c. per dozen; \$5.00 per 100; \$40.00 per 1,000

Fritillaria Meleagris

(GUINEA-HEN FLOWER)

One of the ideal subjects to naturalize in woods, shady borders, or in moist situations. The hood-like checkered flowers are not only attractive but extremely interesting, and we are pleased to offer several new shades. We do not recommend them for pot culture.

Galanthus—Snowdrops

The flower which means much to the gardener, and which he greets with delight. While landscape still abounds with a cover of snow, we can see these nodding flowers appearing in all their glory, and what a symbol of purity and modesty! Don't let our gardens be without them.

	100	1000
Single Snowdrop	\$2.00	\$12.00
Double. Very scarce	2.00	15.00

Owing to the war in Asia Minor the Elves Giant Snowdrop is not obtainable this year and the regular sorts have advanced in price.

Grape Hyacinths

Ideal for naturalizing in all kinds of situations, and splendid for growing in shallow pans or pots.

In rockeries it is a gem. The individual blooms, which are globe shaped, nest around a slender graceful stem just as grapes do in a cluster, hence its name. The stalk grows 6 inches high.

	100	1000
Blue	\$.75	\$6.00
White	.85	7.50
Heavenly Blue. The largest and best.....	1.25	10.00

Feathered Hyacinths

Usually grown as a curiosity. The flowers are in the form of a plume. They are showy if grown in pots. The spike is 8 inches long, has a perfect pyramid shape, and the flowers are of a lovely violet blue color. Excellent for gardens and naturalizingPer 100, \$1.00; per 1,000, \$8.00

Ixia

A splendid bulb for forcing in conservatories. From the sheath of narrow, grass-like foliage arises the flower stem, wiry, erect and rigid, to a height of 18 to 24 inches, of which half is dressed with egg-shaped bells of bright and glorious colors. When you look into the flower, you see contrasting color effects which are very pleasing. A splendid cut flower, as it will last for many days in the water.

"Heatherhome's" Guaranteed Bulbs

Gladiolus Cardinalis or Nanus

Delivery in November

A winter flowering strain of slender growth with beautiful orchid-like flowers which can only be grown to perfection in a hothouse or conservatory. The bulbs are delivered in October to November, when they should be planted in flats and stored in the cold frame. They cannot stand quick forcing and should never be brought into bloom until April or May, when the real beauty of this flower may be seen to advantage.

The individual flowers are very large and all flowers show a distinct elongated blotch, surrounded by a different colored frame on the three lower petals of the flowers. From 3 to 5 flowers are usually open on the stem, and for cutting they by far excel their giant sisters. We present for the choice of the critical flower lover an unrivalled collection of sorts.

	Doz.	100	1000
Ackermanni. Salmon shaded orange.....		\$1.50	\$9.00
Blushing Bride. Most beautiful blush pink with deep red blotch		1.50	9.00

Queen of Holland. Pure white, with a distinct light carmine blotch; very free; should not be forced as early as "Peach Blossom"		1.25	10.00
Sappho. Clear delicate lavender		1.25	10.00

At our gardens at Flushing, L. I., N. Y., we are growing one of the choicest collections of Gladioli, and extend a cordial invitation to all flower lovers to visit our gardens.

Bulbous Iris

With a proper selection of all classes of Iris one can enjoy these beautiful Fleur de lis in the garden from beginning of April until the middle of July. We offer here only the bulbous kinds, all such of which the bulbs have to be imported.

Perennial Iris, such as German and Japanese sorts, we grow in large quantities ourselves in our gardens in Flushing, and shall submit our offer of same in August.

Iris Filifolia (Bulbous)

A strain of Iris Hispanica, which comes into bloom fully three weeks earlier. They produce big flowers on strong, tall stems.

	Doz.	100
Blue. Clear bright color	\$.90	\$6.00
Seedlings. All shades of blue.....	.60	2.00

These Prices Good Only to July 1st

Iris Hollandica—Dutch Iris

(BULBOUS)

These Irises are a cross between Iris Hispanica and early flowering South European and African species. They produce very large and substantial flowers and bloom fully two weeks earlier than Iris Hispanica.

Albert Cuyp. Almost white, the standards are slightly tinted lavender. while the falls are milky white with a ray-like blotch of gold.....	100 \$ 5.00
Anton Mauve. Very large and substantial flower of a most pleasing tone of uniform soft blue; very choice and unique color.....	5.00
David Teniers. Pale lavender, falls lemon yellow.....	5.00
Frans Hals. Standards very light blue, falls creamy yellow with large orange blotch	4.50
Hackaert. Rich clear light blue; the broad green rib of the falls and the broad golden blotch of the face are two of its attractive features...	6.00
Hobbema. Falls white with yellow blotch; standard white, faintly tinged blue	5.00
Jan Steen. Standards a faint steel blue, almost white, while the rib of the falls is a pale primrose yellow. The butterfly petals are of two colors. The two upper wings are a cream yellow, while the entire lower body is of a deep golden, enhanced to the center with an orange blotch. The bud of this flower is very interesting, as it is of a clear, deep gold; the flower when seen from a distance is golden yellow	4.50
Rembrandt. A tall, robust grower. The standards are of a deep true blue; the falls, of a beautiful Alice blue with a broad blotch of gold. The darkest colored of this class	5.00
Van Eyck. Creamy yellow with large orange blotch.....	5.00
Splendid Mixture	3.00

Iris Susiana—The Black Iris

OFTEN CALLED THE MOURNING IRIS

Splendid for growing in pots in the house and magnificent when in bloom. The large flowers are deep brown, almost black.
We offer extra strong roots, ready to flower.

Per dozen, \$1.50; per 100, \$8.00

All Bulbs Guaranteed

"Heatherhome's" Guaranteed Bulbs

New Spanish Iris

ORCHID

The finest and largest Spanish Iris now in existence. The superb combination of colors of white and pale sky blue really resembles that of a beautiful Orchid. As a cut flower for vases this variety will be found invaluable.

No Spanish Iris has ever attracted so much attention, both from experts and the general public and we cannot recommend them too strongly.

Per 100, \$3.00; per 1,000, \$25.00

Iris Hispanica—Spanish Iris

(BULBOUS)

Spanish Irises are so inexpensive that they can be planted by the thousand each year, and only if planted in great masses are they effective. We offer a number of new sorts, which are far superior to the standard varieties in the market. For forcing in cool conservatories they are gems.

NEW VARIETIES

Leucojum—Snowflake

A glorified Snowdrop, which comes in bloom after the early Tulip and which is very effective in borders; splendid for naturalizing.

Æstivum. Summer Snowflake, blooms in July.....	\$2.00	\$14.00
Autumnale. Fall Snowflake, blooms in September.....	3.00	28.00

Ornithogalum Umbellatum

(STAR OF BETHLEHEM)

One of the best subjects for naturalizing. Will not only acclimatize, but steadily increase. Ideal for grass in woods or roadsides. The small white star-shaped flowers appear in large umbels and are, therefore, very showy.
Per 100, \$.75; per 1,000, \$5.00

Oxalis

Bermuda Buttercup. This is one of the finest; blooms very profusely for weeks; the color is a bright buttercup-yellow, the foliage an attractive light green.....Each, \$.05 .50 2.50

Puschkinia Libanotica

The most gorgeous of all the bulbous flowers. For naturalizing, for carpet effects, for rockeries or hardy borders, we do not know of any that in color, beauty and effect can approach this lovely flower. The plant belongs to the Scilla family, but has little resemblance to it. The flower is more like a broadened Hyacinth, grows on a stout stem, and when planted in clumps of 25 or more it is like a perfect carpet. The color is of that wonderful light blue which adorns the cover of our spring seed book. A true delft blue.

The flowers open slowly and the effect remains longer than with any of the other spring-flowering bulbs.....Per 100, \$1.00; per 1,000, \$9.00

Orders Must be Received by July 1st

"Heatherhome's" Guaranteed Bulbs

THE MADONNA OR ASCENSION LILY

LILLIUM CANDIDUM

No other lily could ever take the place of this noble flower, for, while other lilies may be more gorgeous, there is none that finds itself so easily at home or makes itself so indispensable as the Madonna lily.

Whether we combine it in our plantings with its inseparable companions, the "Hardy Larkspur," or if we group it alone or have it rise above plantings of Sweet William or in stately procession of long rows, it is so resplendent in its whiteness that it adds purity to the garden and an incomparable godliness.

Lilium Candidums should last for years in gardens, and the reason that you have had different experience is because you have never purchased the right kind of bulb. This lily is a native of France, or rather it is grown there in large quantities for the "World's Supply."

Almost all except a negligible quantity is grown in the southern part of France, near Olliules, and the bulb which comes from there is affected with a disease which shortens the life of the bulbs after they come here. Some of them perish the first winter.

These bulbs are usually of pink flesh and the scales are very loose and dry on the bulb. In this way you can recognize the poor bulb.

But there is also a place in Northern France where a limited quantity is grown of a bulb which is quite distinct and different. The bulb itself is white in flesh and the scales set so tight around the bulb that the entire bulb is a solid matter.

These bulbs also are much larger and heavier, and are absolutely free from disease. In addition, they grow more robust stalks and more flowers to the stalk. In American gardens they should last for a number of years.

It is self understood that we furnish the Northern-grown bulbs exclusively.

The Culture: Plant not later than September, because it is necessary for the bulb to make a certain amount of growth even this fall, and when it cannot make this growth one is not sure of flowers the following spring.

Plant at least six inches deep and imbed the bulb entirely in sand. If the bulb shows a deep hole where last year's flowerstalk was, plant it on its side, for otherwise surplus moisture might gather in this pocket and decay the bulbs.

Monster Bulbs.....Each, 20c.; doz., \$2.00; per 100, \$15.00
Per original basket of 200 bulbs, \$28.00

These Prices Good Only to July 1st

HARDY LILLIES FOR GARDEN

Lilium Auratum

(GOLDEN BANDED LILY OF JAPAN)

Petals are ivory white banded with rich golden yellow and heavily spotted at base with deep crimson.

Extra Large Bulbs—35c. each; dozen, \$3.50; 100, \$30.00

Lilium Speciosum Rubrum

White ground, spotted rose on each petal; excellent for cut flowers.

Extra Large Bulbs—45c. each; dozen, \$4.50; 100, \$35.00

LILIES FOR FORCING

Lilium Harrisii

The True Old-Fashioned Strain

Our reputation on the reliability of this strain is now completely established and attested by the fact that the supply never equalled the demand, and that each season "Heatherhome quality" is the one predominating feature of these lilies. We control the entire output of a painstaking grower, a man who has been a lily grower for fifty years and who knew lilies. We can never secure from him all that we wish, for he will not grow one bulb more than he can personally supervise. The plants grown from our bulbs have proven absolutely clean and healthy, with a sturdy growth and a splendid constitution. We can furnish hundreds of references from parties who have grown our lilies and recommend them.

We book orders now for August delivery.

Size, 7-9 (packed 200 bulbs to a case); extra large:
Per original case of 200, \$35.00
per 100, 18.00

Size, 9-11 (packed 100 bulbs to a case); monsters:

HEATHERHOME'S GIANT MONTBRETIAS

Few people know this valuable and most effective flower, and we hope that with our description we may enthrall our readers sufficiently to take this plant up amongst their garden family and thereby help to popularize it.

It can be classed both as a bulbous or hardy perennial plant, for it is furnished as a bulb, but can remain in the ground permanently, for it is absolutely hardy. The individual bulb is small and, therefore, requires little space (not more than 2 inches), and so can be used as a second flowering effect between such perennials as German and Japan Iris, Pæonies, Fox-gloves, Peach Bells, Columbines, etc. Its growth is that of a miniature Gladioli, narrow and lance-like, and in August it sends up its flower shoots very similar to a Gladioli, but being more like a strong wire (not so massive or stiff) and opening its flowers in September. The flowers themselves have more resemblance to a star and usually one finds three or four flowers open at one time.

As an effect in the garden or for cutting, one has to travel far to find its equal.

Never plant less than twelve bulbs in a cluster and if possible as many as a hundred together so to realize the glorious effect these bulbous plants can produce.

We are happy to be able to introduce to the American Gardener, four of the newest and finest varieties that have ever graced a garden; being truly giants, when compared to the ordinary sorts.

We could readily offer a more extensive list, but we prefer to limit ourselves to the following, because they are distinct and cover the entire color range with clear, decisive shades:

- **Aurea.** Golden yellow; a splendid variety....Per doz., \$.35; per 100, \$3.00
- **California.** Beautiful deep golden yellow.

Per doz., \$.20; per 100, \$1.50; per 1000, \$10.00

- **Etoile de Feu (Star of Fire).** Bright Vermilion, center yellow, outside blood red, very floriferous.....Per doz., \$.40; per 100, \$2.00
- **Fire King.** Enormous flowers of glowing scarlet; one of the brightest and most effectivePer doz., \$.35; per 100, \$2.00; per 1000, \$10.00
- **Geo. Davison.** Stems grow 4 feet high, branch freely and bear lovely pale orange colored flowers.....Per doz., \$.40; per 100, \$2.00; per 1000, \$16.00
- **Germania.** The largest of all; flowers of orange-scarlet on graceful waving stemsPer doz., \$.40; per 100, \$2.00; per 1000, \$14.00
- **King Edmund.** Giant rich golden, with brown markings, large well-open flowerEach, \$.35; per doz., \$4.00; per 100, \$28.00
- **Koh-I-Noor.** Rich pure orange on apricot base, broad petals which are well shaped and open quite flat. Strong free flowering variety.

Per doz., \$.85; per 100, \$6.00

- **Meteor.** Fine Salmon Red.....Per doz., \$.25; per 100, \$2.00
- **Rosea.** Beautiful shade of clear salmon rose.

Per doz., \$.35; per 100, \$2.00; per 1000, \$14.00

Transcendent. Orange and Vermilion. Flowers very large.

Per doz., \$.25; per 100, \$2.00

"Heatherhome's" Guaranteed Bulbs

Turban Ranunculus

They are those beautiful double rose-like Buttercups which appear in all colors and which florists show in their windows in April and May. They are of easy culture, but require to be grown in cold frames if wanted to bloom in the spring. Unsuitable for pot culture. The bulbs can easily be stored away during the winter, and if planted out in the garden in May will produce an abundance of flowers during mid-summer.

	100	1000
Ramono, Scarlet	\$1.50	\$10.00
Rosalie, Delicate pink	1.50	10.00
Seraphique, Light yellow	2.00	12.00
Pourpre Superbe, Purple	1.00	8.00
Merveilleuse, Orange yellow	2.00	12.00
Hercules, White	1.50	10.00
Souci Dore, Bronze orange.....	2.00	12.00
Splendid Mixed	1.00	8.00

Muscaria (Miscellaneous Hyacinths) for Naturalizing

All of the following are rather small in stature, but are exceedingly attractive if planted in masses.

Azureum, Bright blue; one of the earliest spring flowers, often blooming in February	\$1.50	\$12.00
Polyanthum, Very large flower of bright blue.....	4.00	33.00

Scilla (Squill)

All of the following varieties are splendid for naturalizing, because they will flower in shady places, where almost all other flowers will die. As they are very inexpensive they can be used by the thousand. * have bells like small Hyacinths, forming long and graceful spikes. The flowers of the Campanulata family are a bit larger and brighter than those of the Nutans family.

	100	1000
Bifolia, Small flowered; blue.....	\$1.50	\$10.00
* — Campanulata Alba Maxima, Large; purple white.....	1.50	10.00
* — Blue Queen, Large; bright blue.....	1.00	8.00
* — Excelsior, Late; bright blue	1.50	10.00
* — Rosalind, Pink; one of the largest.....	3.00	23.00
* — Rosea, Pink; delicate	1.00	8.00
* — Rosy Queen, Soft lavender pink.....	1.50	10.00
* — Sky Blue, Late	1.00	9.00
* — Splendid Mixture	1.00	7.00
* — Nutans Alba Major, Pure white	1.00	8.00
* — Blush Queen, Delicate pink	1.25	10.00
* — Cœrulea, Violet blue	1.00	8.00
* — Delicata, Light lavender	12.00	
* — Eveline, Very delicate rosy white.....	2.00	18.00
* — Special Mixture	.75	5.00
Sibirica (the common Blue Squill)	1.25	10.00
— Alba, White	1.50	10.00

Snowdrops (see Galanthus)

These Prices Good Only to July 1st

Spirea

Usually grown in pots for blooming during Easter; but they are perfectly hardy and among them are some of the choicest subjects for the perennial border. Spireas are not delivered until late in October and are in the shape of heavy clumps.

	Doz.	100
Astilboides Floribunda. White; loose grace plume.....	\$1.50	\$10.00
Avalanche. Pure white; very free flowering.....	2.00	11.00

COLLECTION OF BULBS

for

PLANTING IN THE GRASS

and

ON THE EDGES OF LAWNS

Few amateur gardeners know the value of the beautiful little bulbous plants one may grow in the grass or along the edges of the lawn or among the shrubbery, or in fact anywhere in the garden. They are best planted in little groups or colonies, and in the early spring enrich the barren spots with their beautiful flowers and foliage. Some will bloom even before the snow is off the ground.

The bulbs suited for this kind of planting are many and varied and except for a few, are comparatively little known, except in the large show gardens of the East where they are planted extensively.

In order to introduce these early spring flowering subjects we have made up a collection including the easily cultivated sorts and can supply these at \$2.50, \$5.00 and \$10.00 each.

