FIELD'S SEED SENSE

Printed and Published in the Private Printshop of the Henry Field Seed Company, Shenandoah, Iowa

Vol. 7 (1921) Shenandoah, Iowa, May, 1921

No. 4

John Henry and Letty Go Riding on English King

1. Our new pig, English King, is the greatest pet you ever saw. He comes running when I call him and lets me ride him any time. He is big as a horse, too. Only trouble is I can't make him go. He wants to stop and eat. It's very provoking.

2. Of course, Letty thought she had to try it, too. She thought just because I could do it that she could, too. Just like a girl to be always tagging along. Guess she'll have to be allowed to try it. She'll never be satisfied till she tries it once.

3. Just as I thought, the minute she got on she got scared and begun to cry to get off, and I had to hold her or she would have rolled right off and fell clear to the ground. Mr. Childs had to come running and help her down. My, but she was scared.

4. Ain't that just like a girl to get scared that way. I'll bet you couldn't scare me with a dozen hogs. Say, watch me play a trick on King. See how he lets his back down when I tickle him. If I give him one or two more digs, he'll lay right down to be scratched.

John Henry Himself.

Canning Dope

You will probably do your first canning in June, at least you ought to if you can possibly arrange it. Asparagus will be ready then as will also greens, peas, rhubarb and some of the small fruit. It will also be better to can beans at this time, and beets if you can any, and it would be nice to have a few although you can store them like other root crops.

Beans—

3 pounds of seed will plant six 50-foot rows.

6 rows will yield at one picking two bushels.

Two bushels of beans will can 40 qts.

Sweet Corn—

One and one-half pounds of seed will plant twelve one-hundred foot rows.

Twelve one-hundred foot rows will yield at one picking, five hundred ears.

Five hundred ears will can fifty quarts of corn.

Peas—

6 pounds of peas will plant six 50-foot rows.

Six fifty-foot rows will yield at one picking two bushels of peas.

2 bushels of peas in the pod will shell out 20 quarts.

20 quarts of shelled peas will can 20 quarts.

Tomatoes—

One packet of seed will produce an abundance of plants.

25 plants spaced four by five feet will yield at one picking, two and one-half bushels.

Two and one-half bushels will can 50 quarts.

Of course these quantities will vary with the season and the care the crop receives. At best, it is only an estimate but it is an estimate based on records of yields and is close enough for all practical purposes.

Ask for a booklet telling all about canning fruit and vegetables by the "cold pack" method. There is no charge for it. You will be surprised at how simple and easy it is to can by this method. And I will vouch for the stuff keeping well, and also for the quality.

Most of the standard varieties are all right for canning. Plant too much rather than not enough. You can sell your surplus or give it to your less fortunate neighbors. See condensed price list.

Shrubbery Does Fine

"Dear Friends: Everything is fine and dandy. You got my seed order last year and again this. That means satisfactory, doesn't it? I want to brag just a little on the shrubbery I got last year. I never saw such fine plants before, and of all the growing, they did it. My American Beauty rose has shoots on it 15 ft. long; the honeysuckles and wisterias grew almost as much, and the honeysuckles have never dropped their leaves all winter. We have had a beautiful winter, however. My lilacs and spirea are perfect little trees too. My only regret is that I haven't just scads of money to spend with the Henry Field Seed Company. Yours very truly,"

—Mrs. K. G. Kinimel, Cifton, Okla.

High Priced Melons

You folks, who are in the habit of depending on the stores for your melons, had better look ahead this season. The new high freight rate is going to cut quite a figure in the selling price of both watermelons and muskmelons. It will either be a case of putting some of the growers out of business or advancing the price to cover transportation charges.

The moral to this is to grow your own supply. You ought to do that any way. It is not often you can get a really high quality melon at the store. As a rule they have laid around and wilted until they are not very good, and also a great many of the growers pick them too green. This is especially true in the case of watermelons. Grow your own melons, then you can feel free to eat as many as you should, for they are a necessity, not a luxury. See condensed price list.

Late Cabbage

What time do most of you folks plant your late cabbage? If you are like the people around here, most of you get it in too early. For certain varieties, as Cornbelt and Surehead, plant the seed the last of May and thin it out a month later. If you transplant, it should be planted just a little earlier, for transplanting will set it back some, but not much.

There is less risk in planting the seed right where it is to stand. If you want to economize in seed, plant it in hills, say 30 or 36 inches apart in the row. However, a pound of seed to the acre can be put on with an Iron Age or Standard drill, drilling it along instead of planting it in hills.

There is a lot of risk in transplanting during the latter part of June. You know that it is about the time our dry weather begins and transplanting cabbage during a dry spell, when the sun is hot, is a pretty hard job. See condensed price list.

Fine Cucumbers

"I have made out my order and given my catalog to Mrs. John Farley, and I hope she sends you a good big order. I want to tell you about my cucumbers last year. I planted 20 hills of Hendersons Perfected White Spine and I was the first in the neighborhood to have slicers. I made 12 qt. of sweet pickles, 5 qt. of mustard pickles, and 9 gal. of dills, besides all I gave to the neighbors and then about a bushel of big ones I left to get ripe for Spanish pickles, but they turned white instead of yellow and got tough. Now what do you suppose made them do that? Another lady told me hers did the same. I had bushels and bushels of Mississippi Girl tomatoes and they are sure fine; some had a little dry rot, but of course it was unusually dry last summer. Then I raised a lot of mangels for my chickens. And say, but they sure do like them, and they have laid good all winter. Well, I guess I have done my share of talking this time, and am sending you an order with this. Send a catalog to Mrs. B. Byrnhoff, Maple Park, Ill. With best wishes for the coming year, I remain your customer,"

—Mrs. Geo. Hink, Maple Park, Ill.

Peony Blooms for Decoration Day

There is one day in the year that the peony is the national flower, and that is Decoration Day. There is no flower which so abundantly fills the bill for decorating the graves of our loved ones as the peony. On our grounds we have peony plants growing and always have thousands and thousands of the blooms for Decoration Day, unless the season is extra late. We can ship to you anywhere within about 400 miles. Send your order a week or two in advance and state just when you want them shipped. Price, delivered prepaid in zones 2, 3 and 4, either by parcel post or prepaid express, \$2.50 per dozen. Ask for special prices on large lots to go by express at your expense.

"Grow Your Groceries"

Special Canna Beds

If you wish I will make a selection of varieties for you for a complete canna bed, and will choose varieties that will match up well in foliage, bloom and height. Will guarantee to give you kinds that will please you.

Five Foot Bed. 13 plants as follows: 4 tall for center, 9 medium height for outside. Price \$1.25.

Seven Foot Bed. 19 plants as follows: 1 extra tall for center, 6 medium height for second circle, 12 short outside. Price \$1.75.

Ten Foot Bed. 37 plants as follows: 1 extra tall for center, 6 medium height for second circle, 12 short for next circle, 18 still shorter for outer circle. Price \$3.50.

"Grow Your Groceries"

Plant for Succession

One very weak point in the home garden operations is the fact that one planting usually serves for the entire season's supply. It is impossible to have vegetables at their best over a very long period of time, if only one planting is made. They soon become overgrown and hard and woody and tasteless. Plant often and use the vegetables while they are young and tender and of high quality.

Of course there are a few that one planting serves the entire season, but such vegetables as beets, lettuce, radish, peas, beans, sweet corn, and some others should be planted several times during the season. There is one way to get around frequent planting and that is to plant several varieties at once, that will not mature at the same time. The month of May is a good month to plant in. Any of the above named vegetables will have plenty of time to mature, if planted during May, in fact most any time in June.

Henry Field Seed Co.

Iowa's Leading
Seed House

Shenandoah, Iowa

Asters in My Own Garden. These are in my flower garden between the house and the office. They make a fine show during August, September and October. Notice close what fine blooms they are. I sell you plants that will make this same kind. See prices below:

Aster Plants

Asters grow easily from plants and can be set out in May or June. Set them in any good garden soil about a foot apart each way. I can supply plenty of plants during May or June at the following prices: **Asters, Finest Florists' Mixed**, doz. 50c, or 3 doz. for \$1.25. Can also supply separate colors in straight dozens at the same price.

Pansy Plants for Sale

We will have thousands of pansy plants for shipment after April 15th. They are grown from the very finest strains of seed and we can assure all lovers of this beautiful flower that they will be surprised and pleased with the size and beauty of this strain of pansies. They will be sent by mail, extra well packed, and safe arrival guaranteed.

Price: All plants in bud or bloom:
1 doz., mixed colors, postpaid, 75c.
3 doz., mixed colors, postpaid, \$2.

Tomato and Cabbage Plants

We are having a nice lot of tomato and cabbage plants grown and we will be able to fix you out in good shape. They will be ready about May 1st or possibly earlier.

Tomatoes, (heavy transplanted plants), delivered by parcel post, postpaid, 6 for 30c, 12 for 45c, 25 for 85c, 100 for \$3.00.

Varieties: Early June, Mississippi Girl, New Stone, Earliana and Red-head. Also Pepper, Eggplant and Cauliflower at the same price.

Cabbage plants, leading sorts, 12 for 30c, 25 for 45c, 100 for \$1.50, all delivered by parcel post, prepaid.

Ask for special prices on larger lots of cabbage plants.

Still Time to Plant Dahlias

There is plenty of time yet to plant dahlias, in fact, they seem to do best planted late, say in May or June. I have planted as late as July 4th with good results. I can supply good named varieties in any color you want at from 10c to 20c, each, or mixed colors, unnamed, at \$1.00 per dozen postpaid. Also a very fine collection of 13 named sorts, no two alike, for \$1.25 postpaid.

Dahlias can also be grown from seed. We sell it at 10c per pkt. Plant and tend it just like tomatoes. They bloom the first year, but mostly single.

Special Collection Offer

12 Named Dahlias for \$1.25

We have a lot of choice varieties of dahlias, of which we do not have enough to pay to list them, and we are willing to make you a bargain price on them. So here is the offer:

12 choice named varieties of dahlias, each one marked with color, one or more good, strong, live tubers of each, well packed in a box, and mailed postpaid for \$1.25. Our choice of varieties, covering a wide range of color and no two alike. Money back if not satisfied.

The dahlias we ship are divisions of field-grown clumps and are guaranteed to be sound and alive and to sprout with any ordinary care. Remember the sprout on a dahlia root or tuber comes right at the neck or stem end.

Special Bargain Collection

of Gladiolus Bulbs

60 Blooming Size Bulbs,
\$1.10 Postpaid

We had the finest crop of gladiolus bulbs this year we have ever grown and we are going to celebrate by offering the greatest bargain in them that has ever been offered, I believe—**60 fine bulbs for \$1.10.** Good bulbs, too, not trash.

Most people prefer a mixture of colors, so 50 of the bulbs will be a mixture of all the best colors. Everything from white to dark red, with plenty of striped and spotted and variegated tints in between. A really first-class mixture, with good colors, big flowers and a long season of blooming. Then I will put in 5 each of the two best named sorts, America and Mrs. Frances King. You have doubtless seen them and admired them, but they have always been high priced until now and you had to admire them at a distance.

5 America, the great "peach pink" colored one, big and fine, used to sell at 50c each.

5 Mrs. Frances King. Best big red. Bright "cherry red", grows 4 to 5 ft. high, extra large.

50 Mixed Hybrid Seedlings, all colors, all good.

60 Bulbs in all, all blooming size, young bulbs, two to four inches in circumference, well packed in a box, with directions for growing guaranteed to reach you safely and to bloom with ordinary care and soil. Sent postpaid for only \$1.10 for the box of 60 bulbs.

Muskmelons

"Enclosed you will find a picture of my youngest children, Agnes and Albert Blair, ages eight and six, and a muskmelon which weighed 30 pounds, grown from your seed. The quality was splendid, flesh being four inches thick."

—Mrs. T. E. Blair, Lexington, Okla.

Rhubarb

"Dear Friend: We received the seeds ordered from you and are very well pleased with them all. But are more than pleased with the Rhubarb plants. They are more than twice as big as we expected them to be. You may be sure we will always think of Henry Field when we eat Rhubarb next summer."—Henry Marqueling, Durant Okla.

Annual Sweet Clover in N. Y.

"During the week ending Aug 14th, one of our Annual Sweet Clover plants by actual measurement, grew 15 in. This plant finally reached a height of 108 in. in 108 days, from day seed was planted. I dug this plant up and the root system extended 2 feet below the ground, and the plant weighed almost 5 pounds."

—O. F. Rowland, Elsmore, N. Y.

Grimm Alfalfa in Arkansas

"Gentlemen: Wish to write you a letter of appreciation which might be of some service to someone here in the south. Last fall I got Virgil Scott of Haws, Ark., to order enough Grimm alfalfa from your house to seed six acres and one-half of ground. I was over this field last week and I don't believe there is a single square yard but what has a splendid stand. At present it is six inches high and no weeds or grass will have a show with it. The land on which this is on was worth about \$25.00 per acre, but Mr. Scott was offered \$650.00 for the plot two weeks ago and refused it. I have seen two plots of this alfalfa stand our summer dry spells when other kinds were killed."

"Last fall you were offering the new Annual sweet clover for sale in small lots. I wish some of this very much. Can you send me some? Will be glad to send you a check for the cost. Yours truly,"

—Arthur L. Watkins, County Agent, Hot Springs, Ark.

Rosen Rye

"I ordered 600 pounds of Rosen Rye which I planted last fall. This crop did fine and I had 400 bushels of fine seed which I sold for a good price. It won cash prizes at four fairs, including the International Hay and Grain Show at Chicago. Yours very truly,"

—Troy I. Stringham, Craig, Colo.

Good Old Summer Time in Nebraska

This picture shows Isaac Brewster and family of Brewster, Nebraska, eating watermelons raised from our seed. They look mighty good, too, and they grow fine out in that country. For that matter, watermelons grow good most anywhere if you give them good soil and good care, and keep the bugs and the squirrels and the boys away. There is plenty of time to plant yet if you will hurry and order your seed. We have plenty of seed of all kinds at reasonable prices. We have a special collection for boys at 10c for large package.

