1919 Price List

KLEHM'S NURSERIES

ESTABLISHED 1856

ARLINGTON HEIGHTS, ILLINOIS

To facilitate ready reference, we print here the prices of the stock grown in our nurseries. In considering our prices, remember that we quote only on stock of first quality.

It is our endeavor to grow all our products just as well as they can be grown. From spring until fall, the nurseries are cultivated every week, and the plants are kept growing constantly. This, with rich soil, and frequent pruning and transplanting, makes them larger, thriftier, and more vigorous than those given only ordinary care. Severe winters prove the hardiness of the stock.

We pack our products exceedingly well. It is our practice to "puddle" the roots of shrubs and other stock (dip them in thick mud) so all air will be excluded from the roots. Protected this way, and additionally safeguarded by the good wrapping or boxing that we give them, our trees and shrubs reach their destination in perfect growing condition. With stock true to name, grown right, dug carefully, and packed securely we can please every planter.

We shall be glad to welcome prospective planters at our nurseries, where we can show them many interesting specimens of rare and desirable plants, and to assist them in selecting personally the stock that they desire.

Fruit Department

Apples

	Each	10	100
7 to 8 ft. (1¼ to 1½ in. diam.)	\$1 50	\$12 50	\$100 00
7 to 8 ft. (1 to 1¼ in. diam.)	1 00	9 00	75 00
