COMPLETE
LANDSCAPE SERVICE

THE
Berryhill Nursery
Company

HARRISBURG · PENNSYLVANIA

City Store—Locust at Second

Service Department

O many people such a list of plants as follows herein means nothing but confusion. It is as though the complete material for building a house is presented for consideration without a blue print or a practical builder to assemble the parts or make clear the uses and places for the various parts.

We offer this price-list, therefore, simply as a means of opening the connection. Our practical plantsmen are always available, or we will supply the blue print to interpret the uses and possibilities of this wealth of growing things to beautify your surroundings.

The cost of this service is very inexpensive—it depends somewhat on the character of the undertaking but it costs absolutely nothing to ascertain the preliminary possibilities and a very great saving may result from a clear-cut, intelligent beginning.

Give us the area of your grounds or some idea of what you desire to accomplish, and we will tell you promptly the approximate possibilities. The same interest will be shown whether the matter is large or small. Ask us for any horticultural or landscape information. We are at your service.

LOCATIONS

Our nurseries are located at Harrisburg, Pa., on the Jonestown Road, four miles from the center of the city; at Indiantown Gap, Pa., twenty-five miles east of Harrisburg, where we are growing many of the fine native evergreens and shrubs; and at Springfield, Ohio, on the Mechanicsburg Pike, six miles from the center of the city. Visitors are always welcome.

FLOWER STORE

The Berryhill, our city flower store, is located on Locust Street at Second. Cut-flowers for all purposes, decorative plants, bedding plants, etc., are always on sale, fresh from our own greenhouses.

PRICES—SHIPPING

The prices herein are for stock delivered within the city limits or to express or freight companies free of charge. Our responsibility ceases on delivery of shipments to the carrying company. Terms are always cash with the order or satisfactory reference.

The Berryhill Nursery Co.

Harrisburg, Pa., January, 1920.

Evergreen Trees

Abies • The Firs

Well-known, hardy, quick-growing trees, and differ from the spruces in having their needles arranged flat on the branches.

Abies balsamea (Balsam Fir). A rapid-growing tree; extremely hardy.

	Each	10
2 to 3 ft.....	\$2 00	\$17 50
3 to 4 ft.....	3 50	32 00
4 to 5 ft.....	5 00	45 00
concolor (White Fir). 2 to 3 ft.....	4 50	42 50
3 to 4 ft.....	5 50	50 00
Fraseri (Double Balsam Fir). 2 to 3 ft....	2 00	17 50
3 to 4 ft.....	3 50	32 00
Nordmanniana (Nordmann's Fir). This tree builds itself up in beautifully regulated tiers. 2 ½ to 3 ft.....	4 50	42 50
3 to 4 ft.....	6 50	60 00
4 to 5 ft., specimens.....	\$8.50 to 17 50	
pectinata (European Silver Fir). A tree of vigorous, upright growth; very hardy. 2 to 3 ft.....	3 00	27 50
3 to 4 ft.....	4 50	40 00

Biota • The Chinese Arborvitæ

Of beautiful, dense growth and symmetrical outline.

Biota orientalis (Chinese Arborvitæ). Quite distinct from the American Arborvitæ.

Deep green, soft, feathery foliage; upright growth. 2 to 3 ft..... 2 50 22 50

3 to 4 ft..... 4 00 37 50

4 to 5 ft., specimens.....\$5.50 to 7 50

orientalis compacta (Dwarf Chinese Arborvitæ). 1 ½ to 2 ft..... 2 50 22 50

2 to 3 ft..... 3 75 35 00

3 to 4 ft., specimens.....\$5 to 7 50

Cedrus • The Cedars

Cedrus atlantica glauca (Mt. Atlas Silver Cedar). The tree finally forms a pyramid of stately appearance, with foliage

of a delicate steel-blue. 3 to 4 ft.... 5 00

4 to 5 ft., specimens.....\$7.50 to 10 00

Cryptomeria • The Japanese Cedar

Cryptomeria japonica Lobbii. A beautiful

novelty and the handsomest of the type. 3 to 4 ft..... 5 00

Cupressus • The Cypress

Cupressus Lawsoniana (Triumph of Bos-

koop). This is the hardiest of all the Cupresses and the most beautiful.

2 to 3 ft..... 3 50 32 50

3 to 4 ft..... 5 50 50 00

4 to 5 ft., specimens.....\$7.50 to 10 00

Juniperus • Junipers

This large natural family of evergreen trees is probably the most remarkable in many respects. Including our hardiest natives, the Red Cedars, they range in size from medium-high trees to the smallest bush forms and dwarfs, trailing flat on the rocks and sand-banks.

Juniperus chinensis Pfitzeriana. One of the best newer introductions and probably the most valuable of the spreading Junipers

Each 10

1 to 1 ½ ft.....\$2 00 \$18 50

1 ½ to 2 ft..... 2 50 22 50

2 to 3 ft..... 3 25 30 00

3 to 4 ft., specimens.....\$5 to 7 50

EVERGREEN TREES, continued		Each	10
Juniperus communis (Canadian Juniper). A pretty, spreading evergreen for rockery and hillside planting. 1 to 1 ½ ft.			
1 ½ to 2 ft.	\$1 75	\$15 00	
communis aurea (Golden Canadian Juniper). The golden variety of the above and a valuable dwarf sort. 1 to 1 ½ ft.			
1 ½ to 2 ft.	2 25	20 00	
Sabina (Savin Juniper). A very valuable spreading Juniper with dark green foliage. 1 to 1 ½ ft.			
1 ½ to 2 ft.	1 75	15 00	
2 25	20 00		
horizontalis (prostrata) (Prostrate Juniper). This is an extremely prostrate form of Juniper. 1 to 1 ½ ft.			
1 75	15 00		
virginiana (Red Cedar). The Red Cedar is our hardiest and most popular evergreen, and one of our great specialties. The natural tree forms a fine conical pyramid, but it can be easily trained into almost any form desired. 4 to 5 ft.			
5 to 6 ft.	3 50	32 50	
6 to 7 ft.	4 50	42 50	
7 to 8 ft.	5 50	50 00	
8 to 9 ft.	7 00	65 00	
9 to 10 ft., specimens.	9 50	87 50	
For larger sizes, hundred rates, and car-load prices ask for our special Cedar List.			
virginiana glauca (Blue Virginia Cedar). Another splendid variety of the Cedars and quite hardy, with beautiful glaucous foliage. 2 to 3 ft.			
3 to 4 ft.	4 00		
	5 00		

Picea • The Spruces

No other family of evergreens is better known or more largely planted. They are splendidly fitted for individual planting as well as for grouping and windbreaks.

Picea canadensis (alba) . White Spruce. Each		10
2 to 3 ft.	\$2 50	\$22 50
Alcockiana (Alcock's Spruce). A fine, upright-growing, hardy, and useful variety. 2 to 3 ft.		
3 to 4 ft.	3 00	27 50
4 to 5 ft., specimens.	4 00	36 50
Engelmannii (Engelmann's Spruce). A desirable form for ornamental planting. \$5 to 10 00		
2 to 3 ft.	3 50	32 50
3 to 4 ft.	5 00	47 50
excelsa (Norway Spruce). Probably more in use than any other Spruce, being inexpensive and a rapid grower. This is the true Christmas Tree. 2 to 3 ft.		
3 to 4 ft.	2 00	18 50
4 to 5 ft.	3 00	28 50
5 to 6 ft., specimens.	4 50	42 50
orientalis (Oriental Spruce). This Spruce forms a very symmetrical, compact pyramid, with short, dark, rich green needles. 1 ½ to 2 ½ ft.		
2 ½ to 3 ft.	2 50	22 50
	3 25	30 00
pungens (Colorado Spruce). The original form of which the famous Colorado Blue Spruce is a variety. Very hardy and of great beauty. 2 to 3 ft.		
3 to 4 ft.	4 50	
4 to 5 ft.	\$5 to 7 50	
	\$7.50 to 12 50	
pungens Kosteri (Koster's Blue Spruce). A very distinctive and striking evergreen and now very scarce as there are no more importations. 1 ½ to 2 ft.		
2 to 3 ft.	4 00	
3 ½ to 4 ft.	\$5 to 6 50	
4 ½ to 5 ft.	\$7.50 to 10 00	
5 ½ to 6 ft.	\$12.50 to 17 50	
	\$20.00 to 30 00	

Pinus • The Pines

This family of well-known evergreens includes our most beautiful park and lawn trees, as well as our invaluable forest trees. They are so manifold in habit and character that a suitable tree may be found amongst the Pines for almost any place and location.

Each 10

Pinus nigra austriaca (Austrian Pine). Probably the hardiest of all Pines, therefore especially adapted to open, windy locations. Of very vigorous, healthy growth and massive form. The needles are heavy and long, of a glossy dark green. 2 to 3 ft.....			\$2 50	\$22 50
3 to 4 ft.....			4 00	35 00
montana . A hardy, dwarf mountain Pine, excellent for group and foundation planting. 1 ½ to 2 ft.....			2 00	18 50
2 ½ to 3 ft.....			5 00	47 50
3 to 4 ft., specimens.....			\$7.50 to 10 00	
montana Mughus (Mugho Pine). This is a distinct alpine species and very interesting. Of dwarf spreading habit. 1 to 1 ½ ft.....			2 00	18 50
1 ½ to 2 ft.....			3 00	27 50
resinosa (Red Pine). Beautiful tree of dense growth and reddish bark and foliage. 2 to 3 ft.....			3 00	27 50
3 ½ to 4 ft.....			4 00	36 50
4 ½ to 5 ft., specimens.....			\$5 to 10 00	
Strobis (White Pine). One of our finest native evergreens, forming a noble, graceful tree of characteristic appearance. 2 to 3 ft.....			1 50	12 50
3 ½ to 4 ft.....			3 00	26 50
4 to 6 ft., specimens.....			\$5 to 25 00	
sylvestris (Scotch Pine). A strong, vigorous grower, useful for mass- and screen-plantings. 2 to 3 ft.....			1 50	12 50
3 ½ to 4 ft.....			3 00	26 50
4 to 5 ft., specimens.....			\$4 to 7 50	

Pseudotsuga

Pseudotsuga Douglasii (Douglas Spruce). Of graceful symmetrical growth; valued highly as a specimen as well as in collections. The needles are soft and dark green, often showing a glaucous shade. A most suitable tree to take the place of the now so rare Blue Spruce.