Tobacco Dust for All Bugs

"The best remedy I have ever found for the striped bugs on cucumber, watermelon, muskmelon, squash and other vines is tobacco dust. This is simply a very strong grade of refuse tobacco ground up into a very fine powder like snuff. It is finer than flour and very strong. I don't know whether it kills the bugs or simply drives them away, but it surely does the business somehow. Also a spoonful of it piled around the stem of each plant will prevent borers, which kill the plants later in the season. This dust is also about the best thing I know of for plant lice. Apply it to the under side of the leaves where the lice are located. Price, 20c per lb., postpaid; by freight or express, \$1.00 for 12 lbs.; \$7.50 per 100 lbs.; 50 lbs. at the 100 lb. rate."

Pleased With Eggs

"Received the eggs I ordered just in 7 days from date of order. Had one broken egg out of thirty. That is very good luck. All apparently in good shape; don't see anything to keep them from hatching. Was just looking through your catalog with a friend of mine. He said your seed was too high. I told him they were the cheapest seed that could be bought, that when he sent to Field's for seed he got just what he ordered—only better than he might expect."

—W. O. Womuck, Stigler, Okla.

Pieplant Was Fine

"Dear Sir: Will write you a few lines in regard to the pie plant and seeds I got from you last spring. They were fine. I never have seen such pie plant grow as it was. We live across the alley from the hospital, and so many people came to look at that pie plant. My gladiolas did fine. I got a dozen bulbs and ten of them grew and they were fine. I gave all my Seed Sense to people who came to admire my pie plant, and told them that was the place to send for seed."

—Mrs. L. E. Randall, Halstead, Kansas.

Cane Seed is Lower

\$1.50 Per Bu.

I am happy to say that there is at least one thing that has dropped in price to the old time price level of before the war.

That is fodder cane. It seems to be abundant this year and of excellent quality. This is seed of our own growing, and a mighty fine lot it is.

We have revised our prices downward on cane seed and are offering Amber Fodder Cane at \$3.00 per 100 or \$1.50 bushel. We also have some mixed fodder cane, mostly Amber with a little Orange mixed in it, which we can sell you at the same price, \$3.00 per 100, or \$1.50 bushel.

So remember the new low price on either Amber or Mixed Fodder Cane, \$1.50 bushel or 3c pound. Only take five pounds per acre drilled in with corn planter, or about seventy pounds drilled in thick or broadcasted. Best hay is had when seeded thick. Quality and germination guaranteed first class.

Delicious Squash Keeps Well

"Dear Sir: Last year I sent you something like a \$5.00 order, from which I have quite a few seed left over. So I won't need very many this year. I have quite a large garden spot, but last April I set out 400 strawberry plants and 30 young grapes and some other small fruit. So I haven't so much ground to put in. Nevertheless, I am sending you a \$2.00 order just the same. I am a firm believer in your seeds, because I always get a good stand. Oh, yes, your Delicious squash is the best I ever grew or ate. I put 22 or 23 in the cellar in November and they kept fine until the 1st to the 10th of March, when we ate the last one. It was beginning to show decay spots."

—Joe A. Champieux, Springfield, Mo.

A Boy Gardener

"Dear Mr. Field: I wanted to tell you about my luck with peanuts last summer. I ordered the seed from you and planted them and took good care of them and they did fine. I am going to try again this summer and am going to enter them at the State Fair. I am sending you my picture showing you one of the watermelons I raised last summer from your seed. They did fairly well but I expect to do better this year as the bugs got some of them. You can keep the picture, and under separate cover I am sending for some of your seed collections to sell. I feel sure that I can sell ten of them and one set I can easily use myself. I will let you know this fall about my garden, especially the peanuts. My papa is going to order his seeds this week. Respectfully yours,"

—George Osborne Booten, Des Moines, Ia.

Early Seed Corn—

Northern Grown

We have some very fine early corn in both white and yellow, grown in extreme Northwest Iowa, and it is mighty fine corn, too. If you want a good extra early corn for northern latitudes or for late planting here, send for some of this.

The yellow corn we call Northwest-ern Yellow Dent. It is almost as large as Reid's Yellow Dent, and as early as Pride of the North, and in appearance is about half way between. It made 85 bushels per acre, so you know it's some corn.

The white corn is an extra fine strain of Silver King. It is from prize winning stock, made a great yield, and is as good a type of Silver King as I ever saw.

Remember, this seed is strictly northern grown and very early. It was grown considerably north of the south line of Dakota.

We sell it with our usual guarantee of "your money's worth or your money back", you to be judge and jury.

Price same as other varieties—\$3.50 per bushel. The supply of this particular lot of seed is limited, so send your order soon. First come, first served.

Cold Pack Canning

"We had a fine garden last year, started out to can the surplus but found that too large a job and had to let some go to waste. Cold Pack Canning put vegetables on our table all winter, and keeps us from heavy grocery bills. Hope you have a good year."

—Miss Leila Glenn, Washington, Iowa.

Sudan Five Feet High in Seven Weeks

"Dear Sir: I am sending you a picture of my Sudan that I raised from seed I got of you last year. This was planted June 11, photographed and cut the 1st of August. I averaged 4 tons to the acre, and it will make a better crop the second cutting than the first cutting. It will be ready to cut October the first. It was 5 ft. high at this time. It makes the finest feed for horses, cattle and hogs that a man can grow on his farm. I want to sow about 20 acres next spring and I will send you my order for more seed, for it pays any man that wants any kind of seed to get them from Henry Field, for he handles the best seed that can be bought from any seed house. You get the best and purest seed that can be got, and it pays any man to get the best seed he can buy. You will get all of my orders. Yours very truly,"—John T. Gary, Brandsville, Mo.

We can sell you plenty of this same seed. H. F.

Pansy Plants for Sale

We will have thousands of pansy plants for shipment after April 15th. They are grown from the finest strains of seed and we can assure all lovers of this beautiful flower that they will be surprised and pleased with the size and beauty of this strain of pansies. 1 dozen, mixed colors, postpaid... .75
3 dozen, mixed colors, postpaid...2.00

Likes the Gilt

"The gilt came on the 7th, and I got her home in fine shape. She is what I call a grand individual. I hope that I can raise some pigs from her. I am very much interested in the ones that are recorded in both associations. I am going to give her the best of care and will let you know what she does. If it will not take too much of your time, will you tell me what and how you feed your sows and pigs? Thanking you for your good selection and honesty, I will close. Yours truly,"

—H. E. Dupler, Thornville, Ohio.

A Fine Trio

"I thought I would write you a letter personally for the first time. I was at your hog sale in August and bought two gilts and one boar. The gilts each had a fine litter and I sure am proud of them. Say, Mr. Field, what are you selling your pigs at? I want a boar pig that will be large enough for service by June the first. Please write me your price. I want a boar that is 50-50 color, and a real type for a herd boar."

—Earl C. Ellis, Dawson, Mo.

"My hog received in fine condition, and I certainly am very pleased with her. This is the first thoroughbred registered stock I have owned, and I hope to get a start in that line now. I wish you would send me the price of a good male weanling."

—A. J. Amiss, Altoona, Iowa.

He Wants a Pup

"Dear Sir: Would like to know if you know where I could get a fox terrier pup. We had the misfortune of losing our dog about a month ago. Have been watching the farm papers but don't see any advertised. Thanking you, I remain,"

—F. T. Culver, Yale, Iowa.

Yellow Sweet Clover

I find there is a growing demand for Yellow Sweet Clover, *Melilotus officinalis*. I have always sold white but I am getting a lot of letters this winter from people who tell me I am mistaken. I found one region in Colorado, the San Luis Valley, where they grow hundreds of acres of nothing but yellow. They claim it makes better pasture and better hay than the white on account of not being so coarse.

If you want to try the yellow, I can supply you some first class seed at 15c per pound, hulled and re-cleaned. This is not the right little yellow, but what is called the Giant Yellow. It is the one that is a biennial same as the white but a little earlier and finer in habit of growth.

Everbearing Strawberries

"I want to tell you about those Everbearing strawberries we got of you a few years ago. They are sure the fruit for this country; with a little care they could be made to bear all winter."

"My little boys came in just now, and said they had found some green ones on the vines. We have more plants than we know what to do with. Respectfully yours,"

—Mrs. A. C. Spinhirne, Vega, Texas.

Sprayers

The best form of plant insurance I know of is a good sprayer and a supply of insecticides and fungicides at the beginning of the season before the bugs and plant disease appear. You would not think of letting your houses, barns, and implements go without fire protection, would you? Yet the majority of us provide little or no protection against insects and plant diseases.

We plant our crops on high priced land, pay out good money for help, work and sweat throughout the long summer months, and many times in the end find the insects "have beat us to it," when a very slight expense and a little intelligent effort expended earlier in the season would have saved our profits.

I have picked out the *Brown* line of sprayers as the very best, and I show here the most popular and practical forms for gardeners and small farmers.

These small sprayers shown here are practical, efficient and cheap. They are guaranteed both by us and by the factory to be absolutely satisfactory or no trade. We still have on hand a few of the make which we used to sell, and as long as they last we will fill orders at the prices given in the old catalog.

Auto Spray No. 1

Galvanized, \$8.00. Brass, \$11.50

This No. 1 is the most popular type of sprayers made and this is the best one I have ever found of this type. It is well made in every way and should last a lifetime. The body or tank holds 4 gallons and is made of either galvanized steel or sheet brass as you prefer. It is fitted with special packing at the joints that will stand any kind of a solution. One pumping will give a continuous pressure for a considerable time. It is equipped with a patent non-clogging nozzle. With this sprayer you can handle all the spraying for a small orchard or farm. By getting extension piping as shown below, you can spray large trees. You can do whitewashing, apply disinfectants, in fact do anything you can do with a sprayer.

Shipping wt. 15 lbs.

With 4 gal. galvanized tank ----- \$ 8.00

With 4 gal. heavy brass tank ----- \$11.50

2 ft. brass extension 60c

Brass Elbow
35c

Auto Spray No. 25

Shipping weight 2 lbs.

Prices: Galvanized \$1.50; Brass, \$1.75

This is a little hand sprayer or atomizer, like the one we used to list as "Handy Hand Sprayer", only better. Makes a continuous spray and does fine work. Has two nozzle caps, one for straight ahead and one for spraying at an angle, or up under leaves of vine. Has brass valve and either brass or galvanized tank.

Bee Supplies

We carry here at Shenandoah a full line of the A. I. Root bee supplies, which are admitted to be the best in the world. There is a branch factory of the A. I. Root Co., right near us now at Council Bluffs, and if we are short, on anything at any time we can make direct shipment to you from there. Write for prices.

Hen Jewelry

Aluminum Adjustable Legbands

PRICES:—12 for 20c
25 for 30c, 50 for 45c,
100 for 75c, all postpaid

These are the latest style, pure aluminum, adjustable to any size poultry, numbered 1 to 12, 1 to 25, and 1 to 100. We carry a good supply in stock all the time and send them postpaid at prices named above.

Petty's Poultry Punch

For marking little chickens in the web of the foot. Price 35c each postpaid.

Canned 80 Quarts

"I am sending you another order. I was well pleased with my seed the past year. They came up fine and did better than any I have ever before tried, especially the tomatoes. They were the Redheads, and I didn't have much luck transplanting them. It was so dry and hot only about two and one-half dozen plants lived and I canned eighty quarts off of them, and two of my neighbors got all they wanted. And when the frost came the ground was just covered. I was so well pleased I wanted to tell you about it, and tell my neighbors about your good seed."—Mrs. Charlie Corf, Bogard, Mo.

We can furnish you still larger sprayers, so write for description and prices if those listed above will not answer your purpose. Also ask for a little booklet giving full instructions for spraying fruits and vegetables.

The Pearce Canner

The above cut illustrates fairly well what the "Kol-Pack" canner is. It also shows the handy little lifter with which to lift the jars out of the canner. This canner is made of heavy polished tin which is better than galvanized iron, in that it is easier kept clean.

Holds both pints and quarts in any style jar. Will hold either seven quart jars or eight pints. Container is of heavy material, heavily seamed, with a durable cover. Requires a small amount of fuel. We have only a few left. Price \$5.00 postpaid.

The Striped Melon Bugs

About the worst pest we have on Muskmelons, Cucumbers and Squashes is the little striped melon bugs. I suppose you have had a tussle with him already. Maybe you saved your vines and maybe he got them. It is about an even chance. We have had hundreds of letters lately asking for advice about it. My advice would be to use Tobacco Dust—lots of it. It is cheap, will not injure the vines in any way and pretty nearly always it will drive the bugs away. It doesn't seem to kill them, they leave. The best way to do is to dust it on where there is dew on the leaves, so it will stick. If there comes a rain and washes the tobacco dust off, put on some more.

This dust is also about the best thing I know of for plant lice. Apply it to the under side of the leaves where the lice are located.

Price, 20c per lb., postpaid; by freight or express, \$1.00 for 12 lbs.; \$7.50 per 100 lbs.; 50 lbs. at the hundred pound rate.

A Bargain in Tires

We are in shape to offer a genuine bargain in Automobile tires. It figures out at just about half price delivered to you by parcel post postage paid. A friend of ours had to take them on a debt and is willing to dispose of them at a heavy loss so as to save a part of his money. We are selling them partly to help him out and because we saw a chance to give our customers a real bargain. They are all new stock, first quality, and good reliable tires. We will ship them to you C. O. D. subject to your inspection and approval. Here is the list:

Be sure and state whether you want clincher or straight side

30x3	Plain tread	-----	\$ 9.25
30x3	Non Skid tread	-----	10.25
30x3 $\frac{1}{2}$	Plain tread	-----	11.50
30x3 $\frac{1}{2}$	Non Skid tread	-----	12.50
30x3 $\frac{1}{2}$	Cord tire	-----	21.00
32x3 $\frac{1}{2}$	Plain tread	-----	14.00
32x3 $\frac{1}{2}$	Non Skid tread	-----	15.00
31x4	Non Skid tread	-----	17.00
32x4	Non Skid tread	-----	19.50
33x4	Non Skid tread	-----	20.00
34x4	Non Skid tread	-----	21.00

Terms: \$1.00 per tire with order, balance C. O. D. or 2 per cent off for cash in full with order.

