PAPER WHITE GRANDIFLORA

In recent years the method of growing these Narcissi Bulbs in bowls with pebbles and water has become very popular.

It appeals especially to the ladies as a means of beautifying the home, in addition to being a charming and fascinating pastime, the interest of watching the gradual development of these Bulbs from the first green shoot to the flowering stage, more than compensates the care and attention devoted to them.

Place these bulbs in a low dish, covering to about one-third their height in clear water. Pebbles may be used to hold them firmly in place and they can be had in bloom for Christmas or earlier.

Unlike all other bulbs, these bulbs, can be planted at intervals successfully during a period of five months, and should be planted indoors only.

Our plants are well-established clumps three years old, the most desirable size for planting for immediate effect. Our list includes the choicest varieties and the plants will be freshly dug on the day of shipment.

Peonies may be planted at any time during the autumn, from September 1, until freezing weather.

EARLY-FLOWERING PEONIES

We believe that the early Peonies are not receiving the attention they deserve, for the reason that their merits are comparatively unknown. The *Officinalis* and *Tenuifolia* varieties bloom from two to three weeks earlier than others, and have fine decorative value. Planted in connection with the Chinese varieties, the season of bloom is greatly prolonged and the result very satisfactory.

JAPANESE PEONIES

These are marvels of unique beauty, very attractive and unusual. The government has recently placed an embargo on the importation of Peonies from Japan, consequently Japanese Peonies are now scarce and difficult to obtain in this country.

Owing to the unfamiliarity of the Japanese names, we suggest that they be ordered by number.

Express or freight charges for transportation from Deerfield must, however, be paid by the purchaser.

SHIPPING

It is our custom to ship our goods by EXPRESS as we find the service more satisfactory and, as a rule, cheaper, owing to the size and weight of the packages.

If any customer prefers the PARCEL POST, we will forward small packages in that manner, provided sufficient postage is remitted with the order. Any excess will be returned.

We guarantee our bulbs and roots to be true to name, healthy and in sound condition and strictly first class. We will not, however, be responsible for the failure of any to grow or thrive, as such failure may result from causes wholly beyond our control, such as improper treatment, unfavorable weather, soil or climate. Should any difficulty arise through any fault or mistake of our own we will gladly rectify it. If the purchaser does not accept the goods on these terms they are at once to be returned, and money that has been paid for the same will be refunded.

Orders from unknown correspondents must be accompanied by cash or satisfactory references.

We prefer not to receive C. O. D. orders, but if such are sent they must be accompanied by cash to one-fourth of the value of the goods ordered to insure acceptance.

A discount of 2 per cent on all orders amounting to \$5 or more will be allowed if received before July 1st, if money accompanies the order.

Money should be sent only by safe methods, preferably postal or express money orders payable to **FRANKEN BROTHERS** at Deerfield, Illinois, or drafts on Chicago or New York.
