STRAWBERRY PLANTS

Our berry plants are grown for plants only. We take up the entire bed each year. We can pack plants so they will carry safely to any part of the United States. Our berry plants are true to name and not mixed up with a dozen different kinds. You will notice we noly have a few kinds of berry plants and it is better to have a few of the very best varieties, ones that have been tested and found to be good by every one than it is to have a hundred varities and a lot of them no good at all.
