Council Bluffs, Iowa

SEEDS

1919 Catalogue

OUR REPUTATION has been built up by furnishing seeds of the best quality as to purity and germination, and we shall always endeavor to furnish the best seeds that can be procured, and make prices as reasonable as possible.

Grow Your Own Vegetables---

Cut down your living expenses. You'll be astonished how easy it is to save time, labor and money, and get bigger and better crops when you use—

Planet Jr. Garden Tools

No. 4 Planet Jr. Combined Hill and Drill Seeder, Wheel Hoe, Cultivator and Plow.

Price \$19.50

Soon pays for itself in the family garden as well as in the larger acreage. Sows all garden seeds in drills or in hills, plows, opens furrows and covers them, hoes and cultivates quickly and easily. No. 4 D, Hill and Drill Seeder, same as above less the cultivating attachments, \$15.50.

No. 25 Planet Jr. Combined Hill and Drill Seeder, Double Wheel Hoe, Cultivator and Plow.

Price \$23.00

A splendid combination for the family garden, onion grower, or large gardener. It is a perfect seeder, and combined double and single wheel hoe. Sows in drills or in hills 4, 6, 8, 12 or 24 inches apart.

No. 31 Planet Jr. Combined Drill Seeder and Single Wheel Hoe, Cultivator and Plow.

Price \$13.00

No. 31-D as a Drill Seeder Only, Price \$10.50

This new tool is of great value to gardeners who have never felt able to own either a seed drill or a wheel hoe. It will sow even a small packet of garden seed with great precision. Quickly changed to a splendid wheel hoe. A special machine for the small gardener.

Why worry along with slow out-of-date implements and meagre results? Planet Jr. tools are far more economical—they do 3 to 6 times the work, get bigger, better crops, and outlast several ordinary implements. Fully guaranteed. You are actually losing money whenever you cultivate without them.

No. 13 Planet Jr. Double and Single Wheel Hoe.

Price \$19.50

A single and double wheel hoe in one. Straddles crops till 20 inches high, then works between. Has steel frames and 14-inch steel wheels. The greatest hand-cultivating tool in the world.

No. 17 Planet Jr. Single Wheel Hoe.

Price \$8.75

The highest type of Single Wheel Hoe made. Light, but strong, and can be used by man, woman or boy. Will do all the cultivation in your garden in the easiest, quickest, and best way.

No. 19 Planet Jr. Garden Plow and Cultivator

Price \$6.25

This combination will delight the suburbanite, the growing boy, women, younger or older, who will find it a light running wheel hoe that will save them hard work and help much to supply the table with fine vegetables.

No. 60 Planet Jr. Double Wheel Onion Hoe.

Price \$7.50

This new tool is a departure from all previous Wheel Hoes. It is adjustable for the complete culture of onions, or general hoeing. The new all-steel hoes are a decided improvement over the older models. We offer a special Onion Harvester for this tool.

No. 103 Planet Jr. Horse Hoe

A new light, but very strong, Horse Hoe that will appeal to farmers and gardeners.

Conkey's

THE ORIGINAL
Buttermilk
STARTING FOOD

MAKES HUSKY CHICKS

CONKEY'S BUTTERMILK STARTING FOOD will put vim and vigor into your baby chicks at the time they need it most. It will make them strong and husky, so that they can fight off most of the chick diseases that carry off so large a percentage of the yearly hatch.

CONKEY'S The Original Buttermilk STARTING FOOD

What It Is

Conkey's Buttermilk Starting Food is a perfectly balanced ration for baby chicks to be fed over the critical first several weeks. It contains clean, wholesome grain and is mixed with pure buttermilk brought to a semi-solid state. This combination is then dried so that the entire grain is saturated with the buttermilk.

CAUTION—DON'T BE MISLED BY INFERIOR BUTTERMILK FOODS.

Conkey's is the original buttermilk food and although the first price may be higher than inferior articles, the subsequent results make it the cheapest food on the market. Buttermilk brought to a powdered form is very liable to have lost much of its strength. But as we employ it, its full value is maintained, which means that it is very strong in lactic acid, thus counteracting foreign bacteria in the intestines which cause so much White Diarrhea in chicks and loss of life.

