We Carry a Complete Line of ***Blatchford's* PRODUCTS**

***Blatchford's* CALF MEAL**

**First on the Market – First in Quality
– First in Results**

BLATCHFORD'S Calf Meal is the *original* milk-substitute. It was the *first* on the market. For over one-third of a century it has been successfully used in raising calves by the most progressive farmers and dairymen in this country. It is the *only* calf meal backed by so remarkable a record.

Blatchford's Calf Meal raises calves from babyhood. It is extremely palatable. It is easy to feed. It saves both milk and money. It will *pay* you to use it.

Sold in 100-, 50- and 25-lb. bags.

Satisfaction guaranteed with every bag.

2 1/4 lbs. 18 weeks!

Every Chick's First Feed Should be *Blatchford's* MILK MASH

BLATCHFORD'S Milk Mash is the favored starting and growing feed of the most prominent poultry-raisers in the country. It contains all the feeds and nutriment chicks need *right from the start*. It shields them from white diarrhea, bowel trouble and leg weakness.

Blatchford's Milk Mash contains no screenings, hulls or cheap by-products from the manufacture of breakfast foods, cereal foods or scratch grains. It carries chicks *all the way*—starts, grows and matures—*without change of feed*.

This is the safest, the most economical and the best starting and growing feed on the market. Use it. Sold in 100- and 25-pound bags and 4-pound cartons. Satisfaction guaranteed.

***Blatchford's* EGG MASH**

The Standard of Perfection in Egg Mash

BLATCHFORD'S "Fill-the-Basket" Egg Mash is built upon the principle that eggs are *manufactured* from the feed the hen receives. The hen is an egg-making factory. Her feed is the raw material from which she makes her eggs. Consequently, her feed must be rich in materials required for egg-production. Scratch grains alone are not sufficient. They will maintain the hen's life, but *surplus* nourishment is absolutely necessary if she is to yield her maximum of eggs.

Sold in 100- and 25-lb. bags. Every bag guaranteed to give satisfaction.

TRADE MARK

***Blatchford's* PIG MEAL**

**Carries Pigs Safely Through
the Critical Weaning Period**

IT contains just the right percentage of vegetable protein, fat, etc., in correctly diversified form to grow bone and muscle. Little pigs *relish* it and *thrive* upon it. It "makes the runts catch up."

Sold in 100-, 50- and 25-lb. bags. Satisfaction guaranteed.