The \$2.50 Collection contains the following:

12 Chionodoxa Gigantea.....	\$.30
12 Frittilaria Meleagris mixed.....	.15
12 Galanthus Single	.30
12 Grape Hyacinths, blue.....	.75
25 Puschkinia libanotica	.30
25 Scilla sibirica	.30
12 Crocus Baron Brunow	.20
12 " Mont Blanc	.20
12 " Mammoth Golden	.20
	<hr/>
	\$2.70

The \$5.00 Collection contains twice the above quantities.

The \$10.00 Collection contains larger quantities and more varieties.

HARDY FLOWERS FROM SEEDS

1917

Seeds of

HARDY PERENNIAL

AND BIENNIAL

FLOWERS

Now is the ideal time to sow them

In presenting to you our 1917 edition of **PERENNIAL SEEDS**, you will readily notice that quite a few varieties have been eliminated from our list this year.

The Home of Heather has built up a reputation for sending out nothing but **FRESH RELIABLE SEED**, and the varieties which we have eliminated come from a source from which it is absolutely impossible to procure any seeds, owing to the WAR, and the stock which we probably could procure in this country would be too old to give satisfactory results.

Just as soon as conditions become normal, we will again list our old favorites, together with novelties which will prove of merit.

"Heatherhome's" Guaranteed Seeds

PERENNIAL FLOWERS FROM SEEDS

All subjects in the garden which we can truly call our own (being grown from seed by ourselves) are especially dear to us, and we point to them with a certain pride when we show visitors about. Such pride is natural to the human heart and we have a right to it, for we are not true gardeners until we follow this practice.

The growing of perennials from seeds (with the exception of a few varieties) is comparatively easy, but the main essentials, which must be carefully observed and which will spell success, are:

First. The right selection of varieties. One can procure seeds of all the perennials ever known, but many, yes, very many sorts have puzzled the most skilled gardeners before success was gained. Others again require hothouse conditions and many others require from six months to a year to show above the soil. It is our belief that the average amateur desires to see flowering results from his seedling perennials the year after germination, and for this reason it is generally useless to sow seeds of Paeonies or Iris and many other species. For the same reason we believe that we are right in limiting our list to a selection which fits the requirements of the American amateur gardener.

Second. The right time of sowing. With the exception of a few varieties, perennials should be sown from May 15th till July 15th. It is better to sow from May 15th till July 1st than from July 1st till July 15th. A few biennials, such as Pansies, Bellis, Forget-me-nots and Hollyhocks, are better sown at the beginning of August. It is useless and a perfect waste of money and time to sow perennials in the northern climates after September 1st, and yet most of the fall books of seed houses appearing at that time offer a complete list of perennials, which can only lead to disappointment for the inexperienced gardener who thinks it a suggestion to sow these seeds at that time.

Third. The right place for sowing, and how to sow. Wherever a frame is available, this is the ideal place to sow perennial seeds. Those who have no frame would do well to establish one, as they can be purchased now, completely finished ready to be erected at a moment's notice in the garden. The soil must be thoroughly prepared by spading and pulverizing, and with it should be embodied well-decayed stable manure. After the surface has been thoroughly raked and smoothed it should be pressed down with a board. To be able to recognize seedlings quickly, separate each space by thin stakes, place a wooden label with the name of the variety upon it at the front of each space and then sow the seed thinly upon the surface of the smoothed soil.

Next proceed by sifting some of the lightest soil mixed with sharp sand or leaf mould over the seed so that it will be covered about $\frac{1}{2}$ inch.

After this water the bed carefully with a fine rose, holding the spout upward so that the water will descend in the form of rain.

Then place the sash upon the frame and cover the glass with either dark-colored muslin, or whitewash or wet mud so as to produce shade. On every bright day, after nine o'clock in the morning until three in the afternoon, lift the sash on one end to the extent of 4 inches so that air can circulate freely under the sash. Every morning, shortly after the sash has been raised, water the bed carefully. Always use a fine rose to prevent the seed from being washed away. It will be less than six days before most of the sorts we offer, except otherwise mentioned, have germinated. Once they are up more air must be given, and just as soon as they are sufficiently strong they should be transplanted into a special bed, which has previously been spaded and enriched.

Heatherhome Seeds Guaranteed to Grow

Perennial Flowers from Seeds

Here the young plants are given from 3 to 6 inches of space and some arrangement must be perfected to shade the plants during the sunny hours. The best arrangement is as follows: We try to have this special bed about 36 inches wide and about 6 to 8 feet long; we erect a stout stake 3 feet high on each corner and spread from end to end a sheet of burlap.

The above suggestions hold good for most of the perennials with the exception of the following sorts: Calliopsis, Gaillardia, Digitalis, Sweet Williams.

The foregoing sorts are best sown in well prepared drills in the open garden, thinned out later as soon as large enough and left here undisturbed until the following spring. The only protection they require for the winter is a light covering with straw.

We also recommend that Iceland Poppies, Oriental Poppies, Primroses, Canterbury Bells, Pansies, English Daisies, and Forget-me-nots are sown in a frame, transplanted into another and kept there with glass protection until the following spring.

Fourth. When to transplant for permanency. With all seedlings which one desires to place in their permanent quarters during the fall, the transplanting should not take place later than September 15th. It is quite essential that they are able to make a new set of roots and to establish themselves thoroughly before winter sets in, as otherwise frost would lift them from the ground and they would perish.

BIENNIALS

In most seed books the biennials are not separated and many mistake them for perennials, and while their culture is very similar to that of perennials it must be borne in mind that their life is finished the season they bloom, and in consequence a fresh lot must be sown each season.

One of the main principles of "The Home of Heather" is to serve the Gardening Public. We consider that the most important part of our service exists in guiding those who purchase our seeds, bulbs, or plants into the successful growing of same so that they must feel that their investment was a satisfactory one. The mere selling of the articles is but half service. It is to our interest to instruct the public into more proficient methods of gardening, and while they are under no particular obligation to patronize us, they must at least acknowledge that we disseminate more practical information than any other American seed firm, that we are not afraid to tell the truth, that we are timely with our suggestions, and that we at least try to help in solving the many problems which confront the amateur gardener.

Perennial seeds must be fresh to germinate well; a fact which gives "Heatherhome's Guaranteed Seeds" Distinction in Quality—but we also know that the seed of this same class of flower does not always retain its germinative power to the extent of the annuals, and so we find frequently even with our seeds, that they do not germinate as strong as they should, and if this prove so with you, please notify us promptly and we will send another consignment of seeds free.

"Heatherhome's" Guaranteed Seeds

New Perennials 1917

NEW ICELAND POPPIES "PEARLS OF DAWN"

9152. — A most lovely new strain of Iceland Poppies, producing satiny crinkled flowers of delicate and bright shades of pink with orange or salmon glow, salmon shaded blush, orange shaded cream, rose shaded pink, etc., hardy biennial, ht. 1 ft. These beautiful Poppies will be highly prized both for garden decorating and cutting.
Pkt., \$.25; 5 pkts., \$1.00

NEW GAILLARDIA

8784. — Heatherhome's Exhibition Strain:
Entirely distinct from the old kind, and from that offered by any other house. A grand new improved strain. Enormous flowers of very stout habit. No perennial border should be without this gem.
Pkt., \$.35; 3 pkts., \$1.00

HOLYHOCK TUXEDO BEAUTY

8902. — Once again the Home of Heather has stolen a march on its competitors by being lucky enough to secure all seed saved of this meritorious novelty.
The color is a most beautiful shade of old rose flowers measuring four to five inches across, being 95% double and all true to color.
We do not hesitate to say that this is the finest hollyhock now in existencePkt., \$.25; 5 pkts., \$1.00

AUBRIETIA NEW LARGE FLOWERING HYBRIDS

8260. — This new strain of Aubrietia is exceptionally fine, containing as it does crimson, purple, pale blue, pink and lilac shades. The blooms are of large size, and it will be found in everyway a great acquisition.
Pkts., \$.25; 5 pkts., \$1.00

HEUCHERA CHOICE HYBRIDS

8893. — These hybrids are the results originally crossing Heuchera Sanguinea, with its brilliant scarlet flowers, with the taller and more graceful species Micrantha, and, by careful selection and re-selection, eliminating all the inferior forms, and intercrossing the best of the selected varieties. The seed can be relied upon to produce every shade from white to deep glowing crimson, many of the bright, clear pinks being of exceptional beauty. They are much freer flowering than Heuchera Sanguinea, and from May to July produce sheaves of delicate blossom, invaluable for the Herbaceous border.....Pkts., \$.25

PRIMULA BULLESIANA HYBRIDS

9353. — This beautiful strain, unique in its variety of color, is the result of crossing the species collected by Mr. Forrest during his recent travels in Western China and Tibet. The colors range through many shades of buff, cream, yellow, orange, bronze, purple, lilac, crimson, pink and some almost vermilion, etc. They are free flowering, perennial, and bloom out of doors naturally in June and July.
They prefer a half shaded position that is fairly moist, and make excellent water garden plants, but can be cultivated quite successfully in pots in cold frames.....Pkt., \$.50

Please Order by Number Only

Seeds of Perennials

LYNCHNIS ARKWRIGHT II (NEW)

9042. — A cross between *L. Chalcedonica* and *Haageana*, having the upright habit of *Chalcedonica*, with the flowers of *Haageana*, but very greatly improved. A botanical novelty of great merit, and a decided acquisition. A new herbaceous border plant, also eminently adapted for summer bedding, making a gorgeous and long lasting display, in many new and lovely colors.

One of the easiest plants to propagate. Seeds sown early in the year under glass and grown on, make suitable plants for bedding-out the same season; growing about 19 inches high. The succeeding year's growth attaining 24 to 30 inches, producing greater abundance of flowers, and showing its true character to perfection. Sow in spring or summer for following year's flowering.....Pkt., \$.35; 3 pkts., \$1.00

PAPAVER ORIENTALE

Lady Frederick Moore.

9172. — Flowers of this delightful Oriental Poppy measure over 7 inches across, a beautiful shade of clear salmon pink with a conspicuous black basal blotch, and stems as stiff as bamboo. The finest Oriental Poppy yet introduced.....Pkt., \$.35; 3 pkts., \$1.00

PANSY, "APRICOT QUEEN"

8555. — A very pretty apricot shaded yellow. The plants are very free flowering and compact, which makes it excellent for bedding work. Absolutely distinct.....Pkts., \$.25; 5 pkts, \$1.00

TEXAS BLUE GENTIAN

8798. An excellent variety producing showy flowers of a clear dark blue color, measuring three to four inches across.

This makes a splendid sort for cutting, lasting until frost.

Pkt., \$.25

Complete List of Perennial Flowers from Seed

ACANTHUS (BEAR'S BREECH)

Nat. Ord. Acanthaceae

A most decorative and stately plant. Its base is formed of gigantic massive leaves 2 feet long and 1 foot wide, deeply toothed and loped, and from its center rise upward erect growing numerous single massive spikes 3 to 4 feet long, which are completely and closely dressed with flowers resembling Snapdragons. The plants are mostly used for picturesque effects in isolated positions on lawns or sub-tropical beds. Flowering season August to September. The plant has been given the popular name of *Acanthus* of Architecture, because the form of the flower has been used as the decorative scheme or ornamentations for Corinthian columns.

6985. —Mollis. Flower pink and white.....Pkt., \$.25

Sow Perennials from Now to July 15th

"Heatherhome's" Guaranteed Seeds

Seeds of Perennials

ACHILLEA (MILFOIL OR YARROW)

Nat. Ord. Compositae

Most desirable on account of its graceful habit of growth, its effective blooming and its prolonged flowering season, extending through the entire midsummer and often late into the fall. Especially useful as a cut flower.

Pkt., \$.10

7010. — *Ptarmica* fl. pl., **The Pearl**. The plants grow fully 2½ feet high and branch profusely, so that at least 2 feet of space must be given for each plant. These plants should be staked to look neat. The strain we offer has flowers which are completely double, so that no center is visible. Most varieties offered under this name show an open center, which makes the flower unattractive and unclean in appearance the moment they pass their prime of life. Flowering season August to September, plants form dense clusters of slender stems with narrow foliage terminating in dense heads of perfect little double flowers of the purest white. An ideal material for cutting or for effect in the border.

Pkt., \$.25

7012. — *Millefolium* **Roseum Cerise Queen (Rosy Milfoil)**. Direct from the ground and surrounded by a number of fine fernlike oblong leaves, arise numerous straight upright flower stems to a height of 18 inches. Each of them is crowned with a corymb of cherry red flowers from May till July.....Pkt., \$.25

ACONITUM (MONKSHOOD, HELMET FLOWER OR WOLF'S BANE)

Nat. Ord. Ranunculacea

Stately plants with lustrous green foliage and fine branching heads of showy flowers, invaluable on account of their late flowering season when flowers are scarce. They delight in rich, cool soil, and in a semi-shaded position, as under trees. The individual flowers resemble a hood, whence they derive their popular name. Excellent for cutting.

Seeds are very slow in germinating, often requiring months of patience.

- §7050. — *Napellus*. Deep blue flowers in August and September.....Pkt., \$.10
 §7055. — *Album*. White flowers.....Pkt., .15
 §7065. — *Wilsoni* (New). Violet-blue flowers from September until frost. Pkt., .50
 §7070. — *Pyrenaicum* **Lycototum**. Sprays of yellow flowers from June till AugustPkt., .15

AGROSTEMMA (MULLEIN PINK)

Nat. Ord. Caryophyllacea

7800. — *Coronaria*. The bright, silvery green foliage, covered with a velvet sheen, stays close to the ground, and from it emerge numerous straight flower-spikes of the same color and texture, gradually branching in all directions, and each branch terminates in a flower-shoot, where one flower appears at a time. The flower is in form similar to an individual Phlox blossom, and its blood-red color is a splendid contrast to the light color of the foliage. Flowers in June until the end of July. Height, 2 feet; spread, 18 inches.....Pkt., \$.05
 §7810. — *Alba*. Pure white flowers, otherwise exactly like the foregoing. Pkt., .05

Heatherhome Seeds Guaranteed to Grow

Knight & Struck Company

Seeds of Perennials

ALYSSUM (GOLDDUST, ROCKMADWORT)

Nat. Ord. Crucifera

7860. —**Saxatile Compactum.** The most effective border plant for the early spring. Long before the Tulips are at their best this gorgeous perennial bedecks the landscape with its cover of gold, a color so desired in the early spring when Nature shows its real wealth. Even long before the blooms arrive the foliage is in appearance, as it remains perfect during the winter, and when the snow leaves it, it seems to have been rejuvenated with a fresher coat of silvery gray. Closely branching near the ground an individual plant covers nearly a square foot. The leaves are lance-like, velvet covered, and from each axil of the top branches appear in early May immense clusters of deep golden yellow, Alyssum-like flowers, which remain attractive for three weeks. When planted at regular intervals all through a border the effect is glorious, to say the least. The height of the plant never exceeds 1 foot, and, as it likes shade during the summer, there is no fear that larger plants near it will smother it. This is a gem for the rockery and places where trees later in the season give too much shade. (*R Chrome Yellow*)..Pkt., \$.10

§7870 —**Silver Queen.** Flowers of sulphur yellow.....Pkt., .25

ANCHUSA (ALKANET-SEA BUGLOSS)

Nat. Ord. Boraginacea

The newest forms of this flower, of which we offer several below, created quite a sensation when they first appeared a few years ago, as they have no resemblance to their parents. They appear like knights among pigmies. The foliage alone denotes nobleness, with an attractive cleanliness, and when in bloom their grandeur is inspiring. If the flower-spikes are cut back after their glory has passed a new crop of flowers invariably appears later in the season.

7900. —**Italica Dropmore Variety.** The gigantic, heavy, fleshy leaves, which cluster around a crown, are hairy on the reverse side and glossy, deep green on the surface. From the center of the plant appears, about the middle of June, a robust flower-spike, which grows to a height of 4 feet, and which sends out its branches in all directions, giving the flowering part a pyramid form, very similar to a spruce. Each side shoot terminates in loose clusters of giant Forget-me-not like flowers of a deep gentian blue color. The plant reaches its zenith about the end of June and remains attractive through July. If the flower-spike is cut back as soon as the flowers fade several smaller spikes will appear in August, and will last all through fall. Space, 3 feet. The plants should be staked during the flowering season.....Pkt. \$.25

§7910. —**Opal (New).** Exactly like above, but having flowers of a brighter opal bluePkt., \$.35

§7920. —**Perry's Var (New).** The latest introduction. A greatly improved variety, with gigantic flowers of a rich gentian blue.....Pkt., \$.50

ANTHEMIS (OX-EYE CHAMOMILE)

Nat. Ord. Compositae

7950. —**Kelwayii.** A daisy-like plant, with lacerated foliage, growing 2 feet high, being crowned with an abundance of yellow daisies, fine for cutting in June.....Pkt., \$.10

"Heatherhome's" Guaranteed Seeds

Seeds of Perennials

ANEMONE PULSATILLA (THE PASQUALE FLOWER)

Nat. Ord. Ranunculacea

These spring flowering Anemones are natives of the woods and for this reason succeed well in moist and shady situations. Notwithstanding this fact, they flourish even as well or better in the open sunshine. Several leaves of velvety texture similar to all Anemones form the structure of the plant and through them rise to our view open trusses of silky single flowers after the first warm, sunny day in early spring. Its great attraction is that leaves as well as flowers are covered with long, silken hairs. Height, $\frac{3}{4}$ foot. Allow 6 inches space.