First Quality Tubes			(prices postpaid)		
Size	Gray	Red	Size	Gray	Red
30x3	\$2.00	\$2.25	33x4	\$3.00	\$3.25
30x3 $\frac{1}{2}$	2.20	2.45	34x4	3.25	3.50
32x3 $\frac{1}{2}$	2.50	2.75	33x4 $\frac{1}{2}$	3.50	
31x4	2.75	3.00	35x5	4.50	
32x4	2.85	3.10			

Terms: 50c per tube with order, balance C. O. D. or 2 per cent off for cash in full with order.

All prices subject to being unsold on receipt of order.

These came new from the factory late last fall and carried a factory guarantee of 6,000 miles, but the new owner says that at these prices he is not putting any guarantee on them, and its my opinion they don't need any, for they show for themselves that they are good tires. We are using them on our own trucks and cars and they stand up fine.

Henry Field Seed Company Shenandoah, Ia.

"I am sending you a small order for some seeds, also a picture of our Sudan grass which we raised last year from seed we got from you. We got 100 bushels of seed from the ten acres, and the grasshoppers were in it pretty bad, too. In the picture my husband is on the binder, and the buildings you see in the background is where we live. We always get our money's worth and some 'to boot' when we order seeds from Henry Field."

—Mrs. Milton Smith, Jetmore, Kans.

Sudan for Hog Pasture

Don't forget that Sudan makes the finest hog pasture of anything you can grow. Also, it makes hog pasture that will last all summer.

There is only one thing that could possibly be any better hog pasture than Sudan and that is Alfalfa, and if you have Alfalfa you are lucky, but the trouble is that most of us do not have enough Alfalfa.

While we are waiting for Alfalfa and getting it started the thing to do is to sow Sudan and you will have the next best thing.

Last year I had the Sudan in the same field with the Alfalfa, in which I pastured my hogs, and I found that the hogs like it better than the Alfalfa and kept it eaten down all summer.

It keeps coming up just like Alfalfa does and the more it is eaten down, the more it starts up. You can turn in on it about the middle of June and from then on until frost in the fall, it gives a wonderful amount of feed.

You can sow it either broadcast, drill it in rows or put it in with a wheat drill. My advice would be to put it in with a wheat drill just like you would wheat or oats, only later in the season, just before corn planting time. Have the ground in good condition, use 40 pounds of seed per acre and don't put it in over an inch deep.

It will stand any amount of drouth and hot weather and come up smiling all the time; it will make good hay. Price 7½¢ per pound.

Will Buy Stock

"There are two seed stores within a stone's throw of me who sell seeds of all kinds, but I like Mr. Field's way of talking, and I am badly stuck on those Spotted pigs although I never owned a pair in my life. I like his kids, healthy bunch. My youngest is 24 years old. The only way I can keep a pig is to buy stock in the Seed Co., and I cannot do that until June. Yours truly,"

—Arthur E. Wheeler, Belvidere, Ill.

Vaccination of Pigs

One of the commonest questions asked us about our thoroughbred Spotted Poland China hogs, is whether or not we vaccinate them for cholera.

Yes, we most assuredly do. We are great believers in vaccination. Everything that we sell is vaccinated and when we buy hogs from others we insist on getting stuff that is vaccinated.

Our young pigs we vaccinate before they are weaned. Generally when they are about a month old, or say anywhere from three weeks to six weeks old. We find that the pigs recover from the vaccination lots easier when they are small that way and that the results are just as permanent. We also find that the pigs are not so likely to have complications and other troubles from their vaccination when they are vaccinated small this way.

If you have pigs which you expect to sell to us, you should by all means have them vaccinated, and have them vaccinated if possible before they are weaned. Then if you have occasion to try to sell them to us you will find it much easier to make the sale.

So, if your pigs have not been vaccinated yet, better get busy and get the pigs vaccinated.

The expense is very small in vaccinating these young pigs, compared with what it is vaccinating bigger ones, and that is quite an object.

Likes Us

"Want to tell you that I like you. I think it is your spirit of neborliness that I like in you. I am an old man and nearing the time of departure from this sphere and I want to say that the best thing I know in those that I have known any where I have been is a spirit of neborliness. I like the idea of giving flowers to those we like while yet with them. We need not concern ourselves as to whether there will be a large attendance to our funeral, if we have been a good nebor."

—A. M. Fleming, McMinnville, Oregon.

Can a Woman Run a Wheel

Hoe?

I suppose the question that is asked me oftenest about "Iron Age" wheel hoes and garden drills, is "Can a woman run one?"

Yes ma'am, most assuredly you can. It isn't half as hard as humping your back over a hoe. I don't believe there is any work that a woman does in the garden that is as hard and discouraging on a hot day as humping over an old-fashioned hoe, and generally the hoe is dull, too. You chop away at the weeds and straighten up occasionally to rest your back and wipe the sweat off your face and wonder how long it is going to take to get the whole garden cleaned at the rate you are going, and have a hard time in general.

You'd like to have a wheel hoe, but you are afraid they are hard to run, and you are afraid they would cost too much, and you are afraid that if you sent off for one you wouldn't like it when it came but you would have to keep it anyway, and you are afraid you couldn't do good work with it and so you keep putting it off and doing work in the old-fashioned way.

Now, the truth of the matter is, that a garden plow is much easier to work than a common hoe. You stand up straight and walk right along with it. You can do about ten times as much work with it in the same length of time as you would do with an ordinary hoe or rake, and not only that, but you do it better.

I will personally guarantee this, and in order to show my faith, I will sell you the garden plow on trial. If it isn't absolutely satisfactory in every way, and if it isn't a mighty big improvement over the old way of raising garden, you can have your money back. You don't have to keep it, if it don't look to you like a good thing.

With a double wheel garden plow you can work both sides of the row at once and clean it as you go along. Or, you could go between the rows and cut the whole middle as one strip. Or you could put on the little plows and throw dirt into the row and hill it up like the men do corn, only on a smaller scale. You can cover up the little weeds in the row so you don't have to do any weeding.

Redhead in Colorado

"I will now take time to fill out the page you sent me. Now, Henry, if you sent me a catalog I did not get it, so please send me one as I want to send you an order for some seeds. No, I can't wait, for we want you to send us a 20c packet of your Redhead tomatoes. We got some of this seed of you a few years ago. They are certainly the earliest and best tomato we ever raised. They are ever bearing tomatoes, set on early and keep coming till frost. We live 18 miles north of Greeley, Colo. Come and see us when you come to Colorado. Wishing you and family the best of health. Yours truly,"

—Wm. Haptonstall, Pierce, Colo.

Special Varieties of Sorghum Cane for Syrup

Early Amber

The Wisconsin Early Amber syrup cane is the only sugar cane for the northern part of Iowa, and, in fact, for the northwest and that latitude. It produces a rich, delicious syrup, clear as crystal and of the finest flavor. This is strictly home grown seed and the amount we have is rather limited. If you think you live too far north to grow syrup cane successfully, try this lot and see. Don't confuse it with the southern grown seed which will not mature even here. Our yield last year was over 200 gallons per acre. It requires only 6 to 10 lbs. per acre for syrup, or about 40 or 50 pounds of this seeded for fodder. Our price is 15c per pound in quantities.

The Fairchild Cane Seed

I consider the cane seed we got from these people extra good. It is an especially selected strain of Orange cane, quite early and very sweet. It has been grown for years in southern Nebraska, about 100 miles west of the river, in a rather dry section.

We have both the Short Orange and the Big Orange to offer you this year, coming from seed we bought over there. All strictly home grown.

We can also supply you with a limited amount of the Superior Orange, from seed stock we bought over in Illinois.

Grow some of this syrup cane for a real treat. Make your own syrup.

Japanese Honey Syrup Cane

For anyone living south of Shenandoah, we will be glad to sell you some of the genuine Japanese Honey, the red seeded kind, which grows very rank and takes a long season to do its best.

We have also tried this out in our trial grounds and decided it is all right for anyone living in a latitude south of Shenandoah. It is a very heavy yielding cane and rank grower, splendid type.

The Early Rose

We have a splendid lot of Early Rose from the Ashbaugh strain, as we call it here in the seed house. If you prefer a syrup with that rich, dark golden brown color, plant the Ashbaugh Early Rose.

Prices

15c per lb. in quantities for any of the cane listed above, smaller lots a bit higher. Come in while the getting is good.

Sorghum at Wholesale—\$1.10 Per Gallon

For prompt acceptance and, of course, subject to our having any of the syrup on hand at the time your order is received, we still offer you sorghum made from our own fields, steam cooked and of the rich consistency so characteristic of the best made sorghum syrup, at \$1.10 per gallon. We guarantee safe arrival by freight or express.

Pure Sorghum Syrup, in 10 gal. wood jacketed cans, per gal.-----\$1.10

Pure Sorghum Syrup, in 10 lb. pails, 6 to case, per case----- 6.60

Pure Sorghum Syrup, in 5 lb. pails, 12 to case, per case----- 7.00

These prices are for full 10 gallon cans or full cases, as we have it packed that way ready to ship. We can supply less amounts at \$1.25 per 10 lb. pails, or \$1.35 per square gallon can. All prices are f. o. b. cars here, freight or express, at your expense, quality and safe arrival guaranteed.

Choice Hand-Picked Cane

Heads

Don't forget that we have carefully selected and hung before frost, heads of cane from most of these varieties I have mentioned. They are the nicest cane heads we have ever had and I really believe 2 lbs. of this selected seed will plant an acre, using a corn planter with a cane plate. Have the rows regulation width.

Besides the regular every-day varieties, can also supply limited amount syrup cane heads of Silver Tip, Arizona origin; Superior Orange, Central, Ill.; The Ashbaugh, Northern Iowa; Jap. Ribbon, Arizona; Red Amber, Central Kansas; and a new one to us from Colorado.

PRICE—We offer this, while the supply lasts, at 25c per lb., postpaid. Here is an opportunity to buy cane in the head and see what you are getting, absolutely cane seed too for making honest-to-goodness sorghum syrup.

Postpaid Prices on Field

Seeds

We find there are lots of people who want only small amounts of field seeds, such as Cane, Sudan, Rape, Cow-peas, Soy Beans, etc., and for their convenience we have arranged to sell practically all the common field seeds at the following prices, postpaid in zones 1, 2, 3, and 4, with 2c per lb extra for each zone beyond 4. 1 lb 25c, 2 lbs 45c, 3 lbs 65c, 5 lbs \$1.00.

Sudan	Dwarf Essex Rape
Feterita	Canada Peas
White Kaffir	Colorado Peas
Milo Maize	Buckwheat
Sunrise Kaffir	Velvet Beans
Fodder Cane	Blackeye Beans
Syrup Cane, all kinds	Millet, all kinds
Soy Beans all kinds	Cow Peas all kinds
Field Corn, all kinds	
Field Beans, all kinds	

If you want to experiment on small amounts, here's your chance. Dip in. All the same price.

Price List of Registered Spotted Poland China Hogs For May and June, 1921

All hogs are thoroughbred, registered, vaccinated and guaranteed satisfactory on arrival or no trade. Papers will be furnished promptly. All are good individuals, good color, and good blood lines. All are registered in the National association and some of them are also registered in the Standard association. Shipments can generally be made promptly on receipt of order. The prices vary according to the size, age, and individual merit of the animals. The general range is as follows:

Brood Sows, guaranteed to be with pig, and showing heavy when shipped.
(All bred to our good boars for May, June or July litters.)

According to size, age and quality.....\$75, \$85, \$100 and \$125

Open Sows, ready to breed any time now. (All guaranteed to be breeders).

According to size, age and quality.....\$50, \$60, \$75 and \$100

Boars, ready for service and all guaranteed to be breeders.

According to size, age, color, and quality.....\$50, \$60, \$75 and \$100

Tried herd boars, over 1 year old.....\$125 and up

Young Herds, Pairs and Trios.

We can always make up young herds, pairs and trios, no kin, and mated for best results, of any size, age, or quality you want.

Young Pigs.

We are booking orders for spring pigs, to be delivered in June, July and August, when about 12 weeks old, weaned, vaccinated and thrifty, as follows: Pigs, either sex, about 12 weeks old, each.....\$ 35

Trio of 3 young pigs as above, boar no kin to sows, the 3 for.....\$100

Pair as above, boar and sow no kin, the two for.....\$ 68

Our Guarantee—We guarantee safe arrival by express of all hogs sold by us, guarantee all hogs to be as represented or no trade, and guarantee positive and prompt delivery of pedigree papers. If any sow sold as a bred sow proves otherwise, she can be returned at our expense and we will send another in her place of equal or better value, or we will refund one-third of the purchase price up to a total refund of \$100. All young animals are guaranteed to prove to be breeders with reasonable care, subject to the same alternatives in case of failure.

Our prices we believe are as low as can be expected for really worth-while breeding stock. We don't claim to be the lowest nor the highest, but we do claim to give you your money's worth, a square deal, and all the help we can afterward.

We advise National registry but can give you Standard if you desire. Everything we sell is registered in the National, but some also have Standard papers.

We can ship anywhere and have shipped as far as Oregon, but we do not ordinarily advise shipments of over 1,000 miles. We ship by express, which we do not prepay. You can estimate the express roughly at about \$1.00 per 100 lbs. for each 100 miles. We guarantee safe arrival.