2 to 3 ft.....	2 50	22 50
3 ½ to 4 ft.....	4 50	40 00
4 to 5 ft., specimens.....	\$5.50 to 10 00	

Retinispora • The Japan Cypress

The trees of this class of evergreens are characterized by their beautiful feathery appearance. The different varieties assume quite distinct colors and habits, being constant and attractive at all seasons.

Each 10

Retinispora obtusa (Obtuse-leaved Retinispora). One of the most valuable of its genus and of noble and graceful appearance. Extremely hardy. 2 to 3 ft.....			\$3 00	\$28 00
3 to 4 ft.....			5 00	47 50
obtusa nana . An extremely dwarf form of true Japanese appearance. 1 to 1 ½ ft.....			4 00	37 50
1 ½ to 2 ft.....			5 00	
obtusa nana aurea . Quite similar in habit and appearance to the above, with beautiful golden foliage of lasting quality. 1 to 1 ½ ft.....			4 50	

EVERGREEN TREES, continued Each 10

Retinispora pisifera (Pea-fruited <i>Retinispora</i>). The airy and slender branches of this pretty <i>Retinispora</i> are open and gracefully arranged. 2 to 3 ft.....			\$2 50	
3 to 4 ft.....			4 00	
4 to 5 ft., specimens.....			\$5 to 10 00	
plumosa (Green Plume-like <i>Retinispora</i>). One of the best-known <i>Retinisporas</i> and extensively used. 2 to 3 ft.....			2 50	\$22 50
3 to 4 ft.....			3 50	31 50
4 to 5 ft.....			5 00	46 50
5 to 6 ft.....			\$8 to 15 00	
8 to 12 ft., specimens.....			\$17.50 to 35 00	
plumosa aurea . The golden variety of the above; beautiful and hardy.				
2 to 3 ft.....			2 50	22 50
3 to 4 ft.....			3 50	31 50
4 to 5 ft.....			5 00	46 50
plumosa squarrosa (Silver <i>Retinispora</i>). An evergreen of great merit and beauty and of compact, dense growth.				
2 to 3 ft.....			3 00	28 50
3 to 4 ft.....			5 00	47 50
4 to 5 ft., specimens.....			\$10 to 15 00	

Taxus • The Yews

The Yews are slow-growing but highly ornamental evergreens, preferring a sheltered position. They thrive best in a rich, moist garden soil.

Taxus baccata fastigiata (Irish Yew). Well adapted to strictly formal planting; of a distinct, upright, conical shape and hardier than the English Yew.			Each	10
1 to 1½ ft.....			\$2 00	\$18 00
1½ to 2 ft.....			3 00	27 00
canadensis (Canadian Yew). Low, bushy type of <i>Taxus</i> ; dark green and very hardy. 1 to 1½ ft.....			2 00	18 00
1½ to 2 ft.....			3 00	27 00
cuspidata (Japanese Yew). A dense-growing upright evergreen of great hardiness.				
1 to 1½ ft.....			2 50	22 50
1½ to 2 ft.....			3 50	31 50
cuspidata nana (brevifolia) (Short-leaved Japanese Yew). A typical Japanese plant and very hardy and desirable; spreading branches covered with dark green needles. 1 to 1½ ft..			2 50	22 50
1½ to 2 ft.....			3 50	

Thuja • The Arborvitæ

Thriving in most any soil, *Arborvitæ* adapt themselves wonderfully to various treatments and uses and most of them are quite hardy. They are the easiest evergreens to transplant.

Thuja occidentalis (American <i>Arborvitæ</i>). Our native <i>Arborvitæ</i> , probably the most useful of its class. An excellent hedge and windbreak plant and often used in tubs and vases			Each	10
2 to 3 ft.....			\$1 50	\$13 50
3 to 4 ft.....			2 50	22 50
4 to 5 ft.....			\$3.50 to \$4.50 each, \$31.50 to \$40.50 for 10.	
occidentalis Sieboldii (Compact <i>Arborvitæ</i>). A dwarf dense-growing evergreen, with neat, bright green foliage.				
1½ to 2 ft.....			2 50	22 50
occidentalis pyramidalis (Pyramidal <i>Arborvitæ</i>). Similar to the original species, but forming a strict pyramid of denser growth and finer texture.				
2 to 3 ft.....			1 75	15 25
3 to 4 ft.....			2 50	22 50
4 to 5 ft.....			4 00	36 50

EVERGREEN TREES, continued Each 10

Thuya occidentalis globosa (Globe Arborvitæ). A dwarf and compact-growing Arborvitæ, forming a perfect globe without the help of pruning-shears. Hardy, useful, and ornamental.		
10 to 12 in.....	\$1 50	\$12 50
1 to 1½ ft.....	2 50	22 50
occidentalis globosa, Tom Thumb. Similar to the above, but strictly dwarf and globular. 10 to 12 in.		
12 to 16 in.....	1 50	12 50
2 00	17 50	
occidentalis Vervæneana. (Vervæne's Arborvitæ). A distinct bronze-colored tree of graceful appearance. 2 to 3 ft.		
3 to 4 ft.....	2 50	22 50
3 50	31 50	
orientalis lutea (George Peabody's Arborvitæ). In habit and growth similar to the species but has a distinct golden yellow hue; highly appreciated for contrast in foliage effects. 2 to 3 ft....		
3 to 4 ft.....	3 00	28 50
5 00	47 50	

Tsuga • The Hemlocks

A group of evergreens not surpassed by any other. Their beauty and gracefulness in outline, hardiness, rapidity of growth, and easy transplanting qualities make them our most popular and most highly valued evergreens. One of our great specialties.

Tsuga canadensis (<i>Abies canadensis</i>). Hemlock Spruce. One of our magnificent native evergreens. As a single specimen it will develop its full beauty as a tree, with its slender, elegant branches sweeping down to the lawn. As a hedge plant, screen, or wind-break, it is of equal merit.		
	Each	10
1½ to 2 ft.....	\$1 50	\$12 50
2 to 3 ft.....	2 50	22 50
3 to 4 ft.....	4 00	37 50
4 to 5 ft.....	\$5.50 to	6 50
5 to 6 ft., specimens.....	\$7.50 to	12 50
caroliniana (Southern Hemlock). Of quite distinct shape and beauty; foliage dense and dark green. 2 to 3 ft.....		
3 to 4 ft.....	3 50	5 00

Specimen Evergreens

From our stock we have selected a few larger-sized specimen evergreens, grown in widely spaced plantings and frequently transplanted, ready for immediate effects. These trees are specimens suitable for single or group planting; or valuable for immediate screens or windbreaks. Most of them are remarkably fine and must be seen to be appreciated.

Abies Nordmanniana (Nordmann's Fir). Each		
4 to 5 ft.....	\$8.50 to	\$17.50
Biota orientalis (Chinese Arborvitæ).		
4 to 6 ft.....	5 50 to	12 50
Juniperus virginiana (Red Cedar).		
8 to 10 ft.....	9 50 to	15 00
Picea excelsa (Norway Spruce). 5 to 6 ft....		
8 to 10 ft.....	6 00 to	10 00
12 50 to	25 00	
Pinus austriaca (Austrian Pine).		
4 to 5 ft.....	5 00 to	12 00
excelsa (Bhotan Pine). 6 to 8 ft.....	12 50 to	25 00
Strobis (White Pine). 4 to 5 ft.....	5 00 to	12 50
5 to 7 ft.....	12 50 to	25 00
Retinispora filifera. 5 to 6 ft.....		
pisifera (Pea-fruited Retinispora).	8 50 to	17 50
5 to 6 ft.....	8 50 to	17 50
plumosa (Plumed Retinispora).		
5 to 6 ft.....	8 00 to	15 00
8 to 12 ft.....	17 50 to	35 00
Thuya occidentalis (American Arborvitæ).		
6 to 8 ft.....	5 50 to	12 50
Vervæneana (Vervæne's Arborvitæ).		
5 to 6 ft.....	5 00 to	10 00

Evergreen Shrubs

This is a group of highly desirable evergreens of great ornamental value. They are also termed "Broad-leaved Evergreens." They are of more or less dwarf, shrubby habit and include many of our most beautiful natives and introductions from far-off countries, and countless garden hybrids. While we enjoy their beautiful, glossy, and various-shaped evergreen leaves the year round, nearly all of them produce at certain seasons an abundance of rich or delicately tinted flowers. Evergreen shrubs transplant very easily, but they require a mellow soil, rich in humus and free from lime and acids.

Abelia

	Each	10
Abelia grandiflora. One of our most beautiful shrubs. The graceful, arching branches are clothed with fine, dark glossy leaves. The white flowers appear in profusion from spring until frost.		
1 to 2 ft.....	\$0 75	\$6 50
2 to 3 ft.....	1 00	9 00

Andromeda

Andromeda (Pieris floribunda). A beautiful, dwarf-growing plant, with small leathery leaves and wax-like blossoms.		
1 to 1 ¼ ft.....	2 50	22 50
1 ¼ to 1 ½ ft.....	3 50	31 50
japonica. Similar to the former, with very rich, smooth foliage and overhanging racemes of waxy flowers in May and June. 1 to 1 ½ ft.....		
1 to 1 ½ ft.....	2 50	22 50
1 ½ to 2 ft.....	3 50	31 50

Azalea

Azalea amoena. A perfectly hardy, low, spreading shrub, useful for many purposes. In May the claret colored flowers appear in such abundance that they really hide everything beneath them. 12 to 15 in.....		
12 to 15 in.....	1 50	12 50
15 to 18 in.....	2 50	22 50
Hinodigiri. A beautiful variety of the above and of characteristic Japanese appearance. The blossoms are larger and a bright scarlet. A profuse bloomer; hardy foliage. 8 to 12 in.....		
8 to 12 in.....	1 75	16 00
12 to 15 in.....	2 75	25 00

Buxus • Boxwood

This class of well-known, hardy evergreens, ranging through the different species in size from real dwarf to medium-sized trees, are extensively used for many purposes. For permanent edging, hedges, grouping, and specimens in strictly formal plantings, they have no equal. They transplant easily and safely because the roots hold a perfect ball. In rich, moist soil they will reach an indefinite age. Excellent tub and vase plants.

