Monroe, Michigan

Growers of

High Grade
Pedigree Bred
Fruit Trees

LANDSCAPE ARCHITECTS

One Thousand Five Hundred Acres

Established 69 Years

IMPORTANT

Never before have the Nurseries of this country faced such a condition as that which exists at the present.

Owing to the serious embargo on importation of seedlings and other stock produced in Europe which are used by American nurserymen for propagation since August 1914, the supply of our most important stocks of fruit trees and many varieties of ornamentals have been depleted to an extent unparalleled.

You will remember, we have constantly advised all who were going to plant to do so without delay, since 1914. We knew there would be a shortage and that an increase of prices was inevitable. Now this condition is here and must be reckoned with. It is no longer a theory but a fact.

The reasons for shortage and increase of prices are many:

1st. Before our entry into the war conditions in France, Holland and Belgium prevented importation of seedlings which are grown to perfection and at a much less labor cost in those countries.

2nd. This in 1914:- Shortly after the Germans invaded Belgium, the placing of foreign war contracts was begun here and prices of labor began to advance. Help became scarce. The labor costs grew higher and higher. Many old established nurseries were discontinued, and the business outlook for nurserymen was the darkest in their history.

3rd. Then came our entry into the conflict. With it came the draft. Like every loyal American we had no recourse nor did we want any. Even our expert men were taken as well as the greater part of our common labor. This cut down production -- increased our overhead expenses -- labor kept going higher and the cost of production grew by leaps and bounds.

4th. These are the bare details of only a few of the obstacles we have had to contend with since August 1914. And we are not alone. The nurseries that have survived this ordeal have had the same experience. Expenses have been higher not only because of items noted above but there is the big advance on every bit of material we use in our business from paper to postage -- from twine to tractors.

5th. We do know this: If the nursery business is to survive, prices must be gotten which will at least pay an interest on investment. We don't believe any fair-minded man will ask us to price stock to him at a loss. And we here make this prediction: That prices will be 25 per cent higher next year than herein quoted. We know what condition stocks are in, and make the statement of a further increase with due regard to all the conditions which affect this business.

And so, with all the facts before us, we have made our prices as low as possible considering the quality of the stock. It is a fact well known to all nurserymen in the country that the soil we have here in Monroe is better adapted for the growing of nursery stock than any other in the United States.

We offer only the very finest northern grown stock, all of which is big-rooted, strong-bodied and true to name. It is bred from pedigreed trees in full bearing. It will grow into healthy trees if you do your part as well as we have ours, and will be found infinitely "cheaper" in the end than if you buy trees or other stock from some one who talks price rather than quality.

Quality then is the primary essential in nursery stock. And as we do not compete with "fly-by-night" and "job-lot" nurseries, we ask you, as a fair minded fruit lover, to consider quality and not forget that our business was founded in 1850 on the basis of the "square deal". Thus it is that we have grown from 30 to 1500 acres and are the largest, actual bona fide growers of trees in the world, and that our experience of sixty-nine years means something to you.

We will be glad to have you come and visit our nurseries, and if you contemplate a commercial orchard it will pay you to do so.

BEAR IN MIND:

- That prices will be higher.
- That they will continue so for years.
- That we have made the very lowest prices possible.
- That all prices herein are subject to change without notice.
- That our terms of payment are CASH ON DELIVERY.

FOREWORD

Age is an asset in business only when it is kept full of vitality.

Founded in 1850, our business is now directed by the third generation.

The same policy is still maintained --- to give our salesmen and their customers the very highest grade of stock.

That we have done so is proved by constant growth since 1850 --- our sixty-nine years' successful business being conclusive evidence that it was founded on the principle of right.

The Greening Nursery Co.

New Prices

Effective December 5th, 1919

Owing to the small supply of stock on hand, we have discontinued our prices in lots of 100 and 1000. Special prices on 100 lots will be made on request.

