WATERLOO, NEBR.

1917 CONTRACT PRICE LIST OF VINE
SEEDS AND SEED CORN

ANNOUNCEMENT

In submitting our growing prices for the thirtieth consecutive year of contract seed growing for the wholesale trade we are conscious of the fact that our splendid growth has been due in a large measure to the hearty support and co-operation which we have received from our many friends and customers. Realizing in full the confidence which necessarily must be placed in any grower by the seed dealer, we have endeavored to furnish the highest quality stocks at the lowest price consistent with such quality. In this attempt we have spared neither time nor expense in the fulfillment of our desire.

In naming contract prices for the growing season of 1917, we find ourselves confronted on all sides by tremendous advances in the cost of everything that goes to make up overhead expense in the conducting of a large business, as well as a great increase in the selling prices of all farm produce. Consequently our "raw material" has taken on a correspondingly great increase in its initial cost.

We trust that a careful analysis of the situation will convince everyone of the justice of such increases as may be found in our prices herewith submitted.

An acreage will be planted of each variety to produce under ordinary conditions the various amounts required to fill all contract orders, and in no instance will any carry-over stock be used on contract orders, unless it may be mutually agreeable to our customers and ourselves. In case of shortages a sufficient reservation will be made for planting stock, after which all orders will be filled by an equal pro rata division of the entire remaining crop delivered to us by our various growers, all orders being treated alike.

Orders will be accepted for the growing of special stocks or new varieties at reasonable prices if planting stocks are furnished.

Orders for 25 pounds of a single variety of vine seeds will be filled at regular quotations; for orders of less than 25 pounds of a single kind, add two cents per pound.

All contract prices are for acceptance prior to May first, are subject to stenographic errors and omissions, fire and all other contingencies beyond our control.

TERMS—Field corn, cash on receipt and examination; sweet corn and vine seed, sixty days' acceptance, or if discounted, 1 per cent in thirty days from date of shipment. All prices are based on delivery f. o. b., Waterloo, Nebr., or Rocky Ford, Colo., our option.

AIR DRIED CORN

We expect to deliver as dry corn as the season affords and at prices named will dry all corn showing over 16 per cent moisture without additional charge, but these prices do not carry artificial drying of corn showing 16 per cent or under of moisture. Our drying plant has a capacity of 800 bushels per ten hours. This has proved a valuable addition to our equipment and will be used at our own expense in case of excessive moisture. Customers wanting their corn dried to 14 per cent moisture or under will be charged 10c per bushel.