While buttermilk is such an important item in our Food, the word "buttermilk" might cover up inferior grains in any Feed. We use nothing but clean, wholesome grains—no by-products or sweepings.

What It Does

READ WHAT THE DOCTOR WRITES

Milwaukee, Route 1, Ore., Nov. 5, 1917.

Routledge Seed & Floral Co.

Gentlemen: Having spent considerable time, study, care and money to get the lines of heredity we wished for our "Reds," it was most disappointing to find we were unable to develop the chicks into ideal specimens of the breed; finally we observed that heredity only counts as fifty per cent in the production of a bird and environment the other fifty. To us the principal feature of environment is feed, which must be easily digested and nutritious, causing a rapid, vigorous growth; AFTER YEARS OF EXPERIMENTING with foods, we find CONKEY'S BUTTERMILK STARTING FOOD IS THE BEST for the FIRST MOUTHFUL; in fact, we never take our birds entirely off this feed.

Mr. Routledge being the first person to call our attention to Conkey's Buttermilk Mash, is entitled to sincerest thanks for our phenomenal success this year, as WE HAVE NOT LOST A CHICK THROUGH SICKNESS and our show winnings (the largest of any Pacific Coast breeder) were mainly due to condition.

Sincerely yours,

DR. N. L. SMITH.

NLS-RA
Breeder S. C. Rhode Island
Reds.

WRITE OR ASK FOR PRICES

Conkey's POULTRY TONIC

GOOD FOR ALL YOUR BIRDS EVERY DAY IN THE YEAR.

Healthy Hens Bring Poultry Profits

In trying to get profits or some satisfaction from your poultry efforts, bear in mind that you are urging your birds beyond the limits that Nature originally had in mind. Your aim is to produce heavy layers or larger birds for market, and your efforts in this direction are putting a severe tax on the digestive systems of your flock. They need your help in supplying them with a good tonic and you cannot give too much thought to the selection of that tonic. It must contain elements that aid digestion, tone up the bird and help keep it in good condition, but it must not contain any ingredients that will have an over-stimulating, injurious effect on the sensitive organs. It must build, but it must not force.

Conkey's Poultry Tonic

Contains no cayenne pepper. It is a laying tonic, molting powder and regulator of a high type and is prepared with the same care that has made the efficiency of Conkey Poultry Remedies world famous. A little in the feed of breeding birds in early spring means vitality and strength in the hatching eggs.

It helps growing stock get more value out of their feed and keeps them hardy and thrifty through their growing and feathering period. It builds up the tired organs and run-down systems of molting birds after heavy laying, puts them through the molt quickly, and starts them laying again with the least possible loss of time. Hens in the molt need every attention you can give them. Bear that in mind. For laying, put a little Poultry Tonic in the dry mash or the wet feed every day. It helps hens earn their board, especially when egg prices are soaring and every egg means money.

You can give Conkey's Poultry Tonic to every bird in your flock every day in the year. It will pay you well to help your birds.

WARRANTY—While we exercise great care to have all Seeds pure, reliable and true to name; our Seeds are sold without any warranty, express or implied; and without any responsibility in respect to the crop. If our seeds are not accepted on these terms they must be returned at once. Y. S. CO.

Flowers and Bulbs

CANNAS—Handsome plants for centers of large beds or for border, stately, ornamental plants, producing clusters of large flowers of the most intense, varied and brilliant colors. 10c, 3 for 25c; 85c dozen.

CASTOR BEAN—Tall, majestic plant for lawns; glossy green leaves; grows from six to fifteen feet high. Seed, 10c per oz.

CALADIUM—A fine tropical plant that can be grown in the open air in the North.

GERANIUMS AND POTTED PLANTS—We have a large assortment of seasonable potted plants of all kinds to be used for decoration purposes. 10c to 25c each.

Summer Flowering Bulbs

GLADIOLUS—No flower has gained more in public favor than this. They thrive in almost any good soil. Plant the bulbs six to nine inches apart, and from two to four inches deep. 40c dozen.

DAHLIA—The flowers are symmetrical and large, and varied range of colors. 10c to 20c each.