Buxus sempervirens (Common Tree Box).

The most popular of all the Boxwoods.

BUSH FORM	Each	10
10 to 12 in.....	\$0 75	\$6 00
12 to 16 in.....	1 25	10 00
16 to 20 in.....	2 50	20 00

Sempervirens arborescens. (Tall Tree Box). A larger growing tree than the preceding, more open and less formal in appearance.

	Each	10
1 to 1 ½ ft.....	\$1 00	\$9 00
1 ½ to 2 ft.....	2 50	22 50

Euonymus

Euonymus japonicus. (Japanese Euonymus).

A very useful evergreen bush, well suited for specimen and group planting. The beautiful, hardy, leathery leaves are dark green and shining; the bark is bright green.

10 to 12 in.....	60	5 00
12 to 18 in.....	1 00	9 00

japonica aureo-variegatus. (Golden Euonymus). A very hardy variety, with leaves beautifully marked with golden yellow. 10 to 12 in.....

75

Kalmia • Laurel

Kalmia latifolia (Mountain Laurel). This is one of our great specialties. For beauty and usefulness it ranks with our native rhododendron and is particularly effective when used with it. Although admired by many friends of nature in our mountain resorts, it is not nearly so much appreciated and in general use in landscape work as it is in the great European gardens. The oblong leaves always look fresh and glossy (even in the coldest weather) and contrast splendidly with the dainty rose-pink buds, opening into showy clusters of cream-white flowers in June. The bushes are of stately appearance and under favorable conditions, will reach a height and spread of from 6 to 8 feet. They like a soil rich in humus with a heavy mulch of leaf-mold; thrive well in half-shady positions, yet they do well in the open sun. Bushy plants.

	Each	10	100
1 to 1 ½ ft.....	\$1 50	\$12 50	\$100 00
1 ½ to 2 ft.....	2 00	17 50	160 00
2 to 3 ft.....	3 50	30 00	250 00
Specimens.....	\$5 to 50 00		

Leucothoe

Leucothoe Catesbæi. Very useful for plant-ing as an undergrowth, as it endures shade well. 1 to 1 ½ ft.....

	Each	10
	\$1 50	\$12 50

Mahonia

Mahonia Aquifolium (Holly-leaved Mahonia).

12 to 15 in.....	1 00	9 00
18 to 24 in.....	1 75	15 00

japonica (Japanese Mahonia). A strong grower, with large, stiff leaves.

1 to 1 ½ ft.....	1 50	12 50
1 ½ to 2 ft.....	2 00	18 50

Rhododendrons

Rhododendron maximum (Great Laurel). Each	10	
Our strong-growing, glorious native Rhododendron; one of the hardiest of the species. The large, oblong leaves are a glossy green, becoming darker when grown in a shaded position. The great white or rosy pink flowers appear in June and July. 2 to 3 ft.....		
	\$3 50	\$32 50
3 to 4 ft.....	5 00	45 00
catawbiense. This is another native Rhododendron of great beauty and hardiness. 1 ½ to 2 ft.....	2 50	22 50
2 to 3 ft.....	4 00	35 00

CATAWBIENSE HYBRIDS

Album elegans. A fine, tall-growing variety with blush-white flowers.

Caractacus. Purplish crimson; a good grower, with splendid foliage.

Delicatissimum. White, delicately tinted with pink.

Everestianum. Rosy lilac. One of the best and hardiest growers.

Kettledrum. Rich purplish crimson; hardy and an early bloomer.

Roseum elegans. A fine rose-color; good bloomer.

Prices of Catawbiense Hybrids

1 ½ to 2 ft., well-budded.....	3 00	27 50
2 to 2 ½ ft., well-budded.....	4 50	40 00
2 ½ to 3 ft., well-budded.....	\$5 to 6 50

Kalmia latifolia

Deciduous Trees

Our list of this very important class of ornamentals has been carefully selected and includes only such trees as are of real value and general usefulness, such as for street and avenue plantings, for specimens on the lawn, for shade, grouping, and mass effects. They comprise only the hardiest varieties and best growers. Owing to the peculiar nature of our soil, a better and more fibrous root system could not be produced anywhere.

Acer • The Maples

	Each	10
Acer campestre (European Cork Maple). A small tree of dense growth, with interesting, corky branches.		
5 to 6 ft.....	\$1 00	\$9 00
6 to 8 ft.....	1 50	12 50
dasycarpum (Silver Maple). A very rapid grower, therefore much in demand for quick effects. We have a fine stock of this variety. 8 to 10 ft.....	1 50	12 50

12 to 14 ft.....	3 00	26 00
Specimens.....	\$5 to 15	00
dasycarpum Wieri laciniatum (Wier's Cut-leaved Silver Maple). Slender, drooping branches and deeply serrated leaves. 10 to 12 ft.....	2 50	22 50
12 to 14 ft.....	3 50	31 50
Negundo (Ash-leaved Maple; Box Elder). Fast-growing and hardy; thrives in any soil and location. 8 to 10 ft.....	1 00	8 50
10 to 12 ft.....	1 50	12 50
12 to 14 ft., specimens.....	\$2.50 to 5	00
platanoides (Norway Maple). One of the most popular of all shade trees; forms a stately round head. 8 to 10 ft.....	1 50	12 50
10 to 12 ft.....	2 50	22 50
12 to 14 ft.....	\$3.50 to 5	00
Heavy specimens.....	\$10 to 50	00
platanoides Schwedleri (Purple Norway Maple). The leaves, especially in spring, have a beautiful rich purplish color. 8 to 10 ft.....	2 00	18 50
10 to 12 ft.....	\$3 to 5	00
pseudoplatanus (Sycamore Maple). A very handsome, broad tree with heavy, dark green leaves. 8 to 10 ft.....	2 50	22 50
10 to 12 ft.....	3 50	31 50
rubrum (Red or Scarlet Maple). One of our most beautiful native Maples; does well in moist places. 8 to 10 ft.....	2 00	18 50
10 to 12 ft.....	3 00	27 50
12 to 14 ft.....	\$4 to 5	50
saccharum (Sugar or Rock Maple). For avenue and park plantings, a better tree could hardly be found. The fall coloring of this tree is brilliant.		
8 to 10 ft.....	1 50	12 50
10 to 12 ft.....	2 00	18 50
12 to 14 ft.....	\$3.50 to 5	00
ginnala (tataricum ginnala) (Siberian Maple). A graceful, dwarf tree of shrubby habit; very hardy and splendid for its foliage effect. 3 to 4 ft.....	75	6 00
4 to 5 ft.....	1 00	9 00
5 to 6 ft.....	2 00	18 50
palmatum atropurpureum (Japanese Maple). A broad-leaved variety which holds its color all through the season.		
1 ½ to 2 ft.....	2 50	22 50
2 to 3 ft.....	3 50	32 50

Æsculus • The Horse-Chestnut

	Each	10
Æsculus Hippocastanum (Horse-Chestnut). A very popular, handsome shade tree, of vigorous, compact growth. A good tree for moist places. 8 to 10 ft.....	\$2 50	\$22 50
10 to 12 ft.....	3 50	32 50
carnea (Red-flowering Horse-Chestnut). The flowers are very showy red; leaves dark green. A rare tree. Grafted stock. 6 to 8 ft.....	2 50	22 50
8 to 10 ft.....	\$3.50 to 5 00	

Ailanthus • Tree of Heaven

Ailanthus glandulosa (Chinese Sumac; Tree of Heaven). A rapid-growing shade tree. The feathery foliage gives it a tropical appearance. 10 to 12 ft.....	2 00	17 50
12 to 14 ft.....	3 00	26 00

Alnus • The Alders

Alnus glutinosa (European or Common Alder). A useful, quick-growing tree, well suited for damp places.		
8 to 10 ft.....	1 25	10 50
10 to 12 ft.....	1 75	15 00

Betula • The Birches

Betula alba (European White Birch). With its beautiful white bark it is frequently termed the "Maiden amongst trees."		
8 to 10 ft.....	3 00	27 50
10 to 12 ft., heavy.....	\$5 to 7 50	
alba laciniata gracilis pendula (Weeping Cut-leaved White Birch). One of the noblest weeping trees for park or lawn use. When quite young it acquires a weeping habit and a beautiful white bark; the foliage is delicately cut.		
8 to 10 ft.....	3 00	
10 to 12 ft.....	5 00	
lenta (Sweet, Black, or Cherry Birch). This is a very handsome native tree, with heart-shaped, shining green leaves and aromatic bark. 6 to 8 ft.....	1 25	10 00
8 to 10 ft.....	1 75	15 00
nigra , or rubra (Red Birch). Another valuable native tree, of graceful habit, being splendid for lowland plantings.		
8 to 10 ft.....	2 00	17 50

Carpinus • The Hornbeam

Carpinus caroliniana (American Hornbeam). A hardy, valuable native tree that will thrive in dry, rocky places.		
4 to 6 ft.....	2 00	17 50
6 to 8 ft.....	3 50	30 00
Betulus (European Hornbeam).		
4 to 6 ft.....	2 50	22 50
6 to 8 ft.....	4 00	35 00

The Catalpas

These are popular, ornamental trees of rapid growth and easy to transplant.