\$7925.	— Purpurea. Deep purple flowers.....	Pkt., \$.25
\$7926.	— Alba. Pure white flowers.....	Pkt., .25
\$7927.	— Rubra. Rich red purple flowers.....	Pkt., .25

AQUILEGIA (COLUMBINE)

Nat. Ord. Ranunculacea

Few plants lend themselves to naturalization more readily, or look more beautiful in grassy glades or woodland walks, than Columbines. In rockeries they feel at home and add an unusual charm to special settings. They grow and thrive in sunny positions, also in shady nooks and corners, where most plants have to struggle for existence. For cutting, their graceful flowers are highly appreciated. While, as stated above, Aquilegias are not particular as to soil or location, they prefer a moist but well-drained spot, and once established are found in the same place for scores of years. Their period of flowering extends from early May until the end of June, and even longer, if seed-pods are not allowed to form. The airy graceful foliage, the slender flower stalks, with the delicately colored blooms that appear like a myriad of butterflies in the spring of the year, give one a thrill that increases with the gayety as successive blooming times appear. We carefully avoid offering any but the long spurred varieties, which are such a delightful advance over the old-fashioned kinds. Space to be allowed, 1 foot.

Columbines are in their prime the second year after sowing, and usually degenerate after that, and in order to enjoy them always in prime, it is best to sow them anew each year.

8000. —**Heatherhome's Long Spurred Hybrids.** The seeds of this magnificent blending were saved from the finest specimen in a renowned New England garden, and we can recommend them with the serene confidence of giving superior satisfaction.....Pkt., \$.15
8005. —**Mrs. Scott Elliott's Celebrated Columbine.** A renowned English strain, which enjoys a world's reputation for the choicest flowers in the greatest possible array of colors. Our seed is from the originator.....Pkt., \$.25
8006. —**Heatherhome's Blue Gem (Novelty 1916).** We are proud to have been honored by the English raiser of this remarkable novelty, to be the exclusive distributor of it in America. This undoubtedly will form the forerunner of a new race of Columbine—New! Because it is so bold, so striking, so remarkably clear and healthy, that it looks like a different flower. The plants grow to a height of 18 inches and through their healthy clean leaves rise in great numbers very wiry flower stems, which show at their terminal a mass of real giants of flowers of the clearest deep true blue with a snowy-white corolla. The blue is that of Delphinium Formosum. Just picture in your imagination this contrast of color, and do you think you could afford to miss it in your garden next year.....Pkt., \$.35

8050. —*Delicatissima*. Delicate light yellow, passing into tender satin pink
Pkt., \$.25

AQUILEGIA (COLUMBINE)—Continued

8055. —*Flabellata Nana Alba*. Most distinct, possessing a charm and value all its own. The robust yet graceful foliage peeps through the ground just as soon as snow disappears in a most delightful way, showing a whorl of leaves the moment it unfolds. The richly colored fresh green leaves form a solid oval mount, not exceeding a foot in width or 8 inches in height, and through these leaves appear soon, later extending in all directions, stout flower-stems, just reaching perhaps 2 to 3 inches above the plant, and which are crowned with three to six large pure white blossoms. When in full bloom a bed of this variety appears like a snowdrift. For fully four weeks these plants are a glorious sight, and, unlike all other Columbines, after the flowers have disappeared the foliage remains perfect, fresh in color, and, on account of the compactness of the plant, it is just as attractive without flowers in the fall as it is during the flowering season in the spring. This Columbine is ideal for rockeries or when used as a companion to that magnificent *Phlox laphami* Perry variety.....Pkt., \$.25
8060. —*Glandulosa Vera*. Dark blue with white corolla.....Pkt., .25
8070. —*Haylodgensis*. Splendid long spurred hybrids in many pleasing shades.
Pkt. \$.25
88080. —*Rosea* (New). Delicate pink; one of the handsomest Columbines.
Pkt. \$.25
8090. —*Skinneri*. Large long spurred flowers of scarlet and yellow on the same flowerPkt. \$.25

ARABIS ALPINA (ROCKCRESS)

Nat. Ord. Crucifera

The earliest of all perennials to bloom, glorying in its mantle of snowy white soon after snow disappears and the first warm spring days give an impetus for things to grow. Like a carpet it beds rockeries and border edges, and here is its real home. Where spring bulbs are naturalized the association of *Arabis* gives a charming effect. *Tulip Cottage Maid* is fine coming up through this. Its height is at the most 6 inches, but when in bloom the entire plant is covered and no foliage is visible. It should be used to cover the bare spots in borders, particularly between late flowering tall plants, as it likes shade in summer in order to increase. Space to be given is 9 inches. The flowering season extends often into May.

8100. — —Pkt. \$.10

HARDY ASTERS (MICHAELMAS DAISIES)

Nat. Ord. Compositae

Is it because the Aster is a native of this country that it is not as fully appreciated as it should be, or is it because the real, hardy Aster of to-day is not known in its wonderful improvement? Up-to-date sorts are defying Chrysanthemums in fall effect. One thing is certain in the writer's mind, that the possibility of this flower has been totally neglected by the American gardener. Here is a flower that can, with the greatest ease, be increased so that, from a few plants in the beginning, in a few years one can count several hundreds, and just imagine the splendid use they can be put to. They will grow without any care in either full sunlight or partial shade, in both poor or rich soil, in wet or dry soil; never know insects or diseases. They can be used with shrubberies or in rockeries or in hardy borders; they are specially fine with background of dark Conifers. We can all duplicate the beautiful roadways of New England by using our surplus from our gardens and applying it to our highways. Irregular groupings of one color in the lawn facing tall shrubs adds beauty to the landscape. Unsightly ditches or objectionable places can be made things of beauty, and last, but not least, they are a splendid cut flower for small or large vases. Previously, we have referred to the more up-to-date varieties, which are a perfect revelation when compared with the wild sorts. Like clouds of dainty and brightly colored flowers appear the masses of one single plant. The individual blossoms have been doubled, yes trebled, in size, and the prevailing newer varieties appear in the richest of colors. From the softest pink to the deepest crimson, from the most delicate lavender down to the darkest purple and pure white, and no more need we wait until autumn before we see its glory, but some varieties flower in June and others again in July.

8175. —Sub-Coeruleus. Of distinct form and habit and unusually attractive. It is fairly new and little known, and its popularity is simply a question of time and getting better known. A small bushy plant, never exceeding, without flowers, more than 1 foot in height or width, it is splendid for edging borders or in rockeries. The flowers, measuring fully 2 inches across, are borne on eight straight individual stems, and are composed of long, narrow raylets of a most beautiful amethyst blue, which surround a golden disc. Just picture this color combination in your mind, and if your enthusiasm can remain dormant you miss the greatest joy in a gardener's life. The stems of these flowers are wiry and strong and are from 12 to 18 inches long, so that the flowers are an exceptionally fine subject for cutting. The flowers appear about the middle of May, and constantly reappear, until the latter part of June. This brings us to the Rose season, and, as a suggestion we might submit a vase filled with the rose Mrs. John Laing and associate it with this lovely Aster.....Pkt., \$.25

8180. —Perry's Favorite (Amellus Section). The gem of this entire collection. The true variety, which we offer, is exceedingly scarce and rarely furnished though offered and sold. The plant attains a height of 18 inches only, and grows in semi-globular form, covering fully 18 inches in diameter. When in full bloom no foliage is visible. The flowers, fairly large, are of a delicate shell pink, the most refreshing and delightful color in this section of plants. Flowering season, SeptemberPkt., \$.25

8200. —Splendid Mixture. Of all kinds and colors.....Pkt., .10
Heatherhome Seeds Guaranteed to Grow

Seeds of Perennials

ARMERIA (SEA PINK OR THRIFT OR CLIFF ROSE)

Nat. Ord. Plumbaginacea

On account of the symmetrical outline of the plant it adapts itself to special purposes. Being dwarf in growth, it is, above all, an ideal rock plant, but we recommend it especially for edging borders, which are straight in outline, or for covering terraces or steep inclines, as the deep penetrating roots hold the soil and the grass-like foliage remains all winter. The plant grows about 8 inches high, grows compact and dense, the foliage being a deep green. The flower-heads growing on a thin, slender stem, appear directly above the foliage, and while not quite an inch in diameter are borne in such profusion during May and June that the plants appear a glow of pink. Now and then during the rest of the season the plants will throw up an occasional flower-head. Space, 1 foot.

8115. —*Lauchiana*. Brilliant rose flowers.....Pkt., \$.25

ASCLEPIAS (BUTTERFLY OR MILKWEED OR THE SWALLOW WORT)

Nat. Ord. Asclepias

A creeping plant unless staked; loves a fairly moist soil with partial shade; during July and August it bears umbels of showy bright orange-colored flowers which afterward form into a seed pod resembling an okra. In September these seed pods burst open, and show a white, woolly substance, which gives it a very attractive appearance. Space when staked, 1 foot; otherwise, 2 feet; height, 2 feet.

8150. —*Tuberosa*Pkt., \$.10

AUBRIETIA NEW LARGE FLOWERING HYBRIDS

8260. —This new strain of *Aubrietia* is exceptionally fine, containing as it does crimson, purple, pale blue, pink and lilac shades. The blooms are of large size, and it will be found in every way a great acquisition.

Pkt., \$.25; 5 pkts., \$1.00

BAPTISIA (FALSE INDIGO)

Nat. Ord. Leguminosae

8250. —*Australis*. A robust growing plant with dark green, deeply cut foliage and racemes of dark blue pea-shaped flowers. Height, 2 feet. Flowering season in JunePkt., \$.05

BELLIS PERENNIS (ENGLISH DAISY)

Nat. Ord. Compositae

A biennial in fact. Seeds should not be sown until July of early August and the seedlings after being thinned out should remain in the frame until the following spring, when early in the season they should be transferred to the spot where they are wanted. The well-known popular bedding plant for early spring gardens in connection with Pansies and Forget-me-nots; splendid for rockery, hardy borders, or as a ground cover under Tulips, Hyacinths, etc. The new type we offer bears monstrous double flowers, being equal to an early Aster.

8275. —*Monstrous White*Pkt., \$.25

8280. —*Light Pink*Pkt., \$.25

HARDY CANDYTUFT (IBERIS)

Nat. Ord. Crucifera

Dwarf plants of upright growth and evergreen foliage growing in tufts along a fleshy stem. Every stem, 12 inches tall, is crowned with a dense flat head of flowers early in the spring. The flowers are almost exactly like the annual Candytuft. After the flowers disappear a seed-pod of the same form as the flower, in a vivid green color, takes its place. Space, 9 inches.

8500. — *Gibraltarica*. White shaded with pink.....Pkt., \$.25
8505. — *Sempervirens*. White flowers and evergreen leaves.....Pkt., .15

HARDY CARNATIONS (HARDY GARDEN PINKS)

8525. — Hardy Garden Pinks have a particular charm, mainly because they are fragrant, a virtue lacking in most perennials; but they have an additional charm, namely, their beautiful, silvery glaucous foliage, with its symmetric shape and the fact that the foliage retains its freshness in winter as well as summer. As a bold edging to flower-borders they are admirably adapted both for foliage and flower effect, as they flower most profusely. The newer sorts rival the hothouse Carnation in color and fragrance. Flowering season, June; space, 15 inchesPkt., \$.25

CAMPANULAS (BELL FLOWERS)

Nat. Ord. Campanulacea

No other family of flowers offers a greater wealth of material than the Campanulas, each one of them desirable and just fitted for its place. The old-fashioned gardens of our grandmothers were never without the Scotch Bluebells, or the Canterbury-bells of England, or the Chimney and Peach Bells. Our best English writers were inspired by them.

PERENNIAL VARIETIES

- §8380. — *Alliariaefolia*. Robustly growing foliage growing plant, which in June throws up numerous spikes 4 feet high, elegantly dressed with long nodding pure white bells.....Pkt., \$.10
§8385. — *Carpathica*. (Carpathian Harebell). A splendid subject for the rock garden, growing in tufts, spreading about 6 inches in diameter. In June these tiny plants are literally covered with upright bells of a clear, rich blue, which appear uninterrupted until frost....Pkt., \$.10
§8390. — — *Alba*. The same as the foregoing, except that the flowers are whitePkt., \$.10
§8395. — *Glomerata Dohurica*. Each plant sends up numerous spikes, which are crowned with enormous dense clusters of upright-growing deep violet blue bells from June until August. Some of the flower clusters appear directly over the foliage of the plant. Especially suitable for rockery and edging bordersPkt., \$.10
§8400. — *Persicifolia Grandiflora Coerulea* (Peach Bells). Stately border plants of unusual beauty; the slender flower-spikes grow 3 feet high and are well dressed with bell flowers which face forward. Excellent for cutting. Flowers in June. Clear, deep blue. Space, 1 foot.....Pkt., \$.25
§8405. — — *Alba*. Pure whitePkt., .25

CAMPANULA (BELL FLOWERS)—Continued

8410. — *Lactiflora*. One of the showiest of the bellflowers and seldom found in American gardens, due to the fact that it is but little known. Of robust foliage, it sends up stout stems which grow to a height of 4 feet, and which branch out to a broad head, often exceeding 2 feet in diameter. During the flowering season (June, July) the entire upper part of the plant is hidden by the profusion of large, pale blue flowers, a sight rarely equalled by any other plant. Space, 18 inches..Pkt., \$.25
- §8415. — *Alba*. Flowers of milky white.....Pkt., \$.25
- §8420. — *Moerheimi*. A double form of the white *Campanula Persicifolia*.
Pkt., \$.35
- §8425. — *Humosa*. The same as "Moerheimi," in blue.....Pkt., .25
8428. — *Primulaefolia* (*Primula leaved Bellflower*). Imposing, tall growing plants with charming lilac-blue flowers. Height, 5 feet. Very useful for tall groups and valuable for cutting.....Pkt., \$.25
8429. — *Latifolia Macrantha*. Large, purple bells on stems 3 to 5 feet. July.
Pkt., \$.25
- §8430. — *Pyramidalis* (*Chimney Bell*). Stout, straight spikes attain a height of 4 to 6 feet, of which several appear on a plant. The entire spike is encircled with beautiful violet-blue bell flowers in August and SeptemberPkt., \$.10
- §8435. — *Alba*. Pure white flowers.....Pkt., .10
8440. — *Trachaeum*. Robust plants which throw up flower-spikes 3 feet high and have purple bell flowers in June and July.....Pkt., \$.10
8445. — *Turbinata*. A mound-like growing plant 12 to 15 inches high, which in June is covered by the beautiful, erect growing bell flowers of clear bluePkt., \$.10

BIENNIAL VARIETIES

These require a somewhat different treatment from the perennial sorts, inasmuch as when they are transplanted from the seed-bed they should be planted in a frame, where they can be wintered over. A space of 8 inches must be given each plant in the frame. Early the following spring they should be planted where they are wanted. They only serve for one season.

CAMPANULA MEDIA (CANTERBURY BELL)

- This is the single form, with its bushy plants and giant bells in June.
- §8450. — *Pink*. A beautiful delicate shade.....Pkt., \$.05; large pkt., \$.25
- §8455. — *Pure White*Pkt., .05; large pkt., .25
- §8460. — *Bluish Purple*Pkt., .05; large pkt., .25
8465. — *All Shades Blended*.....Pkt., .05; large pkt., .25

CAMPANULA CALYCANTHEMA (CUP AND SAUCER)

The plant has the same habit and form as the foregoing sort, but the flowers have, in addition, a most interesting saucer-like row of outer petals, so that the flower is truly a cup and saucer.

- §8470. — *Delicate Pink*Pkt., \$.15; large pkt., \$.40
- §8475. — *Pure White*Pkt., .15; large pkt., .40

NEW HARDY CARNATION "GLORY"

Novelty 1916

A perfectly hardy, outdoor Carnation which produces a very large plant from which in May rise, without exaggeration, from 50 to 100 spikes 2 feet high, producing in June flowers equal to the finest hothouse Carnation, and in all the colors we know them. All these new hybrids possess pleasing fragrance. We could procure a very limited quantity of seed only, and for this reason we offer—

8520. —Pkt., \$.50

HARDY CARNATION (HEATHERHOME STRAIN)

Under this heading we are offering the choicest strain of hardy Pinks, a strain which we sincerely believe will be a revelation to the American gardener. Plants throw up flower-stems 12 to 18 inches high, which produce several very large blooms of colors such as rarely have been seen. Not only will these make show plants for the garden, but they are splendid for cutting.

8525. —Pkt. (25 seeds). \$.25

CASSIA (AMERICAN SENNA)

Nat. Ord. Leguminosae

A bushy plant with beautiful pinnate, light green foliage and large panicles of bright yellow, curiously shaped flowers in great abundance, from July until August. Height, 4 feet. Space, 18 inches.

§8535. — *Marylandica*. Large panicles of bright yellow flowers....Pkt., \$.10

CENTAUREA (HARDY CORNFLOWER, KNAPWEED)

Nat. Ord. Compositae

In the perennial family the plants produce stout robust foliage, stiff flower-stems growing about 15 inches high, and giant flowers in July and August.

