READ CAREFULLY BEFORE ORDERING

All prices in this catalogue, owing to uncertain market conditions, are subject to change without notice. Should we be required to replace the merchandise we now have on hand (listed in this catalogue) on present market, there would have to be a higher price than our catalogue price to the purchaser. On the other hand, should such a condition exist that replacement reduced the cost to us, we will gladly reduce in proportion, the price to our customers. This policy applies to all grain, grass, vegetable and flower seeds as well as all other items quoted herein. WE DELIVER all Vegetable and Flower Seeds when bought at the packet, ounce, or 1/4 pound prices, but when seeds ordered are listed in pounds, postage should be added at the rate of 6 cents per pound. Each additional pound add 1 cent. In all other cases goods will be SHIPPED F. O. B. LEWISTON.

No charge for packing, unless otherwise stated. Bags will be charged for as follows: 2 bushel bags, 60 cents; 1/2 bushel bags, 25 cents; peck bags, 20 cents; 1/2 peck bags, 15 cents.

We give no warranty expressed or implied, as to description, quality or productiveness of our seeds, and in sending them out, will in no way be responsible for crops or lack of satisfactory product from our seeds. If the purchaser does not accept the goods on these terms, we must be notified at once, when we will give full instructions for disposition of such goods. This is the invariable rule of reliable business houses.

We do, however, purchase our seeds from reputable growers and employ every means, taught us from years of successful dealing in seeds, to insure proper grading and purity. Seeds are tested by our experts before offering them for sale, so we are as reasonably sure of their germination as nature and science permits of assurance.

PARCEL POST INFORMATION ON PAGE 11

NOTE—We would deem it a great favor if our customers, or those wishing to remain on our mailing list, thereby receiving our catalogue, would inform us of change in address.

CHOICE FLOWER SEEDS--General List

MOST flowering plants will live in almost any soil, but to give them a fair chance to develop, some care should be taken to make the ground suited to their needs. The soil best adapted for flowering plants generally is a light, friable loam, containing a sufficient amount of sand to render it porous. Many flowers are better if produced on plants of vigorous growth, hence a portion of the garden should be prepared by deep digging, thorough pulverization and liberal enriching with large quantities of well-rotted manure. Since some other varieties produce the largest and finest colored flowers when grown on rather light, poor soil, a portion of the garden should not be enriched. While some seeds need special treatment, the following general rules will apply to all. Make the surface of the soil as fine, smooth and level as possible; do not plant when the ground is wet; cover each lot of seeds to a uniform depth, which should not be more than four to six times the diameter of the seed; press the soil firmly over the seed; plant in rows so that the starting plants can be seen easily; thin out the young plants to prevent crowding and keep entirely free from weeds.

POSTAGE PREPAID ON ALL FLOWER SEEDS IN PACKETS AT PRICES QUOTED

SPECIAL INDUCEMENTS

When the money accompanies the order, purchasers of Seeds in packets at catalogue prices may select **25 CENTS' WORTH EXTRA PACKETS FOR EACH \$1.00 SENT.** Thus anyone enclosing \$1.00 **MAY ORDER SEEDS IN PACKETS AMOUNTING TO \$1.25.** Two dollars sent to us with the order will pay for seeds **IN PACKETS** amounting to \$2.50 and so on. This offer does **NOT** include seeds in collections by weight or measure, bulbs, plants, or anything **EXCEPTING SEEDS IN PACKETS.**

Plants are generally known and described as Annuals, Biennials, and Perennials. The term annual is applied to plants which flower and ripen their seeds the same season. Hardy annuals are those which may be sown in the open ground. Half hardy annuals are those which should be started in the house and transplanted to the garden. The term biennials is applied to plants which flower the second season after planting and then perish. The term perennial to plants which flower the second season after planting, and continue to flower year after year.

ADONIS. Showy, popular border flowers, remaining a long time in bloom.

Aestivalis. "Flos Adonis." Flowers scarlet. Hardy annual. 1 ft. **Pkt., .05**

AGERATUM. (Floss-Flower.) hA. Blossoms continually throughout the summer. Highly prized for bedding out, and valuable for winter blooming indoors.

Imperial Dwarf. Dark blue. 9 in.; good for edging. **Pkt., .05**

ALSSYUM. Very hardy, free blooming dwarf plants, all varieties growing freely in common soil. The pretty, fragrant flowers are much prized for bouquets; excellent for the summer garden.

Saxatile Compactum. Yellow flowers; fine for borders. Perennial. **Pkt., .05**

Little Gem. White. They grow but three or four inches in height, very compact, of spreading growth, each plant often forming a circle a foot in diameter. **Pkt., .05**

AMARANTHUS. Ornamental foliage. Very striking and effective decorative plants. Sow early and set out young plants early in June. Annual.

Tricolor. Mixed—Carmine scarlet, splendid variety. 4 to 5 feet. **Pkt., .05**

ANTIRRHINUM. (Snapdragon) Beautiful, hardy, free blooming plants for summer and fall. Flowers the first year from seed as annuals and should be treated as such. Average height, 1½ feet.

Alyssum

ASTER

One of the very best
Annuals for cut-flowers

The Aster is of easy culture and very popular. Plants from seed sown in the open ground in May bloom finely in September and October. For July and August flowers sow in March or April in cold frame, spent hot-bed, or in pots or boxes in the house. Cover the seeds about half an inch deep with rich, light soil, and when the plants have three or four leaves transplant about 18 inches apart each way into well prepared beds. Manures too fresh or used in too large quantities sometimes induce disease in Asters. When used they should be thoroughly well decayed and mixed with the soil. Small quantities of slaked lime or fresh wood-ashes stirred into the surface of the Aster beds form good tonics for the plants and keep disease and insects from the roots.

Tall Varieties

AMERICAN BRANCHING. A free growing Aster of robust, erect habit, producing large, feathery blossoms resembling Japanese Chrysanthemums; one of the finest for cutting. Height 3 feet.

ALL SORTS MIXED	Pkt., .10
-----------------------	-----------

BALSAM. Beautiful plants for the summer garden. Of fine pyramidal form, thickly studded with large flowers of rich shades. They should be started early in heat and transplanted. We offer the finest strains in cultivation. Annuals.

Double Dwarf Mixed	Pkt., .10
--------------------------	-----------

BROWALLIA. Elegant, free flowering, half-hardy annual for house or garden; growing about eighteen inches in height, with Verbena-like flowers; excellent for cutting. Seeds started in July will give fine plants for winter blooming in the greenhouse for which they are valuable. For summer blooming they may be sown under glass in March, or in the open ground in May.

Finest Mixed Pkt., .05

CALENDULA. Vigorous, hardy, free-flowering annuals, with large, flat, double flowers; valuable for growing in light soils, or dry situations. They are useful as cut flowers, and are frequently grown under glass during winter for cutting. 1 foot.

Double Mixed Pkt., .05

CALLIOPSIS or **Coreopsis**, Perennial Varieties. These frequently bloom the first year from seed sown in the spring; it is the most satisfactory, however, to sow in July or August, protecting the plants with coarse straw or pine boughs during the winter. They will flower profusely the following summer. Height, 2 feet. Mixed. Pkt., .05

CANDYTUFT. Showy, hardy annuals, growing about a foot in height. Excellent for bouquets.

Carmine Pkt., .05

Empress White Pkt., .05

Mixed Pkt., .05

Candytuft

CANNA. Indian Shot. The luxuriant foliage and superb flower of the Cannas, especially of the new French and Italian races, easily places them foremost among our sub-tropical bedding plants.

Crozy's Newest Mixture Pkt., .05

Nigricans—Dark Red Foliage Pkt., .05

CARNATIONS—Marguerite—the earliest of all Carnations, blooming in July or August if sown in spring and continuing till frost. Being half-hardy

perennials, a slight protection of coarse straw or pine boughs will preserve them during winter and they will flower profusely the next summer, or they may be potted to bloom during the winter in the house. The flowers are large, about eighty per cent, usually coming double; beautifully fringed and clove-scented.

CARNATIONS MARGUERITE

Giant White Pkt., .10

Giant Rose Pkt., .10

Giant Red Pkt., .10

Giant Yellow Pkt., .10

Giant Mixed Pkt., .10

CENTAUREA. Flowering Annuals. Imperials.—Giant Corn Flower. The flowers are of enormous size; fragrant, and of the most charming colors, including white, pink, lilac, rose and purple. They are among our best summer flowers for cutting.

Marguerite—White Pkt., .05

Cyanus—Bachelor's Buttons, mixed..... Pkt., .05

Centaurea Cyanus

CELOSIA, or **Coxcomb**. Showy annuals of easy cultivation; producing large, brilliant, comb-like flower heads. They prefer a light soil, and should not be allowed to become crowded if a dwarf habit is desired.

Tall Mixed Pkt., .05

CHRYSANTHEMUM (Annual Varieties)

Showy, hardy annuals of easiest cultivation and blooming early in summer. They are most desirable for seashore and mountain gardens. Height, 2 feet.

Double Yellow Pkt., .05
Double Mixed Pkt., .05

COBOEA SCANDENS. A fine, rapid growing climber with handsome foliage and large, bell-shaped flowers, green at first, but rapidly changing to a beautiful, deep violet-blue. A well established plant will run about thirty feet in a season, covering a large veranda with handsome foliage and beautiful flowers. Tender perennial. Pkt., .05

CONVOLVULUS MAJOR—Tall Morning Glory.

Finest Mixed Pkt., .05
Japanese Morning Glory Pkt., .05

CYPRESS VINE. *Ipomoea Quamoclit.* Very graceful twining annuals with feathery dark green foliage and star-like flowers. Twenty feet.

Scarlet Pkt., .05

COSMOS. This is one of our most useful and beautiful autumn flowers. To get it in bloom early, the seed should be sown in May in the open ground where the plants are desired to bloom, and the seedlings allowed to grow and flower without being transplanted.

Finest Mixed Pkt., .05

Cosmos

DAHLIA. This popular flower can be easily raised from seed and flowered the same season. The roots should be placed in dry sand and kept in a cellar where there is no frost during the winter.

Finest Mixed Pkt., .10
Single Mixed Pkt., .10

DIANTHUS. *Chinenses fl. pl. hP.* Double Chinese Pinks. Finest Mixed. Pkt., .05
Hedewigii. (Japan Pinks) hB. Single. First-class selected. Mixed Pkt., .05

Chinese Pinks

DOLICHOS LABLAB. (*Hyacinth Bean.*) Purple. 10 feet. Pkt., .05

ESCHSCHOLTZIA. California Poppy. The bright colors, long duration and dwarf habit of these free-blooming, hardy annuals, admirably adapt them for massing and border planting. Height, 1 foot.

California—Yellow, orange center..... Pkt., .05
California Alba—White Pkt., .05
Mixed Pkt., .05

GOURDS. Luxuriant, climbing annuals, useful in covering arbors, fences or slopes, and bearing gourds which are of interesting forms and colors. 10 to 15 feet.

Mixed Pkt., .05

GYPSOPHILA. *Infant's Breath.* Free flowering, hardy plants; extremely light and graceful, easy of cultivation, and most useful for bouquet and cut-flower work. Height, 18 inches.

Mixed Pkt., .05

HELIANTHUS. Sunflower. The large varieties are useful in forming backgrounds of large beds or borders and for distant effects, while the smaller sorts may be planted with scarlet *Salvia*, Cannas and other tall bedding plants, besides being excellent for cutting. Hardy annuals.

Double Mixed Pkt., .05

FOR
THE
LAWN Try Our PURITY LAWN SEED

Mixed by us from one of the best formulas known and containing no weed seeds.

Helianthus

HELICHRYSUM. Everlasting Flower. Showy annuals for beds or borders; useful as dried flowers for winter bouquets, for which use the blooms should be cut before they are fully open, and hung up to dry with the flowers downward if stiff stems are desired. Height 2 feet.

Double Mixed Pkt., .05

Heliotrope

HELIOTROPE. Delightfully fragrant greenhouse perennial; excellent for bedding or indoor cultivation and particularly useful for cutting.

Giant. Newest large flowering varieties mixed.

Pkt., .10

HOLLYHOCK. This ever popular hardy favorite of our gardens has very few rivals in majestic grandeur. Hollyhocks succeed best in rich, well-drained soil. They should be lightly protected during winter with pine boughs, coarse straw or other mulch not liable to rot. Seeds sown in July produce fine plants for blooming the following summer. Hardy biennials; 6 to 8 ft.

Chaters Strain. Double finest mixed, Pkt., .10

HUMULUS JAPONICA. Japanese Hop. Splendid annual climber of fast growth and very ornamental. 12 ft. Pkt., .05

KOCHIA TRICHOPHILA. (Standing or Summer Cypress.) Splendid ornamental annual of unusually quick growth, forming regular pyramids of about 3 ft. in height. The slender-leaved plants are of a cypress-

like appearance during the summer, changing their light-green foliage to carmine and blood-red colorings. The plant, also called "Burning Bush," is of great value when planted singly or in groups, as well as for pot culture. 3 ft. Pkt., .05

LARKSPUR. Splendid hardy annuals with showy flowers borne on long spikes; white, lilac, and all shades of blue; excellent for cutting. Height, 18 inches.

Double Tall. Branching or stock flower mixed.

Pkt., .05

LAVENDER. Ornamental hardy perennial, bearing long spikes of very fragrant, blue flowers. 18 inches. Pkt., .05

LOBELIA. The Erinus varieties are most valuable for edgings, hanging baskets and vases, blooming profusely from June till frost. Lobelia Cardinalis and its varieties are among the most brilliant autumn flowering perennials.

Crystal Palace Compacta. The darkest blue. Pkt., .05

Finest Mixed Pkt., .05

MARIGOLD. Tagetes. These handsome half-hardy annuals when well grown cannot be surpassed either in mixed borders or when grouped together. They succeed best in moderately rich soil and in open situations, and are strongly recommended where a gorgeous display in the autumn is an essential feature.

African—Double tall yellow..... Pkt., .05

African—Double tall mixed Pkt., .05

French—Double tall mixed Pkt., .05

Forget-Me-Not

MYOSOTIS—Forget-Me-Not. Dwarf, half-hardy perennials, bearing a profusion of little, star-shaped flowers. They thrive best in rather moist, shady situations. Most of them will bloom the first year from seed if sown early. If sown in July or August in shaded frame, fine plants will be obtained for spring blooming. They are very beautiful when planted in combination with late spring bulbs, Daisies, Arabis or Golden Alyssum.

Palustris—True Forget-Me-Not. Dark blue, very beautiful; profuse flowering. Pkt., .10

Mignonette

MIGNONETTE. *Reseda Odorata.* The most fragrant annual, prized as much for forcing in winter as for the summer garden. The seed should be sown early and the plants as they grow, thinned sufficiently to allow them to branch. The beds should be liberally watered during dry weather.

Parsons's White Pkt., .10
 Machet, Red Pkt., .10
 Bird's Mammoth Mixed Pkt., .10

NICOTIANIA Affinis—Annuals.

Colossea—Magnificent foliage plant that soon attains a height of five or six feet, with young leaves at first tinted with red. Its leaves are often two feet in length and a foot in width. Excellent for foliage beds.
 Pkt., .10

Sylvestris. A splendid new variety with glaucous leaves and large pendants, pure white, tube-shaped flowers; a very stately plant.
 Pkt., .10

NASTURTIUMS—Dwarf Varieties mixed.

Tom Thumb, or Dwarf. These hardy annuals are of easiest cultivation; succeeding best in rather light soil, withstanding heat and drought and flowering profusely from June or July until cut down by severe frost, usually well into November. The dark-leaved varieties are particularly adapted for ribbon beds and borders, the brilliant flowers contrasting admirably with the bronzy red foliage. Height, 1 foot.

Finest Mixed. Our special mixture of the finest sorts, in great variety of color.

Pkt., .05; oz., .15; ¼ lb., .45

NASTURTIUMS—Tall or Climbing.

Besides their ordinary garden use for trailing over fences, trellises, stone walls, etc., these can also be grown as pot plants for Winter flowering, as screens or as trailers for hanging baskets and vases; 8 to 12 feet.

Finest Mixed Pkt., .05; oz., .15; ¼ lb., .45

PAPAVER, or Poppy. Annual varieties, showy, hardy annual of the easiest cultivation and embracing many rich and beautiful colors. The seed should be sown early in spring where intended to bloom.

Shirley—Finest mixed. A most charming race of single Poppies with shining flowers of silky texture, varying in color from pure white and delicate pink to rosy carmine and deep crimson; many of them being beautifully striped and edged with white. The blooms if cut when young will keep in water for two or three days. Height, 2 ft.

Pkt., .05
 Double Carnation Mixed Pkt., .05
 Oriental Deep Crimson Pkt., .05
 White Swan Pkt., .05

PHLOX DRUMMONDI. This is one of the finest annuals, being hardy, easy of cultivation and making as a summer bedding plant an effective and brilliant display. The flowers are of long duration and of most gorgeous and varied colors. Height, 1 ft.

Finest Mixed—Splendid colors Pkt., .05

Grandiflora Finest Mixed. The flowers are of large size, finely rounded form, and with well defined eyes. The colors are superb.
 Pkt., .10

PETUNIA. The Petunia is popular because it is of easiest cultivation, blooms from early summer continuously until frost and is one of the most showy and free-growing annuals. Height, 12 to 15 inches.

Single Flowering Petunia

Hybrida—Finest Mixed Pkt., .10
 Fimbriata—Fringed, Single Mixed Pkt., .15

Double Flowering Petunias

Double Fringed—Extra Large Pkt., .20

Nasturtium

PORTULACA. Charming dwarf annuals for sunny situations or light soils, producing flowers of most brilliant colors in great profusion. Height, 6 inches.
Grandiflora Plenissima—Double Mixed.... Pkt., .10
Grandiflora—Fine Single MixedPkt., .10

RHODANTHE. Half-hardy annuals with "Everlasting" flowers. They are beautiful for the open garden, or grown in pots for the conservatory. If required for winter use, as dried flowers, they should be cut before they are fully expanded. Height, 1 foot.
Mixed Pkt., .05

RICINUS. Castor Oil Plant. Tender annuals of rapid and gigantic growth, producing enormous dark green or bronze-colored palmate leaves; excellent for sub-tropical beds, or for massive foliage effects on lawns or backgrounds.

Zanzibariensis. Mixed. A new and distinct race from East Africa, producing leaves of enormous size, varying in color from light green to purplish red. Height, 15 feet. **Pkt., .10**

SALPIGLOSSIS. Half-hardy annuals; elegant late summer flowering plants of great diversity in color; beautifully penciled in rich tints of yellow, purple and brownish red. Of easy culture.
Grandiflora—Finest Mixed Pkt., .05

SALVIA. Flowering Sage. Very ornamental; flowers borne in spikes of fiery red, crimson or blue, and continue in bloom in open ground until after severe frosts. Start in heat and transplant into light soil one to two feet apart. Tender perennials, but bloom the first season. Height, 2 ft. to 3 ft.
Bonfire—Scarlet Pkt., .10
Cocinea—Mixed Pkt., .10

STOCK—Gilliflower. The charming colors, delightful fragrance and free-blooming character of the Stocks have made them favorite plants for both summer and winter cultivation. They are very effective for beds and borders, and their handsome spikes are invaluable for bouquets and floral decorations.

Large-Flowering, Double Ten-Week Varieties. Highest grade, pot-grown seed. The best variety for early summer blooming, producing massive pyramidal flower spikes of brilliant colors and delightful fragrance. Height, 1 foot.

Pink Pkt., .10
White Pkt., .10
Finest Mixed Pkt., .10

SWEET WILLIAM. *Dianthus Barbatus.* Showy hardy biennials of easiest culture; admirable for clumps among shrubs or borders. Height, 18 inches.
Hunt's Perfection Mixed Pkt., .05

PANSIES

Pansy, or Heartsease. Too much importance cannot be attached to the culture of these beautiful plants, flowering as they do in great abundance for several months. When sown in the early spring a good display in most cases can be had in the following fall, but the best results are not obtained by so doing. To obtain fine blooms it is better to sow during summer and transplant the seedlings in cold frames in September, protecting during the winter with mats or shutters. Pansies delight in a cool, moist, well drained soil, enriched with decomposed barn-yard manure. They should never be allowed to suffer for want of water.

Pkt., .05; oz., .10; ¼ lb., .25; ½ lb., .45; lb., .90.

Prices on all Separate Colors:

Pkt., .05; oz., .10; ¼ lb., .35; ½ lb., .65; lb., \$1.25.

Blue and Purple

Captain of the Blues. Standard light maroon; wings light purple.

Navy Blue. Deep violet blue.

Variegated.

Aurora. Flaked orange salmon; largest striped.

America. The brightest blood red striped.

Daybreak. Crimson scarlet on white ground.

Gray Friar. Beautiful watered purple on white ground.

Helen Pierce. Blue mottled on pure white.

Mrs. Joseph Chamberlain. Rose and white striped.

Lavender and Mauve

Countess of Radnor. Pale mauve standards, wings pale lilac, very fine.

Dorothy Tenant. Deep rosy mauve; beautiful.

Emily Eckford. Standard reddish mauve, wings blue.

White

Blanche Burpee. Pure white of superior substance, flowers large and finely formed.

Emily Henderson. A new pure white, largest of all and an excellent sort.

Sadie Burpee. White seed. Very large. Pure white.

Dorothy Eckford. Pure White.

Light Yellow

Mrs. Eckford. Delicate shade of primrose yellow.

Primrose. Color pale primrose approaching yellow.

Shades of Pink

Lovely. Light pink standard, delicate rose wings.

Hon. F. Bouverie. Standard flesh-pink, wings rosy buff.

Sybil Eckford. Pink and buff.

Prima Donna. Lovely pale pink. One of the finest.

Katherine Tracy. Soft but brilliant pink.

Gladys Unwin. Large, light pink.

Blanche Ferry. The popular pink and white.

Her Majesty. Beautiful rose color.

Painted Lady. Old popular pink and white, fiery shade.

Lady Mary Currie. Orange pink.

Shades of Red

Red Riding Hood. Rosy pink, very fragrant.

Brilliant. Bright scarlet, fine form.

Firefly. Deep brilliant scarlet; truly a fiery shade.

King Edward VII. Fine scarlet.

White and Blue

Maid of Honor. White, edged with blue.

Lottie Eckford. White, suffused with lavender.

Butterfly. White, blue edge.

Claret and Maroon

Boreatton. Very dark maroon, self-colored.

Captivation. Beautiful claret color.

Waverly. Standards rosy claret, wings shaded blue.

Black Knight. Deep maroon.

PRICES FOR ANY OF THE ABOVE FIVE-CENT PACKAGES: 6 pkts. for 25c; 12 pkts. for 40c.

Sweet Peas (Continued)

SPENCER VARIETIES

The Spencers are of exceptionally large size, the standard and wings waved or frilled and the general effect remarkably graceful and attractive. The plants are of vigorous growth and remain in bloom for a longer period than the ordinary sorts. They are produced abundantly on long stems, making them most desirable for cutting.

Asta Ohn. Suffused lavender sometimes with pinkish tinge.

Countess. Bright, clear pink, sometimes darker towards the edges; very large with long stems. One of the very best.

Florence Morse. White with pink edge.

King Edward. Brilliant crimson scarlet; very large size and of open form.

Othello. Beautiful deep maroon. One of the most reliable of the maroon shades of Spencers.

White. Pure white. Beautifully waved and fluted. Very large size.

Mixture. A very fine assortment of the best varieties.

Separate Colors10 per Pkg., .20 oz.

Mixture10 per Pkg., .20 oz.. 75 ¼ lb.

VERBENA. The Verbena is one of the most decorative and easily grown bedding plants. If started in heat in March the seedlings begin to bloom in June and continue until frost. Plants raised from seeds are stronger and flower more freely than those grown from cuttings. Half-hardy perennials. Height, 1 foot.