Catalpa Bungei (Chinese Catalpa). Often called "Umbrella Tree."	Each	10
5 to 6 ft.....	\$2 50	\$22 50
6 to 8 ft.....	4 00	35 00
speciosa (Western Catalpa). Also known as the "Indian Bean Tree." One of the quickest and easiest to grow.		
6 to 8 ft.....	1 00	7 50
8 to 10 ft.....	1 50	10 00
10 to 12 ft.....	3 00	25 00

Cornus • Dogwoods

	Each	10
Cornus florida (White-flowering Dogwood). One of our most valuable native trees for landscape gardening. In early May large white blossoms appear before the leaves; in the fall bright red berries and beautifully tinted foliage make the trees stand out in every landscape.		
4 to 5 ft.....	\$1 50	\$12 50
5 to 6 ft.....	2 00	18 00
6 to 8 ft., specimens.....	\$3 to 7 50	
florida rubra. (Red-flowering Dogwood). Has the same good habit as the species, but the flowers are deep pink. Grafted stock. 3 to 4 ft.....	3 50	30 00
4 to 5 ft.....	5 00	

Fagus • The Beeches

Fagus sylvatica (European Beech). A highly ornamental, long-lived, compact tree.		
4 to 5 ft.....	2 50	22 50
5 to 6 ft.....	3 00	27 50
sylvatica asplenifolia (Fern-leaved Beech). A very beautiful variety, with foliage finely and deeply cut.		
3 to 4 ft. (Balled and burlapped)	5 00	
sylvatica purpurea (Purple or Copper Beech). The foliage of this elegant tree is deep purple in spring, changing to crimson and purplish green in summer and fall. Grafted stock.		
3 to 4 ft.....	3 00	
4 to 5 ft.....	5 00	

Fraxinus • The Ash

Fraxinus alba. (American White Ash). This is a splendid old native, with massive trunk and spreading branches. A quick grower.		
8 to 10 ft.	1 50	12 50
10 to 12 ft.	2 00	17 50
excelsior (European Ash). A lofty, rapid- growing tree, with dark green foliage of large size and remaining on the trees late in fall. It thrives well in moist places. 5 to 7 ft.....	1 25	10 00
8 to 10 ft.....	1 75	15 00

Gleditsia

Gleditsia triacanthos (Honey Locust). A well-known tree of great hardiness. The delicate foliage and long thorns make it an interesting tree of fine appearance. 6 to 8 ft.....	1 50	12 50
8 to 10 ft.....	2 00	17 50

Gymnocladus

Gymnocladus dioica canadensis (Kentucky Coffee Tree). 6 to 8 ft.....	1 50	12 50
8 to 10 ft.....	2 00	17 50

Larix • The Larches

Larix decidua (europæa). European Larch. This is a quick upright-growing tree of great beauty. 4 to 5 ft.....	2 25	20 00
5 to 6 ft.....	3 50	32 50
6 to 8 ft., specimens.....	\$5 to 15 00	
Leptolepis (Japanese Larch). This tree is of pyramidal growth, with horizontal branches. The leaves are broad and soft and of a rich, bluish green.		
4 to 5 ft.....	2 50	22 50
5 to 6 ft.....	4 00	35 00
6 to 8 ft., specimens.....	\$7.50 to 5 00	

Liquidambar

	Each	10
Liquidambar Styraciflua (Sweet Gum). This is another of our native trees of rare beauty and great ornamental merit.		
4 to 5 ft.....	\$1 00	\$9 00
5 to 6 ft.....	1 50	12 50
6 to 8 ft.....	2 25	20 00
8 to 10 ft.....	3 50	32 50

Liriodendron

Liriodendron Tulipifera (Tulip Tree). A grand, well-known, native forest tree of rapid growth. 8 to 10 ft.....		
	2 00	17 50
10 to 12 ft.....	3 00	27 50
12 to 14 ft.....	\$4 to 5 00	

The Magnolias

AMERICAN MAGNOLIAS

Magnolia acuminata (Cucumber Tree). Pyramidal growth, with handsome foliage. 5 to 6 ft.....		
	2 00	17 50
6 to 8 ft.....	2 75	25 00
glauca . This is a useful native Magnolia, especially well adapted to moist locations. Very fragrant flowers.		
2 to 3 ft.....	2 50	22 50
3 to 4 ft.....	3 50	32 50

ORIENTAL MAGNOLIAS

Magnolia Soulangeana (Soulange's Magnolia). Hardy and vigorous. The foliage is large and glossy, the deep, cup-shaped, pink-and-white flowers open in April.		
3 to 4 ft.....	5 00	
4 to 5 ft.....	7 50	
Soulangeana Lennei (Lenne's Magnolia). A fine, strong grower, quite frequently blooming in May and again in late summer; the blossoms are remarkable—deep rose-colored without and pearl-white within. 3 to 4 ft.....		
	5 00	
4 to 5 ft.....	7 50	

Morus • The Mulberries

Morus alba tatarica (Russian Mulberry). Probably the only tree that will grow under any conditions, even the most unfavorable. 6 to 8 ft.....		
	1 00	9 00
8 to 10 ft.....	1 50	12 50
alba pendula (Teas' Weeping Mulberry). One of the prettiest and most popular weeping trees. Grafted stock.		
5 to 6 ft., 2-yr. heads.....	2 50	
6 to 7 ft., 2- to 3-yr. heads.....	3 50	

Paulownia

Paulownia tomentosa (imperialis) . Empress Tree. Certainly the most conspicuous and tropical-looking of all shade trees. A rapid grower.		
8 to 10 ft.....	2 50	22 50
Larger specimens.....	\$3.50 to 12 00	and up

Platanus • Buttonwood

Platanus orientalis (Oriental Plane). We recommend this as one of our very best trees for street and avenue plantings as well as for general purposes.		
8 to 10 ft.....	1 50	12 50
10 to 12 ft.....	2 50	22 50
12 to 14 ft.....	\$3 to 7 50	

Populus • The Poplars

Inexpensive, hardy, rapid-growing trees, very much in use for quick or temporary effects. Easy to transplant, thriving under almost every condition.

	Each	10
Populus Bolleana (Bolle's Poplar). In habit and growth similar to the Lombardy Poplar, but the bark is grayish green and the leaves are dull green above and a beautiful silvery white underneath.		
8 to 10 ft.....	\$1 50	\$12 50
10 to 12 ft.....	2 00	17 50
nigra italica (fastigiata) (Lombardy Poplar). One of the most characteristic trees in the landscape. Valuable as well for formal as for natural plantings.		
6 to 8 ft.....	1 00	9 00
8 to 10 ft.....	1 25	10 00
10 to 12 ft.....	1 50	12 50
12 to 14 ft.....	\$2 to 3 00	
Specimens.....	\$5 to 10 00	

Quercus • The Oaks

Quercus alba (White Oak). One of the noblest native Oaks for the North and a lawn tree of great beauty. 6 to 8 ft...	2 50	22 50
8 to 10 ft.....	3 25	30 00
coccinea (Scarlet Oak). A valuable Oak for lawn- and street-planting. 6 to 8 ft...	3 00	27 50
8 to 10 ft.....	4 00	36 50
palustris (Pin Oak). Probably the most distinct and most valuable of all the Oaks. A tree known for its grace and beauty. Our Pin Oaks have the finest fibrous roots that can be produced.		
6 to 8 ft.....	2 00	17 50
8 to 10 ft.....	2 50	22 50
10 to 12 ft.....	3 25	30 00
rubra (Red Oak). A beautiful, broad-spreading, fast-growing tree.		
6 to 8 ft.....	2 00	17 50
8 to 10 ft.....	2 50	22 50
10 to 12 ft.....	3 00	27 50

Robinia • The Locust

Robinia Pseudacacia (Black Locust). This is a familiar tree of rapid growth, thriving well in almost any soil and location.		
6 to 8 ft.....	1 00	9 00
8 to 10 ft.....	1 75	15 00
10 to 12 ft.....	2 50	22 50
12 to 14 ft., specimens.....	\$3 to 7 50	

Salisburia

Salisburia adiantifolia (<i>Ginkgo biloba</i>) (Maidenhair Tree). Botanically and otherwise perhaps the most interesting of all shade trees. 8 to 10 ft.....	2 00	18 50
10 to 12 ft.....	3 00	27 50
12 to 14 ft.....	\$3.50 to 5 00	

Salix • The Willows

Salix babylonica (Weeping Willow). Our popular Weeping Willow, whose graceful, hanging branches droop clear to the ground. 8 to 10 ft.....	2 00	18 00
10 to 12 ft.....	3 00	27 50
blanda (dolorosa) (Wisconsin Weeping Willow). A very strong-growing form, similar to the former. 8 to 10 ft.....	2 00	18 00
10 to 12 ft.....	3 00	27 50

SALIX, continued

Each 10

Caprea (Pussy Willow). A small tree or upright-growing tall shrub. A native of Europe and very popular. 3 to 4 ft..			\$0 50	\$4 50
4 to 5 ft.....	1 00			9 00
6 to 8 ft.....	\$1.50 to 2 50			
pentandra (Laurel-leaved Willow). A desirable small tree or bush for screen, and group-planting; beautiful shiny foliage. 4 to 5 ft.....			60	5 00
5 to 6 ft.....	1 00			8 50
6 to 8 ft., specimens.....	1 75			

Sorbus • Mountain Ash

Sorbus Aucuparia (European Mountain Ash).

A very hardy, small ornamental tree of symmetrical, round form. 6 to 8 ft.			1 25	10 00
8 to 10 ft.....	2 00			17 50

Taxodium • The Cypress

Taxodium distichum (Deciduous or Bald Cypress). This is a highly ornamental tree that should be planted more. It is probably the most remarkable tree in so far as it will thrive in dry soil as well as in swampy places. 4 to 5 ft.....