8550. — *Macrocephala*. Thistle-like golden yellow flowers.....Pkt., \$.10

8555. — *Montana*. Blue flowersPkt., .10

8560. — *Pulcherrima* (New). Plants produce any number of slender flowering shoots 2 feet high, with beautiful pink-colored sweet sultan-like bloomsPkt., .25

8565. — *Ruthenica*. Splendid foliage and light yellow flowers....Pkt., .10

CERASTIUM (SNOW IN SUMMER)

Nat. Ord. Caryophyllaceae

"Heatherhome's" Guaranteed Seeds

Seeds of Perennials

CHELONE (SHELL FLOWER)

Nat. Ord. Scrophulariaceae

Also known as Pentstemon. From the center of a well-grouped nest of attractive leaves rise several slender flower stems to a height of 3 feet, which are dressed along the entire length with long tube-shaped flowers. On account of the attractiveness of the colors, they are invaluable for a good assortment of plants in a border. Space, 12 inches.

8600. — *Barbata Torreyi*. Stately plants growing 3 feet high, bearing numerous spikes of tubular narrow flowers of brightest scarlet in July. Pkt., \$.10
8610. — *Lyonni*. Flowers of deep red, resembling Snapdragons to a certain extent Pkt., \$.25

CHRYSANTHEMUM MAXIMUM (SHASTA DAISY)

Nat. Ord. Compositae

Absolutely hardy and of easiest possible culture, but requires the following treatment in order to obtain the best results. Soon after the plant has made its growth of foliage in the springtime it begins to throw up the flowering shoots. These must be removed up to August 15th, for if allowed to develop as they first appear, the plant will flower itself to death and disappear. If treated as we suggest it will produce an enormous leaf growth and up to fifty gigantic flowers at one time, lasting from early September until the snow flies. The flower-stems will grow 15 inches high and produce monstrous white Daisies, which are not only exceedingly attractive in the garden, but form also one of the finest cutting materials.

- §8625. — *King Edward VII*. One of the newest Shasta Daisies, with enormous flowers of purest white. Flowers in August to October. Height, 2 feet. Pkt., \$.25
§8627. — — *Laciniatum* (Lace-Petaled Shasta Daisy). From what formerly was a stiff flower, this new introduction shows us how we can change things about and produce something most beautiful and graceful by breeding a different form of petal. It is a very difficult task to convey to our readers a precise conception of the true beauty of this elegant Shasta Daisy. The gigantic flowers invariably have two rows of petals which do not extend themselves in a straight direction, as the parents do, but which gracefully curve upward and downward. Each individual petal is split considerably, giving the flower a fantastic and rather Japanese appearance. In large clumps it presents an artistic picture. Pkt., \$.25

COREOPSIS (CALLOPSIS)

Nat. Ord. Compositae

8650. — *Grandiflora Eldorado*. A very popular and most serviceable plant for the border. The much lanceolated foliage grows in symmetric clusters, 12 inches high, and from its centre appear graceful, thin, wiry flower-stems growing to a height of 2½ feet, which terminate in a large Daisy-like golden flower with a yellow center. The petals of the flower are lanced, which helps to enhance its beauty. These flower-spikes appear in great profusion from June until late autumn uninterruptedly, particularly so if the flowers are constantly cut. As a cut flower to last this is undoubtedly the best of all perennials. Space to be given, 15 inches. Pkt., \$.10

Please Order by Number Only

DIANTHUS DELTOIDES (MAIDEN PINK)

Nat. Ord. Caryophyllacea

8690. — **Roseus**. Most charming plant for rockeries or edging borders or in crevices of walls. The foliage is like fine grass and lies flat on the ground, while the tiny single rose-pink flowers appear in masses during the whole summer. Height, 6 inches. Space, 6 inches.....Pkt., \$.10
8695. — **Alba**. White flowersPkt., .10
8698. — **Latifolius Atrococcineus Fl. Pl.** (The Ever-blooming Sweet William). The plant grows erect, just like Sweet William, and bears similar clusters of flowers of which the individual is very large and double. Color—rich crimson. The plant is in bloom almost continuously during the seasonPkt., \$.10

HEATHERHOME'S DELPHINIUMS (HARDY LARKSPUR)

Nat. Ord. Ranunculacea

All plants have charms, more or less. With some we must seek them, with others we find them at first glance. Larkspurs are invariably the leading favorites of those who love the hardy flowers, because they have virtues of unusual merit. Stateliness in appearance, boldness in power, massiveness in form and brilliancy in effect are a few of their recommendable features. Their greatest charm to us is the loveliness of their shades, a range unapproached by any other; namely, from the palest blue to the darkest indigo and violet. The newer forms, with immensely large flowers and bee-like centers, are remarkably striking. Delphiniums are in their season (June) the most gorgeous specie of the border, and, by intelligent arrangement and care, can be made to appear as a blaze in the garden. The stately spikes will grow from 4 to 6 feet tall, according to variety, and if cut back immediately after blooming a second crop of smaller shoots appear in August, often lasting till frost time. These plants should never be allowed to remain longer than three years undisturbed, but each third year separated and replanted. This should be done in the spring. Delphiniums love a rich soil and a sunny situation. A combination of blue Larkspur with the snowy-white Ascension Lily (*Lily Candidum*) is always stunning. Both flower at the same time. Coal ashes, strewn over the plants in the fall, will prevent slugs from destroying these plants during the winter and spring. Delphiniums can be used with splendid effect, not only in the hardy border, but as well in formal or Italian gardens, or as specimen plants for a bold decoration near entrances of buildings, or in close proximity to gates. The tall-growing varieties should be given a space of nearly 2 feet; for the Chinese varieties 1 foot of space is sufficient.

Larkspur cannot only easily be grown from seed, but form one of the interesting features in connection with growing perennials from seed. Belonging, as they do, to an unusually large family of ancestors, the result of growing plants from seeds is always accompanied by chances of getting something different from what is expected. This may be in the form of pleasant surprises or unpleasant disappointments. At any rate, we all love to live in hope. Each of the following varieties, except *Delphinium Chinensis*, does not attain its perfection until two years from sowing, although it flowers the year previous; *Delphinium Chinensis*, though, flowers even the year of sowing. Larkspur seed must absolutely be fresh in order to germinate. We pay particular attention to this fact and supply the freshest possible seed.

8651. — **Amos Perry**. Spikes 6 feet high, flowers 2½ inches across, semi-double, of rich, rosy mauve suffused and flushed sky-blue, black eye. Pkt., \$.25
8652. — **Andrew Carnegie**. Double flowers of soft lilac with blue center. Pkt., \$.25
8653. — **Hugo Poortman**. Semi-double flowers of pale blue color..Pkt., .25

- §8682. — **Belladonna (True).** The Belladonna Larkspur are undoubtedly the finest, the most desirable, the most graceful of all Delphiniums. Their loose growing habit, the enormously large flowers, which one can admire individually here, and the beautiful shade of silvery-blue are all features in which this sort excels.....Pkt., \$.25
8685. — **Belladonna Hybrids.** All shades of light and dark blue, but in the true typePkt., \$.15
- §8686. — **Pauli.** A new Larkspur from East Africa, named after the missionary director, Prof. Dr. Paul, who discovered this plant in the prairies at the foot of the Meur Mountains, at a height of about 3,600 feet. The plants, similar to *D. Chinensis*, form loosely branched bushes, 1½ to 2 feet in height. On the wire-like stiff stems and branches appear the pure white flowers, 1½ to 1¾ inches in diameter, with spurs of equal length. The stamens are dark violet brown. A principal feature of this new plant is the intense sweet Eucharis-like scent of the flowers, even noticeable at a distance, which lasts until the flowers fade. Foliage, 5 to 7 fold divided, dark green with distinct lighter veins...Pkt., \$.30
- §8687. — **Rev. E. Lascelles.** One of the finest varieties of hardy Larkspurs, introduced a few years ago in England. The flowers are large and double, and of a beautiful deep blue with white center. Not all the seedlings of any Delphinium come true, but a good percentage may be expected from the above seed. The remainder of the seedlings should produce some choice hybridsPkt., \$.50

DICTAMNUS (BURNING BUSH OR GAS PLANT)

An old-fashioned favorite plant, possessing fragrance in both flowers and foliage. The plant grows erect to a height of 2 feet, with smooth stems and prettily loped foliage. The flower is not unlike the Spider Plant. Space, 1 foot.

8750. — **Ritro.** A very ornamental plant belonging to the Thistle family, most decorative for the border or as a specimen plant in the lawn: the plants grow 5 feet high, and produce large, thistle-like leaves of a silvery glaucous color. The globular heads of flowers are steel blue in color and composed of balls entirely covered with needle-like thistles. The flowers are excellent for cutting.....Pkt., \$.10

Heatherhome Seeds Guaranteed to Grow

Knight & Struck Company

Seeds of Perennials

DIGITALIS (FOXGLOVE)

Nat. Ord. Scrophulariaceae

An old-fashioned biennial, but most decorative and stately in borders, and particularly suited for naturalizing in semi-shaded situations. Although a biennial, it can be made perfectly hardy by cutting the flower-spikes before they have finished blooming. The result is that a number of young plants form around the old crown, and the following year a number of spikes will appear where formerly there was but one. Foxgloves require protection of leaves during the winter. Masses of Foxgloves edged with an attractively colored Sweet William make the most effective groups. Well-grown plants should attain a height of 5 feet, while the foliage spreads to a circle of 2 feet. The clumps of hairy, fleshy leaves are very attractive, even when the plant is not in bloom. Seeds are best sown in the open, neither thinned out nor transplanted until the following spring. For winter protection cover with straw.

- §8725. — *Gloxinaeflora* WhitePkt., \$.05; large pkt., \$.25

EUPATORIUM (THOROUGH-WORT—HEMP AGRIMONY)

Nat. Ord. Compositae

Bushy, well branched plants attaining a height of 3 feet and bearing branched heads of pure white Agerateum-like flowers during August and September. Grows well in shade.

8780. — *Fraseri*. Pure whitePkt. \$.10

EDELWEISS (GNAPHALIUM LEONTOPODIUM)

Nat. Ord. Compositae

The most popular flower of the Swiss and Tyrolean Alps. The velvety texture of the flower petals and their creamy white color are features which the flowers retain after being pressed. The tourist traveling through Switzerland or Tyrol will find it on the hat of every guide. But do you know that you can grow it in your back yard, and more luxuriously than in the Alps? Seeds should be sown very thinly in a frame and transplanted into another, where it should be wintered for the first year. The following spring plant in a spot which faces northern exposure and you will be rewarded with a fine crop of flowers. If you are ever in Hartford, Conn., visit the garden of J. J. Goodwin. Estate, and you will be able to see whole naturalized spots of this attractive flower.

Plants grow only 4 inches high. The silvery gray leaves lie almost flat on the ground, while from the center rises the flower-stem bearing two or three star-like flowers. If grown in the sun the flowers will be greenish gray, while if grown in partial shade it will be almost pure white.

8755. — *White Flowers*Pkt., \$.25

Seeds of Perennials

ERIGERON (FLEA BANE)

Nat. Ord. Compositae

Charming summer flowering plants with attractive Daisy-like flowers with fine cut petals. The dwarfier kinds are valuable for rock work or the front of borders; the taller sorts are effective where massed.

8757. — *Aurantiacum* (The Orange Daisy). Flowers ranging from brilliant orange to orange yellow. A valuable, showy bedding plant. Height, $\frac{1}{2}$ foot. Space, 6 inches.....Pkt., \$.25
8760. — *Grandiflorus* *Elatior*. Large, solitary purple flowers, with bright yellow disc; June and July; 18 inches.....Pkt., \$.10
8765. — *Speciosus*. The straight flower stem terminates in a flat cluster of beautiful Aster-like flowers of a delicate lavender pink with yellow disc. Splendid for cutting; June; 18 inches.....Pkt., \$.10
8766. — *Multiradiatus* *Roseus*. The very graceful flowers of this new variety which the plant produces abundantly and which measure about $2\frac{1}{4}$ inches across, are composed of innumerable close and narrow standing rosy-colored petals which surround the golden yellow disc. It is a splendid and artistic cut flower.....Pkt., \$.25

ERYNGIUM (SEA HOLLY)

Nat. Ord. Umbelliferae

Remarkably decorative plants with ornamental Thistle-like foliage and Thistle-like flower-heads which can be cut and dried for winter decoration. They delight in deep, sandy soil and are most effective as groups on lawns or in borders or naturalized in woods.

8770. — *Amethystinum*. Finely cut spiny foliage and beautiful thistle-like heads of amethyst blue; 3 feet; July and August.....Pkt., \$.15
8772. — *Giganteum* (Ivory Thistle). Foliage and stems glistening silvery white, with large branching flowerheads; $3\frac{1}{2}$ feet.....Pkt., \$.25
8775. — *Planum*. Broad glossy foliage and steel-blue flowers....Pkt.. .10

GAILLARDIA (BLANKET FLOWER)

Nat. Ord. Compositae

8784. — *Heatherhome's* Exhibition Strain. Entirely distinct from the old kind, and from that offered by any other house. A grand new improved strain. Enormous flowers of very stout habit. No perennial border should be without this gem.....Pkt., \$.35; 3 pkts., \$1.00
8785. — *Grandiflora*. Showy plants for beds and borders, being covered with flowers from June until October, a feature quite rare with perennials. From a loose cluster of finely lacerated foliage arise numerous straight, wiry flower-stems, which terminate in one large daisy-like flower of unusual colorings; generally the flowers appear in several circles of highly colored contrasts, as crimson and gold, orange and vermillion, and so forth. Height of plant, about 2 feet; space, 1 foot. The old flower-stem should be removed as soon as the flowers fade, to ensure a continuity of bloom and strong, healthy plants.....Pkt., \$.10

Knight & Struck Company,

Seeds of Perennials

GALEGA OFFICINALIS (GOAT'S RUE)

Nat. Ord. Leguminosae

A new form of this beautiful flower; plants grow 4½ feet tall. The stout stem is elegantly dressed with beautiful loped foliage, and towards the crown of the plant appear during July and August large, handsome sprays of pea-shaped flowers. Ideal for cutting. There are so few perennials which are in their prime during July and August that we strongly urge you to plant this Galega in quantities all through the border. Space, 18 inches.

8790. — *Alba*. White flowersPkt., \$.10
8795. — *Roses*. Deep pink flowersPkt., .10

GAURA (WAVING BUTTERFLY)

Nat. Ord. Onagracea

A most spectacular plant which, when recognized, cannot fail to impress itself favorably upon the American gardener that we will soon find it used universally. Although this is an annual, because it flowers within three months after sowing the seed, it can also be used as a perennial in the border.

As such a plant I have seen it in the past summer, in one of the show gardens in Newport, and many other visitors there were amazed that such a lovely plant should be unknown to most of the gardens. From a nest of solid leaves, which remain near the ground and which spread to a space of 1 foot, arise several wiry, smooth, gracefully waving flowerstalks to a height of 6 feet; the upper third is loosely dressed with single white blossoms that remind you at once of white butterflies. These flowers open but three or four at a time, but by that method flower uninterruptedly from July to frost.

Picture in your mind a solid, large clump of these, or individually rising above a large bed of Pink Phlox or something similar, and the wind waving these slender stems to and fro, and you can only reproduce the picture by imagining a myriad of white butterflies swarming over your flowers.

2292. — *Lindeheimeri*.....Pkt., \$.10; large pkt., \$.25

GENTIANA ACAULIS (THE GARDEN GENTIAN)

On slender wiry stems about 6 inches tall, borne in profusion to the plant, we find large, erect, bell-shaped, deep blue flowers in spring; in bloom more or less throughout the year. Plant without flowers, about 3 inches high. Space, 6 inches.

8797. —Pkt., \$.25
8798. — *Texas Blue Gentian*. An excellent variety producing showy flowers of a clear blue color, measuring three to four inches across. This makes a splendid sort for cutting, lasting until frost.....Pkt., \$.25

Sow Perennials from Now to July 15th

"Heatherhome's" Guaranteed Seeds

Seeds of Perennials

GEUM (AVENS)

Nat. Ord. Rosacea

The plant in appearance reminds one of a strawberry, with divided foliage held upright by stiff leaf stems. From a perfect rosette of such foliage arise several straight wiry flower-stems, which grow to a height of 2 feet and branch toward the top, each side-shoot producing a beautiful double flower, the form of a perfect *Ranunculus* or Buttercup. These flowers make their first appearance in June, and continue with little interruption until fall. The flowers are of a rich, brilliant crimson, and when fully open a golden disc which helps to illuminate the rich color of the petals. The flowers are excellent for cutting. The plant is used advantageously in the foreground in borders or in rockeries. Space, 10 inches.

8800. — *Coccineum*. Orange scarletPkt., \$.10
 8805. — *Mrs. J. Bradshaw* (New). Flowers are double the size....Pkt., \$.25

ORNAMENTAL GRASSES

They are graceful and decorative. They help to relieve the stiffness of shrubs and add beauty to the landscape. They grow easily and require almost no care.

