Would a tree like this add comfort and beauty to your place?

**Hicks Nurseries**

WESTBURY, LONG ISLAND

You can have big trees now in full leaf
Summer Planting

EVERYTHING proposed in this folder can be carried out all summer—this summer. All the necessary material is ready at Hicks Nurseries and you know it is guaranteed. Come and make your own selection. Tell us what you have in mind, we will help you decide what will give you greatest service and how many you will require. A splendid opportunity to get the most from your land in comfort, beauty and food.

STRAWBERRIES

The time has come when, if you would have plenty of fresh fruit, you must grow it. Strawberries are a sure, quick crop. Plants set out in September or October will be full of berries in June. The following are best for home use:

- Glen Mary
- New York
- Chesapeake
- Success
- WM. Belt
- Beal
- Sample
- Marshall

The latest method of growing, known as Kevitt's system, is in rows 2 feet apart, plants 4 inches apart. Cut off all runners. Frequent cultivation will eliminate most of them. Manure before planting. "Keep out the weeds and the fruit is bound to come."

Potted plants, $6.00 per 100, $50.00 per 1000.

FRUIT

Plenty of fresh home-grown fruit is your duty. It's easy and it's fun. Fill every corner with a fruit tree and grow grapes on the garage, fence or porch. Currants and gooseberries bear the first year. Except apple and pear most fruit bear the second year. We offer some trees older and bearing earlier than usual. Order now for fall planting. Send a sketch map or photo for advice.

Fruit Trees: Apples, Pears, Plums, Cherries, Peaches, $1.00 each, $7.50 per 10,
Grape Vines, Gooseberries, Currants, 50 cents each, $4.00 per 10.
Raspberries, Blackberries, 50 cents per 10, $4.00 per 100.
Is your place hot and bare? Shade trees, all sizes, offered on preceding page. Phone your selection.

A FINE OUTLOOK EXCEPT—

No need for exceptions. Your whole landscape can be and should be attractive. There is abundant material at Hicks Nurseries to make it so and it is surprising what a vast difference a few trees make. The cost? That is hardly worth talking about—but if you wish, our representative will call and tell you how much we can do for as little as $25.00. At the same time he can help you carry out your ideals and offer suggestions. See inside of back cover for landscape material.
Every house may not call for a foundation planting. Most houses do. Properly done, it is an artistic touch. A collection of small trees, packed in together, not always the same species, are most effective. Give the bank of shaded place a collection of trees, and it will look as though it had been there always. Attractive Foundations.
WALLS OF GREEN

Plant pine, spruce, fir, laurel, holly, rhododendron and your favorite flowering shrubs.

The most serviceable trees are those 8 to 12 feet high because they are higher than the level of the eye.

You can plan an irregular belt equivalent to two to four rows of trees. You can make a definite hedge and trim it.

For a flower garden nothing can make a richer background.

For the laundry yard and service court White Pine will make just the right kind of a wall, and also give the right setting to the house.
SECLUSION SUMMER AND WINTER

A mighty pretty lawn but half the satisfaction is lost where privacy is lacking. That is what this owner thought too, and immediately remedied the situation with a WALL of GREEN.

Pines were used to give all-year seclusion. You will see we offer them, large and small. Everyone guaranteed. Are you ready to make a 100% improvement in your grounds? Now is the time and we are only too glad to help you.
Hardy Flower Gardens

Plant today, pick tomorrow. That is virtually what it amounts to. It makes no difference whether you want to make a new garden or repair an old one—the plants are here ready for you.

PHLOX

We know you will enthrone over our rare shades of phlox that fill the garden with such royal splendor all summer long, just when most gardens need more lustre.

A good way to have a garden is to plant in September. Next spring you have an old garden like this one we planted at Hempstead

Paeonia

Plant in September for blooms next season.

Prices—Terms—Guarantee

The prices in this list are for trees and plants dug and loaded at our nurseries. We charge for delivery, or packing in boxes, bales or crates for shipment. On request we shall be pleased to estimate the cost of delivery and planting.

We guarantee every plant from our nursery, and give new ones for those that do not grow satisfactorily. The cost of planting and transportation on replaced trees is borne by the purchaser.

Hardy Garden Flowers
Practically the whole list can be planted now. Some are growing in pots, others lift readily with adhering soil. The custom now is to take them home in your auto, plant at once, water freely and the plants do not know they have been moved.

ORDER any hardy flowers you like—20c each, $1.25 per 10, $15.00 per 100, excepting Poinsettia and Phlox, which are offered on page opposite.

ROSES
Growing in pots. Many are in bloom. Come and select.

PACHYSANDRA. Japanese Spurge
The popular ground cover. Makes a carpet 8-12 inch high. $1.50 per 10; $10.00 per 100; $90.00 per 1000.