Hybrida—Fine Mixed Pkt., .05

Hybrida—Mammoth mixed Pkt., .10

Hybrida—Extra selected, dark blue Pkt., .10

Hybrida Candissima, white Pkt., .10

VIRGINIA CREEPER (or American Woodbine). Though a common native climber, this is one of the best plants for covering unsightly objects, or it may be easily trained into festoons of exceeding grace and beauty. Pkt., .05

WILD CUCUMBER. Hardy, vigorous climber, with very pretty seed-pods, large seeds; to be sown in the open ground in autumn. 20 feet. Pkt., .05

XERANTHEMUM. Profuse blooming hardy annuals with "Everlasting" flowers; useful for winter bouquets; colors pure white and deep purple. Height, 18 inches.

Finest Double Mixed Pkt., .05

Zinnia

ZINNIA. The double flowering Zinnias (*Zinnia elegans* fl. pl.), are among the finest annuals blooming from July till frost. The flowers are large, handsome, and in a variety of colors. Of easy cultivation in common garden soil. Seed should be started in heat and transplanted. Our seed of these beautiful flowers is saved from the finest collection in Germany.

Single Mixed Pkt., .05

Double Mixed Pkt., .05

MIXED FLOWER SEEDS FOR WILD GARDENS.

A splendid mixture of more than one hundred kinds of flower seeds at a low price. Pkt., .05

For Parcel Post information see next page.

Owing to the unsettled condition of the market ALL prices in this catalogue are strictly subject to change without notice. However, at time of shipment prices should be lower than given in the catalogue we shall cheerfully give our customers the benefit.

SUPERIOR VEGETABLE SEEDS

THE CENTAL SYSTEM—IMPORTANT ANNOUNCEMENT

In this issue of our catalogue we shall continue to use the Cental System which was adopted by us in our 1919 issue. The old method of selling seed by the pint, quart, peck, bushel, or fractions thereof is hereby discontinued. Seeds will hereafter be quoted by the pound and hundred pounds. You will find it more accurate, more fair, and more sensible than the old method of buying by the pint, peck, or bushel. Recommendations as to quantity to sow will be made on the pound basis instead of by measure.

There are several reasons for this change.

1. The weight of a bushel of one kind of seed is practically never the same as that of another kind of seed. Even the weights of two single bushels of the same commodity may differ, due to difference in size of the individual seeds, vegetables, or whatever makes up the bushel. The old system was, therefore, unavoidably inaccurate, frequently inaccurate, and never quite fair to both buyer and seller.

2. The new method is exact, accurate, and fair to all.

3. The new system permits of quicker, more accurate, parcel-post rating.

4. The Cental System, long used in Europe, is the coming method of selling seeds, vegetables, foods, etc. It has already been adopted by law in several states.

Parcel Post Information

Parcel Post rates now apply to all seeds, bulbs and plants and are subject to the same rates as all other merchandise, 1st and 2d Zones include all places within a distance of 150 miles of Lewiston.

ASPARAGUS

German,—Gpargel, French,—Asperge
Spanish,—Esparragos.

One ounce for 60 feet of drill.

A convenient bed is about six feet wide, with a path two feet wide on each side. This will require six rows one foot apart, and a bed of that width 50 feet will be ample for an ordinary family, requiring about

one pound of seed. It will require about three years from the time of sowing until the bed is in full bearing, but once established, it is good for twenty years.

It should be sown in drills one foot apart, and when the plants are four or five inches high they should be thinned out so that the plants will be nine inches apart from each other in all the rows. Great care must be taken for the first year to keep down all weeds as soon as they appear, else they will choke and destroy the young seedling Asparagus. The deeper the soil and the more manure used, the greater will be the crop.

Conover's Colossal. The best known, and one of the most desirable sorts.

Pkt., .05; oz., .10; ¼ lb., .20; lb., .50

Palmetto. Shoots are very large and light green, also tender and very desirable for the market and home garden. Very quick in growth, with close, round-topped shoots.

Pkt., .05; oz., .10; ¼ lb., .25; lb., .75

Asparagus Roots

A saving of one or two years is effected by planting roots. These offered below are strong, two-year-old roots, and the proper size for testing. These roots are not carried in stock but will be shipped direct from the growers. Prices on the following varieties will be quoted on application.

Columbia, Mammoth White, Conover's Colossal, Barr's Mammoth and Palmetto.

BEANS

Dwarf or Bush

German,—Bohnen.

French,—Haricot.

Spanish,—Frijole nano.

Two Pounds to 100 feet in drills or 150 hills; two bushels to the acre in drills.

A succession of sowing can be made from the first week in May until August. Plant in drills about two inches deep, and from eighteen inches to two feet apart, according to the richness of the soil; the poorer the soil the closer they can be planted. The seeds should be dropped about two inches apart.

Add .06 per Lb.; each additional pound add .01 if to be sent by mail.

Improved Golden Wax Beans

Black German Wax. (Black Seed.) Very early; round, yellow pods; a well-known standard sort.

Pound, .35; Two Pounds, .65

Currie's Rust-proof Wax. Pods long, flat and straight, very productive and rust-proof; black seed.

Pound, .35; Two Pounds, .65

Improved Golden Wax. Rust proof. An improvement on the old Golden Wax. The pod is somewhat round, meaty and entirely rust proof.

Pound, .35; Two Pounds, .65

Green Pod Varieties

Stringless Green Pod. The pods are green, not quite as round as Valentine and less curved. The pods are stringless—absolutely—this quality at once placing the variety at the top of the list among table beans.

Pound, .35; Two Pounds, .65

Long Yellow Six Weeks. Pods are long, flat, straight green.

Pound, .35; Two Pounds, .65

Low's Champion. Very productive, with stringless, large flat green pods. Excellent either as a string or shell bean.

Pound, .35; Two Pounds, .65

Dwarf Horticultural. Pods are of medium length, slightly curved, and when nearly developed are freely splashed with bright red on the yellow skin. The green shell beans are of good size, tender, and of fine flavor.

Pound, .35; Two Pounds, .65

Burpee's Bush Lima. The only Bush form of the true large Lima. Bushes grow to eighteen inches in height and always erect.

Pound, .40; Two Pounds, .75

Improved Yellow-eye Bean. A fine field bean and very productive.

Old-fashioned Yellow-eye Bean. An excellent field bean and much preferred to the Improved Yellow-eye as a baking bean.

Red Kidney Bean. An easily raised bean and very productive. Also greatly prized by many for baking.

Pea Beans. Native grown. Used for baking more than any other pea bean.

Sulphur Pea. Larger than the white pea bean; golden yellow color; early and of fine quality.

White Kidney Bean. Good yielder. Almost entirely free from rust. One of the best baking beans on the market.

Soldier Bean. Similar in shape to the White Kidney, but much larger, and with brown markings. Excellent cropper and free from rust.

Prices on above on application.

Pole or Running

German—Stangenbohnen

Spanish—Judias.

French—Haricot a Rames.

One Pound to 150 hills.

These are more tender and require rather more care in culture than the Bush Beans, and should be sown two weeks later. They succeed best in sand loam, which should be liberally enriched with short manure in the hills, which are formed, according to the variety, from three to four feet apart. From five to six seeds are planted in each hill, about two inches deep.

Rough cedar or similar poles about seven or eight feet long should be used for these to climb on. The poles should be set in the ground at least eighteen inches, so as to prevent being blown over.

Add .06 per Lb.; each additional Pound add .01 if to be sent by mail.

Black Wax, or Indian Chief. A superb snap bean; pods yellow and stringless. **Crop Failed.**

Scarlet Runners. Usually cultivated for the beauty of its scarlet flowers. **Pkt., .15; ¼ Lb., .25**

King Horticultural, or Old Fashioned Speckled Cranberry. Pods bright carmine color; both beans and pods are much larger than the common kind.

Pound, .35; Two Pounds, .65

Kentucky Wonder. An excellent green podded variety; enormously productive, the long pods hanging in great clusters along the entire vine. Seed dark brown; entirely stringless.

Pound, .35; Two Pounds, .65

Lazy Wife. One of the best of the later green-podded pole beans for snaps. The pods borne in large clusters, are five to seven inches long, broad, thick, fleshy and entirely stringless. When young they have a rich, buttery flavor, which is retained until they are nearly ripe. The dry beans are excellent for winter use. Seed white.

Pound, .35; Two Pounds, .65

Red Cranberry Pole. A popular string or snap bean; very productive with large and tender pod.

Pound, .35; Two Pounds, .65

Lima, King of the Garden. Heavy cropper—bean and pod very large.

Pound, .40; Two Pounds, .75

BEEET

German,—Runtel Rube.

French.—Betterave.

Spanish,—Beteraga.

A rather light soil, well enriched, is best suited to the cultivation of the various beets. The mangels and sugar beets in particular, require very liberal manuring. For an early crop of table beets, sow the seed as early as the ground is in condition to work; light frosts will not injure the young plants. For a main crop, sow the first of May; and for winter beets, the last of June. Sow in drills, 12 to 15 inches apart, and about one inch deep, pressing the earth firmly upon

the seed,—a very important matter. Use about six pounds of seed per acre, 1 oz. 50 feet. Thin out when the plants are large enough. The varieties for table use should be left three or four inches apart.

MANGEL-WURZEL AND SUGAR BEETS

Sow in April or May, using eight to twelve pounds to the acre.

Price of all varieties Oz., .15; ¼ lb., .40; lb., \$1.25

Red Giant Eckendorf. Of cylindrical form and grown mostly above the surface. Has been known to yield as high as 58 tons to the acre.

Lane's White Sugar. One of the best for feeding stock. Very sweet.

Norbiton Giant. A mammoth, long-red variety, enormously productive, and keeps well; good for deep soils.

Golden Tankard. Flesh a deep, rich yellow; very sweet and nutritious. Half long in shape. A very heavy cropper.

Improved Mammoth Long Red. An improvement on the old variety. The roots are very large, uniformly straight and well formed; proportionately thicker, and are deeper colored than the common sort, and with smaller tops.

Improved Golden Tankard

TABLE BEETS

Crosby's Egyptian. This variety is as early as the original Egyptian, but by careful selection has been made thicker and of better quality.

Pkt., .10; oz., .15; ¼ lb., .50; lb., \$1.50

TABLE BEETS (Continued.)

Dewing's Early. Of deep red color, smooth and of fine form. One of the leading varieties, both for market and for family use.

Pkt., .10; oz., .15; ¼ lb., .50; lb., \$1.50

Detroit Dark Red Turnip. An excellent beet for bunching for market; tops exceptionally small and upright; roots turnip shaped with small tap root. Color of skin dark blood red; flesh bright red. Quality is of the best, sweet and tender. One of the best varieties for the market gardener and the home garden.

Pkt., .10; oz., .15; ¼ lb., .50; lb., \$1.50

Early Eclipse. Very early, dark-red color, small top, and free from fibrous roots.

Pkt., .10; oz., .15; ¼ lb., .50; lb., \$1.50

Edmand's. This variety is thoroughly fixed and uniform in type. The flesh is deep blood red in color, and exceedingly sweet and tender. It is round, smooth, of good market size, and does not grow over-large.

Pkt., .10; oz., .15; ¼ lb., .50; lb., \$1.50

Dirigo Extra Early. A rich, blood-red beet of fine grain and flavor and is earlier than either the Egyptian or the Eclipse.

Pkt., .10; oz., .15; ¼ lb., .50; lb., \$1.50

Haskell's Special Blood Turnip. We have a very fine strain of Blood Turnip Beet, of the Edmand's type. Very deep red fleshed, so much in demand in all markets. Pkt., .10; oz., .15; ¼ lb., .50; lb., \$1.50

Swiss Chard or Silver Sea Kale. Used as greens and the ribs of leaves cooked and served as asparagus.

Pkt., .10; oz., .15; ¼ lb., .50; lb., \$1.50

BRUSSELS SPROUTS

(Species of cabbage; cultivation the same)

German,—Rofen-Kohl.

French,—Chou de Bruxelles.

Spanish,—Berza de Brussels.

One ounce will sow a bed of forty square feet, and produce about 3,000 plants.

This is a delicious vegetable, superior to either borecole or spinach. The small, cabbage-like heads which grow upon the stem are much improved by a moderate frost. Sow in hotbeds in March or April, and in the open ground in May.

Dwarf Improved. Produces excellent, compact sprouts; very sure cropper.

Pkt., .05; oz., .20; ¼ lb., .75

CABBAGE

German,—Kopf-Kohl. French,—Chou Pomme.

Spanish,—Berza.

One ounce of seed produces about 3,000 plants.

Early varieties are grown from seed sown in hotbeds in February or March, only moderate bottom heat being required. Transplant into other frames without much, if any, bottom heat, as soon as the plants show the fourth leaf. In April, or as soon as the ground can be easily worked, set out in rows three feet apart, and about eighteen inches between the plants. The ground should be thoroughly stirred with cultivator and hoed every week till the plants cover the ground. For a fall crop, sow in the open ground

in May, in hills the proper distance apart, using a liberal quantity of manure in the hill, besides that which is plowed in; thin out to one good plant in each hill. In the same way crops may be sown to lay in for the winter use, planting seeds as late as July 1. Seeds can also be sown in shallow drills when the plants are large enough, can be transplanted, setting the plants in rows three feet apart and two feet apart in the row. If the young plants are troubled with the cabbage fly, sprinkle them with tobacco dust, air-slaked lime, slug-shot or wood ashes, while the dew is on them. To keep off the cabbage worm, sprinkle with Dalmatian insect powder or Bug Death.

Danish Ball Head

The wide and unfailing popularity of the Danish Ball Head cabbage is simply wonderful. It seems to adapt itself to all soils and conditions.

The leading characteristics of Danish Ball Head cabbage are: First, that it is a sure header; second, that it is of unapproachable solidity and weight; third, that it is an extra good keeper; and fourth, that it is a good seller.

It is a medium to late cabbage, but is generally grown as a late crop. It is sure to head, the heads being round, hard and extremely heavy, though not extra large. It can be grown in close quarters, on account of its compact habit.

Pkt., .10; oz., .60; ¼ lb., \$2.00

All Seasons. An early Drumhead, sure heading, solid variety. Desirable for early or fall use.

Pkt., .10; oz., .50; ¼ lb., \$1.75

Charleston Wakefield. Grows to a much larger size than the Jersey Wakefield. Very productive and a good shipping variety.

Pkt., .10; oz., .50; ¼ lb., \$1.75

Mammoth Rock Red. The largest heading of any of the red sorts, of deep rich color, and excellent quality. Pkt., .10; oz., .50; ¼ lb., \$1.75

Sure Head. A fine variety for main crop. A good shipper and sure header. Pkt., .10; oz., .50; ¼ lb., \$1.75

Warren's Stone Mason

Warren's Stone Mason. An improvement on the Stone Mason Drumhead; heads rounder, firmer and earlier; is an extra good keeper.

Pkt., .10; oz., .50; ¼ lb., \$1.75

Savoy Improved American. The finest flavored of all the cabbage family, large and solid.

Pkt., .10; oz., .50; ¼ lb., \$1.75

Early Winningstadt. An early variety of excellent quality, not as early as the Wakefield.

Pkt., .10; oz., .50; ¼ lb., \$1.75

Henderson's Early Summer. A standard summer variety. We have the true stock.

Pkt., .10; oz., .50; ¼ lb., \$1.75

Fottlers Early Brunswick. An early fall variety well known and popular.

Pkt., .10; oz., .50; ¼ lb., \$1.75

Early Jersey Wakefield. A standard early variety for home use or market.

Pkt., .10; oz., .50; ¼ lb., \$1.75

Red Dutch for pickling or for salads.

Pkt., .10; oz., .50; ¼ lb., \$1.75

Succession. A sure-headed, long-keeping variety, very similar to All Seasons, but maturing a little later. Heads deep and very firm.

Pkt., .10; oz., .50; ¼ lb., \$1.75

Enkhuizen Glory. A new Holland cabbage which originated at a large seed farm at Enkhuizen, Holland. It is an early cabbage, but still of large size, solid and of the best quality. It is one of the largest early cabbages we have seen, and may be set out as late as the last of July or first of August in this latitude, and will make large, fine heads for late fall or

winter use. The great merit of this cabbage lies in the perfect uniformity of its growth. The plants are compact, and have few outside leaves, and can be planted close together, and will produce a very large crop. Pkt., .10; oz., .60; ¼ lb., \$2.00

CARROT

German,—Rhore.

French,—Carrotte.

Spanish,—Zanahoria.

One ounce will sow 100 feet of drill; 3 pounds required for an acre.

Carrots require a very finely pulverized soil to grow them to perfection. A good, light and well-enriched sandy loam is the best for this crop. For field culture, sow in drills 2½ feet apart, so as to cultivate by horse. Market gardeners sow in drills about 15 inches apart and cultivate by hand. For early crops cover ½ inch deep, and thin to 6 inches apart in the rows; for late, cover ¾ inch deep and thin to 4 inches.

Danvers Half-Long Carrot

PULVERIZED SHEEP MANURE is an excellent fertilizer for Gardens and Lawns. It is entirely free from weed seeds. Put up in 50 and 100 lb. bags.

Danvers Half-Long. One of the heaviest croppers; roots dark orange color, 8 to 10 inches in length, and ending in a somewhat abrupt point; first class for all soils. Pkt., .10; oz., .20; ¼ lb., .50

Oxheart, or Guerande. Roots short and very thick, and intermediate between Scarlet Horn and Chantenay; color deep orange; fine grained. Pkt., .10; oz., .20; ¼ lb., .50

Large White Belgian. Roots very large and smooth; grown exclusively for stock feeding. Grained. Pkt., .10; oz., .20; ¼ lb., .50

Improved Long Orange. The best known and most largely cultivated of any Carrot; excellent for stock or table use. Roots deep orange, 12 to 15 inches long. Pkt., .10; oz., .20; ¼ lb., .50

CAULIFLOWER

German,—Blumenkohl Spanish,—Coliflor
French,—Chou-fleur.

One ounce of seed will produce 1,500 to 2,000 plants if sown in open ground, or about 3,000 in frames.

To raise good Cauliflower there is nothing so essential to success as good seed. The best Cauliflower seed is very expensive, but it is worth to the grower ten times as much as cheap and carelessly grown seeds. The best results are obtained from using Snowball for main late crop, as well as for early use.

Early Cauliflower are difficult to raise and are not of the best quality, but when the plants are set out in July and the heads form in October, there is no difficulty in getting fine, large heads of first-class quality. The seed should be sown in open ground or, cold frames about the middle of May or first of June, on good soil. When plants are large enough, transplant to rich, moist soil. These remarks refer to Snowball for main late crop, as well as for early use.

Henderson's Early Snowball. This is undoubtedly the finest ever introduced. It is the earliest and produces beautiful snow white heads of the most delicious flavor. The seed we offer is pure and genuine, and sure to prove satisfactory. Pkt., .25; oz., \$2.50

Extra Selected Dwarf Early Erfurt. The finest strain of the Erfurt Cauliflower; almost as early as the Snowball; grows about 15 inches high; producing very solid, pure white heads of the very finest quality; seldom fails to form a good sized head. Pkt., .20; oz., \$2.50

All kinds of Insecticides, Spray Pumps, Power Sprayers, etc., always on hand. Call and examine or write for catalogue and prices.

CELERY

German,—Sellerie French,—Celeri Spanish,—Apio
One ounce will produce 3,000 plants

Sow seed the first or second week in April in hot-bed or cold frame. As soon as the plants have attained a height of three inches transplant, setting them four inches apart. As fall approaches draw earth up to the plants, keeping the stalks well together. When well blanched it is ready for use. Some of the varieties, such as Golden Self-Blanching and White Plume, may be blanched by simply placing a board 12 to 15

inches wide on edge on each side of the row.

Boston Market. The best and most popular sort for cultivation. Pkt., .10; oz., .50

Giant Pascal. A strong grower and wonderful keeper. Quality very fine. Pkt., .10; oz., .50

Golden Self-Blanching. A self-blanching early golden-colored variety that is very popular. Pkt., .10; oz., .75

White Plume. A variety that can be more easily grown than any other, as it does not require high banking to blanch the stalks. Simply earthing up enough to keep the stalks together or by passing a string around each plant is sufficient. Pkt., .10; oz., .50

CORN—Sugar

German,—Welfchkorn French,—Mais
Spanish,—Maiz

One Half Pound will plant 50 hills; 12 Pounds will plant one acre in hills.

Corn requires a good soil and a warm situation. Commence for first early by planting the early varieties about May 1, and if a continuous supply is wanted all summer, make plantings about two weeks apart from May 1 until the last of July, first planting early varieties, then later ones. Plant in rows 3 feet apart, and make the hills about the same distance apart in the rows. Five kernels in the hills are plenty. Cover about 1 inch deep for early and a little deeper for late. Thin to 3 plants in a hill. Add 6 cents per lb. and for each additional lb. to the same address add 1c, if to be sent by mail.

Crosby's Early

Crosby's Early. An early corn of large size and choice quality. It has long been a standard variety. Lb., .30; 2 lbs., .50; 12 lbs., \$3.50

Early Red Cory. This variety is the favorite for first early. Lb., .25; 2 lbs., .40; 12 lbs., \$2.75

White Cob Cory. This is an improvement over the Early Cory as the cob is white which gives it a finer appearance. It is as early as the Early Cory and of excellent quality. Lb., .25; 2 lbs., .40; 12 lbs., \$2.75

Stowell's Evergreen. The best late corn for all purposes. It has been a leader for many years as a main crop variety and is unexcelled as a market corn.

Lb., .25; 2 lbs., .40; 12 lbs., \$2.75

Country Gentleman. This is the finest of the medium late varieties. The rows are zig-zag with long slender kernels of delicious flavor.

Lb., .30; 2 lbs., .50; 12 lbs., \$3.50

Black Mexican. This corn when in condition for the table cooks remarkably white; but the ripe grain is black or bluish-black. It is unsurpassed by none in tenderness. Lb., .25; 12 lbs., .40; 12 lbs., \$2.75

Golden Bantam. The fact that the grains of this variety are yellow is an indication of hardness and its value for early planting and early maturity. It is a rapid grower, and produces ears measuring about 5 inches, but the smallness of ears is fully made up by the deliciously sweet flavor and tender quality of the corn when cooked. It is a fine variety for the home garden.

Lb., .30; 2 lbs., .50; 12 lbs., \$3.50

FIELD AND FODDER CORN

Prices will be quoted on application on the following corns. Please give the amount desired as well as the kind in all cases.

Southern White. A white variety that no silo owner or dairy farmer should overlook. It grows 12 to 16 feet high; has broad foliage and tender stocks. There is no better fodder to keep up the flow of milk during hot weather when the grass is burned up. Heavy cropper.

Leaming. An early, very heavy, long-eared corn. Grows to medium height with large amount of foliage. One of the best ensilage corns very much relished by stock. Cob red, grain yellow.

Red Cob. A very large-growing white dent corn, with red cob. Fodder sweet, juicy and tender. Very popular in northern dairy districts.

Sanford. A well-known variety, adapted to the whole of New England. Kernels silvery white flint

HASKELL'S PRIZETAKER CORN. This corn has fully maintained its past record as being the very best flint corn grown. This corn showed a test of 12.2 per cent. protein, 5.51 fat and 78.56 carbohydrates, which makes it the highest test corn from a good food value of any of the known flints or dents. On a recent test of this corn, 70 pounds of ears made 63 pounds of shelled corn. This makes an exceptionally fine corn for an ensilage corn as it grows when planted for ensilage very rank, being 10 or 12 feet tall, and the stalks are very fine grain, making a much more profitable corn for ensilage than any of the dent varieties. We have this corn both on the cob and shelled.

Golden Bantam

color; large and broad. An excellent fodder and ensilage corn.

Eureka. One of the tallest and best ensilage corn grown. Grows very tall and is very productive of ears and leaves. For the silo this corn is rarely equalled.

Early Canada. An eight-rowed, yellow flint variety with small cob and deep grain. This is one of the earliest and best and seldom fails to produce a crop. The Early Canada seed we have to offer was grown in this State.