8810. *Arundo Donax*. Stout stalks resembling our field corn, grow to a height of 20 feet, having broad green leaves of a very light color. They are fine, when arranged in clusters, as the background for perennials. Pkt., \$.10
 8815. — *Variegata*. The same with foliage, which is light green, striped whitePkt., \$.15
 8820. *Erianthus Ravennae* (Pampa Grass). Grows from 10 to 32 feet high, frequently throwing up twenty flower-spikes, resembling a pampus plumePkt., \$.10
 8825. *Eulalia Japonica*. Between the long, narrow leaves, which gracefully curve like a fountain spray, arise numerous flower-stalks, growing 4 to 6 feet, with feathery heads. Foliage is totally green....Pkt., \$.10
 8830. — *Variegata*. Just like the above in character, but having foliage which is striped white with green along the entire length of foliage. Pkt., \$.15
 8835. — *Zebrina*. Foliage is somewhat broader than the foregoing, with stripes of yellow across the foliage at regular intervals. It resembles the marking of a zebra.....Pkt., \$.15
 8840. *Gynerium Argenicum* (True Pampas Grass). Silvery plumes are produced on stems 8 to 10 feet high. It is one of the most imposing of all grassesPkt., \$.10

HELENIUM (SNEEZE-WORT)

Nat. Ord. Compositae

A golden glory of the fall. Stout stems grow upright and terminate in an open well-expanded head, composed of slender flower-stems which bear a number of beautiful flat flowers, the whole head being in bloom at one time. They present a glorious spectacle when in bloom during August and September. They are of easiest possible culture, and will succeed even under adverse conditions. They belong in the main body of the border. Space, 18 inches. *Helonium* seeds germinate slowly.

8860. — *Autumnale Superbum*. Grows 4 feet high and blooms in August. Pkt., \$.15
 8865. — *Bigelowi*. Each bloom is produced on individual stems during June. Height, 2 feet.....Pkt., \$.25

Heatherhome Seeds Guaranteed to Grow

Knight & Struck Company

Seeds of Perennials

GYPSOPHILA (BABY'S BREATH)

Nat. Ord. Caryophyllacea

One of the most useful of all perennials. A fairly strong stem, arising from the root, branches freely and produces a perfect bush 3 feet high and 2 feet through.

The side-shoots are extremely fine and wiry, and the foliage, which accompanies the plant to half its height, is like a perfect blade of grass 2 to 3 inches long.

The entire head of the plant, to a depth of 12 inches from the flowering part, is like a sea of bloom, composed of dainty, minute blossoms of white. The effect even close-by is a perfect cloud of grayish white, misty and elegant in the extreme. When cut it forms splendid material to combine with Sweet Peas or other flowers whose own foliage is not suitable for cutting.

In the border it relieves the concrete aspect of plants and pleases the eye. The plants are smothered with flowers during July and August. Allow at least 18 inches of space for each plant. The dead flower-heads should not be cut back until late in the fall; cutting earlier is apt to kill the plant.

8850. — **Paniculata**. Single white blossomsPkt., \$.10
8855. — — **Fl. Pl.** (New). The same as above, with double flowers; exceedingly handsome and fine for cutting.....Pkt., \$.25

Please note only about 30% of the seedlings are double.

HELIANTHUS (SUNFLOWER)

Nat. Ord. Compositae

The hardy sunflower give us a splendid material for the border. They are graceful, elegant, glorious when in bloom, and of such easy culture. One must never compare them with the coarse annual sorts, as they really are a distinctly different flower.

8868. — **Mollis**. Golden yellow flowers in clusters on long well-branched stemsPkt., \$.15
8869. — **Rigidus Japonicus**. Bushy plants 5 feet high, produce from July on golden-yellow flowers with dark centers.....Pkt., \$.15

HELIOPSIS (ORANGE SUNFLOWER)

Nat. Ord. Compositae

8870. — **Pitcheriana**. A rigid growing plant, very similar to Helianthus, 3 feet tall, which produces an abundance of Sunflower-like blooms, 2½ to 3 inches across, on straight, long flowering stalks, from June until October; the flowers are orange yellow with black center; very showy in the border and fine for cutting. Space, 18 inches.....Pkt., \$.10

HEMEROCALLIS FLAVA (YELLOW DAY LILY)

The well known Day Lily with its Lily-like flowers of pale yellow on stout stems, 18 inches tall; in June. Space, 18 inches.

8872. —Pkt., \$.10

"Heatherhome's" Guaranteed Seeds

Seeds of Perennials

HESPERIS (SWEET ROCKET)

Nat. Ord. Crucifera

A true biennial, which should be sown each year. The branching plants, which grow about 2 feet high, terminate at each side shoot in a spray of lilac-like blossoms which remain on the plant for nearly six weeks. They are ideal to combine with German Iris, as they are in bloom at the same time. After the flower drops the seed-pods are equally attractive.

- §8873. — *Hesperis Lampanifolia* (Sweet Rocket). A new biennial Sweet Rocket from the mountains of Montenegro. The very robust growing, numerous branched plants attain a height of 3 feet, and during July and August are glowing with pyramidal upright clusters of brilliant purple flowers. Another valuable acquisition to give us flowers during July and AugustPkt.. \$.25
8875. — *Matronalis*. PurplePkt.. .10
- §8880. — — WhitePkt.. .10

HEUCHERA (ALUM ROOT)

Nat. Ord. Saxifragacea

In a perfect dense mound, 12 inches high, the foliage appears on the ground and resembles a laciniated galax leaf. They are persistent enough to remain through the winter. Thin, wiry, smooth, straight leafless flowering stalks arise, almost from 50 to 100 on a single plant, between the leaves to a height of 18 inches, and each one produces a spray of small coral-like blossoms, which are exceedingly graceful and decorative, both for the garden and for cutting. The flowering season is from May until August. Space, 1 foot.

8885. — *Sanguinea*. Coral-colored flowersPkt.. \$.15
- §8886. — *Pluie de Feu* (New). Flower stems grow to a height of 18 inches and terminate in a huge but airy corymb of exquisite, small, brilliant fiery scarlet flowersPkt.. \$.25
- §8887. — *Shirley* (New). Sprays of coral scarlet flowers, very free..Pkt.. .25
8890. — *Sanguinea Hybride* (New). Spikes attain a height of 2 feet. Clusters are much larger, in most beautiful shades.....Pkt.. \$.25
- §8892. — — *White Empress*. Pure white flowers on 18-inch stems...Pkt.. .25
8893. — *Choice Hybrids*. These Hybrids are the results originally crossing *Heuchera Sanguinea*, with its brilliant scarlet flowers, with the taller and more graceful species *Micrantha*, and, by careful selection and re-selection, eliminating all the inferior forms, and intercrossing the best of the selected varieties. The seed can be relied upon to produce every shade from white to deep glowing crimson, many of the bright, clear pinks being of exceptional beauty. They are much freer flowering, than *Heuchera Sanguinea*, and from May to July produce sheaves of delicate blossom, invaluable for the Herbaceous border....Pkt.. \$.25

HIBISCUS (MALLOWS)

Nat. Ord. Malvacea

Numerous smooth woody stalks appear in clusters from the root, spreading like a bouquet in all directions, growing to a height of 4 to 6 feet, and producing toward their terminals in the leaf-axils enormous mallow flowers from July until October. Foliage, which accompanies the stems, is large, light green and varies in form according to the variety. Their natural desire is to grow in moist situations, but they will grow equally well in dry, open situations. They look well in the border, and associated with shrubs they are ideal.

8895. — *Moscheutos Roseus*. Pink flowers.....Pkt.. \$.10
- §8900. — — *Albus*. White flowers.....Pkt.. .10
- §8901. — *Giant Red*. Enormous flowers of bright red; our own saving..Pkt.. .25

HEATHERHOME'S TWENTIETH CENTURY HOLLYHOCKS

We have a surprise and revelation in store for the lovers of Hollyhocks. Here is a strain which is not offered elsewhere in America. It has been the pride of an English minister to perfect this flower, and for years his specimens have won every prize in the exhibitions. All previous offers have been refused for the owner felt a certain delight in being the exclusive possessor of such a magnificent garden subject.

After the outbreak of the war the owner saw the opportunity of earning a little sum for the benefit of the Red Cross, but in order not to jeopardize his chances for winning more prizes in England, he was not inclined to offer it to his own countrymen.

Visiting in Edinburgh during the summer, he had seen at the home of his friends a copy of the "Heatherhome Seed Book," which impressed him so favorably that when the thought came to him of offering the Hollyhock seed he decided to give us the exclusive distribution of the same.

Absolutely convinced of the reliability of this wonderful novelty, we welcomed this opportunity, but in order to procure the seeds we had to pay what ordinarily would appear a fabulous price, but the quality warrants it, and we are proud to be the first in the field to offer such an exceptionally beautiful flower.

Please note that we offer more separate shades than were ever offered before, and our patrons may be assured of a goodly percentage coming true to color.

Hollyhocks are biennials, but by certain treatment they can be made perennial.

HEATHERHOME'S TWENTIETH CENTURY HOLLYHOCKS

8902.—**Tuxedo Beauty.** Once again the Home of Heather has stolen a march on its competitors by being lucky enough to secure all seed saved of this meritorious novelty. The color is a most beautiful shade of old rose flowers measuring four to five inches across, being 95% double and all true to color. We do not hesitate to say that this is the finest hollyhock now in existence.....Pkt., \$.25; 5 pkts., \$1.00

INCARVILLEA (GARDEN GLOXINIA)

Nat. Ord. Bignoniacea

A beautiful plant from China. From the center of a beautiful fleshy foliage appear in early spring several stout fleshy flower-stalks, which, at a height of 12 inches, produce enormously large flowers of the form of a Gloxinia in bright pink. Plants raised from seed bloom 3 years after sowing.

8980.	— Grandiflora. Enormous large flowers of deep pink.....	Pkt., \$.25
8981.	— Delavii. Light pink flower	Pkt.. .15

JAPANESE IRIS

We want our customers to appreciate the fact that plants raised from this seed do not produce flowers until three years after germinating and the only reason why we offer this seed is that the raising of it will lead you to the climax of joy in gardening. How—do you ask? It does not matter from which particular plant the seed was saved, the fact remains that every plant will be different and the chances are that you may produce a remarkable novelty, which may bring you glory and fame. Don't you think it is worth while? The seed we offer is from some of our choicest varieties at our own nursery and we are sure that the result of same must be above the average.

Seeds of Perennials

NEW CALIFORNIA IRIS

Novelty 1916

Flowering plants can be obtained in one year from seed.

These are absolutely hardy and no Iris gives a more profuse display of bloom nor so many delicate arrangements of colors. Hundreds of flowers are produced in a patch of plants only a yard or two square, and hardly any two seedlings are identical in color.

In form of flower, habit of growth and foliage, they are very similar to the Spanish Iris, but the originator neglects to mention at what time they come into bloom.

This is undoubtedly one of the foremost introductions of the age, and will prove a surprise to all who try it.

8983. —**Bractenta**. In the type the flowers are yellow, beautifully netted with brown-crimson veins, but seedlings produce a wide range of color, including pinks and even reds. The seed offered was saved from the red flowered variety.....Pkt. \$.50
8984. —**Tenax**. Flowers vary from deep claret to pale lavender and lilac, or pale grey with a beautiful network of silvery veins. The foliage is grassy and slender, but the plant is perfectly hardy.....Pkt. \$.25

LATHYRUS LATIFOLIUS (THE PERENNIAL SWEET PEA)

Nat. Ord. Leguminosae

The plants in every respect resemble a sturdy Sweet Pea, where the flowers are produced in dense clusters on a single stem, and which, of course, lack their fragrance. For a proper showing, plants should be given a stout post for support.

8985. —**Crimson**Pkt. \$.10
8990. —**White Pearl**. Immense clusters of white flowers.....Pkt. .25
8995. —**Pink Beauty**. Handsome shade of bright pink.....Pkt. .15

LIATRIS (BLAZING STAR)

Nat. Ord. Compositae

From a cluster of fine grass-like leaves appear several stout, straight leafy spikes, attaining a height of 4 feet, of which fully 2 feet is completely encircled with rosy-purple tassel-like flowers, which are close to the spike. The flowering season is extended to nearly six weeks, from July till September. Space, 1 foot.

9000. —**Pycnostachia**. Rosy purple.....Pkt. \$.15

LINUM PERENNE (PERENNIAL FLAX)

Nat. Ord. Linacea

A graceful, loose, airy plant growing 12 inches high, and which is splendid when planted with Delphiniums, as it flowers in June at exactly the same time.

9005. — —**Blue**Pkt. \$.10
9010. — —**White**Pkt. .10

Seeds of Perennials

LOBELIA (CARDINAL FLOWER)

Nat. Ord. Campanulacea

An extremely showy perennial, thriving particularly well in moist situations, as it is naturally found in swampy meadows.

9015. —*Cardinalis* (Cardinal Flower). From a rosette of narrow, lance-like leaves arise stout fleshy stalks, which are completely surrounded by foliage, growing 4 to 5 feet tall, terminating in a tapering spray of bright cardinal-colored flowers; blooms in August. (R Intense Spectrum Red, Class 1).....Pkt., \$.25
9020. —*Syphilitica*. Bright blue flower.....Pkt., .15

HARDY LUPINUS (LUPINUS POLYPHYLLUS)

Nat. Ord. Leguminosae.

Among the showiest perennials and extremely useful, on account of their adaptability for semi-shaded situations. For the best success in making them hardy give them a well-drained soil, where the water cannot lodge either in winter or summer. Lupinus must not be covered in winter, but must be exposed to natural conditions. The massive tree-like roots produce a most graceful five-finger-like foliage, and several stout, massive spikes, around which sit closely occupying the entire space, beautiful pea-like flowers. The flowering season is during May and June. Space, 1 foot.

- §9025. —BluePkt., \$.05
- §9030. —WhitePkt., .05
- §9035. —Bright Pink (New).....Pkt., .15
9037. ——"Heatherhome's" New Hybrids. A lovely new race, being a cross between *Lupinus Polyphyllus* and *L. Arboreus*, having very long spikes of bloom and a great array of new and distinctive colors, such as rose, delicate pink, yellow, and purple, and some with two or more different colors in a flower. Height, 3 feet.....Pkt., \$.50
- §9038. —Nelly. Fragrant flowers of white and pink combined in one, produced on spikes 1½ to 2 feet in length, from May to September. Height of plant, 3 feet.....Pkt., \$.50
- §9039. —Yellow Boy. Producing from May to September, long spikes of soft yellow flowers, shaded buff, delightfully scented. Height, 4 feet.
Pkt. \$.50

LYTHRUM (PURPLE LOOSESTRIPE)

Nat. Ord. Lythrarieae

Splendid native plants, suitable for borders, waterside and wild gardens, producing throughout summer tall, erect spikes of bright pink flowers. Plants grow to a height of 4 feet, most of which is occupied by the flowers, which resemble the Sage flowers to some extent. Space, 2 feet.

9065. —*Roseum Superbum*. Rose colored flowers.....Pkt., \$.10
Please Order by Number Only

LYCHNIS (LONDON PRIDE, RAGGED ROBIN)

Nat. Ord. Caryophyllacea

9040. —**Chalcedonica** (Jerusalem Cross). From a foliage similar to Sweet William arise several very straight, stout leafy flower-spikes to a height of 3 feet, and crowned with a flat, dense head of bright scarlet flowers in June. Space, 1 foot.....Pkt. \$.10

9045. —**Alba**. Pure white flowers.....Pkt. \$.10

9042. —**Arkwrightii** (New). A cross between L. Chalcedonica and Haageana, having the upright habit of Chalcedonica, with the flowers of Haageana, but very greatly improved. A botanical novelty of great merit, and a decided acquisition.

A new herbaceous border plant, also eminently adapted for summer bedding, making a gorgeous and long lasting display, in many new and lovely colors.

One of the easiest plants to propagate. Seeds sown early in the year under glass and, grown on, make suitable plants for bedding-out the same season; growing about 19 inches high. The succeeding year's growth attaining 24 to 30 inches, producing greater abundance of flowers, and showing its true character to perfection. Sow in spring or summer for the following year's flowering.....Pkt., \$.35; 3 pkts., \$1.00

9050. —**Flos Cuculi** (Jove or Cockoo-flower). A graceful, well-branched plant, growing 24 inches high, and producing small double bright pink flowers from June until frost; one of the few perennials flowering continuously. It attracts the bees, and a group of these plants, when in bloom, is a musical attraction in the garden.....Pkt., \$.15

9055. —**Haageana Hybrids** (Maltese Cross). Plants grow 12 inches high, and at the crown of a stout, straight fleshy stalk produce a single large bloom in June, and occasionally during the rest of the season. Colors in shades of pink, scarlet, cream, and white.....Pkt., \$.25

9060. —**Viscaria Splendens**. In appearance the plant and flowers resemble Gilly-flowers in deep pink. Season, June.....Pkt., \$.10

TWO SPLENDID MECONOPSIS

9067. —**Aculeata** (True). On account of its original home and its form, it has been christened with the popular name of "The Large Blue Poppy from Kashmir." It was discovered growing at an elevation of 11,000 feet, and therefore should prove extraordinarily hardy. The handsome plant grows to a height of 2½ feet and produces a mass of beautiful flowers which measure 2 to 3 inches across are of a most beautiful blue with golden anthers and blue filaments; a sensational novelty....Pkt., \$.50

9069. —**Sinuata Var. Latifolia**. A hardy perennial and one of the most beautiful of the family, producing a dense spike of lovely lavender-blue flowers and an ornamental hairy foliage. Height, 15 inches..Pkt., \$1.00

Sow Perennials from Now to July 15th

"Heatherhome's" Guaranteed Seeds

Seeds of Perennials

Myosotis (Forget-Me-Not)

Nat. Ord. Boraginea

This popular spring flowering plant appears in a large assortment of varieties, some of which are biennial and some are perennial, and others again are suited for flowering in hothouses during the winter. We have separated each class, as each requires a distinct culture.