APPLES

	Each	Per 10
Grown on best French Crab roots.		
Standard varieties, 5 to 7 ft.....	\$ 1.25	\$12.00
Standard varieties, 4 to 5 ft.....	1.10	10.00

APPLES—Special Varieties

Winter Banana, 5 to 7 ft.....	\$ 1.50	\$14.00
Winter Banana, 4 to 6 ft.....	1.25	12.00

APPLES—Top-Worked

One year old heads. 4 to 5 ft. in height.		
Varieties:— Steele's Red, Grimes Golden, Wealthy or Duchess of Oldenburg	\$ 2.00	\$17.50

SELECTED SPECIMEN EVERGREENS

The following list of evergreens is selected from the best, well formed trees in the nursery rows. They will be carefully dug with a large ball of earth and sewed up with burlap to hold the earth intact, so as to overcome, to a certain extent, the difficulty of transplanting evergreen often

Greenings Trees Grow

experienced when they are dug and handled in the old way. Large evergreens, especially, cannot be transplanted with any degree of success without being dug with ball of earth.

Our evergreens are grown in heavy soil of a clayey nature. The reason for doing so is that when they are dug for shipment the earth clings to the roots and the root system is not disturbed in the process of digging.

Evergreens can be transplanted with success during the spring season. Please order them for spring delivery only.

Abies balsamea

Balsam Fir. Foliage dark, shiny green, silvery tinge underneath.

1½ to 2 ft.....	\$2.00	3½ to 4 ft.....	\$5.00
2 to 2½ ft.....	3.00	4 to 4½ ft.....	7.00
3 to 3½ ft.....	4.00	4½ to 5 ft.....	8.00

Abies concolor

White Fir. Medium grower, hardy, withstands heat and drouth. Needles two inches long.

2 to 2½ ft.....	\$3.25	3 to 3½ ft.....	\$ 7.50
2½ to 3 ft.....	4.50	3½ to 4 ft.....	10.00

Abies douglasi

Red Fir or Douglas Spruce. Tall pyramidal tree, rapid grower, horizontal branches, attractive color, dark brown buds. One of the most ornamental among evergreens.

1½ to 2 ft.....	\$2.00	5½ to 6 ft.....	\$ 9.50
2 to 2½ ft.....	2.50	6 to 6½ ft.....	11.00
2½ to 3 ft.....	3.25	6½ to 7 ft.....	12.50
3 to 3½ ft.....	4.00	7 to 8 ft.....	14.00

4 to 4½ ft.....	6.50	9 to 10 ft.....	18.00
4½ to 5 ft.....	8.00		

Extra fine, large specimens up to \$60.00 each.

Cryptomeria Japonica compacta

Very compact habit. Bluish green foliage.

2 to 3 ft.....	\$4.00	3 to 4 ft.....	\$6.00
----------------	--------	----------------	--------

Juniperus chinensis argentea variegata

Chinese silver variegated Juniper. Dwarf. Dense form. Tips of branchlets mostly white.

1½ to 2 ft.....	\$2.50	2½ to 3 ft.....	\$5.00
2 to 2½ ft.....	3.50		

Juniperus chinensis aurea

Chinese golden Juniper. Upright form, branchlets golden yellow, brilliant in sunshine.

1½ to 2 ft.....	\$2.00	2 to 2½ ft.....	\$3.00
-----------------	--------	-----------------	--------

Juniperus chinensis femina

The pistillate variety. Slender spreading branches.

1½ to 2 ft.....	\$2.00	2½ to 3 ft.....	\$4.00
2 to 2½ ft.....	3.00		

Juniperus chinensis mascula

The staminate variety. Rather upright growing.

1½ to 2 ft.....	\$2.00	3 to 3½ ft.....	\$5.50
2 to 2½ ft.....	3.00	3½ to 4 ft.....	7.50
2½ to 3 ft.....	4.00		

Juniperus communis hibernica

Irish Juniper. Narrow, columnar form, upright branches. Bluish tint.

1½ to 2 ft.....	\$1.50	3 to 3½ ft.....	\$4.00
2 to 2½ ft.....	2.00	3½ to 4 ft.....	6.00
2½ to 3 ft.....	2.75		

Greenings Trees Grow

Juniperus communis oblonga pendula

Upright with slender diverging and recurving pendulous branches. Very graceful.

2 to 2½ ft.....	\$4.00	3 to 4 ft.....	\$5.00
-----------------	--------	----------------	--------

Juniperus communis pfitzeriana

Pfitzer's Juniper. Fine foliage, graceful and drooping habit of growth. Hardy and one of the best for grouping.

2 to 2½ ft.....	\$5.00	3 to 3½ ft.....	\$8.00
2½ to 3 ft.....	7.00	3½ to 4 ft.....	9.00

Juniperus communis suecica

Swedish Juniper. Narrow columnar form; a small tree, with drooping tips.