**Haskell's
Prizetaker
Corn**

CHERVIL

One ounce will sow about 300 feet of drill.

Cultivated like parsley. Sow thickly in May, in drills half an inch deep, one foot apart. Use while the leaves are young and tender.

Curled Chervil. The young leaves are used for garnishing, and flavoring soups.

Pkt., .05; oz., .15; $\frac{1}{4}$ lb., .35

CRESS OR PEPPERGRASS

German,—Areffe.

French,—Cresson

Spanish,—Masuerzo

One ounce will sow 16 square feet, or 150 feet of drill.

A popular salad, which should be sown early in the spring—very thickly in shallow drills—and at short intervals, for success, as it soon runs to seed.

Extra Curled. A small plant, having a fine pungent flavor, and used as a salad; may be cut two or three times.

Pkt., .05; oz., .15; $\frac{1}{4}$ lb., .35

True Water Cress. Grows along the banks of ponds and streams, and is easily introduced, wholly unlike **Extra Curled**; leaves are quite large and thick; a fine salad, sold in immense quantities in the large markets in spring.

Pkt., .10; oz., .40; $\frac{1}{4}$ lb., \$1.25

CUCUMBER

German,—Gurfe

French,—Concombre

Spanish,—Pepino

One ounce will plant 50 hills; 2 pounds will plant an acre.

Culture.—For earliest use, sow the seed in the hot-bed or greenhouse in February or March, in warm loam, where the temperature is about 90 degrees. Cover half an inch deep, and when the plants are of fair size transplant into hills (made in the greenhouse) four plants in a hill, so that when the weather permits the whole hill can be moved to the open

ground by means of tins made for that purpose. Plant for general use in the open ground about June 1, in hills 6 feet each way, and thin to three plants in a hill. Fine old manure (about six cords per acre) is sufficient; or, better still, plant on land from which a crop has been taken, and which was heavily manured for that crop.

Davis Perfect. As now selected, this popular new variety is well worthy of praise. The long, even fruits are of fine form, with an intensely dark rich green skin. With very few seeds the solid white flesh is of superb quality for slicing. So handsome and regular are the fruits that they bring an extra price on market—often being taken for "hot-house grown." The vines are of strong growth and quite prolific.

Pkt., .05; oz., .15; $\frac{1}{4}$ lb., .45

Extra Early Russian. Earliest variety known; hardy and productive. Fruit very small and quality fine for pickling and slicing.

Pkt., .05; oz., .15; $\frac{1}{4}$ lb., .45

Early Cluster. Fruit borne in pairs; light green; a great bearer.

Pkt., .05; oz., .15; $\frac{1}{4}$ lb., .45

Early Frame or Short Green. An excellent sort, both for table use and for pickling. Plants very vigorous and productive. Fruit straight, a little smaller at the end, bright green, lighter at the blossom end. Comes into use a little later than the **Early Cluster** and keeps green a long time. Our stock is very superior.

Pkt., .05; oz., .15; $\frac{1}{4}$ lb., .45

Boston Pickling. Fruit short, smooth and pointed at each end, bright green and a great yielder; one of the best pickling.

Pkt., .05; oz., .15; $\frac{1}{4}$ lb., .45

White Spine Improved. The most popular strain of **White Spine**, and for general out-door culture, the best.

Pkt., .05; oz., .15; $\frac{1}{4}$ lb., .45

Long Green Improved. Fine for pickling when small; good for table use when about half grown.

Pkt., .05; oz., .15; $\frac{1}{4}$ lb., .45

White Spine Cucumber

Japanese Climbing. Vines are extra strong and foliage much more vigorous than other kinds, and being a climbing sort, can be grown on trellises, etc., saving much valuable space in small gardens. It is very prolific, from forty to fifty cucumbers having been counted on single plants. Fruit cylindrical, about ten inches long, thick and of fine flavor.

Pkt., .05; oz., .15; $\frac{1}{4}$ lb., .50

DANDELION

German,—Lowenzahn. French,—Pissenlit.

Spanish,—Amargon.

One ounce will sow 100 feet of drill.

The Dandelion resembles endive, and affords one of the earliest as well as one of the most healthful spring greens. Sow as early as the weather will permit, in good, well-enriched soil, in rows 12 inches apart, covering seed $\frac{1}{4}$ of an inch deep, and firming the soil well over them. Thin to two or three inches apart in the rows; by so doing the roots will be larger and a great amount of time will be saved the next spring in trimming or gathering the crop. One pound per acre is sufficient.

Improved Thick-Leaved. Cultivate for spring greens; an immense improvement on the common dandelion, both in size and thickness of its leaves and fine flavor, being far less bitter.

Pkt., .10; oz., .75; $\frac{1}{4}$ lb., \$2.50

EGGPLANT

German,—Gierpanze. French,—Aubergine.

Spanish,—Berengena.

The Eggplant will thrive well in any good garden soil, but will repay good treatment. The seeds should be sown in hotbed or warm greenhouse in March or April, and when about an inch high potted in two-inch pots. Plant about June 1, two and one-half feet apart.

New York Improved Purple. The leading market variety, and undoubtedly the best for size, quality and productiveness.

Pkt., .10; oz., .60

ENDIVE

German,—Gendive. French,—Chicoree.

Spanish,—Endivia.

One of the most refreshing and attractive of all autumn and winter salads. Sow seed from the middle of June until the end of August.

Endive

Green Curled. Beautifully curled, tender and crisp.

Pkt., .05; oz., .20; $\frac{1}{4}$ lb., .75

Moss Curled. More finely curled, and a heavier and more dense plant than Green Curled.

Pkt., .05; oz., .20; $\frac{1}{4}$ lb., .75

Broad-leaved Batavian (Escarolie). This variety is chiefly used in soups and stews; requires to be tied up in blanching.

Pkt., .05; oz., .20; $\frac{1}{4}$ lb., .75

Kale

KALE OR BORECOLE

German,—Blatter-Kohl. French,—Chou Vert.

Spanish,—Breton.

One ounce will produce 3,000 plants.

Sow from the middle of April to the beginning of May in prepared beds; transplant in June, and treat in the same manner as for cabbage. Of all the cabbage tribe this is the most tender and delicate. The varieties are all extremely hardy, and are best when touched by frost.

Dwarf German Purple, or Brown Curled. Very hardy and of fine quality; so handsome that it is frequently grown for ornament.

Pkt., .05; oz., .15; $\frac{1}{4}$ lb., .40

Dwarf Green Curled Scotch. Rarely exceeding 18 inches in height, but spreading out under good cultivation to 3 feet in diameter; leaves beautifully curled and bright green.

Pkt., .05; oz., .15; $\frac{1}{4}$ lb., .40

KOHL RABI

German,—Rohl-Rab. French,—Chou-Rave.

Spanish,—Col de nabo.

One ounce will sow 200 feet of drill.

This vegetable, the popularity of which is rapidly increasing, combines the virtues of the turnip and cabbage, but excels both in nutritive, hardy and productive qualities. The seed may be sown in June in rows 18 inches apart, and the plants thinned out to eight or ten inches in the rows.

Early White Vienna. Best for general table use; flesh tender and white.

Pkt., .05; oz., .25; $\frac{1}{4}$ lb., .60

Purple Vienna. A little later than the White; color bluish purple. Pkt., .05; oz., .25; ¼ lb., .60

Large Green or White. Good for table and also for feeding stock. Pkt., .05; oz., .25; ¼ lb., .60

LEEK

German,—Lanch.

French,—Poireau.

Spanish,—Puerro.

One ounce will plant 200 feet of drill.

The leek is very hardy and easily cultivated; it succeeds best in a light but well-enriched soil. Sow as early in the spring as practical in drills one inch deep and one foot apart. When six or eight inches high they may be transplanted in rows ten inches apart each way as deep as possible, that the neck, being covered, may be blanched.

London Flag. Very popular with market gardeners.

Pkt., .10; oz., .25; ¼ lb., .75

American Flag.

Pkt., .10; oz., .25; ¼ lb., .75

LETTUCE

German,—Lattich.

French,—Laitue.

Spanish,—Lechnga.

One ounce will sow 120 feet of drill.

Requires a rich, moist soil, and to be crisp and tender needs to be grown in cool weather. For winter use, sow in hotbeds every two weeks, at the rate of one ounce of seed to four sashes (a sash is three feet long by six feet wide); cover very lightly, and transplant, first to three inches apart each way, afterward to eight inches. For garden or field, sow in rows, and cover one-fourth of an inch deep and thin out to 12 inches apart in the rows. For New England the White Seeded Tennisball for cultivation under glass, and the Black Seeded Tennisball for outdoor use are the Standard varieties.

Big Boston. A most desirable variety, either for forcing in cold frames or open ground planting; always produces large, solid, saleable ends.

Pkt., .05; oz., .15; ¼ lb., .40

Boston Curled. Of ordinary quality but great beauty; highly ornamental in growth with its frilled leaves.

Pkt., .05; oz., .15; ¼ lb., .40

Prize-Head Early. Leaves green and red, very thin, crisp and tender; one of the best for private use.

Pkt., .05; oz., .15; ¼ lb., .40

Tennisball Black-Seeded. A very popular sort for open-ground culture; forms a handsome head, and is crisp and tender.

Pkt., .05; oz., .15; ¼ lb., .40

Tennisball, White-Seeded. Extensively grown for forcing and heading under glass; heads firm and good. Crisp.

Pkt., .05; oz., .15; ¼ lb., .40

Simpson Early Curled (White Seed). A leading early sort for forcing or open ground.

Pkt., .05; oz., .15; ¼ lb., .40

Tomhannock. A variety with upright leaves, beautifully wrinkled, edges of outer leaves have reddish tinge; one of the best.

Pkt., .05; oz., .15; ¼ lb., .40

Boston Market. One of the best for forcing under glass, as well as for outside use; forms fair-sized heads, edge of leaves slightly tinged with red.

Pkt., .05; oz., .15; ¼ lb., .40

May King. Probably the finest all-seasons lettuce yet introduced. It is very early and hardy, and will stand cold, damp weather better than many varieties. Planted out of doors or under glass it will produce fine solid heads much sooner than any other variety. Outer leaves are yellowish green, tinged with brown, while the inside is a rich yellow.

Pkt., .05; oz., .15; ¼ lb., .40

May King

Grand Rapids. An excellent forcing variety with loose heads and of good size and form.

Pkt., .05; oz., .15; ¼ lb., .40

Brown Dutch. Leaves large, thick, green, tinged with brown; forms large, solid heads; exceedingly hardy.

Pkt., .05; oz., .15; ¼ lb., .40

Hanson. Large, solid heads; tender, crisp, and of a fine flavor.

Pkt., .05; oz., .15; ¼ lb., .40

White Paris Cos. Has long, narrow, upright leaves; does not head, but when tied up blanches very nicely.

Pkt., .05; oz., .15; ¼ lb., .40

MELON, MUSK

German,—Melone.

Spanish,—Melon.

French,—Melon

One ounce will plant about 50 hills; (2 to 3 pounds in hills) per acre.

Melons thrive best in a light, rich soil. Plant early in May, when the ground has become warm and dry, in hills six feet apart each way for Muskmelons; eight feet for Watermelons. Previous to sowing the seed mix a few shovelfuls of well-rotted manure in each hill, and plant in each twelve to fifteen seeds; after all danger of bugs is over, thin out to three plants per hill. When about one foot long, pinch off the tips to make them branch, as it strengthens the growth of the vines and makes the fruit mature earlier. Feed liquid manure occasionally. A few hills for early use may be had by sowing on pieces of sod in a hotbed, and when warm enough transplant to open ground.

Musk Melon

Emerald Gem Melon. The Emerald Gem is entirely unlike any other muskmelon yet introduced. The melons are about the size of the Netted Gem but unlike that variety, the skin while ribbed, is perfectly smooth, and of a very deep emerald green color. The flesh which is thicker than any other native melon of the same size, is of a suffused salmon color, and ripens thoroughly to the thin green rind, which is distinctly defined. The flesh is peculiarly crystalline in appearance, and so very juicy, sweet and rich that it almost drops to pieces. It matures very early and is quite productive. Pkt., .05; oz., .15; ¼ lb., .50

Rocky Ford. This new Muskmelon is similar to the oval strain of Netted Gem. The strain here offered originated with the melon growers in the vicinity of Rocky Ford, Col., who have shipped this melon from that distant Western point to eastern markets. The melons grown by them are so fine in quality as to out-sell all others, and the demand for such melons has been far beyond the supply.

Pkt., .05; oz., .15; ¼ lb., .50

Long Yellow Musk. A long, large melon of peculiar musky flavor; a rich, yellow color, both inside and out.

Pkt., .05; oz., .15; ¼ lb., .50

Early Hackensack. An improvement over the old Hackensack, producing melons of as good quality and ten days earlier. Large fruit, with thick, green flesh of the finest flavor. Pkt., .05; oz., .15; ¼ lb., .50

MELON, WATER

German,—Waffermelone.

Spanish,—Zandia.

French,—Melon d'Eau.

One ounce will plant 50 hills.

Prices on all varieties of Watermelons as follows: .05 per pkt.; .10 per oz.; ¼ lb., .25.

Citron for Preserves. The old and well-known Preserving Citron; seeds red.

New Florida Favorite. An improvement on the old Florida Favorite, growing to double the size and more prolific. Its perfect shape, bright red crisp flesh, and delicious flavor, make it one of the best melons grown.

Phinney's Early. This is another very early melon, earlier than the preceding; it is hardy and a sure cropper and extensively cultivated in the North.

Peerless or Ice Cream. Very early; flesh firm and sugary.

Cuban Queen. Very productive; flesh bright red, very solid, crispy and sugary.

MUSTARD

German,—Senf.

French,—Moutarde.

Spanish,—Mostaza.

One ounce will sow 75 feet of drill.

As an ingredient, the green Mustard imparts a delightfully pungent flavor to the various forms of prepared salads. For early crops the seed may be sown in a hotbed in March, and for general crop at frequent intervals through the spring, in drills from eight to twelve inches apart.

White London. Considered the best for salads and spinach; leaves light green. It is best when about four inches high. Pkt., .05; oz., .10; ¼ lb., .15

Brown or Black. Pkt., .05; oz., 10; ¼ lb., .15

ONION

Select the cleanest, richest land on the farm for the Onion crop. If Onions are grown on the land the previous year, so much the better, but any good corn or potato land will do. Broadcast fifteen to twenty cords of fine, well-rotted manure to the acre and plow not deeper than six inches; harrow thoroughly, cross plow, and harrow again, after which hand rake with wood rake and remove stones and rubbish. Sow four

to five pounds of seed per acre in drills twelve to fourteen inches apart and about one-half inch deep. See that the Seed Drill is equipped with a good roller, that will press the earth firmly upon the seed. Sow as early in the spring as the ground can be properly worked. There is seldom necessity for thinning Onions if the land has been properly manured and seeded. After the Onions are three to four inches high, an application of about five hundred pounds to the acre of fertilizer, rich in available nitrogen, strewn between the rows, will be very beneficial. Keep the Onions growing by never allowing the weeds to get ahead and the acre should produce in a good average season, five hundred to seven hundred bushels. When the tops are down, the Onions may be pulled and left on the ground, and should be frequently turned with a wooden rake until tops are dried.

Yellow Globe Danvers

Yellow Globe Danvers. Undoubtedly the best known and most popular of all onions; the earliest yellow variety; is entirely free from stiff necks. Globular in shape; has a small top. It is the most productive onion grown. Pkt., .10; oz., .40; ¼ lb., \$1.25

Large Red Wethersfield. We have a very fine and select strain of this sort. Color is deep purplish red, flesh white, moderately grained and very firm. Yields enormously and is one of the best winter keeping onions. Pkt., .10; oz., .40; ¼ lb., \$1.25

White Portugal, or Silverskin. A large flat, white onion of mild and pleasant flavor; hard and fine grained, and a good keeper. Extensively sown for sets, and is also largely grown for pickling. Pkt., .10; oz., .40; ¼ lb., \$1.25

Southport Red Globe. The onions from Southport, Ct., generally command an extra price in New York markets, because of their beautiful shape and color, due partly to the variety grown and partly to the favorable soil and the extra care taken in handling the crop. Pkt., .10; oz., .40; ¼ lb., \$1.25

Prize-Taker. A Globe-shaped variety of delicate straw color, growing to a very large size. It ripens up hard and firm, the flesh being pure white. Fine grained and of fine, mild, delicate flavor.

Pkt., .10; oz., .40; ¼ lb., \$1.25

ONION SETS

Potato Onion Sets	lb., .30; 8 lbs., \$1.75
Red Bottom Sets	lb., .30; 8 lbs., 1.75
White Bottom Sets	lb., .30; 8 lbs., 1.75
Yellow Bottom Sets	lb., .30; 8 lbs., 1.75
Top Sets	lb., .30; 8 lbs., 1.75

Onion Sets should be planted as early in the spring as convenient to obtain nearly green onions, but they may be set at any time up to June 1. Set in rows a foot apart, and three to four inches between them in the row. Any good soil will suit them. When grown in quantities, high cultivation is given in order to forward the crop for an early market. They are ready for use as soon as the bulbs begin to be of fair size. Those not used in green condition will ripen early in July and make nice onions. Potato and Top onions are grown from bulbs only.

Moss Curled

PARSLEY

German,—Peterfile.

French,—Persil.

Spanish,—Perejil.

One ounce for 150 feet of drill.

Parsley succeeds best in rich, mellow soil. As the seed germinates very slowly, it should be sown early in spring, previously soaking the seed for a few hours in tepid water. Sow thickly in rows a foot apart and half an inch deep.

Champion Moss Curled. The standard variety.

Pkt., .05; oz., .15; ¼ lb., .35

Buy one of our Garden Seeders. You can save the price of it in one season in time and seed. It is the most economical of seeders made. Send for catalog and prices.

German,—Erbren.

PEAS

French,—Pois.

Spanish,—Guizante.

One pound for 50 feet of drill; one to two bushels in drills for an acre.

Peas come earliest to maturity in light, rich soil. For general crop, a deep loam or a soil strongly inclining to clay is best. For early crops decomposed leaves or leaf-mold should be used; or, if the soil is very poor, strong manure may be used. For general crops a good dressing should be applied, and for the dwarf-growing kinds the soil can hardly be too rich.

Sutton's Excelsior

When grown as a market crop, peas are never staked; for private use they are generally sown in double rows, and the tall varieties staked up by brush. For an early crop sow as soon as the ground can be worked, and make repeated sowings every two weeks for succession. After the first of June sowing should be discontinued until the middle of August, when a good crop may sometimes be secured by sowing an extra-early sort for fall use.

If sent by mail add .06 per lb.; and for each additional lb. to same address add .01.

All marked thus (*) indicate wrinkled varieties.

Extra Early Dwarf Varieties

***Bliss American Wonder.** An old variety, but still highly prized for its flavor and quality. Of dwarf, robust habit, growing twelve to fifteen inches in height, and bearing an abundance of good-sized, well filled pods.

Lb., .45; 2 lbs., .85

***Sutton's Excelsior.** Ripens early on vines fourteen to sixteen inches high, covered with a great abundance of long, straight broad pods of a pale green color.

Price

Lb., .45; 2 lbs., .85

***Nott's Excelsior.** This is the earliest dwarf wrinkled pea. The plant is dwarf and needs no support. The pods are of good size and well filled with large peas of the finest quality. It is as early as the American Wonder, while the vines are much more productive and the pods of larger size. There is no better early dwarf pea. Fifteen inches.

Lb., .45; 2 lbs., .85

***Laxtonian.** One of the best dwarf wrinkled peas for the market gardener. Pods about 4 inches long, resembling those of Gradus, but ripening a little earlier. Vines productive and vigorous; average height less than 18 inches.

Lb., .45; 2 lbs., .85; 14 lbs., \$5.00

***Pioneer.** An improvement on the popular Laxtonian. Vines about 20 inches high; color, light green. Vigorous growth. The pods pointed and a little darker in color than the vine. Considered fully four days earlier than Laxtonian.

Lb., .45; 2 lbs., .85; 14 lbs., \$5.00

Extra Early Variety Not Dwarf

Alaska. An extra early round pea bearing pods of a dark green color; two feet.

Lb., .40; 2 lbs., .75; 14 lbs., \$5.00

***Gradus, or Prosperity.** It combines the finest quality with extreme earliness, and is also productive, bearing pods fully as large as Telephone. The color of the shelled peas is a beautiful light green, which color they retain after being cooked; the quality and flavor are delicious, and the peas remain tender and sweet for a long time.

Lb., .45; 2 lbs., .85

Thomas Laxton

PEAS (Continued)

***Thomas Laxton.** One of the very best of the tall growing, large pod, early peas. The plant is a very hardy and strong grower, producing extra large pods in abundance. The quality is delicious, and cannot be surpassed by any other variety. The "Thomas Laxton" will mature nearly as early as any of the extra early smooth peas, and being a wrinkled sort is much sweeter. **Lb., .45; 2 lbs., .85**

***Early Morn.** One of the earliest and most productive. The pods are very large and well filled. Very fine flavor. **Lb., .45; 2 lbs., .85**

Second Early Varieties

***Heroine.** One of the very best late kinds. Very long pods well filled with deliciously sweet dark green peas. Two feet. **Lb., .45; 2 lbs., .85**

***Telephone.** A pea of the finest quality, sweet and delicious. Medium late, growing four feet tall with pods of the largest size. **Lb., .45; 2 lbs., .85**

***Yorkshire Hero.** Bears large, well filled pods on stocky, vigorous vines. A first-class late pea. Two feet. **Lb., .45; 2 lbs., .85**

***Bliss Everbearing.** Medium late and very productive. Two feet tall. **Lb., .45; 2 lbs., .85; 14 lbs., \$5.00**

***Dwarf Champion.** Possesses all the merits of the reliable Champion of England. A hardy, robust grower, producing dark green pods of good size and in great abundance. Quality excellent. **Lb., .45; 2 lbs., .85**

***Dwarf Telephone (Carter's Daisy).** Similar to the Tall Telephone except in the height of the vine, which is only about two feet. **Lb., .45; 2 lbs., .85**

***Admiral Dewey.** An enormous cropper; peas very large and sweet. **Lb., .45; 2 lbs., .85**

Late Variety for General Crop

***Champion of England.** The standard for quality. Grows four feet tall, very prolific, and still one of the best late peas. **Lb., .45; 2 lbs., .85**

White Marrowfat. A good late sort. Cultivated very extensively for the summer crop. **Lb., .25; 2 lbs., .45; 15 lbs., \$2.40**

Black-Eyed Marrowfat. An old and standard late variety for garden or field use. **Lb., .25; 2 lbs., .45; 15 lbs., \$2.40**

Canada Field. Seeds small white; for field culture only; largely used for sowing among oats. Price on application.

PEPPER

German,—Pfeffer. French,—Piment. Spanish,—Pimiento.

One ounce will produce 2,000 plants.

Grown largely for pickles. Sow in hotbeds early in April, and transplant to the open ground when the weather is favorable. They should be planted in warm, mellow soil in rows 18 inches apart. They may also be sown in the open ground when danger of frost is past.

Large Bell, or Bull Nose. A favorite and well-known pickling sort. Is early, large, mild and thick skinned. **Pkt., .10; oz., .40**

Long Red Cayenne. A small, long, bright red sort, very productive; extremely strong and pungent. **Pkt., .10; oz., .50**

PUMPKIN

German,—Kurbis. French,—Poitron.

One ounce will plant 20 hills.

Spanish Cabbage

Pumpkins are grown chiefly as food for stock. The usual method of planting is to scatter a few seeds at intervals in the hills when planting Indian corn; in this way good crops of pumpkins are secured with slight labor and expense, and make a valuable addition to the season's crops.