5 to 6 ft.....	1 50	13 50
6 to 8 ft.....	2 50	22 50
	\$3 to 5 00	

Tilia • The Linden

Tilia americana (American Linden). A fine tree for lawn- and avenue planting.

8 to 10 ft.....	2 00	18 50
10 to 12 ft.....	3 00	27 50
Specimen trees.....	\$5 to 25 00	

tomentosa argentea (Silver-leaved Linden).

A shade tree of distinctly ornamental value. 8 to 10 ft.....			2 00	18 50
10 to 12 ft.....	3 00			27 50
12 to 14 ft.....	\$5 to	7 50		

vulgaris (europæa) (European Linden or Lime Tree). A very hardy, adaptable shade tree, with plenty of foliage.

8 to 10 ft.....	2 00	18 50
10 to 12 ft.....	3 00	27 50

Ulmus • The Elms

A desirable class of trees, equally useful for landscape work as well as for street- and avenue-planting.

Ulmus americana (American Elm). One of Each 10

our best-known native trees. 8 to 10 ft.	\$1 50	\$12 50
10 to 12 ft.....	2 50	22 50
Large specimens.....	\$5 to 35 00	

Campestris (English Elm). As good as our native Elm, but holds its leaves longer in autumn. 8 to 10 ft.....

	2 00	7 50
--	------	------

Flowering Fruit Trees

Malus baccata (Siberian Flowering Crab).

Small, spreading tree; flowers white and fragrant; fruit ornamental.

	Each	10
3 to 4 ft.....	\$1 00	\$9 00
4 to 5 ft.....	1 50	12 50

floribunda. One of the prettiest when loaded with pinkish buds and flowers in spring. 3 to 4 ft.....

4 to 5 ft.....	1 00	9 00
	1 50	12 50

Scheideckeri. New Double-flowering Crab.

3 to 4 ft.....	1 50	10 50
4 to 5 ft.....	3 00	27 50

ioensis Bechtelii (Bechtel's Double-flowering Crab). Large double flowers of delicate blush-pink, highly perfumed.

3 to 4 ft.....	1 25	10 00
4 to 5 ft.....	2 00	17 50

Niedzwetzkyana. Striking, reddish brown bark and foliage; pinkish flowers.

3 to 4 ft.....	1 00	9 00
4 to 5 ft.....	1 50	12 50

Cerasus avium plena. The Double-flowering Cherry. Pink and white varieties. A grand ornamental. 4 to 5 ft.....

3 50

japonica rosea pendula. A beautiful weeping Japanese Cherry, with rose-colored blossoms. 4 to 5 ft.....

4 00

Prunus cerasifera Pissardii (Purple-leaved Plum). Very handsome and ornamental; foliage a striking purple.

4 to 5 ft.....	1 25	10 00
5 to 6 ft.....	2 00	17 50

sinensis flore-pleno. Extremely pretty, double-flowering Japanese shrub. White and pink sorts. 3 to 4 ft.

1 50 12 50

triloba (Double-flowering Plum). One of our most attractive spring-blooming ornamentals, covered with delicate pink flowers in May. A healthy, vigorous grower. 3 to 4 ft.....

1 50 12 50

Novelties of Great Merit

A Weeping Apple Tree

Malus pendula, Elise Rathke (Weeping Apple). New. A most effective weeping ornamental. The branches will sweep clear to the ground. They are covered with pretty blossoms in spring and golden yellow, red-cheeked, edible fruit in the fall. The tall, grafted specimens are similar to the popular weeping mulberry in habit but far more beautiful.

	Each	10
3-yr. low-branched pyramids.....	\$2 00	
Grafted on 4- to 6-ft. stems.....	\$2.50 to 5 00	

pendula, Excellenz Thiel. Beautiful novelty with slender, weeping branches and pink blossoms and fruit.

3-yr., low-branched pyramids, 4 to 5 ft....	2 00
Grafted on 4- to 6-ft. stems.....	\$2.50 to 5 00

floribunda atropurpurea. Literally covered with red blossoms in early spring, succeeded by conspicuous little red apples in great quantities. Foliage is also of a pleasant shade of red. Highly ornamental. 3 to 4 ft....

4 to 5 ft.....	1 00	\$9 00
5 to 6 ft.....	1 50	12 50

Standard Currants. Very distinctive and attractive, especially when in fruit.

Grafted, 3 to 4 ft. high..... 3 00

Standard Gooseberries. Just as pretty and effective as Standard Currants.

Grafted, 3 to 4 ft. high..... 3 00

Fast-Growing Shade Trees for Quick Results

A few varieties of very popular shade trees that we can offer in larger and heavier stock than the regular run in order to clear some lands for other plantings.

	Each	10
Acer dasycarpum (Silver Maple).		
12 to 14 ft.....	\$2 00	\$18 00
14 to 18 ft., specimens.....	\$5 to 15 00	
Negundo (Ash-leaved Maple).		
10 to 12 ft.....	1 25	10 00
12 to 14 ft.....	\$2 to 5 00	
saccharum (Sugar Maple).		
10 to 12 ft.....	2 00	18 00
Æsculus Hippocastanum (Horse-Chestnut).		
(For rich, moist soil only).		
8 to 10 ft.....	2 25	20 00
10 to 12 ft.....	3 00	27 50
Catalpa speciosa (Indian Bean Tree).		
6 to 8 ft.....	90	7 50
8 to 10 ft.....	1 25	10 00
10 to 12 ft.....	2 75	24 00
Fraxinus americana (alba) (American White Ash).		
8 to 10 ft.....	1 25	10 00
10 to 12 ft.....	2 00	17 50
excelsior (European Ash).		
5 to 7 ft.....	1 00	9 00
8 to 10 ft.....	1 50	13 50
Liriodendron Tulipifera (Tulip Tree).		
8 to 10 ft.....	1 75	15 00
10 to 12 ft.....	2 75	25 00
Paulownia tomentosa (imperialis) (Empress Tree).		
8 to 10 ft.....	2 25	20 00
Large specimens.....	\$3.50 to 25 00	
Platanus orientalis (Oriental Plane).		
8 to 10 ft.....	1 25	11 00
10 to 12 ft.....	2 25	20 00
12 to 14 ft., strong trees.....	\$3 to 7 50	
Populus nigra italica (fastigiata) (Lombardy Poplar).		
6 to 8 ft.....	90	7 50
8 to 10 ft.....	1 00	9 00
10 to 12 ft.....	1 25	11 00
12 to 14 ft.....	\$2 to 3 00	
Heavy specimens.....	\$5 to 10 00	
Robinia Pseudacacia (Black Locust).		
6 to 8 ft.....	90	7 50

12 to 14 ft., specimens.....	\$3 to 7 50	
Salix blanda (dolorosa) (Wisconsin Weeping Willow).		
8 to 10 ft.....	1 75	16 00
10 to 12 ft.....	3 00	27 00
Ulmus americana (American Elm).		
8 to 10 ft.....	1 25	11 00
10 to 12 ft.....	2 25	20 00

Deciduous Shrubs

In making up this selection of Ornamental Shrubs particular care has been taken to name only the very best and most useful varieties.

The method of propagating and cultivation of our shrubs is such that only the hardiest, most vigorous and perfect rooted stock is being produced and they will create an immediate effect in any planting.

Æsculus

Æsculus parviflora (Dwarf Horse-Chestnut).

A symmetrical shrub of great beauty with broad, deep green leaves

	Each	10
1 ½ to 2 ft.....	\$1 00	\$9 00
2 to 3 ft.....	1 50	12 50

Amelanchier

Amelanchier canadensis (Shad Bush). A fine native variety, with oval, shining

leaves. 2 to 3 ft.....	50	4 00
3 to 4 ft.....	75	6 50

Amorpha

Amorpha fruticosa (False Indigo). A strong and easily grown shrub, with compound feathery foliage and spikes of indigo-blue flowers in June

2 to 3 ft.....	45	4 00
3 to 4 ft.....	55	5 00

Aralia

Aralia pentaphylla. Splendid for mass plantings and for rocky slopes.

2 to 3 ft.....	50	4 00
3 to 4 ft.....	75	6 00

spinosa (Hercules' Club). Very odd and yet ornamental leaves 2 to 3 feet long.

3 to 4 ft.....	75	6 00
5 to 6 ft.....	1 00	9 00

Azaleas

A group of extremely showy shrubs when in bloom. Indispensable for landscape work and well suited for damp and boggy soils.

Azalea arborescens (Fragrant White Azalea).

A valuable native variety, with white flowers, tinged with rose and very fragrant. 1 ½ to 2 ft.....

mollis (Chinese Azalea). The size of the flowers of these little plants resembles those of the rhododendron. Very

hardy. 1 ½ to 2 ft.....	2 00	18 00
2 to 2 ½ ft.....	3 00	

nudiflora (Pinxter Flower; Wood Honey-suckle). A native Azalea, with deep reddish pink flowers in May. Does well in swampy places. 1 ½ to 2 ft.....

1 75 15 00

Benzoin

Benzoin æstivale (odoriferum), syn. *Lindera Benzoin* (Spice Bush). A splendid native shrub, especially valuable for mass effects in natural plantings.

