ALVIN JAPANESE NURSERY & ORCHARD COMPANY
ALVIN, TEXAS

TERMS AND CONDITIONS OF SALE

PLEASE READ BEFORE MAKING

OUT ORDERS

Terms—Cash with order, or one-fourth with order for future delivery, and balance before shipment.

All Quotations are F. O. B. and subject to change without notice.

Applying Prices—Five, Fifty and Five Hundred trees of one variety, at Ten, One Hundred and One Thousand rates respectively.

Substitution—When out of varieties or sizes ordered, we will substitute others unless otherwise instructed.

Shipping by Mail—In ordering trees or plants for shipment by mail, add enough to the list price to cover cost of postage.

Orders Booked will be held subject to purchaser's order until February 1, of current season. Should they not be taken up by that time, or no special arrangement be made for holding further than the date named at option of the seller, they may be considered cancelled, and the amount paid will be forfeited as liquidated damages, or balance of purchased money become due and goods purchased will be held at risk or expense of the purchaser.

Our Liability—We shall exercise every reasonable care and precaution in taking care of the stock purchased or booked for future delivery, and shall endeavor to deliver it in best condition when wanted. But our liability shall not extend further than this, and it is expressly stipulated that we are not to be held liable for loss by any act of Providence beyond our control.

Transportation at Purchaser's Risk and Expense—All transportation charges are to be paid by the purchaser, and our responsibility ceases upon delivery, in good order, to forwarding companies; claims for losses or damages must be made upon the latter. We will, however, start a tracer for delayed shipments, if notified, and use every means at our command to secure prompt delivery, or recovery in case of damage or loss.

Guarantee—We guarantee every tree and plant that we send out to be true to name. Should any prove to be different from what they are labeled, we will return the amount paid for them or furnish new trees, but we are not subject to any other claims or damages.

Claims—If, by any possibility, errors should occur, they will be promptly rectified, if claim is made within five days after the receipt of the goods.

ALVIN JAPANESE NURSERY

JAPANESE AND AMERICAN FRUIT, SHADE
AND ORNAMENTAL TREES, PLANTS,
SEEDS, BULBS, ETC.

OFFICE AND NURSERIES
ALVIN, TEXAS

BERRIES

DEWBERRY AND BLACKBERRY.

✓ **Dallas Blackberry**—Large, prolific, good, firm and good shipper; a strong-growing, native berry.

✓ **McDonald**—Cross between dewberry and blackberry; large, vigorous, excellent and valuable; very early and prolific.

✓ **Roger's Dewberry**—Very large black berries, vigorous and prolific. Originated in Alvin, Texas.

✓ HAUPTBERRY.

Berries begin to ripen a full month before peaches or plums, and are the most profitable to the acre of all fruits, whether for home or market.

They make the best preserves, jams and jellies, and are ready before the really hot weather comes along.

Prices on Blackberry, Dewberry and Hauptberry.

15 cents each. \$1.00 for 10. \$5.00 per 100

STRAWBERRY.

They do best on new, rich, heavy land and should be kept free from weeds. Long Summer drouths are hard on strawberries, hence, intense cultivation is necessary.

✓ **Klondyke**—Foliage heavy, dark green; will not rust; long stems. The Klondyke is the most popular, most productive, best shipper and the most prolific of all strawberries for the South. Berry is large, conical, pointed at apex and flattened at the stem end. Bright, rich red; very pleasing appearance.

✓ **Excelsior**—Very early; large size, almost round and slightly pointed. Very productive, profitable, and will stand drouth and heat.

Prices on Strawberry.

50c for 25	85c for 50	\$1.25 for 100
3.50 for 500	\$6.00 for 1000	

By parcel post or express prepaid.

ORANGE

✓ **Satsuma Orange**—A seedless Mandarin orange. Rind smooth, thin, deep orange color and peels very easily. Juice abundant, yellowish in color. Season October to December. This is one of the hardiest oranges of the edible variety and is the most valuable variety to plant in sections subject to frost. The high quality of the Satsuma, together with its earliness, makes it one of the best varieties of oranges.

Prices.

	Each	10
1 -1½ feet	\$.50	\$ 4.50
1½-2 feet	.60	5.50
2 -3 feet	.70	6.50

PRUNING

Bare rooted citrus trees will be cut back, 30% to 40% of the top growth being removed before digging, unless especially requested to the contrary.

KUMQUATS

✓ **Nagami**—Fruit oblong, one and one-half inch in length, one inch in diameter. Color golden yellow. Quality fine. Season October to January.

✓ **Neiha. Syn. Sugar Kumquat**—Large, round. The best variety of Kumquat. Color, golden yellow. Rind, smooth and aromatic. Pulp and juice sprightly and

much sweeter. Foliage compact, glossy, dark green and very symmetrical in form. Prolific and early bearer.

Prices.

15-18 in. Very bushy and stocky	.75	6.50

ELAEAGNUS, (GUMI OF JAPANESE, OLEASTER)

Elaeagnus Umbellata or **Fall Gumi**—With yellowish branchlets, often partially silvery; flowers yellowish white and fragrant. Fruits roundish and oval scarlet, 1-4 inch long ripening late in Fall.

Prices.

4-5 feet35c each,

Elaeagnus Multiflora or **Spring Gumi**—A low-growing, beautiful shrub, producing an enormous quantity of fruit

in early May, one-third of an inch in length, oblong, bright red. The fruit will make excellent jelly, or marmalade; the flavor is sharp, pungent. Foliage light green, silvery beneath. Flowers very fragrant. Perfectly hardy.