Connecticut Field. The common yellow pumpkin, grown chiefly for feeding stock. **Pkg., .05; oz., .10; ¼ lb., .30; lb., \$1.00**

Large Cheese or Kentucky Field. A most popular variety. Fruit flattened, the diameter being two or three times more than the length. **Pkg., .05; oz., .10; ¼ lb., .30; lb., \$1.00**

Sweet or Sugar. A small variety, fine-grained and sweet; the best for table use. **Pkg., .05; oz., .10; ¼ lb., .30; lb., \$1.00**

PARSNIP

German,—Pastinake. French,—Panais. Spanish,—Pastinaca.

One oz. for 150 feet of drill; five pounds in drills for an acre.

Sow in drills as early in spring as the weather will admit, fifteen inches apart, covering half an inch deep. When well up thin out to five or six inches apart in the rows. Unlike carrots, they are improved by frost, and it is usual to take up in the fall a certain quantity for winter use, leaving the rest in the ground till spring, to be dug as required.

Prices on all varieties of parsnips as follows:

Pkts., .05; oz., .15; ¼ lb., .50; prices in quantity on application.

Abbott's Improved Hollow Crown. Smooth and quite large; fine sort.

Guernsey. Roots not quite so long as Hollow Crown, but of greater diameter and more easily gathered.

Long Smooth. As name implies, very smooth, free from roots, and a general favorite.

RADISH

German,—Rettig. Rabies Spanish,—Rabano.

French,—Radis, Rave, Petite Rave.

One ounce will sow 100 feet of drill.

Culture. The soil for Radishes should be very rich, light and mellow, well broken by digging as their tender and mild qualities depend very much upon their rapid growth. For very early use sow in hotbeds in February and March and in the open air as soon as the ground can be worked, at intervals of ten or twelve days for a succession as long as they may be wanted. The winter varieties should be sown in August, lifted before severe frost, and stored in the cellar.

Early Scarlet Turnip Radish

French Breakfast. Olive-shaped scarlet, with white tip; crisp and tender. Very early. A general favorite.

Pkt., .05; oz., .15; ¼ lb., .45; lb., \$1.50

Early Scarlet Turnip. A well known and popular variety. Small top of quick growth, mild and crisp.

Pkt., .05; oz., .15; ¼ lb., .45; lb., \$1.50

Non Plus Ultra. One of the earliest forcing radishes, being ready for the table in three weeks from planting. Roots round and bright scarlet, crisp and delicate.

Pkt., .05; oz., .15; ¼ lb., .45; lb., \$1.50

China Rose. Bright rose-colored skin; flesh white and quality excellent; one of the best for fall and winter use.

Pkt., .05; oz., .15; ¼ lb., .45; lb., \$1.50

Long White Vienna. Of rapid growth and beautiful shape; skin and flesh snow-white. The finest of long white radishes.

Pkt., .05; oz., .15; ¼ lb., .45; lb., \$1.50

Long Black Spanish. Long black, flesh white and slightly pungent; one of the latest and hardest.

Pkt., .05; oz., .15; ¼ lb., .45; lb., \$1.50

Round Black Spanish. Skin black, white fleshed and piquant flavor.

Pkt., .05; oz., .15; ¼ lb., .45; lb., \$1.50

Vick's Scarlet Globe Radish. A leader among bright round Red Radishes. Quick maturing, extremely attractive, short tops, solid and fine flavor.

Pkt., .05; oz., .15; ¼ lb., .45; lb., \$1.50

Early Scarlet Turnip, White Tipped. One of the handsomest of the turnip radishes and a great favorite in many large markets for early planting outdoors. Roots slightly flattened on the under side; color, very deep scarlet with a white tip; flesh white and of the best quality.

Pkt., .05; oz., .15; ¼ lb., .45; lb., \$1.50

Crimson Giant Forcing. Best of forcing sorts. Grown larger than other turnip shaped varieties and fine eating.

Pkt., .05; oz., .15; ¼ lb., .45; lb., \$1.50

Long Scarlet. Short top. The standard variety of the long sorts, used either for forcing or open culture; six or seven inches long.

Pkt., .05; oz., .15; ¼ lb., .45; lb., \$1.50

Chartier. Decidedly distinct in appearance from any radish in cultivation. The color at the top being crimson, running into pink about the middle, and from thence downward it is a pure waxy white. It will attain a very large size before it becomes unfit for the table.

Pkt., .05; oz., .15; ¼ lb., .45; lb., \$1.50

SALSIFY OR OYSTER PLANT

German,—Bocksbart.

French,—Salsifis.

Spanish,—Ostra vegetal.

One ounce will sow 50 feet of drill.

Culture. Sow the seed in light, deep soil, early in the spring, in drills twelve inches apart and one inch deep, thinning out the young plants to four or five inches. The roots will be ready for use in October, when a supply should be taken up and stored, like carrots. Those remaining till spring should be dug up before commencing their growth.

Mammoth Sandwich Island. We consider this the largest and most profitable salsify in cultivation. It is pure white in color and invaluable to market gardeners.

Pkt., .05; oz., .25; ¼ lb., .75

SUNFLOWER

Mammoth Russian. The standard large-growing variety, which is used largely for feeding poultry.

Pkt., .05; ¼ lb., .15; lb., .40

German,—Spinat. **SPINACH** French,—Espinard.
Spanish,—Espinaca.

One ounce for 100 feet of drill; 10 to 12 pounds in drills for an acre.

This is a very important crop in our market gardens, and is one of the most easily managed of all vegetables, requiring but little culture, and may be had fit for use the entire season. The main crop is sown in September. It is sometimes covered up in exposed places with straw or salt hay during winter, which prevents it from being cut with frost; but in sheltered fields there is no necessity for covering. For summer use it may be sown at intervals of two or three weeks from April to August. Spinach is best developed and most tender when grown in rich soil.

Prices on all varieties as follows:

Pkt., .05; oz., .10; ¼ lb., .30; lb., \$1.00

Spinach

Giant Thick Leaf. This variety gives the best results. The leaves are large, thick and somewhat crumpled, and it is equally good for spring or autumn sowing.

New Zealand. A valuable variety for the garden as it produces the thick, tender leaves throughout the summer. Grows very large and luxuriantly in warm, rich soil.

Long Standing Thick Leaved. Stands longest before running to seed; dark green.

TOMATO

German,—Liebsapfel. Spanish,—Tomate.

In this latitude to produce extra early tomatoes the seed should be planted in the hotbed about the middle of February, in drills five inches apart, and not over one-half inch deep. When the plants are two inches high they should be transplanted three to four inches apart. The final transplanting to the open ground may be made the last of May, when the plants should be fine, large and stocky, and if sufficient soil is taken up with each plant, they will keep right on growing with no setback.

For ordinary plants, sow the seed early in March, and transplant, once in the hotbed and from hotbed into cold frames about four inches apart. The last of May they will be ready for the open ground where the Dwarf varieties should be planted 3¼ feet apart and the spreading varieties 4 to 4½ feet apart.

Earliana. It is remarkable for its earliness, very large size, handsome shape and bright red color. Its solidity and fine qualities are equal to the best medium and late sorts. Pkt., .05; oz., .30; ¼ lb., \$1.25

Dwarf Champion

Dwarf Champion. Dwarf and strong habit of growth; very solid and of extra quality.

Pkt., .05; oz., .30; ¼ lb., \$1.00

Livingston's Favorite. Smoother than the Paragon, is a darker red than the Perfection; ripens evenly, and is as early as any good variety.

Pkt., .05; oz., .30; ¼ lb., \$1.00

Livingston's Beauty. Very glossy, crimson in color, slight tinge of purple; early; free from rot; skin tough, bears handling remarkably well.

Pkt., .05; oz., .30; ¼ lb., \$1.00

Ponderosa. Very large, solid and of a good flavor. Specimens have been grown to weigh four pounds. Bright red. Very few seeds.

Pkt., .05; oz., .30; ¼ lb., \$1.00

Stone. Fruit very large and deep; bright scarlet, smooth, ripening evenly to the stem without a crack; exceedingly solid and firm-fleshed, of the finest quality; one of the best for family use and for canneries. Late.

Pkt., .05; oz., .30; ¼ lb., \$1.00

Chalk's Early Jewel. This is a very productive variety. Ripens nearly as early as Spark's Earliana, but is more desirable for home use as the fruits are thicker through and more solid; borne in large clusters. Color bright scarlet and quality good.

Pkt., .05; oz., .30; ¼ lb., \$1.00

June Pink. An early variety, similar in habit to the famous Earliana, differing only in its color, which is pink instead of red. Early, blight resisting, long and heavy yielding. An excellent shipper on account of its reasonably tough skin.

Pkt., .05; oz., .30; ¼ lb., \$1.00

Matchless. Very large, smooth, solid and fine flavor. Cardinal red.

Pkt., .05; oz., .30; ¼ lb., \$1.00

SQUASH

German,—Kurbiss. French,—Courage. Spanish,—Calabaza.

One ounce Early will plant 50 hills; one ounce Marrow, 25 hills.

Culture. The plants are very tender and sensitive to cold, and planting must be delayed until settled warm weather. The general principles of culture are the same as those given for cucumbers and melons, but the plants are less particular as to soil. The summer varieties should be planted four feet apart each way, and the winter sorts eight feet. Three plants are sufficient for a hill. Care should be taken not to break the stems from the squashes intended for winter use, as the slightest injury will increase the liability to decay.

Improved Hubbard. The well-known and standard late variety; our strain is excellent.

Pkt., .05; oz., .15; ¼ lb., 50; lb., \$1.50

Golden Hubbard. A genuine Hubbard Squash except in color, which is a bright red, quality excellent.

Pkt., .05; oz., .15; ¼ lb., 50; lb., \$1.50

Warted Hubbard. A superior strain of mammoth size, and entirely covered with warty excrescences. Rich, dark-green color, and of very best quality.

Pkt., .05; oz., .15; ¼ lb., 50; lb., \$1.50

Giant Summer Crookneck. Double the size of an ordinary Crookneck and very warty, but similar in

other respects. Their handsome appearance commands an extra price in the market.

Pkt., .05; oz., .15; ¼ lb., 50; lb., \$1.50

Winter Crookneck. An excellent keeping Crookneck variety, lasting several months. Yellow skin, and a well-known squash.

Pkt., .05; oz., .15; ¼ lb., 50; lb., \$1.50

Delicious. We have found in this squash all that the originator claims for it. It is the driest, sweetest and finest flavored squash we have ever tasted. A fall and winter squash and is a good keeper.

Pkt., .05; oz., .15; ¼ lb., .50; lb., \$1.50

Boston Marrow. Fine fall variety; oval bright orange; flesh yellow and firm; best for pies, and also for canning. Pkt., .05; oz., .15; ¼ lb., .50; lb., \$1.50

Early White Bush Scalloped. A standard summer variety; good either for home or market garden.

Pkt., .05; oz., .15; ¼ lb., 50; lb., \$1.50

Essex Hybrid or Hard-Shelled Turban. A standard winter sort; flesh a trifle darker than the Hubbard; an excellent keeper.

Pkt., .05; oz., .15; ¼ lb., .50; lb., \$1.50

TOBACCO

Connecticut Seed Leaf. Best adapted for the climate of the Northern and Middle States. Pkt., .05; oz., .30

TURNIP

German,—Steckrube.

French,—Navet.

Spanish,—Nabo Comun.

Turnips may be sown at all seasons from April to August in our climate, although those will be the best which are sown very early in spring for summer crops, and early in August for a fall and winter crop. A light soil, well manured the previous year, is the best, a few hundred pounds per acre of quick-acting fertilizer will have a tendency to make the roots smooth, and to make the rapid growth so essential in producing sweet and palatable turnips.

Extra Early Purple Top Milan (Flat). The earliest turnip in cultivation and a splendid variety; favorite with gardeners who want first turnips in market. Bulb white, flat, of medium size, with a bright purple top; one of the sweetest and finest flavored of summer sorts. Pkt., .05; oz., .15; ¼ lb., .50; lb., \$1.75

Extra Early White Milan. This is one of our most popular turnips for spring sowing. It is a splendid extra early turnip in which the extreme earliness, small top and tap-root of the Purple Top Milan is united with clear white skin and flesh.

Pkt., .05; oz., .15; ¼ lb., .50; lb., \$1.75

Purple Top Strap Leaf. Rapid grower and mild flavor. The most popular variety for early use, either for the table or stock.

Pkt., .05; oz., .15; ¼ lb., .50; lb., \$1.75

Yellow Stone. A very popular yellow-fleshed variety, fine for table use. Flesh very firm, tender, sweet and fine flavored; an excellent keeper.

Pkt., .05; oz., .15; ¼ lb., .50; lb., \$1.75

White Six Weeks. Very early, white and sweet. An excellent early table variety.

Pkt., .05; oz., .15; ¼ lb., .50; lb., \$1.75

White Egg. Belongs to the class of quick-growing fall turnips, and for this purpose should be sown in this latitude between August 1 and 10. Its shape is nearly oval or egg, as its name would indicate.

Pkt., .05; oz., .15; ¼ lb., .50; lb., \$1.75

Ruta Bagas, or Swedes, should be planted from the last of June to about July 10, as they require more time in which to mature than the Early or Strap Leaf varieties. Newly-turned soil will produce the sweetest and smoothest turnips.

Ruta Baga or Swedish Turnip

Rutabaga Bangholm. Oblong, globular shaped, with very small neck, yellow flesh, very dark purple top, superior to all other Swedes. One of the very heaviest croppers.

Pkt., .05; oz., .10; ¼ lb., .35; lb., \$1.15

Long Island Purple. Undoubtedly the finest variety of purple-top Ruta Baga. Leaves few and small; bulbs fine shaped with very short, small necks; purple

crown, skin and flesh bright yellow, solid, sweet and mild flavor. Pkt., .05; oz., .10; ¼ lb., .35; lb., \$1.15

White Sweet German. Sweet, and fine flavor. Good keeper. Pkt., .05; oz., .10; ¼ lb., .35; lb., \$1.15

Imperial Hardy Swede. Claimed by many to be the best Swede turnip grown. Bulb of large size with purple crown; flesh yellow; very smooth and heavy cropper. Pkt., .05; oz., .10; ¼ lb., .35; lb., \$1.15

Skirving's Purple Top. Well-known yellow fleshed variety of large size and fine quality; for stock or table. Pkt., .05; oz., .10; ¼ lb., .35; lb., \$1.15

VEGETABLE AND FLOWER PLANTS

We have in their season a choice assortment of both vegetable and flower plants.

Tomato Plants. Essex Hybrid. Dwarf Champion, Chalk's Jewel, Earliana, etc.

Cabbage Plants. All seasons, Stone Mason, Drum-head, Danish Ball Head, Early Summer, etc.

Cauliflower. Snowball.

Celery. Giant Pascal, Boston Market, White Plume.

Flower Plants. Pansies, Geraniums, Verbenas, Stocks, Salvia, Asters.

Our Plants are all grown for us locally and are hardy and vigorous. Prices as low as can be made and furnish good strong, healthy plants.

BIRD SEED

Add 6c per lb., each additional lb. add .01 for postage.

Price subject to variations of the Market.

Canary. Sicily, selected

Hemp. Russian, first quality

Rape.

Sunflower. Russian

Millet.

Cuttlefish.

Unhulled Rice.

Grasses and Grains

NOTE—Owing to the frequent changes in price of Grains and Grasses we have refrained from inserting prices of them in this catalogue. The lowest market price will be quoted on application.

SPECIAL ATTENTION

While we carry several grades of the different varieties of seeds, we recommend our Purity Brand as the very best the market affords. These seeds are strictly Northern grown, and are selected by us because they possess the two essential qualities of purity and vitality. It is well known that there have been large quantities of Grass and Clover Seed sold as pure, which official analysis has shown to contain large percentages of adulteration. This not only defrauds the planter by selling him a worse than useless article, but inflicts injury also by filling his land with noxious weeds. We list Grass and Clover Seed according to their quality, grading down from our Purity Brand, which is always the best.

Timothy, Clovers, Millets, Red Top
in several grades

Purity Brand Lawn Seed
Our own mixture, from the purest seeds obtainable.
We can surely please you on this brand.

CHOICE GRASS SEEDS FOR LAWN AND FARM

Timothy	Canadian Blue Grass

INSECTICIDES and FUNGICIDES

SPRAY CALENDAR AND GUIDE

Pest	What to Use	Dilution, lbs.	1st Spraying	2nd Spraying	Successive Spraying
Codling Moth	Dry Arsenate Lead Dry Arsenate Calcium	*1 to 1½ ¾	Immediately after blossoms fall	2 weeks later	Consult your Exper. Sta.
Canker Worm	Dry Arsenate Lead Dry Arsenate Calcium	*1 to 1½ ¾	When young first appear	4-6 days later	" "
Tent Caterpillar	Dry Arsenate Lead Dry Arsenate Calcium	*1 to 1½ ¾	As insects appear	As needed	" "
Leaf Crumpler	Dry Arsenate Lead Dry Arsenate Calcium	*1 to 1½ ¾	About middle of May	As needed	" "
Slug	Dry Arsenate Lead Dry Arsenate Calcium	*1 to 1½ ¾	When insects appear	Repeat 10 da. 2 wks. if necessary	" "
Plum Gouger	Dry Arsenate Lead	*¾ to 1	Before leaves and buds open		
Strawberry Crown Borer	Dry Arsenate Lead Dry Arsenate Calcium	*1 to 1½ ½	Late summer		" "
Strawberry Leaf Roller	Dry Arsenate Lead Dry Arsenate Calcium	*1 to 1½ ½	In August		" "
Strawberry Slug Strawberry Root Worm	Dry Arsenate Lead Dry Arsenate Calcium	*1 to 1½ ½	In May when insects appear		" "
Imported Currant Worm	Dry Arsenate Lead Dry Arsenate Calcium	*1 to 1½ ½	As soon as insects appear		" "
Gooseberry Fruit Worm	Dry Arsenate Lead Dry Arsenate Calcium	*1 to 1½ ½	As soon as insects appear		" "
Raspberry Slug	Dry Arsenate Lead Dry Arsenate Calcium	*1 to 1½ ½	Early in spring		" "
Raspberry Byturus	Dry Arsenate Lead Dry Arsenate Calcium	*1 to 1½ ½	1st of May		" "
Potato Beetle	Dry Arsenate Lead Dry Arsenate Calcium	*2 to 4 1½ to 2	When insects appear		Repeat as often as necessary

*To 50 gallons of water.

The above recommendations are condensed and are somewhat subject to change depending upon conditions in various sections of the country.

Where an effective combination Insecticide and Fungicide is desired, "Bordo-Arsenate" used at same strength as indicated for Dry Powdered Arsenate of Lead will give splendid results. Dry Powdered Bordeaux Mixture can be used as a dry dust just as it comes from the package or in combination with equal quantities of Dry Powdered Arsenate of Lead or Arsenate of Calcium. When using Dry Powdered Bordeaux Mixture as a wet spray use from three to five pounds to fifty gallons of water for the control of most fungus diseases.

Dry Powdered Insecticides can be used for dry dusting just as they come from the package.

For the convenience of the home gardener, the above table will be of interest.

Dry Powdered Arsenate of Lead where used at strength of one pound to fifty gallons of water, should be used at rate of three to four teaspoonsful to one gallon of water.

Dry Powdered Arsenate of Calcium where used at rate of three-fourths pound to fifty gallons of water, should be used at rate of two to three teaspoonsful to one gallon of water.

Dry Powdered Bordeaux Mixture when used at rate of three pounds to fifty gallons of water, should be used at the rate of from nine to twelve teaspoonsful to one gallon of water.

Dry Powdered Bordo-Arsenate when used at rate of one pound to fifty gallons of water should be used at rate of three to four teaspoonsful to one gallon of water.

Pure Paris Green—Ansbacher's

After having tried several of the other kinds of Paris Green we are convinced that Ansbacher's has no superior, consequently are handling this kind exclusively.

The price of Paris Green not being established at this time of going to press, we will be pleased to quote prices on application.

Dry Powdered Arsenate of Lead

Dry Powdered Arsenate of Lead has been found to be one of the most efficient universal insecticides known to the industry today. Dry Powdered Arsenate of Lead is the result of the most modern

chemical processes and manufacture, and is probably the finest product of its kind manufactured today.

It is a very finely divided, fluffy powder, which can be used either for dry dusting or for wet spraying. Due to its light, fluffy consistency, it insures the grower and farmer maximum, uniform results in his spraying mixture. It covers the leaf and fruit thoroughly and uniformly, and insures maximum results. Its wonderful suspension qualities and the ease with which it is gotten into suspension make it particularly attractive to the commercial fruit grower and farmer, as well as to the average consumer.

Dry Powdered Arsenate of Lead is put up in sift-proof cartons and heavy drums in convenient sizes for the large commercial grower, as well as for the small home gardener and grower. It is put up in the following sizes: 1 lb., 5 lb. and 10 lb. double compartment cardboard cartons, and 25, 50, 100 and 200 lb. impervious veneer drums.

We have adopted the best packages we could possibly secure, and as a result our customers receive Dry Powdered Arsenate of Lead in the neatest, most compact and most serviceable package.

Dry Powdered Arsenate of Calcium

The use of Dry Powdered Arsenate of Calcium as a stomach poison for controlling leaf-eating insects has become more general each year, and is especially adapted for use in spraying seed fruits and vegetables.

To the average grower, Arsenate of Calcium is not as well known as Arsenate of Lead and Paris Green. This is due no doubt to the fact that in the past it has not been pushed by either Government Experiment Stations or Insecticide manufacturers. Numerous tests conducted the past year have proven beyond a doubt the efficiency of Arsenate of Calcium and it is now highly recommended by authorities on Insecticides.

Write for our special literature on Powdered Arsenate of Calcium.

Lime Sulphur Solution

Lime Sulphur Solution contains 33 per cent. combined lime and sulphur in solution at 32 to 33 degrees Beaume, the maximum that will stay in solution under the various climatic conditions to which it is liable to be exposed.

It is a clear, cherry color liquid, free from sediment and works through the nozzles easily.

Lime Sulphur Solution is used as an insecticide to control San Jose Scale, Oyster Shell Scale and all sucking or scale insects. For this purpose it is used at a dilution of 1 gallon to 9 to 11 gallons of water and applied during the dormant seasons, either after the leaves drop in the Fall or before the buds open in the Spring. The Spring applications just before the buds open will control Leaf Blister Mite.

Lime Sulphur Solution as a Summer spray replaces Bordeaux Mixture. The use of Lime Sulphur solution and Bordeaux Mixture in same application is unnecessary.

Dry Powdered Bordeaux Mixture

Bordeaux Mixture in paste form has for many years been a standard fungicide for use in the control of mildew, blight and other fungus diseases. Best results from the use of Bordeaux Mixture depend upon the exact chemical make-up of the material. The home-made Bordeaux Mixture as compounded by the average farmer and grower has been a splendid product, but has been subject to the uncertainties which are necessarily attendant upon incomplete equipment, etc.

Dry Powdered Bordeaux Mixture can be used wherever paste Bordeaux Mixture has been used heretofore. It is splendidly adapted for both fruit tree and truck crop work, and can be used in combination with any insecticides, either as a dry or as a liquid spray.

Dry Powdered Bordo-Arsenate

The Two-in-One Spray

This product combines the killing properties of Arsenate of Lead and the fungus preventative qualities of Bordeaux Mixture.

Dry Powdered Bordo-Arsenate being a scientific combination of Arsenate of Lead and Bordeaux Mixture will control both external leaf-eating insects and fungus diseases at the same time. It is prepared in dry powdered form which is a decided advantage over the old form of paste products.

Send for full descriptive folder.

Dry Lime Sulphur

Dry Lime Sulphur is not an entirely new product—it is just an improved, standard spray material. It is made to supply the demand of the growers for a convenient, economical and efficient tree spray for the control of scale insects and certain fungus diseases. It is simply a more practical form of Liquid Lime Sulphur which, for years, has been known by growers as an effective spray material.