TUBEROSE—The flowers of this popular plant are waxy-white, double and exceedingly fragrant. 30c per dozen.

A good way to grow Tuberose is to fill five or six-inch pots half full of well rotten cow manure, and the remainder with good, rich, sandy soil. Plant the bulbs in this in April, water moderately and keep in warm, light place. When the weather has become warm, plunge the pots in the earth out of doors.

MADEIRA VINE—Tuberous-rooted climber, with glossy, green leaves, and delightfully fragrant, white blossoms. It is of rapid growth; and from a few tubers, vines will cover the side of a cottage in a single season. 5c to 15c each.

TULIP—Producing such a variety of bright colors almost as soon as the snow is gone. 20c per dozen.

NARCISSUS—Single and double. 35c per dozen.

HYACINTHS—50c per dozen.

SNOWDROPS—15c per dozen.

CROCUS, ETC.—10c per dozen.

THE Agricultural Societies and Experiment Stations of the United States are giving the subject of Spraying Fruit Trees and Plants much attention. It has been conceded by the best authorities that spraying is absolutely necessary on all fruits and plants to obtain the best results.

We handle a full line of Sprayers of the best makes for Trees, Vines and Greenhouses; materials to spray with: Bordeaux Mixture, Tobacco Extract, Etc.

THE PERFECTION SPRAYER

At the right is shown a cut of the new cylinder type of Sprayer that has recently been added to our line. In bringing out this Sprayer and offering it to the trade, we do it with a full knowledge of the many difficulties to be overcome in building a Sprayer of this type. First, in this is the question of strength and durability combined with ease of operation, range and character of work necessary in a Sprayer that can be sold at a moderate price. A poor Sprayer is dear at any price; a good one is cheap.

This Sprayer will handle whitewash, water, paints, Bordeaux mixtures, etc. perfectly. Made of galvanized steel or brass. Weighs 9½ lbs. Tested 50 lbs.

Spray It-Whitewash It

... USE A ...

"PERFECTION" SPRAYER

with the famous automatic shut-off nozzle.

Saves three times the labor of any other Sprayer used for disinfectants, whitewash, etc.

Its all in the automatic nozzle.

Insist on a "PERFECTION"

Its the strongest and most powerful compressed air Sprayer made.

Brandt Manufacturing Co.

MINNEAPOLIS . . . MINNESOTA

The Standard Spray Pump

Its plan of operation is slightly different from other type of spraying apparatus since the hose is used on the suction end instead of the discharge end. This makes it possible to use the pump with a bucket, barrel, tank or knapsack, depending upon the number of trees or the kind of spraying to be done.

The best and most powerful piece of low-priced Spraying apparatus on the market to-day. Made entirely of brass, with two solid brass ball valves.

No Leather Suckers or Washers.
No Castings to Rust.
No Leaking Joints.
No Lost Motion.
Nothing to Get Out of Order.

THE IDEAL SPRAYING OUTFIT

This outfit has been designed to fill the requirements of the small Orchardist, Gardener and Fruit Grower—those who need something larger than our No. 2 and No. 3 Knapsack Sprayers, but who do not want anything as large as the barrel and power outfits. It is light, compact and easy to operate. Holds 15 gallons. It has the largest air chamber of any spray pump of its size, thus enabling operator to keep a uniform pressure at nozzle.

BUCKEYE BROODERS

THE STANDARD COLONY BROODER

The Standard Colony Brooder will successfully brood 100 chicks or 1000. It is the simplest, safest and most economical brooder on the market. It cuts the cost of labor in half and reduces cost of operation. A poultryman can now handle 1,000 chicks with about the same amount of work that he formerly took to raise 100.

Standard Colony
Brooder No. 18
Capacity 500 chicks
Self-feeding
Self-regulating
\$19.00

BURNS ANY KIND OF FUEL

The Standard Colony will burn any kind of fuel—hard or soft coal, coke, charcoal, briquettes or gas. It is self-regulating. You simply have to adjust the regulator at the beginning of the brooding season, and then forget about it. It is self-feeding. You fill the stove once a day and then no further attention is required, as the fuel automatically feeds the fire until it is entirely burned out. It is guaranteed to burn more than 24 hours in any kind of weather.