1½ to 2 ft.....	\$2.50	3 to 3½ ft.....	\$5.00
2 to 2½ ft.....	3.50	3½ to 4 ft.....	6.00
2½ to 3 ft.....	4.25		

Juniperus neaboriensis

Mediterranean Juniper. Small tree of dense pyramidal habit. Spiny pointed, crowded leaves.

1½ to 2 ft.....	\$2.50	2 to 2½ ft.....	\$3.50
-----------------	--------	-----------------	--------

Juniperus sabina

Savin's Juniper. Low spreading shrub. Very picturesque. Slender branchlets with a strong odor when bruised.

1½ to 2 ft.....	\$2.50	2½ to 3 ft.....	\$4.50
2 to 2½ ft.....	3.50		

Juniperus sabina tamariscifolia

Tamarisk-leaved Juniper. Needle shaped leaves with a white stripe.

1½ to 2 ft. broad....	\$2.50	2 to 2½ ft broad....	\$4.00
-----------------------	--------	----------------------	--------

Juniperus spherica

Dense. Upright branches. Graceful, somewhat spreading.

1½ to 2 ft.....	\$3.50	2½ to 3 ft.....	\$6.00
2 to 2½ ft.....	5.00		

Juniperus virginiana

A very pretty spreading plant with foliage finely divided, turning to reddish purple in winter. A rapid grower.

1½ to 2 ft.....	\$2.00	3½ to 4 ft.....	\$6.50
2 to 2½ ft.....	2.75	4 to 4½ ft.....	7.25
2½ to 3 ft.....	3.50	4½ to 5 ft.....	8.50
3 to 3½ ft.....	5.00		

Juniperus virginiana albo-spica

Branchlets variegated with white.

2 to 2½ ft.....	\$2.50	3 to 2½ ft.....	\$6.00
2½ to 3 ft.....	4.00	3½ to 4 ft.....	8.00

Juniperus virginiana cannarti

Useful in groupings and borders.

½ to 2 ft.....	\$2.25	3 to 3½ ft.....	\$6.00
2 to 2½ ft.....	3.50	3½ to 4 ft.....	7.50
2½ to 3 ft.....	4.50		

Juniperus virginiana elegantissima

Golden yellow tips. Fine for variety color.

2 to 2½ ft.....	\$2.50	3 to 3½ ft.....	\$5.00
2½ to 3 ft.....	3.50	3½ to 4 ft.....	6.00

Juniperus virginiana glauca

Blue Virginia Cedar. Bluish foliage; medium grower. One of the best of the blue varieties of evergreens.

2 to 2½ ft.....	\$3.00	3 to 3½ ft.....	\$5.50
2½ to 3 ft.....	4.00	3½ to 4 ft.....	7.50

Greenings Trees Grow

Juniperus virginiana schottii

Dwarfish pyramidal form. Bright green foliage.

1½ to 2 ft.....	\$2.50	2½ to 3 ft.....	\$4.25
2 to 2½ ft.....	3.25	3 to 4 ft.....	6.00

Juniperus virginiana tripartita

An interesting dwarf variety for group borders, bluish leaves.

1½ to 2 ft.....	\$2.25	2½ to 3 ft.....	\$4.00
2 to 2½ ft.....	3.00		

Picea alba aurea

Golden spruce, yellow foliage. Dense habit.

2 to 2½ ft.....	\$2.00	4 to 4½ ft.....	\$ 6.00
2½ to 3 ft.....	2.50	4½ to 5 ft.....	7.00
3 to 3½ ft.....	3.50	6 to 7 ft.....	10.00
3½ to 4 ft.....	5.00	7 to 8 ft.....	12.00

Picea excelsa

Norway Spruce. Best known evergreen. Rapid grower, succeeds everywhere. Valuable for wind breaks, hedges, forests, or heavy groupings.

2 to 2½ ft.....	\$1.50	7 to 8 ft.....	\$ 9.50
2½ to 3 ft.....	2.00	8 to 9 ft.....	11.00
3 to 3½ ft.....	3.00	9 to 10 ft.....	12.00
3½ to 4 ft.....	4.50	10 to 11 ft.....	14.00
4 to 5 ft.....	5.50	11 to 12 ft.....	16.00
5 to 6 ft.....	7.00	12 to 14 ft.....	20.00
6 to 7 ft.....	8.50		

Extra large, broad specimens up to \$100.00 each.