Dry Lime Sulphur is not a substitute for Liquid Lime Sulphur—it is the actual Lime Sulphur possessing all of the good qualities and none of the disadvantages of the old style Liquid Lime Sulphur.

Dry Lime Sulphur will control San Jose Scale and other scale insects. It is effective against Apple Scab, Peach Leaf Curl, Leaf Blister Mite, Brown Rot of peach or plum and other fungus diseases that you have controlled in the past with Liquid Lime Sulphur.

Prices on Application

RAT CORN

After eating Rat Corn he is mummified

RAT CORN

It mummifies them. No matter where they die they simply DRY UP. Positively do not smell.

Rat Corn is a new and scientific discovery, and without a doubt the greatest rat destroyer in the world; the only one that kills rats without any bad, dangerous or disagreeable effects. A trial will convince you. Prices: Small, .30. Medium, .50. Large, \$1.00. Postpaid.

WILL KILL FLIES

Formerly Known as Rough-on-Flies.

Kills flies, vermin and lice. Increases the yield of milk. Insures more eggs and better poultry. Kills lice on cattle and sheep ticks. Heals scab and hoof rot. It is an excellent disinfectant. Every gallon guaranteed. One gallon cans, price per gallon, \$1.75

Crenoid

Barrett's Crenoid is an up-to-date preparation from coal tar of invaluable service to the poultrymen, stock raisers and farmers. It eliminates flies and mosquitoes and insures sanitary conditions in stables, stock sheds, around barnyards, etc.

Price, gallon cans,

\$1.25

If, after using Sterlingworth Liquid

STERLINGWORTH LIQUID LICE & MITE KILLER

Lice and Mite Killer, you believe it is not better than any other preparation you ever used for killing lice and mites in poultry houses, state the facts to us and we will refund the purchase price.

Prices: 1 qt., .40; postpaid, .50; 2 qt., .75; postpaid, .90; 1 gal., \$1.25.

These candles are the most satisfactory Sulphur Fumigating Candles made. They burn three hours.

STERLINGWORTH THREE HOUR SULPHUR CANDLES

Prices: .15 each; Postpaid, .20; One Dozen, \$1.35 Postpaid.

STERLINGWORTH LIQUID BORDEAUX

A fungous remedy in the form of a thick paste. Is a preventative of rots, rusts and blights, mildews, etc., on fruits and vegetables. One gallon makes 10 to 50 gallons of mixture ready to use by adding water. Prices: 1 qt. .50; 1 gal., \$1.25.

STERLINGWORTH NO-SCAB

For preventing potato scab, oat, wheat and grain smut. Mix one pound to fifteen gallons of water. Directions on Label.

Price: 8 oz. bottle, .50

STERLINGWORTH DIARRHOEA REMEDY

This is a money back guaranteed remedy for white diarrhoea in young chicks and for all bowel trouble in grown fowls. It is the original White Diarrhoea Redemy. It is a powder to be used in the fowls' drink. Prices: 25 and 50 cents postpaid.

STERLINGWORTH SHEEP DIP

A standard preparation for preparing an effective and economical dip for ridding sheep of ticks, lice and scab.

One gallon makes 56 by mixing with water. Prices: ½ gal. .85; postpaid, \$1 Cooper's. Enough to make 100 gal., \$2.50; postpaid, \$2.65

Dr. Hess. Quart can, .60; postpaid, .70; two-quart can, .90; postpaid, \$1.15.

We claim that Sterlingworth

STERLINGWORTH LICE POWDER

Lice Powder is the one best lice powder. You can see the dead lice drop from the bird treated with this powder. If it is not better than any lice powder you have ever used we will cheerfully return your money.

Prices: 5 oz., .15; postpaid, .20; 15 oz., .30; postpaid, .40; 48 oz., .60; postpaid, .75.

This is prepared exclusively for aphids or plant lice and spiders on house plants and vegetables. It is useful against most of the small sucking insects which infest house plants and greenhouse flowers. It is used by diluting one part of killer in fifteen parts of water and may be applied by spraying or sprinkling.

Price: Home size, one pint, .30; postpaid, .40

STERLINGWORTH CREOLUSOL

An ideal liquid Disinfectant, Germicide, Cleanser and Deodorizer. Has great powerful antiseptic and healing properties. It is a purifier and one of the best disinfectants for private or public sanitation.

For squirting into the holes made

STERLINGWORTH BORER OIL

by the Flat or Round-head tree borers. An ordinary oil can is just the thing for applying. Directions on can.

Prices: 1 pt. can, .30; postpaid, .40.

All Prices Subject to Change Without Notice

STERLINGWORTH CUT WORM KILLER

A coarse powder for sprinkling near plants to be protected. It has an enticing odor, and cut worms prefer it to vegetation. No guess work about its effectiveness, it gets them every time. The dead cut worms "tell" the story. One pound is sufficient for 100 plants in hills and 100 lineal feet in rows. Stop feeding your plants to cut worms. Price: 1 lb., .30; postpaid, .37. Prices on larger quantities on application.

STERLINGWORTH KEROSENE EMULSION

It kills the green plant louse scale and most soft bodied and sucking insects.

Price: 1 pt., .30; postpaid, .40; 1 qt. .50; postpaid, .60

STERLINGWORTH FISH OIL SOAP

Kills most sucking insects on trees, plants, vines and rose bushes. To use, cut in shavings and dissolve in water. Contains tobacco extractive matter.

Price: 1 lb., .30; postpaid, .35.

Sterlingworth Dry Bordeaux and Paris Green Compound

This is a dry Bordeaux powder to which has been added a poison and so mixed as to be an insect killer as well as a fungous remedy. Price: 1 lb., .50.

Crow Tar

Thoroughly reliable tar made especially for using on corn as prevention against crows. Give the corn a thin coating which quickly dries so that there is no trouble in putting through planter as in the case with tar preparation not made especially for that use. Price on Application.

Bug Death

This non-poisonous Insecticide and Plant Food is now too well known to need any detailed description.

Prices on Application.

Bug Death Aphis

This is a new preparation in powder form for all sucking insects. Prepared under Dr. G. M. Twitchell's formula.

Price on Application.

A combined insect killer and fungous

STERLINGWORTH AR-BO

remedy. It does what Bordeaux, Paris Green and Arsenate of Lead will do, all with one spraying. It contains a sticker that makes it stick like glue. It is the best spray made for potatoes. It kills the bugs and prevents blights, rots, rusts, at one application. Excellent for apple, pear and small fruits and vegetables. Controls the apple maggot, codling moth, canker worm, bug moth, kills hundreds of eating worms and insects and prevents scores of fungous diseases that attack vegetables and fruits. Ar-Bo is the great potato spray. Its use on potatoes gives the crop in many instances as much as three weeks to mature. Do not think of trying to raise potatoes without it. Use it once and you will never use anything else. It is a paste about the consistency of thin putty and is made ready for use by mixing at the rate of one pound to five gallons of cold water. It does not clog the spray nozzle. Apply with any hand or power spray pump, Full directions on label.

Prices: 1 lb., .40; 5 lbs., \$1.60; 10 lbs., \$3.00; 25 lbs., \$7.00; 50 lbs., \$13.00; 100 lbs., \$22.00.

STERLINGWORTH SCALE KILLER

It kills San Jose Scale and Oyster Shell Scale

when properly applied, and helps protect trees from reinfestation. It covers more surface, is more effective and cheaper. It is easier to use than sulphur sprays. Kills every scale it strikes. It is a miscible oil for mixing with water. One gallon makes 12-15 gallons by mixing with cold water. Price: 1 gal., \$1.25.

For use against leaf-eating insects such as

STERLINGWORTH POWDERED HELLEBORE

rose slugs, currant worms, cabbage worms and many other leaf-eating insects where mild poison is required, as Powdered White Hellebore. Price: ¼ lb., .25.

Insect Powder and Bellows Combined

INCUBATORS, BROODERS AND HOVERS

Cyphers Company Incubators

MADE IN FOUR SIZES.

Standard Cyphers Incubators

These are machines that for seventeen years and more have been recognized as the "Standard hatchers of the world." They are used by more Government Experiment Stations, on more large, practical poultry plants, on more successful duck and egg farms, and by a larger number of foremost poultry breeders than all other makes combined. They are built to hatch and to last. With ordinary care they should last an ordinary life-time. Every Standard Cyphers Incubator is guaranteed by the manufacturers to do first-class work in the hands of every purchaser who will give it a fair trial. Are built in four popular sizes.

70 Egg Size, shipping weight	93 lbs.	\$25.00
144 Egg Size, shipping weight	145 lbs.	38.00
244 Egg Size, shipping weight	195 lbs.	54.00
390 Egg Size, shipping weight	254 lbs.	61.00

Columbia Hot-Air Incubators

Are built to meet the wide-spread demand for large capacity, lamp-heated machines that can be sold at surprisingly low prices and yet be guaranteed to do high-class work. Have wooden cases, attractively finished in dark green, with brass trimmings and double walls. Seamless-bottom lamp bowls, best quality brass burners, zinc and steel standard Cyphers toggle-joint thermostat and same regulating equipment as used on highest priced machines. Fume proof, forced draft heater, asbestos covered and metal banded. Automatic in ventilation and embodies diffusive principle. Roomy chick nursery under trays. Are made in two sizes.

140 Egg size, shipping weight,	83 lbs.	\$22.50
250 Egg size, shipping weight,	114 lbs.	31.25

MADE IN TWO SIZES.

MADE IN TWO SIZES.

Superior Hot-Water Incubator

In the Superior you get a hot-water incubator that is well built, well insulated and up to Cyphers standards in all details of design, material and workmanship. It is equipped with Cyphers Co.'s regular patented toggle-lever regulator; it has a high grade water heating system; it can be operated more easily than any other hot-water machine; and it will out-hatch and out-last any hot-water incubator on the market at anywhere near the price. It is well made and handsomely finished—nothing cheap about it in appearance. Built in two sizes and at prices as follows:

65 Egg size, weight	43 lbs.	\$16.25
130 Egg size, weight	68 lbs.	22.50

Cyphers Adaptable Hover

The Cyphers Adaptable Hover is self-ventilating and self-regulating. It supplies a continuous flow of fresh, pure, warmed air under the hover, and at the same time maintains a steady, uniform heat. It is "adaptable" to use in Colony Coops, in portable houses, in home-made brooder coops, as well as in large brooding houses. It is constructed entirely of non-combustible material, and bears the fire underwriters', Inspected Brooder label. Capacity, seventy-five newly hatched chicks, or fifty chicks that are ten days to six weeks old. Weight, 38 lbs. Price, \$18.50

Cyphers Portable Hover

The Cyphers Portable Hover is a self-regulating and self-ventilating Portable Brooding Hover, and it is equipped with the same high-grade thermostat as the Cyphers Adaptable Hover, it maintains a steady and uniform heat. It is positively and infallibly automatic in ventilation, preventing the trapping of "dead" air or poisonous gases underneath the curtain. A continuous supply of fresh, warmed air is automatically forced beneath the hover.

This Portable Hover, as its name indicates, can be picked up at any time, all complete, and moved about without hindering its operation. Very convenient for cleaning and moving. Rated capacity, seventy-five newly hatched chicks, or fifty chicks that are ten days to six weeks old. Weight, 38 lbs. Price, \$18.50

All Prices Subject to Change Without Notice

Cyphers Company Brooders

Standard Cyphers Brooders

The Standard Cyphers Brooders are not only fire-proofed and insurable, but are most durable, convenient and most efficient indoor and outdoor brooders thus far invented and placed on the market. They are equipped with the same type of high-grade thermostat as used on the Standard Cyphers Incubator—you can therefore depend upon an even, steady temperature in the hover, and a lively, thrifty growing lot of chickens.

These Cyphers Brooders, all sizes and styles, are self-regulating, self-ventilating and varment proof. They are usable also as colony coops for the growing chicks. They are easily and readily converted into colony roosting coops by simply taking out the hover, which is made removable for that purpose.

Style A. Two-Apartment Brooder

THIS DOUBLE USE of the Cyphers Brooder means a considerable saving of money. It makes a safe and comfortable enclosure for the young chicks at night, and saves the buying of a coop for them. These outdoor brooders, on account of their fire-proof construction, can be used indoors equally well. All Cyphers 1919 Brooders contain either two or three apartments. The popular Style B (shown in illustration herewith) contains three apartments; first, roomy space under the hover; second, hover chamber; third, well-lighted exercising apartments. It has often been said by users of Cyphers Brooders that "They Mother the Chicks Better than a Hen."

Style B. Three-Apartment Brooder

Style A and B. Prices:

Style A.	2-Apartment Outdoor Brooder, shipping weight 136 lbs	\$27.00
Style B.	3-Apartment Outdoor Brooder, shipping weight 200 lbs.	40.00
Style C.	3-Apartment Outdoor Brooder (for cold climates) shipping weight 210 lbs	42.00

International Sanitary Hovers

Advantages possessed by the International Hover and not to be found in any other brooding device.

1. It is warmer at the curtain than near the center. This causes the chicks to distribute themselves just back of the edge of the curtain where they have a consistent supply of fresh air and plenty of room.
2. It is entirely circular and has no corners for the chicks to crowd into.
3. The lamp holder can be lifted out through the top of the hover by a person standing up. This makes it unnecessary for the operator to kneel in the dust and mud to tend his lamp.

It gives ample heat under the hover without so heating the surrounding floor space as to cause leg weakness among the chicks.

Send for Full Descriptive Catalog.

Price \$8.50

NEWTOWN Colony Brooder

Coal-burning, Self-regulating

Instead of spending time and energy and tending ten or more small lamp brooders and caring for the same number of small flocks the poultry raiser now rears 500 or 1200 birds around one Newtown Colony Brooder that burns coal and automatically regulates its own temperature.

Instead of increasing the cost of insurance on his buildings or taking big chances of destruction by fire of his plant and chicks, as a result of burning oil, coal-burning Newtown Colony Brooders are now employed, which are just as safe as the kitchen range and home heater.

Come and see one set up at our store and prove for yourself that your one best investment is Newtown.

Buckeye Brooders

It is a matter of record that poorly constructed brooders are responsible for the death of more chicks than all other causes combined, so we consider it most advisable to call attention to the importance of using a type of brooder which we know will properly care for the chicks after they are hatched.

Indoor Brooders

Top heat—circulating hot water. Self-regulating.
 No. 1 Capacity 60 Chicks, shipping weight 50 lbs.....\$4.00

Outdoor Brooders

Top heat—circulating hot water. Self-regulating—storm-proof.
 No. 2 Capacity 50 chicks, shipping weight 90 lbs.....\$6.00

Buckeye Portable Brooder

The oil burning brooder with all the desirable features of the modern coal burner. It is the only oil burning brooder that provides every ideal condition which you know to be necessary to the health and growth of the chicks, and its construction is so simple that the operator cannot go wrong.

There is nothing to adjust, nothing to get out of order, nothing to look after but the lamp, and that requires filling but once in 24 hours.

No. 20 Diameter 19 in. capacity 60 chicks, shipping weight 19 lbs.....Price \$7.50

Security Portable Brooder

Centrally heated by an oil lamp. Chicks hover at the curtain, making crowding impossible.
 Diameter, 30 in., capacity 150 chicks, shipping weight 60 lbs.Price \$15.00

Standard Colony Brooder

A Brooder that enables any poultryman to care for 1,000 chicks with about the same amount of time and labor that formerly took to care for 100.

A Brooder that provides a constant correct temperature, a constant supply of pure, fresh air, plenty of exercise, and no possible chance for crowding—every essential for the welfare of the growing chicks—with such automatic regularity that all possibility of unfavorable conditions so commonly found in other brooders are entirely eliminated.

Send for complete Buckeye Catalog.

"PURITY BRAND" POULTRY FEEDS

Always Ready

No Waste

No Dirt

Our trade-mark brand of Poultry and Chick Feeds represent strictly high-grade mixtures—manufactured from Sweet, Sound Cracked Grains and Seeds—scientifically proportioned and in sizes best adapted for feeding, carefully sifted and recleaned. No pains are spared to produce Feeds of the greatest value—best quality and uniform grade—the standard of which is maintained at all times.

It is a recognized fact that sound and sweet grain contains a larger percentage of nutriment, strengthening and fattening properties, naturally producing better and quicker results than unsound, damaged and musty material.

Globe Chick Mash with Dried Buttermilk

A first feed for baby chicks

The baby chick is extremely delicate and the utmost care should be exercised in selecting feed which will be easily digested and at the same time supply the proper nourishment.

Globe Chick Mash with Dried Buttermilk

is prepared, especially for the proper starting and rapid building up or growth of young chicks. After they begin to eat, it should be fed in small hoppers and kept before them all the time—they can't eat too much of it.

This should be supplemented with Globe Chick Feed. When this is done the chicken will "get off to a flying start" and will grow quicker, mature earlier, and, all in all, will be healthier, better chickens.

Globe Chick Feed

A complete Grain Feed for Chicks from the time they are hatched until 8 or 10 weeks old.

Clean Sound Sweet

A standard mixture of recleaned Cracked Grains and Seeds, Hulled Oats, fine Granulated Bone and fine Charcoal. Specially selected for size, and composed of ingredients necessary in promoting healthy and rapid growth.

This is the critical period of chick life, and Globe Brand is prepared especially to meet the emergency. It produces healthy and rapid growth, and is intended for feeding until the chickens are large enough to be fed the coarser Developing Feed.

Globe Developing Feed

An Intermediate Feed for Growing Chicks.

A Coarse Grain Chick Feed to meet the requirements of growing chicks from the time they have outgrown the Globe Chick Feed until large enough for Globe Scratch Feed.

Screened and graded to adaptable size. Mixed and recleaned by the most approved methods. This feed like all other "Dickinson's Brands," is composed of the choicest materials obtainable.

Globe Scratch Feed

A Balanced Grain Ration Poultry Feed for Grown Fowls. Suitable at All Seasons.

Clean Sweet Sound

Under this brand we offer our standard mixture of Poultry Feed manufactured from Selected Cracked and Whole Grains and Seeds, scientifically mixed to furnish a complete balanced ration, with an assortment of material best adapted for rapid growth and egg production. The protein, fat and carbohydrates are so maintained as to form the greatest feeding value and produce the best results.

Queen Poultry Mash

Contains Alfalfa Meal During Winter.

Proportions changed to meet requirements of different seasons.

Clean Sweet Sound

A selected mixture of ground feeds manufactured from the choicest, sound, sweet and wholesome grains. It is carefully prepared and contains ingredients in proper proportions essential to the health and growth of the fowl.

Splendid bone builder and especially helpful during the molt. Also contains Beef Scraps and Charcoal, recognized necessities for health and egg production.

Globe Egg Mash

Invaluable as a Supplementary Feed for Winter Laying. 15% Meat Scraps and Oil Meal—16-18% Protein. Can be fed dry or moistened as preferred. The regular grain ration should be supplemented once a day by some mixture of ground feed containing high protein. An Ideal Feed for Growing Fowls and Laying Hens.

Purity Alfalfa Meal Medium Cut

As an accompaniment to the mash fed by some and the dry feed by others, a vegetable food is indispensable, in fact, no mash is complete without it. Among green feeds, Alfalfa stands at the top, and when used with the mash, Medium Cut Alfalfa is mixed dry with other foods, and scalded or boiled with them, as the poultryman desires. When fed in connection with dry grains it should be scalded in a trough or other vessel and left for the fowls to eat at will.

All Feeds listed above come in 100 pound bags.

Samples and prices on request.

Sterlingworth Charcoal

Is especially prepared for poultry, carefully screened and is different than other charcoals. Goods are put up in 50-lb. bur-lap bags in four sizes as follows:

Fine Powdered for Mash Food for Ducks, also Cattle and Hogs.

Fine granulated for Brooder Chicks and Dry Chick Food Mixtures.

Medium granulated for Half Grown Fowls, Pigeons, etc.

Coarse Granulated for Full Grown Fowls, Geese, Turkeys, etc. Price: 50-lb. bags \$2.15 each.

Stearns Clover Cutter

A Person in Five Minutes Can Cut Enough With This Machine to Last One Hundred Fowls a Day

This cutter is made in convenient size for use on bench or table. The entire frame is made of malleable iron making a very light and strong machine. It is self-feeding and self-sharpening. Cuts clover very rapidly; is also suitable for cutting cabbage leaves, alfalfa, etc., and is run with very little effort. Eight cuts to each revolution, cutting into one-half inch lengths, and making a total cut of four inches to each revolution of the cylinder.

Price: \$3.00; postpaid, \$3.10.

Oyster Shells

Crushed and ground to the size which expert poultry men agree to be the best. Price: 100 lb. bag, \$1.25 High Grade Beef Scraps and Cracked Bone.

Dr. Hess' Poultry Pan-a-cea

Contains tonics that aid the digestion; it also contains iron for the blood and nitrates to expel poisonous material through the skin; it is the only reasonable way to produce eggs without stimulants that are injurious. 1 1/2 lb. pkg., .30; postpaid, .39; 5 lb. pkg., .75; postpaid .88; 12 lb. pkg., \$1.50; postpaid, \$1.70; 25 lb. pail, \$3.00.

Mico Spar Cubical Grit

Does not become smooth, but retains its cubical form until entirely worn out.

No. 1 for Turkeys, No. 2 for Fowls.

No. 3 for growing Chicks and Pigeons.

No. 4. Extra Fine for Chicken Food. Price: 100 lb. bag, \$1.15.

Dr. Hess' Instant Louse Killer

Destroys lice on poultry, stock of all kinds and ticks on sheep. It is a powder put up in round cans with perforated top. Price, 1 lb. pkg., .30, postpaid, .39; 2 1/2 lb. pkg., .60, postpaid, .70.

Grenier Caponizing Set

Designed to simplify the operation of caponizing, so that the beginner can easily master it. This set consists of a lancet shaped knife, spring spreader, forceps, hook, ring, ring probe and canula. Price in velvet lined case, \$3.50.

Poultry Killing Knives

These knives are made of the best steel and of special design. Price: .50 each; postpaid, .55.

"NEW MODEL" CLOVER CUTTER

For Poultry.

Just the cutter for the poultry raiser. Cuts all kinds of feed, either green or dry. Has removable steel knives, adjustable cutter bar. It runs easy, cuts fine and is durable. With four 7-inch knives.

Our Price, \$21.00

The Economy Oats Sprouter

The best device for producing clean sprouted oats. Has five perforated pans each 16x17 in. and one drip pan at bottom. No lamp, no danger, very durable, compact. Green food all winter if you use the Economy Oats Sprouter which means bigger egg yields, consequently more profit. Price, \$7.00

THE 6 IN 1 EXERCISER AND FEEDER

IS JUST what its name implies. It is a large, rust-proof, galvanized steel hopper, supported on four strong iron legs and designed to hold all the food necessary for poultry. The center hopper holds the mixed grain food, and is so constructed that an agitator underneath containing whole corn as bait, can be worked by

the fowls to scatter broadcast a small amount each time of the dry grain mixture. Surrounding this centre hopper are six compartments made to contain dry mash, beef scraps, grit, etc.

Sexton's Dry Feed Hopper

Open

Closed

Easy to fill. No waste. Rat proof. Rust proof.

Pronounced to be the best Hopper offered. Simple in construction, easily operated and absolutely "rat" and "mouse" proof.

The lower cover is so arranged that it is held up by locking the top cover of Hopper over same, and by raising the top cover the lower cover will fall in place.

It is unnecessary for us to treat on the advantages of Dry Feed as it is now being used extensively by all raisers of Poultry.

This Hopper is arranged to hang on the wall the desired distance from the floor and never need be removed from the wall to be refilled. It is impossible to waste any feed as the pan at the bottom takes any feed that may be picked out and the last crumb can be used, therefore saving any waste. The body being covered, keeps feed dust-proof and clean and is always dry.

12 qt. Price \$1.75; postpaid, \$1.90
24 qt. Price \$2.75; postpaid, \$3.00

Separable Drinking Fountains

Low-Priced—Easy to Clean—Will Last Many Years.

