JUNG'S PRIZETAKER TREE TOMATO

J. W. Jung Seed Co.

Seed Growers

Randolph, ::= Wisconsin

Chinese Woolflower

1200 to 1 or Snowflake Beans

Giant Asterum Asters

SEEDS FREE FOR TRIAL

We offer here some very choice varieties FREE. For each 25c worth of seeds ordered in packages and ounces you may select one package free. Not more than six packages to one customer.

1200 TO 1 OR SNOWFLAKE BEANS

A selection or improvement of the popular navy bean. It is immensely productive and ripens early. The beans are of pure snowy whiteness and unsurpassed for baking or soups. You will be more than pleased with this bean.

EARLY MARKET CARROT.

Here is something really choice among carrots. Unsurpassed for shape, quality and as a yielder.

TENDERHEART LETTUCE

Everybody plants lettuce, but many do not sow the right kind. If you want really fine, tender lettuce sow a packet of Tenderheart.

RAPID RED RADISH

Every seedsman claims to have the earliest radish. Plant our "Rapid Red" and you will be satisfied that it is the quickest maturing bright red variety. It combines extreme earliness with handsome appearance and superb quality.

GARDENER'S DELIGHT TOMATO

The most prolific and finest flavored tomato. Fruits average 2½ inches in diameter and grow in clusters, frequently 12 on a single stem. Color a bright red, fruit always smooth and of the finest flavor. So productive that a dozen plants will produce enough for an ordinary family. By all means try this fine tomato.

GIANT ASTERMUM ASTERS

A grand type of giant chrysanthemum asters. The immense flowers are produced on long stems and are excellent for bouquets, also fine for beds as from 10 to 15 blossoms are produced on a single plant. All colors in every packet.

CHINESE WOOLFLOWER

Most Magnificent Garden Annual Ever Introduced. The plants average two feet in height, branching freely, each shoot bearing a beautiful ball of scarlet wool. It flowers early and profusely and the heads of bloom, mixed with fresh green foliage, makes the plant look like one immense bouquet set in the ground. They continue to glow with a richness of color, a deep crimson-scarlet, all summer and fall until severe frost destroys them. A rare novelty which attracts much attention. Fresh cut flowers when dried are much used for winter decoration.

Gardner's Delight Tomato

Randolph, Wis., Jan. 1, 1919.

To Our Friends and Customers:—

Planting time will soon be at hand and the question of procuring your supply of seeds will soon have to be decided.

Our catalog does not contain a long list of confusing varieties, only such are offered as have proved to be the best of their respective class.

The past season has been more favorable for most crops and we have been fortunate in harvesting the finest crop of seeds we have ever grown; you will note from our prices that they are very reasonable.

Transportation is also much better so that we now have practically all of our seeds in stock and will, therefore, be able to fill orders promptly.

Although the war is at an end we should not relax our efforts to

Produce More Food

The need of all foodstuffs is as great as ever and there need not be any fear of over-production.

Every Customer Must be Satisfied

We use every possible effort to have our seeds of the highest quality and spare no expense to produce the best it is possible to grow. If anything you order from us is not perfectly satisfactory upon its receipt it may be returned and your money will be refunded.

Our one great desire is to supply you seeds as cannot fail to please you in every way.

J. W. JUNG SEED CO.

INSTRUCTIONS ABOUT ORDERING—Kindly use the order sheet enclosed with catalog, this will greatly facilitate the filling of your order.

Write plainly and you will be sure to have your order filled promptly and correctly. Be sure and sign your name and full address on every order and keep a copy of the same. If your freight or express office is different from your postoffice give that also, this is important as we cannot forward goods if we do not know where to send them.

REMITTING MONEY—Cash should accompany the order. Remittance may be sent by Money Order, Bank Draft, Registered Letter, or Personal Check.

When money is sent by any of the above methods the cost of remitting may be selected in extra seeds.

Remittances sent in any other way are entirely at the sender's risk. Clean one and two cent postage stamps will be accepted as cash for small amounts.

FREE DELIVERY—We deliver free to any Post Office in the United States, all seeds except those on wholesale list, offered by the packet, ounce, quarter-pound, half-pint and quart. On seeds in large quantities purchaser pays transportation charges.

WARRANTY—While we use every effort possible in the selection of our seeds, we feel justified in saying that our seeds are as pure as the best, but at the same time, there are causes beyond the control of man that spoil the best seed and cause poor crops, that it is impossible to guarantee the seeds. Therefore, while we exercise great pains to have our seeds pure and reliable, we sell no seeds with warranty, expressed or implied, further than the amount actually paid for such seeds as prove unsatisfactory, should there be just cause for complaint. It must, however, be plain to everyone that it is to our best interest to send out only such stock as will grow and prove true in name and description.

SAFE ARRIVAL OF PACKAGES—We endeavor to secure the safe arrival of packages of seeds and bulbs in good condition in every case. If a package is injured or lost, by Mail or Express, we will replace it if notified of the fact. Frequently it happens that orders never reaches us, or are without signature or address. When customers fail to receive their packages within a reasonable time, they should inform us, and at the same time send a copy of their order and any other information necessary to trace the goods.

Jung's Wholesale Prices for Market Gardeners.

As is the custom with most seedsmen we make special prices to market gardeners and those requiring seed in large quantities.

Owing to the large scarcity of all seeds we advise ordering as early as possible as when our present stock of seed is sold we will no longer be held at these prices. **ORDER EARLY!**

You may be able to purchase seeds at lower prices but they are quite apt to be of lower quality. It is our aim to supply seed of the very best quality at a reasonable price.

At these prices the purchaser pays transportation charges. Please state whether we should ship by express or freight.

NOTE! We positively cannot fill any order at these prices unless it amounts to \$3.00 or more.

JUNG'S WHOLESALE PRICE LIST.

NOTE—Half bushels may be ordered at bushel rates. Half lbs. at lb. rates.

Without any exceptions the
best mixture of beautiful large Asters.

Only the very best varieties are used in making up this mixture, it contains the best latest introductions also new varieties originated at our Fairfield Farm and include the most rare and beautiful colors. The flowers are very double and do not show a yellow center, blossoms five inches in diameter borne on stems two feet long are often produced. Pkt 10 cts.; 3 pkts. 20 cts

JUNG'S MAMMOTH TALL NASTURTIUMS.

If you want the largest flowers and choicest colors do not fail to order this mixture. Do not compare this with the common varieties as only the very best sorts are used herein. The color combinations are superb, a wealth of scarlet, maroon and claret shades, streaked and spotted with white, cream, pink and rose are simply grand, Pkt. 10 cts.; oz. 20 cts.

SPECIAL OFFER.

For 20 cts. we will send you one
pkt. of each of the following:

- Jung's Giant Fancy Asters.
- Jung's Mam. Tall Nasturtiums.
- Jung's Spencer Sweet Peas.
- Jung's Giant Zinnias.

Jung's

UNRIVALED GARDEN SEEDS

In the following list you will find only such varieties as have been thoroughly tested and found to be of special merit. All of our SEEDS were grown from the finest select stocks and for quality and productiveness are unexcelled by any others. WE HANDLE ONLY THE VERY BEST SEEDS, AND QUALITY rather than price is our first aim

ASPARAGUS Barr's Mammoth

This is an excellent variety. The stalks are of a green color, almost an inch in diameter from the bottom completely to the tip. They are of quick growth and free from woody fibre. PRICE OF SEED: Pkt, 5 cts; oz, 10 cts; ¼ lb, 25 cts.

BARR'S MAMMOTH

MAKE A GARDEN THIS YEAR

Do your duty as a citizen, if you have a piece of ground plant it to garden crop. We not only sell seeds of known quality but with each order we send FREE a booklet of complete cultural instructions. These instructions were written by an expert and can be relied upon in every way.

BUSH BEANS

Our Seed Beans are extra fine. They were grown on the FAIRFIELD SEED FARM; were thoroughly rogued, hand picked, and are worth much more than the less carefully selected strains as are usually sold.

Stringless Green Pod

This variety combines the following essential points: Extreme earliness, being the first to produce pods, unusual hardness and great productiveness. The pods are from five to six inches long, very round, of a rich, green color and entirely stringless even when matured. They are tender, brittle and of the finest flavor. It is without exceptions the finest green podded bean in cultivation. Pkt, 10 cts; ½ pt, 20 cts; pt, 35 cts; qt, 65 cts.

Currie's Rust Proof Golden Wax

One of the Earliest and Most Prolific Wax Bush Beans. The bushes are strong, vigorous growers and bear an immense load of long, flat meaty pods, which are of the most handsome appearance. Not only does this variety possess the merit of being rust-proof but it is also extra early. The pods are exceedingly crisp and tender and of a most delicious flavor. Pkt, 10 cts; ½pt, 20 cts; pt, 35 cts; qt, 65 cts, post-paid,

Jung's Fairfield Wonder Wax BUSH BEAN

**WITHOUT A DOUBT THE FINEST WAX OR
BUTTER BEAN EVER INTRODUCED**

It is with pleasure that we offer our customers this grand new Butter Bean as we are sure it will please the most critical planters.

This variety originated on our FAIRFIELD FARM and is by far the finest wax bush bean we have ever seen. The bushes are unusually vigorous and free from disease. They grow from fifteen to twenty inches high, have large heavy foliage and bear an immense load of pods which are from six to nine inches long, one-half inch broad, and have absolutely no strings whatever. The color is a rich, lemon yellow. If you want the very best Butter Bean of them all try JUNG'S FAIRFIELD WONDER WAX.

Pkt, 10 cts; ½ pt, 25 cts; pt, 40 cts

New Kidney Wax Bush Bean

One of the finest flat podded Wax Bush Beans in cultivation. A great improvement on Wardwell's Kidney Wax, being more robust and prolific, and having longer pods which are much handsomer and of finer quality. The plants are erect bush habit, reaching 18 to 20 inches in height. Their thick foliage is free from blight, while the pods are free from rust. The fleshy pods are flattened in form, six to seven inches long, one-half inch broad, and three-eighths of an inch thick; the color is a rich lemon yellow. The pods are remarkable for their meatiness, fine flavor and absolutely freedom from strings. The pods hang in rich clusters from the vines, making picking easy. Plants of this variety have been grown on our Fairfield Farm bearing forty pods each. It is without any doubt one of the best varieties to plant for either the home or market garden.

Pkt, 10 cts; ½ pt, 25 cts; pt, 40 cts; qt, 75 cts, postpaid.

Pencil Pod Black Wax

We consider this one of the Best WAX BEANS yet introduced. It is very productive, and of most excellent flavor. The pods are long, straight and round like a pencil, fleshy and of a bright yellow color; tender, brittle and absolutely stringless. The plants are of true bush growth, 15 inches high, with abundant foliage. The magnificent pods are from 5 to 7 inches long.

Pkt, 10 cts; ½ pt, 20 cts; pt, 35 cts; qt, 65 cts.

Refugee Wax Butter Bean

One of the heaviest yielding of all wax bush beans, also one of the surest croppers. Many times when all other varieties were a failure REFUGEE yielded a good crop. The leaves distinguish themselves from other varieties by their long, willowy shape. It is also very hardy, having withstood frosts which seriously checked other varieties.

The bushes are literally covered with the fine transparent yellow pods which are from four to five inches long, remarkably tender and brittle as it has no strings whatever. Plant it once and you will want it every year. Pkt, 1 cts; ½ pt, 20 cts; pt, 35 cts; qt, 65 cts.

SPECIAL OFFER!

We want you to try our Fairfield Wonder, Pencil Pod Black, Wax and Refugee Wax Beans. 1 pkt, of each for 20 cts.; ½ pt, of each for 60 cts; 1 pt of each for \$1.00 postpaid. Include them in your order

PENCIL POD BLACK WAX

REFUGEE WAX

J.W. JUNG
SEED GROWERS

SEED COMPANY
RANDOLPH, WISCONSIN

BRITTLE WAX BUSH BEAN

Brittle Wax Bush Bean

The earliest of all WAX BEANS. Of such excellent quality it might well be termed "best of all." The plants are very hardy and vigorous, of true bush growth, about fifteen inches high and heavily laden with the long, straight round and very solid pods from five to seven inches long. The pods are of a rich golden color, very tender and entirely free from strings at all stages of its growth. It will stand longer than any other bean without becoming hard. The pods are unexcelled for snap-shorts, while having white seeds showing only a small black dot at the eye. Any pods allowed to ripen will be readily saleable as winter shell beans. Include this great bean in your order. Pkt., 10 cts; $\frac{1}{2}$ pt, 25 cts; pt, 40 cts; qt, 75 cts, postpaid.

Wonder Bush Lima Bean

We have grown this strain for four years and truthfully say that is the very best "BUSH LIMA BEAN." It is a great improvement on Burpee's Bush Lima. While the bushes are fully as productive the pods are borne more at the center of the plant. This is a great advantage, as the pods are held up from the ground. The bushes grow eighteen to twenty inches high, requiring no poles or stakes whatever. The pods are of truly mammoth size and contain from 3 to 4 large beans each. There is nothing quite so delicious in the vegetable line as nice fresh Lima Beans. Pkt., 10 cts; $\frac{1}{2}$ pt, 20 cts; pt, 35 cts; qt, 65 cts.

California Wonder Field Bean

THE BEST FIELD BEAN IN CULTIVATION

This is unquestionably the heaviest yielding bean known and a sure cropper. Not so much a garden variety, but distinctly the Farmer's Field Bean, closely resembling the well-known "Navy" Bean. It is very early, having dry beans in 80 days from planting. The large pods are filled with pure white, even sized, nearly round seeds of excellent cooking qualities. The plant grows upright and holds the thick clusters of pods well away from the ground. The leaves fall early which allows the sun to quickly mature the pods. No other bean approaches it in yield, quality and readiness to find sale on the market. Pkt, 5 cts; $\frac{1}{2}$ pt, 20 cts; pt, 35 cts; qt, 55 cts.

JUNG'S STRINGLESS BLACK WAX

Jung's Stringless Black Wax

ABSOLUTELY STRINGLESS AT ALL STAGES

Although a new variety, it is a general favorite. The strong plant, rather dwarf, bears an enormous crop of perfectly stringless beans of a most beautiful yellow color. The pods are long and straight, just curving enough at the ends toward maturing to avoid contact with the ground, preventing rust and rot. Fine early market variety. Semi-round pods, fleshy, tender and of finest quality. Pkt, 10 cts; $\frac{1}{2}$ pt, 25 cts; pt, 40 cts; qt, 70 cts.

WONDER BUSH LIMA BEAN

REMEMBER.

We prepay the postage on all seeds by the packet, ounce, quarter-pound, pound, half-pint, pint and quart. Bear this in mind when comparing prices.

POLE BEANS

Kentucky Wonder Wax

The merits of the old Kentucky Wonder Pole Bean are well known. This variety has all its superb qualities with the addition of a beautiful transparent yellow pod. It is a rampant grower, one plant filling a pole with vines densely loaded with almost a mass of pods from bottom to top. The pods are very large, being from 8 to 10 inches long, exceedingly tender and very fleshy. The pods are so plump and fleshy that frequently they are of greater thickness than width. Deliciously rich and buttery when cooked.
Pkt., 10 cts; ½ pt, 25 cts; pt, 40 cts; qt, 75 cts.

Prolific Green Podded

The best green podded Pole Bean in cultivation. It is earlier than most other varieties and covers a longer season of productiveness. The vines are vigorous growers, being loaded with pods from summer until frost. It is a very sure cropper, even in unfavorable seasons producing large crops. The pods, borne in clusters, average 6 to 8 inches in length, are uniformly straight, of a dark rich, green color, and so meaty as to be nearly saddle-backed. The pods are entirely stringless, very tender and sweet and of a mild flavor. The dry beans are of a pearly whiteness.

Pkt., 10 cts; ½ pt, 25 cts; pt, 40 cts; qt, 75 cts.

KENTUCKY WONDER WAX

Pole Lima Bean---- Henderson Early Leviathan

This is the very earliest. It will not only give pods earlier than any other strain, but is also much more productive, both early and throughout the season. It is a strong grower, clinging well to the poles, and is a sure cropper. The pods differ from those of other early POLE LIMAS in being straighter and longer. The pods hang out from the foliage in large clusters and contain three to four and sometimes five large beans to a pod. It bears until frost, and a small patch will supply a family. Pkt, 10 cts; ½ pt, 20 cts; pt, 35 cts; qt, 65 cts postpaid.

HENDERSON'S EARLY LEVIATHAN

Swiss Chard---Lucullus

Plants grow two feet high and consist when fully developed of about a dozen creamy white, attractive curled leaves. These leaves are carried on broad, thick stalks about 12 inches long. The leaves may be cooked in the same manner as SPINACH.

Pkt, 5 cts; oz, 15 cts.

"LUCULLUS,"—
THE NEW
SWISS CHARD.

Borecole, Or Kale

DWARF GERMAN. Useful for furnishing greens or boiling during the early fall, winter and spring months. The leaves are very curly, bright green, tender and delicate in flavor. The plants are hardy and the quality is improved by freezing. Pkt, 5 cts; oz, 20 cts.

Plant Jung Quality Seeds.

BEETS

DARK LEAVED GLOBE

EARLY MODEL

Early Model

Our packets of Beets each contain one-quarter ounce of seed. This splendid variety has attained perfection for table use. It is extremely early, of perfect globe shape and finest quality. It is a fine selection of blood red beet, extremely smooth and of symmetrical growth, fine rich color and desirable shape. The roots of **EARLY MODEL** are of good size and run uniformly perfect, almost round, with small, dark crimson colored leaves and a slim tap root. It makes a rapid growth and matures very early. In quality and color it is peerless; very fine grained, tender and sweet, never woody or stringy. The tops are small, making it a good forcing variety. It retains its choice, quality and freedom from woodiness until the beets have reached their full size. Pkt, 5 cts; oz, 15 cts; $\frac{1}{4}$ lb, 40 cts, postpaid.

Dark Leaved Globe

Many of the best selections of turnip-rooted **BEETS** have been lacking in that important essential—a dark leaf.

In this variety we have all the qualities of the best strains and also a dark leaf, a sure indication of deep red colored flesh.

Also perfect globe-shaped, small tap root, no side roots and a small top. Ready for use early and remains in prime condition for a long time. Pkt, 10 cts; oz, 20 cts; $\frac{1}{4}$ lb, 50 cts.

Columbia

An excellent early variety for all purposes. The roots are always smooth, from four to five inches in diameter, and of a neat turnip shape. The flesh is a deep red color and of fine quality, remaining tender until the roots have reached their full size. The foliage is small and of a rich, bronze color. The roots can be used early in the season, when only partially grown, being ready for use soon after the Extra Early Sorts and is of finer quality. Pkt, 5 cts; oz, 15 cts; $\frac{1}{4}$ lb, 45 cts, postpaid.

Improved Blood Turnip

This is an improved strain of the popular Blood Turnip Beet. It is very early, of perfect globe shape and free from side roots. The flesh is a deep red color, fine grained, sweet and of a dark color when cooked. Tops are small and of uniform growth, the leaves, stems and veining being a dark red.

It grows quickly and is of fine quality. Excellent for summer, fall or winter use. Pkt, 5 cts; oz, 15 cts; $\frac{1}{4}$ lb, 40 cts.

Detroit Dark Red

Special Select Stock

A very fine turnip beet, with dark red skin, and bright red flesh. It grows very smooth, is globular in shape—see illustration above. The quality is the very best, sweet and tender. An ideal table variety and also desirable for market gardens, as it is fine for bunching, and its small, upright growing tops allow close planting. Pkt, 5 cts; oz, 15 cts; $\frac{1}{4}$ lb, 50 cts.

COLUMBIA

DETROIT DARK RED

BRUSSELS SPROUTS

MANGELS

Mammoth Long Red

The best mangel for deep soil, large size, wonderfully productive and of superior quality. Specimens of this variety have been produced weighing 50 pounds. Oz. 10 cts; $\frac{1}{4}$ lb. 25 cts; lb. 80 cts, postpaid.

Golden Tankard

A smooth, yellow fleshed mangel; the roots are of large diameter, tapering quickly at the bottom, which is quite broad, with only a small tap root. It grows largely above the soil and is easily harvested. It yields an enormous bulk on good soil, and can be closely grown in rows. No root crop is a better paying investment for farmers to grow than mangels. Oz. 10 cts; $\frac{1}{4}$ lb. 25 cts; lb. 80 cts.

