NURSERY STOCK

GROWN AND DEALT IN
BY

The Fullhart Nursery
MUNCIE, IND.

Nursery is located 1½ miles south-east of
Muncie on Burlington Ave.

R. R. 5

PHONE 1916

To Our Friends and Customers

It is with pleasure that we send our little pamphlet and list of General Nursery Stock to our friends and customers.

We would indeed feel like leaving a debt unpaid if we failed to express our thanks to our customers for their patronage in the past, and assure you we will give careful attention to all orders with which you may favor us.

We take pride in stating that The Fullhart Nursery has been growing general nursery stock for the home retail trade for almost three generations; trees and plants "True-To-Name."

In our list of stock we grow and sell just a few varieties of what we have found to be the best. It is needless to say that there are several varieties advertised that are almost worthless.

You will notice the price of nursery stock is higher than usual, which is accounted for by several reasons, namely: shutting off our seedling stock and supplies from Europe during the late war; advance cost of labor, equipment, etc.

There is a great shortage of stock of all kinds. Some of our leading nurserymen claim there will be only about one-third enough to go around, so we advise our customers to order early, and we assure you that we will give you as good trees and plants as experience and skill can produce.

The Fullhart Nursery

Muncie, Ind.

OUR GUARANTEE

Stock is guaranteed true to name, healthy and up to grade and quality. The successful growth of a tree or plant is dependent upon many conditions over which the nurseryman has no control, viz.: the planting, the cultivating and maintenance, the weather, the fertility of the soil, the rainfall, etc.

We endeavor to exercise every care that will cause our stock to transplant successfully, and that it leaves our nursery in good, healthy condition, and will gladly give instructions to the best of our ability as to the planting and care of same, but we cannot guarantee tree or plant to live.

TERMS

Our terms are cash with order, except to persons who satisfy us as to their financial responsibility.

If any stock proves untrue to name or label, we will refund purchase price or replace stock upon proof of the error. We exercise the greatest of care in labeling stock.

Orders accepted under conditions of not being sold out of special varieties when order is received.

Prices in this list are for stock at our nursery. Packing free. Delivery to all parts of Muncie.

Shipping — Stock should be shipped by express or parcel post, if conditions permit.

You are welcome at all times to come and make a selection of stock, but we cannot dig trees or plants on Sundays.

✓ Superb "perfect"	\$.75	\$1.40	\$2.50	\$18.00
✓ Progressive "perfect" ..	.75	1.40	2.50	18.00

We have found these two varieties of strawberries to be the best of the everbearing class. Plants should be set in real fertile soil for best results, and mulched heavy while fruiting.

All strawberry plants can be shipped in first and second zone for 12 to 20 cents per hundred.

Our nursery is inspected annually by State Entomologist, giving you assurance of healthy stock —

GARDEN PLANTS — PERENNIALS

neaus. large divisions....	\$.20	1.80	
Rhubarb Clumps	.35		
Sage, Mammoth	.25	2.40	

"TRUE TO NAME"

ORNAMENTAL PLANTING

We consider it just as important to plant trees, shrubs and vines around the home as to plant fruits. Why not plant these beautifiers around your dwelling and make it a real home—not just a place to stay? The cost is small, considering the beautiful effect which will be gained. Money spent for ornamentals is not an unnecessary expense, for they enhance real estate values, which makes their purchase a safe and sure investment.

SHADE TREES

Trees Adapted to Street Planting and Shade

Norway Maple, 6 to 8 feet, each.....	\$1.25