FIGS

✓ **Green Ischia**—Fruit of medium size; pulp rosy red, soft, melting quality, rich, sweet; a variety of very high quality.

✓ **Celestial**—The fruit is medium to small, of bluish or violet yellow. Very sweet, rich and delicious for table and home canning. Tree is a very strong grower, prolific bearer and is hardier than most any other variety.

✓ **Magnolia**—The most prolific and valuable fig for the States bordering on the Gulf. Fruit is medium to large, color, white or pale yellow with purplish tinge. Elongated, ovate in form, with short, well set neck.

	Each	10	100

GRAPES

AMERICAN VARIETIES

(Trellis or Bunch)

✓ **Catawba**—Color, clean dark red; rather above medium in size; pulp tender and juicy; flavor rich; ripens in late July or early August.

✓ **Concord**—Color, blue-black; size, large; sweet, pulpy and tender; very popular table grape. Ripens in July.

✓ **Delaware**—A medium-sized, bright red grape of highest quality. Ripens in late June or early July.

✓ **Herbemont**—Color, brownish red or purplish, small to medium; juicy with sprightly flavor. September.

✓ **Moore's Early**—A very large black grape resembling Concord but ten days earlier.

✓ **Niagara**—Pale yellow; flesh tender, sweet; one of the best whites.

✓ **R. W. Munson**—Strong grower. Fruit, black; skin never cracks; pulp tender and juicy. Best to be planted among strong pollinating varieties as Concord.

EUROPEAN GRAPES.

✓ **Emperor**—Large; oblong; deep rose; one of the most profitable market grapes. Withstands rain better than any other variety. Vine strong grower, heavy bearer. November.

✓ **Sultana**—Small; amber colored; seedless; makes fine seedless raisins.

MUSCADINE GRAPE.

✓ **Scuppernong**.—Large, bronze-colored berry. Flesh sweet, pulpy and vinous. The most popular grape on the Southern market. Supply is seldom equal to the demand.

Prices on Grapes.

2 yr. field grown..25c each, \$2.00 per 10

GUAVA

✓ **Red Cattley** or **Strawberry Guava**—A handsome evergreen shrub, with glossy green leaves, producing large quantities of fruits 1 to 1½ inches in diameter. Color deep red, skin thin but

tough, somewhat resembling a fig; pulp fleshy, soft and juicy, sweetness and acid well blended.

Price.

From pot each, 50c

JAPANESE PERSIMMONS

✓ **Tane Nashi** (Astringent)—Fruit very large, without seed. Quality fine. This will not lose its astringency while hard. One of the most desirable market varieties.

✓ **Hachiya** (Astringent)—Almost seedless. Quality fine. Fruit, very large, oblong, $3\frac{3}{4}$ inches long, $3\frac{1}{2}$ inches transversely, pointed. Flesh, yellow. Skin, dark bright red with occasional

dark spots or blotches and rings at the top.

Price

	Each	10
3-4 feet	\$.35	\$3.00
4-5 feet	.50	4.50

✓ **Tamopan**—New Chinese Persimmon. Of special merit. Fruit is large, somewhat flattened, and with a compressed ring around it.

2-3 feet	35c each
----------------	----------

LOQUAT, ERIOBOTRYA JAPONICA

The fruit is about the size of a Wild Goose Plum, oblong, bright yellow, subacid, has an agreeable flavor and is highly prized for preserves and jelly.

Price.

Each

1 -2 feet balled	\$.75
2 -3 feet balled	1.00
3 -3½ feet balled	1.50
3½-4 feet balled	2.00

MULBERRY

The Mulberry is one of the most desirable trees for shade and protection of stock when planted around the farm buildings, along lanes and in the hog, poultry or stock pasture.

Price.

Each

5-7 feet	\$.50
7-9 feet	.75

OLIVE

✓ **Picholine**—A variety much esteemed for its rapid growth and early bearing. The tree is also less subject to damage by insects than most other varieties and ripens its fruit in twelve months, thus

bearing its crop annually. Makes excellent oil and stands with the best for pickling.

Price.

3-4 feet, bushy, balled	\$1.25 each
-------------------------------	-------------

JUJUBE (ZIZYPHUS SATIVA)

The fruit resembles apples in taste; in size and shape, they resemble olives, and when properly cured or preserved in sugar, are similar to and equally as appetizing as the finest quality of the imported dates. The United States Department of Agriculture has a special bulletin on this fruit, describing method of curing the fruit, etc. The tree is of spreading growth, with glossy-green foliage.

Attains a height of from 25 to 30 feet. They are nearly everbloomers from May to July, hence the fruits do not ripen all at once, but last from July to October.

Price.

Each

1-2 feet	\$.50
2-3 feet	.75
3-4 feet	1.00

PEACH

✓ **Honey**—Medium size, skin whitish yellow, marbled with red; flesh creamy white; melting and juicy, with sweet honeylike flavor. Freestone.

✓ **Howard**—Very large, nearly round; light green shading to creamy-white overspread with bright red; flesh white and firm, meaty, streaked red throughout, fine flavor, May.

✓ **Jewell**—An early and most valuable variety for planting in extreme South

Texas. Medium size, roundish oblong, small point, light yellow, rich, juicy, melting. Freestone. May.

✓ **Mamie Ross**—Large, white, shaded carmine; flesh white, juicy, of good quality. Cling.