SUGAR BEET

Klein Wanzleben

Best beet for sugar making and largely planted for that purpose. 18 tons of sugar have been made from 100 tons of these beets. Highly recommended as a winter food for milch cows. Much superior in quality than Mangels for feeding purring purposes. Pkt. 5 cts; oz. 15 cts; $\frac{1}{4}$ lb. 40 cts; lb. \$1.25, postpaid.

Brussels Sprouts

LONG ISLAND IMPROVED. The sprouts resemble miniature cabbage growing closely on the stalk of the plant. They are more tender and delicious than any cabbage. Hard frosts do not injure sprouts but improve them, and they are left in the garden until desired for cooking. Strip off the outer covering of the sprouts and cook them whole. They are a delicacy not surpassed by the finest cauliflower. Pkt. 5 cts; oz. 20 cts.

MAMMOTH LONG RED

CABBAGE

The CABBAGE SEED we are offering was grown with exceptional care. The plants were grown from selected stock and the heads were all carefully inspected before being set out. Our packets of CABBAGE each contain seed enough to produce 500 plants.

First Crop Cabbage

We are convinced that this Cabbage—the earliest of all pointed varieties—is distinct from any other variety. An ideal sort as the plants do not take up much space and can be planted close together. The heads grow a very uniform size, with few loose leaves, remarkably solid, very tender, and of the finest quality. Pkt. 10 cts; oz. 50 cts; $\frac{1}{4}$ lb. \$2.25

COPENHAGEN MARKET

Copenhagen Market

An extremely early variety of unusual merit. It matures as early as WAKEFIELD and will give a much heavier yield per acre than that popular variety. The plant is short stemmed, the heads being produced on the ground level. The leaves are dark green, rather small, saucer-shaped and always tightly folded.

The splendid solid heads weigh as much as eight pounds each, are of exceptional flavor, and show no signs of cracking. The type is thoroughly fixed, the heads all maturing at the same time. This Cabbage has come to stay and will give satisfaction. Pkt. 10 cts; oz. \$1.25; $\frac{1}{4}$ lb. \$4.75.

FIRST CROP CABBAGE

ALL HEAD EARLY
All Head Early

This variety has proven itself to be adaptable to a wide range of both soil and climate, and is well worthy of recognition as a **STANDARD AMERICAN SORT**. It is the earliest of all large cabbage and considerably larger than any other early summer cabbage. The deep, flat heads are remarkably solid and the most uniform in color, shape and size of any other variety. Good quality and tenderness are marked features.

It is suitable for growth in spring and early summer, or for use as a winter sort. The heads grow so free from spreading leaves that fully one thousand more heads than usual with large cabbage can be grown to the acre. Seed grown in July, and plants set in August, will produce good heads for wintering. It is a money maker for gardeners. Pkt., 10 cts; oz., 60 cts; $\frac{1}{4}$ lb. \$2.00 postpaid.

Early Jersey Wakefield

JUNG'S SPECIAL STOCK

The standard pointed-headed early cabbage throughout the U. S. The heads are uniformly hard and solid. They are pyramidal in form, generally pointed at the end, with but few outside leaves. The outside leaves are usually thick and heavy, and it is thereby enabled to stand more cold weather without injury when carried through the winter. Having but few outside leaves it may be planted close, so that more heads can be grown to the acre than with other sorts. It is exceedingly tender, fine grained and as a crop per no early cabbage can approach it. Size is ideal for marketing. Pkt, 10 cts; oz, 75 cts; $\frac{1}{4}$ lb, \$2.25.

DANISH BALLHEAD.—from a Photograph.

EXTRA EARLY EXPRESS
Extra Early Express

POSITIVELY THE EARLIEST CABBAGE ON EARTH

It produces heads of good size a week to ten days earlier than Jersey Wakefield. There are a few loose leaves and it forms a head of good size and fine quality. It can be planted close; always yields a large crop. A fine variety for shipping as the heads remain solid for a long time. It is a beautiful appearing cabbage, being of fine color and general uniformity. Also called "LIGHTNING" and other fancy names by some seedsmen. Pkt, 10 cts; oz, 80 cts; $\frac{1}{4}$ lb, \$2.00.

EARLY JERSEY WAKEFIELD

Danish Ballhead

A Grand Hard Headed Cabbage

This type of winter cabbage has become very popular of late years on account of its **UNEQUALED KEEPING QUALITIES** as well as for the **GREAT SOLIDITY** and **WEIGHT** of the heads. It is strong and vigorous in growth, and produces large, round compact heads, exceedingly hard and solid weighing, when trimmed, fully one-fourth more than any other cabbage of equal size. For boiling, slaw, sauerkraut, etc., it is unequalled, being crisp, tender and sweet. It seems to grow well on all soils and under most conditions, withstanding hot, dry weather, and does not rot from the effects of wet seasons, neither do the heads burst. **DANISH GROWN SEED** per pkt. 15 cts; oz. \$1.35; $\frac{1}{4}$ lb, \$4.00.

Red Drumhead

The well known standard cabbage. Heads are of large size, lightly rounded, and from seven to eight inches in diameter. A valuable variety for pickling; very sweet, tender and of excellent quality. Pkt, 5 cts; oz, 50 cts; $\frac{1}{4}$ lb, \$2.00 postpaid.

Perfection Savoy

This is the hardest heading and best all-around SAVOY. Plants are of strong growth, having only a moderate amount of outer foliage growing loosely about the large, solid heads. It is very sweet and crisp, and always tender. The heads are beautifully blanching and of the finest flavor. Pkt, 5 cts; oz, 50 cts; $\frac{1}{4}$ lb, \$2.00

J. W. JUNG
SEED GROWERS

SEED COMPANY
RANDOLPH, WISCONSIN

CABBAGE---Continued Short Stem Drumhead

SHORT STEM DRUMHEAD

This variety is uniform in heading and dwarf in growth. The heads appear to rest on the surface of the soil. It grows with little outer foliage, the leaves all folding in closely about the head which is very solid. It is a standard sort for winter keeping and sells readily in the winter and spring markets. With good cultivation heads attain a weight of 20 to 30 pounds and are of the finest quality. Pkt, 10 cts; oz, 35 cts; ¼ lb, \$1.10 postpaid

Surehead

A leading late variety. It produces large, round flattened heads of the Flat Dutch type and is remarkable for its certainty to head. The heads are very uniform in size, extremely solid, fine in texture and flavor, and ordinarily weigh from ten to fifteen pounds each. It has but few loose leaves and is an excellent keeper. Pkt, 10 cts; oz, 35 cts; ¼ lb, \$1.10.

Perfection Savoy

This is the hardest heading and best all-around Savoy. Plants are of strong growth, having only a moderate amount of outer foliage growing closely about the large solid round heads. It is very sweet and crisp, and always tender. The heads are beautifully blancheted and of the finest flavor. Pkt, 5 cts; oz, 25 cts; ¼ lb, \$1.00.

We sent for an order from your Company last year and were well pleased with them. Had the best luck with all your seed and the melons were fine. W. A. DUTTON, Kalamazoo, Mich.

I raised a good garden last year from your seeds and everybody asked where I bought the seed, so I will send another order this spring. MRS. CHAS. MEDUNA, Pisek, N. D.

CAULIFLOWER---Early Snowball

FOR EARLINESS AND RELIABILITY TO PRODUCE A HEAD OF GOOD SIZE, AND RICH, WHITE, CURDY APPEARANCE IT IS UNEQUALED. It forms snow white heads, six to ten inches in diameter, of good quality.

While originally recommended and used as an early variety, it has not only supplanted all other sorts for spring planting, but it has largely driven out the large late crops for fall use, being much finer in quality, and the one cauliflower that is absolutely certain to head when conditions are ordinary favorable. The heads are so solid compact and deep they will out-weigh those of any other strain. There is a great difference in the strain of this variety offered, but our stock is the very best. Pkt, 15 cts; ¼ oz, 75 cts; ½ oz \$1.25, oz, \$2.25.

EARLY SNOWBALL

Dry Weather Cauliflower

Especially adapted to resist drought.

Reaches perfection where ordinary sorts fail.

Pre-eminently the best early variety for the family garden and also for market gardeners in sections which are not especially adapted for cauliflower.

Plants are of vigorous growth, producing large, solid heads of snowy whiteness and fine quality. It has heavy foliage and is not liable to rot in hot weather. It is in all respects a first class cauliflower but is peculiarly adapted to dry situations and to resisting the effects of drought.

It also does well in wet or moist situations. Producing heads equal to the best. Pkt, 15 cts; ½ oz, \$1.50

Autumn Giant Cauliflower

This is a large variety, with fine, well proportioned heads. The heads are so well protected by the foliage as to remain fit for use a long time. Suitable for late planting. Quality excellent. Pkt, 10 cts; oz, 60 cts.

SUREHEAD

DRY WEATHER CAULIFLOWER

**The first step towards big crops!
Plant Jung's Seeds.**

CARROTS

Danvers

A handsome half-long cylindrical, stump-rooted carrot of good size and of a rich, dark orange color; it grows to a large size, is smooth and the flesh very close in texture with little core, and a small tapering tap-root. It is a good carrot for all soils; under good cultivation it has yielded 25 to 30 tons per acre. It is very easily harvested.

Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 40 cts

DANVERS

Chantenay

This variety is desirable in all respects. It is stump-rooted and therefore very easily dug. Roots are very smooth, fine in texture, and of a beautiful orange color. For table use it is considered to be the best of all both on account of shape and quality. Although this is a medium, early sort, it furnishes roots of usable size as early as any other variety is a heavy cropper and undoubtedly one of the best for both the market and private garden, while its great productiveness makes it very desirable as a field sort. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 40 cts

Oxheart

A magnificent carrot for general culture; indeed by many considered the best of all. It is very thick through, about 5 inches long, stump-rooted, often attaining a weight of 5 pounds. Flesh rich orange in color, very tender and sweet. We recommend this variety for both home and market gardens; especially adapted for hard or stiff soils where longer varieties will not thrive. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts

Early Scarlet Horn

This is a popular early variety, three to four inches long and is a great favorite for bunching for market and is sometimes used for forcing. Flesh is fine grained and a deep orange in color. It has a small tap-root and does fine in shallow soil. A fine table carrot, when pulled young it is considered the best early table sort. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 45 cts.

LARGE WHITE BELGIAN

Large White Belgian

This is the heaviest cropping carrot grown, yielding more tons to the acre than any other sort.

The flesh is white, crisp and solid and very sweet in flavor. The roots grow about one foot long and are heavy at the shoulder, making it easy to harvest. The roots frequently measure 14 to 18 inches in circumference, and 18 to 25 tons per acre is nothing unusual. Farmers should grow some of these carrots for his stock. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 30 cts; lb., \$1.00.

Chinese Or Celery Cabbage

Until recently this new vegetable was unknown but as its good qualities became known it is rapidly gaining popular favor. For best results the seed should be sown the latter part of July in rows 2 feet apart and thinned to stand 15 inches apart in the rows, then a most excellent vegetable can be grown. Develops quickly, and as the weather gets colder, it heads up nicely, producing crisp, celery-like stalks, beautifully blanched. It can be eaten raw, made into salads, or cooked as cabbage or greens. Pkt., 10 cts; oz., 40 cts.

CHINESE OR CELERY CABBAGE

WHITE PLUME

CELERY

White Plume

This is the earliest and most easily blanched celery. The plants grow rapidly and blanch easily during the summer months. Later in the fall the central stalks and leaves are of pure, snowy whiteness even without earthing up, but stalks should be gathered together and earthed up as in the other varieties, so as to produce close, attractive bunches. As for succulence, crispness and quality, the White Plume is unequalled. Pkt. 5 cts; oz, 30 cts.

Golden Self-Blanching

The best of all self-blanching varieties. It is without doubt the most popular celery grown. The ribs are perfectly solid, crisp, brittle and of a delicious GOLDEN SELF-BLANCHING FLAVOR, surpassed by no other variety, while it has the decided merit of being self-blanching to a remarkable degree. It is extensively grown for market and private use, not only on account of its easy culture, but for its superior quality. The hearts are large and hard and blanched to a beautiful golden yellow. When grown in moist soil the stalks are numerous and large in size. Pkt, 10 cts; oz, 50 cts.

GOLDEN SELF-BLANCHING

Winter Queen

The most popular of all CELERIES for winter. It grows very stout, thick and very heavy, with a much larger heart than any other variety. It is a close compact grower, branches to a beautiful creamery white and is showy and attractive in appearance when ready for table use. The stalks are solid, crisp and of a rich, nutty flavor. It bunches up handsomely and presents an attractive appearance on the market. Pkt, 5 cts; oz, 20 cts.

WINTER QUEEN

Giant Pascal

One of the most popular sort for winter use. It grows about two feet high; the stalks are thick, solid and stringless, and almost as brittle as glass. The stalks are of strong growth, wide and thick, quite heavy ribbed, very brittle and crisp when nicely blanched, making large bunches. It blanches easily and keeps well. Especially recommended for the south where it is prized more than any other kind. Pkt, 5 cts; oz, 20 cts.

CUCUMBERS

White Wonder

NOT A FREAK—But a wonderfully good slicing cucumber.

In color it is a beautiful, pure snow white. Grows to good size, usually 8 to 10 inches long, and is very uniform. In season almost the same as the WHITE SPINE, but keeps in eatable condition longer. Its smooth, clear surface makes this an ideal pickle. The firm, crisp flesh with its pleasing flavor is just right for slicing or in salads. WHITE WONDER furnishes you QUANTITY AND QUALITY. A packet of seed yields cucumbers in abundance for canning, pickling and slicing. Pkt, 5 cts; oz, 15 cts; ¼ lb, 35 cts.

WHITE WONDER

Danish Pickling

A cucumber which for either slicing or pickling is unexcelled. The vines are unusually vigorous and will withstand insects and disease which would kill other sorts. It is very prolific, being one of the heaviest yielders known. The cucumbers grow to a good size, when fully matured are from 12 to 16 inches in length. They will always bring the best prices. When the right size for slicing the fruits are dark green in color and remain so for a long time. You will make no mistake in planting this variety. Pkt, 10 cts; oz, 20 cts; ¼ lb, 45 cts; lb, \$1.50.

DANISH PICKLING

**EARLY FORTUNE
CUCUMBER**

Early Fortune

This variety is exceedingly productive and is distinguished by its vigorous growth and large healthy leaves making it less susceptible to disease than other varieties. The fruits are very uniform in size and shape and rich, dark green in color, this color does not fade when shipped a long distance. As a pickling variety **EARLY FORTUNE** is one of the best as the fruits are so uniform. Pkt, 5 cts; oz, 15 cts; $\frac{1}{4}$ lb, 35 cts

JUNG'S FAIRFIELD GIANT

Jung's Fairfield Giant

The darkest green and most nearly seedless Cucumber in cultivation. The vines are unusually vigorous in growth and produce an enormous crop of handsome fruit. They are smooth, of a very deep green color, and grow from fifteen to twenty inches in length, being one of the largest Cucumbers grown. When the fruits are from eight to ten inches in length, or just the right size for slicing, they are practically solid, there being hardly a trace of seed to be found. The pure, white flesh is very firm, sweet and crisp and of the finest flavor. As shown in the illustration the fruits are very long and slim which together with their deep green color will make them bring the top prices on all markets. Pkt, 10 cts; oz, 20 cts; $\frac{1}{4}$ lb, 60 cts, postpaid.

EVERBEARING

Everbearing

This is a very early variety and extremely prolific. If the fruits are kept gathered, vines will continue in bearing throughout the season. The fruits, of a rich, dark green color, average from four to five inches in length by an inch and a half in diameter. Owing to its great productiveness it is a fine variety to plant for producing small pickles. Pkt, 5 cts; oz, 15 cts; $\frac{1}{4}$ lb, 35 cts, postpaid.

FORDHOOK FAMOUS

Fordhook Famous

The longest white spine, finest flavored of all cucumbers. This is the handsomest of all long green cucumbers; always straight and well-formed, they never turn yellow. Critical buyers are willing to pay an extra price on market for these unequalled fruits. The vines are of strong, vigorous growth, with heavy foliage, and set the extra large fruits freely throughout the season. The cucumbers are smooth and regular in form, averaging twelve to fourteen inches in length, and have a very thin and tender skin. The flesh is very thick, crisp and exceptionally mild in flavor. The cucumbers are about all flesh as the seed spaces are very small. Pkt, 5 cts; oz, 15 cts; $\frac{1}{4}$ lb, 35 cts.

EXTRA EARLY WHITE SPINE

Extra Early White Spine

A dark green, handsome cucumber, often attaining a length of 12 inches; straight and attractive in shape. It makes a hard, brittle pickle when small and a grand table variety when large. Excels in earliness, often ready for slicing when other sorts are only pickles. Vines are vigorous growers and bear large crops. It makes a valuable variety to plant for early market. Pkt, 5 cts; oz, 15 cts; $\frac{1}{4}$ lb, 35 cts.

CUCUMBER—Continued

DAVIS PERFECT

Cumberland Pickling

CUMBERLAND CUCUMBER: The vines are hardy, of strong, vigorous growth, and very productive. The young cucumbers are thickly set with small spines, and are equally attractive for making small gherkins, possess the distinct roughened surface so much desired in pickles. When matured the fruits average nine to ten inches in length, two and one-half inches in diameter, have well rounded ends, and are of excellent quality for slicing. Pkt, 5 cts; oz, 15 cts; ¼ lb, 35 cts, postpaid.

Davis Perfect

A cucumber which for shape, quality, color and forcing indoors, or growing outside, is unexcelled. The type is perfectly fixed; it has an ideal shape, being slim and symmetrical. The eating qualities surpass all other varieties. The seeds that are contained in it when it is in slicing condition are so small and tender that they are unnoticed. The vines are very strong and rampant growers and enormously productive, outyielding any variety at present on the market. It does not change its dark color when grown outdoors, in fact it resembles the hothouse product so closely that dealers cannot detect the difference. The most nearly perfect CUCUMBER yet produced. Pkt, 10 cts; oz, 15 cts; ¼ lb, 35 cts.

Emerald

A symmetrical dark green cucumber which holds its color a long time after being picked. It is strictly an evergreen, retaining its color until quite ripe, making it an attractive variety. The fruits set early, and its vigorous vines abound in long, straight, handsome fruits of the most desirable qualities. As a slicer, the flesh is perfectly crisp and tender, and the flavoring most pleasant. The young fruits being a dark green, straight, slender and almost spineless, makes an excellent pickle, and when ripe none excel it for making sweet pickles. Good for forcing under glass or long distance shipping. Pkt, 5 cts; oz, 15 cts; ¼ lb, 35 cts.

EMERALD CUCUMBER.

EGG PLANT—Black Beauty

The earliest and best of all large-fruited Egg plants. It is an extra early variety with fruits of a beautiful jet color. The fruits set freely and develop quickly so that the crop can be gathered before there is any danger from frost. It is of dwarf growth and bears its fruit, which weighs from one to three pounds each, close to the stem. The calyx is entirely free from spines and thorns. The intensely brilliant coloring is uniform over the whole fruit. The plants usually bear eight to ten immense fruits before being killed by frost. Pkt, 10 cts; oz, 40 cts.

PEANUTS

Early Virginia

This splendid variety is very desirable because so early and prolific. It grows perfectly erect. Planted in April they ripen in August and will mature a crop before frost. It is in every particular a very satisfactory variety to grow. Can be grown in the North. Pkt, 5 cts; pt, 25 cts; qt, 45 cts. By express: Qt, 35 cts.

BLACK BEAUTY EGG PLANT.

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

GROUND CHERRY

The introducer says: "It is very good for canning, preserving and pies. Dried in sugar as raisins or figs, they are excellent; handsome yellow color and will keep until January. Produces fruit of strawberry flavor in great abundance, from 1 to 2 inches in diameter; highly prized." Per pkt. 5c.; 3 pkts 10c.

KOHL RABI

Purple Vienna

This vegetable is grown for its turnip-shaped bulb, which is grown above the ground. Excellent for soups or cooked in the same manner as turnips. Grows to a large size and of juicy quality. Very early, of fine shape and

sweet pickles and preserving they are splendid. Per pkt. 5c.; 3 pkts. 10c., postpaid.