SIMPLE TO OPERATE

No previous experience is necessary to operate a Standard Colony Brooder. The whole apparatus has but one adjusting nut, and it is only necessary to touch that once a season. Only attention required is to fill stove once a day.

CAN BE OPERATED ANYWHERE

No room is too large or too small for a Standard Colony Brooder. It can be operated in any room that is large enough to accommodate the hover and give room to move around. Can be handled with equal success in the largest barn or in the smallest colony house.

ABSOLUTELY FIRE PROOF

It is guaranteed to be fire proof and will not increase the cost of insurance. It is just as safe as any stove that burns coal or gas and cannot by any possibility set anything on fire.

GUARANTEE

The Standard Colony Brooder is guaranteed to do everything that any brooder on the market will do—and do it better—no matter what the other brooder costs.

THE SECURITY PORTABLE BROODER

This brooder is all that the name implies—and more. It is the only lamp heated brooder ever invented that possesses every desirable qualification for the welfare of the little chicks. It is the only oil-burning brooder that provides every ideal condition which you know to be necessary to the health and growth of the chicks, and its construction is so simple that the operator cannot go wrong. There is nothing to adjust, nothing to get out of order, nothing to look after but the lamp—and that requires filling but once in 24 hours. Capacity 150 chicks, \$16.50.

ABUNDANCE OF FRESH AIR AND HEAT

The Security Brooder furnishes an abundance of fresh air and heat at all times. Every particle of heat coming from the high power lamp is utilized to heat the interior of the brooder. The Security construction insures the highest degrees of efficiency and we guarantee the satisfactory operation of every brooder in any inside temperature down to freezing. The lamp is protected from the chicks by a galvanized wire guard extending from the floor to the overhead canopy. This keeps the lamp perfectly clean at all times and guards against interference from the chicks.

Standard Colony
Brooder No. 19
Capacity 1000 chicks.
Self-feeding
Self-regulating
\$23.50

Another illustration of the Standard Colony Brooder which shows the ease and simplicity of operating.

CAN BE USED ANYWHERE

The Portable Brooder can be used anywhere—in the house, barn or out of doors. Easy to handle and easy to operate. No crowding of chicks, as there is always an abundance of heat no matter what the temperature outside may be. The Buckeye Portable Brooder is guaranteed to operate successfully in any temperature down to freezing.

Buckeye Incubators

Are Guaranteed to Hatch MORE Chicks and BETTER Chicks Than Any Other Incubator

No. 14
Style E

Weight, crated for shipment, 55 lbs.
Capacity, 60 eggs. Price, \$12.00

No. 14 is especially adapted for use by the small raiser. It has all the important features of the larger machines, such as visible thermometer, and the Buckeye heating and ventilating system. The temperature is easily regulated and the consumption of oil is low.

No. 16, Style E. Capacity, 110 eggs; weight, crated for shipment, 85 pounds. Price \$20.50. This machine is the same as No. 14, except that it has a greater egg capacity and long legs instead of short ones.

No. 17, Style E. Capacity, 200 eggs. Weight, crated for shipment, 125 pounds. Price, \$27.50. Same as No. 16, except that it has greater egg capacity.

No. 17
Style E
200 Egg.
Price \$27.50

All Style E incubators have single walls and are equipped with galvanized armco and rust-resisting heaters.

No. 15
60 Egg
Weight,
crated, 75
pounds.

Price, \$16.50

No. 15, Style H. Capacity, 60 eggs. Weight, crated for shipment, 75 pounds. This is a wonderful little hatcher and was designed for the raiser who wants the best,

even in a small machine. The walls are all double and the equipment is the same as the larger machines. This incubator has long legs, which makes it more convenient to operate. It is a self-regulating in every sense, never fails, and is efficient and economical.

WHY THE BUCKEYE SUCCEEDS

The unprecedented success which has followed the Buckeye for twenty-five years is primarily due to the invention of the Buckeye hot-water system. Without this wonderful system of hot-water heating, that perfect balance between the temperature, moisture and ventilation, which is so necessary to successful incubation, would be a physical impossibility. The ability to heat the egg chamber without cooking all the moisture out of the air is not only responsible for the abundant supply of natural moisture, but at the same time the soft radiated heat from the hot-water tank provides an absolutely uniform temperature, and permits the perfect ventilation of the egg chamber at the same time.