2 to 3 ft.....	50	4 00
3 to 4 ft.....	75	6 00

Berberis • The Barberries

	Each	10
Berberis Thunbergii (Thunberg's Japanese Barberry). A low, spreading bush of dense growth. It is possibly the best hedge-plant known as it is absolutely winterproof. 1 to 1 ½ ft.....	\$0 25	\$2 00
1 ½ to 2 ft.....	35	3 00
Sheared and naturally grown specimens		
	\$1 to 3 00	
vulgaris (Common Barberry). A stately, upright-growing bush. 2 to 3 ft.....	35	3 00
3 to 4 ft.....	50	4 00
vulgaris atropurpurea (Purple Barberry). 2 to 3 ft.....	50	4 00
3 to 4 ft.....	75	6 00

Callicarpa

Callicarpa purpurea . One of the showiest shrubs in the fall, with graceful, long, slender branches. 2 to 3 ft.....	50	4 00
3 to 4 ft.....	65	6 00

Calycanthus

Calycanthus floridus (Allspice; Sweet Shrub). An old-fashioned and very popular shrub of strong, erect growth. 2 to 3 ft.....	50	4 00
3 to 4 ft.....	75	6 00

Caragana

Caragana arborescens (Siberian Pea Tree). Hardy upright grower, with light green foliage and golden yellow flowers. 3 to 4 ft.....	75	6 00
---	----	------

Ceanothus

Ceanothus americanus (New Jersey Tea). A low and spreading native shrub, very useful for massing in dry locations. 1 ½ to 2 ft.....	50	4 00
--	----	------

Cephalanthus

Cephalanthus occidentalis (Button Bush). A hardy and strong-growing native bush, with fresh green foliage; flowers during the summer. 2 to 3 ft.....	45	3 50
3 to 4 ft.....	60	5 00

Cercidiphyllum • The Kadsura Tree

	Each
Cercidiphyllum japonicum . 5 to 6 ft.....	\$2 00

Cercis • The Judas or Red-Bud

	Each	10
Cercis canadensis (American Red-Bud). One of our most striking native plants when in bloom. 3 to 4 ft.....	\$0 50	\$4 00
4 to 5 ft.....	75	6 00
5 to 6 ft.....	\$1 to 5 00	

Chionanthus

Chionanthus virginica (White Fringe Tree). A vigorous-growing bush, with large, handsome, dark green leaves and fragrant, fringe-like flowers. 3 to 4 ft. 1 00	9 00
---	------

Clethra

Clethra alnifolia (Sweet Pepper Bush). A useful little shrub with rich green foliage and showy spikes of white flowers. 2 ½ to 3 ft.....	50	4 00
---	----	------

Colutea

Each

10

Colutea arborescens (Bladder Senna). An interesting bush of quick growth.		
3 to 4 ft.....	\$o 50	\$4 00

Cornus • The Dogwoods

Cornus alba sibirica (Siberian Dogwood). This is a hardy, useful shrub, with strong, bright red branches. 2 to 3 ft.	50	4 00
3 to 4 ft.....	75	6 00
alternifolia . A distinct variety and very graceful on account of its branches spreading in horizontal tiers one above the other. 2 to 3 ft.....	50	4 00
3 to 4 ft.....	75	6 00
mas (maseula) (Cornelian Cherry). Strong and upright growing bush with dense, handsome, glossy foliage. The first to bloom in spring, with showy yellow flowers. 3 to 4 ft.....	50	4 00
4 to 5 ft.....	75	6 00
sericea (Silky Cornel). Characteristic by reason of its silky leaves, purplish and red branches, and blue berries.		
2 to 3 ft.....	50	4 00
3 to 4 ft.....	75	6 00
stolonifera aurea (Golden-twigg'd Dogwood). A splendid bush for contrast effect in winter. 2 to 3 ft.....	50	4 00
3 to 4 ft.....	75	6 00

Corylus

Corylus americana (American Filbert; Hazel-nut). A tall-growing, useful native shrub. Extremely hardy.		
4 to 5 ft.....	75	6 00
5 to 6 ft.....	1 00	9 00
Avellana (European Hazelnut). Strong, upright bush, with rough, dark green foliage. Bears a profusion of sweet nuts in peculiarly fringed husks.		
4 to 5 ft.....	1 00	9 00
Avellana atropurpurea (Purple-leaved Filbert). One of our very best purple-foliaged shrubs. Extremely effective.		
2 to 3 ft.....	75	6 00
3 to 4 ft.....	1 00	9 00

Cotoneaster

Cotoneaster Simonsii . A pretty and desirable shrub, with spreading branches.		
2 to 2½ ft.....	50	4 00
3 to 4 ft.....	75	6 00

Cratægus • The Thorns

Cratægus coccinea (Scarlet-fruited Thorn). A beautiful native Thorn and the first to bloom. 4 to 5 ft.....	75	6 00
5 to 6 ft.....	1 00	9 00
Crus-galli (Cockspur Thorn). A flat-growing bush or small tree with horizontal branches and long, pointed thorns.		
3 to 4 ft.....	75	6 00
4 to 5 ft.....	1 00	9 00
Oxyacantha (English Hawthorn).		
3 to 4 ft.....	75	6 00
4 to 5 ft.....	1 00	9 00

Cytisus

Cytisus Laburnum (Golden Chain). A full-grown bush or dwarf tree in perfect bloom is a sight never to be forgotten.		
3 to 4 ft.....	1 00	9 00
4 to 6 ft.....	2 00	17 50

Deutzia

	Each	10
Deutzia scabra candidissima (Double White Deutzia). A useful, strong-growing plant. 3 to 4 ft.....	\$0 50	\$4 00
4 to 5 ft.....	75	6 00
scabra, Pride of Rochester. Of equally vigorous growth. Flowers also double and white, but the petals are tinted rose underneath. 3 to 4 ft.....	50	4 00
4 to 5 ft.....	75	6 00
gracilis (Dwarf Deutzia). This is one of our most useful little shrubs, literally covered with double, white flowers in May. 1 to 1½ ft.....	45	4 00
Lemoinei (Lemoine's Deutzia). A wonderful hybrid Deutzia of medium size. 1½ to 2 ft.....	50	4 50

Diervilla • The Weigelas

Diervilla florida (rosea). Like all the Weigelas, for hardiness and wealth of bloom it cannot be surpassed. 3 to 4 ft.....	50	4 50
4 to 5 ft.....	75	6 00
hybrida candida. Flowers pure white. 3 to 4 ft.....	50	4 50
4 to 5 ft.....	75	6 00
hybrida nana variegata. Extremely showy when laden with pale pink flowers and just as pretty throughout the season on account of its beautiful variegated foliage. 2 to 3 ft.....	50	4 50
3 to 4 ft.....	60	5 00
hybrida, Eva Rathke. An exquisite hybrid Weigela, the best red-flowering sort. 2 to 3 ft.....	60	5 00

Elæagnus • Silver Thorn

Elæagnus angustifolia (Oleaster). A tall-growing, open-headed shrub or small tree, with silvery foliage. 3 to 4 ft....	50	4 50
4 to 5 ft.....	75	6 50

Euonymus • Burning Bush

Euonymus alatus (Cork-barked Euonymus). A very distinct and ornamental shrub, with beautiful corky bark. 2 to 3 ft...	75	6 00
europæus (European Burning Bush). Of vigorous, upright growth. The orange-red seed-pods, combined with the highly colored foliage, produce a most striking fall effect. 3 to 4 ft.....	1 00	9 00

Exochorda

Exochorda grandiflora (Pearl Bush). A rare but very hardy Chinese shrub. 3 to 4 ft.....	60	5 00
--	----	------

Forsythia • Golden Bell

Forsythia Fortunei (Fortune's Golden Bell). This remarkably fine shrub, like all the Forsythias, is among the best and most useful of all our deciduous shrubs. 3 to 4 ft.....	50	4 00
4 to 5 ft.....	65	5 50
suspensa (Weeping Golden Bell). Of graceful weeping habit, with the same rich green foliage and wealth of bloom as the species. 3 to 4 ft.....	50	4 00
4 to 5 ft.....	65	5 50

FORSYTHIA, continued

	Each	10
Forsythia viridissima. Of more spreading growth, with glossy, narrow leaves of the richest green. 3 to 4 ft.....	\$0 50	\$4 00
4 to 5 ft.....	65	5 50

Halesia

Halesia tetraptera (Silver Bell; Snowdrop Tree). A tall-growing shrub or small tree. In early May it is laden with white, fragrant flowers resembling snowdrops. 3 to 4 ft.....	75	6 00
4 to 5 ft.....	1 00	9 00

Hamamelis

Hamamelis virginiana (Witch Hazel). An interesting native shrub doing well in moist places. The small bright yellow flowers appear in late fall. 3 to 4 ft...	60	5 00
--	----	------

Hibiscus syriacus

(Althea, or Rose of Sharon)

Popular hardy shrubs; beautiful when in bloom.

pulcherrima. Single, white, tinted cherry-red.**Duchesse de Brabant.** Large, double, reddish purple; free bloomer.**violacea fl.-pl.** A fine shade of violet.**totus albus, Simplex.** Large, single, white noble flowers.

	Each	10
2 to 3 ft.....	\$0 50	\$4 00
3 to 4 ft.....	60	5 00
4 to 5 ft.....	1 00	9 00

Hippophae

Hippophae rhamnoides (Sea Buckthorn).

An irregular-growing shrub, with spiny branches and silvery gray foliage; showy orange-colored berries in the fall.

3 to 4 ft.....	50	4 00
4 to 5 ft.....	1 00	

Hydrangea

Hydrangea arborescens. This is a hardy and fine native shrub. Does quite well in the shade. 2 to 3 ft.....

3 to 4 ft.....	50	4 00
	75	6 00

arborescens alba grandiflora. A splendid variety and a great improvement on the preceding. 2 to 2 ½ ft.....

50 4 50

hortensis otaksa. A vigorous, dwarf grower, with healthy, dark green foliage and beautiful heavy flower-head, either pink or blue. 1 to 2 ft.....

75 6 50

hortensis, New Hybrids. This is a remarkable strain of fine new varieties. They stand our winter well. 2 to 2 ½ ft....

1 00 9 00

Specimen.....\$2.50 to 5 00

paniculata. Strong grower, open panicles of creamy white flowers. 2 to 3 ft....

50 4 50

3 to 4 ft..... 75 6 50

paniculata grandiflora (Great-panicked Hydrangea). In July and August the branches droop gracefully under the weight of immense flower-trusses, which are creamy white. The hardiest of all. 1 ½ to 2 ft.....