THE EARLIEST

White Vienna

This vegetable is grown for its turnip-shaped bulb, which is formed above ground. Excellent for soups or cooked in the same manner as turnip. The bulbs should be used while young and tender. The best for table use. Pkt. 5 cts.; oz. 25 cts.

Cress—Fine Curled

An annual, making a good salad. Leaves are finely cut and feathery, like a good parsley. It is dwarf and compact in growth. Very ornamental; of quick growth, crisp and refreshing. Pkt. 5 cts.; oz. 15 cts.

LEEK

Most highly esteemed for flavoring soups, stews, etc.. The plants are of strong, vigorous growth and have extra long stems which branch to a snowy whiteness and are of delicious flavor. Cultivate the same as for onions. Pkt., 5 cts.; oz., 25c.

OKRA—White Velvet

The long, tender pods of Okra are very delicious when sliced and cooked in soups. While this is its chief use, it can be boiled and served like other vegetables. The pods should be gathered while young, as they are then very tender. Pkt., 5 cts.; oz., 10 cts.

MUSTARD—Gigantic Thick Leaved

GIGANTIC THICK LEAVED—Each plant produces a great number of large, thick leaves, which are of the finest flavor. Grown in rich soil the leaves attain a length of two feet. It is excellent for boiling. Pkt., 5 cts.; oz., 10 cts.

HERBS

Herbs delight in a rich, mellow soil. Sow in early spring in shallow drills 1 foot apart; cover lightly with fine soil, and when up a few inches thin out or transplant into prepared beds. Care should be taken to harvest properly. Do this on a dry day, just before they come into full blossom; dry quickly in the shade; pack closely in bottles or dry boxes to exclude the air.

ANISE

Used for cordials, garnishing and flavoring. The seeds have an aromatic taste. Pkt. 5 cts.

SAGE

Sow in rich ground and thin out the plants to stand 15 inches apart. Used for flavorings and dressings. Pkt. 5 cts.

DILL

This herb is used in large quantities in the making of Dill Pickles; also for flavoring vinegar. Pkt. 5 cts.; oz. 20 cts.

MAJORAM SWEET

The leaves and end of the shoots are esteemed for seasoning in summer, and also dried for winter use. Pkt. 5 cts.

SUMMER SAVORY

The leaves and flowers are used extensively for flavoring, particularly in soups and dressings. Pkt. 5 cts.

THYME

The leaves are used for seasoning. Pkt. 5 cts.

TURNIP ROOTED CELERY or CELERIAC

This is an excellent vegetable. It produces large turnip-shaped roots which keep well for winter use. It is highly esteemed either cooked in the same manner as other vegetables for flavoring soups, or sliced and used as a salad. Pkt. 5 cts.; oz. 20 cts.

PARSLEY—Moss Curled

The leaves are of an extra dark color. It is very productive and on account of its densely curled character of leaves a large quantity can be gathered in a short time. It is much used for flavoring and garnishing. Pkt., 5 cts.; oz., 15 cts.

THE GREATEST SEED BUY OF THE SEASON!

Jung's Family Garden Collection. See inside back cover

The Three Leaders Among Sweet Corn.

GOLDEN BANTAM

The Best, the Largest, the Sweetest of all Early Sweet Corns, Retaining Its Delicate Tenderness Even When a Little Old

This variety is pronounced the favorite because of its extreme early character, vigorous growth and surpassingly delicious flavor. It is the ideal garden Sweet Corn, with the richest flavor of all. Besides being early it is very hardy and permits of the earliest planting. Especially recommended for Northern States, also desirable for warmer locations, because the ears are protected by good firm husks, and it is not liable to smut.

The stalks are dwarf in growth, averaging 4 feet in height. The ears are from 5 to 7 inches long and the grain is a bright golden yellow color. In flavor it is exceptionally rich and sugary, and by every one admitted to be the finest flavored Sweet Corn. The small stalks can be planted closely together. For productiveness and quality it leads all varieties.

Pkt. 10 cts.; $\frac{1}{2}$ pt. 20 cts.; pt. 35 cts.; qt. 65 cts., postpaid.

BANTAM EVERGREEN

Golden Bantam Crossed With Stowell's Evergreen

This variety of golden or yellow Sweet Corn combines the size of the Evergreen ear with the color and delicious quality of the Golden Bantam. In crossing these two excellent varieties, none of the good qualities of either has been lost, rather it surpasses them in sweetness and tenderness. The ears are 7 to 9 in. long, well

GOLDEN BANTAM

filled with deep kernels of rich yellow corn. Not an extra early sort, yet it comes just right in season to follow the first early sorts. The larger ears and prolonged season make it the favorite, both in the home garden and for fancy market trade. All lovers of Sweet Corn must at least give Bantam Evergreen a trial. Pkt. 10 cts., $\frac{1}{2}$ pt. 20 cts., pt. 35 cts., qt. 65 cts., postpaid.

BANTAM EVERGREEN

WHITE EVERGREEN

THE LEADING LATE VARIETY OF SWEET CORN

The most valuable Sweet Corn ever produced. White Evergreen is much superior to Stowell's. It retains all the most desirable features, with the added merits of pure whiteness in color, a more tender grain and distinctly sweeter flavor. The ears average very large and are well filled to the tips with the long sweet grains of pure whiteness and most delicious flavor. The stalks are very strong growers, from 6 to 7 feet high, and sometimes bear three fine ears to a stalk. The ears contain 16 or more rows of deep grains, which are protected by a thick, heavy husk.

Pkt. 5 cts., $\frac{1}{2}$ pt. 20 cts., pt. 30 cts., qt. 60 cts.

WHITE EVERGREEN

SPECIAL OFFER

These three great Sweet Corn should be planted in every garden. As a special inducement we make the following offer:

ONE PKT. OF EACH FOR 20c. ONE-HALF PT. OF EACH FOR 50c.

ONE PINT OF EACH FOR 85c.

SWEET CORN--Continued.

Early Fordhook

One of the earliest varieties of SWEET CORN in cultivation. The ears are large, averaging from 6 to 8 inches in length. Ears are eight-rowed, with quite small cobs and deep grains. The seed is of exceptional hardness, admitting to early planting. The stalks are of sturdy, vigorous growth, three to four feet high, with abundant foliage, and generally produce two fine ears to a stalk. Both grains and cobs are of pure white color. Pkt, 5 cts; $\frac{1}{2}$ pt, 20 cts; pt, 30 cts; qt, 55 cts.

Premo

A LEADING EARLY VARIETY. It combines all the merits of the leading early varieties, but is superior to them in size, quality and yield.

PREMO is very hardy and may be planted sooner than other varieties. The stalks grow about five feet high and are very vigorous, generally bearing two well developed ears to a stalk. Its earliness and table quality is sure to bring it into favor with all gardeners. Pkt, 5 cts; $\frac{1}{2}$ pt, 20 cts; pt, 30 cts; qt, 55 cts.

Howling Mob

THE LARGEST EARED, SWEETEST FLAVORED EARLY VARIETY IN CULTIVATION. This variety is of exceptional hardness and productiveness. It produces ears of large size, combined with an unusual sweet flavor for so early a corn. The stalks are strong and vigorous, four to four and one-half feet high. The ears are seven to nine inches in length, with 14 or more rows of medium sized pearly white grains. The grains are sweet and rich in flavor. The ears are protected by a heavy husk which extends beyond the tip of the ear and forms a safeguard against the destructive green worms. Pkt, 5 cts; $\frac{1}{2}$ pt, 20 cts; pt, 35 cts; qt, 60 cts.

PREMO

Jung's Early Fortune

We sent out this variety for trial the last two years and it has given the best of satisfaction. This variety originally came from Canada and at our Fairfield Farm trials it was the earliest of all. There is no product of the garden so eagerly waited for as the first sweet corn of the season. Early Fortune is the real, tender, juicy sweet corn, ready for use before the summer has really commenced. Not only is it early, but it is also sweet and delicate in flavor, being excelled in this respect by no other corn, except Golden Bantam. On account of its extreme earliness Early Fortune is especially adapted for planting in northern latitudes and in high altitudes where other varieties fail entirely. The stalks do not grow very large but have two and often three unusually large ears. Ears are about seven inches long and well filled with sweet and tender grains. Pkt, 10 cts; $\frac{1}{2}$ pt, 20 cts; pt, 30 cts; qt, 50 cts, postpaid.

EARLY FORTUNE

EARLY FORDHOOK

HOWLING MOB

SWEET CORN----Continued

Golden Cream

A new variety with long pointed kernels like Country Gentlemen, which are closely set on a very slender cob.

The flavor is remarkably sweet. When at eating stage the ears are cream colored but are decidedly yellow when cooked. The ears are ready for use about a week later than those of Golden Bantam and are from six to seven inches long, with twelve to fourteen rows of deep and rather slender grains. It is good enough to eat raw.

The stalks are rather dwarf and bear from two to four fair sized ears each. Pkt, 5 cts; ½ pt, 20 cts; pt, 35 cts; qt, 55 cts, postpaid.

BABY RICE

Baby Rice Popcorn

The Baby Rice is dwarf growing corn, a heavy yielder of attractive ears and peculiar form, being nearly as thick as long. The kernels are similar to the best strains of WHITE RICE, only longer and slimmer, and pearly white in color, but its crowning merit lies in its popping quality, fine flavor and absence of hull or shell. Most tender and delicious flavor when popped, without any hard particles, melts in your mouth. Try it once, you will not be without it again.

Pkt, 10 cts; ½ pt, 20 cts; pt, 30 cts; qt, 60 cts, postpaid

POP CORN—White Rice

This variety is the best for popping; grains pointed; pops full and white; ears large sized, very handsome; productive; excellent quality; very crisp and delicious. Pkt, 5 cts; ½pt, 20 cts; pt, 30 cts; qt, 55 cts.

Everbearing Strawberry

Everbearing Strawberries are easily grown from seed and we know you will be pleased and delighted if you try growing a few in this way. Our seeds was all saved from choice plants, of the leading, everbearing varieties, and by planting a packet you should get an endless variety of new kinds that will bear fruit continuously spring, summer and fall. Strawberries grown from seed don't always come exactly like the parent plants, which makes it all the more interesting to grow them in this way. You may get some new varieties that will make you a fortune. All the leading varieties are seedlings, and were secured in just this way.

They are perfectly hardy, and after the first season will produce an abundant crop of berries early in the season like common varieties of strawberries and continue bearing without intermission until freezing weather in the late fall. Pkt, 10 cts; 3 for 25 cts, postpaid.

EVERBEARING STRAWBERRY

LETTUCE

Deacon

This magnificent lettuce stands hot weather better than any other of the rich butter varieties. Plants make firm heads, nearly as large and almost as solid as a cabbage. The heads are light green outside, while the inner blanched portion is cream-yellow and of delicious, rich buttery flavor.

Pkt, 5 cts; oz, 15 cts; ¼ lb, 35 cts, postpaid.

Golden Cream

DEACON
LETTUCE,

Photograph.

LETTUCE---Continued

Earliest Wayahead

This is the quickest growing and most attractive extremely-early Lettuce, producing handsome, solid heads fully one week earlier than Black Seeded Tennis Ball. Its earliness makes it the ideal variety for market gardeners, as the early heads always bring the best price. Its quality is unsurpassed; the heads are very solid; have weighed 6 ounces when trimmed. The interior of the heads is blanched to a beautiful creamy color; while the leaves are tender, juicy and sweet flavored. The quality of this variety is unequaled among the early sorts. Pkt., 10 cts; oz., 20 cts; ¼ lb, 45 cts, postpaid.

EARLIEST WAYAHEAD

Jung's All Cream Lettuce

This remarkable Lettuce does not head, but makes a large loose bunch of leaves of superlative fine quality. The leaves grow upright, the upper part of the outer leaves turning outward very gracefully, and are handsomely wrinkled. The inside leaves are almost white and wonderfully crisp and tender. It grows quickly, is ready for use early, and remains for weeks. It is the cream of all sorts and should be grown in every garden. Pkt., 5 cts; oz., 15 cts; ¼ lb., 35 cts.

Big Boston Lettuce Select Stock

This is a fine forcing variety for cold frames during the winter months, as it produces heads of large size, often ten to twelve inches across, and succeeds better in a cooler temperature than most forcing strains. The large heads are beautifully blanched and of superior quality. It heads well also in the open ground during cool weather of spring and fall, and is very popular in the South for shipping North. Our seed is the choicest it is possible to produce. Pkt., 5 cts; oz., 15 cts; ¼ lb., 35 cts.

JUNG'S ALL CREAM

Grand Rapids

A well known forcing variety. It does not form heads but makes large bunches of light green leaves with fringed edges. Its upright habit of growth permits close planting. It will make a quick growth under adverse condition and is not subject to rot. Quality excellent. Pkt., 5 cts; oz., 15 cts; ¼ lb., 35 cts.

You should grow LETTUCE largely for your table! Nothing is more wholesome, and if you once acquire the habit you will wonder how you ever enjoyed a dinner without this delightful salad. Our stock is extra fine. Our packets each contain ¼ ounce of seed.

BIG BOSTON LETTUCE

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

LETTUCE—Continued

MAY KING

CALIFORNIA CREAM BUTTER California Cream Butter A GRAND CABBAGE LETTUCE

A Brand, Good Butter Lettuce for summer use. The heads are of good size, round and solid. The outside leaves are medium green, while those within are of a rich, cream yellow.

Rich and buttery in taste. It produces large, solid heads even in hot weather. Easy to grow and a good shipping variety. This is one of the finest and best sorts ever offered. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts.

May King

This variety is not in the least affected by cold or wet weather, but produces large, solid heads, 10 to 14 days ahead of most other varieties. The plants grow from 6 to 7 inches in diameter, with the outer leaves folding closely, forming the plant into a solid head. The outer leaves are light green, slightly tinged with brown; the inner leaves are light yellow and of a fine, rich, buttery flavor. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts.

NEW
ICEBERG

New Iceberg

The unusual solidity of the heads is assured by the large, white main ribs of the leaves, each of which, curving strongly into the center, acts like a truss, making it impossible for the leaves to open outward and expose the center, which is thoroughly blanched. It is quick growing and always crisp and tender whether propagated in early spring or in the hot days of summer. The heads are of good size. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts.

JUNG'S EARLIEST RIPE.

Jung's Earliest Ripe

Positively the earliest Green-fleshed Musk Melon ever grown.

Of medium size, weighing from $2\frac{1}{2}$ to 4 pounds. The skin is green, ribbed and netted, the flesh deep and thick and light green in color inclining to yellow toward the center. In flavor it is exceedingly fine. A heavy cropper and absolutely the earliest of all MUSK MELONS. We recommend it particularly to all whose profit depends upon being first in market and their uniform size and shape combined with their extremely delicious flavor sell readily at high prices. If you want a firm, solid melon and to be first on the market, plant JUNG'S EARLIEST RIPE. Pkt., 10 cts; oz., 20 cts; $\frac{1}{4}$ lb., 40 cts.

MUSK MELONS

EXTRA EARLY HACKENSACK

Extra Early Hackensack

This is a selection of the popular Hackensack, but ripens fully ten days earlier. A bountiful yield and one of the most extensively grown of all musk melons. It is a large, round variety, flattened at the ends, well ribbed and deeply netted. The flesh is green, inclining towards yellow at the center, and of the most delicious flavor. Fruits attain a good size. The vines make good, strong growth and bear abundantly. It is also considered as a splendid shipping melon. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts.

HENDERSON' BUSH MUSK MELON

GOLD LINED ROCKY FORD

NEW OSAGE

Henderson's Bush MUSK MELON

THE MOST REMARKABLE SEED NOVELTY OF THE AGE. PERMITS TWICE AS MANY MELONS TO BE GROWN ON THE SAME SPACE AS FROM VINE VARIETIES.

The fruits are of the popular "Jenny Lind" type but larger, averaging five inches in diameter; they vary somewhat in shape from flattened-round to almost spherical; the ribs are shallow; the surface is dark green, but so densely netted that it appears almost russet colored. The flesh is very deep, edible almost to the rind and is colored light green flushed with salmon towards the center.

The seed cavity is small. The quality is superb, lusciously sweet and juicy with a cool, gratifying flavor and delightful aroma. Its vineless character of growth or "bush habit" is a distinct advantage as it saves space thus permitting it to be grown even in small gardens. The plants are stocky and vigorous, growing from 15 to 18 inches in length, and two or three of them to a hill form a circular mound three feet in diameter. Our stock is limited. Pkt. of 100 seeds 10 cts; 3 pkts for 25 cts; oz., 40 cts, postpaid.

Paul Rose

This variety combines all of the good qualities of Netted Gm. and Osage, the varieties from which it is originated; possessing the sweetness of the latter and the finely netted appearance of the Gem. The fruits are nearly round or slightly oval and of a light green color when fully ripe. The flesh is thick, of a rich, orange color, and ripens close to the rind. Its firm flesh makes it an ideal shipper. Pkt., 5 cts; oz, 10 cts; ¼ lb., 30 cts.

Gold Lined Rocky Ford

This popular melon has been on the market for the past three years, and has met with universal satisfaction wherever tried. We consider it the best type of Rocky Ford melon grown for shipping and market gardeners' trade.

Its quality and productiveness are unsurpassed, every melon being marketable.

Every care possible has been exercised in breeding this melon to a uniform type for an ideal crating melon and it will carry farther in good condition than any other melon we are acquainted with.

It is green fleshed, with a gold lining next the seed cavity, heavily netted and rust resisting.

Pkt, 10 cts; oz, 20 cts; ¼ lb, 50 cts.

New Osage

An excellent main crop, medium to large, oval salmon fleshed melons. The vines are vigorous and productive. The fruits are slightly oval, dark green, slightly ribbed and partly covered with shallow gray netting. The flesh is rich orange-salmon, very thick and fine grained and highly flavored.

Of vigorous growth, the foliage is of such firm texture that the vines resist the attacks of insects and blight. It is very prolific for so large a variety, frequently producing as many as ten large melons to a vine. The seed cavity is so small that there is no tendency towards cracking open at the blossom end.

Pkt, 5 cts; oz, 15 cts; ¼ lb, 35 cts postpaid.

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

MUSK MELONS—CONTINUED

NETTED GEM OR ROCKY FORD

Netted Gem or Rocky Ford

ONE OF THE MOST POPULAR GREEN FLESHED MUSK MELONS. In the hands of Rocky Ford growers it has made Colorado famous in eastern markets for melons of UNEQUALED QUALITY. The vines are exceedingly healthy and vigorous, bearing enormous quantity of fruits during the entire season. The color of the skin is a rich, greenish gold; the netting is prominent and light in color, appearing very attractive. The flesh is deep, ripening clear to the rind, very solid, yet thoroughly melting, and it has an exceedingly small cavity. It is very sweet and luscious in flavor. No melon comes to market that sells as readily and at such prices as the ROCKY FORD, often to the exclusion of other varieties. Pkt, 5 cts; oz, 15 cts; $\frac{1}{4}$ lb, 35 cts.

Burrell's Gem

A popular salmon fleshed melon. The melons are 6 to 7 inches long by 4 to 5 inches in diameter, rather sharply sloping at the ends. They are quite well ribbed and covered with a fine grayish netting. The flesh is thick and firm, ripening close to the skin, leaving only a thin rind. The skin is a rich dark green, contrasting finely with the deep orange-salmon colored flesh, which is very sweet and tender. Pkt, 5 cts; oz, 10 cts; $\frac{1}{4}$ lb, 30 cts.

New Fordhook

The finest flavored and sweetest Musk Melon in cultivation. Fully equal to Emerald Gem in flavor. So firm is the rough netted skin, and so solid the thick salmon flesh, that the onions carry to market even better than Emerald Gem. The flesh is very thick, of an attractive deep salmon color, and surpassingly sweet to the very rind. The flesh is not only very thick, but also extremely solid. The rind, although thin, is usually firm, so that the fruits carry well to market. It is most vigorous in growth, very early, and extremely prolific. Each vine sets from five to nine melons around the stem; frequently touch one another. The melons are very even in sizes, weighing from $1\frac{1}{2}$ to 2 pounds each. For handsome appearance, extreme earliness, great productiveness and superb quality it is unexcelled. Be sure to give NEW FORDHOOK a trial. Pkt, 10 cts; oz, 20 cts; $\frac{1}{4}$ lb, 40 cts, postpaid.