I would like to have your order, for I know you will like this breed, and I know we can suit you. Now is a good time to go into the hog business and start with pure bred stuff.

If you are close enough so that you can, it will pay you big to come to one of our sales, for it will be well worth your while whether you buy any hogs or not. You will get to see and compare lots of hogs, and visit with other breeders who will all be there. There are always some bargains, too, and if you are there you can pick them up. Summer sales are August 23 and September 20.

If you can't come to one of the sales, I will be glad to sell you whatever you want at private sale and ship subject to your own approval. The price list gives prices on all ages and classes.

List of Spotted Hogs Sold at

Our April 12th Sale

Our April 12th hog sale went off very nicely, and brought fairly good prices, considering the late date of the sale and the fact that the sows were due to farrow rather late.

A good crowd was present and the bidding was lively and the entire 52 head were sold by Auctioneer Miller in about two hours.

The 47 bred sows averaged \$86.25, and the 5 fall boars averaged \$64, making an average for all of \$84.14.

The top of the sale at \$135 divided honors between No. 24, a spring gilt bought by R. H. Stooker, Dunbar, Neb., and No. 1, a yearling sow with a litter of 9 new pigs, bought by Roy Robinson, Shenandoah, Iowa.

A cattle sale followed immediately after the hog sale, consisting of 26 head of cattle, besides the little calves. They brought just fair prices, as the farmers are not very enthusiastic about cattle just now. Fred Goodall bought most of the registered Shorthorns, and Fred Woodard most of the young grade cattle.

BRED SOWS

No.	Bought by	Price
1	Roy Robinson, Shenandoah, Ia.	\$135.00
2	Mrs. Jim Hanley, Rockport, Mo.	90.00

5 Boars—Average		\$64.00
Average of all		\$84.14

Holdredge Pumpkin Show

It must be Holdredge that is staging this big show, although we do not have anything very definite yet. It is to include Franklin, Kearney, Buffalo, Harlan, Phelps, Furnas, Gosper, Dawson, Red Willow, Frontier, Lincoln, Hitchcock, Hayes, Dendy, Chase and Perkins counties in Nebraska, and Rawlins, Cheyenne, Decatur, Norton, Phillips and Smith counties in Kansas.

It sure will be some pumpkin show. They are offering \$500.00 first prize for the largest pumpkin, and \$500.00 in a number of other prizes. I would suggest, if you are interested that you write the Secretary of the Chamber of Commerce at Holdredge, Nebraska. They will be able to tell you who to write, or possibly can send you particulars.

The folks down in that part of the country will be wanting to know about varieties and methods. Rich soil, good cultivation and plenty of room are some of the things that are necessary to raise big pumpkins. If you have good alfalfa or clover sod, this will be fine. You can also use tankage as a fertilizer. Use the same tankage as you feed your stock. Spade in as much as a quart in each hill, say two or three feet across. Most of the feeding roots are within 6 inches of the surface, so it will do no good to bury a lot of manure away down in the ground with soil on top. If you have some well rotted manure, spade it in the soil, but do not use manure that has not rotted.

We have three or four large varieties of pumpkins, the Mammoth Tours, Mammoth Chili and King of the Mammoths, all 15c per ounce, or 45c per $\frac{1}{4}$ pound. Would suggest you get an ounce of each and select the nice plump seed in all of them. Plant not less than a dozen seed to the hill, so you will have a few plants for the bugs. Later on thin to a plant or two to the hill. Ask for "Helpful Hints for Gardeners," which, among other things, tells about growing pumpkins and squashes.

"Grow Your Groceries"

Will Have a Garden

"I will have to apologize for sending in an order as late as this, but we just got settled and found we would have a garden this year, so of course we must have a few of Field's seed. We used to get your catalog regular when we lived in Waverly, Iowa."

—Roy R. Young, Hampton, Iowa.

Eight Fine Pigs

The Spotted sow I bought of you has eight fine pigs, and some of my neighbors that said I was crazy for sending a bid and paying so much, wish now they had been as big a fool as I was."

—Mrs. Erdine Beemer, Gravity, Iowa.

"I received my sow in fine shape and I think she is a fine sow. Thank you for using good judgment in purchasing her for me. I sent the papers to have them transferred for me and got them back yesterday. I wish I had the money to buy two or three more just like her. Very truly yours,"

—Warren McClanahan, Bradgate, Iowa.

No Change in Seed Corn

Prices 'This Month

The prices printed in the catalog on seed corn and also printed in the February and March price lists of seed corn, will stand through May. No change whatever.

Remember, that all our seed corn is sold subject to your own test and approval, and if not absolutely satisfactory, can be returned at our expense and your money refunded. You can have as long as you like to test and examine the seed. That is, anything in reason. If you decide to keep it and plant it, as I am sure you will, it's up to you and the weather man then. I can't promise you a full stand in the field. No one can do that. It depends too much on weather and deep planting, and bugs, and wire worms, and all the rest of the different troubles.

But we do promise that we will send you seed corn that has shown very high test for us, (94 per cent or better), and that should show high test for you. If it don't, you can fire it back.

If you think I'm bluffing, order some of it and see. You'll find that as usual I've "got the goods."

Plant Some Feterita

I believe that it will pay you to plant at least a trial patch to feterita, the new grain sorghum, and if you live in a dry country you ought to plant a big field of it, for it will stand more drouth than anything I ever saw. In many parts of Oklahoma and Kansas it was the only thing that made a crop at all last fall. It made a fairly good crop where milo, kaffir and such crops failed entirely.

It makes fine feed for stock of any kind and is valuable both for grain and fodder. It is especially fine for chicken feed, and yields heavily even on a small patch. It should be drilled in rows like corn and cultivated the same way. Thin to about 6 inches apart in the row, single stalks, 2 to 3 pounds will plant an acre. It will yield anywhere from 25 to 75 bushels of seed per acre, according to the soil and the season. Price 20c per lb., postpaid; or 10c per lb., not postpaid. Lower prices on larger lots.

Tomato and Cabbage Seed

"I am sorry that I neglected writing sooner that I received the seeds that I ordered. If they all come up as well as the tomatoes and cabbage did, they are sure fine seed. I gave them to my father as he has hot beds. Then I will get plants from him, as I have a very small garden. The last time I was out to his house he said, 'Come out and see the fine tomatoes and cabbage; how nice they came up.' I said, 'so soon?' He said he never saw seed come up like they did, and I exclaimed, 'they are up before I have even acknowledged receiving them.' I am sending another small order. Yours sincerely,"

—Mrs. E. H. Benn, Seattle, Washington.

Big Money in Soy Beans

These folks over in Illinois are not the only ones to realize the big money in Columbian soy beans. But aren't they enthusiastic?

It's queer how many times real worth while things have their beginning in a very small way. Mrs. Muir started out with just a small packet of Columbian soy beans. The return was a bushel and a gallon the next year of Columbian.

A bushel handled in about the same way will do as well, and will plant eight acres. The yield should be at least twenty bushels per acre, possibly twice that. Put them in alone, or with the corn. Help build up the soil and makes great hay or pasture all at the same time.

This is the month to plant soy beans. See price list on back page.

"Dear Sir: Have been wanting to write you for some time about the package of Columbian soy beans I got from you last year for 35c. My husband is so enthusiastic about soy beans that I sent and got them for him and didn't tell him a thing about them until they came. He put them in a choice place, cultivated and took good care of them, and the result is he has a bushel and a gallon of fine seed to plant this year. He sent to Virginia and got another kind of soy beans this year, a bushel; another in Illinois some place, have forgotten where and the kind."

"He raised about 50 bushel this year of the Medium Yellow. Has already sold nearly 40 bushels of them for seed at \$5.00 per bushel. He says he is going to try to raise 200 bushels for seed next year. I saw in my last Seed Sense about the Missouri farmer with his package of Columbian soy bean seed. They sure are great. Wishing you success in your great relationship, I am a friend to Field seeds. Respectfully,"

—Mrs. J. H. Muir, Mulberry Grove, Ill.

Use from 8 pounds per acre with corn, to 15 pounds drilled in with corn planter rows regular width. For hay, drill or sow broadcast 30 pounds per acre.

Try an acre or two of COLUMBIAN. We have a fair supply as yet and can take care of bushel orders for some time. One of the best soy among the six best sellers. Price \$12.00 per 100 pounds, or \$7.20 per bushel sacked.

Garden Seeds on the Cafeteria Plan

*Low Prices, Quick Service,
Wait on Yourself*

Did you ever eat at a Cafeteria? One of these places you know where you walk along the counter, pick out what you want to eat, pay the cashier, carry your stuff to a table, and eat and run.

Saves money, time, work and seems to make everybody happy. You get your money's worth, get just what you want, and don't take all day about it. I always did like it. I have a theory that the same thing can be worked out in seeds.

So I have made up a list of garden seeds, opposite on this sheet—standard stuff that is all good and that ought to all be in every garden. Everything is described but I have not bothered you with the names of the varieties. You have my word for it that they are all good, proven kinds, the bread and butter stuff.

My idea is to get right down to first principles. Put a low price on everything, handle it in the simplest possible manner, cut out all lost motion, and figure on a small profit but lots of sales.

Simply go through the list and mark what you want, putting down opposite each item the price it comes to, then tear out the list, put in a money order or check, or stamps and mail it to me.

We have these seeds put up ready, in a special set of cases, and every one of these orders will be filled the same day it lights. That is, provided it comes in on this special order blank, paid in full, and with nothing else on the sheet with it. You can order all the other stuff you want, but put it on a separate order sheet.

Everything will be in regular big fat packets, our regular guarantee, fresh tested seed of good standard varieties. It will not be special small packets nor outlaw seed. Not on your life. It's the real stuff, the Henry Field kind.

We are trying to see if people will like this way of buying, and will appreciate low prices, quick service, and "help yourself."

Now, it's up to you. If you like this

way of buying seeds, all right. If not, all right. No harm done. I know the idea of this is right, and I know I am offering you a bargain. The rest is up to you.

Henry Field.

P. S. I want your seed order anyway, whether you order from this special list

or from the regular list. The book is full of all kinds of good stuff and there is another order sheet further over. It will suit me if you send them both in, both full up. Whatever way you order I give you your money's worth and good service.

H. F.

Some of the Everbearing Strawberries

This photo was taken October 7, and shows what the Everbearing Strawberries look like. They look just like any other good strawberry and taste the same. The only difference is that they bear more or less steadily all summer and fall instead of just once in June. They are the only berries that will bear enough to amount to anything the first year they are set. Ordinary varieties are not well enough established by fruiting time to do much, but the Everbearing berries bear fruit on the young plants as fast as they get rooted and you get quite a nice sprinkling of berries all summer and fall. If you pinch off the first crop of bloom you will of course get more of a crop in the fall, but we just let ours go and bear whenever they took a notion. The main thing is to give them good soil, good care, and plenty of water. Otherwise they need no different care from any other berries. There is time to set them yet. Send in your order at once and we can fix you out. Price, \$2.50 per 100.

Too Late to Plant Peonies

Peonies can be set either in fall or spring. Fall is the best, but spring is all right if you set them early. Every year we get lots of orders for Peony plants in May, after they are a foot high and budded to bloom. They would be sure to die. These orders we back order for fall shipment. Fall is best, anyway. Get ready now to plant some then. Planted this fall they will bloom next spring.

Tobacco Dust for Bugs

Now is the time to lay in a supply of tobacco dust for the bugs and plant lice. If you wait until they appear it will be too late. Always figure on delayed freight or express and order early enough so that the railroad companies can hold shipment up along the line as long as they like and yet reach you in time for the bugs and lice.

I don't know that you will need it, but you can't afford to take chances. Tobacco dust is one of the best things I know of to drive the striped bugs away and kill the lice. The bugs and lice are not fond of tobacco as poor depraved man, and promptly move out when dusted. Sprinkle the dust on the plants when they are small and on the under side of the leaves for the lice.

Price: 12 lbs. for \$1.00; 25 lbs. at 8c per lb.; 100 lb. lots or more, 7½c per lb. Customers to pay transportation.

Likes His Sow

"I like the sow I got in your February sale fine. Couldn't have got one better for the money if I had been there myself. She had a fine litter of nine. Yours truly,"

—C. G. Yancey, Knobnoster, Mo.

Hubam Clover

(From the manager of Gov. Lowden's farm.)

"If Hubam will do just one-half what is claimed for it, we shall not only save what seed we raise this year, but order more next year with hopes that in 1923 we can sow every acre of small grain—not sowed with alfalfa or other red clover—on both Sennis-sippi and Woolawn Farms to this annual sweet clover with the intention of plowing it under. When, more than a year ago, I first called Governor Lowden's attention to the claims that were being put out for this clover, his reply was that 'if it is just half true it is the most revolutionary thing, and more to agriculture in the corn belt than anything that has been discovered in my lifetime.' The Governor, as perhaps you may know, stands upon the platform that successful agriculture in the corn belt is founded upon the three L's—as he calls them—live stock, legumes and lime. Consequently, you may appreciate his interest in this particular legume for which such astonishing claims are put forth."

—J. T. Williams, Sterling, Ill.

"Grow Your Groceries"

Everbearing Strawberries

"Will tell you about my Everbearing strawberry plants I got from you last spring. I got 250 plants, picked forty-two pints from October 10th to November 7th, ripe and green ones on the vines, and also blooms when they froze last November. The finest I ever saw."—Mrs. J. J. Woods, Butler, Mo.

Pleased With Seeds

"I am much pleased with seeds and thank you for all the extras. The order was well filled, and all right on your part. I made the mistake of not looking under the Tobacco Dust packages for the seeds before I wrote you. So that was the cause of all the trouble, if there is any. Had expected the seeds would be on top when box was opened. Enclosed find cards filled out as requested."

—B. M. Wilkins, Goss, Mo.

"I received the hog today and am well pleased. She came through in good shape. I didn't receive your catalog for your sale of March 17th. I would like very much to have one for future reference. Your truly,"

—Carl J. Ground, Juanita, Nebr.