✓ **Onderdonk**—Large freestone; skin and flesh yellow; very juicy and sweet. Originated in Texas.

Price

3-4 feet	35c each \$3.00 per 10
----------------	------------------------

PEAR

✓ **Garber**—Fruit resembles the Kieffer in size, appearance and quality, but the tree is more open in growth. Comes in ahead of the Kieffer.

✓ **Kieffer**—Fruit large to very large; skin yellowish with bright vermilion cheek; very juicy; flesh brittle; a little coarse, but of good quality for preserving.

✓ **Koonce**. Very handsome medium to large fruit, juicy; sweet. A vigorous grower. Middle of June.

✓ **Le Conte**. Fruit large to very large; pyriform; skin smooth, pale, yellowish; when properly handled, quality is very good; tree is a vigorous grower, with luxuriant foliage; very prolific annual bearer; season, July to end of August. A good table pear.

Price

	Each	10
3-4 feet	\$.40	\$ 3.50
4-6 feet	.50	4.00

PECAN

✓ **Curtis**. A medium sized nut, with bright, clean shell, marked with a few purplish specks; ovate, round at base, pointed at the apex; shell very thin; cracking quality excellent; kernel light yellow, plump and full; rich, sweet, nutty flavor; quality best. A desirable nut for home use or market. A regular bearer.

✓ **Pabst**. Sturdy thrifty grower; highly productive; nuts very large; fair quality. Well adapted to coast sections.

✓ **Schley**. A free grower and a satisfactory bearer; nuts of medium size, oblong, slightly flattened; shell thin, reddish brown color; flavor one of the best.

✓ **Stuart**. A favorite in Mississippi, where it originated; it is bearing in several parts of Texas and is giving eminent satisfaction.

✓ **Success**. Size large, cracking quality very good, partitions thin; oblong, tapering to the blunt apex. Color reddish brown with purplish markings, shell thin; kernel large, full, plump, yellow in color; flavor sweet, rich; quality very good. The tree is a good healthy grower and the variety has much to recommend it.

Price

	Each	10
3-4 feet	\$.85	\$ 7.50
4-5 feet	1.00	8.50

PINEAPPLE GUAVA

(Feijva Selliowiana). A new fruit from South America. The fruit is of a greenish color; and good keeper after being gathered in Autumn. Seeds very small, perfectly hardy.

Price

	Each
1½-2 feet, bushy	\$.50
2 -2½ feet, bushy	.75

POMEGRANATE

Perfectly hardy in the South. The flowers bloom in great profusion and make a fine contrast with the green foliage. The fruit is used in making jellies, marmalades and acid drinks.

Price

	Each
3-4 feet	\$.25
4-5 feet	.50

WALNUT

✓ **Black Walnut** (*Juglans Nigra*). The nuts, though thick-shelled, are rich, oily and sweet. The trees grow to large size, with wide-spreading habit. Its timber is more valuable for cabinet work than any other native timber.

Price same as Japan Walnut.

✓ **English Walnut**. Nuts large, oblong; shell thin; of fine quality. Seedlings from large selected nuts.

Price

12-18 in. 35c each

✓ **Japan Walnut**. They bear very young and are perfectly hardy. In habit of growth they are low and spreading, reaching a height of 15 to 20 feet, with a spread of branch about the same distance. While the shells are thick the meats are sweet and of very fine quality. The trees make beautiful lawn or shade trees.

Price on Japan and Black Walnut

	Each	10
1-2 feet	25c	\$2.00
2-3 feet	35c	3.00

ARBOR VITAE, (BIOTA, THUYA)

ARBOR VITAE, (BIOTA, THUYA)

Beautiful evergreen shrubs or trees, especially adapted for massing or single specimens on the lawn or in the cemetery. They are also being used very extensively for windbreaks, hedges and screens.

Biota Aurea Conspicua. Of compact, erect and symmetrical habit. Foliage intense gold; some of its branches being a solid metallic tint, others suffused with green. As its name implies, it is most conspicuous; easily grown; and has stood perfectly in the East and West 20 degrees below zero.

B. Aurea Nana (Berckman's Golden Arbor Vitae). The most popular Biota grown. This conifer is of dwarf, compact and symmetrical habit. A perfect gem for small gardens or cemetery lots. For window boxes and vases this plant is most effective. It is desirable where it is too cold for Palms or other decorative plants. For formal planting it is at its best.

Filiformis. A Japanese variety with thread-like foliage. A distinct novelty. Very desirable for lawn as well as tubs.

Globe (B. Globosa). Round, globe-shaped head, full, compact growth. Dark green foliage. Splendid for lawn planting.

Prices for Four Varieties Above

	Each
15-20 in., balled.....	\$1.00
20-24 in., balled.....	1.50
20-30 in., balled.....	2.00
30-36 in., balled.....	3.00

Prices on large specimen plants on application.

Compacta (B. Compacta). Handsome, upright grower; attractive, dark green foliage. Splendid for lawns, screens, hedges and massing.

B. Pyramidalis. In this we have succeeded in getting a form of the pyramidal Arbor Vitae which does not become brown during winter, but retains constantly its bright-green color; of compact and pyramidal habit. A plant which fills a long-felt want.

Rosedale (B. Rosedale). A very handsome variety. Foliage dark green and plume-like, but very compact. This is a most attractive border for lawns, roadways and walks and is unexcelled for massing.

THE BEST INVESTMENT.