NEW FORDHOOK MUSK MELON

New Model

Spicy Green Flesh, Small Seed Cavity. A Prodigious Bearer.

The Model is an early cantaloupe, about twice the size of Rocky Ford, and more productive. It is almost round, the flesh is thick and firm, green-colored, while in delicacy and flavor it is unexcelled. The Flesh extends from the rind almost to the center of the melon. The Model bears transportation well, and can be carried to distant cities without injuries. The average weight per melon is over two pounds. No one who wants good melons for either home or market use should fail to plant this variety. Pkt, 5 cts; oz., 15 cts; $\frac{1}{4}$ lb, 40 cts., postpaid.

WATER
MELON

Water Melons

BABY DELIGHT

Baby Delight

CLIMBING WATER MELON

A REAL CLIMBING WATER MELON OF LUSCIOUS SWEETNESS. The ripe melon weighs from three to six pounds each. The rich carmine flesh is always solid and of exceptionally sweet flavor. They have small apple-like gray seeds which separate easily from the flesh. The long vines are of vigorous growth, the heavy foliage nearly concealing the fruit.

The first melons mature early, but the strong vines continue to produce the attractive little melons in great abundance all season. This melon will become popular alike for the family table and for restaurants, both on account of its fine flavor and convenient size. The skin is dark green, the rind thin and long. There are absolutely no misshapen melons on the vines—all running uniform and marketable. Pkt., 10 cts; 3 pkt. 20 cts; oz. 30 cts; ¼ bl. \$1.00, postpaid.

Fordhook Early

This is the only extra early Water Melon we have that is of good size and quality. The fruits are of large size, rather short and blocky in form with large diameters. Flesh is bright red, crisp, sweet, and of splendid quality. The quality continues to improve after ripening. The heart is large; there is but little seed cavity and very few seeds.

The vines are of strong, vigorous growth, setting large melons in good numbers. Skin is dark green, occasionally with faint stripes of light green. Pkt., 5 cts; oz., 15 cts; ¼ lb., 30 cts.

HARRIS EARLIEST

Harris Earliest

THE BEST SHIPPER IN THE EARLY CLASS

This is the sweetest early melon, the largest early melon, and the best shipping early melon.

It is slightly oblong, broadly striped light and dark green; flesh is bright red, sweet and crisp; seed black. The vines are vigorous and productive, growing melons weighing 15 to 20 pounds. Plant this strain for home gardens for use before common melons begin to ripen. Maturing in 60 to 70 days it is just the kind for northern latitudes. Harris Earliest beats all competitors for early shipping and is first on the market. Pkt., 5 cts; oz., 15 cts; ¼ lb., 35 cts.

Halbert Honey

THE VERY FINEST MELON IN CULTIVATION FOR HOME USE OR NEARBY MARKET. A Melon that has no equal in beauty, quality and productiveness. The Melons are smooth and regular in outline, fourteen to eighteen inches long and six to eight inches in diameter. Color of the rind is a clear, glossy, deep green. The flesh is a beautiful crimson extending to within less than half an inch of the rind, which, like the rind, is so tender that it will not stand shipping a long distance unless carefully handled. The first

Melons ripen early and the vines continue to develop fine fruit throughout the season; even the late fruits are of the same size and regular form. The sweet flesh melts away in your mouth like honey. Pkt., 5 cts; oz., 15 cts; ¼ lb., 35 cts.

Special Offer

1 pkt. of each of these 4 fine Water Melons for 20c.

WATER MELONS (Continued)

Tom Watson

BEST QUALITY, BEST SHAPE, BEST SHIPPER, BEST SIZE AND BEST APPEARANCE.

The Tom Watson is an extra large melon of attractive appearance, uniform in shape and quality. The luscious crimson flesh is "sweet as honey," melting, and of superb flavor. The average melon weighs from 35 to 40 pounds and measure about 20 inches in length and 12 inches in diameter. It is very prolific, producing in greatest abundance the delicious fruits. The dark green rind is tough but thin and easily withstands shipment to far distant markets. The heart is large with no sign of core.

Pkt. 5 cts; oz., 15 cts; ¼ lb., 30 cts.

Sweet Heart

A large Melon nearly globular in shape, but a little longer than thick. Fruits are large and heavy, skin very pale green, with distinct netted lines of a slightly richer shade. The solid flesh is a rich deep red, crisp and melting; its excellent quality has made it a leading favorite on the market. The vines are vigorous and productive, ripening the fruits quite early. A good keeper and a good selling melon, being attractive and of good quality. The handsome fruits bear shipping well. Pkt., 5 cts; oz., 10 cts; ¼ lb., 20 cts, postpaid.

Dixie

A Water Melon of highest quality and value. The size is large, specimens of 50 pounds being not infrequent. Flesh is scarlet, very fine, and extra firm. This variety is the most prolific known, often producing six to eight melons on a single vine. The vines root at the joints and thus become more droughts resisting and vigorous. Pkt. 5cts;oz. 10cts.; ¼ lb. 20 cts.

DIXIE

Dark Icing

A nearly round, white seeded Water Melon, with very thin rind. The flesh is deep pink and of delicious sweetness. Fruits large, very dark skin and of attractive appearance. The vine is a remarkably strong grower and a heavy bearer. It is an excellent shipper, notwithstanding its thin rind. Pkt., 5 cts; oz., 10 cts; ¼ lb. 20 cts.

Citron Colorado Preserving

Medium sized, round, used only for preserves and pickles. Pkt., 5 cts; oz., 10 cts; ¼ lb. 25 cts; lb. 75 cts.

YELLOW GLOBE DANVERS

ONIONS

We make a specialty of "HIGH GRADE" ONION SEED. It is better to plant no Onions at all than to sow seed of poor quality. Our seed is grown from the finest selected bulbs and is of strong vitality.

OUR PACKETS OF ONIONS CONTAIN SUFFICIENT SEED TO SOW ABOUT 50 FEET OF DRILL.

Yellow Globe Danvers

This is a standard yellow onion and is more largely grown than almost any other variety. The bulbs grow to about two and one-half inches in diameter, are nearly globe shaped, and of a light, golden brown color. The flesh is pure white. The bulb is extremely hard and solid, and its earliness, sure cropping character, handsome appearance and excellent quality, have placed **YELLOW GLOBE DANVERS** among the leading varieties for the home or market garden. It forms a bulb very early in the season, so that it may be used almost all summer, and ripens crisp and solid in the fall. It is a very heavy cropper. Our strain of this variety is unsurpassed. Pkt., 10 cts; oz., 25 cts; ¼ lb., 85 cts; lb., \$2.60.

J. W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

THREE ACE GLOBE ONIONS

The Southport Globe Onions have increased wonderfully in public favor during the past few years, and they well deserve their popularity. In almost all markets they invariably bring top prices. They are not only of handsome appearance, remarkable solidity and good keepers, but also fully equal in yield to the best strains of any varieties

SOUTHPORT RED GLOBE
Southport Red Globe

A handsome onion of immense size, averaging from nine to ten inches in circumference, solid, heavy and of perfect globe shape. The skin is a glossy, deep purplish red color. The flesh is close grained, sparkling white, cooking tender and mild. It is hardy, a splendid keeper and a big yielder, averaging under good culture, from 800 to 1,000 bushels per acre. Our strain of this seed is unsurpassed, the bulbs being selected for largest size, solidity, brilliant rich color, and typical globe shape, with small necks, thus insuring thorough and regular ripening and curing. You will make no mistake in giving this onion a trial. Pkt, 10 cts; oz, 25 cts; 1/4 lb, 65 cts; 1/2 lb, \$2.40 postpaid.

SOUTHPORT
YELLOW
GLOBE.

Southport Yellow Globe

This is one of the most satisfactory and popular varieties raised for family use or market. It is an enormous yielder, hardy and reliable, making under normal conditions, often up to 1,000 bushels per acre. The onions are models of perfection, growing uniformly deep and globular in shape, veritable globes of gold, and extra large, averaging nine to ten inches in circumference. The color of the skin is an attractive golden yellow, the flesh snow white, firm, mild and juicy. The small necks enable the onions to ripen down evenly, insuring good keeping qualities. Pkt, 10 cts; oz, 25 cts; 1/4 lb, 80 cts; 1/2 lb, \$2.60.

Southport White Globe

The most beautiful Onion grown, being of symmetrical globe shape with a smooth satin-like skin, forming a perfect silver ball.

It grows to a large size, averaging seven to nine inches in circumference, and is solid and heavy; the flesh is purest white, close grained, mild and of delicate flavor. Owing to its large size it is later in ripening than the White Portugal or Silverskin. As soon as ripe the bulbs should be stored in a cool, dark shed or dry cellar. It is a heavy cropper. For the family garden as well as for market it is a valuable onion. Pkt, 10 cts; oz, 30 cts; 1/4 lb, \$1.15.

Large Red Wetherfield

The most popular red variety. It is very productive, having yield over one thousand bushels per acre. It is not an early ripening sort, but continues in growth throughout the season and consequently makes a very large onion. The bulbs are large though somewhat flattened as shown in the illustration. The outer skin is a deep purplish red; flesh white, slightly tinged with rose. It is a fine keeper; suitable for late winter markets. The flavor is good and mild, admirable for boiling. The best variety for poor or dry soils. You will make no mistake by giving this variety a trial. Pkt, 10 cts; oz, 25 cts; 1/4 lb, 65 cts; 1/2 lb, \$2.45, postpaid.

Silverskin

A leading white, flat Onion. The bulbs attain a good size, ripen evenly. The color is a beautiful, silvery white when cured. Its shape is flat but symmetrical. For a white variety it is not only early but also a good keeper. For slicing and boiling it is one of the best, the flesh being mild and tender. It is largely grown for pickling, being sown three or four times as thick as usual, and is also extensively sown for sets. For the family garden it is one of the best. Pkt, 10 cts; oz, 25 cts; 1/4 lb, \$1.10; 1/2 lb, \$4.00.

Prizetaker

THE KING OF ALL YELLOW GLOBE ONIONS

This is one of the largest Onions in cultivation. It is the large, beautiful Spanish variety so often seen in the fruit stores and markets of all large cities.

Bulbs are nearly globe shaped, with bright, straw colored skin, growing to an immense size the first season from seed. They ripen up without stiff-neck, and present a very handsome appearance. The flesh is pure white, fine grained, delicious and mild in flavor; fine for fall and early winter use. Bulbs measure from twelve to fourteen inches in circumference and under special cultivation specimens have been raised weighing five pounds each. In the markets they attract special attention and sell readily at good prices. Pkt, 10 cts; oz, 30 cts; 1/4 lb, 85 cts; 1/2 lb, \$2.95 postpaid.

LARGE RED WETHERFIELD

J.W. JUNG SEED COMPANY

SEED GROWERS RANDOLPH, WISCONSIN

AUSTRALIAN BROWN ONION

PUMPKINS

True Mammoth

THE LARGEST PUMPKIN IN CULTIVATION. This is a True Mammoth Pumpkin. Fruits grow to enormous size, specimens have been grown weighing one hundred pounds and over. The skin is a light yellow russet color, flesh very thick, bright yellow, fine grained, sweet and tender and of excellent quality for pies. If you wish to see just how large a pumpkin you can raise try this variety. Pkt., 5 cts; oz, 15 cts; 1/4 lb., 40 cts; lb., \$1.30.

I always have such good gardens from your garden seeds.
MRS. GEO. DELL, Jeffris, Wis.

Australian Brown Onion

This remarkable onion is of medium size, wonderfully hard and solid and most attractive for market, both in form and appearance. They are extremely early in ripening and make no stiff necks or scallions. Every seed seems to produce a good sized onion, and the bulb begins to form very quickly, when the plant is not over three inches high. It has the reputation of keeping indefinitely and, we think from its firmness and hardness that it will keep in good condition longer than any other onion known. The color of the skin is a clear amber brown. Pkt, 5 cts; oz, 20 cts; 1/4 lb., 70 cts; lb., \$2.50, postpaid.

ONION SETS

The planting of Onion Sets is increasing rapidly year after year. By planting sets you can have onions ready for use several weeks earlier than can be had from seed.

RED BOTTOM SETS

These are planted to produce both early green and late eating onions. P t., 20 cts; qt, 35 cts, postpaid. Write for special prices if wanted in large quantities.

YELLOW BOTTOM SETS

Produced from seed which makes the finest yellow sets. Fine and dry, medium in size and unsprouted. P t., 20 cts; qt, 35 cts, postpaid.

WHITE BOTTOM SETS

These are small, solid and of a beautiful silvery white color. A favorite variety in private and market gardens. P t., 25 cts; qt, 40 cts, postpaid.

ONION SETS

I sent for some seed last year. I never had such nice cucumbers and parsnips.

MRS. JOHN ENDRES,
Browerville, Minn.

Last spring you sent me a sample package of Jack Rose Tomato Seed. They did well, they were the best I had. I gave my neighbors some of my plants and they were well pleased with their results.

WM. T. HUGHES,
Monon, Ind.

I tried a sample Package of your Jack Rose Tomato last year and am glad to say I had the best success I ever had with Tomatoes in Dawson County.

MRS. BARNEY THOMAS, Sand Springs, Mont.

Jung's Private Stock Parsnip

This is a highly improved type of the Half-Long, producing uniformly large and handsome roots of stocky form, heavy at the shoulder, well rounded, gradually tapering to the base, so that they are easily dug, and if grown in properly pulverized soil the roots will be smooth and free from side roots and wrinkles. The flesh is white, of fine texture, free from core and stringiness, and especially fine flavored, cooking tender, sweet and rich. It is a heavy cropper. Pkt., 5 cts; oz., 15 cts; 1/4 lb, 30 cts.

Improved Half-Long Parsnip

This variety is an improvement on the old Hollow Crown, forming roots shorter and thicker than that variety, and is also more easily gathered. The flesh is white, of fine texture, free from core and stringiness, and of the finest flavor when cooked. This parsnip is one of the heaviest croppers and we recommend it both for garden and field culture. Its quality is improved by freezing. Pkt., 5 cts; oz, 15 cts; 1/4 lb, 25 cts; lb, 85 cts.

IMPROVED HALF-LONG PARSNIP

PUMPKINS—Continued

QUAKER PIE

Luxury Pie

The very best quality Pie Pumpkin that we know of. Enormously productive, medium in size, about 10 inches in diameter, slightly oval in shape. The skin is finely netted and in color a beautiful golden-russet. The flesh is thick, sweet, tender, of fine flavor and deep golden in color. An excellent winter keeper. Be sure to order LUXURY PIE.
Pkt., 5 cts; oz., 15 cts; ¼ lb., 40 cts.

BIG TOM

Quaker Pie

A most prolific variety. The fruits are broad, pear shaped or slightly oval in form. The flesh is very thick and fine grained, of a beautiful golden yellow color; in texture and flavor peculiarly adapted for pie making purposes. It is very prolific and keeps well for winter use. It is sweet and delicate in flavor. Skin is a rich, creamy buff, which gives it a handsome appearance. Pkt., 5 cts; oz., 15 cts; ¼ lb., 40 cts; lb., \$1.25.

PEPPER

SWEET UPRIGHT

Sweet Upright

The best pepper for the family garden and unequalled for market. It produces fine, large fruits of nearly square or blocky form, with exceptionally thick flesh of the mildest and sweetest flavor. The plants are of sturdy, erect growth; fruits are borne stiffly erect, and form at each of the branches; they are very broad, divided into four lobes, and when fully ripe are deeply indented at the blossom end. The color when ripe is a rich, glowing scarlet both in the thin tender skin, and in the unusually thick flesh. The flesh is as crisp and sweet as an apple. It ripens early, the fruits are large, weighing from six to seven ounces each. Pkt., 10 cts; ½ oz., 25 cts; oz., 50 cts; ¼ lb., \$2.00,

Big Tom

Also known as Connecticut Field. Vines are of strong, vigorous growth and wonderfully productive. Fruits will average 15 to 20 inches in diameter; round or oval in form. The skin is smooth and hard, of a reddish orange color, slightly ribbed, with thick, rich orange yellow flesh.

It is the hardest of all pumpkins and is good for pies. This variety is extensively grown for stock feeding and is generally planted in with the corn. Pkt., 5 cts; oz., 10 cts; ¼ lb., 30 cts; lb., 90 cts.

LUXURY PIE

I am well pleased with your seed and none better than JUNG'S QUALITY. My friends say, any seeds are good, but I say plant seed that always grow.

DAVID P. CLEMMERSON,
Cataract, Wis.

Early Neapolitan Pepper

THE EARLIEST, SWEET LARGE RED PEPPER. Immensely productive and so extremely early, this grand new pepper is of exceptional value to market gardeners. The plants are open-branched, spreading growth, two and one-half feet in height. Fruits average four and a half inches in length by two to two and a half inches in breadth at the stem end, retaining the thickness to a good portion of the length. After reaching full size the green fruits change to a rich scarlet, and have quite thick flesh of a very mild, sweet flavor. Single plants will grow from 35 to 50 peppers of marketable size at one size. Pkt., 10 cts; ½ oz., 25 cts; oz., 50 cts.

EARLY NEAPOLITAN

or more ridges; when ripe they are indented at the blossom end. The flesh is thick and very mild, being entirely free from any other fiery flavor. They can be sliced and eaten like tomatoes. Pkt., 10 cts; ½ oz., 35 cts; oz., 60 cts.

Golden Queen

GOLDEN QUEEN IS THE BEST OF ALL YELLOW PEPPERS. It is always large and sometimes remarkably so, specimens reaching six to ten inches in length and four to five inches in diameter are not uncommon. A single plant sometimes carries TWENTY LARGE PEPPERS AT THE SAME TIME. The flavor is mild and pleasant and it may be eaten raw. It always commands the highest price on account of its large size and fine appearance. It is unexcelled for stuffing. Pkt., 10 cts; oz., 45 cts.

SALSIFY—Mammoth Sandwich Island

One of most delicious vegetables and also one of the most nutritious; the flavor is very sweet and highly esteemed whether served hoiled with butter or other suitable sauces, or sliced and fried or used in soup. The new variety is superseding the old type, as it produces roots nearly double the size and weight and of equally good quality. Seed sown in spring produces large, fine roots that may remain in the ground or may be dug and stored in sand or earth in November, thus keeping them plump and sweet, to be used as desired during the winter. Mild and delicious in flavor. One pkt. will sow 50 feet of rows. Pkt., 5 cts; oz., 20 cts; ¼ lb., 50 cts; lb., \$1.75, postpaid.

SALSIFY—MAMMOTH SANDWICH ISLAND

SPINACH Victoria

One package of Spinach will sow about 50 feet of rows. This is a handsome variety with exceedingly dark green color and has a very long standing qualities. The foliage is heavy and the wide dark leaves being of the true Savoy appearance and of the finest quality. It remains in prime condition two or three weeks after most other varieties have run to seed. Highly praised by market gardeners. Pkt., 5 cts; oz., 15 cts; ¼ lb., 40 cts; lb., \$1.25.

CHINESE GIANT

Chinese Giant

THE FINEST, LARGEST AND HANDSOMEST PEPPER OF THEM ALL. CHINESE GIANT IS CERTAINLY A WONDER. Not only is it immensely productive for so large a pepper, but its enormous size and magnificent appearance make it sell most readily. It produces monstrous peppers of thick, blocky form which are of the most brilliant scarlet. They grow four to five inches broad at the top and are of equal length, divided into four

GOLDEN QUEEN

I received the seed ordered from you and was just delighted with them and surprised that they were just like I ordered them. Ever so many thanks for filling my order so promptly.

MISS ETHEL F. HOLLAWAY,
Branch, N. C.

SPINACH VICTORIA

CHOICE GARDEN PEAS

Our PEAS are northern grown and free from bugs. They are the earliest, hardiest and most productive. They were grown from the finest selected stock, are bright, handsome, of perfect growth, were critically rogued and carefully hand picked. The Pea crop never was as small as this year and we will advise our friends and customers to send their orders early so they may be filled before our stocks are exhausted.

Packet of Peas contains TWO OUNCES.

EARLY EXCELSIOR
Early Excelsior

The leader of the early dwarf wrinkled Peas. It grows to a height of about twelve inches; of compact growth, being similar to Nott's Excelsior in this respect but superior to it in the following particulars:

First, the vines are more dense and sturdy; second, the peas and pods are decidedly larger, measuring from three and one-half to four inches in length, and contain from 6 to 8 large peas of delicious quality; it is a much surer cropper. It is also very early, the past three seasons it was ready for use in forty-five days after sowing.