Without this system of hot-water heating, it would be necessary to heat the egg chamber with currents of hot air, and it is now an established fact that the temperature and ventilation of incubator cannot be successfully balanced where hot air currents are used.

Too much emphasis cannot be attached to the importance of keeping impure gases and fumes out of an incubator. Instead of passing the hot air fumes through the incubator, with a likelihood of leakage in the conductor at any time, we heat the hot water on the outside—send it circulating around the egg chamber—and keep all the fumes from the lamp on the outside. It takes but a very small portion of lamp fumes to kill the developing chicks, and by circulating hot water through the egg chamber instead of hot air, we entirely eliminate all possibility of damage to the eggs.

BUCKEYE GUARANTEE

This Buckeye Incubator is guaranteed to hatch every hatchable egg, and we further guarantee the perfect working of all its mechanical parts. Should the incubator fail to fulfill our guarantee in any particular, it may be returned to us at our expense (via freight) any time within 40 days after its receipt, and we will send the purchaser a new incubator in exchange.

HATCH MORE AND STRONGER CHICKS

The Buckeye will hatch more chicks and stronger chicks than any other make of incubator. It requires no

artificial moisture; will operate satisfactorily in any climate, and requires no attention to the regulator from the time a hatch is started until it is finished. The entire Buckeye system is so simple that a boy or girl can operate it as satisfactorily as an experienced operator.

BUCKEYE STANDARD INCUBATORS

The Buckeye Standard is an improved Buckeye. It is fire-proof and fool-proof. It is equipped with every desirable device that could possibly add to the efficiency of an incubator. The Standard Buckeye is fire-proof, and therefore insurable. Each machine is inspected by the National Board of Insurance Writers before it is put on the market.

No. 1
Standard
110 Egg.
Price \$27.50

No. 1 Standard has a capacity of 110 hen eggs, or 85 duck eggs. It is complete in every detail and is ready for immediate use. The weight, crated for shipment, is 100 pounds. This incubator is insurable and bears the Underwriters' label. An improved feature of all Standard incubators is the enclosed lamp. Equipped with oil or gas heater.

No. 2 Standard has a capacity of 175 hen eggs or 140 duck eggs, is equipped with oil or gas heater, and is complete and ready for use. Weight, crated for shipment, 135 pounds. This machine is insurable and bears the Underwriters' label. Price, \$32.50.

No. 3 Standard has a capacity of 250 hen eggs or 200 duck eggs, is equipped with oil or gas heater and is complete and ready for use. Weight, crated for shipment, 200 pounds. This machine is insurable and bears the Underwriters' label. Price, \$42.50.

No. 3
Standard
250 Eggs
Price \$42.50

No. 4 Standard has a capacity of 350 hen eggs or 280 duck eggs. Equipped with oil or gas heater and is ready for use. Weight, crated for shipment, 230 pounds. Insurable, and bears Underwriters' label. This machine is very convenient for the commercial raiser. Price, \$52.50.

INSURE YOUR GARDEN AND ORCHARD AGAINST BUGS

Devoe ARSENATE OF LEAD PULP FORM

Paste Arsenate of Lead is better than government requirements in the matter of percentage of Arsenic Oxide. An effective insecticide chiefly for many of the Bugs, Worms and Moth that fruit growers have to contend with. It comes in paste form and can be easily mixed with water. It forms a milky film when sprayed on foliage which does not readily wash off with rain. Good for potatoes and tobacco and all kinds of fruit trees.

1 lb. Cans	-----	\$0.45
2 lb. Cans	-----	.80
5 lb. Cans	-----	1.75

Devoe ARSENATE OF LEAD Powdered Form

The Perfect Insecticide. An effective insecticide for leaf-eating insects and particularly suitable for very tender foliage. Due to the light, fluffy character of this material and its adhesive qualities it insures quick and effective control. Under favorable conditions will not injure the foliage. Can be used on Apple, Pear, Peach, and Plum trees, Potatoes, Corn and Vegetables of all kinds that may be attacked by leaf-eating insects.