There is no investment the home owner or farmer can make that will so enhance the value of his property as that expended in planting Nut, Fruit, Shade and Ornamental Trees, Shrubbery and Flowers. The sale or rental value will be enhanced many times the amount expended each year.

CYPRESS, CUPRESSUS

Cupressus Arizona (Arizona Cypress)

A beautiful bluish-green cypress of narrow pyramidal form from the mountains of Arizona and Northern Mexico. A handsome ornamental tree. This variety being very hardy, is especially suitable to the hot dry sections of the interior.

C. Sempervirens Pyramidalis. The true Italian cypress. A well known and popular conifer; most desirable where a formal effect is desired. It is of compact and shaft-like habit; ultimate height 60 to 80 feet.

Cupressus Majestica. Tall, vigorous growing species of pyramidal form, with horizontal branches and drooping branchlets; foliage grayish green; splendid for single specimen.

Prices on the Above Three

Red Cedar, Juniperus Virginiana. A dark green tree, with conical head and upright spreading branches. It grows rapidly and reaches a large size.

Price	Each
3-4 in., balled	\$ 1.25
4-5 in., balled	1.75

Cedrus Atlantica (Mount Atlas Cedar) Similar to *Cedrus Deodara*, but foliage more compact and of a darker green. The tree attains large and stately proportions. Hardy in New York.

Indian Cedar (Cedrus Deodara) A tree introduced from the Himalaya Mountains. Of pyramidal form, reaching immense proportions. Foliage a beautiful shade of bluish green. When the new foliage is opening in spring, the trees are particularly handsome. This is well adapted to the Southern States, and makes an exceedingly handsome

lawn specimen. It takes the place of the Colorado Blue Spruce, in Southern plantings. It is more open in habit but similar in coloring.

Price	
18-24 in., balled.....	\$1.25
24-30 in., balled.....	2.00
30-36 in., balled.....	2.75
3-4 feet, balled.....	4.00
4-5 feet, balled.....	5.00

Japan Cedar, Cryptomeria Japonica Elegans. A pyramidal tree with slender trunk, possessing a remarkable beauty. It will stand a temperature below zero. Foliage is bluish green, in Winter assuming a brownish tone. A deep, well-drained soil with abundant moisture should be selected.

Price	Each
2-3 feet, balled	\$1.00
3-4 feet, balled	1.50

PODOCARPUS

P. Sinensis. Attains a height of 50 feet. Upright habit. Leaves dark glossy green, one-fourth inch wide and three inches long. A striking ornament on lawn.

Price.	Each
1 -1½ feet, balled	\$.75
1½-2 feet, balled	1.25
2 -3 feet, balled	1.75
3 -4 feet, balled	2.50

OAK (QUERCUS)

Q. Glauca. An evergreen Japanese oak growing in warm regions; without doubt this is one of the most beautiful oaks ever introduced from Japan. The leaves are long and of a bright glossy green; growth is very symmetrical and compact.

	Each
2-3 feet, balled	\$1.00
3-4 feet, balled	1.50
4-5 feet, balled	2.50

Q. Virginiana, Live Oak. The native wild evergreen oak from the South; a hardy shade and avenue tree; very de-

sirable for street planting; will grow very successfully in almost any soil; may be used to good advantage in rocky places where other trees do not succeed.

For other varieties of Oak, see under Deciduous Trees.

WILD PEACH (Laurocerasus Caroliniana)

A native, hardy evergreen of the South, very beautiful and symmetrical in growth. Produces an abundance of pleasant scented, oblong blossoms followed with small, black, shining fruits. This is a very valuable shade, ornamental, or avenue tree; on account of its compact foliage, the tree can be trained in all kinds of forms. Our stock has re-

ceived special attention in pruning and is uniformly symmetrical in shape.

EVERGREEN SHRUBS

ABELIA GRANDIFLORA

A beautiful evergreen shrub, with dark green, glossy leaves, becoming bronze-colored in Winter. Flowers white, funnel-shaped, tinged with pink, delicately sweet-scented, borne in clus-

ters from early Spring until late Autumn.

Price

2-year plant, balled	each \$.75
3-year plant, balled	each \$1.00

BANANA SHRUB

Michelia Fuscata (Magnolia Fuscata)

Fine, broad-leaved, hardy shrub, producing in Spring, brownish-yellow flowers about one inch across, richly scented like bananas.

Price

12-15 in. balled, field grown	.75
15-18 in. balled, field grown	1.25
18-22 in. balled, field grown	1.75
22-30 in. Specimen field grown ..	2.50

CAMELLIA SASANQUA

An evergreen shrub of open habit; leaves are oblong, shiny dark green; flowers are white and various shades of red, and are fragrant; blooms in Fall. They are well adapted to the

Gulf Coast climate and thrive in almost any good garden soil.

	Price	Each
6-8 in. balled,		\$.50

CAPE JASMINE, GARDENIA

G. Florida. The commercial cape jasmine that is shipped to the Northern flower markets in such large quantities in Spring. Large, fragrant, white flowers blooming from Spring to July in South, where they are most extensively planted; will thrive in any good loamy soil.

	Each
Small, bushy	\$.35
Medium, bushy	.50
Large, bushy	.75
Extra large	1.25

G. Radicans, Dwarf Cape Jasmine. A beautiful, compact, spreading, evergreen shrub of low dwarf growth; leaves are a shiny green, small and oval oblong; bears a wonderful abundance of pure white blossoms, slightly smaller than

G. Florida, but equally as richly aromatic; begins blossoming in mass in April and continues throughout the Summer; makes an excellent pot plant or grows well in the open. This is an excellent plant for a border for garden walks and flower beds.