One of the most valuable early Peas, surpassing in earliness, yield and quality. Pkt., 10 cts; ½ pt, 20 cts; pt, 35 cts; qt, 60 cts.

Harbinger

An extra early dwarf pea of English origin which rarely grows over eight inches high and is immensely productive. It is quite distinct from all other varieties in habit of growth and appearance; the vines being unusually robust and stocky. The vines are literally covered with pods which are well filled with peas of delicious quality. The even, regular habit of the plants is a great advantage, particularly to market growers. Pkt, 10 cts; ½ pt, 20 cts; pt, 35 cts; qt, 55 cts.

LITTLE MARVEL
Little Marvel

A New Extra Early Dwarf Pea

The vines are of dwarf even growth, averaging fifteen inches in height, and are heavily set with fine pods, frequently borne in pairs. The pods average about four inches in length, are square at the bottom and well filled with six to seven quite large deep-green peas.

The pods are ready for the table fully as early as American Wonder, while the peas are larger and the vines produce a heavier crop. The peas retain their attractive, dark green color and superb flavor when served at the table. You will be delighted with the choice flavor of Little Marvel.

Pkt., 10 cts; ½ pt, 20 cts; pt, 35 cts; qt, 60 cts.

HARBINGER

Nott's Excelsior

The sweetest and most prolific of all EARLY DWARF PEAS. A very fine variety of dwarf, compact growth, with pods three inches in length, which are well filled to the squared ends with large peas of unusually sweet flavor.

It is of vigorous growth and wonderfully productive. It grows from twelve to fourteen inches high. In favorable weather and soil it will mature in the remarkable short period of forty-five days. The best sort for the home or market garden.

Pkt, 5 cts; ½ pt, 20 cts; pt, 30 cts, qt, 55 cts.

I planted your seeds last year and they did extra well here.
MISS PAULINE COLLINS,
Cleveland, Tenn.
My order last year was promptly filled and the seed was very fine.
MARY M. HALL, Bowdoinham,
Maine.

GARDEN PEAS----Continued

BRITISH WONDER
British Wonder

THE SWEETEST FLAVORED PEA IN CULTIVATION.

Even sweeter in flavor than either Gradus or Thomas Laxton. The growth is similar to Carter's Daisy, except that the foliage is darker green and the pods are not so sharply pointed. It is however, much more reliable, and is a **SURER CROPPER**.

The vines are very stocky, twelve to eighteen inches high, and are well supplied with light green foliage. The pods are produced in the greatest profusion, measuring about four inches in length, and contain from eight to ten large dark green peas each, which are of a most luscious flavor. It matures a little earlier than Dwarf Telephone. Most highly recommended. Pkt., 10 cts; 1/2 pt, 20 cts; pt. 35 cts; qt, 55 cts, postpaid.

Dwarf Telephone

A **GIANT PODDED PEA**. This is one of the finest dwarf green wrinkled Marrow Peas in cultivation, and one that ought to be grown in every garden. A strong, luxuriant growing variety, attaining a height of about eighteen inches. The pods, which grow five inches long, are packed with immense wrinkled Marrow peas, eight to ten being the average, while twelve to fifteen to a pod are frequently found. The quality is superb, rich, sugary and meltingly tender. As high as eighteen large, handsome pods have been grown on a single plant. Pkt., 10 cts; 1/2 pt, 20 cts; pt. 35 cts; qt, 60 cts.

DWARF CHAMPION

Dwarf
Champion

The quality and productiveness of the old Champion of England is well known among all the gardeners but the one great fault was the long vines. In this variety you have the large pods superb quality and immense productiveness of the old variety, but a stocky vine that does not require brush. The vines grow only about 18 inches tall, and are very healthy, never failing to yield a heavy crop of giant sized pods....Pkt., 10 cts; 1/2 pt, 20 cts; pt, 35 cts; qt, 60 cts.

potatoes of all conceivable colors, shapes and sizes--50 or more new varieties. One may make your fortune. This may be your last chance to obtain this rapidly vanishing seed. Please tell your friends.

Packet with full Directions for Growing, 15 cts. 4 for 50 cts. 10 for \$1.00.

I always prefer **NORTHERN GROWN SEEDS**. Your Tomatoes were the finest to get ripe and I had several kinds of Tomatoes, it being a fad of mine.

MRS. EVA BENNETT, Merrill,
Mich.

PEAS----Continued
Improved Senator

A Splendid Main Crop Pea

An excellent second-early variety; very productive of well-filled pods. It is of the same season as McLean's Advancer, but the pods are much larger and the vines much more prolific. Vines grow about two feet high, are very hardy and carry a large crop. The pods contain from seven to ten peas which are sweet and tender, even when large. Pkt., 10 cts; ½ pt., 20 cts; pt., 35 cts; qt., 60 cts.

IMPROVED SENATOR

Lord Leicester

THE GIANT OF THE PEA FAMILY

This is one of the largest podded varieties in cultivation and also a sure cropper. We have grown it for six years, and it has never failed to produce a good crop. The plant is of branching habit, growing about 5 feet in height, with dark green foliage. It is of very vigorous and robust constitution, which enables it to withstand drought and mildew. The pods are produced in great profusion, mostly in pairs, some measuring 6 inches in length and contain 9 to 12 peas. You will be delighted to show your friends such enormous pods of peas, the largest by far, they have ever seen, which in addition to large size, combine rich and succulent flavor, not surpassed by any other variety. For quality it is superb, the peas fairly melt in your mouth. Pkt., 10 cts; ½ pt., 20 cts; pt., 35 cts; qt., 65 cts.

Jung's Aristocrat

A MAMMOTH PODDED PEA

This grand, new Pea is of the largest podded type, as the Telephone, but the pods are even larger and the peas sweeter in flavor. The vines are of rich, green color, very stocky in growth, from 16 to 18 inches tall, and do not require brushing. The pods are borne in great profusion and mostly in pairs. The immense pods measure six inches and over in length, are straight and of fine appearance, and contain from 8 to 12 large, wrinkled peas, closely packed, tender, sweet and of exquisite flavor. They keep their tenderness and superb flavor long after they are young, and also retain their attractive dark green color when served. On our Fairfield Farm it was the largest podded variety grown. Pkt., 10 cts; ½ pt., 20 cts; pt., 30 cts; qt., 55 cts, post-paid.

Edible Podded Pea

MAMMOTH MELTING SUGAR—The vines grow 4 to 5 feet high. It is very productive and produces enormous pods which average five to six inches in length and one and a half inches broad; thick and fleshy. When broken and boiled like string beans and served with butter sauce they have a luscious flavor. It is a delicious vegetable, and should be better known and more generally used. Pkt., 10 cts; ½ pt., 20 cts; pt., 35 cts; qt., 60 cts.

SPECIAL OFFER

We want you to try these grand Peas:

Early Excelsior, Dwarf Champion and Aristocrat

1 pkt. of each for 20c. 1-2 pt. of each for 50c.

1 pt. of each for 85c.

JUNG'S ARISTOCRAT

LORD LEICESTER

J.W. JUNG
SEED GROWERS

SEED COMPANY
RANDOLPH, WISCONSIN

RADISHES

Our Radish Seed is grown from select roots and for quality is unexcelled.

Earliest Scarlet

A fine bright red radish of quick growth. It is especially fine for bunching for early market from plantings in the open ground, being ready for market in from 18 to 25 days. It is solid in character and very uniform in size and shape. The tops are very small, thereby making it the best of all for forcing under glass. The flesh is purest white, firm and crisp in texture and of mild flavor. The roots are entirely free from the hollow center or pithy fibre so often found in radish. The shape is well-shown in the illustration. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 40 cts; lb., \$1.35

Perfection

The most attractive white-tipped scarlet Radish. This variety is bound to become the most popular of the white-tipped varieties as it combines handsome appearance, quality and extreme earliness.

The white tip extends nearly half-way up to the root, and the brilliant color of the top shows up in strong contrast. For quality it is unexcelled as it is very crisp, tender and sweet. One of the best varieties to grow for market as well as for the home garden. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts.

Hailstone

The earliest and quickest growing **WHITE RADISH** in cultivation—ready for use from 15 to 18 days after sowing. The radishes are regular turnip shaped, measuring one inch in diameter and about half an inch in depth. Flesh is solid, crisp and of mild flavor. The foliage is unusually small. Its unusually small foliage, combined with extreme earliness, solidity and superb quality, cannot fail to make it the most popular first early white turnip radish.

Pkt., 5 cts; oz., 15 cts;
 $\frac{1}{4}$ lb., 35 cts; lb., \$1.25.

French Breakfast

An early medium sized Radish, olive shaped, very crisp and tender, of a beautiful scarlet color, tipped with white. It grows about two inches long and is decidedly stump rooted. A splendid variety for the table, for its excellent quality and beautiful color, are unexcelled. It is a quick growing and exceedingly popular variety. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts; lb., \$1.25.

PERFECTION

FRENCH BREAKFAST

Crimson Giant Globe

This new variety is suitable for both forcing and growing outdoors. It is a fine shaped, bright radish, growing quickly to large size—see illustration. The radish is a deep globe in shape. It measures two inches in depth and one and one-half inches in diameter. Skin is thin and tender and of a deep, crimson color. The flesh is pure white, crisp and of mild flavor. The roots are entire free from hollow centers and pithy fibre. It is sure to become a leading variety. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts; lb., \$1.20.

EARLIEST SCARLET

I can speak well for your seeds as I have used them the last two years with the best of success.

MRS. CHAS. SWALLOW,
Birnhamwood, Wis.

CRIMSON GIANT GLOBE

RADISH---Continued

New White Icicle

Long, slender, crisp, tender, mild, purest white. Unexcelled as a money maker. An entirely distinct variety from Europe, and derives its name from the almost transparent whiteness of the roots. It produces slender, pure, white radishes very early in the season, much earlier and finer in quality than any other long white variety. The shape is well shown in the illustration. The leaves are short and few, making it an excellent variety for forcing. It is of the best flavor and very brittle and crisp. The roots grow about four inches long and are ready for use in about 25 days after sowing. It is a desirable variety for home garden and market gardeners will find it a money maker. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 40 cts; lb., \$1.35.

NEW WHITE ICICLE

Rosy Gem

One of the most popular and attractive short varieties ever grown. Ready for the table in from 17 to 25 days after sowing. It is a rich, deep scarlet at the top, beautifully blended into pure white at the bottom. Exceedingly tender and crisp. Flavor very mild and delicious. A gem in earliness, beauty and quality. Its smooth skin and fine color give it an appetizing appearance when served. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts; lb., \$1.25

Wood's Early Frame

This is one of the earliest long varieties. It is of beautiful scarlet color shading to white toward the tip. It is always juicy, tender, delicious and free from pith and sharpness so often found in long radishes. Very much used for growing under glass. You will be delighted with this variety. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts, postpaid.

ROSY GEM RADISH

RADISH---WOOD'S EARLY FRAME

Early Long Scarlet Short Top

EARLY LONG SCARLET SHORT TOP

This variety is a standard and excellent sort either for private gardens or for market. The roots grow half above ground, are very uniform in shape, smooth, very bright red in color, and continue crisp and tender until fully matured, when they are about six inches long. It matures beautiful radishes, which are always brittle and sweet, 25 to 30 days from the sowing of the seed. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 30 cts; lb., \$1.00.

Winter Radish---Chinese Rose

This is a large and fine shaped radish, growing partly above the ground. It is of a half long shape with a blunt point; rose colored skin, flesh white; solid as an apple. It has not the strong flavor of the Black Spanish and keeps equally as well. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts; lb., \$1.20.

SQUASH

Bush Fordhook

The most desirable Squash for either summer or winter use. It is of true bush type and can be grown much closer than the running sorts. The vines are of strong, vigorous growth and wonderfully productive. The fruits are pear shaped, seven to nine inches long, slightly ridged, smooth, thin, yellow skin. Flesh is very thick and of a light straw yellow color. For frying, baking or making pies they are unsurpassed. Stored in a dry place they will keep until the following spring. It is early and has proven to be one of the hardiest and most dependable squash for all localities. Pkt., 5 cts; oz., 10 cts; $\frac{1}{4}$ lb., 30 cts; lb., \$1.00 postpaid

BUSH FORDHOOK

Giant Summer Crookneck

This magnificent strain is equally as early as the common small fruited varieties. It is of a bright, yellow color and from 18 inches to 2 feet long. Fruits are solid, heavy, and freely produced on healthy, vigorous plants of compact bush habit. The flesh has a greenish yellow color, is dry and the most agreeable flavor. A most profitable variety to grow for market as it grows very rapidly and is of superior quality. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts.

Golden Hubbard

An elegant Winter Squash. Flesh deep golden yellow, much richer in color than Hubbard, fine grained, cooks very dry and is of excellent flavor. In keeping quality it has no superior. Its productiveness combined with its sweet, rich flavor, attractive color and shape, are bound to make it a popular fall and winter variety. Golden Hubbard is a sport from the well-known old Hubbard, which it closely resembles in every respect except in color, which is a bright, golden orange. Pkt., 5 cts; oz., 15 cts; $\frac{1}{4}$ lb., 35 cts.

GOLDEN HUBBARD

BANANA SQUASH

Banana

This squash is better shown in the illustration than we can describe. It keeps equal to HUBBARD, is even better quality, more prolific and earlier in ripening. The color is grayish-green, shell soft, so that it can be cut with a knife. It grows from eighteen to thirty inches long and six to eight inches in diameter. It is very prolific; a shy seeder, which accounts for the higher price of the seed. Flesh is of deep-orange color, entirely free from fibre or stringiness. Cooks up perfectly smooth, of most delicious flavor.

Prices—Pkt, 10 cts; oz, 25 cts; $\frac{1}{4}$ lb., 50 cts.

New Delicious

This is one of the best flavored Squashes in existence. In thickness of flesh it surpasses nearly every other variety. The color is a dark orange. For table use no other variety compares with it in compactness of flesh, dryness, sweetness, and exceeding richness of flavor. It is a fall and winter squash. The fruits vary in form and color but are uniformly delicious in flavor. Pkt., 5 cts; oz, 15 cts; $\frac{1}{4}$ lb, 35 cts, postpaid.

Improved Hubbard

This is the old Standard Squash, now grown throughout the country. Flesh is deep golden yellow and fine grained, and whether boiled, steamed or baked, it is always richly flavored, sweet and dry. The vines are strong, of luxuriant growth and very productive, yielding large, heavy squashes weighing from 10 to 25 pounds each. The color of the rind varies somewhat, but the color and quality of the flesh is fixed and unchangeable—always a deep golden yellow or orange. If properly stored it will keep until spring. Pkt, 5 cts; oz, 15 cts; $\frac{1}{4}$ lb, 35 cts; lb, \$1.25.

NEW DELICIOUS

IMPROVED HUBBARD.

TOMATOES

Jack Rose

Next to Fairfield First it is the **EARLIEST RED TOMATO in the World**. It is from 3 to 5 days earlier than Earliana, which means much additional profit when planted for market, as every trucker strives to have the earliest tomatoes. The vines are vigorous growers and are well supplied with heavy foliage which protects the fruits from the sun. The fruits are smooth, solid and of good size, some measuring 4 inches in diameter. It is almost all solid meat, producing but a very small quantity of seed and for this reason the seed will always be expensive. The later fruit on the vines is just as large and solid as the first.

If you want an abundant supply of large, solid, fine flavored, rich colored, meaty Tomatoes do not fail to order **JACK ROSE**, Pkt, 10 cts; oz, 40 cts; $\frac{1}{4}$ lb, \$1.25.

JACK ROSE

JOHN BAER

Jung's Fairfield First

THE SMOOTHEST AND FINEST EXTRA EARLY TOMATO

This variety has been carefully bred for extreme earliness, productiveness and smoothness of fruit. Fruits are of good size, smooth and borne in clusters. It is a very heavy cropper. Although one of the first to ripen, the vines continue to bear until frost; the size and smoothness of the fruits is maintained until the end of the season. The color is an intense velvety scarlet, fruits are almost globe shaped, making it a splendid variety for slicing. The fruits are remarkably solid and firm; flesh is thick and heavy, of fine flavor, and contains but few seeds. Vines are strong and healthy growers. Pkt., 10 cts; oz., 40 cts; ¼ lb. \$1.30, postpaid.

JUNG'S FAIRFIELD FIRST

Jung's Prizetaker Tree

(See Front Cover)

EARLY, EXTRA AND LARGE FRUITS. ENORMOUS YIELDER. —BRIGHT RED.

The best variety for the home garden. It is the largest fruited dwarf or tree Tomato. The plants grow to a height of about two feet and are stiffly erect until they become overloaded with fruit. The fruit is produced in clusters of three to five, and as the growth is close jointed each plant produces a large number. The tomatoes are of large size, and are smooth and solid. Fruits have a solid, meaty center and no hard core and produces but very little seed. We consider the PRIZETAKER invaluable for the home garden, or shipping purposes. Pkt., 10 cts; oz., 40 cts; ¼ lb., \$1.40.

JUNG'S PRIZETAKER TREE

John Baer

The Earliest and Best Tomato on Earth

When we first saw the above statement we doubted the truth of it, but since trying the JOHN BAER out at our Fairfield Farm we agree as to the truth of the above statement.

Here are a few reasons why you should plant this variety:

1. It is the quickest to ripen.
2. It produces the smoothest fruits of any extra early variety.
3. It is enormously productive, bearing throughout the season.
4. The fruits ripen evenly up to the stem, no cripples, cracked, blighted or wrinkled fruit; a very good shipper as it will not burst.
5. It is of the most brilliant red color; the flavor is deliciously sweet.
6. It produces an enormous crop, 50 to 100 fruits to each plant.
7. In shape and form exactly like the photograph.

You will make no mistake by giving this remarkable tomato a place in your garden. Price of FAIRFIELD GROWN SEED as follows: Pkt., 10 cts; ½ oz., 40 cts; oz., 75 cts.

SPECIAL OFFER

1 Pkt. of these three great Tomatoes for only 20 cts. Be sure and include them in your order.

TOMATOES—CONTINUED

New Coreless

A LARGE, MAIN CROP, GLOBE SHAPED, BRIGHT RED VARIETY.

Its shape is almost round, being about the same diameter each way. The depression at the stem end has been almost eliminated, making it the most profitable variety for canning. It is immensely productive, clusters of four to seven fruits are produced at six to eight inches apart along the vine.

All the fruits are of remarkable size, and many of them are quite large—12 to 15 ounces.

A good slicing variety, the seed cells being surrounded by bright red, heavy, meaty and delicious flesh. Its color is bright red and the fruits ripen all over and at the same time. Always free from green core. Every gardener should give this new Tomato a trial.

Pkt., 10 cts; oz., 35 cts; $\frac{1}{4}$ lb., \$1.00

NEW CORELESS

Trucker's Favorite

The finest, large fruited, purple Tomato. Very uniform in size and shape, thick meated and solid; one of the largest Tomatoes grown. The fruits are of a beautiful purplish red or pink color, always smooth and fleshy. They hold their size to the very last picking and ripens well to the stem. Vines are of strong, vigorous growth, ripening the first fruits early. The vines are not subject to blight or rust, and produce enormous crops until killed by frost. Delightful in quality and flavor and unexcelled for slicing or cooking.

As a dependable main crop pink Tomato Trucker's Favorite can't be beat. Pkt., 5 cts; oz., 30 cts., $\frac{1}{4}$ lb., 80 cts.

TRUCKER'S FAVORITE

EARLIANA

**"Fairfield's Strain"
of Earliana**

A perfect early Tomato, large in size and beautiful in color, nearly seedless and very solid, a vigorous grower and prodigious bearer, yielding its splendid fruit until frost. Its solidity and fine quality are equal to the best medium and late sorts. The plants are compact in growth, with short, close jointed branches, setting fruits very freely in the center. It has become very popular with market gardeners who aim to supply the early demands of their market. On account of its firm skin it is an excellent variety for long distance shipping. The fruits mature quickly and generally can all be gathered in about three weeks from the time the first fruit ripens. The tomatoes are quite uniform in size and of smooth, regular form, averaging 3 inches in diameter and $2\frac{1}{2}$ inches in depth. Pkt., 5 cts; oz., 30 cts; $\frac{1}{4}$ lb., \$1.00.