BIENNIAL VARIETIES

The following varieties are truly biennial, but are in the even modern seed books offered as annuals. The sorts as offered below should be sown in July and then treated like the Canterbury Bells or *Bellis Perennis*. Up-to-date gardens find a variety of uses for these lovely blue *Forget-me-nots*, such as bedding under Tulips or other spring flowering plants which grow fairly tall.

- 9070.—*Alpestris Victoria Azurea*. Compact, dwarf plant, bright blue flowers. Pkt. \$.10
 9075. — — — *Rosea*. The same as the preceding sort, with light pink flowers. Pkt. \$.10
 9080. — *Queen of Bedders* (New). The dwarfest of all, flowering free in bright blue Pkt. \$.25

PERENNIAL VARIETIES

These require the treatment indicated for all perennials.

9090. — *Palustris Semperflorens*. A robust growing plant with large sprays of flowers. This variety is ever-blooming, and therefore always in bloom Pkt. \$.15
 9095. — *Dissitiflora Perfection*. Plants have a lustrous, healthy, deep green foliage and produce elegant large clusters of flowers, which are considerably larger, in a rich bright blue; June and July.....Pkt. \$.25

MYOSOTIDEUM NOBILE

The Giant *Forget-me-not* of the Chatham Islands. A lovely perennial growing in its native habitat in damp sand near the sea; it bears large corymbs of beautiful blue flowers edged white, in May and June. Height, 18 inches.

9096. — Pkt. \$.50

OENOTHERA (EVENING PRIMROSE) /

Nat. Ord. Onagracea

Robust growing plants of diverse character, which produce their bright yellow *Eschscholtzia*-like blossoms during the entire summer. Its popular name is derived from the fact that the flowers close toward evening and fresh ones open the next morning.

9098. — *Fruticosa*. Covered with rich, golden yellow flowers from June till September. A very showy border plant; 2 feet.....Pkt. \$.10
 9100.—*Missouriensis*. Large, handsome yellow flowers are produced singly on long, trailing stems through the entire season. In the autumn the foliage takes on a red tint. Splendid for rockeries or borders; loves sun and heat. Space, 1 foot.....Pkt. \$.10
 9102. — *Youngii*. A bushy plant, growing 2 feet high, and producing its flowers in such abundance that the foliage is entirely hidden by it; color a deep golden yellow; flowering season from June till September; space, 18 inches. Flowers abundantly under pine trees.....Pkt. \$.25

Heatherhome Seeds Guaranteed to Grow

Heatherhome Pansies

Professional growers recognize the Pansy as a biennial only, and cultivate it from that standpoint alone, sowing the seeds in frames during July and wintering the young plants in the same frames with sashes as protection.

Such plants are ready to bloom the following April, and will continue to bloom all season.

Pansies are flowers in which quality tells all, and to produce seeds of quality means a great deal more than the average layman appreciates. It takes years to develop a perfect strain and unusual vigilance to keep it so. There is no finer quality of Pansies in existence than we are offering and we defy competition.

Pansies delight in semi-shaded, cool locations, and they must be kept supplied with moisture during the hot months of the year.

PANSY "HEATHERHOME'S PRIDE"

If you wish to enjoy Pansies of infinite perfection in form, coloring and size, we offer you under the above title the choicest product of the universe. We take no liberties with adjectives, but know of no expression more fitting for the grandeur of this magnificent strain. Every flower is a gem; every plant a picture to behold. It is a blending of every imaginable color and combination of color.

 3505. —**Mme. Perret.** Robust plants, with gigantic flowers in rich red or wine colors Pkt., \$.25; large pkt., \$.50
 3510. —**Masterpiece.** Healthy, robust plants producing gigantic flowers on extra long stem, which have elegantly waved and curled petals, giving the flower a distinctly refined appearance. All shades. Pkt., \$.25; large pkt., \$.50

LARGE FLOWERED BEDDING PANSIES

By using Pansies in separate colors, planting one color in a spot, splendid and ideal effects are created in the garden. Long, narrow borders planted with one color are much handsomer than if assortments are used. The Pansies offered under this heading are specially selected for this purpose, are very free-blooming and come as nearly true to color from seed as human power can control.

Novelty (Summer 1916)

3502. PANSY HEATHERHOME'S MAJESTIC GIANTS

Offered Now for the Second Time

When we introduced "Heatherhome's Pride Pansies," we were sure of offering to the public the best in the world, and we are still of that opinion but when the writer came to an American grower of late and saw there the most glorious sight of a bed of majestic pansies he had ever seen before, he could not but realize that here was a jewel amongst flowers.

Of course we lost no time in securing seeds—though we had to pay a fabulous sum for them—and we are rather proud of having stolen another march on our competitors in this transaction, and linked our name once more with a flower which has no superior.

We do not want to say that "Heatherhome's Pride" is an inferior for that reason; on the contrary, we feel it has lost some of its value because the present introduction is in a class by itself.

We claim for our novelty that the robust plants produce the most gigantic flowers ever seen on pansies, and that the colors are unusual and much varied, and that the flowers are carried erect on much longer stems than usual, so that they are a much better cut flower.

For exhibition purposes we guarantee it has no equal. We guarantee our seeds to be fresh, and as they are hand-picked and re-selected every seed ought to account for a plant.

Pkt. (containing 50 seeds).....	\$.50
Pkt. (containing 125 seeds).....	1.00
Pkt. (containing 300 seeds).....	2.00

PANSY—SCOTCH VIOLA

The result of crossing the large flowered Bedding Pansy with the finest of Tufted Pansies. The hybridizers thus have produced the freest blooming strain of all with flowers much larger than the tufted Pansies, and on plants that will remain permanent, as they are perfectly hardy. The flowers are borne on extra long stem, adapting themselves to cut flower purposes. The culture of these is the same as of the regular Pansy.

PENTSTEMON

Nat. Ord. Scrophulariaceae

Extremely showy, which rapidly increase; seedling plants attain their full size in one year.

9105. —*Digitalis*. From the center of a robust smooth foliage appear several slender flower-spikes, which are dressed with large tubular-shaped flowers of white overlaid purple; during June and July. Height, 2 feet.

Pkt.. \$.10

9106. —*Barbatus Torreyi*. The slender flower-stems often attain a height of 3 feet and show in July great masses of narrow, long tubes of coral scarlet properly distributed along the whole stem; very effective.

Pkt.. \$.15

Please Order by Number Only

PHYSOSTEGIA VIRGINICA (FALSE DRAGON HEAD)

Nat. Ord. Lablatae

A plant much valued because of its being at its best during August, a month which gives us few choice perennials in bloom. It is of easiest possible growth and increases rapidly. When it becomes too unwieldy it is best lifted and separated. This work should be done in the early spring. As a bold decoration in the border, or for effect near watersides, it has few equals. From the spreading roots appear numerous smooth, straight, fairly stout spikes, which grow to a height of 4 feet, of which fully a third is the flowering part. The tubed flowers in endless quantity sit close to and encircle the stem. They face upward, and have an opening like a Snapdragon; the buds face in the four directions of the compass, and thereby give the spike a squared appearance. They are not only extremely effective, when properly arranged in the border, but make splendid material when cut. In some localities *Physostegia* has been given the popular name, "Mexican Heath." Allow 2 feet of space for each plant.

9110. —PinkPkt., \$.10
 §9120. —WhitePkt.. .20
 §9125. —*Gigantea Rosea* (New). This variety is a giant compared to the usual kindsPkt., \$.25

PHLOX DECUSSATA (HARDY PHLOX)

While *Phlox* can readily be grown from seed, we do not offer them nor recommend them, as the result is so unsatisfactory. No matter how carefully the seed may be selected from beautiful named varieties, the result will be that not one plant will reproduce its parent, but that the largest majority will be plants which have flowers of the undesirable magenta shade.

PLATYCODON (BALLOON OR JAPANESE BELLEFLOWER)

Nat. Ord. Campanulacea

In many books they are offered either as *Campanula* or *Wahlenbergia*. A very hardy plant, succeeding in all kinds of soil and location. The tuberous roots produce a cluster of handsome foliage, from which arise several slender flower-shoots, which, when unsupported, have the habit of bending to the ground and rising again, so that, to be neat in appearance the plants should have a slight support. From the upper part of these slender stems appear the interestingly formed flowers in July, and from that time on they grace the plant uninterruptedly for nearly eight weeks. The buds, just previous to opening, have all the appearance of an inflated balloon, while, when open, they are of a cup-shape and star formation. Space, 1 foot.

9130. —*Grandiflorum*. Deep blue.....Pkt., \$.15
 §9135. —*Album*. Pure white.....Pkt.. .15
 §9137. —*Mariesi*. Deep blue, nearly 3 inches across; plants 1 foot high.

POLEMONIUM (JACOB'S LADDER)

Nat. Ord. Polemoniaceae

Dwarf plants, well furnished with loped foliage from whose center rise numerous fleshy flower-spikes 18 inches tall, dressed with flowers similar to sage. Flowering season, June to August.

9138. —*Coeruleum* (Greek Valerian). Numerous spikes of beautiful sky blue flowers with golden anthers; elegant bushy habit.....Pkt., \$.25
- §9139. —*Album*. White flowersPkt., .25

ICELAND POPPIES (PAPAVER NUDICAULE)

Nat. Ord. Papaveracea

Splendid little blooms, which in the very early spring brighten the landscape with their delightful delicate blooms. Ideal for the rock garden or on the edges of borders. From a tuft of light green fern-like foliage arise in profusion slender, leafless stems, 1 foot in height, each graced with a charming cup-shaped flower. Space, 9 inches.

Seeds should be sown in a frame, transplanted into another frame, and here they should winter the first season, and they should not be set out in their permanent quarters until the springtime.

- §9140. —WhitePkt., \$.10
- §9145. —Bright YellowPkt., .10
- §9150. —Orange ScarletPkt., .10
9152. —*Pearls of Dawn*. A most lovely new strain of Iceland Poppies producing many crinkled flowers of delicate and bright shades of pink with orange or salmon glow, salmon shaded bluish, orange shaded cream, rose shaded pink, etc., hardy, biennial height 1 ft. These beautiful Poppies will be highly prized both for garden decorating and cutting.

9155. —All Shades Blended.....Pkt. \$.10

POPPY BRACTEATUM

9160. —*Bracteatum*. A giant Poppy resembling the Oriental Poppy in foliage and size, but having flowers of a clear, bright scarlet with a black base.
Pkt. \$.10

PYRETHRUM ROSEUM (COLORED DAISY)

Nat. Ord. Compositae

Often called the colored Daisy, for the flower is exactly like a Daisy. From a dense tuft (18 inches in diameter), of fern-like foliage arise in June, a great quantity of round pencil-like flower-stems, 2 feet high, which bear a very large Daisy-like flower, in such shades as delicate pink, bright pink, flesh pink, pure white and crimson. One of the showy perennials in June and excellent for cutting. Space, 18 inches.

9180. —Single. All colors.....Pkt., \$.15
- Heatherhome Seeds Guaranteed to Grow*

HEATHERHOME'S ORIENTAL POPPIES

These kingly flowers surpass in splendor all other flowers, and for a gorgeous display they rival the finest of Darwin Tulips. When they appear in May they reign supreme in the garden and it is a great pity that they pass so soon. Masses of them form the most spectacular display ever created in a garden. When the golden Alyssum or the white Phlox subulata is used as a carpet, over which these gorgeously colored giant Poppies wave with the spring zephyrs, no artist could conceive of a more beautiful combination of flowers. Everything connected with the Oriental Poppy speaks of strength and majestic appearance—the magnificent foliage, the sturdy massive flower-stem, the monstrous flower-cup, the immense seed-pods, all have a beauty of their own. These Poppies, for their best success, require a sunny situation with a good, rich loam. After their flowering season in May the plant goes to rest, frequently loses its foliage during the summer months, but re-appears in the fall. A slight protection of stable litter during the winter will help to carry it through severe weather. It is an easy matter to keep the plants once they are established, but the average gardener seems to find difficulties in establishing them, and on investigating we find that the failure is due entirely to the fact that field-grown plants are used at the wrong time of the year.

For this reason, we suggest potting up seedlings and plunging them in a frame, where they should be wintered. Allow one foot space for each plant.

Seeds of Perennials

RUDBECKIA (CONEFLOWER)

Nat. Ord. Compositae

9185. —*Newmanni*. Stiff, wiry stems rise 3 feet high from a cluster of robust, solid foliage and bear, from July till October, bright, golden-yellow single flowers, which have a conspicuous purple cone in the center. The flowers resemble an ox-eye Daisy. Splendid for cutting or garden effect. Space, 1 foot.....Pkt.. \$.10
9190. —*Purpurea* (Coneflower). A very impressive flower, which creates a bold effect in the border. From a large cluster of massive, solid leaves appear several very stout straight spikes, which rise to a height of 4 feet, and are topped with a giant flower, about 6 inches across, composed of long Daisy-like petals of antique purplish-rose color, which hang downward, exposing to full view an immense cone of brown. The flower gradually fades to a more antique shade, but will remain on the plant from July until the end. The color of the flower is of an artistic shade often noticed in tapestries. Space, 18 inches.....Pkt.. \$.15

SALVIA (HARDY SAGE)

Nat. Ord. Labiatae

The family of Hardy Salvia is one of many different forms and types, but all are extremely effective and desirable, as some are in shades of blue which can hardly be found in any other flower. They are easily grown from seed, and are perfectly hardy.

9192. —*Pratensis* (New). Plant is quite distinct and shows a robust growth spreading fully 18 inches. Its flower-stems attain a height of 2 feet and bear long tubes in claret from July until September.....Pkt.. \$.50
9195. —*Azurea Grandiflora*. A spectacular showy plant that is at its best during July and August, just when good perennials are scarce. From a tuft of silvery-gray velvety foliage arise several wiry, straight flower-stems, 3 feet high, of which nearly one-half constitutes the flowering part, a solid spike of sky-blue Salvia-like blossom. A large group of them is the richest possible decoration. Space, 1 foot.....Pkt.. \$.25
9197. —*Sclarea* (New). A most attractive novelty. A stout, fleshy stem branches tree-like near the base, and is dressed with large, handsome foliage. Along the side-shoots are risps of Salvia-like flowers, of a pale purple with a white lower lip. It is striking in appearance and will arrest everyone's attention. The flowers appear in June or July, and the plant attains a height of 3 feet.....Pkt.. \$.50
9198. —*Turkestanica*. One of the most ornamental plants. The enormous leaves are of a light green, with a variegation of white near their margin. The plant is of pyramid form, about 3 feet high, and terminates in a large flowerhead of pure white.....Pkt.. \$.50

SCUTELLARIA (HELMET FLOWER, SCULLCAP)

Nat. Ord. Labiatae

9220. —*Baicalensis*. This perennial, freely blooming during the summer months, strikes every one by its beautiful sky-blue flowers, which are borne on unilateral compact spikes.....Pkt.. \$.25

SCABIOSA (MOURNING BRIDE) (PINCUSHION FLOWER)

Nat. Ord. Dispacea

From a cluster of well-formed foliage, which remains close to the ground, appear numerous straight leafless flower-stalks, 18 inches of which is crowned with a large saucer-shaped flower, composed of an outer row of gracefully fringed petals and a center composed of fluted filaments, of which some are unopened, creating a very artistic effect. The flowers appear in succession from June till September. Excellent for the foreground of borders. Space, 10 inches.

- §9200. —Caucasica. LavenderPkt.. \$.15
 §9210. —Alba. WhitePkt.. .25
 §9215. —Japonica Strong growing plant, with flower-spikes 2 feet tall and fringed flowersPkt. \$.25

STATICE (SEA LAVENDER)

Nat. Ord. Plumbaginaea

One of the interesting perennials. The broad, leathery, oblong leaves form a perfect rosette on the ground, and from the center spring several woody, well-branched flower-spikes, which produce broad heads, composed of tiny flowers. The entire effect of the plant in bloom is as if a misty cloud appeared above it. When cut and dried these flowers can be kept in attractive condition for months. In the fall the leaves turn a reddish brown, giving the autumn tints to the hardy border.

9225. —Latifolia. Immense heads (2 feet across) of deep blue flowers. Pkt.. \$.10
 9230. —Caspia (New). Flowers of a tender lavender.....Pkt.. .25

STOKESIA (CORNFLOWER ASTER)

Nat. Ord. Compositae

A beautiful native plant; grows from 18 to 24 inches high, bearing freely from June till October its handsome Cornflower-like blossoms, which measure from 4 to 5 inches across. It is of the easiest culture, succeeding in any open, sunny position, and not only is it desirable as a single plant in the hardy border, but it can also be used with fine effect in masses or beds of any size. Space, 1 foot.

9235. —Cyanea Bright bluePkt.. \$.15
 9240. —Alba. Pure whitePkt.. .25
 9242.— New Hybrids (Cornflower Aster). An American novelty offered now for the first time. The seed has been gathered from a novelty which even now is not on the market, and of which not a single plant has left the originator, namely a delicate pink; the seeds reproduce themselves only in a certain percentage, but in addition will be found purple, crimson, white, etc.; all desirably new shades for which a great demand must naturally be manifested as soon as plants can be offered. All colors.Pkt.. \$.50

Sow Perennials from Now to July 15th

Knight & Struck Company,

Seeds of Perennials

THERMOPSIS

Nat. Ord. Leguminosae

Its name is derived from "Thermos," a Lupine, and "Opsis," resemblance. The entire plant resembles a light yellow Lupin with more robust foliage. It grows fully 3 feet high and flowers in June.

