PRICE LIST

FOR FALL OF 1919 AND SPRING OF 1920

BABCOCK PEONY GARDENS

R. F. D. 79, JAMESTOWN, N. Y.

DESCRIPTION—Divisions have 3 to 5 eyes; 1-year plants are grown 1 year from division; 2-year plants, 2 years; 3-year plants, 3 years; and 4-year plants, 4 years from division.

QUALITY—We send only the strongest, largest, blooming roots—Quality Roots—that cannot be beaten by any grower in the business.

ALL PRICES are subject to stock being unsold upon receipt of orders. This Price List takes the place of all prices previously issued.

If you haven't a descriptive catalogue, send for one.

Our roots are grown on gravel soil—a strong wheat or corn soil. They are not crowded, but given lots of room and we grow in one or two years a root that can be lifted and reset without breaking off all the roots, as no three year roots can be transplanted without destroying most of the roots and your plant is given much more of a setback.

When you purchase BABCOCK'S PEONIES, you get the strongest, cleanest roots it is possible to grow—Absolutely True to Name—with strong blooming eyes, sure to give you bloom the first season. I sell only roots grown by myself and proved true, the old standard varieties and the wonderful new introductions from the old world, as well as the Prize Winners recently originated by Mr. Shaylor, Mr. Brand and Mrs. Pleas, and a few other growers in the U. S.

OUR GUARANTEE—We guarantee our Peonies true to name. Should error occur, we will replace with true stock or refund amount paid. There is one fact about Peonies that should be brought forcibly to the attention of all purchasers of Peony roots. That is, it takes fully three years from the time the root is planted before the Peony becomes adequately established to enable it to produce normal flowers. We do not pretend to come to final conclusions regarding them until they have bloomed the third year from planting.

Prices quoted are for good strong roots that, planted in the fall and given proper care may reasonably be expected to bloom the following spring.

"It is a mistake to suppose that all the best Peonies are of recent origin, and therefore high in price. Many sorts that have been on the market for half a century, and are now quite cheap, are still so good that they should be in every collection, and some are still stubbornly contesting with the newcomers their right to be considered the finest in their class. There is, then, no difficulty in choosing from among the low priced sorts a group of half a dozen whose quality is extra.

We send out only the strongest, largest blooming size roots—one-year-olds except in the new high priced varieties which now are winning all the prizes at the Peony Shows. We are well aware that one grower in Pennsylvania lists about one hundred varieties and says there are no good peonies that are not in his catalogue. We wonder why all the prize-winning peonies at the American Peony Society Shows for several years past have been such varieties as Martha Bullock, Francis Willard, Elizabeth Barrett Browning, Phoebe Cary and sev-

eral others of Brand's new peonies; also Shaylor's new \$100 peony, Mrs. Edward Harding, and others of his seedlings, other prize winners are Kelway's, Lady Alex Duff and Glorious—Lemoius LeCygne, Soulange and Desserts, latest new varieties; also Mrs. Pleas' Jubilee. The above peonies were the leading winners for several years past and are selling at high prices. There must be a reason. The above varieties named, and a few others are so fine they cannot be had except for high prices and then in only small lots. So we only offer them in good strong divisions of 3 to 5 eyes, or 1-year-olds at double price quoted. All others will be 1-year-old stock.