TOMATOES----Continued

Magnificent

A TRULY MAGNIFICENT, RED MAIN CROP TOMATO. It has been tried in various climates and different soils and always came out successfully.

It is different from all other Tomatoes in the following particulars:

First, the plants root well from the very beginning of their growth.

Second, as the result of this strong growth of root there is a large and vigorous growth stalk to support the weight of the fruit.

Third, as the result of the strong stalk the spreading branches produce a great abundance of fruit from each plant.

Fourth, the fruits are large, solid and smooth, easily prepared for market on account of its perfection.

Fifth, the plants are hardy, can be set out early and not be injured by the cold if protected from frost.

Sixth, the fruits ripen early, and the later fruit on the vines is just as large and perfect as the first.

The color is bright red; skin always smooth, free from all cracks and blemishes. Flesh is of exceptional fine flavor.

Pkt, 10 cts; oz., 45 cts; 1/4 lb., \$1.30, postpaid.

MAGNIFICENT

Golden Dwarf Champion

The famous Golden Dwarf Champion owes its wide popularity to its stiff, vigorous, upright growth, with fruit well above the soil; its large fruit and fine color and to the earliness with which it reaches maturity. Plants are bushy and compact, with heavy, dark green potato-leaf foliage. The tomatoes are always smooth, round and solid, and of a beautiful lemon color. Nothing makes a more tempting dish than red and yellow tomatoes sliced together. This variety has an unusual flavor, especially fine for preserves, as it does not require as much sugar as other varieties. Pkt., 5 cts; oz., 25 cts; 1/4 lb., 80 cts.

The mark of the highest quality in seeds.

Mammoth Russian Sunflower.

Mammoth Russian Sunflower

Single heads measure twelve to twenty-two inches in diameter and contain an immense quantity of seed, which is highly valued by all farmers and poultry breeders who have tried it as an excellent and cheap food for fowls. They eat it greedily, fatten well on it, and attain a bright, lustrous plumage and strong, healthy condition better than on almost any other food. It is the best egg producing food known. Every farmer should plant some of the seed in any waste piece of ground any time from early spring to the middle of July. Four quarts of seed will plant an acre. The seed is also recommended as an excellent food for horses. Oz, 5 cts; 1/2 lb., 20 cts; lb., 30 cts, postpaid. By freight or express; lb, 15 cts; 10 lbs, \$1 25; 100 lbs. \$9.75.

THERE IS A GREAT DIFFERENCE IN SEEDS

It Costs Us More To Grow Seeds Than What We Could Buy Them Elsewhere, But We Know the Seeds We Sell Are Good, When Grown Here.

Good Seeds Cost a Little More But they Are Also Worth Much More When The Resulting Crop is Compared.

RUTA BAGAS Perfect Model

A great improvement in the stocks of Ruta Bagas offered. Roots grow to good size, are smooth and solid and do not have a tendency to grow a long neck. The roots are a rich yellow at the bottom and purple on top.

Flesh deep orange in color, fine grained and very sweet. A most profitable variety to grow for market.

Pkt, 5 cts; oz, 15 cts; ¼ lb, 45 cts; lb, \$1.60

Improved Purple Top Yellow

A hardy and productive variety widely grown for market and stock feeding. It is of fine quality and keeps perfectly all winter, and even into the following summer. Bulbs are large,

smooth, round and solid, with a small tap root. Flesh richly colored, finely grained, and very sweet. It is justly held in high esteem for both table and stock feeding purposes. The shape is well pictured in the illustration. Pkt., 5 cts; oz, 15 cts; ¼ lb, 40 cts; lb, \$1.50

IMPROVED
PURPLE-TOP
YELLOW.

PERFECT MODEL

EXTRA EARLY WHITE MILAN

Extra Early White Milan

A very valuable sort largely used by market gardeners for first or extra early use. The quickest growing variety, under favorable conditions is fit for use in 42 days after sowing. The roots are of medium size, of pure white color and very handsome in appearance. Flesh is fine grained and sweet and mild flavor. A splendid variety for both the home and market garden. Pkt, 5 cts; oz, 15 cts; ¼ lb, 35 cts; lb, \$1.35.

Purple Top Strap Leaf

The most popular sort. A general favorite with all and more largely grown than any other turnip. Rather flat and of medium size. The color is purple above ground, white below; flesh white, fine grained and tender. Leaves short, narrow and erect. A heavy cropper and an excellent keeper. Does well sown either broadcast or in drills, and will form good sized bulbs in seven or eight weeks. Pkt., 5 cts; oz, 15 cts; ¼ lb, 30 cts; lb, \$1.00

PURPLE TOP

WHITE FLAT DUTCH

TURNIPS

Of the yellow or golden fleshed turnips this is the best variety. Roots grow quickly to good size, are smooth, and very fine in appearance. Flesh is a rich, yellow color, tender and mild in flavor, in fact, we consider it the best turnip for table use. Pkt, 5 cts; oz, 15 cts; ¼ lb, 35 cts; lb, \$1.20.

GOLDEN BALL.

White Flat Dutch

A very popular sort for either table use or for market. The roots are of medium size, very handsome, smooth and of clear ivory white both inside and out. The flesh is fine grained, tender, and of mild, sweet flavor. It is one of the best varieties for the family garden, as, in addition to the heavy crop assured by its adaptability to close planting, it will be found to be the best sort for spring planting. Pkt, 5 cts; oz, 15 cts; ¼ lb, 30 cts; lb, \$1.00 postpaid.

LAWN GRASS

Fairfield Special Mixed

ALWAYS GROWS. ALWAYS THRIVES. HARDY. DEEP, VELVETY GREEN. SURE TO PLEASE.

Our mixture combines the very best varieties of grasses suited for the purpose of making a lawn beautiful in appearance, durable and lasting, which will stand the frosts of winter and hot sun of summer, showing a deep, rich green at all seasons. The seed used is **PURE AND HEAVY** and is especially cleaned. This mixture weighs 25 to 27 pounds per bushel, is of strong vitality and makes a quick, healthy growth. One pound of our mixture weighs as much as two quarts of any other seedsmen's brand. Pound 40 cts, postpaid. No prepaid, lb., 35 cts; 5 lbs., \$1.70

Jung's Superb Asters

Asters are our great specialty in the flower seed line and the degree of perfection to which we have brought the strains we are offering is unsurpassed.

We are the greatest growers of **ASTER SEED** in the **NORTHWEST**. No other flower can approach the Aster in beauty, color, form or profusion of bloom. They are very hardy, easily grown and may be had in bloom from early summer until hard frosts. We are **ASTER SPECIALISTS** and our seed of these grand flowers is absolutely unexcelled.

Pink Enchantress

This we consider as one of the most beautiful Asters. The flowers are very large, of a soft seashell, pink color and are borne on extra long stems. Flowers will last fully two weeks in fresh water. For refined beauty nothing can excel a bouquet of the grand Asters. The plants are unusually vigorous in growth. Pkt., 10 cts.

PINK ENCHANTRESS

Jung's Fairfield Aster

We take pleasure in offering our customers this new Aster which is in a class by itself. The flowers are immense, in size single blossoms measure 6 inches across; and being borne on long, stiff stems they rival Chrysanthemums for bouquets. A bed of these Asters look like a snow drift. The petals are very long and are curled and twisted to a remarkable degree. The plants are strong and healthy and it is not an unusual thing to find one with a dozen long, graceful stems, each crowned with flowers from four to six inches in diameter. Colors: White, Shell-pink, Rose, Purple and Mixed.

Each, 10 cts. per pkt. One pkt. of each for 25 cts.

JUNG'S FAIRFIELD ASTER

We have planted your seeds and find them the very best in the market and the **ASTERS** were the most beautiful we had ever seen.
MRS. OWEN LALLY, Union City, Ind.

Jung's Quality Aster Collection

We make this exceptional offer to convince you that JUNG'S ASTERS are in a class by "themselves." We want everyone of our customers to take advantage of this offer.

The following seven grand varieties will be sent to any address post-paid for only 35 cts.

Pink Enchantress—Sea-shell pink.....	10
Jung's American Beauty—Giant flowered rose pink.....	10
Lavender Asternum—Charming soft lavender.....	10
Giant Branching White—The best pure white.....	10
Giant Branching Purple—The darkest colored of all.....	10
Violet King—Soft Violet lilac.....	10
Jung's Innocence—The earliest of all, pure white.....	10

Catalogue Value .70

From no other seedsmen can such a grand assortment of ASTERS be had for such a small price.

With each collection we send FREE INSTRUCTIONS on how to grow the large fancy flowers.

These packets are Regular, Full Sized and contain only the choicest of seed.

JUNG'S AMERICAN BEAUTY

Jung's American Beauty

The petals of this grand new ASTER are almost a half-inch wide. It is almost identical in color to the popular American Beauty Rose, hence the name. The plants are strong growers, from 35 to 40 inches tall, well supplied with heavy foliage, and is a prolific bloomer. The immense fluffy flowers are borne on stems from 12 to 18 inches long. Specimen plants carried from 8 to 12 blossoms, each measuring over four inches across. We offer same in rose and purple. Pkt., 10 cts; 1 pkt, of each for 15 cts.

Extra Early Asters Jung's Innocence

Many people want Asters that come into blossom very early and we can recommend these in every respect as they come fully bloomed two months earlier than most other sort. The blossoms are of good size, produced on long stems and are full and double to the very centers. You will be more than pleased with these extra early Asters. White, pink, lavender and purple 10 cts. per pkt. 1 pkt. of each color for 20 cts; mixed colors 5 cts.

GIANT ASTERNUM

Giant Asternum

A magnificent type of ASTERS belonging to the Comet or Chrysanthemum class. Plants grow strong and produce the immense flowers on stems 18 to 24 inches long. Single plants produce from 10 to 15 of these mammoth flowers of surpassing beauty.

WHITE, PINK, LAVENDER, PURPLE AND MIXED COLORS. Pkt., 10 cts; 1 pkt., of each color 25 cts.

Jung's International Mixed Asters

The finest mixture of ASTERS ever offered by any seedsman. This superb mixture is composed of the very best varieties and contains practically every shade ever known in Asters, such as pure white, white changing to rose, shell-pink, rose pink, red, carmine, violet crimson and purple. It includes New Fairfield, American Beauty, Vick's Mikado, Violet and Rose King, Chrysanthemum Flowered, Innocence, Invincible, Late Branching and many other varieties. It is truly an unsurpassed mixture of these, the most showy and beautiful of all annuals.

Pkt. of 200 seeds only 10 cts.

JUNG'S INTERNATIONAL MIXED ASTERS

KING ASTERS

King Asters

This is a popular variety, vigorous in growth, with long, stiff stems and luxuriant foliage of richest green. In form the flower is entirely distinct; petals resemble the quilled varieties, but are much larger and broader, those in the center being twisted, curled and incurved, completely covering the crown. The bloom is round, full and very large, many of the flowers measuring from four to five inches across. Violet and Rose—Pkt., 10 cts. 1 pkt. of each for 15 cts.

BALSAM—DEFIANCE MIXED

BALSAM----Defiance Mixed

A favorite quick growing annual. The plants form symmetrical, well-branched, erect bushes about two feet high. The branches are well covered with the beautiful double flowers. The colors include white, rose, scarlet, crimson, purple, lilac and violet. Although such generous bloomers, they are shy seeders. This variety is distinctly Camellia flowered. Our strain of these is unsurpassed for size of blooms, doubleness and beauty of flowers. Pkt., 5 cts.

JUNG'S GIANT LATE BLANCHING ASTERS

Jung's Giant Late Branching Asters

After a number of years of careful selection we have brought this Aster to a state of perfection where it is unexcelled. Plants form strong, stocky bushes about two feet high, bearing on long stems their pretty flowers, which measure from four to five inches across. The petals are gracefully curved towards the center and do not have an exposed yellow center. Plants are of strong, vigorous growth and yield a profusion of flowers from the middle of August to heavy frost. This variety is unexcelled for bedding or for bouquets.

White, Shell-pink, Rose-pink, Purple and Lavender. Each 10 cts. per pkt. Mixed colors 5 cts.

SPECIAL OFFER:—One Pkt. of each color for 20 cts.

AFRICAN DAISY

African Daisy

This extremely showy annual has become a great favorite everywhere on account of its very easy culture and most beautiful flowers. The hardy plants of neat branching habit, grow only twelve to fifteen inches high and are exceedingly profuse in flowering. Its Marguerite-like blossoms, two and one-half to two and three-quarters inches in diameter, are of a peculiarly rich, glossy orange-gold. It bears its showy flowers very soon after being planted out in the open ground in sunny situations. A bed in full bloom is truly a magnificent sight. Pkt., 5 cts.

CANDYTUFT—LITTLE PRINCE

CANDYTUFT—Little Prince

This is a dainty and distinct candytuft, the plant growing only about 6 inches high and bears immense spikes of snow-white flowers in great abundance, remaining in perfection longer than any other annual strain. Pkt 5 cts.

COSMOS—Early Summer Flowering

COSMOS—Early Summer Flowering—Grace and brilliancy are the characteristics of this pretty annual. The beautiful flowers with their deep, broad petals rise from a cloud of fine, feathery foliage. By starting the seed of this variety early they will commence to blossom in June and continue to bloom until cut down by frost. They are of compact, bushy growth, about four feet high with flowers fully as large as the old variety. The flowers are of famous shades, ranging pure white to purplish crimson. Both foliage and flowers are unsurpassed for bouquets and vases. They are easily raised and make a grand display. It is admired by all. Pkt., 5 cts.

Dianthus

Fireball

Flowers are double crimson and their beauty is scarcely surpassed by other flowers. Plants grow dwarf and bushy. It is fine for bouquets and cut flowers. Pkt. 5 cts.

DIANTHUS—FAIRFIELD FINEST MIXED

DIANTHUS—Fairfield Finest Mixed

These hardy annuals may be ranked among the fairest gems of our flowers, as few can equal them in beauty or profusion of blooms. They are of the richest and most varied colors. The plants spread rapidly, and make ornamental masses of growth. They may be sown in the open ground when danger from frost is over, and in a few weeks they are masses of blooms continuing so until frost. Our mixture includes the best single and double sorts. Pkt, 5 cts.

DIANTHUS FIREBALL

Shasta Daisy

This Giant Daisy is a production of MR. LUTHER BURBANK. It is a perfectly hardy perennial, bearing sturdy lasting flowers, averaging 4 inches in diameter on long, stiff stems. The petals or rays are pure white. Blossoms all season. Pkt., 5 cts.

SHASTA DAISY

Giant Larkspur

An improved type, producing large flowers, very double, of various colors, shades and markings, which are borne on long spikes like immense Hyacinths. Can be easily grown in the open ground. All colors mixed. Pkt, 5 cts; 2 pkts., 10 cts.

CELOSIA

KOCHIA TRICOPHYLLA

CARNATIONS

CARNATIONS—Giant Marguerite

These lovely, fragrant carnations produce fine double flowers. The flowers of this wonderful strain often measure 3 inches across, and have a variety of colors including white, blush, deep pink, salmon, scarlet, maroon and many beautiful variegated flowers. Most of them have lovely fringed petals. One great merit of these carnations is that they begin to flower in about 12 weeks' time from seed sown early in the spring. Pkt., 10 cts.

CELOSIA—Magnificent

This grand, plumed Celosia is always one of the most admired plants for its rounded form and rich, soft shades of coloring in the feathery plumes. Each branch has a pointed tip of richly colored bloom which later broadens to a loose, plummy head of the most brilliant color, all shades of orange and yellow, pink, scarlet and crimson, having a rich softness most pleasing to the eye. Pkt. 5 cts.

CANNAS—Crozy's Hybrids

Very showy hedding plants with their tropical foliage and immense flowers borne on spikes, 3 to 7 feet high, in all brilliant colors. Cannas are very easily grown from seed. For best results pierce the seed and soak in warm water, then sow in a warm place or hot bed. Seeds started in March or April produce a brilliant bed by July. Pkt., 5 cts.

DAHLIAS—Jung's Fancy Mixed

The Dahlia still holds its place as "king" of all out-door autumn flowers, and they may be grown to the greatest perfection from seed, blooming beautifully the first summer. As easy to grow from seed as the most common plant. Anyone can have a magnificent display of these regal beauties at very small cost. Continue to bloom profusely until severe frost, when the bulbs can be taken up and stored until Spring. A superb mixture of the finest double varieties of largest size and finest colors. Pkt., 10 cts.

Kochia Tricophylla

A GRAND HEDGE PLANT. An annual hedge plant which has become very popular. It makes a beautiful specimen plant or grown in hedge form it is equally attractive. It grows about three feet tall, forming a perfect pyramidal-shaped cypress bush, with fine, feathery, light green foliage. About the beginning of September it changes to a lovely crimson hue and for this reason is often called "Burning Bush." Its stately form is shown in the illustration. One of the easiest plants to grow. Pkt., 5 cts.

California Poppy

California Poppy—Golden West—Extremely handsome, low and quick growing annual plant, with finely cut foliage and cheerful blossoms. The flowers are light canary yellow with a large rayed blotch of deep orange at the base of each petal. Plants are about one foot high and easy to grow. They are ornamental and bloom until killed by frost. The blooms are beautiful and variously formed. Pkt., 5 cts.

CALIFORNIA POPPY

CANNAS

DAHLIAS

Everblooming Annual Hollyhocks

The diversity of forms and colors among the flowers affords many delightful surprises. Some plants produce densely double flowers without guards, others with guard petals; there are semi-doubles, then single sorts with double centers, others flounced, and all flowers are usually very large, some measuring five inches across. In colors there is also a great variety, some richly brilliant, others dainty and exquisite ranging from black, maroon, wine red to orange, pink and white. The flower buds are borne in clusters which vary in maturity from the developing bud to the expanding flower; which accounts for the remarkably long blooming period. They flower profusely until killed by frost. Pkt. 5 cts.

EVERBLOOMING ANNUAL HOLLYHOCKS

measuring one-half inch across and packed full even to the center, with others. The color of the bright red florets is strengthened on account of the density of the florets and spikes, thus presenting almost solid columns of brilliant red, effectively contrasted against the healthy, green foliage. The fragrance is rich and powerful. Pkt., 5 cts.

Mignonette Bismark

One of the finest, being of strong growth, healthy and deep rooting. The average spikes of flowers are immense, measuring 6 to 8 inches long by 2½ inches in diameter and are compactly filled with giant florets,

MIGNONETTE BISMARCK

Nicotiana, Sanderae Hybrids

Nicotiana

Sanderae Hybrids:—These flower from early summer until late in autumn. Their beauty is beyond description, flowers produced being purple, dark and light red, snow-white, violet, salmon, crimson, pink and various other shades. It is a very easily cultivated plant, thrives in any soil, either in pots, boxes or in the open ground. Flowers are nearly as large as a petunia with tubes five inches long, and many of the flowers are delightfully scented. Cut blooms last well, opening freely in water. All colors mixed, pkt., 5 cts.

IMPERIAL JAPANESE

Special Mixed Mignonette

Contains seeds of all the standard sorts and latest introductions, there being red, yellow and white colors. Pkt. 5 cts.

MORNING GLORY Imperial Japanese

The robust vines attain a height of from 15 to 20 feet. The foliage is luxuriant, distinct and varied, green silvery and yellow leaves; many are mottled light and dark green, white and gray. Their charm lies in the entrancing beauty and large size of the flowers; they measure from three to four inches across. The colors of the flowers, shadings and markings are limitless. Some flowers are of deep, rich, velvety colors, others daintily tinted and shaded. There are reds from soft rose to crimson and garnet; daintiest blue to purple; snow-white to silver gray. Some are striped, blotched and spotted; others have magnificent edges and throats. They are easy to grow and quick to come into bloom. Pkt., 5 cts.

Tall or Climbing NASTURTIUMS

GIANT FLOWERED MIXED

This mixture is absolutely unsurpassed. Nothing can excel the wealth, richness and variety of these Nasturtiums for trellis, brush or rocky planting, nor surpass them in freedom and profusion of bloom. They throw out running shoots than can be trained upon strings or wires, or can readily be made to climb ordinary fences or wire netting. On good soil they will grow eight feet high. Single flowers measure four inches across. Flowers are of various shades. Pkt. 5 cts; oz. 20 cts.