9275. — *Caroliniana*. Plant and spikes resemble Lupins, but flowers are of a clear yellow color; June and July. Height, 2½ feet.....Pkt. \$.15

TRADSCANTIA

From the center of plant, which in appearance resembles the "Hemerocallis," appear in July stout flower-stems 18 inches high, with clusters of bright blue cup-shaped flowers, showing upward, while the remaining buds hang like tears dropping downward.

9277. — *Virginica*. BluePkt. \$.10

VALERIAN (GARDEN HELIOTROPE)

Nat. Ord. Valerianae

The flowers, which resemble Heliotrope, in form and fragrance, are borne on tall spikes during June and July.

9280. — *Bubra*. Showy flowers of a reddish hue.....Pkt. \$.10
§9285. — *Alba*. Pure white flowersPkt. .10

VERONICA (SPEEDWELL)

Nat. Ord. Scrophulanacea

A splendid class of plants, which gives us some of our most useful material for the hardy border, and, as it is rich in shades of blue, it supplies us with a rare color. All Veronicas succeed in every possible location, are perfectly hardy and readily increase. Space, 1 foot.

9290. — *Amethystina*. Composed of beautiful, small, light green foliage, the plant forms a perfect globe, which about the end of May, is covered with small rips of sky-blue flowers. The whole plant is hidden by the mass of blooms and produces an effect which we cannot compare with any other flower. We strongly recommend this as one of the choicest perennials. Height, 15 inches.....Pkt. \$.25

Popular Names of Hardy Flowers

So many of the amateurs know only the popular names of their flowers, and therefore find it difficult to recognize their friends under the disguise of botanical names.

We had intended at first to take the radical departure of offering in this book all flowers by their popular names, but we might thereby injure our own interests and by way of compromise we offer herewith a list of the popular names, with their botanical names attached for ready reference.

A

Adams Needle—Yucca.
Alkanet—Achusa.
Alum Root—Heuchera.
American Senna—Cassia.
Aster (Cornflower)—Stokesia.
Avens—Geum.

B

Baby's Breath—Gypsophila.
Balloon Flower—Platycodon.
Bane (Leopards)—Doronicum.
Bayonet (Spanish)—Yucca.
Beard Tongue—Pentstemon.
Bear's Breech—Acanthus.
Bell (Canterbury)—Camp. media.
Bell (Chimney)—Camp. pyramidalis.
Bell (Hare)—Camp. Carpathica.
Bell (Peach)—Camp. persicifolia.
Bellflower—Campanula.
Bellflower (Japanese)—Platycodon.
Betony (Wood)—Betonica.
Bishop's Wort—Betonica.
Blanket Flower—Gaillardia.
Blazing Star—Liatris.
Blue Bells—Campanula.
Burning Bush—Dictamnus.
Butterfly (Waving)—Gaura.
Butterfly Weed—Asclepias.
Button Snake Root—Liatris.

C

Candytuft—Iberis.
Canterbury Bell—Campanula media.
Cardinal Flower—Lobelia.
Carpathian Hair Bell—Campanula Carpathica.
Chamomile (Ox Eye)—Anthemis.

C

Chamomile (False)—Boltonia.
Chimney Bell—Campanula pyramidalis.
Cliffrose—Armeria.
Columbine—Aquilegia.
Coneflower—Rudbeckia.
Coreopsis—Calliopsis.
Cornflower Aster—Stokesia.
Cornflower—Centaurea.
Cress (Rock)—Arabis.
Cuckoo Flower—Lychnis.
Cup and Saucer—Campanula calycanthema.

D

Daisy (Colored)—Pyrethrum.
Daisy (Cream)—Anthemis.
Daisy (English)—Bellis.
Daisy (Golden)—Anthemis.
Daisy (Michaelmas)—Aster.
Daisy (Orange)—Erigeron.
Daisy (Shasta)—Chrysanthemum Maximum.
Devil's Pit—Liatris.
Dittany—Dictamnus.
Dragoon Head (False)—I'sysostegia.

E

English Daisy—Bellis.
Evening Primrose—Oenothera.

F

False Chamomile—Boltonia.
False Dragon Head—Physostegia.
False Indigo—Baptisia.
False Star Wort—Boltonia.
Fennel (Giant)—Fenula.
Flax—Linum.

My blossoms of lilies and pansies

Pale heliotrope, rosemary, rue,

All lull me with delicate fancies

As shy as the dawn and the dew.

—Helen Hay Whitney.

SEEDS OF PLANTS

WHICH REQUIRE

GREENHOUSE CULTURE

EXCLUSIVELY

To be Sown during Midsummer

We guarantee our seeds to be absolutely fresh, to be strong in germination, to be true to their specie, to be of superior quality, and to approach the description presented in this book.

Should our seeds fail to germinate, or be not true to their specie, we either replace free of charge, or refund the original amount paid for same.

But, we do not and cannot guarantee that seeds of a specie offered in certain colors will come true to the color designated, for it is beyond human power to produce such seeds.

Knight & Struck Company,

Seeds of Greenhouse Plants

Seeds of Plants

Which can Only Be Successfully Reared With the Aid of a Hothouse

If this book contained no other feature than placing flowers of this class by themselves as a precaution to amateurs, it would have accomplished an immense amount of good, for we know that amateurs often select these plants expecting them to grow in gardens, and, in consequence, "disappointment" is the result.

Please Note

The following selection of flowers is only of value to you if you are the fortunate possessor of a Conservatory or Hothouse.

As these plants are usually raised by skilled gardeners, we omit from this chapter our usual suggestions as to culture.

Complete List of Sorts

We want to assure the gardening fraternity that we spare neither time nor money to enable us to offer strains of indisputably superior merits. Any one who will try our seeds will find the above statement fully verified.

We realize the importance of quality with particularly the class of plants offered here and we have given every possible consideration to the selection of most desirable strains, as well as sources of unquestioned reliability. We shall devote in the future several greenhouses to the purpose of growing our own seeds to further insure our patrons selected strains, which we can control under our own supervision.

AMARYLLIS "HEATHERHOME'S STRAIN"

§9400. — The seed has been saved from one of the finest English collections, and, of course, from prize flowers only.....Pkt., \$.50

WINTER FLOWERING ANTIRRHINIUMS (SNAPDRAGON)

Seeds of Greenhouse Plants

ASPARAGUS

9475. — **Plumosus Nanus.** We supply greenhouse-grown seeds only, and such as are cropped in January to guarantee strong germination of seeds100 seeds, \$1.00; pkt., \$.25
9485. — **Sprengeri.** The well-known drooping variety, used for decorative purposes as well as cutting.....100 seeds, \$.35; pkt., \$.15

CALCEOLARIA

9500. — **"Heatherhome" Strain.** A superb strain, which we can recommend with utmost confidence to be the finest strain for exhibition.
Pkt., \$.50; large pkt., \$1.00
9510. — **Veitchi.** This remarkable Calceolaria is not only an absolutely new hybrid, but an extraordinary departure from the conventional colors of greenhouse Calceolarias, being milk-white in color. This remarkable hybrid was obtained by crossing a species—*Calceolaria alba*—with a new form and practically an Albino of golden glory. It has a strong habit of growth, with healthy, strong, lance-shaped shining serrated foliage. It bears an abundance of bloom on plants, which grow to a height of about 3 feet and are quite bushy.....Pkt., \$1.00

CAMELLIA JAPONICA (DOUBLE)

9525. — — The seed has been saved from the finest flowers of a prize collection in Europe. It will surely prove a revelation to the patient gardener.
Pkt. \$.50

CARNATION AMERICAN HYBRIDS

9550. — — — We have been able to induce a renowned grower to spare us seeds of his own best fertilized flowers, and we are, therefore, certain to be able to offer seeds which must produce results.
Pkt., (50 seeds), \$1.00

"Heatherhome" Cinerarias

Most gardeners whom we have met in the past have complained of the declining perfection of strains of this flower, and we are therefore doubly proud of being able to offer a strain which we know is the acme of perfection, for the grower is one of the most painstaking men, who realizes the importance of pure, perfect strains. In former years he furnished seeds to a few intimate friends, but allows us now a limited quantity for general distribution.

99825. — — A quick-growing plant, with fern-like leaves.
Pkt., \$.15; large pkt., \$.30

LARKSPUR

The Annual Larkspurs are elegant flowers when grown in greenhouses during the winter, and we refer to annuals for a selection.

LEPTOSYNE STILLMANNI

99850. — — Though this is an annual, it is used extensively for flowering in conservatories during the winter. The plant resembles a dwarf Cosmos in growth, foliage and form of flower. The blooms, which can be cut on stems 18 inches long, and which are of a most pleasing yellow, are borne in boundless profusion during the entire winter.
Pkt., \$.15; large pkt., \$.50

MIGNONETTE WINTER KING

99875. — — — We offer what we consider the finest forcing Mignonette in existence. A real monarch when compared to the usual winter Mignonette. The truly majestic spikes are brightly colored, and of a most delightful fragrance. Original stock seed selected from the finest spikes is the only seed we furnish.....Pkt., \$.50; large pkt., \$1.00

MUSA

99880. — Enseta (Abyssinian Banana). Used extensively for tropical bedding or specimen plant on the lawn. We have classed it under this heading, as to germinate the seed we require hothouse temperature and surroundingPkt., (8 seeds), \$.25; (50 seeds). \$1.00

Heatherhome Seeds Guaranteed to Grow

Seeds of Greenhouse Plants

WINTER-FLOWERING POT MYOSOTIS

This is a strain which should be used for one purpose only, namely, to produce flowering pot plants in winter. It is a most distinct strain, having massive, broad, glossy-green, leathery leaves which form almost a complete rosette. The flowers are individually much larger than the outdoor variety and are borne on fleshy, stout stems which hold them far above the foliage. In full bloom they are the most exquisite pot plant the writer has ever seen. Every conservatory should include this in a collection of flowering plants. Sow seeds early in June.

9892. — **Star of Love.** Clear, deep sky blue.....Pkt., .25
 9095. — **Dissitiflora Perfection.** We have offered this variety also as a perennial; being a rich, deep blue and well suited for the purpose described abovePkt., \$.25
 9895. — **Hybrida Argentina.** The first sub-variety obtained from the excellent Myosotis Ruth Fischer, which has acquired undisputed pre-eminence as the best and largest flowering Forget-me-not for winter forcing in pots at present on the market. Dwarf and compact in habit, the robust, dark green foliage of this new variety is freely bespangled with a multitude of shining white blossoms of over ½ inch across, such as are not to be found in this size and perfection in any other Forget-me-notPkt., \$.50

"Heatherhome's" Guaranteed Seeds

Seeds of Greenhouse Plants

PRIMULA KEWENSIS

9982. — Flowers appear in whorls of bright yellow; very decorative, and effective when in full bloom.....Pkt., \$.50; large pkt., \$1.00

PRIMULA MALACOIDES

9985. — Of very recent introduction, having become instantly popular on account of their freeness of bloom, delightful fragrance and their ability to remain in bloom for fully five months. In appearance it is a glorified Baby Primrose with much larger blossoms and foliage, but the same color of flowers.....Pkt., \$.50; large pkt., \$1.00
 9987. — Alba. Pure white flowers.....Pkt., .50; large pkt., 1.00
 9988. — Rosea. Pink flowers.....Pkt., .50; large pkt., 1.00
 9989. — Superba. A new and improved variety, flowers larger and much deeper in color than the old "Malacoides." The color is deep, rosy pink, a great improvement. The habit of the plant is also better than that of the old varietyPkt., \$.50

SMILAX

9990. — The well-known greenhouse trailer, used so extensively for decoratingPkt., \$.10

SCHIZANTHUS WISETONENSIS

9992. — Perfection. The most perfected strain of this popular winter-flowering plant. We recommend this with every confidence of pleasing the most critical gardener.....Pkt., \$.50; large pkt., \$1.00
 9995. — Bridal Veil. From the charming hybrids of Schizanthus Wisetonensis, the originator says, I have selected a pure white variety and succeeded in making it come true from seed. About 16 inches in height, the compactly formed bushes are literally covered with round, glistening, snowy white blossoms, which present a striking contrast to the bright fresh green of the finely lacinated foliage. As a pot plant this beautiful new Schizanthus cannot be overestimated. And everybody will be pleased with its handsome and graceful appearance when in full flowerPkt., \$.50

TRACHAELEUM COERULEUM

9997. — A most graceful candelabra-shaped plant, growing fully 4 feet high and spreading about 30 inches. Each side-shoot terminates in a flat corymb of pale blue flowers. (R Hortense Violet).....Pkt., \$1.00
 9998. — WhitePkt., \$1.00

The "Yarrowa" Sweet Pea

When Mr. Zvolanek discovered the first winter-flowering strain, the same thing occurred with a grower in Australia, and it seems that the Sweet Pea there has made the same progress as it has here.

What Mr. Zvolanek calls the "Orchtd" type is known in Australia as the "Yarrowa," but we think it is somewhat larger and a little more wavy.

910130. Yarrowa. Blush Pink.....Pkt. (25 seeds), \$.50
 10132. White Yarrowa. The best pure white.....Pkt. (15 seeds), .50

Please Order by Number Only

Sweet Pea Rose Queen

A Spencer variety originated in the West, and which has proven very valuable. Color deep rose, enormous in size.

§10035. — —Pkt. (10 seeds). \$.50

We devote acres of ground and houses upon houses to the growing of Heather and Acacias, as well as other hard-wooded plants for the lover of rare flowers for the conservatory. Come and visit us and acquaint yourselves with your friends of old.

New Early Flowering

LONG SEASON SPENCERS

10160. **Early Morning Star.** The color is a deep orange scarlet or flame color in standard with rich orange pink wings. The flower is practically the same color as "Thomas Stevenson." It does not burn badly out in the open and under glass will be magnificent. The flowers are large and of best Spencer form and borne in threes and fours in wonderful profusionPkt. (15 seeds). \$.50
10165. **Early Song Bird.** The flower is the same color as "Florence Morse Spencer" and "Lady Evelyn Eyre" and a bit lighter than "Elfrida Pearson." It has the same excellent form and features of "Mrs. Hugh Dickson," but is on white ground. The placement of the flowers is splendid for packing, and the flowers are borne on long stems in threes and fours. When in full growth it seems as though every stem carried four large blossoms.....Pkt. (25 seeds). \$.50
10170. **Early Melody.** This is a deeper shade of pink than "Early Song Bird" on white ground closely resembling "Countess Spencer," and near "Hercules." It might be described as rose pink on white ground. The effect when bunched is most pleasing. It is very floriferous. The flowers are borne on long stems, and mostly four large well-waved blossoms to each stem. This is sure to be a great favorite.
Pkt. (25 seeds). \$.50
10175. **Early Spring Maid.** Those who are familiar with "Mrs. Hugh Dickson" will have a good idea of what a handsome variety this is. The color is light pink on a cream ground and the blossoms have the same splendid characteristics of "Mrs. Hugh Dickson." It is a most effective flower, and like our Early Flowering Spencers it carries a great wealth of blossoms borne in fours on long stems. There is no Early Spencer cream pink which is as attractive as "Early Spring Maid."
Pkt. (25 seeds). \$.50
10180. **Early Snowflake.** This is the best Early Flowering White Seeded Spencer we have seen. The blossoms are very large and of the best waved Spencer form. The flowers are borne in wonderful profusion on long stems.....Pkt. (15 seeds). \$.50

Winter Flowering Sweet Peas

Since the advent of the Extra Early flowering type the Winter-Flowering Sweet Peas have made extraordinary strides fully equal to the outdoor Sweet Pea.

Mr. A. C. Zvolanek has made his name immortal by his introductions and subsequent improvements.

To have Sweet Peas in bloom by Christmas, seeds should be sown about August 15th; we sell fresh seeds only direct from the originator.

We do not believe in two qualities, and for this reason we offer the Orchid-flowering type exclusively.

Zvolanek's Orchid Flowering Type

Please know that you must expect certain percentage from each packet to be untrue.

GRASSES

**Never cease Sowing Lawn Grass
for lawns are never perfect**

Are you troubled with "Fall or Crabgrass" getting into your lawn during summer?

There is but one remedy to keep it out—namely—keep on sowing lawn grass in all thin spots so that the seeds of the weed can find no place to lodge.

"Heatherhome's" Guaranteed Seeds

The "Heatherhome" Lawn Grass

the most perfectly blended and the finest result-producing lawn grass seed ever offered for the benefit of American lawns.

The above mixture is intended for such lawns that enjoy free access of sun and light.

We depart from the usual method of other seedhouses and furnish our lawn grasses in measured bushels, because we know that the bushel by weight is a misleading factor.

In the blending of this mixture we want our patrons to know that we are using the highest quality grasses we can procure; every variety of grass has either been tested in the laboratories of Zurich, Switzerland, or by the U. S. Department of Agriculture in Washington, as to its purity and percentage of germination. That we are using absolutely clean grasses, without the least chaff, is easily manifested by the fact that a bushel of "Heatherhome" Lawn Grass weighs more than the heaviest mixture ever offered by any other seed-house in Europe or America.

On account of the heavy, clean seed used in our mixture, 2 bushels are sufficient to sow a new lawn of 1 acre.

One quart is sufficient to sow a lawn of 1000 square feet.

Our lawn-grass mixtures do not contain white clover, as this seed, being much heavier, does not mix well with the other grass seeds and is apt to appear in patches instead of being equally distributed in lawns.