Tomatoes in Egg Shells

"I had the most wonderful garden last year. The peas and beans and tomatoes were many more than we could use, besides canning all we wanted."

"I tried a new way of starting tomato plants last year and had splendid success. I planted two or three seeds in the half of an egg shell. When they came up I pulled out all but one plant. The root grows right through the egg shell when set out in the garden, and the heat and dry weather have no effect on the plants whatever. At least that was my experience last year. The plants started in egg shells were from one to two weeks ahead of those started the ordinary way in bearing ripe tomatoes. So far I have found no tomato like the Redhead."

"One does not mind so many long hours spent in the garden when one gets such yields as I had last year. I always speak a good word for your seeds, and my garden speaks for itself and the seeds used, too."

—Mrs. Frank Shafer, Doniphan, Nebr.

Grimm Alfalfa

"Dear Sir: The seed I got of you last spring did fine and I got two cuttings. I have a fine stand and it looks fine this spring. Looks good for a big crop."

—W. O. Hunt, Cordova, Illinois.

Sorghum Was Fine

"Dear Sir: The sorghum you sent so long ago arrived the 11th, and altho I grew it up in Missouri and thought I knew what good sorghum was, I must acknowledge you told the truth when you said yours was the best I ever saw. It sure is fine. Yours truly,"

—B. O. Millikan, Guide Rock, Kans.

Results Were Surprising

"Dear Sir: Last year we ordered seeds from you for the first time, and sowed and planted them according to your directions. The result was surprising. We not only had a large quantity of vegetables, but a beautiful and attractive garden of flowers. We think your seeds certainly do grow, and wish to express our gratification of them."

"We are today sending another order. We are planning to change our location to Eastern Iowa, but hope to have good results again. We enjoy reading your 'Seed Sense' magazine. Yours very truly,"

—Dr. J. A. Valenta, Lake City, Iowa.

Boosting Our Seeds

"I hope that I am not spoiling the good effect of a rather generous seed order by the fact that we have bought seeds of you from the tone of this letter. (I will also have to add boys who sell your collections), but we have patronized you for years. Our folks all swear by you, and we boost you to the neighbors in a way that it would be hard for you to understand."

—Mr. M. Coverdell,
Care Iowa Farmer & Corn Belt Farmer.

Hubam--The New Annual White Sweet Clover

New Crop Seed Now Ready at \$5.00 Per Pound

(Prof. Hughes has officially named the new Annual White Sweet Clover "HUBAM", and requests that it be referred to by that name hereafter, as it is distinctive, easy to say, and easy to remember, and will avoid confusion. So hereafter, Hubam it is. H. F.)

In last month's Seed Sense I had this to say:

"I never saw such a demand for anything in the seed line as there is for the New Giant Annual White (Hubam) sweet clover. We grew about 4,000 pounds of seed of it last year and sold it all during the fall at \$5.00 per pound. We have practically the only commercial supply of the seed, as what we sold the year before was sold mostly in one ounce packages which made only limited amounts of seed.

"We have been getting hundreds of letters this winter begging for seed, but we have sold all we had except a small amount we were holding back to go out in ounces. We managed, however, to buy back at a stiff premium some of the seed we had sold to the De Graff Food Company, De Graff, Ohio, early in the season and passed it on to our customers. Also we bought in small amounts grown by our customers from seed we sold them the year before. All of this, however, is only a drop in the bucket compared with the demand and most of you will have to wait until a new crop of seed is grown.

"Fortunately the De Graff Food Company took some of their seed down into the lower Rio Grande Valley in Texas and planted it in November and they hope to harvest a crop of new seed by May 1st, in time for this year's seeding.

"Mr. Crites, the president of the company, was here recently on his way back from Texas, and says the crop is coming along fine, and he promised to let us have for our customers some of the seed harvested.

"So we will book you new crop seed for delivery first half of May (subject of course to its ripening by then), at 50c per ounce, or \$5.00 PER POUND. This will be grown from our seed and carefully watched and rogued.

"Meanwhile, as long as our present stock of seed lasts we are selling ounces, not over 2 in a place, at 50c per ounce, and pounds, when we can get the seed, at \$10.00 PER POUND.

"You know, of course, what it is. It is the greatest new farm crop since the introduction of alfalfa and Prof. Hughes says it will revolutionize farm practice and rotations in the Corn Belt."

Since that was written we had a letter from Mr. Crites reporting on the rapid growth of the Hubam in Texas, and he says there is no doubt in the world but that the first seed they deliver will be much earlier than the original strain and he feels that this seed can be planted with safety until the middle of June. Of course that will all depend on where you live. He also emphasizes the fact that the Hubam will mature seed after frost and that the seed can really be planted much later than most people have supposed.

So if you do not make up your mind until late or if you wish to save \$2.00 per pound, by buying the Texas seed for \$8.00 instead of the spot seed we have now at \$10.00, we have no less an authority than Mr. Crites to quote as to the possibility of your maturing the seed planted even as late as the first week in June.

Personally, we believe the seed ought to be in the ground from the 15th to the 20th of May. Up at Ames they planted some in May and we also planted some in May last year and both of us had seed to show for our labor. But last fall was an exceptional one in that the frosts came very late.

We don't want you to buy something and be disappointed, but really the demand for this Hubam is going to be enormous from now on and while you probably will not realize anywhere near \$3.00 or \$10.00 per pound for your seed, you ought to make \$200.00 or \$300.00 per acre this fall, even if the seed sells as low as 50c per pound, hulled and scarified.

Take this letter for instance, which I received on the day before our last hog sale.

"Dear Mr. Field: I received your letter today stating your best price is \$10.00 per pound. Please send me 3 pounds of the Hubam Annual White Sweet Clover as soon as possible. Three pounds is all the cash that I can spare up just now because money is pretty hard to get hold of, but will send for more if I get the cash before seeding time.

"I have 2 pounds on hand raised from the sample from the Iowa Experimental Station last year. I got 2 pounds from 46 plants and I sure am crazy about the dope. I have 7 acres of the old kind of sweet clover, but this is by far the best. Find enclosed check for \$30.00 for same. Yours truly,"

(This man lives in South Dakota).

Listen to another letter from one of our customers, way up in the northwest corner of South Dakota.

"Last spring I received one of the samples of Hubam Annual White Sweet Clover from Ames. I had rather bad luck with it to begin with, as we had a terrible cloud burst the 8th of May, just as it was coming up. It washed out all but about 40 of the 200 plants. Of these about 20 produced some seed and several were well loaded and I have perhaps half a pound or a little more.

"I think that by getting a pound from you and putting it in as I did last year in rows, I will have all I can use and some to spare next year. If you will keep my name on your record as having received the seed from you, it may be that we can deal to mutual advantage in the future, as I intend to raise all of this northern grown seed I can, if the price is even reasonable.

"My tallest plants were better than 6 ft., and on land where usually one-half a ton of prairie hay can be cut and that only about every other year. I am in the center of the northwest corner of South Dakota, where it is pretty high and dry, with early and late frosts.

"It is evident, from my experience last year, that it will have to become somewhat acclimated for best results in producing seed. But I think it will readily do this as the seed I have is only from the more advanced plants raised last year.

"Would also like to know where your seed came from, whether from Alabama or the north. Don't think it would make much difference in the long run, but would like to be able to compare results. I understand that they think now that it all originated in Alabama a few years ago."

Don't think for a minute that the demand for this Hubam is going to be just here in the middle west. It is going to be all over the United States and all

over the world, in fact. We are shipping seed in large amounts into Canada. They have realized the possibilities in sweet clover and especially do they realize the immense amount of good to be obtained from this quick growing Hubam. Think of growing it 6 ft. high as it did up there in South Dakota, after having a cloud burst the fore part of May, and on poor land at that.

The interest also found its way into Australia. There is a dealer at Melbourne who is going to cable us for a supply as soon as he receives our letter with quotations, and by the way, he is going to use the Texas seed which we will have ready the first part of May, or hope to have.

We are going to fill these orders in rotation. The price is \$5.00 per pound, f. o. b. here, safe delivery guaranteed, of course. On each and every order we will send out a certificate stating that the customer is buying the genuine Hubam, so that when he has seed to sell this fall or next spring, he will have something on which to back him up.

In connection with the new Annual sweet clover, or Hubam, as they will call it from now on, if any of you who are reading this page ever happen near Ames, Iowa, be sure and stop off and call on Prof. Hughes, or at least have permission to go through the greenhouses where he is conducting some very interesting tests with the Hubam compared with the biennial, on different types of soil and also from seed grown in different parts of the world.

They will also have many field tests to show you as soon as the growth out-of-doors will have advanced far enough along to show up.

It is an assured fact that Hubam seeded in the spring with oats or on fall wheat will make a growth of at least 3 ft. high after harvest and think what this will mean to the farmer as green manure, or what it will mean to your stock as pasture or cut for a late crop of hay.

We drill the seed in rows with what is known as the Iron Age combined drill which sells for \$19.50 with the cultivator attachment. We put all of our crop in last year with one of these drills and used a pound and a half of Hubam with a pound and a half of millet, which we baked to deaden in the oven, and used as a filler.

Best to get the seed in about one-half inch deep. Have the seed bed well packed. Be certain of this for it is very important. A culti-packer, roller, or float is a necessary tool to insure a stand of sweet clover, be it biennial or Hubam.

But by all means try this new legume out, even if only an ounce and satisfy yourself as to the desirability and especially the possibilities under your own conditions.

Condensed Postpaid Price List of Garden Seeds For 1921

This is a condensed list of all the garden seeds that are described and priced in the 1921 catalog. I have written short descriptions here of each item and put down correct postpaid price.

Everything is listed here, and the prices are the same as in the body of the catalog. You can make up your order from this even better than from the catalog, as it is handier to get at.

Wholesale Prices. Write for special prices on large amounts of garden seeds to come by freight or express at your expense.

I Guarantee Safe Arrival of all money sent to me by check, draft, or money order, or registered letter, and I guarantee safe arrival of goods to you. If goods fail to arrive I will refill.

These Prices are Postpaid. Unless otherwise specified, these prices include prepayment of all postage, delivered anywhere in the U. S.

How to Send Money.—You can send the money any way you please, only it is not safe to send loose silver, and loose stamps are a nuisance. Silver is almost sure to break out of the envelope unless extra well wapped.

Send Money Order, Draft or Check if you can. Next best is paper money in a registered letter. Failing there, send silver in a card wrapper and use as a last resort, stamps. Canadian stamps we can't use.

No. L75. Fastens under windshield bolts. Lower bracket fits on bolt in running board. Holds one or two tires. Leather straps included. Bracket has hole for locking chain. Regular Price \$2.75. Our Special Price \$1.25 postpaid.

Ariel Single Cylinder Pump

No. L505. We recommend this Ariel Tire Pump to our customers as representing the best value in a single barrel pump. It is a combination of strength and appearance. It has a heavy seamless drawn brass cylinder that is practically dent proof. It has a solid cast base and a good sized handle. The barrel is reinforced where it screws into the base, with metal heavier than the rest of the cylinder and this eliminates any possibility of the pump breaking off at the base. The air-tight check valve prevents the air from going back into the pump after it has once been forced out. This means fewer strokes and easy pumping. Diameter of cylinder is 1 1/4 inch, which for a tire pump we have found to be the most efficient with the least amount of effort. The pump is furnished with heavy pump tubing 28 inches long. Regular Price \$4.00. Our Special Price \$1.98 postpaid.

Special Prices on Spark Plugs

Ford Sizes Only

Bethlehem Spark Plugs— Everybody knows about them, no use to describe them. They are nationally advertised and made by Schwab, the big steel man of Bethlehem, Penn. Take our word for it, they're good. Regular Price \$1.00. Special Price 50c each, postpaid.

Metzger Soot Proof Plugs— We've used a lot of so-called Soot-Proof Plugs in our Ford

the entire road. It not only lights the road directly ahead with the illumination of daylight, but the diffusion is equal on either side. The Violet Ray makes night driving a pleasure by revealing a good light, strong and white, 300 to 400 feet ahead. It is very attractive and adds distinctiveness to the car. Easily installed; merely insert in place of the one you now have. Ford size only.

Price Postpaid, \$4.50 per pair.

High Duty Compound Pump

No. L565. The High Duty Pump has demonstrated its ability to pump more air with less effort than any other compound pump on the market. It is made by one of the largest and best pump makers in the United States and its efficiency is guaranteed.

The pump is handsomely finished with nickel plated steel barrels and rosewood handle. Regular Price \$4.25. Our Special Price \$2.10, postpaid.

Cotter Pins and Lock Washers

No. X155. Cotter Pins— How many times have you wished you had some cotter pins when you were working on your car or having trouble on the road? You can't afford to be without one of our assortments. Regular Price 35c. Our Special Price 12c per assortment.

No. X110. Lock Washer Assortment— Be sure to include one of these with your order. They are packed 45 in a screw cap box. Assorted sizes. Regular Price 35c. Our Special Price 15c per box.

Tail Lamp for Ford Cars

No. D11X. This Tail Lamp is made especially to fit Ford cars which have been built since 1915. It is equipped with a bolt and nut with a lock washer. The lens is a genuine 3 inch ruby semaphore. The lamp is well constructed and will

No. Z35. A strong, simple type of jack sold at an extremely low price. Note its 3-ton capacity makes it ideal for small trucks. You have a margin that will handle a loaded truck. Cold rolled screw is 1 in. in diameter. Capacity, 6,000 lbs. Weight 8 1/2 lbs. Height 1 1/2 in. lowered and 19 in. when raised. Price Postpaid, each, \$4.70.