BRILLIANT BEAUTIES DWARF NASTURTIUMS

Brilliant Beauties

The plants are of strong, vigorous growth, erect habit and beautifully rounded form. The leaves on different plants range from light green to a rich purplish tint. They are of quick growth, begin to bloom early in the summer and continuing to flower profusely until killed by frost. So greatly diversified are the colorings that it seems almost impossible to find two plants bearing flowers alike. The flowers are not only wonderfully brilliant but also of large size. It makes an excellent variety for bedding. Pkt. 5 cts; oz. 20 cts.

MARIGOLD---Lemon Ball

This extremely showy annual has become a great favorite everywhere on account of its very easy culture and most beautiful flowers, which are quite unique in color and immediately attract attention both in the garden and in bouquets. The hardy plants, of neat, branching habit, grow from fifteen to twenty inches high and are exceedingly profuse in flowering. The extra large, round double flowers are of a clear canary yellow. The petals are heavily rolled and are crowded so closely together as to appear laciniated.

Pkt., 5 cts.

MARIGOLD-

BABY GOLDEN GLOW

Baby Golden Glow

A most charming annual, growing about 15 to 18 inches high, bearing scores of bright yellow flowers. Seeds should be started indoors. The plants will begin to bloom almost as soon as set in the open ground, affording an almost unlimited supply of cut flowers. One of the best bedders. Likened to Golden Glow on account of color, shape and position of bloom. Pkt. 5 cts.

PANSIES

Jung's Giant Fancy Mixed

This "Fancy Mixture" contains seeds of the largest, richest and handsomest Pansies known to the horticultural world.

The well formed expanded flowers are uniformly of the largest size and of fine substance; they are borne on long, stiff stems well above the heavy, deep green foliage.

The colors are rich and varied, such as white, cream, yellow, deep orange, mahogany, claret, rose, reddish bronze, lavender and light blue and each petal is distinctly blotched. The compact, rounded plants are of sturdy habit and so deep rooted that they bear gigantic flowers profusely and continuously. The petals are of thick, heavy substance, large size and various shapes. Pkt. 15 cts.

JUNG'S GIANT FANCY MIXED

LARGE FLOWERING MIXED PANSIES

GIANT MASTERPIECE PANSY

Giant Masterpiece Pansy

This giant pansy is remarkable for having its petals waved or folded, giving it the appearance of a double flower. The truly giant sized flowers are of the most striking character; the petals being of a rich, velvety substance and heavily ruffled. The colors are mainly dark rich shades, bordered, blotched or marked in ray-like veinings. The mammoth size, richness and beauty of colorings, combined with the distinctly frilled or ruffled character of the petals, makes the Masterpiece one of the most interesting novelties in pansies ever developed. Pkt, 10 cts.

Large Flowering Mixed Pansies

This mixture is composed of the finest large flowering varieties and contains some of the richest colors. The plants make strong growth and bloom freely. Pkt, 5 cts.

PHLOX DRUMMONDI GRANDIFLORA

Phlox Drummondii Grandiflora Mixed

THE BEST OF ALL BEDDING PLANTS

This superb strain is notable not only for variety and brilliancy of colors, but also for the perfection and size of the flower-cover a fifty cent piece. The colors range from pure white to the deepest red or crimson, while the clear eye of some of the flowers is peculiarly marked.

In good, rich soil they will grow 18 inches high and for a mass of splendid colors no flower will give a more satisfactory return for so little cost.

No garden should be without these most of all dwarf growing annuals. Pkt, 5 cts.

New Dwarf Phlox Nana Compact

This splendid race of dwarf annual Phloxes cannot be over-praised for brightness and beauty. The plants are always lavishly covered with large flowers of the most brilliant hues.

Nothing better for bedding purposes is listed in this catalog. They succeed everywhere, and are in universal favor for summer growing flowering purposes. Bushes are dwarf and compact, six to eight inches high, forming dense masses of bloom all summer. They are very desirable for edgings and ribbon beds and useful for pot culture. The colors include pure white, deep and showy red, rose with white eye and many other shades. They are quite hardy and are to be treated as annuals. Pkt, 10 cts.

SUNFLOWER Chrysanthemum Flowered

Grows seven feet. Perfectly double; the color is the brightest golden yellow. The plants branch and afford fine, long stout stems for cutting. This gigantic SUNFLOWER will be of great value for the hardy garden and herbaceous border. The flowers are so perfect in form that they resemble Chrysanthemum flowered Asters with long stems. This is the very best variety. Pkt, 5 cts.

NEW DWARF PHLOX

NANA COMPACTA

CHRYSANTHEMUM
FLOWERED

Re-Selected Shirley Poppies

The most showy of all Poppies. A bed of them in your garden is a sight to behold. Flowers about three inches across, exceedingly grace-

ful and elegant, the colors are pure, soft and varied and range from pure white, blush rose, delicate pink and carmine, to orange scarlet and bright, sparkling crimson, occasionally blotched with white. All who admire the delicate beauty of the Shirley Poppies will be delighted with this re-selected strain of the finest colors and most charming markings. Few flowers

can show such a grand array of colors. Pkt., 5 cts.

Iceland Poppies

RE-SELECTED SHIRLEY POPPIES

The fragrant, elegant, crushed-satin-like flowers are produced continually from June to October. They are of graceful, neat habit, with bright green, fern-like foliage formed in tufts from which issue slender stalks about 12 inches long, bearing their brilliant flowers in endless profusion. Their long stems and lasting qualities make them invaluable for cut flowers. The flowers last fully a week if cut as soon as open. Pkt., 5 cts.

Double Featherball Poppies

These double fringed, annual Poppies are very beautiful; they belong to the carnation-flowered type, the large flowers having the same globe shaped formation, with gracefully fringed petals like big balls of slashed tissue paper. Plants are of branching, stocky growth, 15 to 18 inches high, each plant carrying several of these exquisite flowers. The great variety of coloring ranges from the most gorgeous shade down to shades of pure white. They are of the easiest culture. Mixed colors. Pkt., 5 cts.

PETUNIA----Defiance Mixed

This strain bears grand, substantial flowers of the largest size in profusion. The flowers frequently measure five inches across, while the colors are indescribably rich and varied. Most of the flowers are beautifully fringed and have open throats. All are distinctly veined, especially in the throat portion, and in many the throat is darker than the outer portion of the petals, imparting a rich, velvety effect. The foliage is large and heavy and very dark green in color. Some of the colors are rich and gorgeous, while others are of lovely, delicate shades. Pkt., 15 cts.

PETUNIA

Large Flowering Mixed

No annual flower is more widely used than the Petunia. It begins to bloom early and lasts the whole season until killed by the frost. Most of the flowers are exquisitely ruffled or fringed on the edges and are of enormous size, but their great merits lie in the tremendous variety of colors, markings, blotches and stripings, in the most grotesque and beautiful combinations. Some colors are rich and gorgeous, others are of lovely, delicate shades. Pkt., 10 cts.

PETUNIA LARGE FLOWERING MIXED

ICELAND POPPIES

DOUBLE FEATHERBALL POPPIES

DEFIANCE MIXED

SALVIA Splendens

"The most dazzling scarlet flower." The handsome bushes are three feet high and as much in diameter when of full size. Single plants often bear 100 spikes of flowers, each about eight inches long. It is excellent for filling large beds or borders in the garden. It blooms continuously from early in August until frost. Nothing is equal to a bed of these flowers which for months is a blaze of intensely brilliant scarlet. Pkt., 5 cts

SALVIA—SPLENDENS

SALVIA—BONFIRE

SALVIA---Bonfire

A GRAND BEDDING PLANT. One of the grandest varieties in cultivation. A bed of them will surpass the finest scarlet geraniums in brilliancy and continuous bloom. The plants are compact growers, attaining a height of about 30 inches. Single plants some time carry 200 spikes, measuring from 8 to 12 inches in diameter. Flowers are a brilliant, dazzling scarlet. From the time they first begin to flower the plants are never out of bloom until killed by frost. We know nothing that will equal the gorgeous effect of a row or bed of these Salvias when in full bloom; the waving masses of glistening scarlet against green surroundings of lawn or foliage is matchless. Pkt., 10 cts.

VERBENA—FAIRFIELD

VERBENA Fairfield Famous Mixed

A choice perennial, 6 to 12 inches high, indispensable for bedding purposes. The average trusses measure 9 to 12 inches in circumference and the individual florets on properly grown plants measure over one inch across. They bloom freely, are vigorous in growth, and contain beautiful new colors and shades. For garden beds and massing these Verbenas are unrivaled; flowers of the most brilliant colors produced continually from spring until late in the fall. Pkt., 5 cts.

STOCKS IMPROVED DWARF MIXED

STOCKS—Improved Dwarf Mixed

The plants are of fine, symmetrical habit and bushy, and carry immense spikes of very double clove-scented flowers, ranging in color from rose, white, blue, lilac, brown and yellow. Very fragrant and as cut flowers are unsurpassed. Pkt., 5 cts.

The greatest bargain in Asters is Jung's Quality Aster Collection. Seven full sized pkts. for 35c.

Plant a Garden.—It's easy to make a garden by following the instructions in our culture book. A copy will be sent free with every order.

ZINNIAS

ZINNIAS—Fancy Double Mixed

A highly decoration plant forming compact and bushy and not over 2 feet high. Flowers have a wide range of color from cream white, yellow and deep orange, each petal beautifully marked with chocolate and crimson blotches. Invaluable for bedding or cutting purposes. ZINNIAS are sure to please all lovers of unusual and artistic flowers. Pkt.,

Jung's Giant Spencer Sweet Peas

MARGARET ATLEE

Gigantic Orchid Flowered MIXED SWEET PEAS

The new Spencer Sweet Peas are robust growers, producing flowers usually measuring 2 inches across, borne three and often four on long, strong stems, making them valuable as cut flowers for bouquets, vases or other decorations. The flowers are beautifully formed; the upright standards and immense wings of the finest waved and fluted form.

This mixture has been made with extraordinary care by us from the finest named, true, large flowering Spencer varieties introduced to date, and in such quantities as to produce a well balanced and finely proportioned color effect. All dull and undesirable colors have been omitted, making this mixture the best ever offered. No better can be had. Packet, 10 cts; ounce 25 cts; 1/4 lb, 50 cts.

Mrs. Routzahn Spencer

A beautiful blending of soft straw color, tinted with bluish pink and shading to apricot and rose at the edges. The vines are strong and thrifty. The stems are from 12 to 14 inches long and seldom produce less than 3 flowers, while many bear 4 grand flowers to a spray. The flowers are of the largest size and are thoroughly crimped and waved. Pkt., 10 cts; 3 pkts, for 20 cts.

Don't forget to order some of Jung's Asters.

KING WHITE SPENCER King White Spencer

The grandest of all white Sweet Peas. Remarkable for its glistening pure whiteness and perfect finish of the flower, glistening pure whiteness and perfect finish of the flower. The grand flowers are grown almost invariably in fours upon stout stems of great length. The plants are exceptionally vigorous in growth with distinctive rich, green foliage, and wonderfully profuse in bloom for a long season. King White is much the largest white Spencer yet introduced and will create a sensation wherever grown. Give this remarkable new introduction a place in your garden. Pkt, 10 cts; 3 pkt, for 25 cts.

Margaret Atlee

Practically a new shade of pink. The lovely flowers, uniformly of most advanced Spencer type, are a rich glowing pink on cream ground, while the wings are a pleasing shade of pinkish rose and salmon. The flowers are of extraordinary size exquisitely waved and freely produced in "fours" on long stout stems. So vigorous is the growth that the vines give many double blooms. Pkt, 10 cts; 3 pkts. for 20 cts.

GIGANTIC ORCHID FLOWERED
MIXED SWEET PEAS

MRS. ROUTZAHN SPENCER

ELFRIDA PEARSON

Flowers are of extra large size and are borne on long stiff stems, generally four to a spray. Vines are strong growers and profuse bloomers. **Pkt. 10 cts.; 3 pkts. 20 cts.**

True Countess Spencer

It combines all the good qualities of the best Sweet Pea. Color is a delightful soft pink, shading a little deeper at the edge of the petals. Stems are very long and generally bear four blossoms, all facing one way. The edges of wings and standard are just wavy enough to give it a graceful, fluffy appearance. It is fragrant; begins to bloom early and continues until late in the season.

Pkt. 5 cts.; oz. 20 cts.

TRUE COUNTESS SPENCER

Elfrida Pearson

The color is a lovely pink throughout, the buds and flowers being tinted with salmon-pink.

VERMILION BRILLIANT

Vermillion Brilliant

The most brilliant scarlet Sweet Pea yet produced. The vines are strong, grow very rank and high, and bear on stout stems three and four large well-placed blossoms. Flowers are of perfect form. **Pkt., 10 cts.**

Superfine Mixed Sweet Peas

This is not grown in mixture, but is carefully blended of the finest large flowering varieties, including some of the most beautiful recent introductions. For flowers of delicate colors, varying from pearly white to the richest reds and purples, this mixture leads, because it is the result of selecting, year after year, seeds of the choicest flowers. It will surely bring satisfaction.

Pkt., 5 cts.; oz. 15 cts.; 1-4 lb. 15 cts.

SUPERFINE MIXED

Two Great Seed Bargains

See inside back cover

Jung's Select Farm Seeds

No other article will bring a farmer greater returns on his investment than planting the best seeds it is possible to purchase. It costs just as much to raise a poor crop as a good one, and without good seed the best land and cultivation cannot produce a paying crop. The farm seeds which we offer are uniformly of the VERY BEST GRADE, while the Earliness and Tremendous Productiveness of Northern Grown Seeds need no comment. The greater part of these seeds were grown on our Fairfield Seed Farm. They were grown especially for seed, thoroughly re-cleaned and are free from foul weeds. This ought to appeal to every farmer who wishes to keep his farm free from foreign weeds.

The prices quoted were the prevailing prices when this catalog went to press Jan. 1, 1919, and we will hold to same as long as possible. It is a good plan, when ready to purchase, to send for samples and prices. BAGS FREE. Remember this when comparing prices. Order early.

JUNG'S Wisconsin Grown Seed Oats

We have an excellent fine lot of seed oats to offer this year. It is very plump, heavy and of splendid color, in fact it is seed you will be proud to sow.

By all means order enough to sow a few acres; you can then raise enough to sow your entire oats with this seed next year.

Sow our
Wis. Ped.

No. 5

Oats and
raise a
bumper
crop.

Kernels
like this
will not
fail to
bring re-
sults.

Wisconsin Pedigree No. 5 Oats

A new Pedigree Oat originated at the same time as Wis. Pedigree No. 1, but entirely different in character. The kernel is of medium length and very plump, with a thin hull. The straw grows strong and is unusually stiff, making it a good variety to grow on rich soil. Our seed was grown on our Fairfield Farm and this variety was the heaviest yielder of all. Our crop produced 85 bu. per acre the past season.

Many seedsmen will offer common oats, under high sounding names, at double our prices; however, that is not our way of doing business. The Wisconsin State University recommends the varieties which we offer. At our prices it will pay you to sow your entire acreage with this seed, as you will get enough extra bushels to more than pay for the seed.

Pound, 25 cts., postpaid. By freight or express: Pk. 45 cts.; bu. \$1.50; 1 bag, 3 bu. \$4.25; 10 bu. \$13.75. SAMPLES FREE.

A FIELD OF PEDIGREE OATS AT FAIRFIELD FARM

WISCONSIN NO. 1 OATS

The stiffest straw of any variety. Will stand up on rich bottom lands where other varieties go down. The most popular and widely sought Oats, surpassing all other varieties.

This new Oats was developed and improved at the Wisconsin Agricultural Experiment Station. Over 100 varieties of Oats were tested out there, and they say of the Wis. Pedigree No 1, "It has outyielded everything thus far and does not lodge, even on rich soils. We call it **THE BEST OAT IN THE WORLD.**"

Wis. Pedigree No. 1 is a pure white oat, good sized kernels which are a little longer than Swedish Select, but have a thinner hull. Straw grows very stiff and ripens a little ahead of Swedish Select. A remarkable characteristic of this oat is that it usually produces two fully developed kernels to a pod; other varieties often produce only one kernel and a hull. This is just where the increase in yield comes in, and is a point of great value. This oat has been thoroughly tested out in all parts of the state the past five years and has given such satisfaction that it has been rightfully called "the most valuable oat ever introduced."

Lb. 25 cts., postpaid. By freight: Pk. 50 cts.; bu. \$1.50; 1 bag of 3 bu. \$4.20; 10 bu. \$13.50. Bags free.

EARLY AMBER CANE---The best thing to use for Sorghum

Owing to the high price of sorghum and syrup, there will be a great increase in the growing of cane for this purpose. For this purpose use only northern grown seed, and sow in drills about three feet apart, using about ten pounds of seed per acre. Lb. 30 cts., postpaid. Not prepaid: Lb. 25 cts.; 5 lbs. 75 cts.; 10 lbs. \$1.25; 100 lbs. \$10.25.

FOR FODDER.—For this purpose southern seed may be used, as it will produce a great amount of feed which is relished by all live stock; especially valuable for dairy cows, as it will provide excellent feed at a time when pastures are short and other feed is scarce. May be sown broadcast at the rate of 40 to 50 lbs. per acre, or sown in drills and cultivated like corn, using about 15 lbs. of seed per acre. Lb. 25 cts., postpaid. Not prepaid: Lb. 20 cts.; 5 lbs. 50 cts.; 10 lbs. 95 cts.; 100 lbs. \$6.50.

WISCONSIN PEDIGREE BARLEY.

THE WORLD'S CHAMPION BARLEY.

Always Wins First Prize at all the Grain Shows.

LONG HEADS. BIG BERRY. ENORMOUS YIELDS.

It has been thoroughly tested at the Wisconsin Experiment Station and throughout Wisconsin and proved to be superior to any other variety. It will out-yield all others, has the stiffest straw, and the plumpest berry. The heads are of great length and a remarkable characteristic is that all the kernels are uniform in size. This barley will yield from five to fifteen bushels more per acre than any other, and it will pay any farmer handsomely to buy seed enough to sow all his barley land. Under normal conditions the kernels are bright and white, making it most attractive. Lb. 25 cts., postpaid. By freight or express: Pk. 50 cts.; bu. \$1.60; 2½ bu. \$3.95. Samples free. Write for prices if wanted in larger quantities.

MARQUIS WHEAT.

THE KING OF ALL SPRING WHEATS.

A week to ten days earlier than any other variety.

Produces 5 to 10 bushels more per acre.

Has higher milling and baking qualities than any other Hard Spring Wheat known. WHEAT IS ONE OF THE BEST PAYING CROPS A FARMER CAN RAISE.

This wheat was awarded the \$1,000 prize at the New York Agricultural Exhibition for the best wheat grown in either North or South America. Wherever this variety is known it is fast displacing all others. The straw is medium in height and very stiff. Heads are of good length and are beardless. This wheat has proven itself well adapted to Wisconsin, in fact the

MARQUIS WHEAT

greater part of our seed is homegrown, it is clean and free from foul weeds. You can make no mistake by sowing this wheat. Lb. 25 cts., postpaid. By freight or express: Pk. 90 cts.; bu. \$3.25; 2½ bu. \$7.90. Bags free.

JUNG'S GENUINE DWARF ESSEX RAPE.

The greatest of all forage plants. It is ideal for sheep pasture, and is now also largely sown for cattle and hogs. It furnishes an immense amount of green feed on a small area and its nutritive value is nearly twice that of clover. Under favorable conditions it is ready for pasturing in six weeks from the time of sowing and furnishes excellent feed throughout the summer and fall. Dwarf Essex Rape thrives best on good soil, rich in vegetable matter. Rape should be sown in drills at the rate of 3 pounds per acre, or broadcast, using four to six pounds per acre,

all through the summer months, so as to furnish a successive crop of sheep and hog feed. Some firms ask less for their rape seed than we do, but we handle only the VERY BEST SEED which is always sure to give satisfaction.

PRICES:

Lb. 25c. postpaid.
By freight or express:
Lb. 20c; 5 lbs. 85c;
10 lbs. \$1.65; 100 lbs. \$14.00.