50 4 50

2 to 2 ½ ft..... 75 6 50

Hypericum • St. John's-Wort

Hypericum Moserianum. A valuable little plant of dwarf, pendulous habit; foliage is deep, glossy green, contrasting well with the golden yellow flowers.

1 to 1 ½ ft.....	50	4 50
------------------	----	------

Ilex

Each

10

Ilex verticillata (Black Alder; Winterberry).

A hardy, attractive native, with bright green foliage and bright red berries in the fall. 2 to 3 ft.....

	\$0 50	\$4 50
3 to 4 ft.....	75	6 00

Jasminum**Jasminum nudiflorum** (Yellow Jasmine). A

fine slender shrub, which may be trained like a vine. On the first warm days of spring the pretty yellow flowers appear. 1½ to 2½ ft.....

50	4 50
----	------

Kerria • Corchorus**Kerria japonica**. A grand bush and very effective. 1½ to 2 ft.....

50	4 50
----	------

japonica flore-pleno (Globe Flower). In

growth and habit similar to the preceding but the golden yellow flowers are double and globe-shaped. A perpetual bloomer. 1½ to 2 ft.....

50	4 50
----	------

Ligustrum • Privet**Ligustrum acuminatum (ciliatum)**. Narrow, light green foliage and an abundance of black berries. 2 to 3 ft.

40	3 00
----	------

3 to 4 ft.....	50	4 00
----------------	----	------

Ibota. Another hardy and strong grower with curving branches. 2 to 3 ft.....

40	3 00
----	------

3 to 4 ft.....	50	4 00
----------------	----	------

Ibota Regelianum (Prostrate Privet). The branches are dense, twiggy and horizontal-spreading, somewhat drooping at the ends. Very hardy. Valued highly for hedge. 2 to 2½ ft.....

50	4 00
----	------

2½ to 3 ft.....	60	5 00
-----------------	----	------

3 to 4 ft.....	80	7 00
----------------	----	------

ovalifolium (California Privet). Good and useful for groups and mass planting. The healthy, glossy green leaves are persistent till late in winter.

1½ to 2 ft.....	30	2 50
-----------------	----	------

2 to 3 ft.....	50	4 00
----------------	----	------

3 to 4 ft.....	75	
----------------	----	--

4 to 5 ft.....	1 00	
----------------	------	--

Trained globes, perfect specimens....	\$3 to 15	00
---------------------------------------	-----------	----

Trained standards, very ornamental.	\$3 to 7	50
-------------------------------------	----------	----

vulgare (Common Privet). A strong, upright grower; very hardy. 2 to 3 ft.....

50	4 50
----	------

3 to 4 ft.....	75	6 00
----------------	----	------

Lonicera • Bush Honeysuckles**Lonicera fragrantissima** (Chinese Fragrant Bush Honeysuckle). A very ornamental and useful plant, almost ever-

green. 2 to 3 ft.....

45	4 00
----	------

3 to 4 ft.....	50	4 50
----------------	----	------

Morrowii (Japanese Honeysuckle). A strong grower, with twisted branches and dark green foliage.

2 to 3 ft.....	45	4 00
----------------	----	------

3 to 4 ft.....	50	4 50
----------------	----	------

tatarica (Tartarian Honeysuckle). A well-known, strong-growing bush with crimson flowers in May and June; and crimson berries.

2 to 3 ft.....	45	4 00
----------------	----	------

3 to 4 ft.....	50	4 50
----------------	----	------

tatarica alba. A white-flowering variety of the species. 2 to 3 ft.....

45	4 00
----	------

3 to 4 ft.....	50	4 50
----------------	----	------

Myrica

Each 10

Myrica cerifera (Wax Myrtle). Splendid shrub, with dark green, fragrant foliage held almost through the winter. Reddish flowers appear in May, followed by white, waxy berries.

1 ½ to 2 ft.....\$0 75 \$6 50

Philadelphus • Mock Orange

Philadelphus coronarius (Garland Mock Orange). An old-fashioned shrub of great merit and beauty. 3 to 4 ft.....

50 4 50

4 to 5 ft..... 75 6 00

coronarius grandiflorus. Strong and rapid grower, with drooping branches and large white flowers. 3 to 4 ft.....

50 4 50

4 to 5 ft..... 75 6 00

Lemoinei. A remarkably fine hybrid of graceful appearance. An abundance of fragrant white flowers in June.

2 to 3 ft..... 50 4 50

Ptelea • Hop Tree

Ptelea trifoliata. An interesting, tall-growing shrub or small tree, with deep green leaves. 3 to 4 ft.....

50 4 00

4 to 5 ft..... 75 6 00

5 to 6 ft..... 1 00 8 50

Rhamnus

Rhamnus cathartica (Buckthorn). Large-growing shrub, useful because of its hardiness in smoky atmospheres and its endurance of partial shade. Ornamental berries in fall. 3 to 4 ft.....

50 4 00

4 to 5 ft..... 75 6 00

Rhodotypos

Rhodotypos kerrioides (White Kerria). Hardy and desirable shrub for general use. 3 to 4 ft.....

50 4 50

4 to 5 ft..... 75 6 00

Rhus • Sumac; Mist Tree

Rhus Cotinus (Mist or Smoke Tree). An interesting and remarkable shrub of large and vigorous proportions.

3 to 4 ft..... 75 7 00

4 to 5 ft..... 1 00

copallina (Shining Sumac). Fine, dense-growing ornamental, with dark green, shining foliage. 2 to 3 ft.....

50 4 00

3 to 4 ft..... 75 6 00

typhina (Staghorn Sumac). A well-known, native Sumac of great beauty, especially because of its splendid autumn tints. 3 to 4 ft.....

50 4 50

4 to 5 ft..... 75 6 00

typhina laciniata (Cut-leaved Sumac). A great shrub for mass effect. The foliage is beautifully cut, like fern leaves.

3 to 4 ft..... 60 5 00

Ribes • Flowering Currants

Ribes aureum (Golden Currant). Hardy and useful shrub with glossy green foliage. Showy yellow flowers in May, followed by blackish fruit. 3 to 4 ft.....

50 4 50

4 to 5 ft..... 75 6 00

RIBES, continued

Each

10

Ribes sanguineum (Red-flowering Currant).

A very fine variety, with long, hanging racemes of deep red flowers. Blooms in July. 2 to 3 ft.....

\$0 50 \$4 50

Robinia

Robinia hispida (Pink Locust). Very beautiful and interesting when in bloom.

Strong grafted bushes. 3 to 4 ft.....

1 00 9 00

Strong grafted trees, 5 to 6 ft.....\$2 to 3 00

Sambucus • The Elders

Sambucus canadensis (Common Elder). A strong-growing native shrub, splendid for mass plantings and wild effects.

3 to 4 ft..... 50 4 00

4 to 5 ft..... 75 6 00

nigra aurea (Golden Elder). The bright, golden yellow leaves retain their color all summer. 2 to 3 ft.....

50 4 50

3 to 4 ft..... 75 6 50

Spiræa

Spiræa arguta. A noble shrub of medium height. 2 to 3 ft.....

50 4 00

3 to 4 ft..... 60 5 00

Bumalda. A fine, dense, bushy Spiræa of medium size. 2 to 2 ½ ft.....

50 4 50

Bumalda, Anthony Waterer. Probably the best of all dwarf Spiræas; blooms all summer. 1 to 1 ½ ft.....

40 3 50

1 ½ to 2 ft..... 50 4 50

Bumalda, Walluff. (New.) A wonderful Novelty. Similar in habit to Anthony Waterer, but the flowers retain a vivid color all summer. 1 to 1 ½ ft.....

50 4 50

1 ½ to 2 ft..... 60 5 50

callosa. Compact, upright-growing, of medium height. Glaucous foliage and rosy pink blossoms. 2 to 2 ½ ft.....

50 4 50

Douglasii (Douglas' Spiræa). A tall-growing sort, with spikes of deep rose-colored flowers in July and August. 2 to 3 ft.

45 4 00

3 to 4 ft..... 50 4 50

opulifolia (Ninebark). The strongest and most rapid grower of all Spiræas.

40 3 50

3 to 4 ft..... 50 4 50

prunifolia plena (Bridal Wreath). Dark green, glossy foliage and many small, double, white flowers. 2 to 3 ft.....

50 4 50

3 to 4 ft..... 60 5 50

Reevesiana. Similar to Vanhouttei, but more erect-growing. 2 to 3 ft.....

50 4 00

3 to 4 ft..... 60 5 00

Thunbergii (Thunberg's Spirea). Not unlike Arguta, but dwarfer in habit.

50 4 00

2 to 3 ft..... 75 6 00

tomentosa. Deep pink, steeple-shaped flower-spikes all summer. 2 to 3 ft....

50 4 50

Vanhouttei. Fine for mass effect and for hedges. 2 to 3 ft.....

40 3 50

3 to 4 ft..... 50 4 50

Stephanandra

Stephanandra flexuosa. A graceful and dainty shrub; beautiful in foliage, flower and autumn effect. 2 to 3 ft.....

50 4 00

Styrax

Styrax japonica. A hardy and vigorous-growing Japanese ornamental. 3 to 4 ft...

75 7 00

Symphoricarpos

	Each	10
Symphoricarpos racemosus (Snowberry). A most useful shrub. 2 to 3 ft.....	\$0 50	\$4 00
3 to 4 ft.....	60	5 00
vulgaris (Coral Berry). Has the same good habits as the above, but coral-red berries. 2 to 3 ft.....	45	4 00
3 to 4 ft.....	55	5 00

Syringa • The Lilacs

Syringa persica . Of slender and graceful appearance; pale purple flowers in numerous large panicles; very sweet-scented. 2 to 3 ft.....	50	4 50
3 to 4 ft.....	75	7 00
vulgaris (Common Lilac). Our old-fashioned everybody's Lilac and yet one of the best. A profuse bloomer and very sweet. 2 to 3 ft.....	50	4 50
3 to 4 ft.....	60	5 50
vulgaris alba (Common White Lilac). The white variety of the above; very effective. 2 to 3 ft.....	50	4 50

NAMED VARIETIES OF LILACS

Marie LeGraye. Large; white.