Ford Auto Jack

No. Z10. This is a light screw jack for cars weighing up to 2,000 pounds. The broad, square base gives a firm footing which has done much to make this jack a favorite among drivers of light cars. Made of malleable iron with a 5-8 in. cold drawn steel machine cut screw, with swivel top. Weight 3 lbs. Adjustment 9 to 14 in. Price Postpaid, \$2.00 each

Trouble or Inspection Lamp

No. E1892. This is a high grade trouble lamp with a 10-foot cord and double contact plug, nickel reflector. Can be attached to any Ford car or any other car which carries a storage battery. Furnished without bulb. Regular Price \$2.00. Special Price \$1.00 postpaid.

Grease Gun

No. 040. All joints are riveted; spouts are riveted to the spout hubs. Cylinders are constructed of extra heavy material.

No. K105. This we regard as the standard construction for an inside blow-out patch. The large flaps to engage in rim—the soft rubber feather edges to protect the tube—the moulded construction to fit the curve of the tire perfectly. Regular 40c, 3 inch size for 20c postpaid. Regular 50c, 3 1/2 in. size for 23c postpaid.

Driver's Back Cushion

No. G88. A most comfortable cushion, 16 in. square, tapering from 3 1/2 inches deep at base and has 7 in. tabs at top for tacking or buttoning so as to keep in position wanted. Black leatherette, tufted and well padded. Price Postpaid each, \$3.10

Advance Cable Tow Line

No. Z288. Made of flexible steel cable with hook on each end fastened with clamp. 3-8 in. line, 20 ft. long. Every driver should carry one. Price Postpaid, each \$6.30.

Tool Roll for Ford Cars

No. G727. A kit of twelve necessary tools especially adapted to Ford cars and trucks. Includes the following: 12 oz. ball pein hammer, 6-in. forged pliers, 3-in. screw driver, 4 drop-forged wrenches, semi-finish, (openings 9-16, 11-16, 15-16, 17-8, 1 1-8, and 5-8, 3-4), 9 in. forged adjustable wrench with tire level handle, Cotter pin tool, forged steel, 6x1/4 in. cold chisel, 10 in. double-end tire tool, hub cap wrench, familiar steel pattern. You will note the absence of all unnecessary tools. The wrenches are of our best grade drop-forged, and have the exact openings for nuts and bolts on the Ford. Regular Price \$5.00. Our Special Price \$2.60 postpaid.

Subject to Unsold

Our stock on many of these items is limited.

Condensed Postpaid Price List of Garden Seeds For 1921

This is a condensed list of all the garden seeds that are described and priced in the 1921 catalog. I have written short descriptions here of each item and put down correct postpaid price.

Everything is listed here, and the prices are the same as in the body of the catalog. You can make up your order from this even better than from the catalog, as it is handier to get at.

Wholesale Prices. Write for special prices on large amounts of garden seeds to come by freight or express at your expense.

I Guarantee Safe Arrival of all money sent to me by check, draft, or money order, or registered letter, and I guarantee safe arrival of goods to you. If goods fail to arrive I will refill.

These Prices are Postpaid. Unless otherwise specified, these prices include prepayment of all postage, delivered anywhere in the U. S.

How to Send Money.—You can send the money any way you please, only it is not safe to send loose silver, and loose stamps are a nuisance. Silver is almost sure to break out of the envelope unless extra well wapped.

Send Money Order, Draft or Check if you can. Next best is paper money in a registered letter. Failing there, send silver in a card wrapper and use as a last resort, stamps. Canadian stamps we can't use.

Phinney's Early. Very early, small, oblong	5	15	40	1.20
Princess. Small, individual size	10	25	65	

Closing Out Our Auto Accessories

We started out last fall intending to do a big mail order business in Auto Accessories, and laid in quite a stock of them from the factories, but then we got busy with the seeds again and neglected the Auto stuff, and now we have decided to cut it out entirely. We haven't time or room to take proper care of it. So we are going to close it all out at cost and less. Notice the prices. You can't beat them anywhere. Order quick if you want them at these prices.

Henry Field Seed Company, Shenandoah, Iowa.

Newton "Superior" Electric Horn

No. F462. In the Newton "Superior" are combined durability, volume of sound, accessibility, low current consumption, pleasing design—all the essentials of a satisfactory motor horn—at a price that makes it decidedly attractive to the average motorist. Complete with necessary wiring, push button, etc., ready to be installed. Finish in black. Regular Price, \$8.00. Our Special Price \$4.25 postpaid.

Newton "Handphone" Horn

No. F464. A hand operated warning signal with few parts. Regular Newton quality throughout. Tone varies according to pressure on hand lever. Black finish. Regular Price, \$5.00. Our Special Price \$2.75, postpaid.

Tire Carrier for Ford

No. L75. Fastens under windshield bolts. Lower bracket fits on bolt in running board. Holds one or two tires. Leather straps included. Bracket has hole for locking chain. Regular Price \$2.75. Our Special Price \$1.25 postpaid.

Ariel Single Cylinder Pump

No. L505. We recommend this Ariel Tire Pump to our customers as representing the best value in a single barrel pump. It is a combination of strength and appearance. It has a heavy seamless drawn brass cylinder that is practically dent proof. It has a solid cast base and a good sized handle. The barrel is reinforced where it screws into the base, with metal heavier than the rest of the cylinder and this eliminates any possibility of the pump breaking off at the base. The air-tight check valve prevents the air from going back into the pump after it has once been forced out. This means fewer strokes and easy pumping. Diameter of cylinder is 1 1/4 inch, which for a tire pump we have found to be the most efficient with the least amount of effort. The pump is furnished with heavy pump tubing 28 inches long. Regular Price \$4.00. Our Special Price \$1.98 postpaid.

Special Prices on Spark Plugs

Ford Sizes Only

Bethlehem Spark Plugs—Everybody knows about them, no use to describe them. They are nationally advertised and made by Schwab, the big steel man of Bethlehem, Penn. Take our word for it, they're good. Regular Price \$1.00. Special Price 50c each, postpaid.

Metzger Soot Proof Plugs—We've used a lot of so-called Soot-Proof Plugs in our Ford trucks and cars around the Seed House, but this comes as near being a real soot-proof plug as any I ever saw. It is thoroughly dependable. Ford size only. Regular Price \$1.00. Special Price 35c each, postpaid.

Diamond Dimming Lens

No. E465. This new lens is made in the diamond pattern which kills the glare and at the same time gives ample light for driving. The price—practically that of plain lamp glasses—should make this lens popular among owners of Ford cars. Ford sizes only. Price Postpaid, 70c per pair.

Violet-Ray Lens

No. E470. This lens was made necessary by the urgent demand of motorists for safety in night driving. Exhaustive laboratory experiments and tests with the constituents of light and its projection have resulted in the development of a steel blue glass which, by eliminating the glare of yellow rays and retaining the full power of light, produces in effect an artificial daylight, or in a word, the Violet Ray. It does not produce a shaft of blinding light, but the Violet Ray gives a clear, pure, even luminant revealing the entire road. It not only lights the road directly ahead with the illumination of daylight, but the diffusion is equal on either side. The Violet Ray makes night driving a pleasure by revealing a good light, strong and white, 300 to 400 feet ahead. It is very attractive and adds distinctiveness to the car. Easily installed; merely insert in place of the one you now have. Ford size only.

Price Postpaid, \$4.50 per pair.

High Duty Compound Pump

No. L565. The High Duty Pump has demonstrated its ability to pump more air with less effort than any other compound pump on the market. It is made by one of the largest and best pump makers in the United States and its efficiency is guaranteed.

The pump is handsomely finished with nickel plated steel barrels and rosewood handle. Regular Price \$4.25. Our Special Price \$2.10, postpaid.

Cotter Pins and Lock Washers

No. X155. Cotter Pins—How many times have you wished you had some cotter pins when you were working on your car or having trouble on the road? You can't afford to be without one of our assortments. Regular Price 12c per assortment.

No. X110. Lock Washer Assortment—Be sure to include one of these with your order. They are packed 45 in a screw cap box. Assorted sizes. Regular Price 35c. Our Special Price 15c per box.

Tail Lamp for Ford Cars

No. D11X. This Tail Lamp is made especially to fit Ford cars which have been built since 1915. It is equipped with a bolt and nut with a lock washer. The lens is a genuine 3 inch ruby semaphore. The lamp is well constructed and will give good satisfaction. Attractively finished with a baked-on enamel. Double contact connection. Equipped with 6-8 volt bulb. Price Postpaid, \$1.46 each

Motorekko Automobile Horn

No. F661. The Motorekko is probably the simplest and cheapest, and at the same time the most satisfactory warning signal now on the market. Attached to the exhaust manifold it gives a tone for every occasion from a low soft note for general driving to a sharp blast for emergency use. Made of brass with nothing to get out of order and practically nothing to wear out. Regular Price \$2.00. Our Special Price 90c postpaid.

Dash Lamp

No. E1881. Has on and off switch in shank of lamp. Total projection from dash is 2 1/2 inches. Note the triangular base that allows mounting on dash between curves of instruments. Nickel finish. Furnished without bulb. Double contact. Regular Price \$1.00. Our Special Price 45c postpaid.

K-W Autolock Switch

No. C556. The Yale key is your plug. Insert key and turn. No one can start your car without the same key or one identically like it. May be fitted to any Coil Box. Fitted with a long screw that runs through the coil box and locks and units. Three keys with each lock. Regular Price \$3.50. Our Special Price \$2.25 postpaid.

Reliable Screw Jack

No. Z35. A strong, simple type of jack sold at an extremely low price. Note its 3-ton capacity makes it ideal for small trucks. You have a margin that will handle a loaded truck. Cold rolled screw is 1 in. in diameter. Capacity, 6,000 lbs. Weight 8 1/2 lbs. Height 11 1/2 in. lowered and 19 in. when raised. Price Postpaid, each, \$4.70.

Ford Auto Jack

No. Z10. This is a light screw jack for cars weighing up to 2,000 pounds. The broad, square base gives a firm footing which has done much to make this jack a favorite among drivers of light cars. Made of malleable iron with a 5-8 in. cold drawn steel machine cut screw, with swivel top. Weight 3 lbs. Adjustment 9 to 14 in.

Price Postpaid, \$2.00 each

Trouble or Inspection Lamp

No. E1892. This is a high grade trouble lamp with a 10-foot cord and double contact plug. Nickeled reflector. Can be attached to any Ford car or any other car which carries a storage battery. Furnished without bulb. Regular Price \$2.00. Special Price \$1.00 postpaid.

Grease Gun

No. 040. All joints are riveted; spouts are riveted to the spout hubs. Cylinders are constructed of extra heavy steel tube, 1 1/4 in. diameter, 9 inches long and brass plated. The plungers are of specially selected cork. The end of the gun is threaded to fit the three-quarter 24 tap hole in Ford differentials. Regular Price \$1.50. Special Price 40c, postpaid.

Mechanic's Apron

Price Postpaid, \$1.50 each.

Just the thing for the man who works on his own car, either in repairing it or washing it. Saves the clothes and is grease-proof and water-proof. It is made of heavy vulcanized rubberized cloth. Will wear a long time and give good satisfaction. Cheaper than overalls, and will wear longer.

Presto Hand Soap

No. M414. Presto Hand Soap takes off the grease, grime, stains and paint and leaves the skin soft and smooth. It is a time saver for motorists, repair men or others having to do with automobiles. It removes grease of the machinery or dirt of the road with equally satisfactory results. Regular Price, 20c. Our Special Price, 12 1/2c per can, postpaid.

Blow-Out Patches

No. K105. This we regard as the standard construction for an inside blow-out patch. The large flaps to engage in rim—the soft rubber feather edges to protect the tube—the moulded construction to fit the curve of the tire perfectly. Regular 40c, 3 inch size for 20c postpaid. Regular 50c, 3 1/2 in. size for 23c postpaid.

Driver's Back Cushion

No. G88. A most comfortable cushion, 16 in. square, tapering from 3 1/2 inches deep at base and has 7 in. tabs at top for tacking or buttoning so as to keep in position wanted. Black leatherette, tufted and well padded. Price Postpaid each, \$3.10

Advance Cable Tow Line

No. Z288. Made of flexible steel cable with hook on each end fastened with clamp. 3-8 in. line, 20 ft. long. Every driver should carry one. Price Postpaid, each \$6.30.

Tool Roll for Ford Cars

No. GT27. A kit of twelve necessary tools especially adapted to Ford cars and trucks. Includes the following: 12 oz. ball peen hammer, 6-in. forged pliers, 3-in. screw driver, 4 drop-forged wrenches, semi-finish, (openings 9-16, 11-16, 15-16, 17-8, 11-8, and 5-8, 3-4), 9 in. forged adjustable wrench with tire level handle, Cotter pin tool, forged steel, 6x1/4 in. cold chisel, 10 in. double-end tire tool, hub cap wrench, familiar steel pattern. You will note the absence of all unnecessary tools. The wrenches are of our best grade drop-forged, and have the exact openings for nuts and bolts on the Ford. Regular Price \$5.00. Our Special Price \$2.60 postpaid.

Subject to Unsold

Our stock on many of these items is limited, and at the prices we are making they will go fast. So we cannot promise these prices to remain except so long as present stock is unsold. Send your order in early if you want to be sure. If we are sold out on any items when your order is received we will refund your money.

Now in Book Form—Set of Three for \$1.00

Do you enjoy a good, hearty laugh—Of course you do. Everyone does. You have often read the cartoons of Mutt and Jeff and Bringing Up Father as they appear in the daily newspapers. And, by the way, did it ever occur to you, that these cartoons were drawn by two of the highest paid artists in the world? Bud Fischer, the originator of Mutt and Jeff and George McManus, the originator of Bringing Up Father, both have made a great success of this work. We offer you two entirely different books of Bringing Up Father and one book of Mutt and Jeff, each book containing about 48 pages of laughs, the whole three will be sent for \$1.00.

Boys' and Girls' Copyrighted Books for the Younger Folk

Books

Printed from large, clear type on superior quality of paper, embellished with original illustrations by eminent artists, and bound in a superior quality of book binders' cloth; or named with illustrated covers, stamped in colors from unique and appropriate dies. Each book wrapped in a glazed wrapper printed in colors. Your choice of any book listed below for 50c postpaid.

