Dahlias

"Grown in America"

It is a recognized fact that many of our most destructive insects and plant diseases are imported on bulbs and plants from foreign countries. For safe results plant grown-in-America bulbs.

Success With Dahlias Will Be Sure if you plant properly and keep them thoroughly cultivated. Don't "stick the roots in the ground" and expect them to take care of themselves. If you water them at all, do it thoroughly, and be sure to cultivate as soon as soil is dry enough to work.

THIS LIST Does Not Supercede My 1916 Catalog But is in Addition to it. If you have mislaid your copy, another one will be sent you. A postal card will bring it.

New and Desirable Dahlias.

Bertha von Sutner. Decorative. An exceptionally large flower of a salmon pink, with yellow suffusion. 35 cts. each.

Corona. A miniature decorative dahlia of purest white, resembling in form the Gardenia. 20 cts.

Golden West. Show. Primrose yellow, very full double; petals cleft at tips. 25 cents each.

Minnie Burple. Decorative. Flowers extra large and freely produced; of a rich vivid red, on good stems. 50 cents each.

Mont Blanc. Decorative. Beautiful large pure white, on long stiff stems. 30 cts each.

Mrs. C. W. Bassett. Decorative. Delicate mauve-pink; exceptionally free. 35 cts. each.

Sultana. Decorative. Richest amber, streaked and dotted with bright red. Flowers early and free. 25 cts. each.

Andrew Carnegie. Peony. Salmon pink with bronze shading. Flowers of particularly attractive form, and freely produced. 35 cts each.

Canary. Duplex. Pure canary yellow; large, early and a continuous bloomer. 30 cts each.

Mme J. Coissard. Duplex. Very large; of great substance. Bright rosy crimson with lighter markings. 50 cts each.

DAHLIAS Should be as thoroughly cultivated as any crop, and will amply repay any extra care given them. Keep the surface of the soil well pulverized.

New and Desirable Dahlias continued.

DAHLIAS UNDER COLOR.

For those who do not care to keep their Dahlias by name, I make the following liberal offer of Dahlia roots by color. White, pink, red, yellow and orange.
10 cts each ; \$1 per doz. ; \$8 per 100.

“Hills of Snow.”

The Best of all the Hardy Hydrangeas.

The blooming period of this grand Hydrangea covers a period of nearly two months, lasting through June and July. Strong plants that will bloom this season, 25 cts each ; heavy plants, 50 cts each ; extra heavy specimens \$1 each.

At the Remarkably Low Prices Quoted in These
special offers, they will be sent by express at
purchaser's expense.

Pass a Good Thing Along.

It is a rare treat to have big red strawberries, from your own garden, on your table clear up to Thanksgiving, yet it has been done right here in Hammonton, and with no more protection than a little loose straw thrown over the plants.

I grow a small bed of Superb, the best fall-bearing variety, for home use, and I have a few plants in surplus which I will be glad to share with you, while they last, at 25 cts per doz. ; \$1.50 per 100.
