A Seed House with the Reputation for Quality Goods

MASSER'S SEED HOUSE

ESTABLISHED 1903

Famous for Lettuce

The leading lettuce for early sowing is Early Curled Silicia, which is known as "Cut and Come Again."

We recommend for a good, solid head lettuce "Masser's Head Lettuce."

"Only the
Best Seeds"

10 and 12 South

To Our Friends---Our Customers:

We take this opportunity to present this pamphlet, which we have adopted this season, instead of a catalog, which at this time, is expensive, owing to the high cost of paper, labor and all materials which enter into the printing of a catalog. Therefore have decided to give our customers the benefit, instead of the printer, by giving them the best quality of seeds obtainable.

All orders will receive our prompt and careful attention.

We desire to thank our customers of past years for their many favors, and sincerely wish, for you all, successful crops in 1919. This includes the flower beds and lawns, as well as the gardens.

We will be pleased to receive photographs and reports of successful gardens at all times. Let us know how your gardening efforts turn out.

Yours for success,
MASSER'S SEED HOUSE.

Cucumbers should be grown in every garden, to furnish both large fruits for slicing, on the table, and small, young fruits for pickling. In most sections it will be best to make two sowings, one as early in spring as the weather permits, to supply for the table during the summer months, and a second about the last of June or first of July to furnish for fall use.
