THE R. M. TEAGUE
CITRUS NURSERIES
SAN DIMAS, CALIFORNIA, U. S. A.

LOS ANGELES COUNTY
FOUNDED IN 1889 BY R. M. TEAGUE

The aromatic Dancy Tangerine.

Quality Trees for Quality Fruit.

In no division of rural industry is the law of elimination more active than in pomology; a fruit that does not give results in quality of product, and in paying quantities, soon finds itself in the discard. In citrus fruits the law of elimination has cut the varieties that constitute commercial importance to a limited number: namely, in oranges the Washington Navel and the Valencia Late; in lemons the Eureka and Lisbon, and in pomelos the Marsh Seedless. With these the aim of propagators has been their perfection, in which laudable endeavor we have aimed to render a modest service. For over thirty years we have made the growing of citrus trees an exclusive business, giving to the task a thought and study that has been one of pleasure and, let us hope, of advantage to the orange and lemon growers. Our trees are all bud-selected from record bearing trees, based on years of observation and experience. In lieu of this, we again call attention to the kind and quality of citrus tree that we offer, claiming for it qualities that are superior to the general run of trees, and equaled by but few. An examination will verify our claims. On a basis of quality and service, we solicit your orders.

R. M. TEAGUE,

Manager of The R. M. Teague Citrus Nurseries.

**Citrus Trees are offered subject to prior sale
and an advance in prices.**

Combination Citrus Trees

These are trees budded from four to six different varieties of citrus fruits, constituting interesting and unique horticultural novelties.

2 year old stock, balled, 60 to 75 lbs.....Each, \$3.00

IMPORTANT NOTICE:

On trees taken with bare roots and packed in moss in boxes for shipment there will be a reduction of 5 cents per tree on a 30 to 40 lb. ball, and 7½ cents per tree on a 50 to 60 lb. ball.

On all balled trees, where it is necessary to box them to insure safe delivery and lowest freight rates, there will be a charge covering merely the cost of packing materials.

Fragrant blooms of the orange tree.

PLANTING CITRUS ORCHARDS

Our MR. R. M. TEAGUE can be consulted on soils and climate, methods of planting, irrigating, cultivating, fertilizing, etc., of orange and lemon groves, by appointment or correspondence.

Address: R. M. TEAGUE,
SAN DIMAS, CALIFORNIA

THINGS TO BE OBSERVED.

Terms—State specifically the size and variety of trees you want, and give a few general hints as to your soil and climatic conditions. From unknown parties we demand a remittance or deposit of 50% of order or good references. Send money by bank draft, postoffice or express order, or registered letter.

Location—The land upon which our nurseries are situated is conceded to be the best for growing citrus nursery stock, producing a fine grade of tree with a vigorous root system making transplanting safe.

Quality of Stock—All of our trees are grown to stakes, and are straight and thrifty, and well rooted. He who plants an orange or lemon grove, plants for generations; hence, in choosing stock be careful to get only the best obtainable.

Packing—We pack all trees in the best possible manner, in bales and boxes, according to the size of order and distance of shipment. Trees can be sent with safety to any part of the United States or foreign countries.

Guaranteeing Trees—We guarantee all trees shipped from our nurseries to be as represented. We personally attend to the budding of all our trees, and use the utmost care to insure them true to name.

Transportation Facilities—Our transportation facilities are excellent, being midway between the Southern Pacific and Santa Fe railways, hence we ship via either road, also Pacific Electric.

Shipping Instructions—Please furnish explicit directions for shipping and by what route. In the absence of any instructions we ship according to our best judgment, but in no case do we assume any responsibility for condition or safe delivery of trees after same have been properly packed and delivered to transportation companies.

Claims—Legitimate claims for errors and mishaps will be promptly recognized if made within ten days of the receipt of the goods, otherwise we will entertain no claims of this nature.

We make a specialty of selecting extra fine specimens of different varieties for potting or lawn planting. Write us your wants in this line and we will make you quotations on same.
