YOU NEED ME
OR, HOW TO
REDUCE THE COST OF LIVING
BY PLANTING
SAFETY FIRST SEEDS

★
How
Can I
Reduce The
Cost Of Living?

Is a question seriously
considered by almost every one
in the land. The products of the garden
affords the quickest, most continuous, easily
obtained and cheapest relief: The quickest because
lettuce, redishes and other early vegetables may be
grown in 25 to 40 days. Continuous, because by later
sowing and later varieties, you can have fresh vegetables
throughout the fall, and keep for winter and early spring.
Easily obtained because the little labor required. Cheapest,
because the seeds cost you only 5c per packet; (or
less than that, if ordered in lots of not less
than six packets See our wonderful
offers on the 4th cover page.)

A few packets of our seeds
will supply your family
for a year

**A FEW SELECT GARDEN AND FLOWER SEEDS
FOR THE FARMER'S, VILLAGE AND CITY GARDEN
JOB PRINTING ETC.**

W. B. LONGSTRETH, - HEBRON, OHIO

GREETING

Dear Friends and Customers Both Old and New

It is with pleasure that I present you my modest price list of a few select seeds for your garden. No doubt you will receive some large, handsome, illustrated catalogs. Because a seedsman issues a beautiful catalog it is no proof whatever that the seeds are superior to the seeds offered in this price list. I would be pleased to receive your order, even if it is only for a 5c packet. I desire to call your attention to my wonderful discount offers on 4th page of cover. Many seedsman offer made up collections, (often containing seeds that you do not want) but by my plan you can make your own selection

GUARANTEE: While I exercise the greatest care to have all seeds I send out pure, fresh and reliable. The customer, must bear in mind, that there so many contingencies over which I have no control, that in no case whatever do I guarantee the crop, and will in no way be responciable for the same, further than the amount paid for the seeds.

TERMS:Cash With the Order. Send money by Post Office or Express Money Order or Reistered Letter at my risk. One and two cent stamps, if received in good condition accepted for fractional parts of a dollar.

When sending your order please send the name and address of a few friends, who you know are interested in good garden and flower seeds, job printing etc.

Order Early. Extra Packets With Every Order

ALL ORDERS: Large or small will receive our prompt and careful attention, and be filled as soon as possible.

IF I PLEASE YOU TELL OTHERS - IF NOT TELL ME.

Be Sure and Sign Your NAME AND ADDRESS To Every Letter or Order You Write

Awating the comands of my esteemed patrons and friends, both old and new, I remain, Yours Truly,

W. B. LONGSTRETH, Hebron, Ohio.

February 1st 1917

LONGSTRETH'S SEEDS THAT GROW Beautiful Flowers

- 32 **Aster.** The Aster is one of the most popular flowers grown. Indispensable for cut flowers, fine as pot plants. Easy to grow, abundant bloomer, large and beautiful flowers of many lovely colors. Sure to please. Good Mixed
- 33 **Burning Bush.** This beautiful plant grows very quick from seed sown as soon as the weather permits in the spring. The plants make beautiful and attractive globe shaped bushes. frequently $3\frac{3}{4}$ feet high and 2 feet across, with small slender leaves of a beautiful light peagreen color until September, when they turn to a lovely carmine or blood red; and at the same time the ends of the branches are thickly set with small bright scarlet flowers, which makes it a very attractive plant.
- 34 **Calendula.** Mixed, Abundant bloomer, flowers generally light yellow. Grows in most any soil. 1 foot high
- 35 **Canna.** Mixed, Red and Yellow with red dots. An ornamental plant with large green leaves, that impart a tropical appearance to the garden. Soak the seed in warm water for 24 hours, or better file a hole just through the shell before planting
- 36 **Datura. Cornucopia.** Flowers white and royal purple, about 8 inches long and 5 inches across.
- 37 **Four O'clock.** Mixed. One of the beautiful flowers that our grandmothers had years ago. Abundant bloomer
- 38 **Marigold.** Mixed. Abundance of beautiful yellow shades of bloom, in almost any soil. They delight in the hot sunshine. 3 ft. high
- 39 **Mignonette.** A favorite flower; sweet, delicious, fragrant. Abundant of bloom. 1 ft. high,

MIGNONETTE

All Varieties on This Page 5c per Pkt. 6 Pkts 25c.

LONGSTRETH'S SEEDS THAT GROW Beautiful Flowers

LONGSTRETH'S GARDEN AND FLOWER SEEDS

What could be more convenient?

Why risk your crops on store seeds of uncertain age & quality?

When Longstreth's seeds planted Means Success.

OUR FROST PROOF CABBAGE PLANTS

Along the South Carolina coast the soil and climate are just suited for growing tough, hardy cabbage plants during the winter and early spring, they make a slow but steady growth, until 8 or 10 weeks old when they are very hardy, the buds are purple and the outer leaves a redish brown. When in this condition they can be sent north and planted in open ground from 4 to 6 weeks earlier than home grown hot bed or cold frame plants. These Frost Proof Cabbage Plants will stand a temperature of 8 to 10 above zero, the ground freezing, or the plants being covered, with snow, sleet or ice after they are planted will not hurt them.

The plant may not grow very fast at first, but forming good, strong roots, and as soon as spring weather comes, the plants being well established, grow very fast, making heads 10 to 20 days earlier than they can be produced from home grown plants. You can readily see, whether you grow for market or home use the great advantage in having new cabbage 2 or 3 weeks before your neighbors who have home grown plants.

To get advantage of these plants, they must be planted 4 to 6 weeks earlier than you would plant home grown plants.

When received, the plants may have a hard, stunted and wilted appearance, but regardless of appearance, they produce the crop. These plants are grown and shipped direct from our growing station in South Carolina. We can fill orders from December 1st to May 1st.

VARIETIES: Early Jersey Wakefield, Charleston Wakefield, Succession and Early Flat Dutch