Drinking Fountains are made of heavy galvanized iron. The small

size (1 quart) is designed for chicks and is especially handy for use in brooders. The medium size (2 quarts) is for larger chicks. The large (3 1/2 quart) size is for adult fowls.

Prices. Each, Small, .40; postpaid, .45; medium, .50; postpaid, .57; large \$1.00; postpaid, \$1.10.

Poultry Feeder

Our popular 1-2-3 Poultry Feeder can be used as a one, two or three apartment feeder, by simply changing the dividing walls. Perfectly sanitary and clean.

Price: Small, \$1.00; postpaid, \$1.10; Large, \$1.50; postpaid, \$1.60.

All Prices Subject to Change Without Notice

Porcelain Nest Eggs

These Eggs are made of first-class Flint Glass. They do not break easily and will last indefinitely. Price, each, .03; per dozen, .35 postpaid.

Star Jar Fountain and Feeder

Patented

The most simple, practicable and durable Mason Jar Fount on the market

Will fit pint quart or one-half gallon Mason jar. Manufactured of one piece of non-rusting metal. No parts to come unsoldered. Leaking impossible. Convenient, cheap and sanitary. Provides greater drinking surface than the round fountain. Little chicks cannot get drowned. Can be used for feed as well as water. Manufactured in one size only. Price: .15; postpaid, .20.

Cyphers X-Ray Egg Tester

The Cyphers X-Ray Egg Tester is made of the best block tin and consists of a central cylinder or lamp flue, 5 1/4 inches high with an outside diameter of 2 3/8 inches at the base and 2 3/8 inches at the top. It is designed for use in an ordinary hand lamp, fits over any style of burner with a diameter approximately that of the tester. In a dark room the light will be found strong enough to penetrate the shell and illuminate the interior of the egg. Price: .30 each; postpaid, .35.

Drop Bottom Founts

28-Gauge galvanized steel. Easiest thing in the world to open and clean. A class by which the bottom is fastened fits over

under the hood, preventing slopping of water when the fount is handled. Solid brass hinge rod—no rust.

Price: 2 quart, .90; postpaid, \$1.00; 1 gallon, \$1.15; postpaid, \$1.25.

Wall Founts

All these wall founts have hoods over the troughs, which prevent dirt from settling in the water. Can be hung up on the wall, and for this reason are preferred by many to the 2-piece fount, which must be placed on the floor.

Price: 1 gal., .75; postpaid, .85; 2 gal., \$1.00; postpaid, \$1.10.

Leader Adjustable Leg Bands

Latest and best adjustable leg band out.

Has neat, compact and

smooth fastening with no catching points.

Price, postpaid: 12, .15; 25, .30; 50, .55; 100, \$1.00.

Key Ring Leg Bands

Made of celluloid in ten colors. Poultry size.

Price: postpaid, 12, .15; 25, .30; 50, .55; 100, \$1.00.

Lightning Sanitary Churn and Mixer

What It Does. It will actually make two pounds of butter from one pound of fresh, sweet milk. The butter is delicious and sweet. Follow directions and you will get results.

An Economical Luxury. If creamery butter is 34 cents a pound and milk 4 cents a pint, your milk-charged table-butter made with this churn will cost 19 cents a pound. (The proportion is one pound of butter to one pound or pint of milk).

Other Uses. The Lightning Sanitary Churn may also be used to make regular butter direct from cream; as a cream and egg beater; as a salad dressing or batter mixer; and as a butter renovator.

Prices: 1 qt. \$1.50, postpaid, \$1.65; 2 qt. \$2.00, postpaid \$2.15; 3 qt. \$2.50, postpaid \$2.70; 4 qt. \$3.00, postpaid \$3.25.

The Sensible Bottle Filler

This is a small tank, heavily tinned and holding about sixty quarts. It has two straight bore faucets in the bottom near the edge. They are inexpensive and very handy for the small milk dealers who do not feel like paying a large sum for one of the larger machines. Price, each \$8.00.

Milk Bottle Caps

All Sizes and Styles, lb.20; Postpaid, .26
Prices on larger Quantities on Application:

Champion Milk Cooler Aerator

A perfect Aerator, removing all flavors arising from excessive cabbage, turnip or silo rations.

It is equally well adapted to the use of any cooling medium, either running water, ice water, or, if a very low temperature is not required, ordinary well or spring water.

Is automatic, requiring no attention while in operation.

No. 2 Holds 18 Quarts. Takes care of 3 Milkers. Shipping weight 30 lbs. Price \$12.50

DAIRY SUPPLIES

(Continued)

The "Boston" Aseptic Milking Tube

2¼ in., self-retaining. Exact size...

PRICE
\$0 25

2¼ in., plain. Exact size..... .25

The Boston Aseptic Milking Tube is recommended because it is so well finished and so easily sterilized. It is manufactured regularly in 1¾, 2¼, 2¾, 3¼ inch lengths; plain or self-retaining, as desired.

The "Boston" Aseptic Teat Dilator (Dr. Murphy's Modification)

No More Hard Milkers

"Spider" in the teat is easily cured, and sphincter paralysis entirely disappears after a few days' use. Recommended by veterinarians and dairymen.

Boston Milk Fever Outfit

A cheap, portable, non-destructible apparatus for use in cases of milk fever.

More economic than oxygen apparatus. It can be carried in the coat pocket. No wide-awake veterinarian case is complete without one of these instruments, and every dairyman should be provided with one for an emergency.

Recommended by Dr. John R. Mohler, Bureau of Animal Industry, Washington, D.C.

Will be shipped without ice boxes, unless they are ordered. Ice boxes separate, \$1.00 each.

The Kinerson Combination Butter Prints

The Kinerson Prints are too well known to require elaborate advertising or testimonials. There are various devices on the market for printing butter, but the Kinerson Print has no real competitors. Its first cost is a trifle in advance of the cost of inferior goods, but no more so than is necessary to insure each customer of honorable business dealing, first-class workmanship, skilled engraving executed to order, and a thoroughly practical, simple and convenient Print which is the fruit of years of careful study, experiment and improvement—a Print that will save many times its original cost, in valuable time, and will outwear any other Print on the market. The above statements are made in thorough good faith and the Prints themselves will demonstrate their truthfulness.

These Prints will be carved with any Initial, Monogram or design wanted. Price including Cutters and Paddles, postage paid anywhere in New England.

12-bottle machine	20.25

Prices include full set of glassware, comprising test bottles, pipette and acid measure; also test bottle brush and bottle of acid.

Common Sense Calf Feeder

What It Is. The Common Sense Calf Feeder is a simple, practical device for weaning and feeding calves, so simple and so practical that every calf owner will see the value of it at a glance.

What It Does. It enables you to feed the calf out of a bucket in nature's old way. If you could afford to let your calf run with the cow until nature compelled it to seek food elsewhere, there would be no scouring, unhealthy calves.

Follow nature; this feeder not only saves trouble and milk; but it prevents the calf from taking its food in the great gulps that play havoc with the digestive organs.

Price (Postage prepaid)	\$2.60
Extra Nipples (Postage prepaid)	.27

Small's Calf Feeder

This feeder is in every particular made for service. It holds seven quarts and weighs about four pounds. Its chief merits are not only in its convenience, but in the sleek, thrifty, healthy calves it produces, as they suck their food slowly in a natural way.

Price: (Postage prepaid)\$2.60
Extra Nipples (Postage prepaid)27

Butter Paper

We handle exclusively the Pioneer Brand of high-grade vegetable parchment paper and guarantee it to be the very best obtainable. We solicit correspondence for large or small quantities in any size, plain, or printed with special designs.

"Dandy-Lion" Weed Killer

Dandelion, Pigweed, Burdocks and other common weeds quickly and easily destroyed without cutting or digging, by use of the new "Dandy-Lion" Weed Exterminator. Cutting or pulling off the tops only retards the growth, the weeds soon re-appear, more vigorous than before. One operation with the "Dandy-Lion" kills root and all.

How It Works

All working parts are made easily accessible. The base with all working parts are quickly unscrewed and opened up for cleaning or adjustment. The plunger is pushed down into the crown of the weed and the

hole is enlarged by moving the handle with a circular motion. Then by pressing down the handle, the valve opens, the desired amount of weed killing solution is deposited in the centre of the root to be killed and the work is done. Price, \$1.00.

STABLE GOODS

Porter "Slam and Slide" Barn Door Latch

Here is a device that meets with the enthusiastic approval of every farmer. The Porter "Slam and Slide" Barn Door Latch fills a long-felt want.

It is absolutely without equal for simplicity, strength, durability and cleverness of operation.

It works equally well right or left, on either slam or sliding doors.

Can be locked with padlock. The screws are protected. Adapted for any size door. Material is the very best malleable iron. Nicely finished. Price: .35; postpaid, .45.

COLDWELL LAWN MOWERS

**Coldwell's
Rajah**

Coldwell's RAJAH is a strictly high-grade ball-bearing Lawn Mower. It is made of first-class material throughout and the workmanship and finish are unsurpassed. It has large driving wheels and fine cut gears, thus ensuring ease and quietness of running. The large diameter revolving cutter which is furnished with five blades makes it an exceptionally high-class Lawn Mower.

This Mower is furnished with Coldwell's patent double-edge bottom knife which is shaped like a piece of channel iron with two up-turned highly tempered edges.

16 in., \$18.75; 18 in., \$20.50; 20 in., \$22.25

**The
Lakewood**

This Mower we guarantee to be the best ball-bearing Lawn Mower, for the price, on the market. It has high wheels (9 inches), flat, steel sliding pawls in the ratchets, and large diameter revolving cutter (6 inches), furnished with four blades.

This Lawn Mower is equipped with our patent adjustable ball-bearings, the adjustment of which is accomplished by means of a single screw.

16 in., \$11.25; 18 in., \$11.75

**The
Fulton**

This is a good Mower at a medium price for all ordinary work. The drive wheels are nine inches in diameter. The revolving cutter is 6 inches in diameter and has 3 crucible steel blades highly tempered and ground true their entire length. It is carried on our patented adjustable ball-bearings.

14 in., \$9.50; 16 in., \$9.85; 18 in., \$10.25

**The
Cadet**

This is a good Lawn Mower at a medium low price and gives the purchaser full value for his money. It has brass bushings and the same ratchets and adjustments that are used on many of the high grade Mowers, and it is in every respect what is needed at the present time, viz., a Mower that will do good service and at a cost but little higher than the poor trash that is put out so freely.

14 in., \$7.25; 16 in., \$7.50; 18 in., \$7.85

**Townsend's
Victory**

We cannot offer a better mower at any price. It has Ball Bearings of the very highest grade exact to $\frac{1}{4}$ of 1-1000 of an inch, which greatly reduces friction. Double Steel Ratchet, very swift and smooth in action, as well as exceedingly hard for durability. Triple Gear. Entirely enclosed, allowing no dirt or cut grass to find its way into the pinions or cogs.

16-in., \$19.75; 18-in., \$21.50; 20-in., \$23.25

**Townsend's
Flyer**

A splendid High-Grade Mower, at a little lower price than the "Victory." Ball bearings entirely enclosed. Adjustments very simple. Knives very hard and of the best steel.

14 in., \$11.25; 16-in., \$12.25; 18-in., \$13.25

We make a specialty of GRASS SEEDS, and while we carry several grades from PURITY BRAND down, we always recommend the best, our PURITY BRAND.

McGraw Tires uniformly yield full mileage because they are uniformly perfect in build. The Duplex Method, a McGraw process of vulcanization, prevents defects such as mold pinches and buckles,—invisible flaws which are a menace to tire service.

You get all the mileage of which quality materials are capable at their best, and you get it without appreciable variation.

McGraw Tires wear out—eventually. But they don't give out.

All Prices Subject to Change Without Notice

Climax Ball-Bearing Grindstone

A well and substantially built machine equipped with both hand crank and treadle. Frame is a combination of wood and steel—finished in Japan and red paint. Runs “true” and easy, for journals are fitted with Ball-Bearings.

Furnished with carefully selected Berea grit stone—from 2 to 2¼ inches thick.

Straight-Away Garage Door Hanger

A Practical Outfit

"Straight-Away" is easily and quickly installed. It is made to fit standard doors. In the carton all parts and screws are separately packed and marked where they are to go. No possibility of making a mistake. You, yourself, can install it in an incredibly short time.

Its straight track does away with extra labor and extra cost where a

supporting arm is required. And it permits of saving of space, because the doors are **Fold-ing-Sliding**. The **Offset-Swivel**—an exclusive Porter feature—insures a perfect fit of doors against jamb and weather-strip. No possible chance for a mistake. "Straight-away" outfit to sag, spring or bind. Slotted holes in the hanger plate make it easily and quickly adjustable to unevenness in floor, etc.

What the Set Includes

The "Straight-Away" Garage Door Set contains everything necessary for you to immediately install it. Note that no brace timbers are required as the track is straight throughout its length.

The set is designed primarily for standard doors, 2 ft. 8 in. x 8 ft., these filling the regular width opening of eight feet.

The complete set includes:

6 feet of Porter "Double-V" Door Track.

Also a neat carton containing:

The "Straight-Away" Hanger with adjustment arm and plate.

2 Chain Latches complete.

2 Door Pulls; one with latch and special blind hasp for padlock.

2 "Double-V" End Brackets for track.

1 "Double-V" Center Bracket for track.

9 Butts Hinges.

All complete, with lag screws, wood screws, etc.

Porter Straight-Away Garage Door Set Weather-Proof

The "Straight-Away" set makes the three doors, when shut, fit perfectly against the jambs. A weather-proof job. Every door is firmly locked. And every door keeps rigid alignment whether closed or open.

Opens Inwardly

With the "Straight-Away" the three doors open inwardly. The insert picture on right hand side shows how the single door can be used as an entrance and how the double doors slide and swing to make available the maximum opening of the doorway.

REFRIGERATORS

We handle the unexcelled line of White Mountain and Pilgrim Refrigerators and can recommend these most strongly to anyone desiring this article.

If interested let us mail you illustrated catalog giving complete description and sizes of the different styles, also price. Buy a Refrigerator that will satisfy you.

O-Cedar Polish Mops A Better and Easier Way to Clean

Triangular
Polish
Mop

Battleship
Polish
Mop

Cleans and polishes at the same time, putting a high, lasting lustre on all varnished surfaces. There is nothing to equal the O-Cedar Polish Mop for polished floors, linoleum, etc. Gets down into the corners, gets the dust under beds, heavy furniture, radiators etc. The mop is padded and cannot scratch or mar the furniture.

The only polish mop that can be successfully washed and cleaned and renewed. Prices:

- No. 1 Large Round O-Cedar Polish Mop . . . \$1.75
- No. 2 Small Round O-Cedar Polish Mop . . . 1.25
- No. 3 Large Triangle O-Cedar Polish Mop . . . 1.75
- No. 4 Small Triangle O-Cedar Polish Mop . . . 1.25
- No. 10 Battleship O-Cedar Polish Mop . . . 1.50
- No. 11 Battleship O-Cedar Dry Mop . . . 1.50

O-Cedar Polish

A Wonderful Varnish Food

For cleaning and polishing floors, furniture, automobiles etc. O-Cedar is by far the most economical furniture polish as it is used with water. Puts on a high, hard, lasting lustre, and does not leave a bluish cast and gummy surface. It contains no grease, mineral by-products or ben-zines.

Every ingredient of O-Cedar Polish is a pure vegetable substance. Positively will not ignite. It is easy to use. Very little rubbing is required.

O-Cedar Polish is well and favorably known and is widely advertised in connection with the O-Cedar Polish Mop.

Myers O. K. Steel Track, in 4, 6 and 8 ft. lengths. Per foot11

HAY CARRIERS THE MYERS O. K. HAY UNLOADER. (Patented)

For Rope or Cable Draft
HAS EXTRA LONG TRUCK
Reversible and Swivel
For Double Steel Track
Has Seven Inch Sheaves.

Fig. 1652

The Myers O. K. Unloader with extra long truck and seven-inch sheaves for cable draft rope is especially designed for heavy work. The long truck distributes the load on the track and adapts the car for using two forks or slings.

The bearings on all rope sheaves are 1 7-16th diameter, hard turned steel.

Price List, Represented by Fig. 1652

No. 209. Myers O. K. Unloader for Double Steel Track, rope or cable draft, 7-inch sheaves, 1 7-16 in. steel bearings. Net Price, \$11.25

No. 200. Myers O. K. Unloader for double steel track, rope draft, small sheaves, otherwise same as No. 209. Net Price, \$9.85

Reversible and Swivel. For Wood Track
HAS SEVEN-EIGHTH INCH TURNED

STEEL AXLES

Fig. 1547

The Myers O. K. Unloader is our latest and best production. Has extra long and heavy truck, distributing the load on track and designed for heavy work, such as slings or two forks.

We guarantee this machine to be stronger than any other carrier made.

Price List Represented by Fig. 1547

No. 205. Myers O. K. Unloader for Wood Track, rope draft. Net Price, \$9.85

No. 212. Myers O. K. Unloader for wood track, rope draft. Same as No. 205 and in addition has 7-inch rope sheaves. Net Price, \$11.25

MYERS CLOVER LEAF UNLOADERS For Double Steel Track

Fig. 1031

Figure 1031 represents the new Clover Leaf Unloader made of malleable iron throughout. Is heavy and substantially made. Is fitted with wide, open mouth to receive the fork pulley when approaching in any direction. Also has swinging fork pulley which relieves the carrier from all strain when drawing hay over a high beam or into a well-filled mow. The track wheels revolve on 3/8-inch turned steel axles. The rope sheaves have longer hub than any other make of carrier. The lock is composed of three parts, and has no springs. The locking device grasps the fork pulley on either side, and permits it to swing free.

No. 114. Net Price, each \$9.85

For Wood Track

Fig. 1032

Has Swinging Fork Pulley—a Great Advantage in Drawing Hay into a Mow When Filled Near the Roof.

The above illustration represents the Clover Leaf Unloader as made for wood track. This carrier is fitted with a wide, open mouth to receive the fork pulley. The rope sheaves and track wheels are all fitted with large turned bearings. The machine is both Swivel and reversible—combined in one machine. By this device the machine can be reversed by reversing the swivel or by drawing the rope through from end to end.

No. 120. Net Price, each \$9.85

HAY CARRIER OUTFITS

Special Notice

When requesting quotations do not fail to give exact length of barn, whether ridge or full rafter, and distance between rafters. Also state whether you expect to hoist from end or center of barn.

Estimates For Hay Carrier Outfits

Estimate of material required for a Steel Track Outfit for different length barns:

For a 40-foot barn, One Carrier, 36 ft. Track, 12 Hanger Hooks, 12 Rafter Brackets, 1 Harpoon, or Grapple Fork, 2 Pulleys, 3 Floor Hooks, 160 feet $\frac{3}{4}$ -in. Manila Rope, 55 feet $\frac{3}{8}$ -in. Check Rope, 1 Rope Hitch.

For a 50-foot barn, One Carrier, 48 ft. track, 20 Hanger Hooks, 20 Rafter Brackets, 1 Harpoon or Grapple Fork, 3 Pulleys, 3 Floor Hooks, 160 feet $\frac{3}{4}$ -in. Manila Rope, 55 ft. $\frac{3}{8}$ in. Check Rope, 1 Rope Hitch.

For a 60-foot barn, One Carrier, 54 ft. Track, 20 Hanger Hooks, 20 Rafter Brackets, 1 Harpoon or Grapple Fork, 3 Pulleys, 3 Floor Hooks, 185 feet $\frac{3}{4}$ -in. Manila Rope, 65 feet $\frac{3}{8}$ -in. Check Rope, 1 Rope Hitch.

Above estimates of Rope are for an End Hoist. In hoisting from center of barn, less Rope will be necessary.

THE COLONIAL PAINT

The Colonial Paint is a Pure Linseed Oil Paint, that has been on the market for many years, and is considered one of the leading brands.

The materials composing this product carefully treated as they are, make a paint of great toughness and elasticity

that has excellent covering capacity and durability.

As the choicest coloring ingredients are used in making this product the richest coloring tone and finest finish is developed, and the building to which it is applied presents a beauty of appearance which distinguishes it from others in the locality.

The Colonial Paint is manufactured in forty different shades, from which beautiful color combinations can be made, that will not only harmonize with the architectural design of any building, but also with the surroundings, thereby making the property much more attractive, and also increasing its value.

The Colonial Paint can be sold with perfect assurance that it will meet the demand of every user.

All Prices Subject to Change Without Notice

Colonial Wagon and Implement Paint

For farm wagons, machinery and implements.

Dries with a high, durable gloss.

It is money well spent to protect implements from rust and decay.

Colonial Floor and Deck Paint "Made to Walk On"

Excels in lustre, toughness and elasticity. Dries hard over night.

Manufactured in fifteen colors—Brown, Dust, Yellow, Gray, Lead, Light Drab, Red, Drab, Spruce, Green, Terra Cotta, Stone, Maple Red, Maroon, Pearl Gray.

Amalgam Paint—A preservative coating for wood, metal and other exterior surfaces.

Automobile, Carriage Paint—For painting and varnishing all kinds of vehicles in one operation.

Colonial Bath Enamel—For use on the tile, metal, wood or other surfaces in the bath-room or about the bath-tub.

Colonial Quality Colors in Oil—Manufactured from purest and strongest pigments that can be obtained.

Vel-ve-ta

The Sanitary Washable Wall Finish

Vel-ve-ta is manufactured under a patented formula—contains no lead or other poisonous pigments, and although applied to the surface like an oil paint, when dry it is non-absorbent, can be washed with soap and water, and is therefore sanitary.

It dries with a beautiful soft and velvety finish, which is pleasing and restful to the eye.

It will not turn yellow, craze or peel. It will not show laps, streaks or brush marks.

Vel-ve-ta is recommended for interior decoration in homes and public buildings, and in factories. It is equally adapted for this use because it effuses light.

Dry Colors—High grade in every respect.

Colonial Screen Paint—For coating wire screens. Will not clog.

Chalco Paint and Varnish Remover—For removing paint or varnish.

Transparent Colored Varnishes

Gold and Aluminum

Solid Enamel Colors

There is a color provided for every requirement of the housewife who wishes to keep her floors, furniture, woodwork, etc., in spic and span condition. There is also Jap-a-Lac Floor and Interior Varnish (Natural) which is the most durable floor varnish on the market. Jap-a-Lac is for use on window screens, screen doors, iron fences, radiators, registers, water pipes, automobiles, wagons, in addition to the most common uses such as in floors, furniture and woodwork.

GLIDDEN GREEN LABEL VARNISHES

The name "Glidden" on a label is an absolute guarantee of high quality. Nearly fifty years of experience in the manufacture of varnishes and specialties for all purposes together with the most modern facilities, insures uniform quality at all times and goods that can be depended upon to give perfect satisfaction. Any person purchasing goods under the Glidden Green Label Brand can feel assured that he is receiving full value. There is a brand made for practically every purpose and at prices which fit any pocket-book. Send for price list.

GLIDDEN ENDURANCE WOOD STAINS

Superior to oil or spirit stains and do not raise the grain. Glidden's Endurance Wood Stains are for use on new wood which has never been finished. This line is made of fourteen attractive colors. Their beauty and practicability lie in the fact that an even stain is produced, thus insuring a beautiful lasting finish. The stains produce the beautiful Mission effect, so much in vogue at the present time, and are also for use when securing a waxed or varnished finish. Color Cards and Price Lists on Application.

INTERNATIONAL ELASTIC CARBON PAINT

A practical, scientific blending and grinding of oils and pigments making a paint of enduring elasticity for shingle, felt, canvas, paper, asphalt, tin and iron roofs, bridges, machinery, tanks, iron or steel buildings, smoke stacks, boilers, burners, brick, tile, concrete, farming tools, wagons, also the hulls and bottoms of vessels and boats.