Wisconsin Pedigree Barley

FETERITA

The New Drought Resisting Plant

Feterita is a recent introduction and has proved to be of great value in drought stricken sections. It is 25 days earlier than Kafir Corn; outyields Kafir by far and is little affected by drought. It is of great value when grown for either grain or forage purposes.

Lb., 25 cts., postpaid. By freight: Lb., 15 cts.; 5 lbs., 45 cts.; 10 lbs., 75 cts.; 100 lbs., \$6.00.

Wis. Early Black Soy Beans

Great for Silage Equal to Clover for Hay.

Soy Beans have a double value as they are great for feed and also are nitrogen gatherers, making the soil richer wherever grown. They can be sown broadcast for hay or sown in rows and cultivated if grown for the beans.

The soy beans are much richer in protein than oil meal or bran and can be used to good advantage

Feterita

in making a balanced ration, when ground with oats or barley. For ensilage they may be sown in rows or also planted in the rows of corn, as a binder will cut them with corn in fine shape. Should be planted or sown at about the same time as corn.

Wis. Grown Seed. Qt., 50 cts., postpaid. Not prepaid: Pk. \$1.40; bu. \$4.85.

Soy Beans

Field Peas. Wis. No. 1.

Richest Food Known for Hogs

Excellent for hay or green feed

Field Peas should be more generally grown as you can produce pork at a low cost by sowing a few acres of these peas. A good way to raise a bunch of excellent hogs is to sow some field peas and plant a few acres of our Smut Nose Flint Corn. When the peas are fairly ripe turn your shoats into them which will give them a fine start, and when the peas are gone, let them into the corn, as it will be ripe by that time. Field peas also make excellent hay when sown with oats, also splendid when cut green and fed to milch cows. Our seed is extra fine and we offer it at a price that any farmer can afford to sow a few acres. **Pk. \$1.25; bu. \$4.25.** Write for special prices on larger quantities.

Field Peas

Golden Millet

Japanese Millet

Japanese Millet is one of the most remarkable forage plants we have; remarkable for its marvelous luxuriant growth, often growing six feet tall; remarkable for the immense amount of hay it produces from each acre; and remarkable for its feeding value. It is adapted to all climates, does well on low ground; makes more hay than any other Millet and requires less seed per acre. Sow in May for best results, 15 to 20 pounds per acre. If desired for hay, cut just before it heads out. **Lb., 20c, postpaid. Not prepaid: Pk., 75c; bu. \$2.75**

Golden Millet

In the north Millet is grown almost altogether for hay, and for that purpose Southern grown seed is much the best. It grows taller and finer than that from Northern seed, and that means more and better hay. Golden Millet is very sweet, palatable, and when fed to dairy cows produces a large amount of milk. On good soil it grows four to five feet high. It is very tender when cut at the right stage, which is when it is in full bloom. We offer genuine Southern Grown Seed. **Lb., 20c, postpaid. Not prepaid: Pk., 80c; bu., 50 lbs., \$2.90.** Write for prices if wanted in large quantities.

TUNG'S Wisconsin Grown Fire Dried SEED CORN

THE past season was more favorable and we were fortunate in getting a fine crop of splendid seed corn. All of the seed corn we are offering was grown here in Dodge and Columbia counties and can be absolutely relied upon to ripen a crop anywhere corn

OUR CORN DRYING HOUSE AT FAIRFIELD FARM.

can be grown. All of this corn was well dried before frost and germinates from 95 to 100 per cent. However, we want you to feel perfectly safe in sending to us for seed corn, and therefore

We Ship Our Seed Corn On Approval.

Order your seed corn and after it arrives test it in any way you wish within 10 days after you receive it. If it is not perfectly satisfactory in every way, return it at our expense and your money will be refunded. Could anything be more fair?

Wisconsin Early White Dent Corn.

THE EARLIEST MATURING WHITE DENT CORN

The earliest maturing White Dent Corn. Just what you have wanted for years. Plant this corn, we are positive you will be more than pleased with it.

Very early. Good strong stalks. Well developed ears.

We have often been asked to supply an early white dent corn, but until now were unable to offer it.

This variety originated with Mr. W. B. Meyers of Columbia county, Wisconsin, who has been breeding and selecting it for ten years. It is fully as early as Wis. No. 8, and if anything it produces a larger ear and stalk. It has never failed to ripen or produce a good crop. The corn when on the ear is a pure silvery white, but when shelled the kernels show a slight golden tinge. If you want a strong growing, heavy yielding, early white dent corn, then plant this variety.

We offer only seed grown by the originator.

Prices—On the ear, $\frac{1}{2}$ bu. \$2.50; bu. \$5.00. Shelled: pk. \$1.25; bu. \$4.50.

Sample ear by mail 25 cts. postpaid.

WISCONSIN NO. 8 EARLY YELLOW DENT

The Earliest Pedigree Yellow Dent Corn. Recommended for the Extreme North.

WIS. NO. 8 EARLY DENT

This is the corn for Northern Wis. and similar latitudes. The commanding points for northern planting are: Its earliness, its enormous productiveness, its adaptability to a great variety of soil and climates. It fully matures on the shores of Lake Superior and ripens anywhere in Wis. Ears average 7 to 8 inches in length, with long kernels, very uniform in type and color. It grows a medium-sized stalk with good leaf development. It will thoroughly mature in about 90 days on favorable soil and a good location, and yields from 40 to 50 bu. per acre, producing often two ears to a stalk. By careful breeding the kernels have been materially lengthened without sacrificing the extreme earliness. The tips are remarkably well filled.

Prices on the ear: Bu. \$5.00. Shelled $\frac{1}{2}$ bu. \$2 35; bu. \$4.50. Sample ear by mail 25c.

WISCONSIN NO. 12 OR GOLDEN GLOW

The Most Popular Yellow Dent Corn in Wisconsin.
BIG EARS. DEEP KERNELS. MATURES EARLY.

A new early yellow dent for Central Wisconsin and similar latitudes. This is the corn many have been looking for. It is a little earlier than Silver King and Clark's Yellow Dent and yet large enough to make it a popular variety for general culture. It matures as far north as Central Wisconsin and yields big crops of large-sized ears. Golden Glow is a pure golden yellow dent corn, most attractive in color and appearance. Ears are fairly large, averaging about eight inches in length, symmetrical in shape, slightly tapering at the outer ends and are very free from a tendency to flintiness; stalks are large and strong with abundant foliage, making it a desirable fodder or silo variety. This is strictly a Wisconsin bred variety and was brought out by Prof. R. A. Moore, his idea being to produce an early variety with large ears and deep kernels, and he succeeded well. It is a heavy yielder. Prices—on the ear Bu. \$5.00, Shelled: One-half bu. \$2.35; bu. \$4.50. Sample ear by mail 25c.

SILVER KING WISCONSIN NO. 7

The Leading Variety of Corn in Wisconsin Today

Silver King leads the list today of all-around good varieties of corn adapted to the latitude of Southern Wisconsin. Equally valuable for Northern Iowa, Southern Minnesota, South Dakota, Northern Illinois, Ohio and Indiana, as well as for Wisconsin. Ears are just the right length, averaging 8 to 10 inches, always filled out clear to the tips, and are very uniform in size and type. The corn is pure snow-white in color, with good long kernels set compactly in straight rows. It is a strong grower, early enough to mature as far north as south-central Wisconsin, and is especially adapted to resist cold weather. The stalks are large and strong with abundant foliage, making it a very desirable silo or fodder variety. It has a decided double ear characteristic, one reason for its large yield records.

Prices—on the ear: $\frac{1}{2}$ bu. \$2.50 bu. \$5.00. Crates free. Shelled: Pk. \$1.25 bu. \$4.50. Sample ear 25c, postpaid.

WIS. NO. 15 OR IMPROVED SMUT NOSE FLINT

Extra Early. Enormously Productive. Ears Often Over 15 Inches Long.

This variety was developed, improved and first sent out by the Wisconsin Agricultural Experiment Association. It is more prolific than other flint and also has a stronger stalk, being especially well adapted to Wisconsin conditions. A peculiar characteristic is that instead of each kernel producing one stalk and many short suckers like most flints, this variety often produces 3 and 4 stalks from one kernel, each of which will have a well developed ear, no short suckers at all. The ears are long, often over 14 inches, and have eight rows of large yellow kernels which shade to deep red towards the tip. The stalks grow from 6 to 7 feet tall and make excellent fodder. This also makes an excellent corn to plant for "hogging down," as it matures so early. If you want a flint that will mature early and yield a big crop, plant this variety.

We have an excellent lot of seed of our own growing which tests 98 % germination.

Prices—on the ear: Bu. \$4.75. Shelled: $\frac{1}{2}$ bu. \$2.35; bu. \$4.25. Sample ear by mail 25c.

SMUT NOSE FLINT

J.W. JUNG
SEED GROWERS

SEED COMPANY
RANDOLPH, WISCONSIN

JUNG'S EAGLE BRAND CLOVER AND GRASS SEED

JUNG'S SEEDS WERE AWARDED A DIPLOMA AT THE PAN-
AMA-PACIFIC EXPOSITION

Nothing is of more importance to the farmer than that the seed he sows be **PURE** and free from **FOUL WEEDS** and the seed should also be plump and of strong vitality to insure a good stand.

We handle only **ONE GRADE** of these seeds and that is our **FAMOUS**

EAGLE BRAND

which is pure, well cleaned of high germination and free from weeds.

WISCONSIN GROWN RED OR MEDIUM CLOVER.

You are taking no risk when placing your orders with us. We always aim to give honest value for every dollar received or your money back.

BAGS FREE—Remember this when comparing prices. Samples of all **FARM SEEDS** sent free to all intending purchasers.

WARNING—Owing to the high price of clover there will be much imported clover seed offered. Very nearly all of which contains buck horn. One of the worst foul seeds known. **BEWARE.**

ALSIKE CLOVER

Alsike is the hardest of all **CLOVERS**. It adapts itself to all kinds of soils and resists extremes of wet and drought alike. It is more leafy than Red Clover and makes finer and better hay, especially when sown with Timothy. It is deliciously fragrant and highly nutritious. On good soil it will grow four feet tall. Alsike is the only clover that will produce a good crop and not kill out on wet ground. Lb, 55 cts, postpaid. Not prepaid: Pk, \$5.75; Bu, \$22.00. Price subject to market changes. **SAMPLES FREE.**

Wisconsin Grown Red or Medium CLOVER

We have an unusually fine stock of Medium Clover Seed. It is bright, pure, of high germination and free from foul weeds. This is the standard Red Clover and a dependable all-around variety for farmers and stockmen. It makes two crops a year. The first is usually cut when in bloom, for hay; the second crop may be cut for hay, harvested for seed, or plowed under to add fertility to the soil. It pays always to buy the best grade of **CLOVER SEED** that can be obtained. Even though the first crop cost is more than the cheaper grade, it will be found in the long run that inferior seed is the most expensive, not only on account of less hay or seed being produced from it, but from the fact that one's land is liable to become infested with weed seeds.

Sow **GOOD CLOVER SEED** and plenty of it.

Lb, 60 cts, postpaid.

EAGLE BRAND:—Highest quality. Pk, \$7.25; Bu, \$27.00. Price subject to change.

CHOICE SEEDS:—This is a very good grade but not as bright in color as the above. Will produce fine results. Pk, \$7.00; Bu, \$26.50. Price subject to market changes.

Wisconsin Grown ALSIKE CLOVER

Mammoth Clover

This is largely grown for pasture and to restore fertility to poor soils. Being a rank grower, it is very valuable for fertilizing purposes.

Lb, 60 cts, postpaid. By freight or express: Pk, \$7.50; bu, \$28.00. Prices subject to market changes. **SAMPLES FREE.**

If you want your seeds shipped by freight order as early as possible as railroads are badly congested and there will be many delays. We advise express shipments when you want seeds at once.

SECOND CUTTING OF ALFALFA

JUNG'S DRY LAND ALFALFA

The Coming Hay Crop For Wisconsin

A clover-like leguminous plant of great importance as a hay crop, nutritious and rich in protein elements. It grows 2 to 5 feet high and roots 8 to 12 feet deep. It needs one season to become established, after that it yields enormous crops annually for years. Two to six cuttings per season aggregating 3 to 8 tons of cured hay are harvested according to conditions and locality. It does well on all good, rich soils, except heavy clay, if it is well drained. It is a perennial plant, lasting many years under good treatment. It should be grown by every farmer and dairyman.

Some Facts About ALFALFA

It contains as much protein as wheat bran.

360 plants have been grown from one seed.

It can be ground into meal to feed hogs and chickens.

It does not exhaust but enriches the soil.

It produces from three to eight tons of hay to the acre.

Ten milch cows can be fed on less than two acres by soiling.

One acre will pasture twenty hogs for six months.

Thirty-five pounds makes a full feed for fattening steers.

A lamb will winter and thrive on three pounds a day.

There is no state in the Union where ALFALFA cannot be successively grown.

We offer only DRY LAND SEED. DRY LAND ALFALFA is much to be preferred to seed grown under irrigation as the DRY LAND SEED produces a much heavier and more vigorous plant. Insist on having DRY LAND SEED.

EAGLE BRAND:—Lb., 40 cts, postpaid. By freight or express: Pk., \$3.85; Bu., \$14.25. Price subject to market changes. SAMPLES FREE.

FANCY RED TOP

As a crop for hay TIMOTHY is probably unsurpassed by any other grass. It is highly relished by all kinds of stock, especially horses. It yields more nutritive matter than any other grass or forage plant. It is not suited for a permanent pasture as it will run out in the course of a few years. The largest crops of hay are raised on rich land. It is not suited for light, sandy soil as well as some other grasses. The most important point in the growing of TIMOTHY is the selection of GOOD SEED. POOR SEED, besides containing weed seeds, WILL NOT ALL GROW.

EAGLE BRAND—Pure, Heavy, Plump, Well-Cleaned, Home Grown Seed.

Lb., 25 cts, postpaid. By freight or express. Pk. \$1.75; Bu., \$6.25

CHOICE SEED—Pk., \$1.60; Bu., \$5.85. Price subject to market changes.

WRITE FOR PRICES IF WANTED IN LARGER QUANTITIES. SAMPLES FREE.

FANCY RED TOP

A suitable grass for moist, rich soils, where it thrives most luxuriantly. It is a good variety to sow with Timothy or Clover for meadow or pasture and is more permanent than either of the other two. It should be fed close, as if it is allowed to grow up to seed cattle dislike it. On good soil it grows about four feet high. Lb., 30 cts, postpaid. By freight or express: Lb., 25 cts; 10 lbs. or more at 19 cts. per pound. Price subject to market changes.

Jung's Wisconsin Grown Timothy

Wisconsin Grown Timothy

You will make no mistake by planting "Jung's Seeds."

NORTHERN GROWN SEED POTATOES

The Seed Potatoes we send out were strictly grown for seed potatoes. They were grown in the North from the finest SELECT STOCK and are sure to produce large crops. They are uniform in size and carefully hand sorted.

A Grand New Potato EARLY NEW MARKET

This variety has given a splendid account of itself again the past season, it proving to be one of the very best extra early varieties.

This is an extra early variety, being ready to use as soon as EARLY OHIO and thus far has outyielded all other early varieties.

The vines are strong and vigorous in growth, the foliage retains its vigor and rich coloring until the plants are full grown.

The tubers are of good size, a little long in shape, and have a pure white skin.

The cooking qualities are all that could be desired - in fact, it is one of the finest varieties we have. From the time the tubers are as large as a hen's egg and until fully matured they burst open when boiled with their jackets on, and appear snow-white and flaky.

Unlike most early sorts it is of just as good cooking qualities during the winter as when first dug.

Our stock is limited and we advise placing your order early.

Pound, 30 cts postpaid. By freight or express: Pk. 60 cts; Bu, \$1.85. Second size: Bu, \$1.40.

EARLY NEW MARKET

Red River Early Ohio

Our Red River grown seed of this popular variety will increase your yield far beyond your expectations. The soil in this valley is peculiarly adapted to the best development of the potato crop. Not only do you get an increased yield but the potatoes are far better, cleaner and entirely free from scab, besides being pure, with none of the mixture usually found in Eastern grown stock. It will pay you to change your seed. Pound, 25 cts, postpaid. By freight or express: Pk, 70 cts; Bu, \$2.25.

RED RIVER EARLY OHIO

Improved RUSSET

Anyone at all acquainted with POTATOES knows that for the finest quality the RUSSET is unexcelled, in fact they always bring a higher price on the market than any other variety.

A basket of these potatoes, with their finely netted or russet skins, certainly present a handsome appearance which with their fine eating qualities cannot fail to make them popular.

Our stock is of the improved variety and will be found superior to those usually offered. Pound 30 cts, postpaid; by freight or express: Pk., 75 cts; bu., \$2.00. Second size bu, \$1.60.

IMPROVED RUSSET

NOTICE! Good Seed Potatoes will be scarce this spring, so we advise you to send in your orders early. Potatoes will be shipped as soon as danger from freezing is over which is usually from March 20th to April 1st.

HARVEST QUEEN

HARVEST QUEEN **A Grand Main Crop Potato**

Here is a potato that is sure to become famous. A grand heavy yielding main crop variety of fine quality. The vines are very vigorous and resist disease better than any most any other variety.

Although it makes a heavy growth of vine it is not a late potato; it comes in between the Earlies and Rurals and is therefore a better variety to plant, as Rurals often fail to ripen before frost. It is a remarkable yielder, having produced as high as 300 bushels of first-class tubers to the acre. The shape is well shown in the illustration, and we will add that it is one of the handsomest potatoes we have ever seen. For quality it is unexcelled, as it is always dry, mealy and fine-grained, clean and free from disease.

Lb., 25 cts., postpaid. By freight or express: Pk. 50c; bu., \$1.90. Second size: Bu., \$1.50.

HARVEST KING **A Money Maker Main Crop Potato**

We take pleasure in offering our friends this grand potato, and we are sure that everyone who tries it will be more than pleased with its fine quality, vigorous growth and great productiveness. It has proved itself to be of great value on account of its tremendous yield, together with the fact that it produces but very few small potatoes. It is a magnificent sort, nice large, sound white tubers, which are of excellent quality for cooking or baking. Harvest King will bring the highest prices on all markets.

Lb., 25c. postpaid. By freight or express: Pk. 50c; bu. \$1.70. Second size: Bu. \$1.40.

HARVEST KING

SECOND SIZE POTATOES Carefully conducted trials have proved that second size potatoes will yield just as large crops as large potatoes. In fact in the big potato growing sections of Europe only small potatoes are used for seed.

MAMMOTH WHITE POTATO

handsome potatoes, then plant MAMMOTH WHITE.
Pk. 60c; bu. \$1.85.

Lb. 30c, postpaid. By freight or express:

This new potato is bound to become one of the leading main-crop varieties, for after repeated trials in various sections of the country, it has proven itself to be of great value on account of its immense yield, together with the fact that it produces hardly any small potatoes.

Always yields big crops of large, smooth, white-skinned tubers, of almost rounded to slightly flattened shape, which is well shown in the illustration.

The vines are vigorous growers and will withstand unfavorable weather conditions that would destroy many other varieties. The vines will vary somewhat in character but the tubers are very uniform.

The skin is netted, which is nature's mark of quality; flesh is solid, fine-grained and cooks up dry and mealy. If you want to raise a bumper crop of large,

Pink King POTATO

This is a new medium early variety that is fast growing into popular favor for both medium early and main crop purposes.

The potatoes are of good large size, shape being well shown in the illustration, and many hills will produce 8 to 12 of these large, handsome tubers.

The skin is tinged with a faint pink color, hence the name. Its cooking qualities are of the very best, as it is fine-grained and flaky.

Vines are strong, rampant growers and are well adapted to withstand unfavorable conditions.

We are confident that you will be more than pleased with Pink King.

Lb. 30 cts., postpaid. By freight or express: Pk. 60 cts.; bu. \$1.80.

PINK KING POTATO

JUNG'S SPECIAL POTATO OFFER.

Different Potatoes do well on certain soils, and the best way to find out which is best suited for your locality, we have decided to make a special offer on these three varieties:

EARLY NEWMARKET, IMPROVEDRUSSET and HARVEST KING

1 lb. of each for 60 cts., postpaid. By freight or express: 1 lb. of each for 40 cts.; 1 pk. of each for \$1.75; 1 bu. of each for \$4.75