Picea excelsa alba

White or Silver Spruce. Dense, compact, tall growing, silvery gray needles.

1½ to 2 ft.....	\$2.00	2½ to 3 ft.....	\$3.75
2 to 2½ ft.....	2.75	3 to 3½ ft.....	5.00

Picea excelsa remonti

Remont's Spruce. Very dwarf, slow growing, exceedingly compact, perfectly cone shaped.

1¼ to 1½ ft.....	\$3.00	1½ to 2 ft.....	\$5.00
------------------	--------	-----------------	--------

Picea pungens glauca

Colorado Blue Spruce. Medium, rapid grower. Very handsome, hardy, symmetrical; light colored, bluish foliage.

2 to 2½ ft.....	\$3.50	4 to 4½ ft.....	\$10.00
2½ to 3 ft.....	4.50	4½ to 5 ft.....	15.00
3 to 3½ ft.....	5.50	5 to 6 ft.....	20.00
3½ to 4 ft.....	7.00		

Picea pungens kostermaniana

Koster's Blue Spruce. The finest of the fine. Rich, blue foliage, good shape, remarkably beautiful.

1½ to 2 ft.....	\$ 5.00	3 to 3½ ft.....	\$12.00
2 to 2½ ft.....	8.00	3½ to 4 ft.....	15.00
2½ to 3 ft.....	10.00	4 to 4½ ft.....	18.00

Pinus austriaca

Austrian Pine. Medium to fast grower. Broad head, very dark green. Rigid foliage, long needles.

2 to 2½ ft.....	\$2.50	3½ to 4 ft.....	\$7.00
2½ to 3 ft.....	4.00	4 to 4½ ft.....	8.50
3 to 3½ ft.....	5.00		

Extra large, broad specimens up to \$80.00 each.

Pinus montana mughus

Mugho or Montana Pine. Very dwarf, handsome. Hardy, dense, broad green foliage. Ornamental as single or for grouping.

1½ ft spread.....	\$3.00	2½ ft. spread.....	\$7.50
2 ft. spread.....	5.00		

Greenings Trees Grow

Pinus strobus

White Pine. Branches horizontal in regular whorls. Very picturesque.

1 to 1½ ft.....	\$1.00	2½ to 3 ft.....	\$3.50
1½ to 2 ft.....	1.50	3 to 3½ ft.....	4.50
2 to 2½ ft.....	2.50	3½ to 4 ft.....	6.00

Pinus sylvestris

Scotch Pine. Similar to Austrian Pine in character of growth and appearance. Light green foliage.

2 to 2½ ft.....	\$2.50	4½ to 5 ft.....	\$10.00
2½ to 3 ft.....	4.00	5 to 5½ ft.....	12.00
3 to 3½ ft.....	5.00	5½ to 6 ft.....	14.00
3½ to 4 ft.....	7.00	6 to 7 ft.....	18.00
4 to 4½ ft.....	8.50	7 to 8 ft.....	25.00

Extra large, broad specimens up to \$80.00 each.

Retinispora pisifera filifera

Thread-branched Cypress. Somewhat resembles Juniper. Dark green foliage, hair or thread-like in appearance. Very attractive; hardy.

1½ to 2 ft.....	\$2.00	3 to 3½ ft.....	\$ 6.00
2 to 2½ ft.....	3.00	3½ to 4 ft.....	8.00
2½ to 3 ft.....	4.00	4 to 5 ft.....	10.00

***Taxodium distichum* (Bald Cypress)**

Foliage feathery. Of rapid pyramidal growth. Beautiful.

3 to 3½ ft.....	\$3.50	4½ to 5 ft.....	\$6.00
3½ to 4 ft.....	4.50	5 to 5½ ft.....	7.00
4 to 4½ ft.....	5.00	5½ to 6 ft.....	8.00

Thuja occidentalis

American Arbor Vitae. One of the best known evergreens of rapid growth. Pyramidal in form. Bright green in summer. Bronzy green in winter. The best evergreen for heavy grouping or for colonial effect.