Rosea grandiflora. Rosy white.

President Carnot. Beautiful lavender.

Mme. Casimir-Perier. Finest double, white.

Congo. Wine-red.

Marc Micheli. Clear lilac; large; double.

Crampbel. Single, lilac.

Michael Buchner. Dwarf; double; pale lilac.

Miss Ellen Willmott. Fine; double; snow-white.

	Each	10
2 to 3 ft.	\$1 00	\$9 00
3 1/2 to 4 1/2 ft.	\$1.50 to 3 00	

Tamarix • Tamarisk

Tamarix africana . Very distinct ornamental, with feathery, asparagus-like foliage of a pleasing green. 3 to 4 ft.....	50	4 50
gallica . A European variety of similar habit, but with lighter green foliage and blooms later. 3 to 4 ft.....	50	4 50

Viburnums

Viburnum dentatum (Arrow-wood). A useful native shrub, with numerous creamy white flowers and showy blue-black berries. 2 to 3 ft.....	50	4 50
3 to 4 ft.....	60	5 00
Lantana (Wayfaring Tree). A very tall-growing European species, fine for specimen planting. 3 to 4 ft.....	60	5 00
Opulus (High-Bush Cranberry). Tall, vigorous grower, and one of the showiest. 2 to 3 ft.....	50	4 00
3 to 4 ft.....	60	5 00
Opulus sterile (Guelder Rose; Snowball). Almost as popular and reliable as the lilac. 3 to 4 ft.....	60	5 00
4 to 5 ft.....	1 00	9 00
tomentosum plenum (Japan Snowball). A noble shrub, with beautiful hardy foliage. The white globe-shaped flowers are 3 to 4 inches across and very effective. 3 to 4 ft.....	60	5 00

Vitex

Vitex Angus-castus (Chaste Tree). A distinct shrub of vigorous growth. 2 to 3 ft...	60	5 50
--	----	------

Hardy Vines

Field- and Pot-Grown

Akebia quinata. Japanese vine of great beauty and hardiness. Shining, almost-evergreen foliage; rosy purple flowers in early summer.	Each	10
2 to 3 ft., pot-grown.....	\$0 75	\$6 00
Ampelopsis quinquefolia (Virginia Creeper). Our hardiest and most popular native vine. 2 to 3 ft., pot-grown.....	75	5 50
2 to 3 ft., field-grown.....	45	3 50
tricuspidata Veitchii (Japanese or Boston Ivy). Hardly surpassed by any other vine. Hardy and extremely useful for covering walls. The vines cling to brick, stone, and the like.		
2 to 3 ft., pot-grown.....	75	6 50
Bignonia radicans (Trumpet Vine). Popular, rapid-growing vine, with rich green foliage and dark crimson flowers.		
2 to 3 ft., pot-grown.....	75	6 00
Celastrus scandens (Bittersweet). A fast-growing native vine, with pleasing, light green foliage. The bright orange-red fruit in autumn is very effective and fine for decorating.		
2 to 3 ft., pot-grown.....	75	6 00
2 to 3 ft., field-grown.....	50	4 00
Clematis paniculata. The best-known, hardiest, and most ornamental of all the Clematises. 2 yr. pot-grown.....	75	6 00
2 yr., field-grown.....	50	4 00
Clematis Hybrids. These large-flowering and richly colored hybrid Clematises are certainly beautiful, but they are not very reliable. Pure White, Pink, Purple, and shades of Lavender and Blue. Strong, pot-grown plants.....	1 00	
Dolichos japonicus (Kudzu Vine). The most rapid-growing vine in existence, covering 40 to 50 feet in one season.		
Pot-grown plants.....	75	6 50
Euonymus radicans (Creeping Euonymus). A useful little evergreen creeper; satisfied with any soil. 1 to 1 ½ ft.....	40	3 50
radicans variegatus. Green and white variegated leaves. 1 to 1 ½ ft.....	40	3 50
kewensis. (New.) Miniature, glossy green foliage. Especially adapted for wall and alpine gardening, also for edging. Very hardy and easy to grow.		
Pot-grown plants.....	50	4 50
Field-grown plants.....	40	3 50
Hedera helix (English Ivy). A very ornamental, high-climbing vine, with glossy, dark, green leaves of beautiful texture and outline. 1 to 1 ½ ft., pot-grown.....	50	4 50
1 to 1 ½ ft., field-grown.....	35	3 00
Lonicera japonica (Japanese Honeysuckle). Well-known, hardy and strong-growing vine, suitable for any soil and any location. 2 to 2 ½ ft., pot-grown.....	45	4 00
2 to 2 ½ ft., field-grown.....	35	3 00
japonica aureo-reticulata (Golden Honeysuckle). Highly effective variety, with beautiful golden netted foliage.		
2 to 2 ½ ft., pot-grown.....	50	4 50
japonica Halliana (Hall's Japanese Honeysuckle). Smooth, shining, dark green.		
2 to 2 ½ ft., pot-grown.....	45	4 00
Lycium chinense (Matrimony Vine). Useful and very hardy climbing bush thriving in any soil and location.		
2 to 3 ft., field-grown.....	50	4 00

HARDY VINES, continued

Pachysandra terminalis. A splendid little ground-cover where nothing else will grow.			
	Each	10	100
2-yr., field-grown plants.....	\$0 20	\$1 75	\$15 00

Hardy Garden Flowers

Herbaceous Perennials

Hardly any other class of plants in horticulture has, within the last few years, come forward into popularity and prominence so fast as the Herbaceous Perennials. They include the flowers that grew in grandmother's garden and many new varieties. They are among the hardiest of all plants, and once well established, they appear as sure as spring comes—year after year.

Prices of Herbaceous Perennials, except where otherwise noted: 30 cts. each, \$2.50 for 10, \$20 per 100

ACONITUM Napellus bicolor (Monkshood). Pale blue and white. 2 to 3 ft. July and August.

ACHILLEA Ptarmica, The Pearl. White. 2 ft. June to September.

ALTHÆA (Hollyhock). All colors. 4 to 6 ft. July and August. 25 cts. each, \$2 for 10.

ALYSSUM saxatile compactum (Golden Tuft). Golden yellow. 1 ft. May and June.

ANEMONE japonica (Windflower). White and pink. 2 to 3 ft. September and October.

ANTHEMIS tinctoria Kelwayi (Hardy Marguerite). Yellow. 2 ft. June to October. 25 cts. each, \$2 for 10.

AQUILEGIA (Columbine). 2 to 3 ft. May and June.

canadensis (Native Columbine). Red and yellow.

cærulea (Rocky Mountain Columbine). Blue and white.

Long-spurred Hybrids. Many distinct colors and shades.

ARABIS ALPINA (Rock Cress). White. 5 in. April and May. 20 cts. each, \$1.50 for 10.

ASCLEPIAS tuberosa (Butterfly Weed). Bright orange. 2 ft. July and August.

ASTER novæ-angliæ (Michaelmas Daisies). Blue, Pink and White. 1 to 4 ft. August to October.

ASTILBE japonica (Japanese Astilbe or Spirea). White. 1 to 2½ ft. July and August.

japonica, Queen Victoria. Pink.

BOCCONIA cordata (Plume Poppy). White, 6 to 8 ft. July and August. 25 cts. each, \$2 for 10.

Price for pot-grown plants, \$1 for 10, \$8 per 100. Ready in August.

Alphano Humus

For Lawns and Gardens

Alphano Humus is a dry, pulverized substance, odorless, extra rich in plant-food elements, and a natural soil-builder—not a stimulant. It puts the springy, rich, black, woods qualities into the poorest hardpan soil. It is better than manure and contains no weed seeds.

Use it freely in your flower-garden, about your shrubs, in the vegetable-garden, and on your lawn at all seasons. It is lasting in its results, and adds to all soils that very necessary element—humus, or decayed vegetable matter.

For the dressing of lawns and golf-courses, it is ideal, not unsightly, sanitary, permanent, and will produce a glorious greensward. A hundred pounds will cover 100 square feet an inch thick, and need not be removed in the spring.

We can supply this in any quantity at the following rates, delivered nearby, or to the express or freight offices: 10-lb. bag, 50 cts., 100-lb. bag, \$2.50; 5 bags, \$10; ½ton in bags \$17; ton in bags \$30; loose, in bulk. \$25 per ton.

Lawn Grass Seed

Berryhill Mixture. This is the very highest grade mixture for general lawns, containing the various seeds suitable for this climate and average soil conditions. Price, qt. pkg., 30 cts.; 2 qts. 60 cts.; 4 qts. \$1.10; pk. \$1.75; bus. \$6.50.

Berryhill Shady Nook. For sowing under trees and for shady locations. Price, qt. pkg., 35 cts.; 2 qts. 70 cts.; 4 qts. \$1.25; pk. \$2.25, bus. \$8.

Porch- and Window-Boxes

There is nothing that will help so much to add the finishing touches to that part of the house which most people see and enjoy as a Window- or Porch-box. The plants we use in filling the boxes are of superior quality and strong and sufficiently matured to make a fine showing at once. We always take special care in preparing the compost used for our plant-boxes; a very liberal portion of fertilizer and humus is mixed with the soil to supply sufficient plant-food for the full length of the growing season.

We recommend the use of boxes 2 to 3 feet in length, or 4 feet at the most; where longer spaces are to be covered we advise placing them in sections of 2, 3 or 4 feet, rather than using long and heavy one-piece boxes, which are impractical and expensive to handle. The vines cover the joints and give the effect of one continuous box.

Our boxes are well built of the best Cypress wood, covered with two coats of paint.

2-foot box supplied and planted complete.....	\$4 50
3-foot box supplied and planted complete.....	\$6 50
4-foot box supplied and planted complete.....	\$8 00