Our International Elastic Carbon Paint

Combines extreme usefulness and economy, because it is thoroughly elastic. Used on roofs or iron work, it lasts longer than any other for the reason that the paint expands and contracts in keeping with the surface on which it is placed.

This paint is not only elastic in the highest degree, but it has a very heavy body which fills all holes and cracks, making the surface perfectly water-tight. It cannot peel, crack or blister.

In fact, it is the ideal paint for the purpose for which it is made.

Price: 1 Gallon60 Larger Quantities on application.

All Prices Subject to Change Without Notice

Bronzite

The Permanent Green Paint

Made from an ore base, Kolonite, which gives it stability of color.

Bronzite is recommended for the painting of store fronts, doors, blinds, structural and ornamental work, fences, and in fact all outside surfaces generally where a green paint is desired.

Bronzite is impervious to chemical action, atmospheric conditions, resists heat and is non-corrosive.

Bronzite is a specialty green, the green that is different—it lasts, wears and holds its color and covers more surface than other greens.

Bronzite is put up in six shades, in paste form in 12½ and 25 pound pails, also in liquid form.

Eagle White Enamel—For interior decoration of woodwork, etc.

Whitney & Griffin Barn Red—For painting barns, fences, etc.

White Lead—Short, fine, and of exceptional whiteness.

Comprises three individual lines of household finishes under one trademark name, "Jap-a-Lac."

JAP-A-LAC

HISCO OILS

HISCO Medium Auto Oil

This is a motor oil of medium body universally adapted for general automobile use, will give good compression and wearing qualities, and is free from carbon.

HISCO Heavy Auto Oil

This oil is of heavy body, superior for cars or trucks which have been in use for some time, and will greatly increase the compression and effective work of the engine. This oil is a fine lubricator and economical in use.

HISCO Light Auto Oil

This oil is a motor oil, light in body, for new cars and for all motors having tight compression, and will be entirely satisfactory to customers desiring an oil light in body for motor use.

HISCO Ford Special Oil

This is the Model T Ford Oil especially adapted for the Ford car, and as indicated by its name will give fine results, good wearing qualities, freedom from carbon, and is for oil what the name "Ford" indicates for a car.

Monarch Truck Oil

This is an Underhay Oil adapted for truck use, medium in body, will stand a low cold test, give good compression, and is of great wearing qualities, adapted for the rugged and hard work experienced by a truck.

HISCO Dark Steam Cylinder Oil

This is a steam cylinder oil for stationary and portable steam engine use, from the best refined stock, compounded to meet steam conditions, and is in every way guaranteed satisfactory for general steam use.

Excellene Medium Auto Oil

This is also an Underhay Special and cannot be too highly recommended by us. It is from Appalachian crude, carefully filtered, with high wearing qualities, low cold test, and once used customer will have no other quality.

HISCO Light Separator Oil

This oil is for cream separator use, and is very light in body to meet the conditions of a separator.

HISCO Red Engine Oil

This is a lubricating oil of good body, free from gum or sediment, of proper quality to lubricate general engine or shafting bearings, mowing machines and all other farming tools.

HISCO Chase Tractor Oil

This is a tractor oil especially manufactured for general tractor use, and is eminently adapted for the Chase or other tractor engines. This oil has a high flash and fire test necessary for the rugged work of a tractor, and will hold its body well under the extreme heat of operation. It is universally used for tractor lubrication.

HISCO Paraffine Oil

This is an amber oil light in body, especially for use in laying dust on floors, very light lubrication, or for any other use where an oil of light body and low price is needed.

Cup Grease

This is a superior yellow Cup Grease, medium in consistency, for use in cups on the engine, spring ends, and elsewhere about the automobile and truck, also for any engine room use where a grease is needed in a compression cup.

Monarch Gear Compound

This is a product carefully refined and manufactured according to government specification for use in the transmission and differential gears of automobiles and trucks. It is a good lubricator and will not deteriorate in use like a yellow transmission grease. It is very adhesive and will not give the usual trouble in running through the shaft ends. Once tried, always used.

MYERS LINE OF PUMPS

We carry the most complete line of Pumps in this section. We have it whether you want it for house, barn or orchard. House pumps, well pumps, for all conditions including spraying pumps and pumps for pneumatic water systems, whether hand or power. If it's a Myers it is right.

RED HEAD SPARK PLUGS FOR FORD CARS

The Ford requires a spark plug especially designed to suit the engine. The Red Head long body plug for Ford was specially designed by a Ford Engineer. This plug

has an extension above the threads, which makes it possible to readily get at the plug with an open end wrench. Has Vitristone Insulator.

Long Body for Ford \$.75

RED HEAD SPARK PLUGS AND McGRAW TIRES—THE IDEAL COMBINATION

Prices Subject to Change Without Notice

McGRAW FABRIC and CORD TIRES

When you buy tires you want dependable service, not phenomenal mileage once in a while, but four good tires out of four. You do not want to bargain for mileage by adjustments, you want Assured Service. McGraw Tires constructed of high grade material and structurally right, because of the Duplex Method, afford freedom from uncertainty and permit you to feel as confident of your tires as of your motor. They deliver the full mileage expected and yield only to Accident and Abuse.

The Duplex Method and What It Does

If mileage depended solely upon material, every high grade tire would deliver six, eight or even ten thousand miles. Mileage comes from right materials and proper Construction. The Duplex Method is the McGraw process of vulcanization which prevents fabric buckles and mould pinches, the menace of tire life. Compression of the tire in the vulcanizing mould is deferred until the rubber becomes heated and plastic. Then when hydraulic pressure is applied to vulcanize the tire, the rubber is not stiff enough to pull out of place. Fabric layers set smooth, no creases form, pinches and buckles are avoided. The tire is a perfect structure.

Tubes

The same careful construction and high grade materials which make McGraw tires second to none are found in McGraw Tubes. Both the Red and Gray brands are thick, tough, and non-deteriorating, and are carefully vulcanized to preclude the possibility of pin holes or slow leaks. Both are carefully packed in cartons and reach the consumer in perfect condition. For the motorist seeking the right tire equipment we recommend McGraw Tires and Tubes, confident that they will give satisfaction in every respect.

Guarantee

McGraw fabric tires are guaranteed for 6,000 miles, cords for 8,000, against mechanical and material imperfections. Any McGraw tire failing to render the guaranteed mileage under normal conditions will be promptly adjusted on basis of obtained mileage, when returned to us transportation charges prepaid.

Dealers

In a National advertising campaign the public is being told of McGraw Tires and Tubes, of their quality, construction, and exceptional performance. Motorists are going to want them, they are going to look for the McGraw Dealer. Do you want these new customers? If you do, if you are interested in increasing YOUR profits, in obtaining NEW business which will be permanent, write us for the McGraw proposition. NOW.

GARDEN CULTIVATORS AND SEEDERS

Hisco Garden Cultivator

Hisco garden cultivator has made a reputation and the 24-in. high wheel makes it an implement which will serve any purpose desired. Complete as shown; shipping weight 19 lbs. Price, \$4.25

Hisco Garden Cultivator

No. 306 Combination Garden Tool
Four Tools in one

Hill Seeder—Drill Seeder
Double Wheel Hoe—Single Wheel Hoe

Iron Age

No. 301. Double and Single Wheel Hoe

No. 301. Iron Age Double and Single Wheel Hoe. A Combination which is easily and quickly changed from one form to another. This feature alone makes the tool doubly valuable. When the plants are young, the double wheel hoe should

No. 301

be used astride the row and the single wheel hoe for working between the rows, after the plants have grown too high to be worked properly any other way. Complete with all tools as shown. Shipping weight, 40 lbs. Price, \$12.00

No. 306. Iron-Age Combined Hill and Drill Seeder, Double and Single Wheel Hoe.

Combination tools should be used for two reasons. They save in first cost and they take less room. Gardeners have found this to be true of the No. 306. Of course most market gardeners prefer to have separate tools always ready to do each separate piece of work—drills, wheel hoes, wheel plows, etc. The home gardener who has enough ground to warrant it, will find the No. 306 very convenient. Complete with all tools as shown; shipping weight, 57 lbs.....Price, \$22.00

Dustbane

The very best of all sweeping compounds on the market. No sand to increase its weight. It is a perfect Dust Killer. Every Storekeeper as well as every housewife should have a supply on hand and use it at every sweeping. A handful at a time when you sweep absorbs the dust, brightens the floor and cleans your carpet.

Prices: Large can, .30; 50-lb. can, \$2.00; 100-lb. barrel, \$4.00; 150-lb. barrel, \$5.75; 200-lb. barrel, \$7.50.

All Prices Subject to Change Without Notice

"Red Chief" Rapid Grinding Feed and Grist Mill No. 5

With fly wheel. Has same capacity as No. 10. A perfect Hand Power Grinding Mill. The Fly Wheel makes the Mill run steady and with the least possible power to turn it. With the crank extended, there is no mill that will run as easy. Feed Gauge and

New Fine Grinding Burr in this mill. Price, \$5.75

"Red Chief" Rapid Grinding Feed and Grist Mill No. 10

Capacity, 2 to 4 bushels per Hour

Equipped with extra hardened burrs.

Grinds Coffee, Chicken Feed and Cracks Peas, etc. Will make good Corn Meal and Graham Flour. Can be cleaned and adjusted in a moment's time without the use of a wrench.

Price, \$7.00

"Red Chief" Power Mill No. 20

For grinding corn meal, graham flour, stock feed, etc.

With a speed of 300 to 450 revolutions per minute, will grind 10 to 20 bushels feed per hour. Power required, 1½ to 2 horse power engine. Hand Crank for use when engine is not running. Tight and loose pulley, 10 inches in diameter, 2¼-inch face. Reversible belt shift. Feed Regulator.

Price with Stand, \$27.50

Improved "Red Chief" Hand Corn Sheller

Is Guaranteed to do as Good, if not Better Work, than any other Sheller on the Market.

Has patent oval shaped teeth, shelling the corn without cracking the grains. Only sheller safe to use for shelling seed corn. Throws the cobs outside every time. Clamps on barrel or box. Closed hopper, making it impossible to pinch hands.

Red Chief Hand Corn Sheller
Requires no wrench. Tension directly on cob, not on hopper, which makes sheller run very easy, no force being required to expand a hopper. Price, \$3.00

The Spreader with the Beater on the Axle

All Driving Parts on the Rear Axle

No Clutches No Chains
No Adjustments
Easy to Load Light Draft
Roller Bearings

This Spreader represents the very latest improvements in manure spreaders and is simple to operate. Apron absolutely cannot race. Steel and malleable construction. Load divided on all four wheels, reducing draft.

The John Deere Spreader is all that its name implies. It is mechanically right. The materials used are the best to be had. It does its work better and with greater ease than any other spreader on the market.

What the user appreciates most, however, is the simplicity of its construction, the ease with which it is loaded, the light draft and the fine quality of work it does under all conditions.

If interested in a Spreader do not fail to send for our free, colored booklet, fully describing the John Deere.

We handle a complete line of Myers Spray Pumps, Power Spray Outfits and Fittings. When in need of spray goods, ask us for prices and special literature.

THE NEW JOHN DEERE SPREADER

THE SYRACUSE REVERSIBLE SULKY PLOW

For Hillside or Level Land

For a great many years the Syracuse plows have been among the most popular in New England and their work easily gains them that distinction.

These plows are equipped with

Hardened Steel Mouldboard. Steel Landslide and Chilled Frog and Share. Furnished with either two or three-horse equipment.

NEW JOHN DEERE TWO WAY SULKY PLOW

With the Auto Foot Device

New John Deere Two Way Sulky Plow

The John Deere Sulky Plow represents the highest type of material and workmanship that is possible to procure. The entire frame and beams are constructed entirely of high carbon steel, hence are very strong and durable.

The new style foot landing device is the most satisfactory ever used and by its use and the horselift operated by foot power, the plow can be operated very easily.

Extra wide and long steel frame. Track wider than the ordinary plow, making it run steadier and less liable to overturn.

Sizes	Cuts
1342S-1442S	{ 3 to 8 in. deep
Medium size	{ 12 to 16 in. wide
1341S-1441S	{ 4 to 9 in. deep
Large size	{ 14 to 18 in. wide

Fitted with either Jointers, Hanging Cutters or Fin Cutters. Two or Three-Horse Eveners.

Note these John Deere Tractor Plow features:

They can be used with any standard tractor—hitch and depth control levers are adjustable to suit the tractor.

The bottom is the heart of the plow—all the rest of the plow is built merely to enable the bottom to do its work. The right kind of a plow bottom makes money for the owner. It lays the foundation for the right kind of seed bed. The crop yield is increased. The plow lasts longer and pulls lighter—a saving in actual cost, power and trouble. The bottom on every John Deere plow is correctly designed. John Deere plow success is due to bottom construction. An easy, high and level, power-lift, a pull on the trip rope, raises the plow; another pull and the plows enter the ground.

JOHN DEERE TRACTOR PLOW

The tractor does all the lifting, and the rear end of the plow lifts high as well as the front. There is no gathering of trash when turning.

John Deere tractor plows can be backed—a stiff hitch is employed. There is perfect control when pulling, turning or backing.

SYRACUSE WALKING PLOWS

Syracuse Diamond Swivel Plow

This type of Side Hill Plow has always been very popular in New England, being light, but still having great strength and good turning qualities.

Easy shifting clevis and also automatic shifting Coulters except on small size.

Furnished in three sizes: Small-horse, Two-horse and Large Two-horse.

Syracuse Combination Walking Plows

This particular pattern is one of the best suited for conditions in this territory.

Fitted with hardened Steel Mouldboard, Steel Landslide and Chilled Share. No. 32 Medium Two-horse, No. 31 Large Two-horse.

Syracuse Contractors Plow

Hard iron wearing parts. Extra heavy Beam, Share and Strip Steel Wheel Frame. Loop

Handle wear Irons. An excellent Plow for general grading purposes.

The Deere Model K Harrow

Model K
with
Tongue Truck

Deere Model B Disc Harrow

A Really Flexible Disc Harrow

Only Harrow manufactured having third lever giving spring pressure on gangs. High steel frame, oscillating scrapers with lock off device. Gangs work independent of each other. Oil tubes extending to top of frame. Furnished with 16, 18 or 20 in. discs, either plain or cutaway.

The User of a Deere Disc Harrow is always a Satisfied Customer.

Send for
full descriptive catalogue
and prices

One working of the DEERE DOUBLE ACTION HARROW accomplishes more thorough pulverization of the soil than two separate operations because with this harrow the second working takes place immediately after the first and the partially broken-up soil does not have time to dry out and is, therefore, more finely pulverized by the action of the second section of the harrow. We recommend using plain discs on the front section and cutaway discs on the rear section and by their throwing in opposite directions the greatest efficiency in a harrow will be obtained. The front section can be used alone any time desired.

Special Circulars and prices on application.

Spring Tooth Harrows Construction

Frame bars of angle steel are thoroughly protected by steel shoes, doubling the life of the harrow. Frame bars are raised at the rear ends

to give free outlet to trash.

Tooth bars of channel steel journaled in malleable brackets above the frame, which give the teeth high and great range of adjustment for depth of cultivation and clearance.

DEERE DOUBLE ACTION DISC HARROW

JOHN DEERE
MOLINE, ILL.

Deere No. 7 Combination Tongue Truck For Steel Stub Disc Harrow

The New Deere Combination Truck and Fore Carriage illustrated herewith will fully meet the requirements of all disc harrow users. It is simple, strong and compact in construction. The wheels are solid steel with wide oval tires and with closed bearing boxes. By simply changing

tongue iron can be changed from two to three horse hitch.

Can also furnish No. 5 Truck for wood stub tongue.

Deere Model R Orchard Harrow

This harrow is constructed to especially meet the requirements of orchard cultivation and it can also be used as an ordinary harrow. The gangs are reversible for in or out throw and are adjustable in or out on the harrow frame and extension frame.

By use of an extension frame the gangs can be spread to a distance of over ten feet between them. This allows cultivation under overhanging branches. Can be furnished in either 4, 5 or 6 ft. widths. Unexcelled for orchard work.

Send for full descriptive catalog and prices.

Roofing

We carry weather-proof roofing made of Heavy Wove Felt, thoroughly saturated with a natural asphalt saturation, which not only gives it a heavy body, but makes it perfectly water-proof, acid-proof and is unaffected by contraction or expansion. We have this in one, two and three ply in a number of grades.

Samples and prices on application.

Deere Universal Spike Tooth Harrow

Made of steel throughout which gives strength without useless weight. The lever allows the teeth to be angled in any desired position and is also provided with a spring trip allowing the teeth to give in stony or rooty ground.

One Section, 30 Teeth, One Horse.....\$12.00
Two Sections, 60 Teeth, Two Horse 24.00

Acme Two Horse Riding Harrow

The Acme Standard Two-Horse Riding Harrow has two coulter sections and is flexible. The harrow may be made rigid when desired by braces provided for this purpose. Each section has six coulters, making twelve in all. Width of cut is 6 feet 6 in. Weight, 125 lbs.

Send for Full Descriptive Catalog and Prices.

There has always been a large demand for a Wing Potato Hoe of this type. They are constructed of the best material and are invariably satisfactory to our customers. They are fitted with an adjustable extension on the wings which is a decided advantage.

Can also furnish the well-known Syracuse Potato Hoe.

Hisco Wing Potato Hoe Two-Piece Wings

Price, \$11.00

Syracuse Wing Price, \$12.00

Hisco Disc Potato Hoe

Equipped with 20-inch disc.

A great many persons prefer the disc type of hoe in preference to the wing. Standards are movable on cross-bar to allow spacing of disc.

Price, \$12.00

John Deere Pivot Axle Cultivator

A practical, general purpose Cultivator for Corn, Beans Potatoes and general row crops.

Fitted with either spring trip hoes or spring teeth. Frame has a clearance of 32 in. and an adjustment of 30 to 43 inches in width. Constructed of steel and malleable iron, making great strength and durability.

Special Disc Hilling attachment for potatoes. Send for special Circulars and prices.

Deere J. B Cultivator Parallel Guide

The value of any cultivator to the farmer is governed primarily by the good qualities that show in actual use.

The Parallel Guide secures perfect control and thorough cultivation in narrow and crooked rows and on hillsides as well as in straight rows.

The automatic lift relieves the operator of the labor of raising the rigs and balancing the cultivator; enables him to give his entire attention to work requiring judgment and skill. Depth of cultivation is regulated accurately.

Shovels penetrate and scour because they are always in same position to the line of draft.

Hitch is of the pendant type and adjustable. Pull of the team is applied directly to the point of greatest resistance, making light draft.

Can be equipped with Disc Hilling Attachment for potatoes.

Saves a Man and Team

Operated by the man on the load.

Operated with gasoline engine. Drum holds 240 ft. of rope.

Ireland Hay Hoist

A powerful machine that saves time and labor in storing hay and in other hoisting. Used in connection with harpoon fork or sling. Attach it to your own engine. Safe and easy to operate. Instant control. Pulley to suit your engine. Guaranteed as represented. Write for circular and prices. IRELAND MACHINE & FOUNDRY CO., Inc. 22 State Street, Norwich, New York.

Little Giant Walking Cultivators

Little Giant Steel Walking Cultivator, 5 and 7 Tooth with Wood Handles

This tool is used for working very closely to small plants of tobacco, corn, potatoes, etc. It thoroughly pulverizes, but throws no dirt on plants. It is also used as a Straight Diamond Tooth Harrow, also as a Smoother with sharp points down in order to cut and level the surface, the tooth, with sheared end down, being less liable to injure young plants when smoothing over corn, potatoes, etc. For very close work every other tooth can be quickly removed.

14 Tooth Little Giant with lever and gauge wheel\$8.25

5 Tooth Little Giant with lever and gauge wheel \$8.00
7 Tooth Little Giant with lever and gauge wheel 9.00
Horse hoe attachment for 5 or 7 tooth 1.75

Same high-grade construction as the 5 tooth and having two more teeth.

7 Tooth Steel Cultivator

No. 314 7 tooth with lever and gauge wheel...\$10.75
Horse Hoe Attachment 2.25
Long Hiller Attachment 4.50

Because of the steel and malleable construction these Cultivators are very durable and free from breakage. Furnished with Horse Hoes or Long Hillers.

Deere Steel 14 Tooth Cultivator

Fitted with steel reversible teeth. No. 320 14 Tooth lever and gauge wheel\$8.50

Seed will not grow in soil that is cloddy, dry and hard—you know that. And there is no sure way of telling whether your soil will be left

in that condition this year because of a continued spell of dry weather. Roll down those clods and you will have a seed-bed that will grow your costly seed.

The Johnston Steel Land Roller is recommended by farmers who have discovered the need of a roller. They prefer a steel roller to a wooden one because it is more durable and easy running. The Johnston Roller frame is of angle steel. The axle is of 1 1/2 inch steel shafting and turns in hard maple boxes.

Johnston Steel Land Roller

Especially adapted for use in corn and small plants. Stirs the dirt thoroughly but does not throw dirt on plant.

All Prices Subject to Change Without Notice

The John Deere No. 999 is the most accurate, and therefore the most desirable corn planter ever designed. Its extreme accuracy is obtained by means of its new and improved drop. That is, the seed cell and cut-off plates are so shaped that the kernels naturally lie on the hopper bottom in the best position to move toward, enter and rapidly fill the cells. The weight of the corn in the hopper assists rather than hinders the filling of the cells. This construction secures the most accurate drop ever put on any corn planter, regardless of whether it is a flat drop or an edge drop planter.

Fertilizer Attachment

This attachment is easily put on without changing any of the regular parts of the planter. Easily removable hoppers have increased capacity and are so constructed that fertilizer is kept agitated and cannot bridge.

More and Better Corn

We have just issued an attractive, interesting and instructive booklet which more fully describes these planters. This booklet is furnished free upon request.

King of the Corn Field Planter

This Corn Planter has been for years one of the leading machines for planting corn, beans, peas, beets and other seeds used throughout this

territory. It is equipped with fertilizer distributor, and is perfectly adapted to all requirements of this section. It can be arranged to drop any desired quantity of seed or fertilizer; can also be used for planting corn and beans at the same time, dropping each kind of seed in rotation.

Price, \$31.00

Eclipse Corn and Bean Planter The Original Eclipse

This planter has been sold for over twenty years, thousands of them are in use, and there is great demand for this machine. The fact that the

Eclipse is still on the market without being changed is guarantee enough of its efficiency and durability.

Price, \$31.00

Corn Planters

John Deere No. 999 Two-Row Corn Planter

Stowbridge Broadcast Seed Sower

It is a simple, effective seeding apparatus complete in itself which may be attached in a few moments' time to any farm wagon or other vehicle.

Price, \$10.00

Improved Stone Boat Front

This device enables the farmer to make a stone boat in one

hour's time with ordinary straight plank that he may have on the farm. All tools necessary are saw and bit.

The frame is made of strong angle steel bars giving strength and durability. Teeth are specially constructed and oil tempered and have correct shape to give proper elasticity. Price \$10.00

Standard Weeders

All Prices Subject to Change Without Notice

Cahoon Seed Sower

Will sow all kinds of grass and grain seeds from four to eight acres per hour at a common walking gait. Heavy seeds, such as wheat, it will throw 40 feet (20 feet each side of the operator); lighter seeds, of course, will not be thrown so far.

Price, \$4.00 Postpaid, \$4.15

Cyclone Seed Sower

This sower is guaranteed to distribute all grass seeds and grains perfectly even and directly to the land. Sows grass seed from 18 to 20 feet and grains a longer distance.

Price, \$2. Postpaid, \$2.15

Hoover Potato Planter With Fertilizer Attachment

The Hoover Potato Planter is a new addition to the line of potato machinery manufactured by the makers of the well known Hoover Potato Digger. The Hoover Planter is just as well made and will be just as satisfactory to the user as the Hoover Digger has been. The main frame of the Hoover Planter is made of channel steel formed to the proper shape to bolt solid at both ends.

Steel roller bearings on main axle.

Steel wheels 40 inches diameter, 3 1/2 inch tires.