Selected specimens, 2 to 3 ft.....	\$1.25
Selected specimens, 3 ft.....	1.75
Selected specimens, 4 ft.....	3.00
Selected specimens, 5 ft.....	5.00
Selected specimens, 6 ft.....	6.00

***Thuja occidentalis* selected trained specimens**

These special trained evergreen trees have been frequently transplanted for the purpose of forcing a heavy mass of fibrous roots. They have been carefully and systematically pruned and trained, and are perfect, well developed specimens of wonderful symmetry and beauty for immediate effect. These trees, ranging from 14 to 20 years old, may be transplanted with perfect success, owing to the splendid root system obtained by our frequent transplanting. We have the largest stock of these wonderful trees of any nursery firm in the world.

Special selected trained specimens, 15 ft.....	40.00

Thuja occidentalis aurea

Golden Arbor Vitae. Broad, bushy form with deep yellow foliage.

2 to 2½ ft.....	\$2.50	3 to 3½ ft.....	\$4.50
2½ to 3 ft.....	3.50	3½ to 4 ft.....	5.25

Greenings Trees Grow

Thuya occidentalis columbia

Medium habit of growth, broad foliage, beautiful and silvery.

2 to 2½ ft.....	\$3.00	2½ to 3 ft.....	\$4.00
-----------------	--------	-----------------	--------

Thuya occidentalis lutea or elegantissima

George Peabody. The most decidedly yellow variety of Arbor Vitae. Pyramidal in form, very attractive wherever a contrast of colors is desired. Perfectly hardy.

2 to 2½ ft.....	\$2.50	4½ to 5 ft.....	\$ 7.50
2½ to 3 ft.....	3.50	5 to 5½ ft.....	9.00
3 to 3½ ft.....	4.50	5½ to 6 ft.....	10.00
3½ to 4 ft.....	5.25	6 to 6½ ft.....	12.00
4 to 4½ ft.....	6.25	6½ to 7 ft.....	15.00

Thuya occidentalis ellwangeriana

Tom Thumb Arbor Vitae. A low bushy variety, well adapted for grouping, also for pruning in globe shape for formal effect.

1½ to 2 ft.....	\$3.00	4 to 4½ ft.....	\$15.00
2 to 2½ ft.....	4.00	4½ to 5 ft.....	20.00
2½ to 3 ft.....	5.00	6 ft.....	25.00
3 to 3½ ft.....	7.00	7 ft.....	50.00
3½ to 4 ft.....	9.00		

Thuya occidentalis globosa

Globe Arbor Vitae. Dwarf globe form, bright green foliage. Very hardy; attractive; the best for formal effect.

12 to 15 inch.....	\$2.50	1½ to 2 ft.....	\$5.00
15 to 18 inch.....	3.50		

Thuya occidentalis pyramidalis

Pyramidal Arbor Vitae. One of the most valuable of the Arbor Vitae varieties for sentinel or colonial effect. Hardy everywhere.

2½ to 3 ft.....	\$2.50	5 to 5½ ft.....	\$ 8.00
3 to 3½ ft.....	3.00	5½ to 6 ft.....	9.00
3½ to 4 ft.....	3.50	6 to 6½ ft.....	10.00
4 to 4½ ft.....	4.25	7 ft.....	12.00
4½ to 5 ft.....	5.00	8 ft.....	15.00

Thuya occidentalis wareana

Ware's Siberian Arbor Vitae. Slow grower. Heavy dark green foliage. A very desirable type for single planting or grouping. Hardy everywhere.

2 to 2½ ft.....	\$4.00	3½ to 4 ft.....	\$ 8.00
2½ to 3 ft.....	5.00	4 to 4½ ft.....	10.00
3 to 3½ ft.....	5.75		

Thuya orientalis (Biota)

Bushy, pyramidal in habit of growth. Spreading ascending branches, acute leaves, bright green. One of the most attractive of the Arbor Vitae varieties. Hardy.

2 to 2½ ft.....	\$ 3.00	5 ft.....	\$12.00
2½ to 3 ft.....	4.50	6 ft.....	15.00
3 to 3½ ft.....	8.00	7 ft.....	20.00
3½ to 4 ft.....	10.00		

Thuya orientalis aurea (Biota)

Similar to Thuya orientalis (Biota). Medium growth; golden yellow foliage in Spring, later turning to bronze green. Grows very compact. Hardy.