	Price	Each
Small size, very bushy		\$.75
Medium size, very bushy		1.25
Large size, very bushy		1.75
Beautiful specimen size, very bushy		\$2.00 to 5.00

G. Radicans Stricta. Identical with the above, except that it grows more upright and not so spreading. Best for low hedges.

Prices same as above.

EUONYMUS

Euonymus Japonicus. A useful ornamental shrub with green glossy foliage; of easiest culture. It may be trimmed into a beautiful compact specimen, or may be used as a hedge plant.

	Price	Each	10
8-12 in. bushy, field grown		\$.25	\$2.00

5-6 feet		\$.50
6-7 feet		.75
7-8 feet		1.00

ELM, *ULMUS*

U. Americana, American or White Elm; also known as Water Elm. A large and stately tree with long, graceful branches. Extensively used for avenue and street planting. Grows anywhere in the South.

	Price	Each
3-4 feet		\$.30
4-5 feet		.40
5-6 feet		.50
6-7 feet		.75

HACKBERRY

Celtis Mississippensis. One of the most popular and desirable shade trees for avenues and streets; of rapid growth; the tree in transplanting should be pruned to a single stem and the

roots should be kept moist so that they will not dry out.

	Price	Each
2-3 feet		\$.35
3-4 feet		.50
4-5 feet		.75

MAIDENHAIR TREE (GINKGO BILOBA)

A picturesque tree with peculiar fan-shaped leaves, striated on both sides with numerous parallel veins. They thrive best in a loamy moist soil and make a good avenue tree in cooler climates.

	Price	Each
12-18 inches		\$.25
18-24 inches		.35
2-3 feet		.50

MAPLE (ACER)

Scarlet Maple, *Acer Rubrum*

Very attractive for its symmetrical habit, earliness of its scarlet flowers and leaves in the Spring. The bright green foliage turns red and orange yellow in the Fall.

	Price	Each
3-4 feet		\$.35
4-5 feet		.50

Silver Maple, *Acer Dasycarpum*.

Very hardy, thrives in almost any soil; rapid growing, attaining 30 feet or more; leaves green, silvery beneath; desirable shade tree in yard or street.

	Price	Each
4-5 feet		\$.50
5-6 feet		.75

MIMOSA, ALBIZZIA JULIBRISSEN

A Japanese tree growing to a height of 20 feet; at night the leaves wither as if asleep, so that the Japanese called them the sleeping tree. In Summer it produces very ornamental flowers at the

tops of branches in the shape of red tufts.

	Price	Each
4-6 feet		\$.75
6-8 feet		1.00

OAK (QUERCUS)

Pink Oak, (*Quercus Palustris*). Foliage bright green, turning brownish-red in the Fall; very desirable avenue or shade tree, with rather short spreading branches.

	Price	Each
5-6 feet		\$.50
6-7 feet		.75
7-8 feet		1.00
8-9 feet		1.50
9-10 feet		2.00

Willow Oak, (*Quercus Phellos*) Tree of very symmetrical habit and of rapid growth; one of the most desirable and beautiful shade trees in the South; leaves are short petioled, linear-oblong, bright green and glossy, very much resembling those of willow, hence, the common name; thrives well on swampy or moist soil. Prices same as above.

SWEET GUM

(*Liquidambar Styraciflua*). A handsome native tree of upright and symmetrical growth; very beautiful in Autumn, when leaves turn yellow; this

is one of the best trees for street or yard planting.

	Price	Each
3-4 feet		\$.35
4-5 feet		.50

POPLAR (POPULUS)

Carolina Poplar, *Populus Carolinensis*

A symmetrical and very rapid growing tree making an upright or pyramidal head; resembles the cottonwood, but the leaves are more tapering at apex and the habit of growth is quite distinct.

Price	Each
6-8 feet	\$.50
8-9 feet	.75

Lombardy Poplar, Italian Poplar, *Populus Nigra Italica*. Naturally of compact, tall growth, but by proper pruning when young it can be forced to

spread, making a beautiful shade tree. Very rapid grower. Well adapted to any part of the South.

Price	Each
5-6 feet	\$.50
6-7 feet	.75
7-8 feet	1.00

Silver Poplar, (*Populus Alba Nivea*.)

A form of the white poplar with 3 to 5-lobed leaves, the under surface snow-white.

Price	Each
3-4 feet	\$.35
4-5 feet	.50

SYCAMORE

(*Platanus Occidentalis*). A large well known, native tree, much used for shade and roadside planting. Very symmetrical in habit. Thrives in the Coast Country as well as further north. Grows in almost any soil.

Price	Each	10
5-6 feet	\$.50	\$ 4.00
6-7 feet	.75	6.00
7-8 feet	1.00	8.00
8-10 feet	1.50	12.50

VARNISH TREE (*Sterculia Platanifolia*)

A handsome shade tree. Leaves, very large three to five-lobed, maple-like, bright green. Large panicle of white flowers in June. Fine trees for bees. The green bark gives a tropical appearance.

Price	Each
4-5 feet	\$.40
5-6 feet	.50

WILLOW (SALIX)

Weeping Willow, (*Salix Babylonica*).

A native of Asia; long, slender, olive-green branches extending downward; beautiful trees for lawn or park.

Price	Each
3-4 feet	\$.35

DECIDUOUS SHRUBS

ALTHEA

Rose of Sharon, (*Hibiscus Syracus*).