Potato Hopper holds 2 1/2 bu.

All operations of the planter are under the eye of the operator from his seat at the rear.

Equipped with fertilizer attachment. Prices quoted on request.

Improved Robbins' Potato Planter The 100% Potato Planter

The Automatic Hand Corn Planter

In the Automatic Corn Planter are Combined all the latest and best improvements

yet made in implements of this character. In this planter the seed is delivered from the dropper to the receptacle at the bottom, which, when opened by pressing over on the foot, leaves it at once at the depth required, avoiding the trouble found with all hand planters that deliver the seed direct from the dropper to the soil. It also has a most convenient attachment for regulating the depth of planting; this can be raised or lowered in a moment and insures delivery of seed at precisely the depth required, whether the soil be hard or mellow.

It is results that count in potato culture—the net return in dollars and cents. At the same time there is a lot of satisfaction in a clean field with straight rows and every hill planted. It is the sign of a practical farmer. The right start is half the race and here it is—an automatic

machine planter that places every seed piece exactly as you want it without a miss or a double and without injury. The result is, every hill planted at the right depth, the right distance apart and covered level or ridged. Has a very positive and successful fertilizer attachment that will handle all kinds of commercial fertilizers. Send for Descriptive Booklet and Prices.

All Prices Subject to Market Changes

VAN BRUNT FERTILIZER DISC DRILL

Light Weight Light Draft Force Feed
Spring Pressure Large Capacity
Durable

Even Seeding in Furrows of Uniform Depth. No Ground or Seed Wasted.

The drill that puts any seed, from alfalfa to bearded oats, at the bottom of furrows of even depth, without choking up and failing to sow part of the field or planting too much in other parts. All grain is ready for harvest at one time. Any standard fertilizer is handled by the Van Brunt just as accurately as seed. Send for Booklet.

Van Brunt Lime and Fertilizer Sower with Oscillating Agitators

The Van Brunt Lime and Fertilizer Sower is built in the standard size to cover eight feet of ground, with a carrying capacity of ten bushels. For strength, durability and simplicity it is unexcelled.

This sower has 36-inch steel wheels with staggered spokes, heavy wide rims, removable dust-proof boxings, and compression grease cups with chilled wheel bearings.

The hopper is exceptionally strong, of selected well-seasoned matched lumber; steel ends with angle steel corners, thoroughly braced; close-fitting covers and removable screens.

Send for Booklet

STANDARD NONPAREIL LIME AND FERTILIZER SOWER

The Standard Nonpareil is simple in construction and operation.

It will sow a large variety of material, distributing air-slacked, hydrated or ground lime, ashes, plaster, fertilizers, bone, potash mixtures, cottonseed, nitrate of soda and acid phosphate.

Each machine equipped with screen which automatically screens the material while filling the box.

It can be quickly and easily adjusted to distribute evenly and accurately any quantity from 100 lbs. to 3,000 lbs. per acre.

Positive force feed—Sows 8 feet wide—hopper holds about 9 bushels and is 28 inches high.

Standard Nonpareil Lime and Fertilizer Sower

Empire Broadcast Fertilizer Sower

The Empire 8-foot Broadcast Fertilizer Sower is especially designed for sowing a large quantity of lime or fertilizer per acre.

It has a positive force feed, which insures accuracy in the quantity sown.

The scattering tubes are constructed so as to deliver the fertilizer or lime in an even sheet over the ground.

The capacity of the Empire, as regularly equipped, is from 150 to 1,400 quarts of fertilizer; from 375 to 1,500 quarts of lime per acre. We can furnish gears that will sow a greater or lesser quantity if desired.

Stevens Fertilizer Sower

This sower combines strength, simplicity and durability. Will sow all kinds of fertilizers either broadcast or in rows. Equipped with Lang Gauge giving approximate amount sowed per acre.

	Size	Capacity	Weight
One horse,	5 ft. 10 in.	9 bu.	400 lbs.
Two horse,	8 ft. 3 in.	9 bu.	510 lbs.

Circulars and Prices on Application.

Features That Characterize the Dain Vertical Lift Mower

Compensating Gears—That remove strain from the bearings and transmit instead of consume power.

Long Pitman Shaft—That has all end thrust removed, hence has no need of thrust bearings.

Alignment of Cutter Bar—Seldom necessary, but easily, quickly and positively made.

Centering the Knives—So that they always register perfectly in the guards, insuring perfect work.

Vertical Lift—A lift so easy to operate, an ordinary boy handles it readily.

An Easy Foot Lift—So easy it's surprising, especially after using other kinds.

THE JOHN DEERE DAIN VERTICAL LIFT MOWER 5 and 6 Foot Cut

Adjustable Draft Hitch—Instantly set to remove side draft in the most severe conditions of work.

Material and Workmanship—Of the known Dain standard proven by service reliable and trustworthy.

Send for Special Descriptive Booklet.

The Johnston Lever Fold Mower

This Mower is strong, durable and very light draft, 34 inch drive wheels. Roller bearings. Wide truck. Long drive pitman. Long horizontal crank shaft. Excellent working foot lift. Convenient levers.

Showing Ease of Handling Johnston Lever Fold Mower in Passing Over Obstruction

No. 12—5-ft. Two-Horse Mower.

No. 14—6 and 7 foot Two-Horse Mower.

Dain Side Delivery Rake

The Dain Side Delivery Rake has a frame of strong steel construction giving great durability. Has strong steel raker teeth sufficient to rake and deliver the heaviest crop of hay, also having perfect flexibility when striking an obstruction.

No farmer cutting a quantity of hay can afford to be without one, especially if using a hay loader.

Leaves the hay in a long, continuous windrow in the very best condition for curing. Will shake water from grass in as satisfactory way as a tedder. Let us send you booklet giving full description and prices.

JOHN DEERE
MODERN
THE TRADE MARK OF QUALITY
MADE IN AMERICA BY J. I. BECK & SONS

New Deere Hay Loader For Swath or Windrow

An Economy

A Desirable Loader

The most desirable hay loader is the one that combines to the greatest degree durability, capacity, and efficiency. This describes the **NEW DEERE LOADER** in a nut shell. It is very durably constructed, yet light in weight, will pick up any quality and condition of hay either from the swath or windrow and do it as clean as any rake.

Send for Full Descriptive Catalog.

When hay is grown in any quantity the saving in time, labor, and quality of product effected by a hay loader will often wipe out the purchase price the first year used and thereafter become a source of clear profit.

New York Champion Wood Rake

For years the New York Champion Rake has been the best known and most successful wood rake in this locality. We would certainly recommend the above to our customers who do not desire a steel rake.

It is carefully and substantially built, and nothing but the best of material is used in its construction.

Send for Circular

Johnston Steel Rake

All steel, but the combination pole and shafts. Double hub steel wheels, angle steel frame with truss. Long flat pointed teeth.

Light draft and clean working. Strong and durable.

Furnished in 8, 9, 10½ and 12 ft. sizes.

Prices and Circulars on Request.

Johnston Steel Tedder

Johnston all-steel Tedders are strong and durable, and work most satisfactorily. The frame is steel, the wheels are steel and double hubbed. Three sets of roller bearings on the main shaft insure its light running. Three tined crucible forks are used; the spring on the fork is located behind it, and does not come in contact with the hay and get tangled in the rod and spring. Another feature is the spring balance tilt. The Johnston is equipped with combination pole or shafts. Made in 6 fork size.

IRON AGE FOUR-ROW, 55-GALLON TRACTION SPRAYER

Prevent blight by spraying and also increase the yield enough to pay for machine, solutions and labor in a short time. This is the kind of insurance that saves your crops (and nothing else will) and gives you a handsome profit besides.

Spray for bugs in the quickest, surest way. That means, use the right solutions, at the right time, and put them on with four- or six-row machines that save your time and do the work thoroughly.

Most successful of their kind. This line is the result of ten years of experience making such machines and we do not hesitate to recommend them as the most successful of their kind for more than ordinary reasons—they have capacity, power and adjustment to suit your crops (and nothing else will) and gives you a hand-made, and every modern convenience for easy working.

Equipment. Double-acting pump, 55-gallon wood tank, wood wheels, 50x3 inches and adjustable on the axle for various width rows, regular spray bars, combination pole and thills.

Pipe, fittings, hose, etc., are made of the highest grade of material, as are all parts on the sprayers. Each sprayer includes a bucket strainer. Packed weight, 700 lbs. Descriptive folder and price on application.

No. 102 E D

SILVER'S "OHIO" LIGHT DRAFT SILO FILLERS WITH SUCTION BLOWER

NO. 40 4 to 6 H. P.

No. 60 6 to 8 H. P.

No. 90 8 to 10 H. P.

Gasoline, 3 to 5 Tons an Hour.
Direct Drive. Drive pulley, cutting cylinder and fan wheel all on main shaft utilizes every ounce of power.

Gasoline, 5 to 7 Tons an Hour. Gasoline, 7 to 10 Tons an Hour.

Fill Highest Silos With Ease

Patented Friction Reverse. By the use of a single lever all moving parts except knife cylinder, can be instantly stopped, started or reversed without the slightest strain. Not a gear tooth changes mesh in reversing—a remarkable feature.

Accessibility. Knives and cutter bar can be readily removed for sharpening or replacement without disturbing other parts. Experienced user will appreciate this advantage. The single lever control can be reached from almost any position around the machine.

Patented Knife Adjustment. This feature insures perfect cutting, which is just as essential to good silage as keeping the silo air tight. Uneven, imperfect cutting prevents close packing, causing air pockets and spoiled silage.

All Prices Subject to Change Without Notice

There is probably no implement so well known in potato-growing sections as the Hoover Elevator Potato Digger. In Aroostook County, Me., where more potatoes are grown than any other section in New England, and where a potato digger gets a severe trial, the Hoover has given perfect satisfaction. Its success can be attributed to the fact that it was built to withstand most trying conditions.

It hardly seems necessary to go into detail regarding its points of merit, for its success is guarantee enough for its superiority in design, construction and efficiency in the field.

We do wish to call particular attention to the vine separator used on the Hoover, which delivers the vine, weeds and trash to one side of the row, leaving the potatoes exposed to view and readily accessible.

Send for descriptive catalogue which contains convincing testimonials from most enthusiastic purchasers.

CULTI-PACKER

Combination double gang pulverizer, roller, packer and clod crusher. It will serve all these purposes, as well as level the soil, leaving the small ridges loose, fine and mellow.

An increase of crops is guaranteed if used before and after seeding, and we claim this is the best implement made for preparing the seed-bed.

Send for descriptive matter and prices.

SYRACUSE GARDEN BARROWS

For twenty-five years Syracuse Wheel Barrows have been recognized as "Standard."

The careful methods used in the manufacture of Syracuse Plows are just as thoroughly observed in the building of Syracuse Wheel Barrows. Materials are selected, manufactured and assembled with the constant purpose ever in mind of combining lightness with strength and convenience with durability.

Syracuse Barrows are, moreover, attractive in design and nicely finished.

The frame is made of well-seasoned ash, with three cross-bars mortised into the handles. The bottom boards are set into the rear crossbar, which prevents splitting at the ends. Strongly braced throughout. Handles, legs and wheel are painted red, and sides and front olive.

Hoover Improved Potato Digger

THRESHERS

Strong, Durable and Efficient

We believe the Gray Thresher with the recent improvements to be one of the most reliable and satisfactory Threshers manufactured.

Furnished in several sizes either mounted or unmounted.

CATALOG ON REQUEST.

The Freeman Steel Windmill

The Windmill is recognized by everyone to be one of the most efficient and cheapest powers obtainable for pumping water and the large number of these we install every season proves they are very satisfactory to our customers.

Freeman 4-Post Steel Towers

This cut illustrates the lower ten feet of our 30-foot, four-foot post angle steel tower. This illustration shows the thoroughness of the bracing employed in the construction of all our towers.

This strong tower is not to be compared with the cheaply built 3 post towers on the market, and we have no hesitancy in guaranteeing it under all conditions. One can hardly afford to take chances with an inferior tower and run the risk of a damaged mill and tower.

Estimates.—We will be pleased to estimate cost of water supply where windmills, towers, substructures, pumps and wood or pneumatic tanks are used.

Write for Special Catalogues and Prices

Binder Twine

We carry the Standard Binder Twine, which has given such excellent satisfaction to the grain raisers. The fibre is long and runs very even. Write for prices.

NO. 25 STEEL FARM TRUCK

The above cut represents one style in our low-down farm gear. These are especially desirable where one desires a medium priced truck which is both light and strong, and well fitted for common farm purposes.

Full Descriptive Catalog and Prices Gladly Mailed on Request

Unexcelled for use in mounting spraying rigs, saw outfits, engines, etc. We can furnish these fitted with either wood or steel wheels, and they are commonly equipped with 3 1/2 x 10-inch skains and 4-inch tires.

CHASE FARM TRACTOR

ONLY TRACTOR THAT TURNS IN A RADIUS OF ITS OWN WIDTH

An individual Jaw-Clutch, engaged directly with the Driving Pinion of each Rear Wheel, is released by pressing a convenient foot-pedal. That particular wheel immediately ceases to drive and becomes a Pivot about which the tractor can be turned at a right angle in a space as small as would be required to turn a team of horses.

This feature is invaluable in working narrow "lands," young orchards and in many other instances where turning space is necessarily limited. It permits short turns to the right or to the left, and is an exclusive feature of CHASE construction, not found in other makes of tractors.

Built in the East to Meet Conditions on Eastern Farms

Specifications

Motor.—Chase Waukesha long stroke, heavy duty type, 4 cylinder, 4 cycle, water cooled.

Ignition.—High tension magneto. No batteries.

Carburetor.—Automatic float feed.

Lubrication.—Automatic splash system and force feed pump—positive lubrication for motor.

Transmission.—Chase, two speeds forward, one reverse, sliding gear, in oil-tight, dust-proof case. Running in oil.

Speed, Miles per hour.—High, $2\frac{1}{2}$; low, $1\frac{1}{2}$; reverse, 1.

Clutch.—Internal expanding shoe located in engine fly wheel.

Brake.—Powerful contracting band applied to pinion shaft.

Dimensions.—Length, 12 feet; width, 76 inches; height, 58 inches.

Weight.—5,000 pounds.

Frame.—Angle and channel steel. All joints hot riveted.

Tank Capacity.—Fuel tank, 11 gallons kerosene, 2 gallons gasoline.

Belt Pulley.—8 inch diameter, 6 inch face; 1,000 revolutions per minute.

Wheels.—Front steering wheel 36 inches in diameter, 8 inch face. Equipped with extension wheels, 36 inch face. Rear driving wheels 48 inches in diameter, 12 inch face. Equipped with extension rims, 22 inch face.

Kind of Fuel.—Gasoline, distillate and kerosene.

Cooling System.—All bronze centrifugal water pump, large shaft and bearings. Enclosed radiator and powerful cooling fan.

Number of Wheels.—Two driving in rear, one steering in front; with extensions applied tractor becomes a roller covering the entire ground, 76 inches in width.

Control.—Friction clutch, gear shift and brake operated by hand levers. Jaw clutches operated by foot pedals. All conveniently located for the operator.

Bull Pinion Gears.—Manganese steel. So tough they can't be machined—so hard they can't be drilled.

Plowing Capacity.—Two 14-inch plows and three 12-inch plows in stubble or favorable soil conditions.

Harrowing Capacity.—One $8\frac{1}{2}$ foot double action disc harrow. Three section spring tooth harrow, and the above equivalent in other types of harrows.

Belt Power.—All forms of farm work requiring 16 horse power.

HISCO STYLE "W" GASOLINE ENGINE

A Standardized Line of High Grade Agricultural Engines Six Sizes Only—1½, 2¾, 5, 7, 10 and 15 h. p.

The Hisco Engine needs but little introduction to the trade. The line has been successfully manufactured for over twenty years. The experience and knowledge gained in design and construction by those who are responsible for the conduct of the business enables the Company to produce a high grade, superior quality engine, which sells at a medium price.

Hisco Engines are built in a modern, up-to-date factory by competent and experienced men. Much of the machinery used has been designed and specially built to enable more economic production.

Simplicity. The Hisco Engine is of the side-rod type; all working parts are directly controlled by the Governor; mechanism is such that satisfactory results can be obtained by an inexperienced user. The engine is simple in design, and by studying the Instruction Book which accompanies each engine, a novice can secure good service.

WHITNEY GAS HUMIDIFIER

This device will reduce the fuel consumption and carbon deposit of any gasoline or kerosene motor, this being accomplished by vitalizing the mixture with water-vapor supplied by the Humidifier. This instrument will not act as an auxiliary air valve if neglected, neither will it draw road dust. It requires water only, for its operation, and is easily installed.

Price, No. 1\$8.50
Price, No. 210.50

Tubing and fitting included in each carton.

HISCO TYPE W 2 IN 1 COMBINATION Saw Rig and Truck

IMPROVED WOOD AND POLE SAW FRAMES

TILTING TABLE POLE SAW
Weight, 350 Pounds

babbitted bearings, and are fitted with a 95-pound balance wheel. On pole saw frames the connection between the two arbors is made by running belt over idler pulley.

Note. All our Wood and Pole Saw Frames are made right hand, unless otherwise ordered. Weights shown above are for machines without saw blades. Saw blades weigh about as follows: 20-inch, 8 lbs.; 22-in., 10 lbs.; 24-in., 14 lbs.; 26 in., 17 lbs.; 28-in., 20 lbs.; 30 in., 24 lbs.

SLIDING TABLE WOOD SAW
Weight, 300 Pounds

Prices of Tables without Saws

Tilting Table Wood Saw	\$32.75
Tilting Table Pole Saw	43.75
Sliding Table Wood Saw	38.50
Sliding Table Pole Saw	49.00
Iron parts only for Tilting Table Wood Saw Frame	23.75

All Prices Subject to Change Without Notice

The tilting table is pivoted so that it balances perfectly and is easy to handle. The sliding table is fitted with grooved rollers, which run on a "V"-shaped track, and is very easy to operate. The arbors are true and heavy. They run in long,

Simonds' Celebrated Circular Saws

Price

24-inch, set and sharpened	\$15.75
26-inch, set and sharpened	18.75
28-inch, set and sharpened	21.75
30-inch, set and sharpened	24.50

TILTING TABLE WOOD SAW
Weight, 275 Pounds

Pole saw frames have the balance wheel on a separate frame below the table, so that they can be used for sawing long poles as well as cord wood. We make both styles of these machines with either tilting or sliding table.

Illustrations show our various styles of Wood and Pole Saw Frames. These are substantial machines, well made and of good materials throughout. Wood saw frames have the balance wheel on the saw arbor, and are intended for sawing cord

SLIDING TABLE POLE SAW

The New Sharples Suction-Feed Tubular Cream Separator

Since the beginning of the centrifugal separator, its one great province has been to save. Save cream, save butterfat, save the warmth, freshness and value of skim-milk, save labor, save quality of produce, always saving. What it saves is its value. It has no other value.

The New Sharples Suction Feed Separator is the only one which automatically adjusts the flow of milk to the separating force. It simply sucks in enough milk so that the speed of the bowl can take care of it. In this way, it makes little difference whether you turn the crank under speed or above speed, you will always get a dead clean skim. Just set cream screw and the cream will contain exactly the same percentage of butterfat.

There are many other advantages in using the New Sharples. The supply can, for instance, is only 24 inches above the floor, so that it is easy to fill from the milk can. The Tubular bowl contains no discs or other contrivances which are hard to wash and hard to keep clean. The New Sharples is easy to turn, because you can adjust the speed according to your strength.

The New Sharples is thoroughly described and illustrated in our new catalog, and we will be very glad to have you ask for a copy.

Every man keeping a fair sized dairy should be interested in this milker for the following reasons:

First—The cost of milking cows can be reduced seventy-five per cent., or you can milk four times as many cows with the same number of men.

Second—One operator and one boy, to milk and assist, can properly milk one hundred cows in less than two hours, giving independence from hired help in case of necessity.

Third—The improvement in the cow's condition, resulting from the thorough, quick, gentle

The Sharples Mechanical Milker

and regular work of the milker will induce an increased milk production.

Fourth—A far purer product; lower bacterial count and more valuable milk is assured, because all stable air is entirely excluded and the milking parts are so easily and thoroughly cleansed.

These statements are based on close and extended observation of large numbers of these milking machines in actual operation, under widely varying conditions for long periods of time.

CHATHAM CLEANING, GRADING AND SEPARATING MILL AND BAGGING ATTACHMENT

Capacity
Power

60 Bushels Per Hour

Easy to Run by Hand. Boy Can Run It

Attachment to run by power, if you want it. The Bagger is adjustable. Can be attached or detached in an instant. No Screws, Bolts or Nails to contend with, simply throw off the drive chain, place foot upon board which connects Bagger to Mill at the bottom, then lift up the Mill and the Bagger is detached.

Karbo Knife and Tool Grinder

Grinder is convenient for use in field as it can be readily attached to mower wheel by thumb-latch which holds grinder in position. This grinder does its work perfectly, lever gives operator perfect control so that nicks can be ground out and shape of stone insures sections being ground with their original bevel. This grinder can also be furnished on special order as a foot power machine.

PORTER PERFECT BARN EQUIPMENT

We are in a position to furnish complete barn Outfits of the most improved type including Stalls, Stanchions, Hay and Litter Carriers, Water Basins, Mangers, etc. Estimates and information gladly given and if building new or rebuilding your old barn will furnish without charge Blue Prints giving most improved construction.

Porter Steel Stanchions

These Stanchions are made of high carbon U-bar steel and are amply strong. The lock is simple and positive in action. Can furnish with wood lining if desired, also small size for calves and extra heavy for bulls.

Buckley's Watering Device

No. 3 Stanchion Basin

Illustration shows the general application of this system, but a brief description will be necessary to demonstrate its importance, usefulness and simplicity. On application we will mail descriptive catalog with testimonials, etc.

The Porter Litter Carrier

Shown above is a high-class machine, built for heavy service. The tub is four feet long and two feet wide, with a capacity of 12½ cubic feet, or 800 pounds of wet manure. It is built of heavy, galvanized steel, reinforced with rolled steel angle one inch wide all around the top and along the end seams. Most perfect lifting device found on any Carrier. Furnished with chain hoist if desired.

On your Implements depends your profits. One faulty implement may cause the loss of your entire season's work. When you buy implements you cannot afford to gamble. Be sure that you buy Implements which will deliver Full Performance. Every implement we carry bears a trademark which assures the best of material and workmanship. They are adapted for use in this section. You take no chances of loss when you buy farm implements from us.

Another point worth your consideration is that our interest does not cease with sale, as is the case with houses outside the State. We expect to sell you in years to come, and we realize that you must be SATISFIED if we are to retain your business. Your interests are our interests.

Our repair department in charge of competent men is ready to render prompt and efficient service when you need it most.

CHASE FARM TRACTOR

The Only Tractor That Turns in a Radius of Its Own Width

An individual Jaw-Clutch, engaged directly with the Driving Pinion of each Rear Wheel, is released by pressing a convenient foot-pedal. That particular wheel immediately ceases to drive and becomes a Pivot about which the tractor can be turned at a right angle in a space as small as would be required to turn a team of horses.

This feature is invaluable in working narrow "lands," young orchards and in many other instances where turning space is necessarily limited. It permits short turns to the right or to the left, and is an exclusive feature of CHASE construction, not found in other makes of tractors.

Built in the East to Meet Conditions on Eastern Farms

Note these John Deere Tractor Plow Features:

They can be used with any standard tractor—hitch and depth control levers are adjustable to suit the tractor.

The bottom is the heart of the plow—all the rest of the plow is built merely to enable the bottom to do its work. The right kind of a plow bottom makes money for the owner. It lays the foundation for the right kind of seed bed. The crop yield is increased. The plow lasts longer and pulls lighter—a saving in actual cost, power and trouble. The bottom on every John Deere plow is correctly designed. John Deere plow success is due to bottom construction.