- The Bird Boys First Air Voyage*.
Ethel Hollister's First Summer as a Camp Fire Girl.
The Perils of an Air Ship.
Motor Boat Boys Mississippi Cruise.
Polly, a New Fashioned Girl.
The Twenty-Five Cent Collection
 All of these books have beautiful heavy board covers and are built to withstand hard usage. The cover is printed in many colors. These books are printed on good quality paper in easy to read type. Each book contains about 80 pages. They are all written especially for children and are easy to understand. They are of the variety you usually pay 40c to 50c for in any store. 25c each postpaid.

- No. A0591. *Jolly Comrades*.

Tire Tool

No. L329. A tire tool is a necessary part of repair shop or owner's tool kit. This tool is adjustable for large or small tires. Aluminum finished. Special Price 10c each.

Genuine Cut Glass Ice Tea Set

No. J8-83. This beautiful Cut Glass Ice Tea or Lemonade Set is of the famous Lotus ware. We have a limited supply. The set consists of 6 pint tumblers, a 7 1/2 inch, 3 1/2 pint jug, with a glass cover to match. The jug is of a low design which makes it handy for placing in a refrigerator. This set is beautifully cut, artistic and yet a very dignified pattern. We will gladly refund your money if you are not entirely satisfied. Every set is packed securely in a special shipping carton and we guarantee safe arrival. Weight 7 lbs., packed ready for shipment. Glass spoons with a glass hollow handle which can be used for a straw supplied for \$1.50 per dozen extra. Price per set, (postpaid), \$3.99.

Extra Glasses

We can supply extra glasses to match the Ice Tea Set above. 6 for \$1.98, postpaid.

"Sancy" Flashlight

Price 75c each, postpaid
Heavy nickel finish and highest grade of mechanical construction. Moisture proof case. Absolutely non-short circuitable. Each flashlight has a pocket clip to prevent loss. Flashlight is equipped with double cell battery and Mazda bulbs.

We can supply extra bulbs or batteries for these flashlights at 25c each, postpaid.

Overalls and Work Shirts

Entire Stock Being Closed Out at Reduced Prices

We are cleaning up our big stock of Work Clothing. Some numbers have already been sold out entirely. Other numbers are short some sizes. The balance must be sold at once, regardless of price. This is your chance. If you can use the sizes we have left, you'll surely get a great bargain. Our Special Overall and Work Shirt Bulletin shows the complete stock. Send for it today. It's yours for the asking. Below I am giving a few numbers to give you some idea of our values.

No. 300. Men's Shirts. Made of extra heavy blue indigo chambray, full out. Sizes 14 1/2, 15, 15 1/2. Price 98c each, postpaid.

No. 100X. Boys' Shirts. Built for hard wear of genuine stiff, heavy polka dot material. Sizes 12 1/2, 13, 13 1/2. Price 75c each, postpaid.

No. B1. Boys' Overalls. For boys who play. Made from fast color blue denim. Good quality. Sizes 4, 5, 6, 7, 8. Price 69c pair, postpaid.

No. B2. Boys' Overalls. Same as above, but in larger sizes. Sizes 9, 10, 11, 12, 13, 14, 15, 16. Price 79c pair, postpaid.

No. 146. Men's Pants. Something special in U. S. Government, heavy khaki twill. Full fashion make. All double stitched. Only a few sizes left. Would sell in any store for \$3.00. Sizes 40 to 42 waist only. Price \$1.98 per pair, postpaid.

Men's Overalls—Entirely Sold Out.
All questions in this bulletin are made subject to prior sale as our stocks are moving out rapidly, and no more will be bought.

Jersey and Sweater Coats

For Boys and Girls

Be sure to order by number and specify size wanted. We can only supply children from 7 to 17 years of age. (Note: Average size 28; 9 and 10 year, size 30; 11 year, size 32; 12 and 13 year, size 34.) We can only supply sizes and colors as listed below.

No. 8702 Sweater Coat. Rope stitch, heavy material, suitable for boys or girls, large shawl collar. About 60 per cent wool. Khaki or Maroon colors. 15, 16 and 17 year old sizes. Regular Price \$3.25. Special Price \$1.95 postpaid.

No. 8815 Sweater Coat. Medium heavy weight for smaller children. Good serviceable material. Finer knit than our No. 8702 coat. About 60 per cent wool. Oxford and cardinal only. Sizes 28, 30, 32 and 34 inches. Regular Price \$2.95. Special Price \$1.70 postpaid.

No. 2652 Jersey Sweater. Turtle neck, fine knit. Double ribbed collar and cuffs. Just the thing for boys. 100 per cent wool. Maroon color only. Sizes 28, 30, 32 and 34 inches. Regular Price \$3.50. Special Price \$2.00 Postpaid.

Raincoats of Quality

Guaranteed Waterproof. Reduced Prices.

No. 1032-34

No. 1040-504

We have a wonderful line of high grade Raincoats. The better kind that are dependable and will keep you dry. Lack of space prevents our showing the entire line but we will be glad to send our special raincoat circular which gives complete description and prices of each garment. There's no skimping of material in our raincoats. You'll find every garment roomy and comfortable. We've decided to close this line out, and you get the benefit of reduced prices. To give you an idea of our values, I am describing some of the numbers here. If these styles are not what you want, ask for our Raincoat Circular.

No. 1032-34. Ladies' Raincoat. We have had this raincoat made especially for ladies who want a rather modest yet stylish appearing garment. This coat is made of dark grey material and is of double texture with an innerlayer of rubber. It has ventilation under the arms. The seams are sewed, strapped and cemented. It has slash pockets and a belt which goes about three-fourths the way around the waist. Extra large, convertible collar. This garment will give excellent service to the wearer. Belt can be removed if desired. Sizes, 34 to 44. Average length, 52 inches. Price \$9.25 Postpaid.

No. 1040-504. Men's and Youths' Raincoat. This is undoubtedly the greatest value we have ever been able to offer you. In fact, you'll have to see the garment yourself to appreciate what we are offering you. It is made of Olive Tan colored, double textured cloth, with an inner layer of rubber. Heavy quality, and serviceable. It has expansion patch pockets and a belt of the same material. Convertible collar, seams are sewed, strapped and cemented. Coat is ventilated under the arms. Up-to-date style. Belt can be removed if desired. Sizes, 34 to 44. Average length, 46 in. Price \$8.75 Postpaid.

Boys' and Girls' Raincoats

This is not a cheap garment, although very reasonable in price. It is made of that same double texture cloth as Raincoat No. 1040-504. Every coat is made up in a stylish manner. Belt clear around. Pockets and large collar. Built roomy for real comfort.

No. 1040-16. For boys. Sizes 6 to 16. Price \$6.98 Postpaid
No. 1040-15. For girls. Sizes 6 to 16. Price \$6.98 Postpaid

American Made Dolls

1800 1801 1900 1802

The cut above is from an actual photograph of the dolls we have in stock. They are the best we could find in the country and we made the selection after examining samples of nearly every doll manufacturer in the United States. They do not have kid bodies nor eyes that close. Dolls are mighty hard to buy right now as the demand is far greater than the output. The dolls we offer are well made. They have stuffed bodies, hard-to-break beads and are about 20 inches high. The picture above shows how they are dressed, and you can have your choice. Be sure to order by number if there's any particular one you want.

No. 1800. Completely dressed with pink dress, bonnet to match, slippers and stockings. Stuffed body, "hard-to-break" head of composition material. 20 inches high.

No. 1801. Same as above except that this doll is dressed in white and without a bonnet. Pink ribbon tied in hair. 20 inches high.

No. 1900. Boy doll, dressed in a toboggan cap of blue material, with a sweater coat to match, white trousers, blue shoes and white stockings, without a doubt the best looking doll on the market today for the money. Regular \$2.50 value. 20 inches high.

No. 1802. Same as 1800 and 1801 but dressed in blue and without a bonnet.

Leonard Auto Clock,

Radium Dial

No. 26. The Leonard Night Watch converted into an Automobile Clock. The most practical and dependable one day Auto Clock on the market. Practically thief proof. Equipped with ingenious device which holds movement in place and takes up the vibration and jar of the car. Clock is 3 7-16 inches in diameter and less than one inch in thickness. Fits any cowl board. Movement is American made, fully adjusted and carefully regulated. Regular Price \$4.50. Our Special Price \$3.75 Postpaid.

Regular Junior Seedsman Premiums

The items which we show on this page are taken from our Junior Seedsman Premium List. They are the high quality premiums we give boys and girls for selling seeds for us. We have many customers who ask to buy them for cash the same as other merchandise. For that reason we are listing them here. While we are not cutting the price as much on these items as some others, still an examination will convince you that our prices are far below local dealers.

Leonard Night Watch

With this watch you can tell time on the darkest night without the aid of artificial light. The hands and figures are both finished with a Radium luminous formula so they can be easily read in the dark. The movement is guaranteed for one year, and the case is of plain nickel finish. Regular price, \$3.25. Our price postpaid, \$3.00.

Durham Duplex Safety Razor

Special Price Postpaid 80c

With the present high cost of shaves, it's extremely fashionable to shave yourself. The outfit we illustrate here is a wonder, the razor is just as easy to handle as the "old timer" dad used to have. In addition, you don't need to be afraid of cutting yourself for it's a "safety." Outfit consists of one Durham-Duplex Razor with American Ivory handle, safety guard and package of three double edged, hollow ground Durham-Duplex blades. Case is made of highly polished American Ivory to match the razor handle.

Five Extra Blades, 40c Postpaid

Icy Hot Vacuum Bottles

When you take that auto trip or go out for a picnic this summer, you'll enjoy it more if you carry an Icy Hot Bottle. While the bottle is guaranteed to keep soup, coffee or any other liquid hot for 24 hours without fire, it is also guaranteed to keep any liquid cold for three days without ice. You'll find many uses for the Icy Hot Bottle. It is needed in the care of the sick and aged, for keeping baby's milk at the right temperature, and about the home. Furnished in a beautiful enamel finish with a nickel top and screw cup.

Pint size bottle, complete and postpaid, \$2.50 each
Quart size bottle, complete and postpaid, \$3.50 each

Extra Fillers

Occasionally by accident a customer breaks one of the inner glass fillers for an Icy Hot Bottle. We carry a supply of these fillers and can take care of wants promptly. These fillers, however, will not fit all kinds of vacuum bottles and are intended for Icy Hot Bottles only. Be sure to state size of your bottle in ordering.

Pint size, extra glass filler, postpaid, \$1.50 each
Quart size, extra glass filler, postpaid, \$2.00 each

Pocket Knife Tool Kit

Price Complete \$1.75 Postpaid
No. 27. Pocket knives are out of sight and hard to get at any price. Very cheapest ones will cost you a dollar. So just stop and consider what a bargain you are getting in this pocket tool kit. You get the knife, all the tools and a kit to carry it in. We get them at low figure by buying right from the manufacturer in big quantities. This will set the boys crazy. I have carried one for years, but mine cost me \$2.00. It is a big, heavy farm size jack knife, 6 1/2 inches long, when open, with a highly tempered blade that can be used for anything. Then there are five different tools that fit in the other end of the pocket knife handle. The tools enclose in leather pocket case.

Leonard Pocket Watch

This is the best low priced watch on the market today. It is 16 size, stem wind and stem set. Guaranteed for one year. Case is bright nickel finish and will not tarnish easily. I carry a watch like this and like it fine. Regular Price \$2.25. Special Price \$1.75, postpaid.

A Genuine "Icy Hot" Lunch Kit

Special Price Complete \$3.00 Postpaid
This lunch kit is just the thing for school children, school teachers or the working man. It consists of a metal case, hand-somely enameled in black, with leather handle, nickel plated trimmings and is equipped with a genuine pint held in the upper compartment and the lunch in the lower. The lunch kit provides a clean, fresh and moist lunch. The "Icy Hot" bottle is guaranteed to keep drinks steaming hot for twenty-four hours or icy cold for three days. The bottle is so thoroughly protected that it is practically unbreakable and with ordinary care will last a life time. The inner glass filler of the bottle can be easily and quickly removed from the outer metal case for cleaning or to replace cheaply if accidentally broken. If you should break bottle we can supply extra pint size fillers for \$1.50 each, postpaid.

All Merchandise Insured

We insure every package of merchandise we send out; you need not worry about breakage.

Automatic Pencil Sharpener

Price \$1.40 Postpaid

One of these pencil sharpeners should be in every school room and we suggest that every school teacher have her pupils sell our seed collections in order to secure one. The seed collections sell very easily and you will be surprised how soon you can earn a premium. These pencil sharpeners are also mighty handy for the home and office also. They are well built, do perfect work, anyone can use them and they are guaranteed satisfactory.

Self Filler Fountain Pen

Price \$1.50 Postpaid

This is a genuine Gem, Press-a-Bar, Kant-Leak, Self-Filling Fountain Pen. It has a 14 kt. solid gold pen point with an iridium tip which assures even writing and makes the point wear longer. Each pen is equipped with a heavy steel fountain pen clip, which holds it securely in the pocket. Every pen is guaranteed by the manufacturer.

The "Ford" Phonograph

Price \$1.25 Postpaid

This phonograph makes very good music although it does not have a motor and has to be cranked to produce music. It will play any size record up to the 10 inch size. We made the "Ford" Phonograph because it is, and mostly of tin and you have to crank it, and it has a squeak to it sometimes, but it costs just the same and is worth all it costs anyway. Of course it can't be much at that price but it does make surprisingly good music and is lots of fun for the kids. Two "Little Wonder" records are sent with each machine.

Entertainment Books

Price 30c each Postpaid
These books are good today and will be twenty years from now. They are bound in Strathmore khaki colored paper covers. Printed on good paper in type which makes them easy to read. Take your pick.