A perfectly hardy shrub, growing to a height of 5 to 8 feet and is used as a border and hedge plant; many colors; pink, white, purple and variegated;

blooms in great profusion from May until September; double and single.

Price	Each
3-4 feet	\$.30
4-5 feet	.40
5-6 feet	.50

CORAL TREE

(*Erythrina Crista-Galli*). A strikingly handsome shrub with peculiar deep green foliage. Blooms from early Summer until late Fall; bright

crimson flowers in large terminal racemes; they resemble pea flowers but are several times larger.

Strong roots75c each

BARBERRY (Berberis)

Thunberg's Barberry, (*Berberis Thunbergii*). Dense low shrub from Japan, with spreading branches; is especially remarkable for its dense horizontal growth, and large brilliant red fruits; fruits remain on tree all Winter; bright scarlet foliage in the Fall; makes a beautiful hedge.

	Price	Each
10-18 in., bushy		\$.25
18-24 in., bushy		.35

Purple Leaved Barbery. Same as above with purple leaves.

	Price	Each
10-15 in.		\$.25
15-18 in.		.35
18-20 in.		.50

CRAPE MYRTLE

(*Lagerstroemia Indica*). These handsome, free-flowering shrubs are to the South what the lilacs are to the North, and justly deserve their widespread popularity. They are strong growers, reaching a height of 10 to 20 feet. In Spring and Summer, they produce an abundance of flowers, borne in great panicles.

We have in stock the following colors: white, pink, light purple, magenta and crimson.

	Price	Each
2-3 feet, bushy		\$.35
3-4 feet, bushy		.50
4-5 feet, bushy		.75
5-6 feet, bushy		1.00

DEUTZIA

Pride of Rochester. A shrub producing an abundance of double, rose-tinted, white flowers in Spring and early Summer. It thrives well here and is adap-

ted to border planting with other shrubbery or as single specimen.

	Price	Each
3-4 feet, bushy		\$.35
4-5 feet, bushy		.50

FLOWERING WILLOW

(*Chilopsis Saligna*). A tall growing shrub of the Southwestern part of Texas. The flowers are a large, corolla-like tube, divided in five lobes, edge crimped; similar to catalpa flowers.

Leaves resemble the willow. Two varieties, white and lilac.

	Price	Each
4-5 feet		\$.35
5-6 feet		.50

HIBISCUS

Chinese Hibiscus, (*Hibiscus Rosa Sinensis*). This is a most beautiful flowering shrub of rapid growth. Blooms constantly during the growing period. Flowers are very large, several inches in diameter, and very attractive. They grow very well in the Gulf Coast,

but require good protection during the Winter. It is a most desirable shrub for pot culture. Red and yellow. Single and double.

	Price	Each
15-18 in., in pot		\$.50
18-24 in., in pot		.75

HYDRANGEA

H. Hortensis Otaska. A grand free-flowering shrub with large cluster of showy white flowers, which change to shades of pink or blue according to soil. Should be grown in the shade in the South.

	Price.
Large plant	50c to \$1.00 each

H. Paniculata Grandiflora. A showy shrub producing large panicles of white flowers, which assume tones of rose-bronze on exposed sides. Should be severely pruned in early Spring to insure largest trusses.

	Price
18-24 inches	35c, each

VINES

AKEBIA QUINATA

(Five-Leaved Akebia). Semi-evergreen Japanese climber with beautiful foliage. Flowers purple, fragrant, pro-

duced in early Spring. Bears purplish fruits shaped like bananas but smaller.

	Price
Strong plant	50c each

BOSTON IVY

(Ampelopsis). A graceful vine, closely clinging to walls. Leaves are either entire, or compound with three leaflets,

rich green color, changing to brilliant tones of orange and scarlet in Autumn.

	Price
Strong	25c each

ENGLISH IVY

(Hedera Helix). A grand, high-climbing, evergreen vine with dark green leaves. Well known and popular

everywhere. Grows best on the north side of buildings or other shady places.

	Price
Strong plant	25c each

FICUS PUMILA, CLIMBING FIG

A very small-leaved evergreen creeper which clings closely to any solid object. Excellent for growing on walls; makes a perfect covering.

	Price.
Strong plant	25c each

CLIMBING HONEYSUCKLE

Japanese Honeysuckle. A rampant evergreen climber. Leaves dark green, densely covering the vines and branches. Flowers white changing to yellow, deliciously fragrant, borne in great profusion in Summer.

	Price
Strong plant,	25c each

Golden-Leaved Honeysuckle, (Lonicera Japonica Aureo-Reticulata) A form of the preceding, with the leaves beautifully netted with yellow.

	Price
Strong plant	25c each

JASMINUM PRIMULINUM

This new variety is a desirable acquisition to our list of hardy evergreen climbers. Light yellow flowers are produced in early Spring, and the plants

continue to bloom for three months or more.

	Price	Each
Strong plant		\$.25
Very strong		.50

KADSURA JAPONICA

A Japanese climbing evergreen. Leaves dark green, giving the plant a bright appearance. In Winter the clusters of

small fruit, when ripe, make the plant very attractive.

	Price
Strong plants	.50c each

KUDZU

(Pueraria Thunbergiana). A climber of extremely rapid growth; is an excellent plant for covering walls, fences or unsightly places or objects;

bears clusters of purple flowers. Vines will run 40 to 50 feet in a single season.