For this reason it is best to procure white clover, if desired, separately and sow it alone after the regular grass seed has been sown.

We offer "Heatherhome Lawn Grass" as follows:

One quart, \$.50; peck, \$3.50; bushel, \$12.00; 2 and 4 quarts will be furnished at the peck rate; half-bushels will be furnished at the bushel rate.

It is not the cost per bushel you should consider, but your cost per acre.

On account of the disturbed conditions in the seed growing districts of Europe it has become necessary to advance the price of all Lawn Seeds.

The "Under Trees" Lawn Grass

This mixture is designed to produce lawns which are shaded either by trees or buildings, and those who have tried to make a perfect lawn under those conditions know the difficulty of obtaining grasses which will succeed there.

The grasses used for this mixture are the most expensive grasses procurable, and for this reason we are compelled to ask what may appear an enormously high price; but we believe that on account of its certainty to produce results any price is justified.

No grass will grow under pine trees or evergreens, and for the benefit of our patrons we would suggest the use of *Pachysandra* plants, which make a perfect carpet in these places and produce excellent effects.

One quart, \$.75; peck, \$3.50; bushel, \$14.00; 2 and 4 quarts will be furnished at the peck rate; half bushels will be furnished at the bushel rate.

WHITE CLOVER

As stated previously, we do not use white clover in our mixtures, as we believe it is much better to sow it separately when it is desired.

At all times clover should be used sparingly; 2 pounds is sufficient to cover an entire acre in connection with our mixtures.

Four ounces, \$.20; pound, \$.60.

Heatherhome Seeds Guaranteed to Grow

Lawn Grasses for Special Grounds, Such as Terraces, Tennis Courts, Golf Links, Etc.

To get the best results in such places it is necessary to know the locations, the kind of soil and other conditions to prepare an ideal blending for such.

We are prepared to offer suggestions and solicit inquiries.

We are in a position to furnish any and all separate grasses and will submit prices and samples on application.

Destroy Those Weeds!

Surely plantains, chickweeds and moss will mar the beauty of your lawn. You can sound the death-knell of these obnoxious pest growths by the use of "*Climax Lawn Sand*"—and they will not come up again, for they have what are known as fibre roots and once the top is killed the whole plant suffers a like fate. "*Climax Lawn Sand*" will not harm the grass; on the contrary, the very material with which you kill the weeds is utilized to make the grass grow better and greener at the same time.

Directions: Select a bright sunny day in June, July, August or September, when the prospects are for ten hours of fair weather, get busy about 9 A. M., after the dew has disappeared from the lawn, and dust the lawn sand fairly thick on patches of weeds or single specimens. Return to the lawn about 5 P. M. with a rake and the deadly result of the weed killer will be plainly visible. Foliage of the weeds will be coal black and can promptly be raked off. The powder which has fallen to the ground should be utilized as a fertilizer by watering the lawn thoroughly 24 hours after application. Where the sand has been applied fairly heavy, it may have a tendency to turn the grass yellow for a day or two, but will soon revive and look fresher than ever. It is not always possible to reach every weed with a single application, so that it may be necessary to repeat it several times, but the weeds mentioned once killed can never reappear from their own roots.

Sample tin (about 2 lbs.) 35c.; 3½ lb. tin, 60c.; 7 lbs., \$1.10; 14 lbs., \$1.75; 28 lbs., \$2.50; 56 lbs., \$4.50; 112 lbs., \$8.00; ton of 20 cwt., \$125.00.

The "Heatherhome" Practical Garden Label

(New—Indestructible)

To label our plants in the garden is as old as the hills, and it is absolutely necessary in order to receive that joy from gardening which is in it. To possess a flower without a name is only a quarter of the joy. Would we tolerate a lot of children in our home without knowing the names of each one? Of course not, and so should it be in our garden, because our flowers are the children of the garden.

There are a great many different kinds of labels in the market to-day, but we always felt that none of them was really practicable, and so we induced a manufacturer to make a label according to our suggestions.

The attached illustration will only convey an idea of the appearance, but its real value lies in the following facts:

1. It is made of **Special Waterproof Iron**, then galvanized and finally Japanned green so that it cannot rust and must last indefinitely.

2. The stem is of such thickness that it cannot bend unless special efforts are made in this direction. The length of the stem is 18 inches, part of which, of course, goes into the ground. The end is pointed so it enters the ground readily. The stem is neatly cleated to the plate and absolutely strong.

3. The top plate is of the same material as the stem and forms a frame to hold the label card.

4. The card is of celluloid, on which you can write the name with any ordinary soft lead pencil.

5. The card is protected by a cover of mica, which acts the same as glass, keeps rain out, and retains the label as new.

6. A little moisture can possibly enter on top, but this will quickly disappear by outlets at the base of the rim. Moisture can have no injurious effect on the labels. We can always supply extra cards and mica covers.

7. The mica cover is preferred to glass, for it does not break so readily and is absolutely waterproof.

Price for Heatherhome's Practical Garden Labels, complete.

No. 1—Size of writing space, $1\frac{1}{2} \times 2\frac{1}{2}$	Per dozen, \$3.30; per 100, \$20.00
Extra celluloid cards	Per dozen, .40; per 100, 3.00
Extra mica covers	Per dozen, .40; per 100, 3.00

We can furnish printed cards of any flower desired; these are printed to order.

Submit list of wants and we shall promptly quote prices.

"Heatherhome's" Guaranteed Seeds

Heatherhome's Insecticides

In the following list we offer a most critical selection, because we do not believe in offering more than one remedy for a certain evil, and we only offer that one, because we have found it superior to all others.

For this reason our offer is most distinct and of especial value to the amateur.

Aphine. The most effective remedy against the Aphis, commonly known as Green Lice, or Black Lice. They trouble Roses, Sweet Peas, Nasturtium, Chrysanthemum, etcQt., \$1.00; gal., \$2.50

Arsenate of Lead (Paste). Sure death to the Roseworm, Gypsy Moth, Coddling Moth or any leaf eating insects..Lb., \$.25; 5 lbs., \$1.00; 14, 28 and 56 lb. buckets, \$.15 per lb.; kegs of 100 lbs., \$.12 lb.; barrels, \$.10 lb.

Black Leaf No. 40. The only remedy against the Leaf Curl which attacks fruit trees and Snowball bushes, also excellent for the Chinch Bug on Dahlias.
½ lb. tin, \$1.00; 2 lbs., \$3.00

Carbo-Sul. An absolute preventative against rust on hollyhocks and snapdragons, and an excellent remedy for exterminating the White Fly.
Pt., \$1.00; qt., \$1.50; gal., \$4.00

Climax Lawn Sand. A remarkable weed killer in lawns without disturbing the grass. Sample tin (about 2 lbs.), \$.35; 3½ lb. tin, \$.60; 7 lbs., \$1.10; 14 lbs., \$1.75; 28 lbs., \$2.50; 56 lbs., \$4.50; 112 lbs., \$8.00; ton of 20 cwt., \$125.00.

Fungine. Excellent for preventing and remedying mildew on Roses and Phloxes, and blight and wilt on Larkspur, Stocks, Cornflowers and Asters.
Qt., \$1.00; gal., \$3.00

Herbicide. Just the right material to destroy undesirable growth in roads, pathways, etc.....Qt., \$1.00; ½ gal., \$1.50; gal., \$2.50; 5 gals., \$10.00

Pyrox. A combination of Bordeaux Mixture and Arsenate of Lead, therefore, the very best spray for fruit trees to produce clean fruit.
Lb., \$.30; 5 lbs., \$1.25; 10 lbs., \$2.00; 25 lbs., \$4.50; 100 lbs., \$15.00

Vermin. The great enemy of all soil insects, such as Cutworms, Eelworms, Margots, Wireworms, etc.....Qt., \$1.00; gal., \$3.00; 5 gal. keg., \$14.00

Prices on Above Insecticides Subject to Change Without Notice

Plant Foods

Correy's Sweet Pea Manure. The recognized superior fertilizer to produce the finest of Sweet Pea flowers...1 lb., \$.30; 2 lbs., \$.50; 5 lbs., \$1.00; 10 lbs., \$1.50; 25 lbs., \$2.50; 50 lbs., \$4.50; 100 lbs., \$8.00.

Clay's Fertilizer. An English preparation, which is recognized the world over as the greatest flower food ever known. Every professional gardener in America uses it. It will help you to make the most of your flowers and if you want to exhibit blooms this will help you to win the blue ribbon. While it may appear expensive, it is really the most economical plant food to use, requiring a very little only to each plant. Always apply it dry and sparingly, work it into the ground, and then wash it in. It is better to apply a little often than a lot at one time. To accommodate those who have only small gardens we induced the manufacturer to put it up in small containers...3 lbs., \$.75; 7 lbs., \$1.00; 14 lbs., \$1.50; 28 lbs., \$2.50; 56 lbs., \$4.50; 112 lbs., \$8.00.

Pulverized Sheep Manure. Nothing better for general use, even considered better than stable manure. May be spaded into the ground or applied as a top dressing. Use it liberally. Also excellent as a liquid food.
5 lbs., \$.50; 10 lbs., \$.75; 25 lbs., \$1.50; 100 lbs., \$4.00

Pure Ground Bone. Excellent for Roses, shrubs and Sweet Peas. Our quality is not usually sold...5 lbs., \$.50; 10 lbs., \$.75; 25 lbs., \$1.50; 100 lbs., \$4.00

Nitrate of Soda. A most powerful stimulant and must be judiciously applied. Use it in very small doses, dry only to the soil; an overdose kills.
1 lb., \$.15; 5 lbs., \$.60; 10 lbs., \$1.00; 100 lbs., \$8.00

Heatherhome Prepared Fibre,
Per quart, \$.20; 4 quarts, \$.60; peck, \$1.00; bushel, \$3.00
Potting Soil.....Per bushel, 1.00
Orchid Peat.....Per bag, 2.00
Sphagnum Moss.....Per barrel, 2.50

Erado. A new and simple instrument used with gasoline for exterminating weeds in the lawns and walks. This instrument holds about a pint of gasoline and by simply pressing gently from the top enough of gasoline will then be injected into the weed to kill same immediately.....Price, \$1.50

Celluloid Labels (Cooper's Antifungus)

They never decay; are neat, clean, and everlasting; therefore cheap; can be sent by mail.

	Per 100		Per 100
4 inches	\$1.50	Oval, small	\$1.25
6 inches	2.50	Oval, large	2.25
4½ inches, hanging.....	2.00	Spade	2.50

The Auto Sprayer

Of all the sprayers which are offered to-day and which are for practical garden use, this one stands pre-eminently at the head of the list.

It is designed for the amateur gardener, available in handy sizes, and really is more serviceable than any other. We offer it in two distinct forms.

Whenever spraying is required just on a few plants at the time, the Auto Hand Sprayer will, no doubt, fill the bill (see illustration).

Auto Hand Sprayer No. 37

No. 37C. Holding one quart; tin pump, brass tank. The pump cylinder is replated and non-corrosive. This is a continuous sprayer and requires the least amount of exertion.....Each, \$2.00

No. 37E. Holding one-half gallon; tin pump, brass tank.....Each, 2.50
For extensive use we recommend

The Auto Sprayer No. 1

The standard of all compressed-air sprayers; made out of heavy brass with a tank of 4 gallons capacity. Weight, empty, 9 pounds; weight, filled, 37 pounds; height, 2 feet. It is equipped with a carrying strap, so it can be thrown over the shoulder; a fine spray nozzle, solid stream cap and either stop-cock or auto-pop nozzle. Two or, at most, three pumpings will discharge the contents of the tank under high pressure. After pumping, simply direct the spray.

No. 1A. Brass, equipped with hose and regular nozzle\$3.00

No. 1B. Brass, equipped with hose and "Auto-pop" attachment. This attachment controls the flow instantly by pressure of the hand\$3.50

Brass 90 degree elbow to enable to spray the underside of leaves.....\$.50

Bamboo brass lined extension, 9 feet, with stop-cock\$4.00

Bamboo brass lined extension, up to 20 feet, with stop-cock\$6.00

We warrant the Auto Sprayer No. 1 to be perfect mechanically and to give satisfaction in every case, and will refund the purchase price to any dissatisfied customer within ten days after the receipt of the machine.

Orders Must be Received by July 1st

PRACTICAL BOOKS FOR THE GARDENER

THIS LIST contains standard practical books. They answer questions that occur every day. They tell what to do. They are written for the specific use of the gardener, amateur or professional, furnishing the latest and most authoritative information on every phase of agricultural or horticultural work, on a large or small scale. Any book will be sent prepaid on receipt of price.

GARDENING-MANUAL OF GARDENING

New and Revised Edition

By L. H. BAILEY

A practical guide to the making of home grounds and the growing of flowers, fruit, and vegetables for home use. It is written from the point of view of the homemaker whose interest in gardening is hampered by lack of explicit directions and experienced advice. Illustrated, \$2.00.

FARM AND GARDEN RULE BOOK

A Manual of Ready Rules and Reference

By L. H. BAILEY

A conveniently small cyclopedia of rules and condensed information on all subjects of importance to the farmer in his daily work. It is a book to consult on every farm or garden operation. Illustrated, \$2.00.

PLANT BREEDING

Fourth Edition

By L. H. BAILEY

The farmer or gardener who is interested in breeding special varieties of plants must begin by a thorough understanding of the theory and principles of vegetable evolution. This book furnishes the information. It gives in compact form the philosophy of variation, crossing and in-breeding, and practical directions for pollination. Illustrated, \$2.00.

THE SPRAYING OF PLANTS

By E. G. LODEMAN

This book gives full directions regarding materials and formulas of spraying, with descriptions of spraying apparatus and directions for handling. Each fruit and flowering plant is discussed individually; the insects and fungi which prey upon it are described, and the most approved methods of control and prevention given. There is also a chapter on the law regarding spraying with poisons. \$1.25.

PRACTICAL BOOKS FOR THE GARDENER

MY GROWING GARDEN

By J. HORACE MCFARLAND

A book filled with suggestions and practical advice. The history follows through the cycle of the year, devoting a chapter to each month's changes in the growing garden. Remarkable photographic illustrations by the author. "One of the most delightful garden books of the year. . . . Altogether unique. The garden is truly a home garden, an intimate part of the author's life."—*Countryside Magazine*. Color illustrations, \$2.00.

GARDEN-MAKING

Suggestions for Utilizing the Home Grounds

Sixth Edition

By L. H. BAILEY

"Every family can have a garden." The opening sentence of the book dictates its purpose. It is filled with information on tools and equipment, setting out, and care of flowers, fruits, and vegetables, keeping constantly in mind the needs of the garden of limited space. Illustrated, \$1.50.

THE PRACTICAL FLOWER GARDEN

By HELENA RUTHERFORD ELY

Half the charm of Mrs. Ely's work lies in the fact that she writes from her own experience. It is always her own garden she describes—and a wonderful garden it is, too—and with a sure and ready pen she makes the reader see it in all its glory. With 8 plates in color and many other illustrations, \$2.00.

A WOMAN'S HARDY GARDEN

By HELENA RUTHERFORD ELY

"Mrs. Ely gives copious details of the cost of plants, the exact dates of planting, the number of plants in a given space for beauty of effect and advantage to free growth, the protection needed from sun and frost, the precautions to take against injury from insects, the satisfaction to be expected from the different varieties of plants, and much information to be appreciated only by those who have raised a healthy garden by the slow teaching of personal experience."—*New York Times*. With illustrations from photographs by Professor C. F. Chandler. \$1.75.

TURF FOR GOLF COURSES

By C. V. PIPER and R. A. OAKLEY

This is an authoritative and practical treatise on the growing and maintenance of grass turf. The subject is treated in its entirety for all sections of the United States. Every phase is discussed, including the improvement of soils, fertilizers, drainage, the special grass seeds to use, sodding methods, and the control of pests. The important turf grasses and weeds are described and figures so that each may readily be identified. The book aims to prevent misdirected effort in turf growing, such as has characterized the development of so many American golf courses. Illustrated. \$2.50.

PRACTICAL BOOKS FOR THE GARDENER

CROPS AND METHODS OF SOIL IMPROVEMENT

By ALVA AGEE, M.S.

This book is not a technical treatise, but points out the simple, everyday facts in the natural scheme of making and keeping the soils productive. It deals fully with the crops, methods and fertilizers that favor the soil, from the point of view of the practical farmer who wants cash compensation for the intelligent care he gives his land. Illustrated. \$1.25.

"THE BIBLE OF THE FARM AND GARDEN FOLK"

The Standard Cyclopedia of Horticulture

Edited by

L. H. BAILEY

(Complete in Six Volumes.)

The Standard Cyclopedia presents the combined labor and experience of the foremost North American authorities on horticultural subjects. Its subject matter is of almost universal interest, and is treated in such a practical scholarly and discriminating manner that whoever may be in any way concerned with horticulture, whether as a means of gaining a livelihood, as a mode of recreation, as an outlet for pent-up energy, as a field for scientific investigation, as a method of beautifying his surroundings, as gardener, seedsman, florist, nurseryman, student, teacher, botanist, merchant or country gentleman, will find in the Standard Cyclopedia of Horticulture a work replete with suggestions, abounding in ideas, and fertile in timely hints, philosophic in design, wide in scope and minute in detail.

Dark green buckram, gilt top, sold only in sets by subscription, \$6.00 per volume; Leather, \$10.00 per volume.