1/2 lb. Cartons	-----	\$0.40
1 lb. Cartons	-----	.75
5 lb. Cartons	-----	3.00

Devoe CALCIUM ARSENATE Powdered Form

For the Control of Potato Bugs. Calcium Arsenate is a lighter, more fluffy powder than Arsenate of Lead or Paris Green—more bulky. When used dry, will dust more plants per pound, and when mixed with water will stay in suspension better and give you better and more uniform distribution. Lead Oxide in Arsenate of Lead has no insecticide or fungicide value; but Calcium Arsenate is made on a lime base which has fungicide value. Lime adheres perfectly to foliage; will not wash off easily and is white. For protection against the potato beetle, cabbage and tobacco worms.

LIME and SULPHUR SOLUTION

GUARANTEED TO TEST 33 DEGREE BEAUME

A FERTILIZER, A SHEEP DIP, A FUNGICIDE. It is generally conceded that the best defense against SAN JOSE SCALE and kindred enemies of the orchard, is in spraying with a solution of Lime and Sulphur. The experimental stations and leading orchardists now generally recommend its use. To meet the growing demand for this remedy, we are supplying the trade with Devote Lime and Sulphur Solution. The two are perfectly combined, thus securing the largest percentage possible of Sulphide of Sulphur, the only form of sulphur of value as a spray. It is clear, free from insoluble matter, highly condensed and of great strength.

SURE WAY SEED TESTER

Above Cut Shows Tester Unrolled
Ready to Fill

This Cut Shows Tester Filled and
Rolled Up. Size only 22x3 in.

PRICE, \$1.25 EACH

Consists of a pocket compartment formed of special material containing 100 pockets, each 2 inches by 1½ inch, and numbered from 1 to 100. At one end is formed an oil-cloth cover which retains the moisture when the Tester is filled and rolled up for a test.

Testing seed corn with a Sure-Way Tester is a very simple and easy matter, and can be done at any time during the winter or spring months, regardless of zero weather, and at a time when other farm work is slack. Five or six grains are removed from each ear to be tested and placed in a pocket, the ears are numbered to correspond to the pockets by numbers furnished with the Tester. After the Tester is filled it is saturated with water by pouring water into the end, after which it is hung up on the wall near the stove. No further attention being required until grains sprout, which will be in two to four days, according to the vitality of the seed and heat of the room. The Tester can then be filled for the next test. Complete instructions furnished with each Tester.

The Sure-Way Tester is far superior to all other methods of testing seed corn, and various other seeds, because it is always ready for use. Requires no sand or sawdust. It is easy to fill. Each seed has the same conditions under which to germinate. Being hung up on the wall, it is entirely out of the way, and gets the full benefit of the warm air in the room, making germination very rapid. Perfect tests can be made in two to four days, regardless of zero weather. Grains cannot fall out of the pockets or get mixed up. Grains can be inspected at any time by taking the Tester down and unrolling it on a table.

The United States Mail (Parcel Post) will bring our seeds to your door.

MAKING OUT ORDERS.—We always make it a point to give orders our **immediate attention** as soon as received, a fact well known and appreciated by the thousands of customers deriving their supplies from us direct. The prompt execution of orders will be greatly facilitated if our customers will be careful to write on their order their **Full Name and Address, the Quality, Name of Variety and Price** of the seeds wanted. (See Order Sheet enclosed.)

TERMS CASH WITH ORDER.—Seeds sent to amount of remittance only; when prices fluctuate and postage or cost of bags is not provided for in remittance as required, orders will be modified accordingly, and customers can reorder the deficiency, as no accounts will be opened for small sums or balances resulting from short remittance. We guarantee to fill your order satisfactorily. In case of an error it will be cheerfully corrected.

REMITTANCE may be made in cash, by Express or Registered Mail, by Draft, or by Postal Money Order. Sums of fifty cents or less, in cash or stamps, may be sent by ordinary Mail at our risk. Postage stamps for any sum will be accepted where facilities for transmitting money by the above modes do not exist, but letters containing same should be registered.