	Price
Strong plants	.25c each

MOUNTAIN ROSE

Antigonon Leptopus. (The Rosa de Montana of Mexico.) A beautiful vine with heart-shaped leaves, bearing great racemes of rose-pink flowers during the

Summer. Very desirable for shading porches, covering fences, etc.

	Price
Strong roots	.25c each

STAR JASMINE

Confederate Jasmine, (Rhyncospermum). A splendid evergreen vine, native of China, with dark green, waxy leaves of small size. The pure white flowers borne in Spring, in great pro-

fusion, have a peculiar and most delicious fragrance.

	Price	Each
Strong plant		\$.35
Very strong		.50

TRUMPET VINE

(Bignonia Capreolata). A deciduous climber, with dark green foliage and orange-red trumpet-shaped flowers, produced throughout the Summer. Clings closely to walls or tree trunks.

	Price	Each
Strong plant		\$.25
Very strong		.35

VIRGINIA CREEPER

(Parthenocissus Quinquifolia). A high climbing deciduous vine, clinging to walls or trees. Leaves bright green,

changing in Autumn to rich tones of red and yellow.

	Price
Strong vine	.25c each

WISTARIA

Formosa Wistaria. A new variety from the Island of Formosa, having dark green, glossy leaves. The flowers are a royal-purple color and fragrant. This is a handsome plant both in foliage and flowers, and being perfectly at home in the Coast Country, deserves to become very popular. Nearly evergreen.

	Price	Each
Strong plant		\$.50
Very strong		1.00

Purple Chinese Wistaria Too widely known to need extended description.

Flower clusters 7 to 12 inches long. Profuse bloomers in Spring before leaves appear.

	Price	Each
Small, grafted		\$.50
Medium, grafted		.75
Large, grafted		1.00
Very large specimens, grafted each		1.50

White Chinese Wistaria. Similar to the Purple Chinese, except in colors of flowers. Very handsome and free-flowing.

Prices same as above.

PALMS

Canary Island Date Palm, (*Phoenix Canariensis*). One of the finest and hardiest of palms for lawn or park planting in the Gulf Coast. Has long pinnate leaves, gracefully recurved. Trunk short and very large.

Price, Balled and Pruned

	Each
3-4 feet	\$ 3.00
4-5 feet	4.00
5-6 feet	5.50

Cocos Australis. Very graceful, with upright, recurved leaves, resembling the Phoenix or date palm leaves. Very desirable for bordering drives or for specimen planting. Much harder than Phoenix.

Sabal Palmetto Palm (*Cabbage Palmetto*). Large fan leaf variety, native to southern coast sections. Perfectly hardy, standing temperatures nearly zero. Large specimens known as far north as Little Rock, Ark., growing outside.

Price, (Balled) on Above Two.

	Each
1 -1½ feet	\$ 1.00
1½-2 feet	1.50
2 -2½ feet	2.00

Washingtonia Filifera, **California Fan Palm**. Very stout trunk. Large, light green leaves with many thread-like filaments.

Washingtonia Robusta. Trunk more slender and grows much faster than the Filifera. Leaves dark green and with fewer filaments. A favorite because of its rapid growth.

Price on Washingtonia Palms, Balled and Partly Pruned

	Each
3-4 feet	\$ 3.00
4-5 feet	4.00
5-6 feet	5.50

Bambusa Sterilis. Height 10 to 15 feet, straight stem; internode at the base is very short and irregular; excellent bamboo for fishing rods or walking canes.

BAMBOO

Bambusa Argentea. A variety making a very dense clump. Does not form runners, therefore is ideal for lawns, windbreaks, etc. The shoots bend outward very gracefully.

Prices on Above Two

	Each
Small clump	\$.50
Medium clump	.75
Strong clump	1.00

Bamboo Falcata. Height 6 to 10 feet; fine leaves; very desirable where small growing species is preferred.

Bamboo Verticillata. Canes striped yellow. Rank grower, 20 to 25 feet. Makes fine clumps, very hardy, one of the best for windbreaks.

Prices on Above Two

	Each
Small clump	\$.35
Medium clump	.50
Large clump	.75

ORNAMENTAL GRASSES

Lemon Grass. A small growing ornamental grass, desirable for lawn. Leaves pale green with strong aromatic odor of lemon.

Pampas Grass (*Gynerium argenteum*)

The finest of all tall plume grasses. Attains 10 to 20 feet, topped with beautiful plumes.

Variegated Giant Reed, (*Arundo Donax Variegata*) A vigorous, perennial grass, attaining a height of 10 to 15 feet. Leaves long and broad, striped longitudinally with green and creamy-white. In Autumn they have silvery gray plumes a foot or more in length.

Striped Eulalia, (*Miscanthus Japonica Variegata*) A graceful, hardy grass with drooping leaves, striped longitudinally with green and silvery white; 4 to 5 feet.

Zebra Grass, (*Miscanthus Japonica Zebrinus*) An interesting variety because of the odd variation that the foliage presents, being marked at regular intervals with yellow bands across the leaves.

Prices for all Grasses.

	Each
Strong clump	\$.25
Extra strong	.50

BANANA, MUSA

Widely planted in the South for its tropical effect. Strong roots will make a growth of 6 to 10 feet in one season.

	Price	Each
Small roots		\$.25
Medium roots		.35
Large roots		.50

CLERODENDRON SQUAMATUM

A perennial shrub, leaves very large, from Spring to Autumn bearing five-petaled brilliant scarlet flowers in large spikes. The most attractive ornamental shrub we have. Usually dies to the

ground in Winter, but makes a strong new growth and blooms every year.