Junior National League Ball

Price \$1.25 Postpaid
This ball was selected from the famous As-land line of athletic goods. The center is made of the best grade of horsehide is selected for the cover. The woolen yarn used is the best obtainable. The stitches are of strong linen thread. The entire ball is made exactly the same as the official league ball. Every ball is fully guaranteed and is packed in an individual sealed box.

Fielder's Glove

Price \$1.60 Postpaid
This glove is made of fine kid leather—leather patch, with red welted seams—improved pocket. Without question one of the best gloves for boys on the market today. Fully guaranteed.

A King 300-shot Air Rifle

Price \$2.00 Postpaid

A genuine King repeater. Every boy knows what it is. Shoots 500 times from one loading. Barrel and frame best grade polished nickel steel. Genuine walnut stock. Accurate and hard shooter. 31 inches long. Shoots regular air rifle BB shot. Packed in special box for safe mailing. BB shot can be purchased at any hardware store, or we will send a large-sized cartridge for 15c extra.

Premo Jr. Camera. Model B

Price \$1.75 Postpaid
It's a genuine Eastman and takes good pictures. We have calls for something like 2,500 of them each season so that is evidence enough that they are all we claim them to be. This camera takes pictures 2 1/4 x 3 1/4 inches in size. Uses Premo film packs which can be bought anywhere. Loads in the daylight, takes either snapshot or time exposures, easy to work and almost fool proof. Instruction book packed with every camera. You can buy film packs for this camera at any store where Eastman supplies are sold, or we can supply you with the film packs at 50c each, postpaid. Each pack contains films enough for 12 exposures.

Premo No. 2 Roll Film Camera

Price \$2.75 Postpaid

We have been asked by many of our customers to offer a roll film camera. Now here you are. Another model of the Eastman make and a dandy. Takes same size pictures as the Model B. (2 1/4 x 3 1/4 inches). This camera does excellent work and will please you in every respect. It uses Premo Roll Films No. 120, which you can buy at any store where camera supplies are sold. Can be loaded in the daylight and takes either snapshot or time exposures. Higher in price than a pack film camera but most people think it worth the difference.

No. 2 Folding Cartridge Premo

Camera

(Genuine Eastman)

This camera is light, convenient, and folds up so it requires very little space. It is the ideal camera for those vacation trips. It is covered with fine quality leatherette and will give excellent satisfaction. It is equipped with a single meniscus achromatic lens. It takes pictures 2 1/4 x 3 1/4. Uses roll films No. 120, which can be bought anywhere. We guarantee it to give satisfaction or your money will be cheerfully refunded. Price Postpaid \$9.20.

No. 2A Folding Cartridge Premo

Camera

(Genuine Eastman)

This camera is very similar to the No. 2 camera except that it is larger and takes pictures 2 1/2 x 4 1/4 inches in size. It uses No. 116 Roll Film. It is simple to operate and takes up very little space when folded up. It is equipped with a single meniscus achromatic lens. Guaranteed satisfactory. Easy to load and can be loaded without a dark room. Price Postpaid \$10.26

SOMETHING EXTRAORDINARY!

Special Shenandoah Phonograph Offer

Have you sort o' bad a hankerin' to own a phonograph? Most people have—but usually it is the price that keeps them from buying. Really, there's nothing else which can afford so much entertainment and amusement in the home. Quiet, dull evenings soon pass pleasantly if you play a few records. When a party of friends or neighbors come in you are always able to entertain them with a few selections. If you like to dance, your music is provided instantly and without expense for an orchestra. You can have grand opera, vaudeville, solos, quartettes, etc., by the greatest artists in the world, in your own home at any time and at a very small cost. Records are cheaper now.

We've been preaching *Shenandoah Phonographs* for a long time, and hundreds of our customers all over the country have bought. We want you to have one, too. If it's the high price—that won't need to worry you any longer, for we've an offer to make you that will take away your breath.

Send for our *Shenandoah Phonograph Catalog*, and ask us to tell you about the Special Phonograph Offer. Remember we guarantee every phonograph we sell.

Model X

Latest Books

We have just secured a stock of these books. I know you'll enjoy. Just take a look at the authors and you'll understand why they're worth while. Order any you like, but you will make no mistake if you take all of them.

The Diamond From the Sky. A romantic novel by Roy L. McCardell. Contains 440 pages. Printed on good quality paper and bound in cloth. Illustrated. Regular price, \$2.00. Our special price, \$1.00 postpaid.

Green Fancy. By Geo. Barr McCutcheon. author of "Graustark," "The Hollow of Her Hand," "The Prince of Graustark," etc. Contains 355 pages. Printed on good quality paper and bound in cloth. Regular price, \$2.00. Our special price, \$1.00 postpaid.

The Fall of a Nation. A sequel to "The Birth of a Nation," by Thomas Dixon. This book needs no introduction, it is nationally known and is the book the wonderful motion picture is representing. Contains 362 pages of wonderful story. Printed on extra good quality of paper. Bound in cloth. Illustrated. Regular price \$2.00. Our special price, \$1.00 postpaid.

"Gunner Depew". A story of a laughing, fighting American sailor boy—by himself. The most amazing story of the war. Gunner Depew tells an amazing story of what he did—what he saw, what he endured—in two years packed solid with fighting on land and sea. Contains 312 pages. Printed on good paper and bound in cloth. Illustrated. Regular price \$1.50. Our special price, 75c postpaid.

Now in Book Form—Set of Three for \$1.00

Do you enjoy a good, hearty laugh—Of course you do. Everyone does. You have often read the cartoons of Mutt and Jeff and Bringing Up Father as they appear in the daily newspapers. And, by the way, did it ever occur to you, that these cartoons were drawn by two of the highest paid artists in the world? Bud Fisher the originator of Mutt and Jeff, and George McManus, the originator of Bringing Up Father, both have made a great success of this work. We offer you two entirely different books of Bringing Up Father and one book of Mutt and Jeff, each book containing about 48 pages of laughs, the whole three will be sent for \$1.00.

Boys' and Girls' Copyrighted Books for the Younger Folks

Everybody knows Andy, Min, and Little Chester. Every member of your family will enjoy this wonderful, funny book. Be sure to include it in your order.

Henry Fied Seed Company, Shenandoah, Iowa

Garden Seeds on the Cafeteria Plan

Low Prices—Quick Service—Wait on Yourself

Did you ever eat at a Cafeteria? One of these places you know where you walk along the counter, pick out what you want to eat, pay the cashier, carry your stuff to a table, and eat and run.

It's a fine way to do. Saves money, time, work, and seems to make everybody happy. You get your money's worth, get just what you want, and don't take all day about it. I always did like it. I have a theory that the same thing can be worked out in seeds.

So I have made up a list of garden seeds on the other side of this sheet—standard stuff that is all good and that ought to all be in every garden. Everything is described but I have not bothered you with the names of the varieties. You have my word for it that they are all good, proven kinds, the bread and butter stuff.

My idea is to get right down to first principles. Put a low price on everything, handle it in the simplest possible manner, cut out all lost motion, and figure on a small profit but lots of sales.

Simply go through the list and mark what you want, putting down opposite each item the price it comes to, then tear out the list, put in a money order or check or stamps, and mail it to me.

We have these seeds all put up ready, in a special set of cases, and *every one of these orders will be filled the same day it lights*. That is, provided it comes in on this special order blank, paid in full, and with nothing else on the sheet with it. You can order all the other stuff you want, but put it on a separate order sheet.

Everything will be in regular big fat packets, our regular guarantee, fresh tested seed of good standard varieties. It will not be special small packets nor outlaw seed. Not on your life. It's the real stuff, the Henry Field kind.

We are trying to see if people will like this way of buying, and will appreciate low prices, quick service, and "help yourself."

Now it's up to you. If you like this way of buying seeds, all right. If not, all right. No harm done. I know the idea of this is right, and I know I am offering you a bargain. The rest is up to you.

Henry Field.

P. S. I want your seed order anyway, whether you order from this special list or from the regular list. The book is full of all kinds of good stuff and there is another order sheet further over. It will suit me if you send them both in, both full up. Whatever way you order I give you your money's worth and good service.

Purple Top Globe	7	15	40	1.00
Rutabaga. American Purple Top	7	15	40	1.00
Seven Top Turnip. For greens	5	10	30	.90
White Globe	5	10	30	.90

MUSHROOMS

Standard brick, 50c; 3 bricks, \$1.25, postpaid.

KOHL RABI

White Vienna ----- Per pkt., 10c; oz., 35c

Pure Seed Question

There is no bigger question before the farmers right now than that of pure seed. The country is rapidly getting filled up with bad weeds, and unless we can call a halt somewhere, it will soon be an impossibility to get really good seed. The trouble is, so many farmers will buy inferior grade of seed because of a little difference in the price. They think it is all about the same and one lot is higher because the holder wants more profit. Now, the fact is that the big profits are made on the low-grade seed. It is easier to take seed worth \$8.00 wholesale and retail it at \$12.00 than it is to take seed worth \$12.00 wholesale and retail it at \$15.00. Any dealer will tell you so, if you get him to admit the truth.

Now, here is what I am getting at. There is no sense in buying poor seed and no need of it. If you will spend \$1.00 on a small microscope, or a few cents on postage stamps getting samples and sending them to your state experiment station, you will learn a heap about pure seed. Don't buy any seed, even from a neighbor's farm, without strict examination. The bad weeds are getting to be everywhere and you are liable to get them where least expected.

The worst offenders are the dealers in small towns who handle grass seed as a side line. They know very little about it and care less, just so they can make a good profit on the seed. There are wholesale dealers who are looking for just this kind of customers, and they load them up with this devilish imported cull seed, and the merchant offers it to the farmers at a tempting price. The regular seedsmen, having a knowledge of the business, fine machinery for cleaning seed, and a reputation to maintain, are more likely to have pure seed. Now listen: Get a sample from each of your home dealers, and some from regular seedsmen. Send them all to your state experiment station, or get them under the glass yourselves, and then buy where you can get seed free from weeds. Buy only on a guarantee of purity. I will gladly furnish a sample of mine for this test.

You get more real seed to the dollar in the high grades, anyway, to say nothing of the freedom from weeds. The low grades are full of seed trash.

In one sample of clover seed lately that was being offered by an implement dealer in a small town at \$12 per bushel, I found two kinds of dodder, two of dock, three of thistle (including the dreaded Canada thistle), both kinds of buckhorn, and a lot of weed seed that I don't know, and I hope I never will know. As a rule, the implement dealers in the small towns are the worst offenders, as they are not posted on seed, but many seedsmen, who ought to know better, are sending out such stuff that ought to be made a permanent offense. I told one seedsman friend of mine

Wholesale Net Prices May 1, 1921

Good to May 15, 1921, (Subject to stock being unsold)

Address all orders to HENRY FIELD SEED CO., Shenandoah, Iowa

We Want Early Orders—So we have made these prices very low. We have the seed in the house, bought right and up to May 15, if it lasts that long, we will sell at these prices. When it is gone and we have to buy more at higher prices, you will have to pay more. Better buy now while the buying is good. Write for special quotations after May 15, or send order and I will fill at lowest price.

Time Limit. Note that these prices are good only till May 15, 1921, and if you do not buy in that time you should write for our new prices. We reserve the right to cancel these prices when stock on hand is sold.

These prices are f. o. b. Shenandoah, customer to pay the freight. If you want delivered prices we will make a special estimate for you on request.

No extra charge for sacks, except for wheat and rye. All other seeds sold "sacks weighed in." Remember this when comparing prices.

Prices are strictly net, spot cash; no discount. **Safe arrival guaranteed.** We guarantee that all seeds will reach you in good order.

Sold on approval. These seeds are priced and sold with the understanding that if not found strictly satisfactory they may be returned at our

expense and your money will be refunded. You can be the judge of quality.

Reference. First National Bank of Shenandoah, Iowa.

Free Samples. We will gladly send free samples of any kind of seed quoted here.

Subject to Sale. All prices are subject to stock being unsold on receipt of order.

Your Money's Worth or Your Money Back It is mutually agreed and understood that any seeds or other goods ordered of us may be returned at any time within ten days after receipt if not satisfactory and money paid for them will be refunded, but we do not, and cannot in any way, warrant the crop, as it is dependent on so many conditions beyond our control.

We Sell Inoculating Bacteria

We can furnish inoculating bacteria for any of the legumes, and carry it always on hand here in two leading brands, the Standard and the Nitragin. It is specially made up for each of the leading crops, such as Alfalfa, Sweet Clover, Alsike, Red Clover, Soy Beans, Garden and Navy Beans, Cow Peas, Garden Peas, etc. Specify what seed you want it for. 1 acre size plenty for 20 lbs. alfalfa, sweet clover, etc., or for 90 lbs. Beans and Peas. Full directions with each package.

Standard (bottles)	Nitragin (in cans)
Garden size	.45
1 acre size	.75
2 acre size	1.40
4 acre size	2.25
6 acre size	3.00
	10 acre size

(Add 5c per bottle or can for postage)

These are wholesale prices, good for amounts of 10 pounds of a kind, or over. Add 2c per pound for amounts of 5 to 10 pounds. Add 5c per pound for amounts below 5 pounds.

that he ought to get 60 days for selling such stuff. But he insisted that the farmers wanted something cheap and he had to give them what they wanted.

If that's the case, all right, but you'll have to go to him for it. I won't sell it. The seed I offer is subject to inspection and test. If it doesn't look good when you get it, ship it back at my expense and you can have your money

back. This applies to all kinds of seeds. I have mentioned clover as the most important.

Seed on Approval

All our seeds are shipped subject to your own test and approval, or test by any State Experiment Station and if not found first class it may be returned to us and the money will be refunded. We do not guarantee the crop, we can't do that, but we allow you to

be absolutely your own judge as to the purity and quality of the seed.

Amt. Seed per Acre

Clover and Timothy	15 to 20 lb
Alsike and Timothy	15 to 20 lb