2½ to 3 ft.....	\$6.00	3½ to 4 ft.....	\$10.00
3 to 3½ ft.....	8.00		

Taxus cuspidata brevifolia (Yew)

A dwarf compact form with short leaves. Fairly hardy. Very attractive.

1½ ft.....	\$5.00	2 ft.....	\$10.00
------------	--------	-----------	---------

Greening's Trees Grow

Taxus cuspidata capitata (Yew)

Narrower and more numerous needles than on brevia-
folia.

1½ ft.....	\$5.00	2 ft.....	\$10.00
------------	--------	-----------	---------

Tsuga canadensis

Hemlock Spruce. Very beautiful. Graceful, much
ramified branches. Always desirable for grouping or single
planting. Hardy.

1½ to 2 ft.....	\$1.75	3 to 3½ ft.....	\$5.00
2 to 2½ ft.....	2.50	3½ to 4 ft.....	6.50
2½ to 3 ft.....	4.00	4 to 4½ ft.....	8.00

ROSES

Roses can be transplanted with better success during
the spring season. This is especially so of Hybrid Tea
varieties. It is, therefore, advisable to order them for
spring delivery.

HYBRID TEA VARIETIES

Hybrid Tea Roses are the most beautiful and satis-
factory of all roses. They must be laid down in winter
and covered, but will repay amply the extra care. Fol-
lowing varieties have been well tested and we guarantee
them to please:

Wm. Cooper, Gruss an Teplitz, Hermosa, J. B. Clark,
Jonkheer, J. L. Mock, Kaiserin Augusta Victoria, Killar-
ney Pink or White, Lady Hillingdon, Le Progress, Rhea
Reid, Madam Ravary, Nathalie Bottner, Richmond.

	Each	Per
		10
All varieties	\$ 1.00	\$ 9.00

HYBRID PERPETUAL VARIETIES

We recommend especially the following varieties:
Alfred Colomb, Anna Diesbach, Baron de Bonstettin, Clio,
Eugene Fuerst, Fisher Holmes, Frau Karl Druschki, Gen.
Jacqueminot. M. P. Wilder, Margaret Dickson, Mrs. J. H.
Laing, Paul Neyron.

ABOUT SHRUBBERY AND HOME GROUND DECORATIONS

To Property Owners:-

The property owner who doesn't realize that in the beautifying of his home grounds he adds dollars to the value of his property, is overlooking an important item, should he decide to sell; and also, the great pleasure to be had throughout the year by himself and family in the enjoyment of a wisely planted place.

The decoration and improvement of the home grounds is not a luxury. It adds dollars and cents to the value of the property, but more than all, it gives such charming views -- in spring, summer, autumn and winter -- that it ennobles one's view-point of living and adds years to the span of life.

Children raised in an atmosphere engendered by well-planted home grounds are invariably better, mentally and physically, than those who haven't this privilege. It is up to you to give yourself and family every advantage in the battle of life, which is strenuous at best. Hence it is that the wise parent and other property owners should study to make their homes beautiful from every view-point, because of the health-giving incentive to family life, thus aiding nature in her effort to grow mankind into sweet-tempered, normal men and women, and help them to remain so.

As to the planting and layout, we can help you. Write us and you can have the benefit of the study devoted to this subject by our Landscape Department, which is one of the largest in the Country.

To Our Salesmen:-

In the few paragraphs above we have tried to give the basic principles for beautifying the homes of America.

In brief they are: The added value of the property; and the effect produced through the senses, which brings about that wholesome feeling that

"God's in his Heaven--
All's right with the World."

And there never was such a need of every single mother's son of us doing what he can to sweeten the aspect of life in his own personal corner as at this time.

So we urge you never to forget that the beautifying of one's home is neither an expense nor a luxury, but an investment which means an asset in both value and morals. If you sell to every home owner *something* in ornamentals, you will be doing your share to "brighten up the corner where you are", than which there can be nothing nobler in the life of any man.

The Greening Nursery Co.

OUR GUARANTEE

WE GUARANTEE ALL STOCK TO BE TRUE TO NAME. We exercise the greatest care to have our stock true to label. Should it occur, however, that some stock proves untrue, we will cheerfully replace all such stock, or refund the money paid, after receiving satisfactory proof thereof. It is mutually agreed, however, between the purchaser and the party contracting, that we shall not be held liable for damages in such case further than the replacing of said stock, or refunding the money paid for same.
