PRICE LIST

NURSERY STOCK.

Grown right here in Kokomo, within one mile of the court house. Why is it so many people in Kokomo send away for all kinds of nursery stock? The answer is simple: because they do not know that there is a nursery right here in Kokomo that can supply you with better stock at less price than is offered you out of town. I know it is a hard proposition to get rid of the average tree peddler. He is usually a man with a flowery tongue and a beautiful picture book, and if you have not already been stung by some of these men, you are fortunate.

I have been in business in Kokomo twenty-nine years and have thousands of satisfied customers. Will quote a list of the stock grown in my nursery:

FLOWERING SHRUBS.

There is nothing that will add to the attractiveness of your home or enhance the value of same as a few dollars worth of shrubbery. I know of many cases where it has added to its value from 100 to 1,000 per cent., on the amount of shrubbery spent.

We have been supplying the residents of Kokomo with flowering shrubs for many years, and have yet to receive the first complaint. I shall be glad to give estimates on any large or small plantings and furnish drawing for same, free. If stock is purchased from us. Phone 394.
