Peony Price List

Fall 1921

Brand Nursery Co.

Faribault, Minnesota.

We do not publish a catalog of peonies and iris every year as our stock of varieties remain practically the same from year to year. We get out a new edition only as the stock of our old one is exhausted. So parties who our records show received a copy in 1920 will not be mailed another copy only as they should write in for one. If you have a copy of our 1920-1921 Catalog use it in looking up varieties as it is our latest. But prices change and we issue a price list every year which is mailed out to our entire mailing list. The prices in this Price List supercede all other prices. Six plants of any variety will be furnished at five times the prices of one and twelve plants at ten times the price of one. We can supply most varieties in hundred and thousand lots and are always pleased to furnish prices where large lots are wanted.

TERMS Discounts apply only where cash accompanies order. Remittance may be made by Post Office Order, Bank Draft, Express Money Order or personal check made payable to the Brand Nursery Company.

ORDERS Orders should be sent in as early in the season as possible. We commence digging September 1st and begin shipping out about the 6th. Orders should be in before shipments begin if possible so as to be sure to get all the varieties you want.

SUBSTITUTIONS We never intentionally substitute in filling a peony order. If upon receipt of an order we find we cannot fill it entire we always write our customers suggesting substitutions of varieties similar in color and season and if such suggested substitutions are not acceptable we return the money. But where customers are not particular about varieties and give us permission to substitute if necessary in such cases we will always use our very best judgement and guarantee satisfaction.

SHIPMENTS Orders for from one to five roots can generally go cheapest by Parcel Post. We will gladly ship by Parcel Post all small orders where the post rate is cheaper than by express if the customer so desires and the post charge can be remitted to us upon receipt of the goods. Fairly large packages should go by express. Orders of from 50 to 100 roots or more where the varieties are not of the very expensive sorts, can safely go by freight if the customer is not in too much of a hurry, as we pack freight shipments so that they will be perfectly safe on the road even if in transit three or four weeks.

VISITORS Our peony fields lie just a mile from the Business section of Faribault. They are located on East Division Street just at the end of the cement side walk. Ask for East Division Street and follow the side walk to its end and you will be at the entrance of the Nursery. Visitors are always welcome and will be met by appointment at train at any time. Our office Phone 670. House Phone 541-J.

ADDITIONAL VARIETIES For a few years back we have been trying out a great many varieties of peonies which will not be found listed in the 1920-1921 catalog.

Brand Peony Farms—Faribault, Minn.

We have grown a sufficient stock of these varieties now so that we can offer them for sale and they will be found in this Price List.

RARE AND CHOICE VARIETIES Of the world's very choicest varieties we believe we have the largest stock in America. For instance we have a stock of over 100 1st size sale plants not counting propagating stock of Kelway's Glorious, 100 Kelway's Queen (the true variety), over 100 Le Cygne, 100 La Fee, 75 Standard Bearer etc. So in these very rare choice sorts if you place your order with us you can rest assured of having it filled with good strong stock for the variety ordered.

SIZE OF ROOT We have been actively engaged in the nursery business ever since 1867. During all these years we have been actively engaged in handling peony roots on a large scale. We have learned a good deal about the handling of peonies and we long since came to the conclusion that the most satisfactory size peony root was, the strong 3 to 5 eye division with roots properly trimmed back. We do not find that the large clump as a rule gives as good satisfaction. We have found it almost universally true that the very small division gives more or less dissatisfaction. So our prices are for a good strong division but if one, two, three, or four year clumps are wanted we can generally supply such in all varieties. The prices on such can be had by stating what varieties are wanted.

Strong 3 to 5 Eye Divisions