HAVE A CONKEY CORNER IN YOUR POULTRY HOUSE

HEALTHY POULTRY PAYS

Only vigorous, healthy birds can produce profits. If disease enters your flock, act quickly with reliable remedies. Better still, prevent disease before it starts. We recommend Conkey's Poultry Remedies because they are absolutely dependable. Conkey's must satisfy you or we'll refund your money quick. Send 4c stamps for valuable book on making poultry pay. Chock full of valuable poultry facts.

CONKEY'S ROUP REMEDY.—Roup is perhaps the most common contagious disease of the poultry yard. Once started, it is likely to affect most of your birds. It is a disease that is easily detected through its peculiar, disagreeable symptoms. As soon as cold, damp weather starts, colds appear and these are very likely to develop into roup, with fatal results.

Keep the disease out. Put a measureful of Conkey's Roup Remedy in the drinking water and the birds will drink and doctor themselves, the remedy thus going to the affected part of the system, while those birds not affected will be strengthening their system so as to withstand the germs of roup.

Conkey's Roup Remedy is an effective aid for preventing roup as well as a good means for saving fowls already affected. Always have a package on hand, especially during cold, rainy weather. Packages 30c, 60c, \$1.20, 5 lb. can \$7.00.

CONKEY'S ROUP PILLS.—Are intended for the individual treatment of roup birds and have been known to put birds that were almost gone, back on their feet. The pills are highly recommended for show room use. Packages 30c, 60c.

CONKEY'S LICE POWDER.—Your hens can't do their best if body lice are constantly tormenting them. Energy that should go toward egg laying is spent in fighting these pests. Lice infested birds are not profit makers, and a good poultryman will not have lice-ridden fowls. Dust every hen every ten days with Conkey's Lice Powder and you will keep them free from vitality sucking lice. Packages 15c, 30c, 60c. Pails—12 lbs. \$1.40; 25 lbs. \$2.75.

CONKEY'S LICE FIX.—An ointment for fighting body lice that is going to be one of the most used in the whole Conkey line. It's no trouble at all to use it. No dust, no bother. Easily and quickly applied to grown birds. An application once a month keeps birds free from lice. Once used, you'll never be without it. 30c, 60c.

CONKEY'S HEAD LICE OINTMENT.—For the murderous head lice that kill thousands of little chicks every year. Head lice are big fellows that bore right through the chick's skull. A dab of Conkey's Head Lice Ointment gets them quick. 15c, 30c.

CONKEY'S LICE LIQUID.—A very strong, effective insecticide, prepared especially for bloodsucking mites. Mix with water and spray over every part of the poultry house. 1-qt. 50c, 2-qts. 75c, 1-gal. \$1.25, 5-gal. \$5.50.

Don't

Me

CONKEY'S CANKER SPECIAL—Here is a remedy for a poultry affection that is a source of considerable trouble, once it starts. Conkey's Canker Special is excellent for the treatment of cankerous growths and helps to get the bird back to normal in a short time. The Canker Special is highly recommended for colds, too. Bottle, 60c.

CONKEY'S CHOLERA REMEDY—in the drinking water quickly reaches the trouble. Cools the inflamed membranes and has a caustic effect on diarrhetic conditions. Invaluable for treating so-called Cholera, Indigestion, Bowel Trouble, Diarrhea and all kindred troubles. Packages 30c, 60c.

CONKEY'S BRONCHITIS REMEDY—for inflammation of membranes of the bronchial tubes. Don't confuse bronchitis with roup. See Conkey's Poultry Book for symptoms. Quick action is necessary in treating Bronchitis. Packages 60c.

CONKEY'S WHITE DIARRHEA REMEDY—Will help save your chicks from this fatal, contagious chick disease. Once started, white diarrhea often sweeps away the whole hatch. Conkey's prevents its spread and saves affected chicks. Treat promptly. 30c, 60c.

CONKEY'S GAPE REMEDY—Gape worms will choke chicks to death. Conkey's Gape Remedy helps rid the chick of these parasites, without hurting the chick. Don't kill the chick with a wire, feather or horse-hair worm extractor. Use Conkey's Gape Remedy. Packages 30c, 60c.