	Price	Each
Strong roots		\$.25
Extra strong		.50

ELEPHANT'S EAR

(Colocasia Multifolia.) Similar to the well known bedding plant C. Esculenta (Caladium); Large deep green leaves.

	Price	Each
Small bulbs		\$.10
Large bulbs		.20

GERMAN IRIS

These handsome Spring-blooming plants begin flowering about the middle of April and continue to bloom for five or six weeks. White and purple.

	Price	Each
Each \$		

MALLOW MARVELS

(Meehan's). A herbaceous plant with very large, showy flowers. They thrive in any good, rich garden soil and in full sunlight. Throughout the entire

summer they produce large single flowers. White, pink and red.

	Price	
Each		\$.25

LESPEDEZA SIEBOLDI

Everbloomer in the South with rose-purple flowers; blades of leaves elongated on smaller branches; slender and rosy colored.

pointed; branches are longer, making a slightly taller plant.

Price on Above Two.

LESPEDEZA JAPONICA

Similar to Sieboldi, but flowers are white; leaves are broader and less

	Each
Strong clump	.50
Small clump	\$.25

CLIMBING ROSES

YELLOW

Marechal Niel. Deep yellow; very large; full globular form; delightfully fragrant. The finest of all yellow climbing roses. In the South it is at home and grows at its best. A strong, vigorous grower, producing its flowers freely at all seasons in great abundance. It should have the first place in every collection.

Climbing Pearl de Jardins. Sport of bush; large double yellow flowers.

WHITE

Climbing Kaiserin Augusta Victoria.

The best, white, hardy, everblooming climber; buds are long and pointed,

produced on long, stiff stems like a forcing rose; delicious fragrance.

RED

Climbing Meteor. A dark, rich velvety crimson rose—so dark that it sometimes appears blackish crimson; a constant, profuse bloomer; a vigorous grower.

Climbing Wooten. Blossoms are bright red passing to violet crimson and are large and full.

R. M. Henrietta. Color, bright cherry-red; finely formed buds which always open into large perfect flowers of exquisite beauty and sweetness; desirable for cut flowers, retaining their form and beauty for several days.

Prices same as Bush Roses.

BUSH ROSES

	PRICE	Each	10
2-yr. strong field grown		\$.35	\$ 3.00

PINK

Bridesmaid. This has a deep brilliant pink blossom of beautiful form and rich, fragrant aroma; good bloomer.

Helen Gould. One of the best if not the best Winter blooming rose; a splendid rich, rosy, crimson flower.

Madame Caroline Testout. Color most brilliant pink imaginable. Beautiful either in bud or open. Fine rounded form with most perfect shapely petals. Bush rather weak growth.

Maman Cochet. Color, fleshy pink, with inner side of petals silvery rose. The beautiful elongated buds and full blown flowers are exquisitely charming, while the fragrance is rich and delicious.

Paul Neyron. One of the largest flowering roses in cultivation, very free bloomer. Deep, clear rose; very fresh and attractive, making straight shoots 4 to 5 feet high.

Killarney. Brilliant, sparkling pink with large pointed buds.

La Detroit. Pretty shell-pink color, shading to soft rose; flowers very large and beautifully formed.

La France. Flower large and fragrant. Silvery-rose with pink shades.

Mme. de Watteville. A fragrant rose of beautiful hue, being salmon and white, bordered and edged with bright rose.

YELLOW

Etoile de Lyon. Color beautiful chrome-yellow, deepening at center to pure golden yellow; flowers very large, double and full, and deliciously fragrant. One of the best roses of its class.

Perle des Jardins. Clear golden yellow of a rich and beautiful shade; flowers large, globular in form and of great depth; richly perfumed.

Cornelia Cook. A sweet fragrant rose of creamy white, tinged with lemon—yellow flesh.

Francis Kruger. A free and constant bloomer. Copperish yellow. A good variety for out-doors.

RED

American Beauty. Large, full, beautiful red. Not a strong grower; produces fine flowers during Spring and Fall.

Etoile de France. A brilliant shade of clear red-crimson velvet, large flowers on long, stiff stems. Vigorous and free-blooming.

Gruss an Teplitz Vivid, dazzling, fiery crimson; sweetly fragrant. Produces a mass of blooms on long stems.

Louis Philippe. Rich, velvety crimson. It is the most showy dark red rose we have for gardens and grounds. It makes a large, vigorous bush, and there is scarcely a time during the entire year when it is not in bloom.

Meteor. A dark, rich, velvety crimson rose—so dark that it sometimes appears blackish crimson; a constant, profuse bloomer; a vigorous grower.

General Washington. A bright red rose resembling American Beauty in many features. Better adapted to the South than the latter.

Baby Rambler. Brilliant, shining crimson baby flowers in profusion, ever-blooming and hardy.

WHITE

Bride. Superb pure white rose; buds and flowers usually large and finely formed.

Kaiserin Augusta Victoria. Pure white, splendid large buds and superb, full, double blooms, making the choicest cut flowers. Blooms steadily from early Spring until late Fall.

Snowflake. Color, creamy white; flowers medium size, full and very double. Very vigorous and a continuous free-bloomer; reliable.

Frau Karl Druschki. (white American Beauty). A strong grower; flowers very large; color pure waxy white.

White La France. A fragrant, free continuous bloomer. Flowers large, well formed.

White Maman Cochet. The color is a beautiful snow white; long and large buds on long stems.