CONKEY'S SOREHEAD REMEDY—For treating Sorehead, Pigeon Pox, Warts, Pian and the dangerous, contagious Chickenpox. 30c, 60c.

CONKEY'S LIMBERNECK REMEDY — Limberneck (Ptomaine poisoning) must be caught in the early stage or it will quickly prove fatal. Have Conkey's Limberneck Remedy always ready. Package 60c.

CONKEY'S POULTRY CONDITIONER—Highly concentrated. For birds recovering from disease—or when in run down condition. Good for poor blood. Splendid for keeping show birds in condition. Packages 30c, 60c.

CONKEY'S POULTRY WORM REMEDY—Rids the birds of many troublesome worms, thus promoting the return to a healthful condition. Give it to the fowls in their feed. Packages 30c, 60c.

CONKEY'S BLACK HEAD REMEDY—Breeders of turkeys should always have a package ready for instant use, for dread Blackhead is very hard to cure in an advanced stage. When treated early, the disease is relieved by this very effective remedy. Blackhead comes in late summer and fall. Conkey's is guaranteed. Package 60c.

CONKEY'S FLEA SALVE—A special exterminator for the Sticktight or Southern Flea. Packages 30c.

CONKEY'S SCALY LEG REMEDY—A few applications of this remedy will penetrate to the mites that work under the scales of the legs and heal up this unsightly trouble. Good also for use on show birds. Gives the legs and toes a bright, healthy lustre. Package 30c.

CONKEY'S NOX-I-CIDE—The germicide, dip and disinfectant with a hundred uses about the home, poultry yard and on the farm. Germs cause and spread most poultry diseases. Nox-i-cide mixes with water and makes a cheap, effective, ready-to-use germ destroyer. Cleans and purifies coops, houses, runs, brooders, founts and utensils. A reliable disinfectant for barns and outhouses. Unequalled for household use or for the sick room. 1-pt. 40c, 1-qt. 70c, 2-qts. \$1.00, 1-gal. \$1.75, 5-gal. \$7.50, 10-gal. \$13.50.

CONKEY'S STOCK SPECIALS

STOCK TONIC—A wonderful Tonic for all livestock.

FLY KNOCKER—A spray for cattle and stables to keep annoying flies away.

COW SPECIAL—A remarkable conditioner for dairy cows.

The above prices should prevail. Continued rising markets, however, make it impossible to guarantee them.

BLATCHFORD'S CALF MEAL

"Good to the last drop"

Sold in 100, 50 and 25-pound bags

The Complete Milk-Equal

is in reality a substitute for milk—and should not be considered as an ordinary "feed" or "meal."

It contains all the elements of milk—a "baby food" for calves.

It is absolutely the *only* milk-substitute that contains in proper proportion the elements necessary for rapid and healthy growth, and the only calf meal that is thoroughly cooked and prepared for easy digestion.

100 pounds makes 100 gallons of Complete Milk-Equal

FROM SOW TO PASTURE

Wean your little pigs easily, safely and cheaply on

BLATCHFORD'S PIG MEAL

From *Pighood* to *Porkage* it gives big bone and solid flesh. Prevents loss of growth and vitality during the critical weaning period, and always **MAKES THE RUNTS CATCH UP.**

Sold in 100, 50 and 25-pound bags

BLATCHFORD'S MILK MASH

It should be every chick's first feed! Prevents bowel trouble, leg weakness and white diarrhea. It carries them safely through the dangerous first three months. Raises 95% of every hatch! Five pounds per chick will do it.

STARTS — GROWS — MATURES — FATTENS

Sold in 100 and 25-pound bags and in 4-pound trial cartons

2 1/4 pounds at 8 weeks!

Blatchford's "Fill-the-Basket" Egg Mash

fed to your pullets when three months old, will make early layers and keep them in perfect health. Does not force or fatten. Feed it to all your hens.

Make your egg profits sure

Sold in 100 and 25-pound bags

Blatchford's "Bar-Nun" Laying Mash

meets the widespread demand of poultrymen for a low-priced laying mash of highest quality and analysis. Guaranteed free from cheap by-products or refuse from the manufacture of breakfast or cereal foods or scratch-feed rations.

Sold only in 100-pound bags
